### Chapter 321: Medusa in the desert! Blessing the spawn of the CD!

Hearing the words of the Holy Spirit Sean, the Holy Son of the church was very happy!

The God of the Horton Kingdom had also sent down an avatar. The avatar had legendary power, but it could display the power of a saint.

The battle avatar had the word "battle", but its strength had turned upside down.

This was the helpless choice of the gods of some small empires.

The gods of the small empire weren't strong enough to raise a Sanctuary, and they couldn't attract their presence. When powerful enemies attacked, they had no choice but to attack.

In the Heavenly Realm, it was not worth it to make a move.

After he attacked, the power was reduced by ten times; the consumption increased by ten times, and the increase and decrease were equivalent to 100 times.

This debt was calculated by everyone. It was not worth it!

But the gods of the small empire had no choice.

The Battle Incarnation had a large number of rules that this God had comprehended as its outer shell, and it was filled with a large amount of Divine energy. Compared to the Divine Incarnation of the Horton Kingdom, its combat strength was even stronger.

And unlike the Divine incarnation, once they reached the Sanctuary, there would be rules that the Sanctuary would spy on.

The rules in the combat avatar were not complete, but there were many of them, so they could not attract the attention of the powerful Sanctuary.

An incomplete rule might not be integrated with one's attributes. What was the use of mastering it?

But the complete rules were different.

Normally, only a third-ranked God would be able to descend into battle.

The Sanctuary of the Continent of Gods was unwilling to offend a third-ranked God.

The god of the Purple Gold Empire, after sitting on the Purple Gold Empire for nearly a hundred years, had just reached the third rank.

The combat avatar was at least a Sanctuary!

The incident of the Purple Gold Empire's God descending into battle avatar was not publicized.

The stronger the God, the more cautious he was.

To the God of the Purple Gold Empire, he could not afford to lose this battle. And his battle avatar was the biggest trump card. The more the trump card was revealed, the better! However, to stabilize his heart, he still knew.

"I didn't expect the God of the Purple Gold Empire to be so generous. This battle seems to be a sure win. That human legend magister is the best. The Holy Son of the

Church cannot touch women. I wonder if I can put that image in my pocket if I contribute my faith.....”

After the Imperial Tutor felt that victory was within his grasp, he made up his mind.

“I can’t escape, Your Eminence. What should I do? I have no more power left!”

In the Silver Sand Kingdom, an army fled to the border.

What was different from what the Purple Gold Empire had imagined?

After taking down the three kingdoms, Meng Ying and the others did not rush to attack the Purple Gold Empire.

Instead, they were chasing the remnants of the three kingdoms.

Each of the three kingdoms had over 300,000 remaining troops. These remaining troops were not weak.

After all, to be able to survive until the end of the war, it was impossible to be weak.

There was the Church’s army, the Royal Army, and they were all elite troops.

Meng Ying would not let them cause trouble in the rear.

As for the Purple Gold Empire taking the opportunity to regain some strength, Meng Ying was not worried.

On the contrary, she hoped that the Purple Gold Empire could gather more power and capture them all.

This was also her plan to get approval from her God, the great Lord of Flame, after praying for her God.

There was still about half a month before the one-month deadline.

There was still a lot of time, so Meng Ying planned to spend a few days eliminating all the hidden dangers.

While pursuing the remaining forces of the three kingdoms, the forces of the flying ship appeared.

A large number of winged men in the sky could find their whereabouts.

The flying ships were divided into three groups, each of which had more than a hundred thousand people chasing after it.

Only two days had passed, and the remaining forces of the three kingdoms were chased to the point that only a small number of Church troops were left to flee.

The rest, dead and surrendered.

When the gods of the three kingdoms fought against the gods of the Purple Gold Empire, they used up too much of their power. After Meng Ying and the others easily stopped them, the gods of the three kingdoms had no power left.

Perhaps the gods of the three kingdoms also felt powerless.

There was no other way. The three kingdoms were attacked by two small empires as sandwich biscuits. It would be good if they could last for so long.

“Run, run into the Endless Desert!”

The Church’s army had Temple?Knights, and they were very fast. With the help of their hidden magic, they quickly fled to the Endless Desert.

“Holy Maiden, how is your situation?”

In the sky, Meng Ying asked through the magic letter while flying.

These troops fled in all directions. If there were no flying ships, it would not be easy to chase them. To?get rid of them all as soon as possible, the legendary Meng Ying personally came to chase after them.

“I’ve caught all of them. I’ve just asked the Eldest Princess, and she’s almost caught them.”

Qing Ling replied.

“I still have a few small armies on my side. You can use the flying ship to transport the captives to the Lord of Flame. When I finish them off, I can attack the Purple Gold Empire.”

Meng Ying said.

The two women ended their contact.

Meng Ying quickly caught up to another army of thousands of people. Under the threat of powerful magic, the Church’s army finally stopped running and stopped.

The reason why the Silver Sand Kingdom spent a little more time was that the high-end strength of the Silver Sand Kingdom was kept relatively intact. When they were fleeing for their lives, they were divided into a lot of small groups and fled in all directions, increasing the chances of pursuing them.

Meng Ying chased after them all the way. After spending more than half a day, she caught up to two more troops.

“There’s another one.”

Meng Ying muttered to herself.

That was the last one. It was also the most powerful one. Although there were not many of them, if they were allowed to exist, they would only have one or two thousand of them. They could have caused a lot of trouble during the battle between the Holy Flame Empire and the Purple Gold Empire.

Just like when Meng Ying led a thousand men, troops, to cause trouble in Lion territory.

“Reporting to Her Majesty, my men have detected magic fluctuations on the way to the Endless Desert. They should have fled to the Endless Desert under the cover of powerful magisters.”

At this time, a winged female came to report.

“Escape to the Endless Desert!”

