

## Flames 271

Chapter 271: ?Didn't cost a single soldier! Takedown of the?Hun River Principality!

“The nobles are unwilling to cooperate, what should we do?”

In the Hun River Principality, in the headquarters of a Church, several high-ranked?members of the Church gathered together to discuss matters.

“We'll take it at a high price.”

A young bishop suddenly spoke.

The other bishops looked at the young bishop.

The young bishop was encouraged and continued:

“For?10 silver coins per catty, regardless of whether the sorghum on the land of the nobles is mature or not, and how much it is, we will buy it for?800 catty per mu. After collecting it, these nobles should be willing to grow food.”

“That's a good idea, but we're going to have to spend a lot of our gold coins.”

Immediately, another bishop applauded.

“Alright, then let's do it!”

The Archbishop finally made a decision.

Soon, within the Church's territory, a large number of Church members began to buy sorghum from the nobles.

It was not a real acquisition.

As long as the nobles were willing to plant food, they would be given gold coins based on the output of 800 catty?per mu. The sorcerers, who were about to mature, would be dragged away by the Church. They could even be sold to the Xi Ling Kingdom. Those that were not mature would be directly plucked and planted with food.

When the people of the Church were polite and emotional, the key was to take out the gold coins. The nobles of the Church finally harvested the sorghum as quickly as possible and planted the grain.

It was impossible to say that some of these nobles had not sensed the danger. It was just that these nobles felt that they still had a lot of food left. In addition, the battle of faith was going to start, and it would not take their lives. It was just a change of church, so their days might be better.

That was why these nobles did not cooperate.

Well, Meng Ying's original plan had one of the greatest benefits. Even she didn't realize it.

That was the situation in the Xi Ling Kingdom. It was transmitted through the nobles of the Xi Ling Kingdom, making the nobles and civilians of the Hun River Principality envious.

Under such circumstances of envy, the nobles and commoners of the Hun River Principality hoped to become the Holy Flame Kingdom just like the Xi Ling Kingdom.

After all, the Xi Ling Kingdom was not the kingdom of the Lord of Flame.

However, after becoming the Lord of Flame, the situation in the entire Xi Ling Kingdom had improved countless times.

The people of the Hun River Principality couldn't envy them.

This was especially true for the commoners. They were all envious of the ten acres of land, and the Divine Beans could be taken, and they only had to pay one-tenth of the tax. If it was their turn, they would laugh in their dreams.

This was what Meng Ying hadn't expected when she started the economic war against the Hun River Principality. It was an unexpected gain.

.....

After the members of the Church did this, the other four members of the Church immediately adopted this method.

Although they had spent a lot of gold coins, half of the land in the Hun River Principality was planted with food.

"Send out all the magisters to speed up the growth. This way, it will only take a month at most, and the grain will be harvested on a large scale."

The five great churches gave orders.

Normally, the natural growth of grain would be taken into account. Normally, even if the grain were to grow, it would take two to three months for the grain to mature.

It would take even longer. After all, there weren't that many magisters, and magisters would have to rest and sacrifice some time.

But now, he could only use an even more intense method of urging him to grow.

Just as the upper echelons of the five Great Churches were rejoicing over the replanting of food in the land, bad news came.

The army of Xi Ling Kingdom moved!

More than half a million troops arrived at the border between the Xi Ling Kingdom and the Hun River Principality. They were ready to attack the Hun River Principality at any time.

This time, the five Great Churches of the Hun River Principality became anxious.

The five Churches no longer cared about the matter of urging the elders. They all recalled the magisters who had been sent to urge the elders and then issued a call-up order through the largest nobles in their respective regions.

That was right when these five great churches encountered foreign enemies, they were all united.

A large number of troops were armed, and a large number of magisters were recruited.

As for the grain in the field, who cared about them?

Without the Magister's urging, the food wouldn't have matured in a few months.

Of the five churches, every one of them had summoned around 150,000 troops, while the Church that controlled the Royal Family had summoned 200,000.

They formed an army of over 800,000 people.

However, a new problem immediately emerged. After the army was assembled, the 800,000 troops had consumed a lot of food in a day. The nobles still had to supply the food for their conscripts. They had already used up a lot of food, and now they had to supply the army, so they were secretly complaining.

Then, something even more terrifying happened.

The citizens of the Hun River Principality were running out of food.

These civilians didn't have much food to store. In the past, they mostly bought food in the hands of the nobles. In recent months, these civilians had made a lot of money, but a month ago, after Luo Ying reduced the supply of Divine Beans, this was the reason that the civilians had not much food left.

Now, they had money in their hands, but when the entire Hun River Principality lacked food, these civilians could not buy food.

Why would nobles sell it?!

They had a lot of food, but the problem was that when the war arrived, their newly grown food would take a few months to harvest, and their food still needed to supply the troops they recruited. How could they be willing to sell their food?

These civilians could not buy food, and even their survival was a problem. They could only go to the Church in groups.

How could the Church's stock satisfy these civilians? Moreover, the Church had to store some food for the army!

The world was huge, and food and clothing were the most.

If a person didn't even have food to eat, what would he do?

Most importantly, the nobles did not sell their food!

Under such circumstances, just on the third day after the army of the Xi Ling Kingdom arrived at the border; the Hun River Principality had launched several civilian riots.

Thousands of civilians joined forces and robbed the nobles. The noble's granary was completely robbed.

On the fourth day, the scale of the riots grew larger and larger, and nobles were being robbed everywhere.

Even the Church's granary was robbed!

On the fifth day, the nobles secretly recalled their army and saved their granary.

On the sixth day, more and more nobles recalled their troops. There was no other way. Seeing other nobles being robbed, these nobles did not want to become one of them.

And under the circumstances where everyone was doing this, the Church could not stop it. Even the Church was being robbed one after another.

There were even bold civilians who formed hundreds of thousands of people to rob the granary of the Royal Family.

Although the Royal Family still had a lot of guards, these guards could not have killed hundreds of thousands of people.

Therefore, several of the Royal granaries were robbed!

The Royal Family had no choice but to send some troops back to guard the other barns, otherwise, their army would be short of food!

This was the greatest power of Meng Ying's plan!

The entire Hun River Principality had fallen into civil strife.

However, the Church had no choice but to fight against the Xi Ling Kingdom.

However, there were more and more noble armies and even the Temple Knights could not watch.

Because whenever the Temple Knights prepared to intercept, the troops of the Xi Ling Kingdom would move, and then they would have to return. Whenever they prepared to intercept, the troops of the Xi Ling Kingdom would move, and the Temple Knights would have to return.

On the eighth day, Meng Ying waved her hand and the army of the Xi Ling Kingdom officially entered.

"I don't know how many of them are left."

In the past few days, Meng Ying had seen the situation over there.

Although with the strength of the two legends, they could easily crush it, they could not waste much time anyway, and this plan was made by Meng Ying, so Meng Ying naturally wanted to see the ultimate power of this plan.

"I estimate there are still three hundred thousand left."

Next to her, Princess Luo Ying said casually.

"I guess there are still 200,000 left."

This was the Fox Lady Qing Ling.

"No matter what, there are still hundreds of thousands."

This was the Eldest Princess.

This battle was probably their easiest one.

Everyone was very relaxed. They just wanted to verify the power of the project.

Half a million troops marched forward. On the other hand, a large number of spies had reported the situation back to the Hun River Principality.

At the end, when the army of the Xi Ling Kingdom arrived on the battlefield, they finally saw how many people remained in the Hun River Principality.

That was.....

Not more than 100,000 people!

There were approximately 40,000 members of the Church, 40,000 members of the royal army, and 10,000 members of the noble army.

In other words, this army of more than 800,000 and the other 700,000 had all left.

For some reason, even the Royal Army had withdrawn more than half of its troops.

Among the army of less than a hundred thousand, there were only four?seventh-ranked?and ten? sixth-ranked?magisters.

Their gods did not even send down the Holy Spirit.

The gods of the first rank were much weaker than those of the second rank. Their gods probably knew the consequences of the Holy Spirit descending from the Xi Ling Kingdom and the Horton Kingdom. How could they dare to descend the Holy Spirit?

They didn't dare to lower their Divine?incarnations.

Subdue God's?incarnation. The Divine?incarnation of the Horton Kingdom was the best outcome.

Originally, they were counting on the army they recruited to fight back.

But when the enemy arrived on the battlefield, their army had less than 100,000 people left!

In the Heavenly Realm, those five gods probably wanted to cry!

The ones who wanted to cry even more were the archbishops of the Church.

The five Archbishops looked at each other.

"We surrender!"

The five Archbishops cried.

Originally, their?strength was not as good as their?opponent's. How could they fight against such a small number of people?

"We can bring the Church's people away from the Hun River Principality for good. We can go to some wild Kingdoms?to the south of the Eternal Night Empire to spread the glory of our God. We will never return, let alone come back to cause trouble. I hope you can let us go!"

The five Archbishops said.

This was probably a compromise between the five archbishops and the five gods behind them.

This was the plan they had to choose.

It was better than nothing!

After the Fox Lady Qing Ling?prayed, she nodded at Meng Ying.

Meng Ying agreed.

As a result, the entire Hun River Principality was easily absorbed into the kingdom of the Lord of Flame!

