

Flames 111

Chapter 111. The Decision and Loss of Princess Chen Xi!

“Ah~~~”

When Lin Yan’s flames exploded fiercely, Princess Chen Xi gave a little exclamation.

But soon, her face was full of joy.

“It’s okay!”

Princess Chen Xi said.

“Princess, it’s amazing. Is this a battle between Gods? It’s scary!”

Beside her, Qing Luan patted her chest, a shocked expression on her.

In Qing Luan’s eyes, it was really scary.

In fact, not only was she scared.

Even the underground creatures beside the black hole were frightened.

Only then did these underground beings realize that the flame was probably an incredible thing!

Maybe it has something to do with a God!

As a result, many underground creatures have been crawling on the ground, and their hearts were full of awe!

In fact, after Lin Yan’s flames ignited, some underground beings were crawling away, and some underground life even lay down on the ground for a whole day!

Lin Yan also received the belief in the contribution of these underground lives.

But if there was no temple, the amount of this kind of faith would be relatively small.

Like Miracle City, now an ordinary fox person could contribute nearly two points of faith to Lin Yan every day.

And these underground creatures, although this kind of indicator was good, this kind of ignorance of the name of the God they were bowing to was shallowness. They only knew the power of the God and did not have faith in the God. Thus they could only contribute a fraction of Faith Power!

And over time, when they had no connections with Lin Yan, the Faith Power received from them would be directly reduced to zero. That was why a God’s Temple or Church was so important!

Lin Yan was not interested in paying attention to this kind of scattered underground life.

After receiving this wave of express delivery, Lin Yan’s road to reaching the Ninth Level of the Imperishable Heavenly Flames was already halfway completed.

And the Black Fire used by the Abyssal Demon God who had just waved with him, after being analyzed by the system, transformed the eleventh layer of flame into Black Fire.

The role of this black flame was very special.

After the Energy Points were injected into it, the Black Fire would instantly explode.

Then the effect was the same as before.

Freezing the surrounding energy!

Well, what Black Fire mainly freezes was energy.

Of course, to achieve the astonishing effect, like freezing all of Lin Yan's flames, the Energy Points injected would be an astronomical number.

That was unless Lin Yan also used Divine Power to ignite his flames.

If the Black Fires on the Eleventh Layer of Lin Yan were exposed and burned normally, it would be unknown how many Energy Points would be consumed.

Lin Yan's Eleventh Flame Layer was actually his flames. It was just a systematic analysis of the characteristics of the Black Fire, and then he gave the Eleventh Flame Layer the characteristics of Black Fires.

Naturally, it would be better and more convenient than the original Black Fire, and it was controlled by Lin Yan!

After receiving a wave of express deliveries, Lin Yan found that there were fewer and fewer Abyssal Demon Gods who used this Demon Abyss to transmit power.

At this time, Lin Yan felt a kind of energy fluctuation coming from the Demon Abyss.

An extremely cold breath came!

"The rift in the Abyss has opened!"

Lin Yan knew the source of this energy fluctuation instantly!

Yes, the rift in the Abyss had finally opened!

Lin Yan did not hesitate, and immediately put away all his flames, and then covered his outer layer with the Abyssal Demon Fire, and fell towards the Demon Abyss.

Lin Yan was going into the Abyss!

This was his original plan!

Even if Lin Yan intercepted so many of the Abyssal Demon God's Points this time, Lin Yan was not afraid!

How could those Abyssal Demon Gods expect Lin Yan to have such a peculiar life in the world?

They just knew that Lin Yan was in the Abyss, and they didn't even want to find Lin Yan.

The Abyss was too big.

These Abyssal Demon Gods were not omniscient and omnipotent!

Their mastery of the situation of the entire Abyss was not great

"The chasm to the Abyss will last for half a month. Let me burn as much as I can in this half a month!" Lin Yan said to himself.

Burning in the Abyss would consume more Energy Points.

That was unless Lin Yan burned solely with the Abyssal Demon Fire or the Black Fire as his Outer Flame Layer.

But many of the beings in the Abyss were chaotic beings. In fact, they had no souls!

Without a soul, could they be burned with the Abyssal Demon Fire?

The Black Fire had a special effect, and the burning power was average.

Therefore, Lin Yan would use the Abyssal Demon Fire to reduce the influence of the Abyss aura on his flame consumption, and then burn it with his own flame!

It doesn't matter if it consumed a lot of Points.

There were many chaotic creatures in the Abyss, and there were many Energy Points. It was impossible for Energy Points to run out, and was even easier to make a fortune, but it was not as much as on the Continent of the Gods though.

Lin Yan's main purpose was to evolve!

The Energy Points could save the cost. When it was burned, the Evolution Points were not consumed, only the Energy Points!

Therefore, Lin Yan was going to have the most violent burning in this half a month.

Time to go back to the previous moment!

After Lin Yan's fire burned that demon God's consciousness, Princess Chen Xi finally made a decision.

Yes, she decided to dedicate her most loyal faith to this power-lowering God!

She was even willing to dedicate her body and mind to this God!

She would become the Holy Maiden of this God forever.

This decision was not easy for her.

You know, after becoming a Holy Maiden, she completely belonged to her God.

Even after she died, she would enter the Kingdom of God and become a hero of the Gods!

And some excellent Holy Maidens, even under the care of the Gods, become Holy at the fastest speeds and even become Gods themselves.

But she still belonged to the God in her body and mind.

Like the Fox girl, Qing Ling, when she contributed her faith and blood, she actually signed a Holy Maidenhood contract with Lin Yan.

The Holy Maiden's contract would become stronger and stronger over time, and it would be so strong that even the God himself couldn't terminate the contract.

Therefore, to become a Holy Maiden required a lot of determination.

This was especially true for Princess Chen Xi.

Because Princess Chen Xi was a Sixth-Rank Night Elf!

Sixth-Rank!

And she was still such a young Sixth-Ranker!

Princess Chen Xi's talent could be said to be far more terrifying than Meng Ying at the beginning.

Although Meng Ying's talent was good, it was abruptly promoted by Lin Yan's continuous blessing with the Faith Power and high-level blessing.

And Princess Chen Xi had not been blessed by any Gods.

Not only that, but she also bore the curse of the Dark God.

Being able to bear the curse of the Dark God, yet possessing such a terrifying magic talent, Princess Chen Xi was actually quite a terrifying genius.

Therefore, it was not easy for her to make this decision.

But when she was about to speak, the flame before her eyes extinguished completely in an instant, and then before her eyes disappeared!

Well, the reason why she felt that it had disappeared was that Lin Yan's Flames had turned into an Abyssal Demon Fire, a Black Fire.

And when Lin Yan burned, the entire underground space was shining like daylight due to the flames!

Now when the fire suddenly disappeared, even if it was a Sixth-Rank powerhouse, after this kind of extreme brightness, if it was suddenly extremely dark, and it was not so easy to adjust visually!

Therefore, Princess Chen Xi did not see the process of Lin Yan's outer flames turning black.

"What!"

Princess Chen Xi couldn't help showing an annoyed look.

She couldn't help but blame herself a little! She shouldn't hesitate!

"Princess, are you going to believe in this God?" Qing Luan asked.

Princess Chen Xi nodded and said, "Yes, Qing Luan, I am still going to be the Holy Maiden of this God!"

"What!"

This time it was Qing Luan's turn to be surprised: "Princess, although the Lord of the Abyss is powerful, you have a high chance to kill the Lord of the Abyss with the Silver Moon Bow. As long as you obtain its blood, you should be able to dispel the God of Darkness' curse!"

Princess Chen Xi shook her head and said: "Qing Luan, we have been cursed by the Dark God, and we have lost the favor of the Moon God. This mighty God might not be willing to take care of us. Also, have you ever thought about it? Why can the blood of the Lord of the Abyss solve the curse of a God?" Qing Luan was asked.

"Princess, is this rumor false?" Qing Luan asked.

Princess Chen Xi said: "I don't know. I only found out after I tried it. Unfortunately, I just missed such a good opportunity, Qing Luan, sometimes I feel very accurate. That God gives me the feeling

that it is very powerful and special. It's okay to be its Holy Maiden. After all, I have to ask others for help. It's impossible not to give anything, right?"

Qing Luan thought for a while, and said, "Princess, you didn't plan to marry anyone right.

If you become a Holy Maiden, it would be equivalent to gaining eternal life. Then I can live with you in the temple, but now that God withdrew its power, the chance of encountering it in the future may be gone!"

There was a trace of loss on Princess Chen Xi's face. She said: "Let's go to the Abyss first, and eat a Biyou fruit so that the Abyss will no longer suppress us as much."

"Ok!"

Chapter 112. Into the Abyss! The Flame starts a wildfire!

After Lin Yan disappeared, the surrounding underground life breathed a sigh of relief.

