

## First Strong 891

Chapter 891 - Say goodbye to leave

The decision of Shen Lang is of course difficult for them to understand.

After all, it's hard for everyone to come to this world after a lifetime of death. The cultivation environment here, as well as the various resources, are far from being exhausted.

“Lang brother, in fact, you really don't need to care about them. No one dares to go to the door to do things. If you come to the door, it will not cause any trouble to Qiu Lin Jianzong. Instead, everyone can get a good workout.”

Gao Hanqiu felt that Shen Lang was afraid of being tired of Qiu Lin Jianzong and was busy persuading him.

“Yeah, Shen Shibo, this is also a good opportunity for us to be up and down.” Mo Feiliu also busy persuaded him to avoid appearing unwelcome.

Shen Lang smiled and said: “In fact, I still have to go back after all. This is just an opportunity.”

Looking at the cold autumn, he was a bit embarrassed: “Small high you used to be familiar with me, even if it is separated by hundreds of years, you should feel that I have changed. Because the current body, the present life, is the end of the future. Even if I have memories of past lives, they will affect each other.”

Gao Hanqiu nodded silently. He discovered this, but he didn't feel strange. After all, he himself changed.

“For example, I have parents in this world. I am here. It is already a huge adventure. Of course, I will not tell them. If it disappears for no reason, for them, it will be huge. The blow and the pain.”

Hearing the words of Shen Lang, he felt the same sorrow and bite his lips.

She also has family members, as well as Master and the same door.

At her age, of course, it can't be seen, unless there is no way at all, otherwise it can't be easily put down.

"So, for me, I knew from the beginning that it was just an adventure. I must still go back. I am very pleased to see Xiaogao again."

Shen Lang said that it is not a guest, this is a true past friend. After all, Xu Haoyue's relationship with him was far away, and his feelings were different.

"This also proves that as long as we persist in cultivation, as long as there is a fate, even if it is separated by another hundred years, there will still be a day to meet again."

When I heard this, Gao Hanqiu sighed slightly: "I understand, I know what you mean. In the future, you may still come here again. We still have a chance to see you again."

"Yes!" Shen Lang nodded. "Small Xu will stay, you have nothing to worry about going back anyway."

Xu Haoyue is a little bit tangled, and of course he is willing.

After all, this is his long-cherished wish and persistence, which is the only goal of achieving his goal.

However, this is what Shen Lang took with him to help him find the taller brother. Now Shen Lang wants to go back, but he stays with him but it seems that he is not loyal.

"I am still a little concerned... Xiaohe has been with me for a long time."

"A head of a mysterious tiger, can you compare with Xiao Gao?" Shen Lang laughed.

Xu Haoyue nodded silently, whether it was a pet or a partner, the beast was a beast after all, and the feelings could not be compared with others.

“So...” He was also polite, and directly infused with the power of the spirit into the mind of Shen Lang.

Suddenly, Shen Lang’s brain has a memory, all of which are memories of the dead forest, the place where Xu Yuyue walked, the environment of life, and the various black and white of the black tiger.

“Afterwards, please ask the gods to have time to help me to visit Xiaohei.”

In order to avoid other people’s doubts, let him call “Mr.”, now I see the cold autumn here, and Shen Lang also directly said to the ruin, and there is no other person, he still used the previous habit The title.

“Good.” Shen Lang nodded and promised him.

Compared to the sinister danger of the mainland of this island, it is much easier and easier to travel to the dead forest. It is indeed possible to visit.

Moreover, Xu Yuyue directly infused this memory into Shen Lang. In fact, it is equivalent to giving the family on his side to Shen Lang. It is also a huge gift.

Shen Lang looked at the Count of Dracula and the canoe.

The canoe immediately said: “I will go back with you.”

Count Dracula hesitated: “If I don’t mind, I want to stay, and I don’t have any concerns when I go back.”

This time he went to the Hellless Expedition, and because there was no pursuit, he wanted to see if he could go to a higher world.

Gao Hanqiu laughed: “Of course, welcome to stay, we will not mind.”

Count Dracula is also a super strong, and he will not be tired if he stays. He can take care of himself. Even if he is not in Qiulin, he can live alone.

“In this case, I will not persuade. I am waiting for the wave brother to meet again, maybe one day I will go back and see!”

Shen Lang nodded and smiled: “I definitely have a chance. Xiao Gao, you are already old, but you must take care of your body, don’t be old!”

Although this is a joke, it is also embarrassing to say it. After all, the age of Gao Hanqiu and Xu Haoyue is already very big!

Even if their realm is very high, they are very strong, but at the limit of Shouyuan, they may end up at any time.

“Do not worry! I can live another five hundred years!” Gao Hanqiu also laughed and praised a seaport.

It’s not easy for Mo Fei to be a hundred or two years old. Now, seeing Master and friends, and being so eloquent, is also greatly encouraged. Maybe he can live for hundreds of years.

They are not ordinary people. Since they have decided, they will not repeatedly persuade to retain them. Then Gao Hanqiu let Mo Feiliu prepare a big gift and bring it back to Shen Lang.

Originally, he was going to send Shen Lang to the crack in space with Xu Haoyue, but Shen Lang resigned. Now other major sects are doing things. The comprehensions in the field will certainly come to the master of the summoning division. Qiulin Jianzong also needs them to sit down.

He and the canoe are lightly loaded, and leaving will not attract much attention.

Even so Gao Hanqiu personally sent them out of the Datang City area, so as not to be stared.

After that, it was the deep waves and the canoe. Follow the previous route and rush to the side of Yuxianmen.

There are two routes to go back. One is that Yuxianmen sent people back to the chaotic space and went directly back to the Pacific Ocean without a return to the sea.

The other one is along the way.

Xu Haoyue also gave the memory of the door of the space he and Count Dracula entered, but after entering the chaotic space, they may not be able to return along the way.

The first one is best to help Yuxianmen, they have their way. But the question is, did the real self-cultivators such as Qiao Yuxian really return to the earth safely?

Can't be sure!

Therefore, Shen Lang decided to follow the path. Although it was dangerous for others, it was slightly deviated a little, and eventually it deviated from a world, but Shen Lang was still sure.

Chapter 892 - Chaotic retreat

The grasp of Shen Lang comes from the track of the record of the holy armor!

The holy armor is the black technology product of the river city, not to mention that in the chaotic world, there is no network support on the earth, and there is no detailed map. But the recorded trajectory does not require map support, but a trace map.

When I first came, it was in the direction measured by the Xiangyang real person, and all the way to the crack in this space, compared to this simple and extensive guidance, the holy armor does not know how many times accurate.

For safety reasons, the two did not play in the mountains, but also avoided some auras and mountains, and avoided the city with crowds. The whole time was much faster than when they went.

When I went to Yuxianmen, I didn't go back, but I went straight and went back to the waterfall.

On the mainland of the island, there is no network like the holy armor, but the route that comes, Shen Lang also locates the trajectory, and combines the memory and map of Jingrufeng, as well as the map that Tangcheng saw, and made as much detail as possible.

There are maps and reference objects. Even though the territory of this world is extremely vast and sparsely populated, there are still many references, which are much easier to distinguish than in chaotic space.

Back again, Shen Lang and the canoe are still commemorating the real people of Fuyang. After all, it was safe to rely on the guidance of others.

However, the trip was in a hurry, and later it caused trouble, and there was no more time to inquire about the predecessors. The style of the celestial patriarch is not so easy to find.

