Chapter 281: Population problems! Millions of Elves!

In the Endless Abyss, every day, there was a lot of war happening.

In the Abyss of the Behemoths, other than the war that Natasha started, the war between the Demon Lords was endless.

The Abyssal creatures were born too quickly.

Every day, a large number of Abyssal creatures crawled out of the Demon Bug Abyss and headed to other Abyss.

Every day, a large number of Abyssal creatures were born from the Abyss.

In fact, without this endless war, even if the Abyss was endless, the entire Abyss would have been filled with Abyssal creatures.

Therefore, the Abyssal demons would never think that the scale of the war was too large!

In the entire Abyss, the three demon dynasties stood.

These three demon dynasties were built by the three most numerous demons in the Abyss. They occupied the middle of the Abyss, like an equilateral triangle, occupying more than half of the Abyss.

And around the three demon dynasties were many other Demon Lords. These Demon Lords were powerful, and they did not join the three dynasties.

Natasha's war in the Mobis Abyss was to attack the Demon Lords around the three demon dynasties.

These Demon Lords were only sixth or seventh-ranked, with tens to millions of demon servants. The strong ones were like the eighth-ranked Lord Barcelona, with tens of millions of demon servants. There were even more powerful Demon Lords inside.

That was a ninth-ranked Demon Lord!

However, Natasha had not met him yet.

When Natasha started the war, in the middle of the three demon dynasties, three terrifying wills collided with each other.

"The Succubus has returned to the Abyss of the Demons, setting off war around your dynasty. Demon Bat King, are you not going to care?"

A terrifying wave of will emanated. Just this wave of will alone shattered a large number of Abyssal creatures.

"There are constant wars in the Mobis Abyss every day. There are hundreds of millions of dead servants, few more than her, not any less than her. It's about to sink into the Demon King. Are you all ready?"

“Of course, we’re ready, but your Blood Bat Dynasty, be careful of the attacks of the Succubus. They have a king, don’t be replaced, we have an interesting opponent missing”

“Humph, after that, I’ll take action and finish them off.”

“It’s better...”

After a brief exchange, the three wills quickly dissipated, as if they had never been there before.

On this battlefield, the Abyssal creatures were still in chaos.

Wars could be seen everywhere. This was the normal state of the Mobis Abyss.

During the period when Natasha started a war in the Mobis Abyss.

On the Continent of Gods, there were more and more flying ships in the City of Miracles.

In the hills to the east of Yan Province, tea mountains could be seen everywhere.

These tea mountains were connected, stretching as far as the eye could see.

In other mountains, mulberry trees were also being planted.

These places were originally barren forests, but after being burned by flames, they were planted with tea, mulberry, and other economic crops.

There were even more mountains that had been transplanted with fruit trees.

Apples, pears, peach trees, walnuts, chestnuts, grapes, and so on.

The entire Yan Province had become a huge production base.

With the addition of LVL5’s Flame of Civilization, the entire Flame Empire’s crop growth time was greatly shortened, which was equivalent to a full-scale magic effect.

The yield was also increasing, and the number of pests was also decreasing.

In Yan Province, a large number of cash crops welcomed the harvest season.

“We don’t have enough manpower.”

In the City of Miracles, Fox Lady Qing Ling said.

She would occasionally stay in the Capital City of the Holy Flame Empire, but most of the time, she liked to stay in the City of Miracle.

This was the city she had built.

Meng Ying looked at her and said, “Call workers from the other three provinces. Only female workers are recruited and paid a high salary.”

Qing Ling nodded and said, “This is a good idea.”

Picking vegetables, picking fruits, women were faster than men, and the other three provinces were also in the process of reclamation. For ordinary civilians, 10 mu of land could be reclaimed by one person. Although the women in the family were labor, they still had a lot of surplus labor.

Yan Province could at least recruit millions of female workers from the other three provinces, which would greatly ease the shortage of labor in Yan Province during the harvest season.

Hiring only female workers could avoid some trouble because women only wanted to make money and rarely caused trouble.

Qing Ling said, "Sister Meng Ying, we're not the only ones in the Orc Kingdoms of the Continent of Gods. If we can find other Orc Kingdoms and conquer them, moving the Orcs there to Yan Province would be a fundamental solution."

Hiring female workers from the other three provinces was only a temporary method, because, with the rapid development of the other three provinces, those three provinces would start to lack people.

The Fox Lady mentioned a fundamental solution.

With the size of Yan Province, it would not be a problem for the number of orcs to increase tenfold.

The battle power of the orcs was average. With the number of orcs, the orcs' army could also expand. Unlike now, it could only be 200,000. Any more would have a huge impact on Yan Province's production.

Meng Ying said, "Well, the Eldest Princess has a lot of connections in the Eternal Night Empire. I'll have the Eldest Princess inquire about which region the Orc Kingdom is."

Around the City of Miracle, a large number of factories were also being built.

Yes, the best way to produce tea, silk, and wine was intensive and industrialized production.

The textile machine had been invented by Princess Lottie of the Cat Clan after being inspired by the Lord of Flame. This was the first industrial revolution before Lin Yan transmigrated, and it would greatly increase the efficiency of weaving.

The textile machine that Lottie invented was not that primitive. She added a lot of magical components, making the entire textile machine more efficient and less prone to wear and tear.

Of course, this kind of factory was not the black-hearted factory before Lin Yan transmigrated. Whether it was the treatment of the environment, it was pretty good.

In short, everything was on the right track.

The productivity was developing too quickly, but the population was too small. It could not keep up with the development of productivity, and it became the biggest problem.

In the north, the number of Elves in the Holy Flame Forest was increasing.

In the sky, 15 flying ships flew over.

Holy Maiden Lydia was already waiting there.

It was a sea of Elves who had migrated from an island forest.

The inland seas of the Continent of Gods were exceptionally large. The largest inland seas were even bigger than the four oceans that Lin Yan crossed before!

There were quite a few Sea Elves; there were more than 50,000 of them.

They lived on a huge island, which was full of forests.

They believed in the Goddess of Storm, not the Elven Goddess.

However, as their island was discovered, trouble came.

Every once in a while, a large number of ships come to attack that forest and try to capture some Elves back.

These fleets were not a single force, but many forces. Some even dared to risk their lives on one ship.

After all, the Elven beauties were good to all the nobles on the Continent of Gods. One of them meant millions of gold coins.

They thought that the fate of these guys was not good, but their constant arrival made the sea of Elves feel irritated.

With the addition of a few Human Kingdoms, their days were even more difficult.

Therefore, after receiving Chen Xi's invitation letter, the sea of Elves decided to migrate to the Holy Flame Forest.

However, their decision angered Storm Goddess, who no longer protected them.

Storm Goddess was a powerful goddess, but most of her followers were at sea. If the Sea Elves left the island, they knew that they would no longer have faith in her. This was one of the reasons why Storm Goddess gave up her protection.

In fact, after the attacks of several Human Kingdoms, the Storm Goddess did not have a good way to protect Elves from those Human Kingdoms. She probably thought that even if she continued to protect them, she would not be able to protect them. The Sea Elves had no other choice but to migrate. She could find a reason to give up her protection.

This was probably the second reason.

God also wanted a face!

Without the protection of the Storm Goddess, the Sea Elves were even more difficult.

Fortunately, Chen Xi and Lomina arrived in time to rescue them from the besieged island.

"Wow, this forest is so big."

On the flying ship, the Sea Elves from the island forest all cried out in surprise.

The size of the Holy Flame Forest had indeed exceeded their expectations.

Of course, the Holy Flame Forest's reclamation speed and the height of the tree of life also surprised the Sea Elves.

This was the common reaction of every Elf Tribe that came here.

Apart from shock, it was still shocking.

After being shocked, they began to feel curious about the Lord of Flame and even worship him!

Holy Maiden Lydia continued to warmly welcome them. She led the fifty thousand Sea Elves around the capital city that was named Holy Light City by Chen Xi, and then brought them to choose the forest where they lived.

Since the Sea Elves had lost the protection of the Storm Goddess and were saved by Chen Xi at a dangerous moment, they quickly became believers of the Lord of Flame.

In reality, thanks to Lydia's efforts, the number of Elves who believed in the Lord of Flame had increased.

After the Elves moved to the Holy Flame Forest, they all felt the warmth of their home. They quickly treated this place as their new home. Although they did not join in the cultivation, they were still managing their forest.

Every Elf Tribe that believed in the Lord of Flame had built a temple in their place of residence so that they could pray to the Lord of Flame at any time.

There were only Chen Xi and Lydia.

However, many Elves were as devout as the Holy Maiden.

However, the Elves did not have the Saintess custom of humans.

Anna, like the Green Land Elf, spent no less time in the temple than the Holy Maiden, like the tribe leader of the other Wind Elf Tribe.

Maggie from the Winged Elf Tribe was currently compiling the history of the Holy Flame Forest and the founding of the Holy Flame Empire.

Well, it was only a few months.

But she was very serious.

Including the history of joining the tribe.

In short, in the entire Holy Flame Forest, the belief of the Lord of Flame had taken an absolute advantage.

And as this advantage grew, it would not be difficult for all the Elves of Holy Flame Forest to believe in the Lord of Flame.

After receiving the Sea Elves, Chen Xi set off again.

