

Flames 221

Chapter 221: Faith soared! The plan of the Elven Goddess!

“How much Divine energy does this need,”

The Elven Goddess cried out!

If she could descend to the Continent of Gods without the Heavenly Barrier, it would not be difficult for her to do so.

However, the more energy descended at the same time, the greater the loss.

Based on her calculations, the amount of Divine energy consumed by this attack would be unimaginable.

If she had come to complete this attack, she would not have accumulated more than a hundred years!

She was definitely reluctant.

However, the Lord of Flame lightly described the attack.

The power of the Lord of Flame had completely surpassed the imagination of the Elven Goddess.

.....

On the ground, when the Holy Light disappeared, all the Elves opened their eyes once again. They saw that the Skeleton monsters that were attacking them had disappeared.

At the same time, in the Dark Forest in front of him, the dark matter had completely disappeared.

The bright sunlight shone through the gaps between the leaves, filling the forest with life.

“The Skeleton monsters are all dead!”

A Winged Elf from the sky said in a daze.

“Yeah, it’s all gone.”

Some of the Winged Elves flew a distance forward, and then they realized that the endless number of Skeleton monsters were gone.

Even though there were many Skeleton monsters, after fighting for so long, they were mostly concentrated within 50 kilometers of the Elven Defense Line. Now, they were all wiped out in one fell swoop by Lord of Flame!

At this moment, the thousands of Winged Elves in the sky cheered.

Now, they were the most loyal believers of Lord of Flame!

In the Dark Forest, the Elves cheered!

Every Elf was praising the Lord of Flame for his kindness and strength!

Their tired faces were filled with joy.

The forest was filled with joy.

Following that, thousands of Winged Elves began flying around to count their losses.

In the end, their results were quite shocking.

This battle took two or three hours, but none of the Elves were injured!

This result was shocking!

It should be known that even if Lord of Flame's last strike was not included, the number of Skeleton monsters that they had killed in front of them would probably exceed a million.

After all, this was the Skeleton Kingdom!

The battle result quickly spread to the Elven Defense Line.

Every Elf cheered again.

The Elves were not stupid. They knew the reason why they could achieve such a shocking result.

Lord of Flame!

It was the Lord of Flame's Holy Flame that gave them such a shocking record.

If they didn't have Holy Flame, with their strength, over 300,000 Elves would have been able to endure in the Dark Forest for some time. They could even kill several times as many Skeleton monsters. However, they were not able to achieve zero casualties.

Not to mention injuries, even the number of Elves who died would be large.

After all, there were many powerful Skeleton monsters.

It was inevitable that hundreds of Elves would die unless they gave up on the Dark Forest.

But now, thanks to Lord of Flame's Holy Flame, they were able to withstand the Skeleton monster's attack with no casualties.

At the very last moment, when they couldn't hold on any longer, Lord of Flame did not hesitate to use his Divine energy to help them.

This made many Elves cheer while they were grateful to the Lord of Flame for his generosity!

After cheering, some Elves finally thought of a question:

The Goddess they had originally believed in did not have any power!

.....

When the threat from the Skeleton monsters was removed, the Elves hung the Holy Flame on the tree and gathered in twos and threes to rest.

Although they were not injured in this battle, they were especially exhausted from the Elves to their bodies.

"Chief, the Lord of Flame is so generous, I have decided to contribute my faith to the great Lord of Flame!"

In the Wind Elves' tribe, a Wind Elf suddenly stood up with a firm look on his face and spoke to the Wind Elves' tribe's Chief!

“Chief, I’ve decided that I will also contribute my faith to the Lord of Flame. The Lord of Flame has given us so much; the only thing we can repay him is our faith.”

Another Wind Elf said.

With their leadership, more and more Wind Elves decided to contribute their faith to the Lord of Flame.

Seeing this scene, the Wind Elves’ tribe’s Chief Aishara did not stop them.

That was because she had already thought of this.

The Wind Elves were the Elves that had joined the reclamation tribe earlier.

After witnessing the magic of the Holy Flame, they had a lot of subtle beliefs about the Lord of the Flame.

Finally, after this battle, they decided to contribute officially their faith to the Lord of Flame.

As for the Goddess they had originally believed in, since she did not have any power in this battle, she did not respond to the devout prayers of many of them. Under the disappointment of the Wind Elves, they were no longer willing to think about the Goddess they had originally believed in.

In this forest, it was not just the Wind Elves.

Several Elf tribes were the same.

Many of the Elves in these Elven tribes had decided to contribute their faith to the Lord of Flame. When someone took the lead, it was usually one tribe after another.

Apart from the Night Elves Tribe, there were more than 50,000 Elves in this forest. There were only more than 40,000 Elves in the two tribes. Most of the other Elves were between 20,000 and 30,000, so there were more than ten Elves.

After this battle, more than half of the Elves had officially contributed their faith to the Lord of Flame.

There were only a few Elves, because their Goddess had given them a small amount of power, and they had maintained their dual faith. However, their faith in the Lord of Flame was already dominant.

The Elven Goddess was right. After the attack of the Skeleton monster, the belief of the Elves in the Lord of Flame had indeed risen dramatically.

Through the Green Elves, she had already observed that several Elves had already decided to give their faith to the Lord of Flame.

There was no such thing as faith.

This was true even for Elves that were indifferent to life.

What made the Elven Goddess feel a little gratified was that among the Greenland Elves, there were still Greenland Elves that sensed the Elf’s attack.

That was why the Greenland Elves had retained their faith in her. However, her faith had been further compressed, from 55 to 37.

However, only the Elven Goddess was not depressed, she was rather happy.

This was because her bottom line was 10%.

There was still 30% left. What was there to be unhappy about!

The Elven Goddess was still trying to contact the Lord of Flame, but she could not.

When the Holy Flame Forest was cleared and planted with the Tree of Life, or when the Elven Empire was officially established, the Lord of Flame would probably keep his eyes on it for some time.

“When the time comes, I’ll send an Elf down. Perhaps I’ll be able to contact the Lord of Flame.”

The Elven Goddess thought.

Many of the Elves were transformed from her Divine energy. She paid the price of her Divine energy, and she could also send an Elf down and carry her consciousness to communicate with the Lord of Flame.

This was the only way she could think of right now. This was better than looking for the Lord of Flame in the boundless Heaven.

If that was the case, it might expose her position in the Heavenly Realm and bring her a certain degree of danger!

Chapter 222: Legendary versus Legendary! Fallen Elves appeared!

In the Dark Forest, the Elves only rested for a short period before they began to reclaim the land.

Without the threat of the Skeleton monster, they began to reclaim the land quickly.

“At this rate, at most a month will be enough for us to complete the reclamation.”

The Elves were planning this.

Every Elf was beaming.

“Maggie, there’s no need to reclaim the Winged Elves. You can find danger in advance if you’re in danger.”

Chen Xi decided to give the task of eliminating the danger to the Wing Elves.

It wasn’t much easier to get rid of danger than to reclaim it. It was even more burdensome to one’s Divine energy.

