

First Strong 971

Chapter 971 - Extinction

Shen Lang did not chat with Yuezhennan, and did not even ask him about the situation in the past few days, but immediately brought him together to catch up with the trolls that have escaped!

It has taken a little time to expel the magical creatures in Yuezhen South. This has already allowed the magical Mo Qi to leave very far, and must seize the time.

It is a pity that Mo Qi, who turned into a troll, is not a monster without wisdom. On the contrary, he actively embraces the demonization. It is the wisdom of two creatures.

It is like using Yuezhennan to stop the sinking waves and take the opportunity to escape. After he left, he also used wisdom and did not know where to hide.

Shen Lang took Yue Zhennan and drove the cloud to quickly catch up with the search, but it searched all the carpets in the surrounding mountains for a while, but did not find the trolls!

The law is obvious. The troll stayed and released the energy of the world. Because of the huge difference, the residual breath can also be detected by the waves.

But if you just hurry, you will not leave much traces. Even if there is residual smell, it will be very weak and will soon dissipate.

Before Shen Lang can search here, it is also the first method of exclusion, and then the search for exhaustive methods.

However, the previous fight has already made a large part of the surrounding area into a scorched earth. It has a very strong atmosphere and it will definitely have a few days.

These residual breaths will also scatter around, and after a little time, it is difficult to confirm the direction in which the trolls leave, and can only search in the direction of the previous visual inspection.

And Mo Qi should have guessed this, intentionally converging energy, and the rest is the trace of his huge body passing.

But now he is like this, even if it is heavy, it is not equal to being bulky, able to walk like the wind, and intentionally, naturally, it can leave no trace.

Yuezhen South revealed a little information. They were hiding in a cave in the uninhabited valley, but in the past, there was no trace of the residual atmosphere.

Yue Zhennan has no way to sense Mo Qi. Before, they can sense each other because he also has the same attributes, but the thing that enters his body is dug away, and the soul of the monster is also eliminated. Then I felt the difference of the magic.

I have been searching for dawn, and the mountains around the hundreds of miles have been searched. Shen Lang can only give up.

Because of his mercy, Mo Qi was not seriously injured last night, and he swallowed so many “hero hunting demon” monks, the next few days, should be hidden to absorb evolution.

There was no updated information reported by Feng Youji, and Shen Lang first took Yue Zhennan back to Pingxi.

A night of searching, for Yue Zhennan, is also a time to rest. By the time he went back, his state had recovered to seven or eight.

At this time, he told Shen Lang that although there was no support from the energy source of the world, the various enhancements to his body were inherited!

When the monster is in his body, on the one hand, he needs his body to be strong enough to support a huge force. On the other hand, it is also necessary to use fast and powerful to attract Yue Zhennan.

So even after ten days, there have been huge changes.

The thing was dug away, the soul was destroyed, and the rest was left.

Just like a powerful aggressor, after occupying a piece of land, in order to establish its own foothold and development, and in order to naturalize the aggressed person, a large number of infrastructure and heavy work in the occupied area will make it rise rapidly.

When the aggressed person succeeds in defeating the aggressor and destroying the industrial and infrastructure that has not been destroyed, of course, it will continue to benefit.

Yue Zhennan is like this now, and because the body that was previously demonized is almost doubled, now after retracting, everything is doubled!

Now, from this state of view, at least from the virtual world to the realm of survival, when he is fully adapted and controlled, the actual realm may be even higher!

Without the support of the world's energy, you can't rely on the way of devouring, soaring in days, but the physical fitness has completely changed. I believe that the speed of cultivation after Yue Zhennan will be fast!

As a friend, it is certainly a pleasure to be blessed by the disaster.

But at the same time it is worrying.

Because Mo Qi is more magical than Yue Town, and is a more active hug. Not completely indulged, the struggle is the dominance, not the entanglement to receive, but also the initiative to attack a large number of monks.

From the physical point of view, the light is already two or three times that of Yuezhennan, and the realm will definitely be higher.

There are still other things in the body, the soul of the monster, and other further evolutions, which will inevitably become even more incredible. Shen Lang was able to crush it easily last night because the time was short, and as many monks swallowed up last night, they had not had time to absorb it.

This growth rate has been even worse than Shen Lang in recent years.

More importantly, the monsters from different worlds have no feelings for the Terran monks, and there is no moral constraint.

The world's monks are rations!

A monk with a high realm, once swallowed up, will greatly benefit his tonic. Without a high level, a large number of low-level monks can also benefit greatly.

The longer you give him, the more people you devour, the stronger and harder you will be.

If you can continue this way, if no one can restrain it, all the comprehensions of the entire earth will become his dish and meat in the mouth.

At that time, whether it is to kill the original world, or to go to other worlds, it is easy, and the earth has become a desert!

This possibility is too exaggerated. Not many people will believe it, and it will be difficult to join hands.

What is panicking now is only low-power, but like the practices of the various schools in Tiancheng, everyone chooses to hide and hide in the vast sea of people.

The major sects are still waiting to see the state, not to touch their actual interests, and will not easily come out to kill the people.

You have to wait until the trolls grow up to easily threaten the major sects, or they can work together to solve them.

This makes Shen Lang decide, or must find Mo Qi as soon as possible, and now it is possible to save Mo Qi back, and wait until the monster dominates, it makes no sense. At that time, people could not be saved, and it was not easy to destroy them.

When I return to Pingxi City, Shen Lang directly sends Yuezhen South to go to Yuejia.

But when it was over the Yuefu Garden, it was a direct shock to both people!

It is the community where the Yue family lived. At this moment, the wreckage has broken, as if it had been bombarded for a round!

Don't think, the answer is naturally the troll...

Chapter 972 - Waiting for the rabbit

Yue Zhennan, who had been blessed by the disaster, saw this scene, and shivered and fell in front of the destroyed home. The whole person could not speak.

Shen Lang's knowledge quickly probed the entire Yuefu Garden and found that there was no one inside. The police sealed the surroundings and were conducting a search to rescue survivors.

Needless to say, this is not an attack just completed, but in the middle of the night.

Last night they searched in the mountains and wanted to find out the magical Mo Qi. I didn't expect Mo Qi to directly kill Pingxi and destroy the Yue family.

According to the previous information, those comprehension forces were destroyed, mainly because the monks were swallowed up, ordinary people with no value, or low-powered, trolls did not pay attention, and of course did not destroy their houses.

So things are mainly spread in the realm of comprehension. Perhaps the local police also have investigations, but they are still unsolved.

Here is not the same, the Yue family is directly destroyed by the broken wall, because Mo Qi knows the situation of the Yue family very well, has been suppressed and self-forbearing for decades, that is, Yue Bailun, Yue Baichuan two comprehension.

It is not possible to train other people in the future, and it is impossible to grow up quickly in a year or two.

So from the beginning he went to Yuejialai, it was not to destroy the Yue family, but to find Yuezhen South (another Mozu) together!

This time, the shot is directly a vent or a revenge.

Mo Qi did not send information through the mobile phone, and did not leave any warnings here, but the picture in front of Shen Lang has read the meaning behind.

Mo Qi is to understand them!

In addition to Yue Jia, there are things that his parents are still alive.

Can ruin the revenge of the Yue family, naturally also said that parents can find Shen Lang revenge!

Although Shen Lang put his parents in Pingxi, he did not disclose it to Yue Zhennan and Mo Qi, but Pingxi is not big. If daily cultivation is discovered by Mo Qi, it is also possible.

Of course, this is the worst possibility. Perhaps Mo Qi thinks that Shen Lang's parents are still overseas, and it is also possible.

