

Flames 231

Chapter 231: Laws of Energy! It was comparable to a God!

Destruction, destruction, whether it was Divine energy or natural laws!

He didn't need to think about it to know that the energy points needed to burn the laws were massive. It was very likely that it was an astronomical figure. Perhaps it wouldn't even have any benefits!

When he encountered a complete set of laws, the use of energy points to burn probably wouldn't be of much use. One had to use Divine energy to ignite it to impact a better effect!

However, for Lin Yan.

As long as it would burn, everything would be fine!

.....

Lin Yan noticed that there were more than ten rules on the system's interface and behind the rules.

Only a small portion of what was displayed was hidden behind it. It could only be displayed with a single click of his mind.

It was like the laws of light and life.

Apart from the fact that the laws of Flame had reached 100%, these laws had not reached 100% yet. However, they at least reached 20%.

This was the law that Lin Yan obtained after devouring those special flames!

Lin Yan instantly understood!

Special flames involved some natural laws.

After being devoured by Lin Yan, when Lin Yan was modifying his outer layer of flame, he has naturally possessed the power of laws.

When he saw this situation, Lin Yan turned his gaze to the virtual godhood.

“Divine Name: Lord of Flame”

Deities Templar: 15

Holy Maiden: 8

Power of Belief: 102KW (KW = ten million)

Belief in Darkness: 208W

Divine energy: 25

Advanced Divine energy: 15

Chaotic Divine energy: 4

Godhood: Convertible

Divine Body: None

Kingdom of God: None

Skills: Blessing, Divine Technique, Analysis, Blessing”

There were three more columns in the virtual godhood.

.

Divine personality, Divine body, Divine Kingdom.

Lin Yan pondered for a moment before opening the description.

Soon, Lin Yan knew.

He could spend a certain amount of evolution points to transform his virtual godhood into true godhood.

Moreover, the conversion was completed instantly.

After the conversion, Lin Yan could build a Divine body and create the?Divine Kingdom.

Once the Divine body was completed, Lin Yan had two forms.

One form was a flame form.

The other form was the form of a Divine body.

His Divine body could also be completely composed of flames.

Divine bodies were not Human bodies.

It was a combination of energy and natural laws. How to construct a Divine body depended entirely on the body of a deity.

The mainstream of the Divine body was that of flesh and blood.

Many of the Divine bodies?of the Heaven Realm were constructed like this.

The same was true for the Elven?Goddess.

Their bodies were already very powerful. Creating?a Divine body was just to fuse some of the laws of power into their bodies, and then refine their bodies from the smallest cells, making every part of the body perfect.

To the male Gods of the Heavenly Realm, they paid more attention to their battle prowess.

There was always a difference between the males and female?gods. It was the nature of women to love beauty.

.....

Lin Yan looked at it for a while and withdrew his gaze from the virtual godhood.

“Not yet.”

Lin Yan said to him.

It wasn't time for the virtual godhood to be converted into true godhood.

To Lin Yan, even if he continued to evolve in the form of flames, there was no problem at all. His form of flames could evolve endlessly!

Moreover, he had virtual godhood. In some ways, he was no different from a true God.

Therefore, Lin Yan would not convert his virtual godhood for a short period.

To?transform, Lin Yan had to use a large number of laws to transform into the strongest godhood in history!

Therefore, Lin Yan decided to let go!

Right now, he didn't lack strength, so he didn't need to be in a hurry.

When he withdrew his gaze, Lin Yan continued to burn in the Abyss.

Although Lin Yan had evolved to the Flame of Destruction, his current Flame of Destruction was only first?ranked!

However, Lin Yan could burn him and collect his evolution points.

In the war Natasha waged, she could also take evolution points and the Dark Faith.

Even after becoming a Flame of destruction, Lin Yan's evolution required an extremely large number of evolution points. With so many of them, Lin Yan could still rank up quickly.

Apart from that, Lin Yan immediately received another Evolution Point.

“Transformation into a God, the evolution points should be very rich.”

Chapter 232: Fighting and advancing! Destruction Flame!

Lin Yan withdrew his gaze from the virtual godhood.

This time, he had gained a great deal.

He not only created three ninth-ranked legends, but most importantly, Lin Yan knew that combining the Divine energy of the Heaven Realm with the Divine energy of Chaos was an extremely high-grade power that could even break through to the Forbidden Realm.

Lin Yan once again turned his gaze to his virtual godhood.

He was now a tenth-ranked Immortal Divine Flame.

However, reaching the next stage required a lot of evolution points.

In this period, even though Lin Yan's faith cultivation was very large, which raised him by several ranks, he was still a bit too close to reaching the next rank.

That was equivalent to a breakthrough in cultivation!

In front of him, the Abyss was almost burned.

The entire Abyss was filled with flames, and everything had been burned.

He withdrew the flames and entered the next Abyss.

This Abyss was filled with cold energy. This was an extremely cold Abyss.

Lin Yan pondered for a moment. He left this extremely cold Abyss that would waste his time and entered a demon bug Abyss once again.

There should be enough evolutionary points to rank up after burning two more Abysses!

It would take at least seven or eight days.

"The incarnation of God, the power of rules."

Lin Yan whispered.

He cast his gaze at Natasha.

.....

At that moment, more than a million Succubuses had gathered beside Natasha.

The number of Demon hunters would only increase.

Such a vast group swept through the upper ranks of the Abyss. Everywhere the war of flames continued, marching towards the depths of the Abyss of Mobs.

Finally, on that day, they arrived at a vast Abyss.

This place was already the junction of the upper Abyss and the middle Abyss.

Natasha did not pass through the upper Abyss.

The number of the Abyss was endless. Even the upper Abyss was hard to count.

If they fought one by one, who knew how much time it would take?

Thus, they were advancing in a leaping manner.

The focus of their search was on the Red Earth Abyss, where there was a possibility of succubus, and the Demon Bug Abyss, where there was a Demon-Hunting Ant.

To the ordinary Succubus, the Demon-Hunting Ants could display their battle prowess a bit stronger than them.

A first ranked Succubus could control two to three Demon-Hunting Ants.

However, Demon hunters ate an enormous amount of food. Normally, Succubus in the Red Earth Abyss would not be able to support them; so many weak Succubus tribes did not have Demon hunters.

However, this problem no longer existed.

Along the way, they didn't need too much food.

Every time they passed through an Abyss, the Succubus would start a war. Once the war ended, the corpses in the Abyss would surely pile up like a mountain.

Weak corpses were naturally the food of the Succubus.

The flames summoned by Natasha and her powerful subordinates burned the corpse of the powerful Abyssal creature and turned it into Lin Yan's energy point and evolution point.

This method of harvesting energy points and evolution points was even more secretive and efficient.

.....

In the Abyss, as long as someone found a suitable path, someone could instantly jump into an enormous amount of Abyss.

However, from the upper Abyss to the middle Abyss, there was no way to pass directly through the tunnel.

He had to go to a World Abyss, which was a specific passageway in the Abyss where the Succubus was located.

This Abyss was especially large. There was a powerful Abyssal creature guarding it. It was an Abyssal Creature known as a bone picker.

In the lower rank of the Abyss, the Bone pickers were one of the demon servants. They managed this layer of World Abyss, and all creatures who wanted to go to the middle rank of the Abyss had to get their consent.

