

Flames 251

Chapter 251: Successes! Divine Dew! Elven Goddess!

In the Holy Flame Forest, the sun shone for the first time!

Well, there was a very important reason why the Dark Forest was favored by the Elves. The trees in the Dark Forest were straight and tall.

Trees in the Dark Forest did not often lose leaves.

Unlike the primitive forest, the forest could not see any sunlight. It was damp and cold, and there was a large amount of poisonous miasma!

This did not exist in the Dark Forest.

In the Dark Forest, the greatest threat was dark matter.

Perhaps because of the existence of dark matter, there were no poisonous insects or miasma in the Dark Forest, and it would not be too humid. Similarly, as long as there was no dark matter in the dark forest, sunlight could come in.

Unlike the primitive forest, the entire forest was not suitable for living. The Elves would only choose that kind of primitive forest unless they had no choice.

Moreover, the ground was not like the original forest.

Such a forest was suitable for Elves to live in.

They could also grow grasslands under the forest. The morning sun shone through the gaps of the trees on the grasslands. They could bathe in the sun on the grasslands and eat breakfast. The scenery was very beautiful!

“The reclamation is finally complete.”

When everything in the Holy Flame Forest was lit up, Chen Xi and Lomina flew into the sky and smiled.

Below them, in the forest, more than 300,000 Elves gathered together and were enjoying the joy of this moment.

Now, these 300 thousand Elves had contributed their faith to the Lord of Flame.

Only one or two Elven tribes retained dual beliefs.

These were the Greenland Elf Tribe and another Day Elf Tribe.

But even if it was a double faith, the Lord of Flame was still their main faith.

It occupied an absolute leading position!

As for the tribes that joined later, Chen Xi was not worried about their beliefs.

Just like in the Rocky Forest, a large number of Elves had followed the Light Elves and believed in the Goddess of Light.

After these tribes joined the Holy Flame Elves, they would gradually become influenced by the influence of the Lord of Flame!

Chen Xi was confident!

On that day, the forest was filled with laughter.

Three hundred thousand Elves took less than four months to clear such a huge forest.

A deep sense of accomplishment and pride surfaced in their hearts!

This made their faith in the Lord of Flame even more devout!

Because they were the Lord of Flame's believers, they had the speed to cultivate.

Let them build their own home.

At this moment, these Elves' faith in the Lord of Flame had strengthened!

Many Elves were praising the Lord of Flame!

"You have to tell me this news!"

In the sky, Chen Xi said.

Even though the Lord of Flame's gaze might be here, Chen Xi still felt that she should tell this to her God!

.

Let her God share the joy of the Elves!

Chen Xi began to pray happily.

Following Chen Xi's prayer, a large amount of rain suddenly appeared in the sky!

No, this wasn't the rain!

It was extremely dense in energy.

As soon as the rain appeared, the Elves felt that the air had changed and became fresher. There seemed to be a sweet smell inside.

The rain began to fall on a large scale.

Then, the Elves discovered that the entire forest was beginning to show a lively scene.

Even the ground seemed to have a trace of spiritual energy.

In the lake, after the dark matter had been removed, it had turned into a pool of stagnant water. But now, the water inside seemed to have come to life and became crystal clear!

"This is the dew from my God!"

The Elves cheered.

It rained for many days, covering the entire Holy Flame Forest.

This rain also made the entire Holy Flame Forest "live".

It had to be known that even if it had just been reclaimed, the Elves would still need a lot of time before the Holy Flame Forest could become full of vitality and become the true paradise of the Elves.

But now, this rain could save the Elves more than half of their time!

They quickly discovered that the magical plants they planted grew exceptionally fast.

If he were to cultivate magic in the Holy Flame Forest, his progress would be quite fast.

The Lord of Flame's rain made the Elves feel the Lord of Flame's preference for them!

One had to know that when the Rocky Forest was fully reclaimed, several gods had sent down dew, but it was the largest area.

Unlike the Lord of Flame, this rain covered the entire Holy Flame Forest.

"He's really strong!"

In the Holy Flame Forest, an Elf flew around.

Yes, this Elf was the Elven Goddess.

Every few days, the Elven goddess would cast her gaze through some of the Greenland Elves praying to her.

She had to sense that among the Greenland Elves, there were also some elderly Greenland Elves who prayed to her from time to time.

Otherwise, it would be impossible for her to cast her gaze.

Without the thread of belief, casting her gaze would consume more energy than lowering her gaze, and she could not find a place.

Seeing that the Holy Flame Forest was about to be reclaimed, the Elven Goddess hurriedly opened the channel of faith, and a few drops of Divine energy condensed into Elves. Then she possessed a wisp of consciousness, wanting to communicate with the Lord of Flame.

Then she saw the rain of the Lord of Flame!

Only she knew what this rain was.

That was Divine energy!

Of course, it was the diluted Divine energy!

If there was no loss, a drop of Divine energy could nourish a large area of land and make the land lively.

When a drop of Divine energy descended from the Heavenly Realm, it would consume a lot of energy. The effect was not as good as the Heavenly Realm.

That was why after the Rocky Forest was cleared; even the Elven Goddess had only left a few hundred drops of Divine energy in the Rocky Forest.

The rain from the Lord of Flame covered the entire Holy Flame Forest. The Divine energy used was terrifying!

The power of the Lord of Flame shocked the Elven Goddess again!

It wasn't the Elf Goddess's fault.

However, the Lord of Flame had only released her Divine energy, so she still could not communicate with the other God!

And for some reason, she felt a little guilty!

She was worried that even if she was able to communicate with the Lord of Flame, he would still ignore her!

The feeling the Lord of Flame gave her was too cold.

The Elven Goddess became more and more curious about what kind of existence the Lord of Flame was.

Chapter 252?Trees of Life! The chance of the Elven?Goddess!

After the Divine Dew, the Elves began to plant magic plants on a large scale.

With the entire forest 'alive', these magical plants grew exceptionally quickly.

This was the second stage of reclamation.

However, reclamation at this stage would last for a long time and would be a long-term task.

Three hundred thousand Elves would first clear the forest around their residence.

In other places, the Elves that joined later would further cultivate.

....

Another week later, over 300,000 Elves planted magic plants in the center of the Holy Flame Forest.

The Elven Goddess had been observing them.

"They should be planting the Tree of Life soon."

The Elven Goddess thought.

She flew up a tree and observed the movements of the Elves.

