Chapter 191: The Templars surrender! The jig is up!

“Lord Holy Spirit is dead!”

In the sky, the seven Holy Spirits were dead, those Temple Knights and Temple magistrates were dead. Their faces changed!

At the forefront of these Templars, an unusually tall Templar stared blankly at the sky, and at that moment, this Templar’s worldview was collapsing!

All the seven Holy Spirits from heaven were dead!

And until the death of all seven of the Holy Spirit, their God had not descended in power.

It seems that the message came through correctly.

Their God, who had already lost to the Lord of Flame in the Royal City, could no longer fight!

As the Church’s warriors, those Templars were feeling that the sky was falling at that time!

Although they were powerful, they had no God, no Holy Spirit, and even now they didn’t even have a great magister. How could they be enemies with a forbidden magister!

Even if the shields in their hands were specially made with the blessing of the Gods, when all the shields were raised at the same time, a team of 1000 people could even resist a forbidden spell attack.

But they could resist it once!

The Divine blessings contained in the shield were not endless.

A thousand people in one shield could block a forbidden spell. It was already a terrible thing!

After all, these 1000 people were only the fourth-ranked!

And the forbidden spell magistrate was eighth-ranked!

On the battlefield, if there were forbidden spell magistrates on both sides, it was good that the forbidden spell magister could spare his hand to sneak to these Temple Knights, at most!

So, blocking that time was enough!

But only if there were strong people of the same rank to clamp down!

And then, there was no strong person of the same rank there!

They could stop the first time, but they couldn’t stop the second time!

“If you drop your weapons and walk away in ten minutes, you can save your life. Demon Gods are not worth fighting for. Your God abandoned you first. As long as you believe in the great Lord of Flame, you could still fight for God. If you are not willing to fight for God, you can also go back to the field. Those who do not drop their weapons within ten minutes will be regarded as enemies and killed!”

The Eldest Princess’s cold voice rang out again.

These Templars were raised by the Church and were much stronger in their faith.

So, for the sake of a Knight, training was not easy. She gave it a chance.

But, there was only one chance!

The stubborn person no matter how strong he was, still believed in the words of another God in his heart and the faith that was contributed to the Lord of the Flame was not as good as a civilian and he had to resist stay, leaving endless consequences!.

Hearing the Eldest Princess's words, many Temple Knights and magistrates showed their tangles.

“The Eldest Princess is right, God has abandoned us, and there is no need to fight for God anymore”

The first to drop their weapons were several members of the Church's ordinary Knights and ordinary magisters.

After dropping their weapons, they came out of the line and went to the open space on the other side.

“Yes, God is defeated, and God has abandoned us, and several of the Holy Spirit hasn't fought for us, so there is no point in fighting any longer.”

Another person threw down his weapon, took off his armor, and walked to the other side.

With them taking the lead, people in the ordinary Knights and ordinary magistrates began to throw down their weapons and equipment and went to the other side.

In a short time, there was not a single one left in the original standing position of these 15,000 ordinary Knights and ordinary magistrates.

These ordinary Knights and ordinary magistrates had first-ranked strength.

It could be said that the Knights and magistrates here account for half of the more than 20 million people in the Xi Ling kingdom!

That was the reason why the seven Holy Spirits wanted to destroy them.

The quality of these 20,000 people was quite high. They could contribute more beliefs than millions of ordinary civilians in the Xi Ling kingdom!

“I don't fight anymore. If I fight again, I'll die. This time, I want to spread the glory of God. Who knows that God slipped away and stopped fighting?”

Immediately after the ordinary Knights and the ordinary magistrates had put down their weapons and equipment, among the three Templars expanded behind the Church, some people began to put down their weapons and walk to the other side.

Among the three Temple Knights, most of them were second-ranked Knights, which were only convened in the last month.

These people also surrendered rapidly.

Of course, the Eldest Princess did not use the word “surrender”, but asked them to lay down their weapons and go to the other side.

This was to avoid stimulating their desperate resistance. After all, these Knights had good strength. If they could be incorporated, they could not only contribute good faith but also good combat power.

Time passed little by little.

Three minutes before the time set by the Eldest Princess, all the three expanded Divine stock Knights and waste magistrates in the back of the Church surrendered.

Now there were only three Templars and two Templar magistrates left who hadn't surrendered.

Total 5,000 people.

It was also the heart of the core of the Church's army.

There were three Templars, one was dominated by third-ranked Knights and two were dominated by fourth-ranked Knights.

Two temple magister groups, one was dominated by second-ranked magistrates, and the other was almost half divided into three and four ranks, which was quite powerful.

Even Yan Nation didn't have such a strong lineup.

Of course, the equipment of the Yan Nation warriors could wipe out everything, the heavy shield of the bear warriors, the fourth-ranked magic simply couldn't hit, and even the fifth-ranked magic was not too good.

"Three minutes to go."

The Eldest Princess's cold voice sounded.

"Let us down our weapons. We surrender. God abandoned us. We don't have to fight for God!"

At this time, the tallest Templar at the front of the Templars sighed and said in a hoarse voice.

That Temple Knight was like the leader of all Temple Knights.

He took the lead in throwing down his weapon, untied his armor, and threw it to the ground.

The armor of the Temple Knights was quite heavy. If they were ordinary people, it was almost impossible to wear and take off their armor alone, but these Temple Knights were powerful and could naturally complete the action of wearing and taking off by themselves.

"A short giant?"

When the Eldest Princess saw Templar's face under his armor, she was stunned.

Because that Temple Knight was not from the Xi Ling Kingdom, but a dwarf giant more than three meters tall!

Short giants, unlike the giants who were more than ten meters tall. They were much shorter and had a particularly strong physique.

Moreover, the dwarf giant was still a woman. She was a female Knight. However, as a dwarf giant, she didn't look very good, and her body was stronger than others. She was like a tiger with a back and waist.

“Yes, Eldest Princess, when I was young, our tribe was wiped out by the enemy. A member of the Church picked me up and brought me back to the Church for training. Later, I became the strongest Knight in the Church. ”

The dwarf giant said.

The eldest Princess nodded and said, “You have chosen wisely.”

With that dwarf giant leading the way, the remaining Templars threw down their weapons and surrendered.

This was the surrender of all the core power of the Church.

The big picture had been decided!

Chapter 192: Horton Kingdom cavalry chasing? Blowing up a piece!

On the ground, a steady stream of warriors from the Xi Ling Kingdom still poured down from the southern heights.

Although the overall situation was decided, it was still necessary for these soldiers of the Xi Ling kingdom to throw down their weapons and equipment.

The situation on the battlefield was changing rapidly. To be safe, that was a necessary operation.

As for their weapons and equipment, someone behind them would naturally go to retrieve them.

Although it was a little troublesome, if they were afraid of trouble on the battlefield, it would cause more trouble!

“It’s over.”

In the sky, Meng Ying whispered.

As for the Divine energy groups of the seven Holy Spirit, naturally, they were put away by Lin Yan. Several other saints had already shared these Divine energy groups. Those belonging to Meng Ying and Luo Ying, Lin Yan kept them on their behalf and would be distributed to them after the war was over.

“Meng Ying, the troops from the Horton Kingdom are here!”

At this time, the Fox Lady Qing Ling flew over, sitting on a winged maiden, and pointed to the north.

The army of Horton Kingdom finally came!

The reason why the Horton Kingdom dragged the army of Xi Ling Kingdom to the southern heights was to wait for profit!

However, that battlefield was too large, the Horton Kingdom could not fully grasp the situation of that battlefield, their three Holy Spirit in order not to stimulate the seven Holy Spirit, also did not ascend, but was grasping the time to replenish the power.

At that time, the army of Horton Kingdom felt that the time was almost right, so they went out and killed the southern heights. They were ready to find a chance to cut into the battlefield and be a profitable fisherman!

And at this time, the three great Holy Spirit of Horton Kingdom finally flew into the sky.

“Hey, where are those seven Holy Spirits?”

These two great Holy Spirit did not see the seven great Holy Spirit of the Xi Ling Kingdom in the sky, but only saw Meng Ying in the sky, and one of them was a little surprised and uncertain.

“Did you feel the violent energy fluctuation just now?”

A Holy Spirit asked.

“Didn’t feel it, so the seven Holy Spirits fled back?”

The second Holy Spirit asked.

“It’s possible. I didn’t expect the seven Holy Spirits to be so counseling. What should we do? Shall we fight?”

The third Holy Spirit asked.

“You see, what is the situation on the battlefield?”

At this time, the first Holy Spirit pointed to the battlefield dozens of kilometers away.

.

As powerful Holy Spirits, they had seven or eight ranks of strength after their arrival. Naturally, they could see the situation dozens of kilometers away.

