

## First Strong 961

Chapter 961 - Pingxi Troll!

In the incident of Pingxi, there was a troll!

Just two days ago, Pingxi suddenly emerged as a “troll”, which directly smoothed the comprehension forces in the Pingxi area.

The weight of Pingxi is still too light. Now it is only because of the hometown of Shenlang, but there is a little popularity, and the attention is not enough.

The news will spread because the trolls swiftly expanded and swept all the comprehension forces in the border areas of the three provinces in one day!

The area adjacent to the border is large, but it does not add up to half of the province. However, because of the relationship between the three provinces, the news spread from different directions, and the three provinces were fermented, and they were quickly enlarged and confirmed.

The realm of comprehension has gradually declined. Under the rapid development of modern scientific and technological civilization, it has long been low-key convergence. Even if a strong man is born, such as the waves of the past few years, it is only a challenge in the realm of the realm.

It's completely unruly like this, and I don't know how long it hasn't appeared.

Everyone thought that there was a monk who wanted to make a name for himself. After all, there was a deep wave in Pingxi. Didn't get to the front door, even if it is a big name, I don't want to talk out casually.

However, all aspects of information collection, but found that this is called a “troll”, is not a nickname, but may be really an alternative creature!

If it is a beast, it will attack all humans, or attack one or two places, it is impossible to accurately select all the comprehension forces.

If there is really something wrong, then it is not that someone wants to go up, it may threaten everyone.

Especially... It is said that the demon eats people!

All the strengths are strong, all of them are eaten, and the fish that leaks information is a small and insignificant role. It is precisely because of this that it will be named “troll”.

After more news spread, the comprehensions of the three provinces were all waiting. There are even some strengths that are not strong enough to directly disperse the road and sneak into major cities.

The latest news is that under the precaution of everyone’s exchanges, the trolls have not yet been discovered.

The analysis of different comprehension groups, suspecting that this troll should be “satisfied”, hid and digested.

But how long this process will last, one day, two days, or one month, no one knows.

Therefore, some people have suggested that everyone must be connected together, and before the trolls are dispatched again, they will be found to be killed, or else there will be more fellow victims.

This initiative has received many people’s responses, but it is basically a middle- and low-level family sect because they have no sense of security and hope that someone will come out.

The famous big factions have not made a sound for the time being. On the one hand, they may have private contact with each other at the same level. Unlike the crowds of people, the wind can be infiltrated, and they do not know their information.

On the other hand, they should also be constrained that disciples cannot speak out. Without any grasp, I don’t want to be a hero.

Everyone was disappointed with the wait-and-see attitude of this famous group.

But no one dares to force which door to send out the leader. Until today, some people can't stand it and start calling for the waves!

Before Shen Lang had collected Lingshi, once again went to the non-returned Hell, and rescued a group of masters who did not return safely. This is a recent event, and it is a legitimate hero.

When the predecessors who did not have the old sects came out, everyone put their hopes on this young hero and hoped that Shen Lang could create another miracle.

After someone took the lead, they immediately got a huge number of second-party proposals.

But at the beginning, I hope that Shen Lang will come out and lead everyone to find and destroy the troll.

But it soon changed, and turned into a wave of smashing out to find the annihilation troll!

Of course, at this time, no one is shameless enough to let the sun dry, and will not feel that the waves will be dry, and they have expressed their willingness to donate money to raise funds for Shen Lang.

But even if you are willing to pay, can you please move the waves, it is still a problem. As for the last time people sold tickets, they got a few hundred fine stones. Their middle and low-level martial art families, and even a lot of fine stone, can't be found.

If you want to impress the waves, you can only be more enthusiastic and praise, and hope to start from the reputation of reputation.

Seeing this, Shen Lang suspected that there were a lot of people looking for the wind at this time, and before the wind could not contact him.

"I'm fine. I used to practice retreat. I will pay attention to this matter."

After replying to the windlessness, Shen Lang immediately began to think about it.

It's a coincidence that the time and place of this troll appeared.

In any case, Yue Zhennan, who was rescued from different time and space, is the biggest suspect.

Didn't he die there, and what adventures did he get?

Shen Lang did not carefully check his body that night, but it was only a day's time. How could it be difficult to make Yue Zhennan become a "troll"?

It's just that there is nothing to deal with in Pingxi. You don't even need to save the real world. You can easily do it with a glimpse of the peaks. But within one day, the comprehensions of the three provinces are pulled out, not to mention anything else. The speed of light is very fast.

If it is not Yuezhennan, then Yuejia is the largest one in Pingxi, and it is very likely that it will be found first!

Shen Lang immediately called Zheng Yumeng and Dorothy. He told the situation to them, let them immediately find his parents, protect them, contact him at any time, he would go to Yuejia. At a glance, find out the specific situation.

It is rumored that the trolls can eat people, but they may be rumored to be rumored, but by engulfing the self-cultivator to enhance their strength, this evil door is snarled, let alone the past life, and the same is true of the hundred ghost gates he has seen in this world.

Pingxi has been flattened, and if this troll is still in Pingxi, his parents are in danger.

Of course, Shen Lang does not believe that this person has a huge range of sensors. It is estimated that he will look for the door according to the address. If he is not at home or not at the scene, he will miss the net. He may not find his parents.

But this still needs to be defended first.

The two people who had just finished the shower also quickly changed clothes.

Shen Lang flew directly from the balcony to Yuefu Garden.

In the sky above the Yue family, the knowledge of Shen Lang quickly shrouded, but it was a surprise to discover a fact – Yue family is fine!

Obviously, the Yue family now has a lot less people, and the ones that remain are nervous, but they have not been traced by blood.

But this is also to sink Shen Lang's heart.

According to the information of Feng Wuji, the entire Pingxi, and even the three provinces in the vicinity of the border, were pulled out, but the Yue family had nothing to do. Doesn't this explain the problem?

If Yuezhen South becomes a troll...

Chapter 962 - Suspect of Yue Zhennan

Yue Zhennan is not only a friend of Shen Lang, but he is saved from that world. If it is really a troll, then he is also responsible.

How to face it? Solved him?

Shen Lang just got the sense of the gods and found that Yue Zhennan was not in the Yue family, which also made the possibility a bit more, and it is very likely that it is now hidden and absorbed.

He immediately landed at the door of Yue Gang's house and went straight to the door.

"Who?" Yue Gang found that someone came in and jumped up immediately.

"Shen... Master Shen?"

When he saw Shen Lang, he was excited.

Shen Lang nodded and sat down beside him.

“Follow me, what happened to Zhennan.”

“Yes, yes... wait, you are saying...” Yue Gang, who promised again and again, suddenly screamed.

“Is it still used? All happened, the Yue family is fine, the children and the younger generation have left, leaving you here. Yue Zhennan is not there, isn’t it clear?”

Shen Lang does not want this result, but the fact is that.

“No, no, you misunderstood! Zhennan is not a troll!”

Yue Gang, who just sat down, jumped up excitedly.

“Yes, Pingxi’s comprehension family has an accident. It is said that there are accidents in the border areas of the three provinces nearby. But it really has nothing to do with Zhennan!”

He quickly explained to Shen Lang that he was emotional, because he was not ready, his tone was a bit confusing, and he could even hear it.

When the trolls swept the west, the Yue family was the first to bear the brunt.

At that time, Yuezhennan, who had rested for a day, basically recovered seven or eighty-eight. He was the pillar of the Yue family. When he found a problem, he of course went straight to confront.