A few days later, she brought back the other two Elven Tribes, which each had more than 20,000 people.

After the two Elven Tribes were brought back, the number of Elves in the Holy Flame Forest officially exceeded one million!

Millions of Elves!

“Chen Xi, we have a million Elves now. We can officially establish the Holy Flame Empire first, and then use the name of the Holy Flame Empire to extend an invitation to the Elven Tribes on the continent. Some of the Elven Tribes that were originally living a relatively stable life and were unwilling to move, or some that were far away, will be willing to come.”

On this day, Lomina said to Chen Xi.

Chapter 282: To establish the Elven Empire! Send an invitation to the Rocky Elves!

Among the Elves on the continent, some Elves lived in the forest with good geographical conditions. For example, they lived in the mountains where there were few people. The Elves were very stable and did not want to rush to the Holy Flame Forest.

Some were so far away that even a flying ship would have to fly for a month or two or even a year.

The Elves that were too far away were not the targets of Chen Xi and Lomina.

However, if the Elven Empire could be officially established, it would be very attractive to the Elven Tribes that did not respond.

If the Elves could join the Elven Empire, it meant that life would be more stable and safer.

In the past, it had not been officially established because when the Holy Flame Forest had just been reclaimed, there were only 300,000 or so people. If the Elven Empire was officially established, the number of people would be too small. If the Elven Empire was established, there would be a feeling of being unable to take action!

With over 300,000 people, it was more than enough to establish an Elven Empire.

But setting up an Elven Empire in the Holy Flame Forest would be a waste of the Holy Flame Forest, which was twice the size of the Rocky Forest!

However, now that the population had reached a million, they could consider establishing the Holy Flame Empire!

Hearing Lomina's words, Chen Xi, who had been busy for several months, thought about it and agreed:

"Mm, mother, let's officially establish the Holy Flame Empire!"

During these few months, Chen Xi spent most of her time on the flying ship. Of course, she did not waste her time. On the way, she read all kinds of magic classics, especially those that could broaden her knowledge.

This would deepen her understanding of the world.

Every legendary existence was knowledgeable.

As for the Abyssal creatures, they were different. They wanted to break through to the Demon King, through war, through devouring, and various evil methods. After all, they were different from humans.

Chen Xi spread the news quickly.

"Whew, Queen, we've been waiting for this day for a long time."

Anna, the leader of the Elves, came.

"Yeah, we used to have too few Elves. Now that we have a million Elves, we're no less than the Rocky Forest. When the Rocky Elven Empire was founded, it was only 700,000 Elves."

This was Lucian.

The Elves did not have the desire to win, and they rarely had negative emotions like jealousy.

They were beautiful creatures from body to soul.

For example, when Lomina had gone to the extreme, she had traded with the Abyssal Demon God and gained power. After being discovered, even though the Rocky Elves had expelled them, who had already moved into the Rocky Forest, they had not fallen into a trap or chased them out of the forest.

They only wanted to leave because of the curse of the God of Darkness.

After they left, the Elves also spent a few years helping them kill the insects. When they saw them remove the curse and return to the ground, they congratulated them for being happy.

This was the quality of the Elves.

They would be saddened by their fallen compatriots, but they would not fall into a trap and even lend a helping hand when necessary.

This didn't mean that they could be bullied.

If it was an enemy, they would not show mercy.

Although the Elves did not fight for victory, the Holy Flame Forest was cultivated by them with the help of the Lord of Flame. It was twice as big as the Rocky Forest. They naturally hoped that the Holy Flame Empire would be stronger than the Rocky Forest Empire.

On this day, the leaders of the Elven Tribes in the Holy Flame Forest gathered together to discuss the establishment of the Holy Flame Empire.

The choice of the Queen was almost universally acknowledged.

In the future, the Queen of the Holy Flame Empire would be Queen Chen Xi.

Lomina, on the other hand, was the Elven Elder and also the Great Elder.

The other clan leaders also served as elders.

In the Holy Flame Forest, more than half of the Elves believed in the Lord of Flame.

Chen Xi made it clear that she would not interfere with the beliefs of all the Elven Tribes. This was also what the Rocky Forest did.

Subconsciously and forcefully forcing faith were two different things.

Among the Elves, the compulsory belief was not feasible.

And imperceptibly, it was voluntary.

Then there was the time of the formal inaugural ceremony.

It was held two weeks later.

During this period, she could still receive two or three Elven Tribes.

But this time, only Lomina was in charge.

Lomina was powerful, and it was not a problem for her to be alone. After all, the flying ship was flying very high, so she would not have any interaction with the Human Kingdoms.

In the Human Kingdoms, there were quite several flying ships, but human flying ships generally flew low, afraid that others would not be able to see them. In addition, the sky was so wide, so there was no problem.

“I’m afraid we still don’t know that we’ve already cleared the Holy Flame Forest. They’re all Elves. They must be invited to take part in the celebration since they’re so close. Who would be willing to go to the Rocky Forest to hand over an invitation?”

“Chen Xi asked.

“I’ll go!”

Maggie volunteered. “My speed is faster. I’ll be there in half a day.”

Chen Xi nodded and said, “Good!”

The current Holy Flame Forest was too large.

If there were no flying ships and they could not fly, the Elves could only travel about 30 kilometers an hour in the forest. This was already far faster than the speed of ordinary people.

If they encountered an emergency, their speed in the forest would be faster. After all, they were all second- and above-ranked Elves that were mainly third-ranked.

It would take a lot of time for an elf to walk from Holy Light City to the central city of Rocky Forest. After all, it was around 1,500 kilometers away. Even if they increased their speed, they would not be able to reach it in a day or two.

However, the flying speed of the Winged Elves was not slow, and they were much faster than the Winged People. If they were to fly at full speed, they would arrive within ten hours.

Chen Xi nodded and personally wrote the invitation before handing it to Maggie.

Maggie put away the invitation, said goodbye to Chen Xi, and flew towards the Rocky Forest with a few Winged Elves.

Although everyone was an Elf, this was already equivalent to the etiquette between nations, so they naturally had to pay more attention to it.

This was also why Chen Xi did not notify him through the Tree of Life.

The Rocky Forest was relatively closed.

With the existence of the Rocky Mountains, there was whether a possibility for the Human Kingdom to fight.

Therefore, the Elves in the Rocky Forest lived a carefree life.

Because the Rocky Forest had been reclaimed earlier, it had already been over a thousand years. In this forest, the trees were generally taller and taller than the trees in the Holy Flame Forest that had just been reclaimed.

In the uncultivated area of the Dark Forest, the height of the trees was about 60 meters.

After Lin Yan’s first wave of Divine Rain, the Holy Flame Forest reached a height of about 70 meters.

A wave of Divine Rain caused the entire Holy Flame Forest to rise by about ten meters.

Of course, there was also the credit for the title of Flame of Civilization.

The addition of the Flame of Civilization was not just useful for the Holy Flame Empire.

It was useful to all of Lin Yan's Kingdoms.

Holy Flame Empire, Holy Flame Forest, and even the Abyssal Succubus.

However, when the Flame of Civilization acted on the Abyssal Succubus, its function differed completely from that of the Continent of Gods.

The Abyssal Succubus had not cultivated, planted, or established their own Succubus Dynasty.

Therefore, the effect of the Flame of Civilization was to make them get twice the result with half the effort when they were searching for Demon Hunting?Ants. When they were cultivating Demon Hunting?Ants, they would have better results. Recently, the cultivation of the Elves allowed the trees in the area where the Elves lived to grow taller.

Whether it was the Rocky Forest or the Holy Flame Forest, the closer they were to the Tree of Life, the taller the trees grew and the lush they were.

If a thousand times reduced the two forests, the trees in the two forests would look like an umbrella.

The Tree of Life was in the middle, the highest Tree of Life, and then from the Tree of Life to the two sides, the trees would become shorter and shorter.

Living close to the Tree of Life would be better.

However, the area of a forest near the Tree of Life was limited.

That was why there was a first-come, first-served?question.

Chapter 283: To establish the Elven Empire! Send an invitation to the Rocky Elves!

The 300 thousand Elves that first took part in the reclamation must have occupied the best area. The ones outside would be slightly worse.

But it was not too bad, it was much better than the forest where the Elves originally lived! And there was no need to worry about being discovered by humans!

Maggie and the eight-winged?Elves did not fly too fast. If they flew too fast, they would appear to be in a sorry state, or their breath might be unstable. So, they spent more than six hours flying to the border of Holy Flame Forest.

There were fast-growing?ancient trees there. The defense of these ancient trees was terrifying. They were not afraid of fire or ice. It was a nightmare for the ground troops!

Then, they flew over 200 kilometers.

The Holy Flame left behind over a hundred kilometers.

The Rocky Forest left behind the other 100 kilometers.

Following that, they flew into the Rocky Forest.

At the edge of the Rocky Forest, there were naturally Elves on guard at regular intervals.

Not long after they flew into the Rocky Forest, the Winged Elves flew up.

Yes, there were Winged Elves in the Rocky Forest, but these Winged Elves joined the reclamation of the Rocky Forest earlier. Unlike Maggie's tribe, they came from far away.

By the time they arrived, there was no place in the Rocky Forest.