I saw that the soldiers who were originally in the southern heights were still pouring into the battle array of Yan Nation, passing through the center of the battle array and reaching the rear of the battle array.

There was no way. The number of 800,000 soldiers was terrible.

In a few hours, they didn’t want to go all the way.

“What’s going on here...?”

The second Holy Spirit was completely unreadable.

“These people are surrendering! I didn’t expect that the Xi Ling kingdom could have such a way of surrender. The commander of the Xi Ling kingdom was bold and careful. They came up with such an idea. They wanted to preserve their strength! Send cavalry and chase them up. Kill as many as they can!”

The third Holy Spirit world.

“My God has just delivered the oracle. The Lord of Flame is afraid to be a little strange. Let our soldiers chase after him. We don’t take the initiative and try our best

to guard against each other's forbidden spell magister and the Lord of Flame. My God's eyes have been cast down and the Holy light can come down."

At this time, the first Holy Spirit said.

"Meng Ying, their cavalry is coming!"

In the sky, Princess Luo Ying pointed to the stream of cavalry rushing down from the southern heights and said.

Those were the armored cavalry of the Horton Kingdom, more flexible than the heavy cavalry, but better defense than the light cavalry!

There were tens of thousands of these cavalries!

They turned into a torrent of steel and chased after the army of the Xi Ling Kingdom!

At least half of the Xi Ling Kingdom's troops were pouring down from the southern heights and were still between the heights and the Yan Nation's army!

"The armored cavalry of the Horton Kingdom is here!"

Seeing the armored cavalry coming after them, some of the warriors of the Xi Ling Kingdom's faces changed dramatically.

They all took off their armor, threw away their weapons, and had no resistance in the face of the armored cavalry.

Although those armored cavalries were still far apart and quite a distance away from them, this armored cavalry would catch them up before they could walk to the defense line of the Yan Nation's army!

The soldiers of the Xi Ling Kingdom regretted throwing their weapons too early.

But they just didn't throw their weapons, and there was no way to compete with the armored cavalry in that situation.

When they were facing the armored cavalry, they had no formation, not even a battle formation; there was no way to resist!

"Send them the order, all the men and soldiers attack. The werewolf rear army follows."

In the sky, Meng Ying gave the order.

As a winged man conveyed her order, the soldiers on the ground began to rush out of the square and ran quickly to the rear.

Behind the man and horse soldiers, there were 20,000 werewolf soldiers. This was the rear army of werewolves, which was equivalent to the reserve army. It was originally used to prevent all kinds of assault.

Twenty thousand horses and twenty thousand werewolves soon rushed to the rear of the fighters of the Xi Ling Kingdom.

The armored cavalry of the Horton Kingdom was still several kilometers away from them.

Twenty thousand men and horses began to line up. Ten thousand heavy armored men and horses were in front, ten thousand light armor men and horses were behind, and then there were twenty thousand werewolf soldiers.

When the line was neat, the head of the Centaur shouted, “attack!”

20,000 men and 20,000 werewolves rushed hugely towards the armored cavalry of the Horton Kingdom!

In the sky, whether it was the three Holy Spirit or Meng Ying, the Eldest Princess was looking down, both sides did not make a move.

And the Gods of the Horton Kingdom bet down their eyes through those three Holy Spirits.

On the ground, many soldiers of Xi Ling Kingdom who were running fast also stopped and looked back at the duel.

Those warriors of the Xi Ling Kingdom didn't have many fights with the Horton Kingdom in the past few days, and they were quite clear about the terror of the Horton Kingdom's armored cavalry.

They also suffered a lot at the hands of the Armored Cavalry.

So they all wanted to see the end of this showdown.

Were the orcs under the Lord of Flame powerful or the armored cavalry of the Horton Kingdom powerful?

“This terrain is not good for orc warriors.”

Some people said,

Yes, the cavalry of Horton Kingdom rushed down from the heights.

The Centaur and the werewolf warrior rushed from bottom to top.

The battlefield was extremely unfavorable to them.

At the bottom, as the duel took place on the half slope, as long as the millions of people in the Xi Ling Kingdom raised their heads, they could see the duel between the “cavalry”.

In the half slope of the heights, two black lines approached quickly.

The relative speed of the two sides had reached the extreme.

It was a few kilometers away. It was just a blink of an eye.

“Whoosh, whoosh, whoosh!”

Before approaching, a wave of arrow rain came.

Tens of thousands of arrows were shot in unison at the centaur warriors.

This was the powerful crossbow of the cavalry of the Horton Kingdom.

Such a powerful crossbow had a terrible range, even worse than a longbow, and its penetration was also terrible. Of course, its weakness was also very prominent, that was, the loading was too slow!

In a cavalry charge, you could only shoot one round!

But that was enough!

Because such a powerful crossbow could attack from 500 meters away and directly bring a round of huge casualties to the other party!

Even on their strong crossbows, there was a faint flicker of light, which meant that their strong crossbows had some enchantment effect!

But this time, they encountered heavily armored centaur warriors.

Seeing those powerful crossbows shoot, the shields on the hands of these men and horses soldiers had been put up.

The sound of “Ding Ding Dong” was heard. The crossbows and arrows were basically protected by the human and horse soldiers with shields. Even if they were not protected, they were shot on them, and their thickest front armor was not shot through!

“Their armor is so hard that they can’t shoot through a strong crossbow with a certain Holy light!”

In the sky, seeing this scene, a Holy Spirit frowned slightly.

On the ground, after firing a powerful crossbow, the Armored Cavalry of Horton Kingdom had raised their shield in one hand and their cavalry gun in the other, with the tip pointing directly at the men and horses!

Closer, closer!

In the blink of an eye, the distance between the two sides was only more than 100 meters.

The Armored Cavalry saw that the men and horses raised their spears on their right hands!

On that spear, for some reason, flames suddenly flared up.

Immediately afterward, 20,000 Centaur warriors threw their spears at the same time!

The spear with flames came at once.

The armored cavalry of the Horton Kingdom clutched their shields and lances and did not slow down.

They were experienced warriors and naturally knew what kind of action they should take at that time.

But right away, what they didn’t know came.

“Boom!”

The flames on those spears burst open, and many armored cavalymen were blown over before they understood what was going on!

Tens of thousands of Armored Cavalry in the Horton Kingdom suddenly turned a large area!

Chapter 193: Three Holy Spirit, not enough!

The power of that Exploding Spear was as amazing as always!

Especially after the strength of those Centaur warriors increased, the energy points in that bursting inflammation that came from the prayer increased from one hundred to two hundred.

That increase was necessary.

After all, the previous opponents of that Centaur warriors were orcs who lacked even iron armor.

Then, it had become a fully armored human!

And that human armor also had a good magic protection effect!

Two hundred points of energy were only twice as much as one hundred points of energy.

But the power increased by more than twice.

The simple truth was, 200 pounds of explosives were made into a bomb, the power was no more than 100 pounds of explosives made into a bomb twice as high!

Rather, it was several times higher!

Therefore, as soon as the burst spear was thrown, it directly blew up a large area of the armored cavalry of Horton Kingdom!

Then, the chain reaction came. The cavalry in front was blown up and turned upside down. The cavalry behind couldn't stop. It was another turn of turning upside down when it hit the cavalry there!

This Armored Cavalry with tens of thousands of people was in a mess in an instant!

The Centaur warriors did not make the second round of spear throwing, the distance was too close for it to be necessary.

They had drawn out their spears and rushed up at an unparalleled speed!

10,000 heavily armored centaur warriors, instantly knocked over the armored cavalry that turned into chaos!

In that charge, at least eight or nine thousand armored cavalymen were killed by spears in the hands of centaur warriors!

Under the impact of such speed, those spears, which were picked up from their horses by the spears of men and horses directly pierced even some armored cavalry armor-feeding soldiers had no time to resist with shields, and their armor couldn't resist the great power in the spear at all.

Even some armored cavalry were directly pierced by spears, which were picked up from their horses by the spears of men and horses!

After a round of rushing, 10,000 heavily armored centaur warriors followed without stopping and continued to charge forward.

Immediately after, 10,000 lightly armored centaur warriors came up in the rear, giving the confused armored cavalry and hammering once again!

After the two waves of horse soldiers, the tens of thousands of Armored Cavalry had no complete queue, and a large number of cavalry fell to the ground after being collided and were still trying to resist.

Their fighting quality was remarkable.

Those waiting for them were 20,000 wolf soldiers!

Centaurs break formation.

Werewolf harvest!

The Horton Kingdom's extremely powerful armored cavalry, with more than 50,000 warriors were combined with the werewolf warriors by a smaller number of men and horses, and they were all killed in less than ten minutes!

The powerful strength shown by the centaur warriors and werewolf warriors stunned a million troops of the Xi Ling Kingdom.