They reduced those who were not strong enough to come here for their food.

"So many... Succubus?!"

In the Abyss, there were bone makers who saw countless Succubuses walking out from the passage in the upper Abyss. Their eyes were all straight.

As demon servants they had ugly looks, they were also abyssal creatures that could speak before becoming Abyssal Lords.

"Quickly... inform the leader!"

Within this world Abyss, a large number of bone pickers appeared.

These bone pickers were guarding the passageway leading to the middle Abyss. There were probably hundreds of thousands of them.

Although their numbers were less than the Succubus, they were not afraid of the succubuses.

“Why didn’t you Succubuses hide in the Red Earth Abyss? Why did you come to the World Abyss?”

In the World?Abyss, a boneless lord appeared.

This was an Abyss Lord with flesh wings.

Because of the existence of the meat wings, it didn’t need to waste any extra energy when it flew, which made it more agile and powerful when it fought in the air.

“Leader, it seems like this boneless man has received a reward from a Demon. He’s probably a bit powerful.”

Next to Natasha, Chris whispered.

Natasha flew to the front and looked at the leader of the bonitos and said:

“We need to pass through here.”

The boneless leader smiled cruelly, “Of course you can. Leave half of the Succubus. Although you’re weak chickens, you eat well. I’ve always been able to eat succubus at the dining table when I fought with the Master?in the Abyss. Tsk Tsk, I miss that taste.”

At this point, the boneless man stuck out his long tongue and licked his lips.

Natasha’s eyes turned cold.

“You look delicious. You have to stay. Are you preparing for war? Tsk Tsk, don’t you know that the number of bone?pickers?is always the highest?”

As soon as the leader of the bone?pickers?said that Natasha saw more bones coming from afar.

On both sides of the Succubus army, many bone pickers emerged from the many tunnels.

The Abyss around this World Abyss was occupied by these bone pickers.

According to?the size of this World Abyss, the number of bone pickers would most likely be unimaginable.

Their population was?more than the Succubus!

“Chief, we are surrounded!”?Succubus’ expression changed slightly.

“Chief, it’s not good; our back way has been cut off.”

Immediately, another Demon came to report.

Chapter 233: Fighting and advancing! Destruction Flame!

In the Abyss, countless Abyssal Bone Pickers surrounded the Succubus.

The leader of the bone?pickers?flapped his wings and flew into the air. He looked down at the Succubus, his expression turned?cruel.

Although there were many Succubuses, there were even more boners.

“You succubus, you’ve embarrassed the Demon. Look at your bodies. You’re weak and have soft bodies. Other than becoming food, you’re useless. Perhaps you were born in the Abyss to improve our food. After all, you’re the only Demon we can eat. Tsk Tsk, are you angry? If you leave half of the Succubus and yourself, you can pass. Oh, you can still choose war.”

The leader of the boners had a look of mockery in his eyes.

As the leader in?the boners who had been rewarded by the demon, it was similar to the demon in some ways.

Demons liked to play around with people’s hearts, and they often went back on their word. Even if Natasha left half of the Succubus and herself, this boneless person would not let go of the entire Succubus present.

They had taken the initiative.

On the ground, the entire Succubus heard what the leader of the bone pickers?said, and all of them revealed expressions of righteous indignation.

However, when these?Succubuses saw the bone pickers around them, their hearts were filled with despair.

There were too many bone?pickers!

Before they reached the middle Abyss, they had already met so many bone pickers.

Once they entered the Abyss, with their numbers, they were not enough for the demons in the Abyss!

Bone pickers?were just one of the Demon servants!

However, there were more succubuses and more powerful Demon-Hunters in the middle Abyss.

For the Succubus army, the number of Demon-Hunting Ants was crucial.

The living environment in the Abyss was bad. Every Abyssal creature was a warrior.

Unlike the Human Kingdom, they had over 20 million people. Even if they tried their best, they could only produce two million soldiers.

Therefore, the scale of the war in the Abyss was exceptionally large.

Someone?could?imagine that if 20 million people in the Xi Ling Kingdom?and?20 million people in the Horton Kingdom were all soldiers, then?the war between the two kingdoms?would be the scene of many wars in the Abyss.

“Succubus leader, what is your choice?”

The leader of the bone makers?looked at Natasha with a confident expression.

Natasha finally moved.

She said indifferently, “My choice is you die!”

“Hehe, this is probably the funniest joke I’ve heard this year.”

The boneless leader laughed, his face was full of ridicule.

But immediately, its smile froze on its face, because it felt that its head was pinched by Natasha.

Then, intense pain came.

“Ah, what have you done to me? Let me go, let me go!”

The leader in the bone maker’s army shouted.

Natasha let it go. She gently let go of her hand, and the leader of the bone pickers felt that it had fallen to the ground and bounced twice.

Then, the boneless leader saw a headless corpse struggling on the ground.

On the corpse, a pair of flesh wings was particularly familiar.

Wasn’t it the meat wing it had gained after being rewarded by the Demon Master for its heroic battle?

That was its corpse!

The leader of the bone pickers screamed crazily. Its life force was strong. It could still survive if its head was taken off, and it could even receive it again!

But

Boom!

Then, a green flame covered it.

“Kill them all.”

The boneless leader heard Natasha’s cold voice before the flames burned out.

The millions of Succubus and millions of Demon-Hunting Ants attacked the bone maker’s army.

.....

The war in the Abyss had no rules, nor did it require rules.

In the upper layer of the Abyss, Lin Yan’s gaze had always been on this layer of the Abyss, but he did not make a move. He was watching the war with a calm gaze.

.....

When the core Succubus prayed for the Evil Flames, the virtual godhood automatically distributed the Evil Flames.

In this battle, Succubus had an absolute disadvantage in terms of numbers and strength.

However, many demon-hunting ants were able to eliminate this disadvantage, and the core Succubus continued to release the Evil Flames. The powerful Bone maker’s hooks were forced back, and they were defeated.

This was Succubus's first battle.

This battle took an entire day and a night. Countless bone-makers were killed, and corpses piled up like mountains.

The Demon-Hunting Ants got a lot of food, and after eating it, their strength increased.

To a certain extent, the Succubus tribe's battle prowess was large because of Demon-Hunting Ants.

However, the weaker Succubus was unable to control the stronger demon-hunting ants. They could only cultivate them from their cub form.

To grow up as a Demon-Hunting Ant cub, it needed too much food to be affordable to the Succubus.

However, in the ongoing war, their food problem was solved.

Layers after layers of Abyss came down. These demon hunters were already strong, and they had even exceeded the expectations of many Abyssal Succubus.

The key to winning this battle was the continuous release of the Evil Flames on the battlefield!

"Boom!"

Natasha summoned a ball of Evil Flame and turned the corpses of many third-ranked debouches into ashes.

"My God's eyes are on us. You are all-powerful warriors of my God. Believe me, when we reach the depths of the Demonic Abyss, our strength will be enough to shake the entire Demonic Abyss!"

Natasha flew into the air and shouted, "Lord of Flame".

Millions of Succubus started shouting.

.....

"That's enough."

After Natasha burned the mountain of boned corpses, Lin Yan gained enough evolution points.