Like Yue Gang, I didn’t actually see what the troll looks like. It’s Yue Zhennan’s fight against it. At the time, I only thought of ordinary challenges, not even much worry.

After all, Yue Zhennan is also a virtual world, and it should be similar to challenge him. If it is very high-level, even if it is not directed at the face of Shen Lang, it will not bother to find trouble with Pingxi.

After Yuezhennan came back, he immediately asked Yue Gang to arrange for everyone to evacuate Yuefu Garden, try to spread it out as soon as possible, leave the local area as soon as possible, go to distant relatives, or stay in other big city hotels.

Especially Ye Yao, they know that after they have been pregnant, they are all focused on protection. It is a continuation of blood, and she is scheduled to leave.

Under the request of Yue Zhennan, I can't go back to Ye Family, and I can't go back to her teacher's door.

Judging from the situation at the time, Yue Gang thought that there were enemies with big heads, similar to the Chu family of the time.

He feels that his son is not sure, but he has his own dignity and wants to fight against himself.

He sent his father and uncle, and this time he didn't want to even have his son. His old face doesn't matter, he can get out of it, so he calls directly to Shen Lang for help.

The result is that the phone of Shen Lang can't get through!

Every time Shen Lang returns, it will be much stronger. Yue Gang is also trying to find out the situation of Shen Lang. He knows that Shen Lang is not only the first in Pingxi, but also the best in the world.

Now this biggest reliance, actually can not be contacted at critical moments.

He would not misunderstand that Shen Lang was deliberately not picking up his phone, because according to the information he had inquired before, Shen Lang often disappeared.

In the latter case, there is no help. Only relying on his son, other younger generations, especially small children, are quickly dispersed. The rest of the time is a nervous wait.

At that time, I still didn't know the severity. Many ordinary people who didn't practice were left behind. Guess that even if there are enemies, it should not hurt ordinary people.

The information behind the other families, as well as the information in the field, they are also seen from the phone.

After being arranged to them, Yue Zhennan disappeared again.

Until now, the news outside is more and more horrible. Even if their channels are limited, they have heard many rumors.

When I knew that Pingxi was finished, even the comprehension forces in several areas in the vicinity of the three provinces were finished, so that they were worried about the disaster every day.

In addition to worrying about Yue Jia, as a father, Yue Gang is still worried about whether his son can return.

Now finally seeing the emergence of Shen Lang, he is of course very excited, but did not expect that Shen Lang mistakenly thought that his son is a troll, let him quickly explain.

After the explanation was over, Yue Gang looked nervously at Shen Lang, for fear that he would not believe it.

"Zhennan people?" Shen Lang nodded, a little gratified.

But in fact, doubts have disappeared.

If it is not Yue Zhennan, how can he resist the troll with his strength in the virtual world? Even if you are lucky enough to escape, how can you still catch up?

In the case of the case, it is impossible to prove that Yue Zhennan has evidence of absence in the words of Yue Gang. On the contrary, he is the most likely to prove him from time!

However, the suspicion is also intellectual, and the emotional swell does not hope that Yue Zhennan has become a troll.

“do not know.....”

Yue Gang smiled bitterly. “The phone didn’t work. He didn’t come back in the past two days. I asked Ye Yao and I didn’t contact her. We don’t know where he is.”

Shen Lang took out his mobile phone and called Yue Zhennan’s phone. It turned out to be in a shutdown state.

Yue Gang is also a bitter face now, and he wants to talk and can’t say it.

“Do not worry! He is my friend, I will save him back.”

Shen Lang saw Yue Gang’s entanglement and wanted to ask him to save people. He was afraid that if Yuezheng South was really related...

“Thank you, thank you...” Yue Gang can only mutter thank you.

For the young man in front of him, he still needs to rely on the Yue family, but now he is the savior of the Yue family.

There is no answer here, Shen Lang did not stop, and immediately left the Yue family.

Before he left, his gods carefully searched the Yuefu Garden.

It is entirely possible to lie about a close relative. He is not good at directly searching for Yue Gang’s memory. When he first came, he was a rough sensor and then suspected that it was related to Yue Zhennan. Then I will hurry.

Keeping calm and searching more carefully, I found a situation that I just ignored!

On the same day, he felt the strange world in his previous life!

The cracks in the space there did not form. He used to force the past, and there was no continuous transmission of the atmosphere there.

The abnormality sensed on the day is also a residue.

When he was there, of course, it was very obvious and strong, but after bringing back Yue Zhennan, he did not feel it in him.

Now, there is a touch of faint residue in the Yue family, and the specific location is naturally the place where Yuezhen South lives!

This makes the haze of Shen Lang's heart unable to dissipate. It is imperative to find Yue Zhennan.

Chapter 963 - Hunting hero

The clues that Shen Lang has now are the breath of the different worlds. Since the Yue family will have a residue, the Yuezhen South must be there.

Even if he is not a troll, he can find the troll with the troll.

It is only the scope of the sensory sense that there is a distance limit. Even if he breaks through the semi-scented world, it is much larger than before, but it is impossible to sense hundreds of miles away.

However, since it has a relationship with that different world, in that place, it may be able to wait for the rabbit. It's just that the troll's current situation is not known.

It is said that a lot of comprehensions have been swallowed up. If he grows up, he might not want to go back, but continue to expand the scope of plunder!

There is only one stupid way to do this, which is to expand the sensing range as much as possible, and then fly over the Pingxi area, carpet search.

This efficiency is relatively low, and it takes a long time to consume. If the target moves the seat and reaches the area he has searched for, it is a busy one.

At this time, the video of the wind has not come.

Shen Lang was connected immediately.

“I know you are fine!” Seeing the waves, she patted her chest and smiled gratifiedly.

Looking at the wave of the palm of her hand, Shen Lang smiled and said: “What can I do? The area of the evil demon can help me.”

“But... do you have any clues?” The wind did not hesitate, but said the truth.

Everyone eagerly called Shen Lang out to be a hero, but did not get any response, the wind is no joke is just a set of words, which makes a lot of can not stand.

After all, the situation is too special, and it has been a day or two since the incident was filed. Who knows that the troll will commit crimes the next time? Where do you commit crimes?

In the atmosphere of fear, some people began to use the radical method. Say that Shen Lang is not afraid, or is too greedy, and does not have enough benefits to do so.

There are some things to say later, and even some people, doubt this troll, if it is not good, it is cultivated by Shen Lang!

Because there is no other great martial art in Pingxi, there is a deep wave. Now this troll, like the Shenlang that year, is inexplicably appearing, and his heart is full of sorrow.

Radical law, conspiracy theory. The purpose of everything is to let Shen Lang come out and prove himself.

The best way to prove that you have nothing to do with the troll is to kill the troll!

Compared with asking for help from Shen Lang, even if you use the name of “hero”, it is still not enough. You still need everyone to raise funds, but the conspiracy theory only needs to speak out.

I want to understand – or some people instigate, start more and more people, in the various groups of the realm of the truth, to promote this conspiracy theory, let Shen Lang come out to face.

Shen Lang laughed and ignored. This is the rest of his play, when he was not strong enough, it was also a variety of momentum. It is impossible for these low-level ones to let him jump out to clarify.

He will be so tight about this because friends may be trapped in it, and because so many innocent people are being leveled.

