

First Strong 981

Chapter 981 - Reject cooperation

Asking the other party to receive the gift has already made the inclusion very helpless, and the degree of “begging” is what he did not expect before.

In the status of his “deputy pope” level, this is really a fight, it is a behavior to lay down dignity.

It is not unexpected that Shen Lang will stop it, because I heard that the East attaches great importance to the worship ceremony, and the recipients do not dare to neglect.

But what makes him awkward is that Shen Lang just waved his hand and let him get up and re-enter the seat!

His grading standard in the West is equivalent to the S-level of the realm of the gods. The level of S to S+ is the level from the middle to the end of the realm.

Among those who walked together, he was the strongest one. At that time, the realm of Shen Lang was not as good as his. It was only in terms of mental strength and law, and he had the ability he could not reach. The combat power was not directly contested. Over.

At the time in the pastoral garden, Paul once felt that Shen Lang was a man of God, and the Pope may not be able to get along, that is, in terms of mental strength.

Today, it is only about two months apart. The ability of Shen Lang to show off his hand has made him discover that he is unable to see through the waves in his realm. It should be far above him!

Because the performance of Shen Lang in the pastoral garden directly made him and everyone else full of confidence in Shen Lang, so the underwater world saved them and was not too shocked. It seems to be taken for granted in him.

But now, this magical change has made Paul deeply shocked.

What happened, so that Shen Lang can make a quick leap in such a short time?

On earth, it is impossible to be so magical. In the underwater world, everyone is almost the same, not seeing too much special.

It is only possible that more than a month after they left, in the dark waves of that world, more adventures were gained!

In shock, he also sighed secretly.

It seems that Shen Lang is indifferent to the belief in divine power. On the one hand, he has more resources and really does not care so much. On the other hand, it is also because his strength is soaring, and he really wants to pay more for the exchange of equivalents!

“Why is this necessary?” Shen Lang was a little helpless: “To be honest, for many of you foreigners, my impressions are very bad. You are the best impression, you have to kneel to me, this makes me... .. forget it, you have reached this level, it should be difficult, I am going down?”

Said, he took the small silver bottle.

Paul couldn't help but laugh. I didn't expect the effect of “begging” to be so obvious. It seems that this is really a very heavy gift.

“Thank you.”

The gift of giving gifts to the gift, only when you go to the back door to do things, now Paul, but does not feel awkward at all.

Paul's intention is the business of Shen Lang's first question.

Now that the gift has been sent, the first thing is over, and Shen Lang is waiting for him to say something else.

After the topic slowed down, Paul began to chat and talked about what happened after he went back.

For them to go to the sea of innocence, the Western comprehension community is not optimistic, and finally can come back, so that everyone is very excited. After all, this represents the strongest group of the highest level, and the return to everyone's strength has been restored.

But for many forces, it is also a beginning of chaos!

Just as Pinochet and Hughes and Mars wanted to make a wave, it was the return of their predecessors that directly related to their status.

There are other people who were originally the head of the family, the high priest, the president, the sovereign, and so on. Before leaving, they passed on to the successor. After returning, the status will be paralyzed.

If it is a strong person, even if he is a chairman or even retired, the influence will overwhelm the incumbent CEO. As a result, the current CEO is naturally sensitive.

However, Paul himself did not have this problem. Pinochet has been dealt with, and he can still re-establish the status of chief archbishop.

The problem now is that he is not in a hurry to resume his position.

Of course, this may also be the meaning of the Pope.

Although I didn't talk about it now, Shen Lang can read the meaning behind it – they still want to go to no return to hell!

With the previous experience, this time it will naturally be a lot smoother. When it comes back successfully, naturally there are not so many concerns, let alone Paul, perhaps the Pope has a mind to go.

These paving, so that Shen Lang also has a general guess.

Paul or the Holy See means to unite him to team up and go back to no return to hell!

Shen Lang successfully saved everyone twice. After sending everyone away, staying alone can return safely, not only in strength, but also in mental and other aspects, and has very extraordinary ability.

In short, there is experience, so that the success rate of their safe return is greatly increased. And if there is a deep wave, it is equivalent to buying a universal insurance, which is almost equal to safe return.

However, they are playing sincerity cards and don't want to be so market-minded, so they didn't say it directly.

Paul did not say that Shen Lang was treated as if he did not hear it, and did not take the initiative, but turned the topic to the recent troll.

After chatting for a while, Shen Lang asked if anyone had taken Paul to visit the nearby Tianshan scenery.

Paul was embarrassed when he heard it. If he didn't understand it wrong, this is the signal of sending customers!

Visiting the scenery, it is a pretext for you. In their identity, where there are still thoughts and interests to see the scenery, naturally, they will take the opportunity to leave.

However, his purpose has not yet been reached. If he leaves this way, he will naturally be unwilling.

“When we came here, I saw it. Tianshan is not a mountain. It is majestic. Yes, isn't Master Shen interested in going there on our side? Although we don't have such a magnificent natural scenery, everyone is very hospitable. Looking forward to your arrival.”

Paul sent a cautious invitation.

coming!

Shen Lang secretly laughed, Paul could not drag on any more.

“Your invitation This is a very glorious thing for everyone. But I don’t really understand your religion, culture, etc. There are so many things in the near future, so I don’t want to travel far. So... ..”

His somewhat embarrassed expression, coupled with the words already mentioned, is obviously obscured.

Paul smiled slightly. “Understand. Master Shen is so young and naturally has no interest in religion. However, we are not talking about religion or culture. I believe you can guess...”

Shen Lang laughed and said nothing, as if he could not understand.

Can you guess that you still refused, don’t you understand it? If you want to continue to talk about it, you will have to be cold.

“So, I will go back first. After all, my identity is also a bit special, it is not convenient to visit other people. If Master Shen has any plans, please feel free to contact us, we are willing to cooperate!”

Paul said goodbye, and in the latter sentence, implicitly pointed out the real intention. —— If Shen Lang has plans to explore the sealess prison again, they are willing to lower their posture!

Chapter 982 - Absorb the power

Paul did not wear the mud, and immediately left with the words.

Shen Lang is also polite to send him out.

Before leaving, Paul also intentionally or unintentionally expressed an attitude: to signal that Shen Lang first used the belief in the power of God, if it is easy to use, they will supply it to him, and it is not bad!

Shen Lang is just a smile, the better this thing, the more sincere the other party, the more natural the plot!

He is not currently involved in more involvement with the Holy See.

After sending away Paul, Shen Lang and the elders of Jianzong opened a meeting. On the one hand, they said the troll more precisely.

Although the peace and the west are separated by thousands of miles, and the Tianshan Mountains, even if there is a real invasion of the Mozu, this place will not be the first place.

However, it is also a good name for the Tianshan Jianzong. Even if it has been declining for many years, the strength is not good, but there are still some responsibilities.

In particular, the status of the rivers and lakes that are now leaping and leaping will still be required to take the lead when necessary. Others need to be mentally prepared even if they are not arranged to go to the front line.

