

First Strong 991

Chapter 991 - River into the sea

The troll should really be able to sense the strength of the comprehension. When it finds that the strongest wave does not mean to be shot, it changes the other two. Although it is also very strong, it is also his last chance to escape. .

So after a while, with a roar, the troll quickly jumped out of the hollow, the body has not come out, the violent energy has already banged out, directly let the waterfall stop!

Both Dorothy and Zheng Yumeng are well prepared.

I have had an experience to make them more calm and know which ones need to be careful. The two also have a division of labor, or the same as last time, a positive main attack, a quick surprise.

The troll's body traversed from the waterfall, but it was even more huge than the last time it was demonized, at least 20 meters!

Looking at its huge body, Shen Lang has frowned.

Previously from Mo Qi, it has basically been confirmed that the powerful process of the troll is to quickly evolve by engulfing the comprehension.

At that time, when Mo Qi grew to about 15 meters, it added at least more than 100 people.

Now that this troll has reached a huge body of 20 meters, it can be seen that the "energy resources" that are swallowed are far better than Mo Qi.

Either it is more than a hundred people, or it has swallowed up some powerful comprehensions.

Although there are news of trolls in the country, there are not so many specific clues. Combined with its status, there should be only one possibility!

This troll is more cautious than Mo Qi and Yue Zhennan. So once you attack a martial art, family, you may be directly rooted!

Before Mo Qi, they had some low-powered, scattered escapes, they did not chase one by one, so the news spread out.

Now this troll is killing witnesses directly, and may even include ordinary people who are not self-cultivators!

Of course, if the whole family and the entire martial art are eliminated, it will be difficult to hide for a long time.

The greater possibility is to wipe out all the self-cultivators and threaten the remaining ordinary people to force them to keep secrets. The victim helps keep confidential and it is possible to remain secret for a longer period of time.

In any case, this troll may not have a lot of evils, but the number of victims is definitely quite a lot!

This has already caused Shen Lang to kill the plane!

“Get rid of him!”

When he heard the waves, Zheng Yumeng and Dorothy were immediately serious. I was thinking about more exercise, but now I started to shoot with the most powerful killings!

The most horrible thing about trolls is the speed at which they evolve. The performance is above, it is that after the body becomes bigger and bigger, it will not become bloated and slow, but the speed will increase along with the strength.

Now it is revealed, its speed is faster than the fifteen meters of the previous, and the power is naturally stronger. And those violent energy is also much stronger.

Zheng Yumeng, who had had an experience, did not dare to venture closer. He used the Qiushui sword and Liuyang to maintain the distance.

Dorothy played the speed, but still greatly better than the troll. With her current attack power, she can almost hit every time, except to avoid the violent energy that can be turned into scorched earth.

The process of the battle was very fast, and the Shen Lang was observed at the top. It was also taken down by this process, a video that was not very long.

In the process, he has already determined that this troll is completely demonized!

Probably it's been a long time, and with more devouring, not only the face of the face, but also the human consciousness has been indifferent.

This monster has swallowed up the host.

Although the actual experience of the two women is not much, but after all, a equivalent of the peak of the gods, a close to the late stage of the gods.

Since the Shenlang, they have also had many battles between life and death. For the danger of the troll, I also know it personally, and I also know the means by which the trolls are evil.

Therefore, even if the troll's combat power is not inferior to the middle of the realm of the gods, under their joint efforts, it is quickly suppressed.

With a slap in the face, Zheng Yumeng broke out the best play of her life, and a sword swayed down, letting the troll shun it, and directly opened it!

The troll is the external manifestation of the carrier of the human comprehension host. At this moment, the body is dominated by the alien monster.

It is very clear about the strength of the coming, originally came out to escape, and can win three of them without a bit of control. I was just entangled, and I couldn't open them at all, or I ran straight away.

Now I am being ruined, and I immediately gave up this body!

Although it takes time and energy to evolve to this extent, if you leave, you have to come back again, but the most important thing is that its own body is not destroyed.

And its body is also getting strong, the next time it will be faster.

When flying out of the body, the body of the monster goes directly into the waterfall, ready to cover the rapids of the waterfall, first to the bottom, and then away from the water, in order to escape the chasing of the three of them.

At this moment, it also converges the violent alien energy and becomes less obvious.

If it is a general monk, it may have been deceived by the way of the golden shell, but now it is the smashing of the overall situation!

Here, Shen Lang is here, it can't escape the eye, and also knows how it survives and knows its body.

When it broke into the waterfall, Shen Lang had already reached the edge of the waterfall. When he reached out, he grabbed it directly into his hand!

The magic object will immediately explode all the energy of the world, and directly turn the sun into coke!

But let it not think of it, but what Shen Lang didn't think was that when its energy broke out, it turned out to be a thousand miles!

And these leaking life breaths all entered the body of Shen Lang along the arm.

Shen Lang immediately had a feeling of growth, especially in terms of the gods.

Although he does not understand the principles and processes but the guess should be related to his combination of refining.

He captured the single monster directly. After the fusion of the two monsters and a bunch of mysterious black particles, another qualitative evolution took place directly against him and the Heavenly Tower for three months.

It can also sense the world, it is not an order of magnitude. The refining of the combination of the waves, is equivalent to having those skills.

So now the attack of this magic object on him seems to be similar to the waves of the river to the sea, not only without the shock of the shore, but all into the invisible.

With the stagnation of its life, Shen Lang can sense its last despair, and unimaginable fear!

Dorothy has already kicked the troll's body to the opposite hillside. Zheng Yumeng, who was killed by a sword, shivered at a moment and was short of breath.

Shen Lang went to her side and hugged her to fly over, comforted her, and took a picture of the body of the troll.

The rest will let Dorothy drain its blood, use it, or waste it.

Chapter 992 - Megatron Global!

When Dorothy made blood beads busy, Shen Lang sent photos and videos to the wind and made her spread.

Before, everyone just heard the description of the trolls. Until the last time there was a picture of the surveillance that was exposed in foreign countries, it was just a glimpse of it, and it was not clear.

This is the first time someone has taken a high-definition picture at close range, so that everyone can see the true face of the troll.

Although it is only a short picture, but because of the speed of the shot, you can see a fierce battle. Although it was photographed, I couldn't feel the troll's tallness. However, Zheng Yumeng and Dorothy, who are fighting together, can make everyone feel it.

The picture of the last opening of the belly is also shocking.

These real pictures and videos are released, and no more words are needed. Everyone understands the troll's horror and understands the power of Shen Lang!

This picture is already very clear, it is clear that Shen Lang was shot in the air, so the troll, still does not need him to shoot, directly his two female followers can kill the troll!

Before the rumors that Shen Lang was injured by the troll, he said that he did not dare to come back again after he was rehabilitated, and now he has closed his mouth.

The speed of modern technology can reach everyone in an instant. The shadow of the trolls has kept the whole comprehension community vigilant, saying that exaggeration, many sects and even sleeping are in the state of one eye.

Therefore, the information on this aspect is the most concerned by all people, and it does not need the wind to say that it is spontaneously forwarded and spread.

Spreading this information will give the middle and lower level comprehens a sense of security.

Originally, in the recent period, the reputation of Shen Lang has been questioned. Although the popularity and popularity are not reduced, the reputation can be described as plummeting.

Now he shot and pulled out the evidence and pulled it up quickly.

For a time in the various groups of the comprehension, they all praised the admiration of Shen Lang. Those who have previously questioned the issue have also considered this as no such thing, and they dare not question it again.

