

Fit For Your Love Chapter 291

[/ Fit For Your Love](#)

Olivia woke up the next morning and Brayden was no longer in bed.

She looked at the time.

It was almost eight o'clock.

She immediately took her phone and looked at the alarm clock. She had an alarm clock set last night at seven am.

But it was almost eight o'clock and the alarm didn't go off.

She had to take a look, or she would easily oversleep.

However, she did set the alarm clock as she remembered.

But why didn't it ring? Was her phone malfunctioned? Olivia put her phone aside and went to the bathroom to wash up.

She decided to stop by a phone store after work today.

After washing up, she went downstairs and saw Brayden putting breakfast on the table.

Hearing the sound, Brayden looked over.

"Morning" He looked at her tenderly.

Olivia went downstairs.

"When did you get up?"

Breakfast was ready.

Brayden thought for a moment and said, "When your alarm clock rang"

Olivia was stunned.

"Did the alarm go off?"

Why didn't she hear anything? Brayden saw her in disbelief and smiled.

"It rang once, but I turned it off"

So she didn't hear it.

Olivia was helpless.

"I thought my phone was broken"

"It wasn't. Don't set an alarm clock so early in the future. It wouldn't hurt if you sleep a little longer"

He touched her face, with eyes full of tenderness. She was too tired.

"It's okay. It's not too early at seven"

"It's early for me" Brayden held her hand.

"Come. Have breakfast. As long as I'm around, you can forget about getting up at seven"

Listening to his overbearing words, Olivia became more and more helpless, and now she really couldn't find a way to say no to him.

After the two had breakfast, Brayden asked, "What's the plan for today?"

"To the clothing company, we have some work for them" Brayden nodded.

"Okay, let's go together"

He wiped his mouth with a tissue and got up to clean the table.

Olivia said, "I'll do it. You already made the breakfast, and I'll do the dishes"

They should treat each other equally, or it would be bad for their relationship.

She didn't like that either. She took the dishes and cleaned the table.

Brayden smiled. She was different from other people. She just couldn't bear to sit there doing nothing and enjoyed being waited upon.

"You rest for a while. I'll come out when I'm done"

She went to the kitchen. But Brayden followed her to the kitchen. Olivia heard footsteps and said, "You.."

She was hugged.

Brayden put his arms around her waist, chin on her shoulder, and said, "You wash the dishes, I'll hold you, okay?"

"Okay"

Olivia cleaned up the kitchen, took the documents, and went to another company with Brayden.

HC Clothing.

HC Clothing was far away, and it took two hours to drive.

It was already 10:30 when the two of them got there.

Olivia went to the front desk and the employee quickly took her to their manager.

Olivia met the manager and told him what she wanted.

And showed him the drawings.

The manager looked at it and frowned.

"This kind of thread is rather rare. We don't know if we have any stock. Let me make a call first"

"Okay"

The manager was on the phone while Olivia and Brayden sat on the sofa and waited.

Not long after, the manager came over and said, "Miss Hadley, I'm sorry. We don't have any stock on this thread"

Olivia frowned.

"When will you replenish the stock?"

"I just checked. We are temporarily out of stock at the channel. So not any time soon"

"Out of stock.." Olivia frowned.

It was no small matter that the goods were cut off.

"I want to know more about the details. Is it a short time or a long time situation?"

"Well, there was an accident at the supply factory a while ago. The warehouse was on fire and the inventory was burned down. It would take at least ten days or a half month for that thread to be in production"

"It would be too long.I can't wait that long" Olivia said directly.

"Sorry, Miss I ladley"

"Do you know where else I can get this thread?"

The manager shook his head.

"Our company is the only one I know.Because the production was low, the price of this thread is higher than others, so many companies simply wouldn't produce it"

Olivia's face darkened.

The thread she wanted to use was called the Golden Thread, not making of gold, but gold in color.

It was very special.

She had to use this thread in her dress, which was a highlight.

It was absolutely necessary.

Olivia thought for a while and said, "Where is that factory? I want to go and see it"

"It's a little far.It'll take at least two hours to drive"

"It's okay.I'll go even if it would take three hours"

She had to see it herself.

The manager looked at the time.

"Well, it's almost noon now.I'll make arrangements for what I have to do.We'll take you there after lunch"

"Okay"

But

"Would it be any trouble for you?"