Then, he chose to rank up.

Host: Lin Yan

Flame Core Rank: Flame of Destruction (First Rank)

Flame Layer: 42

Maximum temperature: 20W

Evolution point: 0.8W

Energy Points: 2189MW

Current Revenue: 11.6W points/sec (floating)

Current Consumption: 8.9W points/sec (floating)

Skills: Berserk Burning, Eye of Detection, Continuous Burning, Healing...

Heavenly Flames: Lava Flames, Cold Flames, White Flames, Burst Flames, Ice Flames, Bone Cold Flames, Abyssal Demonic Flames, Black Flames, Annihilation Flames, And Holy Flames.

Water Resistance 100%, Ice Resistance 100%, And Lightning Resistance 100%

Rules: Flame?Rule (100%), Space Rule (25%), Ice Rule (35%), Forging Rule (50%):

Title: Flame of Civilization, Flame of Law

Item: Virtual Godhood

[Other: None]

Chapter 234: ?Legendary! What about the forbidden spell?

“Stop!”

In the sky, a Holy Spirit gave the order through a large-scale amplification spell.

Following his orders, the millions of soldiers of the Horton Kingdom stopped at the same time.

They did not stop under the southern highlands. Instead, they stopped over ten kilometers away from the southern highlands.

They?were not prepared to attack.

“This God transformation is cautious.”

On the southern highlands, Meng Ying whispered something and then gave the order:

“March!”

Seven hundred thousand troops from the Xi Ling Kingdom and the Yan Nation’s Army began to spread out from the southern highlands.

After some time, 700,000 troops arrived at?the southern highlands, several kilometers away from the army of the Horton Kingdom.

Soldiers from both sides stood on the plains.

On the southern highlands, the citizens of the Xi Ling Kingdom who had come to watch the battle rushed up and looked down at the world-shaking battle!

There were many people from Hun River Principality.

From the top to the bottom, this battlefield was about 20 kilometers long, and it was also about 10 kilometers deep!

This was a huge battlefield!

The Horton Kingdom used a battle formation of ten thousand people. One battle formation had ten thousand people, and there were one hundred people in each direction.

A million troops?formed?a hundred battle formations.

There were also some small battle formations, such as the Temple Knights, the Magic Division of the Temple Knights. There were not many people in one battle formation!

There were several layers of battle formations in the middle of the Central Military Region. There were a large number of magisters and Knights in the middle, while the battle formations on the two wings gradually thinned from the inside out, equivalent to a large wing!

On the other side of the Xi Ling Kingdom, the Royal Army was also in a battle formation of ten thousand men. However, the battle formation of the orcs was made up of 2500 men.

Especially the Lion soldier's battle formation.

Lion soldiers were too big. Their battle formation of 2500 people was even bigger than the human battle formation of 10,000 people!

The bear warriors were even more terrifying.

However, there were only 2,000 bear warriors. Now, these 2,000 were divided into 50 groups, each with 40 warriors. They held a heavy shield and were distributed in front of each battle formation. Even if someone looked at them from a few kilometers away, it was extremely shocking!

"Is that the orc army of the Yan Nation?"

In the battle formation of the Xi Ling Kingdom, some soldiers were discussing quietly.

Now, the two sides were only a few kilometers away from each other. They could already see each other.

"They look big. Look at their shields. They're taller than us."

A soldier said.

"These orc warriors are a little scary. Do you remember the last time that our armored soldiers fought with their soldiers and werewolves, but they were wiped out before they could last for ten minutes? There were tens of thousands of armored cavalry!. Even a square like us wouldn't be able to withstand the attack of the armored cavalry, but they died so quickly!"

Another soldier from the Horton Kingdom exclaimed.

Before the incarnation of God, the morale of Horton Kingdom was not ordinary.

Tens of thousands of strong armored soldiers had been wiped out as soon as the battle began. This shocked the soldiers, and some of them even left a psychological shadow.

These soldiers couldn't even sleep well when they thought about fighting such a powerful army.

However, after the incarnation of God descended, the morale of these soldiers instantly increased!

There was nothing more inspiring than the arrival of a God?

Therefore, these soldiers were still able to talk and laugh as they discussed the orc warriors in front of them.

In their eyes, no matter how powerful these orc warriors were, they were nothing to fear.

Because they had a God!

“These orcs are too strong, only our Church army can fight against them, but with my God in charge, they’re nothing to fear in this battle.”

Another warrior said disdainfully.

“Yeah, but these big warriors are scary. The front should be the bear men. A bear man’s strength is comparable to a fourth-ranked Temple Knight. This Lord of Flame is a talent; he’s actually from the Orc Kingdom.”

The soldiers started discussing.

In every battle formation, there were several commanders. If it was in the past, this commander would stop these soldiers from discussing.

Now they were on the battlefield they were still laughing and talking one by one. How could they be qualified?

But this time, none of these commanders stopped them.

There was no doubt about this battle in their eyes.

It might even be the easiest battle of their lives.

Moreover, the war had not begun yet. They were all talking about it, so how could they stop it?

“Horn, let’s attack!”

Meng Ying gave the order in the sky.

She was taking the initiative to attack!

“Ming Ming~”

The sound of the attack horn was transmitted to this battlefield through amplification magic.

As the horn sounded, the armies of the Xi Ling Kingdom and the Yan Nation moved.

They didn’t rush up. Maintaining a formation was very important on a battlefield like this.

That was why the soldiers of the Orc Kingdom could only walk in the same way as the two wings.

The battle formation made up of 700,000 soldiers was aligned and pushed towards the battlefront of the Horton Kingdom.

Such a large-scale march seemed to be quite shocking.

Especially when the footsteps were consistent, the ground shook!

God stood up in the airboat when he saw that the Xi Ling Kingdom was moving first.

He pressed his hands together, and large-scale gain magic was cast by him. Immediately, the millions of soldiers below felt their strength increase. Everyone felt as if they had been injected with stimulants, their fighting spirit surging.

Then, the attack horn sounded.

God's incarnation walked out of the flying ship and stood at the very front of the flying ship. He looked coldly at the army of the Xi Ling Kingdom below and said:

“Fight!”

This simple word was the first time this incarnation had spoken.

He did not use amplification magic, but this word seemed to shake space and spread throughout the battlefield!

This word caused the millions of soldiers in the Horton Kingdom to boil.

Even the civilians of the Horton Kingdom who came to watch the battle started to boil.

Because it was the voice of God in their eyes!

If God wanted them to fight, then they had to fight!

That was why the millions of soldiers of the Horton Kingdom became crazy.

The warrior who was still talking and laughing was filled with fighting spirit, leaving only the enemy in his eyes!

“Woo Woo!”

The horn of the Horton Kingdom sounded.

Hundreds of thousands of troops began to march.

In the sky, when God's incarnation said that word, it stood in front of the spaceship with its hands behind its back. Its expression was neither sorrow nor joy, and it was filled with endless indifference.

As a God, even if he controlled the entire arena, he would not reveal any human emotions, unless he had encountered something completely unexpected.

In front of the spaceship, three Holy Spirits flew towards Meng Ying.

God's incarnation was not prepared to attack from the start!