### **Chapter 272: Empire was established! Meng Ying and Qing Ling both became Queen!**

The people of the five churches left.

They had taken away a large number of core members of the Church, and they had also taken away the Church's army that was willing to follow them.

Meng Ying did not stop them.

The total number of members of the five churches was about thirty thousand, with an average of six thousand members.

It was even more than the Church's army in the Xi Ling Kingdom.

Recently, about half of the reasons had gone with the five churches. These halves were orphans, who had been raised by the five churches since they were young.

As for the other half, they were mostly old and young, so they were naturally unwilling to leave.

Those who did not leave would be disarmed and would be temporarily taken care of.

Soon after, the army of the Xi Ling Kingdom entered the territory of the Hun River Principality.

As the army of the Xi Ling Kingdom entered, there was also news that the Xi Ling Kingdom would open up the supply of Divine Beans to the Hun River Principality. From now on, the Hun River Principality would be included in the Yan Nation and would enjoy the laws of the other Kingdoms.

This news caused the citizens of the entire Hun River Principality to boil with excitement, so much so that every time the army of the Xi Ling Kingdom arrived, the citizens would welcome them.

This made many soldiers in the Xi Ling Kingdom feel that they were not at war.

They came to inspect the territory for the king.

On this day, a large number of nobles from the Xi Ling Kingdom also brought over the Divine Beans, fulfilling the promise of the Xi Ling Kingdom.

It could be said that the Hun River Principality was the easiest country to take down.

Even civilians and nobles had the lowest resistance.

After a few months of trade, these commoners and nobles had long wanted to become citizens of the Yan Nation. There was no choice. Anyone who saw the people of the Lord of Flame living such a good life would be envious. The commoners were envious, as were the nobles.

In the past, these nobles could only earn money from land.

They earned a lot of gold coins from land.

Now, these nobles all knew that trade was more profitable than land.

The nobles of the Xi Ling Kingdom didn't care about their land at all. What they did every day was to expand their caravan. The speed at which they earned gold coins was already making the nobles of the Hun River Principality jealous.

They spent gold coins quickly.

A large number of special products from the Yan Nation, sorghum wine, and diamonds, all earned a lot of their money.

In addition, recently, the Xi Ling Kingdom promoted mulberry trees and silkworms!

These mulberry trees only needed to be planted at the edge of the commoner's land. It was not a special occupation of land.

But it could raise a large number of silkworms.

These mulberry silkworms, after being taken away by the Royal Family, made a kind of silk. It was simply the best of the fabric! It was countless times better than the linen, cotton, or woolen clothing worn by the nobles of the Xi Ling Kingdom!

But this kind of silk was also extremely expensive!

The clothes made of ordinary cloth, worn by commoners, usually ranged from tens of silver coins to a few gold coins.

Nobles usually wore gold coins ranging from a dozen to a few hundred.

But these silk clothes cost thousands of gold coins, and the more expensive ones cost tens of thousands of gold coins!

This was equivalent to a year's income for a small noble!

Such an expensive price was probably related to the low output.

The Yan Nation was also planting mulberry trees on a large scale.

The Yan Nation was vast and sparsely populated, and many of the forests were uninhabited. Some of the forests with poor resources were not as good as planting mulberry silk trees. The scale of mulberry planting was far larger than that of the Xi Ling Kingdom.

After receiving Lin Yan's revelation, the Fox Lady Qing Ling was preparing to open up a road from the Xi Ling Kingdom to the Eternal Night Empire. This would expand the scale of the trade and make the kingdom of Lord of Flame even more prosperous!

Yes, the larger the scale of the trade, the more people would participate in it, the richer the resources would be, the richer the people would be, the happier they would be, and the more devout their faith would be.

With money, more Magisters, Knights, and warriors would be born. This was for sure. After all, these three types of powerhouses needed resources.

In addition, when there was no need to worry about food and clothing, the population would increase!

In short, the more prosperous a Kingdom was, the higher the belief in contribution. This was for sure.

Under the circumstances that the nobles and civilians of the Hun River Principality were cooperating, and the Church had all withdrawn, the Hun River Principality stabilized at its fastest speed.

The Royal Family of the Hun River Principality was also interested.

The Royal Family probably realized that the Church was no longer able to handle it, so they withdrew their troops on the battlefield to avoid suffering from the Church.

After they withdrew their troops, they probably realized that was not enough, so they quickly removed the old king and let the new king ascend the throne.

The new king was the daughter of the old king.

In the past two days, the new king did nothing. She spent all day in her room reading about the Lord of Flame.

Not to mention, reading and reading fascinated her. She worshipped the Lord of Flame.

So, when Qing Ling and Meng Ying finally arrived at the city, the new king personally went to the city gate to welcome them. She warmly welcomed them and expressed her allegiance to the Lord of Flame.

She also wanted to be the Holy Maiden of the Lord of Flame!

This new king was called Jenna!

She even repaired the new Temple.

Qing Ling and Meng Ying looked at each other.

God could only decide this matter.

After all, the Holy Maiden was not something she could do just because she wanted to. She had strict standards.

Jenna's external conditions were up to standard, but the most important thing was that she was devout.

If this could not reach the standard, then no matter how good the external conditions were, it would be useless.

Then, Qing Ling and Meng Ying led her to the new temple and prayed to the Lord of Flame.

After receiving the response, Jenna offered a drop of blood and placed it on the altar, waiting for the contract to be signed.

During this process, Jenna was very nervous.

However, she had been curious about the Lord of Flame since a few months ago, and she had already started to understand the Lord of Flame. This was why the King had several daughters, and why he chose the youngest one to become the new King.

After two days of deep understanding, her belief in the Lord of Flame had reached the standard. Then, the contract was signed.

Jenna became Lin Yan's ninth official Holy Maiden.

Her strength was not particularly strong. She was only third-ranked, similar to Luo Ying.

However, with her participation, the Hun River Principality would be able to enter the kingdom? even faster.

Not long after the Hun River Principality was incorporated into the kingdom, Qing Ling,?Meng Ying,?and?the Fox Lady began to discuss creating?a small empire. There were many things to discuss.

Including the system of administration after the establishment of the small empire.

In the end, the result of the discussion came out.

The four kingdoms?merged to form a small empire: the Holy Flame Empire!

### **Chapter 273: Empire was established! Meng Ying and Qing Ling both became queen!**

The names of the four kingdoms had also been changed.

It was no longer known as a kingdom.

It was called “province “.

It was the province. Yan Nation was changed to?Yan Province.

The Xi Ling Kingdom was?changed to?Xi Ling Province.

The Hun River Principality was changed to Hun River Province.

The Horton Kingdom was changed to Horton Province.

In other words, the current Flame Empire had four provinces!

Compared to the Eternal Night Empire, which had 24 provinces, it was indeed a small empire.

There were only half of the Xi Ling Kingdom’s smallest provinces in the Eternal Night Empire, but the Eldest Princess didn’t say that there were only four provinces that were smaller than the Xi Ling Kingdom’s.

In other words, the Eternal Night Empire was a few times better than the Holy Flame Empire, or even ten times bigger.

It couldn’t be helped. The Eternal Night Empire was the one of top ten empires in the Continent of Gods!

However, the Holy Flame Empire had already found a way to expand.

As long as it expanded, it wouldn’t be difficult to catch up to the Eternal Night Empire!

The person in charge of the four provinces was confirmed.

The Fox Lady was in charge of the?Flame Province. This was the core of the entire Holy Flame Empire.

Luo Ying was in charge of Xi Ling Province and Horton Province.

Jenna was in charge of Hun River Province, who had just joined.

The economic planning of the four provinces was also done.

In the future, Sorghum would be planted by Horton Province. The reason for this change was that Horton Province was mainly focused on the plateau and was more suitable for sorghum planting.

As for Hun River Province, it had many water systems, flat terrain, and higher grain production.

As a reward for the establishment of the small empire, on this day, Lin Yan also used his virtual godhood to develop new rice for the Holy Flame Empire.

This rice was the famous hybrid rice variety before Lin Yan transmigrated.

As a student, Lin Yan had already studied hybrid rice. This time, he used virtual godhood to create it with little effort, and the yield was higher than hybrid rice.

After all, there were more or less some magical substances in the soil of this world. In addition, with the help of magic, the yield was quite high, and it was even about twice as high as the actual rice of the Hun River Principality.

That kind of rice was still imprinted by Lin Yan, and the breeding right was still firmly in the hands of the church, and no one could steal it.

He did not want to expend the Divine energy, hard work to get out the things to others as a dowry.

When this new rice came out, the people of Hun River Province quickly welcomed it.

There were still three laws in Hun River Province, and the civilians had cultivated a large amount of land.

These people quickly discovered that the benefits of growing rice were not much worse than sorghum.

The most important thing was that mulberry silk trees could still be planted by the rice fields, and the second sideline could be started.

The functions of Xi Ling Province were more comprehensive.

There was also rice, there were also Divine Beans, of course, there was mulberry silk, and there was also a new thing.

Tea!

Yan Province was the tea, the big growers of mulberry trees!

When the economy of the entire empire turned, Yan Province needed an enormous amount of resources and would also buy from the nobles in charge of trade. Fox Girl Qing Ling would leave some profits for these nobles as hard work.