When Shen Lang was about to marry her to follow up on the latest news, she saw that the wind was shaking, and she was looking at the information on another mobile phone.

“The latest news, the troll appeared in Tiancheng!” Feng Wuji said quickly.

Tiancheng?

Shen Lang is of course impressed, an area hundreds of miles away.

“Send the relevant information to me, I am now.”

“Good! Be careful!” Feng Jiji did not drag the water, just let him be careful.

After Shen Lang hung up the video, he was ready to drive the cloud to fly over and watch the phone information. Just in the process of just talking, Zheng Yumeng has sent a message, saying that they have found and accompanied his parents.

He immediately returned a message, letting both of them protect their parents, and he left for a moment.

The troll will attack Tiancheng, but it is not unexpected.

Because the Pingxi area and the other two provinces bordered, the trolls swept the neighboring areas of the three provinces in one fell swoop.

Tiancheng is one of the areas that have spread out. The next step of the troll, if it is still following the distance, is the goal.

Because of this relationship, the comprehension forces of Tiantian City in these two days are like the ants on the hot pot. They are timid or cautious, and they have arranged for everyone to run.

There are also unbelief!

Names can bring benefits, such as everyone is willing to raise funds to raise funds to ask Shen Lang to shoot. The rise of Shen Lang in the past two years has played a role model, so that some people do not want to be low-key, and want to make a name for themselves.

This time, for them, I feel that the opportunity is coming. Going to the sea of innocence, they are not qualified, do not dare to take risks, but this troll, still feel exaggerated, can not be some of the lower-level sects have been sneaked.

So in the past two days, some people quickly assembled. They exchanged information and cooperated with each other. They were ready to unite and became famous for killing the trolls.

According to estimates, Tiancheng is likely to be the next target, so these people contacted the largest of Tiancheng and encouraged them to stay in the final battle.

Most of Tiancheng's comprehension forces have ran away. The biggest ones that have been instigated are certainly not willing to take risks, but they don't mind giving them a "backdoor".

In other words, the few homes that Tiancheng still keeps are not the original masters, but the "troll hunters" from all over the world.

They are still one, and the reason why they are not concentrated in one place is for comprehensive consideration.

The troll is as fast as the legend, but it is impossible to split into multiple places.

If it is empty for several consecutive times, maybe you can change a city directly, then they will do it. If you succeed in grasping, you will count on the ambush. If you follow it, you must lose.

In the largest few people, the possibility of encountering a troll is great. And they can communicate with each other. Once there is news, in other places, immediately rush to support.

And in case of time, can be set up in multiple places.

Just now, Feng Wuji received the news that the troll appeared in Tiancheng, which was the news of these spontaneous “Troll Hunters”.

They have a special group of intercommunication news, and some people specialize in releasing news and acting as a public opinion.

They also have a resounding name – “Heroes of the Devil”, in such a way, to create a brand, and then complete each of them in detail.

The troll’s trace will be released to the outside world, that is, to attract the attention of the whole world, let everyone know that the “Heroes of the Devil” is acting, and is fighting with the unruly troll!

It is conceivable that Shen Lang did not come out as a hero, and it will inevitably disappoint many people. When other people come out, they will be applauded, and they will step on the waves.

Shen Lang does not need such a reputation, but the clue is still needed. When he was on his way to Tiancheng, he asked Feng Jiji to collect as much information as possible and put it to him.

## Chapter 964 - survivor

When Shen Lang went to Tiancheng, the sky was already dark, and Feng Jiji paid attention to the information of many channels. Not only the information released by the “Heroes of the Heroes”, but also the fake information boasted!

Of course, there is no difference in the nature of comprehension and ordinary people. In the face of such a major event, there will be various rumors, as well as all kinds of rumors.

For this information, Feng Wuji has tried to screen out it before giving it to Shenlang. Even so, he can't guarantee complete truth, so Shenlang can only refer to it.

What Shen Lang actually needs is where the trolls appear. It doesn't matter if other true and false, bragging.

When he received the message, he said that the troll appeared in the Sixiang Gate of Tiancheng. After he arrived, the information gathered was that he was kept at Sixiangmen and suffered heavy losses. All others gathered in Tiancheng Zhangjia.

There are many kinds of information, but most of them are not reliable. After the wind is not selected, it is more reliable. That is, the trolls appear in the Sixiangmen. The specific casualties are not clear.

As for whether other people have gathered in Tiancheng Zhangjia, how many people remain, it is not known. It is said that the latter publisher will not release the latest information.

I don't know if I can't contact the front line, or if he is on the front line, he has already been killed.

The address of Sixiangmen and Zhangjia is also ready for Shenlang.

In order to save him time, it is not a text address, but a detailed picture of the map. In addition to the destination, the distance from some landmark buildings is clearly marked. Even if it is strange to the city, it can be easily found. .

Shen Lang is now going to Sixiangmen. Of course, what is the point. He came to Zhangjia directly.

Now it is equal to running against time!

With the speed of the troll before the road, if it is scattered in different counties, cities and mountains, it will delay a little time. If it is all in the urban area, it will greatly facilitate its speed!

However, this troll, whether it is Yue Zhennan or not, is a sudden attack. Even if you know the address, you still need to search. It will not be like Shen Lang, someone will help him sort out the specific seat.

I hope this possibility makes him slower...

When approaching Zhang's home, Shen Lang felt the familiar atmosphere!

He drove the whole cloud, and the speed of the flight was very fast. Before that, the distance was far apart, and he could not make a wrong direction, so it took a certain amount of time.

When I arrived at Tiancheng, there was a detailed map of the wind and no Ji, so that he could fly quickly.

At the moment, it has landed directly. Zhang is not a community like Yuejia, but a big house. It is estimated that this is the home base of Zhangjia.

But now it is dead!

When Shen Lang landed, the gods had quickly searched the whole Zhang family carefully.

no one.

According to the information of Feng Jiji, Zhang's people should have been withdrawn in advance, and the monks who are here are also the heroes of the hunters.

But now, in the Zhangjia House, there is no shadow of these hunting monks.

In addition to the smell of the world, there is no smell of blood.

However, Shen Lang's search can still feel the traces of fighting here. The aura is obviously more chaotic than the surrounding, and it is not a practice, it is a variety of traces.

But... that's it!

On the scene, Shen Lang estimated that the heroic monks of the Demon Hunting Group gathered here from Tiancheng several times because the news of the Sixiangmen came out and they were ready to concentrate on the whole battle.

It is a pity that when the trolls came, they had the opportunity to shoot, but they did not have the chance to beat their opponents. Then they disappeared.

They came to fame for a war, but after all, life is the most important thing. Once they are in danger, they will definitely run away immediately.

However, in terms of the style of the trolls before, it is estimated that there will be no more escapes, more disappearing...may be swallowed up!

Shen Lang focused his attention on the residual breath.

This time because of the short time, the atmosphere here is strong and obvious, as long as he distinguishes with his heart, perhaps he can also find out the trajectory of coming and going!

Of course, the difficulty will be relatively large. After all, the other side is definitely moving fast, the residue will be very weak, and it will naturally dissipate.

At this time, the phone rang, and the incoming call was the wind.

Shen Lang looked at it and knew that she had called directly. It must have the latest information and I immediately answered it.

“Look at the west side of your place, is there a tall building?”

The gaze of Shen Lang has shifted the past, and the knowledge of God has directly extended the past.

He was all in this big house, and he didn't pay attention to the distance.