All in all, this is a signal revealed by Mo Qi, through the Yue family in front of you, the warning signal issued to Shen Lang!

Under the search of the gods, Shen Lang has a comprehensive understanding of the entire collapsed building.

Yuefu Garden is a residential area, but in fact, all the people living in Yuejia are not on sale, nor are they very large. There is no high-rise building, which is basically a villa pattern.

Coupled with the arrangement of Yue Zhennan a few days ago, most women, children, and young people have moved away, and there are not many people stationed there. So the current destruction did not cause much casualties.

For example, Yue Gangnan's father, Yue Gang, is now helping to lead the rescue team in search and rescue.

Of course, the incident occurred in the early hours of the latter half of the night, it was during the break, there were still several uncles in the town of Yuezhen.

"I want to find him!" Yue Zhennan bite his teeth.

"This is his warning to me, so that I can't move you. I will definitely leave after I finish."

Shen Lang shook his head: "You are not his kind now. He will not be merciful when he meets. Give it to me, you should take care of it here! Some people have an accident, your father is fine, and there is a search and rescue." "

When Yue Zhennan saw this picture, he thought that he was completely dead, and he did not know anything about it. Now I heard the words of Shen Lang, a little spirited, nodded to him, couldn't care too much, and quickly passed.

Shen Lang didn't want to deal with local departments. Here, Yue Zhennan handled it himself, and he quickly left.

If he doesn't go home, he still doesn't trust.

However, before the troll Mo Qi was found, he was not convenient to go home.

In case Mo Qi once again did the opposite, and did not hide it, but looked at the situation with a telescope in the distance, then he went home now, directly exposing his parents to the other side!

Therefore, the departure of Shen Lang was to fly away from the urban area directly and quickly, and then did not use the cloud disc, but quickly flew back to the Yuefu Garden with the holy armor on the ground!

The purpose of this is to prevent the magical Mo Qi from being sensitive to magic weapons and aura fluctuations. The different sacrificial methods of the work are not flying from the air, not near, and should not be sensed.

After the return, he re-find a commanding height, hid in a high-rise corridor nearby, and began to investigate around the Yuefu Garden.

If the demonized Mo Qi did not leave, they should be able to alarm him just after they came back.

Both the gods and the holy armor have inspected them, and there is no result. Shen Lang is not depressed, and patiently continues to wait.

At this time, he also quickly contacted Feng Yiji to see if there were any other news.

As a result, I saw the news that the wind had not been sent by the previous moment, that is, the news that the Pingxi Yue family was attacked!

The news has lagged, and Feng Wuji is also an embarrassed explanation. Because she is concerned about the news of the realm of comprehension, Pingxi was weak in the realm of cultivation, and was wiped out by the trolls a few days ago.

The weaknesses of other family remnants are hiding. It is impossible to stay in Pingxi, and the Yue family is the same. Even if she pays special attention to Pingxi's news because of Shen Lang, there is no source, it is equal to zero.

If you lag behind for a few hours, you will know about it, or because the situation here is very big, even if the relevant departments have restrained the local news, there are still a lot of private videos on the Internet.

Of course, Shen Lang will not blame the wind and no Ji Ji did not inform him in time, it is himself, and there is nothing to blame.

After all, Mo Qi is very familiar with Pingxi, very understanding of the Yue family, even if they returned to Pingxi for the first time last night, Mo Qi did not do it. And he can't always guard the Yue family. Yue Zhennan can't help it. It doesn't target people. It just destroys the building. It takes only a few seconds.

The wind did not respond to another thing. The person who broadcast live last night has escaped from Tiancheng safely after he has slowed it down, and announced what he saw and announced it to the outside world.

Although he did not know where Shen Lang went, he was still excited to spread and announced the information that Shen Lang had already shot.

For the “Heroes of the Heroes”, the outside world is not optimistic. They all feel that they are a group of people, but some people dare to challenge the trolls. For the low-level comprehension forces, especially those far from the Pingxi radiation, they are still very Expectation.

Now they are almost destroyed, and the witnesses bring back more detailed descriptions than before, so that more people are shuddering.

Even if the rabble is large, the power is not small, and it will be swallowed up in a while!

And from the description, this troll is faster, stronger and bigger!

If you follow this rule and devour these hunters, do you want to become stronger?

Fortunately, Shen Lang finally shot!

Chapter 973 - Lead out of the snake

Regardless of whether they used the radical method or the conspiracy theory before, the Shen Lang really shot, and they all began to cheer.

Now the troll’s harm is even bigger, and the growth rate is too amazing. I hope that Shen Lang will quickly pack this up.

As for whether or not to pay for the waves, what kind of way is given, no one has mentioned it now – after all, Shen Lang has already shot, they just want to cheer and praise.

For these things, Shen Lang does not care, now is Mo Qi, he must take care of this matter. Although it is not his responsibility, there is still a long history.

Now Shen Lang is smashing the wind and nothing, spreading the things that the Yue family was hit hard.

Before the Pingxi and the surrounding area, so many comprehension forces were hung up. Only Yuejia is good, and it is easy to give people a handle.

There is no fermentation, one is because the time is too short, the outside is unclear, Pingxi's families are still cleaning up the mess, and no one will publicize for the time being.

In fact, even if there is still the remnants of Pingxi, that is, the level of the super-wu people, even the true repairers are still not counted, can not speculate.

What Shen Lang is worried about now is that there are other big forces. With this opportunity, he is engaged in the way of Yue Zhennan!

The Yue family is already very miserable. Of course, it will be used well, and it will be sold badly, so as not to lose white.

Then everything is easy to say, Yue Jiaben has no other comprehensions, just a town in Yuezhen, and the confession and other things will run away. The last time I didn't find Yue Zhennan, I might be with Shen Lang. This time I came again, but I still couldn't find it. I ruined Yuefu Garden and vented her anger.

In this way, the troll and Yue Zhennan cannot be linked, and of course they cannot be connected with Shen Lang.

In fact, even if someone really wants to do something, Shen Lang doesn't care. With his current strength, even the famous ancestors and the ancestors who are still in the world can't talk about it.

There is absolute power, and the intrigue is in jeopardy.

But he also has Tianshan Jianzong, as well as his parents, as well as his female companions, even early friends like Yue Zhennan. Since they can't be completely cut off, they should be prevented in advance.

Feng Wuji is very eye-catching, does not need to say more than Shen Lang, confessed a sentence, immediately understood all kinds of concerns, said that it will be arranged.

She is also very relieved to do things, now is the troll's trace.

Although there is a lot of wind in the wind, and now everyone is asking for the waves, if there are clues of trolls in all aspects, they will find ways to contact the wind and the wind, and pass the clues to Shen Lang.

However, there are many clues, and it is true and false. The wind can't just let the Shen Lang run around, you must first cross-check and filter out the useless clues. Even if she is fast, it will take time.

When it comes to Shenlang, the news has been much slower. Just like the news from Tiancheng, it is already late when he rushes over.

Now he has to find Mo Qi!

It is a pity that waiting for the rabbit for a long time, there is no new trace.

Mo Qichen came here to destroy, and the time of stay was very short, so the residue was very thin and could not find out where he went.

As for the analysis of Shen Lang, the Mo Qi, the most needed, is to digest and absorb the monks who were swallowed up in the evening.

Last night, I also searched for this direction, but I didn't expect Mo Qi to go back to Pingxi's warning.

The gap in strength is there. If he can't evolve and improve, he is not an opponent of Shen Lang. Therefore, after leaving here, the biggest possibility is to find a place to hide and absorb.