"If it would, just tell us the address and we'll go by ourselves"

"It's okay.I have to go to the factory anyway "

"That's good"

Olivia and Brayden were in the reception room, and the manager left.

Brayden said, "Don't worry. We will figure something out when we get there"

Olivia frowned.

"This year, the launch of the new brand is in a tight schedule. I can't afford to slack off"

Brayden's fingers fell on her brows and smoothed out the wrinkles.

Olivia looked at him and the solemnity in her eyes gradually dissipated.

Brayden said, "Let me know if there's anything I can help you with"

He wanted to help her. He didn't want her to be so tired.

Olivia laughed when he said that.

"Aren't you helping me now?"

He did all the cooking and driving. He basically became her assistant.

Brayden smiled.

"Yeah, I will rely on you to support me"

"No problem"

After the manager finished his work, they went to a Chinese restaurant, had lunch, and went to the place the manager mentioned.

Silkworm Town.

Fit For Your Love Chapter 292

[/ Fit For Your Love](#)

"Silkworm Town specializes in sericulture. Many companies have been importing goods from here for many years"

In the car, the manager introduced Olivia to Silkworm Town.

Olivia nodded.

"So the factory you mentioned is also in this town?"

"Yes, it's in this town. The weather was hot. Somehow, it caught fire and it was too late when they found out"

The manager sighed.

"It was a big loss"

"Yes, it's hard to raise silkworms"

It wasn't easy at all.

"Indeed, the factory suffered a huge loss"

As they spoke, the car was parked in the town's parking lot.

After their cars stop, a few luxury cars drove into the town and were parked in the parking lot, too.

The manager got out of the car, pointed to the alley in front of him and said, "We need to go in from here. There're miles"

"It's okay. Let's go"

They walked in.

There were many people around, which didn't look like locals.

Olivia asked, "There seems to be a lot of outsiders here"

"Yes, Silkworm Town is famous for sericulture. And there is a Fairy Mountain. So many tourists will come here"

"Fairy Mountain?"

It was the first time that Olivia had heard of it.

The manager smiled.

"Yes, it's said that Silkworm Town didn't use that name at first, but was called Hardship Town. It was very poor. Later, a fairy came down to earth. Seeing that the town was very poor, she thought that raise silkworms could help people here. So the fairy stayed in the town and taught people how to raise silkworms. Silkworm Town became rich and the fairy left"

"In order to thank the fairy for her help, people built a temple on the mountain to worship the fairy, and the mountain became Fairy Mountain"

As he spoke, he pointed to the highest mountain in front of him.

“That’s Fairy Mountain”

Olivia looked over.

From this side, she could see the shape of the mountain was special.

It looked like a person was lying on his side.

When Brayden saw Olivia looking at the mountain, he said, “Let’s go and have a look when we’re done” Olivia shook her head.

“Maybe next time. There’s no time this time”

The manager heard their conversation, smiled and said, “According to another local legend, if a couple go to the Fairy Mountain, they will be together forever”

Brayden clenched Olivia’s hand.

“Really?”

“I don’t know if it’s true, but I heard it was”

Looking at Olivia, he said, “Miss Hadley and Mr. James can go. Not to mention whether this legend is true or not, it’s not bad to go and see the scenery. The scenery on Fairy Mountain is very good”

Brayden looked at the Olivia.

Olivia felt the heat in his palm.

He wanted to go.

“Okay, we’ll go after today’s work” Brayden smiled.

“Okay:”

As they spoke, they came to the factory.

The factory director saw the manager and immediately came over.

“Hello, Mr. Marley. Mr. Marley nodded and said to the person in charge”

“This is my client, AK Company’s designer Olivia. This is her husband, Mr. James”

The person in charge immediately reached out his hand.

“Hello, I’m Logan, the person in charge here”

Olivia and Brayden both shook hands with the man.

Soon, Mr.Marley explained Olivia's intentions of her visit.

Logan frowned.

"Miss Hadley, you know that gold thread is expensive.It is not that we deliberately raised the price, but that there are very few silkworms, and there are very few lines to spit out.We had a lot of stock before the fire.However, after that, there was not a single shred left of the gold thread"

Olivia frowned again.

"When will you have it?"

Logan thought for a moment and said, "At least half a month later"

"Silkworms spin silk.And then we'll process it and make it into a finished product.It'll take half a month" Still half a month.

Olivia clenched her hands.

