

## First Strong 91

Chapter 91 - New realm

After the aura that was absorbed in the jade in the same year, and the antique street received the aura inside the incense burner, Shen Lang laid a solid foundation, not only diligently studying hard, but also through the efficacy of the treasure. Speed up.

Originally, I was prepared to use millions of herbs directly. It took more than two months to hit the “Yin and Yang Bozheng” to the second. I did not expect to get Lingshi, and more than one.

For the creation of the high-level gongs and yin and yang dynasty in the later period of his predecessor, of course, the faster the aura is filled, the more concentrated and refining the treasures, the faster the soup, the faster the spirits. Much more.

Shen Lang did not come to work step by step. He has rich experience in cultivation, and even if he is in a dangerous moment, he can understand it with ease and ease. Therefore, in addition to lunch breaks and other nights, the concentration of energy in the spirit is almost the limit.

These days, the two Lingshi directly smelt and emptied. This speed is said to go out, I am afraid that Ye Shiguang will be shocked. He has been carrying a little reiki for a few years. It is already Let him benefit a lot.

Tonight, Shen Lang is a big adventure!

The two Lingshis absorbed together on that day, which is very risky for his foundation. Now that this week has passed, the energy of the two Lingshi has made him a big step forward, which can support the absorption of more aura. Also because of this time absorption, let him re-familiar with the use of Lingshi.

So now it is very adventurous to absorb six Lingshi at the same time, but Shen Lang is still confident that he can control it.

After the operation of “Yin and Yang Bo Ruozhen”, six Lingshi were excited, and six auras came directly to his body. Everything is so majestic, every one is endlessly rushing...

Shen Lang originally needed to be multi-purpose, while controlling to absorb the aura, while running the “Yin and Yang wave if true”, the aura into its own vitality, and then use the vitality to impact the body’s relationship.

What is even more serious today is that he must also have a thought. First, combine the three auras of the two hands into one and then replenish them into the body, otherwise they will be very confused.

Such a multi-purpose mind, so that Shen Lang feels mental high pressure, a little distracting can not have, a little deviation is not allowed.

The three auras meet, just like the Sanjiang flood confluence, and immediately roared and roared, and both sides have such a mad flow! His body is like a container, a large lake that bears the convergence of the Six Rivers.

When this big lake can’t withstand such a torrent, it will crash at any time!

And to avoid this serious consequence, there is only one way – before the “breaking of the dike”, re-condense a larger barrier and tap the bigger and deeper lake to make the volume of the lake even bigger!

Now the cultivation of Shenlang is like the treatment of floods. On the one hand, it is necessary to drain, so that the floods will continue to impact the barriers and obstacles along their own minds, and one side will strengthen the strong new embankments.

Two roads and three roads... countless torrents!

Once and twice three times... numerous impacts!

Under the high pressure, there is no thought to control the pain of the body, nor do you know that you are already sweating. His high concentration of spirits has always kept a lot of thoughts, and there can be no deviation.

I don’t know how long it took, and Shen Lang feels a roar!

Just like the blue sky, it is already overwhelmed by seeing the RB. The body at the edge of the crash is instantly warm and comfortable.

And in the next moment, the two giant streams after the “Three Rivers Confluence” became warmer, as if from the roaring flood, it became a quiet stream!

In fact, the speed of absorbing the six Lingshi of “Yin and Yang Bozhengzheng” not only did not slow down, but accelerated the speed. But because of his physical changes, there is no impact in comparison, as if it is a gentle stream.

The tight nerves of Shen Lang can finally relax.

Just one moment, the successful cultivation has become the second most important thing in the “Yin Yang Bo Ruozhen”!

Although he had smashed Yuan Cheng’s life in the Yuan Dynasty, he actually played it with the great power of “Da Shou Mi Long Xiang Shen Gong”. It’s not too much better than Yuan Cheng’s.

But now it is not the same, Shen Lang is estimated to be purely cultivated, and will not be inferior to the comprehension of the peak of the Yuan Dynasty!

After the success of the rushing, Shen Lang did not stop, but continued to urge the “Yin and Yang wave if true” to accelerate the absorption of the aura inside the Lingshi.

The energy contained in Lingshi is strong and coagulated, and some people can’t absorb much in decades. This is one of the reasons why it can become a hard currency.

There are two key to the absorption of Aura, one is the level of the level of the practice, and the other is the level of the practitioner.

For example, Baibao is also a \*\*\*\* soup. It is also effective for ordinary people to take it. The effect of practicing martial arts is better. The higher the strength of the superior military, the more obvious the feeling. However, if the Lingshi is ordinary, there is no induction. Those who practice martial arts, or those who are of lower ranks, can not absorb the energy.

The nine-segmental warrior like Ye Shiguang is also able to absorb a little because Ye Jia has a true practice. The speed is limited to his skill and strength, but not as good as the treasure.

But in the hands of Shen Lang, the effect is not the same. “Yin and Yang Bozhengzheng” is the most advanced method of his later creation. It absorbs the primary Lingshi but the knives are small, the exercises are ok, and the speed of absorption is limited. The realm of his body.

Assuming that the speed of Ye Shiguang’s absorption is zero, it may be a hundred before Shen Lang, so more than a week is far better than his years of effect. But one hundred is not the upper limit of the exercise, it is the upper limit of the body!

Now he has broken through to the second weight. The physique absorbs faster and the body bears more, so this speed may go directly to a thousand or even thousands.

It is because of such a big gap that Shen Lang did not stop, and continued to practice, and completely absorbed the aura of the six Lingshi in one breath!

By the time of receiving the work, the six Lingshi had become a waste rock, and the second weight of the “Yin and Yang Bo Ruozhen” was also strongly consolidated. Now there is no Lingshi auxiliary infusion, pure cultivation, and the absorption of the aura between the heavens and the earth, the speed is not an order of magnitude faster than before.

This time, the breakthrough of the realm will not only make the “Da Shou Mi Long Xiang Shen Gong” and other exercises have a big leap, but also cultivate more exercises and different techniques that could not be done before. After all, the more powerful exercises (spells), the more energy (mana) support is needed.

I looked at my body, it was very unpleasant, it was soaked and dried.

Look at the phone time again, it is already 10 o’clock in the morning, this time is not to forget the time, the critical moment of the clearance, even if you know that you are going to be late, you can not stop and wait for the next time.

However, probably with the previous things, Teacher Wang did not call again.