Although God's incarnation was strong, the existence of the Sky Barrier had suppressed his power to the peak of legend. As a God he could use the power of the legendary peak to unleash the power of Sacred, his power could not be wasted.

King to King, general to general, soldier to soldier.

Chapter 235: Legendary! What about the forbidden spell?

A single Holy Spirit was worth a hundred thousand troops on the battlefield, but that didn't mean he could kill hundreds of thousands of them.

If he attacked frequently, even if he could kill hundreds of thousands of troops, he would have no chance of winning against the power of the other gods after he wasted all his power.

It would be the home ground of the other Gods at that time!

Therefore, when the war had just begun, God's incarnation was not prepared to attack.

In the eyes of this God's incarnation, the million troops of the Horton Kingdom and the 700,000 troops of the Xi Ling Kingdom fought for a day and a night, or even longer.

And one of his three Holy Spirits had been upgraded to legendary rank.

His Holy Spirit was in the sky. He was far beyond the legendary rank, but he was suppressed when he was descended.

Now God's incarnation had descended, he had naturally brought with him a treasure and a portion of his power to raise one of the Holy Spirits to legendary rank.

One, enough!

It was a waste to raise two!

Because there were only two forbidden spells on the other side!

As long as his three Holy Spirits killed the two forbidden spell magisters and attacked the army, the Lord of Flame, who was still watching the war in Heaven, would have no choice but to lower his power.

At that time, after his three Holy Spirits used up some of his opponent's strength, it was his turn to attack.

This was the war of God.

The dense army below was just their pawns.

Even the Holy Spirit was a pawn.

Two chessmen were watching everything behind the scenes coldly. They controlled everything, and each piece was a tool they used to drain the opponent's strength.

In the end, they would make a decisive move!

.....

However, this God incarnation was also confused.

The question was why the opponent did not send down the Holy Spirit?

He had been preparing for a long time before he suddenly lowered his God's incarnation and caught him off guard.

It would be too late for the other God to descend, but at least a few Holy Spirits could be lowered, right?

Lord of Flame's confidence was in the strength of the two forbidden spells?

Or perhaps he felt that he could deal with one of his incarnations just by lowering his power from the Heavenly Realm?

"Arrogant!"

Thinking of this, the incarnation of God could not help but snort in its heart.

Even if it was a third-ranked God, it would be difficult for him to deal with the incarnation of God just because he had descended from the Heavenly Realm!

However, third-ranked Gods usually had the Holy Spirit under their control, so they rarely needed power from the Sky.

As a second-ranked God, he was far from being a third-ranked God. He was unable to attract Holy Flame's attention.

The time it took for him to become a second-ranked God was too short and he did not have enough time to cultivate a single Holy Flame!

.....

In the sky, the winged warriors were already descended. This was not their battlefield.

If they were forced to stay above, they would only suffer more casualties.

Soldiers from both sides were still marching on the ground.

On such a large-scale battlefield, it was best to keep all battle formations at the same rank.

The role of the middle army was the most important.

Because the middle army was the heart.

If they lost, they would lose half of the battle.

However, the two wings were also very important, because the existence of the two wings could guarantee that your enemy was always ahead.

If the two wings collapsed, the battle formation of the middle army would have to face the enemy from the side. The pressure would increase greatly. Even if they had a huge advantage, they could still be overturned by the enemy.

Therefore, at a distance of a few kilometers, neither side was running, nor a swarm of bees was charging up. That was the previous strategy of the Orc Kingdom. In this kind of battlefield, such a strategy would kill them.

People's physical strength was limited. Even if these were all strong warriors, they had to save as much energy as possible on the battlefield. A first ranked warrior, running a few kilometers and fighting, their physical strength would be affected.

However, even if no one was running, both sides were not moving slowly. The battle formation was also approaching quickly!

In the sky, under the cold gaze of God's incarnation, the three Holy Spirits were flying towards the two forbidden spell magisters ten kilometers away.

The two forbidden spell magisters were Meng Ying and the Eldest Princess according to him.

It took a long time to be a legend from the forbidden spell magister.

Meng Ying and the Eldest Princess were also on their way to improve under Lin Yan's blessing. Naturally, the people in the Horton Kingdom did not know, nor did the incarnation of this God. Even God was not fully aware of it.

.....

"Kill directly, or leave a hand to draw the opponent's attack?"

One of the three Holy Spirits asked.

“Kill them directly and then attack the enemy’s army. The enemy’s God definitely won’t be able to resist.”

“That’s right. If the opponent?God gives up, it’s good enough that we can directly bring the Xi Ling Kingdom and the Yan Nation?under the glory of my God.”

The other two said.

“Alright, I’ll attack that Forbidden Spell Magister?who can cast magic instantaneously. You two will deal with the other Forbidden Spell magister. Two-to-one, you won’t have a problem, right?”

The first one to speak asked.

The Holy Spirit, who had been promoted to the ninth rank, and the other two were still at the?eighth rank.

“Of course not.”

The two Holy Spirits said at the same time.

They might even try to make a mistake if it was Meng Ying.

Because of Meng Ying’s instant-cast magic, they remembered it deeply.

But the Eldest Princess was no threat to them.

Even a one-on-one battle could win.

Now, they were confident that they could kill her?in a short?period, and could make?it impossible for the Gods to react.

As long as the three of them were?able to deal with the enemy’s high-end combat power and then attack the enemy’s army, the enemy’s Gods would have to attack.

What if the God on the other side didn’t make?a move?

They could take over the entire Xi Ling Kingdom and the Yan Nation.

All they needed to do was clean up the churches in both Kingdoms.

They had a good plan!

.....

The three Holy Spirits flew over quickly. In the sky, Meng Ying and the Eldest Princess looked at each other. They had already seen these three Holy Spirits.

The Holy?Spirit’s goal was Dreamy.

The other two Holy Spirits flew towards the Eldest Princess.

“Let’s deal with it directly. Be careful to kill their souls. I have a plan for their spiritual energy.”

Meng Ying said.

The Eldest Princess nodded.

The two girls started casting at the same time.

In the sky, before the legendary Holy Spirit could fly in, something was wrong.

When Meng Ying and the Eldest Princess used their magic, their aura naturally could not be concealed.

The magic wave that was surging from their bodies was really scary!

That was a legendary magic wave!

Two legends!

Weren't there two forbidden spell magisters? How?did they become legends!

This legendary Holy Spirit had a bad feeling.

On the other side, the two forbidden Holy Spirits were terrified.

Who could tell them how?their opponent had suddenly become a legend?

What about the forbidden spell magister?

Two Forbidden spell?magisters?were hard to deal with!

Chapter 236: Instant Kill and Madness! They rubbed against the ground!

“Boom!”

A fiery red pillar of light descended from the sky.

Meng Ying began to attack.

This was her style. Those things that could be solved by battle were not to waste words!

Even though the Legendary Holy Spirit was astonished by Meng Ying's attack, he was still a Legendary Holy Spirit. He was still able to react quickly to Meng Ying's attack.

However, as soon as it prepared a spell, Meng Ying's magic continued to attack.

“Damn instant-cast magic!”

This Holy Spirit cried out in pain!

Instantaneous magic was almost the exclusive right of the gods. Even their gods could not give their subordinates the ability to instantiate magic!

How did the Lord of Flames do that?