Meng Ying flew over to the other side.

While Meng Ying was flying towards the Endless Desert, this powerful army had already gone deep into the Endless Desert.

“Lord Bishop, what should we do? Should we cross the Endless Desert?”

A Temple Knight asked.

The Bishop of the Silver Sand Kingdom looked at the vast yellow sand and said, “That’s the best. There is the backside of the Orc Kingdom on the other side of the Endless Desert. We can occupy that place.”

“Your Eminence, I heard that the depths of the Endless Desert are full of dangers. Are we really going deeper?”

At this moment, another Temple Knight walked...

“It’s just a desert, there’s no danger.”

The Temple Knight retorted.

The bishop looked at the sand and said, “Ordinary troops still have a way to live. Once we are chased by the enemy, there is no way to live, so we can only choose this way. My magic bag has enough food and water, anyone who doesn’t want to cross the Endless Desert with us can leave.”

After saying that, he looked around.

The surrounding people were the core of the Church. There were not many people, only a thousand people.

No one was willing to leave.

“If no one is willing to leave, then let’s go. Don’t go in a straight line, otherwise, the opponent will chase us.”

After the bishop finished speaking, he led the way.

The Endless Desert was too large. The three kingdoms had once sent seventh-ranked sorcerers to fly through the desert. It took them a long time to fly across the Endless Desert, so they knew that the other side of the Endless Desert was the backside of the Orc Kingdom and on the other side of the Orc Kingdom was a human kingdom.

With the strength of the three Human kingdoms, there was no way to conquer the Orc Kingdom across the Endless Desert.

One must know that the Xi Ling Kingdom was blocked by the foggy mountains.

The Endless Desert was much more dangerous than the foggy mountains.

Therefore, even if they knew, they would not have any thoughts about the Orc Kingdom.

Now, there was no other way.

The more than a thousand of them were powerful, with third-ranked Temple Knights as the main force. There were also some fourth-ranked Temple Knights, and Bishops had the strength of the seventh rank.

If they were allowed to travel through the Endless Desert, and the Orc Kingdom looked like it was more than a year ago, they might actually conquer it.

Unfortunately, they never expected that the Orc Kingdom on the other side was no longer the same as the Orc Kingdom.

Under the leadership of the bishop, this army kept changing its trajectory.

In the desert, when the wind blew, no footprints would be left.

Such a large desert, Meng Ying had chased them for three days, but she did not catch up to them.

With the strength of this army, the speed of their march was extremely fast. They were now more than a thousand kilometers into the Endless Desert.

However, on this day, Meng Ying finally found their tracks and chased after them.

But at the same time, the army was in trouble.

“Sir Bishop, what should we do? There are snake people everywhere.”

A Temple Knight spoke in a trembling voice.

Because in the Endless Desert, they didn't know when a large number of snake people would appear.

No, they weren't the malevolent snake people of the Orc Kingdom.

Instead, the upper half of the body was a human, and the lower half was a female snake.

They were all females.

“It's not a snake, but the legendary Medusa.”

The Bishop of the Silver Sand Kingdom said in a low voice.

At the same time, in the Abyss, Lin Yan, who was sitting on the throne of the God of the Pyramid, let out a soft exclamation:

“The blessing seems to be usable?”

The blessings he mentioned were naturally not ordinary blessings.

It was a blessing that could directly raise one's realm after the two Divine energies were mixed.

The last time Lin Yan was promoted by three legends, it had been half a year, right?

The CD took so long!

But now, it seems like it could be used again!

Chapter 322: Dreamlike Saint Realm! The might of annihilation!

### **Chapter 322: Dreamlike Saint Realm! The might of annihilation!**

The combination of the two Divine energies involved some forbidden power.

It was actually able to allow humans to raise their cultivation levels directly like Abyssal Creatures!

Moreover, there were no side effects!

It must be known that even if the Abyssal Creatures were to instill their direct power, it would have side effects. They would be forced to become four different states by the power.

That was why Lin Yan would increase the Succubus' strength every once in a while.

However, the combination of the two Divine energies did not have any side effects!

Lin Yan's eyes lightly swept below.

The battle between the gods became more and more intense.

The other three Demon Gods also invested more of their willpower.

In the past half a month, more and more Demons came directly to the Mobis Abyss through the space gate and joined the battlefield.

A large number of Demon-Hunter Ants had already joined the war, fighting for a large amount of Dark Faith for Lin Yan.

In addition, Lin Yan's Laws of Slaughter were constantly rising, reaching 1%.

Lin Yan scanned the other three Demon God's Thrones.

Seeing that everything was normal, Lin Yan withdrew his gaze.

Then, he turned on the system.

Following that, Lin Yan began to exchange for Divine energy.

"Let's see if we can directly elevate Meng Ying to the Saint Domain."

Lin Yan thought.

He exchanged for a large amount of high-grade Divine energy and a large amount of high-grade chaotic Divine energy.

Then, Lin Yan injected the Heavenly Realm Divine energy and Chaos Divine energy into his virtual godhood.

After which, Lin Yan activated Blessing!

"That's not right. There are also the rules."

Lin Yan once again muttered to himself.

After thinking for a moment, Lin Yan vibrated the flames and created quite a few fragments of the flame laws. After that, he put them inside.

In the air of the Continent of Gods, Meng Ying stopped flying.

This was because she had received the revelation from Lin Yan.

“God wants to increase my strength?”

Meng Ying was first shocked and then delighted.

Following that, Meng Ying felt a pillar of red light descending from the sky and enveloping her.

Under the red pillar of light, Meng Ying felt warm!

Her power was constantly rising.

She had already entered a deep meditative state.

“This is...”

Then, Meng Ying felt something different.

There were many fragments of the Laws of Flame.

.

Normally, it would be difficult for her to see or touch these fragments of laws.

