

## First Strong 951

Chapter 951 - Lee makes people crazy

Shen Lang drives the cloud disc, and several of them are also close to him to be together.

From the down, to the up and down, and now is the fourth time, it is a natural thing.

But when the river finally came close, Shen Lang was driving the cloud to prepare to fly up, and nothing happened to him.

Suddenly there was a short sword in the hands of Luohe, which was directly inserted into the heart of Shen Lang!

Because the distance is very close, plus no defense, and just driving the relationship of the magic weapon, Shen Lang was directly stabbed a positive, at his speed, just to catch the dagger, and then immediately fell to the ground.

The cloud disk stopped driving, and everyone is still under the ground.

Both the rain and the canoe were stunned by the eye!

They didn't think of it, Master would suddenly kill the sinker.

"Master, you, you..." The trembling opening of the canoe could not tell the words behind.

Falling rain and hurrying down to see the damage of Shen Lang.

The squatting waves shook his head.

"You can help him up now, only to die faster!" The faint opening of the river.

"Why? Why do you want to do this!" The canoe couldn't help but scream.

This is her first attitude towards Master. She is really unacceptable. Now she is directly shaking her whole body.

“I don’t understand yet? Of course it is because of the book world. The box and the gold book have been merged with him. Only when he is dead can he reappear and re-recognize the Lord.”

The river is calm.

“Is there a mistake! Just because of this? Can it be cultivated inside, whether it will be harmful in the long time, everything is still unclear! Even if you need to extend the cultivation of time, let Shenlang bring in it, why? It must be like this!”

The canoe is struggling to catch your own hair.

She really couldn’t face Master, and she didn’t dare to look at the waves on the ground.

When it rains, there is no speech, it is not convenient to move the waves, and she is trying to treat Shen Lang.

“Yu Yu stopped the hand! Master will not force you to kill him. This wicked person will let me do it, but for Master, for you, for the future of our ice palace, you should not save him!”

The river screamed and her attitude was firm.

The sand that slammed on the ground, a bitter smile.

“Why is it? As the boat said, we only verified it for a minute. If there are any side effects in it for a long time, how long it will last, it is not clear...”

“Oh! You don’t want to delay the time. I know that your realm is far better than me. Normally, I am not your opponent at all, and I can’t kill you. So I just kept the reverence for the ice palace ancestors. Kill your heart, or you can’t stop you. It is my only chance to start the magic weapon.”

Although he said so, but he is not close, he is still afraid that Shen Lang can drag her back before he dies.

“Just the sword, completely pierced your heart, and with the ice-skating technique of our ice palace, you don’t have a few seconds, you can confess later generations. We have no grudges, purely benefits, I swear Will definitely help you!”

Hearing the “spinning ice technique”, he was already a little hysterical and could not help but be embarrassed.

There was no rain that stopped the treatment of Shen Lang, and it also trembled.

Because at this bottom, there was a very cold atmosphere, so they just didn’t think much. I can only know the seriousness of the Master’s words now.

The ice-skating technique is a kind of exercise method, which is to infuse the cold air with the activity, and achieve an endless attack effect!

For example, now it has penetrated into the body of Shen Lang, and the sharp edge pierces the heart, which is the first to bear the brunt; the coldness of the ice that can be frozen is another form of heavy damage; after the application of the ice-skating technique, the ice The gas does not condense and will spin in a small range.

That is the difference between a one-time attack and a continuous attack!

If it is a one-time cold ice, in the realm of Shen Lang, it is nothing to say. But in the heart through, the continuous cold air whirls through the internal organs, the danger is not known how many times...

“Master... How can you become like this?” The canoe said, she slammed down next to Shen Lang and reached for the face of Shen Lang.

“Wake up! Shen Lang is very good to you. I have thanked him more than once. But others are ultimately others! You put down your dignity, and the sisters are co-servants. For him,

it is just one of the women. He still has a lot of women, and there will be more women in the future! When you are older, what else can you get?”

Falling into the river is not a cold drink, but rather unwilling to take love.

These two are not only the grandsons of her family, but also the proud disciples she has cultivated. They are all one-on-one, and they are willing to let them serve a man?

I used to be willing, naturally because of the interests, I hope to get help from Shen Lang, let the rain fall through the realm of the gods, even if it is sent to the canoe!

Now that both of them have become sacred, the situation is naturally different. More importantly, once she masters the world of heaven, does it still need to rely on the alms of Shen Lang?

By then, she, two of them, and even more children of the ice palace, can be cultivated into a master in a batch!

“I have always known that you have a heavy weight on the interests, but in order to cultivate the rain, you can sacrifice yourself at the expense of the canoe, or you can use the ice palace as the first purpose, so I still respect and admire you.”

Shen Lang sighed: “But I did not expect that the benefits will make you so crazy and go to extremes.”

“With such a longevity magic weapon, I can not only cultivate into a god! I can also make a god! I will respect the whole earth in the future, and I can also cross the world!”

When Luohe said this, there was not so much calm, and it was indeed a frenzy.

“Cultivating for a thousand years, but the old ten years old. The millennium repair can at least increase the life of one or two hundred years. Then it can be repaired for another thousand years, and it may be another thousand years of life...” This cycle is a longevity, and it is eternal life.”

Shen Lang smiled and said: “But you have never thought about it. If there is such an operation, why did the former owner of the Golden Heaven Book abandon the cave? Even if he has cultivated into a god, God will not be too long, and God will not Suspicion is too strong!”

Falling into the river for a while.

Yes, if this is the case, will you give up? I want to live for thousands of years, and I want to live forever. Even if you cultivate into a god, you will want to be a stronger god!

“Maybe already flying up the fairy world, and this magic weapon can not be taken away. Anyway, that is what I will consider later. Now I will ask you the last sentence, do you want to confess the last words? This is the best way to return your love.”

Between the talks, the hands of the river spurred the ice-skating skills!

Falling in the canoe and falling rain, I was shocked, and with their familiarity with Master, I immediately understood that this was a sword that pierced the heart of Shen Lang with the technique of spinning ice! If the blade is stirred again, it will directly smash the heart and internal organs of Shenlang. It is the gods who can't save it!

Chapter 952 - fatal!

“Master stopped!”

Both the canoe and the falling rain rushed over.

Because this ice-skating technique has been pierced into the body of Shen Lang with the short sword, and now it is operated by the air, they are not guarding the side of Shen Lang.

So what they have to do now is to block the cast of the river.

But after all, this is the master who respected them from an early age. Even if they are in a hurry, they still dare not go down the river.

This is integrated into the bones, and the big changes are time-consuming. Just like a filial child, it is impossible to suddenly start to parents.

Luohe stopped running the ice-skating technique, and then sighed: “Stupid child, this evil person, I will do it!”

Seeing that she stopped casting spells, the two people were relieved a little, and when they were thinking about how to persuade Master, when they heard the words behind their ears, the figure disappeared in front of Master!

The action that just happened to fall into the river is to adjust the tiger away from the mountain, that is, to shift the two of them away from the side of Shen Lang!

Because after the ice-skating technique, the cold air will rotate rapidly in the body, and she will drive again, just speed up and keep it longer.

She was in the cave there, she already had this plan, and then came along the way, and she was constantly pondering and rehearsing.

Just the sword, she determined that it was very accurate to penetrate the center of the heart, and at such a close distance, Shen Lang was unprepared, she was sure to pierce. Coupled with the ice-skating technique, Shen Lang is unable to delay time.

But she is still a bit worried about falling rain!