Just this place, will it be in Pingxi? Still going to a farther place?

It's useless to wait for the rabbit, and the carpet search is useless.

Because there are many mountains in the counties of Pingxi, and a little further away, it is the place where the three provinces meet, and it is densely divided.

After waiting for a while, Shen Lang returned to his home.

After discovering this problem yesterday, Zheng Yumeng and Dorothy went to find and protect their parents. Last night, the two of them took turns to rest. In their current realm, once the trolls appeared, they would find out in advance that they were not their opponents. .

After Shen Lang saw his parents, everyone had a meal together and made up for nothing to eat last night.

Shennan Han Fengying and his wife, now they have the strength of being in a virtual world. It is counted in Pingxi, but it is nothing to look at the entire realm of cultivation. And even if it is a relative family of Chu family and Xie family, the two of them can be regarded as the earthen buns that do not understand anything.

But for themselves, these years have greatly opened up their horizons, and will not be the eyes of the village peasant woman.

Even though Zheng Yumeng and Dorothy did not say anything, the son did not say it now, but they still felt something wrong!

The two realms are very high, and it is still common for people to live. Let them all see that they are protecting two people.

So after eating the meal, Shennan and his wife took the initiative to tell Shen Lang what happened, let him do it. If you are worried about the safety of both of them, they can go to the special world to practice.

Anyway, the time of the year is only three days in reality.

This program of Shen Lang is of course also thought about, but they are accompanied, parents will not be afraid, will not be lonely, just let them both inside, and stay for half a year, it is a bit cruel

After all, they are just the masters of entry!

However, the last time everyone was in the world of Tianshu, it was considered to have a retreat experience.

From a safety point of view, Shen Lang still promised, brought them into the world of heaven, and explained everything, and said that he would come in to visit them when he had time.

Of course, this can only be regarded as comfort. After all, one hour, four or five days inside, he can't go in every hour.

But with the parents, Shen Lang is relieved.

I can't wait for the rabbit, this time he is going to use the snake to get out of the hole!

The bait that leads the snake out of the hole is played by Zheng Yumeng!

Of course, Shen Lang does not need to show her to show the trolls. It is to let her practice as much as possible.

The magical Mo Qi is powerful by swallowing and comprehending The more and stronger he swallows, the more he grows stronger.

And conversely, as he is more powerful, more resources are needed. Either engulf more comprehensions or engulf more powerful comprehensions.

Zheng Yumeng is now approaching the strength of the late stage of the gods, and has the heart to make great moves, which can make the whole Pingxi feel. Of course, it also needs a very strong repair to be able to sense it.

There is no strong person in Pingxi, and the introduction is the magical Mo Qi after re-enhancement!

All day, there was no movement.

Waiting for the boring sinking waves, instead of having time to go in and visit the parents, let them slowly adapt to the retreat, and also point out their cultivation.

Nothing happened overnight.

One day the next day, there was no movement.

By the time of the evening, all three of them sensed the troll's breath!

Chapter 974 - resentment

After sensing the troll's breath, the three people are all inspired, and this is the moment!

Just as Shen Lang took them two to fly out of the air, I saw the green trees and pavilions in the community, which were quickly destroyed by a large piece!

Then, in the past, in the night, a huge figure flashed quickly, stepped on the top of one of the buildings, and then leapt away and disappeared behind the building.

Just a glance, Shen Lang has already seen clearly, the original seven or eight meters tall troll, this time has reached 14 or 5 meters high!

Such a four-and-a-half-story body, stepping on the top of the building, as if it were a huge marshmallow, fluttering around in the past, did not step on the floor.

It can be seen that the destruction of the trees and pavilions in the community is not due to the troll's body, but is intentional.

At this moment, the troll's choice to leave is obviously to lead the dark waves.

It can also be seen that if Mo Qi is not dominant, it will absorb the wisdom of Mo Qi. Therefore, it is only a little damage, and there is no large-scale injury to ordinary people, so as not to be targeted by the government.

This is of course Mo Qi's cognition. He knows the power of the world's army and the advancement of modern high-tech weapons. Otherwise, the troll's thinking should be unscrupulous.

The three people of Shen Lang quickly crossed the air and chased the community directly, chasing the trolls in the air.

This time the trolls that appeared, the strength is undoubtedly bigger than two days ago, so not only take the initiative to provoke the waves, but also all the way easily and naturally.

Knowing that Shen Lang was chasing in the air behind, the trolls were not in a hurry. They fell from the roof to the ground, but they deliberately stepped on the trams and stepped on the pits!

The passers-by on the side, the vehicles on the street, did not react at all, just faintly felt a huge black shadow pressed down, then the ground giant earthquake, there was a big pit, and when you look again, the troll has already disappeared far away. The place is gone.

This situation has caused people nearby to start thinking that the earthquake is scared, and that if there is no follow-up, they think it is a depression. They are all taking photos in the past.

The troll quickly leapt, a few hundred meters away, or jumped to other streets. Basically, no one can see clearly. Monitoring is also because the speed is too fast, and at most, a black shadow is flashed.

Poorly, the infrastructure was built in the general Pingxi City. There was a "gettle pit" everywhere. The cars on the road kept on an emergency stop. If there was no brake, they fell directly into the pit.

The soil that was squeezed out around the pit was also piled directly on the side of the store, and the sewage was trampled on the sewer. The scene was even more spectacular when the tap water pipe was blasted.

For a time, many departments, such as the police and firefighting, were occupied by dense telephones.

Just a minute or so before and after, the troll has left the city, went to a mountain next to it, and then waited for the three people behind.

In fact, just in the process, Shen Lang can shoot him to stop him!

The reason why it is not done, is to consider in the downtown area. Not afraid of exposure, but all ordinary people, all buildings, have become the “hostage” of the troll.

For example, if he rushed in the Wang shopping mall? Or knocking over the construction of a community?

Then there may be hundreds of thousands of casualties!

Since it is only a limited degree of destruction, and unintentional wounding, Shen Lang will hold back. Property damage, troubles, and personal accidents can only be ignored.

Therefore, he did not follow the road all the time, giving the troll enough time to “perform”.

“Hey!” The huge body makes the troll’s laughter come out like the sound. “You still haven’t left your parents?”

After the three waves arrived, they did not fall on the ground, but they were suspended in the air.

Because the other party is a dozen meters high, they are on the ground, they must look up, first lost the momentum.

Keeping the height parallel to the face of the troll, Shen Lang shook his head.

“Mo Qi, look back!”

“Back? You let me go back?”

The trolled Mo Qi was full of ridicule, and then he reached out and pulled it, and pulled out a big tree next to it like a weeding.

Then just a glimpse, it fell far to the opposite side of the hill.

This action is his answer!

Today’s strength is far from the original. Moreover, with Mo Qi’s talent, age, and the help and resources of Shen Lang, this life is also hopeless to reach the current height.

He is not so sweet now, but deeply indulged in the feeling of powerful power.

“You should already know it? The same kind, has died out, Yue Zhennan has restored the original, and his strength has been retained.”

Shen Lang directly throws a bait.

For the sake of strength, Mo Qi does not mind doing monsters. But if you don’t do monsters, you can have power, which of course has a very big appeal.

“What about that? Is his speed comparable to me? He will stop here! And I, the future is infinite!”

Mo Qi proudly sneered, whether it is the influence of that creature, or his personal, has already seen the problem very thoroughly, directly cut to the point.

I have tasted the benefits and are already addicted. He will not be satisfied.

“Your future is based on the devour of other self-cultivators. It is immediately besieged by the world. Is there really a future?”