But now, not only did Meng Ying see it; she could also easily touch it!

“The Laws of Flame!”

Meng Ying was a flame magister, and the most suitable for her was naturally the Laws of Flame!

As soon as she touched it, she understood what it was.

After that, her power underwent a tremendous change.

In the sky, the energy suddenly became very violent.

Under the impact of this energy, a huge sandstorm appeared in the desert.

The sandstorm covered the heavens and the Earth, rolling in all directions.

This scene looked extremely terrifying.

As for Meng Ying from the energy center, her long hair was as calm as the wind. She looked indescribably divine.

“Saint-rank!”

Meng Ying lightly spat out these two words.

She had actually become a Saint!

It was actually so simple!

The most difficult thing was to touch the rules.

Many legends could not even think of touching the laws.

But why did she so easily touch the rules?

It was so simple that even Meng Ying could not believe it!

“It’s my God’s work!”

Meng Ying immediately thought of this.

That’s right.

Other than her God, the Almighty Lord of Flame, who could let her touch the rules so quickly!

Meng Ying’s heart was filled with joy.

She sincerely expressed her joy to the Lord of Flame.

After becoming a Saint, the entire world was completely different in Meng Ying’s eyes.

This world seemed to have become clearer.

In the past, he always felt like he was looking at this world through a layer of paper.

The Sanctuary had already come into contact with the essence of this world.

Meng Ying felt the change in her power, and the joy in her heart grew more and more.

She recalled the moment when she met the gods in the spiritual space.

“I don’t know when I’ll see my God again.”

Meng Ying could not help but think.

“I’ll deal with those guys first!”

After becoming a Saint, it was even easier for Meng Ying to deal with the Purple Gold Empire.

However, now that they had caught up to this point, the remnants of the Silver-Sand Kingdom would be dealt with.

“Sand storm!”

What Meng Ying did not know was that the sandstorm that she caused when she advanced had already arrived near the Church army.

“How could there be such a big sandstorm?”

The Snake women who had just surrounded the Church army were all surprised.

As creatures in the desert, they had seen too many sandstorms.

But never had such a terrifying sandstorm come!

The sandstorm swept across the Endless Desert, and the ground was blown away by dozens of meters.

“Quickly dodge!”

A Snake woman said.

Those Snake women have burrowed into the ground.

“The opportunity is here. Run!”

Seeing this, the bishop issued an order.

But he soon knew that this was not an opportunity, but the end!

The sandstorm rushed up. In the blink of an eye, the thousand men team was swallowed up by the sandstorm.

Soon, they realized that the sandstorm was not an ordinary sandstorm.

The hurricane that brought about the sandstorm made it so that they could not standstill. Even the Knights wearing heavy armor could not stand firm in the sandstorm.

What was even more shocking was that there was still a violent energy impact inside!

Under the impact of the energy, many of the Temple Knights vomited blood and were drowned by the sand!

The sandstorm came and went faster.

A few minutes later, the sandstorm disappeared.

In this area, no one could be seen.

Suddenly, a figure screamed as he fell from the sky and fell onto the sand, spitting out a mouthful of blood.

Then, the figures fell one after another, like rain.

Within the yellow sand, some of the more powerful Knights crawled out with their heads filled with sand.

In the surrounding desert, quite many snakes once again emerged.

Looking at the pitiful state of the Church's army, all of them were discussing the terrifying power of the sandstorm!

If such a sandstorm swept through a city, it could instantly destroy all defenses of that city.

"The Clan Leader has already figured it out. The sandstorm just now was caused by a strong person's promotion. Not good, she's here!"

A Snake-Woman panicked.

The other Snake-Woman raised her head and saw a Holy Maiden in white flying towards them!

Chapter 323: ?Medusa's friendship! The Purple Gold Empire!

**Chapter 323: ?Medusa's friendship! The Purple Gold Empire!**

Hearing the speech, many Snake women?were surprised.

Only the sandstorm caused by promotion has such great power. How strong would?this strong maiden?be?

Therefore, these snake girls were?shocked!

In the sky, Meng Ying also discovered these Snake women.

Then, she noticed the difference.

The Snake men of the Orc Kingdom, although they had human-shaped upper bodies, their looks were too sinister. They could only be considered Orcs.

However, these Snake women were all extremely beautiful and dressed in beautiful clothes.

“They can’t be Medusa, right?”

Meng Ying thought.

There were not many of them.

That’s right, how many people could support themselves in the Endless Desert?

Then, Meng Ying saw the scattered Church Army.

Although the Church’s Army was relatively strong, it was only relative to ordinary people.

In the Church’s Army of a kingdom, even the Temple Knights, were usually only three or four ranked warriors.

As for Meng Ying, she was now tenth-ranked!

The sandstorm that she caused when she advanced caused the Church’s Army to suffer heavy losses.

“Great God, please descend...”

The bishop who had just emerged from the sand saw Meng Ying’s arrival and his face turned pale with fright. He subconsciously prayed to the gods.

Meng Ying did not hold back. Just a single magic spell directly promoted this to the eighth-ranked Bishops and the rest of the Church members.

At this point, the remnants of the Silver-Sand Kingdom were all captured in one fell swoop!

Without these members of the Church, the three kingdoms would not be in any trouble.

When the surrounding Snake Women saw Meng Ying’s might, she couldn’t help but feel some fear.

Out of curiosity, Meng Ying landed.

“You are the Medusa clan?”

Meng Ying asked.

“Yes, a noble powerhouse.”

Among the Snake Women, an exquisite-looking Snake Woman took out her legs and walked out.

She could transform her legs!

Meng Ying could not help but feel a little strange.

On her body, Meng Ying also felt a strong energy fluctuation. Obviously, she was at least a forbidden-ranked Snake maiden.

But she probably hadn't reached Sanctuary.

“So, the Endless Desert is your territory?”