If she was not an Elven Goddess, but other creatures, the Elves could find her.

In the forest, the Elves' perception was too strong, and the forest would "tell" them.

However, she was the Elven Goddess, and she was completely integrated with the forest, so no Elves noticed her.

.....

On the ground, Chen Xi and Lomina finally chose the capital of the Holy Flame Empire!

It was almost at the center of the Holy Flame Forest!

It was located in a canyon where a river flowed.

This canyon was exceptionally beautiful. It was also very open and over ten kilometers wide.

The drop of the river here was nearly two hundred meters, forming many beautiful waterfalls!

The two sides of the canyon were not cliffs, but slowly descended layer by layer. These platforms could be used to house the Elves.

Some Elves liked to live in the treehouse?they built. The treehouse?they built was very exquisite, and it looked particularly beautiful, and the inside was also very spacious.

In a forest, such a treehouse?was connected. There were vines in the middle of the treehouse, and it seemed to have an artistic conception.

Unlike ordinary people who lived in the forest, they were always worried about mosquitoes and insects. In the forest where the Elves lived, mosquitoes were quite rare.

Although the Elves liked nature, it did not mean that they liked mosquitoes.

Their forest was the cleanest and most beautiful.

The overall ecological environment of the forest was quite harmonious.

However, some Elves liked to build beautiful huts to live in. The two sides of the canyon could be used for construction.

“This place can house at least 100,000 Elves.”

Chen Xi said.

The Elves needed a large forest area, but this did not mean that the Elves lived in a scattered area.

Their residence was relatively concentrated.

However, their living habits made them need a bigger forest to survive.

This was certain.

They would not destroy the forest to cultivate.

Instead, they chose some magical plants.

Moreover, their diet was different from that of humans. They did not eat much human food.

Otherwise, with the size of the Rocky Forest and the density of humans, hundreds of millions of people could live there, but only a million Elves lived there!

However, the Elves would not live in such a dense environment unless they lived underground?like the Night Elves.

“The Night Elves will live here. Ask which Elves are willing to live here. If there are too many, we can only draw lots.”

Lomina said.

“Yes!”

Chen Xi nodded.

The construction of the capital city had already begun. For the Elves who knew magic, the construction process was quite fast.

In this canyon, a large number of flowers were planted. Under the magic of the Elves, these flowers quickly sprouted.

All sorts of flowers bloomed all over the canyon, making it look like Elven land.

Lomina followed that and set up a large number of barriers to protect the canyon.

There were many tribes, who were willing to live in this valley, but the result of the drawing of lots came out, and the Greenland Elves and the Winged Elves were able to settle in.

The Wind Elves chose a lake not far from the canyon and settled down.

As for the other Elves, they all found their areas.

They weren't very far from each other. They formed a circle around the center.

After building the residence, all the Elves gathered together.

They had to do the most important thing.

That was planting a Tree of Life!

When these Elven tribes were migrating, the Tree of Life had turned into seeds. After planting, as long as there was enough energy, the Tree of Life could quickly grow.

The forest and the Tree of Life complemented each other.

The larger the forest, the more vigorous the Tree of Life would be.

The more vigorous the Tree of Life was, the more prosperous this forest would be.

In the past, the forest area of these tribes was limited, and the Tree of Life couldn't grow much.

Now, these tribes decided to combine all the seeds of the Tree of Life. These seeds had the same energy and formed an extremely large Tree of Life!

The Tree of Life would be planted in the plains at the bottom of the canyon.

Under the magic of the Elves, there was already a large space there, enough for planting the Tree of Life.

The soil had long been especially tied up, appearing flat and fertile.

The three hundred thousand Elves were either at the top of the canyon, on both sides of the canyon, or at the bottom of the canyon, witnessing this grand event.

Lomina and Chen Xi hosted this grand event.

"Mother, let's begin. I've already prayed to my God!"

Chen Xi said.

Lomina nodded.

Chapter 253: Trees of Life! The chance of the Elven Goddess!

She began to cast magic. Soon, a vast pit appeared in the middle of the space.

Lomina handed the seed of Tree of Life to Chen Xi. "Chen Xi, you're the queen. You can plant it!"

Following that, the tribe leaders handed the seeds to Chen Xi.

"Queen Chen Xi, I'll leave our seeds of the Tree of Life to you!"

That was the chief of the Wind Elf Tribe, Aishara!

"Queen Chen Xi, this is our seed of the Tree of Life. Please accept it."

This was the chief of the Winged Elves, Maggie.

"Queen Chen Xi, the Greenland Elves, will change their name from now on to the Holy Flame Elves. This is our seed of the Tree of Life; we will be a family from now on!"

This was the Greenland Elves' Chief, Anna.

Soon after, the sun Elves, mountain Elves, and other tribes handed over their tribe's seed of the Tree of Life to Chen Xi.

This was a special ritual.

Representing these Elven tribes, they would join the Holy Flame Elven Empire and become a united family!

If the Elven Tribes joined, under normal circumstances, they would choose to hand over the seeds of the Tree of Life and fuse them into the Tree of Life. Once they obtained the Tree of Life, they would become more powerful.

In the future, if there was an irreversible situation, the Tree of Life would still be able to use up all its energy and divide into many seeds.

.....

Chen Xi took all the tribe's seeds of the Tree of Life together.

Then she muttered something.

Following her words, these Tree of Life seeds merged together and formed a large seed of the Tree of Life.

The surrounding Elves all smiled when they saw that.

This meant that all the Elven tribes would officially merge in the future.

They would have a common name: Holy Flame Elves!

Even though some Elves might not be used to addressing them in a short period of time, after a long time, they would become completely used to this new name.

Chen Xi carefully held the seed of the Tree of Life and walked to the side of the pit.

The Tree of Life was like a mother for all the Elves.

Chen Xi would naturally take great care of it.

She used magic to control the speed and sent it to the bottom of the pit.

“Come together!”

Chen Xi was invited.

Immediately, the Elven Tribe leaders all walked to the side of the pit and used their hands to pick up the soil and fill it up.

After filling in, they used magic to clean up their hands and sang praises together.

In the surroundings, the 300,000 Elves also sang praises!

This was the first step for all the Elves to plant the Tree of Life praying to the Elven Goddess.

The creator of the Tree of Life was the Elven Goddess.

It could be said that the Elven Goddess had created the Elves.

Although the Elven Goddess was a powerful Divine Lord and rarely had the time to look at the Continent of Gods, and she didn't care about the Elves' faith, she was still loved by all the Elves.