“The one that they hunted the news of the magic group was hiding there. I have been in contact with him for the latest information. He started to be wary. Just contact me and ask if you are there.”

“Understood. I will go!”

Shen Lang said that he had hung up.

The person who posted the information was observing the situation here at a distance, and now it should be considered a survivor. When he discovered his arrival, he took the initiative to contact the wind and confirmed.

At this moment, his knowledge of the gods was also detected. On the roof of the building, one person was shaking.

He was hidden by camouflage, holding a telescope in his hand, staring at it, and the other hand was manipulating the phone, and everything corresponded to the wind.

Shen Lang quickly and quickly flashed from the air to the top of the building.

The man saw that Shen Lang answered the phone and looked at it. He has confirmed a few points. But the sudden disappearance of Shen Lang, or let him nervously throw the telescope.

But before he could escape, he found that Shen Lang had already arrived in front of him.

“You, you are... Master Shen Lang?”

Everything has just been matched, and then look closely like the look of Shen Lang. After he asked a sentence, he rushed over with excitement Save me! Master Shen saved his life!  
”

When he rushed over, Shen Lang did not stop in advance, but waited in front of him and reached for his forehead.

He directly gave the person a reservation, and at the same time directly began to invade the person's brain and quickly read his memory.

Compared to the dictation under the flustered tension, it is still a matter of reading the memory directly.

It is inconvenient for Shen Lang to start with Yue Gang. For this hunting monk who does not know this, there is not so much politeness.

With his current cultivation and the huge gap with this person, the invasion realized that reading memory is a matter of moments.

This person really saw it!

He was hiding in the distant rooftop, and he was prepared to look through the telescope. As long as he was inside and outside the house, on the roof and over the sky, he could have a panoramic view. This is a live broadcast, but the result is almost scared to death!

Chapter 965 - Block troll

At that time, after receiving the news that the troll had arrived at Tiancheng Sixiangmen, other people quickly rushed to the Zhang family and prepared to concentrate on the firepower.

Zhang Jia, who was the first to be assigned, has already prepared for it. After everyone arrives, they will follow the layout as soon as possible.

As a result, the speed of the trolls is much faster than they think. They are not ready yet, they are already here.

After seeing the truth of the troll, this man finally understood why he was named “troll” and actually felt the speed of the troll.

Inside Zhang’s house, everyone is in full swing, just feeling strange, even if there is a person appearing, just on the surface of the figure, there are seven or eight meters, almost two or three stories high!

From the inside of his telescope, I didn’t see the whole picture at first, but I thought it was a sight. After seeing it clearly, I immediately squeezed a sweat for everyone.

He is far apart and can feel the pressure, and people on the scene can imagine. Therefore, under the sight of his telescope, the “Heroes of the Heroes”, which had not yet been fully prepared, immediately swarmed up and prepared to use the sea tactics to make a quick fix.

The result is just like the reduction conjecture that Shen Lang had just made at the scene. Those people just showed their spells, or directly attacked them, and the trolls began to take off!

After the person adjusted the line of sight range, he saw a tall, fast moving shadow, only to confirm that he was the first step to touch those people, and could not see exactly what the action was.

The result is that after he circulates, the demon heroes disappear one by one!

This person can’t see clearly because his realm is limited, and when he looks through the telescope through the distance, the light is dimmed and the capture is limited.

Because Shen Lang is reading his memory, he can only “see” what he saw.

But basically it is still possible to guess that the troll should have any sorcerer that directly swallows people!

It is not difficult to understand that the Tiantian Tower in the hands of Shen Lang can achieve similar results. However, this troll did not rely on the magic weapon, but also took the initiative to attack, so it is more likely to use the “eat” way to swallow people.

At that time, those hunting heroes thought about attacking at the same time, so that the danger of each person could be reduced, and no one could knock down everyone at once!

So almost all of them are swarming up, the realm is lower, and the reaction is slower. It is only a slow half-shoot, and it is not hidden, or ready to escape.

The result was that the trolls had been wiped out, and their first ambush did not work at all.

After the trolls quickly fixed everyone, they also looked around and sneaked over to the side. Directly let this person on the rooftops frightened and suspected that they were exposed.

At that time, he only had fear, and the whole person could not move. It can be said that there is no strength to escape.

Fortunately, the troll did not come over here, it may have discovered him, or he may just look around, it is his guilty conscience.

Then I saw the troll quickly leave in the southwest direction. When he reacted and wanted to pursue it with a telescope, he could not see the shadow.

However, he was still hiding in the camouflage bunker, and he did not dare to move, lest the troll kill a carbine.

Although it seems that the trolls don't bother to come for him, but they are also risky in their lives.

After waiting for a while, he still observed the situation at the Zhang family from time to time to see if the troll would return. The results also forgot to observe the time, let alone broadcast live.

I have always seen the emergence of Shen Lang, only to make him a spirit.

Shen Lang seems to be obviously human, at least not a troll. From the situation on the spot, it seems that it is a step late.

He suddenly thought of Shen Lang, and then immediately tried to contact Feng Fengji to confirm whether it was Shen Lang who came to Tiancheng.

These memories, for the help of Shen Lang, are also limited.

However, there are still two key clues. One is to see the troll's "true" – or the incarnation of the troll; the other is to leave the southwest.

After Shen Lang quickly read the memory, he did not stop, the troll did not come, this person is safe. As for leaving Tiancheng, of course let him go.

Now he is going straight out to the southwest.

By remembering the pictures I saw, I also determined that the trolls did not appear for a long time, and that they could have a clear residual atmosphere because the time of leaving was not long.

So now chasing it out, it is still possible to catch up.

The troll looks like this, of course, can't see if it is the incarnation of Yue Zhennan. If Shen Lang wants to know more, he still has to find the troll directly.

When chasing in the southwest direction, Shen Lang must pay careful attention to whether there is such a strange smell, and the speed cannot be too fast.

But after a while, he suddenly reacted. Isn't this the direction to Pingxi?

When he came, he came from this direction.

I immediately recalled that there are some counties and cities between Pingxi and Tiancheng, and there are also mountains.

This troll had been crouching for a day or two before, and it should not be in the city. Otherwise, even if it disdains ordinary people, the appearance of his transformation will also shock countless people and will soon become a hot topic.

The biggest possibility is to hide in the barren hills.

I just had a meal in Zhang's family. I believe that the next step is to continue to lie for a day or two. Digest and absorb these monks.

With this analysis, Shen Lang speeded up and rushed to the mountains, then looked at the terrain from a height and saw where it was not developed.

Night is difficult to search for, but it is convenient to screen people in the mountains. Where there is a light, naturally there are places where there are buildings in the village, and where there is a complete black light and bonfire, it is a place that has not been developed.

Rao is so Shen Lang also has a great range to search, after a little exclusion, he finally felt a strange atmosphere in front of a mountain!

There is a difference in the world, indicating that the troll has passed here not long ago, even if it is not nearby.

Just as the Shenlang gods spread and searched, there was a strange beast that wheezed in the wild, just near the corner, and the other side was staring at him!

God knows to lock right away, troll!

It was the seven or eight-meter tall troll that the man saw.

It was hard to find it. Shen Lang certainly won't let him run, and he quickly chased the past.

The troll had just made a strange noise, I don't know if he was hesitating to come out and do it with him, but after the move, he immediately began to flee quickly.