Meng Ying asked.

Seeing that Meng Ying didn't have any ill intentions, the Snake-Woman's expression softened slightly. She said:

“We just live in this desert oasis. This Desert isn't our territory, but this area is our place of residence.”

Meng Ying asked, “Is there only your Medusa tribe in this desert?”

The Snake-Woman said, “There aren't many people who can survive in the desert. Other than us, there are only some sand beasts and scorpions, but there's still a lot of land in the east. We don't know what's going on there.”

Meng Ying nodded and said, “I'm from the Holy Flame Empire. I came to conquer the kingdom across the desert. These people are the remnants of that kingdom. Don't worry; we won't interfere with your lives. If you need any help, you can write to me. You can call me Holy Maiden Meng Ying.”

After saying that, Meng Ying took out a few magic letters and handed them to the Snake Women.

The Snake Women approached the magic letter and were pleasantly surprised by Meng Ying's kindness. She said:

“Holy Maiden Meng Ying, my name is Lucy. Thank you. We have lived in this desert for many years. This desert cannot be ruled over. If you are interested and are willing to send people to help us, we can open up a large number of oases in this desert.”

On Meng Ying, they did not feel any malice.

Medusa's observation of the human heart was accurate.

Therefore, seeing that Meng Ying had such power, she must be a powerful person in the kingdom, so she proposed this proposal!

Meng Ying was indeed interested.

She said, “Of course I'm interested, but we're going to attack an empire in the north. When the war is over, I'll send someone to contact you. Those with the flame symbol are our people.”

Meng Ying pointed at the flame symbol on the magic letter.

“Empire in the north? Is it the Purple Gold Empire?”

Lucy asked.

Meng Ying nodded. “You know?”

Lucy said, "Of course we do. We lived in the Great Rock Kingdom, and the Purple Gold Empire destroyed the Great Rock Kingdom. They were very unfriendly to us, so we had to survive in the desert. Since you want to attack the Purple Gold Empire, I'll send a few people with you."

Meng Ying pondered for a moment and agreed. "Okay!"

Between women, sometimes it was straightforward.

In a short time, Meng Ying obtained the friendship of the Medusa race.

There weren't many people in the Medusa Tribe. They only had tens of thousands of people, but their strength was quite strong.

Lucy was already a ninth-ranked legend, but she had only recently advanced.

Like the Elves, they did not like too many disputes.

Originally, they were living in the mountains of the Great Rock Kingdom.

But more than a hundred years ago, when the Purple Gold Empire expanded, it destroyed the Great Rock Kingdom and found them.

Medusa might be a snake, but their upper body was pretty. Moreover, the powerful Medusa could even transform their legs.

Naturally, it was sought after by some human nobles.

Therefore, they had to move to the Endless Desert and live in the oasis.

They had the nature of women. If they had no other choice, why would they be willing to live in the sand?

When Meng Ying returned to the Kingdom of Silver sand, a few Snake-Women were already following her.

These snakes were all very talented ones from Medusa.

They have a frightening skill of the Medusa family: the petrified eye.

This was why Lucy sent them here.

The Petrified eye ignored their Realm. If they did not reach Sanctuary, they could not look at them.

Otherwise, they would have to wait for it to turn into a stone!

If it was the Sanctuary Medusa who activated The Petrified eye, it would be even more terrifying. Even the Sanctuary would fall for it.

Of course, this move also had its drawbacks. They had to see their eyes.

Some high-ranked sorcerers closed their eyes and used their spiritual energy to observe their surroundings.

Therefore, if they wanted to deal with forbidden spells, even legendary existences, they had to be surprisingly careless!

Of course, not every Snake maiden had a petrified eye.

Strictly speaking, only those with Petrifying Eyes could be considered Medusa.

Lucy also followed.

As Medusa's Clan Leader, her Petrifying Eye was also quite powerful.

Of course, her eyes look quite normal when it doesn't start.

Once they activated it, they would consume a lot of energy, so they would not normally activate the Petrified eye.

Following that, a large number of flying ships gathered in the sky above the Silver-Sand Kingdom.

The five hundred thousand troops set off once again, and they were transported directly to the border of the Purple Gold Empire.

A few hours later, the other two armies were also brought over.

A million troops had gathered!

After Meng Ying became a Sanctuary, even if the battle avatar of a god descended from the other side, it would still be able to pass through!

Chapter 324: ?Accept the punishment of flame!

**Chapter 324: ?Accept the punishment of flame!**

The powerful magic descended from the sky, destroying the thick wall of a huge fortress. Then, a dense crowd of soldiers rushed in.

In less than half an hour, the fortress was completely destroyed.

.

“They're delaying!”

Meng Ying looked at the huge fortress and said,

Qing Ling and the Eldest Princess had heard about Meng Ying becoming a Sanctuary.

Qing Ling and the Eldest Princess were once again shocked by the power of the Lord of Flame!

The Purple Gold Empire didn't send any elite troops to stop them. They only sent some local guards to the fortress to stop the Holy Flame Empire's army.

Of course, no matter how strong the fortress was, it could not stop the Holy Flame Empire's army.

The Holy Flame Empire was pushing its way over. It was like a God blocking a God and a Demon blocking a Demon.

The nobles along the way fled towards the Imperial City!

“Maybe the God of the Purple Gold Empire has descended and is now strengthening.”

Qing Ling said.

“It should be like this. There should be a lot of Holy Spirits coming down. It’s too slow to go to such a stronghold one by one. Eldest Princess, you lead half a million troops and wait here. Holy Maiden, we’ll directly attack the Imperial City of the Purple?Gold Empire!”

Meng Ying pondered for a moment and quickly made a plan.

As the pinnacle of the Continent of the Gods, Sanctuary could affect the balance of the war.

One sixth-ranked was equivalent to ten thousand troops.