Of course, Mo Qi is also very clear, but what about it?

As long as he is strong enough, come and eat one, and eat a bunch! All are giving him nutrition!

Shen Lang's bitter heart wants to persuade him to return. Only when he cooperates can he turn back.

But Mo Qi has no such thoughts. In the past two days, his strength has skyrocketed, and the fusion with the magic has gone further.

“I saved your parents, but you want to kill me. Righteousness? Morality?”

Shen Lang looked at his eyes and said faintly: “If it is not for you to save my parents, I killed you directly last time!”

“You have this strength before, but now you are not qualified!”

Mo Qi sneered and then looked at Zheng Yumeng.

“I was risking my life to save his parents. You are transferring people. After a few years, you have reached the realm of the present, and I have not even seen the realm of the district. Helping the benefactor, huh, it is better to leave the woman! ”

When I first communicated with Mo Qi, it was bleak. Now it is Zheng Yumeng, but I still feel very harsh when I hear the last sentence.

Zheng Yumeng can have the strength of today, although relying on the help of Shen Lang, the key is that her talent is good enough. Even if it is his parents, it can only be promoted to a virtual state. This is still a year of retreat.

However, Mo Qi has been inconsistent, and the explanation is useless. Shen Lang is too lazy to say anything more.

“I have long found out where your parents are! Their two ordinary people have been promoted to a very high level.” Mo Qi continued to ridicule.

“A few days ago, I could have swallowed up your parents first, but I have loyalty. I didn’t do that. As a result, if you want to sneak into the waves, then you must blame me.”

Chapter 975 - Double Jiao Temon

Because the eyes are huge, even in the night, Shen Lang can clearly see Mo Qi’s eye changes.

Just sarcasm and grievances against Shen Lang are undoubtedly Mo Zi’s mind. And the part that is dominated by the magic is full of the desire to swallow when watching the three people.

From the relationship between their two souls, Shen Lang speculated that they had reached a certain agreement, and Mo Qi’s cooperation would allow the magic objects to be used more quickly without wasting on “guilt”.

However, from the current appearance, the more powerful Mo Qi is, the more it is changed and the more it is integrated. It is only a matter of time.

For example, the soul of Mo Qi, because it is strong, wants to force it in front of Shen Lang, but the monster has been unable to suppress the three powerful “delicious”.

Mo Qi’s words were very just and blame, and the problem was blamed on Shen Lang’s initiative to find him. Of course, from a personal point of view, he really does not care about the waves, and the people who are swallowed are irrelevant.

But Shen Lang still got a message that Mo Qi really found out where his parents are!

Perhaps when he returned to Pingxi two days ago, he had already thought about getting started!

It was only at that time that he was not sure about dealing with Zheng Yumeng, and he did not know when Shen Lang and Yue Zhennan came back, so they did not do it.

Now that I have already said this, there is nothing to say.

The soul of the demon is also unable to hold back!

After saying that sentence, the demonized Mo Qi directly swept away, and the big hand quickly shoveled from the side of the mountain.

The mud of several squares immediately turned into a flying sand, and the three people in the air swept over!

After the shot, Mo Qi flew out quickly by the cover of the sand.

The three of them were in the height of his face, but for him, he could shoot it as soon as he reached out.

The object of his flying is not Shen Lang and Dorothy, but Zheng Yumeng!

Obviously, even if it is very inflated, he is still full of reason. It is clear that Zheng Yumeng is the weakest among the three people, so he wants to cut off this one directly.

The man has not arrived yet, his hands have been pushed out, two raging energy, straight to Shen Lang and Dorothy!

“Master, let us come!”

Dorothy smiled and the man disappeared.

Zheng Yumeng has already handed out the Qiu Shui sword in his hand, and he has used Liu Yang to make a difference.

Shen Lang was also not polite, and took the initiative to leap to the higher air, watching them at a high level and controlling the whole situation. This time, he will not let Mo Qi leave!

The previous talks basically set the tone. Mo Qi is unlikely to go back. Now the situation is almost out of control. If faced with personal attitudes, it will probably harm many people.

Zheng Yumeng's combat experience is naturally impossible to compare with the bleak, but it is also intentionally trained, and will not be left to the bleak as soon as he encounters the battle.

Now facing this troll, she is also an enemy, letting herself play all the levels, and dare not care. If it is swallowed up, it will be a big problem!

But cautiously cautious, she still does not feel fear, after all, when she was still in the original state, she faced the huge body like a hill that swallowed the sky.

The trolls of the blue-faced fangs are compared to the swallowing of the sky.

When she contained Liuyang's incomparable sword and forced her to shoot in the past, it suddenly changed dramatically!

The trolls that rushed over to her, just attacked Shen Lang and Dorothy, respectively, but they did not stop the attack of Zheng Yumeng in front of him. Instead, they opened their mouths!

Ever since, Jianqi just took the flying sand away, and immediately encountered a whale swallow, from the six Yang no swordsmanship, together with Zheng Yumeng in front, was absorbed together!

This scene made Zheng Yumeng also surprised. The enemy in the past was not attack or defense. But this did not directly swallow her offensive. At this moment, the troll has already reached the front, the speed is very fast, and the time for her reaction. Not much.

If it is the beginning, give the battle to the bleak, naturally she is better at it. But now it is already on the dangerous side. If you switch to a bleak, you will not understand the situation, but you will not be able to respond.

At this time, Zheng Yumeng immediately made adjustments, immediately ignoring the trolls of the trolls, but concentrated the spirits on the blade, ready to hit hard!

Before Shen Lang told about the situation of the troll, let her understand that once absorbed, it is likely that there is no way to live. So this is a full blow, it must be done in front of your mouth!

With her current strength, this sword is sure to blow up the troll's mouth.

At this time, Dorothy appeared on the back of the troll. Between the time of the troll, there was a **** mark on the back of the troll!

Under the control of Dorothy, his blood flew out quickly and condensed into blood beads.

Mo Qi has been transformed into this huge size, and there is no suitable clothes. For his shame, or the last recognition of human identity, the body is wrapped around the waist. .

The upper body is only completely presented. At this moment, it is not only convenient for Dorothy's attack, but also let the blood fly out, no waste at all.

The troll made a roar!

By phagocytizing the evolution of monks, it is very sensitive to bleeding, because the more you pass, the faster it will be weak.

But he still gritted his teeth and ignored it. He insisted on the last moment and was ready to swallow Zheng Yumeng.

These three are all fat, even if you can't eat three pieces of fat in one breath, as long as you can eat a bite, it is a big supplement. After the digestion and absorption, you can make great progress, and then you will have a greater grasp.

So he was ready to devour Zheng Yumeng and immediately fled!

At this moment, Zheng Yumeng's Qiu Shui sword is also at his mouth, containing her strongest blow, directly exploding the crack of the two-foot crack in the edge of the big mouth!

But the closer it is to the stronger the devouring power of the trolls, the more difficult it is for Zheng Yumeng to control his body, the mouth is not blasted, and the suction is not successfully stopped.

Dorothy, who fell on the shoulders of the trolls at the moment, also frowned, and the hand directly stabbed into the troll's neck blood vessels, and then pumped hard!

She is a Wei Wei Zhao Zhao, but if the trolls lose both sides, it is still impossible to save Zheng Yumeng in time.

It was a bit of a surprise to see the deep waves in the sky above. I didn't expect to see it for two days. The trolls grew up like this!

The trolls of the day can devour so many monks, relying on fast and raids, and the embarrassing way. The strength of the ontology, that is, the level of the initial to the middle of the real world, is vulnerable.