The soldiers of the Xi Ling Kingdom in the southern heights were shocked and happy.

The strength of the Yan Nations' army shocked them!

In their opinion, men and horses, and werewolves were far from the strongest combat power in the army of Yan Nation.

The bear man and the lion hadn't fought yet!

But then, the Centaurs and werewolves, who were not the strongest fighters, had wiped out 50,000 powerful armored cavalries!

They were wiped out in such a short time!

The most amazing thing was that there seems to be no fallen Centaur warrior or werewolf warrior on the battlefield!

The war damage ratio was 0 to 50000!

It seems that it was not generally amazing!

These warriors of Yan Nation realized that the strength of the orc warriors of the Lord of Flame would be terribly strong!

"I'm afraid only the Temple Knights can compete with them."

Some warriors couldn't help but think.

How many Templars were there!

But such a large army of the Yan Nation was 200,000.

Thinking of this, these Xi Ling Kingdom fighters couldn't help but rejoice. They were fortunate that they did not fight against such an army.

Otherwise, they would really be dead without knowing the reason for death!

And the strength of the Orc warriors also shocked the half-million army gathered by Princess Luo Ying!

In the first World War of the Royal City of the Xi Ling Kingdom, the orc soldiers did not fight. Only the bear soldiers showed their unparalleled strength.

Those people wanted to know how effective the orc warriors were.

Now, they finally knew.

This was not a force they could resist!

They were afraid that the Elite Troops of the Royal Family, with the cooperation of the Royal magistrates, couldn't beat them.

Only the Church's army could fight them.

The ordinary Knights of the Church and the ordinary magistrates were all for nothing against these orc warriors!

Only the Templars of the Church had the power to resist!

But the number was too small, and it also lets people die!

In the same sentence, no matter how Elite those troops were, as long as they were placed in the right position, they were Elite Troops!

"They are so strong!"

In the sky, seeing the Centaur and Tiger warriors displaying such strong strength, those three Holy Spirits couldn't help but be a little surprised.

It was only ten minutes before the battle, and 50,000 powerful Armored Cavalry of Horton kingdom were wiped out!

The strength of that Yan Nation was not simple.

And the Lord of Flame was strange!

At this time, these three Holy Spirit again saw that Meng Ying had flown over.

"Does she want to fight one against three?"

When these three Holy Spirit saw Meng Ying, they could not help but show their surprise.

Even if, according to the information they received, Meng Ying was a forbidden spell magister, there were three.

As for the Lord of Flame behind Meng Ying, naturally, there were their gods to deal with.

Their Gods were not like the original Gods of the Xi Ling kingdom. They were afraid of head and foot because of excessive consumption!

They had to have more means of God too!

As soon as Meng Ying arrived, he gently pointed with his hands, and the big fireball came down in the sky.

After becoming a forbidden spell Magister, that move of Meng Ying's Meteoric Heavenly Yan Nation was not known to be many times more powerful.

But Meng Ying was more than just this trick.

Then Meng Ying immediately cast another magic, fire dragon!

A huge fire dragon roared and rushed towards the three Holy Spirits.

Then, Meng Ying said something in her mouth, and a large-scale forbidden spell was directly cast by her.

In the sky, the red light flashed. That forbidden curse was equivalent to a meteor shower. Once it hits the ground, the Horton Kingdom's army would die in pieces!

"She's so strong! How dare she be able to instantly send a forbidden spell, could she not be a Saint's Domain!"

The successive magic of Meng Ying surprised the three holy spirits.

They knew Meng Ying's magic was not ordinary little magic.

It was all-powerful magic and even a forbidden spell.

However, this magic was directly sent out by Meng Ying, which was a little amazing!

The three Holy Spirits hurriedly shot each other, blocking Meng Ying's magic.

"Boom!"

Meng Ying's action was quick. When one of the Holy Spirit was trying to dissolve her forbidden spell, she directly hit it with magic, and the Holy Spirit screamed.

Only half of the forbidden spell was dissolved, and the rest of the fire and rain fell, bringing thousands of casualties to the army of Horton Kingdom!

"She's so strong, back off!"

That Holy Spirit who had been seriously injured by Meng Ying shouted.

"Retreat, my God passed down the oracle, the three of us together may not be able to beat her, the Lord of Flame's strength is also beyond expectations, we must find a way to descend a few more Holy Spirit, and then make plans!"

The First Holy Spirit also shouted out.

The three Holy Spirits retreated one after another.

And on the ground, the troops of the Horton Kingdom were scared and desperately retreating.

Meng Ying stood in the sky and did not order the pursuit, allowing the three Holy Spirits and the army of Horton Kingdom to retreat.

The Eldest Princess flew over and looked at Meng Ying with envy and shock. Meng Ying's instant magic and even forbidden spells were not envied even by the eldest Princess.

The Eldest Princess was even more amazed by the strength that Meng Ying had shown!

"Meng Ying saint, don't you chase?"

Asked the eldest Princess.

Meng Ying's face was a little pale. The attack just now seems sharp, but in fact, it was not so easy to defeat three with one.

Her mental strength was almost exhausted. She took out a “white flame” and ate it. Her mental strength was immediately supplemented. Then Meng Ying shook her head and said:

“The army of the Xi Ling Kingdom needs to be rectified and digested. In addition, the other party has only three holy spirits, which is not enough!”

Three Holy Spirits, not enough!

The Eldest Princess was stunned!

There were still a small number of enemies?

Soon, the eldest Princess thought of the energy left after the soul of the Holy Spirit was destroyed in the Dungeon, which made her reach the eighth rank.

She kind of understood what Meng Ying meant!

Chapter 194: Imperial ambitions! The Hierarchy of God!

As soon as the army of Horton Kingdom retreated, Xi Ling Kingdom began a great rectification!

The Xi Ling Kingdom had just eaten, and people were unstable, so Meng Ying did not advance rashly.

In addition, that was also the revelation given by Lin Yan.

The God of Horton Kingdom was much stronger than the God of Xi Ling Kingdom, and there would be more means. But the God of Horton Kingdom came down in Heaven, and Lin Yan might not be afraid of each other.

However, there was no need to rush forward for that time being, because Lin Yan was about to enter the Abyss.

Meng Ying’s strong performance just now was expected to startle the God of Horton kingdom. I believe that soon, Horton kingdom would try to lower some Holy Spirit.

These Holy Spirits were all great tonics for magistrates.

Several reasons added up, so Lin Yan let Meng Ying and the girls take it easy.

Then the people of the Xi Ling Kingdom began to clean the battlefield.

Princess Luo Ying sent several troops to the garrison on the southern heights of the Horton Kingdom, which now belonged to the Xi Ling Kingdom.

There were not many things produced at this height. Its military significance was greater than its economic significance.

The warriors conscripted from the nobles were disbanded one after another.

These fighters were not much of a fighting force, and keeping them inside was a huge burden.

And the Royal army remained, and they remained loyal to the King.

Then, the Church was completely cleansed of its power in the whole Xi Ling Kingdom.

Some devout archbishops were purged, and ordinary Church personnel was relegated to commoners, and their future treatment was determined by the degree of faith in the Lord of the Flame.

Then Princess Luo Ying announced that she would move to the city and choose a flat area where the eastern and central regions intersect to build a new Royal City.

This new Royal City would be built according to the concept of a Miracle City!

The whole Xi Ling Kingdom had completely changed after this war.

New temples were being built everywhere and new Churches were formed, but the new Churches were completely different from the previous ones.

It was not as bloated as the previous Church, and it does things many times more efficiently!

The army of the Yan Nation was still stationed in the realm of the Xi Ling Kingdom.

The threat of the Horton Kingdom had not been lifted.

The Xi Ling Kingdom also needed them to sit on now!

Meng Ying was also waiting for the right time to attack the Horton Kingdom.

Inside a new Shrine in the Xi Ling Kingdom, several of Lin Yan's Holy maidens sat together.

"The northern part of the Xi Ling Kingdom and part of the northwest territory is the Horton Kingdom."

Princess Luo Ying pointed to a map and spoke.

Meng Ying nodded slightly and looked at the map.

On that map, there was a picture of the situation around the Xi Ling Kingdom.

"The southern and southwestern part of the territory of the Kingdom of Xi Ling is the Principality of Muddy River."

Princess Luo Ying said again.

From the map, the Xi Ling Kingdom was surrounded by the Horton Kingdom, Muddy River, and Yan Nation in the East!

"What is further west?"

Fox Lady Qing Ling pointed to a large blank area further west.

"That's the Eternal Night Kingdom!"

At this time, the eldest Princess spoke.

"The Eternal Night Kingdom?"

Meng Ying repeated the name.

The Eldest Princess said, "Yes, Kingdom, Luo Ying, don't you think it's strange that the nobles of Xi Ling Kingdom were mainly earls, and there was only one marquis. Have you ever heard of the Duke?"