A forbidden spell could be used against an army of 100,000.

A legend could rival hundreds of thousands of troops!

And a Sanctuary was worth a million troops!

These words were not false.

In a battlefield with a Sanctuary, the combat power of the Sanctuary was the most crucial force to determine the outcome of a war.

As for ordinary soldiers, they were mostly used to occupy them!

After all, the Sanctuary couldn’t solve everything.

The last time Quing Ling, Chen Xi, and Lomina joined forces, they might have been able to kill the Holy Son of the Church before the God of the Purple Gold Empire could react, destroy the Imperial City of the Purple Gold Empire, and kill all the higher-ups.

But there was still a long way to go to conquer the Purple Gold Empire.

After taking down a country, there were many things!

Of course, it might be easy to conquer a kingdom?on the Continent of God, but it would take a lot of time to digest this kingdom?completely. This was also the reason why small empires like the Purple Gold Empire would not expand too quickly.

Expanding too fast was like eating too fast. It would lead to indigestion.

Only the Holy Flame Empire had a fast digestion speed. This was because the laws of the Holy Flame Empire directly destroyed the belief foundation of other gods!

With the foundation of faith gone, the occupied kingdom would no longer have the power to resist.

There would not be civilians hiding their resistance.

With the power of the Sanctuary and so many flying ships, Meng Ying could go against the rules and focus on the core.

Just like when Chen?Xi and Lomina destroyed the imperial palace of the Purple Gold Empire.

Therefore, after the battle plan was decided, more than two hundred flying ships landed one after another, and all the elites of the million troops were taken away, heading straight for the Imperial City of the Purple Gold Empire.

The remaining half a million soldiers were led by the Eldest Princess, hiding in a dense forest, waiting for the airship to return.

In the Imperial City of the Purple Gold Empire, in a huge church, the five Holy Spirits were constantly absorbing power and feeding back the Divine Battle Incarnation.

The power of the combat avatar was constantly increasing.

Outside, the Holy Son of the church patiently stood guard.

“Where did they hit?”

The Holy Son of the church asked.

The Archbishop said, “It’s still in the province, but our fort isn’t very useful. With their speed, they can reach the Imperial City in ten days.”

“Ten days is enough.”

The Holy Son of the Church said.

At this moment, a violent energy fluctuation came from inside.

An endless amount of Holy Light erupted. Immediately, the entire Imperial City was filled with Holy Light!

In the Imperial City, countless people felt their hearts throb. For a moment, countless people felt as if their hearts had been baptized and knelt on the ground.

“This... my God’s Incarnation has reached the peak of the first rank of Sanctuary so quickly?”

Seeing this, the Holy Son was shocked.

God’s combat avatar is woven by a large number of rules. Compared with pure God avatar, God’s combat Avatar has one biggest advantage, that is, God’s combat avatar could quickly absorb power and become stronger in the Continent of Gods.

As for ordinary Divine Incarnations, they had to inject most of their power into them. They could not become as strong as battle incarnations.

Of course, whether it was an ordinary incarnation of a God or a combat incarnation, there was a time limit. They could not stay in the Continent of Gods for too long.

“In this kingdom, my avatar will probably have the second-rank combat power of the Sanctuary.”

The Holy Son’s face was filled with shock.

“I didn’t expect the avatar of the Purple Gold Empire to be so powerful. The opponent must be dead. I need to find a chance for the Holy Son to tell God about my conditions and trade my faith for that female magisters.”

Next to the Holy Son, the Imperial Tutor thought.

“Holy Son, this is bad! The enemy has suddenly appeared outside the Imperial City!”

At this moment, a person ran over in a panic.

“What?” The enemy has appeared outside the Imperial City, how is that possible? Archbishop Terry, didn’t you say they were still in the “Great Rock Kingdom?”

There was a trace of amazement in the voice of the Holy Son of the Church!

He couldn’t help but be shocked.

A moment ago, the enemy was still in the Great Rock Kingdom, but the next moment, the enemy appeared outside the Imperial City!

No matter how one looked at it, it was unrealistic!

Even if he took a flying ship, it would take him more than ten hours to reach the Imperial City from the Great Rock Kingdom!

Right, flying ship!

The Holy Son of the Church hurriedly asked, “How many people do they have?”

“There are at least several hundred thousand!”

Several hundred thousand!

The Holy Son was puzzled.

The other party had many several flying ships. Last time, they had loaded thousands of Elves.

But what happened to several hundred thousand people?

Just as he was about to fly into the sky to see what was happening, he suddenly felt an intense magic wave.

“Not good!”

The Holy Son raised his head and saw that there were patches of red clouds in the sky of the Imperial City. In these red clouds, the destructive energy kept rolling.

This scene was very similar to what had happened a few months ago!

He was hit by that magister again!

Did he think that a legendary existence like her was easy to provoke?

Chapter 325: ?Accept the punishment of the flame!

### **Chapter 325: ?Accept the punishment of the flame!**

The Holy Son flew up into the sky. He then saw countless soldiers forming a square array ten kilometers away from the Imperial City. Above the square array were many magical formations.

Magic formations had similar effects to barriers, but they were immovable. After they were set up, magic crystals and the like could exist for a long time.

Many magic formations could be moved. The energy used to maintain a magic formation could be magic crystals. Many magic formations were cast by magisters. These magic formations had quite a large defensive effect.

It was hundreds of thousands of people!

The Holy Son hadn't expected that the Imperial City of the Violet-Platinum Empire would be attacked in such a way!

However, he no longer had the time to think about how the other side appeared.

Because the destructive energy in the sky was about to fall.

There were only two solutions.

One was to kill the caster, but if the caster was killed after successful casting, this large-scale spell would still fall. The second method was to use magic against magic.

It was already too late to kill the caster.

Then use magic to fight against magic!