In the past, the Winged Elves did not officially believe in the Lord of Flame. The line of belief was not set up, and the Divine energy consumed by praying for the Holy Flame was much greater.

That was why they didn’t join in.

Moreover, their strength was relatively weak. In the past, they were in danger.

Some powerful Skeleton monsters could have rushed out of the forest and hurt them.

Now, there was no need to worry. The skeleton should have been killed.

However, they still had to reclaim a long distance to the west. Perhaps there were other Dark Creatures.

Maggie, the leader of the Winged Elves, nodded and began to arrange for the Winged Elves to escape danger.

Thousands of Winged Elves were guarding space.

“Don’t fly too low. Don’t fall on the crown of the tree?” Be careful some Dark Creatures can attack you. There aren’t many Dark Creatures in this area. Everyone can rest properly, but outside of the Holy Light, everyone must be alert.

Maggie instructed all the Winged Elves.

Among the Elves, the Winged Elves and the Wind Elves were all smaller Elves.

The Night Elves, Green-Elves, and Day Elves were all tall and slender.

This was probably because the Winged Elves needed to fly. If they were too tall and heavy, they would have a tremendous burden on their wings.

As for the Wind Elves, they were good at wind magic. Their speed was fast, they came and went like the wind, and their bodies were just as small as humans.

Chen Xi left the Elves’ long line of reclamation and headed west.

Although the battle was over, there was still battle hundreds of kilometers to the west.

There were only two participants in this battle.

The former matriarch of the Night Elves, her nominal mother Lomina.

On the other side were the Legendary Skeleton monsters.

The Dark Creatures were bound by the Dark Forest. Many Dark Creatures were afraid of light and did not dare to escape the Dark Forest.

However, after reaching the sixth rank, some Dark Creatures dared to rush out for a while.

If it was not the Holy Light, but the sunlight, a sixth-ranked Dark Creature would even dare to stay in the sun for more than a minute.

Of course, the longer time passed, the stronger the damage the sun could do to them, and being able to stay did not mean that they were not harmed.

Therefore, they would not come out to bask in the sun.

They did not like the sun.

After reaching the seventh rank, he could fly.

Not to mention eighth or ninth ranks, it took a long time to break out of the Dark Forest.

The ninth-ranked Skeleton monster could even fight Lomina outside the Dark Forest for more than ten minutes.

.....

Chen Xi quickly flew out of the explosion area.

Then, she threw a Holy Flame into the Dark Forest from time to time. She could see that Skeleton monsters were heading east in the Dark Forest.

However, the density had been greatly reduced. It was sparse and did not pose any threat to the Elves.

It could be said that most of the Skeleton monsters had been killed.

The Elves' reclamation speed would become exceptionally fast!

However, Chen Xi was still very careful. She threw the Holy Flame at every distance and observed the Skeleton monsters' movements.

She flew several hundred miles away after some time. She saw a towering mountain in front of her. In the sky beside the mountain, Lomina was fighting with a Skeleton monster.

Legendary-ranked Skeleton monsters were terrifyingly powerful in battle. They could feel the ripples of magic from far away.

However, since the battle was going on in the sky, it did not affect the ground much.

Furthermore, Lomina was not good at energy magic. Energy magic was usually extremely destructive.

And Lomina's magic was cast through her bow and machete.

In terms of point-to-point attacks, it was very powerful.

Legendary rank represented not only the ability to use powerful attacks but also the understanding of this world. It began to develop in the direction of seeing the essence.

To put it simply, it was to begin to contact the power of the rules!

The same magic, used by legendary existences, would be more than ten times stronger than ordinary magisters.

This was because legendary existences had a deeper understanding of magic, so it was naturally more powerful.

"Whoosh!"

Lomina's arrow was heading towards the Skeleton monster. The Skeleton monster suddenly turned around and narrowly avoided the arrow.

The momentum of the arrow did not diminish. It shot straight into the mountain, and it seemed to have disappeared. However, if it followed, one could see that the arrow shot through the mountain.

Seeing that the Skeleton monster was about to rush over, Lomina muttered something to herself. She waved her delicate hand gently and changed directions.

Lomina had comprehended space magic.

That was powerful magic.

"Whoosh!"

Then, Lomina's arrow suddenly flew down from below, piercing through the Skeleton monster's body.

"Awoo!"

The Skeleton monster let out a strange cry and plunged into the Dark Forest.

"This guy escaped again!"

Lomina felt a headache.

The difficulty of a Skeleton monster is that its body was too strong. Ordinary magic doesn't work at all.

Lomina's arrow, like a sudden attack just now, caught it off guard. It hurt a little.

This was because it was originally a skeleton, with no organs in its body.

It had many bones on it, so it was useless to shoot one or two.

Unless the arrow carried an enormous amount of Holy Flame, but the moment the guy saw the arrow, he would directly enter the Dark Forest.

As long as Lomina showed her intention to the east, it would attack Lomina with various methods. Its goal was to drag Lomina here.

Of course, Lomina could leave.

However, Lomina thought about it and felt that it was better to drag the Skeleton monster here than to bring it over.

Once she brought the Legendary Skeleton monster over, if the Skeleton monster rushed into the Elves, the Elves would die.

It would give it enough time to kill 300,000 Elves.

"Mother!"

Chen Xi flew over.

"How is it over there?"

Lomina asked.

Chen Xi nodded and said, "My God is here. All the Skeleton monsters have been captured."

Lomina's spirits rose. "Use the Holy Flame to blow out its traces. I'll deal with it."

Chen Xi made a sound and flew into the sky. She began to pray.

She summoned many Holy Flames and smashed them into the Dark Forest.

"It's there."

Lomina bent her bow and began to attack with all her strength.

With the cooperation of Chen Xi, the Skeleton monster in the Dark Forest would no longer exist.

Lomina took out nine arrows from nowhere and shot nine arrows in different directions.

“Whoosh “Whoosh” Whoosh”

Eight of the arrows were filled with Holy Flames.

Only one arrow had no Holy Flame.

The arrow seemed to have grown its eyes as it chased after the Skeleton monster. It pierced all the trees along the way, but it did not slow down at all.

The Skeleton monster let out a strange cry. He jumped and shot the arrow. Then, he grabbed the flying arrow with a claw.

However, before it could take the next step, the other eight arrows suddenly appeared, rounding it up.

“Boom!”

The Holy Flame exploded in its body, causing it to scream.

This guy was really tough. He was already like this, yet he was still alive.

Lomina flew down quickly and prepared to strike it with her machete.

Suddenly, a shadow appeared behind him!

There was a Skeleton monster!

The Skeleton monster did not reach Legendary rank, but its ability was too strange. When it walked in the shadows, it was silent, with no energy fluctuations.

“Mother, be careful!”

Chen Xi shouted.

Lomina reacted quickly. A teleportation spell was activated, and two Skeleton monsters rushed over at the same time.

However, Lomina already had a backup plan and was about to activate it.