Luo Ying shook her head slightly.

The Eldest Princess said, "Because the king was the Duke! The Duke of the King was conferred by the Eternal Night Kingdom! There is also the place where I study, the Eternal Night college, the Supreme college with the existence of the holy land, and even one of the four magic colleges of the Gods! "

The Eldest Princess's words revealed a lot of information!

Eternal Night Kingdom, Eternal Night Academy, Sanctuary!

There was also the King of the Xi Ling Kingdom. The title was actually just the duke, and it was canonized by the Eternal Night Kingdom!

No one had ever told Princess Luo Ying before. This would be related to the fact that Princess Luo Ying was a Princess and was destined not to inherit the throne!

The Continent of the Gods was huge.

Regarding the form of the Continent of the Gods, even Meng Ying did not understand the Princess.

The Princess said: "A God's Kingdom, probably reflects the strength of this God, like the Hun River Principality, there are five Churches in the Kingdom, the five Churches in the God, was the lowest level of God, the strength of these five Gods cannot enjoy a Kingdom, so can only divide the Hun River Principality, the reason why the Hun River Principality for the Principality, the reason is exactly the same."

Besides, Meng Ying and Fox Lady Qing Ling didn't speak. They were listening to her carefully.

The Eldest Princess said, "Like the original God of the Xi Ling Kingdom, the only one Kingdom belongs to the second-ranked God. The God of Horton Kingdom is moving towards the third rank. It has defeated the original God of the Xi Ling Kingdom. As long as you eat the Xi Ling Kingdom, include Hunhe duchy, and integrate the three countries, you can build a smaller Kingdom.

When it sits on this small empire for some time, it would be able to become a third-ranked God by this! "

The rank of God!

Three ranks!

Meng Ying nodded in error and said:

"So, the God of the Eternal Night Empire is a third-ranked God?"

The Eldest Princess nodded and said, "Yes, and it is a more powerful one among the third-ranked Gods. There are a large number of countries, such as the Xi Ling Kingdom around the Eternal Night Kingdom. These countries are attached to the Eternal Night Kingdom."

Meng Ying asked again, "Then why doesn't the Eternal Night Kingdom annex these Kingdoms to make itself even bigger?"

The Eldest Princess shook her head slightly and said, "I'm not sure of the exact reason, perhaps in the eyes of the Eternal Night Kingdom, the kingdoms were just barbaric lands, the former Xi Ling

Kingdom could indeed be considered a barbaric land, but the appearance of the City of Miracles has shown me something different.”

At this time, the Fox Lady Qing Ling opened her mouth: “Eldest Princess, if we defeat the Horton Kingdom, include Hunhe duchy, combine the four cities into one Kingdom, can we make our God become the third rank, God?”

Fox Lady Qing Ling was like that. No matter when she always thought of Lin Yan and her God first.

Her words inspired the spirit of the saints present.

For the strength of the Great Lord of Flame, they did not know.

However, they all wanted their God to be stronger and bigger!

When the Eldest Princess heard the Fox Lady Qing Ling’s words, she nodded, smiled, and said, “Of course, Saint!”

At the time of the great rectification of the Xi Ling Kingdom, it was far away from the Xi Ling kingdom.

“The Rocky Mountains should be ahead?”

Chen Xi, the Night Elf Queen, said.

“Yes, Queen, the Rocky Mountains are ahead.”

A Night Elf said.

“We are almost there, I wonder what has become of our forest after all these years, I don’t suppose there will be other elves to occupy it?”

Queen Chen Xi said.

“Don’t worry, the Elves don’t like disputes. No one will occupy our forest.”

At this point, Lomina whispered.

“Queen, the road ahead is blocked!”

At this time, a Night Elf responsible for scouting came running back, said.

“The road is blocked? Go and have a look. ”

When Chen Xi and Lomina headed down the underground passage to the front, they saw that in front of them, the passage was blocked entirely by the rocks that span down.

Chapter 195: Abyss beetles! The elf empire!

“Look for it, is there any other way?”

Queen Chen Xi said.

A large number of Night Elves began to rush in all directions, looking for other passages.

It was close to the Rocky Mountains!

To the north of that Rocky Mountains was a large expanse of forest.

Those forests were not primeval forests full of miasma like the Misty Mountains.

There were many varieties of trees in those forests, and the trees grew big and straight, and inside it, all the beautiful Elves lived!

In the forests near the Rocky Mountains, there were scattered Elf tribes, such as the Night Elf tribe.

There were three or four such tribes.

And further north was the famous Rocky Forest.

There were millions of Elves living there!

There was the huge Elf Kingdom!

Yes, although the number of Elves in Rocky Forest was only one million, which couldn't even compare with the Orc Kingdom, there was the Elf Kingdom!

This was because the strength of Elves was generally high.

Like the Xi Ling Kingdom, there were only two thousand people in the Temple Knights with more than four ranks of strength!

The entire Xi Ling Kingdom above the fourth-ranked Warriors were not all in the Templar Order. The number was certainly more than two thousand, there might be several thousand!

Even if you count the fourth-ranked magister, there would be more than 10,000, and at most, more than 20,000 fourth-ranked magistrates exist!

The Xi Ling Kingdom had a population of more than 20 million!

But in the Kingdom of the Elves with a population of one million, the number of fourth-ranked elves exceeds 100,000!

The Elves of the whole Rocky Kingdom were third-ranked Elves.

Elves had a long life. Even if they didn't practice, their strength would increase with the increase of age.

What's more amazing was that no matter how their years grow, their faces would never grow old.

This characteristic of Elves also makes them less like boring cultivation of magic, but prefer to enjoy life freely in the forest.

Of course, their enjoyment of life was different from that of human beings.

There were no male Elves in the Rocky Forest.

Only on the edge of Rocky Forest, there was a small tribe of male Elves.

Elves didn't like to talk about love with male Elves. They didn't have much contact with that male Elf tribe.

Their reproduction was also done through the tree of life.

Their material desires were not high, but their lives were quite exquisite, and what they liked most was to walk in the forest and feel the forest.

The former forest of the Night Elves was located close to the Rocky Mountains!

Rocky Mountain was a mountain full of Warcraft. Although it blocks humans in the south, it couldn't stop the strong among humans. There would always be some strong human beings sneaking over and trying to catch some Elves back. After all, the beauty of elves was famous all over the continent.

Of course, those strong people didn't want to succeed most of the time. After all, the elves were not weak, and their combat effectiveness in the forest was also quite strong. The Elves were too familiar with the forest, but they could still escape. There were too many places to hide in the forest!

Because of this, the Elf Kingdom did not expand its territory near the Rocky Mountains but set it in the Rocky Forest further north.

The boundary between Rocky Forest and the ordinary forest was a large area of ancient trees. Those trees were not afraid of fire. Their branches had strong attack power. Once the human army enters, these trees could solve the human army!

That was the first line of defense of the Elf Kingdom!

The Elves were well aware of the sinister heart, so the defense against humans had not relaxed, even if the human army was blocked by the Rocky Mountains!

But now, seeing that the Night Elf gate was about to pass through the underground of the Rocky Mountains and return to its own forest, they didn't expect that the passage was blocked.

More than 50,000 Night Elves got up in an underground cave. A large number of powerful Night Elves went to guard everywhere!

"Queen, the passage on the right is blocked."

"Queen, the path up has also been blocked."

"The Queen..."

Intelligence was constantly reported by the Night Elves.

The passage to the front was blocked very much.

Next to Queen Chen Xi, Lomina said:

"Dawn, after the last defeat of the Dark God, I always think she won't give up, but she hasn't done anything in two months. Don't you think it's strange?"

Chen Xi said: "Mother, do you suspect that the blocked passage has something to do with the Dark God?"

Lomina nodded and said, "It's very possible, but the Abyss crack has been closed, and the Dark God can't transfer power. She may have some backhands on the Continent of the Gods, but these backhands are nothing more than a few strands of consciousness and a few drops of Divine energy. Under the care of the Lord of Flames, they don't pose a great threat to us. The Dark God is very good at intrigues. She must know these. So there must be something we don't know!"

Dawn said, "What does she have? We'll follow. Mother, are you approaching the ninth rank?"

Lomina said with a pious expression on her face:

"Yes, Chen Xi, the Lord of Flame has sent down power for me, and just a little short of that, I'm at the ninth rank"

Level 10, sanctuary!

Ninth-ranked, Quasi-Saint!

The Ninth-ranked strong man stood at the peak of the Gods. Even in the Kingdom, he could be regarded as one of the best!

The overall strength of the Night Elf family was greatly strengthened in the two months of the migration of the Night Elf family.

Elves didn't like boring cultivation.

But the Night Elf Clan, these twenty years, could be in refined learning and hard work!

