

## First Strong 98

Chapter 98 - Shen Lang shot

“Boy! Who are you? Why is it here?” One of the elders opened the crowd and asked.

Shen Lang looked at the past. From the name of everyone and the information of Yue Gang, I knew Li Lao Li Shengyi of this Daxuanmen. At the moment, Li Shengqi’s side asked, and he had already secretly exercised.

“You want to stop me? You can’t open this tomb of the king. You have already passed one-sixth of the time, and then delay, you have to wait sixty years.”

Li Sheng yelled: “Nonsense!”

He has already prepared for the game. When he speaks, he seems to be a wave of his sleeves, but there is a palm of his hand that comes directly to the waves!

He is the appearance of the celestial wind bones, but also wearing traditional costumes. At this moment, the sleeves have such power, which really makes young disciples admire them.

If it is an ordinary person, it will be stunned by his palm. Who is Shen Lang? Don’t say that he has seen his sneak attack long ago. Even if he didn’t, he couldn’t let him attack the road.

When the palms of the thunder crashed, they only saw the figure moving, and then they saw Shen Lang standing on one of the boulders they had moved.

“Li is old and slow, listen to what he said!” A veteran next to him called him, and then asked Shen Lang. “Young people, what is your teacher? Why do you know our secrets? What do you want to say?”

Shen Lang looked at him. “What are you leaf?”

“Old man Ye Jiaye Long.” The old man licked his beard and reported himself to the door.

“My name is Shen Lang, you Yeh may have heard of it.”

“Shen Lang?” Ye Long thought about the name, and then looked at the children of Ye Family.

At this time, Shen Lang said to Li Shengzhen: “I am very vengeful, and Li Lao, you pick me up!”

During the speech, his body sank backwards, not falling to the ground, and kicked the boulder that had just stood.

The stone was a few hundred pounds, but he was kicked out by his easy kick, and the speed was very fast. It was obviously added a lot of power, and the time came to Li Shengzhen!

“Li Lao!” Whether it was Daxuanmen or some other people, they all screamed.

Li Shengzhen was also taken aback, but he lived seven or eighty years old, no matter how many actual combat, there are still some experience in dealing with various situations. Immediately sighed, the palms swung, and the boulder from the side went to the front, and the foot quickly stepped back.

According to his calculations, the two palms can not push the boulder away with full force, which is a direct hard-to-hard confrontation. Therefore, to avoid the edge, from the side shot, it is a clever power of four or two, to lead the boulders to the side, you do not need such a large force. Plus the retreat, it should be fine.

To really follow his expectations, he showed that it was an understatement that took the boulder to the side, because the sleeves of traditional costumes are more like the sleeves.

It is a pity that Shen Lang kicked the stone with this foot, which contains the “Da Shou Mi Long Xiang Shen Gong”, its momentum is very fierce, its power is as steady as a mountain, its speed is like an arrow of offline!

Li Sheng’s hands were just photographed on the stone, and it was found that it was not just too late, and it could not be shaken!

With the boulder’s coming, if you can’t reverse the trajectory, there is no meaning in the one or two steps, but it is delayed by zero and one second!

Everyone's eyes were focused on him when they just screamed, and the "Li Lao" they yelled had not stopped. They saw that Li Lao could not push the boulders, was hit in a middle, and then pushed the whole. The man flew up.

The next moment, under the light, they saw Li Lao squirting a blood in the air!

Look at this, he is already seriously injured, there is no resistance at all, if you wait for the huge stone to put him on the ground, it will be repeated again, and may even be killed!

Fortunately, he just left the crowd and went to the front to question Shen Lang. There are still many people in his end and behind. Just after the boulder came, the people near him were instinctively jumping out on both sides.

Now that the stone hit him and flew back, many people were blind and helpless, but after passing a few people, the latter person had a little more time, and finally there was a quick reaction, reaching out and taking his body. Pulled the past.

As a result, the remaining stone fell outside a few feet, Li Lao has been rescued to the side, although still seriously injured, but no secondary injury.

Shen Lang just kicked a kick and did not care about his life and death.

And he will just fall on this stone, will kick this stone out, it is not random, they are wrong in the sun, you must kick this piece away!

Seeing the experience of Li Lao, including the Ye Long and other veterans have shook, and at this moment some people have said a few words near his ear.

"You, you are... that swell?" Ye Long looked at Shen Lang with astonishment.

In fact, Ye Jia because Ye Shiguang and Ye Fan are not at this scene, or else they must have recognized Shen Lang.

Knowing the body of Shen Lang, Ye Long is still incredible. Although Ye Jia was traded through Ye Shiguang, Ye Shiguang was a well-thought-out person. He also carefully observed it. The conclusion reached by everyone is that this young man has not practiced the yin palm and knows the full version of the yin palm. It is his master and the like.

Just just a stone on one foot, he was seriously injured by Li Lao, who is not inferior to him. This strength...

Ye Long didn't dare to speak a lot. The other party knew that they were looking at their homes and they were sold to them. Even if they sold them to their full masters, no one could make Yangshuo's hands up and make up. what.

If the public is broken, then the world name will be finished, including the reputation of Ye Family!

"Ye Lao, who is he?" Someone saw him know, and asked a question.

Ye Long shook his head and did not answer. He nodded to several other elders, and then said to Shen Lang: "Shenlang little brother, do you really have a way to open the tomb of the king?"

Others have also focused their attention on it In addition to a few logistics in the past to take care of Li Shengzhen, it is the other people in Daxuanmen, they also put down their anger, listen to this information first.

I have just waited for more than a moment, really like the one-sixth of the past that Shen Lang said, and then dragging it for half an hour is a quarter, the time is very compact, no one wants to waste the next six Ten years, no one wants to be trapped inside, no time to come out.

They all have abacus in their hearts. Compared with nothing, let the outsider insert a hand, and when they open the tomb of the King of the King, after entering it, can everyone still do not die?

"Look at it!"

Shen Lang flashed rapidly, kicked a few feet in succession, and changed the position of several other boulder changes.

The veterans are based on drawings handed down from generation to generation. Even if the scores are not bad, the environment may change in the past sixty years. Shen Lang is based on the change of the solar array, and does not need to look at any drawings.

The most important thing is the boulder that he just kicked away, while the others just fine-tuned it. The yang array immediately changed. The large space in the center quickly split and there was a dark hole!