"Eh, it's the tribe leader of the Eastern Tribe. How did you come from the west?"

The Winged Elf asked.

Although this Winged Elf could fly, she would not fly around for anything. Normally, she would enjoy a peaceful and beautiful life in the Rocky Forest.

Every year, there might be a time when they would fly around the border of the entire Rocky Forest to check on the border.

The Elves had a long lifespan, which led to their slow pace of life.

They were not lazy, but they would focus on one thing for a long time.

Some Winged Elves liked to plant flowers. She would spend a long time planting flowers under the forest, and they wouldn't use too much magic to grow them. At most, they would use magic to damage and improve the lighting.

Some Elves liked to train a type of vine flower on the trunk of a big tree. When this flower opened, the forest would become beautiful and dreamlike.

Maggie also recognized the Winged Elf:

"Fanny, I'm here to visit the Queen of Light, Ophelia. I'm here to send her an invitation on behalf of the Holy Flame Empire!"

"Holy Flame Empire?"

When Fanny heard Maggie's voice, she looked surprised:

"A while ago, I heard them say that you were cultivating the Dark Forest a few months ago. I've always wanted to take a look, but I've been planting flowers for the past few months, so I didn't come. How's it going? Did your cultivation go smoothly? And what about the Holy Flame?"

At this point, she thought of something and said, "Oh right, I have to inform Light City first, so that you won't be investigated on the way."

Fanny took out a magic item and sent a signal.

Maggie said, "We've already cleared the land. There are millions of elves gathered in the Holy Flame Forest. In two weeks, we will officially establish the Holy Flame Empire. Fanny, you are welcome to participate."

Maggie's words knocked Fanny unconscious.

“What, it’s finished? Maggie, you only started cultivating a few months ago, right? So you guys just cleared a small forest? Huh, no, what did you just say, a million Elves?”

Fanny’s eyes bulged.

Maggie didn’t explain much. She passed a special leaf to Fanny and said, “Fanny, remember to go to Holy Light City in two weeks to attend the celebration. We’re still on our way, so we won’t stay any longer.”

After saying that, Maggie said goodbye to Fanny and led the eight Winged Elves on their way.

Fanny held the leaf that Maggie gave her, her head was filled with question marks!

Being both Winged Elves, Fanny and Maggie knew each other long ago. Naturally, she knew what kind of person Maggie was.

Maggie would never lie.

But now, what Maggie told her was simply too shocking.

After a few months?

It was still a small forest.

And what about the million Elves?

What happened to the Holy Flame Empire?

Fanny’s head was filled with question marks.

“Oh right, I’ll go take a look.”

Fanny thought.

She flapped her wings and flew towards the west.

This time, Fanny flew very quickly. Not long after, she flew past the boundary of the Rocky Forest. Then, she saw a large forest without any dark matter! Fanny’s eyes slowly widened!

Not to mention, she was a Petite Winged Elf. Her eyes were wide open, she was rather cute!

At the center of the Rocky Forest, there was a huge Tree of Life.

This Tree of Life was over 50 meters in diameter.

This was a giant tree that required nearly two hundred people to hug. The cover of the Tree of Life was even bigger, with a diameter of more than two kilometers.

The height of the Tree of Life was nearly a thousand meters.

There were no trees in a large area under the Tree of Life, but rather lush grass.

Between the grasses, there were many flowers.

That was the flower of grass of the Rocky Forest.

Usually, when there were important matters, the Elf Queen of the Rocky Forest, or the Queen of Light, Ophelia, would announce it here.

At the end of the flower field, there was also a canyon. There, a large river was flowing westwards. Besides the canyon, there was a beautiful palace.

At this moment, in the garden outside the palace, a beautiful woman wearing the Sky Realm Golden Crown was sitting in an elegant posture. There were several beautiful Elves discussing something in high spirits around her.

“Queen, the Winged Elven Fanny sent a message that the tribe leader of the Winged Elven East tribe, Maggie, is going to visit you and send you an invitation. At this time, an elf came to report.”

This woman wearing a golden crown was the Elf Queen of Rocky Forest, the Queen of Light, Ophelia.

“Invitation?”

Ophelia slightly tilted her head, revealing a delicate profile. Perhaps because she was a light Elf, her body seemed to be emitting a faint white light.

“Yes, Fanny didn’t say anything specific. She probably doesn’t know anymore. The Elf said.”

Ophelia’s voice was filled with a peaceful air. She said, “Let them not stop, let them come directly.”

“Yes, Queen!”

The Elf went down.

“The invitation of the Eastern Tribe, Queen, didn’t the tree of life receive the news of the Night Elves a while ago that it would invite all the Elves to reclaim the Dark Forest?”

After the Elf left, beside Ophelia, an Elf with flowers on her skirt asked curiously.

“That should have been a few months ago. After the Night Elves got rid of the curse, they became so bold. If they were fast, they should have entered the Dark Forest to cultivate. However, the danger level of the Dark Forest in the west has increased greatly. I hope they don’t go too deep.”

Another Elf said.

“Didn’t the Rocky Mountains collapse? The area behind the hole was blocked by ice. It was probably the hand of some tribe’s god, but the temperature in that area was too low to be suitable for survival. They might just want to open up a small forest to survive.”

An Elf with flowers in her hair said.

These Elves were relatively young, but they were not weak. They could be considered Ophelia’s students, so they were very relaxed around Ophelia.

“I don’t know what they’re sending out invitations for, but are they inviting us to cultivate together? Unfortunately, our Heavenly Realm Flame Stones were used up. However, if they had more Heavenly Realm Flame Stones, Queen, we could send some people to participate.”

These students from Ophelia started discussing.

Ophelia sat on a chair woven from flowers, quietly listening to their discussion.

Time passed.

Soon, noon arrived.

The Elves did not have the habit of eating three meals a day, so they could take care of it for a long time.

Ophelia began to teach these Elf students about history and geography.

After talking for more than an hour, someone came to report that Maggie, the Winged Elven, had arrived outside the City of Light and asked for an audience.

Life in the Rocky Forest was extremely peaceful. It had been a long time since any guests came to visit, so Maggie’s visit had alarmed many elves. Under the Tree of Life, many Elves had gathered in the flower plaza.

These Elves were mainly Light Elves. There were also Sun Elves, Wind Elves, and so on.

Ophelia also came to the flower square. This was where the Elves welcomed their guests.

Then, in the sky, Maggie flew over under the protection of the eight Winged Elves.

Chapter 284: Deepwater Bombs in Rocky Forest!

When they reached the Tree of Life, Maggie and the eight Winged Elves landed on the ground and walked along the path of flowers.

There were already a large number of Elves gathered on the grass.

“Maggie, long time?no see.”

Some Elves recognized Maggie and greeted her happily.

Maggie also responded politely.

Finally, Maggie walked to the end of the flower road. Over there, Ophelia, Queen of Light, stood on a step and smiled at Maggie.

The Elves were not as polite as humans.

Even though she was the Queen of Rocky Forest, she only stood slightly higher.

However, after the Elves chose the queen, the Elven Queen would have a high appeal. They just did not pay much attention to the form.

Unlike humans, in some kingdoms, the king seemed to have supreme authority, but in reality, the king was just a puppet.

“Dear Queen of Light, hello!”

Maggie stopped about ten meters away from Ophelia and spoke to her in a respectful tone.

Ophelia nodded slightly:

“Maggie, it’s been decades since we last met, right?”

Maggie nodded and said, “Yes, the last time we met; we were invited to join the millennium celebration in the Rocky Forest. Your Excellency, after so many years, you are still as young and beautiful as ever.”

A joyful expression appeared on Ophelia’s face.

.

“Maggie, you are still so beautiful. I heard that your tribe also joined in the cultivation of the Dark Forest. There are quite a few Dark Creatures in the Dark Forest in the west. When we first cultivated there, we chose to go north because there were too many Dark Creatures. Did you encounter any dark creatures?”

After praising Maggie, Ophelia asked with concern.

She didn’t mean to put it nicely. Maggie was beautiful, to begin with. She had a pair of wings on her back, and her wings and eyes were the most adorable.

Maggie said, “Yes, we encountered an attack from the Skeleton monsters!”

“Skeleton monsters!”

Ophelia’s expression changed slightly. “Could it be that the skull has come to the east? Are you guys alright?”

The place where the three hundred thousand Elves had encountered Skeleton monsters was more than a thousand kilometers to the west of the Rocky Forest.

Meanwhile, Skeleton Monster’s nest was 2,000 kilometers to the west of the Rocky Forest.

Obviously, in Ophelia’s understanding, it had only been a few months, and the Elves had probably cleared dozens of kilometers at most. Naturally, there were no Skeleton monsters in that area.

And Ophelia knew about the Skeleton Monster, which meant that she knew a lot about the situation in the west of the Dark Forest.

Maggie did not expect this level. She said:

“You’re Highness, we encountered Skeleton monsters at the western border of the Rocky Forest, which is more than 1300 kilometers away. However, under the blessing of God, we killed all of them.”

Maggie’s words caused Ophelia’s face to have an obvious doubt.

“1300 Kilometers? So you guys sent a team into the Dark Forest to scout the way?”

Ophelia asked.

As for Maggie's words, it also gave Ophelia and the Elves a different understanding.