However, under the influence of the Curse of the Dark God, they were suppressed very much.

But after the power of the curse was expelled, their achievements over the past two decades slowly appeared.

Besides, Lin Yan blessed them!

The entire Night Elf tribe, the strength of these two months, once again got a surge...

Now there was no one below the fourth rank in the entire Night Elf clan.

The Night Elves of the fifth rank were constantly emerging.

There were many Night elves of the sixth rank!

There were only seven steps. At present, there was only one at dawn.

Lomina was then at the eighth rank, but after receiving the Divine energy group given to her by Lin Yan, she was only a little short of the ninth rank!

It could be said that they could break through at any time!

"Mother, if we reach the ninth rank, our Night Elf clan might be qualified enough to enter the Rocky Forest, but I'm sure they won't welcome us too much, right?"

Queen Chen Xi whispered.

Lomina said, "We believe in the great lord of Flame. We can live well without entering the rocky forest. Let's go back to our original forest first."

Chen Xi gave a "hmm" and nodded gently.

"Queen, come on, I found a channel without a collapse in front, but there are Abyss creatures in it!"

At that time, a Night Elf ran over and said.

Chen Xi and Lomina rushed over, then saw at the end of a passage, there was a huge cave, at that time, a huge, with black armor insect from the rock.

When the black bug came out, it still had a large stone in its mouth. Then it saw it and swallowed the stone in a few bites.

It was a hard stone, but it was no different from biscuits in its mouth!

When the stone was swallowed by it, there was a crisp chewing sound. They couldn't imagine what the insect's mouth and stomach were made of. Even the stone could be chewed and swallowed!

“Boom!”

The cave collapsed directly in front of them, and the huge stone buried the black bug directly!

But then there was a chewing sound inside.

“Abyss monster beetle!”

Seeing that bug, Lomina's face changed slightly!

“Queen, come on, there is also a big black bug in the passage here!”

The passage had just collapsed, and then another Night Elf sounded.

Lomina and Chen Xi walked to another passage to look. There was also an Abyssal Demon beetle inside devouring the stone, these Abyssal Demon beetles were not interested in them at all as if, ignoring them, just kept on eating the stone there.

And as it ate more and more, its size seemed to be slowly getting bigger.

Finally, the Abyssal Demon Beetle seemed to have eaten too much, and it squeezed to death, and then fell there, motionless.

But it had eaten a big hole around it.

“Boom!”

The big hole collapsed again, and the stone buried the Abyss monster beetle directly, but that time, the dead Abyss monster beetle had no movement!

Chapter 196: Mountains collapsed! The Shocking Conspiracy of the God of Darkness!

“Abyss magic?beetle, what is this?”

Seeing this scene, Princess Chen Xi could not help but ask.

Lomina said, “This is a small bug in the lower magic bug Abyss. They were born only the size of fingernails, but they eat everything they see, stones, grass, corpses, and everything until they can't eat anymore. Then they die. This magic beetle is so big that it has been eaten for at least a week.”

Princess Chen Xi could not help but think of the collapsed passage there and said.

“So, are they responsible for those collapsed passages? Why are there so many Abyss magic beetles under the Rocky Mountains? Who put them up? Isn't this Abyss creature suppressed very much? ”

Lomina nodded and said:

“It will be suppressed very badly. If they are in the devil bug Abyss, they won't eat so much and die. If I expect it well, there must be many other magic beetles.”

“Queen, come on, there are bugs in the passage over here. ”

“The Queen...”

When Lomina's words fell, the Night Elves came one after another to report on the situation.

There were too many magic beetles.

There were dozens of these Night Elves found alone!

I'm afraid there would be more that hadn't been found.

After all, they were blocked by the passage of the collapsed tower. They didn't know what was going on ahead.

Princess Chen Xi could not help but say.

“Mother, wouldn't these magic beetles be released by the Lord of Darkness? But the Abyss is closed. How did she send it up, and what does she want to do? Use these magic beetles to block our way?”

Lomina's complexion turned to be grave, which means she was thinking about the problem.

Hearing the words of Princess Chen Xi, she said, “The devil beetle's eggs can be preserved for a long time, as long as they are not fed with energy, their eggs can remain dormant, these devil beetle eggs might have been made up by the Lord of Shades when the Abyssal rift was opened, only that they are only now being stimulated. As for what she wants to do...”

Lomina's brain turned quickly and said, “I want to observe it again.”

By then, there were too few clues.

The attack of the Lord of Flame did not come.

And it was just blocking their way with the Abyssal Demon Beetle.

They blocked their way, and no attack came, which naturally made Lomina thought not to understand.

She was once the Queen of the Night Elves, with rather frightening intelligence!

“If the God of Darkness just wants to block our way, we can go back a section of the way, and then return to the ground in advance from the upper section of the path. Maybe she is going to eat up the passage above us with magic beetles and let the stones fall and kill us ”

Lomina thought.

Thinking of this, Lomina lets the Night Elves in the huge cave go back for a while and disperse.

So that they didn't get swept away by the magic beetles in that cave.

She also sent many Night Elves to explore the way to other places.

Soon, these Night Elves reacted to her and Chen Xi from their scouting.

In such matters, Chen Xi's insight was not as good as hers, so Chen Xi more often than not listens to Lomina's analysis mainly.

Lomina took out a piece of paper and drew in it.

"We are here now."

Lomina drew a circle first.

"Ahead are the Rocky Mountains."

Lomina drew a line.

"According to their report, these magic beetles are basically in this line. There are no magic beetles in our area. In other words, the beetles are all underground in the Rocky Mountains. As for the number of beetles, now we find there are more than a hundred of them, and there are probably more of them that haven't been found. Maybe there are thousands of magic beetles."

At this point, Lomina took out a black magic book.

This was the dark code, which specializes in Abyss creatures and Abyss magic.

In the Continent of the Gods, such a code was taboo, but after twenty years of being cursed, Lomina didn't care about it at all.

In those twenty years, she naturally did not turn to the Abyss demon god for help, but this did not prevent her from studying the Abyss.

That was the reason she recognized the Abyss monster beetle so quickly.

Lomina soon found a more detailed introduction to the Abyss demon beetle in the dark code.

The more she looked, the gloomier her face became.

"What's the matter, mother?"

Princess Chen Xi asked.

Lomina said: "The body of the Abyss beetle is very magical. Their internal structure seems to involve some spatial rules. An Abyss magical beetle can eat something 100 times its volume, and then it will die."

"Hundredfold? No wonder they will eat and collapse the passage. Mother, if there are thousands of Abyss magic beetles under the Rocky Mountains, they may eat and collapse the Rocky Mountains, at least for a long time!"

Princess Chen Xi shrieked in the middle of her sentence!

Although her voice was very nice when she screamed, the surprise inside could not be concealed at all.

The reason for screaming was?that...

“Mother, I think I understand the conspiracy of the God of Darkness!”

Princess Chen Xi’s face also became rare and gloomy.

Because the movement of the God of Darkness this time was amazing!

If they hadn’t seen it with their own eyes, they wouldn’t have believed that the God of Darkness would have such an enormous hand!

The God of Darkness had?not driven the shadowy creatures underground to attack them at all in these two months.

Nor did it prevent them from returning to their forests.

But that didn’t mean that the God of Darkness would?forget it!

A God, or an Abyss demon God, her capacity was?quite small.

It could?be said that you must report!

How could?a God who?repaid his vengeance forget it?

How could?a God who was?famous for being good at intrigues had?no terrible backhand?

Then, her?backhand was there.

That?backhand was?terrible.

Because the God of Darkness was?likely to use thousands of Abysses demon beetles brought up a long time ago to eat up the Rocky Mountains!

There was no doubt that thousands of Abyss demon beetles, even if they could eat less than one-tenth of what they could eat in the Abyss. They were?enough to eat up the Rocky Mountains.

The Rocky Mountains spread for thousands of kilometers, and of course, they couldn’t eat such a huge Rocky Mountains.

But it?was?not needed.

They just needed to eat a collapsed section!

Then, the thousands of Abyss beetles could die with honor.

Then, the God of Darkness did not need to do anything to complete one of her most outstanding conspiracies!

Why did?she?say that?

They thought?about what?was?across the Rocky Mountains!

Humans!

Humans who were?staring at Elves!

The Rocky Mountains blocked human beings because they were too high. There was continuous snow on the mountains, which was very dangerous. The human army couldn't get through at all.

But once the Rocky Mountains collapsed for a while and formed a complete passage, connecting the north and south of the Rocky Mountains, wouldn't human beings survive?

At this time, the human beings who had long attempted to the Elf Kingdom would continue to rush to the north of the Rocky Mountains?

Of course, the Elves were strong; the average human even over was to send the death of the part.