The body of the rain is congenital and pure, and it has a strong absorption force for the yin and cold. Just being panicked, I was thinking about injecting vitality into Shen Lang.

Just give a little more time, and wait for her to react, maybe you can help Shen Lang to \*\*\*\*\* the body’s cold air. Without this intensified secondary damage, it is pierced by the heart, and there is a chance to survive and survive!

After all, Shen Lang is said to have reached the peak of the realm of the gods, that is the realm she can not imagine. And as early as last year, Gao Li and Qi Sheng were both pierced through the body, and they also saved Shen Lang. They were at the peak of the truth.

Differences in the boundaries of multiple realms, nature has a natural difference, Shen Lang may also have a lot of life-saving drugs.

Therefore, after the deliberate exaggeration of the work of the river, after attracting both of them, they made a gesture of stopping the conversation and let them relax their vigilance.

In the end, she was a pro-apprentice who had been raised by her hands. She did not dare to do anything to her. All the reactions were also guessed by her.

When they listened to the words, Luohe himself had bypassed them to the back of Shenlang, and took out a sword. He directly pointed to the head of Shenlang, who was kneeling on the ground.

“Master... Why do you want to do this...” The boat fell a bit, or repeated the question that had been asked several times, and her tears fell.

At this time, she can't wait to be able to replace Shen Lang, so there is no need to have a dilemma.

It's also very painful to fall into the rain: “Master, let's stop! It's true to go down the sinking wave... How can you win the magic weapon and how is it different from the magic?”

“Sure enough, girls are extroverted! For a man, you have to say Master as a magic!”

Hehehe sneered a sneer, it seems a bit cold.

“What about the Magic Road? When I have unlimited life, when I practice for a hundred years, the whole world is the only one! I am the heaven!”

She did not say that “people do not kill for themselves” is still thinking about the future, the attraction of a hundred times for her, it is too big!

Falling into the canoe and slowly moving forward: “Master, please stop! Or, even kill the canoe together!”

“You go one step further, I will kill him right away!” The sword of the falling river has been attached to the neck of Shen Lang.

The canoe had to stop.

In the end, she was a person who had been a palace for several years. The pattern of adults can also force herself to calm down. During the three conversations, she had already understood Master’s intentions, that is, they were afraid that they would save the waves.

After changing the seat, Master is not afraid, but hopes to delay a little more time, so that under the operation of the ice-skating technique, Shen Lang will have no way to live.

It is a pity that her forced death, can not let the Master stop, the old-fashioned river, directly threatening her with the life of Shen Lang.

Even if you know that it will delay, you will not be able to persist for a long time, but it will always be better than watching a sword.

“Do you want to put me to death?” The sigh of sighing on the ground gave a sigh, like asking her, as if talking to herself.

Although the sound is very light, it seems to be very weak, but the heart is pierced, has been swayed by the ice, and can still speak so coherently, which makes the river calm!

The peak of the gods is not the peak of the gods!

Perhaps the ice of the ice-splitting technique and the sword are not enough to kill him!

There was a smile on the river: “Of course not. As long as you can get the gold book back, what do I want you to do?”

Her words, let the rain and the canoe, have seen a glimmer of hope.

Although Shen Lang does not know how the thing is a fusion, but after all, he still has the opportunity to study it. As long as you can restore things, you don't need to...

“No!”

The hopes of the two people just started, have not had time to find a way, or further persuasion, immediately screamed in despair.

When they saw the master in their mouth, they suddenly slammed their hands and pulled them into the sword behind the waves. They pierced them hard!

Obviously, Luohe has just deliberately said that it is good, the purpose is to paralyze the Shenlang, and let them have no time for rescue, and then directly kill the killer!

Since she suspects that the injury of Shen Lang is not as serious as she imagined, she will not rely on the ice-skating technique again, but rather a decisive one-word break is more reliable Ah-! ”

The two people who just screamed did not stop, and then there were screams that were unanimous.

The two of them were completely sluggish, and they were too late to go forward. The picture in front of them also made them feel chilly.

Their master, who had just stepped down to the killer, carried out a beheading on the already dying Shen Lang, but the result was that the sword was at an incredible speed, and in a weird angle, it was on her own neck!

At the moment, the river is like a cross sword. The whole person has settled. Even if she is not moving, she has not opened the sword, and there has been blood seeping. The entire blade has been cut into the majority, as long as it is pulled out. It will be \*\*\*\*\* right away!

And she was cut off the neck! Even if you don't open the sword at this moment, you can't hold on for a long time.

“Master!”

They both rushed over.

Chapter 953 - No regrets

They quickly frozen the wound and rushed to find a cure for life-saving drugs.

At this time, Luohe was looking straight ahead, and she saw Shen Lang.

Standing in front of her in perfect condition.

“You turned out to be... not at all... injured?”

When I talked at this time, my neck would have to “leak the wind”. It would only make her who could hardly breathe die faster, but she couldn’t help it.

If the peak of the gods is too strong, so that her triple killer has failed, she can understand. Can Shen Lang actually have no injuries at all, it is impossible to say.

“Now, have you killed me now?”

Shen Lang proudly asked, and played her short sword.

“In the past few years, how many people do you want to kill me? The life and death attacks directly encountered by light have not been repeated hundreds of times and dozens of times. How many people have you killed?”

In his realm, even if he did not think that the river would attack, even if he was starting the magic weapon, he could fully react.

When the short sword stabbed the first half of his heart, his hand was caught in time, and then properly retracted, and then caught the short sword and fell to the ground, making a picture of the bottom.

Did not enter his body, the ice-skating technique was directly invisible in his palm.

When the rain fell to help him, he shook his head. She thought that fear of moving would aggravate the injury and would not dare to move. Keeping it behind the ground, you don't let the river see the wound.

Shen Lang's counter-question, let the river have nothing to say, do not say anything else, that is, outside the ice palace, Shen Lang is to help them, killing hundreds of ghosts, no less than twenty people, it is life and death. This is still a count, the person really does not know how much!

"You...you...he...mother...even...pretend to die!"

The river was almost faint, and the blood of the big mouth spit out from the mouth.

The two people who fell into the canoe and fell rain were also shocked.

Just after the reversal, all their thoughts are on Master, and they can guess a few points. This is definitely a dry wave. It is impossible for the "stone man" to run out to save the waves.

But now I heard their conversation and saw that Shen Lang was not hurt at all, and stayed for a while.

"I just don't understand why you suddenly want to kill me."

Shen Lang self-deprecating: "I still have a little embarrassment, thinking that you think that I have too many women, playing with the feelings of both of them. I did not expect it to be for the benefit, then I have not understood and verified more calligraphy."

"Even so, even if you turn them both, you want to delay the time to let me die. I asked you, is it necessary to kill me?"

Shen Lang's attitude also cooled down.

"Your choice is to lie while piercing my neck!"

“You can kill friends for the sake of your interests. I want to protect myself, killing someone who wants to kill me, isn’t it too?”

“Since you have said time and again, the wicked are doing it, don’t let them both embarrassed. I am the same, the wicked, I will do it.”

At the time, Shen Lang was also on the one hand to understand her intentions. Later, I wanted to see if she was hopeless. It was also analyzed.

When Luohe made an assassination, even if he didn’t succeed, it was a dilemma for the falling rain and the canoe.

How do you face Master in the future? How to face him?

In the end, of course, you will succumb to the fall of your family and your teacher’s grace. If you have this knot, you will suffer in the future.

Therefore, for this rapid decision to kill him, and several times to kill his life, Shen Lang simply did this evil person, did not see her face on both faces to leave her a life.