However, as long as they go back and prove that there is no problem, they will have a chance to come back later. For Fuyang, when he comes to this step, he is already a wish.

“Go!”

The two took a deep breath and bid farewell to this aura-rich world.

When they both came together, they all had an upgrade. The space in which the waterfall was interrupted was not cracked. The impact was nothing to them.

Once again, I went back to the chaotic space that seemed to be filled with fog. Both people were a little bit embarrassed.

“We will not go first, retreat here for a while!” Shen Lang suddenly made a suggestion.

“Ah? Here?”

The boat was a little surprised and couldn't help but ask: “Why are we not... just there, the waterfall?”

She is smart and snowy, and the girl's delicateness can also allow her to capture something. Gao Hanqiu and Xu Yuyue are the younger brothers of Shen Lang before, but now they are far better than his strength. Even if people still maintain the same respect, they will still feel unnatural.

Therefore, in the autumn forest Jianzong did not stay for a few days, Shen Lang went back to borrow, she is very understanding.

But just now, there is a waterfall in Tangcheng. I don't know hundreds of thousands of miles away from Tangcheng. I don't know what to do in the cold autumn. There will be no good things, but the environment is much better than here.

Shen Lang smiled and said: "You forgot when I broke through Yuxianmen? It was the aura that sucked them around! It was a bit exaggerated, but it was basically a visible change, they could all find out."

"So..." The canoe immediately reacted: "If we retreat under the waterfall, once we break through, absorb too much aura. If it is discovered, it may come over and see."

"Yes! Although Yuxianmen is far away from here, who knows if anyone has taken medicine or experienced anything in the outside world? It is not a problem for people to come close, and it may not harm us. But the problem is... The door to this space let them discover it! From the current situation, Yuxianmen has another one, but I don't know it."

The canoe nodded and my heart was a little excited.

If it is true, then the door to this space, for the time being only the secrets of the two of them!

Although the Canoe has just broken through to the early days of the transformation of the gods, but she also understands that the environment here is far better than the Earth, the same time, but also do not know how many times the harvest.

The aura of chaotic space is also very rich, and it is very unusual to flood into the Pacific Ocean, not to mention here.

But for Shen Lang, this is still not enough!

Still not fast enough!

“I gave you the medicinal herbs before, don’t save it, just use it yourself!”

After the ark was heard, he agreed with a slight hesitation.

Since this road, Shen Lang has given her a lot of benefits. The medicinal material that I am talking about now is the one that I bought at Yipinge. It is similar to Xuelingguo. It is very suitable for the practice of their ice palace. Known as the Wannian elixir.

Originally she also thought about bringing this back to the division. But think again, after going back, Master will still be eccentric to the sister!

If it was before, the younger sister of the teacher, she really can not match, can only focus on the overall situation. Master is able to revitalize the Ice Palace by cultivating a strong person who is a god.

But now it is different. With the help of Shen Lang all the way, she is already a strong person in the realm of the gods. She has already completed Master’s long-cherished wish and can also guard the teacher’s door.

Shen Lang took out a lotus flower at this time, nine times Zijinlian!

I bought two nine-time purple brocades together last time, but because of the constant things, I haven’t had time to dig up the lotus seeds.

Originally, according to his thoughts, Xu Haoyue gave him one, and he wanted to give back to one.

But after having the news of the cold autumn, I forgot about it. But now you don’t have to worry about it. If you stay in Qiulin, you should have a lot of cherished herbs for him.

Instead, returning to the earth, this is a rare treasure that can be met, and he must cherish it.

After digging and digging the lotus, I got 18 lotus seeds!

Shen Lang directly handed a canoe to the boat: "Let's work together to see how much you can cultivate."

If she still has the truth, just one is enough, but now it has become a god, want to improve, need more energy. I was afraid that her one was not enough, so she was given again.

The Canoe has already received a great gift from him, and he has not received any politeness. He has directly received it.

Shen Lang himself prepared the other lotus seeds, first took three in one breath, then ate the lotus, and the others were still prepared.

In this chaotic space, they don't have to worry about someone coming close, and they don't need to guard the law. The two people began to practice retreat at the same time.

When I wanted to take a nine-time purple lotus flower, Shen Lang had not yet reached the level of the gods. Now it is the level of the late stage of the gods, and his body does not know how many times it is powerful.

So this time, even three lotus seeds, plus a lotus can be worn together, still can still live.

The same side of the canoe is the same, a bite of the teeth, the medicinal herbs and nine times of purple lotus, together to go down, directly into the middle of the real sprint!

Chapter 893 - Double upgrade

The last time Shen Lang was in the late stage of imperialism in Yuxianmen, it was already far from the difference. In the end, it was the service of "Human Dan", which was not only pushed to the late stage of the gods, but also to the peak of the gods. A solid foundation.

Now this time, he has three nine-timed purple lotus, plus a lotus, although it is fierce enough, but still able to withstand it.

"Yin and Yang Bozhenzhenzhen" is displayed, and it is also crazy to absorb the surrounding aura.

There is no need to worry about the fact that others, the aura is also substantial, it is simply rushing into his body.

After refining nine times of Zijinlian, Shen Lang continued to take three! Four! Five!

After the last five servings, he has already served 15 nine-time purple lotus, plus a lotus!

All of this refining and absorbing, coupled with the rush of massive aura support, directly pushed him to a whole new level.

This time is a double breakthrough!

On the one hand, his strength has reached the peak of the peak of the gods, and on the other hand, it is the “Yin and Yang Bozhengzheng”, but also broke through to the seventh!

The former is a direct increase in strength, while the latter is to let his practice reach a new realm, at any time, the aura of the heavens and the stars, is also the automatic absorption of crazy capture!

The most direct manifestation of this chaotic space is the speed of absorbing aura, which is many times faster than just not knowing it!

Fortunately, there are no other people here, and the energy is endless. If you switch to a martial art on earth, it will directly make people feel fear!

This also makes Shen Lang decide. After returning to Earth, it must be properly adjusted to automatically absorb the power of the stars. Do not plunder the surrounding aura, or else it will cause others to be jealous of him and become a public enemy.

It's not a long time to go to Shutai's Shenlang. It doesn't make sense to calculate the time here.

When he noticed the surroundings, he found an unexpected situation – the canoe was gone!

This surprised Shen Lang. In this chaotic space, whether it is the gods or the five senses, the scope of exploration is very limited. If she really goes there, it is very likely to get lost, and once she gets lost, It is hard to find it again!

When they first came, because he caught her and Fuyang real people, or else they separated into different places like other people.

“Falling the boat!”

Shen Lang shouted, although there is still no way to absorb the sound in the sky, but it can't be spread too far.

He frowned, and quickly moved forward and backward in different directions.

With the positioning of the sacred armor, he is not afraid to return. Just don't know how far the canoe has left!

After searching for no effect, Shen Lang felt the space fluctuation and quickly returned to the original point.

In the section of the waterfall that you can see, a person came over and it was a canoe!

“Where did you go? Are you going back there? I thought you were lost!”

Shen Lang quickly reached her casual, clutching her arm and screaming.

Lost in this chaotic space, there is really no way to get it back! Even he just rushed out of cold sweat.

“I... I have succeeded in progress, and I have some impurity stains. If you haven't finished it so quickly, go back to the waterfall and rinse it out.”

The explanation for the weakness of the canoe was explained.

When she heard her, Shen Lang saw it clearly. She just covered her body with clothes and did not wear clothes.