Or this magister?was?comprehending?herself?

Meng Ying's instant spell forced her to defend with all her might.

In terms of attack, the magic flame was the same as lightning magic. It was?considered the most powerful magic.

Meng Ying's instant magic forced it to defend with all its strength.

That power of a single attack was not shocking.

Attacking in large groups, the power, and destruction were more shocking!

Unlike the Night Elf Lomina, who focused on the point-to-point piercing ability, Lomina was inferior to Meng Ying in terms of destructive power.

With Meng Ying's current rank of cultivation, if it was Meng Ying who appeared at the thousand-meter ice wall, she could kill all the hundred thousand soldiers who had gathered together with a large-scale legendary spell!

Lomina was skilled in cutting-edge confrontation.

Because of Lin Yan's highest rank of blessing, Meng Ying had obtained the ability to cast a spell instantly. She didn't only perform outstandingly in the point of confrontation, but it was also easy for her to use a powerful spell to kill vegetables.

From this, one could see the bug of the virtual godhood.

If Lin Yan were to convert his virtual godhood into his real godhood, he could still possess the functions of virtual godhood. However, Lin Yan would not rashly convert it when he did not have many Laws of Energy.

In the sky, the Holy Spirit was depressed.

In less than half a minute, Meng Ying threw several magics over.

These spells were not minor spells that did not pose any threat to it.

However, it wouldn't admit defeat so easily.

It seemed to be in a sorry state, but it was preparing a sharp spell. It was just looking for an opportunity.

Meng Ying's instant-cast spell had a gap. Meng Ying's attack habit caused this gap.

After all, she was not a perpetual motion machine, and her magic power was limited.

Therefore, every time Meng Ying cast a spell, she subconsciously paused. This was the same as breathing in the fresh air.

This interval was tiny.

However, this Holy Spirit was waiting for an opportunity.

Finally, an opportunity arrived.

It calculated the interval and prepared to launch a sneak attack.

For the sake of this sneak attack, it would give up a portion of its defense. It would only block most of the energy in Meng Ying's magic, while it would ignore some of the smaller ones, such as the small flames in Meng Ying's attacks.

"Go to hell."

This Holy Spirit suddenly launched a sneak attack.

A resplendent flame shot towards Meng Ying at the fastest speed possible.

This was light magic!

Once Meng Ying was hit, this magic would detonate her body. Even if she was a legendary existence, it was useless.

Moreover, this Holy Spirit knew that Meng Ying's Flame shield was capable of defending, but it was confident that Meng Ying's Flame shield wouldn't be able to block this spell.

The speed of the light was too fast. Meng Ying's attack caused its reaction speed to slow down. It couldn't react at all!

However, the Holy Spirit soon saw the space in front of Meng Ying rippling like water.

Its light magic shot in quickly jumped around in the space in front of her!

“Shit! Border!”

At that moment, the ninth-ranked Holy Spirit could not help but curse.

After reaching the ninth rank, one could be able to set up a spirit formation. However, the effect of setting up a spirit formation was usually soundproof. It was very difficult to block an attack.

Large-scale spirit formations that could block attacks all required time and some special treasures to set up.

But when did the other God set up the barrier?

How did the other God know that it could use light magic to set up a mirror barrier? This was the barrier that light magic feared the most, and it directly reflected its attack.

This Holy Spirit would never know.

Because of that strike, it had given up part of its defense, causing some of the small flames in Ming Ying's Magic to come over.

Quickly, it was discovered that these little flames were a great killing move against it!

Abyssal Demonic Flames!

“Boom!”

The Abyssal Devil flame instantly engulfed it.

As the Holy Spirit, he was afraid of the Abyssal Demonic Flame.

Once he was approached by the Abyssal Demonic Flame, he would have to shed his skin.

It had always been very well defended. Furthermore, it had never thought that it would be able to do so, nor it noticed that the Abyssal Demonic Flame was hidden by Ming Ying.

Until now!

This Legendary Holy Spirit instantly panicked!

This panic gave Meng Ying another chance.

Meng Ying attacked again, and more Abyssal Demonic Flames flooded it.

In less than a minute, Meng Ying had used the Abyssal Demonic Flame to kill this Legendary Holy Spirit!

If it wasn't for killing its soul, it wouldn't have been so troublesome!

On the other side, the screams of the two Forbidden Spell-ranked Holy Spirits could be heard.

The two Forbidden Spell Holy Spirits could not defeat the ninth-ranked Eldest Princess, let the Eldest Princess and the Abyssal Demonic Flame alone!

At that point, in less than a minute, the three Holy Spirits of Horton Kingdom were instantly killed!

.....

At that moment two armies were finally approaching on the ground!

In the middle of the formation, before they could get close, the arrows of the fox archers flew towards the opposing formation with the explosive flames.

Ten thousand archers formed a long line. When they attacked at the same time, a line of fire appeared in the sky.

The line of fire flew over a distance of five hundred meters and smashed into the square of Horton Kingdom with the Explosive Flame.

“Raise your shield!”

In the square of Horton Kingdom, all the soldiers had raised their shields.

But immediately.

“Boom!”

An explosion rang out, and the soldiers of Horton Kingdom were instantly destroyed.

Chapter 237: Instant Kill and Madness! He rubbed against the ground!

That wave of attacks brought at least 10,000 or 20,000 casualties!

“Whoosh Whoosh!”

Before the warriors in the back could react, the second and third rounds of Foxman archers' attacks arrived.

The range of the enchanted bow was so long that only the strong crossbow could match it in the Horton Kingdom.

However, the firing speed of these powerful crossbows was too slow. When they finished a round of loading, the Fox Archers had fired three or four rounds and blew up the soldiers of Horton kingdom.

Their crossbows were only able to penetrate through the area of 500 to 600 meters.

The Fox-man Archer's enchanted bow wasn't strong enough to penetrate a radius of five to six hundred meters, but the problem was that it had an explosive flame.

Those strong crossbows did not have burst flames!

The commanders of Horton Kingdom couldn't help but panic. The long-range attack was too ferocious.

"Hold on, speed up and rush over!"

The phalanx commanders of Horton Kingdom said one after another.

And that sentence was exactly what Fox Lady Qing Ling wanted to say.

When Meng Ying and the Eldest Princess were in charge of the high-end battle, the seventh-ranked Fox Lady Qing Ling was in charge of commanding the entire battlefield.

"Orc warriors, attack and defeat them!"

Fox Lady Qing Ling said.

"Roar!"

Two hundred thousand Orc soldiers roared and rushed to each other.

In the middle position, the Templars followed inside and they were responsible for taking care of the Templars on the opposite side.

The group of Temple Knights also moved, and all kinds of magic flew around on the battlefield.

However, the sorcerers of Horton Kingdom quickly realized that the shield of the orc warriors and the magic protection of their armor were too good. Their magic was not effective at all.

Attacking spells were not very effective at all, and some spells that affected one's condition were also ineffective.

Many magisters were stupid.

Only the Temple Knights had such a kind of equipment, right?

However, the magic of the magisters of the Xi Ling Kingdom and the magisters of the Fox people had caused a lot of casualties among the soldiers of the Horton Kingdom.

The fox soldiers were still attacking 500 meters away.