With his strength, I can completely control a sword to break her neck. She can also smash her with a gun, and she will leave her half-life, and let her die. Let them have two a farewell time.

“Master, Master...”

Falling rain and falling canoe, this time is very chaotic, there is no time and energy to blame the waves, or calculate who is right and wrong, this time only want to save Master’s life.

“Shen Lang, you save Master! She is just a moment of confusion, as long as she can save her life, she must...”

The canoe quickly rushed to Shen Lang for help, just as they did not want to see Master kill him. Of course, they did not want to kill the Master. As long as they can be saved, everything will turn.

Shen Lang shook his head: "In order to give her a chance, she chose to continue to kill me. I left her a sigh of relief, is to say goodbye to you, or else she has already vanished."

This is a bit unremarkable, but the canoe is also speechless.

He said yes, Master was not a moment of confusion, they pleaded, but also determined to kill the waves again.

In terms of reason, Shen Lang is not wrong.

But emotionally, this is their master!

If Shen Lang becomes a killer, even if the reasons are sufficient, how can they let themselves be?

"Don't... ask him..."

Luohe resolutely said a few words, with more blood pouring out.

Falling rain, this time is silently crying around her.

Since Shen Lang has said this, they want to be treated again, and it is useless.

"I am... greedy... I have no regrets..."

"You... I am proud..."

The river has become more and more godless, insisting on the last two sentences.

Not to confess to the next killer of Shen Lang, this is a gamble of her life, became a glory, defeated the gamble and lost.

The latter sentence means that it is the pride of her life to train both of them to become a god.

The canoe and the falling rain are all crying.

Although their sisters are in a high realm, Master did not look at their light threshold, but left so quickly.

“I am buried here! I will not destroy her reputation again. You said to the Ice Palace disciple that she was forbidden to experience the distress.”

Shen Lang gave them time to mourn and cry, and then reminded me.

The two of them also understood that there was nothing to do with anything else. They could only take the sword and complete the master and buried it in the ground.

This happened let them face the waves, there is nothing to say.

The three returned from the passage and returned to the stone chamber where the river was closed.

“The interest tests humanity. You have no such heart at all, there is still a sincere heart, and it is big enough for her to attract. Don’t blame me, don’t blame her. Once again, it will still be the same result.”

“This kind of change is also a test for you. You can’t break the knot. You may stop at the present in your life. The road to repairing the road is long. You may die at any time. I am dead, she is dead. Even if it is calm, after decades, you will also I will watch my family and friends die.”

“Huijian sorrows, not only love, with wisdom swords, broken troubles and thieves. You are a new world!”

Shen Lang did not explain or comfort them, and even did not apologize and repent. After a few words, he left the Ice Palace. If you can understand, you must look at yourself.

It also takes time. After all, their current realm is based on opportunities and resources, and their mood is much worse.

Chapter 954 - Scorpion for help

Leaving the Ice Palace, Shen Lang returned directly to the Tianshan Jianzong.

For the secret of the Golden Bible World, he also needs to spend more time to study.

A hundred times of the time difference, although it has been verified, it is precisely this makes the river change, but as he laments, if this can be done, will the former owner leave it casually?

Even if the former owner has become a god, leaving the world can not take away, can also be given to the disciples and grandchildren, relatives and friends, it is impossible to put it in vain.

After a hundred years, it is a waste of 10,000 years of cultivation time!

So there must be a limit, just because it was tested for a hundred minutes, and it has not yet reached that effect.

There are also specific restrictions and rules, and Shen Lang needs more time to explore.

However, one thing is confirmed. That is the passage of the underground palace. Although I don't know why it is so bizarre, there is no gap in time.

If it is also a huge difference, when the cave proves the world time of the world, it will be abnormal.

After returning to Jianzong, Shen Lang retired himself, letting himself explore more and understand this golden book, and went in and out again and again, and realized whether there was any gap.

The result is nothing, as for the limits of time, or what side effects, it is not a short-term verification.

After this, Shen Lang can only give up first, no matter what, at least in certain special times, this can play a key role.

He will not achieve the purpose of longevity through this world of heaven, as he fell in love with the fantasy of the river, so he will not be attached.

After returning for a few days, although the reputation has been fermented even more, the name of Shen Lang is spreading in the world of comprehension, but no one is chasing the sword.

Shen Lang decided to go home and leave after the year. He did not return for half a year.

Zheng Yumeng and Dorothy are two, of course, bring them back together. I could have brought it to the rain. She used to go to his house. It is not convenient now.

On the way back, there was a person who added Shenlang's WeChat. The additional information was "Ye Yao, Yue Zhennan's wife", and he must pass.

This makes Shen Lang a bit strange. The wife of Yue Zhennan is not the daughter of Ye Family? At the beginning, I also wanted to use the marriage method to swallow the Yue family.

Unfortunately, Ye Yao's backing, the master's master, almost saw the squatting. And she squandered her education, from her master to her uncle, because of the relationship between Shen Lang, let her marry Yue Zhennan well, can no longer have a heart.

At that time, the situation was very embarrassing. Shen Lang saw that Yue Zhennan was really tempted. He did feel that this ambitious woman could greatly help Yue Zhennan if he could control it.

Therefore, Yue Zhennan was also advised to get her, and the wedding was continued.

After Shen Lang left, he never saw them again. After going back and forth to the New Year, he did not see Yue Zhennan again.

Now that Ye Yao actually adds his WeChat, it still makes him feel a bit strange.

He wanted to ask Yue Zhennan, but he held back, but chose to pass.

Just like last year, Ye Kuzhu moved his master Xiangyang real person to Ye Family. Yue Zhennan also chose to face someone and did not ask him for help. Or he just went back and contacted Mo Qi to know about it.

Now Ye Yao is looking for him privately. Maybe it is the trouble that Yue Jia has encountered. Yue Zhennan can't put his face down to ask him for help.

After passing, after a while, Ye Yao immediately sent a message.

"Master Shen, I am Ye Yao, the wife of Yue Zhennan. When we got married, you have seen it. I was still hostile to you at the time."

She should be fully prepared. In addition to explaining that she was hostile to him at the time, she immediately attached a photo to prove that she was Ye Yao himself.

"Hello, I have something to say."

When Shen Lang passed her, she already thought about it.

He and Yuezhennan Yeyao have already opened their horizons. Ye Yao's level is too low, and he still can't reach it. Afterwards, her master will definitely tell her clearly.

When the gap is too big to look up, she can't be entangled in hatred.

But now that she has taken the initiative, it is obviously something. In order to allow her to put aside her scruples, Shen Lang used the name of "scorpion" to indicate that she would not be prejudiced against her.

"You must save the town of South, only you can save him." Ye Yao is also not polite, after seeing the reply of Shen Lang, immediately cut into the key.

Shen Lang has already predicted what trouble Yue Jia may have encountered.

The relationship between him and Yue Zhennan does not have any concealment. You can find out if you inquire. With his current momentum, there should be no eye-opening self-cultivation vision, and he will go to the trouble of the Yue family.

Really have a deep hatred against him, and will not threaten him with Yue Zhennan. So the troubles encountered are likely to be local officials, shopping malls and the like. It is precisely because of this, so Yuezheng South is not easy to find him to help.

These are not things for Shen Lang. If you exert a little influence, you can help to settle.

However, I did not expect that Ye Yao used the “rescue” and said that only he could save.

This severity is not the same, Shen Lang did not wait for her to slowly say, directly dial the video.

Just the voice, ready to go, can also be fake, video can see her expression.

Ye Yao quickly connected the video of Shen Lang.