Because if Lin Yan kept blocking the entrance of the Demon Abyss, these Underground Beings would not be able to enter the Abyss at all.

Some underground beings have set off.

The wall of the black hole where the Demon Abyss is located seemed to be vertical, but in fact many paths have already been opened up above it.

Princess Chen Xi and Qing Luan walked down a path.

"It's so cold, princess, I knew I should bring more clothes!" Qing Luan trembled, said.

Princess Chen Xi shook her head and said, "Qing Luan, it's useless, no clothes can stop the breath of the abyss."

This kind of cold was not purely cold at the physical level.

Both the body and soul would feel cold.

It was as if you had entered an ice cave.

Even if someone dressed as a big rice dumpling, they would still feel cold.

However, although it was cold, and it was below zero, there was no ice on the cliffs surrounding the Demon Abyss.

Under the aura of the Abyss, even if the temperature was below zero, it was not qualified to freeze the air!

Princess Chen Xi took out a special jade pendant from her arms and handed it to Qing Luan, saying: "Qing Luan, wear it, you will feel better!"

"Well, thank you, princess!" Qing Luan was grateful and faithful.

The two of them continued to walk towards the bottom of the Demon Abyss.

From the top of the Demon Abyss, the underground creatures also entered one after another.

In the underground, because the light was very scarce, the eyesight of these underground beings was generally not very good, but they were very sensitive to the changes in the surroundings.

Especially for the great changes.

It was like some animals could predict danger in advance.

They have a stronger prediction of danger than some animals.

Although Princess Chen Xi covered her face and did not reveal her aura, according to the instincts of these underground creatures, she was an extremely dangerous being!

Therefore, even though their party only consisted of two people, the underground creature remained far away from them, and they didn't dare to come close at all.

Princess Chen Xi also ignored these underground beings.

She and Qing Luan were not slow, but the Demon Abyss was deep, and they couldn't fly!

About three hours later, they finally reached the bottom of the Demon Abyss.

They were almost the fastest group.

Princess Chen Xi used a small illuminating magic in her hand to illuminate the surrounding area about ten meters around them.

The two women walked along the middle of the Demon Abyss.

At this moment, in the middle of the Demon Abyss, where the Demon Flame of the Abyss had slipped out, a big crack had already been opened!

Some of the creatures that had come sooner were flung directly into the seams without saying a word.

But Princess Chen Xi stood there, feeling.

The breath coming from this gap was sometimes cold, sometimes hot, and sometimes chaotic...

This represented an Abyss at different levels.

The location of this crack had been jumping in different layers of the Abyss.

If you were to jump into this crack at a different time than someone else, you would enter a different abyss.

"Where are we going, princess~?" Qing Luan asked.

Princess Chen Xi said: "The Moon God in the Bow of Silver Moon doesn't have much energy. It's a bit difficult to deal with the lord of the Lava Abyss. We can't choose the location by ourselves. Except for all the Lava Abyss, any is fine. It's just that this doesn't feel very safe, Qing Luan, hold onto my hand!"

After that, Princess Chen Xi took Qing Luan and jumped in!

The sky was glowing with a faint red light. It was as if countless matches were burning at the same time.

It looked lively.

But there was very little light projected!

And below, the ground was full of sores!

The Abyss was not stable.

An entire Abyss collapsed and destruction was possible.

Here, the law of Chaos was pursued!

“Boom!”

Suddenly, a high mountain crashed down.

“Wow!”

A black insect, like a praying mantis, jumped out of it.

The insect had just escaped, however, a ball of flames was heading right towards it.

Before he could escape, he was hit by the flame and burned violently.

“Why are there so many bugs here!”

Lin Yan whispered after the amazing jumping insect burned into ashes.

“It’s probably an abyss of demon insects, or it’s just a fire. With such a large area, I don’t know if they could all be burned into ashes within half a month!” Lin Yan was not going to waste time.

From the time he came into the abyss, this was what he did!

Don’t hesitate to seize the opportunity to do a big job. I’m sorry for not dismissing this opportunity!

Lin Yan drove the flames.

“Boom!”

The flames suddenly expanded, burning the surrounding abyssal creatures and plants!

Immediately afterward, the flames began to spread!

Lin Yan was going to adopt a way to save Energy Points.

Just like a wildfire starting a prairie fire, after igniting it, it does not stay still and directly conquer the next target.

Because the flame will continue to burn by itself.

Of course, the burning Energy Points AND Evolution Points belonged to Lin Yan.

In this way, it could also expand the burning area. This time he was about to burn for half a month.

The larger the burning area was, the greater the increase in the temperature of the Demon Worm Abyss. It will be easier for Lin Yan to burn as time passes!

In this way, even after Lin Yan left, the Devil Worm Abyss might still burn for a long time, and Lin Yan could continue to receive Energy Points even if he leaves.

Although the Misty Mountains were burned at the beginning, it was not completely burnt up after a month of burning.

But it was not the same now.

Lin Yan was still at a lower level.

With only a few hundred thousand energy points, he didn't dare to spread the flames over a few kilometers around him instantly like he was now!

And at that time Lin Yan just got Heavenly Flames, even if he spent hundreds of thousands of energy points, he couldn't do as he does now!

In the Demon Worm Abyss, the Flame started a forest fire!

Compared with the original Wildfire Li Yan, the current Imperishable Heaven Fire Li Yan was just a horror!

All the Abyss monsters in it have directed into it in the end!

When Lin Yan launched the Heavenly Fire to start a wildfire, Princess Chen Xi and Qing Luan were still looking for the Lord of the Abyss.

“Be careful!”

Princess Chen Xi grabbed Qing Luan and hid behind a black plant.

This time, her goal was only the Lord of the Abyss. In the Abyss, her power could not be replenished, and she was unwilling to waste too much power to fight.

So as long as she encountered a slightly stronger Abyssal creature, she would generally choose to avoid them.

This was also the way all Human Beings entering the Abyss, and the creatures created by the other Deities of the Continent of the Gods acted.

It was unknown how many Abyssal creatures there were. Killing a few insignificant ones and wasting their power was the stupidest thing to do.

Generally, the guys who do that don't live long.

Chapter 113. They seem to be afraid!

The insects in the *Demon Insect abyss* ushered toward their end!

The flame spread faster, and the monsters that escaped slightly were chased by the flame and were buried in the sea of flames!

“It's so refreshing!”

In the raging flames, Lin Yan felt extremely refreshed.

The last time he burned so unscrupulously was in the misty mountains!

But even in the misty mountains, Lin Yan didn't spread a fire as wantonly as this time!

This time, he could finally spend his energy points without careful planning!

It's going to be a rage directly~ Burning is!

Although Lin Yan's fire was strong, the temperature was controlled by him, and it was not very high.

The ground in the abyss contained some special substances, which were not so easy to melt.

Lin Yan would not waste energy to melt the ground.

Lin Yan drove the flame, and it burned for a full five days.

In the past five days, nobody knew how many Abyssal Demon Insects died under the flames of Lin Yan.

However, Lin Yan even burned a sixth-order abyss lord to death!

This sixth-order abyss lord was also a big black praying mantis, Demon Lord Mantis.

"These guys escaped fast!"

Lin Yan said to himself.

Although his flame spread fast, for this kind of large-scale spread. As long as the sixth-order abyss lord found it in advance, if he wanted to escape, he would naturally be able to escape.

This layer of Demon Insect Abyss didn't feel very strong to Lin Yan, but there should be more than one Tier 6 Abyss Lord here, right?

Although no more Abyss Lords were burned, Lin Yan was not very worried.

He could use quantity in exchange for quality.

There were too many abyssal insects.

The quality of these abyssal insects was much higher than that of crypt spiders.

Among the crypt spiders, only one of the more than one hundred crypt spiders could contribute only 1 evolution point to Lin Yan.

But among these Abyssal Demon Insects, one out of every twenty insects could contribute 1 evolution point to Lin Yan.

The number of evolution points was also quite terrifying if you accumulated less and more.

"I can already be upgraded to the tenth level of the unquenchable/eternal sky fire!"

Lin Yan said while burning, looking at the evolution points.

Two days ago, Lin Yan had enough evolution points to reach Level 9 Immortal Skyfire!

And now, after only three days, the evolution points for rising to the tenth level of the unquenchable sky fire were finally enough!

Then, Lin Yan directly consumed the evolution points and rose to the tenth level of immortal sky fire.

Up to now, the number of evolution points required for each level was increasing.

In just five days, Lin Yan had risen by two levels. If it weren't for such wanton burning in the Demon Insect Abyss, it would be impossible to achieve such a feat!

However, from the tenth level of the immortal sky fire to the next stage, more evolution points were needed.

After another three days of burning like this, Lin Yan suddenly discovered that this Demon Insect Abyss was about to be completely burned by him!