The demon family is in chaos, the demon invasion, and the evil door is rampant... These situations are not new, and it is not uncommon in history.

However, "common" is viewed in the long history. For each specific person, it is rarely felt in your own generation.

For example, dynasty changes are also very common, but the chaos is still shorter than the time of peace.

Hearing the future that they can see in their lifetime, it is very likely that there will be a powerful invasion of the Mozu, so that everyone is refreshed.

In addition to having a responsibility and pressure, it is actually more or less excited!

After all, this is not always possible, even if there is no chance to change the name of history, you can witness history! Just like this time, they explored the return of the sea, and finally returned safely, everyone witnessed history.

After the meeting, Shen Lang was alone in the room, and then took out the small silver bottle.

The belief in the power contained in it, he just felt it, but it is also a bit itchy.

After all, his strong spiritual strength is based on the awakening of Yuyao in the past, and after the cultivation of “Yin and Yang Bo Ruzhen”, it has been continuously enhanced.

There are many resources that can be added in terms of cultivation and other aspects. But for the mental power, it is not until the soul of Bai ghost door, it is considered external absorption.

Now that he has reached the half-sexual situation, the spiritual power is naturally very vast, and the ordinary supplement has already had limited effect. For example, directly absorb one's mental strength, before it was a big supplement, now it will add a little bit, the base is too big.

The power of faith sent by the Holy See has great appeal to him.

Since he has already accepted it, he will be polite and directly begin to absorb the belief in God.

The spiritual power of these already fluid words is the quintessence of tens of thousands of believers, the most powerful and devout time. Compared with the spiritual power in the holy painting, it is too vast to know how much.

Shen Lang took all the absorption in one breath and made the mental power greatly strengthened. There is also a little bit of meaning!

It seems that the other party is giving great sincerity and is also a great bait!

This thing is also addictive. If you want to absorb so much faith, you can only provide it!

Although not the only one, the domestic sects do not have this advantage. For various reasons, it is impossible to collect it in such a large scale, and because of historical reasons, there are fewer devout believers in the country.

There are a lot of Shangxiang pilgrimages. On the New Year's Day, when you rush to the top, you can get a fight, but basically it is a "transaction" for seeking a fortune, not a pure religious belief.

Of course, there is a population base, and the number of devout believers will not be small, but there is no special special day, and there are more people in the New Year. If you can't get together, you won't be able to achieve a synergistic effect. The natural power that can be absorbed is very limited.

Even if they have similar techniques, they should be the daily believers in their respective dojos, similar to the way the Holy See's holy paintings.

The number of swords in the Tianshan Mountains is limited, and there is not much faith in the gods. It is also impossible for him to engage in a religion. It requires a large number of ordinary people, and must first conflict with some departments.

Therefore, some calculations are indeed the most cost-effective cooperation with the Holy See.

They have a perfect mechanism, a huge base in the world, and a high degree of piety. The collection of layers and the number of the Holy See are very impressive.

Moreover, there may be historical stocks. For example, some popes and archbishops do not reach that level, and they cannot use the power of faith. If they are condensed, they are reserved.

Paul's meaning is actually quite obvious. He does not want him to do anything for the Holy See. He is not going to come to China to "grab the land". In the end, he wants to cooperate with him and then go to the mainland of China.

Although the meaning is still unfinished, Shen Lang has remained calm.

Of course, he will still go to mainland China again, but since the Holy See is asking him now, of course, it is a bit of a point. If you really want to cooperate, you will get more benefits if you have a higher posture. Otherwise, others will be casual. Sent.

Besides, he still has a lot of resources on hand!

It is good to believe in divine power. If not, he is not in a hurry.

Then Shen Lang contacted the wind, and simply told her about the meeting with Paul. Let Feng Zheji sort out the wording and pass the information out.

Feng Wuji is more thoughtful than Shen Lang. After all, she collects and processes information every day. Now, the visit to Paul is very subtle and sensitive. It really needs to be made in time. Clarification.

Since Paul left soon after he met, everything would be fine.

After the completion of these, Shen Lang thought of falling rain and falling canoe.

He did not contact them any more during this time, and they did not contact her, nor did they know that they had finished processing the afterlife of Luohe.

Thinking of them, I thought of the Ice Palace and the long magical underground passage below the Ice Palace.

Recalling that at that time, I also collected some mysterious black matter that formed the stone giant. At that time, some income came to the tower. After that, he did not manage it, and not long ago, the material that formed the troll was also included, including the complete income of the troll that turned into a fire.

These are not the same kind of material, they are also very mysterious things. Can they refine the adult Dan as before?

Does the Ba Tian Tower have any effect on these two mysterious things?

Chapter 983 - Alien in the tower

The Ba Tian Tower is a magic weapon for growth. The higher the realm of the master, the stronger it will be to drive it.

After being inhaled in the tower, even if it is a strong person in the realm of the gods, it can be a “human Dan” that has been refining into small balls.

After Shen Lang reached the semi-sacred scene, it also made it more powerful. However, it has been refining for a while, and the spiritual mysterious black matter has not been refined yet!

The troll that was absorbed into the back, the body of a dozen meters tall, has been invisible, and the effectiveness of the Ba Tian Tower is strong.

But this is divided into two parts. The body that has been demonized by Mo Qi is refining, but the inner and outer monsters in his body still remain!

The same is true from the Yuezhennan body. The “two monsters” are still in the Batian Tower, and have not been refining.

Not only survived, but also a strange situation!

These two monsters seem to be combined with those mysterious black matter!

I don't know if this monster has to be swallowed up with black matter, or it has a spiritual black matter that needs to enter the magic.

After the merger, the effect is exactly who is dominant, and the waves are not clear.

But one thing is to see it, that is, they have no body, you need to rely on the external host!

The two have their own characteristics, the magic is a way to let the host into the magic of the leap and evolution; and the mysterious black grain, even the stone can be controlled to drive!

What stone can be controlled, or is it only the kind of glowing stone in the depths of the earth?

Shen Lang is not known for a while, but they have never come out of the ground. Even if they quickly gather the stone giants, they are still mainly defensive, showing that the aggressiveness is far less than the magic.

After a period of observation, watching their changes, coupled with the characteristics of the two, Shen Lang found a problem.

The two are probably a complementary fusion!

The mysterious black grain is smoldering with ice. After entering the stone, it will make the stone carry the cold air, and after the confluence, it will merge and become bigger.

The monsters have the violent energy of their world, which is the energy that can make the trees quickly scorch, and later he directly turns the troll into a fire.

One ice and one fire, one yin and one yang.

Perhaps they are not a kind of thing, nor a world, they will not meet at all. As a result, they were all sucked into the Ba Tian Tower by Shen Lang, and they were brought together.

Is it an active complementary fusion, or is it to fight against the power of the tyrants?

Shen Lang is not known. After the integration, what will become, whether the power will increase greatly, it is not clear.