"I only need a small portion of it for now because I need to make a sample in half a month"

"Well.."

Olivia looked at his embarrassed face and said, "Can you help me find it? Not very much"

"Well, you guys have a seat first.I'll go to the warehouse and the workshop to take a look"

"Okay, thank you"

"You're welcome" When Logan left, Mr.Marley said, "I have something to do, too.You guys sit down.I'll be right back"

Olivia said, "It's okay.You're busy.Don't worry about us"

Mr.Marley also left.

Olivia looked at the time.

It was almost four o'clock.

Time passed quickly.

She needed an answer today.

Yes or no.

What would she do if the answer was no? Olivia began to think.

Brayden sat next to her and did not disturb her.

Suddenly, his phone rang.

Olivia looked at him.

Brayden said, "I'll take a call"

"Okay:"

When Brayden went out, Olivia looked at his back and felt a little nervous.

She had to find a time to talk to Brayden and tell him not to follow her.

He should do his own work.

Brayden walked outside, looked at the screen and swept the answer button.

"Mom, what's the matter?"

Fit For Your Love Chapter 293

/ [Fit For Your Love](#)

"Brayden, your grandfather is sick. Do you have time these two days? Come back to see your grandfather."

On the phone, Belle said worriedly.

Brayden clenched his phone.

"Grandpa is sick? What happened?"

"Your grandpa is old and he has a cold. It wasn't that serious at first, but somehow it went badly and became pneumonia. It's better if you come back when you have time."

Belle's voice was filled with worry, and Brayden frowned.

"Well, I'll be back tomorrow."

"Okay."

Brayden hung up the phone and looked into the distance.

From here, he could have a clear view of the back of Fairy Mountain lying prone.

He wanted to go to that mountain with her, but now, he couldn't.

Brayden returned to the guest room, and Olivia was planning with a pen and paper in her hands.

In any unexpected situation, she would write it down and prepare.

She didn't like things to be out of her control.

Brayden sat beside her and looked at her serious eyes.

When she worked, she completely forgot everything around her.

Olivia finally breathed a sigh of relief after finishing her plan.

A cup of coffee was handed over, and she subconsciously took it and said, "Thank you."

Then she took this coffee and drank it.

But when her lips touched the coffee, Olivia paused and looked at the person next to her.

Brayden was looking at her with dotting eyes.

Olivia put down her coffee cup and said, "I'm sorry I ignored you again."

"It's okay. I didn't" Olivia looked outside.

Logan hadn't come in yet. It looked like he was still looking.

She said, "Why don't we go to the workshop?"

He was sitting here alone, and she didn't talk to him. It would be boring.

"Are you done?"

"Yes, I'm done for the time being"

"Let's go then. Workshop sounds like a good idea"

"Yes."

Olivia took a sip of coffee and went out with Brayden.

In the workshop, all the employees were busy.

After seeing them, they turned around and continued to work, Completely unaffected.

Olivia knew that they were paid on a piecework basis so they valued time very much.

Olivia watched them work hard and carefully.

Brayden followed her sight to watch them work as well.

He didn't understand this, but being with her made everything meaningful.

The sun was setting and the sky was gradually turning dark.

Logan found Olivia and said apologetically, "Miss Hadley, I'm sorry. I've searched all the places I can and found no more extra gold thread."

Olivia nodded.

"Okay, I see. Thank you."

She had already made plans.

If she couldn't find the thread today, she would go to another factory tomorrow.

There were many factories here.

She would spend a day looking for it.

If she couldn't find it by tomorrow, she would go back the day after tomorrow and dye another thread to make it gold.

During this time, she would still keep in touch with people here and ask Logan to send it to her as soon as there was gold thread on this side.

This was the solution she came up with today.

Mr. Marley also came out.

"It's getting late. Let's find a place to have dinner."

Logan said, "There is a very typical restaurant in our town. Let's go there."

"Yes!"

They went to the restaurant and sat around the table.

The waiter came over.

After they ordered, Olivia looked at Logan.

“Can you help me arrange for someone who knows the address of your other factories tomorrow?” Logan nodded.

“Yes.Are you going to another factory, Miss Hadley?”

“Yes, I have to go to other factories, or I won’t rest assured.”

“Well, I’ll take you there.I’m acquainted with a lot of factories here, and I know some of owner’s.I’ll take you there myself”

“Will this trouble you?”