After all, there is only one Shen Lang!

Even if Shen Lang is myth, at the critical moment of danger, only Shen Lang will come out to be the master!

The last time there was a troll, there was no stability for a few months, and now it has appeared again. Who knows if it will happen in the future?

If the trolls come, everyone will praise the Shenlang; the trolls will be destroyed, and everyone will question the Shenlang... Doesn't it make people feel chilly? After a few times, there are trolls or other dangers coming, can people still come out to maintain the right path?

However, everyone is still spreading the news of digesting, and is still warmly praising the waves. At this time, Shen Lang's spokesperson was full of enthusiasm and conveyed a shocking news!

Shen Lang decided to shoot and destroy all the trolls in the world!

When the news came out, everyone was stunned.

Shen Lang can kill a troll, everyone admire and believe. But there is no doubt that this is a home advantage and is in a familiar country.

In foreign countries, all aspects of the environment are problematic, that is, it is troublesome to go to a trip. Need a normal passport visa customs clearance procedures, etc., the world has to turn around, even if there is money and a green light, it will take a lot of time.

And now the foreign trolls, there is no accurate clue. Otherwise, there are no excuses for foreign big men to do it.

Besides, even if they have their clues, will they stay in one place in the same place?

Originally, everyone has not dared to question the waves, but this is obviously too arrogant to say it, or people feel that he is too inflated.

For a time, although everyone did not question in public, they were still privately questioned by each other, and there was no shortage of waiting to see the crowds.

If there is a connection with the overseas comprehension community, it will immediately spread the news and let the comprehens around the world know.

Of course, some people want to see the jokes of Shen Lang, and I hope that more people will know and let the world come together to laugh.

But no one thought that the news was still spreading around the world, and it was not delivered to every corner. Feng Wuji continued to release the second troll was killed!

This makes the network all blow up!

This is beyond everyone's imagination!

Although your tidal wave is very powerful, but there is no spurt to this extent?

Only a troll in the country, that means that this second troll is definitely abroad. The pictures and addresses provided by Feng Wuji are indeed from other countries.

How can it be from home to abroad in a short period of time? The Chinese city is not a small country that can go abroad in a few minutes.

However, after everyone's incredible excitement, they still agreed with an explanation: Shen Lang is not a live broadcast, but has already shot, just took the pictures, and now they are released one by one!

This possibility is still very big, and it has suddenly made everyone look forward to it. If Shen Lang wants to concentrate on building momentum, there should probably be more than one, or even more than two. Is there still a third one?

As a result, the news spread, and when the intense discussion was slightly calmed down, the news of the third troll came!

Everyone was excited again.

With the second wave of incredible and discussion, everyone has a reasonable explanation. I believe this is the Shenlang prematurely killed, waiting to be sent out together.

The world of disasters has been going on for nearly a month. The big forces of the world's major forces are at a loss, and Shen Lang has solved three problems with one shot. Even if it is done in the dark, it is very powerful.

Before I wanted to see the jokes of Shen Lang, it became awkward, and the original worship and praise, but also spare no effort to spread as much as possible, including the spread of overseas comprehension.

Telling the world loudly: Just like the most common routine of Hollywood blockbusters, it is now the turn of the Huaxia's strongest to save the world!

By the time the third wave came out, the previous news had spread to all parts of the world. Even if there were nights and nights in different time zones, the news had already been fermented, and everyone was excited.

The middle- and low-level self-cultivators who have been calling for the protection of powerful forces have begun to shout in various forms, praying for the super-powerful Shen Lang masters from the East to help them expel the trolls around them.

As a result, the fourth wave, the fifth wave, the sixth wave...

One troll after another was killed by the sinking waves!

All of them have pictures and videos, and they all clearly explain the location of the killing. Let the comprehensions of the countries in the nearby area, after hearing the news, are excited.

Everyone is sincerely grateful to the superpower of the East, and even worship.

The comprehension of China is from shock to incredible, then to shock, and then to numbness...

In the end, everyone did not even know how to question, and completely exceeded their imagination. Feng Wuji continued to release news, eventually killing more than a dozen trolls!

Chapter 993 - Great harvest

In the end, the wind has no Jidai Shenlang announced: the trolls that have been discovered all over the world, all hunted!

Less than a day before and after, but enough to make the world of comprehension all over the world. Of course, the boiling is only the middle and lower layers that benefit, and some of the big forces that have not feared the trolls are not a taste.

This is a great opportunity to win prestige!

Just as Paul said that the Holy See is willing to send troops to the devil, but there is no exact news.

Prestige is not only a name, but also a benefit, it is invisible and long-lasting. For example, last time in Yuxianmen, Paul won everyone's support. At this critical time, fame is important.

Some big families, fame is the credibility guarantee that lasts for hundreds of years. Whether it is cooperation or trading, everyone recognizes you.

The Holy See is even more different. To develop believers and to spread doctrines, it often conflicts with local beliefs in different countries and regions.

At this time, if you have a good reputation and you can get support from the comprehension community, at least no one is confused, it will be much easier. In terms of secular, it is also necessary to build a school, hospital, donation, etc.

It is a pity that this time, the major forces in the West have not got a share!

They are all in balance, interest and cost, and must be drawn. If the risk is too great and the benefits are not enough to make up, it will naturally not be shot.

Everyone wants to wait and see, and wants to wait for others to first take a look at how the wind is going.

As a result, no one thought that the Shenlang from the East would quickly wipe out the world's trolls with the attitude of sweeping the leaves in the wind!

In fact, when the first wave to the third wave of news came out, it has already attracted the attention of all major forces.

They are also like the Chinese community, guessing whether Shen Lang has secretly found the trolls to kill in advance, and then concentrate on releasing the momentum.

Therefore, their core members are all gathered to meet and discuss whether they should start attacking, or else the limelight will be robbed.

But no matter which side, I did not expect that the future will continue!

Some will want to continue to wait and see, and see the reaction of other trolls and then decide. Some of them immediately began to prepare, but they did not even collect the information, and the news that one troll was destroyed again!

Those who have not returned to Hell before, whether they are retreating or regaining power, have been humbly consulted. Everyone wants to inquire about it. Why is that sinking wave so powerful?

Paul is naturally the one that is most frequently asked. Some are telephone contact enquiries, and the inner core of the Holy See is a face-to-face inquiry.

He is the closest one to Shen Lang. Before Shen Lang retired, the last foreigner he saw was him, and he also had some glory some time ago.

For Shen Lang, Paul is naturally full of beautiful words, but he is also very puzzled on the troll.

Because it was clear that the last time I met, Shen Lang also reminded him of the relevant things, which was quite cautious. But now chasing the trolls, it is the easy to sweep the leaves!

However, he was puzzled and confused. He did not doubt the magic of Shen Lang.

After all, when Shen Lang seemed to be inferior to him, he was far better than him in terms of mental strength. Moreover, it is possible to rely on the talent to contain Yuxianmen and save everyone.

Later, Shen Lang also came out himself, and when they were trapped in the underwater world, they rescued them alone.

When he saw him again last time, he found that he was completely unable to see through the waves. It seems that his strength is far better than him, not even worse than the Pope!

Such a magical genius character has been closed for three months. It is strange that there is no change.

What he wonders is how quickly Shen Lang finds the trolls everywhere, and destroys the strength of the trolls. The skills of a single wave to become a giant are not inferior to the trolls.

In addition to him, the big men in the West and around the world, regardless of the impression of Shen Lang, have to admit that Shen Lang is a man who can make miracles.