And even if she was a powerful Master God, whenever a Tree of Life was planted, as long as the Elves sang a special song, she would give a blessing to this Tree of Life. Only then this Tree of Life could grow better!

Following the praises of the Elves, a tender leaf emerged from the ground.

Then, it quickly grew into a small tree the size of a man!

The little tree was still growing. Not long after, it reached a height of five to six meters.

Its leaves were green, and the entire tree had a Holy color!

The Elven Goddess had already given her blessings.

This was the Elven Goddess. As a Divine Lord, she would not even make too much noise when she sent down her blessing. Instead, she silently sent down her blessing and allowed the Tree of Life to sprout and grow.

When the Tree of Life grew to 20 meters tall, it finally stopped growing.

Then, under the leadership of Chen Xi, the 300,000 Elves sang praises once again!

This time, it was for the great Lord of Flame!

If the Elves' beliefs were not unified, some of the Elven tribes that believed in other gods would sing praises to other gods.

The Elven Goddess did not care about the beliefs of the Elves. In many cases, she was like an existence on a background board. She could only feel the existence of the Elven Goddess when she fell on the Tree of Life!

Usually, due to the efforts of the Elven Goddesses, the Elves believed in many Elven Goddesses.

The first step in planting the Tree of Life was to pray to the Elven Goddess.

The second step was to pray to the gods they believed in.

The Gods they believed in would also send blessings to help the Tree of Life grow taller and bigger.

When the Tree of Life was planted in the Rocky Forest, there were too many elf tribes that had joined. On that day, more than twenty gods gave their blessings.

The blessings of these gods were more and less.

At that time, the Elven Goddess was the goddess of the largest tribe, and her blessing was the greatest!

.....

But this time, aside from the Lord of Flame, there was only one Elven Goddess and another goddess from the Day Elven Tribe.

“The opportunity is here.”

In this canyon, the Elven Goddess saw this and felt that her chance had finally come.

Because this time, the Lord of Flame would cast his gaze and even lower his consciousness.

Blessing the Tree of Life was not an easy task.

Because the Tree of Life needed special energy, it could not be blindly used!

If she messed up, she might lose the belief of the Elves.

Therefore, the God who gave the blessing must understand the status of the Tree of Life before it could give the blessing!

To understand the status of the Tree of Life, how could he not lower his consciousness?

This was the chance of the Elven Goddess!

Among the Greenland Elves, under the arrangement of the tribe leader, a few Elves sang praises to her, which touched the Elven Goddess.

This made her feel that the Greenland Elves did not abandon her!

Therefore, the Elven Goddess decided to send her blessings.

Just in time to communicate with the Lord of Flame’s consciousness!

Chapter 254: Life Laws! The Elven Goddess was about to cry!

In the forest, over 300,000 Elves had pious expressions on their faces as they sang praises to the Lord of Flame!

Within the Abyss, Lin Yan’s gaze was focused.

“Tree of Life!”

Lin Yan whispered.

Just as the Elven Goddess had thought, giving blessings to the Tree of Life was something Lin Yan had to study.

The reason why the Elven Goddess could give her blessings was very simple, she created the Tree of Life.

Even if she was the creator, she could not bless it as quickly as possible. Then who else could?

At this current rank, he could use his virtual godhood to send down simply his power or let his consciousness descend.

No matter how powerful Lin Yan was, he wouldn't use Divine incarnations or Divine clones.

However, out of curiosity towards the Tree of Life, Lin Yan decided to descend personally.

Thus, after casting his gaze over, Lin Yan used the Holy Flame to become his outer flame. Then, through the thread of belief, he passed through his exclusive Abyssal passageway and descended into the sky above the Tree of Life.

A white flame appeared above the Tree of Life!

This cluster of flames was Lin Yan.

However, he restrained the flames, and the temperature wasn't too high.

He had released several layers of flames on the outer layer.

The outermost layer was the Holy Flame. This allowed Lin Yan to emit a gentle Holy Light when he was burning, and it had an extremely good purifying effect.

In reality, being illuminated by Holy Light for a long time had a beneficial effect on the body.

If an ordinary person bathed in the Holy Light every day, his illness would gradually disappear.

Ordinary people's emotions were weak, and their hearts were not strong enough.

But if a Holy Light was shining every day.

The hearts of ordinary people would become even purer, and their willpower would also slowly become stronger. Some negative emotions would not be so easy to disturb these ordinary people.

Inside, the Holy Flame was cold. It was a flame that was beneficial to one's Divine energy.

This made the surrounding three hundred thousand Elves feel very comfortable under the Holy Light. This kind of comfort was naturally spiritual comfort.

Some Elves even felt that their Spirit had exploded!

One must know that this was not the little Lin Yan that Lin Yan had given Meng Ying and the others.

This was Lin Yan's burning.

The cold flames also involved the laws of magic.

As for Lin Yan, his energy of laws was generally above 20%.

Thus, after Lin Yan removed the cold flame from its hidden state, the effect of the burning was many times that of those small cold flames.

Even if there were so many Elves around them, every single one of them felt an increase in their Divine energy by a different degree!

The Elves felt their changes. They lowered their heads and sang praises to the Lord of Flame in a more pious manner!

“My Lord has descended!”

Chen Xi lowered her head and sang praises.

The Holy Maiden could not look straight at God. Even if it was just the power that God had sent down, because this time, God would send down his consciousness. That could already be considered as God’s presence.

Within the cold flames, there were white flames, ice flames that were used to restrain the temperature. Otherwise, no matter how Lin Yan tried to restrain it, the temperature would not be too low.

After Lin Yan descended, he stopped above the Tree of Life and activated his Virtual Godhood to analyze the Tree of Life quickly.

The Tree of Life was quite miraculous.

This tree involved many laws of life.

Thus, during the analysis of the Virtual Godhood, Lin Yan had obtained a large number of life laws.

The strength of the Virtual Godhood was obvious.

Even if ordinary deities were qualified to study the Tree of Life, they would not be able to obtain so many life laws!

On Lin Yan’s virtual godhood, the original life laws came from his white flames, only 25%.

Right now, his laws of life were rising, from 25% to more than 50%, and still rising.

This trip was worth it to?Lin Yan.

“The Elven Goddess is quite generous. With so many life laws, she doesn’t use any defensive means.”

Lin Yan thought.

However, Lin Yan immediately understood the reason.