Under a large number of long-range attacks, many of the soldiers of Horton Kingdom had already lost half of their lives before approaching.

Then, the battle formation of the orcs arrived!

"Boom!"

Under the impact of the bear shield, many soldiers of Horton Kingdom were sent flying into the sky.

Many soldiers of Horton Kingdom were smashed into meat patties!

Immediately after, the warriors from the lion tribe threw spears at the sky.

The spears they threw also had burst inflammation. With the strength of these lion warriors, these spears were thrown more than 100 meters away to split the soldiers of the Horton Kingdom in the rear.

They rushed into the battle formation of the Horton Kingdom and began to kill!

In other battle formations, the werewolf warriors were like specters on the battlefield. Their speed was even faster. Although they had broken through the battle formation, the moment the formation was broken, they entered a familiar rhythm. In just a short time, the 2,500 werewolf warriors had killed all the 10,000 warriors of Horton Kingdom's battle formation.

They could not be compared to the Lion Tribe or even the Centaur Tribe on the battlefield of the orcs, but they were terrifying opponents on the battlefield of the Human Kingdom.

The performance of the snake warriors was not bad either. Although they were not as agile as the wolves, nor were they as strong as the lions, nor were they as fast as the centaurs, their bodies were all weapons. Even their tails could deal a fatal blow to the enemy.

As for the cat warriors, they did not do anything. They just stayed beside the fox archer and held shields to block all attacks for them.

On the battlefield, the centaur warriors were the most arrogant. They stared at the newly established cavalry of the Horton Kingdom. They turned into sharp knives that cut apart the battle formation of the Horton Kingdom after they destroyed the cavalry.

They were wearing heavy armor, and they had an explosive spear. It was only a matter of how long the spear array was.

When they encountered such a long spear formation, a burst of spears exploded.

Fox Lady Qing Ling also flew up and stared at the opponent's big magisters to avoid the big magister's hand.

In the Xi Ling Kingdom, there was a surrendered Grand Magister. This Grand Magister flew up as well.

Winnie, the tiger who had been promoted from the sixth rank to the seventh rank, swam quickly on the battlefield.

Her goal was to deal with some of the elites in the army of Horton Kingdom.

Her speed was too fast. She was more like a ghost than a wolf warrior. If there were any vicious characters, they would be waiting for Winnie's twin blades.

She was a double-bladed tiger girl!

If she would shoot at ordinary soldiers, it wouldn't take long to kill a 10,000 person square array if there was no strong person at the same rank to stop it!

There were even 2,000 winged men in the sky who used explosive arrows to suppress the Magisters of Horton Kingdom. Even the Magisters of the Divine Hall could not withstand such pressure.

The Temple Knights of two armies also clashed. Under the leadership of the dwarf giant, the reorganized Temple Knights showed their astonishing combat strength and defeated the other side.

On the two wings, the elite Royal Army also fought against the soldiers of the nobles.

If it was just a war between the Xi Ling Kingdom and the Horton Kingdom, these elite Royal Forces should be placed in the middle of the army to compete with the Royal Forces of the Horton Kingdom.

But then, the Yan Nation had joined the battle. The Yan Nation's orc army had met the Royal Army of the Horton Kingdom.

The army of the nobles of Horton Kingdom had to face the elite Royal Army of the Xi Ling Kingdom. How could they have defeated them!

Moreover, there were a lot of magisters and Temple Knights in the Royal Army of Xi Ling Kingdom!

It could be said that from the very beginning, the Xi Ling Kingdom and the Yan Nation had tortured the Horton Kingdom.

It was not only brutal, but it was more like rubbing them against the ground!

The Yan Nation's military strength was not weaker than the Xi Ling Kingdom, it was even much stronger!

The Horton Kingdom was equivalent to facing the attack of two kingdoms.

How could they withstand it!

Their only hope was their God!

However, their God could no longer care about them.

The three Holy Spirits were instantly killed. They were over ten kilometers away, and even the incarnation could not react.

If this was the Heavenly Realm, for a god, a dozen or so kilometers would be the time to attack.

However, this was the Continent of Gods, and the incarnation of the god was only as powerful as a Holy Spirit.

Moreover, he still had to guard against the Lord of Flame, who had not released his power.

The original plan was for the three Holy Spirits to kill the two forbidden spells before attacking the ordinary army and to force the Lord of Flame to lower his power.

One ninth-ranked, two eighth-ranked, the Lord of Flame would not be able to deal with a large amount of power.

Then, he could treat it with ease.

But the situation was reversed.

After Meng Ying and the Eldest Princess killed the three Holy Spirits, they attacked him.

Chapter 238: As you wish! Lord of Flame!

The battle was in full swing on the ground!

Although the Horton Kingdom had been crushed from the start, a million troops had not been defeated so quickly.

They still had a few complete battle formations.

The battle formation behind them was still on the top, trying to turn back the disadvantage.

God's incarnation had greatly inspired the soldiers of the Horton Kingdom. These soldiers did not see how the three Holy Spirits had been killed.

When the three Holy Spirits fought Meng Ying, the battle was about to start. The soldiers were all focused on the battlefield, and a few of them looked up at the sky.

"Hold on, our God is watching us in heaven!"

The commander of a battle formation kept using words to boost morale.

"Hold the weapons in your hands. All of you form up your formation. Don't disperse. Everyone, stabilize yourself. My God will help us. Even if you die bravely, you will still be summoned by God to the Heavenly Realm and be reborn!"

Behind the battle formation of Horton Kingdom, there were people from the Church who were constantly using amplification magic to boost their morale.

"Steady, steady, the orc's troops are here, point your spear at the front, hold it tightly, lean forward, put the spear on the front row shoulder, don't panic, they don't have the kind of spear that can explode, point your spear at them!"

In a battle formation, the densely packed spears were aimed at the front at the same time.

10,000 armored warriors over there opened the path with their explosive spears and pierced through a battle formation in the Horton Kingdom and charged towards it!

The soldiers in the battle formation could see that the one at the front was a particularly strong man. This man did not have a single explosive spear on him.

Its spear was lost in the battle. He only had a blade and a shield.

The centaur wielded a shield with one hand and a knife with the other. It faced the long spear formation of tens of thousands of soldiers on the side; it rushed over without hesitation. Behind him, more centaurs took the shape of a taper and followed its steps.

It was close!

As the horses ran, they heard heavy footsteps. The heavy armor on their bodies made a loud noise as they ran.

As they ran, their tall bodies looked so strong that some of them were holding a long spear that was more than ten meters long. The tip of the spear was so sharp that it did not feel safe.

Some soldiers were sweating!

"Steady!"

The commander's voice rang out.

In the enemy's faces heavy cavalry's charge, the most important thing was this word: Steady!

The commander's voice was effective. These soldiers were also well-trained. They leaned forward, their feet on the back?were?holding the spear in the most stable position. The other end of the spear was already on the ground.

Only in this way,?they would be able to deal with the impact of the heavy cavalry, as well as the impact of more terrifying centaur warriors than the cavalry!

Immediately after, the foremost Centaur warrior blocked the shield in front of him and hit?the spear formation with unparalleled speed.

"Click!"

In front of the battle formation, there was a cracking sound.

Following that, several soldiers screamed.