But these two things are too strange, if you can not clear them as soon as possible, always feel uneasy!

The enemies that had been inhaled before, the waves were casually placed, and for a long time, they were naturally refining.

Now, the observation of the situation inside the tower makes him unable to let himself go, and he must take the initiative to intervene!

The Ba Tian Tower has its laws, but it can be strong with the strength of the master. In the end, it is maintained by the master's god.

Active catalysis, embodied in the external aspect, is that the absorption force will be stronger and more precise. In the inner aspect, refining is faster and more powerful!

There is no active catalysis before Shen Lang. On the one hand, it is not anxious. Anyway, when you are still there, you don't have to worry about it. On the other hand, it is also "the eyes are not seen as net". After all, it is to torture people to death, which is very against the heavens.

It will be shot now, except that there may be a crisis, but also because no matter whether it is a monster or a mysterious black grain, its external appearance is not like human beings, and there is no hidden heart.

Chapter 984 - Yuanshen suppression

Shen Lang directly injects a lot of spiritual power into the Ba Tian Tower to drive it to enhance the effectiveness of refining.

His intervention, the effect is very obvious, the troll body has been refining into black beads, and constantly trying to integrate with other.

The mysterious black grain and the two demons are resisting and merging with it. And between them, they are more proactive.

Originally observed by Shen Lang, the black particles are separated by some fine pieces and merge with the body of the monster. I don't know if they are an attempt, or if the monster is more powerful.

But now, they have tried all-round integration!

They are now three, the mysterious black particles are completely aggregated into one piece, and there are two other monsters. Three copies of each other in the process of fusion, but also rejected another black bead.

The black beads are the result of the refinement of the body. If there is no other, Shen Lang is taken out, this is a “human Dan”.

But now there are three mysterious substances in it, still wise, and the Batian Tower continues to suppress refining.

The same is the fusion, combined with “Human Dan”, it is the effect of the Ba Tian Tower, they will be more difficult to resist.

They are now ready to combine to form a very powerful whole to counter the power of the tower.

Shen Lang observed them while continuing to push the tower.

This feeling is wonderful, as if it were a scientist, using a microscope to observe the microbes doing the experiment. But he understands very well that this is not the time to play, but the battle!

He succeeded in destroying these two mysterious substances completely.

If they succeed, it will really ruin the Ba Tian Tower!

And this combination of yin and yang, two different hegemonic substances, will not create a monster that destroys the level of destruction, it is also difficult to say.

After I didn't know how long it took, three mysterious substances actually completed the fusion!

They become a larger sphere and then move quickly within the tower, and the state is completely different. The person who was refining the troll body was completely unable to get close.

To be exact, they are just hard to grasp, but they are not strong enough to be uncontrollable, and may not be stronger than the Mozi after the demonization – otherwise it will be directly controlled.

But now after the combination of the three parties, it is not just superimposed, it seems that there is a qualitative leap!

At this moment, the Tiantian Tower actually felt a threat, as if it had become more rigorous and strengthened, and suppressed the suppression.

After discovering this, Shen Lang did not dare to neglect, not only injecting spiritual strength, but directly inputting a god!

The result is that he feels the situation on the spot very clearly. He is no longer an observation of God's perspective, but like a direct battle.

With the support of the owner Yuanshen, the Batian Tower was in great momentum, and the all-round high pressure went on, and the sphere of the spin was unfolded.

The unity sphere has a stronger spirituality and knows that the environment becomes more dangerous. At this moment, the spin is looking for a breakthrough.

But the world inside the tower, it is already very clear, there will be no export to it, it is an independent world in general.

If you want to escape from birth, you can only break the barriers of this world!

So in the next moment, the sphere turned from a spinning spin to a crazy chaos!

Under the influence of the Yuanshen, Shen Lang directly felt the huge impact force, which made him shock the whole mind, which indirectly reflected the power of this new sphere.

In this one, he once had an idea – do you want to go out to the mountains outside?

In case the ball breaks out of the tower, it takes a little time, even a few seconds, to catch it with its strangeness and speed. At that time, it was necessary to destroy the Jianzong, and others could not stop it.

If you go out, there will be no smoke, and the destruction will be like a mountain. Shenlang can be caught before it hurts people.

But this thought flashed away and he immediately gave up.

With him in the midst of a half-centre, can he still surrender it?

So immediately become more focused, continue to urge the Ba Tian Tower, a strong suppression of this already formed sphere!

In addition, he also divided a sacred god, directly attacking the sphere!

The impact of the sphere on the Ba Tian Tower will affect his gods anyway, so simply join a direct attack.

It was like a thunder of a road, smashing directly at the ball.

Without breaking open, the environment has become even worse, making the ball more crazy, faster and faster, and more and more impacts.

It is found that the Ba Tian Tower is strong and will not be destroyed. Shen Lang will be relieved and start to work with one heart and one mind. On the one hand, it will continue to push the Ba Tian Tower, and it will continue to attack the sphere.

This is also a good opportunity for him to temper his own spirit. After all, with his current realm, no enemy can directly impact his god.

At this stage, everything is calm.

Shen Lang is not in a hurry. No matter how crazy the ball is, he is calmly accepted and used.

I don't know how long it has been. After countless collisions, the sphere doesn't know whether it is mentally weak, or the energy consumption is weak, and the speed becomes slower and slower. The Ba Tian Tower is step by step, compressing its range a little bit.

at last!

That "human Dan" and the sphere are combined.

This is undoubtedly a great step for the victory of the Ba Tian Tower. This is equivalent to its resistance has been weakened and returned to the normal refining track.

Shen Lang did not stop, it is still a two-pronged approach.

This thing is spiritual and wise, does it know that it is not intentional weakness?

Now is the time when he seizes the opportunity, both strong, directly let the combination become a larger "human Dan." Constant refining and continuous change.

The sphere is also getting harder and harder to struggle. The impact on Shenlang Yuanshen is getting smaller and smaller.

After tempering, Shen Yuan's Yuanshen strengthened his toughness and strength. He once again accelerated the attack and directly smashed the sphere!

After a long time, the three-in-one sphere has completely lost any movement and has become a "human Dan." This time, Dan Wan is more special and magical than the previous refining results.

Of course, Shen Lang will not use it immediately. It is not known how effective it is.

Moreover, he did not take it out, but only cleaned up other things that could not be refining, and Ren Dan stayed in the tower to continue the quenching. Anyway, the Ba Tian Tower will not eat it. The longer the quenching time, the less the effect will be, but it will be more pure, accelerate absorption and reduce side effects.

This is also a matter of mind, the black matter and the alien monsters are refining, and there is no need to worry about them coming out of chaos.

I have been keeping a single-minded wave, and I have a heart to pay attention to the surrounding situation. I immediately found that everyone is waiting outside for anxiously waiting for him!

Chapter 985 - Global crisis

Outside the Shenlang room, Zheng Yumeng and Dorothy are all there. It looks like they are guarding, lest someone disturb him. In addition, there is a sense of anxiety, high separation and praise.