The Tree of Life wasn’t something anyone could study.

After all, Lin Yan was already a God of the three hundred thousand Elves. Now, the three hundred thousand Elves were singing praises to Lin Yan. After Lin Yan descended, the Tree of Life did not resist him.

This was also the function of a hymn!

Let the Tree of Life not resist Lin Yan!

If it was another God who had nothing to do with the Elves, they might get nothing.

The Elven Goddess was indeed generous, but not everyone.

The God who was willing to protect the Elves made her so generously.

“This is equivalent to compensation, right?”

Lin Yan thought again.

Every God who blessed the Tree of Life could more or less get the rules of life from the Tree of Life. This could also be seen as some compensation from the Elven Goddess.

More than a thousand years ago, when the Tree of Life was planted in the Rocky Forest, twenty Goddesses kept sending blessings, and these Goddesses could get some rules of life from the Tree of Life. Otherwise, some small tribe goddesses might not be willing to send blessings.

It was also compensation from the Elven Goddess.

Giving protection, harvesting faith, and sending down blessings, one could still obtain the rules of life.

The Elven Goddess loved the Elves, although she did not have the time or energy to care about the Elves.

It was the same sentence. It was not a God recognized by the Elves. They couldn't send blessings to the Tree of Life!

.....

The more life rules Lin Yan got from the Tree of Life, the deeper his understanding of the Tree of Life was.

The analysis of the virtual godhood continued.

By now, Lin Yan already knew how to bless the Tree of Life, but he didn't move. He wanted to wait for the virtual godhood to analyze more life rules and then send a blessing. That way, the blessing would be even more effective, and Lin Yan could also obtain more life rules.

Two birds with one stone.

Very quickly, the Life Rule's resolution reached 80%, and then it resolutely moved towards 100%.

The harvest this time was huge.

Chapter 255: Life Laws! The Elven Goddess was about to cry!

The Elven Goddess was indeed generous. There were too many life rules in the Tree of Life. They could be given as they wished, and the virtual godhead could be analyzed to 100%.

This was no ordinary generosity.

And being generous sometimes has something to do with being powerful. Do you want an ordinary god to be so generous?

He did not have so many life rules himself!

Not everyone could obtain 100% of the life rules.

When an Elven Goddess gave her blessing, it would be good if she could grow by 23%.

.....

"He's here!"

In the forest, the Elven Goddess finally got the chance.

Then, the elf that she had transformed into suddenly disappeared, and her consciousness descended into the Tree of Life.

She also had to give her blessing to the Tree of Life and obtain some rules of life.

But that was not her main goal.

Her main purpose was to communicate with the Lord of Flame.

.....

After the Elven Goddess came to her senses, Lin Yan sensed it.

Then, another Divine consciousness descended. It should belong to the belief of the Goddess of the Japanese Elves Tribe. It seemed that they were not willing to give up this opportunity to obtain the rules of life.

This time, the Tree of Life was not small. The reason why there were many life rules in it was also related to the large Tree of Life.

Lin Yan didn't care. Everyone did their own thing. They didn't interfere with each other, so there was no need to communicate.

Well, Lin Yan had no idea that the Elven Goddess had tried to contact him.

The Elven Goddess contacted Chen Xi through her followers and prayed to Lin Yan. However, Lin Yan's gaze fell on Meng Ying and the others, and he did not hear Chen Xi's prayer...

Lin Yan did not listen to the Holy Maiden's prayers every time. He set up a mechanism for the virtual godhood to ensure that he did not miss the Holy Maiden's more important prayers.

The other two consciousnesses did not communicate with Lin Yan.

With the protection of the system and the virtual godhood, they did not notice Lin Yan's abnormality. They just thought that Lin Yan had sent down his power and consciousness. They did not know that this was Lin Yan's real body.

Lin Yan's attention was always on the virtual godhood.

The mastery of life rules reached 90%.

At this moment, Lin Yan felt a sense of consciousness approach.

For some reason, in Lin Yan's senses, there seemed to be a small, shivering feeling.

Was he afraid of him?

No, it didn't seem like he was afraid.

He seemed to be nervous.

Lin Yan did not care too much.

As long as the other party did not provoke him, Lin Yan would ignore it.

It was better to analyze the rules of life quickly.

If he could reach 100%, Lin Yan would have two rules that could reach 100%!

.....

“Oops, I’m so nervous.”

Besides?Lin Yan, the Elven Goddess’s?heart was very active.

Normally, when blessing the Tree of Life, no one would have any communication.

More than a thousand years ago, more than twenty gods gave their blessings at the same time, but none of them communicated with each other.

The reason was very simple: their?time was precious!

This was a rare opportunity to obtain?directly the rules of life. Who would waste their time in?communication?

After communicating, there was no sugar to eat!

The Elven?Goddess originally wanted to talk to the Lord of Flame.

But for some unknown reason, when the time came, she did not have the courage again.

The heavens were pitiful; she was a Goddess!

The Lord of Flame’s soul didn’t give her a sense of oppression. In fact... It even?attracted her a little, but she was just nervous.

She just couldn’t open her?mouth.

This caused her to feel conflicted.

“Oops, am I too useless.”

The Elven?Goddess was at a loss.

Then she kept cheering herself on.

“There isn’t much time left. The?Lord of Flame must be leaving. If this opportunity is?missed, there?will never be another opportunity.....”

The Elven?Goddess encouraged herself.

Her consciousness slowly leaned over.

However, after leaning over, she still could not speak.

“Speak!”

The Elven?Goddess was about to cry.

She was helpless.

Who asked the Lord of Flame to leave such a deep impression on her?

At that?moment, Lin Yan’s grasp of life rules had finally reached 100%.

“Huh!”

Lin Yan’s heart was filled with joy.

This was the rule for the second door to reach 100%.

Moreover, this life rule was obtained through the analysis of virtual godhood.

To analyze the rules of life, Lin Yan paid a lot of Divine energy.

That was right, according to the rules; it was no longer enough to use the power of belief to drive virtual godhood. They had to use the power of belief to exchange for Divine energy.

This was when the Elven Goddess generously gave the rules of life.

The analysis of the rules, how could it be that simple!

The two Goddesses next to him would probably get a 20% increase this time.

Fortunately, Lin Yan succeeded in the end.

“I can send my blessings.”

Lin Yan thought.

After sending down the blessing, he could withdraw!