“Shen, Shen master...” The last time she and Shen Lang did not have much contact, now the video is still a bit nervous.

Shen Lang looked at the video over the Ye Yao, frowning, the state is much different than when he was married when he was married. It is a lot worse than the verification photo just sent.

“Don’t worry, tell me what it is. Yue brother is my good friend. He has something, I certainly won’t care.”

Ye Yao took a breath and then began to talk about it intermittently It wasn’t the Yue family who had any trouble, just Yue Jinnan. And his problem is not that there are any strong enemies, but disappeared!

In the past two years, with the support of Shen Lang, Yue Jia is the only one in Pingxi, and with the marriage of Ye Family, Ye Shiguang's flattering loyalty, power and influence are even greater. If anything is missing, it can be found. of.

The problem is that Yue Jia and Ye Jia, together with the public resources of the police, did not investigate the shadow of Yue Zhennan!

After knowing the matter, Ye Shiguang, who presided over Ye Jia, also blamed Ye Yao on the side. It was suspected that she had quarreled with Yue Zhennan, or what caused the town to be unhappy. Only by taking the initiative to run away from home can you leave no clues.

But Ye Yao did not, just as Shen Lang reminded Yue Zhennan, on the wedding of the planned revenge, she was abandoned by the family, and was given up by the master who was entrusted with great hope. The whole person almost collapsed, at that time, regardless of the former. Yue Zhennan, but won her heart.

After more than half a year, they got along very well and didn't have any problems.

Chapter 955 - Have a well-thought-out

In Ye Yao's account, Yue Zhennan did not encounter any enemies, nor did he have any arguments. Before the disappearance, there were no abnormalities.

As for the place where Yue Zhennan disappeared, Ye Yao said that he had a relationship with Shen Lang.

It is said that he is going to visit Licao County. It seems that Shen Lang's parents were burned to death for the third anniversary. Last year, he also went to worship.

After that, there was no news, and Yue Jia and Ye Jia later sent people to find the area, and did not see the shadow of Yue Zhennan.

Because the cemetery is in the countryside, there is no monitoring of anything, so I turned to the relevant departments and read the video and video, and I can't see any clues.

It's been a while now, and Yue Jia and Ye Jia are very big.

Because everyone had a grudge, and when they got married, Ye Yao also thought about letting her master press the Yue family. Even if it was half a year, nothing happened. Now Yue Zhennan disappeared inexplicably, and there are really enemies and the like. Nothing is unusual, she naturally became the biggest suspect.

The Yue family up and down, although not showing anything in front of her face, but this kind of emotional feeling is lingering.

As the family's Ye family, she should have been able to support her, but because Ye Shiguang is afraid of Shen Lang's fear, it is also the suspicion of her in the dark, only to be more active than the Yue family to search for Yue Zhennan's news, in order to get rid of Suspect.

"Master Shen, I really don't have any of Zhennan... In fact, I like him. After I got married, I also accepted my life. We get along very well, I really have no choice but to help you. Because ....."

"I found that I had been pregnant for two months... I don't dare to say anything about it now. I am afraid that Yuejia will feel that I am sorry for Zhennan, so I am sad to leave..."

Having said that, Ye Yao almost collapsed. Since Yuezhennan's disappearance, she has suffered the most pressure.

After Shen Lang listened, I understood it. Why is Yue Zhennan missing such a big thing, Yue Gang also looking for him, dare to care about this ring!

With the calm of Pingxi in the last year or two, he also promoted Yue Zhennan to a virtual environment, and there is basically no security problem. Plus the investigation did not have any abnormalities, all of which showed that Yue Zhennan was hiding himself.

Perhaps the Yue family guessed that Ye Yao had sent a green hat to Yue Zhennan, so he let him leave without a word. It is the face of Yue Jia and Ye Jia who does not play the blast, and Yue Gang certainly cannot say it.

In the end, as long as Ye Yao is most worried about Yue Zhennan's accident!

“Do not worry! I will go back immediately, I will find him.” Shen Lang faintly comforted, he is on the way back to Pingxi, ready to get this thing done.

“You...do you believe what I said?” Ye Yao was a little surprised.

She is actually ready to face the doubts of Shen Lang, and may even be a question of humiliation.

Unexpectedly, after listening to her words as Shen Lang, I actually said that I would be back soon!

“Of course I believe.” Shen Lang said with a little emotion: “The root cause is that it is me who is envious of you, not the brother of Zhennan. The enmity of the year is wrong, I don’t want to say more. You are against the town of Nannan. I can see the concern.”

“Thank you...” Ye Yao’s tears almost didn’t hold back.

After getting together for more than half a year, my husband’s family did not believe her, and her own family did not believe her. Actually, she had only seen her face once and believed her words!

This reality made her feel very ironic and very helpless.

“Do not worry. I will find him!”

After Shen Lang finished, she hanged up the call when she thanked her.

For Ye Yao, he knows very limitedly, but only through the side of Yue Zhennan and Mo Qi. It is impossible to say that she trusts her more.

It is only from the common sense that Yue Jia and Ye Jia are skeptical about her situation. She is a woman with a deliberate mind and cannot be imagined.

And she lost the support of her family and the teacher’s door, and she was even more guilty of \*\*\*\* herself up.

As for the green hat, the possibility is even smaller. The appearance of Yue Zhennan is one-of-a-kind. In the past few years, it has become the pillar of the Yue family. Now the strength has gone up, there is really not much picky.

There is a real possibility, that is, when she is at the teacher's door, there are lovers in the brothers and sisters, but even before, her master will order the two sides to sever, and there will be no more troubles.

Wherever Yue Zhennan went, Shen Lang did not worry much, because he knew a place – the tomb of the king.

In the same year, Yuezheng South was in the middle of the year, and escaped the arrival of the Chu family. This is the only person in Pingxi who knows the secrets. If it disappears out of thin air, everyone can't find it, and there is no enemy. The biggest possibility is that he hides himself and retreats.

Yue Gang has not been anxious, and should have guessed this. He doesn't know the specifics, but he knows this. The reason may of course still be guessed because of Ye Yao's relationship, so I won't say more.

However, I heard that Yue Zhennan was going to pay homage to his parents' tomb, but it was a bit embarrassing to let Shen Lang feel moved.

The burial of the factory, including the aftermath of the factory, was all handled by Yuejia. Considering the need for confidentiality, he has not disclosed to Yue Zhennan the information that his parents are still alive.

Mo Qi is also a believer, even if the Yue family is his owner from the beginning to the present, and did not disclose half points.

Every year, Yue Zhennan goes to pay homage to the grave, but he has not told him that it is not a superficial effort, but a real friend!

I know that he is everywhere in the country, and he does not want to come back to touch the scene, so he is responsible for his son and maintain the tomb of Shennan Han Fengying.

This sentiment moved by Shen Lang, and it was a bit embarrassing, especially comparing the things that had fallen before.

When you meet each other, you will always get a bit more.

Even if I met with Yue Zhennan at the beginning is purely the cooperation needed.

Just after the contact, Zheng Yumeng and Dorothy are also there.

Zheng Yumeng is also very worried. Although she did not have a long time with Yuezhengnan, she was also a friend who met her at the time. She was also anxious to see what it was.

However, after watching the video hanging on the wave, it was very calm, and I could only press it down first. I believe he should have a solution.

Shen Lang did not contact WeChat South with WeChat. According to Ye Yao, he has been missing for more than ten days, and the mobile phone must have been turned off. In the tomb of the King of the King, there will be no signal, and the positioning will not be located.