However, buying resources still required a lot of gold coins. A gold mine alone was not enough. The gold mine had a storage capacity of a few hundred tons, which was equivalent to tens of millions of gold coins. On the national rank, tens of millions of gold coins were nothing. It was still necessary to trade to earn more gold coins.

The items that Yan Province produced were the proceeds of the City of Miracles. They could be used to earn an enormous amount of gold coins and make more weapons and equipment!

After Lin Yan's Holy Maidens had decided on the outcome, Fox Lady Qing Ling prayed to Lin Yan to get the time to establish the empire officially.

That would be a week later.

The capital city of the Yan Province would be set up in the new capital city that Luo Ying had built in the east of Xi Ling Province. The scale there would be further expanded.

The reason why it was not set up in the City of Miracle was originally very simple. The City of Miracle did not need to become a capital city. That place would only be the City of the Lord of Flame!

Yan Province was the core of the Empire. The situation there was very special, and it would remain relatively closed for a long time. It was not suitable to be a capital city.

The new capital city was named Yan City.

This new capital city had already built a lot of areas that could be used for celebrations.

Oh, right? The most important thing was that they hadn't decided who would be Queen.

Luo Ying felt that she did not have the qualifications.

There was no need to mention Jenna. Those who joined later were not qualified to do so. The other Holy Maidens were not suitable either.

Therefore, they could only choose between Qing Ling and Meng Ying.

Luo Ying felt that it was not good to choose anyone, so she did not speak.

The other Saintess of Lin Yan did not speak.

Meng Ying felt that it should be Qing Ling because Qing Ling had always been Lin Yan's first Holy Maiden, and also Lin Yan's first Queen.

However, Qing Ling did not agree. She felt that she was a fox, and the Holy Flame Empire was dominated by humans. After the expansion, there would be more and more humans. If she was king, she could not be able to convince the public.

In the end, the two women pushed back and forth, so they could only give the choice to the Lord of Flames.

Lin Yan pondered for a moment. Whether it was the Fox Lady Qing Ling or the girl Meng Ying, they were all his favorite Holy Maidens. So in the end, Lin Yan gave the result.

The result was that the two of them became kings together!

Double Queen!

The Fox Lady was mainly responsible for the Church and the City of Miracle, while Meng Ying was mainly responsible for internal affairs and external expansion.

It wasn't absolute. Many things between them were discussed together.

If it was another kingdom, a mountain could not contain two tigers, and the Church and the king were separated, having two emperors was a big taboo.

But Yan Nation didn't have such a problem. It was a combination of politics and religion. Both Queen and Queen were Lin Yan's most loyal Holy Maidens, so there was no problem.

In reality, who was Queen was just a form.

However, this represented a kind of extreme glory, which was why Meng Ying and Qing Ling? pushed back and forth.

They were pushing back and forth, not the kind that pretended to be polite.

After selecting the Emperor, a week later, the celebration of the establishment of the Empire was held together with the ascension ceremony.

On this day, the new?Capital City was filled with people. All the nobles from the four provinces came to take part.

On this day, the Lord of Flame sent down a miracle and blessed everyone. It even sent down a Divine rain that nourished the entire land of the Holy Flame Empire, causing countless civilians to cheer for the Lord of Flame!

On this day, everyone was celebrating!

#### **Chapter 274: On the rise! An endless stream of Elves!**

After the establishment of the Holy Flame?Empire, Qing Ling and Meng Ying were vigorously developing the economy of the empire, making the entire empire more prosperous.

They announced many measures to encourage childbirth.

For example, every time a commoner gave birth to a child, they would gain ten acres of land.

The Continent of Gods was vast and sparsely populated. Many lands had never been discovered before.

Now that there were crops, tea, mulberry, and other economic crops suitable for all kinds of land, these lands would have the value of reclamation.

It wasn't just a matter of cultivation. In the Holy Flame Empire, all the land that wasn't cultivated belonged to the Lord?of Flame.

To the commoners, the land was their lifeblood.

As soon as the policy was announced, the number of newborns in the Holy?Flame Empire? increased.

The survival rate of newborns in this era was not high, which was one of the reasons why the population was low.

After all, medical treatment was too backward.

Although there was a God, it was impossible for a God to always give down his strength, especially for the sake of insignificant civilians. That would not be worth it for a God.

Only a few lucky ones could be so lucky.

For example, a mother who was seriously ill with a child prayed outside the temple every day. After praying for a month, she attracted a lot of attention. Then, God sent a miracle to cure her son, and it was called a beautiful talk.

However, such a thing would not happen once a year in such a vast empire!

For a God, this was just an investment. It showed his benevolence to gain a more devout faith.

But now it was different.

The core members of the Holy Flame Church were already able to pray for the White Flame. This was a flame that could heal, and since Lin Yan had obtained the Law of Life, the White Flame's healing effect was excellent, almost omnipotent.

With the help of White Flame, the survival rate of the newborn was greatly improved.

There was no need to worry about the increase in population.

At the same time, with the White Flame, some civilians who had suffered from old injuries could receive treatment from the Church as long as they were devoted enough. This made the people of the Holy Flame Empire very firm in their belief in the Lord of Flame.

This kind of belief slowly became love.

A God that people loved!

Following that, the Fox Lady Qing Ling also started basic education and increased the number of hospitals.

Although the white flame could heal, it was a waste to use it for a small cold or injury, so the hospital was important.

In short, everything in the Holy Flame Empire was on the right track, moving towards prosperity!

In military terms, new soldiers were also being trained.

The noble's right to recruit the army was completely withdrawn.

In the future, all the troops would be recruited and managed by the Royal Family of the Holy Flame Empire. The future soldiers would become a specialized profession. All the soldiers would be paid according to their strength, and their families would be exempt from all taxes.

In terms of population, the population of each province in the Holy Flame Empire was:

Yan Province: 2.83 million.

Xi Ling Province: 23.45 million.

Horton Province: 19.8 million.

Hun River Province: 28 million.

In total, there were over 70 million people.

As for the Empire's standing army, Meng Ying and Qing Ling decided to maintain it at one million.

Among them, the Yan province's orc army had always been 200,000 soldiers. The strength of these 200,000 soldiers was constantly increasing. They were the most terrifying army in the entire Holy Flame Empire.

The other three provinces were Xi Ling Province with 500,000 soldiers, Hun River Province with 100,000 soldiers, and Horton Province with 200,000 soldiers.

Some local troops were responsible for the defense of the area.

The Church also had one hundred thousand top-notch troops; this was a weapon against the other Church's temples.

Just like in the past, unlike Yan Province, any of the four kingdoms could pull up 800,000 troops.

However, there were only 800,000 troops in the four provinces.

The number of troops decreased, but the quality of the army increased greatly.

This was also a strategy used by some large empires.

In the Holy Flame Empire, the total number of troops was not unlimited, but the quality of the army was terrifying.

It wasn't an unlimited number of soldiers. The battle between soldiers was still useful!

And in the City of Miracle, the flying ships were also being continuously built.

Now, the ten production lines were all completed. Every month, they could produce 20 small-sized Airships, 4 medium-sized Airships, 2 large-sized Airships, and 1 oversize troop carrier.

Qing Ling and Meng Ying were waiting. When the number of flying ships exceeded 100, they could transport hundreds of thousands of troops at once, and then they could expand to the northeast.

This period was used to train the army, further upgrade their weapons and equipment, and increase the combat strength of the entire army.

At the same time, the trade with the Eternal Night Empire was relatively smooth. The three crops sold to the Eternal Night Empire were mainly potatoes, sweet potatoes, corn, and sorghum wine. The production of silk wasn't very high, and it wasn't until the end of the sale that large areas of tea began to be planted. Even if there was a rush, the first wave of picking was still a month away.

It sold very well four items in the Eastern Province of the Eternal Night Empire. In extensive areas meanwhile, all kinds of ores from the Eternal Night Empire were being purchased continuously.

Strictly speaking, the trade between the Holy Flame Empire and the Eternal Night Empire was still at the stage of a trade deficit.

Strictly speaking, the trade between the Holy Flame Empire and Eternal Night Empire was still in the stage of trade deficit.

That was, more goods were imported from the Eternal Night Empire.

It couldn't be helped. What was imported from the Eternal Night Empire was all kinds of ores, and the ores were more valuable.

In the past what was sold were crops with lower prices. Only sorghum wine had a higher price. However, sorghum wine had to be supplied to the Eternal Night Empire, so it couldn't be supplied at all. With limited production, sorghum wine wouldn't be able to recover its trade deficit.

However, as long as the silk was marketed on a large scale and the tea leaves were produced on a large scale, these two expensive goods could quickly reverse the trade deficit.

In addition, using the highlands of Horton Province, Qing Ling also ordered large-scale grape cultivation to brew wine, further increasing the production of wine.

The people of the Continent of Gods loved to drink alcohol, while the commoners drank alcohol. For the nobles, wine was more suitable for their status.

“Wow, Queen Chen Xi. Didn't you invite us to cultivate together? Why are you all finished?”

On a flying ship, an Elf exclaimed.

Around her, the Elves cried out in surprise.

This was the fourth batch of Elves they had received from the Holy Flame Forest.

Recently, the City of Miracle had sent another large flying ship over, which allowed the fleet to carry 40,000 Elves at once.