Dozens of big sisters are strong S-levels, and the evaluation of Shen Lang is the same. Let the people who are suspicious can only accept this fact.

Can't you say that the trolls are raised by Shen Lang?

Although the trolls from three months ago were the first to find and annihilate. At present, there are few contacts that have been alive. It is said that Shen Lang has raised and released, and some people really thought about it.

But illogical!

If these are Shen Langyang, he and need to be annihilated to win a reputation? There is no need to disperse them and bring them directly. A martial art kills a martial art. What interests are at your fingertips and what reputation is needed.

The public opinion news of overseas comprehension has also been passed back to China. It is known that the world's comprehensions are all admirers, and the domestic monks are even more excited and feel very proud!

In the end, the largest and most enthusiastic are the middle and lower levels. Shen Lang's current reputation level has already far exceeded them. Therefore, for Shen Lang, it will not be jealous or unwilling to win praises all over the world. Of course, it is a feeling of glory for the country.

Speaking of Shen Lang, this day, he sensed the coordinates of the troll and flew over to fight before the troll had not transferred.

The Holy Grail maintains the super high sonic level of Mach 20, even if it is thousands of miles away, it can be reached in ten minutes, and tens of thousands of miles can be in an hour.

And Zheng Yumeng and Dorothy have had experience again and again, and the natural cooperation behind them has become more and more smooth, and their respective functions have become better and better.

Shen Lang also personally shot and absorbed the monsters that wanted to escape one by one.

It would be very uncomfortable to continue the supersonic flight, but for Shen Lang, this is nothing, and after the monster is absorbed, it is a big supplement.

Zheng Yumeng is more and more experienced, and Dorothy has harvested a lot of blood beads. This is a temporary use, and all of them will be saved first.

The body of the troll, because she was sucked up by blood, would still feel uncomfortable for most of the Terran practitioners. So it's all about taking photos for the first time, and then after the dries, will be completely destroyed.

The magic objects such as rivers and rivers are absorbed into the sea. After the first discovery, of course, there will be no leakage behind the Shenlang. More than ten downs are also a huge harvest.

But one thing, but it is an unexpected situation, he feels like there are some weird, constantly harvesting some mysterious spiritual power!

At first, he thought it was a troll relationship. Later, during the flight process, there was a constant trend in the process of searching, and there were more and more trends.

After all the end, these spiritual powers have not stopped, but more breeding!

Yes, it can only be described as “growth” because he does not know where to come from.

But after learning about the current public opinion situation around the world, Shen Lang has a bold conjecture!

Could it be that the self-cultivators of all places are grateful and admired for his worship, so they have the power of faith. In some mysterious way, even if they are separated by tens of thousands of miles, they will fall on him.

Chapter 994 - God's shortcut

Whether it is the Yuanshen or the spiritual power, Shen Lang is very proficient and understanding. But for the power of faith, there is really no personal experience.

His powerfulness in the previous life was cultivated, and he did not form his own martial art, let alone religion.

However, he also had some similar understandings in the previous life. Now the knowledge of this world comes from Paul's side, from the original paintings to the later beliefs.

However, with the experience of Shen Lang and the two worlds, it is a “one law to pass the law”. When he realized that this might be the power of faith, he immediately began to think more deeply about this aspect.

The Holy See can absorb the spiritual power of the fanatics in various ways. Can it directly bear the power of these beliefs?

If you can, it will be a very scary source of strength!

There are many religions in the world that have a long history and great influence, but because of historical development and geographical reasons, they are also divided into many factions.

The more polytheisms there are, the more leaders there are, and the more influence they have. Like the Guangming Gods, there are many authoritative leaders, and the influence of the Pope is extraordinary, even more than many heads of state.

Their believers are trans-national and devout. The Pope seems to be the spokesperson of the bright gods they believe in the human world. To a certain extent, they will pass on the faith of God to the Pope.

Perhaps the archbishop of each parish has a similar role. But the number of believers and the degree of reverence cannot be compared with the Pope.

And even if the Holy See, who knows how to use the power of faith, should be the most central secret, perhaps only the Pope and a few red archbishops know and possess.

Shen Lang estimates that these “skills” are also summed up by thousands of years of research, and because he did not have this soil, he has not studied it, and he has no experience to sum up.

But now it is able to spontaneously absorb the power of these beliefs, is it because the strength reaches the relationship of the semi-immortal? Or is it because of the new skills that have been unlocked after refining the combination of the two mysterious substances?

In fact, in the previous life, Shen Lang also knew that someone had repaired such a method. Self-packaging an image, let the ordinary people establish a simple folk belief by means of demons, demons, and clouds.

The more people who believe, the stronger the belief, the more effects they can get.

In order to achieve this effect, some people even cooperate with the demon, or send a beast to raise the beast, and then come out to demons. Or the judiciary will let one side dry up, and when everyone can't live and pray for the rain, then come out and "show the spirit."

The more fear and helplessness, the more determined and strong a person's faith can be.

Shen Lang's talent is absolutely invisible. He does not see such a shortcut. He feels that it is better to work harder and directly cultivate.

After all, the population was far less than the present, and the image of the gods was easy to confuse. For example, "Heshen", "Dragon King", "Land Lord" and the like are everywhere.

Borrowing this layer of identity can only be harvested in the temple, waiting for the sacrifice. Once you leave, there will be no gains.

If you don't borrow the existing image, you have to spend a lot of effort and time to pack it yourself. "Land of the land" is obvious, and a ***** that has never been heard before, the people are of course more likely to believe in familiarity.

Shen Lang knows such a routine, but he has not experienced it. It still feels very strange now, but one thing is very clear.

Nowadays, the power of these beliefs is not huge, but the contributors are all self-cultivators, far stronger than ordinary people!

Shen Lang does not know how the Pope feels, but in terms of the current harvest, this constant flow of faith quickly catches up with the small bottle of faith that Paul sent before!

This business is very cost-effective.

Shen Lang now has some regrets. If you don't get it so quickly, if you extend the time, you should be able to gain more and stronger beliefs.

After all, gratitude and worship are time-limited, and will soon fade away. Only in the fear of crisis, and very helpless, can we continue to believe.

But this is also a windfall, how long it lasts, and how much it is earned.

The discovery of this time also made Shen Lang a bit embarrassed.

Although the methods of “the immortal manifestation of the gods” and “the stranger of the stranger” can only be regarded as trails, but the giants who have created brilliant religions in history will have the purpose of absorbing the power of faith?

Those giants that directly affect humanity for more than a thousand years are undoubtedly the top gods, and the self-cultivators do not dare to vilify them. But for the creation of religion, Shen Lang thought it was similar to the martial art, but because of the more profound heart, he wanted to educate the world.

Now it seems that creating an influential religion, even if it takes decades to promote, can also harvest the power of faith in the later period!

With the strength of the top gods, Shouyuan will be far better than normal people. They will be retired as masters, but they will only be shackled by the world. And they have been deified, or the spokesperson of God, no matter how many generations of disciples passed down, they are the core of faith.

For example, Paul’s bright gods, and everyone respects the contemporary pope, is also inferior to the belief in the ***** of light. In other words, the beneficiary of the greatest power of faith is the God of Light, followed by the Pope.

If the “God” of the founding of the past was still alive, but only flew to another world, then for thousands of years, there will continue to be the power of faith to contribute to him!

Like the legends of the past, the gods are influenced by the incense of the mortal world. It is a concept.