Therefore, he still has no change. According to the established itinerary, he will return to Pingxi and say it. Also go back to visit my parents, everything is well-informed.

Zheng Yumeng and Dorothy two, in the past few months are here with the parents of Shenlang, living in the opposite room, now come back is not leaving for a long time, and there is no feeling.

Everyone went back home directly.

Chapter 956 - Pingxi

The Shennan couple did not know much about Shenlang's affairs. They only knew that their son could not be measured by routines. That was a real big thing.

Therefore, they will not ask more, and there is no channel to understand how much. Usually, there is no need for work, and there is no known person. A lot of time is spent on cultivation, both to pass the time and to maintain health.

The days are very leisurely and comfortable, and I have already got used to life here. I was accompanied by Zheng Yumeng.

Although I will think about my son, I think that other people who have a good life, work in a big city in the first line, can't meet in a year, so they won't complain about anything.

Shen Lang also contacted Mo Qi, want to see what he knows, but a little unexpected, Mo Qi could not even contact!

This made him a little surprised. If Yue Zhennan went to the palace of the king of the cemetery to retreat, he said that he would not bring Mo Qi.

If you only go to worship his parents, Mo Qi knows the truth and cannot disappear.

This made him worry about whether something really happened. If there were high-level enemies, Yue Gang and Ye Yao did not know it at all, and it was possible.

After the family had dinner, Shen Lang took Dorothy and Zheng Yumeng, and went to the Phoenix Valley where the Palace of the Tomb of the King was.

They are not outsiders, and Zheng Yumeng is a descendant of Zheng Man, who should have been qualified to inherit the treasures of the ruins of the King of the King.

Zheng Yumeng was a little excited when he learned that he was going to Zheng Man's real tomb.

A few years have passed, and the valley in which no one came is re-grown with weeds. The direct manipulation of Shen Lang opened the divorced array and opened the exit of the underground palace.

With their current strength, they don't need to worry about the long-closed gas inside, and they go straight in.

They did not prepare flashlights and lights, and Shen Lang took a piece of luminescent ore directly and let Dorothy hold it.

However, when he entered, his knowledge immediately sensed it again, and he understood the situation of the entire underground palace, but found that there is no shadow of Yuezhennan inside!

If Yuezhen South is not retreating here, it can only be left Pingxi, or else the power of Yuejia and Yeja cannot be found at all.

Now that I have come, Shen Lang can't say that I am going home directly, but I took a look at it with Zheng Yumeng, including the body inside, what happened here, and the origins of many of them. A bit.

Finally, I took the bottom secret room and saw the stone skeleton left by Zheng Man.

Zheng Yumeng had encountered Shenlang before, and he came to worship the ancestors of the Tomb of the King. Now he is in this secret underground palace, and he sees the skeleton and the skeleton.

"This should not be the bone of Zheng Man. It is true that it is buried in the tomb of the king of Pingxi. But you can't open it. If you come, just treat him as Zheng Man."

Shen Lang smiled. "Now you should be clear. When you were in your life, Zheng Man was my follower, so I understand his situation and exercises."

"Can I... bring my grandfather to worship?" Zheng Yumeng asked for advice from Shen Lang.

"Of course there is no problem. But your grandfather identified the tomb. It doesn't make much sense to bring it here. There aren't many relics here. After a few hundred years, I will take it away in the end."

Zheng Yumeng nodded. She was not directed at the relics, but a memorable meaning. When you have time, you can take your grandfather once.

“Yueda is not here, where is it?”

“I thought he was definitely here, so it was very easy to talk to Ye Yao. It is a bit embarrassing now, I don’t know where he is going!” Shen Lang self-deprecating. “Go out first!”

He also told Zheng Yumeng about the method of opening and closing the inside and outside of the solar array. The Zheng family is qualified to know.

After he came out, he tried to call Yue Zhennan.

I thought that people were in the underground palace, and there was no signal, so there was no connection. Now that people are not here, it should be leaving Pingxi.

Even if there is anything in Yuezhennan, you should not pick up the phone from Ye Yao and others.

The result is that “the number you dialed is temporarily unavailable”, and the same call is made.

This can only prove that the two of them are either in the absence of a signal or are turned off, otherwise they will definitely pick up his phone.

“Go back... oh... go to a place and see.”

When Shen Lang decided to go back, she thought of Ye Yao. Yue Zhennan finally went to Lie Cao County to worship his parents’ tomb.

Because it was not buried with his parents, his parents lived in the city, so he did not go back afterwards.

Mo Qi will not disclose the news, will Yue Zhennan go to guard the tomb for him?

I want to come over here in the past, I have to turn around and reversing. Now I don't need any trouble, I directly drive the cloud disc and quickly fly to the direction of my hometown.

Pingxi said that it is a small place. In fact, it means that the economy is backward. However, if the area is counted, plus the counties, the scope is not small. Plus many mountains and rivers, it is not convenient from one county to another.

Now they are flying directly in the air, and returning to Li Cao is very fast.

Returning to his hometown and looking at the familiar Licao County in the sky, Shen Lang's heart is still a bit embarrassing. Licao County is where he has been studying for many years, and it is also the starting point for his return to the world.

Although many of my classmates' faces are blurred now, this piece of land is still familiar. I don't know the riverside house that he used to rent. Is there still anyone living there?

He did not go to the county town and went directly to the parents' tomb.

However, when the sky has not arrived, Shen Lang feels a little abnormal!

“strange.....”

“what happened?”

“Nothing, let's go see it first.”

Falling down near the tomb, Shen Lang saw everything as usual, his knowledge quickly spread, and all the surrounding houses were touched, and no signs of Yue Zhennan were found.

This is a place where people live in a concentrated area. It is not a barren mountain and mountains, and naturally it will not live in a cave.

Dorothy is the first time, and Zheng Yumeng feels very strange, because she used to come, but it is not her, but the desolation dominates her body.

The Shennan couple are all alive will not come over later.

Therefore, Zheng Yumeng actively switched the consciousness to the desolation, letting her experience the revisiting of the place.

The bleakness that has been “switched” out is immediately alert to the state of alert!

Because in addition to when they were in bed, Zheng Yumeng switched to her, most of them met a strong enemy and needed her to fight.

It was not dangerous to find out, nor was it Zheng Yumeng’s mischief. She only relaxed and then saw this place, so she was also a little emotional.

Three years ago, I met Mo Qi here and learned that Shen Lang’s parents did not die.

“Hey? This band... seems a bit strange?”

When the bleak whispered, let Shen Lang look over: “You found it?”

As soon as he saw it, he immediately understood that it was not Zheng Yumeng, but a desolate one.

Chapter 957 - After the sequelae of the robbery?

When Shen Lang was in the air, I found it a bit unusual, but I still came here first.

Now that I’ve found it, I’ve found it. I’ve confirmed that there’s no shadow of Yuezhennan, so I can leave.

“Yue Zhennan is not here, let’s go there and see!”

A simple sentence of Shen Lang, let the unclear in the bleak, know that here is to find Yuezhennan South, although I don’t know the specifics, there is no question.

Here is a very familiar place for Shen Lang, not a long distance, and no need to drive the cloud.

In the process of fast-tracking, he also talked about the reasons for coming over with the bleak, let her know.

Whether in the air or just in the cemetery, it is a general feeling, and there is no specific place. But now I am looking for the past, locking out the abnormal places, but making Shen Lang a bit wrong!

This place is not far from the cemetery, not far from his home, just to say behind the mountain. That place is more familiar to him.