He didn't know that there was a Goddess beside him who wanted to talk to him but couldn't muster up the courage to cry!

.....

Chapter 256: Soul exuded a charming aura!

In the sky, white light fell!

The white light enveloped the Tree of Life, and energy was transmitted from the white light to the Tree of Life, allowing it to grow rapidly.

This was Lin Yan's blessing!

This time, the growth of the Tree of Life was quite fast.

It was growing at a speed of one meter per second!

“Wow, he probably has a lot of life rules.”

Beside her, the Elven Goddess felt the change in the Tree of Life and was surprised.

Every time a life tree was planted, the gods that came to bless would send their blessings in turn.

The degree of change brought to the Tree of Life by this God's blessing was a sign of God's understanding of the rules of life.

Now that the Lord of Flame had given his blessing, the Tree of Life was growing so fast that the Elven Goddess was surprised.

This meant that when the Lord of Flame's consciousness descended this time, he had obtained an extraordinary harvest!

Otherwise, the blessing sent to the Tree of Life would not have such a good effect!

The Elven Goddess had only gained 20% of her life force.

Not long after, the Tree of Life grew from 20 meters high to 50 meters high and was still growing!

The Tree of Life was huge!

The Tree of Life in the Rocky Forest was almost 800 meters tall. Of course, it took more than a thousand years to grow!

When the surrounding 300 thousand Elves saw the Lord of Flame's power drop, the Tree of Life grew so quickly that every elf looked happy. Their praises became even more pious!

The Tree of Life was still growing.

In a short time, it had grown from 50 meters tall to 100 meters tall.

However, 100 meters was not the limit. It was still growing.

The Elven Goddess was stunned.

The Lord of Flame was too generous!

The rules in the Tree of Life were special. To make the Tree of Life grow so high, even if he had a high grasp of the rules of life, he had to release a large amount of Divine energy.

Why did the Divine energy seem like nothing to the Lord of Flame?

The Elven Goddess keenly noticed that beside her, the consciousness of another Elf?Goddess also trembled.

The power of the Lord of Flame also surprised the Goddess!

The Tree of Life grew faster and faster.

Soon, the Tree of Life was over 20 meters in diameter and 150 meters in height.

On the crown of the tree, its leaves kept growing. This scene was like a normal tree growing tens of thousands of times faster.

However, the growth of the Tree of Life did not end. It continued.

Even the surrounding Elves were surprised. They had never seen a blessing from a God with such a beneficial effect.

More than a thousand years ago, in the Rocky Forest, more than twenty gods had sent out their blessings one after another, which had allowed the Tree of Life to grow to over a hundred meters.

One had to know that the Elven Goddess's blessing was usually the most generous. It only allowed the Tree of Life to grow to 20 meters after it germinated. It would be good if God's blessing was a few meters long.

The Tree of Life was not any other tree. Not to mention a drop of Divine energy, half a drop of Divine energy would increase rapidly.

It was not possible to use Divine energy directly. They would die and send down blessings. It was done through Divine energy to drive the rules of life. This way, there would be no side effects.

And doing this through the Heavenly Barrier was, of course, exhausting for the gods. Therefore, ordinary blessings would only drop a little, not too much. In any case, the Tree of Life itself would grow!

“It’s still growing!”

Seeing that the Tree of Life was so tall and still growing, the Elven Goddess was shocked by Lin Yan’s generosity.

Next to her, another Goddess of the Elves was probably shocked!

The Tree of Life grew to 200 meters before it finally stopped.

The Elven Goddess heaved a sigh of relief. If it continued to rise, her little heart could not take it anymore.

And she was also worried.

The Lord of Flame was so generous that the Tree of Life had grown to two hundred meters after a person gave his blessing. It was even scarier than the blessings of more than twenty gods?when the Tree of Life was planted more than a thousand years ago!

Wouldn’t it be too stingy for her to only grow the Tree of Life a few meters?

“Oops, I forgot the most important thing!”

The Elven Goddess was too shocked just now. She had forgotten the most important thing!

That was to contact the Lord of Flame!

Now that the Lord of Flame had given his blessing, it seemed like he was going to withdraw. If she did not seize the opportunity, there would be no chance in the future.

Seeing that the Lord of Flame was about to withdraw, the Elven Goddess finally summoned her courage and sent a mental wave to the Lord of Flame:

“Lord of Flame, can I talk to you?”

“Talk to me?”

Just as Lin Yan was about to retreat, he received a spiritual wave from the Elven Goddess.

For some reason, the spiritual fluctuations of the Elven Goddess made Lin Yan feel timid.

“Was she afraid of me?”

Lin Yan pondered for a moment and finally responded:

“Okay!”

The Elven Goddess was extremely happy when she saw that the Lord of Flame responded to her. It was as if she had accomplished something important.

However, she suddenly did not know what to say.

However, the most crucial step was taken. The Elven Goddess overcame her fear and said:

“Flame Lord, I can help you protect the Greenland Elven Tribe. If you need it, I can help you protect the Holy Flame Forest. I only have the faith of four Elven Tribes. Can you leave a bit of the faith of the Greenland Elves Tribe for me? I don’t want too much.20%, oh no, 10% is enough.”

With that said, the Elven Goddess couldn't help but feel apprehensive.

Chapter 257: Soul exuded a charming aura!

For many gods, faith was a powerful guarantee.

Even though Divine Masters did not rely on the power of belief, there was still the power of belief within the Divine energy of Divine Masters.

Even if the Elven race was gentler, when it came to faith, they would not give in at all.

Lord of Flame did not reply.

The Elven Goddess' heart slowly calmed down because she suddenly felt that the Lord of Flame's soul gave her a very comfortable feeling after getting close to him.

This kind of comfortable feeling seemed to attract her.

For some reason, she suddenly had a feeling:

If only she could stay by the Lord of Flame's side like this!

“Oops, why would I have such thoughts?”

The Elven Goddess immediately realized her thoughts and could not help but feel ashamed.

However, even if she realized what she was thinking, she would still feel that the Lord of Flame's soul attracted her.

As an Elven Goddess, she had been a goddess for quite some time, but she had never been so close to another God, especially a male God.

A long time ago, she had a conversation with other deities, but with other deities, she didn't have this feeling at all.

Only Lord of Flame.

The Lord of Flame's soul felt warm.

His soul seemed to be emitting a charming aura.

It was this enchanting aura that made the Elven Goddess unable to control herself!

It also made the Elven Goddess feel a little uneasy.