The centaur broke the spear in front of it and crashed into the battle formation, sending the two warriors at the front flying!

This strength was unimaginable!

The hardness of its armor was beyond imagination!

The tip of the spear had no way to pierce through the armor!

"Click!"

Soon after, more people came crashing towards it.

In front of the battle formation, there were the sounds of countless spears being broken.

The tips of these spears were indeed hard enough.

However, in a situation where the tip of the spear could not pierce the armor on the centaur, the spear could only be broken.

Even if they used up the explosive spear, this battle formation with a large number of spears would not be able to block the charge of the Centaur warriors.

.

A soldier who had been knocked into the sky screamed and saw a bright light flashing in the sky!

"My God has attacked!"

The soldier screamed like he was struck with chicken blood.

Then, he smashed?into his companions?and?knocked?down several people.

"My God has attacked!"

The warrior did not care about his injuries. He got up and shouted again, his face full of fanaticism.

"Boom!"

A loud explosion was heard in the sky when the powerful magic was cast.

Immediately after, there was a violent energy fluctuation, as well as a hurricane caused by this energy fluctuation!

The terrifying activity in the sky made the entire battlefield freeze!

It was as if he had briefly clicked the pause button on this huge battlefield.

“My God has attacked!”

On the edge of the battlefield, countless people in the Horton Kingdom cheered.

As observers, these people were far more than the soldiers watching.

They had personally witnessed the killing of the three Holy Spirits.

They had also witnessed how the armies of the Xi Ling Kingdom and the Yan Country destroyed the battle formation of the Horton Kingdom in a short period and completely crushed the Horton Kingdom.

Unrivaled bear warriors, terrifying lion warriors, werewolves like spirits, and strange snake warriors were even more arrogant, cutting through the battle formations of Horton Kingdom one after another!

Chapter 239: As you wish! Lord of Flame!

These Orc warriors who had only been heard in the story before, when they first came to reality, their combat effectiveness was so terrible and amazing.

This made people despair!

The hearts of the people of Horton Kingdom were heavy.

However, they were still full of confidence because their God had not made a move yet.

The Holy Spirit was just a servant of God.

Once God made a move, all the decay would be destroyed.

No matter how strong the enemy's army was.

Because he was a God!

He was an invincible God!

On the ground, the people of Horton Kingdom burst into unimaginable cheers!

Even though the battle in the sky was covered by intense energy fluctuations, they could only see the colorful light formed by the massive magic impact. They could not see their gods, nor could they see the outcome of the battle. However, these people did not feel that their gods would be defeated.

“Kill!”

On the ground, God's attack stimulated the warriors of the Horton Kingdom, and their combat power was unimaginable. They were able to withstand the attack of the Xi Ling Kingdom.

However, it was only slight resistance.

The reality wasn't a TV show. It wasn't something that could be killed with a roar.

Quickly, the strength of the orc warriors made them realize the reality!

The most important effect of God's attack was that the soldiers did not lose so quickly.

Otherwise, this battlefield would have long been a total defeat!

"Hold on, don't back off, we won on our horse!"

Behind the battlefield, the Church's people kept cheering!

Their God had won.

In the sky, Meng Ying's magic was cast one after another, while the Eldest Princess was casting a powerful legendary forbidden spell!

The forbidden spell wasn't useless at ninth rank.

The eighth rank was called the Forbidden Spell Magister, but the eighth rank only touched the threshold of the Forbidden Spell.

Only then the power of these forbidden spells could be displayed. At the Legendary rank, the forbidden spell was also known as the legendary ranked forbidden spell.

The power of the spell was even more terrifying when it came to Sanctuary. It was the most terrifying spell that could be used with Rule Force.

The two of them cooperated and launched an attack at the god's incarnation of Horton Kingdom!

Their magic covered the entire sky. Looking at the ground, it was shocking.

It wasn't hard to imagine how terrifying the damage would be if such magic fell.

The God of the Horton Kingdom was standing still at the bow of the ship. The death of the three Holy Spirits was completely out of his expectation.

The three Holy Spirits died too quickly.

No matter what, he never thought that the enemy's two forbidden spells would become legends at the same time.

More importantly, he had the Abyssal Demonic Flame!

This was something from the Abyss. It was a taboo on the Continent of Gods.

As the god's incarnation, his experience exceeded that of others. Unlike the reaction of the Holy Spirit, he immediately felt that the Lord of Flame was the Abyssal Demon God!

"So this is the Lord of Flame!"

The incarnation instantly understood.

In his opinion, the Lord of Flame had probably gathered a large number of flames and used them as his most powerful attack method, so he had given himself the name of Lord of Flame!

However, the Abyssal Demonic Flames could threaten the Holy Spirit. This god's incarnation was not afraid.

Meng Ying and the Eldest Princess did not attack him with the Abyssal Demonic Flame.

Both of them had powerful magic!

"If Lord of Flame doesn't come out, you two aren't enough!"

God's incarnation finally moved.

Even if the two of them suddenly reached the legendary rank and killed the three Holy Spirits, they were not qualified to turn the tables.

After his incarnation descended, the three holy spirits were far less useful.

God's incarnation was the greatest reliance!

After God's incarnation faced Meng Ying's powerful magic and the Eldest Princess' legendary forbidden spell, he merely stretched out its hand and pressed it down.

He cast a forbidden spell with Rule Force.

Instant magic, this was the patent of the Gods. The dream would be full, and so would the incarnation of the Gods.

The power of this forbidden spell was beyond imagination. It instantly collided with the two women's magic attacks.

"Boom!"

The collision of magic and magic emitted the most dazzling light.

This was the light that the soldiers and civilians saw on the ground.

Then, they saw their god standing immobile at the bow of the flying ship in this light. The figure was even taller than the mountain!

On the other hand, the two magisters who killed the three Holy Spirits were forced back several kilometers by the intense energy waves.

"Yeah!"

Below, countless people and soldiers from the Horton Kingdom cheered, cheering for the strength of their gods!

Then, on the battlefield, a dignified voice sounded:

"This is God's battlefield. Let your God come out. This battle should end!"

In the sky, Meng Ying and the Eldest Princess looked at each other at the same time. They finally realized the difference between them and the gods.

Even if they were both legendary.

The god's incarnation had only legendary power.

However, the true strength of God's incarnation far exceeded the strength of the two of them.

If not for Meng Ying's instant magic, the attack would have continued to dissolve the opponent's attack. If it wasn't for the attack of god's incarnation, the two of them might have been seriously injured!

This was God!

In the sky, not long after the dignified voice of the God, a faint voice echoed through the sky:

As you wish!

“Boom!”

Then, in the sky, endless flames descended.

Endless flames instantly surrounded the god's incarnation of Horton Kingdom!

Chapter 240: Confrontations between Gods! God of terror!

The flames filled the sky!

Meng Ying and the Eldest Princess had already descended. That was no longer their battlefield.

However, they did not attack the soldiers of Horton Kingdom.

There was no need for them to make a move.

The Horton Kingdom had experienced the attack of the Holy Spirit of the original God of the Xi Ling Kingdom and lost an enormous amount of high-end combat strength.

Before the arrival of the three Holy Spirits, there were only two seventh-ranked magisters left in the Horton Kingdom.