When the robbery failed in the past, he hid the waste jade that had been thundered in a nearby boulder, and placed a reincarnation in the vicinity.

After awakening that year, he did not have any resources in his hands. He also came over for the first time and took this waste jade. The boulder cracked on the scene.

It's not been here for a few years now, I didn't expect the strangeness, but it happened here!

"It's here. It's like..." Desolation sensed the difference in the scene. "...there are something unusual things that have appeared here."

"It should be said... non-earth material!"

"Non-earth matter?" Shen Lang's words, let the desolation and Dorothy look over.

Shen Lang nodded cautiously. If it was the previous life, he would say that there is a demon. This world-style style should be said to be non-earth material.

"This is a residue. I don't know how long it has been. It is so obvious that there is a huge difference between the world and the earth."

Shen Lang said that while walking, he finally settled in a seat, and what he felt.

This piece is the place where his past life was robbed, and the standing position now is the key point of this abnormality.

“I told you before, I am born again...”

When it comes to this, Shen Lang looked at the bleak look. When I said it earlier, it was the body dominated by Zheng Yumeng, which she did not know. However, the relationship between the two is special, and the desolation can basically guess a few points.

So he is at the beginning of this, just to talk to him.

“Here, it is where my past life failed.”

For what to do, Dorothy seems to understand and understand, can only guess what kind of situation.

It was the bleakness of the female sword fairy during his lifetime, and of course it was very clear.

“At that time, I would choose to come here, not because it is a very good environment. On the contrary, it is because it is a barren land, and now it is still a backcountry.”

“You know that your movements will be very big, afraid of affecting ordinary people, and choosing places where there is no one, it is just in good faith.” Desolation said calmly.

“I said this, not for the sake of merit.” Shen Lang smiled and said: “I want to say that there is almost no room for space here. But now...”

Desolation was thinking fast, and when he heard that he said it, he immediately added it.

“Is it because the movement of the robbery was too great, and created a space crack here?”

This is not impossible. The so-called broken void and rising in the sky are actually the realm, breaking the space barrier and going through the higher level space.

The so-called robbery is also a kind of suppression of heaven. Only by being able to break through this layer of suppression, or to complete the test, can we break the space barrier.

Shen Lang was a failure at the beginning, so there was no flying up. In theory, there would be no space cracks.

But now the facts are in front of me, and here I feel the strange space traces that are completely different from the earth, and it will not be so skillful. It is most likely the “sequel” of the original robbery.

“Perhaps... the other side is also looking for a crack in the space that enters the earth. It may have caused a lot of movements that year, just happened to be discovered there. So along this position, hundreds of years of hard work finally broke the space barrier. “”

This speculation, Shen Lang himself feels very embarrassed, if he succeeds in the robbery, the world that is soaring will inevitably be at a higher level, at least it will surpass the mainland of China.

If it is a higher-level world, how can it not be exhausted for hundreds of years to open a space to a lower level.

In theory, only people from poor countries have tried to enter the developed countries. How can people from developed countries use smuggling to go to poor and poor countries? Unless it is a criminal who can't get along!

So, if that is really a higher level of space, it will be a disaster if you try your best to get to Earth!

For example, the Sutra martial art of the mainland of China is not likely to come to the barren earth to plunder resources, but like Yuxianmen, people are used as animals to support and use the power of people to draw the spirit. The earth-dense population becomes one. Kind of resources!

“Everything is speculation, you help me, I can see if I can go over.”

Shen Lang has a wealth of experience in crossing the space, so I want to try it, along with the current awkward environment, can forcibly cross the world over there.

Desolation and Dorothy nodded immediately and quickly separated to protect the environment.

It is night, and generally no one will come, but it is still necessary to avoid the mistake of ordinary people. As for crossing the space, Shen Lang does not need their help.

When Shen Lang came over, he was always distracted to sense the situation around him also analyzed with the higher level black technology of the holy armor.

Now that I have a certain degree of certainty, there is indeed a similar space crack, which may have been caused by his robbery hundreds of years ago, but it may not be the space leading to a higher level, or it may be accidentally connected. A totally irrelevant world!

Just like in a chaotic space, you can contact different worlds.

When he came here a few years ago, there was no such situation. But it does not necessarily mean that it does not exist. It is very likely that he was just awakened at the time and he was not aware of the abnormalities.

However, after the Chu family came here to kill and set fire, and did not notice, perhaps the situation was not obvious.

It may be that the Antarctic in Yuezhen was at the time of the memorial. When I noticed this abnormality, I came here.

Shen Lang is going to have a look over there now. One is to see if Yue Zhennan has passed, and the other one is to figure out what this is all about. This is tantamount to the emergence of a back door at home. It is also necessary to find out whether it is safe to be responsible for the living beings of the earth.

Chapter 958 - Rescue, seal

After the double detection of Shenlang individual and the holy armor, it was confirmed that the space crack was not formed. But the state is not stable. If you use the wall to make an analogy, it is very likely that it is very weak.

It is still not certain how the abnormalities found are caused, but in such a state, Shen Lang still has the ability to artificially break through the past!

And he is able to break through, naturally it also means that it will not be the “fairy world” after the robbery.

Although Desolation and Dorothy have left a little distance, but in their realm, if there are ordinary people coming, it is enough to know in advance far away.

Therefore, their attention is placed on Shen Lang’s body. There is no doubt that this is a rare opportunity. Even if you can’t directly feel their feelings, it will be a long-term experience.

Under their gaze, it didn’t take long for the place where Shen Lang was located, there seems to be a distortion of the space!

In this situation, they are familiar, just like going to Qiangjialing in the past, confirming that this is a change in space transmission.

In the next moment, Shen Lang’s figure has disappeared from the place!

Desolation is at this moment, I feel that the abnormal shape is a bit thicker.

As Shen Lang guessed, this is a completely different world atmosphere from the Earth, and it is transmitted because of the cracks in the space.

At this time, Shen Lang has reached another world.

Seeing it in the eye is a continuous stream of thousands of miles of yellow sand, high temperature and dry, thin air, making people very uncomfortable.

However, it did not have much impact on Shen Lang. When he came over, he was ready. Without knowing the situation, Shengjia was protecting himself in all aspects.

“Yue Zhennan?”

In addition to the Wanli Yellow Sand, there is a sitting back in the distance.

Shen Lang immediately flew past, take a closer look and confirm that it is Yue Zhennan.

Seeing that he looks like he is practicing, but it may also be in the bad environment of the game.

On the surface, his body has not changed much, even without obvious dryness. It is not easy to stick to it after he has disappeared for more than ten days.

“Wake up.”

Shen Lang called out and found that he did not have any movements, and then checked it to make sure he was in a state of consciousness and coma.

There was no more stoppage at the moment, and he was ready to take him back.

The environment of this world is much worse than the earth, not just barren, it is just bad! It is completely incomparable with the mainland of China, or the dead forest.

In addition to the visible environment, there is also a breath, that is, the strangeness felt there, should be unique to the world.

Without knowing the whole world, such judgments are based on the first impression, and there may be another colorful aspect of the world.

For example, people from other worlds appear in the big desert, mistakenly thinking that the earth is a desert world, or appear on the ocean, mistakenly thinking that the earth is the sea world, all one-sided.

However, now Shen Lang does not have the heart to understand more about it. What kind of atmosphere represents something, he can't tell. In this regard, he did not have much curiosity. After bringing Yue Zhennan back, try not to let this unstable crack increase.

He took Yue Zhennan and soon returned from the original road.

Seeing that he brought a person back, Desolation and Dorothy came over to help.