Shen Lang has a bit of a move. If he is now a religion, he can reach this level, not to mention thousands of years. At least he has the confidence to live for hundreds of years and is able to enjoy the power of faith.

This is a shortcut to the road of God!

However, if you leave the space of the earth, you can still absorb it. It is not known for the time being.

Because the current belief in the power of will soon cool down, he wants to hurry to visit the mainland of China, or the dead forest, to verify whether the space will affect absorption.

But in the end, Shen Lang still dispelled this idea.

The same as the previous world's idea – so tossing is too much trouble, it is better to find resources to cultivate!

It seems that people are always like this. If you live again, the big choice will still be the same.

Of course, there are also some real problems. The number of people in the world is far better than before, but the development of civilization is different. The world is different. There is no soil for creating a great religion.

It's just in the circle of comprehension, everyone is keeping the line. The sensational news is also hidden under the ground. If you want to openly preach to the world, don't talk about theories, and just use miracles to make people convinced, this will make the world's political, scientific, commercial, and civilian aspects focus.

However, although the idea of creating a teaching has been dispelled, the power of the belief of the middle and lower level comprehensions in the world has led him to think of a way to harvest another wave!

Chapter 995 - Lingshi big delivery

After all the trolls were settled, Shen Lang came to the wind and there.

On the one hand, she has not seen her for a long time, and she is also the busiest one these days. On the other hand, there are some that can be discussed in person and there is better communication.

After all, such an opportunity is not always there, and it is so expensive, but there is nothing to gain. Shen Lang does not want to work hard, but to gain some reputation is to take back a little. (At the beginning, I didn't know that the magic object could be absorbed, and the power of faith was only felt here.)

Some of them are women who are bent on following him. Of course, there is nothing to hide. Shen Lang directly tells them about this state.

Let's make a plan together to see if there is a better way to use it.

Of course, the best thing to do is to look at the wind, and Dorothy and Zheng Yumeng can see if they can remind me.

The way that Shen Lang thought of himself was to slap on the fire when everyone was still grateful for him. After the enthusiasm is extinguished, it is not so easy to burn again.

In fact, the method is also a common one, helping everyone to lift the troll's troubles, similar to the ancient demon slayer. The common "showing spirit" routines also include disaster relief, and also wish to benefit from Lee.

What Shen Lang wants now is to sprinkle some resources in exchange for the gratitude of the comprehensions!

A powerful martial art does not care about resources. It considers security and status. This is not the goal of Shen Lang. What he wants to fight for is a large number of middle and lower layers.

When the trolls came, they were the easiest target to attack and the most helpless. In daily practice, they have limited resources and speed, and they cannot keep up with the big door.

At this time, resources are the most real benefit for them!

After the discussion with Shen Feng and Ji Ji, they decided to come up with a spiritual stone to inspire the middle and lower level comprehensions in China and around the world.

In order to continue the heat, the news was released soon.

The trolls are messing around, making Shen Lang very worried about the same way around the world. Although this time, they tried their best to consume the huge energy and destroy the trolls. But what if there is a similar situation in the future?

The best result is that everyone becomes stronger and has more self-protection.

Many friends are limited by talent and are more limited by the lack of resources.

Shen Lang can't solve the problem of talent, but is willing to contribute his own resources and provide some help for everyone.

The time is set at half a month and one month later, the address is the sunset peak of Tianshan.

As long as you are a comprehension person, you can get a gift from Lingshi!

The spiritual standard of the gift, you can receive a primary spiritual stone in return to the Yuanjing, and you can receive a medium spiritual stone in the virtual environment. You can receive a fine stone in the real world. Foreign countries are corresponding to C, B and A.

If you are a god, you will not be given a gift. They are all strong, and this resource cannot impress them, and it is difficult for them to generate faith.

Of course, if there is a way to get them, with their realm, one person can get a lot of comprehensions.

The reason why they are divided into two batches is because they are sure that others do not believe that there are such good things, and they will not necessarily come to too many people. So let some of them prefer to come first, or come first in the country, and wait for them to get the benefits. After they spread out, they will come again.

Only once, the number of people may be limited, and the benefits cannot be maximized.

But this can't be too many times, or else the price/performance ratio will not work. If the benefits become a practice, the beneficiaries will not be grateful.

When the news spread out, everyone did not believe it.

How can it be?

Although everyone knows that Shen Lang has harvested a lot of Lingshi, but how can he not be so defeated, he still has his own martial art, why not give his own benefits?

Really want to be so big, then he can really be regarded as the strongest big philanthropist in history!

After unbelievable, it triggered another round of heated discussions.

Isn't every act of Shen Lang unbelievable? But again and again, he proved his miracle with facts.

Maybe people are so generous, so fraternal?

Just like the trolls messing up, the Shenlang and Tianshan Jianzong in the Tianshan Mountains have no direct danger, but they are willing to work hard and rush around the world to quickly cut off all the trolls.

This is originally a compassionate heart. You can't question the Bodhisattva spirit of others because of their youngness!

Those who will spread and discuss are the middle and lower level comprehensions, especially the younger ones. Basically, there are groups that lack resources. Of course, I hope this is true.

Just pay a little time and the road tolls, just be a good trip, at least you can see the side of the waves, you can brag. If you can be a white stone, it is a beautiful thing!

The gift of the ladder is also to make everyone feel the same attraction. If you live in a strong position, just give a medium spirit, it will not attract them. But the fine stone is not the same, but the value is one hundred medium stone!

Like the original Chu Mofeng, there is only one real place, and the family reserve is less than one hundred medium stone. At such a level, it is possible to whiten a fine stone, which is simply doubled.

As for the unwillingness and embarrassment, that is, the realm of each realm has reached the peak period. They are very different from the initial ones, but they are treated the same. Of course, it is a bit uncomfortable.

But people are white, can there be any bargaining?

After a heated discussion, everyone also sent a lot of similar questions to the wind, who said that Shen Lang.

That is what Shen Lang needs everyone to do? Such a white stone, it is a bit of no merit, I hope that there are any requirements to make it clear, everyone must do it!

This is of course a guest, but also a set of words. If there is really no unreasonable request then the benefits are not worth mentioning!

The biggest possibility that everyone can think of is that Shen Lang wants to build a global alliance, and he will be the ally.

In this way, Shen Lang turned into a giant power of the big forces at the helm!

Don't say that you are still in the virtual world, and you don't want to do it. That may have been annexed, and I will not have my own share in the future.

Of course, Feng Jiji has already prepared his speech, instead of Shen Lang's statement: there is no binding requirement, and everyone can get a compliment and get a false name.

Of course, it will also be a sacred eye. If you come to take advantage of it, your heart will still be too much.

Get this promise, so that everyone still feels unbelievable, just for a fame, throwing a lot of Lingshi, it is too extravagant, right?

Shen Lang has already reached this level? Could it bring back a lot of spiritual stones in the return to the sea?

For a time, everyone was very hot and wanted to see Shen Lang earlier.

Chapter 996 - Win-win

The first batch was announced after half a month, but the average person is not very clear about where the sunset peak is, and it takes time in the past, so after the heated discussion, people began to plan to travel.

For the Lingshi big delivery of Shenlang, Tianshan Jianzong may not be a bit of a taste. After all, according to common sense, these should belong to them.

However, Shen Lang does not need to explain to them, and does not even care about their feelings!

After all, he has long owed nothing to the Tianshan Jianzong. After he took advantage of the situation, he soon returned, and even the swearing of Yan Zun was returned.