If they squeezed together, 50,000 Elves could fit in.

In other words, one trip would take away all the Elves.

### **Chapter 275: On the rise! An endless stream of Elves!**

After all, there were only 20,000 to 30,000 Elves in the average Elf Tribe. There were only 30,000 to 40,000 Elves in the larger tribe, and there were few Elf Tribes with more than 40,000 people.

“Yes, with the help of the Holy Flame, we have a very fast cultivation speed, so we only needed about four months to complete the cultivation.”

Chen Xi said.

The Elves on the flying ship looked down at the Holy Flame Forest, their faces were full of shock.

The cultivation speed of Holy Flame Forest was too fast.

They had already planned to spend decades and hundreds of years in the Dark Forest to cultivate, but they did not expect that the entire work would be completed!

Such a sharp contrast brought about quite a lot of excitement. Under such excitement, the Elves all felt as if they were dreaming.

They all came to the edge of the ship and looked at the Holy Flame Forest.

This forest was much better than the forest where they originally lived. It was much larger and safer.

The flying ship carried them to the center of the Holy Flame Forest, where the capital of the Holy Flame Empire was located.

“Queen Chen Xi, have you planted a life tree?”

The tribe leader asked again.

Chen Xi nodded and said, “It’s already planted.”

“Oh, then I can only add in the seeds. I heard that when the Rocky Elven Empire planted the Tree of Life, under the blessing of the gods, it grew to a height of over a hundred meters. I wonder how long our Tree of Life has grown.”

The Elf Tribe leader was curious.

Chen Xi didn’t answer directly, “You’ll see it soon.”

Soon after her voice fell, a huge towering tree appeared in the distant forest.

The tree was so big that even from a long distance; one could see its tall and straight body.

The Elves on the flying ship looked over.

“Queen Chen Xi, this is the Tree of Life. It seems a bit high.”

The Elf leader said.

It was too far away to estimate.

It was not until they got closer that the elf leader was stunned.

It was too high!

The tree of life that was nearly 300 meters tall looked a little too scary!

Most importantly, this Tree of Life had only just been planted!

The Tree of Life grew slowly. After growing for a hundred meters, it would be good if it could grow one or two meters a year...

This meant that the Tree of Life was so tall that it did not grow naturally, but was blessed by the gods.

But how many gods could the three hundred thousand Elves have? Or was there a tribe that had a particularly powerful God?

The leader of the Elven Tribe could not help but think of the Lord of Flame!

With the help of the Lord of Flame, the Holy Flame Forest was cleared in just a few months, hundreds of times faster than the Rocky Forest.

And the Tree of Life was much higher than the Rocky Forest!

.

The power of the Lord of Flame was beyond imagination!

Even after getting off the flying ship, the Elf Tribe still felt like they were dreaming.

“Lydia, I’ll leave them to you. After you’ve brought them to be familiar with them, you’ll be in charge of choosing the forest for them to live in.”

After Queen Chen Xi sent the people from the Elven tribe away, she said to the Wind Elf Lydia.

The Elves were free by nature. Even if they believed in God, no matter how firm their faith was, they would not have a Holy Maiden like humans.

There were so many Elven Tribes, but not a single Saintess.

This did not mean that their current beliefs were impious, but that they could see this as a custom. The Elves did not have this custom!

It was the Night Elves who had fallen into dire straits. To lift the curse and show their sincerity, Chen Xi had given herself to the Lord of Flame, becoming the Holy Maiden of the Lord of Flame.

And this was the most correct decision she had made in her life!

This time, after the incident with the Purple Gold Empire, Lydia and the thousands of Wind Elves came to the Holy Flame Forest to witness the miraculous speed of cultivation. They had a deep understanding of the power of the Lord of Flame.

Lydia was a very grateful person.

Therefore, she immediately decided to become the Holy Maiden of the Lord of Flame!

This was also allowed. No one stipulated that a tribe’s Holy Maiden could only have one, but the initial conditions had to be met.

Meanwhile, Lydia’s condition had been completely fulfilled.

“Please come with me. I’ll take you around and tell you about the Holy Flame Forest.”

Lydia enthusiastically took the people of the Elf Tribe to transit in the capital. There were also a large number of Greenland Elves, Wing Elves in the capital to welcome them and tell them the story of the reclamation of Holy Flame Forest.

This included the Holy Flame from the Lord of Flame, the attack from the Skeleton monster, and the blessing from the Lord of Flame to the Tree of Life.

The Elves in the newly arrived Elven tribe were stunned.

This new Elf Tribe instantly had a deep impression of the Lord of Flame.

Seeing their reaction, Lydia smiled.

Back then, when she first arrived in the Holy Flame Forest, her reaction was similar to theirs.

Other than surprise, she was also surprised.

After the surprise, she was still surprised.

It couldn’t be helped. All of this didn’t seem real.

However, this was even better.

After becoming the Holy Maiden of the Lord of Flame, Lydia also hoped that there would be more Elves who believed in the Lord of Flame. That was why she praised the Lord of Flame with all her might?and?made?the Elves have?a better impression of the Lord of Flame.

The Elven Tribes that joined later should have their gods, but Lydia believed that under the subtle influence, they would eventually believe in the great Lord of Flame!

Just like that, Chen Xi received the Elven tribes continuously.

Every week or so, she picked up one or two Elves.

These Elven Tribes generally lived in the forests at the edge of the Human Kingdom. These forests were not very good. The only advantage was that they were remote enough that humans would not discover them.

There were also some Elves fighting against the Human Kingdom nearby. Although there were only tens of thousands of them, they could still defend against the attack of the Human Kingdom.

These Elves were all taken away by Chen Xi.

There were more and more Elves in the Holy Flame Forest.

More than a month later, the number of Elves in the Holy Flame Forest had exceeded 500,000, and it was still rising.

These new Elves, after living in the Holy Flame Forest for some time, all liked this place.

And because of the spread of the story of the Lord of Flame, coupled with the shock in their hearts, some Elves already had?their faith in the Lord of Flame!

## **Chapter 276: The transformation of Natasha! The succubus and determination to dodge!**

“The Flame of Civilization has reached LVL5.”

In the Abyss, Lin Yan saw the level of the Flame of Civilization rise.

The increase in the level of the Flame of Civilization was due to the establishment of the Small Empire and the expansion of the Holy Flame Elven Empire.

At the same time, Lin Yan’s level had been greatly improved.

After this increase in level, Lin Yan’s mastery of the various rules continued to increase.

By now, Lin Yan had mastered 100% of the two rules.

The first was the Flame Rule. This was Lin Yan’s own rule.

As a Lord of Flame, after Lin Yan became a destructive flame, the rules of flame?naturally reached 100% mastery.

The second was the Life Rule. It was a rule from?the Tree of Life, and its mastery reached 100%.

The higher the mastery of rules, the better the effect would be when using rules.

In addition, Lin Yan’s Ice Rule reached 45%, Space Rule reached 35%, Forging Rule reached 40%, and Light Rule reached 30%...

Lin Yan had another title, the Flame Rules!

The title of Flame Rules was now LVL2.

When this title was worn, when Lin Yan's flames were ignited, the effect of the rules would be magnified. In addition, if this title reached the highest rank, Lin Yan could also use it to obtain a rule.

“Two Laws!”

Lin Yan couldn't help but feel a little jealous!

However, the LVL2 Flame Laws title was far inferior to the LVL5 Flame of Civilization title.

Lin Yan's gaze turned to virtual godhood. In the virtual godhead, there was more and more power of belief and Dark Faith.

His strength was rapidly increasing!

However, it was still impossible to use the Chaos energy and the Heavenly Realm's energy to activate the blessing.

It seemed that the Holy Maidens would need some time to reach the Holy Domain.

The ninth-ranked Legendary required a lot of time to reach tenth-rank Sanctuary!

In the Continent of Gods, 60 of the 100 legends would be destined to never break through to the Sanctuary.

There were 30 of them who had a certain chance. They would spend hundreds of years and thousands of years to endure, and they would have a chance to do so.

Yes, there was a chance!

There were still 10 left, and eight or nine of them should be able to breakthrough in a hundred years.

There were only one or two people who had a chance of breaking through within a hundred years.

Even Godhood could not be able to break through so easily.

Because the rules were not so easy to touch.

If he did not reach the peak of legends, his strength would not be enough, and he couldn't even reach the threshold.

At the peak of legends, it would take a great deal of time and energy to reach the peak of power. It would also require a great deal of knowledge and understanding of every aspect of this world. Only then one could be able to see through the surface and behind the entire world.

.

After all, the Continent of Gods was so large, and Lin Yan was the only one with godhood. The others were not so lucky.

In terms of understanding the rules, the blessing would have some effect, but the key was to rely on the Saintess to comprehend it.

Therefore, he couldn't be anxious.

However, Lin Yan was waiting for the virtual godhood's two Chaos Blessing?to end!

The last time he tried, he forgot to try to see if he could level up to Saint Realm.

If that was the case, then it was truly forbidden energy!

Lin Yan put this matter down and looked around at his Holy Maiden.

Lin Yan first put this matter down and swept his gaze over his Holy Maiden.

Meng Ying was still diligently practicing magic.

The Fox Lady?Qing Ling was also cultivating magic, but from time to time, she would still deal with politics.