“He should have entered the side passively because of the accident, but for the time being, nothing, you take him to the side.”

After Shen Lang commanded it, he began to get busy.

Dorothy doesn't know what he is doing, but he is faintly stunned. Shen Lang is in the array!

Even if there is no space crack in the shape, it is also a danger. This array is not only to prevent people from coming over there, but also to prevent people from being curious about it.

It is impossible to prevent the number of specifics.

Shen Lang is now doing his part to create a hindrance. It is best that there is no one there and no one is found.

After completing a formation, Shen Lang quickly flew out to the side.

Surprised by Desolation and Dorothy, he actually moved a small hill in the distance!

After the hill head moved in, it directly pressed the original piece, and it was merged with the surrounding environment. It basically avoided getting ordinary people to come close.

“The master is too powerful! Is this your legendary slogan?” Dorothy admired the praise.

Shen Lang smiled and said: "This is nothing, but it is a mound. If you can move the Himalayas, it is a miracle."

"But... people who are familiar with the environment can still see the abnormalities, but may make people doubt?" Desolation is a little worried.

"Do not worry! Who knows the mountain with no value? There is also an elderly person who is old. Who can think of the change of the mountain will be artificial? It is strange, it is also suspected to be wrong. As for the other side Traces are estimated to be used as someone to dig."

Shen Lang is not worried. Even if he is really suspicious, he will feel that it is very evil here, and it will make everyone not close.

They did not stay much, and returned to Yuejia directly with Yue Zhennan.

Shen Lang's knowledge searched for Ye Yao and Yue Gang, and they directly informed them to come over.

When he saw the unconscious son, Yue Gang was shocked. He was also respectful to the arrival of Shen Lang.

"Master Shen, Zhennan, this is..."

"Thank you Master Shen! You really got Zhennan back!" Ye Yao is very excited.

After Shen Lang promised, there was no news, and she once doubted whether she was perfunctory.

Because she also suspected that Yue Zhennan did not want to see her hiding, in that case, Shen Lang is his good friend, of course, will be with him.

Now the husband has been sent back, although the state is not very good, but at least not the situation she is worried about.

“Ye Yao asked me about the situation, and I rushed back. Fortunately, I didn’t want to insult, but I found someone, and he will wake up and talk about it!”

Shen Lang simply said let them not worry, they sent them out.

Then he injected a vitality and let Yue Zhennan wake up.

Yuezheng, who woke up, the whole person was still in a state of paralysis. After a while, he recognized Shen Lang.

“Lang brother, how come you? This is... my home?”

Shen Lang nodded: “What happened? You have been missing for more than ten days, I just found you back.”

“More than ten days!”

Yue Zhennan was shocked. There was still a bit of confusion. How could Shen Lang appear? It was shocked to know that it had disappeared for ten days.

“I sent you back, your father and wife have seen it.” Shen Lang comforted a sentence, indicating that he had a glimpse of the situation before the “missing”.

Yue Zhennan was relieved. Since he has already returned home, it will not be bad for a while.

Chapter 959 - Tianshu retreat

The situation experienced by Yue Zhennan is similar to that conceived before Shen Lang.

He knew that before Mr. Mo Qi followed Shen Lang for a period of time, he arranged to protect the parents of Shen Lang. Although the last incident, but Shen Lang did not blame Mo Qi, has always been good to him.

Therefore, he went to worship the parents of Shen Lang, and also called Mo Qi together. As for the rest of the Yue family, there was no notice, and it was told by Ye Yao. After all, it was his wife.

This is not the first time, nor is it a thousand mountains and waters. There is no danger in normality, so there is no concern at all.

But this time after worshipping at the tomb, they all felt that the neighborhood seemed a bit abnormal.

Then I searched the past one by one, and finally arrived at that place.

They are completely ignorant of the situation, just pure curiosity, and they did not expect any consequences. After all, there is no abnormality.

The result was that when they were still unclear, they searched, and they were abnormal because their strengths were too weak to know what was going on. People were already in a coma, and then they woke up, just now, so they felt very surprised.

He felt inexplicable, and Shen Lang was a bit disappointed.

On the one hand, there are no clues. Yue Zhennan wakes up and supplements, and he has not learned much about himself.

On the other hand, Mo Qi is still missing!

For Mo Qi, Shen Lang has something to do with friendship, but to save his parents' benefactors, so if he is in trouble, he must be saved.

However, in that world, he has already clearly sensed it. There are no other figures except Yue Yuenan. Then there is the Wanli Yellow Sand. Looking around, there is no direction for reference!

“Mr. Mo Qi...?” Seeing the look of Shen Lang, Yue Zhennan, who has calmed down, immediately guessed a few points.

Shen Lang nodded. “You disappeared there, and then disappeared for more than ten days. I didn’t see the traces of Mo Qi at the scene. I found your space and I didn’t see his shadow.”

Yue Zhennan frowned, and then a little annoyed.

“It blames me... If it wasn’t for me to let him go with me, if it weren’t for us to go there... he wouldn’t be missing...”

Although the word “missing” is still used, he knows very well that it has been more than ten days. Now even the powerful waves are unable to find traces. It is estimated that it should be gone!

Shen Lang is also very clear that Mo Qi is no longer missing, but confirmed death.

Although there is not a big space crack, the impact is much smaller than that of no return to hell, but the realm of both of them is much weaker.

No return to the sea of hell into the chaotic space, the impact can make a lot of stuns in the past. The space crack in the mainland of the island is much smaller, and it can also save the real life of Fuyang.

The situation here is nothing for Shen Lang, but for Mo Qi, who is still not in the virtual world, it should be fatal.

The two of them should be mistakenly entered at the same time. As a result, Yue Zhennan did not have any serious problems. Mo Qi was gone, which is not difficult to understand.

Perhaps they are sucked in. Even at the same time, the weaker Mo Qi is one step ahead. It is very likely that he has suffered all the impact and the body has shattered.

Because of this, there will be no major damage to Yue Zhennan.

Although he has the heart to save Mo Qi, but for his own judgment, Shen Lang still has confidence, especially the Holy Grail, there are still living people, it is impossible to detect.

Even if you go back and run again, it must be in vain, knowing that there is no result, and it is not a good idea.

“That place is a bit weird, I have sealed it, I hope no one will be killed anymore!”

Shen Lang sighed, and since Mo Qi has already done this, he has no way. “You take a break, they are waiting to see you, I am leaving.”

After a few words, he is ready to leave a little resources for Yue Zhennan.

But I haven’t taken it yet, Yue Zhennan has already guessed it, and first blocked it.

“Lang brother, I don’t have to give me Lingshi. I used to give you enough. Give me too much, but let me not practice on the ground.”

He refused in a joke.

Shen Lang glanced at him and knew that he had the dignity of a man.

If you can’t have value, just a unilateral gift, some people will be ecstatic, and some people will suffer.

And everyone’s sentiment is actually half a year ago, the more the gifts, the more the friendship is diluted.

Yue Zhennan is not trying to tie the waves, but hopes to leave a trace of friendship.

After understanding his mind, Shen Lang did not insist.

Similarly, he did not stay too much. The level of everyone is different. The topic is about the old, or there is not much common language around Pingxi. The chatter will also dilute the friendship.

When they left and left, Yue Gang and Ye Yao thanked him again.

“Do we still have to go there again?” After he came out, he asked in a low voice.

At that time, she was handed over to Mo Qi. For Mo Qi, who was not able to return to the Yuan dynasty at that time, he could quickly complete the thief-turning phoenix under the eyes of Chu masters. He also admired his courage.