There is only that special kind of extraordinary energy, so that his actual combat power does not stop there.

Now, two days have passed, even if they have absorbed those monks, they have gained several times the evolutionary skyrocketing, and at most they are equivalent to the power of the gods, so he can safely let them both shot.

Chapter 976 - Shooting fire

From the current situation, the strength is at least not inferior to the middle of the realm.

The way of attack is very different, coupled with the physical advantage, Zheng Yumeng's actual combat experience is insufficient, naturally it is dangerous.

However, the Shenlang people swept in the air, and they were originally given two exercises. They are all piled up with resources, and the chances of actual combat are limited. This is also rare.

If he is there, naturally he will not let them really have an accident.

Just when Zheng Yumeng had been sucked into the mouth, Shen Lang manipulated the sacred armor and slammed it into the past. He accurately drilled from the troll's left face to the right face!

Regardless of his phagocytic function, he still used his mouth to open a hole in his face, which naturally blew most of the strong suction in his mouth.

Zheng Yumeng is of course also lacking the prejudgment of this engulfing power. At this moment, the pressure has plummeted and immediately seized the opportunity. The whole person followed the Qiushui sword and quickly turned a circle!

Just two feet of the mouth of the blast, has been combined with the hole that was bombarded. At this moment, she turned to the other side and cut the corner of the other side into the hole.

“Roar—!”

The whole face almost became an opening of one hundred and eighty degrees, let the troll scream, and the violent alien energy surged out!

Zheng Yumeng and Dorothy were on his left and right shoulders. At this moment, the energy surged out, and they both enveloped them.

The intensity of this time is much stronger than the last time.

Shen Lang has been waiting for it. When his energy has just emerged, he will immediately approach and the holy armor will absorb quickly!

So no matter how rich the energy he rushed out, it was quickly absorbed into one place, and the impact on them was tiny, and Shen Lang also passed them to defend themselves.

After discovering that this is not right, the troll Mo Qi is a little crazy!

Mo Qi was only an extraordinary warrior before, and the entry was not counted. After the help of Shen Lang, it was only after the return of the Yuan Dynasty. The knowledge of the Gongfa was even more limited. Including combat experience, everything is not as good as Zheng Yumeng.

The power of the energy of the world, the skill of engulfing, naturally became his stunt skill, and it has been effective again in the past few days.

The last time I couldn't take Shen Lang, he didn't think much about it. After all, it was Shen Lang, the already famous Shen Lang.

Now that he is growing in strength, he has confidence. Moreover, it is against the weak Zheng Yumeng, and I thought it was stable.

I did not expect it to be broken!

For a time, it was difficult for him to control himself. He immediately leaped and leaped. People rushed to the past and the hands were on both sides.

Dorothy bleeds blood on his back and neck, and the speed is very obvious, which has made him very annoyed. Just if I was not fully committed to Zheng Yumeng, where would it be for her?

Now of course, I can't wait to tear the Dorothy directly. No, I can't shred it. It's swallowed directly!

There is a big rotten mouth to his face, and he will be greatly reduced even if he continues to swallow it now.

However, if one hand grabs it and directly swallows it into the mouth, it is another effect.

However, Zheng Yumeng, who had just finished the road, was annoyed at the moment. Before attacking the mouth, even if the most powerful force is used, it is still merciless.

After falling to his shoulder, he directly pricked the autumn water sword to the neck blood vessels!

When he grabbed it with a big hand, Zheng Yumeng had dragged the Qiu Shui sword and pulled the wound up. The man also flew to the back.

Dorothy has already arrived behind him. For Zheng Yumeng's new piercing wound, he did not let go, and immediately took the blood inside.

A lot of bloodletting, so that the trolls obviously feel weak at first, but now three enemies, one is not done!

Originally, he was full of confidence, and felt that even if he couldn't swallow up three people, he could at least devour one, and then come back after the strength.

But now I find that it is a problem to be able to escape.

Under the failure of the stunt, not only is Mo Qi panic, but the soul of the monster is also nervous, so it becomes crazy, making full use of the advantages of speed and strength, trying to drive them away and then escaping. .

It is a pity that Zheng Yumeng and Dorothy, who are calm, can't grasp the hand, let alone the deep waves of the semi-scented world!

Under the fact that he did not release the energy of the world, Shen Lang did not rush to participate, but waved his hand and took him back. Dorothy and Zheng Yumeng continued to attack him quickly.

Zheng Yumeng began to get more and more convenient, Qiu Shuijian cut a wound on his body again, and because it contained six yangs, there was no effect in the stab, and it was the effect of collapse and bursting.

Her swordsmanship is derived from the bleakness, not the bleak teaching, but the use of sorrow, giving her body an instinctive feel. Although there is a huge gap between the desolation and the person, it is not inferior to the general sword.

Dorothy is like a bee that collects honey. It swims quickly and draws blood from each wound.

The two of them cooperate very well, although they will not directly kill them, but the wounds in one place can easily drag people to death.

And Dorothy has the advantage of speed. Once Zheng Yumeng is evasive, she either pulls Zheng Yumeng away, or attacks the trolls to block it.

Shen Lang has always maintained a certain distance, and will not interfere with their two hands. Once there is danger, they can rescue in time.

“go to hell!”

More and more wounds, the rapid absorption of blood everywhere, so that Mo Qi can not stand, when his will collapse, the magic object immediately took over, and then immediately had a huge change.

I saw the huge body of fifteen meters high, not only the violent alien energy, but also the body burned, the troll became a fire!

“Retire!”

Shen Lang quickly voiced both of them, letting them both retreat as much as possible This is a situation that has not been encountered before. In order not to let them be injured, he decided to personally test.

Zheng Yumeng quickly stopped Dorothy in the back. With her woman’s congenital pure yang, she would not be so shocked by pure energy. Instead, she could take part in the opportunity.

However, they are still obedient to back, so as not to cause trouble to Shen Lang.

“You can also come to me!”

When Shen Lang approached the past, the Ba Tian Tower had already shot, and completely controlled the surrounding of the Fire Devil, assisted the suction of the Ba Tian Tower, and prepared to take this fire demon into the tower.

For the things that have the same effect, the magic object immediately feels, and madly hits around and wants to escape.

If it is the absorption power of the Ba Tian Tower, it can be broken off by him. The Shen Lang can be controlled by the dark waves of the semi-sacred scene. It is like being trapped in a swamp mire, and it is impossible to get out. The more struggling The more it is entangled.

Chapter 977 - Suppression tower

The magical Mo Qi, found that like the violent energy, the flame from the energy of the world, can not hurt the sinking waves, or even close at all.

The power of the magic weapon of the Ba Tian Tower is largely based on the user. The Shen Lang can break free and win over because the Tang Banshan used at that time was the peak of the real world.

Of course, the modern comprehension community has limited understanding of the Batian Tower. It knows that it is a powerful magic weapon, but it does not understand the whole picture.

After that, the repair of Shen Lang continued to rise, and again and again people and things went into refining, which is also a kind of “feeding” for this magic weapon.

Nowadays, he is used in the semi-scented world, and the power is not the same.

However, this magical thing is also good, but it is only about five days before and after, so that the body of Mo Qi’s host has reached such awkward level, and still can resist the suction of the Ba Tian Tower.

But after Shen Lang controlled the field, he had no hope!

The first realm of Shen Lang's killing, the lord knows how to control the field.

The lord is still only in the early days of the gods, and it is very different from Shen Lang. When he controls the field now, even if he is as strong as this troll, he can't break free.