It was so much so that she almost didn't hear a response from the Lord of Flame.

The Lord of Flame only replied with one word:

“Good!”

Did he agree?

The Elven Goddess was delighted. Just as she was about to thank him, Lord of Flame had already disappeared.

The coldness of the Lord of Flame once again gave the Elven Goddess a clear understanding.

.....

“Yes, I must be more generous.”

Although the Lord of Flame had left, the Elven Goddess had one more thing to do.

This was a blessing for the Tree of Life.

With joy in her heart, she decided to be a little more generous and give a little more blessings.

A light with the aura of an Elven Goddess shone down from the sky.

Under the light, the Tree of Life continued to grow. Soon, it grew from 200 meters to 250 meters!

The Elven Goddess was generous this time!

Even though her heart ached.

Because she had spent quite a bit of Divine energy!

“This is worth it!”

She encouraged herself like this.

Below, when the Greenland Elves saw how generous the Elven Goddess was, they couldn’t help singing praises to her.

This caused the Elven Goddess to receive a lot of psychological comforts!

After the blessing, the Elven Goddess’s consciousness left this place and returned to the Heavenly Realm.

After she left, another goddess also began to give her blessings.

The blessing from this goddess made the Tree of Life grow to twenty meters!

It was clear that after the Lord of Flame and the Elven Goddess became so generous, this goddess became much more generous.

Otherwise, according to normal practice, her blessing would be enough to make the Tree of Life grow at most seven to eight meters long.

At this point, the Tree of Life in the Holy Flame Forest had grown over 280 meters tall even though only three gods, including the Elven Goddess, gave their blessings!

It was more than a hundred meters higher than the Tree of Life in the Rocky Forest!

.....

“What a beautiful day.”

In the Divine Kingdom, the Elven Goddess was sitting on a chair woven with flowers, in a very good mood.

She had finally reached an agreement with the Lord of Flame, and the smile on the Elven goddess’s face had also increased.

After that, she recalled the meeting with the consciousness of the Lord of Flame.

However, what impressed her most was no longer the power of the Lord of Flame.

It was the aura of the Lord of Flame's soul.

"What a charming aura!"

The Elven Goddess could not help but think.

She didn't communicate much with the Lord of Flame.

She only said two words.

As for the Lord of Flame, she only said two words.

However, the Elven Goddess felt deeply attracted.

For the entire day, her mind was filled with the Lord of Flame. She was curious as to what kind of person the Lord of Flame was, what kind of story he had, and why his soul had attracted her so much.

Chapter 258: Deity! The discovered Elf?Tribe!

In the Holy Light?Kingdom, the Elven Goddess was sitting on a rock by the water. Her delicate feet were soaking in the water and swaying gently.

Her body leaned forward with her chin on her hand. She was thinking about the Lord of Flame.

What did the Lord of Flame look like?

"Must be very handsome."

The Elven Goddess thought.

"Oops, why can't you control it? It's time to rest."

The Elven Goddess jumped up gently and flew into a warm cloud in the sky?and got?ready for?a good night's sleep.

However, when she was sleeping, she dreamed of the Lord of Flame.

She did not know what she was dreaming about, but there was a smile on her face.

.....

In the Abyss, Lin Yan stared blankly at a newly emerged thing on his virtual godhood:

"God's?name: Lord of Flame

Temple: 15

Holy Maiden: 8

Power of Faith: 88 KW (KW=10,000,000)

Dark Faith: 1050W

Divine Energy: 30

Advanced Divine Energy: 10

Chaos Divine Energy: 20

Godhood: Convertible

Divine Body: None

Kingdom of God: None

Celestial: Not activated, not named

“Skills: [Blessing]”

That’s right; the new thing was the Celestial Family!

“Celestial, what is this?”

Lin Yan said to him.

Lin Yan activated his pantheon.

There was a net-like tree branch on it.

At the top of the Celestial Family, there were only three words: Lord of Flame!

Below the Lord of Flame there were eight smaller names:

Green Spirit, Dreaming, Chen Xi, Ivy, Luo Ying, Lottie, Mia, White Spirit

These eight names represented Lin Yan’s eight Holy Maidens. Next to their names, one could see their current realm.

Their names were gray.

Natasha, the Abyssal Succubus, was not included, probably because Natasha and Lin Yan had signed a master-servant contract.

Natasha was Lin Yan’s, Holy Maiden.

For Abyssal creatures, the Master-servant contract was indeed better.

At the bottom of the eight names was a blank.

It was not a blank.

There was another name below: Severa Vera?(10%)

The name was also gray.

“Who is this?”

Lin Yan was confused. He did not remember that he knew this person.

For some reason, a person appeared in Lin Yan’s mind.

That was the Elven Goddess who always made him feel a little timid when blessing the Tree of Life!

“Could it be her??But why did she come to the panel?”

Lin Yan thought.

And after her name, there was another 10%.

Lin Yan temporarily suppressed the doubts about the name and continued to think about the secrets of the pantheon.

“This God is a Divine?Master. Is there a large number of servant gods below?”

Lin Yan couldn't help but think.

The pantheon was now in a gray state, and there was a lot of information that he did not know. It seemed that he would only know after he activated it.

Lin Yan pondered for a moment before letting this matter go.

It was useless to guess when it wasn't activated.

His gaze swept over his Holy Maiden one by one, and he finally looked at Natasha's situation.

Natasha was starting a war in the middle of Abyss.

The scale of the war was getting bigger and bigger. Thanks to Natasha's war, Lin Yan's dark faith had entered the accounts very quickly.

In addition, Lin Yan's evolution points were also quite large, and there were even more evolution points than his Abyssal Flames. This caused Lin Yan to rise to another rank.

After the Flame of Annihilation, Lin Yan needed a terrifying number of evolution points to rank up. But now that he could rank up so quickly, it was enough to show the scale of Natasha's war.

Before reaching the Abyss of the Mobius, these were all appetizers.

Lin Yan retracted his gaze from Natasha. Natasha would not encounter any danger in the middle of Abyss.

.....

His gaze returned to the Holy Flame Forest.

After the tree of life was planted, the entire Holy Flame Forest began to recover.

In the next few days, the Elves continued to build their homes.

In addition, a beautiful temple was built.

The Elves were creatures that pursued perfection, so the temple they built was not only solemn, but it was also beautiful.