“come in!”

Hearing the sound of the deep waves, he was relieved outside, showing a happy look.

Zheng Yumeng immediately opened the door and saw that Shen Lang had recovered. There was no problem. Then he nodded and let them come in.

The other three of them came together.

What I saw was high separation and praise, and Shen Lang was not unexpected. The original high is the elder who is the oldest elder, and the praise is cultivated according to the successor of the sovereign.

In the Presbyterian Church of the Tianshan Jianzong, Gao Li is grasping the general direction, and praise is to assist the deaf to do specific things.

The last time Shen Lang came back, he had already given the life-saving spirit beads given by the Hai people to Yan Zun, in order to be able to continue his life, so after that, he treated the things less, and praised him as a substantial master.

“Master.”

“Great elder!”

The two men immediately saluted Shen Lang, and then stood up and stood on the side.

“You are out of the customs, it’s great!”

“What happened? Slowly make it clear.” Shen Lang nodded.

Now, he can really be calm, no matter what happens, he has the ability to deal with it.

“This is the case, within three months of your retreat, send...”

“and many more!”

Shen Lang immediately interrupted his high departure. “What? I am retreating... Three months? Has it been three months?”

He widened his eyes, looked at Gao Li in an incredible way, and then looked at Zheng Yumeng and Dorothy next to him.

The two of them also nodded.

“You have been retreating for a long time this time. It seems that it should be very important. Everyone is afraid to bother.”

“Accurate is three months and three days.”

Shen Lang was speechless for a while.

He was immersed in the tower of the Heavenly Tower, and he struggled with the spheres of the two mysterious substances. It really feels like a collision, but because the speed of the sphere is very fast, it doesn’t take long for the overall time.

There are still more than three months!

Shen Lang was helpless. I knew that it took so long. I should have entered the world of Tianshu at that time. It would be done in one day.

Everyone can see the horror of Shen Lang. It can be seen that the time for this retreat has exceeded his own expectations. Now that he has successfully cleared the customs, he will definitely gain a lot!

“Talk about what happened!”

Shen Lang nodded, indicating that Gao Li can be re-described.

Gao Li also opened a head, and the more detailed content was reported by Yang Yang.

In the three months of Shen Lang’s “unexpected retreat”, the world is already surging!

At that time, the troll’s business came to an end, and the Archbishop Paul returned. The matter was faster than everyone thought, and there was no huge storm. Then it was the hype of Shen Lang’s personal prestige.

Many elders, including Nanliuchuan and Qiao Yuxian, came to visit and ask for Shen Lang.

Their purpose is also very simple, nothing more than to do a good relationship in the name of gratitude, by the way to understand Paul’s purpose.

As a result, Shen Lang has begun to “close”, Zheng Yumeng and Dorothy are guarding and refuse any inquiry. Of course, other people in Tianshan Jianzong did not dare to bother, but they politely refused all visitors who had already come to the door.

If you put in the past, the old people who have made a name for themselves come to visit, and even if they still eat a closed door, everyone will feel humiliated.

But now the status of Shen Lang is so special, identity is so arrogant, even if rejected, everyone can only leave.

Fortunately, inquiring about each other, the news is that everyone has not seen Shen Lang, it is psychologically balanced, at least not for whom.

But beyond the balance, how much is still a bit of a taste.

As the predecessors of the Chinese natives, Shen Lang was all gone, but he met the Archbishop of Paul in the Holy See!

Is this a bit thicker?

Some of them talked to Shen Lang and felt that Paul was a guest. We are a state of etiquette and should receive it. It may also be because receiving Paul and letting Shen Lang feel bored, so they are closed behind the door.

Some private speculations, I think that Paul did not send a good resource on behalf of the Holy See, so that Shen Lang could not help but retreat immediately.

If this is the case, then whether it is cooperation or holding a thigh, it has already been preempted by others!

But this is only a small-scale discussion, and it has not triggered the hot debate. It is also because Jonan and the two have a good relationship with Shen Lang, or want to express a good relationship, so feedback with the Jianzong side.

In the past month, when everything calmed down and began to return to normal, there was an unexpected situation.

There are rumors that there are trolls!

However, this time the information came from the southwestern border, and there is no more detailed clues. Everyone did not pay much attention to it. I think it is likely to be artificial.

After a while, the troll's news appeared again.

But this time the incident was made, but it was a foreign country!

This made everyone very surprised. The place where the troll appeared before started from Pingxi.

After the smashing of the waves, there is no detailed explanation, just that there may be a spatial fluctuation to the different world.

So you can judge that it should be in the area of Pingxi. Someone would like to explore it privately to see if there is any chance to enter the world. After all, there are also some people who share the same mind with Mo Qi. If you gain strength, you don't mind paying the price.

But think about the end of the "hero hunting demon" of the monks, let them all dispel the thoughts, they are not clear about the specifics, more likely to become the troll's food.

If this is true, it is a long way from Pingxi to the southwest, not to mention overseas.

Therefore, everyone still feels that it is a rumor that some people may have brought rumors to the realm of comprehension in foreign countries.

But there are also some people of insight who remember the warnings of Shen Lang and say that there may be other Mozu invasions.

For a time everyone started calling for Shen Lang, and wanted him to come out and express his opinion to confirm whether these are the monsters from Pingxi.

The news spread for a while and then faded, because things don't matter, and Shen Lang did not come to pay attention.

A month ago, the trolls appeared again!

This time, it was not a rumor. Someone released a picture of the surveillance, and in a short time, similar news broke out in different places.

More than ten times in the world!

This has also appeared twice in the country, no longer in the area of Pingxi, nor in the southwestern border of the previous period, completely unable to touch the law.

Although the news was suppressed, it was not well known through the spread of the Internet.

But for a time, the world of comprehension is full of people!

In the country where there has been a troll crisis, the small martial art is even more dangerous.

Chapter 986 - Subverting the "Shenlang Myth"

Later, the trolls appeared more and more times.

In the end, there are more times when a group of trolls appear in different places, and there are more trolls, and no one can be sure.

So directly so that the world is plagued by troll problems, powerful forces around the world can not sit idly by.

Realizing that this was after the global crisis, powerful forces from all over the world began to launch a campaign against the trolls.

The trolls were obviously wise, and they chose to disappear from the encirclement of the forces of the various parties. Then, when everyone relaxed a little, they began a surprise attack.

In the past month, there has been a lot of movement, and the world of comprehension has been a bit screaming.

The same is true in China. Although there is only one troll suspected, the domestic scope is large, and only one is better hidden. It is not easy to search for it.

Before the annihilation, everyone was not at ease. The last time was the tension from Pingxi, and now it is all over the place.

Especially when the headquarters is in the mountains and rivers, the goal becomes more obvious. On the contrary, it is a safer place in the martial art family in the big cities.

Now the trolls are the same as the previous styles, but they are also directly swallowed up by the self-cultivators, but they are shyly evasive. They are hardly appearing in front of a large number of ordinary people, avoiding the chasing of powerful departments such as the secular police force.