She did not have much to do. The entire Holy Flame Empire had a special organization to help her share the burden.

The core believers of the Lord of Flame were all used in this organization. They could use virtual godhood to ensure that these people would not have any problems.

Luo Ying spent more time on politics than Qing Ling. She had no choice but to manage the two provinces.

The Eldest Princess was also practicing magic.

She took out a large number of magic books that she had purchased from the Eternal Night Empire? and built the largest Magister?Tower for the Holy Flame Empire. This Magister?Tower had a rich collection of over 10,000 books.

Magic books were not novels. Ten thousand books were already a terrifying number.

Lin Yan's other Holy Maidens were also making the best use of their time to cultivate magic. Now, their progress was very fast, and they were basically at the bottom of the seventh rank.

Only Jenna, who had just joined, had only risen to the fourth?rank after being blessed.

Right now, Lin Yan's blessing was much more generous. Using Divine energy or Heavenly Realm's?Divine energy was a very effective method.

Instead of using the power of belief as it was in the beginning.

The stages were different, so the efficiency was naturally different!

Meanwhile, in the north, Chen Xi was still picking up the Elven tribes everywhere. It would probably take some time before she could finish them all. After all, the Continent of Gods was too big.

Seeing the two empires developing in an orderly manner, Lin Yan turned his gaze to Natasha.

It had been quite some time since Natasha had been instilled with power, so she should be able to continue.

However, Lin Yan still had to check to avoid bringing adverse effects to Natasha.

He did not want to turn such a beautiful beauty into an ugly monster.

For the other Abyssal Demonic Gods, there was no need to think too much about increasing the strength of their subordinates.

As long as it didn't explode in one go, it would be instilled in one go.

Then let his subordinates slowly digest it.

He couldn't digest it, so he only had a few bags on him at most. These bags would still contain energy, which was a good thing for these Abyssal creatures. This meant that they could be replenished in battle.

As for whether they were ugly, would they care?

There was a lot of consumption, so the Abyssal Demonic Gods would not be too generous.

Selfishness was human nature.

Even the gods of the Heavenly Realm were selfish.

How generous could you expect the sinister and cunning Abyssal Demon God to be?

They just lacked a few runners.

Sometimes, when the Abyssal Demon God was bored, they might use their strength to hold up a "balloon" to play.

"Clan leader, there's no one left in this Red Earth Abyss!"

In the Red Earth Abyss, the succubus Chris came to report.

Natasha flew in the air and scanned the huge Red Earth Abyss.

Behind her was a headless army of demons. This army of demons controlled the army of demon hunters that were several times larger than her army!

This was already the middle Abyss.

They chose to jump forward, so they could dive very quickly.

"Did the Succubus dodge?"

Natasha said to herself.

"I'm afraid so, Chief. Now, the news of us attacking the Abyss of the Demons in the Middle Abyss has spread. I'm afraid to even the Abyss of the Demons has heard about it. Although we believe that under the care of God, we can take down the Abyss of the Demons under the leadership of you. Chief, but the other Succubus citizens do not believe it, so they chose to hide!"

The succubus Chris said.

This was the first time Natasha had given her the option to submit or die. Now, she had become the core figure beside Natasha, and she had the strength of a seventh rank.

Then, more and more Charm Generals came to report the situation.

"Chief, we haven't found a single succubus in the Red Earth Abyss."

“Chief, we haven’t found him either.”

“Chief, we didn’t.....”

In a row, dozens of Succubus gathered the information about the exploration to Natasha.

All the demons in the middle Abyss had fled!

They couldn’t afford to offend Natasha and her Succubus army, but they didn’t want to go to the Abyss to die, so they chose to hide!

That was right, in the eyes of this Succubus; going to the Abyss of the Monstrous Aspect was just suicide!

The Succubus was born in the Abyss of the Bees.

In the beginning, the entire Demon Abyss was filled with Succubus. They even had a powerful demon dynasty!

However, the demons on the lower level of the Abyss joined forces to attack them. In a short period, they killed countless Succubuses and drove them out of the Behemoths Abyss.

The surviving Succubus was not strong, scattered in the middle and upper levels of the Endless Abyss, less than 30% of the previous number.

After so many years, the total number of demons had recovered a lot, but in the eyes of the demons in the middle Abyss, they couldn’t even beat others when they were most powerful. Now with Natasha, how could they compete with hundreds of millions of demons in the Mobis Abyss?

The demons did not even need to attack themselves. Just by sending more than the demons themselves, the number of minions could be said to be endless, and they could annihilate the entire Succubus! Millions, tens of millions, hundreds of millions...

In the Mobis Abyss, it’s just pediatrics.

In the Abyss, even the newly born Abyssal creatures had a certain level of combat power. Their growth was completely unlike the human babies, they required more than ten years.

There was only enough food. In less than a month, their strength would grow. It could be said that everyone was a soldier.

### **Chapter 277: ?The transformation of Natasha! The succubus and determination to dodge!**

The Continent of Gods was vast, and the number of life was not much less than the Endless Abyss.

But the scale of the war in the Continent of Gods was far less than the Endless Abyss.

The Holy Flame Empire with a population of 70 million, Qing Ling and Meng Ying were only prepared to retain one million troops.

It was precise because the difference in strength between them and the Behemoths Abyss was too great that the mid-level Abyss did not have Succubus looking down on Natasha.

However, the news had not spread so fast, so Natasha had gathered more than ten million demons and more demon hunting ants for some time.

However, after the extinction spread, the demons hid one after another.

The Abyss was endless. Even if Natasha searched layer by layer, she might not be able to find all of them. After all, they could still move.

That would take a long time.

Natasha did not want to be dragged into the middle Abyss.

“There’s no need to gather Succubus, let’s go straight to the Demon Abyss!” Natasha suddenly said.

Her gaze was firm, and her expression was cold.

“Chief, we only have ten million Succubuses!”

Hearing Natasha’s words, Chris couldn’t help but turn pale with fright even if it was her core members!

Ten million Succubus. This number sounded terrifying.

However, it was equivalent to the number of servants of two Demon Lords in the Abyss.

This was the type of grand lord.

Natasha raised her voice and cast a sound amplifying spell so that everyone could hear her. She said:

“That’s right. We only have tens of millions of Succubus. Even if we continue to search layer by layer, we won’t be able to find those who want to hide for countless years. In the middle Abyss, there are at least hundreds of millions of Succubus, or even more. However, they don’t believe us. They all think that we are courting death in the Mobis Abyss.”

She paused and had the Succubus digest the information in her words before continuing:

“Rather than searching for them, why don’t we let them join us on their own? We’ll go directly to the Mobis Abyss and start a war. When we win one victory after another, the Succubus who see hope will naturally join us with their Demon Hunter Ants!”

Natasha’s tone was firm, which meant that she had made a decision that could not be questioned.

However, the tens of millions of Succubus still buzzed after she finished speaking.

These Succubuses indeed had doubts in their hearts!

However, although these Succubuses had doubts, no one objected.

In the successive battles, Natasha’s control over the Succubus army had become quite strong.

The other reason why they did not object was because of Natasha’s God!

The Abyss Demon God and Lord of Flame behind her gave them some confidence.

Now, there was more and more Abyssal Succubus who could pray for the evil flames. On the battlefield, that kind of flame was simply a nightmare for the enemy. Once they encountered it, the enemy would be burned to death!

“That’s right!”

At that moment, a mysterious and dignified whisper sounded in Natasha’s mind.

“God!”

Natasha immediately lowered her head.

Then, Natasha felt a terrifying will enveloping her.

In this will, Natasha sensed her God’s aura, so she did not resist and gave up all resistance.

Since God had sent down his will, it meant that God had something important to do.

Everything about her belongs to her God. No matter what her God did to her, she would not resist.

Her God’s will scanned her body inch by inch, even all the hidden parts. Natasha’s body trembled slightly, and a rare crimson color appeared on her body.

Three minutes later, her God’s will finally left her body. Natasha felt that she was exhausted.

Then, an evil and supreme power descended.

Natasha was delighted when she felt the power.

God had finally infused her with power!

This evil and supreme power rushed into her body. Even though it was strong, after entering her body, it became like a gentle breeze and rain, increasing her strength in a way that was not violent.

In the eyes of the tens of millions of Succubus, a green pillar of light suddenly appeared above Natasha’s head.

This green light pillar looked evil and strange, but it contained power that made the tens of millions of Succubus tremble.

In addition to strength, there was a terrifying will that seemed to circle in the sky. The tens of millions of Succubus could not help but hold their breath. They did not even dare to breathe. They could only look up at Natasha, who was being infused with strength.

Each Succubus’ face was filled with incomparable envy.

Natasha was the servant of the Demon God!

They did not have such an opportunity.

The green pillar of light lasted for an entire ten minutes before dispersing.

However, Natasha had been floating in the air with her hands crossed in front of her chest. Her eyes were tightly closed as if she was still absorbing the energy that had been injected.

This Red Earth Abyss was extremely quiet.

Even though there were tens of millions of Succubus and several times more Demon Hunting Ants, none of them spoke and looked at Natasha in the sky.

An hour later, Natasha opened her eyes.

When she opened her eyes, those eyes emitted a terrifying, dark green light.