“It’s okay.I’ll just hand over the work to the workshop manager when I go with you”

“Thank you so much!”

“My pleasure, Miss Hadley” After eating, they went to the hotel.

There were no hotels here, only motels, but because this was a tourist spot, so the accommodation was not bad.

Brayden and Olivia went to their room.

After washing up, they lay on the bed.

Brayden looked at Olivia.She closed her eyes, her brows still slightly furrowed, and her expression was not relaxed.She was still tense.

Brayden’s finger landed between her eyebrows and Olivia opened her eyes.

Brayden looked into her clear eyes and said in a low voice, “I’m going to Capital City tomorrow morning” Olivia was surprised.

“Capital City?”

She planned to talk to him when things were over here.She didn’t expect him to go back to Capital City now.

Olivia sat up and looked at Brayden.

"Tomorrow morning?"

"Yes" Olivia looked at his face carefully and asked, "Is something wrong?"

She was afraid that it would be a big deal. Otherwise, he wouldn't have to go back all of a sudden.

"Grandpa is sick. I have to go back and check up on him."

Grandpa... Olivia thought of Wade. He meant her mother's father, not Wade.

Olivia nodded.

"You have to go back." She frowned quickly.

"I should go back to."

She was his wife, and his grandfather was also her grandfather.

But her identity and her current job...

"No, you don't have to go back. You stay here and do your job" Brayden pinned her long hair that was hanging from her face behind her ears.

"I have sent someone to protect you. Someone will follow you these two days. Don't be afraid. They are protecting you."

"Okay"

He was worried to leave her here alone.

She understood that.

Olivia said, "You don't have to worry about me. I'm safe with your people protecting me."

"So don't rush over and take good care of grandpa"

How could Brayden not understand what she meant? Looking into her eyes, he understood what she was thinking.

"I can't bear to part with you" There was a strong sense of reluctance in his eyes.

He didn't want to be separated from her at all. Not a bit. Olivia smiled.

"I didn't know you were so clingy?"

He didn't even want to part with her for not so much time.

Brayden hugged her, put his chin on her hair, and sighed.

"I wish I could be by your side forever"

He had always wanted that.

Olivia put her hand around his waist and closed her eyes.

"When I'm done, we'll go to Fairy Mountain."

"Okay"

The next morning, Brayden packed up and left.

Olivia watched him get into the car and turned to the factory when the car disappeared in the distance.

She had arranged to meet Logan at the factory. Logan came out quickly.

"Miss Hadley, I'm sorry to keep you waiting."

"I just arrived"

"Let's go."

"Okay"

Logan got on the scooter and asked Olivia to get on it.

"It's not convenient to drive cars on the road here, but convenient and fast to get on a scooter"

"That's good." walking would be too slow.

The scooter passed by the town parking lot. Olivia saw a lot of luxury cars there.

Olivia said, "There are so many tourists coming here"

"Yes, this is the summer vacation now, so a lot of students are coming"

"Right."

She saw that not only were there students, but also rich people.

Not long after they left, seven or eight people came up in front, all wearing shirts and trousers.

At first glance, people would know they weren't travelers.

The leader was wearing a black shirt, black trousers, as if he didn't feel any heat.

The man in a white shirt and black trousers next to him said, "Mr. Weston, let's head to the town now. Then we can go to Fairy Mountain. It's cool there. Just in time to visit it."

Everett looked ahead, his eyes dark.

"OK" The man continued, "Our Silkworm Town has a long history, and is renowned for the ancient towns, Fairy Maiden Mountain, and Fairy Maiden Lake. Mr. Weston, you will definitely make a profit from investing in here!"

The people who followed immediately echoed, "Yes. There are tourists all year round in Silkworm Town since all the tourist sites are fit for any season"

"The scenery in Fairy Mountain is very good. It is cool in summer. And there are a lot of people to pray in the temple in winter."

"The fish in Fairy Maiden Lake is also very good. It tastes delicious and many people come here for it."

The two of them said a lot, but the man in front of them didn't respond at all.

The atmosphere gradually cooled.

And some of them felt a little awkward.

Suddenly, Everett asked a question.

Fit For Your Love Chapter 295

[/ Fit For Your Love](#)

"Which area are the sericulture factories mainly set?"

The man was stunned. He didn't expect Everett to suddenly ask this. But soon, he came to his senses and said, "Almost all of them are in this area."