Since it has already arrived, Shen Lang will certainly not let him escape. In addition to the fact that God completely locks its movement track, the "Phantom Meteor Step" is flashing fast in the forest, and several breaths have already stopped. In front of the fast troll.

Chapter 966 - How is the monster?

The troll's speed is very fast, and part of the reason is because his body is huge, and he jumps a lot more than a man of more than a meter, plus he is more flexible and agile than the average person.

When he was in the middle of the wave, he was also moving quickly. He has already been discovered, and no ordinary people are here, so he is unscrupulous to maximize the speed.

It is a pity that this time it was Shen Lang. In terms of speed, it was far better than the people of the same level. Now the half-land of the immortality is even more understated and stopped in front of him.

After being blocked by Shen Lang, the troll immediately changed direction and wanted to break through several times, but Shen Lang could quickly stop in front of him. In a matter of seconds, everyone has already discussed it several times.

"Do you want me to do it?" Shen Lang asked slowly.

He is now staring at the troll and wants to see a familiar shadow on his face.

But now this troll, although still a human form, is not the same as the huge proportion of his transformation. The proportion of the whole hands and feet is much longer, and the face is not like humans at all.

There are quite a few ghosts in the face, or some non-human races in the game.

Nearly to the front, Shen Lang can clearly feel the breath of a different world, and apart from him, only Yue Zhennan has it.

This troll can strike the martial art of the surrounding area of Pingxi so accurately that it is absolutely impossible to be the demon of the world. Naturally, it is also understandable.

Although it seems that human beings are very different and there is no familiar shadow, his eyes can still see a complex composition.

“Let’s go, I don’t want to do it with you.”

After the troll was silent for a while, he spoke.

This also fully proves that even if he is not like human beings now, it is also a kind of alienation, and maybe it can be retracted to its original appearance.

But his voice became snoring, and the breath was more like a beast than a human being, and certainly not familiar.

But this sentence has already explained a lot.

“Restore your original appearance, don’t use this face to make evil, I can see that I have not seen you today.”

Shen Lang said very calmly, this is the decision he has already considered.

Although a lot of people died, but those people before, he has never touched, that is, a number. Those who saw Tiancheng Zhang’s family today just disappeared.

From a certain point of view, the weight of these people is still not as good as a familiar friend. Shen Lang can’t be unselfish.

As long as Yue Zhennan can recover itself and promise not to do evil, he can let go.

However, ... Yue Zhennan, who already has the status of a troll, will not be able to recover any relationship in the future, and it will be the last time.

“go!”

The troll is roaring.

During the speech, one of his big feet slammed on the ground, directly causing obvious tremors in the nearby ground.

“You don’t go anymore... I will eat you!”

From the memory of that person, Shen Lang has already seen the scene he swallowed and guessed the way. But he personally said “eat you”, still a little regret.

The demon is out!

This is the definition of the evil demon since the ancient times, and will be attacked by the right path of the world.

Now that the realm of comprehension is no longer the same, no one has come out, but such an act will still be the enemy of the world.

“How many people have you eaten these days?”

“How many? A few hundred?”

“This makes you stronger and stronger, but are you willing to become such a monster yourself?”

This kind of cultivation is very tempting, because you don’t need your own penance, you don’t need to find resources, and you can directly eat the monks as resources.

Fast and powerful, it only makes people feel more and more greedy.

It is precisely because of this way that Shen Lang has always warned himself to use it with caution. It is not only the initiative to arrest people and refining, but the enemy, not everyone.

He just doesn't want to be addicted to himself.

“monster?”

The troll sent out a mocking laugh.

“How about the monster? What about the gods? As long as I am strong enough, I can conquer everything!”

He is proud of Shen Lang: “You are not a monster? Are others when you are a god? Behind, others don't think you are a monster?”

Shen Lang is not good to refute him. With his advanced speed, in the eyes of others, it is also enchanting, but the shape has not changed.

In fact, it is the shape, and many people have seen him become a giant. It is precisely because the strong people who have seen the realm of the gods can face more calmly, if it is an ordinary person?

Still not treating him as a monster?

When Shen Lang didn't talk, the troll snarled again!

This time, he did not say anything to Shen Lang, but a quick and quick punch!

It's just a fist attack. For Shen Lang, it's nothing, let alone at his speed, it's impossible to attack him.

But with the troll's shot, I immediately began to feel the same!

The troll was originally a few meters long, and the speed was fast. The moment it was attacked in front of Shen Lang, and when it was not yet, the worldly atmosphere had already come.

This is not a residual that was felt before, but a strong shock!

This kind of experience is much stronger than Shen Lang is in the world!

For safety reasons, he quickly retreated to the back, and also formed a protective cover around the body.

His purpose is to look at it more and see if the troll can use the energy of the world and how it works.

The result was that after he left, the trees and grasses that he had just surrounded had quickly and completely burned out!

Through the detection of the holy armor can also be more quantified, the conclusion is that the troll that punch, with some mysterious energy, has a strong radioactivity, great power.

Now there is not so much time for him to consider, and he must continue to dodge quickly, because the trolls follow the shape and follow the rapid attack, and whether it is the fist, it is with the energy of a different world, sinking All the waves are scattered around.

He knows that if he can “eat” Shen Lang, it must be a huge gain, and it may even be more useful than the dozens of hundreds he used to eat. But wanting to eat the waves is not that easy.

So now that it has already been shot, it will not be merciless, and it is necessary to control and solve the problem.

“Since you start with it, don’t blame me!”

When Shen Lang talks, raises his hand and fingers, so that the empty finger, the fast attacking troll, will be concentrated and directly flew out!

The energy of the different worlds that he exudes has already made the surrounding area become aggravated, and the scope is getting bigger and bigger. After the huge body falls out, it immediately makes the ground a lot of grass burnt out.

Chapter 967 - War troll

This situation caused Shen Lang to frown.

Because of the identity of this troll, he could not bear to kill the killer. But if you continue to be merciful, the damage will become bigger and bigger.

Fortunately, this is not in the city, even if the damage to the environment is not small, at least there is no dead.

However, he also decided to start with a little more weight, at least to control the troll.

I saw Shen Lang's hands spread around and made a move, and everything immediately moved around!

Just the impact of the world's energy, so that everything around is aggravated, but basically still look at understanding, the ground is directly turned into scorched earth, all the grass is gray, but the tall trees are quickly withered and shrink, but also Not completely gray.

The remnants of these scorch, as if they were activated in an instant, all leaped from the ground, and then turned into a sword, from all directions, all flew to the landing troll!

Even the scorched branches, the scenes of the swords, in the night, are also very spectacular.

However, the troll is not vegetarian. After landing, he has slammed into the ground and his body immediately vacated.

For all the dead branches that had already hit his body, he made a low-pitched voice, and the whole body gave off a strong energy, immediately pushing them all a few feet away!

Shen Lang manipulates these things, but it is not the use of dead branches to hurt people, but everything has become a carrier, all of which contain strong energy, it is like a sword carrying a sword!

Therefore, the energy emitted by the cockroaches blocked the front lap, and then rushed over, and immediately deepened a few inches, and later pushed a few inches...

These are happening in the blink of an eye, in the line of sight, the blockade of the troll, let the spurt come, become a little slower, but still advance at different levels.

“Roar—!”

The troll slammed and screamed, and the body quickly moved to the side of the swell. With the move, he first punched a punch!