The Holy Son let out a light shout as a demonic battle appeared in his hand. Immediately after, a strong magical fluctuation appeared around him.

He muttered something to himself. He had also cast a legendary forbidden spell.

"I've received the blessing of the gods. My casting speed is far faster than normal legends. Let's see who's faster!"

The Holy Son thought of this.

However, just as his thoughts fell, a pillar of flame suddenly descended from the red clouds in the sky.

"So fast!"

The Holy Son was shocked.

Even if it was him, it would take him at least ten seconds to cast a legendary forbidden spell. But the opponent was clearly much faster than him!

He had no time to react. At the critical moment, he could only cast an ordinary forbidden spell to defend!

Two powerful spells met in the sky, causing a terrifying tremor.

The pillar of flame instantly broke through the Holy Son's forbidden spell and swept towards the cathedral below.

The Holy Son snorted softly and attacked again. This time around, he had used a godly skill!

In a rush of time, his Divine spell was not full of power, but it was already more powerful than ordinary forbidden spells.

However, even if it was a Divine technique, it would not be able to block that pillar of light!

The pillar of flame?still firmly broke through the Holy Son's Divine technique and charged towards the cathedral below!

It was also the headquarters of the church!

"Not good!"

The Holy Son's face was deathly pale.

Seeing that the pillar of light was about to land on the cathedral, a towering hand suddenly reached into the sky and pinched it!

The pillar of flame that could destroy half of the city was crushed by this hand!

Following that, a person with a Holy Light radiating from his body flew into the sky.

This person's body was filled with a sacred aura. Ordinary people could become his most loyal believers with a single glance, and could instantly sacrifice their lives for him! He was God's incarnation of the Purple Gold?Empire!

In just a short amount of time, he had already risen to the peak of the first stage of the Saint Realm!

"As expected."

Meng Ying muttered to herself when she saw the Divine battle avatar.

On the body of this combat avatar, Meng Ying felt a power that far exceeded her own.

"This avatar is much stronger than the one from the Horton Kingdom." Meng Ying whispered.

The face of God's Incarnation?was expressionless.

This was also the difference between him and the incarnation of an ordinary God. The incarnation of an ordinary God carried the consciousness of a God. It was not that he was emotionless. It was just that he was used to being aloof.

The Battle Incarnation was truly emotionless.

This was just a cold-fighting machine.

After the combat avatar flew into the sky, it attacked Meng Ying without another word.

He was a close combat avatar. He did not use any magic at all. He rushed forward and disappeared into the sky. When he reappeared, he was less than a hundred meters away from Meng Ying!

"What terrifying spatial rules!"

Meng Ying's finger moved and legendary-level magic was used.

Her instantaneous magic was truly terrifying. Even legendary-ranked?magic was easily mastered.

The legendary magic that was enough to destroy the city blasted towards God's Incarnation. God's Incarnation?pushed its hands forward and a transparent disk appeared in front of his hands, blocking the dream-like legendary magic.

Meng Ying kept retreating, one legendary ranked magic after another, and bombarded the Divine battle avatar.

“Instant magic!”

God’s Incarnation made a cold sound.

Although he did not have any emotions, it did not mean that he could not speak.

Meng Ying continued to retreat, using legendary ranked magic to force the combat avatar to be unable to effectively pursue her.

Finally, she saw the time and used the power of the Sanctuary!

With the support of the Rule of Flame, her Holy Domain-ranked magic attack instantly landed in front of the Incarnation.

God’s Incarnation blocked it with both hands.

This time, the big disc pushed out by Divine Incarnation was directly blown to pieces, and then Meng Ying’s magic fell on him.

Seeing that the magic attack had come into effect, Meng Ying’s expression changed, and she suddenly retreated.

At the spot where she had just stood, Divine Incarnation of War rushed out bathed in flames. There were many wounds on his body, but these wounds healed immediately!

This was a combat avatar with terrifying defensive and self-healing abilities!

Such a Divine Incarnation was extremely fast and possessed terrifying spatial rules. It was simply a magister’s nightmare!

Divine Incarnation watched as Meng Ying dodged. His expression did not change at all. The displacement caused by his spatial rules seemed to be continuous, but his speed was much faster than Meng Ying’s.

He rushed towards Meng Ying. Even Meng Ying’s magic attack couldn’t stop him from chasing after her.

Seeing that Meng Ying was about to be chased by him, Meng Ying suddenly stopped. Looking at him, she coldly spat out a few words:

“Accept the punishment of the flame!”

**Chapter 326: Rewards! The eight laws formed a Divine spark!**

As soon as Meng Ying finished speaking, a ball of flames suddenly appeared.

As soon as the flame appeared, it pounced on the body of Divine Incarnation. The Divine Incarnation was instantly drowned by the flame!

The Divine Incarnation felt a strong threat. It no longer cared about Meng Ying and used the spatial laws to move, trying to shake off the flames on its body.

However, when it reappeared in another place, Divine Incarnation discovered that it could not shake off the flames on its body.

The temperature of the flame was too high. Even if the outer shell of the Incarnation was woven by a large number of laws, it still felt like it couldn't withstand it!

The Deity transformed into his entire body, resisting the burning flames. Then, he flew up into the sky!

“My God has already delayed the other side's God. We will launch a joint counterattack to destroy them!”

Seeing that Divine Incarnation had disappeared from his field of vision, the most powerful of the five Holy spirits, the Great Spirit, spoke.

Of the five Holy Spirits, two of them were legendary-ranked Holy Spirits, and the three were forbidden-ranked Holy Spirits.

In other words, the Purple Gold Empire had four legendary ranked magisters!

As for the Forbidden ranked existences, they were only left with the three Holy Spirits.

There were only five forbidden-ranked existences in the Purple Gold Empire. One of them was killed by Lomina, while the other four were killed when they were under the charge of the three princes.