They should have understood that after the scout team encountered Skeleton monsters, they prayed for the help of the gods to kill all the Skeleton monsters around them!

It was not strange for them to have such an understanding.

No matter how big their minds were, they would never have thought that the Holy Flame Forest would have been cleared.

Even the Holy Flame Empire was established.

The Winged Elf, Fanny, only sent one message back. The message only said that Maggie had come to visit and sent an invitation, but nothing else.

As for what Fanny was doing, the reason why she did not send back other information was very simple.

This petite Winged Elf was still flying above the Holy Flame Forest. Her mind was filled with shock. She had no brain to think of anything else.

Yes, she had been discovered by the winged Elves in charge of the Holy Flame Forest. The Winged Elf of the Holy Flame Forest had warmly invited her as a guest.

The Elves naturally had the habit of visiting their friends.

In the past, some of the Elves outside the Rocky Forest would occasionally visit their friends in the Rocky Forest, and many days of staying had also happened.

Maggie shook her head and said, "Your Excellency, no, we met Skeleton monster during the cultivation."

She did not mean to keep her in suspense.

It was like a person's habitual thinking.

Others would be used to things that they thought they were used to.

After Maggie joined the reclamation, she became accustomed to it from her initial shock, so she did not think about it from the perspective of the Rocky Elves.

The current conversation was just like two friends who had not seen each other for a long time. After the meeting, they exchanged greetings.

She and Ophelia had not seen each other for decades, so it did not seem like there was anything else to ask about this matter.

"We encountered Skeleton monsters during the cultivation?"

The expression on Ophelia's face became even more confused.

"Maggie, didn't you start cultivating a few months ago? You didn't have many people in the beginning, right? How did you manage to cultivate a distance of 1300 kilometers from our western border?"

At this moment, an elf in the flower square voiced Ophelia's doubts.

“That’s right, Maggie. The Rocky Forest is only 1500 kilometers wide. Oh, I know. You guys didn’t cut through the southern border of the Dark Forest, did you?”

Another Elf said.

The Dark Forest extended west along the Rocky Mountain Range. The southern border was naturally near the Rocky Mountain Range. If someone walked west along the Rocky Mountain Range, they could directly cut into the Dark Forest in the west.

Maggie finally realized why the Elves of Rocky Forest asked this.

After thinking for a while, Maggie decided to say it out loud so that they wouldn’t get more confused.

Thus, Maggie said:

“Your Highness, we’ve already cleared the forest nearly three months ago. Now that forest is named Holy Flame Forest by us, we will build a new Elven empire there. The ceremony will be held in two weeks. This time, I was ordered by Chen Xi to send the invitation.”

Maggie’s words instantly caused the surrounding Elves to stir.

“Maggie, what you said is true??I seem to have heard that you guys only started reclamation half a year ago, but now you’re done?”

“That’s right, Maggie, how can your cultivation speed so?fast? You can’t have cultivated a small forest, right?”

“I remember that it took a whole sixty-eight years from the beginning to the end of the reclamation of the Rocky Forest. It took sixty-eight years to reclaim a forest that was 1500 kilometers wide and 2000 kilometers long. Maggie, you only reclaimed for half a year. The area you reclaimed is not only one percent of the Rocky Forest, right?”

The surrounding Elves started discussing.

It was no wonder that they had such thoughts.

The time to reclaim the Rocky Forest was set there. They had a good reference.

The?1% area of the Rocky Forest was not small either.

The Holy Flame Forest had an area of 30,000 square kilometers, while the Rocky Forest had an area of 3.4 million square kilometers, less than half of the Holy Flame Forest.

One percent of the Holy Flame Forest was over 30,000 square kilometers, which was equivalent to the area of the Treasure Island before Lin Yan transmigrated.

Seeing that so many Elves were asking, Ophelia did not ask. Instead, she looked at Maggie calmly.

The?thoughts of the surrounding Elves?were also the thoughts of Ophelia.

Maggie said:

“No, Ophelia, the Sacred Flame Forest is very large. It’s about two thousand three hundred kilometers wide and three thousand one hundred kilometers long from north to south. The area we reclaimed is almost twice the size of the Rocky Forest.”

Maggie’s words made the surrounding Elves instantly quiet down.

Looking at their expressions, Maggie knew that they did not believe it.

Even if they didn’t think Maggie would lie, who told them that Maggie’s words were too shocking?
2300 Kilometers!

Three thousand one hundred kilometers north and south!

By multiplying the two, the entire Holy Flame Forest was more than twice the size of the Rocky Forest!

Just these comparisons alone would not make the Elves react like this.

The key problem was.

Reclamation time.

Holy Flame Forest: Months.

Rocky Forest: Sixty-eight years.

How could the Elves of Rocky Forest believe such a comparison?

Chapter 285: Deepwater Bombs in Rocky Forest!

“Maggie, I heard that there’s an April fool’s Day in the Human Kingdoms that specializes in teasing others. It won’t happen to be that holiday, right?” Finally, an Elf who knew Maggie spoke.

The Elves did not lie.

It was just that Maggie’s words were a little too shocking. It made the Elves feel completely unbelievable, but it made them feel like Maggie was lying. They didn’t feel like it, so they had a strange feeling in their hearts, so no one spoke.

The Elf who knew Maggie came forward to break the deadlock.

Maggie took out the invitation card and said:

“Ophelia, I’m not lying. Your Excellency, this is an invitation from my Queen Chen Xi. We’ve already received a large number of Elves from all over the continent. The number of Elves in the Holy Flame Forest has exceeded a million, so my Queen has decided to establish the Holy Flame Empire officially in two weeks. At that time, there will be a celebration. My Queen sincerely invites you to attend.”

Maggie’s words were like a deep-water bomb, causing waves in the hearts of the Elves!

The Holy Flame Forest was twice as large as the Rocky Forest, and they only needed a few months to clear it.

And they were going to establish the Holy Flame Empire?

In the Holy Flame Forest, millions of Elves had gathered in such a short time?

No matter how one looked at this matter, it did not seem real.

No matter how someone listened, it didn't seem real!

Within a few months, a forest twice the size of the Rocky Forest had been cultivated!

And then there were millions of Elves!!!

This made the surrounding Elves feel like they were listening to a fantasy.

At this moment, these beautiful and intelligent Elves began to doubt their ears.

If these words were spoken by other people, these Elves might not believe them at all.

But Maggie was a winged elf, and many of them knew her.

She was lively and cheerful, honest and kind-hearted, and her personality was also very upright. Her reputation had spread throughout many Elven tribes in the Rocky Forest.

The Elves had a long lifespan. Of course, millions of Elves could not all know each other.

However, the number of Elven Tribes was fixed. The leaders of each Elven Tribe were well-known, and most Elves knew them.

All of a sudden, no one said anything. They all looked at Maggie, wondering if she had taken the wrong medicine.

However, Maggie's expression was serious. After she handed over the invitation, she stood there motionless, her expression solemn. Now, she represented the Holy Flame Empire!

The surrounding Elves saw her and did not speak.

Their eyes were still on Maggie.

Being stared at by so many Elves, Maggie was not afraid at all. There was no trace of fear on her face.

Because she had confidence.

Even though this matter sounded like a fantasy in the Rocky Forest, it was still a matter. Now that Maggie thought about it, she could not help but feel shocked.

Then, it was more pride!

That was the pride of the Holy Flame!

In particular, the response of the Rocky Forest Elves made Maggie's pride more gorgeous. Because of them, they created a miracle.

It created an impossible possibility!

What they had done was enough to shock the millions of Elves in the Rocky Forest. They were in disbelief, even doubting their ears! Maggie believed that if the Elves of Rocky Forest entered the Holy Flame Forest, they would also doubt her eyes!

Who said that in a few months, they could not be able to open up a forest twice the size of the Rocky Forest?

Who said that in a few months, they could not gather more than a million Elves?

Everything was impossible. They had turned it into a possibility!

In reality, all of this was because of one person, Oh no, a God!

The great Lord of Flame!

At this moment, Maggie's spirit had been upgraded.

She suddenly wanted to become the Holy Maiden of the Lord of Flame.

In a huge Holy Flame Empire, two Holy Maidens should not be enough, right?

Maggie had already made her decision.

After watching Maggie for more than ten seconds, Ophelia extended her hand and accepted the invitation.

Yes, she was also surprised by what Maggie said.

Instinctively, Ophelia felt that Maggie would not lie.

Ophelia was over a thousand years old. Even though she had lived in the Rocky Forest for a long time, her knowledge and experience were still unimaginable.

And her feeling was accurate.

She felt that Maggie was serious.

Maggie was serious, but the content of Maggie's words made Ophelia feel less serious.

But as the Queen of Light, Ophelia did not see anything unusual on her face.

She took Maggie's letter and read it carefully.

The content of the letter was very simple.

She was only invited to attend the celebration of Holy Flame Forest in two weeks.

She could bring a large number of Elves over, the more the better.

Celebrations were always as lively as possible.

The letter was written by Chen Xi!

After reading it, Ophelia closed the letter and asked Maggie calmly:

"So, the Queen of the Holy Flame Empire is the Night Elves' Queen Chen Xi? I remember that the Queen of the Night Elves was Lomina. Chen Xi seems to be very young, right?"