“Are you a neuropathy or a princess? I love what is clean at this time? Are you in the past, just like Xiangyang?” Shen Lang couldn’t help but get angry.

In any place, after the upgrade is successful, it is normal to clean the body, but it is not allowed in this place.

Cross the space and run to another world, just to take a shower!

This is also a reason to be stunned.

“I’m sorry.” From the reaction of Shen Lang, the canoe can feel his nervousness and worry, and quickly apologize. “Can I wear my clothes first?”

Shen Lang silently glanced at her and turned away.

“You must have succeeded in breaking through. Congratulations! We have to go very far back. Would you like to take a shower too?”

Shen Langbaiyan, then no pneumatic: “I am going to wash my brain! I am blown up by you!”

Going back this trip, I won’t see any water source until I come out to the Pacific Ocean. Since she can take a shower in the past, Shen Lang is ready to go.

“Stay here, don’t go away!”

After smashing, Shen Lang then penetrated into the crack in the space.

He didn't know how long it took to take a bath in the canoe. Anyway, he quickly got it, and he quickly went back after changing clothes. After all, let her be alone in another world, still not at ease.

But when Shen Lang just came back, he was shocked again!

This time the Canoe was not left to disappear, but was facing the place where he appeared, standing in front of him.

Only before he went to take a bath, she said that she would wear clothes. Now she came back from the shower. Instead of wearing her clothes, she took the covered clothes and took a faceless face at the moment!

“what are you doing?”

When Shen Lang just asked for the exit, the canoe had already stepped forward and hugged him directly.

I have to say that at the speed of Shen Lang, if you want to dodge, even if you use the fastest speed and close distance, you can't hold him.

Still he hesitated for a moment!

“What are you doing? You... is it cold?”

What is the meaning of nonsense in the mouth, what is the meaning of the boat, actually understand that she is not the first time to express her position. At the time of Yuxianmen, she thought that the next day would be killed by Weiqingcheng and Huoshan She asked if she would “eat the young grass” and sleep him.

At that time, it was considered to be monitored, and it would be watched live, so it was not made.

Now the raft will be so bold, it should be taken into account that everyone has completed the retreat, and then go back to the earth. Once you go back, there is no chance, and the mentality is completely different.

So I just didn't wear clothes after showering, and I was seen by Shen Lang, which made her take the courage to take the initiative.

"Is it not cold?" I asked this question, it was a bit funny, so I couldn't help but smile when I was very nervous and stunned. Then I boldly looked up and kissed me directly.

All this is the case. If Shen Lang resigns, it will be a bit humiliating to others, which makes people sad and sad.

Think again, whether he is with Zheng Yumeng, or the wind is no Ji, it is the initiative of others, and now it is also the initiative of falling into a canoe. As a man, you should take the initiative.

"Wait!"

"What are you waiting for?" The canoe was slightly petite.

Chapter 894 - 1 lift 2

"You don't think I am a stranger hundreds of years ago?" Shen Lang sighed. "You already know my identity. Why do I always refuse to be passive? It is not because of hypocrisy, it is because of this identity relationship. It is like a harm to your young people!"

"I do not care!"

The canoe directly kissed him.

Since it is clear that this is the case, she still does not care, the meat that is delivered to her mouth, there is no reason not to eat it.

As he just said, when they took the initiative, he would be tempted, there is such a factor.

But he will not mind too much, as long as the other party does not mind, he also has feelings, of course, will not refuse.

In this chaotic space, there are only two of them in the whole world, and they can be casually released. The existence of these fogs also plays a role in silence. Even if they shout loudly, they don't have to worry about spreading them out.

After the war stopped, Shen Lang checked the body of a falling canoe and confirmed that she had really broken through the middle of the realm!

Even if there is a boastful exaggeration, the year-old elixir has a long history, high efficacy, and is very good for her exercises and body. Plus a nine-time purple lotus seed, it has such an effect.

"Thank you, if it wasn't for you..." Thank you for your heartfelt thanks.

Shen Lang looked at her. "So, are you doing this now?"

The sleek and charming white gave him a look: "That is two different things. Of course, the two things are also combined, there are elements of retribution. But if ... if Liu Yichang's predecessor or Xu Haoyue's predecessor, also take care of me, of course, will not repay this way. It is."

Having said that, she is also serious.

"You know... or we all know that no matter what you and Yu Yu have confirmed, it is always she knows you first, and everyone else can say that if I have a foot, I am sorry for her."

"So...and only here, I can put everything down temporarily. I won't ask for anything. After I go back, I hope we... just disconnect."

When I said this, the heart of the boat was a pain that was tied up.

As she said, "returning grace" is also a reason for her to convince herself, but it is really a step. It is really not as easy to put it down after the two people have combined.

"Don't think so much."

Shen Lang held her, in order to avoid her continued sadness, transfer the topic: “Let’s come again!”

“...”

The canoe couldn’t help but glance at him. The man really thought about the lower body.

However, she is also willing, because to keep the distance after making up his mind, every minute and every second in this chaotic space needs to be cherished.

Even if you keep the distance after going back, there is no problem in meeting, chatting, eating, etc. But it is impossible to have such close contact.

So this is especially worth cherishing!

When the two people were together again, the words of the waves were heard in the mind of the canoe, allowing her to focus on sensing.

The canoe was a little surprised because their lips were combined, which was not heard.

Then she immediately felt that with the connection of the upper and lower, the two people seemed to merge into one, and the surging aura came in from the side of Shenlang!

This makes her a bit speechless. When are these times, as for the practice of doing so against time?

However, she is so intimate with Shen Lang, she is also satisfied, although she can not concentrate on that matter, it can be considered as one thing!

But soon she discovered the singularity, the influx of aura around, like every breath of the swell, let them absorb the countless energy in the pores, because of the relationship between China Unicom, she also enjoyed the same treatment.

Shen Lang did not stop to practice, and generally maintained the action. As a result, she did not share her feelings with one heart and two minds. Instead, she realized that she had a higher level of pleasure than the first time!

Double repair!

In this way, Shen Lang helped the rafting practice while doing the same thing.

Because the gap between the two is very large, he is the main one, not only let the canoe absorb as much aura as him, but also by his driving, every week, every week, she is greatly benefited. .

It's like a high level with a low level of leveling. However, Shen Lang himself is not a pure contribution. In addition to the joy of harvesting, he also gets a part of the bonus, but the harvest is not overwhelming.

The two men were so "cultivated" there for a few days before they returned.

Through the trajectory recorded by the holy armor, the zoom is accurate to every detail, and there is no detour, no mistakes, and lost.

When passing through the minefield, Shen Lang came again with a big quenching!

When compared, he upgraded two big realms, and this time he was tempered by millions of lightning, but it was not easier!

Because it is like a smart attack, the intensity of these lightnings is also intelligent, presented in an optimal solution that can defeat the target.

For example, the target's realm is ten, and the attack strength is ten, not directly twenty.

Assume that the last realm of Shen Lang was ten, and the lightning bombardment was also ten. Now he has risen to twenty, and the lightning has become twenty.

These lightning smart savings save the strength of the target. However, Shen Lang is different from ordinary people. When he is in the realm of ten, his physical strength may be twelve or fifteen.

After the analysis and diversion of the holy armor, the thunder of the lethal power, the real effect on Shen Lang's body, may be seven or eight.

So he can not die under the bombardment of millions of lightning, but also trained a new skill.