When Shen Lang gradually narrowed the field, the fire demon was forced to get closer to the Ba Tian Tower at a moment, and both energy and flame were forced to go back.

“useless!”

Before the body was huge, plus the green face and fangs, I couldn't see the shadow of Mo Qi completely. Now in the flame, it looks even more strange, but I can't see it.

Of course, the sound can't be heard, but from the tone, it seems that Mo Qi is back.

“Do you know where I have been in these two days? You should want it!”

“What use is it for you to move a small mound? Can you prevent me from being an ordinary person?”

“Even if you kill me, there will be a second, a third...numerable ones! By the time, hey!”

“You put me out! I can go back, but I won't come, and I won't let other people come over!”

Burning the huge disclosure of the flame, quickly telling such a series of words, the whole scene looks a bit embarrassing.

Both Zheng Yumeng and Dorothy avoided the side, but the content of the discourse also surprised them.

One has been so perverted, if there are two three innumerable... the scene is really unimaginable!

Shen Lang listened and secretly frowned.

Since he can say that he has moved a small mound, it is really going back to where he came, perhaps in the past two days, he absorbed refining and chemicalization in the vicinity of Licao County.

It is even possible that he knows how to shuttle, go back there, and come back after fully absorbing!

If it is the former, then this is nothing but an alarmist intimidation.

If the latter, then it is really possible to release the information, anxious more monsters come!

The body of these monsters is not known. Entering our world seems to leave the small piece of violent energy, not knowing whether it is the heart, the brain, or a hostage.

From the need for a body to be the host, it means that it will not be the ontology.

If a lot of people come over, it will not be so skillful for a time. The body of the comprehension can be used. The neighbors of Shenlang will be helpless choices, and they will all be demonized!

One or two are just individual accidents, saying that they originally thought of using the array method to close it there.

If you enter the world in batches, with their metamorphosis growth rate, it is not an accident, but a war! And it is still a war of extinction!

There is no doubt that this news goes out, even if there are examples of trolls, not many people will believe it.

Everyone will still feel alarmist, and then they will be suspicious, and then with the more cases, they will begin to pay attention. Wait until the countermeasures are negotiated, who is responsible for the shots, and then the specific actions...

This series is enough for them to complete the leap again and again, and the situation can't be controlled!

Shen Lang hand movement, directly compress the field, and then drive the Ba Tian Tower, and then completely inhaled the fire magic.

"How? Can this magic weapon trap him?" Zheng Yumeng couldn't help but ask.

She had just ventured directly. If it wasn't for Shen Lang's timely release, she might have been swallowed up. It's hard to say whether you can break through and break through.

Shen Lang nodded: "No problem. But what he just said is a big problem!"

"Then we are...?"

"Go ahead and see!"

Shen Lang immediately took both of them and drove the cloud to the Licao County quickly.

If there really is a "city door open", or if they have a way to come over one by one, they will not be able to manage so much. They must not grow up and kill them!

This is a tough decision.

Because in the absence of good host conditions, it will be used for the difficulties, it will be the neighbors near his home. Even if there is not much deep friendship, how good the relationship, but after all, is a familiar face.

To kill them one by one, it is still a bit unbearable.

But if you don't remove it quickly, they will soon become a group of trolls!

On the same day, I moved a small hill and came up with a battle to seal it up. When he came to the hill near his hometown, Shen Lang had not waited for the landing, and he saw the hill that he moved.

"It seems that nothing has changed. It should be a lie to us!"

It was bleak here on the same day, so Zheng Yumeng was a bit confused, but Dorothy did correspond to the memory and felt that there was no change.

Shen Lang looked at it with a little relief.

If this hill is destroyed, changed, and the formation is destroyed, there is a greater possibility of attempting the invasion of the monster.

Now everything is as usual, the bigger possibility is that the trolls are back, and found the state here, but did not change or no ability to change, just yelling at him, want to lie to a chance to escape.

"Let me check it out nearby to see if there are any abnormalities. I have to add more bans!"

Shen Lang is not too late, only let them two, take this as the center point, search the entire area of Licao County.

A few days, a lot of things can happen. There is a little distance from Pingxi here, and it can't be sensed in time.

In order to speed up, and can search for a larger range, Dorothy and Zheng Yumeng are ready to split up.

"Don't separate, pay attention to safety!"

Shen Lang quickly sighed, lest they have an accident. After all, their experience is not rich enough, not too hot.

After they left, they immediately began to re-arrange. For the original seal of the formation, more restrictions were imposed, and a layer of early warning was given. Once it was destroyed, it would make him feel something, and he knew that there was an accident.

Chapter 978 - "Building God" for Shen Lang

After Shen Lang was completed, he contacted Feng Jiji and told her the news. She spread out and let the corresponding people not panic.

Hearing this news, Feng Wuji is also relieved. After all, Shen Lang is on the front line, and she is worried before she is done.

But Shen Lang also told her about other issues, no need to panic, but need to be wary.

There may be other monsters invading, or it may be just a fake message, but it must be made aware of everyone's awareness. The next time you encounter a problem, you will immediately report it out.

After letting the wind go to the treatment, Shen Lang immediately contacted Zheng Yumeng and Dorothy to find out that both of them were on their way back.

After a while, reunited in the same place, the results of the two searches were based on the area around Licao County, and they did not feel the same.

When I came here that day, it was discovered by Shen Lang and Desolation. Zheng Yumeng and Dorothy were not so sensitive.

But now it's different. Before they came over, they all had close contact with the troll and felt the experience.

Confirmed that there is no time, Shen Lang is also slightly pleased.

Then they left Licao County together. For this hometown, he couldn't spend too much time to protect. If it would be an outpost of the invasion of the aliens, it would be an unavoidable fate.

After returning home, Shen Lang took the parents out of the world of Tianshu.

In two days, they have been practicing retreat for more than half a year. As the realm has improved, they have also experienced the joy of cultivation.

In the end, it was only because of the son's relationship that I didn't want to have a big gap with my son. I didn't want to have a topic with my son, but now they are really getting started.

I don't need to disclose them in detail, my son's smile, let them both be very pleased, knowing that any problems have been solved.

In reality, only two days have passed, and it should not be a big deal.

Shen Lang has also considered it. From a safety point of view, receiving them from the Tianshan Jianzong will get better protection and it will be more convenient to meet.

But parents are definitely not used to it!

Not to mention the environment like the Tianshan Jianzong, even in the Zheng Yu dream home, the modern society with better environment, they are also very unnatural.

After all, here is their hometown, their roots. They said that in the end, they are small people. There is no relationship in Pingxi City. This is a performance of the son. However, when he goes to other places, he will leave his hometown.

If it is only the experience of this world, it may not be considered in the early 20s, but he has seen too much in the last life.

With his parents' age, qualifications, etc., it is very time-consuming to start teaching their respective exercises, and the efficiency is very low.

But after all, it is a parent, Shen Lang still has to do!

He chose to enter the world of heaven with them, and then used “a year” to teach them some small spells.

If you encounter a strong enemy, there is naturally no way. However, if it is only a small problem in daily life, such as encountering a thief or a thief, there will be no effort to display it.

After returning, Shen Lang has sent a message to Yue Zhennan, telling him that Mo Qi has been solved.

Now, after coming out of the world of Tianshu, Shen Lang is about to leave.

Because the wind did not give him a lot of information, he could not lie in Pingxi again.

The departure is with the two of them, which is what the Shennan couple repeatedly asked. Let the two young girls stay to protect them, it's too wasteful!

Obviously, they all followed their sons. Of course, they should let them follow their sons. After all, parents still hope to hold their grandchildren as soon as possible...