“Why is this abyss so small?”

Lin Yan said lightly.

The area of this Demon Insect Abyss was really small.

According to Lin Yan's rough estimation, the length of this Demon Insect Abyss was only five to six hundred kilometers, and the width was only three to four hundred kilometers, which was roughly an irregular rectangle.

It was smaller than the orcish kingdom, east of the misty mountains.

In this area, Lin Yan spent eight days, and he had almost burned two-thirds of the area!

“This should be the upper abyss.”

He didn't know how big the abyss was. This referred to all the abysses, not a specific abyss.

In fact, there was also an abyss with a radius of only a dozen kilometers.

There was even an abyss the size of a volcano.

“There are still seven days to burn this abyss, and then I'll see if I can find other abyss entrances!”

Thinking of this, Lin Yan drove the flame and started burning the remaining area.

At this moment, a group of people came to the edge of the Demon Insect Abyss where Lin Yan was.

This group of people was surprisingly a group of human beings walking together.

This group of human beings all wore the same kind of clothing, and they looked like students from an academy on the continent of the gods.

“Wow, this is the abyss, it's so dark! There is no danger, right?”

A student was worried about being in danger.

“This is the upper-level Demon Insect Abyss. The abyss creatures here are not very strong. The strongest is just the abyss lord of the little lord level. As long as that abyss lord does not come, if the other abyss beings come, pray that the senior can kill one. Here are two, I pray that the senior can kill one pair!”

Another student said.

In front of this group of students, an older man raised his head slightly, a gesture of faint pride.

“Keep the teleportation spell in mind, and follow me closely. A senior in our academy discovered this not-so-strong abyss of monsters, which can just give you some insights and fighting experience. You are all the pride of the academy. It would be a pity to be accidentally killed by the Lord of the Abyss.”

At this time, a middle-aged woman who looked like a teacher said.

“Teacher, don’t worry, there are only so many Lords of the Abyss.”

Said the student who had just flattered “His senior”.

The student opened his eyes and saw that in front of him, many huge monsters rushed over.

Each of these monsters was five or six meters tall, and the fact that one insect could grow to such a large size. Just by thinking about it, one would know how strong they would be!

“So many Abyss Lords!”

Seeing this scene, the teacher’s eyes narrowed.

“Quickly recite the teleportation spell, these are all Abyss Lords, I’ll help you stop them!”

Her words caused a commotion among the students.

“Oh my god, why are there so many abyss lords!”

“It’s over, I forgot a word.”

“I forgot too!”

The group of students was terrified by the scene in front of them. It’s strange that so many Abyss Lords rushed towards them.

In shock, all of them forgot to recite spells.

They could only helplessly watch those abyss lords rush over.

The middle-aged teacher was ready to fight.

With her strength there was no problem in fighting with a little lord, but there were so many abyss lords here!

“Why are you still not leaving!”

She was also anxious.

“Teacher, I forgot a key word.”

A little girl was about to cry.

When the middle-aged teacher was about to rush over, he suddenly realized that the target of these abyss lords was not them at all!

These abyss lords came to them one by one. However, they were not looking at them at all. Instead, they were staring in the direction they just ran from.

Although this place was on the edge of the abyss, it was surrounded by gray things, and it was impossible to break through here.

The group of students stood next to the Abyss Lord here, scared out of their souls.

But they soon discovered that these abyss lords completely ignored them!

Even some of the abyss lords were still shaking!

They seemed to be afraid!

But here was the abyss. There were so many abyss lords. A seventh or even eighth ranked magician, after being suppressed by the laws of the abyss, would not make them fearful. Instead, he would be regarded as prey by them.

What were they afraid of?

Chapter 114: Burning through the Abyss! Magma Falling from the Sky!

“Look!”

At this time, a student pointed to the horizon.

When other students heard the words, they all looked in the direction from which the Abyss Lords had fled. The red light rushed to the sky, and then a rapidly spreading line of fire appeared in their vision.

The fire was so big that it could even burn through the sky

And in front of this flame, a large number of abyssal insects were escaping for their lives!

But the flame spread faster and faster, and wherever it went, whether it was the abyssal plants or the abyssal monsters that were escaping, they were swallowed one after another.

Even so far away, the heat emitted by the flame had already struck over!

The originally cold and dark aura around was completely dispelled!

Here, it became even hotter than the lava abyss!

“Quickly, use the teleportation spell!”

The face of the middle-aged female teacher changed drastically.

She finally knew why these abyss lords were so scared.

This overwhelming flame was so scary!

At the sixth level, the threat of ordinary flames was actually not great.

But this flame could make these sixth-order abyss lords collectively escape for their lives, as if they were facing a mortal enemy. If this flame was said to be an ordinary flame, she would not believe it!

Even she was like this, the situation of those students could be imagined.

With the care of this middle-aged teacher and the teleportation spell, originally this trip to the abyss was supposed to be a good opportunity to open up the eyes of these students.

Although the abyss was dangerous, not all abysses were dangerous.

But who knew, they saw such a terrifying scene as soon as they reached the abyss!

The flame seemed to fill the entire world, completely burning the Demon Insect Abyss!

This scene could be regarded as a scene of destroying the heavens and destroying the earth.

Some students could not stop shaking.

Some students stared at this scene blankly, completely forgetting to be afraid.

“Don’t be in a daze! Go! Do you want to be burned to death?”

The middle-aged female teacher divided the teleportation spell into several parts and repeated it again.

Some boys rushed to recite the magic. They chanted the complex teleportation spell and escaped. The remaining little girls had poor psychological quality, and when they were nervous, they always chanted the spell wrong.

At this time, the flames had already struck.

Those lords of the abyss might know that they couldn’t escape, and they took the initiative to pounce on the flames!

They wanted to pass through the flames and reach the extinguished areas behind the sea of ??fire.

However, after they rushed into the flames, they suddenly realized that there was no extinguished place in this sea of ??flames!

Around the more than dozen abyss lords, fierce mad flames surged.

Then these more than a dozen powerful abyss lords were completely burnt to ashes in less than a second!

This scene caused those little girls and middle-aged female teachers who had not been teleported to open their mouths in shock.

This terrifying flame had become an existence they would not forget, even after many years!

The middle-aged female teacher guarded the frail bodies of several girls and said: “I will give you five more seconds. If you can’t remember the spell anymore, I won’t care about you anymore!”

Just when she thought the flame would continue to burn, the flame stopped there.

Looking around, the entire Demon Insect Abyss was covered by the raging fire, but it left a small area here.

As far as Lin Yan was concerned, someone was not guilty of being burned to death if they did not provoke him.

He was not bloodthirsty!

After completely burning the entire Demon Insect Abyss, Lin Yan let the flames continue to burn. The plants in the abyss were more resistant, and the fire would not be extinguished for a certain period of time.

Yes, Lin Yan was going to the next abyss.

As for what happened to these humans, Lin Yan didn't care.

Qing Luan and Princess Chen Xi were walking through a simple stone fort.

The expressions of both of them were very cautious.

"Tsk tsk tsk. Two night elves actually ran into the abyss. What a delicious body. I haven't eaten such fresh and attractive meat for 20 years. After eating, I can still sacrifice your souls. It's so wonderful to sacrifice to the great Demon God in exchange for power! Don't struggle, you two can't escape!"

In the stone fort, a little girl's shrill voice sounded.

The voice of this little girl was a kind of conspiratory voice. The voice was full of insidiousness, cunning, and even carried a hint of madness and hysteria!

Listening to it with your ears would make people feel extraordinarily weird!

Qing Luan was holding a scimitar, the most common type of weapon in the Elven empire.

This kind of scimitar was exquisitely crafted. Although the blade was manufactured in batches, the handle had its own decoration, which looked like a work of art!

She kept cutting away the spider silk with the knife in her hand.

That's right, the one who lived in this stone fort was surprisingly a spider monster!

It's still a sixth-order existence among the monsters, the Spider Lord!

The two of them spent a few days in the abyss, and they found such an abyss lord about whom they felt confident in being able to deal with it!

"Princess, have you found its place?"

Qing Luan asked in the elven language.

She was also a powerful elf warrior.

When she walked, there was no sound at all.

"Hehe, I found you!"

That shrill voice sounded again!

Then, a black spider with eight eyes on its head appeared on the stone wall in front of them.

If you just listened to the voice of this spider. You would think it was a little girl who spoke in a weird tone!

But in fact, she was a powerful Spider Lord!

“Princess, I will create opportunities for you!”

After Qing Luan finished speaking, she attacked it with her weapon.

“Hehe, the food is here!”

When the Spider Lord saw Qing Luan attacking, it opened its mouth and spat out a big net.

Qing Luan’s expression remained unchanged, and the elven scimitar in her hand flashed with a ray of light. She slashed it down and cut the spider net in half!