Now this time, the target detected by the minefield is twenty or thirty, and the attack plan is correspondingly improved. But in the same way, Shen Lang's ability to withstand is stronger than the same level, and the Holy Glance will reduce the attack diversion.

Therefore, even if the correspondingly more powerful lightning is raised, it still does not kill the sinking waves, but instead allows him to harvest more tempering.

I have thought about whether or not to learn it once.

But Shen Lang seriously vetoed because she is the average person!

If she is ten in the realm, her endurance is ten, and there is no help from the Holy Grail. The innumerable attack power is ten lightning bombardment, only Lei Jiao!

Shen Yao's qi is the body of the excellent genetic enhancement of the iron beetle, the giant rhinoceros beast, the swallowing scorpion and other beasts.

There is no such layer in the canoe. Even if the sacred armor is loaned to her, it will not be able to achieve the same effect.

Finally, in the opposite direction, I returned to the place where I landed, and then the two men joined hands and were lifted up by Shen Lang with a canoe. The fog is getting thicker and thicker, and eventually you can't completely see anything around you, and you can't hear any words...

Like the route trajectory, the height is also recorded by the data recorded when the holy armor landed. It has been raised to the height of entry, and then continues upwards, eventually breaking through the large space crack and appearing in the Pacific “no return to hell” area!

Chapter 895 - Disappeared

Going back to Earth, the feeling of the body is bad.

Whether it is air quality or aura, it is far from good.

However, the psychological feeling is still very good, there is a feeling of going home.

When you think about it, there is really a feeling of returning from a big city to a remote home.

They have left since the last time, and now they are back, the time is about three months. But I have experienced two other completely different worlds, especially the friends who have seen them hundreds of years ago, so that Shen Lang feels like a world.

For the canoe, the feeling is even bigger.

Going to the sea of innocence is both an opportunity and a taste of giving up. It is because there is no teacher and sister, it will replace Master. Among the monks who went to the place, she was basically the weakest one.

For this trip, she has no confidence and confidence in Shen Lang. Don't say it, you need to pray if you can live.

This time, following the whole process, Shen Bo, without any help, got his great gift. From the top of the passenger ship, she expanded her horizons and saw the high gods in the mainland. Cold autumn.

This time, both the vision and the actual gains are huge, she never dared to imagine. It can even be said that she has reached the strongest level in the history of the Tianshan Ice Palace!

Three months, from the late stage of the existence of the realm, to the middle of the stable period of the realm of the gods, it has simply surpassed the miracle of her lifelong cultivation.

She is truly like a world, like a dream.

When they came, it was sent by the passenger ship, but now it is only the Pacific Ocean.

But for their realm now, it is not too difficult to fly to the Pacific Ocean.

It's just that the Pacific Ocean is so vast that it takes a lot of time to fly back to the coastline. If you keep flying, whether you use magic weapons or your own sword, it is also a waste of energy.

Fortunately, they have no important things, they are playing back all the way. When you have an island, stay and have a rest. In the place where there is a route, there is also a straight into the sky, and it falls on the plane and "hangs" to take a wind turbine. When you encounter an ocean freighter, you can go straight to rest.

In fact, both of them know that such a toss, how much is a little excuses to delay the time!

Although I have returned to Earth now, everything has become familiar. But as long as we have not yet set foot on the coastline, we have not returned to the continent of this life, which means that we have not returned yet, and we can still be in the world of both of them.

When I came back, I was still in Haishan City. When I left, the entire Chinese comprehension was gathered here, and now they are back and they are both awkward.

"Let's find a hotel to rest for a night. It's better to live in the past."

"Good." For the proposal of Shen Lang, the canoe whispered softly.

She is not cherishing the problem now, but she is very nervous. She can get along with me for a while and can alleviate it.

Staying at the hotel where they lived before, just open a room now.

I have been used to it in the mainland of Nakajima. I have returned to modern society. Although there is no convenience there, there are some memories.

However, the rhythm of living habits was quickly transferred back, and the bath in the hotel bathroom was good, and the phone was charged.

But the two people have no tacit understanding to open the mobile phone. Just like the delay of the return, if the mobile phone is not open, there is no need to contact other people, so there is no need to receive all kinds of information, so that they can psychologically pretend to be “on the road.”

Naturally, two people are also crazy “cultivations”, but this time it is to put “cultivation” aside, more purely enjoy the process, try to give the other side a deeper and better memories.

However, no matter how procrastinating, since it is back, it still has to face reality.

After waiting for the next day to wake up and fight again, both of them opened their mobile phones.

If you know where they are going, they will not send a message, but there are also many unclear, such as Shenlang’s parents.

Since a phone call has not been played once in a few months, although Zheng Yumeng is there, as a parent, he is still worried about Shen Lang. If the phone does not work, he will send a message.

As soon as I started up, I saw my parents’ short message messages. Shen Lang also sighed.

It is precisely because this family’s family can’t give up, so he can’t stay in the mainland of China.

There should be a similar situation in the canoe.

When Shen Lang sorted out the wording, he made a phone call back and reported a peace. Then log in to WeChat and prepare to send a message to everyone.

WeChat has just begun to be a “small and beautiful” route. With a simple, exhausted style, it has grabbed a large number of users from QQ. But after the development, I went on the bloated road of QQ.

QQ group, you can also set a complete mask, you can also set whether to add groups. WeChat, regardless of whether you disagree, can pull you directly, and the information can only be set to “no reminder”, the login will still give you all the information, or will continue to jump to the forefront.

I don't know Zhang Xiaolong, who claims to have a sentimental principle. Why do you insist on brain damage? (as of the current Tucao)

Shen Lang did not log in for three months. Not only did he have a large amount of information in the past, but many people also brought some inexplicable groups. Some of the people he had added before were not completely cleaned up.

In this way, just for three months of group information, it took a few minutes to get his mobile phone.

These accumulated a lot of chat information, there are many reminded that he has been @, do not know how long ago, he directly ignored, and then a little obsessive-compulsive disorder to delete and retreat.

In addition to the group information, there is also a separate message to him, and many have no value, directly ignore it.

After sending a few messages to the copy group, Shen Lang began to focus on the message of Feng Wuji.

Feng Wuji fulfilled her duties. After a while, she collected the information she collected and selected to him Let him not miss the big things in the realm of comprehension .

Now three months apart, of course there are many big things happening. However, with the current realm of Shen Lang, many of the things that have been considered big events are already insignificant and can be ignored.

What makes him care is of course the biggest thing, that is, the “no return to Haihun development plan”.

The matter of three months ago was still spread, and the realm of comprehension knew it. And after the rumors followed, there were some small gangs who followed them, and the result was as in history, there was no return!

Until recently, there was no information on the return of those strong groups of the Earth.

This is a problem. According to the time, Yuxianmen sent Qiao Yuxian and others back. It was about a month later. Normally, they should have returned two months ago.

There are so many super-powerful people in history who have gone back. This time everyone has come back. It is said that there should be a big upsurge in the realm of comprehension. Everyone will want to know where it is, and even more people will take risks.

They just disappeared?

Chapter 896 - High-profile return

So many people come back, it will be a big event, and so many people disappear, it is a big event!

Among these people, Qiao Yuxian and Nanliuchuan can be regarded as friends. When Shen Lang was fighting for a person to stay and send them all back, they risked their lives and paid a price.

If Yuxianmen did not send them back, on the road or other ways to kill them, then Wei Qingcheng Huoshan, they can be a solution to the explosion of the body.