"Our Silkworm Town has been raising silkworms for many years, and tourism has only developed in the past two years"

"So Mr. Weston will definitely make a profit from investing here!" The man said excitedly. But after he finished speaking, Everett did not respond.

That man did not dare to speak since Everett didn't have any response.

They were silence again. The man smiled awkwardly, wiping the cold sweat off his forehead. Why did he feel so cold in the hot summer?

"Isn't Mr. Weston interested in our silkworms industry?"

Unable to bear the silence, the man could not help but ask. Everett looked ahead, narrowed his eyes, and finally spoke.

"A little bit." The man's eyes lit up and he immediately said, "That's great. Our sericulture industry in Silkworm Town is also a typical feature!"

"Mr. Weston, do you want to have a visit?"

The people followed immediately looked at Everett.

Finally, under these intense gazes, a single syllable overflowed from Everett's throat.

"Yes."

Olivia and Logan went to the nearest one first, then to the far one, which took less time.

The two of them went to two factories.

Logan took her in, asked the people he knew to help find the gold thread.

Neither of them found it. It was already ten o'clock.

Olivia looked at the clock and then at the front.

"Let's go to the next one."

"Okay:"

Knowing that Olivia was in a hurry, Logan didn't dare to delay, so he took her to the next sericulture factory on a electric bicycle.

On the electric bicycle, Logan said, "The previous two factories were smaller in scale, and this one was big. We have a good chance to find the gold thread."

"Okay:"

Twenty minutes later, they arrived at the factory.

Logan led her in and called the manager.

Soon the manager came.

Logan introduced, "This is Miss Hadley, designer of AK company"

The manager immediately said, "Hello, I'm Raymond, manager of this factory."

"Hello."

Logan said, "Miss Hadley wants the gold thread. See if you can help find it. Not much, just for sample clothes."

Raymond said, "When you called me yesterday, I asked the warehouse people this morning and they said no."

Olivia, "Would you mind if I try?"

"Yes, but I'm afraid you will be disappointed"

"It's okay. I want to have a try."

"Okay, this way, please."

They went to the warehouse and found it together.

But half an hour later, it ended in disappointment.

Olivia frowned.

Raymond said, "Miss Hadley, I'm sorry" Olivia shook her head.

"It's okay. Let's go to another factory" Logan suddenly said, "Why don't we go to the workshop and see if there will have some left when they had used it before but forgot to return back?"

Olivia's heart tightened and looked at Raymond.

"Mr. Weber, is that okay?"

"Sure, I'll take you there."

Soon they went to the workshop.

All the employees in the workshop were busy.

Raymond asked the supervisor to come over and tell him the situation.

Soon, the supervisor arranged for someone to help find in the workshop.

Olivia was looking for it too.

She tried as hard as she could.

If she still couldn't find, she could replace it with another thread.

But an hour later, they still got nothing.

Olivia said, "Thank you, Mr. Weber"

"It's okay."

The two of them left.

Logan looked at the watch and said, "Miss Hadley, it's almost noon. Let's go another one after dinner"

It was noon? Olivia looked at the time.

It was already 11: 30.

It was indeed noon.

Normally, if it was only her, she could save the lunch, but it was not gonna happen with someone accompanied her.

"Okay, let's find a place to eat."

Working after lunch. Logan looked around and said, "There's a home-cooked restaurant ahead. Let's go there."

"Okay."

The two of them went to the restaurant and sat down.

Logan ordered.

After ordering, the waiter went to prepare and Olivia asked, "What time do the factories close?"

"We all get off work late. If we don't work overtime, it's 6: 00 or 6: 30. If we work overtime, 8 or 9 is possible, or even overnight" Olivia nodded, so she could go to three factories in the afternoon and two in the evening.

Soon, Olivia asked, "How many more factories do we have to go?"

Logan thought for a moment and said, "If we count those small factories, there are probably more than a dozen. If we count only the big ones, there may be five" Olivia had her plan in her heart.

"Because I'm really in a hurry, we won't go to these small factories this afternoon. We'll go to the big one. Try to go to four in the afternoon and one in the evening"

Because she worried that some factories left work early in the evening.

"Okay, I'll call them now."

"Okay."

Logan went out to make a phone call.

Olivia sat in her seat and thought.

Suddenly, her phone rang.