Now that the three Holy Spirits had died, there were only two seventh-ranked magisters in the army of the Horton Kingdom.

If the two seventh-ranked magisters were to let them play, they would still be able to inflict hundreds of thousands of casualties in the army of the Xi Ling Kingdom, but they would not be able to turn the tide.

Even if they killed over a hundred thousand troops of the Xi Ling Kingdom, the Horton Kingdom could not defeat them. The difference between the two armies was too great.

After their magic power was used up, they were no different from ordinary people. They could only watch the army of Horton Kingdom collapse.

Moreover, Xi Ling Kingdom also had two seventh-ranked magisters

Fox Lady Qing Ling and the Demon Instructor.

In addition, on the ground, the seventh-ranked tiger sister, Winnie, could not be underestimated. Even though the seventh-ranked warriors could not fly, as long as Winnie could find a chance, she would not be able to fly to the sky for a short time to kill the enemy!

Therefore, even if Meng Ying and the Eldest Princess did not intervene in this war, they did not have to worry about the defeat of the Xi Ling Kingdom and the Yan Nation.

There wouldn't even be much of a loss.

The difference in strength was too great.

A million troops of Horton Kingdom were destined to be crushed from the beginning to the end!

However, the outcome of this battle was not decided on the battlefield.

It was in the sky.

The War of Gods.

The battle between the Lord of Flame and the god's incarnation of the Horton Kingdom had determined their direction.

If the Lord of Flame failed, with the terrifying power of this god's incarnation, it would be enough to turn the battle around!

Therefore, Meng Ying and the Eldest Princess were in the sky. They all looked at the sky and waited quietly for the outcome of the war between the two gods.

However, neither of them had any intention of interfering.

They had full confidence in the great Lord of Flame!

They only had the most personal experience of the power of the Lord of Flame!

"Controlling flame, that's all you have, Lord of Flame."

In the sky, amid the raging flames, God's incarnation supported a space. He stood in this space, facing the flames surrounding him; his expression did not change at all.

Everyone saw his hand gently in the air as if he had pulled some key switch. In less than a second, it rained in the sky. The rain was not ordinary. It was extremely cold, even lower than ice, but it did not freeze.

The rain dripped into the sky and was quickly evaporated by the flame, but the energy of the flame was quickly consumed.

As soon as such raindrops into the flame all over the sky, it was quickly evaporated by the flame, but the energy of the flame was also consumed quickly.

"Is this Rule Force?"

In the flames, Lin Yan's low voice sounded.

Don't underestimate this rain. If such rain fell on the ground, it could instantly turn the ground into several meters thick ice. With the area covered by it, it could kill 100,000 soldiers.

God's incarnation had only used a small amount of Divine energy to cast down this terrifying ice rain. It had only used two rules.

Ice and water rules!

This kind of method was equivalent to a thousand kilograms.

Moreover, using the Rule Force to attack, it was simply impossible for universal magic to do so!

This kind of ice rain, even a special flame, could be easily extinguished. However, trying to kill Lin Yan with this kind of flame was just wishful thinking.

He was not in control of the flames!

His body was actually flame!

That was why Lin Yan started to burn violently. In the sky, the Flame exploded.

Under the heat of hundreds of thousands of degrees, the surrounding water vapors evaporated. All the clouds in the sky disappeared at the same time.

At least ten kilometers away from the battlefield in the sky, the ground instantly became extremely hot. Countless ordinary people screamed.

However, in the sky, the expression of God's Incarnation did not change. His fingers gently moved once again. Ice continued to appear around him. The ice was terrifying, and it would not melt even if it was thrown into the sun.

Although Lin Yan's temperature had far exceeded the surface temperature of the sun, under the influence of Rule Force, the temperature of the ice had reached a low point and blocked the flames outside.

This was how terrifying the Rule Force was.

This wasn't a complete ice law.

If it was a complete ice law, it would be even more terrifying.

If it was a God that had descended from the mortal world without being suppressed, then the god that had activated the complete ice laws was truly terrifying.

He could use the ice laws to freeze the entire kingdom in a very short period!

The kingdom that was frozen up, even if it was illuminated by the sun every day, would not disappear for thousands of years!

"No matter how high the temperature is, the surface of Sun Star doesn't have hundreds of thousands of degrees, but under the laws of ice, it's still nothing to fear."

The god's incarnation spoke indifferently.

The Sun Star he was referring to wasn't the star Lin Yan had passed through.

Before Lin Yan passed through the star, the surface temperature was only a few thousand degrees, while the center temperature was only tens of millions of degrees.

The Sun Star that the gods spoke of was the Sun Star above the Continent of Gods.

This Sun Star was incomparably large. The temperature on its surface had reached a terrifying several hundred thousand degrees.

However, there would still be gods descending from time to time on the surface of Sun Star to gather the divine substance inside.

One could tell how terrifying a Heavenly God was.

As a god of the Heavenly Realm, his battle experience was incomparably rich. After just hearing the name of Lord of Flames, he had grabbed quite a few ice laws in the past few days.

Yes, the ice or water laws were the best way to deal with flames.

If Lin Yan was fighting against an ordinary Saint domain, and this Saint domain didn't have any ice laws, this ordinary Saint domain wouldn't be able to withstand hundreds of thousands of degrees of heat.

Ordinary Saint-ranked experts were still perfecting a set of natural laws.

However, the god's incarnation had grasped many laws. Even though the mastery of these laws would not reach 100%, in the eyes of the god's incarnation, a battle on the Continent of Gods would require thirty percent or more!

"The ice laws and power of laws were originally used this way. Thank you for your demonstration."

Within the flames, Lin Yan's voice sounded.

"You can die."

As soon as he finished speaking, he gently flicked his finger.

Immediately after, the raging flames around him were instantly covered by thick ice.

This scene was extremely shocking.

It looked like a huge ice cap had appeared in the sky!

The cold air of the ice instantly spread down.

Down below, the soldiers who were fighting on the battlefield were terrified to discover that their armor was starting to freeze!

A thick layer of ice had formed on the ground.

"So cold!"

The ordinary people watching the battle had almost been roasted, but now it was like falling into an ice kiln!

Lin Yan's flame was frozen in an instant!

This kind of freezing was much more terrifying than the freezing of the black flames.

Although the special flames involved laws, they involved them. They were far from being able to use their Divine energy to strike the ice laws like a God.

Lin Yan's energy points were being consumed violently.

Under the laws of ice, he had to maintain his current state of combustion. Every second, he consumed millions of energy points!

But!

"I also have laws!"

Lin Yan finally had a clear understanding of how to use the power of laws.

In reality, even if he didn't use the natural laws, he could still destroy the attack of the ice laws by infusing the Gods with it.

Laws could make attacks even more terrifying.

However, incomplete laws were far from invincible!

However, Lin Yan decided to give it a try!

He instantly activated his laws?of Flame!

“Boom!”

After being driven by the laws of Flame, the temperature of the flame instantly increased dozens of times. Apart from the temperature, the flame was able to burn to a rank that it could not reach!

Under this shocking temperature, the ice in the sky was instantly burned clean.

Immediately after, the raging flames burned all the ice around the god's incarnation and rushed to the god's body at lightning speed.

In the sky, the cry of God's?incarnate was heard.