But now it is not certain, because Yuxianmen does not know how to send it back to the earth, but can only send them back to the chaotic space of “fishing”.

That place, according to the estimation of Shen Lang, should be the other end of the crack in the space of no return to Hell, it should be in the dense foggy air that cannot be seen.

Will it be that they are lost again and not returning?

This possibility is there, but they escaped once in the dead, and they have experienced the coma. It is awake to send it back. It should be thought that they should return with each other.

“Shen Lang... You found no... they... didn’t seem to be back?”

The raft was watching him in amazement, she just discovered this.

Shen Lang nodded: “If they came back, it should be the news of the real world, but it is silent, I don’t know which one is out of order.”

At this time, both of their phones rang.

They were the video calls that were sent by Rain and Zheng Yumeng. They were all dialed when they just received the information they came back.

Undoubtedly, whether it is to fight the falling boat, or to receive Zheng Yumeng, I doubt whether it is a fake, because it is too sudden.

When you hear the sound and see their real people, you can be sure that they are really coming back. Both of them are very excited.

It’s not a strange thing to know that they are together when they are covered by the rain and the waves. After all, I also asked for the care of Shen Lang. Liu Yuchang was only introduced to the boat.

From the mouths of the two of them, Shen Lang and the canoe were also verified. The two of them were the only ones who came back. No one else came back two months ago.

After the end of the call, the two people looked at each other and became more heavy.

Liu Yuchang is also very caring for the canoe because of the relationship between the rivers. Qiao Yuxian and Nanliuchuan, etc., because of the relationship between Shen Lang, she is also very enthusiastic about her on the passenger liner.

Now these people are gone!

If you come out with them in tandem, then go back now and still have a chance to find or save. It has been two months since it was gone, whether it was by Yuxianmen pit, or it has been mistaken into the cracks of other worlds, or it is still floating in the chaotic space, it can no longer be found.

Since this is already the case, Shen Lang will not do anything useless. If he is to save them, he has tried his best to save it. It is death and life, and they are their own destiny.

However, in this way, the only person who came back from a life without a return to Hell became two of them.

This is an honor to create history and miracles for hundreds of years. Do you want to be public?

As for Shen Lang personally, this fame and fortune is still bearish, but he must consider the Tianshan Jianzong, including Yue Zhennan. Those who have a deep relationship with him must also be remembered. Once he is sure that he can't come back, who knows if he will retaliate again?

For example, Yuezhen South's strength is relatively low, and the aura comes from the care of Shenlang. If the Shenlang is not there, even if the local family of Pingxi can't make him, and then attach a real place, you can crush the Yue family.

The Tianshan Jianzong is also the same. Before the restoration of the Gaoyao and the Shusheng, there is no need to turn the gods into a realm. If you live in the real world, you can find the Tianshan Jianzong trouble.

The Master League was beaten at the beginning, but people didn't kill all of them, and they also had their own teachers. Can Xia Yuntian be able to live, or after confirming that

Shen Lang is not coming back, will Xia Yuntian assemble the old department? Master League revenge?

This is a responsibility of Shen Lang!

Of course, he can also let go, but since he is back, he will take it.

In fact, he does not need much power and time. He only needs to brush a sense of presence and exposure. His aura can continue to cover the previously protected people.

This is the same intention as the high-profile return of the previous cold autumn. When Gao Hanqiu showed his strength, no matter whether others knew his true identity, he would be awesome in Qiu Lin Jianzong.

Shen Lang now also needs such a high-profile appearance.

After considering it clearly, he recorded a small video and said to the camera, "I am a swell, I have never returned from the sea," and then sent it to the wind, let her spread and spread.

At this moment, Feng Jiji also replied. She was very excited to learn that Shen Lang was safe, but even if she saw the video, she was still not sure, and she dialed a video call to verify.

More people in the Tianshan Ice Palace and Tianshan Jianzong have no signal in the snowy area, and they cannot know the information of Shenlang in the first place.

However, when talking to the family in the boat, the other two people called Shen Lang.

One is Joe Shuyu and the other is Nanyiye.

In addition to confirming whether Shen Lang really came back, they also wanted to inquire about their grandfather's information.

Shen Lang did not conceal, bluntly and scattered, they justified that they should come back first.

The two of them were further confirmed, and Qiao Yuxian and Nanliuchuan did not return.

This answer made them very worried and nervous. They also knew that the matter was not clear in the phone. They asked him where he would go. He went back to Tianshan Jianzong and they immediately came to the interview.

According to the process of Shen Lang, after he came back, he had to go back to Pingxi to visit his parents, and then go back to the Tianshan Jianzong, and the canoe was returned to the home or the ice palace, she decided. Everyone will be separated here.

But now, Qiao Shuyu and Nanyiye are coming over to find him to talk to let Shenlang quickly analyze it.

Now that you have decided to make a high-profile appearance, and others have not returned, it is inevitable that other sects will come to inquire about the information of their elders.

Moreover, as a result of exploring the first return of the non-returned Hell for hundreds of years, it will inevitably lead to the attention of the entire comprehension community. At this moment, it is not appropriate to return to Pingxi. Even if you return to Jianzong, you may bring back some unnecessary troubles.

After weighing, he decided to see them in Haishan.

Haishan was the place where the exchange meeting last year. It was also here when it was going out to sea. It is more suitable for “returning”, and it is more convenient to distribute it. It is more convenient to find him.

After telling the two of them separately, Shen Lang also told the wind that there was no escape and let her spread out. He said that he would stop at Haishan for a few days.

“I also stayed.” The canoe immediately told Shen Lang her decision.

Just one can get along for a few more days.

#### Chapter 897 - Rich gift package

Since it is inconvenient to go home for the time being, it is not meaningful to stay here for the practice of quenching the second. When Shen Lang thinks of leaving, Gao Hanqiu let Mo Fei send a gift.

Mo Feiliu directly gave a storage bag, and has not seen it since.

With the home of Qiu Lin Jianzong, this is still a cold autumn speech, and it is not bad to think of things.

At this moment, Shen Lang opened the view and couldn't help but breathe a sigh of relief.

Even with psychological preparation, I was amazed by the gift in this storage space.

I don't know if it is cold or cold, or if it is prepared by Mo Feiliu, it is very practical for Shen Lang.

There are more than two hundred in the best stone!

Then five nine purple gold lotuses!

There was also the last time I bought the medicine for the canoe, and I also prepared five plants!

Obviously, it was not easy to investigate the Shenlang before, of course, they also investigated the list purchased in the product, which is several times according to the list.

I don't know if it's the Qilin Jianzong's own reserve, or I bought it from Yipinge. But no matter what, it confirms the speculation of Shen Lang. For these high-grade medicinal materials over the millennium, there must be one, or many places, that can be collected at any time.

Otherwise, it is not so easy to get. Of course, the value is not high, indicating that the process of collection is not easy.

In addition to these, there are also a number of swords.

These swords are provided by the tough fronts they operate. They are not the special items of the tough front, but compared with the swords on the Chinese side, they are basically comparable to the swords of the stars, and can reach the top ten levels in the world!

This batch of swords is actually not difficult to understand. It is the feedback of Gao Hanqiu to the Tianshan Jianzong. Although he put down this side, but after all, they are all disciples and grandchildren, as well as blood relatives.

The fire spar was also bought in a product, but when it was in the cold autumn, he dug a big piece, so this time it was not added.