“Swish!”

Suddenly, a pitch-black arrow rushed over, piercing the two Skeleton monsters at the same time.

The arrow carried some energy, and the two powerful Skeleton monsters turned into a pool of bone water at the same time.

Lomina turned around and saw that not far away, there was a tall woman with blue armor and a dark aura standing there. She was holding a bow in her hand.

“Fallen Elves!”

Lomina’s expression changed.

Chapter 223: Threat removed! A steady stream of gold coins!

The fallen Elf had two sharp ears on her head. However, her body was thick and dark.

That darkness was even more terrifying than this legendary Skeleton monster.

It was as if she was a Dark Creature stronger than the legendary Skeleton monster!

When she shot two monsters, one big and one small, outstretched her hand and summoned her. The pitch-black arrow was summoned into her hand.

“There are still a thousand kilometers to go west. If you go west, don’t come to Sanctuary.”

The fallen Elf said a few words, and then she disappeared.

It was as if she had never appeared.

Lomina walked to the two skeletons and looked at them for a while. She frowned.

Chen Xi flew down and hung a Holy Flame on the tree, which dispersed the surrounding darkness.

Under the Holy Light of the Holy Flame, the bone water of the two monsters made a “chi-chi” sound and soon disappeared into the air.

“Mother, who was that? Fallen Elf?”

Chen Xi looked at the place where the woman had disappeared. The dark matter had been dispersed, but the woman had completely disappeared.

Lomina said, “Yes, she should be a Fallen Elf, but I’m not very clear about her identity. Her strength gives me a strong feeling!”

At this point, she looked at Chen Xi and said, “Chen Xi, I feel that she doesn’t have any ill intentions. Let’s go west and reclaim a thousand kilometers. Then we’ll stop and reclaim the north. When we’re strong, let’s head west!”

The Fallen Elf’s words made Lomina hold back.

The woman was talking about a thousand kilometers west of this mountain.

What Lomina was talking about was a thousand kilometers west of where the Elves were reclaiming their land.

The Elves were still three to four hundred kilometers away from where they were.

That was why Lomina decided to reclaim the westernmost position of Holy Flame Forest, which was about 400 kilometers away from the woman’s safety!

Four hundred kilometers was a long-distance!

Chen Xi nodded. “Okay, Mother.”

The Dark Forest was more dangerous to the west.

Going north was not that dangerous.

There were even rumors that the northernmost part of the Dark Forest was an endless sea.

However, it was unknown how far away the sea was.

Rocky Forest was over 2,000 kilometers north of the Rocky Mountains, but it was still a long way from the sea.

Lomina said, "Come, let's destroy this mountain together. This is the nest of Skeleton monsters."

Chen Xi said, "Okay!"

This mountain looked like a mountain, but it was empty. Many Skeleton monsters were living there.

Lomina muttered to herself, and Chen Xi cooperated with her to cast magic.

Both of them had their magic skills, but when they reached the Forbidden Curse, they would break through the restriction of elements and begin to contact other magic.

It was not as powerful as the magic they were originally good at.

With the cooperation of both Elves, large earth magic was cast.

The entire mountain collapsed with a rumble.

Then, Chen Xi and Lomina attacked and killed many Skeleton monsters.

It eliminated the threat of the Skeleton monster.

After this, Lomina and Chen Xi became more conscious.

Now, there were thousands of Winged Elves who were on alert in the west.

The Elves reclaimed land at an unprecedented speed.

.

In just a dozen days, they had cleared the westernmost spot that Lomina and Chen Xi had set up.

They had only reclaimed a single line 50 kilometers wide and 1,000 kilometers deep in the Dark Forest.

Then, they reclaimed the land along the boundary between Lomina and Chen Xi.

This was Lomina and Chen Xi's new method.

It was equivalent to dividing the boundary first and then digesting the area inside.

Now the Skeleton monsters were destroyed, there were no powerful Dark Creatures in this area.

This method of reclamation would be more efficient. After the boundary was drawn, the area inside would be relatively safe, and the reclamation speed would be greatly increased.

When the Elves reached the westernmost position, Lomina and Chen Xi used their magic to make the trees "live" for the time being and then moved to the side.

Through this method, there was a hundred meters wide area without trees between the reclaimed Holy Flame Forest and the uncultivated Dark Forest.

This area was the buffer between the Holy Flame Forest and the Dark Forest.

Of course, if there was no barrier, the dark aura would still spread over.

So, Lomina and Chen Xi started to set up a barrier together.

The barrier was placed along the Dark Forest. The only function of this barrier was to block the dark aura.

They could easily set up a temporary barrier, but this kind of semi-permanent barrier, which had to be maintained for many years, required a lot of precious things to set up.

Fortunately, the Night Elves had these things.

When the barrier blocked the dark aura, the 100-meter area would be of use. After the sunlight shone, no Dark Creature was willing to go there.

However, the boundary of Holy Flame Forest was not there. It was more than a hundred kilometers away from the barrier. This was a buffer zone, and it would be planted with many ancient trees for defense. Now, the Holy Flame Forest was two thousand kilometers wide!

It was more than twice the width of Rocky Forest!

The length of the north and south would be even longer!

However, due to the huge area, it would still take a lot of time to complete the reclamation!

.....

At the same time, in the south, Hun River Principality's sorghum had grown to maturity.

"Haha, so much sorghum, I'm going to make a fortune."

In Hun River Principality, a small noble looked at the extensive area of sorghum in his territory and smiled as they harvested the sorghum.

To earn more gold coins, the aristocrat even planted sorghum in the yard of the castle.

Now, they finally had a chance to harvest sorghum.

The little noble quickly hired many civilians to harvest sorghum.

When they harvested the sorghum, a noble from the Xi Ling Kingdom pulled away from it.

This time, the aristocrat had earned over two thousand gold coins.

If he cultivated rice, he could only earn a thousand gold coins.

As soon as the sorghum was harvested, the noble immediately hired the civilians to fertilize the pear field for a second planting.

The climate of Hun River Principality was quite good, and there was a church urging it to grow more than once a year.

"Haha, this time I made a lot of money."

The noble counted the coins in his bag and was so happy that he did not sleep for the entire night.

"Send someone to buy a hundred kilograms of sorghum wine made by the Xi Ling Kingdom tomorrow. By the way, their sugar is quite good, as well as milk."

The little noble calculated.

During the harvest season of sorghum, there were not many nobles like him in Hun River Principality.

Every noble counted their gold coins happily.

His eyes were filled with gold.

Their income was little.

It could be said that he earned a lot.

The next day, he spent a lot of gold coins to buy the sorghum wine made by the Xi Ling Kingdom.

The price of this wine had increased by a factor of two.

But the higher the price, the more people bought.

The milk that the Xi Ling Kingdom had recently brought was quite good, A large number of nobles bought it.

Although the price was a bit higher, he had earned so many gold coins, anyway.

The gold coins they earned were all pretty good, and magic also protected them. They were just enough to spend the coins they had stored in Hun River Principality.