Following that, her aura was released without restraint, causing the surrounding Abyss Succubus to be unable to stand still!

A pair of purple wings grew on Natasha's back!

Yes, wings!

This pair of purple-red wings had a black spine on it, making it appear incomparably evil. At the same time, it was filled with a suffocating beauty!

On Natasha's body, traces of evil aura lingered even more.

It was as if she had transformed into a true Abyss Demon!

“Whoosh!”

When they saw Natasha's change, the tens of millions of Succubus around them were in an uproar!

The Abyssal Succubus was indeed a demon!

Even demons had wings!

Although she could fly at seventh rank, two demons, having wings and not having wings were two different concepts.

Flying with wings was better than flying without wings.

More importantly, the wings were also the weapons and shields of the demons!

It could attack.

It could also block their attacks.

It could be said that the demon with wings was at least twice as strong!

Their wings, the principle of flight, does not rely on air, they could fly even in places without air!

Inside, there were some chaotic rules involved!

However, the Abyssal Succubus was like a human. Even at the eighth rank, it did not have wings.

Their bodies were far inferior to the demons. Their abilities could have given them a chance to use the ant sea tactic.

Unfortunately, the demons had too many minions.

Therefore, the Succubus could only be the weakest demon!

However, once the succubus reached the ninth rank, they would grow wings, and their combat strength would also increase!

It was just that there were too few ninth-ranked Succubus's.

Even at the peak of the Succubus tribe, the number of ninth-ranked Succubuses was not too many.

Now it was even more possible that there was not a single one.

But now, Natasha had grown evil wings. She was a ninth-ranked succubus!

How could they not be shocked by this!

A ninth-ranked succubus and an eighth-ranked succubus were two different concepts!

At the same time that millions of Succubus were shaking, a large green flame fell from the sky!

“It was the energy from the Lord of Flame!”

The succubuses were boiling.

They spent a lot of time distributing the green flames.

At this moment, Natasha had stabilized her realm.

.

Natasha flew in the air, her evil aura was shaking the world. Like a real king, she looked around with a cold gaze, and the succubus who met her eyes lowered their heads!

Compared to the doubts of more than an hour ago, the faces of these succubuses were no longer worried.

Natasha finally retracted her gaze. She pulled out a pitch-black sword from somewhere and pointed it straight ahead.

“Let’s go! Let’s kill our way to the Mobis Abyss!”

### **Chapter 278: The welcoming ceremony of the Behemoth Abyss!**

Tens of millions of succubuses, as well as Demon-Hunting Ants that were several times their size passed through the passage in the Abyss and dove quickly.

In some Abyss, there might be a passageway that could be teleported directly to the lower Abyss. However, such a passageway was too secretive and difficult to find.

Furthermore, such a passage would not allow the army of tens of thousands of Succubus to pass through quickly. It would be better to jump straight down.

There were so many Succubuses and Demon-Hunting Ants, but the key was that they were twisted into a wave, which made the life in the middle Abyss tremble, afraid that the Succubus’s army would attack them.

However, the Succubus army did not start a war in the middle Abyss. Instead, it did not stop at all, aiming at the Demon Abyss.

“They’re going straight to the Mobis Abyss!”

In a certain Dark Abyss, hundreds of thousands of Succubuses and demon hunters gathered there.

Yes, these hundreds of thousands of Succubus were transferred from the Red Earth Abyss.

In the middle Abyss, the Dark Abyss was far less safe than the Red Earth Abyss. However, to avoid joining Natasha’s army, these Succubuses went to the Abyss to die. They chose to hide there.

These Succubuses thought Natasha would send people to search for them layer by layer. They were even ready to continue moving.

However, they did not expect Natasha to stop searching for these hiding Succubuses. Instead, she chose to point her sword at the Mobis Abyss!

“Are they crazy? Don’t you dare to go to the Abyss?”

A Succubus said in an unspeakable tone.

Even if Natasha searched layer by layer, she would not be so surprised.

“Their courage is commendable, but unfortunately, they will be destined to die.”

“Yeah, I don’t know where they got the courage to bring so many people to die!”

“I don’t know who their leader is, it’s too stupid. If it were me, I would rather spend more time gathering more Succubuses and cultivating more demon hunters. Even if it takes a hundred years, a thousand years, it’s better than this.”

The surrounding Succubuses were discussed.

“Send someone to guard the Abyss in the upper rank of the Abyss. If they lose, help them open the tunnel.”

In this Succubus’s tribe, a Succubus leader said.

Although they were not willing to follow them to their death, they were still of the same species. Even though in their eyes, the same species were a little stupid, there seemed to be a bit of courage in this stupidity.

At least, they did not dare to do so.

“They’re done for, yet they still dare to go to the Demon Abyss. I’m afraid the demons of the Demon Abyss have already prepared an army and are ready to eat. It’s a pity.”

“It’s so impulsive to take so many people to death.”

In the other Abyss, there was also a lot of hidden Succubus’s discussing.

The upper Abyss was relatively sealed, but in the middle Abyss, the intelligent Abyssal creatures already had some unique means of transmitting the information.

Natasha and the tens of millions of Succubus’s army had caused such a tremendous commotion. Naturally, it had already spread throughout the middle-ranked Abyss of Succubus.

It was not just the middle Abyss that knew.

The commotion caused by the Succubus also spread to the Bees Abyss.

The Demon Abyss was the standard lower Abyss. It was also a lower Abyss that was closer to the middle Abyss.

The demon’s minions were all over the Abyss. There were always minions who would take credit for the demons and report the movements of the Succubus.

On the edge of the dark and vast Abyss of the Monstrous Bees, there was a giant demon castle.

This demon castle was exceptionally large. In the demon castle, demons of all sizes flew in and out from time to time.

In the largest hall of the castle, a demon with two wings on its back, legs and hands, and muscles on its body were eating the flesh of a certain creature.

This was a human-like demon, and it was also a category of demons in the Abyss.

They had very powerful bodies, and evil power flowed through their bodies. This meant that most magic was ineffective against them, and even they were not particularly afraid of the Holy Light.

Their image was a little similar to the original demon image in some western movies and TV dramas before Lin Yan transmigrated.

Suddenly, a giant bat-shaped demon crashed into the demon castle, smashing the glass-like window into pieces.

“Who dares to break into my castle like this”

In the hall, the demon that was eating began to roar.

However, when it saw the giant bat-shaped demon, its momentum instantly dropped.

The giant bat-shaped demon did not care about its attitude at all. It took away its two thin wings and walked into the castle with its slender, seemingly uncoordinated legs. It said in a strange voice:

“Lord Barcelona, my king has heard that in the middle Abyss, there is a Succubus’s? army heading towards the Demon Abyss. They will probably pass through those tunnels at the edge of your territory.”

“What? Succubus??These rats hiding in the middle and upper abyss finally dare to return? How many of them are there?”

The demon named Barcelona stood up, his mouth was full of blood.

“Many, ten million succubuses, plus tens of millions of demon-hunting ants.”

The bat-shaped demon said.

“What??Ten million is also too much. My army of boners and ridge breakers is enough to drown them, and I don’t need my little fellows to do anything. Your news is very useful, or those cruel fellows might have beaten them back when the succubus first appeared. Well, I have to tell them to hide first. When the entire succubus arrives?at the Demonic Bees, we’ll seal the passage and capture them all!”

A cruel light flashed in the eyes of Lord Barcelona.

Demons were all good at playing tricks.

As compared to humans, their hearts were truly unfathomable, and their hearts did not have a good side.

It could be said that all the dark sides of humanity combined were inferior to them.

The bat-like demon said, “Yes, that’s what I’m going to tell you. Since the demons dare to come, you can prepare a welcome ceremony for them. The demons are good food. After you win, my king will send someone to exchange some demons’ bodies with you. By the way, leave a strong mouth. My king’s taste has changed a little recently.”

After saying that, the bat-shaped demon flapped its wings and smashed another window, instantly disappearing from the castle.

The Demon Lord Barcelona watched the bat-shaped demon leave with a dangerous light in his eyes.

Then, it snorted and flapped its wings, smashing the roof of the demon castle and flying into the sky.

“Everyone, stay away from the tunnel and hide. If anyone doesn’t hide well, I’ll tear them apart.”

The Demon Lord Barcelona roared below.

Its voice traveled far away.

Following that, in its vast territory, countless boners and ridge breakers began to retreat together, far away from the Abyssal tunnels.

From time to time, there would be a large number of Abyssal creatures gushing out from the Abyssal tunnels, but this time, the boners and the ridge breakers ignored them.

At ordinary times, the boners and ridge breakers of this powerful Demon Barcelona rely on those Abyss channels to eat.

Every day, a large number of Abyssal creatures gushed out from those tunnels and became their food.

The Monstrous Abyss was incomparably dangerous, but there were still countless middle-ranked? Abyssal creatures trying to enter. They could gain better growth here and become more powerful Abyssal creatures.

However, apart from filling up Barcelona’s Bonesetter and Spine breaker, they were no different.

“Little ones, everyone is out. Your food is here!”

The Lord of Demon Barcelona woke up his demon subordinates one after another.

The entire castle was instantly filled with demons.

The sky was also filled with Dark Demons!