Although the energy he just bursts only reduces the speed of the “Wan Jian”, but now it is attacking again, the energy of the violent is opening a path, all the dead swords in front are all smashed, directly In front of Shen Lang.

At this moment, his body is getting closer and closer to the Shenlang. After the violent screaming, the mouth is not close together, but it is a big mouth and a whirlpool. It has a great Suction!

He was originally approaching the deep wave at high speed, and with the mouth sucking, basically copying the scene before Zhang Jia, swallowing the comprehension!

This action directly reflects that he is out of control, or that he has not recognized Shen Lang’s friend!

As I said just now, if you don’t leave, you have to eat it...

This of course makes Shen Lang very disappointed.

For a time, his hand grabbed a large tree that was soaked and smashed directly into the front.

Originally, the comprehension was swallowed up, the suction was very strong, and the distance was not close. Now, I took the initiative to use the wood to smash it in the past, so that he couldn't get rid of it at all, and he directly reached his \*\*\*\*\* mouth.

Although this is a burnt trunk, but under the swaying wave, it is also full of enthusiasm, not to mention steel like iron, at least not inferior to normal trees.

So when you break into the throat, if you just have no special giant, you have to be smashed.

The troll's body is still approaching quickly, and the trunk instantly disappears into his mouth, without affecting his speed. He does not stop, he wants to continue to swallow the waves!

Shen Lang has just been a temptation, which is certainly not his means.

With his current ability, he wants to clean up the trolls. There are a lot of means. However, the surrounding area has already been aggravated and continues to fight here, and will not expand the scope of damage, so simply continue to study the different world energy.

After licking the dead wood, the people of Shenlang also quickly leapt forward, directly under the strong suction, kicking the body of the troll!

Carefully driving the ship for thousands of years, even if there is a semi-sacred environment, Shen Lang is still vigilant about the radioactivity of the different world energy. He is protected by a layer of protection before he kicks his body.

This foot seems to be an ordinary fist, but it is not only a strong enthusiasm, but also the use of "Da Shou Mi Long Xiang Shen Gong"!

Ever since, the troll, whose body is several times larger than him, was kicked and fell directly to the back!

This is of course the direction in which Shen Lang has controlled the power, otherwise it will directly let him fly a few hundred meters.

Now just let him fall to the ground, and the strength is strong, directly let the huge body, the ground of the scorched earth opened a hole, the troll completely fell into the ground!

“stand up!”

The Shenlang people were in the sky, and they took a trick. The troll who was struggling from the mud immediately flew a few feet, and he stepped on it again from above.

This time, the troll still fell into the pit just inside, and the pit was deepened ten meters!

After the incarnation of the troll He is almost unfavorable, the speed is fast, the power is huge, and the mouth can swallow the monks one by one.

What kind of prestige is this?

It is also the capital that he just warned against the threat of Shen Lang.

But now, it is everywhere!

The speed of the wave is faster than him, the strength is stronger than him, and the suction can't help!

The trolls that fell into the mud screamed and the body was spinning fast.

Between the time, according to the pit that his body shape fell into, there were countless splashes of sand, all of which went to the top of the waves. The rotating troll, like the body turned into a drill bit, directly drilled a circular pit with a diameter of more than ten meters.

Just the sand, he certainly knows that it is impossible to hurt the waves, but it is a little blocked. The quick turn also made him get out of the ground.

This time, he rushed over, but he once again shed a huge amount of energy!

It is not the same as the energy that has just been forced to open the sword. This time, the energy that he sent out is several times thicker, and it is not self-protection, but the expansion of the speed is outward. .

“Stop! Don’t!”

At this time a hoarse voice came over, full of worry and anxiety.

At the same time, Shen Lang Ju Yue Jian appeared in his hand, in the air, regardless of the surrounding world energy, from the top to the troll’s head smashed down!

Yes, even at this time, he still did not kill the machine, Ju Yuejian was shot with the sword, not with the blade.

The sound came from a long distance, but because of the speed, the last word came, it was already nearby.

Shen Lang’s gaze also looked at the past.

Chapter 968 - Another troll

Before sensing someone approaching, Shen Lang did not care. I just heard the sound and didn’t care.

But now I look at the past, but I can’t help but stay a bit.

Yue Zhennan!

It’s a long time coming from Yuezhennan.

Originally, he thought that the troll in front of him was Yue Zhennan, but the person who came over quickly, although the voice is different, the appearance is a bit different, but it can still be recognized, it is Yue Zhennan.

In this way, the trolls in front of them can only be considered to be smashed.

The appearance of Yue Zhennan also made Shen Lang understand everything.

Now Yuezhen South, about three meters in size, whether it is height or appearance, are beginning to change to the “troll” direction, but the gap is still very large.

This is naturally because of the relationship between time, Mo Qi did not have broken bones at the beginning, it is very possible, there is a creature of that world, forced through the space crack!

So brought the energy of the world, directly attracted the two of them, and then at the moment of the change, Yue Zhennan was sucked into the world, or was forced to pass.

As for Mo Qi, it may be that the creature that came over occupies the body, that is, because of the existence of the body, and may stay for a while, it will be able to feel the residual atmosphere after more than ten days.

After that, Yue Zhennan also took up the body.

After more than ten days, Mo Qi was hiding, and it was a process of integration. When Shen Lang saw Yue Zhennan, it seemed to be practicing, and it should be in the process of integration.

When Shen Lang rescued Yue Zhennan, he mistakenly thought that Mo Qi was the same ending as Xiangyang. Because the strength was too weak, he had already broken his bones and gave up doing nothing.

In this process, it is estimated that the creature has merged with him, and then combined with his thinking, began to search for the surrounding comprehens, and quickly evolved by consuming the way of comprehension.

When Mo Qi turned into a troll, Yue Zhennan felt it.

He may also be a fusion, but obviously Yuezhennan dominated, so Mo Qi left, and after returning to Yue Gang, he quickly chased it out.

Because in Mo Qi's body, let him see the future of himself, whether he wants to solve the problem, wants to stop Mo Qi, or does not want to be seen by the family, he must leave.

Before the Pingxi, the slaughter in other areas around, perhaps the Momo turned into a dominance, but Yuezhn South may also participate in the devouring, but less devour.

So the result is that the trolls that Mo Qi has turned into now have reached a height of seven or eight meters, while Yuezhn South is still about three meters. The appearance has become a green face, but it still shows the original look.

Although I stayed for a while and quickly combed everything in my head, Shen Lang did not stop the attack.

Ju Yuejian was photographed on the head of the troll Mo Qi as scheduled, and he shot him directly on the ground.

"How can it be!"

The trolls and Mo Qi's feet fell into the mud, and although the head did not split, it was very uncomfortable. But what is even more unbelievable is that Shen Lang did not have anything at all.

The trolls that have just arrived, the town of Yueyue, are also stunned.

The consequences of that scene, he has seen with his own eyes, can quickly destroy people. That's why he rushed over and shut up in advance.

Compared with the trolls that Mo Qi consciousness has occupied a small part, Yue Zhennan's consciousness still occupies more.

Shen Lang is not only okay, the energy of the different world is not transferred to other places, but disappeared in the air!

"Glyphs and tricks! On the level of your side, you will bully the weak. It is not worth a trip!"

Shen Lang looked coldly at Yuezhennan, who had just arrived.

However, after four days of disappearance, it has changed so much. The current Yuezhennan has already been two people.

Maybe it can't be called a human now, but a monster.