There was another type of sugar that was also popular with the nobles.

In addition, in the luxury market, diamonds produced from the Yan Nation had become popular among the nobles. Some nobles were willing to throw a thousand dollars into it.

In the eyes of the people of the Hun River Principality, the gold coins in the Xi Ling Kingdom were being earned by them.

However, in the temple of the Xi Ling Kingdom, Lin Yan's group of Holy Maidens saw Hun River Principality's gold coins being earned by them.

Sorghum's price was used to its maximum.

Sorghum was used to brew wine.

As the sorghum in Hun River Principality was sweet sorghum, the sorghum stalk was used to make sugar. Naturally, this process was passed down by Lin Yan, so Hun River Principality could not imitate it.

Milk and diamonds were sold to Hun River Principality.

That was why Hun River Principality seemed to have made a fortune selling sorghum. Their gold coins had been earned by the Xi Ling Kingdom and Yan Nation in a more lucrative way.

More importantly, no one in the Hun River Principality was aware of the crisis.

The land that was still planted with grain was already less than 10%!

Chapter 224: The Horton Kingdom has launched a big move! Descend Incarnation!

“The Xi Ling Kingdom has already armed 500,000 Royal soldiers, and their equipment has been updated. I have incorporated the Church's regular Knights and magisters?

into the Royal Army. The Church's Temple Knights and magisters have 5,000 people each."

In the Temple, Luo Ying, who was now the queen, told him about the recent reorganization of Xi Ling Kingdom's army.

The current Xi Ling Kingdom was a union of government and religion. There was no need for the Church's army to keep that much. They could only keep the most elite Knights Templar and magisters.

The Church's ordinary Temple Knights and ordinary magisters could be incorporated into the Royal Army, which could greatly improve the overall fighting strength of the Royal Army.

"The east-west straight path is almost finished, and the north-south straight path has reached the south underground."

When Luo Ying said this, she revealed a trace of doubt and said:

"Many people are building straight roads this time, but the construction speed is several times faster than when my father was in power. Is it because of my God's blessing?"

Hearing this, Qing Ling nodded and said, "Well, it's like this. The Yan Nation's construction speed is much faster."

What they were talking about was a bonus to the title of the Flame of Civilization.

The bonus effect of the title would naturally not be like playing a game; it could have a numerical expression.

The reality was not a game, so the bonus effect of the title was something that affected the kingdom Lin Yan had.

After taking down the Xi Ling Kingdom and including the Xi Ling Kingdom, Lin Yan's title of Flame of Civilization reached LVL 3.

If the Elf Empire was officially established, the title of Flame of Civilization would most likely reach LVL 4.

Once the Fox Lady Qing Ling's plan was completed, she could take down the Horton Kingdom and the Hun River Principality and combine the four king-ranked countries into a small empire. Then, the title of the Flame of Civilization could reach LVL 5 or even higher.

The effect of this bonus was more important for crops than construction.

This was the influence of the Rule Rank.

The most obvious thing was that in the Flame Kingdom and the Xi Ling Kingdom, the potato production was getting higher and higher, the quality was getting better, and the growth cycle was getting shorter.

The yield of rice and other crops was also increasing.

In addition, the weather and climate were also quite good. There were no climate disasters or geological disasters.

Another thing was that the chances of newborn babies surviving were even higher. The chances of ordinary people getting sick were also decreasing, and their lives were also increasing.

.

These two Kingdoms were both moving towards their ideal countries.

“When are we going to attack the Horton Kingdom?”

Luo Ying asked again.

Qing Ling and Meng Ying looked at each other. Meng Ying said, “I’m still close to the ninth rank. Once I reach the ninth rank, it will be time for us to make a move.”

Luo Ying nodded. “Well, then I’ll ask the Royal Army to strengthen their training. This time, we’ll destroy the Horton Kingdom in one fell swoop and bring the Horton Kingdom under the glory of my Lord.”

.....

When Lin Yan’s saints were planning to attack the Horton Kingdom.

The Horton Kingdom.

The capital of Horton Kingdom had been rebuilt.

The Palace and Church headquarters were moved to new locations

The Horton Kingdom used a large number of magisters.

With the participation of these images, the Palace was built in only a month. The scale was not much smaller than before.

The new Church headquarters was built even faster. It was a huge and magnificent Church.

All the walls in this Church were made of glass. It was colorful, luxurious, and expensive.

At the top of the Church, there was a thick golden roof.

This Church used up more gold than Count Slo’s golden hall.

However, due to the addition of the magisters and even the Holy Spirit, the gold was also given a Holy color. Their luster was slightly suppressed by the magic. This way, it would not appear to be overly exaggerated, and it would not have the slightest bit of explosive aura.

For the sake of this Church, the Church of the Horton Kingdom had gone to great lengths.

The reason they were like this was understandable.

Even the headquarters of the Church had been torn down by others. If they didn’t do it quickly, the Church’s prestige would be reduced.

Behind the Church, there were many Church buildings.

This was the structure of the Church headquarters of the Human Kingdom on the Continent of the Gods.

.....

At this moment, in the depths of these buildings, in a huge palace, three Holy Spirits from the Heavenly Realm were standing in front of an altar.

There were a few higher-ups of the Church behind the three Holy Spirits.

“How is the recent movement in the Xi Ling Kingdom?”

A Holy Spirit asked.

“According to our spies, most of the people in the Xi Ling Kingdom are reclaiming land and constructing roads. A large number of nobles are bringing Yan’s native Divine beans to Hun River Principality for sale. It’s very lively now.” A bishop reported.

“Looks like the Xi Ling Kingdom won’t attack us soon.”

A bishop guessed.

“I don’t think so. The Lord of Flame of the Xi Ling Kingdom already has two Kingdoms. Now that these two Kingdoms have been integrated, I’m afraid the war will soon come.”

Another bishop said.

The three Holy Spirits quietly listened to their discussion and did not interrupt.

The three Holy Spirits had been recovering their strength in the Horton Kingdom for a while and were waiting for their God’s next move.

Initially, they thought that their God would send more Holy Spirits down, so they dispatched many Church members to find suitable containers throughout the Horton Kingdom.

Of the nearly 20 million people in the entire Horton Kingdom, such a container could not be completely killed, but it was very difficult to find.

It was very difficult to find in such a short time.

Chapter 225: The Horton Kingdom has launched a big move! Descend Incarnation!

The last time the Holy Spirits of the Xi Ling Kingdom killed them was only the “containers” the Church had stored for many years.

Under the relentless search of the Church, they finally found two new “containers”.

However, their God had never sent down a new Oracle, nor had a new Holy Spirit descended.

As the Holy Spirit of God, they guessed that their God must brew something.

At that moment, the Holy Spirit’s expression changed.

“I passed down the oracle.”

The Holy Spirit said that.

At the same time, the other two Holy Spirits received the Oracle.

After hearing the Oracle, the three Holy Spirits looked at each other and revealed a look of joy at the same time!