Although she had not reached the sixth level, she was not weak, and she was a fifth-level night elf!

The Spider Lord spat out another net, but it was immediately cut off by Qing Luan again.

However, as soon as Qing Luan cut off this web, she suddenly saw that the Spider Lord had arrived ten meters in front of her!

Its eight black eyes were fixed on Qing Luan.

Inside, there seemed to be a whirlpool.

Qing Luan froze in an instant, unable to move.

“Hehe, you are mine,”

The Spider Lord was about to spin silk to completely subdue Qing Luan, when suddenly its eight eyes trembled at the same time.

A long arrow glowing with white light hit it and turned it over!

Although the Spider Lord was hit by this arrow, it won’t die in an instant!

However, when it was dying, it made a sharp sound...

This voice spread far away, causing a large number of fine noises to be heard throughout the stone fort.

The night elves had lost the favor of the Moon God, and the power in the Moon God Bow was still the power of Moon God who had descended a very long time ago.

Every time it was used, its number of uses decreased.

And every time princess Chen Xi used it, she would be hurt by the power inside!

Because that power was resisting her!

However, fortunately, the Spider Lord was killed.

“Qing Luan, Qing Luan, wake up. This spider demon has called for support. After taking its blood, let’s go!”

Chen Xi woke up Qing Luan.

Qing Luan woke up with a look of fear: “That spider monster’s mental attack is terrible!”

“Ok!”

Princess Chen Xi took out the knife, preparing to take blood from the heart of the spider monster.

At this time, a big net was suddenly spat at them.

“Princess, be careful!”

Qing Luan took out the knife and slashed at the big net with her sharp knife.

But this time, the big net was not cut.

The two of them were directly fixed on the stone pillar by the spider web, and they couldn't move.

From not so far away, a larger spider monster crawled out.

“You know that this is a magic weapon left by the gods. I just didn't pay attention and it actually let you kill my child. That's why I'll eat you and give birth to more children.”

The Spider Lord roared.

Qing Luan's expression changed: “Princess, I'm sorry, this is a seventh-order Spider Lord!”

The seventh-tier lord was already a high lord.

It was much stronger than the sixth-order lord.

Not to mention this was in the abyss.

The abyss suppressed the life of the gods' continent too much.

Without the Moon God Bow, it would be a question whether Princess Chen Xi could kill the sixth-order demon!

Princess Chen Xi's face also changed slightly.

Because this spider web contained special energy that could limit her strength.

And she couldn't cut the spider web with the knife in her hand.

This seventh-order Spider Lord was too strong.

Seeing that the seventh-order spider monster lord was getting closer and closer, Qing Luan's face turned pale: “Princess, when it eats me, I will give it a knife. You take the opportunity to escape! The abyss is terrible. I knew we should have tried asking the god who sent down the flames for help. If it is willing to send the flames over, this seventh-order spider Lord can't stop it at all!”

“Flame? This is the extreme cold abyss. Except for the magic flame in the abyss, no flame can burn here. Even your gods can't bring down the power to save you.”

The seventh-order Spider Lord slowly crawled over and said while crawling.

As soon as its voice fell, it seemed as if a hole was pierced in the sky.

A large pile of magma slammed down.

The speed of the magma was too fast, and the seventh-order Spider Lord had not reacted before being hit.

However, with the strength of this seventh-order spider monster lord, even if it was not a lava life, this magma should not be able to kill it.

But immediately,

The flame surrounded it.

Chapter 115: The fifth saint: the night elf princess!

“There is actually a seventh-order abyss lord here, haha!”

Lin Yan was happy.

His luck was very good. After burning through the Demon Insect Abyss, the next abyss was below.

This showed that the two abysses were connected together.

If they were not connected together, they could not be reached in this way. Some portals must be found to be able to enter the next abyss.

The entrance was very difficult to find.

Even the Lord of the Abyss might not be able to find it.

In short, if oneself was not strong, it was almost a luxury to converge from one abyss to another.

Lin Yan immediately drove the flames, setting the seventh-order Spider Lord ablaze.

As an abyssal creature, its body was terribly hard. But under Lin Yan’s violent burning, it still couldn’t stand it, and its body began to burn violently.

The limits of this abyss to the flames were actually great, and when Lin Yan burned, the consumption was not normal.

If it was an ordinary flame, whether it could be ignited was already a problem.

However, the burning of the seventh-order spider monster lord was also quite generous.

His income could already exceed his consumption.

This was enough.

Lin Yan’s trip was originally for energy points!

On the stone pillar, after the spider demon lord was lit by Lin Yan, Princess Chen Xi and Qing Luan found that the special energy on the spider web had disappeared.

Princess Chen Xi smoothly cut the cobweb with a sharp knife in her hand and also got Qing Luan out of the clump.

As soon as she got out, Qing Luan subconsciously felt that the flame was very familiar!

“Princess, it’s the flame from that god!”

Qing Luan looked at the flame that burned the seventh-order spider monster lord to the ground and said.

Princess Chen Xi nodded and looked at the flames still burning in the extremely cold abyss, the expression on her face gradually became firmer.

“Qing Luan, I have decided!”

Princess Chen Xi said.

Qing Luan understood what Princess Chen Xi meant.

She couldn't help being a little surprised.

Because now Princess Chen Xi had two choices.

They had already killed a Tier 6 Spider Lord, and by taking the blood of this Spider Lord, it was possible to lift the curse of the night elves!

Even if using the blood of the Spider Lord to solve the curse of the Dark God turned out to be a false rumor, who knew if it was true, you would know if you tried it!

Princess Chen Xi could actually try it first. If not, then she could ask the god in front of her for help.

But now, Princess Chen Xi didn't even try, and she decided to ask this god for help.

Gods would not help others for no reason.

Unless you were his most devout believer.

Therefore, Princess Chen Xi would have to dedicate her faith, body and mind, and become the saint of this powerful god forever!

Although Qing Luan was surprised, she didn't stop her.

These flames of the god were equivalent to saving their lives just now.

Even her heart was full of gratitude!

When Princess Chen Xi finished speaking, she took two steps forward. Then she lowered her head and bowed down with a pious expression on her face.

“Great God of Fire, thank you for your life-saving grace. Our race is cursed by the dark god, and will never be able to appear in the daytime, and no god is willing to take care of us. If you are willing to accept us, we would like to be your most loyal believers. Chen Xi is also willing to be your most pious saint, unswerving until death, forever!”

Princess Chen Xi said to the blazing flame.

After saying these words, her heart became nervous.

She didn't know whether this god was willing to accept them.

But she did not deceive the gods, and truthfully stated the curse of the god of darkness.

She told the truth about them losing the favor of the Moon God.

These could reflect her inner piety.

In fact, if she was not religious enough in her heart. She would not be able to successfully sign an agreement with the gods and become the saint of the gods!

In front of her, the flames were still burning violently.

Princess Chen Xi did not ask for a response.

Instead, she waited patiently, without the slightest impatience on her face.

For a long time, the seventh-order Spider Lord had been burned out.

But the flame did not weaken at all, it was still burning.

Behind Princess Chen Xi, Qing Luan also bowed to the ground.

She originally planned to follow Princess Chen Xi and become the maid of the temple!

Time seemed to stand still.

In the extremely cold abyss, a cold wind blew.

This was because the air in the extremely cold abyss contained a special ingredient similar to ice beads.

It was precisely because of this composition that it became extremely difficult for the flames to burn in the Arctic Abyss.

When Lin Yan burned, the consumption became extraordinarily large!

After five full minutes, Princess Chen Xi heard a loud voice.

“My name is *Lord of Flames!*”

Lord of Flames!

Princess Chen Xi was delighted when she heard these four words.

This god was willing to tell her his title, which showed that the god had initially recognized her.

Although there was no altar here. As a princess of the night elves' family, she had been to the elven empire to study for a long time and had a lot of knowledge.

She naturally knew the way to sign a contract with the gods.

She put her finger in her mouth and bit her finger gently with her teeth.

Princess Chen Xi was muttering words.

This was a special magic.

Then Princess Chen Xi handed her finger to the flame.

A drop of blood dripped, and it was passed onto the flame in an instant, and the flame swallowed it.

Immediately afterwards, Princess Chen Xi felt that she had some connection with the great Lord of Flames.

Over time, this connection would become deeper.

Even if she died, it couldn't be separated.

Of course, after becoming the saint of the god, her life span would become extraordinarily long.

Moreover, the lifespan of the elves itself was extremely long, and they were almost always youthful!

“Put your hand into the flame!”

Immediately, Princess Dawn received the revelation from the Lord of Flames.

This kind of revelation was not written, nor it was in the form of sound.

Instead, it came directly into her mind, letting her understand what the Lord of Flames meant.

It's like learning.