In other respects, there are several bottles of medicinal herbs, which are marked with the efficacy and method of use. They are basically the famous medicinal herbs of Qiulin and Zongcheng.

In addition to these, Shen Lang also saw something, familiar and strange things.

Willow sword.

I am familiar with this sword, which used to be used for a while.

Unfamiliar because he used to live in the past life, and later gave it to the cold autumn.

In the early years of the cold autumn, he was founded on the sword of the autumn water, and later enshrined in the sword altar, but when he went to the sea of innocence, he still brought the willow sword.

And now the cold autumn, like the last wave of the last wave, does not need to rely on the sword.

Instead, the current Shen Lang, more need a sword to protect the body, so he sent the sword back to Shen Lang.

Shen Lang took it out and held the sword in his hand, stroking the Liu Yejian who passed by.

The world's famous swords are now circulating, and they do not include the Liu Yejian.

But that is not the case of Liu Yejian, but the same as the Jianxian sword. Many people do not know its existence. They have never seen or heard of its power, and naturally there is no visibility.

Liu Yejian has probably been sealed for hundreds of years, or it may be when Gao Hanqiu wants to give it back to Shenlang, and erase his traces.

Of course, there will be no more traces of the past life, and at this moment it is a sword without a master.

However, after so many years, especially the cold autumn with its battle in the mainland of the mainland, compared to the time when it was given to the cold autumn, it is no longer the same language, with deeper spirituality, and its power is also greatly increased.

Now that Shen Lang holds it, he injects the power of the spirit and re-submits it to become his sword.

"This is ... is to light the sword?" The canoe saw the fine sword in the hands of Shen Lang, could not help but marvel.

This is almost the same as the light sword that I saw in the book of the Tingfeng counter.

"Sure enough, the real thing is more textured than the album."

At that time, I saw the nebula chain in the album, and it was a completely different experience from seeing the real thing.

Shen Lang shook his head slightly: "Not the same, the light sword in the album is a replica made according to this."

“This is what you said about Liu Yejian?” The raft was wide-eyed, and she followed Shen Lang almost all the way, and also heard the secret. “This is the willow sword used by Gao Zushi?”

Shen Lang smiled and said: “If I said that I gave it to him that year, would it seem to be reluctant to rely on the old and the old?”

The boat was slightly slammed, and then he understood what he meant.

She thought it was a gift from Gao Hanqiu. Shen Lang explained that he gave it to Gao Hanqiu. So he stressed that it would be a bit unwilling to be far worse than the cold autumn.

“You can say this sentence, naturally it means that you are not really like this. Besides, you are not the past life, you are now the grass and the waves, cultivation is only a few years, can have this Strength is in that world, and it is also proud of the world.”

For the comfort of the canoe, Shen Langwan: “Maybe! From a rational point of view, we should stay there and continue to cultivate. Come back, we are still emotional, can’t let go. It can’t be put down, it is this world. Shen Lang.”

“Of course, there must be a gap in front of Xiao Gao. Yes, you have to be ready.”

The boat is inexplicable: “What am I preparing?”

“The rain falls because of the talented relationship. The speed of cultivation and progress has always been faster than you. Now that you are back, you are far more than her, and then meet again, maybe she will be a little bit worse.”

Falling in the light boat thought for a moment: “Maybe! But, although Xiaoyan does not have such a lifetime of life experience, she has always been bleak and calm, not necessarily care. Besides...”

She leaned in front of Shen Lang and looked at him like a smile.

“Gifts are the same thing, but the key is your help? Before you put a lot of resources on her, her realm is not as good as mine. It is not a year beyond me.”

“...”

“I am now ‘reversely attacking’, isn’t it because of your help? So, it is you who manipulate the speed of our sisters’ cultivation. What are the differences? It is also the result of your provocation.”

“Yes? Then I will take back your body!” Shen Lang smiled and reached out to her. Well, don’t make trouble. Tell you about business, Xiao Yan will come to Haishan here. “The boat was serious.”

Shen Lang smiled, but still a little embarrassed, this is reminding him that they must face it.

His consciousness is two-sided, and he dominates the past life, but the body and consciousness of this world are still influential. Falling rain was the goddess of the boys in the class and the whole school. He was also desperate to save him, so he naturally felt that he should return to her.

Both of my classmates have left the path of normal people, and their ages are similar. Naturally, they have the meaning of a couple.

However, Zheng Yumeng, who grew up a few years later, took the initiative to attack him and took him. Whether it is hypocrisy or worry, it is always that he is half-pushing, and then the wind is no longer the same.

However, they are all better to do a little, and the canoe is the sister and cousin who have fallen into the rain!

Chapter 898 - Global fever

The news of the “No Return to Hell Development Plan” is that people have long taken the lead in opening and closing meetings on the exchange meeting, and there will still be more news.

After the sea came out three months ago, the news spread completely.

It has been a few hundred years since the last call. For the current comprehension, it is an ancient legend. Nowadays, this generation can witness the legend, even if it is not possible to go in person, it is very exciting and exciting.

After that, I was caught in a stage of heated discussion. I heard that there are still some people who have not been invited to participate. They have teamed up to explore and have been talked about by more people.

It's just that there's a big school that the elders of the division have participated in, but it's a slap in the face, because it's already verified that there's no return, or it's not going to change from "the gate of heaven" to "no return to hell".

However, the more exciting things, for a while, slowly and plainly, everyone still lived their own days.

In history, "no return to the sea", there is no result, even if it has been hundreds of years now, I have not seen a person come back.

So after the excitement, other people did not expect to see someone coming back, and even thought that there would be a quick result.

Ever since, in the past three months, Shen Lang suddenly announced that he had returned from no return to Hell, and immediately shocked the eyes of the entire comprehension!

This is not just China. In the modern Internet era, the news spread rapidly to the world of comprehension.

It is rare to explore, but it has been in history, but the return is not in history. This time, the information is naturally more exciting than three months.

Of course, more people are skeptical, and they suspect that Shen Lang has not entered the sea of innocence, perhaps fleeing, and returned after a while.

And all the families and teachers have gone there, but they are rather credible. They want to contact Shen Lang for the first time. I will ask what kind of scenes are there and I want to know myself. The teacher is alive.

Ever since, all parties have begun to inquire about the contact methods of Shen Lang.

Even though Shen Lang has already retired a lot of people and deleted a lot of people, there are still some people who have his contact information. At this moment, he constantly searches for him.

Shen Lang is not bothered, can only close the added settings, not let strangers add friends.

But everyone will want to find him, this is what he expected, and since the choice of high-profile return, naturally can not avoid these problems.

After considering it, Shen Lang once again let Feng Wuji help him release a message.

Three days later, he will hold an exchange conference in Haishan. If you want to know the news of no return to hell, you can sign up for an appointment.

In order to control the number of people, and in order to control the number of people, all those who want to participate must pay the cost of a fine stone. The family and martial art who participated in the development plan last time have priority. If they do not participate, they will see how much is left. .

Shen Lang's collection of this fee is actually not too black.

When he left to send everyone back, it was equivalent to saving all of them, even if they didn't come back, but they didn't know what was going on. If he did not give up his life to save people, he would be besieged by the Yuxianmen 100 people on the spot!

Although Yuxianmen is far away from Tangcheng, the overall strength is still very strong.

It is also understandable to charge back a family to their martial art. In addition, he is more to pass this information to them.