“My God has sent a message. That magister is a Saint-ranked. The four of you should merge with me and finish her off in ten minutes!” said Sean, the Holy Spirit.

His words shocked the Holy Son and Imperial Tutor!

Meng Ying had reached the Saint Realm!

A few months ago, Meng Ying's body was still filled with a legendary aura.

Whether it was the Holy Son or the Imperial Tutor, they were certain that Meng Ying from a few months ago was a legendary existence.

But it had only been a few months, and she had become a Saint Realm expert?

However, the news of Saint Sean came from the God of the Purple Gold Empire. It could not be false!

In the blink of an eye, the Holy Son and Imperial Tutor were shocked by the news!

The Holy Son even flashed a trace of fear!

Just now, he had overestimated his ability to resist Meng Ying's magic attack!

However, he was unable to block it at all.

If there weren't Divine Incarnation, he would have turned into ashes!

“That’s right, you didn’t disappoint me. Your combat Incarnation is indeed very powerful. You already have at least two complete rules in your body, right?”

Within the flames, Lin Yan whispered.

When the God’s combat Incarnation heard Lin Yan’s voice, there was still no expression on its face:

“So, what’s your choice?”

Lin Yan’s flames trembled, and Lin Yan’s calm voice came from inside, “It’s very simple, you die, I live!”

“I’ll die!”

That idiom meant two things!

It was you who died; it was me who lived!

The flame suddenly increased.

Chapter 327: Rewards! The eight laws formed a Divine spark!

**Chapter 327: Rewards! The eight laws formed a Divine spark!**

The temperature of the flame suddenly rose and instantly doubled!

The temperature had already exceeded tens of millions of degrees!

Under such a terrifyingly high temperature, even if the size of the flame was small, when it burned, it would still become a bright star in the sky.

The soldiers fighting in the Imperial City of Purple Gold Empire would find a star in the sky!

“Is that all you have?”

God’s combat Incarnation’s strength was able to withstand Lin Yan’s temperature!

Lin Yan quickly noticed something.

This God’s spatial rules had probably reached 100%.

A 100% space rule was too scary.

Even if it was not a personal Divine Incarnation, but a combat Incarnation that was many times weaker than God’s true body, with 100% of the rules of space, he could already construct an isolated space around it.

Under the isolation of this dimension, even if Lin Yan had tens of millions of degrees of heat, he would not be able to burn him.

Lin Yan and Divine Incarnation were not in the same space. What was the use of a higher temperature?

The temperature in the center of the star was even higher.

This was how terrifying the rules of space were.

No wonder Divine Incarnation was fearless.

There were only two ways to deal with this move.

First, Lin Yan used his own space rules to contend with him, finding and destroying the isolated space around him.

Lin Yan's current space rule had reached 53%. It was still far from 100%, so it would be a disadvantage for him to use the space rule to it.

The second was Lin Yan's explosive attack!

However, the difficulty of cracking the explosive force was not small. Even if the flame rule increased the temperature by dozens of times, it would not have much effect.

Space rules were the most troublesome rules.

The attack might not be strong, but when used in battle, the effect was not ordinary.

"There is a way."

Lin Yan looked at the system panel, and then the flame suddenly changed.

Within the flames, a devastating aura began to appear.

The Divine Battle Incarnation was still expressionless. He did not have any expression at all, but he noticed the change in Lin Yan.

"Flame of Destruction!"

He spat out these words.

Then, Lin Yan's flames pierced through the layers of isolated space that he had constructed. With lightning speed, they burned onto his body!

This was Lin Yan's greatest trump card as the Flame of Destruction!

The rule of destruction!

This was a rule that could be compared to the rule of killing. To some extent, it was even more terrifying than the rule of killing.

Because the rule of destruction destroyed everything!

After becoming a ninth-ranked flame of destruction, Lin Yan's Annihilation Rule reached 90%.

One more level and it would reach 100%.

The 90% rule of destruction was enough to destroy the isolated space!

In fact, Lin Yan also activated the flame rule.

His temperature was terrifying.

Under the terrifying temperature, even if it was Divine Incarnation, without the protection of the rules of space, it would be burned to ashes in an instant.

From the ground, the stars in the sky became brighter.

"Mom, look, the stars are so bright."

Some boys noticed the stars in the sky.

“You did not disappoint me.”

Within the flames, Lin Yan’s voice rang.

The flame of destruction could already match the Continent of the Gods, and it was even more terrifying.

The gods could not stay in the Continent of God.

But Lin Yan could.

Therefore, when Lin Yan was in the Imperial City of the Purple Gold Empire, he could directly burn Divine Incarnation.

But Lin Yan did not.

He deliberately controlled the temperature to lure Divine Battle Incarnation to release more power.

The Divine Battle Incarnation did not disappoint him!

After flying tens of thousands of kilometers out of the Continent of Gods, the power of Divine Battle Incarnation had increased tremendously.

Moreover, the gods of the Heavenly Realm had given these combat Incarnation two complete rules.

Rule of dimension.

Rule of the ray of light.

Now, it was all for Lin Yan.

“Tenth-ranked Flame of Destruction!”

After burning up this Divine Incarnation, Lin Yan directly raised one rank and became a tenth-ranked flame of destruction.

In addition, Lin Yan obtained two 100% rules.

There were more than 50.10% of the rules.

After fusing, Lin Yan discovered that he had reached 100% of the rules. He had already surpassed 8 rules!

These eight rules were:

Rules of Flame, Rules of Life, Rules of Ice, Rules of Darkness, Rules of Space, Rules of Holy Light, Rules of Destruction, Rules of Forging.

In addition, Lin Yan had several more than 50% rules.

He could already convert his Godhood.

The rules at the bottom of the Godhood, as long as there were the main rules that he was good at, the other rules did not necessarily have to be strong but to match the strong with the weak, with a clear distinction between the main and the secondary.