God's revelation allowed you to understand a certain kind of knowledge directly without having to learn it by yourself. And it was the kind of divine revelation that you had thoroughly mastered, that's it.

Otherwise, Princess Lotti of the cat tribe hadn't even taken a basic physics lesson. Why could she get a hand-operated generator so quickly?

Although the flame in front of her was enough to burn the seventh-order Spider Lord, Princess Chen Xi stretched her hand into the flame without hesitation.

Chapter 116: The past of the night elves!

After Princess Chen Xi stretched her arm into the flame, the flame covered her arm.

Then, the flame followed her arm and drowned her whole body!

This scene looked particularly amazing.

Her body was full of flames!

But the flame that could easily burn the seventh-order Spider Lord did not burn Princess Chen Xi.

Even her clothes were not burned!

This seemed to be a violation of the laws of physics, but it really happened!

This was the world of the gods, after all!

The law of the gods prevailed here!

The power of the gods could completely override the common laws of physics!

In the flames, Princess Chen Xi felt very strange.

Obviously there was a high temperature, but she couldn't feel it at all!

Then she felt that the flame penetrated her clothes and penetrated into her skin.

Princess Chen Xi's face became a little red.

Because these were the flames that the great flame lord had dropped. The flames were in such intimate contact with her that she would have no secret at all from the inside to the outside with the flame lord.

She was so pitiful. The night elves were all female. There were no male elves at all, and she had never even been within ten meters of a male!

However, after blushing slightly, Princess Chen Xi calmed down.

She was already the saint of the great flame lord.

Both body and mind belonged to the Lord of Flames.

Even if she entered the kingdom of god in the future and the Lord of Flame needed her to serve him, she won't have any hesitation!

“The curse of the dark god?”

Lin Yan looked at the virtual godhead.

The virtual god became equivalent to a supercomputer, scanning the state of Princess Chen Xi's body.

The reason why Lin Yan wanted to cover her whole body with the flames was still to help her lift the curse of the God of Darkness.

Now that Princess Chen Xi had been accepted, Lin Yan would naturally help her family solve the problem.

As long as the problem of Princess Chen Xi was solved.

After Princess Chen Xi returned to the night elves, she only needed her people to pray piously to Lin Yan. And Lin Yan only needed to send the flames, which was enough to solve all the problems of the night elves.

Therefore, Lin Yan must first understand what was happening to Princess Chen Xi.

After a few minutes, Lin Yan already knew about the situation completely!

The curse of the Dark God was far worse than the night elves thought.

According to their previous situation, not to mention the sixth-order abyss lord.

Even the painstaking effort of getting the blood of the seventh or eighth-order abyss lord could not solve the curse of the dark god.

The curse of the dark god not only prevented the night elves from appearing in the daytime. So that they could only appear in the night, or the underground regardless of day and night.

This curse also blocked the night elves' road to godhood.

To put it simply, as long as Princess Chen Xi rose to two or three levels, she would be perceived by the God of Darkness. And then she would be killed inexplicably, and the God of Darkness would take her soul away!

“What did the night elves do to offend the dark god of darkness so badly!”

Lin Yan was a little surprised.

For Lin Yan, this curse was actually not difficult to untie.

Because of his flame, he would be able to restrain the curse of the dark god.

But it would take some time.

Because this curse was not only on the physical level but also on the soul level.

One must be very careful with the soul.

If he was dealing with the enemy, he didn't need to be so careful.

But Princess Chen Xi had now become his saint. Lin Yan naturally had to be careful.

Then, Lin Yan wanted to find a way to quickly release the curse on Princess Chen Xi.

Otherwise, the night elves would say tens of thousands of words. If Lin Yan wanted to solve all the night elves' curse. It would take several months.

Time went by little by little.

Under Lin Yan's questioning, Princess Chen Xi slowly explained how the night elves had offended the Dark God.

That was nearly twenty years ago.

It was the last time the abyss opened!

Of course, the night elves were called night elves, not because they could only appear at night.

But because they believed in the moon god.

During the day, they could naturally appear, but at night, they could get the most power.

To the north of the forest where they lived was the Rocky Forest known as the "Forest of Life".

And in the Rocky Forest, there was a powerful elven empire.

All the elves around wanted to enter the Rocky Forest.

But there were already many elves in the Rocky Forest, and the forest was almost saturated.

The elven empire did not seal the road to death, and was ready to give the opportunity to one of the most powerful elven tribes.

Night elves were not too powerful, and it was very difficult for them to become powerful in a short period of time.

The night elf queen didn't know what she thought. In order to enter the Rocky Forest, she turned to the God of Darkness for help.

The god of darkness gave the night elves great power.

Because the power of the Dark God was disguised, ordinary night elves thought that the Moon God bestowed this power!

The night elves successfully passed the test of the elven empire and were happy to move into the Rocky Forest.

Then the Moon God discovered their betrayal, and it was the Moon God's anger that awaited the night elves!

Then, it was the expulsion of the elven empire!

Ordinary night elves discovered that they had been deceived and demanded to be embraced by the Moon God again.

This naturally angered the God of Darkness.

So, the curse came!

And Moon God no longer responded to them!

The matter was simple, and the whole process did not go too far beyond Lin Yan's expectations.

Well, the night elf queen at that time was still Princess Chen Xi's "Mother".

Elves were all bred from the tree of life. There was no father, and the meaning of "mother" was very simple.

Princess Chen Xi was not born by the night elf queen.

But when the tree of life gave birth to Princess Chen Xi, the night elf queen injected some of her life energy into her body. So that after the birth of Princess Chen Xi, her magical talent would be higher. She would be more beautiful and more outstanding.

This was equivalent to providing Princess Chen Xi with a fairly high starting point!

Therefore, the night elf queen was also equivalent to the "mother" of Princess Chen Xi.

That's why she is called Princess Chen Xi!

"My mother didn't know what was wrong with her at the time. Why did she make such a choice? Maybe the God of Darkness has long been eyeing her."

Princess Chen Xi said with emotion.

Although the Lord of Flames basically did not respond to her complaints, she still had a strong desire to talk about the past.

And there was also the fact that usually she was mostly taciturn!

She had never been like this. To think she said so much to a person...oh no, a god!

The Lord of Flames made her feel very kind, and even if she even kept telling the Lord of Flames, she would not feel tired at all!

Chapter 117: A tremor from the depths of the soul!

Qing Luan was still bowing down on the ground.

She hadn't received God's revelation yet, so she, very consciously, didn't get up by herself.

Lin Yan actually didn't notice her at all.

His attention was focused on Princess Chen Xi.

The god of darkness was said to be a very, very evil god.

It was said that it was still a female god.

Well, the god of darkness was naturally the demon god who lived in the abyss!

The evil of the dark god could be seen from this curse.

This was a terrible curse meant to directly break all hopes of the night elves.

As long as night elves grew up, they would be cut like a wave of leeks by the god of darkness!

Of course, due to the barrier between the abyss and the continent of the gods, this kind of cutting of leeks was generally once every 20 years.

But the first twenty years had arrived, and not even one of the night elves had grown up. Hence, they had not been cut off yet!

To a God, decades, hundreds, or even thousands of years were nothing.

This curse of the Dark God was a long-term route!

Over the long years, she might even have forgotten about the little night elves.

Only when the night elves fulfil the conditions for triggering the curse would she feel it.

While Princess Chen Xi was speaking to Lin Yan. Lin Yan used the virtual godhead as the main computational power source and slowly checked Princess Chen Xi's body with his flames.

During this process, Princess Chen Xi's body trembled slightly.

Lin Yan was a flame, and this process, if viewed from a human perspective, was equivalent to Lin Yan stroking Princess Chen Xi's body.

Moreover, it was still inside and outside.

Of course, Lin Yan's purpose was only to get rid of the curse on her body.

Finally, more than ten minutes later, Lin Yan expelled all the curse power from Princess Chen Xi's body!

In this way, Princess Chen Xi could now appear in the daytime.

Now she was able to bask in the sun.

It's not like before, after being cursed. Once in the sun, she couldn't stand it.

Just like the vampire in Western legends before Lin Yan crossed!

If it weren't for trying to find a way to get around this curse, Lin Yan would naturally not take so long.

The curse on Princess Chen Xi's body would be expelled in at most a minute or two!

Princess Chen Xi also felt the changes in her body!

There was joy on her face!

Her choice was right!

But the flame on her body did not go out!

This showed that the power of the curse had not been completely driven away!

But Princess Chen Xi did not feel the power of the curse anymore.

At this time, Lin Yan began to expel the curse from her soul.

This was the most critical and deadly part.

The god of darkness could only cut their leeks, relying on the curse left in the depths of their souls.

The hidden depth of this curse was not as easy to perceive as the curse on the body.

The curse of the body would sting them as long as they were exposed to the sun.