Have had experience with the trolls, and have successfully annihilated a troll's sinking waves, immediately eagerly awaited by everyone.

Everyone wants to ask Shen Lang to go out of the mountain and annihilate the newly emerged trolls again. Foreign countries don't say anything, at least the domestic one is solved.

There are also some far-sighted people who think that this is only a palliative treatment, or it must be solved by the passage of these alien demons, and it can be done once and for all. And this is only clear, because after all, he has issued a warning before, what should be discovered.

However, no matter how the outside world appeals, whether it is the small and medium-sized sects who try to communicate with the wind, or some channels with the Tianshan Jianzong, they can't let the swells come out of the mountain. The news is that Shen Lang is in retreat!

At the beginning, some people questioned that Shen Lang should be deliberately taking the shelf. It was the last time that he did not get the benefit, so he wanted to let everyone raise huge interests and he took the shot.

So once again, he began to radicalize the law, or attacked him without justice and morality, and only thought about the interests.

Qiao Yuxian, Nanliuchuan and others can't stand it, real-name testimony, saying that they went to Tianshan to see Shenlang last time, and they are already in retreat.

At the beginning, I did not see other big scorpions of Shen Lang, and I also uttered a voice that proved that Shen Lang was in retreat.

And this result has caused another question!

At the beginning, the outside world was questioning the intentions of Shen Lang, and later became suspected that he was seriously injured in the process of fighting against the trolls!

After returning to the Tianshan Mountains, only the Archbishop Paul, who had already visited in advance, saw it. Others went to the retreat and must have been rehabilitated!

This counts, that is, three months have not recovered! Even if it is restored, it should not dare to come out against the trolls, so it is a retreat, and it is shrinking in the Tianshan Mountains!

The rumors of this questioning have made the big men who have been saved by Shen Lang's lives angry and disdainful. Not to mention the respect and gratitude for Shen Lang. If Shen Lang is like this, does it mean that they are more scum?

But human nature is like this. When you fight myths, no one can wait for a few feet. All negative rumors are the spread of excitement.

When everyone spreads like this, it is the predecessors of all walks of life who can't make it.

Moreover, the big brothers did not see the Shenlang, and they could not prove that Shenlang was not a healing treatment. At most, it can only be regarded as a personal guarantee of Shenlang.

Naturally, this will not be able to convince everyone. Fortunately, there is also the shadow of the trolls, so that everyone does not put all the firepower on the "Shenlang myth".

The three became a tiger. When such rumors became more and more fierce, they were people who care about Shen Lang and began to worry a little.

Qiao Yuxian, Nanliuchuan, they are also inquiring about the situation of Shen Lang, to see if he can go out.

I haven't seen Shen Lang's own wind before, and I am worried that it will be really hurt, and I am very anxious.

Their emotions were transmitted to the side of the sword.

Gao has never seen the trolls at all, but I heard that it is very powerful, and Zheng Yumeng Dorothy, they have personally handed over, it is really powerful.

However, they all have a clear contrast. Even if they are two, they can still defeat the trolls. Shen Lang's shot is easy to suppress and cannot be injured.

But care is chaotic, everyone says so, they are also worried. However, they feel that the two of them may have subjective feelings of worshipping the waves, and may not believe that Shen Lang will be injured.

So I became very worried. The anxiety of the outside world was the shadow of the trolls, and their anxiety was the safety of the waves.

Day by day, they are becoming more and more anxious and have been kneeling in front of Shen Langmen.

Even though Zheng Yumeng and Dorothy are worried, they still believe that Shenlang is in a retreat, so stay out and not let people including Gao Li to disturb.

Finally, everyone just heard the sound of Shen Lang letting them in. Everyone was relieved.

Whether it is healing or retreating, Shen Lang wakes up and it is over.

After listening to this series of reports, Shen Lang smiled very silently.

“You idiots! Others question my strength, you actually follow the suspicion? I have saved dozens of hundreds of seniors from the return to the sea, it is also unharmed, the district troll can help me?”

Although this time the retreat far exceeded the expectations, it was the fusion of two different mysterious creatures, and it was his tempering of the gods. A single troll, the strength is far behind.

Gao Li and others are both awkward and excited.

Shen Lang was originally in their hearts, is the supreme existence, is to see the creation of countless miracles Now confidence immediately resumed.

Then Shen Lang let them do their own things, and he will understand the current situation.

The environment of Tianshan Jianzong is very good, that is, knowing the road, we must carefully look for comparisons, in order to confirm, and only to go outside, how the trolls will not go to this place.

Before the fear of affecting Shen Lang, Zheng Yumeng did not dare to come close, his mobile phone has no power. Now, after charging, I am ready to contact the wind and I will see a lot of information.

Other people's message information, Shen Lang directly filtered not to see, mainly look at the message of Feng Wuji.

But there is still someone's message that he values and looks at.

That is the message from Yuezhn South.

Yue Zhennan contacted Shen Lang after the troll global chaos. He began to say that it was more vague. Later, Shen Lang did not reply. He was probably affected by the serious injury of Shen Lang, so he took some clues and conjectures. I said it over the 1510.

Chapter 987 - Waiting for you to save the world

On the one hand, Yuezhen South is a more diligent cultivation because of its own strength and physique. It is also the reconstruction of the Yue family and the reconstruction of the families around Pingxi.

After two or three months, he not only adapted to the changes in the body, but also completely calmed down.

It turned out that in the past, there were some pictures in the dreams that he had never experienced before. He estimated that it should be the picture of the different world.

He is brought back to the world by Shen Lang. Even if he is in a coma, there may be residual memories. This is not a problem.

What makes him a little bit uncertain is that there are some pictures that he can't tell, and the dreams are not automatically controlled. He can't dig this memory himself.

After pondering it, and adding to the outside trolls, let him guess that he and Mo Qi's memories have been read by the world's monsters!

When they were parasitized by the two, they were already safe. It was confirmed that there was no more abnormality, and Mo Qi had been annihilated by the waves.

Even if there are other monsters coming over, if you don't know anything about the world, you should also be in the area of Pingxi in accordance with the scope of the emergence.

In the current situation of Pingxi, the nearest one, who will be found, should be him.

However, these trolls appeared around the world after a while.

So he suspected that it was the previous monster, and they had read and shared their memories, so other monsters could be hidden more ambiguously, and after the two murders, they left to go further and began to do evil.

This is an immature conjecture, but it still makes him feel guilty. It is because of him that he is poisonous.

Shen Lang thought for a moment and thought that the direction might be right.

But it is more likely to happen to Mo Qi!

When he found Yuezhengnan, Mo Qi, who had been parasitic, had been hiding for more than ten days. If you have already shared it, even if you occupy a piece of land, it should be chaotic in other places when the magical Mo Qi starts to mess.

In fact, it didn't, but after a long time, they passed a long time.