Maggie nodded and said:

“Yes, Your Excellency, Lomina is now the Great Elder of the Holy Flame Forest. Queen? Chen Xi is indeed very young, but Queen Chen Xi already has a legendary rank!”

Legendary rank!

These two?words caused another commotion among the Elves.

Maggie’s words were more illusory than ever.

Was the legendary?rank?that easy to become?

The Rocky Elven?Empire only had one legendary rank.

That was the Queen of Light, Ophelia.

However, Ophelia seemed to have been injured before, and now she could only maintain her legendary rank?near the Tree of Life.

The Tree of Life here naturally did not just refer to the Tree of Life in the Rocky Forest. It could also be used in front of the mature Tree of Life of other tribes, but the premise was that the Tree of Life of other tribes did not reject her.

In fact, in the history of the Rocky Forest, there were some in the Sanctuary?as well. However, something unknown happened after that, which led to the current situation.

When Ophelia heard Maggie’s words, she blinked and asked:

“Maggie, how strong is Lomina?”

As Elves, Maggie was not worried that Ophelia had bad intentions. Moreover, the strength of Lomina and Chen Xi was already transparent among the Elves.

Even if she didn’t say it now, Ophelia would know about it two weeks later when she arrived at the Holy Flame Forest, so Maggie said:

“Your Excellency, Great?Elder Lomina is also a legend!”

Legend!

Another legend!

Two legends!

The surrounding Elves?began to hum.

Ophelia’s hand pressed down, and the surrounding Elves’ voices immediately quieted down:

“Alright, please inform Queen Chen Xi. I will come in two weeks.”

Maggie smiled. “I look forward to seeing you, Your Excellency.”

She turned around and looked at the surrounding Elves:

“After two weeks, if everyone is free, please come to the Holy Flame Forest as a guest.”

After saying that, Maggie took out a magic bag. This magic bag contained a large number of special leaves. She handed it to her friend Ophelia?and said:

“Ophelia has a crisp green leaf here. If someone in the group holds a leaf, no one will come to investigate. There will also be a special flying ship at the edge of the Holy Flame Forest to pick everyone up. Everyone must come.”

After saying that, Maggie politely rejected the invitation of the Queen of Light, Ophelia.

“Your Excellency, the celebration is about to begin. There are still many things to do. I have to go back and help.”

Maggie left.

After Maggie left with the eight Winged Elves, the deep-water bomb she had just dropped on the flower square exploded!

In an instant, the silence in the square turned into a clamor!

Chapter 286: The Rocky Elves moved out together!

“Heavens, did I hear wrongly? They’ve already cleared the land! In just a few months, they’ve cultivated a Dark Forest that’s twice our size!”

A rare Elf spoke in an exaggerated tone.

The Elves were relatively gentle, so they would not use such a tone.

But now, the Elf was shocked and lost control of his emotions.

“Not only that, the reclamation was completed in a few months, and more than a million Elves gathered. There are two legends. None of these three things is true, but I don’t think Maggie is a liar, and didn’t she hand in the invitation?”

“I also kind of doubt my ears, but then again I believe in Maggie’s character, I feel so weird ah, gee, in two weeks I must go to the Holy Flame Forest to see if it’s true or not, go and see won’t we know?”

“I want to go too, let’s go together!”

“I want to go too.”

The Elves in Flower Square wanted to go to Holy Flame Forest.

What Maggie had just said was too unbelievable.

If these Elves didn’t verify it, they probably wouldn’t even be able to sleep peacefully.

On the steps of the square, Ophelia’s expression was very calm.

However, under her calm expression, her heart might not be calm.

Looking at the Elven discussion below, Ophelia did not say anything else. Instead, under the protection of the two Elven guards, she left the flower field.

As a queen, there was always a difference in treatment.

Ophelia quickly returned to the magnificent palace.

Not long after, an elf in a monochrome dress walked in.

This was the Great Elder of the Elven Empire.

“Queen, I’ve just heard about what happened in the Flower Square. It’s unbelievable. Do you think it’s true, Queen?”

The Great Elder of the Elven Empire asked.

Ophelia said, “Rebecca, what do you think? Maggie has handed in the invitation. If it’s true, I’ll see it in two weeks.”

Elder Rebecca hesitated for a moment and finally said:

“Queen, I don’t know if I should speak.”

Ophelia said, “You’re trying to say that the Night Elves were once used by the Abyss Demon God. I’m worried that this time, it was the Night Elves’ trick to lure me out, right?”

Rebecca didn’t deny it. “That’s right, Queen.”

Ophelia shook her head and said, “Since the Night Elves can’t return to the ground, it means that they have lifted the curse and escaped from the Abyssal Demon God’s entanglement. Rebecca, you shouldn’t give malicious guesses to your kind.”

At this point, Ophelia thought of something and stood up. She sighed and said:

“If I had trusted her a little more, things wouldn’t have turned out like this. Rebecca, I’ve already decided to keep the appointment. Your worries are unnecessary. When the news spreads, some Elves will be curious and go to the Holy Flame Forest. When they send the news back, you’ll know if it’s true or not.”

She waved her hand and said, “I’m tired, Rebecca. The Night Elves must have been blessed by a God. Otherwise, there wouldn’t be such a miracle. This is my God..... I want to rest, Rebecca.”

Halfway through, Ophelia seemed tired and unwilling to continue speaking.

When Elder Rebecca saw Ophelia’s appearance, she could not help but blame herself.

She blamed herself for not reminding Ophelia of her past.

Rebecca stepped back and pulled the door up.

Ophelia waved her hand lightly, and the lights in the entire palace were extinguished. However, the palace did not sink into darkness because she became the only light source!

In the darkness, she was like a shining star, lighting up her surroundings.

Ophelia sat there, recalling something. The expression on her face was sometimes complicated, sometimes she would smile lightly, sometimes she would show some pain and self-blame.

Ophelia remembered the “she” she mentioned to the Great Elder Rebecca earlier!

“How are you doing in the dark...?”

In the palace, she whispered in a dreamlike voice.

“Sophie, can I take a leaf?”

On the flower field, an Elf asked Sophie.

When Maggie left, she gave Sophie a magic bag. The magic bag contained a special leaf that was equivalent to an ordinary invitation.

Sophie said, “Of course, but there are a lot of sisters to go. Can you guys ask out the good guys and get some leaves from me.”

As Maggie’s friend, Sophie was very responsible.

If one person took a leaf, it would not be enough, because there were only a few hundred leaves in this magic bag.

There were more than a few hundred Elves on the flower field.

“Alright, I’m going to head to the Holy Flame Forest today. Although they’ll be celebrating in two weeks, the guests will arrive early. They shouldn’t refuse, right?”

After the Elf finished speaking, she shouted in a slightly louder voice:

“Can you sisters accompany me to the Holy Flame Forest today?”

Not to mention, as soon as she finished speaking, she won the response of many Elves.

The Elves were so excited by Maggie’s words that they doubted their lives. If they didn’t verify it with their own eyes, how could they sleep?

A large group of Elves soon gathered on the grass.

The Elves had special abilities, and almost all of them had special magic bags. Their magic bags usually contained their weapons, food, and water. It could be said that their belongings were inside, so they did not need to pack anything.

Soon, the Elves set off.

What happened on the flowers and grass also began to spread to the entire Rocky Forest at a very fast speed.

In the forest, the Elves were quick to deliver the news.

Some Elves shared the news with their friends.

While these friends were surprised, they shared the news with their friends.

As a result, the news spread more and more.

In the Rocky Forest, around 100,000 Elves lived near the Tree of Life.

The other 900,000 Elves lived all over the Rocky Forest.

Within two to three days, more than half of the 100,000 Elves near the Tree of Life decided to go to the Holy Flame Forest.

Especially Elves involved in the reclamation of Rocky Forest.

They had participated in the cultivation, so they naturally understood how hard it was to cultivate the Dark Forest.

However, it was said that the Holy Flame Forest had been reclaimed in just a few months.

How could these Elves who had not reached the flower field believe it!

However, when they heard that the Queen of Light had accepted the invitation, they all wanted to know if it was true or not.

Thus, in these few days, Sophie did not do anything else.

It was a leaf.

“There aren’t more than 500 people in the team who aren’t left alone. Please understand there aren’t many leaves....”

Sophie saw that there were too many people to go to, so she could only say so.

Then, after a few hours.

“There are no more than a thousand people in the team. Let’s understand. Let’s go together.”

Sophie raised her standard.

A few hours later.

“There aren’t more than three thousand people who don’t leave alone. Everyone, gather a few more people, then we’ll leave!”

Sophie once again raised the standard.

There were too many Elves going to the Holy Flame Forest to find out. Although Maggie had given her a large bag of leaves, there were only two or three hundred of them. It was a waste to give them to some small teams, and she only had a few dozen left.

Therefore, she had to raise her standards time and time again.

As time passed, the Elves that lived in other areas of the Rocky Forest also came to the City of Light.

These Elves also wanted to go to the Holy Flame Forest.

The Elves had not such a grand occasion for a long time.

Many Elves were also thinking of going far.

The lives of the Elves were not boring. In the forest, they had a lot of fun.

Their favorite thing was to get along with nature.

What made the Elves boring in the forest were just some human thoughts.