Because their God had developed a great skill!

In their eyes, it was a great move that could turn the tables.

No, it wasn't just a flip.

Their gods had sacrificed their lives this time. It seemed that they were prepared to take down the Xi Ling Kingdom, Yan Nation, and even the Hun River Principality in one fell swoop. They wanted to merge the four kingdoms into a small empire so that it would only need a few years to become a third-rank God!

“Let's go prepare!”

The three Holy Spirits immediately gave orders to prepare what their God needed.

.....

Their Gods needed too much.

Fortunately, the Church of the Horton Kingdom had existed for a very long time and accumulated a lot. In less than three days, they had gathered everything they needed.

Then, the three Holy Spirits returned to the palace and held a mysterious ceremony.

This ceremony was naturally not evil.

Most of the Gods of the Heavenly Realm did not have evil rituals.

At the same time, inside and outside the cathedral outside the Church headquarters, tens of thousands of the most loyal believers sang their praises and prayed to their gods.

Countless lines of faith were opened.

These lines of faith were quickly twisted into a mass by a certain existence.

Then, in the sky, a bright tunnel opened.

A dazzling light shone out from the tunnel!

“Oh my God, is this?Heavenly Realm's door open?”

Countless believers raised their heads and looked at the sky. Everyone looked excited.

In this?movement, even the Holy Spirits weren't?descended.

The arrival of the Holy Spirit from the Xi Ling Kingdom was a secret, and?it didn't cause much noise.

The arrival of the Holy Spirit from the Horton Kingdom didn't make much noise due to the lack of time.

Of course, when the Holy Spirits would descend, they could do such a thing.

The believers thought that the Heavenly Realm's door was open. They looked up excitedly, hoping that the back would appear in the scenario.

Immediately, they saw a figure descending from the tunnel.

When the figure descended, the passageway suddenly closed, and all the light gathered on him.

The myriad of rays of light was all around him!

This figure had the most powerful and beautiful figure. His face seemed to be covered in a layer of mist and made it impossible to see his expression and appearance.

But every believer who saw it could feel an unparalleled sense of dignity and holiness.

With just a glance, both men and women were intimidated. The Faith in their hearts instantly became a hundred times more devout.

This instant devotion to faith made them feel as if their hearts had been refined!

“My God has descended!”

In the palace, a Holy Spirit looked at the man in the sky.

Then, he lowered his head.

Hearing his words, the surrounding bishops all revealed looks of disbelief, and then crawled to the ground as fast as they could.

“My God has descended!”

These words quickly spread throughout the entire city. On this day, hundreds of thousands of people poured out of the streets of the Horton Kingdom, crawling on the ground, expressing their faith in the gods in the most devoted way.

.....

“The God of the Horton Kingdom has descended!”

In the Xi Ling Kingdom's Temple, Princess Luo Ying handed a magic letter to Meng Ying and Qing Ling with a serious expression.

“What?”

The Holy Maidens were shocked.

Meng Ying and Qing Ling quickly read the letter and handed it to the other Holy Maidens.

There was only one thing in this letter. The God of Horton Kingdom had descended.

After a few Holy Maidens finished reading it, their expressions were solemn.

However, they were not too worried.

“It should only be the incarnation of God.”

At this moment, Luo Ying spoke.

Luo Ying now became a fifth-ranked magister. In terms of the magic realm, she was the lowest of Lin Yan's Holy Maiden.

However, her experience was not comparable to Meng Ying's.

This was determined by her previous position.

She was a Royal Princess of the Human Kingdom. Many of the books she had come into contact with since she was young were books that Ming Ying could never have come into contact with.

"I'm not sure what kind of strength the incarnation of God has. Wait, a minute. I'll let my aunt analyze it."

Princess Luo Ying said.

Chapter 226: Forbidden Energy! Three ninth-ranked Legends!

The Eldest Princess soon arrived.

During this period, the Eldest Princess had been cultivating in the Xi Ling Kingdom. Her strength had improved greatly.

After all, she had obtained the Divine energy of the Holy Spirit.

The Eldest Princess was not like Meng Ying. She was Lin Yan's favorite, so she was still a little away from the ninth rank.

"The God of the Horton Kingdom has descended?"

After this disappearance, the Eldest Princess was slightly surprised.

Then, she found a magic book in her magic bag.

She turned the book to a page and handed it to the girls.

Everyone looked around.

"Twenty years ago, during the battle in the Human Kingdom to the west of the Eternal Night Empire, the avatar of a God appeared. At that time, the avatar of a god was almost at the legendary realm, namely rank nine!"

The Eldest Princess said.

"Is the incarnation of God only ninth-ranked?"

Luo Ying asked.

The Eldest Princess said, "Of course, God's avatar will have to pay an enormous price to come to the Continent of Gods, and it will be suppressed even more. Moreover, once it is lost, it will lose as much as a quarter of its strength. It will also take a lot of time to prepare to descend, and it will also take a lot of treasures. Under normal circumstances, no God is willing to be an avatar."

What she said was the truth. The Gods of the Xi Ling Kingdom were not willing to send down their incarnations in the face of defeat. Instead, they chose the Holy Spirit.

The Eldest Princess continued:

“The power of Sanctuary isn’t that easy to get. If the God of Horton Kingdom wants to descend into the incarnation of Sanctuary, even if he’s a second-ranked God, he’ll still have to pay more than half of his power. In addition, he’ll face the greatest risk. The incarnation of Sanctuary needs to carry the power of God’s Rule Force, and the power of God’s Rule Force is complete. If he dares to descend into the incarnation of Sanctuary, he’ll risk his life to hunt him down.”

Luo Ying said:

“In other words, as long as Meng Ying reaches the ninth rank, she will be able to fight one?”

The Eldest Princess shook her head and said, “It’s very difficult.”

Seeing that the Holy Maidens were looking at her, she explained:

“God’s incarnation is only ninth-ranked, but don’t forget that he’s a God. Even if he doesn’t have complete God’s Rule Force, as long as he stays in the God Legion for two days, he’ll be able to pull easily some God’s Rule Force out. He’s already at the rank of a Holy Realm. At the very least, he’s at the rank of a beginner.”

After that, she said, “So, you still have to pray to my God. This is a war between gods. However, after God’s incarnation, the three Holy Spirits will probably be promoted to the peak of eight ranks or even ninth rank. Meng Ying, that’s our opponent.”

Meng Ying nodded firmly.

The Eldest Princess added, “If my guess is correct, the incarnation of God should take three days to adapt to the laws of the Continent of the Gods. In three days, the Horton Kingdom will definitely attack. During these three days, I happen to be familiar with the newly learned forbidden spell.”

The Eldest Princess spoke all her guesses.

Having such a knowledgeable member was not bad.

Sometimes, knowledge was very important.

In fact, Lin Yan’s few Holy Maidens were studying. They were also reading a lot of magic books to expand their knowledge.

After hearing the Eldest Princess’ words, Meng Ying said to Qing Ling, “Let’s pray to my God. In these three days, I should be able to become a ninth-ranked legend.”