Taking the resources of the earth and collecting a fine stone, it is much more expensive to open a two-person stone than the mainland.

But what is to be conveyed is the mystery of hundreds of years, about the truth of a dead sea, and about another world. The value of information is much greater, and this is information that is exchanged for life.

For those who still want to go to the adventure of no return to the sea, with this value, it is more secure than the three months, and it is more secure.

Of course, even if it is a fine stone, if it is only one, Shen Lang will not be able to completely reveal all the secrets, and will selectively disclose some.

After the news was released, the comprehension world was in vain!

Most people are slamming the waves, swearing that he is insatiable, swearing at him, swearing at him, calling on everyone not to count, to boycott him!

But no matter what, such a hot debate has directly promoted the popularity of Shenlang to the world of comprehension.

The real embarrassment, of course, is still dominated by the middle and lower strata. Like some families, there are no medium-sized spiritual stones. They are required to pay a fine stone of value of 100 medium-spirited stones. Of course, he must be jealous of him. “Why don’t you grab it?” .

But for some ancient martial art families with deep knowledge, a fine stone, you can get the secret of no return to the sea, it is a very cost-effective transaction!

However, they will not be so easily fooled. First of all, they will doubt whether Shen Lang has really gone to the sea of innocence. Is there really information, not fake?

In other corners of the earth, immediately began to divide the road.

The first is to send people to Huaxia Haishan City, no matter whether it is true or not, you can't miss this opportunity. Then start to contact Huaxia's friends, inquire about the situation here, and inquire about Shenlang.

There is also a survey of the guests who went to the sea three months ago. Is there a wave of sinking, is it really going, and those can be found.

The big family of the big sects in China, Joe and South, needless to say, and Qiao Shuyu and Nan Yiye are already on the way.

Others like Yu Mo Liu Jia, Tian Shi Dao, Wu Shuang Men, Yu Xu Gong Palace, all of whom have gone to the predecessors, can also afford this cost. After receiving the news, they immediately arranged for people to rush to Haishan.

After receiving the news, Tianzhu Jianzong's disciples quickly sent people back to Jianzong's letter. There was no signal from the base station, and they needed human resources to go to the letter.

For a time, the global comprehension community was hot on Shen Lang, and there were also a large number of people who had come to Haishan, a seaside town, from different places in the country and around the world.

It was not the same as last year's revision conference. At that time, young people were the mainstays. Many of them were for the sake of seeing the world. Even if they were responsible for the development plan, the weight was limited.

Now this time is different. No matter how it is sprayed, Shen Lang dares to open up. It is certainly expected. Many people believe in unbelief and are willing to pay. They are all rushing to see the fun.

The people who are really willing to pay to listen to the news are the first-class figures of the major families and martial arts. They all have great expectations for this news. They want to know the first time and avoid the mistakes in the delivery process. .

So this time, there are a lot of big people who don't go out for many years, and they have all come over for Shen Lang.

Haishan, once again, has become a focus of the realm of comprehension...

#### Chapter 899 - Reveal again

Shen Lang and the canoe did not continue to live in a room, but changed to a hotel, and each opened a room.

I wanted to change to the resort before, but now it is summer, the resort is the peak season, the business is very good, can't be pre-emptive as early as last year, and not too many comprehensions.

After changing the hotel, I also booked a conference hall and booked three more rooms.

Because the impact of this incident is too much, there is not much chance for them to get along with each other. For example, Zheng Yumeng and Dorothy are all in Pingxi. After knowing the news, they immediately rushed to the traffic and rushed over to Haishan in the fastest way.

The canoe was just back to the home, not in Tianshan, but also the fastest.

This is because Haishan does not have an airport. It takes a few hours to get over the nearest airport. Otherwise, not only they, but more people have already come.

In the evening, the three of them arrived almost at the front and rear feet.

Dorothy and Zheng Yumeng care that there is nothing in Shenlang. They care about the two of them, so they don't think about other things. They first go to see their situation and confirm that they are really safe to return.

Since Shen Lang had booked the rooms for them in advance, there was no need to bother, and then five people had dinner together.

When they were in Haishan, they had seen each other. Later, they went to the Death Forest together and fought for a month. They were familiar with each other.

Familiarity is not only manifested in talking and chatting, but also basically clear about their respective strengths.

In the past four of them, the strongest is Dorothy, the first to achieve the equivalent of the power of the gods.

Too much blood was swallowed, and the blood was condensed into blood beads for a long time. Later, Shen Lang condensed the blood of the armored red dragon to her. Her evolution has not stopped this year.

Up to now, her strength is still the strongest among several girls, and will not be lower than the late stage of the gods.

Falling rain and Zheng Yumeng, in the forest of death, have reached the peak of the real world, and then they are also concentrating on cultivation. After Shen Lang left, they even doubled their efforts. If they didn't have stronger strength, they couldn't help Shen Lang guard Tianshan Jianzong (Ice Palace).

They used all the resources that could be used. The fire spar brought back by the iron armor, the fountain to the rain, and the two people are all talents, so they broke through. In the early days of the transformation of the gods.

Two people who have absorbed and refined the spar and the yinquan. If there are more resources, they have the opportunity to attack the middle of the gods.

This achievement, for Luohe, has already fulfilled her long-cherished wish, cultivated a sacred environment, and made her feel that this life has no regrets, and can achieve the purpose of revitalizing the Ice Palace.

Zheng Yumeng is not the same. Her grandfather Zheng Yuqing has not dared to imagine after she broke through to the realm of the realm. She does not say to him now, so as not to be scared.

When the first light canoe was not only the weakest of them, it was the combination of Joe Shuyu and Nanyiye who went to the dead forest together. She was also the weakest one in the late stage of the real life.

But now, she has reached the middle of the realm of the gods more than the rain and Zheng Yumeng!

At the normal speed, she has reached the peak of the real world, and it will not be surprising. The breakthrough of the gods is enough to surprise, not to mention their two magical physiques faster.

Of course, Shen Lang is also greatly improved than before, from the middle of the realm of the gods to the peak of the current state of the gods. But on the one hand, everyone can't see him. On the other hand, he is synonymous with miracles. He has created countless miracles last year, and he will not be surprised anymore.

So after finishing the waiter's departure, everyone's topic immediately revolved around the canoe.

To clarify the progress of her triple jump, she could not circumvent the experience of this trip. Now she still completely obeys the arrangement of Shen Lang.

For a few of them, Shen Lang is completely trusting, and he is himself and has no concealment.

After I have isolated the surroundings, I will briefly tell you about the experience of these three months.

They are unfamiliar with other real people in the world, but other earth powers don't care, but Xu Haoyue, the mysterious super master, has seen them. He also went, but it is a bit of an accident.

And Shen Lang saw the Count of Dracula again, and also surprised Dorothy.

On the passenger ship, Shen Lang bought the Frost Stone for the Canoe, and then went to the back, they will have rapid progress, and it is nothing.

The most shocking thing for everyone, of course, is the secret of Shen Lang's identity!

Xu Haoyue contacted Gao Hanqiu, and Gao Hanqiu even why Qiulin Jianzong would treat Shen Lang in particular, and he could not circumvent his identity secret.

Unless you hide from the front.

However, the canoe has already been known. For some of them closest to them, Shen Lang will not hide.

This news, let alone Dorothy and Zheng Yumeng, even the most calm and calm, is also surprisingly speechless.

Zheng Yumeng first reacted, because in her body, there is a desolate god, the soul of two people share a body. For the reincarnation of Shen Lang, it is not difficult to understand.