As a powerful Demon Lord and an existence that guarded the Abyssal Path of the Demonic?Bees, the Lord of Barcelona did not just have the army of minions.

The number of its demon army was also shocking!

As compared to the servant demons, demons were quite powerful. For demons of the same rank, it was not a problem for an evil demon to fight ten servant demons.

That gap, the stronger the strength, and the more obvious.

If it was a seventh-ranked demon, a seventh-ranked demon could easily defeat dozens of seventh-ranked minions.

In the eyes of the demons in the lower Abyss, demons were the masters of the Abyss!

In the entire Abyss, 90% of the Abyss Demon Gods were transformed by Abyss demons, and only 10% were other Abyssal creatures.

The Abyss was the Abyss of demons.

In the eyes of the demons, regardless of whether it was the upper class or the middle class, even if the number was endless, it was just some boring barren land. They did not even have the desire to conquer it.

Under the arrangement of the Demon Lord Barcelona, not a single servant demon could be seen around the passage.

And its demon army had already flown into the sky, like a black curtain covering the sky. Even if one looked closely, one could not tell because it was too far away.

“Enjoy this special welcome ceremony!”

Lord Barcelona’s eyes flashed with a bloodthirsty light!

## **Chapter 279: Succubus First! Kill the demons!**

“This passage leads to the Mobis Abyss. I’ll go out first and you can follow.”

At a point more than a dozen ranks from the Mobis Abyss, Natasha looked ahead at the passageways.

It took them more than a month to get there from the Middle Abyss after they had made their way to the Mobis Abyss.

Thanks to a large number of older succubuses among the succubus, these succubuses were familiar with the passage of the Middle Abyss and had found a large number of passages that could pass through many layers.

Otherwise, they might not be able to get there for years.

“Most likely the Mobis Abyss knows our intentions, Chief. I’m afraid we’ll be attacked through these passages. Let me go.”

Chris volunteered.

Natasha shook her head, her voice filled with unimaginable calm:

“No, they will certainly wait for us all to pass before launching the attack, so that the Demon-Hunting Ants first, you later!”

She took the lead and flew straight into the passage.

Through this dark passage, a Dark Abyss with ancient flavor appeared in the field of vision.

There was the Mobis Abyss.

There was no such light source like the sun in the Abyss, the entire Abyss was dark, but some of the tops of the Abyss, more or less, and there were some luminous substances, only the Dark Abyss was completely dark.

The Mobis Abyss was comprehensive. Although it was very dark, there were some lights that no one knew where they came from. If it was a human, he could see something with the naked eye.

For all Abyssal creatures, darkness was not a problem at all. They could see everything.

It was not a problem for demons.

They live in the Abyss, just as humans live in the Continent of Gods, and the environment there was the best for them.

Natasha, as a young succubus, had never been to the Mobis Abyss.

As she flew out of the passage, she looked at the Abyss in which the succubus had been born.

But now there was no succubus in this Abyss.

The demon castle of Lord Barcelona was hundreds of kilometers away, and Natasha did not see it.

In her sight, there was not a demon, nor could the demon's minion army.

Although she had never dealt with demons, Natasha knew the demons, and the Demon Lords nearby would never let them come.

There was only one reason for not coming to stop it.

The other side figured it out!

Natasha's expression did not change. She did not spread her wings, or she would have been frightened and would not have come out.

Even among demons, ninth-ranked demons were rare, and a step further was a tenth-ranked demon.

That was the demon.

And this time her ten million Succubus army, one or two seventh or eighth-ranked Demon Lords, enough to deal with!

So Natasha didn't show her wings so as not to scare them away.

After entering the Mobis Abyss, she needed a victory!

No, she needed to keep winning!

Never fail, because failure once means a total loss.

She was confident!

She knew that her God's eyes were on her!

She also wanted to prove to her God that he didn't make a mistake choosing her!

Behind Natasha, the Demon-Hunting Ants poured out like a tide.

Because of the large numbers, it took several hours for the ants to come out, even though the passage to the Mobis Abyss was wide.

After all these Demon-Hunting Ants come out, they were the demons of the Abyss!

In the distance, the Demon Lord Barcelona was patient.

The demon's temper was violent.

Rage, and volatile, they could be angry at any time, could be light.

Otherwise, why were they called demons?

But in hunting, they maintained considerable restraint and patience!

For them, patience was a kind of torture themselves.

But many demons liked the feeling of torturing themselves, which made them especially crazy and irritable when they attacked!

Out-of-control situations were common.

"So it's a succubus above seventh-ranked. No wonder we can pull up so many succubus armies. Tsk Tsk, I can't wait to taste her flesh. Speaking of which, I haven't eaten succubus for a long time."

In the distance, the hidden Demon Lord Barcelona's eyes flashed with excitement.

"Chief, why isn't there a demon? They won't be hiding, are they going to catch us all?"

The succubus Chris flew up into the sky and said.

"You're right, Chris. You go and tell them not to fly. Get ready for battle. They're coming."

Natasha said.

"Yes, Chief."

Chris flew down.

In the present succubus army, in addition to the ninth-ranked Natasha, Chris was Lin Yan directly instilled power, becoming the eighth-rank succubus.

Yvette, who used to be with Natasha in that thousand-man tribe, became an eighth-ranked succubus.

There were also many seventh-ranked succubuses.

Being able to instill power directly was the greatest advantage of Abyssal creatures.

Lin Yan would use his will to descend and scan their bodies thoroughly. After a while, he could be able to instill power into them.

As their ranks increased, Lin Yan discovered that the chaotic rules would interfere with the infusion of power, increase consumption, and bring in immeasurable changes.

Fortunately, Lin Yan had gained a lot of chaos rules through a few Abyssal Flames. He could control these changes within a controllable range.

As for consumption.

As long as they started an endless war, Lin Yan would have an endless stream of Dark Faith. He did not care about consumption.

Only with input would there be output!

And the output would only be greater than the investment!

After another two hours, tens of thousands of Succubuses finally emerged from the tunnel.

At this moment, a large amount of grey energy began to appear in the tunnel behind him.

The passage was closed!

“Sure enough!”

On the ground, Chris whispered.

These were not the only passages leading to the Abyss of the Demons, but some of them were far away. It could be said that their escape route had been cut off.

“Little ones, let’s do it!”

In the sky, the roar of the Demon Lord Barcelona could be heard.

Then, on the ground, an endless stream of boners and ridge breakers surged out.

The number of boners and ridge breakers was simply unimaginable.

If they flew into the sky, they could see a large carpet on the ground.

The blanket kept moving forward.

They continuously passed through the Demon Castle of Lord Barcelona, filling the hundreds of kilometers between the Demon Castle and the Succubus!

This was the war in the Abyss!

Huge, chaotic, no rules!

In fact, in ancient times, when the Abyss attacked the Continent of Gods, the Human Kingdom like the Xi Ling Kingdom would be under the charge of a Demon Lord like Lord Barcelona.

The population of the entire Xi Ling Kingdom was not as large as the number of Servant Demons of Lord Barcelona.

In the battle on the Continent of Gods, the weaker minions could not be sent out. The number of boners and ridge breakers seemed to be large, and most of them were below first-ranked.

Therefore, if Lord Barcelona were to attack the Continent of Gods, he could only send a few million troops to attack. After that, he would be suppressed by the laws of the Continent of Gods. When the

Abyss Demon God and the gods of the Heavenly Realm were engaged in the same battle, without the interference of the gods, they could be able to draw with the previous Xi Ling Kingdom.

“Enjoy the feast! Hahahaha!”

Lord Barcelona’s wild laughter resounded across the sky.

The boners and the ridge breakers did not stop at all. They rushed towards the Succubus army like a tide. The battle line they pulled out was hundreds of kilometers long. On the hundreds of kilometers wide battle line, there were still many boners and ridge breakers, without any gaps!

The succubus army was hiding in an area of 200 kilometers. On their three sides, there were all Demon-Hunting Ants. Behind them was the passage they had just walked out of. Now that the passage was closed, they did not have to worry about being attacked!

“Great Lord of Flame, my devoted God, please give me the flame to destroy everything!”

In the sky, Natasha prayed.

She needed a big win!

And this big victory must be solved as quickly as possible!

In this way, she could be able to establish herself in the Abyss of Mankind.

As a result, Natasha decided to activate her divine skill.

With her ninth-ranked strength, she would activate the most terrifying Divine Technique!

As Natasha prayed, she seemed to hear a loud voice saying:

“As you wish!”

Then, countless green flames appeared in the sky!

Meteor shower!

This was a meteor shower formed by the flames of evil!

“Boom!”

Then, the dense meteor shower formed by the flames of evil smashed into the army of the boners and the ridge breakers.

The Evil Flame burned violently and burned the Boners and the Spine breaker until they screamed.

In the Boner’s army and the Spine breaker, a large area was burned out.

“Attack!”

Natasha gave the order to attack after killing countless boners and ridge breakers.

She flew into the sky. On her hands, the evil power formed a green ball of light, and Natasha raised her hands.

The entire sky was instantly filled with evil power!

Natasha's attack killed and injured the demons hidden in the sky by Lord Barcelona!

The remaining demons wanted to escape when they saw the situation was bad, but how could they escape? Natasha continued to attack, reaping the lives of those demons.