Before leaving, Shen Lang was on a phone call with Yuezhen Nantong. He knew that he and other Yue family were in the aftermath, then the reconstruction of Yuejia, and other family sects needed to be reorganized.

Since Mo Qi has already done it, there is no special opinion.

During the three days of his retreat, there were a lot of things happening. The news that the wind had no reunion, some of them could not be avoided.

First, after she spread the information of the troll Fuxi, the reputation of Shenlang once again rose to a new height.

Some time ago, he was arrogant, and the benefits were also from the major sects. After all, they were only dozens.

And he saved so many people to come back, for those martial arts families, thank you is one thing, and the other is awkward! Younger children are also unlikely to blow everywhere.

Now it is different. This time it caused panic. First of all, it is the comprehension of the three provinces nearby. There are other middle and lower levels. Everyone is at risk. Shen Lang can help solve the problem. Of course, he is very moved.

The most important thing is that the warm cheers and thanks, the Shenlang to the heroic altar, they do not need to collect the benefits. Hero, the reputation is already so big, isn't it too tacky to talk about Qian?

Not only in the middle and lower levels, but also in the “making God” of Shen Lang.

Because the trolls were chaotic before, they were also asked to be heroes, but everyone did not say anything. It is now that Shen Lang has made this early bird, and of course they are happy to see it.

Younger generations may be a bit unwilling, and feel that if they are shot, the reputation of this hero will be theirs.

However, the encounter of the “Heroes of the Heroes” made them very convinced, and at most they were only for their own heads and the veterans were a bit unwilling. And what qualifications were once unsuccessful when they were rescued by Shen Lang?

The older generation is different. They are all old and savage people. They can be passed down for hundreds of years. The heads will be long-sleeved and good-natured. The limelight is not so good, this time you are out of the limelight, the next time others will push you out!

So before everyone pretended to be dumb, now there are sinking waves, and immediately cheered enthusiastically, pushing Shen Lang to the altar.

In the future, there will be such a problem. The comprehension of the realm will be Shen Lang, and will not find them.

The inheritance of the famous big group depends on the preservation of strength, Mingzhe's preservation and balance, they are all proficient, and the honors of one and a half moments are all over the eyes.

Of course, old predecessors such as Qiao Yuxian, Nanliuchuan, Liu Yuchang, etc., have received the grace of Shen Lang, know this, and also sincerely benefit the door, the children sang praise songs for Shen Lang.

Reputation has risen a lot, some people promote "making God" or not, Shen Lang does not care, after all, this time, Mo Qi and Yue Zhennan, Yu Gong and private should be shot.

But another news made him difficult to avoid.

The Archbishop of Paul of the Holy See, who came to visit the door!

It is undoubtedly very grand to travel thousands of miles across half of the earth, especially Paul's identity is special. Whether it is on behalf of the Holy See or on behalf of individuals, it is a big deal.

Paul also knew about the trolls, but also praised the waves, and then triggered a wave of enthusiasm.

At the same time, everyone is watching and watching his intentions.

Chapter 979 - Apologize gift

The Holy See is a big force, and it is a very complicated giant.

Needless to say in the religious world, in the secular world, there is also a huge political influence. In the realm of cultivation, it is also a big force.

Paul was the chief of the Central Bishops' Conference and was almost the vice-pope under one person.

After he dominated the plan for no return to hell, another person took over the position of the chief bishop. Now that he is back, his position is a bit awkward. You don't know what status he is.

And such a high-profile visit is his personal gratitude to Shen Lang, or as a messenger of the Pope?

The former is definitely there, but everyone can imagine it, and the latter is very likely to be there!

If it is the messenger of the Pope, what is the secret talk with Shen Lang?

With Shen Lang's status and prestige as a whole, if it is successfully drawn, it will be very helpful for their forces to enter China.

And this will naturally be a major event in the three aspects of religion, politics and comprehension!

Especially in the realm of comprehension, everyone has limited resources, each of which divides the site, and the well water does not make river water.

Suddenly a Western crocodile came over and could develop peacefully? Even if the short-term attitude is excellent, it is bound to encroach on everyone's living space!

As a result, everyone also looked at the attitude of Shen Lang, waiting for him to come out to meet with Archbishop Paul.

Although Shen Lang hates being kidnapped by external consciousness and hates being surrounded by groups, it is the same idea for Paul's active visit at this point in time.

What does the Holy See mean?

People are playing the banner of friendly visits. Before they were separated, they were also invited to visit him. This is not easy to avoid.

The other party has already been high-profile. If he avoids it, he may have a rumor that he has a deal with the Bright Church, or why he needs to avoid it?

So he must leave Pingxi.

However, the archbishop of Paul was high-profile this time, but it was not a sudden attack. In fact, there was a message in advance and Shen Lang.

Just because these days, Shen Lang is in the world of Tianshu, and I have not seen it. When the customs saw it, others had arrived, and the news had spread.

Of course, in good faith, Paul is not going to the big city waiting for the meeting to meet in the past, but to inquire about it, contact the people of Tianshan Jianzong, and directly find the door to visit.

Similarly, his high profile is only relative to the realm of comprehension. To avoid other accidents, he is very low-key, just like an ordinary tourist approaching, even meeting with religious representatives, there is no arrangement.

For the whereabouts of Shen Lang, Feng Wuji will not reveal it, but she considers the issue to be comprehensive.

A few days ago, the news that Shen Lang annihilated the trolls had been released, but Shen Lang did not make public appearances. Not only can he not see him in the realm of comprehension, but now someone has a high-profile visit and he does not see him coming out. It will inevitably make people doubt.

The troll is wiped out, is it a blind man?

Is Shen Lang hit by the troll in the process of fighting?

Even... Is Shenlang an agreement with the troll, if it is for its own use...

In order to avoid doubts, the use of Feng Zhennan is an excuse for Yue Zhennan.

The news that the Yue family was destroyed, although many videos and pictures on the Internet were suppressed, she was backed up in advance. Before Shen Lang also let her spread, everyone knows.

In the past few days, Shen Lang was naturally assisting his friends.

Fortunately, Shen Lang is now out of the customs, and she does not need another excuse.

Shen Lang went straight to the house and rushed back to Tianshan to meet with Paul.

The news also passed through the wind, and the wind was released.

Now there is the network of Tianshan Jianzong, the information is not closed, especially the wind and no Ji and the respected side maintain communication. So for Paul's visit, Tianshan Jianzong is also ready.

When they found the door, Tianshan Jianzong was also a polite reception.

After all, it is nominally a friend of Shen Lang's visit, and Shen Lang is the most important elder of Jianzong.

When Shen Lang returned to the Tianshan Jianzong, Paul, they have lived for a day.

In just two weeks, Paul is like the excitement of a long-awaited reunion. People who don't know will think that this is a friendship for decades.

Everyone knows that their talks will be important, so no one interferes. Whether it is Paul's entourage, or Zheng Yumeng and others, they are very interesting.

When Shen Lang and Paul were alone indoors, they also made a shield.

"The Archbishop of Paul, you come over this time, not just to thank me, what is the right thing, let me talk about it first!"

Shen Lang did not go around and saw the mountain directly.

Paul was originally prepared to follow the implied euphemism of the Chinese people. Now Shen Lang is so direct, but he let him squat.

“Hey. It seems that I have ulterior motives... But when I visit Master Shen, I really shoulder the task. I will talk about it first!”

After that, Paul’s look was solemn, and then he took a serious bow to Shen Lang.

“I am on behalf of the Pope, apologize to you!”