Although it may also be because there has been no search for a host, or a relationship. But in combination with Mo Qi's pre-death, after ruining the Yue family, he went to the space gap to evolve.

It was also at that time that more monsters came over. It may even be that he put it in, and because he felt the power of Shen Lang, he will share the memory of Mo Qi to other similar kind, and let everyone keep a low-key time and spread it everywhere.

This is just a conjecture. It is also more troublesome to explain. So Shen Lang simply replied that it was not the fault of Yue Zhennan, let him be careful.

Then I went back to the wind and didn't have a message, let her know that he had "goed out" and then looked at the information she had left before.

The troll reappears, although Shen Lang is not very anxious, but it is also very important.

From the current situation, the number of these trolls may be more than ten, and scattered around the world, and at the speed of their growth, the destructive power will be very large.

For the time being in the country, there seems to be only one, and they are all taboo to Pingxi. This also proves that it is more likely to be the memory of Mo Qi.

But after all, this troll is a swallowing comprehension, and the Tianshan Jianzong is safe, but his parents can hardly say it!

What if?

At this time, let Zheng Yumeng and Dorothy go back to Pingxi, and it may not be useful. Instead, they may worry their parents.

The best way is to take the initiative to eliminate the hidden danger of the new troll!

The message before Feng Jiji, a quick and easy glance, many of them have just praised the report. Probably not contacting him, and later connected with Tianshan Jianzong.

However, after Feng Xiaoji saw his reply, he immediately dialed the video.

“Are you okay?” It can be seen that her anxiety is not inferior to Gao Li and others. Even if the video can see the waves now, you can’t be assured.

“Remember, never doubt my ability.”

The faint sentence of Shen Lang gave a great confidence to the wind, and immediately settled down.

“I know that you are fine, now I am waiting for you to save the world!” A sigh of relief, and quickly reported the various situations to Shen Lang.

The information here is of course more up-to-date than the second-hand information that is praised, and Shen Lang immediately learned the latest situation.

The latest situation is that the domestic troll, mysterious, has attacked the self-cultivator several times, some have been swallowed up, but the entire real world can not find its existence!

In foreign countries, several trolls have been hunted. But in terms of proportion, most of them are not annihilated.

There is also a problem of uneven development in foreign countries. In some areas, poverty is backward, not only human factors, but the land is poor, and the realm of cultivation is also underdeveloped.

That kind of country is a paradise for the trolls!

Because they need time and resources to grow, the underdeveloped comprehension community can make them succeed every time, and no one can surrender.

The few who are hunted are naturally also areas with strong comprehension. But they may not be willing to send a lot of people to help the poor areas. After all, there is no interest, and the risk is not small.

Of course, everyone knows that if these trolls grow to the point where they are out of control, the whole world will be harmed.

But human nature is a variety of excuses, I hope other people will go. If the competitors are not destroyed, they will consume manpower and material resources, which means that the benefits will increase.

So now, both domestically and abroad, the situation is not very optimistic.

After the call was over, Shen Lang contacted the Archbishop Paul. After a lapse of three months, I finally got the active contact with Shen Lang. Paul was very excited. I thought that after so long, Shen Lang wanted to go to the sea without a return.

Waiting to understand Shen Lang is to inquire about the trolls, his enthusiasm was poured cold water, but still immediately and truthfully shared their information with Shen Lang.

In addition to more detailed, it is almost the same as the wind.

However, Paul revealed a determination. If you know the exact location of the troll, the Holy See is actually willing to re-enforce it!

To put it bluntly is also a benefit, because what they want is the status of respect, the impact of all-round, the bigger the better. If some parishes are chaotic, they may be directly occupied by people, and the bad influence on them is the situation in which the site is robbed and destroyed.

But they are also cautious, the premise must be that there are exact clues, or else they are afraid to send people casually. After all, the masters are limited. Once they are divided, the entire church base will be destroyed!

Chapter 988 - Yuan Shen Ren Dan

There are such preconditions that the “decision” of the Holy See is not enough.

The trolls are very fast, they don't know what to hide, and they know how to hide. Who can ensure that the information is correct? Even if the information is correct, they will have changed positions as they send their troops.

The Holy See is this attitude. It is estimated that other Western powers may also be similar attitudes, and it can be regarded as a reasonable pretext.

Of course, Shen Lang did not persuade anything. The characteristics of the trolls, etc., when I met last time, I also chatted with Paul, and I didn't need to blame him again.

It seems that this troll is inevitable!

Just in the country, he may also chase after hunting. But in the world, he is exhausted by one person and can't accomplish the task.

Then look at the disaster!

Anyway, the middle and lower level comprehensions of foreign countries, whether they are superpowers or some other races, have nothing to do with Shen Lang, and they will not be saddened.

But the one of the domestic trolls must be annihilated!

There are also hooligans who return to the country and must be annihilated!

But the problem still exists, where is it?

It was discovered within a month. Although the number of occurrences in China may be one or two times, it is exposed, and it should be considered that there is no exposure. There is also a quantitative problem, such as the previous magical Mo Qi swallowed the monks who went to Tiancheng to hunt, the number is quite a lot.

Now the trolls are no longer appearing, are they hiding guerrillas? Still hiding in the absorption evolution?

Although the last time the Shenlang was rushed as soon as possible, it was actually a step later. The monks of dozens of heroic hunters were swallowed up.

Now it is the same, if he continues to wait for the next appearance of the troll, not to mention it is in the Tianshan Mountains, in the middle of the country, when it arrives, it may be late!

To put an end to the troll's next evil, you must hurry and find your place now and annihilate it before you do evil!

Shen Lang silently pondered, recalling all the details before and after the two trolls, what can be used.

After some memories, let him catch a key point!

Mo Qi, who has been demonized, has not returned to Yuejia for more than ten days, but it has passed away in Yuezhennan. After Yue Zhennan confessed to his family, he was able to catch up with Mo Qi. Behind the area of Pingxi and other areas, it may be that they are together.

The key point is that they are no longer purely themselves, and there are strange creatures in the body. What can sense each other is a monster!

Shen Lang can feel the residual energy of the magical creature, because it is totally different, but the distance is limited. If you stay a little longer in the long run, you will not be able to feel the indifference.

This key place, Shen Lang naturally can not have, he can not let the monsters live, if he sees the monster, it will directly kill.

But he still has refining magic!

After spending three months, he also had a great tempering of the “human Dan” to the Yuanshen. There are not only two different worlds of the magical carrier, but also other mysterious black particles.

They are fused together before being refining, and the power has changed tremendously. If this person is swallowed and refining, I wonder if it can sense the existence of the monster?

Although there is no experience in this, Shen Lang thinks that the possibility is great!

Because it was not difficult for him to bring this monster into the tower, but the refining after their integration was a three-month indifference, not a level at all.

Originally he kept the thing and waited for it when needed.

But now there is no better way, and I guess that this may be a breakthrough, and I will take this man from the Ba Tian Tower.