Because humans would feel bored in the forest.

Every life was used to using their feelings and behavior patterns to measure the feelings and behavior patterns of other lives. This was quite normal behavior.

Therefore, they could not think that humans were stupid. Like other races, they could not understand human behavior.

This was one of the reasons why Yan Province was relatively closed in the Holy Flame Empire.

It was not wise to allow the two behaviors and lifestyles to interfere with each other.

It was a principle. Even if a long time later, the Human Kingdoms in the south of the Rocky Mountains could be brought under the glory of the Lord of Flame, the passageway to the Rocky Mountains would not open.

The Elves would still live a peaceful life without being disturbed by humans.

This was the lifestyle they wanted.

Opening the tunnel and forcing them to accept the human way of life was the stupidest way!

Before Lin Yan transmigrated, the protagonist who had read some stupid novels would do that, but he would never do that.

“It’s over, the leaves aren’t enough.”

In the City of Light, Sophie became worried.

There were only 20 leaves left.

However, the Elves that were going to Holy Flame Forest were still arriving.

The Queen of Light did not order the Elves to go, nor did she order the Elves to go. These Elves were purely spontaneous.

There was no other way. The Holy Flame Forest was simply too shocking!

“There aren’t more?than ten thousand people who don’t have leaves. Let’s understand that there aren’t many leaves.”

Sophie once again raised the standard.

Even so, the leaves on Sophie’s hand were still gone after two days.

She calculated it carefully and frightened herself.

This was because the number of Elves that went to the Holy Flame Forest this time was beyond imagination.

In the entire Rocky Forest, more than half of the Elves had gone.

That was equivalent to the Elves of Rocky Forest. The family was out!

Chapter 287: The shocked Rocky Elves! The Queen arrived!

A day after Maggie left the City of Light, the first batch of Elves from the City of Light arrived at the edge of the Rocky Forest. Because they wanted to see if the Holy Flame Forest was real or not, they were very fast this time.

There were over a hundred Elves on this team.

They were all light Elves living in the City of Light.

Light Elves could use light magic. When they were cultivating the Dark Forest, their light magic had a certain effect, but it was far less effective than the Holy Light. Furthermore, if they used magic to disperse the dark matter, it would be difficult.

One must know that dark matter itself had a very strong anti-magic effect.

An ordinary Magister?entering the Dark Forest might not even be able to use magic.

Therefore, when Lomina entered the Dark Forest to fight the legendary Skeleton monster, she had to use the Holy Light to disperse the dark matter. Otherwise, even if she could use magic, the effect would be greatly reduced.

The group of light Elves quickly passed through the range of the ancient tree and then continued west. After walking over a hundred kilometers, they arrived at the barrier that blocked the dark matter.

Further west was the Holy Flame Forest.

“Look, this place has been reclaimed.”

A light Elf pointed at the rows of trees ahead.

This was still a buffer zone.

“Let’s keep going in.”

Another light Elf said.

They continued on their journey and quickly passed through a buffer zone of over a hundred kilometers.

One had to know that even if it was a buffer zone, it used to be a Dark Forest, but then?it had been reclaimed.

“It’s over a hundred kilometers.”

A light Elf said.

“Yes, it seems that I haven’t met the Elves of Holy Flame Forest.”

Another path.

They walked forward and saw the ancient tree.

“Even the ancient tree was planted, and it grew so big.”

A light Elf said in surprise.

At this time, in the sky, a flying ship suddenly appeared.

“Are you an Elf from the Rocky Forest?”

On the flying ship, a Wind Elf?asked.

“It’s us. We’re here to participate in the celebration of the Holy Flame Empire. Can we? come and visit you?in advance?”

The leader of the Light Elves said.

“Of course, please board the ship. We are here to pick you up.”

The Wind Elf on the flying ship said.

There was not enough space in the forest to rely on, so the flying ship stopped on the treetops. As for how the Elves reached the treetops, it was too simple.

With the help of some vines, he jumped up to the top of the tree in a few jumps. His posture was elegant and romantic.

Not long after, more than a hundred Light Elves arrived at the treetops. What appeared in front of them was the boundless Holy Flame Forest.

The flying ship carried them all the way west.

More than 100 light Elves came to the edge of the flying ship one after another, leaning against the railing and looking at the forest sea below.

The sun fell on the forest. The light Elves could see that the forest was not a Dark Forest, but a forest that had been reclaimed! The Dark Forest was too easy to recognize. Naturally, they would not admit their mistakes!

Although they were not mistaken, the light Elves could not help but doubt their eyes.

The area of the cleared forest was too wide.

There was no end in sight.

The speed of the flying ship was very fast, reaching over 500 kilometers per hour.

The Elves were sensitive to speed, so none of them spoke. They wanted to see how big the Holy Flame Forest was.

When the flying ship was flying, there was a transparent magic shield outside. Otherwise, at such a fast speed, one would not be blown away from the deck. The Elves looked at the Holy Flame Forest silently, their hearts were measuring the distance.

More than an hour later, the Elves were filled with shock.

The flying ship had flown five to six hundred kilometers, but the Holy Flame Forest was still endless.

“From the looks of it, what Maggie said was probably true.”

A Light Elf muttered to herself.

“But I still don’t understand. How did they do it?”

Another Light Elf said.

This Light Elf had participated in the reclamation of the Rocky Forest and experienced that long period of reclamation.

Although that period was hard and long, every time she recalled it, a sense of accomplishment and pride would appear in her heart

Yes, that was indeed something to be proud of.

However, the Holy Flame Forest had been reclaimed in just a few months.

And this was most likely true!

After seeing it with their eyes, the light Elves were not only shocked but also a little complicated.

Even though the Elves were indifferent, under such a strong contrast, they felt a little unbalanced.

Thinking about it, several months passed.

Sixty-eight years.

This would give the Light Elves a feeling that the sixty-eight years had been wasted.

That was why their hearts were complicated.

This kind of feeling was like a person who worked hard to earn a flat for most of his life, yet another person casually bought a flat every year. It would be strange if his mood was not complicated!

On the flying ship, some Elves were already surrounding the Wind Elf that was in charge of the reception.

Soon, over a hundred light Elves surrounded the Wind Elf.

The Wind Elf said, "It's very simple. We used the Holy Light. The Holy Light can instantly disperse dark matter, so our speed was very fast."

"Holy Light? I know Holy Light, but with such a large area, how much Holy Light would it need? Even our Goddess of Light can't afford to consume such Holy Light, and we have to prevent the dark matter from rushing up again." A Light Elf said.

"This is the Holy Light."

After the Wind Elf finished speaking, she began to pray. Not long after, a Holy Flame appeared in her hand. The Holy Flame burned quietly, emitting a Holy Light that made one's mind calm.

"It is the Holy Light!"

A Light Elf said in surprise.

"What kind of flame is this? It can produce Holy Light when burning. It's amazing."

"It's indeed amazing. Where did this flame come from?"

"How long can this flame burn?"

The surrounding Light Elves were astonished.

The wind elf said, "This is a gift from my God, the Lord of Flame. The Lord of Flame is also a powerful God that has helped the Night Elves dispel the curse and defeat the God of Darkness. We only need to pray, and we will be able to obtain the Holy Flame. This Holy Flame can disperse all dark matter within 50 meters, and it can burn for three days."

After the Wind Elf said that, she prayed for a moment and immediately obtained another Holy Flame.

“Wow!”

As soon as she finished speaking, the surrounding light Elves started to “wow” like children.

“No wonder, no wonder you were able to reclaim it so quickly, Holy Flame, Holy Light, what a miraculous Holy Flame, is the Lord of Flame the god you believe in?” The Light Elf with a complicated mood asked with a sudden realization.

She finally understood that the main reason why the Holy Flame Forest could be cultivated so quickly was that the God they believed in was too powerful. They directly gave the Holy Flame to solve most of the problems.

This made her heart feel better.

“How could their God be so powerful?”

At the same time, the Light Elf thought and became curious about the Lord of Flame.

This kind of Holy Flame, although the energy in one flower did not give her much, after careful calculation, when cultivating, hundreds of thousands of Elves prayed at the same time, hundreds of thousands of Holy Flames, the consumption was huge.

Moreover, the entire Holy Flame Forest was cultivated from the Holy Flame.

If the Holy Flame Forest was as large as Maggie said, the consumption of Holy Flame would be terrifying.

Then, the power of the Lord of Flame would be terrifying.

How powerful was the Lord of Flame?

Chapter 288: The shocked Rocky Elves! The Queen arrived!

The Wind Spirit continued, “Back then, we encountered the Skeleton monster’s attack. It was thanks to the Holy Flame’s help that we defeated the Skeleton monster. In the end, my God even lowered his strength and saved us.”

She slowly explained the Skeleton monster’s attack.

Hearing this, the surrounding Light Elves became nervous.

The Skeleton monster’s attack was indeed terrifying.

There were too many of them, like the tide.

It could be imagined that without the Holy Flame, at least half of the three hundred thousand Elves would have to die before they could escape. They would also be chased out of the Holy Flame Forest, and all the fruits of cultivation would be paid.

“The Dark Forest in the west is far more dangerous than when the Rocky Forest was being reclaimed. I didn’t expect you to be able to reclaim it so quickly, and you even

managed to withstand the attacks of the Dark Creatures in the middle. At that time, we didn't have any dark creatures to attack. This Holy Flame is a relic!"