Following that, the eighth-ranked Chris and Yvette flew up as well and continuously released the evil flames, killing the demons who thought they were well-placed!

The battle had just begun. The boners and the ridge breakers had yet to die, but the demons in the sky had almost been wiped out!

### **Chapter 280: Moves! Succubuses responded!**

In the distance, when the Demon Lord Barcelona saw this scene, his eyes were on the verge of splitting apart!

It was a demon army!

The demon army was even more important to it than the endless minions below!

What to say in the Abyss, one could see it like this:

The demon army of Lord Barcelona was equivalent to the Royal Family of the Xi Ling Kingdom and the Church's army plus a part of the elite nobles.

As for the endless army of minions, it was under the leadership of a part of the nobles' armed forces that the entire twenty million people of the Xi Ling Kingdom were sent to the battlefield, and they were unarmed.

Therefore, in Lin Yan's opinion, although the scale of the war in the Abyss was large, most of the time, it was necessary for rookies to peck each other first, and then the official war.

The Abyssal creatures were still much stronger than the ordinary citizens of the Xi Ling Kingdom!

The Continent of Gods paid attention to order, and ordinary people would not go to the battlefield under normal circumstances.

The battle of faith was only a war between the Church and the Royal Family. The ordinary people were the targets of every church's protection.

Although the more power the powerhouses contributed, the more faith they had, and the ordinary people did not seem to be that important, thinking about it, where did the powerhouses come from?

From the people!

Ordinary people were the foundation of a Kingdom!

Without ordinary people, there would not be an endless stream of powerful beings!

But the Abyss was different. What they wanted was chaos. No demon would care how many Abyssal creatures would die. In any case, Abyssal creatures were born quickly.

No matter how many minions died, the Demon Lord Barcelona would not feel distressed.

In any case, there were countless Abyssal creatures in the Middle Abyss that were fighting to be its minion!

However, if a demon died, it would feel extremely distressed.

But now, Natasha and the two Succubuses' had killed all of its demon armies in a short time!

Lord Barcelona's eyes instantly turned red!

Its emotions had completely lost control.

Lord Barcelona roared, flapped his wings, and flew towards Natasha like lightning.

On the other side, Natasha saw it rushing over. She also flapped her wings and showed off her purple-red wings without any scruples. Then, she dashed towards Lord Barcelona.

When he saw Natasha's wings, Lord Barcelona felt that something was wrong.

"Ninth Rank!"

The Lord of Barcelona was slightly more awake.

But then it thought, what?if it was ninth-ranked!

The fighting power of the succubus is low, and the ninth rank succubus couldn't be its opponent!

"If I kill you, I can turn the situation around!"

Lord Barcelona flew towards Natasha.

Then, it saw Natasha pull out a black dagger.

And then...

A wave of intense pain came. Natasha chopped Lord Barcelona's wings off!

"Boom!"

The Lord of Barcelona smashed heavily onto the ground; his life and death were unknown.

"Attack! Kill them all!"

Natasha's cold voice sounded.

These chaotic Abyssal Demons did not have any value left. It was better to feed them as food!

This war took a full day and night to completely end.

On the battlefield, there were corpses of boners and ridge breakers everywhere.

A large number of demon hunters were eating.

The power of these Demon Hunting?Ants continued to grow.

"Spare me; I'm willing to be your loyal subordinate!"

"Tell me the situation in the Mobis Abyss!"

Chris said coldly.

She originally wanted to call her?Tribe?Leader, but when she thought about it, it didn't seem domineering enough, so she simply called her Queen!

"Abyss Demon King!"

Lord Barcelona's eyes narrowed!

The way Chris addressed Natasha frightened it!

Even if it was an eight-ranked Demon Lord and seemed to be only two ranks away from the Abyssal Demon King, these two levels were a distance that it would take hundreds of years to reach.

"No wonder she is so strong!"

Lord Barcelona recalled Natasha's first attack and the terror of killing its demon army in a short period. He was already making up for Natasha's terror.

At the same time, it felt comforting.

An eighth-ranked Demon Lord being defeated by a ninth-ranked Succubus should have been a shame.

This was because it was generally acknowledged that the succubuses were weak.

But now that it was defeated by an Abyssal Demon King, it did not feel so bad.

With this mentality, Lord Barcelona no longer doubted Natasha's identity as the Abyssal Demon King.

Seeing its expression, Natasha glanced at Chris indifferently but did not expose this point.

Even though Lord Barcelona was a cunning demon, his attitude was still low. He said:

"There are three dynasties in the Abyss. These three dynasties are built by different demons. They are similar in strength, and there are wars between them. The blood bat dynasty built by demon hunters is close to here. Outside of these three dynasties, many Demon Lords haven't joined them. They just need to provide them with servants. These independent Demon Lords occupy about half of the area of the Abyss. I am one of them."

The name of the Demon Hunter Bat was similar to that of the Demon Hunter Ant, but one was a demon, and the other was an ordinary Abyssal creature.

Natasha heard this and asked it a few more questions.

Lord Barcelona replied one by one. Of course, even under such circumstances, it still could be possible to lie, so Natasha did not believe it.

After asking, Natasha said, "You go!"

The Lord Barcelona did not expect Natasha to let it go. If it was a human, he would still hesitate and suspect what the opponent was thinking. However, Lord Barcelona did not say anything and left in a rush.

"Clan..."

Chris was about to speak when Natasha interrupted her.

"Call me Queen!"

Natasha said.

Chris did not raise any doubts and immediately asked, “Why did you let it go?”

Natasha said, “Let it bring back the news that I am the Demon King of the Abyss. We will continue to attack the other Demon Lords and expand the scale of the war. When I become the true Demon King of the Abyss, we will launch an attack on the Blood bat?Dynasty!”

The Abyss of the Demonic Bees was incomparably huge.

In fact, after reaching the lower Abyss, it did not take much time to go from one Abyss to another.

And if someone?wanted to cross a certain Abyss, even if someone?could?fly, it would?still take a lot of time.

After her first battle was over, Natasha immediately attacked another Demon Lord thousands of miles away.

The news that the Succubus had returned to the Demon?Abyss?and won the battle against an eighth-ranked?Demon Lord quickly spread throughout the Abyss of the Demons.

Following that, news of an Abyssal Demon King emerged from the Succubus.

When the demons of the lower Abyss attacked the Abyss, there was a Succubus Dynasty in the Abyss. This Dynasty also had Abyssal Demons...

However, after being defeated by the other two Abyssal Demon Kings, it was unknown whether they were alive or not.

Later on, the two Abyss Demon Kings became three.

The demons that joined forces back then were also at war with each other.

As a result, the situation became ingenious.

.....

At the same time, none of the three dynasties with Abyssal Demon Lords took the initiative to attack the Abyssal Demon.

They didn’t even have?much of a reaction to the succubuses who attacked the other Demon Lords.

The demons were treacherous and cunning, but that did not mean they were brainless.

However, it was obvious that Natasha’s brain was better. With just a few words from Lord Barcelona, Natasha made the right decision.

She had already guessed the reaction of the three demon dynasties!

.....

“They defeated a powerful Demon Lord and established a foothold in the Abyss!”

In the Red Earth Abyss, the surprising?voice of a succubus sounded.

“Did you hear? Their leader is the Abyssal Demon King! A tenth-ranked?king!?Clan Leader, let’s make a decision. They are still fighting in the Abyss of the Monsters.

Although they have kings, their soldiers are too few. They need more succubuses and more Demon Hunting Ants. Let's join in!"

"Yes, Clan Leader, returning to the ancestral land, we've longed for it for a long time!"

"Let's join!"

In this group of Succubus, a large number of Succubuses petitioned to join Natasha's Succubus army!

These Succubuses had been living in the resource-poor Red Earth Abyss for a long time. Every succubus was eager to return to the Abyss of the Bee.

That was where they were born.

The Succubus had the body of a human, and even the external structure was the same, but they were all female.

How could females reproduce?

Just like Abyssal creatures, very few Abyssal creatures were mammals.

In the Abyss, a large number of Abyssal creatures were transformed by the demon bugs.

There were also a large number of Abyssal creatures that were born of eggs.

It was from the egg.

And demons were born from the Abyss.

The powerful demon used some special methods to put his genetic information into some special areas in the Abyss. After the Abyss aura was infected, new demon eggs would be born.

The Succubuses were similar.

Of course, they did not rule it out that a few demons used the method of mating and breeding, but very few.

After leaving the Demon Abyss, through some special methods, the Succubuses could still reproduce, but it was far less comfortable for them in the Abyss of the Demons.

"Alright, let's join!"

The Succubus race quickly made their decision.

In the middle of the Abyss, the succubus had won the first battle, and the news that there was another Abyssal Demon King among the succubus began to spread.

More Succubus tribes were restless.

Some of the Succubus who had doubts about whether Natasha was the Abyssal Demon King had also given up their doubts because the Succubus kept expanding the scale of the war.

If it weren't for the Abyssal Demon King, how could they dare to be so arrogant in the Bees Abyss with three Demon Kings?

The key was that none of the three dynasties cared!

Natasha's move had an unexpected effect.

Soon, the Succubus Tribe appeared in the Mobis Abyss one after another. They took the initiative to join the battle with a large number of demon hunters.

This was much better than when they went to search the Abyss one by one!