And as for the curse of the soul. Only when they become stronger and the soul was about to be harvested by the dark god would they perceive it.

But it would be too late at that time.

They wouldn't even be able to notify their companions!

This was the evil of the God of Darkness!

Of course, this kind of curse could not be cast casually.

If the night elves did not violate the contract, the dark god would not be able to cast such a curse. If she (god of darkness) did, the cost would be hundreds of times greater.

She might not have done this if no one had violated the contract. Why did she want to curse them at such a huge price?

After the elves of the night elves tribe found that they were deceived by the night elves queen, they violated the contract. Then the dark god only needed to use the power of the contract and spend a small price to plunge the night elves into an endless abyss.

This was the anger of a god!

If it were not for the limitation of the abyss, the anger of an abyss demon god would be even more terrifying!

When Lin Yan began to drive away the curse from the soul for Princess Chen Xi, Princess Chen Xi felt the power of the curse deep in her soul.

At this moment, her face really changed.

She did not expect that in the depths of her soul, there would be such a terrible curse!

The power of such a curse, not to mention that it was the painstaking effort of the Abyss Lord.

It's just that the painstaking effort of the master of the abyss was not necessarily useful, right?

At this moment, Princess Chen Xi was full of gratitude to the great Lord of Flames.

She also had a deep understanding of the power of the Lord of Flames.

The God of Darkness was not a weak Demon God of the Abyss.

Some weak heavenly gods might be helpless in front of the curse of the dark god.

But the great Lord of Flames could get rid of the curse on her body so easily, and then he could get rid of the curse rooted in the depths of the soul!

The Lord of Flame was really a powerful god!

In a short period of time, Princess Chen Xi's devotion to the Lord of Flames had risen!

Lin Yan continued to carefully drive away the curse from her soul, using his flames.

He used the Abyss Demon Flame, and at the same time used some of the abilities of the newly acquired Black Flame.

This could make Lin Yan's efficiency faster.

In addition, Lin Yan also took advantage of the healing effect of White Flame and the protective effect of Cold Flame on mental power.

It could be said that Lin Yan combined several kinds of different flames.

During this process, Princess Chen Xi's body was trembling slightly.

In fact, it's not just the body that was shaking.

Even her soul was trembling slightly.

In fact, Lin Yan's soul also felt a little abnormal.

He had become a flame. Even if he surrounded Princess Chen Xi as before, and the flame penetrated her skin, Lin Yan wouldn't feel much.

He was a flame.

But now, in order for Lin Yan to help Princess Chen Xi to get rid of the curse on her soul, their souls had actually blended together.

So if you looked closely now, Princess Chen Xi's face was already dripping red.

.

Fortunately, under the cover of flames, it was not visible at all.

Lin Yan also concentrated his attention and continued to expel the curse from her soul.

Finally, only the curse at the core of her soul was left.

That was also the power of the curse deep in the soul.

After gaining experience, Lin Yan decided to remove the curse from there at once!

Thinking of this, Lin Yan's flames soared.

At the deepest level of the soul, the curse in the depths of Princess Chen Xi's soul was completely driven out!

“what!”

Princess Chen Xi let out a small exclamation, and then she quickly covered her mouth.

Her soul was already trembling completely.

Lin Yan's movements just now were equivalent to him being completely entangled with her soul.

The feeling that it brought...

It's so wonderful!

Princess Chen Xi wouldn't forget this for a long time.

Lin Yan's soul also trembled.

This feeling..

The matter was not completely over yet. Lin Yan suppressed his thoughts and used White Flame to repair some of the damage on the soul of Princess Chen Xi.

The curse lurked there for a long time, although it was expelled. In fact, it still had some influence.

These effects were actually not big.

But as Princess Chen Xi's strength became stronger. They would become a little annoying.

So Lin Yan wanted to repair them!

After a short while, her soul was completely repaired.

The curse of the Dark God was completely driven away.

Moreover, Lin Yan also found a quick way to get rid of it, without having to go through the same process as Princess Chen Xi.

Chapter 118: Seventh-order Chen Xi! School and basic education!

"I thank my god for his generosity!"

In the Arctic (extreme cold) abyss, Princess Chen Xi and Qing Luan stood there with deep gratitude on their faces.

Qing Luan's curse was also eliminated.

But the way to clear it was much simpler.

After Lin Yan studied the curse carefully with Princess Chen Xi, he then combined several special different fires to form a new flame.

As long as Qing Luan ate this flame, the curse on both the body and the soul would be burned out by this flame.

At the same time, the flame would automatically repair her soul

As soon as the words of Princess Chen Xi and Qing Luan fell, they felt a strong chill.

When they looked up, the flames from the Great Lord of Flames had disappeared, and they didn't know where it went.

However, Princess Chen Xi still felt a sacred breath in the place where the Lord of Flame had stayed!

She remembered the tremor in her soul again.

Originally, after becoming the saint of the Lord of Flames. She had dedicated her body and mind to the Lord of Flames, and she regarded herself as a servant of the Lord of Flames.

And now, she felt more than ever that she was a servant of the Lord of Flames!

And Princess Chen Xi had one of the biggest gains.

After the curse was lifted, the shackles on her body disappeared. Then Lin Yan gave her another blessing. After receiving his blessing, she was unexpectedly promoted to the seventh rank in one effort.

She was Lin Yan's first seventh-order saint!

She was even ahead of Meng Ying.

Of course, she was 'bigger' than Meng Ying!

Princess Chen Xi said to Qing Luan: "Qing Luan, let's go back. My god has found a way to quickly lift the curse of our race. After we bring this method back, we can move back to our original forest as soon as possible. Then we'll be able to build a temple for him!"

Qing Luan nodded and said, "Yeah!"

This time, this cute little elf felt that their harvest was too great!

The two women began to leave the abyss through some special methods.

Not long after, the two women appeared on the path of the Demon Abyss.

Outside the Demon Abyss, there were still underground lives entering the abyss.

Some abyssal creatures also took the opportunity to enter the continent of the gods.

Not long after the two women walked along the path of the Demon Abyss, they were attacked by some abyssal creatures that had entered the continent of the gods.

However, in front of the seventh-order Princess Chen Xi, these abyssal creatures were simply not enough to kill.

After Chen Xi and Qing Luan left the Demon Abyss, they marched towards the current residence of the night elves.

After being abandoned by the Moon God and cursed by the Dark God, the night elves had already left the forest where they originally lived and moved to live underground.

They had no choice. Even in the forest, it was impossible to stop the sunlight.

The God of Darkness also drove some dark beings from underground to attack them.

If they were still in the original forest, they would be even more miserable once these dark underground lives attacked them during the day.

The underground world where they lived in now was far away from the forest where they originally lived.

It was also at quite a distance from this Demon Abyss.

The two women began to move towards the night elves' living residence. Due to the complexity of the underground world, it would take them some time.

....

In the Extreme Cold abyss, Lin Yan did not choose the same strategy as the Demon Insect Abyss.

He could burn unscrupulously in the Demon Insect Abyss, but not in the Extreme Cold Abyss.

Because of the special substance in the air of the Arctic Abyss, the amount of energy needed for the combustion was greatly increased.

Burning ordinary plants and the like consumed way too many energy points, and the gain was not worth the loss.

Lin Yan still had seven more days!

In the Orcish kingdom east of the misty mountains, the great construction was still going on vigorously.

In the City of Miracles, a new school was almost complete!

Yes, there was a school in the City of Miracles!

Although this school was not high end.

What was taught there was not complicated or advanced knowledge.

It taught something about the nature of this world, as well as some basic common sense.

In short, it was basic education!

You shouldn't underestimate basic education. This was actually the key to the revitalization of a country.

You know, in this kingdom of orcs, a large number of orcs didn't even know a big letter.

The teaching materials used in this school were directly compiled by Lin Yan through the virtual Godhead.

Before the predecessor crossed, he was a young genius. Lin Yan is also a super schoolmaster.

He had a wealth of knowledge reserves.

Although it was said that in the Continent of the Gods, the laws of the gods prevailed, in many respects, the world was still roughly the same as before Lin Yan had crossed.

It's just with more magic and more gods!

Therefore, Lin Yan used the basic education knowledge he had learned at the beginning. He combined it with the actual situation of the Continent of the gods, made a lot of changes, and quickly compiled a set of teaching materials through the virtual godhead.

This set of textbooks could be said to be more powerful than the general textbooks of the human kingdom!

The human kingdoms on the continent of the gods did not pay special attention to basic education.

National literacy was even more of a joke.

In addition to the addition of magic and gods to these human kingdoms. In many respects, they were actually similar to those kingdoms in the Middle Ages before Lin Yan crossed the road.

The gap between the classes was quite large.

Of course, due to the existence of the gods and the church, the civilians here would not be too oppressed, and their lives were pretty good.