After leaving it, it is not that Shen Lang is afraid to take it, but wants to wait for the key time of upgrading, healing and so on. Now this is also a critical time when there is a need, then it does not matter.

He didn't marry other people. This time he is interested. He will always be awake and will not be inexplicable for the past few months.

This is what he called the “human Dan” refining result. He has swallowed it several times. It is also a light car, and he directly takes it, and then begins to refine and absorb.

In the past, the refining people Dan has extraordinary effects. After all, they are completely refining the powerful comprehens.

But this time, it has a different feeling.

Of course, there is also a large part of the power. It is the energy of refining the whole body of the magical Mo Qi, that is, the Dan Pill that he had previously refined before he observed it.

However, with the strength of Shen Lang, this is not a big deal.

The most important thing, and what he is now needing, is the sphere that was refining in the next three months.

Now it has been refining into the state of Dan Pill. Naturally, there is no spirituality and stubbornness before, but if Shen Lang wants to fully absorb it, it will take time.

But now, it seems to be absorbed soon!

Its speed even exceeds the part of the energy that is demonized, and the supplement is a god!

Between the time, Shen Lang felt that the Yuanshen was greatly enriched. If it wasn't for him, the gods would have been very powerful, and maybe even a little bit of control.

Although the spirituality of the two mysterious substances has been refining, and will not take him back, if the Yuanshen is not enough, for example, to change to high, it may be directly impacted into a vegetative!

A carrier is too small to withstand a sudden influx, and it will collapse into disaster.

The same is true of the Yuanshen.

But for what has been withstood, it is a huge development.

A pool of water is poured over, the bathtub can't stand it, and the bathroom will be drowned directly. But for a big pool, this is an excellent complement.

After absorption Shen Lang also felt that Yuanshen has a lot of specialities.

Not only powerful, but also very sensitive, there is still a lot of time to say that it is unclear.

The power of the Ba Tian Tower, and the result of his personal refining for three months, Shen Lang is not worried about being countered.

There is no time or thought to explore so much now. The first thing to do is to try and find out where other trolls are.

Shen Lang did not hold too much hope, because Mo Qi and Yue Zhennan were both in Pingxi, not far from each other.

However, the Black Dragon King can sense a rough position thousands of miles away through the Emperor. Perhaps this different world monster can also be felt in a relatively large range.

Of course, for those abroad, he has no hope at all. After all, the Black Dragon King and Bagan, after being separated by a thousand miles, can only be determined to be still on the earth, but they cannot know the specific position.

Under the induction, Shen Lang could not help but be surprised!

Chapter 989 - Induction worldwide!

Under some induction, Shen Lang was immediately taken aback.

Not because it feels the troll's location, but that he seems to be able to sense the existence of all the self-cultivators around the world!

His brain means that it spreads to the whole world. Just like the lights in the night, every comprehension seems to be a little light. The place where many comprehensions live is like a piece of light.

This discovery made him feel shocked, but first of all, starting from the Tianshan Jianzong in front of him, confirm that all the light spots in the vicinity are the owners of the sword.

And quickly zoom in, specific to each spot, with the sense of God, to confirm that it is really the location of the comprehension.

Through the contrast between the Jianzong disciple and the elders, it is also determined that the light spot is different in size.

In this way, although it is impossible to accurately find the location of a specific person, it is possible to determine where there is a comprehension.

If these are from the magic, then the previous idea is wrong!

Mo Qi, who had been demonized before, would start from Pingxi and then to the surrounding areas. Shen Lang also felt that Mo Qi was familiar with these. He relied on Mo Qi's understanding of the surrounding comprehension forces and found them one by one.

Now it seems that the role of Mo Qi is more about the cognitive understanding of the world (such as avoiding ordinary people, so as not to cause big movements), in fact, those who are attacked are inspired by the magic object. !

This is very clear, the troll can rush to Zhangjia from Tiancheng, because it is clear that there are the most comprehensions gathered there!

And the one that was broadcast live in the distance, even if there was a camouflage hidden, it was clearly discovered, but the trolls swallowed a lot at the time, did not want to stay, too lazy to devour him.

The same is true about his parents. In the same time in Pingxi City, he can naturally feel it.

In the same way, they can avoid strong masters, but also because they can be detected from the intensity of the light spot. Just like sensing the power of Zheng Yumeng and Dorothy, I didn't move my parents.

Yue Zhennan's self-blame may be because their memories have been read, so the Mozu can know the world. It seems that this is not the key.

After they came over, Pingxi did not have a suitable host, and could go further afield. This specific induction, like positioning, can be directly searched according to the intensity of the need.

Strong avoidance, weak parasitic, and then swallowing other weak around.

The number of them coming over is increased, and if you know the memory of Mo Qi, you will naturally be separated into a larger area. The self-cultivator will also fly on the plane and find the target parasite. As long as it has not begun to be demonized, it can be distributed to all parts of the world in a few days.

Of course, the specific implementation process will not be so smooth. So it took them a month or two to spread to the rest of the world. After they were safe, they began to demonize.

Why are the powerful forces of the world not found? Because they consciously avoided it!

Why are the comprehension circles vigilant and unable to find them? Because they are not close to them, they can be sensed in advance!

Under such a state, they can completely look for the simple and weak monks to start, and rely on their crazy evolutionary speed, it will take a long time to break the global comprehension community!

It has been used for a month now, and it has not been turned upside down, just because they are still on a safe route, safe first, and there is no crazy expansion.

This discovery directly surprised Shen Lang.

Originally, he was prepared to pay attention to the trolls in the country, and the rest of the overseas countries had to deal with them. Now it seems that they can not be so laissez-faire.

However, he also quickly recovered the induction.

This is certainly amazement, but there are limits, that is, the consumption of spiritual power by the Yuanshen.

Through the simple temptation, he has a rough understanding of it, that is, the larger the range to be sensed, the more mental energy it consumes!

Even if it can really sense all the self-cultivators on a global scale, it is only a concept. If you really want to do this, even if the current **** of Shen Lang, it is estimated that it will vomit blood.

Of course, there is no need to do such a thing.

But now there is another thing, you need to confirm it quickly, that is the trolls!

The discovery just happened is an unexpected harvest. These are the human monks.

Whether it is born, acquired, or demon, spirit beast, beast, etc., the mental power will be far better than ordinary people, but also can be screened out.

But what we need to find now is the monsters who come from different worlds. They have already lived in human monks and began to be demonized.

In fact, like the speculation before Shen Lang, the monsters can quickly sense each other. When he remembers the magical object, the speed is much faster and clearer. Then all the monsters are screened out.

It also seems to be in the form of light spots in his mind, but it is a little different, and this time it is not just to screen out the comprehensions on the earth.

The number of monsters is limited, and you can see each one clearly.

Shen Lang discovered that the number of monsters is a total of eleven, and from the perspective of different distances, it should be to sense their position around the world!

They are different in different countries and regions, and it is difficult to be precise.

In order to further confirm, Shen Lang tried to “pull up” to accurately position one of them, and it quickly sensed the specific place!