Qing Ling nodded.

Meng Ying then said to Luo Ying, “Luo Ying, let the army be prepared. Let’s go to the southern highland to fight!”

Luo Ying nodded. “Okay!”

.....

The Horton Kingdom had completely moved. They had already completed their recruitment. This time, their recruitment was even larger. The Horton Kingdom, with a population of 20 million, had recruited a million troops!

The comparison between population and military strength reached 20:1!

The morale of the Horton Kingdom's army was unprecedentedly strong due to the descent of God's incarnation. It could be said that the entire Horton Kingdom was united. As compared to the previous Xi Ling Kingdom, they were two different concepts.

This battle would be a tough one.

On the other side of the Xi Ling Kingdom, the 500,000 Royal Troops had also been dispatched, marching towards the southern highlands from the newly constructed road.

The Yan Nation's 200,000 troops were also dispatched.

In this battle, the Yan Nation and the Xi Ling Kingdom mobilized a total of 700,000 troops!

In terms of the number of troops, although it was 300,000 less than the Horton Kingdom, the quality was quite high.

In the army of the Horton Kingdom, there were many soldiers recruited from nobles. Their combat strength was actually worrying.

Such an army not to mention the Yan Nation's orc army.

Even the Royal Army was able to defeat them two or even several times.

.....

There was a huge carriage in the Yan Nation's army.

The horses that pulled the carriage were all raised in the Yan Nation's northern plains. These horses were all selected, and they were especially tall.

In fact, these horses were used by the heavy cavalry of the Royal Army.

Although the Centaur warriors were strong, their numbers were still a bit small. The Xi Ling Kingdom was now part of Lin Yan's Kingdom, so they had to arm the heavy cavalry of Xi Ling Kingdom.

This was a good addition.

Inside the carriage, there were Meng Ying, Qing Ling, and Luo Ying.

The Eldest Princess was sitting on the back of a magical beast, guarding the sky.

Qing Ling had reached the seventh rank.

As for Meng Ying, she was still close to becoming a ninth-ranked magister.

When the Fox Lady Qing Ling prayed to the Lord of Flame, she had received the Lord of Flame's enlightenment.

There was only one word for that revelation!

Battle!

This word filled them with confidence.

Even though the God in front of him had descended into his avatar.

But if God said battle, then battle!

Moreover, they believed that they would win!

.....

After Lin Yan's revelation, he looked at Meng Ying.

Meng Ying was still too young.

It had been a year since she met Lin Yan in the Misty Mountains Range.

Chapter 227: Forbidden Energy! Three ninth-ranked Legends!

However, in the past year, she had risen from the second rank to the eighth rank. She was about to become a ninth-ranked legend.

She was only 17 years old.

A 17-year-old legend!

If someone was just thinking about it would be frightening.

However, it was precise, because she was too young and didn't live like Lomina of the Night Elf tribe for hundreds of years. She possessed profound knowledge and a calm attitude, so Lomina was able to quickly breakthrough to the ninth rank, while Meng Ying was still close.

"The blessings of ordinary Divine energy probably won't be able to play a decisive role in Meng Ying's current help. The blessings of high-ranked Divine energy can increase Meng Ying's magic sense by a little, but Meng Ying doesn't need to increase her magic sense right now."

In the Abyss, Lin Yan was thinking.

"Oh right, try the Chaotic Divine energy!"

Lin Yan suddenly thought.

If the Chaotic Divine energy was directly applied to Meng Ying's body, it would be no different from sacrifice.

That was to pull out a seedling to help grow up, and it might even ruin the dream.

But now, Lin Yan was only using the Divine energy of Chaos as a driving force to use the virtual godhood's blessing!

This was not a problem.

It was a good time to try. There was no difference.

Hence, Lin Yan stuffed a drop of his Chaos Divine energy into his virtual godhood.

.

Just as he was about to use his blessings, Lin Yan sent another drop of ordinary Divine energy in.

These two types of Divine energy couldn't be fused, but shouldn't they be able to use them to bless at the same time?

Then, the blessing was activated!

Then, Lin Yan saw that on the carriage, Meng Ying's body suddenly emitted an extremely shocking wave. She had directly risen to the ninth rank!

This?

Lin Yan did not expect the effect of this blessing to be so good!

“Why do these two powers work together?”

Lin Yan thought about it and gave the Eldest Princess, who was on guard in the sky, a hint.

“Eh, my god is preparing to bless me?”

When the Eldest Princess was enlightened, her expression became solemn. She sat on the flying magical beast and entered a meditative state.

After that, Lin Yan once again used his Chaotic Divine energy and ordinary Divine Power to mix and once again blessed her!

After this blessing, Lin Yan observed.

He saw that the magic wave in the sky was exceptionally intense. The Eldest Princess' face was filled with shock, but she was still meditating. She was not willing to let go of this opportunity.

After only three minutes, the Eldest Princess revealed a look of joy, and the aura she exuded also became a little childish.

She had also reached the ninth rank!

“Thank you, God!”

At this moment, the Eldest Princess was filled with gratitude towards the great Lord of Flame.

No matter what, she never expected that the blessing of the Lord of Flame would directly raise her to the ninth rank!

She was only at the middle eighth rank!

Even if she had the Divine energy, she still needed a lot of time to break through to the ninth rank!

.....

In the Abyss, Lin Yan saw this scene and had some guesses.

He once again threw it into Chen Xi above the Dark Forest.

Chen Xi was also at the eighth rank!

When Lin Yan gave Chen Xi a hint, he also used a drop of Chaos Divine energy and a drop of ordinary Divine energy to bless her.

As Lin Yan expected, a few minutes later, Chen Xi had successfully broken through to the ninth rank!

In other words, in such a short time, Lin Yan had used his blessings to create three ninth-ranked experts.

Their cultivation ranks were crucial.

Legendary ninth rank!

Many of the forbidden spell magisters of the Continent of Gods had been stuck at peak eighth rank for hundreds of years.

However, under Lin Yan's three blessings, they were able to accomplish it easily.

“Chaotic Divine Energy!”

Lin Yan grasped the key.

No, it's not just chaotic Divine Energy.

It was the result of the combination of the Chaotic Divine energy and the Divine energy.

This effect was no longer as simple as increasing one's magic talent and temporarily increasing one's magic perception.

Instead, it was equivalent to a direct increase in cultivation.

“I wonder if there are any side effects.”

Lin Yan thought.

He still had to observe for a while.

However, Lin Yan was certain that regardless of whether there were side effects, this was already forbidden energy!

“Let's try to give it a blessing. What will the effect be like?”

Lin Yan was prepared to give Lomina a blessing. Then, he realized that the virtual godhood's blessing function had become gray.

It was no longer usable.

It wasn't that he couldn't use it anymore. He could still use the Divine energy of the Heavenly Realm.

He could use it alone.

However, when the two powers were combined, it was no longer acceptable.

It seemed like he had entered the CD.