“It doesn’t matter, you are a brother of Shen Lang Uncle Shen Lang, I like you, I am willing to follow you!”

Her bold and direct words made the atmosphere shocked and full of embarrassment.

Don’t look at Zheng Yumeng’s youngest scene, which is a little smaller than the rain, but she is the most active in her emotions. This time, I also clearly felt that the relationship between Shen Lang and the canoe was not normal.

It is both a woman’s intuition and a bit unnatural to the canoe.

Although she had been at the side of Shen Lang before, she was also regarded as a woman of Shen Lang, but after all, she never figured out, and Shen Lang and Luo Yu were the earliest known.

Now she is so boldly clarified, how much is because of the sense of crisis, so I want to declare it.

Dorothy smiled and said: “Boss is my master. Of course, I don’t care about any identity. I will follow the service.”

When they expressed their attitude, the atmosphere was all transferred to the rain.

“Look at what you said... Can I be afraid of him? Knowing the secret of his reincarnation, it will solve the mystery in my heart. Why do students have a sudden change in a few years, but Shen Lang is a sinking wave? “”

She said it was natural. Maybe this has long been a guess. After all, other people on the scene have not seen the way before Shen Lang. Only she knows the sudden changes and how big the changes are.

“Three women and one drama”, it is inevitable that they will think more about each other.

Zheng Yumeng, who just announced it, listened to the rain, “classmates for a few years”, seems to emphasize that her relationship with Shen Lang is not ordinary.

Secretly biting her teeth, she simply asked: “Shenlang is a deep wave, but you...willing to be her woman?”

Chapter 900 - Shen Lang's attitude

Just the topic they talked about, let Shen Lang be a bit embarrassed, so simply look down and pick up the cup to drink water, it can be avoided.

However, I did not expect Zheng Yumeng to ask such a sentence, directly let him be smashed by the water.

It's also very embarrassing to fall into the rain and the canoe. I didn't expect Zheng Yumeng to ask this question.

However, the rain is still very calm, and immediately calmly asked: “Are you not like Shen Lang? You just want to be his woman, why ask me?”

“Yeah, I like him, I am willing to be his woman. Then what... Dorothy is willing, so I will ask you...the two are willing or not. After all, two people share it!”

Zheng Yumeng asked about falling rain. Although he felt embarrassed, he could still avoid it. She and Shen Lang chose the excuse to drink water.

As a result, I didn't expect Zheng Yumeng to become “you two”, and let her almost get it. Fortunately, there is not much water to drink.

“What is the situation? Little dream, what’s wrong with you today?” The canoe had a dry cough and could only be confused.

“Hey! You can’t be okay.”

Zheng Yumeng is a girl in the end. She and Dorothy have been together for more than a year, and they have met overseas. And Dorothy thinks that she is a slave to Shen Lang, so that they are no problem.

But now, for the rain and the canoe, everyone’s relationship is OK, and they can’t tear it apart. They just spoke up on a topic and wanted to let them express themselves. The two people are ambiguous.

This can’t always let her ask questions, so I threw the topic to Shen Lang.

Shen Lang saw the eyes of all four people looked over and knew that they could not avoid it.

“It’s rare for people to be so close, and there are no other people. I will also make it clear.” Shen Lang took the water and dried it, then looked at them a few times.

“I have already said my identity just now. This secret light boat is known there. So you all understand that I am a person, but the two worlds are human beings. I am basically a bearish man and woman in my previous life and identity. Love, even a lot of emotions are bleak, and this will be understood after you are a hundred years old.”

“And in this world, I am still a young man, and I have seven passions and desires. Especially before I wake up, I am secretly in love with my classmates. I am not afraid of shame. At that time, the whole school secretly loved or liked her boys, at least a few hundred.”

Although this is something that was known before the rain, she used to be completely ignorant. Now Shen Lang said it, but it made her face a little blush.

“Little dreams, when I met me, I was not very big. I probably remembered me because I saved her. After a few years, I was very touched and liked it. Especially they saved my parents and often accompanied them. they.”

The biggest secret of Shen Lang is rebirth. There is also a big secret behind it, that is, parents are still alive, but with the improvement of strength, his scruples are not so much.

Although the outside world, including Yuezheng of Pingxi, they are still secret, but they have revealed it to the rain, but also for the time when they are sometimes absent. If they need her help, it will not be too abrupt.

The canoe was not touched by his parents, so these are not clear.

Just now he used “they”, referring to Zheng Yumeng and Desolation who shared the body. The rain and the canoe were thought to be Zheng Yumeng and Dorothy; while Dorothy thought it was Zheng Yumeng’s family, she knew the original. Shen Lang’s parents are Zheng Jia’s overseas.

“As for Dorothy...”

Dorothy shook her head immediately: “Don’t say me, you are reborn, I am dead and resurrected by you. My life, everything I give you, so I am willing to be your slave.”

“...” Shen Lang was a little sweaty, then she skipped her and then looked at the canoe.

“The light boat and this time in the world, I did not say that I have died for a lifetime, and I have indeed experienced many tests of life and death. At one time, we all felt that we did not have a way to live. Later, we thought that we might not be able to come back. In that case, we are the kind of human beings of the earth. , what about Adam and Eve...”

This reason is too high-spirited, so that Shen Lang feels a bit hypocritical.

“In short, you know, I am with her too.”

Although Zheng Yumeng was a little aware, it was only a suspicion. I did not expect it to be true.

Seeing Shen Lang one by one, the light canoe also knows that it will burst out. Originally she wanted to come back and disconnected, but now that she has reached this situation, it has not stopped him.

“I’m sorry...” she said with a smile, she said to the rain.

Falling rain is shaking his head: “Don’t say that. Actually... Master and I have discussed it, let me be with you... followed Shen Lang. But I think she has a lot of resources for Shen Lang, then It is the market of interests. Since you two are in that world, they are already together, I am very happy and I wish you all...”

“Not like this...” The canoe was busy shaking his head.

Shen Lang coughed aloud: “Listen to me first!”

Everyone puts their eyes on him again At the age of my life, if it is an ordinary person, naturally I will yearn for pure and dedicated love. But there is a relationship with my previous life, plus the relationship between cultivation and various things now...”

“Frankly, I can’t waste time chasing girls. What I need in the future is a partner. This partner is a woman of course. Of course, a purely like-minded friend can count. Little dreams are willing to follow me. I am very happy and I am willing to be a companion.”

Shen Lang did not pull anything more, directly indicating the attitude.

“Whether you want to disconnect or whatever, you can’t change this fact. As for Yu Yu, you can’t accept it, and I respect it. Similarly, I have something good for you, and it won’t change because of your attitude. , will still help you. As a good friend, you can still be a companion.”

The scene was quiet, and I didn’t expect Shen Lang to be so straightforward.

As girls, especially they are very good girls, naturally they want to get the man’s pursuit, pet, and is one-of-a-kind.

But they also understand very well that if they don't have a wave, even if they can shine, they are estimated to be at the same level as the palace of the canoe. After ten or twenty years, they can't reach the current realm.

The words of Shen Lang are not hypocritical and shameless, but they are very clear. Whether they are women or friends, everyone is a companion on the road of comprehension.

This is interdependent, mutual help and love, not the body that loves them.

After all, he was the great \*\*\*\* who stepped on the peak of the previous life. He had already seen everything, and the beautiful body would eventually be red.