“Because of what.” Shen Lang said faintly, accepted his gift.

“Because Pinochet is the idiot.” Paul smiled and he was helpless.

“Pinochet has a lot of qualifications, so after I left, I talked about him and recommended him to take over the chief archbishop. But I didn’t expect him to be so rude to you, and colluded with the bats’ vampires in an attempt to murder you. “”

“The Pope was angry when he knew it. After he went back, he was severely punished and the central bishops had been dismissed.”

Specifically, Shen Lang will listen to him, and he will not go to verify. The Pope must have considered it from the perspective of interests. Pinochet was already a waste, and it left a worldly prestige. Since Paul came back, it was not easy to put it, and of course it was dealt with directly.

“These are the gifts that the Pope ordered me to send apologize and thank you.”

Paul said so grandly, it is the Pope’s predecessor, it should not be too cold, but what he actually took out, is a simple small silver bottle.

“What is this? Is the holy water that your Pope personally blessed?” Shen Lang made a joke.

Many religions have something like “sacred water” that can cure diseases and even save lives. It is the most common secular “appearance” way for believers.

But this is not mysterious to Shen Lang. In ancient times, many medicines for treating diseases were mastered by the aristocrats of the princes, and even the secrets of the palace. Some sects are also in control. After all, from the generation of witch doctors, religion is among them.

Therefore, some ordinary “sacred water” is actually the water that has been treated with drugs. The symptomatic high-efficiency medicine is obviously effective for small problems, and it makes the poor believers shout.

The higher level of “Holy Water” is actually the self-cultivator’s blessing. It seems that there is no difference in drinking, but the effect is even faster.

Chapter 980 - Belief power

Looking at the small silver bottle, Shen Lang thought of the holy water.

However, it is just a joke. Normally, Paul is not far away, and it is certainly impossible to just send holy water.

Paul listened and smiled, then immediately said seriously.

“Master Shen is not an ordinary person, an ordinary gift, can you represent our sincerity? This is... faith in power!”

Hearing what he said, Shen Lang immediately guessed it.

The so-called belief in divine power should be the same as the spiritual power contained in the holy painting. It is only a more intense condensation, like the spiritual bubble that Yuxianmen makes them condense.

If this is already liquid, it is really a gift!

Shen Lang picked up the small silver bottle and opened it for a moment. It turned out to be a very pure and powerful spiritual force that had condensed into a slightly liquid state.

This is compressed and condensed. Even if it is opened, it will not overflow. The bottle is an ordinary silver bottle, and it will not pass.

Sure enough, the Holy See has always studied and absorbed the spiritual power of believers, and has mature techniques.

The holy paintings are only superficial, and these beliefs are the essence of them!

“Is this gift a bit heavy? I can’t afford it.”

Shen Lang smiled and put the silver bottle down again.

It is imaginable that the Holy See will send a thick gift. It is imaginable that a gift will be a rare resource. But so much faith in the power, but still a little more than expected.

Paul smiled and said: “You don’t have to feel embarrassed, although I am very grateful, and I am willing to do everything I can thank you for your help. But to be honest, this is not what I can get, nor is it that I can influence. The Pope is so big because of the thanklessness of saving me several times, and the acquittal of Pinochet, it is also the sincerity of making friends.”

His communicative ability is still exercised. It seems to be a big truth, but the side is praised by the Pope’s atmosphere and sincerity.

“These gods of faith are not the same as the holy paintings. They are basically collected by the Pope when they attend large-scale events. The number is extremely limited. The average person is not qualified to own it. You are worthy of Master Shen.”

There is no need to retain the emphasis, and Shen Lang knows that this is hard to come by.

The paintings can be arranged in the main cathedrals, but they can also accumulate over a long period of time. However, the belief in divine power, not to mention one-time collection, requires an extremely large number.

There are only tens of thousands of thousands of believers clustering large-scale activities, in the state of devout and fanatical, you can collect such a huge, or extract from many of the reclaimed holy paintings.

Such activities are only available in a few important festivals such as the New Year in a year. With the respect of the Pope, there will be no public appearances.

So no matter which way, it is rare, the Pope took out this gift, it is indeed the atmosphere.

Of course, this must be a reference to Paul's opinion. In Yuxianmen and in the underwater world, Paul has seen the play of Shen Lang, and Shen Langguang earned hundreds of fine stone information for tickets and so on. They also inquired.

Therefore, sending faith in the power of God is not only rare and precious, but also lacking in Shen Lang, and there may be a lot of Lingshi.

"Good things. I also feel the sincerity of the Pope, and I will take it back if I believe in divine power!"

Shen Lang just looked at the calm, Paul is looking in the eyes.

But he is confident that this thing is very important for Shen Lang. Calm should be only superficial, the modest of the East way, but did not expect that Shen Lang would actually decline.

However, he still did his homework. He knows that there are a lot of humility in the Eastern countries. If others send something, they will be very cheesy. They must be humbly several times. The last time they have a hard time, they have to accept it.

So he immediately learned to use it, and once again pushed the silver bottle to the hands of Shen Lang.

"How is this going? The Pope asks me to send a present. If I can't send it out, it will be a bad thing. And I also boast that I have a good relationship with Master Shen, so I have no face to go back! You must accept it!"

When I heard Paul's words, Shen Lang was a bit stunned and then wanted to laugh directly.

I have really studied the gift, this style is proper...

Shen Lang shook his head: "The Archbishop of Paul, here we are two, everyone is born and died together. I will not give you politeness, just say it! This is really a good thing, but everything is equivalent exchange I don't want to pay anything, so I declined in advance."

"But we have no requirements, just apologize and thank you..." Paul was a little anxious.

According to his homework, if it is a rumor, it is often a customer, and it will be a few times. But the detailed analysis of the pros and cons is that the true mind has been decided.

"Apologize orally, it's okay, because I have already let Pinochet pay the price; saving you is not for you alone, everyone is together, it is for you, it is all for you to save. So these are not worth it. These beliefs are divine."

In the latter words, Shen Lang did not say so straightforward – the Pope's sincerity to make a friend, he did not want to lead this love!

There was a hint of helplessness in Paul's eyes, and he also sighed and smiled.

Because the Pope rarely visited, he used to go out and was almost the same as the head of state. Not to mention giving gifts, it is to discuss the interests, but also to talk to other heads of state, and many feel honoured.

The young man in front of me is not the problem of not putting him in the eye, it is not to see the Pope!

Is this a young age?

But he also has this confidence!

“The first time I saved us, it can be said that it is a meeting. But after Master Shen returned, it is a special purpose to take a risk for everyone to rescue. It is said that other related friends, their family sects, are offered. gift.”

Paul said earnestly: “Pinochet, who came to us at the time, has done damage. You have saved me out of my suspicion. This is what I deserve.”

Then he smiled bitterly: “Like other family sects This is what the Pope paid for me. If you don’t accept it, it will force me to pull out all my own homes.”

Then he stretched out his hands and said more helplessly: “Before going to the sea without jail, it was very likely that there was no return, so my life savings have been exhausted, and many of them are dedicated to the church. Now I am taking Nothing, these also have one for me.”

Seeing that the waves were unmoved, Paul gritted his teeth and stood up.

“I have heard that since ancient times, your country has been a big gift, and it is the most sincere expression. If you don’t accept it, then I...”

Paul did not hesitate and went straight to Shen Lang!

Shen Lang was speechless for a while, but did not expect Paul to stick to this level.

With a wave of his hand, he immediately rolled up Paul, who had already reached halfway, and turned into a posture of sitting down.

This hand directly makes Paul yell!