Gao Li and Qi Sheng, who were seriously injured by him, were also his apprentices, and they also received many benefits, including compensation.

All the Lingshi that he took out was earned by himself and did not need to be discussed with the Tianshan Jianzong Presbyterian Church.

However, the ending made Shen Lang a bit disappointed, although the wind can not see the warm feedback, the entire cultivation of the real world is boiling, but the power of faith has not increased significantly!

But the words have already been said, and it is impossible for Shen Lang to immediately deny it.

Feng Wuji is comforting him. It must be because everyone still doesn't believe it. After the first batch of people have received the Lingshi, they can really ferment.

If you put the address of Lingshi, if you put it in the city, it is a seaside town like Haishan. It will be very convenient for everyone.

But this is Shen Lang to send Lingshi, even if not asked, at least let them pay a little sincerity? It's not a gratitude to go to the Tianshan Mountains to take a trip.

The sunset peak is not near the Jianzong. In fact, it is a mountain that is better to find, but the altitude is not low, there is no smoke nearby.

After the news began to spread, Qiao Shuyu, Nan Yiye and others all rushed to contact Shen Lang and felt that he had played a lot. The standard of delivery is too low, there are no more restrictions, and some martial arts may arrange a lot of people to take the lead!

For their kind reminder, Shen Lang is a smile. He wants the power of everyone's faith. As long as it is a self-cultivator, as long as it can contribute to the power of faith, it is worthy of a spiritual stone.

This is also why people with higher realms have higher grades of Lingshi, because the effect is even greater. As long as there is an effect, it does not matter if a martial art family comes to many people.

Instead, Shen Lang just asked the two of them to ask them to discuss with the family and exchange some Lingshi with him. Medium Lingshi and Elementary Lingshi, the ratio can be lower. There is no need to fix one hundred, ninety or eighty.

After all, the base is still in the middle and low-level. When it comes to the real world, it must still be the face. If the grade of Chu Mofeng is willing to collect it. Such a home in Qiao's home is not necessarily a good idea for people to come.

So you must prepare a medium-sized, elementary stone.

This request, Nantian family and Beihai Qiao family can not refuse, and does not say that the relationship with Shen Lang is very good. In terms of interests alone, even if they are one to one hundred, they will not lose.

Because the high-end exchange is easy in the middle and low-end, the middle and low-end is to be exchanged for high-end, and there is no market for it.

After negotiating the specific amount, they agreed to carry the Lingshi to be exchanged, and directly to the sunset peak to meet with Shenlang.

Then Paul personally contacted Shen Lang. He annihilated all the trolls and gave him a “great” evaluation. He also praised the rumors of the gifted Lingshi that he just heard.

He did not make any guesses and questions about Shen Lang’s attempt. Just a contact greeting, still said that you are always welcome to cooperate with Shen Lang.

Paul, including some of the other big forces in the West, is of course also very concerned about the actions of Shen Lang.

The continuous information in these two days really made them stunned. But no matter how incredible, no association with the power of faith!

After all, like the Guangming Holy See, it is also the core secret that has been accumulated for thousands of years, and it is secretive and unspoken, and it can be completed with a huge amount of integrity.

Others are already self-cultivators, and who would believe in others as gods? All know that many miraculous miracles are nothing more than the manifestation of the strong.

In their view, Shen Lang is so desperate to destroy the trolls, followed by the big sandstone, nothing more than to build momentum for himself!

Although Shen Lang entered their field of vision for less than a year, but from Shen Lang rescued them from the underwater world, everyone naturally became the first strongest in the East!

Now, of course, I feel that Shen Lang is a leader who wants to cultivate from the East and become one of the leaders of the world.

He does not have the age and qualifications, so he has to pay the price of his merits and benefits.

Destroying the troll is a great achievement to win the respect of the world. However, the seniority of the seniority is not enough for him, and he has paid a lot of spiritual stones, that is, he wants to buy people's hearts with interests.

Of course, he does not say anything, let alone warning.

After all, people have this strength!

And they didn't go to the Western site to grab business, this is a treat on their own site.

After two days, the situation that made Shen Lang gratified appeared.

The power of faith that was originally brought about by the trolls has begun to weaken and has begun to grow again!

Feng Wuji analyzed the information collected, which should be the fermentation effect after the news spread to foreign countries.

On the one hand, the domestic comprehension community is watching the rapid rise of Shen Lang in a few years, and many of them are difficult to understand. Because it is more understandable, it will be more questionable.

The self-cultivators in other parts of the world, the information is not so comprehensive, there will be mystification and exaggeration in the process of communication, the so-called distance produces beauty.

In addition to some time ago, the trolls' chaos has already made them very fearful. The Western big men did not shoot, but the mysterious strongman Shen Lang, who is far away from the East, helped.

Combined with the enthusiasm that has not subsided Everyone believes that Shenlang's good intentions are naturally continuing worship beliefs. It is also a big force or a small number of leaders who will question the secrets of Shen Lang.

They can continue to contribute to the power of faith, and Shen Lang will be satisfied, so he will not lose!

When they actually receive the Lingshi, they should still have a strong wave.

Really want to calculate the value, whether it is the comprehension of the Lingling Stone, or the irrelevant person, will feel that the loss of the waves. After all, the power of faith cannot last long, and Lingshi can be used for a long time to cultivate.

But in Shenlang, it is a win-win situation. Because he can't use so many Lingshi alone, and there are better resources such as Nedan, he can't use Lingshi. Leave it to the descendants of the Tianshan Jianzong reserve, and in the end it is not white to give irrelevant people!

The descendants of the disciples, using the spiritual stone left by him, will feel that they are justified. It is not as good as the outsiders who can contribute their faith to him now.

Although it can't last long, he has only one person. Once the number is large, it is also a very impressive harvest!

Chapter 997 - Delivery

Sunset peaks.

Because there is no smoke in the snow at a very high altitude, it is not easy to come here from the outside.

Shen Lang has already arrived, and cut a piece of snow and ice on the top of the cap, preparing for the arrival of the guests.

Zheng Yumeng and Dorothy have already prepared for Shenlang, and will distribute different Lingshi. The wind has not come to Ji, she is here to "live", the first batch of Shen

Ling, the first batch of Lingshi sent to the comprehension who did not come to the sunset peak.

The time announced by Shen Lang is from 10:00, and there is no explicit indication of how many places to send. This is what he gave, and he was happy.

But for those who want to come, you can't delay it. The number is definitely limited, and it is impossible to deliver it without limit. Even if there are not enough people, Shen Lang is more than ready to be, and he will not wait for the identity of others.

So many people came to Tianshan early, and found the sunset peak in advance. They camped under the peak last night.

I waited until today morning to start climbing, but the time has not yet arrived, and I dare not rush to come up, so as not to provoke the waves.

I waited until ten o'clock to arrive, and everyone rushed over.

Shen Lang's acceptance of the power of faith is not affected by distance. For example, the main force is contributed by overseas comprehensions.

But after the distance is close, you can still feel the specific source.

The first batch, the number is directly three or forty, and some of them are still in the virtual world, and some are returned to the Yuan.

It's still a little better. If it's the beginning of the Yuanjing, it's difficult to climb to the sunset peak.

After everyone came up, the mood was obviously very exciting, but it was very cautious. Because Shen Lang is a veteran of the major sects, they are all figures that can be saved in one lump sum. Although they are younger than them, they are already legendary powerhouses.

"I will not say hello to you. In short, you can trust me, I am very pleased. Of course, I will not let you down, and there will be no unnecessary requirements."

