

## First Strong 95

Chapter 95 - Prepare for war

It is only for the use of Mo Wei's enlightenment that he can really use it for me. It is by fear, and others cannot be convinced.

It is not impossible for Shen Lang to actually help him to upgrade to the eight-segment and even the nine-segment of the superb warrior. But he didn't get it in one place. If it was done, how could it be motivated in the future?

Now, when he starts, he will be promoted to the level of seven paragraphs. This is enough to make Mo Qi excited, and has a great hope. When he is difficult to break through the eight paragraphs, as long as Shen Lang shot, he can solve the problem.

With such hopes, he will do his best.

Letting him protect his parents is also a concern for Shen Lang.

Originally, he wanted to study and take exams because the family was really bad and there was no resources. It is difficult to improve in the short term, and you can only follow this trajectory, but when you enter the university, you can go to a wider place and find more resources.

Now in the county town of Pingxi City, he has already dug up the "first bucket of gold" for cultivation resources. It is not so important to take the university.

In particular, now that it breaks through the second priority of "Yin and Yang Bo Ruozhen", it is to go out to other places and have a greater dependence.

The tomb of the King of the King after a week is also a great opportunity for him.

And as he cultivates farther and farther, he and his parents will also go a different way, and it is impossible to protect them. It is not easy for him to feel his parents in this world. Of course, he must report his parents.

Buy a factory for them, just let them have a career. The treasure is also a \*\*\*\* soup, so that they have a better body. But they still need to protect their safety. For example, Dong Dawei will not find any trouble again, such as some hooligans in towns and villages, whether they will find trouble in the factory.

He is not afraid of money losses, but he can't hurt his parents.

Mo Qi will arrange the past in the name of falling rain, so that parents can trust him and discuss things with him.

For three days.

Yuecheng Nanchengtian is soaked in the tub, changed a bucket of medicinal bath, coupled with the help of Shenlang, finally let his body have a reborn change!

He does not have the perennial hardships like Mo Qi, but he is obsessed from a small age. Now he knows that this is the family's long-cherished wish and assumes the heavy responsibility of the rise of the family. Therefore, his experience is no worse than Mo Zi, almost I am sobbed.

After washing and changing clothes, he bowed seriously to Shen Lang.

“Lang brother, I really appreciate you very much. I just started calling you Langge, it is to get closer to a relationship, it is a kind of guest. But now, I really treat you as my brother! Although I want to be old, I am a few years older than you, but you are more than enough to be my master. It is more important to be a big brother.”

Shen Lang is undecided: “It may not be a good thing. Originally you could be a rich boy, and you will become a rich man in the future. Now, it will be a hard road.”

Yue Zhennan smiled and said: “Yes. This is indeed a difficult decision, but this decision means more responsibility and more challenging. If I can persist, is it better than simply to make a rich? How many people are there?”

“You can think like this. Tell me something, I will dig up Mo Qi, and let him protect my parents later.” Shen Lang is also directly speaking.

Yuezhen was stunned by Nan, and then looked at Mo Qi.

As a six-segment super-armed warrior, he is able to get a million-year salary in the Yue family, and often does not have anything to do in the end of the year, which will maintain the strength of the Yue family.

And this is a sacrifice, not the same as a bodyguard like Ahu, there is no contract limit. He has something to leave, or does not want to do it. The Yue family will not interfere with anything, which represents a respect.

For the super-martial warrior, there is nothing to enshrine in the treaty. It is also very valuable. It is not only money, but the identity and status of the representative of the Yue family. It also enables people to satisfy many vanity scenes.

Now, the million-year salary of Shenlang is available, but to protect his parents, there is no status. Not only has it been reduced to a bodyguard, but it has also become a protection for the big man and has become a protection for ordinary people.

“It is my pleasure to be able to do things for Mr. Shen. I am also very grateful to the Yue family. I hope that the second son will help you to tell me, and Mr. Wang Yue will complete it.” Mo Qi held a fist to Yue Zhennan.

“Mr. Mo Qi is very polite. You have worked hard for the Yue family for a long time. Now I am doing things for the Lang brother. Everyone is still a person.” Yue Zhennan was busy with the guest.

He is very clear that since Shen Lang has opened his mouth, he must have been approved by Mo Qi. The Yue family has no meaning even if it tears his face. It is not as good as a beautiful person.

Therefore, even if he is not qualified to make decisions on behalf of his father, it is still directly recognized.

In the past few days, the Yue family has arranged for people to send the medicinal materials. Shen Lang also took time to refine a batch of Baibao Rehabilitation Soup, and provided a hundred bottles to Yuejia. The rest gave Mo Qi a little and left a batch for his parents.

So down, Yue Jia will pay him 10 million. He did not check the accounts, but he believed that the Yue family would not rely on the accounts.

This time, it is to bring Yuezhenan back. This is very helpful for the cultivation of Yuezhenan. At this stage, it will be better than Lingshi. He also reminded him that he may not have so much time to refine the medicine in the future, so that the Yue family should not be sent away.

Yue Zhennan on behalf of the Yue family full mouth promised, after all, this cost is five or sixty thousand bottles, and now when he urgently needs the resource heap, it will not be sent casually.

Then Mo Qi went back with him. Although he greeted Yue Zhennan, it still needs Mo Qi to talk to Yue Gang personally. This is a kind of respect.

Shen Lang also said that he would say good things to his parents and wait for Mo Qi to deal with it, and report on his own factory.

In the remaining days, in addition to the daytime classes, Shen Lang began to research some of the applicable spells at this stage.

The time for the opening of the Tomb of the King of the Kings is coming soon. From the words of Yue Gang, although they have learned some useful information, they have been marginalized for decades. This is a long way to go. If you have gotten more resources in the Tomb of the King of the King, you will definitely not stand still.

As an outsider, Shen Lang wants to take a kick, no one will give him a share of it. For this tiger-eater, it will be attacked!

I still study hard in class, but I don't care so much about the results of the mock exam.

On the night of the full moon, the day when the tomb of the king was opened.

Shen Lang first took time off for the next day, so as not to delay any return. After school in the afternoon, I went back to change my clothes and rushed to the place where the tomb of the Dark King was located – Phoenix Valley.

He has already done his homework in advance, and the specific route and time required are confirmed.