Because the gods needed the faith of these civilians.

For common people to change their fate, apart from working hard to become nobles, they could only become powerful magicians or knights.

A magic apprentice could have a good position.

Because of this, education in the human kingdom was at a high-end level.

Like, the most famous academies, which were basically the magic academies!

Without magic talent, it would be impossible to even enter these academies!

The City of Miracles actually had high-end education.

What was the training of those fox magicians? Wasn't it high-end education?

It's just that this was cultivated by the temple.

The fox girl Qing Ling would teach them when she was free.

When the girl Meng Ying was free, she would also guide them.

With the magical achievements of the girl Meng Ying, any pointer was enough for those magical apprentices to digest for a long time.

After the school was built, Fox Girl Qing Ling personally served as the first principal.

The students in the school were the children of the tribes who were attached to the city of miracles.

This school was big.

There were more than 10,000 students.

When giving lectures, there was no division into classes.

Yes, classes were held in the school's large square, directly with the magic of voice amplification!

The reason for not dividing classes was simple; there were not many classrooms, and there were not many teachers.

It's easy to make these orcs fight. Give them weapons, food, and water, and they could fight for many days.

But if you wanted to find a few qualified teachers from them...

They would avoid it!

"Saint, we can actually go to the human kingdom to recruit some teachers!"

The girl dreamed.

The fox girl Qing Ling asked, "Will they be willing to come over?"

The girl Meng Ying said: "Yes, saint, we need them to teach. No matter how complicated the taught knowledge is, give them enough gold coins and they will come"

The fox girl Qing Ling said: "But sister Meng Ying, we are short of gold coins."

What she said was the truth.

Among the different tribes of the orcish kingdom, how many were still in a state of bartering?

Gold?

Even the female fox, Qing Ling, had only seen it not long ago.

Of course, the main reason was that this orcish kingdom and the human kingdom were cut off by the misty mountains.

Obviously, it won't work without isolation.

Without isolation, the human kingdom might come over!

Many kings of the human kingdom had ambitions to expand their territory.

That way, they could live forever.

The second was to please the gods, gain more power, and a longer lifespan!

The girl Meng Ying said: "I have a lot of gold coins here. After our country is unified, my god will probably open the passage of the misty mountains for us. At that time, we can exchange some medicinal materials produced in the forest for more gold coins, yes. Now, saint, send someone to look around. In the forest, maybe there is a gold mine that has not been discovered!"

The fox girl Qing Ling nodded and said, "I will send a soldier to find it."

This matter was settled by them in this way.

However, before summoning the human teachers, the fox girl Qing Ling would come and visit the current school teacher from time to time.

The same went for Maiden Meng Ying.

And it was Holy Maiden Bai Ling, the centaur girl who spent the most time in school.

After Bai Ling received some enlightenment from the Lord of Flames, she was already an expert in basic knowledge.

Therefore, she could also be a qualified teacher!

Chapter 119: Gold Mine! The Birdman Tribe submits!

In the forest, a group of warriors from the City of Miracles walked together.

"Have you found any gold?"

A cat warrior asked curiously.

The deer warrior next to him shook his head: "I haven't seen any. According to the saint, as long as you can find the yellow, shiny things, you can take it home!"

"We have been searching for several days, but we still haven't found it."

A cat warrior was a little tired and disappointed.

"It is said that gold is valuable on the human's side, and you can buy everything with it."

Another cat warrior searched along the dirt road.

“Why can I buy everything with it? Is it because it tastes better than honey?”

Next to him, a bear tribe warrior asked curiously.

“I don’t know. I feel that if we pray to the great Lord of Flames, maybe we can get good luck and find gold smoothly.”

Another cat warrior said.

After speaking, it really began to pray.

After praying, it opened its eyes and was dazzled by a ray of light!

However, it did not look at the sun in the sky. Where did the light that dazzled its eyes come from?

The cat warrior blinked and saw that under the mountain wall not far away, there seemed to be a little gold in the middle of a stone.

It was the sunlight reflected by this golden thing that dazzled its eyes.

“The Lord of Flame really blessed me, isn’t that gold?”

This cat warrior was ecstatic and happy inside.

Then it rushed quickly and picked up the stone.

When they returned to the city of miracles, the golden thing in the stone was quickly determined.

That was indeed gold.

A large gold mine was discovered in the forest where the dwarves and centaurs originally lived.

This gold mine had considerable reserves and it was not difficult to mine.

The fox girl, Qing Ling, immediately sent someone to start mining.

In this orcish kingdom east of the misty mountains, the resources were really abundant.

No wonder even the dwarves came to live in this area.

After the gold was mined, a gold coin was designed by the girl Meng Ying.

This kind of gold coin was about the same size as the one-yuan coin before Lin Yan crossed.

The weight of gold coins was constant, and the weight of a gold coin was 10g.

A flame was printed on one side of the gold coin.

This represents the great Lord of Flames.

On the other side, there was a city printed on it, which represented the city of miracles.

As for the date when the gold coin was manufactured, there was no need to print it at all.

The casting process of gold coins was actually very complicated.

But there were dwarves living in the City of Miracles. For them, this was not a problem at all.

With gold coins, other matters were easy to handle.

In the city of miracles, gold coins began to be used as the currency.

Of course, there was basically no transaction volume in the city of miracles before, and everyone was eating a big pot of rice!

As the population increased, there would be a demand for transactions.

The fox girl, Qing Ling, followed the advice of the girl Meng Ying and made some changes to the way the city of miracles worked.

The ownership of all the land belonged to the Lord of Flames.

But as long as you remain pious to the Lord of Flames, you could get the right to use these lands for free.

In addition, a small amount of money needed to be paid when receiving the divine seed.

As the warriors of the god, you would receive some gold coins as a subsidy every month.

For a perfect society, it must be able to operate on its own.

It should have a complete economic system.

Not everything could be decided by the temple.

Of course, the temple still dominated and controlled everything.

The female fox, Qing Ling, was not yet prepared to implement the way of a human kingdom in the orcish kingdom. The way referred to the relative separation of politics and religion.

But she could absorb some of the advantages of the human kingdom.

In addition, the Lord of Flames also gave her some enlightenment.

In this way, the entire country could run on its own in an orderly manner!

It would run even better than the human kingdom!

Shortly after finding the gold mine, the Birdman Race finally made a decision.

This was due to the winged maiden, Mia.

Winged maiden Mia stayed in the city of miracles these days. During her stay, she saw more and more novel things.

This City of Miracles gave her a completely different feeling.

She felt that this city was even more magical than many cities in the human kingdom!

This kind of magic did not only refer to the construction of the entire city.

In the city of miracles, the mental outlook of everyone also made her see many different things.

Because the wing people were born to fly.

So the Misty Mountains were not a hindrance to Mia.

Mia had been to the human kingdom west of the Misty Mountains.

She even stayed in her grandfather's house for a while.

She had also been exposed to some books in the human kingdom.

Well, she actually traveled through several human kingdoms.

At that time, she felt that the cities of the human kingdoms were very beautiful, and the human concept was also very advanced, with a lot of knowledge that the orcs did not know.

But now, after seeing the City of Miracles, Mia found that those cities were far less beautiful than the City of Miracles.

The knowledge possessed by the saints of several temples in the city of miracles was also very novel, which many humans had never possessed.

More importantly, in the city of miracles, Mia felt a kind of “vigour”!

Vigor and vitality!

And unlike many cities in the human kingdoms, although there were many people living in it, and there was a lot of noise every day. But they always made people feel lifeless, like a late old man, unable to lift his spirit!

In addition, the power of the Lord of Flames also surprised Mia...

Although the revelations of the Lord of Flame had been decreasing recently, except for the saint of the Lord of Flames, ordinary believers could hardly communicate with the Lord of Flames.

But the feeling that the Lord of Flames gave to Mia was still different from other gods.

The Lord of Flames was not only powerful but also seemed to have far more knowledge and understanding of this world than the other gods.

This could be seen from the basic education in the City of Miracles.

It could also be seen from the acting styles of several saints of the Lord of Flames.

They were completely different from the saints of other gods.

The saint was the spokesperson of the gods, and the shadow of a god could often be found in the saints.

The saints of the Lord of Flames gave Mia a very special feeling.

They were not like the saints of other gods. Although they were pious, there was no vitality on their faces, like wooden puppets without souls.

This showed that they were true worshippers and loved the Lord of Flames from the bottom of their hearts. And they were willing to dedicate everything to the Lord of Flames!

Mia occasionally felt that the Lord of Flames must be a god with overwhelming power!

So after spending more than ten days in the City of Miracles, Mia returned to the Birdman clan.

Under her persuasion, her elderly father finally agreed to Mia’s request.

That was, the city where the Birdmen clan lived would be completely attached to the City of Miracle.