Shen Lang smiled and opened the game, then left and right: “Everyone has, don’t worry. Line up a team! This is the return to the Yuanjing, here is still a virtual world.”

“Thank you Master Shen Lang!”

The previous news was that Feng Wuji represented Shen Lang and everyone still had doubts. Now I saw Shen Lang with my own eyes. I heard that he promised that he would not have any non-requirements and would not let everyone down!

Suddenly, the excited and cautious monks were excited and excited and grateful to Shen Lang.

It is obvious that they are beginning to have the power of faith and let Shen Lang be satisfied.

In order to stimulate the bigger one, he waved his hand and placed the two piles of stone ready in front of the table.

Dozens of monks in the scene could not help but hold your breath!

They were the first to arrive, and naturally they came out early. The ability to travel thousands of miles or even thousands of miles is naturally because resources are scarce. To put it bluntly, it is a poor martial art.

Even if there is a spiritual reserve in the martial art, it will not be distributed to them in large quantities. And these two piles of Lingshi are in front of them, even the pictures they have never seen before!

The natural origin of the virtual world is better than that of the Yuanyuan. The bottom of the family is stronger, but there is a bunch of medium Lingshi in addition to a bunch of elementary Lingshi!

For a time, everyone’s eyes have become eager.

Shen Lang clearly felt the power of the beliefs they contributed, and they were rising.

Because of the expected value, when the food is in front of you, when you eat the first bite, it is the stage where the food brings the strongest happiness. The items purchased are also the best when you receive the express package.

Now that they have seen the Lingshi, they know that they will be sent to them soon, but they have not really got it, that is, when the expectation is the biggest, it is also the time to contribute the most.

This is very clear, but I can't hang their appetite. After all, it is not the same as the equivalent exchange of hiring people. It is not the same as the forced extraction of Yuxianmen. The power of faith still requires them to be spontaneous and pure.

Therefore, after they quickly queued up, Shen Lang immediately waved his hand and signaled that the first one was still in the virtual world.

The first one is naturally the most exciting.

Although he has not seen Lingshi, but now the scene has already had this atmosphere, he can lead others for a few seconds, it is a very cool thing.

Shen Lang reached out and shook his hand. Zheng Yumeng sent a medium Lingshi next to him, and then he personally sent it to the man's hand.

"thanks, thanks!"

The man was so excited that he even felt a little tear in his eyes.

It is not an empathy, but for them, the medium Lingshi is very precious, that is, the biological father, the pro-master, and can not be sent as simple as this. Generally, if you are talented, it is worthy of cultivation, you will be assigned, or you will have a great contribution, or your qualifications will arrive.

Now an outsider who does not know him at all, is directly sent one by one without any conditions, is there more moving than this?

Shen Lang is also clearly aware that the power of this person's faith has soared and reached his personal highest value.

He nodded with a smile, indicating that the person was resting next to him, or he could leave first.

Then turn to the first one on the side of the return to the Yuan.

The one who returned to the first place on the side of the Yuanjing was a bit flattered!

I thought it would be a first come true. After all, people are more powerful, and they have no dissatisfaction. I didn't expect that Shen Lang was so fair, it was one side!

It is still lined up in the virtual world, and there is no dissatisfaction. I feel that Shen Lang is really a great person. It is fair to send Lingshi, and the queue is so fair!

Like the first person Whenever you receive the Lingshi, the power of faith has erupted. The superpowers who can't reach the peacetime handshaking are also excited.

There is no shortage of tensions in this relationship. He said that he was in a group with Shen Lang before, and he also supported him in the dispute with Xie Dao Ling.

In addition to Shen Lang, the two beautiful women who served as the hostesses to send Lingshi, are also super strong, let everyone be amazed, but also envious.

The wind is no Ji, it is to capture the side, spread the excitement of everyone.

Soon, there were other people coming up in the land, and they were very excited when they looked at Lingshi.

And when I received the Lingshi, I did not want to leave for a long time. After all, it's not a bad time to come over. Besides, if you take advantage of it, it will be too inhuman.

Everyone is very direct in maintaining order and dare not speak loudly.

When Nanyiye and Qiao Shuyu came together, Shenlang had sent out a few hundred spirits of the middle Lingshi Elementary Stone!

Chapter 998 - greedy

“Good guy! You really sent it out so much.”

Qiao Shuyu looked at so many people on the sunset peak. Everyone was filled with joy, and obviously they all received the Lingshi. Although they are all returning to the realm of the Yuan and still imaginary, they cannot hold a large number.

Although this is not his, but looking at it has made him very painful.

“Of course, you have to do it when you say it.”

The harvest of Shen Lang is inconvenient to say to outsiders that it will be forced to do so at this time.

“The chest of the sinking brother is really not what we can compare.” Nan Yiye sighed sincerely.

However, he does not find it difficult to understand, because the millennial world like them is the home of the ancestors’ generations. As the resources are getting exhausted and there are no powerful people coming out, they are the resources that are consumed. .

So no matter who you are, you can’t do a lot of delivery, because this is not a personal thing.

The Shen Lang is not the same. If you lose the family, you will earn it yourself. You don’t need to tell anyone. And his rise is too fast, everything is too easy.

The two of them also brought the Lingshi, which was said to be exchanged with Shen Lang, and Shen Lang gave them the fine stone.

Their transactions are directly in front of everyone, and there is nothing to hide. After all, the realm of the two of them is not low. It is impossible to hit their minds when they are still in the virtual world.

However, those comprehensions who did not leave at the peak of the sunset watched two sets of Lingshi before they were sent. Now they have exchanged two piles. In addition to the heat, the admiration for Shen Lang is also increasing.

The influx of the faith of hundreds of self-cultivators, let the waves of the sun, or to the sun!

“To be honest, I am not a natural saint, nor a non-return to the sea, I realized that we should not be limited to the portal, go out, all the earth monks are compatriots!”

“So, I personally have accumulated so many resources, and I can’t finish my life forever. Just by strengthening the Tianshan Swordsman, it is just a change of one family.”

“The troll invasion of the previous period, although I shot in time, but then I was in the retreat days, let them repeatedly fierce. This makes me realize that it is not enough for me to have resources, there are many compatriots. They need more resources to improve their strength.”

“Only everyone is good, it is the growth of the earth! I can do this as a little thing that I can do. I am just reluctant to share it with you.”

Shen Lang’s remarks were made with the gestures of Qiao Shuyu and Nan Yiye.

But the hundreds of monks who stayed at the sunset peak looked up at him. I saw him talking to the two sons of the Nantian family and the Beihai Qiao family.

The speaker did not intend to listen to the heart, and listened to the feelings of Shen Lang, only to truly confirm his intentions. People really don’t figure out what everyone is doing, just because they have feelings after returning from the sea, and they know how to share.

It is naturally more convincing than any open promise to talk to a friend.

This level of truth also makes everyone really touched.

And of course, this is what Shen Lang is willing to let everyone hear, and it needs everyone to spread out.

At this time, some people came up and Shen Lang continued to receive.

“I have already been in the virtual world, and I have to break through the realm. Can you give me a fine stone?” This time someone took the initiative to ask for it.

Because the rules are explained first, the people who came before are the two separate teams, which can be white and valuable. What are the good things to care about?

This person is the first to bargain, and everyone is paying attention to the situation here.

After all, many of the people before, some of them are returning to the peak of the Yuan Dynasty, but also the peak of the virtual world. If the peak period can get a higher level of gifts, they certainly want it!