A Light Elf? sighed.

By now more than 100 Light Elves had completely believed Maggie's words.

In their hearts, besides shock, they were still shocked.

After another few minutes, when they saw the huge Tree of Life in the middle of Holy Light City, they were even more shocked!

When the Rocky Forest was founded, the Tree of Life was only over a hundred meters tall!

But the Tree of Life in Holy Flame Forest was nearly 300 meters tall!

It was more than a hundred meters tall.

The Light Elves were even more shocked when they heard the blessings of the gods, including the Goddess of Life.

In their hearts, the Lord of Flame was already so powerful that he could not be more powerful. He left a deep impression on them!

As a result, the more than one hundred Light Elves visited Holy Light City and asked the other Elves about the cultivation of the Holy Flame Forest?and the Lord of Flame.

After the Light Elves arrived at the Holy Flame Forest, the news had actually returned. Then, more and more Rocky Elves came.

The scale of these Rocky Elves was also increasing.

This was the best.

They?could be picked up by a large ship.

There were a total of 15 flying ships in Holy Flame Forest.

Two large, three medium, and ten small.

With so many flying ships, the Elves of Rocky Forest were shocked.

Rocky Forest had?only a flying ship!

And here, there were fifteen!

The Rocky Elves understood why the Holy Flame Forest had gathered millions of Elves so quickly!

With so many flying ships, they could pick up an Elf Tribe at once!

After boarding the flying ship, the Elves of Rocky Forest were like the first hundred Light Elves, shocked! Those who did not want to believe it had no choice but to believe it.

The Holy Flame Forest had really been reclaimed within a few months.

And it was twice the size of the Rocky Forest!

All of a sudden, the Elves who had participated in the reclamation of the Rocky Forest became extremely complicated.

His heart was filled with mixed feelings.

Their interest in the Lord of Flame also increased rapidly.

There was nothing that could be done. The Holy Flame Forest could have everything now. It could be said that 90% of it was the work of the Lord of Flame.

Without the Lord of Flame, they would not have cultivated so quickly.

Without the Lord of Flame, they couldn't withstand the Skeleton monster's attack.

Without the Lord of Flame, their Tree of Life would not have grown that high.

Without the Lord of Flame, millions of Elves couldn't gather there and become another Sacred place for the Elves! It could be said that without the Lord of Flame, there would be nothing now!

Even the night Elves could not return to the ground.

Therefore, after the Elves of the Rocky Forest arrived at the center of the Holy Flame Forest, they talked the most about the Lord of Flame, Holy Flame, Holy Light, Skeleton Monster.....

The history of Holy Flame Forest compiled by Maggie was also read by countless Elves.

Out of respect for the Lord of Flame, in Maggie's book, the Lord of Flame was highly respected.

She didn't exaggerate, she just described it truthfully, but the Elves who read this book all felt the power and kindness of the Lord of Flame!

More and more Elves came from the Rocky Forest.

Fortunately, they came one after another, and the speed of the flying ship was also very fast. It only took three to four hours to make a round trip.

Of course, Holy Light City could not hold so many Elves.

Because there were too many Elves.

The Holy Flame Forest itself had millions of Elves. Then hundreds of thousands of Elves had appeared in the Rocky Forest.

Fortunately, this canyon was very large. In the forest on both sides of the canyon, one could also see the situation below the canyon, beside the Tree of Life.

The entire canyon was more than ten kilometers wide. People could stand up and down, and more than a million Elves could still squeeze down.

The Elves of Rocky Forest brought their own food and water, and there was no pressure from food and water in a short period.

"Queen, a lot of news has been sent back. What Maggie said is true. There are still three days before the celebration. Shall we go?" In the palace of Holy Light City in Rocky Forest, Rebecca asked.

Holy Light City only had one word left.

When Chen Xi named it, she did not think of the Rocky Forest.

Well, Chen Xi was a younger night elf. She had never even been to the Rocky Forest, and she didn't know much about it. Ophelia stood up from her chair and walked gracefully out of the palace. She said:

“Well, let's leave today.”

Going to the appointment ahead of time was a necessary courtesy.

A flying ship was already ready. Ophelia stepped forward, with Rebecca following closely behind.

The flying ship began to rise, flew above the forest, and then flew towards the Holy Flame Forest.

“I heard from them that the reason why the Holy Flame Forest can be cultivated so quickly is because of a kind of flame called the Holy Flame. When the flame burns, it can emit the Holy Light, and the one who gives them the Holy Flame is a powerful God called the Lord of Flame.”

Rebecca said.

Ophelia nodded slightly. She also knew about this news.

Rebecca continued, “With the size of the Holy Flame Forest, the number of Holy Flames needed to cultivate it would be unimaginable. However, the Lord of Flame was not stingy. As long as the Elves prayed, the Lord of Flame would grant it. In the midst of the Skeleton monster's attack, the Lord of Flame would continuously grant the Holy Flame Flames. In the end, he would use the giant Holy Flames to empty the area of the Skeleton monster. Even eighth-ranked monsters would be killed instantly. Queen, the power of the Lord of Flame is beyond imagination.”

Ophelia did not say anything and listened quietly.

Meanwhile, Rebecca had been listening to the rumors about the Lord of Flame.

The flying ship quickly passed over the forest. Two hours later, it left the Rocky Forest and arrived above the Holy Flame Forest.

Rebecca stopped talking and looked down at the vast Holy Flame Forest.

“It's really a miracle.”

Rebecca exclaimed.

Ophelia nodded slightly.

As long as the Elves who had participated in the cultivation of the Rocky Forest saw the Holy Flame Forest, they would sigh.

A miracle!

This was the Holy Flame Forest, and also the Miracle Forest!

Without God, this Holy Flame Forest would not appear for another thousand years.

And it would always be the Dark Forest.

Rebecca sighed and said, “Queen, I also heard that the Lord of Flame fought the God of Darkness when he was removing the curse for the Night Elves. The God of Darkness couldn’t do anything to the Lord of Flame. The Lord of Flame is probably the nemesis of all dark creatures.”

Ophelia tilted her head towards her. “What are you trying to say?”

Rebecca paused for a moment before she finally gathered her courage and said, “Queen, your sister, the powerful Fallen Elf Angstrom... Perhaps the Lord of Flame has a way to bring her back to light...”

Chapter 289: Celebrations! Meng Ying congratulated Night Elves! Chen Xi ascended the throne!

“Angst...”

Perhaps it was because she had been in the palace for too long. When Ophelia heard the name, her emotions had returned to normal.

Rebecca replied, “Yes, Queen. She’s been in the dark for too long. Even my God has no way out. I prayed for her, but my God didn’t give her a clear answer.”

Ophelia shook her head and said, “No, my God has already abandoned her. Back then, she had already touched the dark rules. It’s almost a thousand years ago. Her attainments in the dark rules are probably very deep. It’s almost impossible for her to return to the light.”

Rebecca paused.

Ophelia sighed.

“Let’s wait until we get to the Holy Light City. They’re here, Rebecca. These days are the celebration of the Holy Flame Forest. Let’s put this down first. We’re guests. Don’t spoil the Master’s interest.”

After Ophelia finished speaking, no trace could be seen on her face.

Not far away, a flying ship flew over with many Elves standing on it.

“Is it the Queen of Light of the Rocky Forest?”

On the flying ship, an Elf politely asked.

Ophelia nodded and said, “It’s me!”

The Elf smiled. “Your Excellency, we are here to wait for you. Please follow us. We will take you to Holy Light City.”

Ophelia said, “Sorry to trouble you.”

The Elf said, “It’s an honor to show you the way!”

The flying ship from the Holy Flame Forest was in front, and the flying ship from the Rocky Forest was behind. One by one, they flew towards the City of Holy Light.

Rebecca stopped talking about Angst and focused on the Holy Flame Forest.

All the Elves had gone to Holy Light City, so there were no Elves in the Holy Flame Forest.

However, she could already see some traces of the Elves living in the forest.

This meant that in a few months, the Holy Flame Forest had not only completed the first stage of reclamation but also completed the second stage of reclamation.

In front of the flying ship, Ophelia was also standing there, looking down at the Holy Flame Forest.

Although her gaze was calm, it was deep. She did not know what she was thinking.

On the other side of the ship, Ophelia's students were also there. Their surprised voices could be heard from time to time, breaking the silence.

Two hours later, a huge Tree of Life appeared in his field of vision.

This Tree of Life was naturally not as big as the Tree of Life in the Rocky Forest.

The Tree of Life in the Rocky Forest had been growing for more than a thousand years, and it was almost a thousand meters tall.

The Tree of Life had only grown for two months.

However, this Tree of Life was much higher than when the Tree of Life was planted in the Rocky Forest!

Ophelia's students, these young Elves looked at the Tree of Life in Holy Light City and couldn't help but exclaim.

"I heard they said that the Tree of Life only had the blessings of four gods, but just the blessings of the Lord of Flame had made the Tree of Life grow two hundred meters high. It was higher than the blessings of more than twenty gods when we planted the Tree of Life a thousand years ago."

A young Elf said in a surprised tone.