Chapter 228: World War! The Confidence of Horton Kingdom.

On the land of the Xi Ling Kingdom, 700,000 troops pulled out dozens of kilometers of troops and headed towards the southern highlands of the Horton Kingdom.

In the sky, the Eldest Princess and two thousand winged soldiers were flying in front of them, warning them of a possible surprise attack.

In front of them, there were squads of winged soldiers guarding.

When the straight path was repaired, the army's speed increased greatly.

Only three days later, the army arrived at the southern highlands of Horton Kingdom.

"Let the army set up camp."

Meng Ying gave the order.

She would be the commander-in-chief of this war.

The army began to set up camp. The white tent stretched for dozens of kilometers.

Meng Ying and the Eldest Princess, as well as the Fox Lady Qing Ling, were gathered together.

"Meng Ying, you're already ninth-ranked?"

The Eldest Princess felt the change in her dream.

Meng Ying also sensed the change in the Eldest Princess. "Eldest Princess, you're ninth-ranked? too?"

.

Meng Ying was surprised.

She was only a short distance away from the ninth rank, but the Eldest Princess was far away from the ninth rank!

But now, the Eldest Princess became a ninth-ranked legend like her!

The Eldest Princess nodded, a grateful expression appeared on her face:

"My God gave me a blessing. This time, the blessing allowed me to see the legendary secret, so I stepped in."

After that, the Eldest Princess said:

"My God's power is really as vast as the sea. I've read many magic books, and I can see the legendary mysteries directly like my God. There are no records in any magic books!"

Meng Ying pondered for a moment and said, "Eldest Princess, this matter cannot be spread."

The Eldest Princess said, "Don't worry, no one else will know about my God."

The Eldest Princess was knowledgeable and had a deep understanding of the Gods. She naturally knew what Lord of Flame's methods meant.

It was just a blessing, and she had risen from a mid-stage eighth rank to a ninth rank legend.

And there were no side effects.

Even the God of the third stage could not do it without the Heaven Barrier.

She would never tell anyone about this.

At most, they would only discuss with the Holy Maiden of the Lord of Flame!

“Meng Ying, the army of Horton Kingdom is here!”

At this time, a winged warrior flew over to report to Meng Ying.

The army of Horton Kingdom had arrived.

After their incarnations descended, they were ordered to march towards the southern highlands.

On the way, their god could take some of the rules of the Continent of the Gods and they could use them to strengthen themselves.

The reason why they were in such a hurry was simple. Their god was afraid that the Lord of Flame would also descend into their incarnation.

It would take a lot of time for the avatar to descend. It would also require a large number of things to be prepared in the lower realm.

It was more troublesome and time-consuming than sending down the Holy Spirit.

That was why the military of the Horton Kingdom had moved on the day when God had descended.

It took a lot of time for them to reach the highlands.

These few days were also the time for God’s incarnation to continuously increase its power.

....

A million troops arrived at the southern highlands.

In addition to these million troops, there were a large number of ordinary people from the Horton Kingdom.

These ordinary people didn’t know that their God had only descended into an incarnation.

The people of the Horton Kingdom believed that their God had arrived.

This matter had gone crazy in the entire Horton Kingdom.

That was why countless people came over. They were all here to watch the battle.

The battlefield was dangerous.

In the eyes of the people of the Horton Kingdom, the army of the Xi Ling Kingdom had not collapsed when their God attacked.

On the southern highlands, there were many citizens of the Xi Ling Kingdom watching the battle.

Although the great Lord of Flame didn’t have an incarnation or a miracle, the citizens of the Xi Ling Kingdom had little faith in the Lord of Flame.

After two months of development, the people of the Xi Ling Kingdom recognized the Lord of Flame.

There was no need to say how powerful Lord of Flame was.

However, aside from being powerful, the Lord of Flame was different from the other powerful Gods.

When they became the believer of the Lord of Flame, they lived a good life that they never imagined before!

They were not only able to eat their fill, but many civilians had also joined the trade army and earned more money.

It could be said that the situation in the entire Xi Ling Kingdom had changed dramatically compared to two months ago!

Therefore, every citizen of the Xi Ling Kingdom hoped that Lord of Flame's soldiers would win!

Everyone hoped that the glory of the Lord of Flame would spread even further.

After many of these civilians joined the trade army, they naturally understood one thing: the bigger the Lord of Flame's kingdom was, the more prosperous it was, and the better their lives would be!

Besides the citizens of the Xi Ling Kingdom and the Horton Kingdom, there were many people from the Hun River Principality who came to watch the battle.

Some of the nobles sent most of them to Hun River Principality.

Chapter 229: World War! The Confidence of Horton Kingdom.

The reason was simple.

The nobles of Hun River Principality also hoped that the Xi Ling Kingdom would win.

This was because, after the victory of the Xi Ling Kingdom, they could continue to earn many gold coins from the Xi Ling Kingdom, and then they would enjoy the sorghum wine, white sugar, milk, and diamonds from the Xi Ling Kingdom!

Some of the nobles were even planning to send people to help the Xi Ling Kingdom, but Princess Luo Ying refused.

In short, this was a world war!

This battle also affected the fate of the eastern Eternal Night Empire!

The Church of Hun River Principality must have sent people as well.

The gods behind the five churches already sensed danger, because no matter which side won, they would attack the Hun River Principality in the end.

Therefore, Hun River Principality was preparing for battle.

However, they didn't know how the Xi Ling Kingdom would fight against them.

.....

In the south there were highlands. It was an endless plain. There were many cities in the Horton Kingdom!

At this moment, on the plain, a dense group of soldiers appeared.

The millions of soldiers of Horton Kingdom were divided into hundreds of battle lines, drawing out a battle line that was 20 kilometers long and heading towards the southern highlands.

In the middle of this million troops were the most elite troops of the Horton Kingdom, the Royal Family, and the Temple.

There was not much of this army. They were only 200,000.

On the two wings of the middle army, there were the armies recruited from the nobles, with 400,000 on each side.

Last time, the Werewolf Warriors defeated the armored cavalry of Horton Kingdom. This time, their cavalry was much worse than before.

They built the current cavalry temporarily. Their combat strength was far inferior to the armored cavalry before.

In the sky above the millions of soldiers, there was a beautiful boat flying. Above the boat, there was a large white sail. On the white sail, there were many complicated magic symbols. It looked mysterious, but it was full of a delicate sense of beauty.

The ship was like the flat ground in the sky, as if the sky had become an ocean.

This was a magical ship.

Such a ship involved complex alchemy and much large-scale magic.

It wasn't that high-ranked magic could be created.

In the Continent of God, this was the product of a senior alchemist.

The price was quite high. The worst ship cost several million gold coins per ship, and the maintenance required a lot of gold coins, too.

It was difficult for the dwarves to create it because they were not good at it.

The dwarves were good at forging weapons and equipment!

The dwarves could disassemble it and then study it, with a fifth-ranked magister, they could create it.