The strong energy that he had just fully defended, of course, did not disappear from the air, but was collected by him using the holy armor.

The holy armor is the latest version of the black technology products in the river basin, which can absorb the energy of the universe. This different world energy is collected in the same way.

Mo Qi's Mo Qi, in fact, can be seen from the dialogue just now. He recognizes the deep waves, including the address he can find other families, all of which indicate that Mo Qi's consciousness and memory exist.

He just dared to shoot against Shen Lang, both the courage of the creature, and because of the repeated successes of these times, he quickly expanded.

He and Shen Lang have never been friends!

When I first started working for Yuejia, I was beaten by Shen Lang, and then I killed his master and let him go. The parents who will save the waves, in addition to the benefits from Shen Lang, are also Shen Lang said to control his soul.

Inevitably, there are also elements of betting. At that time, no matter, or helping the Chu family, nothing could be obtained. When Shen Lang came back, he would die.

In the end, it was also successful. After Shen Lang came back, he continued to give him benefits and let him reach the height that was unimaginable before.

But the human heart is always unsatisfied, if Shen Lang is a one-time compensation then sent to ignore him, perhaps it will be.

He also stayed at the Yue family. Every time he came back, he and Yue Jinnan gave them resources to help them improve. This became a dependency of peace of mind.

He saved the parents of Shen Lang, this is the big man owed to him by Shen Lang!

I even think that Shen Lang is not as good as him, but Yue Zhennan is always stronger than him. He is the strongest in Pingxi.

When the high waves are on the top and he can only look up, it is naturally respectful and will not reveal any dissatisfaction. After all, he is also courteous to him and he is very polite to him.

But this change, the influence of the different moments of the monster, coupled with the skyrocketing strength, made him unwilling to grow up.

Therefore, after being caught up by Shen Lang, he threatened to warn Shen Lang to leave, or else to eat him!

After the unfavorable shot, he really tried to devour the waves!

Because it is very clear, it has already been like this, and Shen Lang can no longer give him benefits. If he does not kill him, he will return him to the original shape. Besides, a sinking wave can make him grow more than the number of comprehensions that have been swallowed up before.

These are the changes in the mindset of Mo Qi.

However, after some fights, speed and strength made him proud of the ability, these capitals that provoke him to smash the waves, are crushed by the waves!

Even the energy of the last card of his last card could not cause damage to Shen Lang, and he panicked.

After all, when the student's Shen Lang was a punch, he broke his master and left him with a shadow of fear.

“Go together!”

The demonization Mo Qi snorted, and after the completion of the demonized Yue Zhennan, the man had already smashed from the ground.

Chapter 969 - Self-sacrifice

“No!”

Yuezhen Nanda screamed and immediately rushed to block between Shen Lang and the Mo Qi Mo Qi.

Originally, he had no face to see the waves, just rushed over, it was discovered that the magical Mo Qi was going to kill the hands and swallow the waves, so I wanted to come and stop.

But the situation just now has been seen. Even if you have swallowed up so many comprehensions, it has evolved to a height of seven or eight meters. In the face of Shen Lang, the biggest dependence has no effect.

So now he rushed out to stop, is to avoid the waves to kill Mo Qi.

Mo Qi has always been the offering of the Yue family, not to be the master servant, nor to be a close friend. Later, it was re-entered into the Yue family, and it was also because of the relationship between Shen Lang. There is a twist on this layer to make their relationship harmonious and respect each other.

But now it is different, even though they are not completely assimilated by the creatures of that world, but there has been a certain degree of integration.

Now it is not the relationship between Yue Zhennan and Mo Qi, but the only two of them from the world!

If Shen Lang has killed Mo Qi, then he will be left, and certainly will not end well.

So this is the instinctive reaction of Yue Zhennan, or the instinctive reaction of the monster, to save Mo Qi.

For the troll Mo Qi attack, even if it is desperately counterattack, Shen Lang will not be in the eye.

At this time, Yue Zhennan continued to stop Mo Qi, which made him a bit gratified, at least that Yue Zhennan was not completely demonized, and there was reason.

But at this time, the Mo Qi, who came to the forefront, quickly flew out, at the fastest speed, and left the time to leave, disappearing among the mountains in the night.

Yue Zhennan turned back to face Shen Lang, and his already distorted eyes were a little embarrassed, but in front of Shen Lang, he was still somewhat blocked by Mo Qi.

Shen Lang slightly frowned.

Just a little thought of Yuezhennan South, he is completely clear. It is the struggle between the two souls of this body. Yue Zhennan's nature is stronger than Mo Qi, but it will still be affected by that monster.

“Is this the transformation of your combat state, or is it evolving in this direction? Or... can you change back?”

Shen Lang stared at the eyes of Yue Zhennan. He was talking to “Yuezhennan”. As for Mo Qi, from the situation just now, Mo Qi has not come back.

“Lang brother, you take me...”

Yue Zhennan, who has already had a bit of a sly face, screamed and listened to this. He wanted to let Shen Lang kill him.

It seems that he is not a transformation, but has become like this, he can't go back, and he doesn't want his parents, uncles, and brothers and brothers to see this.

In the past two years, he was the pillar of the Yue family and the pride of the Yue family. Nowadays, the living Yuejia up and down, the Yue family did not grow up behind, for them, Yue Zhennan's strength is the strongest in history, and the family is strong.

How many glory there is, how many despairs there are.

Mo Qi does not mind becoming a monster because he is not concerned about the pursuit of power.

Yue Zhennan can't accept himself as a monster.

His changes are far worse than Mozambique. In addition to consuming the number of comprehensions, it may also be related to the resistance of subjective will.

However, just stopped in Yuezhen South, it is not a matter of words and stops, it is obviously stopped!

This is another soul, and when he is about to say something, he is forcibly interrupted.

Then he opened his mouth and couldn't speak.

At this time, about three meters of the magic of Yuezhen South, the whole body straight up, and stood up.

At this moment, he can't talk about it, but there is a gratitude to Shen Lang in his eyes.

He is the pride of the family, the glory of his parents, turning into monsters, and the whole Yue family will be looked at by others.

Moreover, things happening in Pingxi and around will directly count the troll's account on his head. Even if he is tired of the Yue family, he will become a public enemy in the world and become a shame of generations!

Under such circumstances, he is dead, he can be freed, and the family will not be affected and stigmatized.

He also believes that Shen Lang will definitely help him to make an excuse. For example, the survivors of the trolls, the surviving Yue family, will not be so dazzling, indicating that his sacrifice has survived.

Just when he was about to die, Yue Zhennan felt that the other magical thing was not reconciled, and he was directly prepared to force him to win!

The previous fusion did not hurt him, or forced, because the other side wanted a perfect fusion. Strong occupation will pay a certain price, such as damage to the nerve consciousness.

But now there is no time. Since Yue Zhennan is dying, Shen Lang is still watching from the side. This alien monster, of course, needs to completely occupy this body and escape.

But what they didn't think of was that the consciousness of Shen Lang invaded!

Yue Zhennan has this body, and it becomes a sense of three souls!

The two of them are mutual occupations, and they are already part of the body. Shenlang is of course an exclusionary outsider.

But the spirit of Shen Lang is strong, but what is their comparison?

Yue Zhennan's unconscious instinct rejection, and the forcible attack of that soul, failed to make Shen Lang how.

“Don't be discouraged! In addition to your parents you are going to be a father! For your children, you have to take back your body!”