With the strength of the Elf Kingdom, the army of a human kingdom was also killed, but if there was a steady stream of humans, the Elf Kingdom couldn't afford to consume it!

What was more, what if a Human kingdom was moved?

You know, a beautiful female Elf was worth hundreds of thousands of gold coins on the Continent of the Gods!

In addition, there were many natural resources, which were huge wealth in the human kingdom, and greedy humans would not let go!

Let the entire Elf clan, the future was likely to be trapped in the flame of war forever; this was the shocking conspiracy of the God of Darkness!

To retaliate this time, the Dark God not only dragged the Night Elves into the water but also dragged the entire Elf Kingdom into the water!

Hearing Chen Xi's voice, Lomina nodded with a stony expression.

"Chen Xi, I think the Rocky Mountains probably collapsed long ago, after all, two months have passed, what these Abyssal Demon Beetles are doing now is just widening the gap, the God of Darkness will surely calculate the time to let us see, guess and then panic, that's how she acts, she wants to make us desperate!"

After saying this, Lomina's tone became firm.

"However, after believing in the great Lord of Flame, there is nothing that can make us desperate!"

Chapter 197: The Night Elves return to the ground! Victory in the first battle!

"Queen, we have found a passage, but this one leads to the Rocky Mountains." In the underground passage, a Night Elf said.

Lomina and Chen Xi looked at the collapsed passage in front of them and both decided to talk about it after they reached the ground first.

"OK, let's get to the ground first."

Chen Xi said.

After knowing the God of Darkness, Chen Xi was in a gloomy mood but did not mess up.

She already prayed to God and told this story

Although the Rocky Mountains may have collapsed and a gap has appeared, Chen Xi decided to return to the forest where they originally lived.

They had nowhere else to go for the time being.

In the underground City, God gave the revelation that God had a country in the south, but that country was too far away.

If they decided to go from the ground, they had to pass through a large number of human Kingdoms, and the trouble would be constant!

And if they decided to go underground... they didn't know the way!

It would take years to get there.

Therefore, after comprehensive consideration, Chen Xi decided to go back to the original forest to see the situation.

The strength of the Night Elf clan was then extremely terrifying.

If the Rocky Mountains collapse out of a channel, even if there was a human Kingdom, the Night Elves could defeat the army of the human Kingdom!

They were very strong!

Besides, there was Lomina who was about to reach the ninth rank.

With the passage explored by Night Elves, 50,000 Night Elves began to move towards the ground in an orderly manner.

Lomina and Chen Xi were right in their prediction.

The God of Darkness had no other options.

The conspiracy of God of Darkness was amazing enough; she didn't need to do anything else.

Moreover, this conspiracy of hers as she was not afraid everyone knew it!

Fifty thousand Night Elves traveled through the underground passages for some time.

Then, a bright hole came.

Upon seeing that cave, Chen Xi and Lomina, who were walking at the front, couldn't help but cover their eyes.

This was because the light was too strong.

Even if their strength was so strong, they couldn't adapt to such strong light at once.

No way, who let them stay underground for a whole twenty years?

But the benefits of strength were reflected.

The two Night Elves quickly and slowly adjusted to the light and then walked out.

At that time, it was noon, and the sun was particularly strong.

The bright sun was shining warmly on the body and looked exceptionally bright.

Lomina closed her eyes tightly. Her beautiful face was facing the sun and letting the sunshine in. She was greedy to attract the sun.

If someone looked carefully, someone could still find that the corners of her eyes were quietly wet.

Twenty years!

For twenty years, the Night Elves were trapped in the Dungeon and could not see the light!

They haven't had the sun for twenty years.

This was the first time she had been exposed to sunlight twenty years later!

So even the noon sun made Lomina feel too precious and extravagant!

Chen Xi was equally excited.

She opened her arms as if to embrace the sun.

"Thanks for being my God!"

Chen Xi placed her hands on her chest and clasped her fingers in prayer, conveying her joy and gratitude to the Lord of Flame!

They could return to the ground, thanks to the great Lord of Flame.

Her God!

The Lord of Flame not only lifted their curse but also helped the Night Elf family deal with the backhand of the God of Darkness. He was the greatest benefactor of the whole Night Elf family!

Therefore, Lomina prayed to the Lord of Flame to convey her gratitude after her initial joy.

Those Night Elves who came out one after another expressed their most sincere thanks after exposure to the sun.

It could be said that after these Night Elves returned to the ground and shone the sun, their faith in Lin Yan reached a new height.

This belief began to develop in the direction of going deep into the bones!

It took more than two hours for more than 50,000 Night Elves to flow out of the underground passage and all to the ground.

Many Night Elves were so excited that they shed tears!

These Night Elves spent more than an hour there and finally recovered from their excitement.

"Queen, we have found out the situation. The Rocky Mountains have indeed collapsed!"

.

At this time, several Night Elves went to explore the way.

They came out of a cave where more than 50,000 Night Elves stood everywhere in this area.

After hearing the reports of the Night Elves, Chen Xi and Lomina took the Night Elves to the collapsed place.

Not far away, they saw a huge fault in the mountain ahead.

Both Chen Xi and Lomina flew up into the sky and looked down.

The Rocky Mountains had really collapsed!

And the scope of the collapse was not small.

This collapse was not vertical, but horizontal.

The collapsed passage was more than one kilometer wide!

If they think of the Rocky Mountains as a rectangular piece of tofu.

It looks like someone took a knife and cut a piece of tofu in the middle of it!

That passage crosses the Rocky Mountains. It was impossible to say that the human Kingdom opposite would not notice such a big movement.

“There are humans.”

Chen Xi and Lomina looked towards the collapsed passage.

Only to see the original rocks and trees interspersed in the passage had been trampled on a lot of roads. A team of distinctly armored human warriors was quickly coming towards the other side of the front of the mountain range.

“Mother, look...”

Chen Xi pointed to the other side of the mountain, next to their original forest, where there was a fierce battle.

Tens of thousands of human soldiers, wearing shields and under the cover of magistrates, were moving towards the forest.

At that time, some Elves in the forest had established a line of defense. These Elves took bows, arrows, and magic as the main attack and blocked the attack of the human army.

“The Human Kingdom started so soon. It seems that the Rocky Mountains have collapsed for some time.”

Lomina said softly.

Chen Xi recognized the defensive Elves and Lomina said softly.

“Mother, those are the two tribes of the Greenland Elves, twenty years ago, after the last tribe of day Elves entered the Rocky Forest, we also went underground, Rocky Forest side only these two scattered tribes of elves, right, their numbers are not many, and their strength is not strong, mother, let’s participate in the war.”

“Work harder and strengthen the offensive, and we can beat down the forest. This is a great achievement.”

In front of the forest, a Knight in armor, wearing a shield, commanded tens of thousands of human soldiers to look at the forest.

“My Lord, don’t you say that the strength of the Elf Empire is too strong? These Elves don’t feel powerful!”

Nearby, an adjutant asked.

“Nonsense, there is no Elf Empire here. This is the periphery of the Rocky Forest. Otherwise, why do you think our pioneers can withstand their attack? These Elves have just the right strength and weaknesses. As long as they fight down, catch more prisoners, and play as they want”

“Wow!”

Before the voice of the armored Knight fell, a sharp arrow came from the sky.

As soon as his face changed, he raised his shield and met him, but the sharp arrow was so powerful that it pierced his shield directly and pierced him into the ground.

The armored Knight looked up, and his face changed because he saw two elves flying in the sky.

Then, the Elves all over the mountains poured out meters, and their bows and arrows destroyed more than half of the attacking human army in only one round.

The armored Knight desperately wanted to get up, but he was nailed to the ground by a sharp arrow and couldn’t move.

Chapter 198: Recreating the Elven Empire! Freeze a thousand meters!

After the Night Elves entered the war, they wiped out the human army in less than half an hour.

On the ground, a human prisoner said with a pale face:

“Don’t kill me. I say everything. We are the vanguard of the Orcs Kingdom. When the King saw the collapse of the Rocky Mountains, he sent us to catch the elves outside the Rocky Forest. The King is also ready to unite the eight kingdoms to attack the Rocky Forest.”

Eight great kingdoms Advance Rocky Forest!

Hearing the news, Chen Xi’s face changed slightly.

Lomina gently moved her finger, and the human prisoner was pierced by the vines on the ground.

After twenty years in the Dungeon, Lomina already knew that being soft to the enemy is cruel to herself!

“Are you Night Elves? Huh, Lomina.”

A clear voice sounded at that time.

Lomina turned around to see a tall Elf in a green sarong approaching.

“Anna!”

Lomina also recognized the Elf.

She was also the leader of an Elf tribe outside the Rocky Forest.

“Lomina, aren't you cursed by the God of Darkness? Why can it appear during the day?”