All Birdmen would believe in the Lord of Flames!

The Birdman Tribe had a small population.

There were only a few thousand people in the whole clan, which was just a little more than the bear clan.

However, the addition of them still made the fox girl, Qing Ling, happy.

Having warriors that were able to fly was a very big advantage!

Except for races that were born to fly.

If a human wanted to fly, he could only do so after becoming a seventh-order great magister.

Or it was possible to become a Tier 8 Sky rider!

But the Birdman race would be able to fly soon after they were born.

The Wings were originally used to living on cliffs.

Their living habits were like this.

However, near the cliff where they were originally located, there were actually very few resources.

This was also the main reason why their population could not multiply.

If they didn't even have enough to eat, why would they reproduce?

And to the south of the city of miracles, on the bank of the river, there happened to be a cliff.

The fox girl, Qing Ling, sent people to build a lot of houses there to house these birdmen.

The City of Miracles also received a thousand "air forces" of the Birdman's tribe and a new saint.

This new saint was the winged maiden, who volunteered to become the saint of the Lord of Flames, Mia!

Chapter 120: Immortal Fire! The role of the title!

The temple of the Birdmen clan was built on the bank of a river.

Below was the rushing river.

The river had been widened a lot.

This river flowed from the misty mountains and was the main source of water for irrigation of the miraculous wasteland.

Looking down from the temple of the Birdmen clan, you could see the city of miracles, and you could also see the lush green miraculous wasteland!

Because the climate in this area did not change much throughout the year, the growth of crops was also exceptionally rapid.

There were several main plants in the miraculous wasteland today.

The largest planting area was still occupied by potatoes.

Next was sweet potatoes.

Then there was corn.

These three crops had greatly enriched the food sources of the City of Miracles.

Looking down from the temple of the Birdmen Race, the land on the miraculous wasteland was very neat and tidy.

On the ground, you could see the working orcs from time to time.

There were also some magicians wearing long robes walking between the land, using their own magic to grow crops!

The growth of crops with the help of magical power would not have a negative effect. Before Lin Yan had crossed over, some people used hormones to promote the growth of the crops which had a negative effect on crops.

But there was no negative effect on crops if they were grown with magic.

Many magic apprentices would discover that in this process their magic power had actually achieved a breakthrough without knowing it.

Now there were more and more magicians in the fox clan.

There were already three magician groups belonging to the temple.

These three magician groups were made up of fox girls.

They were the best fox girls of the fox clan.

In the fox tribe and cat tribe, the status of females was far greater than that of males. In terms of mental power, female foxes also had a natural advantage.

The earliest magician group, with about 100 magicians, was basically composed of first-order magicians!

In the repeated battles, these magicians had made great progress!

The second magician group was composed of all magic apprentices above level 5!

The third magician group was newly formed. Although the magic apprentices in it were weaker, they were also making rapid progress.

In the miraculous wasteland, hundreds of magic apprentices used magic to grow crops every day.

In the lush green wasteland, a magician in a white robe walked. This scene looked harmonious and beautiful!

This was also the favorite scenery of Winged Maiden Mia!

She felt that her choice was not wrong!

She kind of liked this kind of life.

After the Birdmen tribe submitted, the number of saints that worshipped Lin Yan was six.

At this time, Lin Yan had left the extreme cold abyss and entered the next level of the abyss, a dark abyss with dim light.

The area of the extreme cold Abyss was not too big. The strongest in it was the seventh-order spider demon Lord.

And the next level of the Abyss, the Dark Abyss, had a much larger area.

Now that there was only a day left before the abyss crack closed, Lin Yan was also ready to return.

Every twenty years, as soon as the cracks in the abyss were closed, the abyss demon gods would scan the abyss levels one by one. It would not be fun to stay in the abyss at that time.

Lin Yan was not yet ready to fight in the abyss with the abyss demon gods!

In the dark abyss, after burning another seventh-order abyss lord to death, Lin Yan leveled up!

This time, Lin Yan spent hundreds of thousands of evolution points, and rose to the next stage of the Eternal Skyfire.

That was the immortal fire.

Immortal fire!

Lin Yan looked at his panel.

【Host: Lin Yan

Flame core level: Level 1 immortal fire

Flame layer number: thirty-two layers

Maximum temperature: 1.5W degrees

Evolution points: 586

Energy point: 1895KW

Current income: 0W points/second (floating)

Current consumption: 0W points/sec (floating)

Skills: Furiously burning, sound-detecting eyes, continuously burning, healing...

Different fire characteristics: lava fire, cold flame, white flame, burst flame, ice flame, bone cold flame, abyss magic flame, black flame

Resistance: water resistance 100%, ice resistance 69%, lightning resistance 65%

Title: The Fire of Civilization

Item: Virtual Godhead

Other: Nothing】

“Hey, the title is activated!”

Lin Yan found that his title of Civilization Fire had been activated.

[Title: Fire of Civilization lv1

Kingdom: 1

Reputation: 187W/187W_

Honor: 1285/1285]

Lin Yan clicked on the title. This time, Lin Yan learned the purpose of the title of Fire of Civilization.

After the title was activated, every time the country belonging to Lin Yan gained a certain civilization process, it would contribute a certain amount of honor to this title.

And after receiving the bonus of this title, Lin Yan's country would become more favorable, with fewer pests, faster crop growth, and so on.

However, this was not the main thing about it.

The most important thing was that after this title reached the highest level, Lin Yan could use this title to obtain a Law!

Lin Yan whispered.

Law, that was a very distant thing for him.

Even for many gods, it was a very distant word.

Because the law was something that only the main god could touch!

If a main god mastered the law, then he would become the Lord God.

The main gods had basically got rid of their dependence on the power of faith. Of course, the power of faith was still useful to them, but they would not be like many other gods. For whom without the power of faith, there was no way to supplement their power.

Lin Yan didn't expect that if this title of Fire of Civilization reached the highest level, there would still be such benefits.

This made Lin Yan pay more attention to the orcish kingdom that the Fox Girl, Qing Ling, was about to establish.

After thinking about it, Lin Yan gave the fox girl Qing Ling a revelation to complete the unification of the orcish kingdom as soon as possible.

In the orcish kingdom now, only the snake tribe and the wolf tribe were left who had not submitted.

These were two relatively powerful races.

The snake tribe was situated south of the orcish kingdom.

The wolf clan was on the prairie north of the orcish kingdom.

The population of these two tribes was quite large. The wolf tribe had more than 300,000 werewolves, and the snake tribe also had more than 300,000 snakemen.

Adding up these populations, the entire orcish kingdom's total population in such a vast area should be more than two million.

If it's the human kingdom, there would be tens of millions of people living in such a large area.

This was the difference that productivity brought!

"The immortal fire, how far is it from the realm of the gods?"

After giving the fox girl Qing Ling a revelation, Lin Yan began to think about this question again.

Lin Yan's current temperature had reached about 15,000 degrees.

This was his normal temperature!

This was already three times higher than the surface temperature of the sun!

This temperature was sufficient to melt most substances.

If Lin Yan burned violently, his temperature would be higher, and it would not be a problem to double it several times.

If Lin Yan used his divine power to initiate violent burning, his flame temperature could even double dozens of times!

With Lin Yan's full exertion, his temperature could reach hundreds of thousands of degrees.

However, Lin Yan's current flames were not purely lethal by temperature.

It was difficult for a flame with only pure temperature to burn supernatural power.

But Lin Yan could!

And Lin Yan's life form was also special.

Most attacks were ineffective against Lin Yan.

However, Lin Yan hadn't officially fought against the gods yet, and he didn't know what kind of methods the gods had.

The previous cutting of leeks was just burning the power transmitted by the Demon God of the Abyss, and it was not a fight at all.

Even the collision with the abyss demon god who carried 20 drops of divine power was not a fight.

Even if the 20 drops of divine power cooperated with the Abyss demon god, it was still far from the complete strength of the Abyss Demon God!

Since there was no reference, Lin Yan decided to put this matter aside.

He was not noticed now, which was just right!

After rising to the immortal fire, Lin Yan continued to move around in the dark abyss.

A few hours later, Lin Yan showed joy.

His luck was indeed good enough.

He found a new kind of abyss flame.

This abyss flame was still black.

When it burned, the effect was very special. While burning, it could turn the surroundings into darkness.

Simply put, when it burned, it could absorb light, just like a black hole.

Lin Yan unceremoniously swallowed it, and then transformed his twelfth layer of flame into the characteristic of this flame.

Lin Yan named this kind of flame the darkness flame!

Although this effect did not seem to be special, Lin Yan still had more than a dozen layers of useless flames, so he decided to transform it first.

In the unlikely event that Lin Yan collected dozens of special flames to fill up the empty flame layers other than the core, he could spend more evolution points to transform the useless layers back.