However, it is a bit regrettable. Just verifying the situation of Jianzong, he can detect the situation nearby and cooperate with the induction to confirm the specific person.

But now the magical thing that is sensed is tens of thousands of miles away, and the knowledge is far from reaching that level!

Therefore, he can only confirm that in such an area, specifically where it is, what is the obvious sign, etc., completely black.

His current situation is similar to the satellite positioning on the computer. However, the computer can be used with the map, and can be directly labeled to the country, region, and even to the street and house number.

In his mind, there is no such map.

Although you can imagine the map, it has no reference value at all.

However, Shen Lang soon thought of a way – Shengjia!

The black armor of the black technology is connected by consciousness. Even without the technology and network support of the river city, its function is beyond imagination. It can be said that the usual use of Shen Lang is only a very small part.

Just like the average person only uses a few functions of personal computers and mobile phones.

Originally, there have been data such as map positioning on the earth to connect with the holy armor. What he needs now is that the holy armor can follow his thinking and simulate a map.

When sensing, you don't need an accurate map. You only need a rough positioning such as latitude and longitude, and then use the sacred armor to determine the specific location.

Chapter 990 - Supersonic

With the help of the Holy Grail, Shen Lang first locked the troll of the country.

What is needed now is to go to the memorial, it is necessary to quickly solve it, and also just to verify the induction, and the simulation positioning of the Holy A, can be successful and accurate.

Different sects, families, including organizations like the Holy See, even if the flow of people, the base camp is fixed.

But the trolls are different. They are going to avoid the counterattacks of the self-cultivators, and certainly will not stay in one place for too long.

Shen Lang now confirms a position and does not dare to guarantee how long the other party will be there. If he can arrive in a day or two, he will have to reposition it.

He has already compared it. It is very expensive to sense all the self-cultivators in the world. The larger the range and the more the consumption, the more expensive it is. It is very slow to open a high-pixel image with a computer, but the pixel is low. It is a flash.

Light is the positioning of the magic, the consumption is not very large. Even if the other party keeps moving, he can continue to adjust, and after all, he will succeed.

But the troll is very dangerous now, maybe one day or two, maybe nothing, or it may be that a small martial art monk is swallowed up.

Therefore, the soldiers are very fast.

To this end, Shen Lang has decided not to use the cloud disc. The magic weapon of the cloud disk, the acceleration is very fast, and very sensitive, but it is still suitable for short distances. If the distance is too far, the play is limited.

Still play the power of the holy armor!

The holy armor that he brought back from the dead forest that year was the reserve for the blue sea farewell, which was more basic. But the last time he helped directly at the front, he also let the Bihai family see his great value.

Therefore, the sacred armor that was sent again, although it was still sent by the blue sea, was the latest military-grade sacred armor provided by the Bihai family.

Now when there is a need, it is natural to bring out the speed of the armor.

The sacred armor is worn on him, and it is not so convenient to carry people to fly. It's OK to hold it, but if it's super high speed, it's likely to be very big and not elegant enough.

Shen Lang still wants to put Zheng Yumeng and Taole on the ribbon, which is a rare practical training. Only if they are strong enough can they help him share more and better protect themselves.

Simply confessed to Gao Li and praised them, let them optimistic about the Jianzong, and then set off with both of them.

After Master and the elders went out, they had to surrender to the trolls. This momentum and sense of responsibility made them very excited and praised them.

Tianshan Jianzong has not asked the world for many years, and he is quietly shutting down in Tianshan. As it is now, it is more responsible than other famous schools. I don't know how many centuries it is.

Gao Li also told Yang to immediately contact the wind girl, let her build momentum for Master's feat. It is necessary to let the people of the world understand that Master is not afraid of trolls, and is not injured!

After coming out of Jianzong, Shen Lang brought them both into the world of Tianshu, and then drove the holy armor to directly increase the speed to supersonic speed!

No nuclear power is needed, no outer space is needed, and the holy armor is quickly pulled up to the super-high sonic speed of Twenty-Mach, flying directly at the highest speed of the missile at a speed of seven kilometers per second!

After a few minutes, it took thousands of miles away. In the process of deceleration, the Shenlang is also precisely positioned again, and then let the holy armor adjust the direction.

Until the range of the troll's 100-meter range, the holy armor paused in control.

Shen Lang leaned down and observed the following situation.

This is in a mountainous area, it seems to have not been developed, away from human settlements, suitable for trolls to hide.

But when you see it, there is no hiding place. Especially to locate the place, below is a waterfall!

Shen Lang is not discouraged. For the first time, I don't know the accuracy. In addition, thousands of miles away, there is no deviation.

However, when he landed at the height of the waterfall, the surrounding gods had already detected a key place.

On the cliff that was interrupted by the waterfall landing and blocked by the waterfall, a hollow was dug out, and there was a troll atmosphere!

This void is not natural, nor is it long-awaited. It seems to be newly dug. Because the outside is covered by the waterfall, the light is viewed by the naked eye, not to mention that it is in the air, that is, down the waterfall, and it may not be possible to find another place behind it.

This will not be discovered by ordinary people, and it is difficult for the comprehensible to pass by.

The atmosphere of the troll inside is not residual, but it is obviously rich, and the troll is still inside!

Shen Lang tried again to sense, not only the light point is clear, but also seems to feel the troll is restless.

It seems that in the process of his landing from the air, the troll is also discovered, and he knows his power, just because he is coming too fast. When he finds it, he has already reached the top. If he escapes, he will directly Exposed.

“Get out and die!”

Shen Lang kept the height of the hollow and landed on the opposite hillside, then quickly entered the space of Tianshu and brought them out.

The trolls are getting more and more anxious behind the waterfall, but they are not rushing out.

Shen Lang simply told Zheng Yumeng and Dorothy about the current situation. They were not surprised that Shen Lang could search for the location of the trolls.

Because in their minds, Shen Lang is God, almost omnipotent. It was not surprising that the last time I played against the trolls in Pingxi.

As for coming here, I was not surprised. One is that they don't know how far they have gone. The other is that they have a wide gap in the time of the world of books.

“It also dug a water curtain hole out of it? There is feelings!” Zheng Yumeng made a joke let yourself relax, Qiu Shuijian is already in hand.

Then she took a deep breath, and last time she almost went wrong, or Shen Lang shot help. If you want to change people this time, you should let the cold out now.

However, she is still preparing herself to exercise her ability to survive and die.

Although Dorothy's speed, strength, vitality, etc. are far better than human beings, her current strength is stronger than Zheng Yumeng, but the last time the troll's surprise is also a lingering fear, she dare not take it lightly.

“Get started!”

Shen Lang said that he leapt into the air, keeping the suppression, not giving the trolls a chance to escape, and also rushing to them. Once something is wrong, he immediately rescued.

And... He also took out his mobile phone and turned on the camera mode, ready to take a picture of their battle with the troll. This is rarely exposed, it is to let the outside world see the truth of the troll.