Anna was surprised.

Lomina said, “We have found a God who is willing to care for us. The curse has been untied.”

“The curse is resolved?”

Anna looked at Lomina and 50,000-elves in the sun, and then showed her joy:

“Congratulations, Lomina. Now you don't have to hide underground”

Lomina nodded and exchanged greetings with Anna for a long time.

“I don't know why the Rocky Mountains collapsed three weeks ago, and the forest we live in also collapsed in a small area. Humans began to come from the collapsed gap a week ago. I didn't expect that they would launch a large-scale attack today.”

Anna looked at the collapsed Rocky Mountains with a sad look on her face.

“Did you send anyone to check it out?”

Lomina.

Anna said: “yes, but they don't have a good way. They gave us the qualification to take refuge in the Rocky Forest temporarily. However, there are too many Elves in the Rocky Forest. We are still hesitant to move to the east of the Rocky Forest. The Human army is coming.”

Speaking of which, Anna remembered something and said, “Oh, yes, the forest you used to live in was chewed up by the worms released by the God of Darkness twenty years ago, and it took us a long time to kill all those worms, and now that forest is recovering, but there are so many of you that you certainly can't feed.”

Hearing Anna's words, Lomina and Chen Xi couldn't help but look at each other.

Lomina said: “Humans will continue to rush over. Eight Human Kingdoms have united to attack Rocky Forest.”

“What!”

Anna covered her mouth: “Lomina, really?”

Lomina nodded.

“I have to send someone to inform Rocky forest.”

Completed the theory of safety, and left behind in the morning.

Lomina came to Chen Xi and found that Chen Xi was staring at the huge gap in the Rocky Mountains in a daze.

Chen Xi turned his head and said, "Mother, I want to pray to my God and hope that my God will lower his strength to seal this gap. Rocky Mountain is the only pure land of Elves, and should not let the war spread."

Lomina was about to speak when Chen Xi added:

"But we have received enough of my God's grace. Even if our whole family contributes their faith, it is not enough to repay it. Mother, there are many Elf tribes around the Rocky forest. I'm going to integrate these scattered Elf tribes, and then we'll reclaim the endless dark forest in the west of Rocky forest and build another Elf Empire there! This Elf Empire will regard my God as the only God!"

"The Dark Forest!"

Lomina repeated the three words and said, "Chen Xi, there are a lot of powerful dark creatures and even legendary creatures in there, as well as many fallen Elves."

Chen Xi's face was firm. She said, "it was really dangerous for us before, but mother after you reach the ninth rank, the dark forest is not very dangerous for us. Didn't Rocky forest also be reclaimed from the dark forest before?"

Lomina thought for a moment and said, "OK, Chen Xi, I support your decision."

After making a decision, Chen Xi came to the huge gap in the Rocky Mountains and prayed.

"Lomina, is that Chen Xi? Why is she wearing a crown?"

At this time, Anna came over with the head of another Elf tribe.

There were scattered elf tribes around the Rocky forest. There were four in the south. Later, the day elf tribe entered the Rocky forest and the night Elf entered the underground, leaving the two green Elf tribes.

In other directions of the Rocky forest, there were many scattered Elf tribes.

These scattered tribes of Elves did not enter the Rocky Forest for various reasons, especially now that there were too many Elves in the Rocky Forest to let them in, they were not always willing.

Then it was different from twenty years ago. At that time, the Rocky forest was not saturated. Now it's completely saturated!

This was also Chen Xi's plan to integrate these scattered Elves Tribes, reclaim endless dark forests together, reclaim a Rocky forest and establish a new spirit empire. This was a great project, but Chen Xi believed she could convince those scattered Elves Tribes!

"Yes, Anna, I am no longer the queen of the Night Elves. Chen Xi is the new Queen."

Lomina smiled.

Chen Xi's growth was a relief to Lomina, especially since she just saw Chen Xi's drive with her proposal!

“What is she doing in the morning?”

Anna asked curiously.

Lomina said, “She’s praying.”

“Pray? By the way, Lomina, which powerful God is willing to take care of you and help you get rid of the curse of the God of Darkness?”

Anna asked again.

Lomina was about to speak when she saw a blue flame floating out of her head with the Chen Xi prayer.

The blue flame was not big. When it burned, the flame was suffused with a faint blue light.

“Huh, why is there a flame?”

Anna said curiously.

Then she saw the flame drifting into the gap in the Rocky Mountains.

“Boom!”

Then, the faint blue flame burned fiercely, and the flame ran up tens of meters high.

Then Anna saw that with the burning of the blue flame, the ice appeared quickly around the blue flame, and a high and thick ice wall was formed in a short time!

“It’s cold!”

The cold wind suddenly poured in, and the surrounding temperature instantly decreased by many degrees.

Fortunately, the Elves present were not weak. Even the sub-zero temperature would not cause any harm to them.

But the surrounding temperature kept dropping.

In the gap in the Rocky Mountains, with the fierce burning of the blue flame, the ice wall continued to rise and thicken.

In a short period, a stunning wall of ice, a thousand meters high, was created out of thin air on the gap in the Rocky Mountains!

Chapter 199: Greenland Elves join! Lomina Ninth Rank!

“What kind of flame is this!”

Outside the forest, Anna exclaimed.

She had never seen such flames!

When this flame burned, the surroundings were frozen!

And the speed of this freezing was not normal; it looked as if the flame had taken away all the surrounding heat!

This kind of flame was naturally the ice flame that Lin Yan descended!

This had the effect when the ice flame burned; it could absorb all the surrounding heat!

The more the ice flame burned, the faster the heat was absorbed, and the faster it freezes!

So, in less than ten minutes, a thousand-meter wall of ice appeared over the entire gap in the Rocky Mountains!

Immediately after that, the ice flame continued to burn, and the ice wall was to be thickened!

The ice inside, also under the burning of the ice flame, became even harder to melt than ten thousand years of ice!

This scene not only shocked the patriarch of the Greenland Elves, but the pretty faces of the tens of thousands of Greenland Elves present also showed shocking expressions. Their gazes were dull as they watched the ice wall becoming thicker and thicker!

As the surrounding temperature became colder, the leaves of the nearby forest formed a layer of ice.

In the sky, it even began to drift snow!

Those flames burned as if to affect the climate of this area.

Even this area, maybe permanently turned into an icy climate!

This change was beneficial, and it would keep this ice wall from melting for hundreds of thousands of years.

Although the Greenland Elves were not as powerful as the Night Elf clan, their strength was not weak, the clan of Greenland Elves were mainly the strength of the second and third-rank, the fourth and fifth-rank was also quite a lot, the Greenland Elves' matriarch Anna was the sixth-ranked Elf.

The stronger the strength, the harder it was to be surprised by something.

But at that time, these Greenland Elves opened their beautiful eyes one by one, eyes only that still in the ice wall burning incessant blue flame!

When hearing Anna's words, Lomina whispered:

"Anna, this is the God who gives us a favor, the great Lord of Flame!"

"Great Lord of Flame!"

Anna whispered the four words.

Lomina said, "Yes, Lord of Flames."

There was also a startled look in her eyes.

As a person who almost broke through the ninth order, Lomina tried her best to use spell-rank magic to seal the gap.

But her blockade method was to use plants, and the blockade was not so high, nor it was so tight.

But the Lord of Flame only used a single flame to easily shape this thousand-meter ice wall!

Such a tactic was worthy of God!

At this moment, Lomina had a new understanding of the strength of the Lord of Flame.

The flame of the Lord of flame couldn't only burn all things but also burn Divine energy. What's more amazing was that it could build a kilometer ice wall here when burning!

When a flame burned, didn't it release heat?

But this ethereal blue flame released by the Lord of Flame burned when it could absorb heat dramatically!

It looked amazing!

"Is the Lord of Flame the God who holds all fires?"

Anna couldn't help but ask.

Lomina "hmm," said. In her opinion, the Lord of Flame may master all the flames in the world.

Over ten minutes later, the ice wall in the Rocky Mountains was completely built.

The blue flame finally exhausted its energy and disappeared.

Chen Xi flew into the sky, looked down, and saw that the ice wall was afraid to be 50 meters thick

On the ice wall, she could also see a lot of magic symbols, which means that it was difficult for the ice wall to attack with magic.

Thousands of meters high, 50 meters thick, and wide law protection, so thick a wall of ice, even if the opposite to a large number of magistrates, but also simply did not want to get collapsed.

The God of Darkness spent a lot of power, and this carefully planned conspiracy was resolved by Lin Yan in such a simple way.

What was consumed was nothing more than energy points.

But Lin Yan's energy points had exceeded 100 billion, and he could only reach tens of millions on this ice wall.

"Lomina, is Chen Xi already breaking through the seventh rank?"

On the ground, Anna was surprised to see Chen Xi flying into the sky.