"Yeah, the other two gods are also very generous."

Another young Elf said.

"Of course, the Lord of Flame is so generous. If they are too stingy, how can they be so generous?.."

The few young Elves kept discussing.

"Queen, please come with me. There is a special harbor here."

The Elf was leading the way.

The birth of the airship was on an empty platform in the canyon. There were more than ten airships, including two large-scale airships over 200 meters long.

"Wow, they have so many flying ships." The Elves exclaimed again.

"It seems that the Lord of Flame is afraid that there are other kingdoms."

Rebecca said.

After the ship stopped, Ophelia walked down. Rebecca, the other elders, and her students followed behind her.

Chen Xi had already welcomed them there.

“Welcome, Your Excellency the Queen of Light.”

Chen Xi said enthusiastically.

Ophelia revealed a smile. “It’s an honor to be here to participate in your celebration. There are too many people here. Did we cause you any trouble?”

She was talking about the Rocky Elves.

More than half of the Rocky Elves had come. Even if it was a guest, Ophelia was a little embarrassed.

Chen Xi shook her head and said, “How could it be? The livelier the celebration is the better. They are willing to come and support it. It’s too late for us to welcome.”

.

Behind Ophelia, Rebecca looked at Chen Xi. She was curious as to how Chen Xi, who was less than a hundred years old, became a legend in such a short time.

After all, she wasn’t even a legend. She was only at the forbidden rank.

Thinking about it, Rebecca felt that there was only one possibility: the Lord of Flame!

Chen Xi’s strength had improved so quickly. Without God’s help, it was impossible.

And the fact that Lord of Flame was so capable and so powerful, once again shocked Rebecca!

“Queen of Light, long time no see.”

Lomina also came.

Ophelia looked at Lomina. There was no trace of the evil power of the Abyss on Lomina.

“Congratulations, Lomina, you’ve finally escaped the curse and evil.”

Ophelia said.

Lomina recalled the past and said, “Your Excellency, I let you down.”

Twenty years ago, the capacity of the Rocky Forest was almost full. They had to use a relatively fair method to decide the last tribe to enter the Rocky Forest.

The Night Elves used Lomina’s sacrifice to the God of Darkness to live in the Rocky Forest.

Unfortunately, it did not last long.

The power given by the Abyssal Demon God was not that easy to obtain.

The God of Darkness had also deliberately exposed the Night Elves to lure them into the Abyss.

Unfortunately, she had miscalculated. The Night Elves were much stronger than she had imagined!

Ophelia shook her head slightly. “There’s nothing wrong with going the wrong way occasionally. It’s good that you came out. Lomina, you’re very lucky.”

Lomina made a pious prayer gesture and said, “Yes, Your Excellency the Queen of Light. I was very lucky to meet my God.”

After some small talk, Chen Xi and Lomina brought Ophelia into Holy Light City.

Ophelia stayed in a special palace. Every day, Lomina would come and chat with her.

Lomina was younger than Ophelia, but they could be considered people of the same era. Chen Xi, on the other hand, was too young, too young to speak of.

So it was Lomina who was in charge of hosting Ophelia.

Ophelia didn't mention her sister's matter. These few days were a celebration; the Night Elves were all busy, even Chen Xi was so busy that no one could see her every day. It wasn't appropriate to mention it now.....

However, Ophelia was also quite interested in the Lord of Flame.

Chapter 290: Celebrations! Meng Ying congratulated the Night Elves! Chen Xi ascended the throne!

Lomina did not hide it from her. She told her about the Lord of Flame's help to the Night Elves.

On the other hand, Chen Xi was still making arrangements for the celebration.

There were too many Elves in Holy Light City.

Of course, it would not be very crowded.

Holy Light City was not a human city.

The buildings of the Elves were very open and far away, and there were many Elves in the forest.

The Elves would chat with each other during the day, making new friends, and resting on the trees.

Under the influence of large-scale magic, the temperature in the nearby forest was not low. Coupled with the powerful bodies of the Elves, there was no problem sleeping cold.

Time passed in a flash.

In the blink of an eye, it was time for the celebration.

That morning, in the sky, 20 flying ships came from the south.

On the flying ship, Meng Ying was standing at the bow. This time, she brought a congratulatory gift from the Holy Flame Empire!

There were twenty small flying ships.

Twenty small flying ships could only carry ten thousand people at a time, which was better than a large spaceship.

But it was suitable for the Elves of the Holy Flame Forest.

In the future, living in the Holy Flame Forest would be relatively peaceful. The Elves would rarely mobilize on a large scale.

The Holy Flame Forest had a vast area. With these 20 small spaceships, it would be more convenient for the Elves to come and go.

The arrival of Meng Ying attracted the attention of all the Elves.

“Holy Maiden Meng Ying, we met again.”

Chen Xi was very happy to see Meng Ying.

Meng Ying also smiled and said, “Holy Maiden Chen Xi, I am representing the Holy Flame Empire to send a congratulatory gift!”

Twenty small spaceships descended.

The Elves quickly discovered that the 20 small spaceships were filled with fruits.

Grape, apple, pear, dragon fruit, etc.

There was also a large amount of fruit juice.

The fruits and juices on the 20 small spaceships were enough for the Elves to eat happily for a day or two.

This was the result of the discussion between Qing Ling and Meng Ying.

The Elves liked different things.

They might not like jewelry, gold coins, and diamonds.

Even if it was silk, they might not like it.

The clothes they wore were extracted from plants by magic. Every piece of clothing was compatible with their bodies. This kind of compatibility was not only in terms of body shape but also in terms of their personality and magic.

Their clothes, if sold, would be much more expensive than silk. After all, they were in shape.

As for potatoes, they did not necessarily like to eat them. The food of the Elves was all fruits grown from magic plants, but they also liked to eat all kinds of fruits.

Therefore, Meng Ying and Qing Ling decided to fill the small spaceship with fruits to keep it fresh with magic. They would come from the City of Miracle, and the twenty empty ships would be left to the Elves.

“Wow, so many fruits.”

Chen Xi was extremely happy when she saw the fruits.

Although the Holy Flame Forest had been reclaimed so quickly, the fruits it produced were not enough for the more than one million Elves to eat happily.

Just like the gathering of humans where there was no wine and no joy, when the Elves gathered, fruits were also common items. Chen Xi prepared a lot of fruits, but because there were too many Elves from the Rocky Forest, it was far from enough.

Right then, these twenty ships of fruits had solved the pressing problem.

“Thank you so much, Holy Maiden Meng Ying, stay behind and attend the celebration before leaving.”

Chen Xi’s warm invitation.

This time, Meng Ying stayed behind.

She was there to represent the Yan Nation.

The news of Meng Ying bringing twenty flying ships and twenty fruits as a congratulatory gift quickly spread.

“It seems that the Lord of Flame has a kingdom in the south, and it’s an empire. It seems that the Lord of Flame is a God of the third rank!”

Seeing this, Rebecca guessed.

In the eyes of ordinary people, Elves were cold and arrogant.

However, the pride of the Elves only came from the impression of humans. Because many humans would have a desire for possession when they saw the Elves, the Elves did not like to interact with humans.

Under the arrangement of Chen Xi, Meng Ying came to the small circle of Lomina and Ophelia. As a legendary rank, she was still the queen of a small empire. She was not afraid in front of Lomina and Ophelia, and she even had a good time talking to them.

It was true that the Elves did not like humans, but that was because there were too many humans who had malicious intentions towards them.

However, Meng Ying was not like that.

Furthermore, Meng Ying was the Holy Maiden of the Lord of Flame, so there were many topics of discussion between Lomina and her.

Upon closer inspection, Rebecca realized that Meng Ying’s aura was astonishing!

“Another legend!”

Rebecca was shocked.

What surprised her was also Meng Ying’s age. Meng Ying looked too young. This kind of youngness was not something that would remain the same after living for thousands of years.

It was just the youth on his face.

Meng Ying’s youth was from inside to outside.

With such a young Holy Maiden and such a powerful Holy Maiden, Rebecca thought that Lord of the Flame’s ability was beyond her imagination.

“I wonder if there is a Sanctuary.”

Rebecca thought to herself.

If it was an empire in the Sanctuary, then the Lord of Flame was a third-ranked God, perhaps even the most powerful of the third-ranked gods.

Rebecca guessed.

As an Elven Elder of the Rocky Forest, Rebecca had a deep understanding of the gods of the Heavenly Realm.

In the Heavenly Realm, many gods were at the second rank.

The third rank was already a very powerful God.

As for the third rank, it was a very wide-ranging rank. The first step into the third rank, and the peak of the third rank, were two different concepts.

Soon after Meng Ying arrived, the ceremony officially began.

On this day, the millions of Elves of Holy Light City sang and danced, celebrating the official establishment of the Holy Flame Empire.

Under the witness of millions of Elves, Chen Xi officially ascended the throne and became the Queen of the Holy Flame Empire!

At the moment when Chen Xi ascended to the throne, in the sky, the Lord of Flame once again gave his blessing, benefiting all the Elves present.

For the first time, the hundreds of thousands of Elves from the Rocky Forest who came to participate in the celebration felt the generosity and power of the Lord of Flame.

Such a large area of blessing, even the most powerful Goddess of Light in the Rocky Forest had never descended.