“People’s rules have already explained that if you don’t break through the real world in one day, you still have a virtual reality. Anyone like you, isn’t it a mess?” Qiao Shuyu didn’t breathe a sigh.

The man glanced at it and said nothing, but continued to look at the waves.

“Master Shen Lang, you are so rich, it is not a big deal to send a fine stone. It has no effect, but it is very important to me! And I see that there is no real place to come. They are also masters. If you want to face, why can’t you fulfill me?”

He should have been ready for a long time, and he is not humble when he says this.

Shen Lang smiled and reached out and shook him.

This scene, let this person breathe a sigh of relief, and then stunned a bit, as if something was just a little wrong, but could not say it.

At the other peaks of the scene, I am also excited. Can I change a better Lingshi?

Although it is already valuable in getting an elementary spiritual stone and a medium spiritual stone, it is a hundred times wider than the medium Lingshi and the fine stone.

There is no way to limit the rules. If there is a chance, who would not want more?

A hundred times difference, let alone put the following, that is, kneeling and praying are willing!

“The rules are the rules. You are still in the virtual world. I will give you the treatment of the real world. Those who are in the peak period should also enjoy this treatment, or else it will be unfair.”

Upon hearing this, many people on the scene nodded and even whispered. They are all leading first, and the chances of re-changing are not great. Why are you better by yourself?

“If all the peak periods enjoy higher treatment, then it will almost break through the peak period? It will also feel unwilling. This is the case in the late, middle and early stages.”

Shen Lang’s voice just fell, and Qiao Shuyu took it over: “Yes! That’s going on, only everyone will give you a fine stone, you can satisfy it! But even then, you will feel unfair, why? In the early days of the true state of the realm, and you are still a sinister treatment?”

“Qiao Gongzi is heavy! It is just my personal appeal. For Master Shen, it is not a big deal to send one more. He does not lack this one.” The man was not soft or hard.

Qiao Shuyu is uncomfortable: “Master Shen does not lack this one, but that is the family! Why should I give it to you? According to the rules, I can also receive a fine stone, what qualifications do you have? treatment?”

He had looked at the delivery so much, and he was suffering from the pain of Shen Lang. Now I still take it for granted! An attitude of “you have more money and gives me no impact” directly makes him angry.

Although he was long ago, he was far away from the waves But after all, it was also a character in the late stage of the real world. The other monks on the scene could not look up. In a rage, everyone was nervous.

That person did not dare to speak, but obviously pouted, a little “don’t afford to not boast of Haikou” means.

“The rules are the rules, but the rules are also determined. This is my rule, I can change it!”

The sudden interruption of Shen Lang made everyone on the scene shine. Is there a turnaround? This person has a turn, then everyone?

Everyone is glad that they have not left, this is really a wise decision.

Chapter 999 - Enwei

Shen Lang smiled and said: “I said before, don’t let everyone return anything. If you use the Buddha’s words, you will just get married. If you are right, I don’t need to break the fairness, let you lead a medium spiritual stone. And how about giving you a few good spirits separately?”

This is what I say, so that everyone is sincerely sighed. Many of their martial arts families do not have the finest stones. People can send more than a few!

Rich and rich!

However, the expression of joy on the face of the person just started, and it was solidified by the words behind.

“But you don’t deserve it!”

This sentence is said, let the atmosphere above the sunset peak cool down.

There were other excited monks who were a little excited and immediately felt wrong. The whole process of keeping the smile of the polite wave, even said that he is not worthy!

“If you want more and more benefits, everyone has this kind of thinking. If you say it, it will not be a problem. I am giving it away. You are not grateful to me. It is not a problem. But like you, ask me more. When I am more, my heart is still stupid, I am really stupid!”

Shen Lang shook his head: “The rules are my decision. I don’t care how people in the world look at me. You don’t want to say good spirits today. Medium spirit stones won’t give you one. I don’t want you, it’s good temper. It!”

When I heard Shen Lang say so, Qiao Shuyu grabbed the man directly. “I threw him down the mountain!”

“Wait! Wait!” The man hurried out.

“Shen Lang! Don’t say that you are so great, isn’t it a famous reputation? I can’t bear to give me the fine stone, but I don’t even give it to the middle stone. I am not rare! But why do you marry me!”

Even if he was caught by Joe Shu Yu, he still argued.

“You are very strong, your friends are very powerful. But if you want to add sin, I will definitely not accept it! You can’t stop the world’s people!”

Shen Lang smiled lightly: “You are wrong, you don’t know how strong I am! Don’t say what you think in your heart, I know, as long as I want to know, you can know how old you can start to pee!”

Said, he took a hand and took the man out of the air.

“Joe brother, I am afraid that you can’t control him, but I will send him a ride!”

When he said that his hand was moving, the man in the air immediately threw it out under the sunset peak.

“what—!”

A scream of screaming broke through the sky, leaving other people on the scene trembled.

Shen Lang is not a sinking wave!

It's still a virtual peak, in his hands, it's easier than throwing a toy!

After all, Shen Lang is a wave!

Everyone remembered it, although it is now polite, but before the Shenlang has the nickname of "killing the madness"! It was half a month ago that he hunted the trolls, and he was not merciless.

For a time, everyone was awe from the heart.

I dare not be disrespectful again, and dare not be more greedy.

What if you are famous? That is a lot of real money and silver, but also depends on your face?

When you come to Lingshi, the highest is the peak of the virtual world. When you see that the waves don't need to be touched, you can throw the peak of the virtual world down to the mountain, and you can guarantee that you won't fall. How powerful is this!

Nothing to return to the sea, what is the realm of the gods, are too far away, they can not feel.

It is also the peak of the virtual world, they are relatively close and familiar, so crushed, it compares the power of Shen Lang.

The self-cultivator is naturally a more admired strong. If you are a little stronger, you will be dissatisfied. If you are strong, you will be completely surrendered!

Fear of other accidents, people began to leave for Shen Lang and began to leave. Everyone gradually left.

Shen Lang still smiled and nodded to them, of course he was satisfied. Because the scene just happened, the power of the beliefs of hundreds of people on the scene was even more intense.

Of course, that is not what he designed.

That person's attitude, Shen Lang does not care, but I can't feel the power of faith! That's not the same, really white!

When shaking hands, the homeopathic invasion of his consciousness, also knows the idea of this person. It is not just white, but a white-eyed wolf. Just throwing the sunset peak is already very polite.

When those people continued to leave, there were also scattered people who continued to come, and they began to have the truth.

In fact, the real world is not so good, a fine stone is a good harvest for them, but they are also honored as masters, and they are revered for Shen Lang, but it is difficult to produce the power of faith.

Of course, because of their high realm and strong spiritual strength, even when they get the spiritual stone, they produce a glimpse of it, which is much stronger than the virtual world and the return to the realm.

In general, the virtual world is the most cost-effective, followed by the return to the realm, the lowest cost-effective is the real world.

Shen Lang did not wait until after the afternoon, and left with them.

Everyone also chatted about it, because it was exchanged for a lot of fine spirits, and Qiao Shuyu and Nan Yiye did not dare to stay, especially the south one leaves far apart, and they all went back as soon as possible.

Shen Lang and a few of them, first returned to the Tianshan Jianzong.

During this time, because of the absorption of those monsters and the power of faith, the gods became very powerful. You don't need to rush to practice. Now come back, it will take a while to settle.

The change of the previously absorbed combination is a matter of rigorous research. Because of the induction of all the self-cultivators and the magic objects, the absorption of the magic objects, and the power of faith, it is obviously related to that.