Because she had been fighting ahead, she didn't see the scene of Chen Xi falling from the sky.

Lomina said: "Yes, Anna, Chen Xi had become the saint of the great Lord of Flame. With the care of the Lord of Flame, she has broken through the seventh rank, and I am with the care of the Lord of Flame, and I am about to enter the Ninth rank!"

"Ninth rank!"

Anna opened her mouth slightly!

Although her strength was strong, she was only sixth-ranked. She was still a long way from the ninth rank!

Although elves were indifferent by nature, this did not mean that they did not pursue higher power, especially when there was a threat from foreign enemies.

At that moment, Anna was intensely curious about the Lord of Flame.

“Mother, with this ice wall, the human army can’t get through. We can rest assured to reclaim the dark forest!”

Chen Xi flew down and said,

“The Dark Forest!?”

The content of Chen Xi’s words caught Anna’s attention.

Chen Xi came over and said:

“Yes, Chief Anna, we are going to reclaim the Dark Forest and rebuild an Elf Empire there. Come out, Chief Anna, join us.”

Chen Xi said sincerely.

Then she explained her detailed plan again.

The reason why the Dark Forest was called the Dark Forest was that there was a special dark substance in it, which needed to be dispelled by special means. In addition, there were many dark creatures, even legendary creatures, and powerful fallen Elves.

However, the resources of the Dark Forest were quite rich. The Rocky Forest was reclaimed in the Dark Forest before, which was much richer than these forest resources around the Rocky forest!

“Chen Xi, this is a grand plan. I want to go back and discuss it with our people.” Anna said.

Chen Xi nodded her head.

Anna left, but soon she came back and said:

“Chen Xi, we are willing to join you and reclaim the Dark Forest with you!”

Chen Xi revealed a joyful look, “You are welcome.”

As for faith, she was not in a hurry, because God gave her enlightenment. When opening up the Dark Forest, she could get a special flame through prayer, which could disperse the dark substances in the Dark Forest. After seeing the magic of the Lord of Flame, the Greenland Elves would make a correct choice!

Then, Chen Xi went alone to contact other scattered Elf tribes.

The Night Elf clan was temporarily staying in the tribe of the Greenland Elves, waiting for Lomina to break through the ninth rank before leaving!

Lomina’s accumulation has been quite rich.

This time, it took her three days to successfully break through to the ninth rank!

“It’s the ninth rank!”

Lomina breathed softly.

Two months ago, she was still in self-exile in the Dungeon, but now she became a strong ninth-ranked Elf. She was only one step away from the holy land of the tenth rank. Sometimes life changes come so quickly.

It depends on whether you could meet the right person.

And the Lord of Flame was her nobleman.

When Lomina successfully broke through the ninth rank, a mighty human army came under the ice wall.

Chapter 200: Legendary powers! A blow frightens you!

“The Queen has successfully persuaded the eight kingdoms to send troops together. Nick sent a message back three days ago. They fought with the Elves outside the Rocky forest. The strength of those Elves is not very strong. With our participation, we can take the lead in seizing the forest outside the Elf Empire!”

In the passage of the Rocky Mountains, in front of the army with more than 100,000 people, a general led the way.

“General, Lord Nick has sent no news these three days. Isn’t there anything unexpected?”

At this time, there was a deputy official nearby.

“What can happen? Nick, as a sixth-ranked Knight, is powerful. Unless the Elves in the Elf Empire make a move, he will be fine. Don’t worry, the response of the Elf Empire is not so fast.”

The General said.

“Sir, look, there’s something ahead!”

At this time, a soldier pointed to the front and shouted.

When the general looked up, his mouth immediately opened into an “O” shape.

Because he saw that a few kilometers ahead, a towering white wall stood in the passage, completely blocking the passage!

“What is this? The wall built by the Elves?”

The general was stunned.

Soon, he rode his horse to the bottom of the ice wall. Because he was too close, ice froze on his armor, which showed the low temperature nearby.

When he was standing under the ice wall, he just broke his neck and didn’t want to see the top of the ice wall.

That was an upright ice wall more than kilometers high. It was amazing from a distance. When anyone stands close, it's terrible!

This general gulped lightly and punched the ice wall.

“Crack!”

In fact, there was a thin layer of ice outside the ice wall. With his actions, this thin layer of ice was successfully smashed by the general.

But when his palm hit the ice wall, with the flash of the magic symbol on the ice wall, he seemed to hit the iron plate, and the extremely penetrating cold hit, making his fist instantly wrapped in ice.

The cold air even penetrated deep into his palm, making him horrified!

He quickly picked up his anger and forced the cold out.

“I can't touch this ice wall at all!”

The general's face became a little ugly.

He never expected that although the Rocky Mountains collapsed, such an ice wall would appear here!

This general looked around and realized that the entire Rocky Mountains were drifting into the snow and the ground was almost entirely covered with ice.

This was because the underground of this section of the Rocky Mountains was burned by the “ice flame”, and there were few Abyss magic beetles left in it, and then they were all burned by the ice flame. The ice flame made all the underground in this section form ice that would not melt for many years to avoid collapse again.

Of course, when the Abyss magic beetle was dead, it was unlikely to collapse on a large scale.

“Who did this? The ice wall that is so afraid of cloth, even the forbidden spell magister of the ice system, may not be able to do it?”

The general muttered himself.

“General, look at it.”

Another henchman shouted.

The general quickly raised his head and saw that in the sky, someone slowly exposed an Elf with a veil on his face to the sky 100 meters high.

That fairy was Lomina!

“The Great Magister!”

All the human soldiers stirred up, below.

“This is the seventh-ranked Magister. Come on, attack with the broken Magic Arrow.”

The general shouted.

When his voice fell, he saw Lomina take out a bow and shoot an arrow at the sky!

Although Lomina shot at the sky, something bad appeared in the general's heart.

On the ground, some humans took out the broken Magic Arrow and shot at Lomina.

But Lomina just flicked her hand and blocked all those magic-breaking arrows.

Immediately afterward, countless black dots appeared in the sky.

“Raise your shield!”

The general was so frightened that he shouted hysterically.

Below, 100,000 soldiers raised their shields one after another!

“Whoosh, whoosh, whoosh!”

Tens of thousands of arrows fell in the sky.

Someone directly pierced even warriors who were too late to lift their shields if they were wearing armor!

Even those who lift shields were not much better. Arrows falling from the sky directly pierced their shields and nailed them to the ground!

This strike by Lomina directly killed more than a third of the human warriors!

Countless people were injured!

“North of the Rocky Mountains, no human beings are welcome. If another human comes here, kill them all!”

Then Lomina's cold voice sounded.

“General, General.”

When a lieutenant ran under the ice wall, he saw that their general was pierced by several arrows.

“Leave... Legend!”

When the general said the word, his head tilted, and his breath broke!

Legend!

That word made that adjutant take a deep breath.

The news that a legendary spirit killed and injured the 100,000 Royal elite would soon spread all over the eight Kingdoms south of the Rocky forest that tried to jointly attack the rocky forest.

In fact, if Lomina did it again, everyone was afraid there would be none of the 100,000 troops left.

But this warning meant more than killing, so she only did it once.

But that was amazing enough.

At the same time, the news of a kilometer high ice wall in the Rocky Mountains, No one knew how thick it was, and even the seventh-ranked knights couldn't move the ice wall, also spread all over the eight Kingdoms.

“King Oz, didn’t you say that the legendary-level powerhouse of the Elven Empire can only exert legendary-level strength next to the Tree of Life? For this battle, we paid ten million gold coins to invite a legendary-level existence to fight for a day, only to wait for our door to fight near the Elven Empire’s Tree of Life before we can do so, but now that the Elf’s legendary-level powerhouse can come and go freely, we still fight!”

In the Royal City of the Oz Kingdom, a king asked.

Legend rank?was?ninth rank quasi Saint-rank!

In the ordinary human kingdom, there was?an eighth-ranked?forbidden spell on the top of the sky, which was?impossible to have in the ninth-ranked legend.

According to the news that King Oz didn’t know where to get it, the legend of the Elf Empire had?legendary strength only near the tree of life.

So the eight Kingdoms offered 10 million gold coins to legendary human power for one day, as long as they hit someone near the tree of life.

But now Lomina’s action directly spoiled their plan.

What worried?them more was?that the legend of the Elf Empire would?call and behead them.

A legendary existence was?terrible.

Coupled with the existence of the ice wall, the Kings of the eight kingdoms suddenly extinguished their thoughts on the Rocky forest while they were depressed.

Every King lived a life of fear for a long time.

Several Kings even stayed in the headquarters of the Church every day, because there?were?at least many powerful people in the Church, which was?also the nearest place to God on the Continent of the Gods, which gave them a sense of security!