As a legendary existence, Meng Ying and the Eldest Princess could create a flying ship if they spent their time researching it. However, that would be a waste of their time.

.....

“That's a flying ship. With such a large flying ship sitting alone, this Deity transformation is a bit of a show”

On the southern highlands, the Eldest Princess whispered when she saw the flying ship from a distance.

On the other hand, under the southern highlands, the people of Horton Kingdom saw the arrival of the flying ship. They all raised their heads and looked up with fervent expressions.

Many people knelt down.

Because they all knew that there was their god on the ship.

“Have the army reorganize and prepare for battle!”

On the southern highlands, Meng Ying gave the order.

Following her orders, the army of the Xi Ling Kingdom moved as well.

The 700,000 troops formed a line more than ten kilometers long, reaching the edge of the southern highlands.

In the middle of the 700,000 troops was the Yan Nation’s orc army.

They were on both sides of the Royal Army.

However, on the formation, Meng Ying placed the most elite Royal battle formation on the two wings, and the area that carried the orc army was a Royal war chariot that was strong!

Under the sunlight, the armor on the 700,000 soldiers became a dazzling line on the southern highlands!

This scene was quite shocking if someone saw it from the southern highlands.

Some of the people were shocked.

“What’s there to be afraid of? It’s useless. Our gods have descended from the Heavenly Realm. They will lose this battle!”

A citizen of Horton Kingdom said.

“Yeah, under my God’s might, they’ll be able to hold on for an hour.”

Some people spoke with ease.

“Our God is really strong. I heard that only a strong God can come down from the Heavenly Realm. There is no trace of the Lord of Flame in the Xi Ling Kingdom. He must be afraid.”

“En, that’s for sure. That Lord of Flame will be able to defeat my God’s subordinates. As soon as my God makes a move, this God will be terrified.”

Around the millions of soldiers in the Horton Kingdom, countless people from the Horton Kingdom said.

In their eyes, the outcome of this battle had been decided.

They were purely here to see how their Gods and their army could easily defeat the Xi Ling Kingdom and bring the Xi Ling Kingdom under the rule of the Horton Kingdom!

Not only these people had confidence in this battle, but even the ordinary soldiers of Horton Kingdom were also laughing and talking during the march. They did not care about the army of Xi Ling Kingdom on the highlands at all!

Chapter 230: Laws of Energy! It was comparable to a God!

“Flame of Destruction!”

Lin Yan's gaze swept across the system's interface.

After ranking up this time, Lin Yan had risen to the rank of the Destructive Flame.

But he was still not able to extinguish the Flame. It was just that the system panel did not specifically describe it because it was unnecessary.

By now, Lin Yan was able to maintain a very wide range, a very high temperature, and an indestructible state.

After rising to the Flame of Destruction, Lin Yan's temperature reached two hundred thousand degrees.

If he wanted to unleash a wild Flame, his temperature would be even more terrifying.

If he used his Divine energy to ignite it, the temperature would increase many times.

However, the biggest change was not in temperature.

There were several items on the system interface.

First, there was an additional column of laws.

100% for Flame, 25% for space, 35% for ice, 50% for forging...

"Is the power of laws the power of a God?"

Lin Yan said to him.

The ninth rank, Quasi-Saint, was also known as the legendary rank.

When he reached the tenth rank of the sanctuary, he began to contact the power of natural laws.

However, the power of the natural laws within the Saint domain wasn't complete.

The Saint domain of the Continent of Gods would take decades to hundreds of years to complete the laws they had come across.

If it took a long time, it might take thousands of years, or even thousands of years, tens of thousands of years.

It was more likely...

It would never be perfected!

Laws could not only be comprehended by themselves but they could also be stolen.

That was why if there was a God of the Heavenly Realm descending a Saint-rank incarnation because this Saint-rank incarnation carried a complete power of laws, the old Saint-rank experts of the Continent of the Gods would most likely take the risk to steal it.

Unless that God was extremely powerful such as the third rank God.

Once a certain Saint-rank domain completely grasped a certain natural law, they could use this natural law as the foundation to construct a Divine spark.

It would be a long process.

The divine spark was a magnificent pyramid. At the very top of this pyramid was the first and most powerful rule that this Saint-rank domain grasped.

If he went up, he would need to weave constantly new rules, but he did not need to master 100% of the new rules.

However, the more laws Godhood contained, the higher the mastery of each law, the stronger the godhood.

A God usually had a single rule.

However, more laws would allow one to better understand and understand the world.

The natural laws didn't exist in isolation, but among them, there was someone. They were entangled with each other, and many natural laws formed the secrets behind this world.

Once someone had grasped these secrets, someone would have grasped power!

.....

In the division of the Heavenly Realm, the Divine spark wasn't completely constructed, and it couldn't be considered an official God.

After the completion of the Divine spark, a God whose body had yet to be completed could not be considered an official God.

Only when the divine spark had been fully constructed and possessed a Divine body, someone could be considered an official God. This was the weakest God!

Normally, before godhood was formally constructed, it could stay on the Continent of Gods and quietly gather faith.

Even though such a God had come into contact with a God, he could only be considered a False-God.

False-Gods usually hid deeply. Unless they had no other choice, they wouldn't show themselves at all, because some Saint Domain experts would cover their godhoods and the power of the natural laws they grasped.

They were stronger than Saint-ranked experts.

However, they wouldn't be stronger than all Saint Domain experts.

Those powerful Saint Domain experts wouldn't choose to build godhood when they had mastered one of the natural laws to 100%.

Instead, he continued to comprehend the second and even the third.

If the bottom layer of the Godhood Pyramid was woven by two or more complete laws, this Godhood Pyramid would be more stable and it could be built higher and larger. Once they became official Gods, their strength would become extremely strong!

The foundation decided on the superstructure.

Saint-ranked experts like this were powerful. Otherwise, how would they dare to do such a thing?

.....

Like, Lin Yan's core rank couldn't be compared to the cultivation base of the Continent of the Gods.

It was also very difficult to match.

After all, even if Lin Yan was in the Eternal Heavenly Flame Realm, it would be easy for him to burn a forbidden spell or legend to death.

At that time, Lin Yan would be able to burn his God force!

Even the consciousness of the Gods could be ignited! What kind of flame could burn Divine energy?

Therefore, every time Lin Yan ranked up, it was very difficult for him to match up with the Continent of Gods.

However, there was one thing Lin Yan was certain of.

This time, when he rose to the rank of the Flame of Destruction, he could already pose a threat to the Gods.

It wasn't as though his godhood hadn't created a complete False-God.

It was an official God!

Before the Flame of Destruction, if Lin Yan exchanged blows with the true body of God, the biggest problem was not the Divine energy.

It was the problem of the power of laws grasped by the Gods.

Lin Yan was not sure if his flame could burn the laws.

But now, when Lin Yan ascended to the Flame of Destruction, his Flame laws became 100%.

With the use of laws, Lin Yan's current flame could be destroyed even if the Gods used the power of laws!

That was the true essence of the Flame of Destruction!