There is a network here, and there is no idleness in the wind, and the results of today are laid out one by one, which is the second time after half a month.

The main reason for coming today is the domestic comprehension. The spread of foreign news has already arrived, and it is already a little late. Coupled with the need to form a visa arrangement, it is too late.

This time, hundreds of people in the country have benefited. They have all turned into tap water and went out for Shen Lang.

One person's support, perhaps the water army, two people and three people, are not enough to believe, hundreds of practitioners from different sects of different sects across the country, all thanks to Shen Lang.

The public opinion got up I still had doubts and I was excited. Even a lot of people started to leave immediately, for fear that they would not miss the next time.

The story of the person who was thrown off the sunset peak by Shen Lang, of course, spread out, everyone can understand. What are the benefits you don't need to pay, at least you have to say a word? I also ask for this request, but also the people who are stupid, and he is very polite!

The singer of the singer, who has not received it, is afraid that the next time he will be remembered, it will be praised loudly.

Certainly privately, some people disapprove, but most of the enthusiasm has risen. Shen Lang directly feels that the power of faith continues to be more. When these were spread overseas, they went up another round!

Chapter 1000 - Presensing verification

Although it will be able to absorb the power of faith for another half a month, it will not last longer. But the harvest is far beyond the expectations of Shen Lang.

And this is something he hasn't thought of before, and he doesn't need time and danger.

He fully realized that the concept of "can solve problems with money is not a problem." He paid the stone, which is equal to using money to buy time.

Just when he was in a good mood, he thought of Bihaihuan without any reason, and then there was a slight loss of restlessness.

Normally, a person with a good relationship, who has not met for nearly a year, will remember that it is normal. Counting the time in the world of the book, it has not been seen for many years.

However, Shen Lang did not ignore it. He felt that it should not be that simple!

After his "Yin and Yang Bo Ruzheng" cultivation to the seventh weight, it is obvious that there is a hunch. For example, when I returned to the Tianshan Mountains from the Nantian family, I suddenly decided to go to the wind and there, and I just saved her!

When I went to the Ice Palace, it was also the time when Bai Guimen invaded the Ice Palace.

It was the last time I went home, and it was just that I had to catch up with Yuezhennan.

These outsiders seem to think it is a coincidence, but Shen Lang is very clear, it is a kind of hunch. An inadvertent, even abrupt idea is probably the key moment that is needed.

But a few times ago, he had encountered something, and there was no such thing as danger.

Now, this time, when I suddenly think of it, I feel a little bit uneasy!

Shen Lang thinks that it is probably because he has reached the semi-sexual situation, and now the relationship between the very gods is very strong, or it may be because of the influence of the combination of the two mysterious elements.

Since this idea is in place, it is very likely that the problem has reached a serious and urgent moment!

Therefore, he does not have more time to consider, and here and the river city, is a different world, different time and space, even if he has the best holy armor, you can not contact Bihaihuan first.

If you want to find out if she is in danger now, at least it must go to the river city.

It is very important to absorb the power of faith. Such a bureau must be in such a good position. After the passage, even if you spend the same amount of spiritual stones, it is difficult to replicate the same effect.

But after waiting for half a month, waiting for the power of faith to fade, the day lily of the sea is cool.

To make a choice between this gain and loss, it will inevitably make people entangled.

However, Shen Lang quickly made a decision and immediately went to the city of the river basin!

After all, compared with human life, the power of faith is not absorbed, there are opportunities for the next time, there are other ways. If Bi Haihuan died like this, he would inevitably blame himself.

He did not promise to protect Bihaihuan. She was also a princess there. If he didn't know, he would be sad if he had an accident, but he didn't need to blame himself.

Now I already know this.

He did not say much to other people. He and Dorothy once went there once in the river city, and once again with the Nanliuchuan brothers. This time he decided to go by himself.

If there is no problem with Bihaihuan, just think more, then come back as soon as possible and don't miss the power of faith.

If you are really in trouble – it will definitely be a big problem, so let me help.

To this end, he first married a few of them, if he did not return when he arrived, let the wind no Ji Ji on his behalf a statement, Lingshi should be sent to continue to send!

By Zheng Yumeng and Dorothy, there is no fear that someone can make trouble.

For the arrangement of Shen Lang, they are completely obedient. He does not say that it is not necessary to ask.

The place where Shen Lang chose to go, of course, is still hundreds of millions of ring arrays, but this time, he does not need to go to the Nantian family, and in order to catch up with the time, just like chasing the trolls before, directly from the Tianshan Gaoyin to the hundreds of millions of ring arrays The place.

This time, he didn't even need to go down the waterfall, and crossed the jungle river directly to the mountain, and then entered the undercurrent of the mountain.

After a lapse of nearly a year, when Shen Lang came back, it was already very different from the original.

At that time, although the lord of the sacred gods had been killed, in fact, he himself still had the peak of the real world. Now it has crossed a number of realms and reached the half-sexual situation.

So many small problems, including the Nanliuchuan brothers who needed to pay attention to the situation at that time, he now easily crossed.

Entering the inner wall of the mountain in the mountain's belly, and then came to the huge pothole, and then the cracking of the billions of rings.

With the current strength, Shen Lang does not need partners to cooperate, and the degree of one person can already be completed with ease.

Once again in the forest, everything is as it is. It was still the same when the shaved tree that had been marked was cut.

Entering the scope of the river basin, the gang of the body, the automatic networking immediately, there are some updates of the information, the upgrade program is automatically updated and upgraded.

Shen Lang immediately tried to contact Bi Haihuan.

If she has no problems, connect here and see the situation of the other party in all directions. If you contact, you can go back first. If you are not too far apart and have time, it will not be a problem to meet up and go back one day and a half.

As a result, it seems to confirm his premonition, Bi Haihuan can not directly contact!

Shen Lang immediately contacted another person – Feng Yuegu.

This person in Fengyuegu has been dealing with several times. He also knows that he can be regarded as the family of the Bihai family. It is more loyal and reliable than the generals of the outside military.

The last time I added a contact method in the G-3, I would contact him if something could not be found.

The result is that Fengyuegu can't be reached!

This makes Shen Lang a little frowning.

Bihaihuan can't be connected, there may be a lot of situations, such as closing the contact on vacation, such as just taking a shower. However, Feng Yue Gu is a general, naturally not as self-willed as Missy, and is destined not to break contact at any time.

Now they can't be contacted either. It's very likely that both people are in the same place, similar to the last battlefield!

Shen Lang tried to start contacting the third person.

The former sacred armor of the sacred armor was the spare sacred armor when he went to the death forest. Although it was also very black technology, the grade was not high enough.

When I was fighting with the Tangshan Mountains, I also lost a lot. At the last time, I asked Bihai to find someone to repair. And she applied to the family to give Shenlang a better one.

Finally, her brother Bihai chased the family and sent it to Shen Lang, which is also the latest and most high-grade sacred armor of the Bihai family. More advanced than Bihai, she was also amazed that Bihai Chasing may have it, but it is impossible to have spare, which is unusual.

However, Bihaihuan is also very interesting. She does not want the family to do the tricks and make the waves unsatisfactory. Therefore, he actively checked the side and cleared the related contact, positioning and other changes, leaving only her contact information.

However, Shen Lang considers the time to come here. I don't know if I can contact her at any time, so she can add the contact information between Feng Yuegu and Bihai.

Now the contact is also the only third person inside – Bihai Chasing.