Shen Lang shook his head: “It’s useless, it should be gone.”

This answer, let the desolation not say anything more, Shen Lang said, it must be like this, and then go in vain.

Come back to visit your parents, and you can’t eat a meal and stay for one night. Since it is not a problem for the time being, Shen Lang decided to live for a few more days.

For the parents’ body, he is also very concerned. Since the cultivation, it is a lot of health, but after all, the qualifications are limited, mainly relying on his previous promotion.

Now Shen Lang decided to study the world of Golden Heaven, while letting parents practice there to see if they can raise them to a higher level.

Parents are of course reliable and whether it is bleak or Zheng Yumeng, it is also reliable, including Dorothy. These are all trustworthy and willing to benefit them.

Originally because of the relationship between falling rain and falling canoe, he was also regarded as a predecessor for Luohe, and he was willing to benefit her. I did not expect her to be insatiable.

The last temporary test was a hundred minutes of testing and one minute outside. A hundred times of time is tested, but the limit of how long it can stay, but still far from being tested.

Now Shen Lang decided to test it directly for one year!

In the world of the book of the year, there will be more than three days outside. It won't affect much. If this can be done, even if it can't be a hundred thousand years, the longevity of 10,000 years is enough.

One year of cultivation, saying that the length is not long, and that short is not short, so let Zheng Yumeng prepare resources. The large piece of fire spar brought back from the mainland of Nakajima is enough for her to absorb for a long time.

And his parents did not consume much, and the casual Lingshi elixir was enough. Dorothy evolved on her own blood that absorbed the previous stock.

Chapter 960 - After 3 days "1 year"

From a logical point of view, the world of this golden book will inevitably have limitations, and there may be side effects, but it is not found, or else it is already a god.

However, because it does not understand its origins at all, it is not known how to explore, and it depends entirely on testing.

This time, Shen Lang used the time of the year, and there was no limit, and no side effects appeared!

Fortunately, the implementation has already been said to them, otherwise everyone will not be able to stand it. Even so, it feels incredible.

I don't know if it has been more than three days since I was outside. I have been able to withstand the body for a year. I haven't eaten and drunk Lazard, so in it, basically 100% of the time is spent on cultivation.

The efficiency of light is already several times that of daily cultivation. After one year, it is equivalent to normal cultivation for several years.

And Shen Lang will not be sorry for his parents, that is, their bodies can't bear too much, and Lingquan, Lingshi and the like can only absorb them a little.

This time, he personally guarded, resources and assistance, directly helping his parents to continue to improve, and finally to the level of the virtual world!

Although it is not so easy for them to learn how to use spells, at least they will be healthy in the body, and Shouyuan will be significantly improved. Everyday, there are thieves and the like, and they will not hurt them. They can have certain self-protection ability.

Dorothy wants to absorb the evolution of blood. What is needed is time. After one year, let her strength advance and approach the peak of the gods!

By absorbing the energy of the fire spar, Zheng Yumeng broke through the middle of the realm of the gods in a year, and approached the late stage of the gods.

Shen Lang himself, assisting parents is only a very simple matter, and no other time is idle, which is equivalent to the time of cultivation in a few years. Of course, he is also a huge harvest.

He did not rely on his own cultivation, but made full use of the existing resources.

The two 100,000-year-old deep-sea turtles in the sea, Nei Dan, he took one, and absorbed the cosmic energy collected at the bottom of the pyramid, directly let him complete the semi-sacred scene!

At the beginning, he thought that if he could retreat under the pyramid for a few years and absorb the energy of the universe, he should be able to break through to the semi-sacred world. He did not expect to realize it in the way he is now.

Re-cultivation to the semi-prestige realm, Shen Lang feels a feeling of “doing nothing from the heart”, no longer have to worry about other famous big names, and it is estimated that the strongest hidden predecessors on earth at that time This level is up.

The world of Tianshu has not yet had restrictions, and he has not felt any side effects, so he is also amazed.

It is also a bit embarrassing. Such a magical ability can't be blamed for the greed. If this is obtained by her, even if there are not so many resources and spend more time, there will always be a breakthrough.

In a year's time, Shen Lang did not continue the test, and brought them back to reality.

For a long time, because they are all practicing, in fact, everyone does not feel difficult. When the two things I forgot, the time lapse did not feel anyway.

However, the difference in personal physical condition can still be clearly felt. It is Shennan Han Fengying and his wife. They also know how long it will take to reach this level. There is no doubt about the time of the year.

Comparing the clock tools, mobile phones and other timing tools in real life, it is only after three and a half days that the confirmation is really amazing.

However, for the Shennan couple, their biggest surprise is not to have extraordinary ability, but the time with their son!

The time spent day and night, only when the child is very young, can only be seen at night after starting kindergarten. Later, Shen Nan went to work outside, and it was the Chinese New Year to see the last time.

After the middle school stayed in school, Han Fengying could only see his son on the weekend. Later, the longest one was that there was no audio track for a year and a half, and then it was more and more.

The year that can be accompanied by day and night is almost something that I never imagined. It is almost impossible for a few parents and children to grow up.

Therefore, they all feel very happy. With a son on the side, you can practice with peace of mind.

The cultivation is over, and the old couple are still very excited. They said that they would go shopping for food immediately. They should have a good meal and let them go back to the opposite side to take a break. Wait until Zhang Luo is good to ask them to have dinner.

Shen Lang is slightly awkward, because it is obviously an opportunity for them to get along with each other in three private ways. It is clear that they will go out to buy food and come back to cook. In the past few hours, they will not be their light bulbs.

The feet are not obsessed with temperament, and they do not think about it.

In the realm of Shen Lang, there are actually not many men and women who are hungry. In his state of mind, he is not a hot period of more than twenty. Even if it is as beautiful as a flower, he will not take the opportunity to lick.

However, after all, the “one year” retreat, naturally it is necessary to wash and dress better.

After waiting for the shower and changing clothes, Shen Lang only had time to open the phone.

As soon as the result is turned on, it continues to receive short messages.

Some of the things that would have been received were spam like advertisements, but now there are many messages from the wind.

Shen Lang looked at it roughly, probably because he was afraid of being filtered by the system. It was more concealed, but it fully showed her anxiety.

He immediately logged into WeChat, because it cleared a lot of irrelevant, but the information is not so much, and soon received the message of the wind no Jifa.

The content of the wind without Ji Ji is updated again and again. It is more detailed here, and it is also refined. The visit basically understands what is going on.

However, this was a surprise to Shen Lang.

It turned out that Pingxi has a big deal here!

Although the wind is not far away, it is far away But because this is his hometown, I am more concerned about this side. After receiving the information, I will contact Shenlang immediately.

The result is that the connection is not possible, and the Tianshan Jianzong has been networked, and they are highly sacred to them. They also know that Fengwuji is a spokesperson of Shenlang in the secular, so they are related to each other.

Through the contact of Jianzong, I learned that Shen Lang had left Jianzong a few days ago and went back to Pingxi's hometown.

Even if Jianzong and Feng Jiji did not know the things of Shen Lang's parents, even if he knew that he was going back to his hometown, he thought he was going to pay homage to his parents.

However, there was a huge movement here, and the wind couldn't be connected to the waves, so she was nervous. Although I know that with his strength, there should be no danger, but I am still not worried about it.

Shen Lang himself is far better than her, and there are Zheng Yumeng and Dorothy around, so even if she is worried, she is afraid to come over and add to the wind.

But I still quickly heard the news, after confirming it, sent it over here, even if I didn't know that Shen Lang couldn't see it.