Shen Lang directly passed this meaning to Yue Zhennan, and then stopped dealing with him and began to deal with the soul of the monster.

I was abandoning the death of Yuezhen South, and immediately the spirit!

Just the decision, everything is built on self-sacrifice to preserve a family's life and honor. But now, when I hear this, I have a personal consciousness.

“You mean... Ye Yao has it?”

It seems that he was just coming back, his mental state is still very bad, and he needs a good rest. Ye Yao may not have time to say it. After a day, the magical Mo Qi came.

“How else, how can she put down her dignity and ask me to save you?”

Afraid that he does not believe, Shen Lang can only respond to one sentence.

At that moment, the soul of the demon is trying to devour him!

The phagocytosis is two layers, and the first layer is spiritually on the flesh. After they have completely swallowed people, they slowly digest it, which is a combination.

Now I want to mentally devour the sinking waves. In this body, he has already merged, and he also has a home court advantage. As long as the part of the invasion of Shen Lang is swallowed up, even if it can not be killed, it will be a heavy blow!

For the soul of this monster, it will grow rapidly, and even help him to control the real master Yue Zhennan in one fell swoop, completely possessing this body.

Therefore, he directly attacked the waves and made a sigh of anger. When the outsider was still “unfamiliar with the environment,” he would kill him first.

As the owner of the body, Yue Zhennan was originally the strongest soul consciousness. However, he was already invaded by the invasion. He was just dying to death. Now he was shocked by Shen Lang and could not cope.

Chapter 970 - Battle of the soul

The struggle for the soul and the engulfment of consciousness are not as traceable as the battles in reality. In particular, this battlefield is still in the minds of third parties, and it is very embarrassing in itself.

This stranger of the world is completely an aggressive method of attack. Even if it will damage Yuezhengnan, he will not be scrupulous, and he will kill himself.

However, for Shen Lang, it is a very experienced thing. Before Yuxianmen, there was experience in this area.

The menacing attack, he not only did not evade, did not withdraw from the brain of Yue Zhennan, but also directly suppressed the past!

Yuezhengnan's demonized body, just stiffened, is Shen Lang directly manipulated the lunar needle, and set him to stab.

But now, the battle between him and the soul of this monster, the two people have not been affected, directly let Yue Zhennan's head is about to explode!

Yue Zhennan, who was just shocked by the fact that he had a son, was the most painful one. The two souls used his brain as a battlefield to start a battle and let him almost shock.

Needless to say, he certainly wants to help Shen Lang. If he can get rid of this monster together, he is of course very willing.

But just as he had to be eroded every day, because he couldn't fight it, he could only resist the compromise.

Now, at this moment, he is still able to remain unconscious. It is already very difficult, and he can't help Shen Lang.

This situation, of course, is also clear.

What he wants is to rescue Yue Zhennan. If you can, it is best to save it. Otherwise, he can directly destroy them, and there is no need for such a way.

But at this time, he can't be soft-hearted, and he can't think too much about Yue Zhennan. The pain of this soul, Yue Zhennan must bear, to be less guilty, and he needs to solve it as soon as possible.

For the supercharged power of Shen Lang, in an attempt to swallow his magic, he immediately felt tremendous pressure. After trying to fail, he immediately changed a way, attacked the waves and turned into the consciousness of attacking Yuezhennan!

Even if Shen Lang is outside the head of Yue Zhennan, his mental strength is still strong enough to match. If he continues, he may only be swallowed up by Shen Lang.

However, the current state of Yue Zhennan is the first time after he entered. Relatively speaking, it is the time of fragility. If he can completely take down the body dominance of Yue Zhennan, it will be easier to drive away the waves. It is.

Yue Zhennan has been faltering, and continues to resist the end, but also full of confidence in Shen Lang, I believe that Shen Lang will kill this monster.

At this time, attack him, and let him immediately smash!

Beyond the spiritual world of the brain, Shen Lang was the giant Yue sword in his hand, and became the Liu Yejian. Then he went into the body of Yuezhennan South accurately and quickly, and quickly moved!

“what—!”

Yuezhennan South, which was sealed by the Yueyue needle, immediately screamed and shouted.

Originally his soul was on the edge of destruction, and suddenly there was another severe pain in his body, which made him almost free from the ban of the lunar needle.

But this change is a contrast!

The ultimate stimulation, the soul of Yuezhen South is tough, and the soul of the different world monster is a little scared, there is a fear of nowhere!

Because the Liu Yejian of Shen Lang, directly from the huge body of Yuezhen South, has dug up one thing.

Just Shen Lang invaded Yuezhen South, but not only against the consciousness of the magic, but also continuously and comprehensively checked the body of Yue Zhennan.

In his body, he found a similar existence, which is full of energy from different worlds. Basically, this should be the body of the strange world, or the carrier!

It may be that this thing has come to the world, or entered the body of Yuezhennan in that world.

After digging it out, Shen Lang immediately injected the energy from the different world absorbed by the sacred armor, and then used it to put it into the sky, let it be full of refining, no matter whether there is life or not. See what can be refining in the end.

As soon as this thing left Yuezhennan's body, Yue Zhennan immediately began to dry up like a ball deflated.

At the same time, Shen Lang is chasing after victory. When the soul of the monster feels terrified, he will completely take it and absorb all the mental power!

Being swallowed in the same way by Shen Lang, the monster feels fear and despair!

There is no such substance in the body. It also loses its roots. It can no longer fight against the waves, nor can it rob the Yuezhennan. It can only be "squinted" and quickly disintegrated and dissipated into a nourishing nutrient for Shenlang. ingredient.

After solving it, Shen Lang patrolled the body of Yue Zhennan again, and confirmed it completely. There is no residue of the world's monsters in the body, and the consciousness is recovered with confidence.

At this moment, Yue Zhennan, who has closed his eyes, has just stabbed a sword and moved him to the limit. At the moment he dug, his body and consciousness collapsed.

Now the body is beginning to shrink obviously. Without the support of that thing He can no longer maintain the demonized state of non-humanity.

Shen Lang treated him with a wound and gave him medicine.

The spirit of the sea is too precious, and it has not yet reached this level, and naturally it has not been eaten for him.

After about a minute or two, Yue Zhennan's original appearance was restored, and the whole person became very embarrassed.

Shen Lang infused him with a vitality.

After a while, Yue Zhennan slowly woke up.

"Lang brother? I... have you saved me?"

His voice has recovered several layers, and the body's weakness has made him realize that he has recovered.

After all, he can't resist the end, or is demonized, nothing more than the attraction of power!

Can have eight abdominal muscles, who would want a big belly? Can have a strong power, who wants to be a weak chicken?

It is followed by drinking and quenching thirst. It is a value cultivated from childhood and a sense of mission of the family, supporting him without rapid assimilation.

But just now I am ready to sacrifice myself, that is, I made a decision. It is a great relief to feel weak now.

“Do you feel it again, is there any residue?” Shen Lang pulled him up. “Stabbing you a sword is to dig out what he has entered into your body. Not serious, just take a break.”

“Thank you!” Yue Zhennan said sincerely, then excitedly asked: “Right, Ye Yao really has?”

“When you are missing, she asked me to save you, so to speak. As for impressing me to save you, or really, you have to understand it yourself. After all, it is your wife, I can’t understand more.” Smiled.

“Well! Well! I want to be a dad!” Confirm this news, so that Yue Zhennan’s spirit is obviously much better.