The Temple was built next to the waterfall at the top of the canyon. There was a large square outside the Temple. Below the square, there were several platforms next to the waterfall. These platforms had been carefully built. The edges were full of flowers, and the middle was very flat. It was also used as a square.

Chapter 259: Deity! The discovered Elf Tribe!

When there was something important to announce in the Temple, the Elves could stand down and listen.

As the Holy Maiden of the Lord of Flame, Chen Xi would live in the Temple in the future.

And she had another identity, the Queen of the Holy Flame Empire.

Due to the revelation of the Lord of Flame, Chen Xi saw the hope of quickly taking over the other Elven tribes. Thus, after discussing with the tribe's leaders, she decided that the establishment of the Holy Flame Elven Empire would be completed after all the other Elven tribes would reach the Holy Flame Forest.

This did not affect Lin Yan much.

Because on the panel of the title of Flame of Civilization, the Elven Empire had already entered.

Lin Yan's Flame of Civilization also rose to Fourth Rank.

The Continent of Gods was quite large, and it could be said that it was endless. Even if there were flying ships, it would take at least a few months to a year to take over all the other Elven Tribes.

The Elves who were too far away would not be willing to come.

For the Elves, a year was a short time.

After all, it took almost a hundred years for the Rocky Elven Empire to be established.

.....

Time quietly passed.

After another two weeks, ten flying ships set sail from the City of Miracle to the Rocky Mountains.

Of the ten flying ships, seven were small, two were medium-sized, and one was large!

This was a flying ship that had been built in the City of Miracles during this period!

After receiving Lin Yan's revelation, the City of Miracles could not be used for the time being, so Qing Ling sent them to the Rocky Mountains.

The distance from the City of Miracle to the Rocky Mountain Range was not too far, nor too close.

After all, Chen Xi had first met Lin Yan in the Demon Abyss, which was only a few thousand kilometers away from the City of Miracle.

The flying captain could fly around 500 to 600 kilometers per hour, and he could fly around 24 hours. At this speed, he could fly for four to five days and reach the Rocky Mountains.

It would take more than a month for the Winged people to fly at such a distance.

If they were to walk on the ground, they would have to walk for more than a year.

Meng Ying was personally in charge of this flight. After all, ten flying ships were already a huge fortune. Even if they were to fly very high, they would have to worry about meeting some strong people in the air.

As for Lord of Flame's three kingdoms, the Eldest Princess had already returned from the Eternal Night Empire. She had brought back the trade orders from three provinces at the same time, and the governor of another province had gone on a business trip to another province. She hadn't encountered them, so she didn't bring back the trade order.

However, the opening of the trade was not so fast, and the trade route had not been repaired.

Especially from the Horton Kingdom to the Eternal Night Empire, it was very inconvenient to pass through the west of the Xi Ling Kingdom, which was also a large area of forest. Princess Luo Ying was still sending people to open a commercial road.

That was right. In the past, these few Human Kingdoms didn't have much contact with the Eternal Night Empire.

Based on the economic structure of these few Human Kingdoms at that time, the demand for foreign trade wasn't big either. After all, this was an agricultural society, and it was at a self-satisfied stage. If the passage opened, these few kingdoms would be worried about threats from the Eternal Night Empire.

"Holy Maiden, when we get back, we'll attack the Hun River Principality!"

When Meng Ying boarded the ship, she spoke to Qing Ling.

Qing Ling nodded and said, "Don't worry, I'm in charge of the City of Miracles."

The Fox Lady was now an eighth-ranked forbidden spell magister, and it was quite powerful.

Even if Lin Yan could not use a mixture of two Divine energies to activate the blessing, he could still use single Divine energy to activate the blessing.

When using Chaotic Divine energy to activate the blessing, there would be some power that could break through the taboo, and the effect would be a little more powerful than using the heavenly deity to activate the blessing.

Coupled with the spiritual energy absorbed by the Fox Lady, the effect was not too good.

Of course, it could not be used frequently.

Meng Ying boarded the flying ship and left the City of Miracles.

.....

When several Kingdoms of Lin Yan were developing in an orderly way, they were in the forest somewhere in the Continent of the Gods.

Night fell soon.

"It's dark, let's go."

An elf's voice sounded in the empty forest.

"Well, let's go."

Many figures appeared in the forest.

These figures were all Elves.

These were the Elves who were preparing to migrate to the Holy Flame Forest.

Taking advantage of the darkness, the Elven team continued to walk along the forest, heading north.

There were at least a few thousand of them.

To avoid being discovered by humans, they chose to rest during the day and travel at night.

With magic, even if they were in the forest during the day, they could be able to hide and not let anyone notice.

They quickly left the forest and entered another forest. Thousands of Elves silently headed towards the Rocky Mountains.

Not long after they left, a troop of hundreds of cavalry arrived at the forest.

In the front of the cavalry was a man in armor, holding a strange-looking magical beast.

“Baby, go quickly.”

The man patted the magical beast and released the rope in his hand.

The magical beast rushed into the forest and sniffed everywhere.

Then, its ears stood up.

Not long after, it ran out of the forest and ran to the armored man.

“I’ve found you!”

The man smiled.

“Quickly call someone to inform Your Highness that the Elves’ whereabouts had been found. Gather an army to encircle, they can’t escape!”

Chapter 260: Encirclement! The Wind Elves broke through!

Under the cover of the night, the thousands of Elves moved quickly.

For humans, it was difficult to walk in the forest, but for Elves, the road in the forest was not harder to walk than on the plains. Moreover, they were very strong, so they walked faster.

They passed through one forest after another. In just a moment, they could walk at least 300 kilometers.

This was a speed that ordinary people could not reach.

Even the speed of the elite troops was not that fast.

They did not mean that danger was coming.

To pass through the Human Kingdom as soon as possible and reach the Holy Flame Forest, their path of advancement was a straight line.

This gave those who had the heart a chance.

.....

Outside another forest, the cavalry of hundreds of people caught up, but the Elves had already left the forest.

“These Elves are fast. I chased them for a few days before I managed to catch them. Judging from their route, they were heading north. Other than the cavalry, it was very difficult for the ground troops to catch them. Go, release a messenger and tell Your Highness to go directly to the north of the Orvis Forest. They should be there for a day.”

The armored cavalry led the way.

.....

The sky was getting brighter.

“It’s almost dawn; let’s find a place to rest.”

Among the thousands of Elves, a petite Elf spoke.

This Elf Tribe was also a Wind Elf Tribe. They were good at wind magic, and their archery skills were also quite brilliant.

“Well, there’s a large forest over there. Go there and rest.”

Another Elf said.

Therefore, the Elven team headed towards the forest.

In fact, in the large forest, they could travel during the day. However, they had rushed up a road, and they were tired, so they had to rest.

The Elven team quickly went into the forest and set up some small barriers around the forest with magic.

The sky was dark.

In the forest, the Elves were resting quietly. Outside the forest, there were several Elves on duty.

The Elves did not let down their guard.

Every time they passed a forest, they would hide the traces of their passing.

However, traces could be concealed. A team of thousands of Elves would eventually leave some traces of their aura. The enemy had relied on their aura to catch up to them.

Soon, the sun set three times, and the Elves fell asleep.

Around this forest, a large number of troops had arrived.

There were quite a number of these troops, and each side had tens of thousands of troops. They surrounded the forest from three directions, and the only direction they did not surround was not to worry, because that was the cliff wall.

These troops did not show them Elves. Instead, they were waiting for the encirclement to be completed to avoid alerting the enemy.

“Arcane, do you have thousands of Elves in this forest?? Why didn’t I see anything?”

On the front of the forest, a man wearing a beautiful outfit said.

“Prince, I can guarantee that there are thousands of Elves.”

The armored rider named Akashi said.

The Prince looked at the distant forest and said, “A few thousand Elves, an Elf can sell for at least two million gold coins, and the best can even sell for ten million gold coins. Of course, it’s a pity to sell the best. The Elves have a strong body, and one can play for a long time. Arcade, for this siege, I’ve brought out all my wealth. I even invited Master Hawk to help. If you’re wrong, be careful not to drop your head.”

Akashi said confidently, “Don’t worry, Prince. I’ve been following them for more than ten days. There’s no mistake.”

The Prince looked at him and asked, “It’s been more than ten days? So you came from Old Four’s territory? Did you inform the Old Four?”

Akashi quickly nodded. “I don’t dare!”

The Prince snorted and said, “It’s good that you don’t dare. If you’re right, I’ll reward you with ten Elves!”

Akashi was overjoyed. “Thank you, Prince.”

“Reporting, Your Highness Prince, the encirclement has been completed!”

At this time, a messenger came up to report.

The Prince waved his hand and ordered, “Send my order, attack!”

The horn sounded.

Hundreds of thousands of troops marched towards the forest.

The forest was very large, more than five kilometers long, but hundreds of thousands of troops were enough to complete the encirclement.

That military equipment was exceptionally sophisticated, and the armor on their bodies was distinct. These armors were refined armor, and there were many magical symbols on them.

This army was quite elite, even more, elite than the original 200,000 Royal armies of the Xi Ling Kingdom.

.....

The Elves instantly detected their movements in the forest.

“Not good, the human army is here!”

An Elf’s voice sounded.

Instantly, all the Elves in the forest woke up.

“Lydia, what should we do? We’re surrounded on three sides!”

An Elf looked at an Elf with a flower crown on his head.

This?Elf was the leader of this group of Wind Elves.

“Let’s go, let’s break out from the west!”

Lydia was very decisive and immediately said.

After saying that, she took out her bow from her magic bag and rushed out first.

Thousands of Elves took out their bows and scimitars and followed behind her.

Thousands of Elves quickly rushed out of the forest and headed towards the human army in the west.

, the west is our most elite heavy-armored infantry. They chose the west to break out of the encirclement. They overestimated Elves and told them not to be too ruthless. It would be a pity to kill these Elves.”

In front of the forest, the Prince snorted disdainfully.

Outside the forest, thousands of Elves rushed out. Under the command of the commander, tens of thousands of heavy-armored infantry soldiers put down their heavy shields and formed a copper wall.

These soldiers were all quite elite, at least at the first rank. Tens of thousands of soldiers over the first level formed a shield wall, enough to make people despair!

However, Lydia’s footsteps did not stop as she rushed towards the heavy-armored infantry.

In her hand, the bow and arrow had already been placed on the string. On the green arrow, magic waves constantly emerged.

Then, Lydia suddenly let go of her hand.

The green arrow rushed towards the heavily armored infantry. As the arrow continued to move forward, it created a strong airflow. The airflow became larger and larger. By the time the arrow reached the front of the heavily armored infantry formation, it had already created a huge tornado!

“Heavens!”

The heavy-armored soldiers at the front looked shocked. They wanted to run, but it was too late!

The huge tornado rushed into the square of the heavy-armored infantry and swept up a large number of heavy-armored infantry companies with their shields.

Some of the heavy-armored soldiers were swept up into the sky and thrown off again. They screamed and fell into the crowd, knocking them over.

“Run!”

The heavy-armored infantry behind them no longer cared about the Elves. They all frantically tried to dodge, but the tornado was too fast. The heavy-armored infantry could not dodge in time and be swept into the sky.

The thick battle formation of the heavy-armored infantry was plowed out by this tornado!

“Quick, follow me!”

Lydia shouted.

Instead, she stopped and shot an arrow into the sky.

There, a magister?flying in the sky hurriedly cast a defensive spell, but his defensive spell was shot through by Lydia’s arrow. The mage’s wand emitted a dazzling light and finally blocked Lydia’s arrow.

Thousands of Elves quickly passed through the passage and disappeared behind the infantry battle formation.

Lydia was the last to leave the tunnel. In the sky, the magister’s face was covered in a cold sweat, but he did not dare to attack again.

“Damn it!”

Seeing this, the Prince could not help but curse.

“Your Highness Prince, that elf’s archery is too powerful, I dare not get too close!”

The magister?flew up and said.

A tribe of thousands of Elves, “no matter how powerful they are, how powerful can they be? Master Hawk, you’re the Grand Magister!”

The Prince was furious when he saw the Elves disappear!

“Yes, that Elf is at most sixth rank, but her wind magic is too powerful. With the support of her wind magic, her bow and arrow range far exceeds my magic attack range.”

Master Hawk was still afraid of that arrow.

He was a great sorcerer, but although the great sorcerer was strong, he could not change the fact that magisters were fragile.

The Prince snorted and asked Akashi, “Can we catch up to them before they reach my brother’s territory?”

Akashi shook his head. “Prince, I’m afraid there’s nothing I can do.”

The Prince gritted his teeth and said, “Tell my big brother to surround them together! After these Elves are in my hands, I’ll be four and he’ll be six!”