Among Lin Yan's rules, the Flame Rule, the Ice Rule, and the Destruction Rule were all very powerful when used in battle.

The rules of life were also very useful. This was the rule that could save lives at critical times.

Needless to say, spatial rules were one of the most difficult rules to obtain.

The rule of forging also had a good effect. This rule also had some special effects when constructing the Divine kingdom.

As for the dark rules, ordinary gods of the Heavenly Realm would not touch them.

However, Lin Yan was willing to merge with the dark rules.

He was aflame. He could bring light and darkness.

"Let's convert?godhood!"

Lin Yan thought.

First, he had to convert his godhood. After that, he could consider the matters of the Divine body and the Divine kingdom.

Speaking of which, the Continent of Gods?didn't?exist in godhood. It's the narrow sense of the Continent of Gods?that only souls could?enter!

### **Chapter 328: ?Converted Godhood! Third-ranked peak Godhood!**

Lin Yan first looked at his virtual godhood.

Right now regardless of whether it was the power of belief or the amount of Divine energy in his virtual godhood, it was extremely terrifying.

[God Name: Lord of Flame]

Temple: 58

Holy Maiden: 12

Power of Faith: 259 Y

Dark Faith: 125 Y

Divine Energy: 5W

Advanced Divine Energy: 0.3W

Chaos Divine Energy: 0.5W

Godhead: Convertible

Divine Body: None

Kingdom of God: None

Divine system: not activated, not named

[Skills: blessing, divination, analysis, blessing]

Lin Yan pondered for a moment and then clicked on the switch.

“Do you want to convert virtual godhood into real godhood?”

A system notification sounded.

Lin Yan chose “yes”.

“Please select Godhood’s bottom rule.”

Lin Yan chose the eight rules.

The core was still the flame rule.

Then there were the rules of life, the rules of space, and the rules of destruction

The eight rules were arranged in an orderly manner, becoming the bottom rule of Godhood.

The rule at the bottom must be a rule with 100% mastery, or the Godhood would collapse.

The second layer of rules did not have such high requirements.

A large number of rules with 50% mastery could also be placed on the second rank.

And then, the rule with lower mastery was placed on the third rank.

The prototype of the entire godhood was being constructed.

All the godhoods were a small pyramid.

If it was godhood, constructing godhood would take quite a while.

For a saint to become a God, the time required to build godhood varied from a few years to hundreds of years.

Some less powerful holy places take more time to build godhood.

From the beginning of building godhood in the Sanctuary until the completion of building godhood, it was not called a True God.

It was a false God!

The False-God was not a Realm; it was just a special stage!

Although false gods were no gods, they had already come into contact with the Continent of Gods and possessed the abilities of certain gods.

But the power of a False-God was not necessarily stronger than that of the Sanctuary.

This was especially the case for the first stage of Sanctuary. Their true combat power was comparable to the second stage, not to mention the third stage.

However, before the construction of the Godhood was completed, the False God could stay in the Continent of Gods!

However, on the Continent of Gods, it was rare to see false gods appearing.

Because false gods were like Divine Incarnations and they could easily become prey to some powerful Sanctuary.

Therefore, even if there were a few false gods on the Continent of Gods, they would still hide tightly. Even if the sky collapsed, they would not show themselves.

However, to Lin Yan, building godhood was not that difficult.

Strictly speaking, to Lin Yan, the power system of the Continent of God was only a sideline.

He was aflame.

Even if he didn't build godhood and didn't have a Divine body or a Divine kingdom, as long as he could keep burning, Lin Yan could evolve and become stronger.

However, Godhood was still of great help to Lin Yan.

Having two forms was not a bad thing.

Lin Yan needed a little time to convert his Godhood.

The System would complete everything automatically.

“Godhood converting.....”

The System's voice sounded.

Then, the countdown began.

“30...29...28...”

Finally, the 30-second countdown ended.

“Godhood's conversion completed. Congratulations, you have an official Godhood.”

The System's voice sounded.

God Name: Lord of Flame

Godhood Rank: Rank 15 Godhood

Temple: 58

Holy Maiden: 12

Believers: 8025W

Kingdom of God: Can be created

Power of Faith: 259 Y

Darkness Faith: 125 Y

Divine energy: 15W

High-grade Divine energy: 0.3W

Chaotic Divine energy: 0.5W

Divine: [Not activated, not named]

The information panel of the godhood had changed a lot; however, the operation panel of the godhood was canceled.

This was because Lin Yan could directly activate all the functions of his godhood through his will!

“It doesn’t seem to have changed much.”

Lin Yan whispered.

Just looking at the information panel, it seemed that this kind of change was only from the probationary period. It didn’t seem to change much.

However, Lin Yan soon realized that the changes in his godhood were not in numerical terms.

These values were only a simple description of the godhood state.

First of all, the godhead had solidity. It was a solid golden pyramid, and it was also the hardest thing in the world.

Secondly, the Divine energy within the godhood had solidified into a sea of golden Divine energy. This sea of Divine energy was layered, with the lowest layer being high-grade Divine energy and the upper layer being ordinary Divine energy.

No, he had two seas of Divine energy.

These two seas of Divine energy existed together in the godhood.

The other sea of Divine energy surged with Chaotic Divine energy.

The color of the Chaotic Divine energy was black.

As for the special Divine energy that Lin Yan had created, it was obvious that they had different colors within the sea of Divine energy.

For example, Lin Yan had fused with the laws of life and an enormous amount of energy points to produce a divine life force that was white.

Lin Yan fused with the ice Divine energy produced by the ice laws, and it was transparent.

In the sea of Divine energy, the laws interweaved, and Lin Yan could summon Divine energy that he could not summon at any time.

The solidified Divine energy possessed even greater power, and it allowed Lin Yan to study the composition of his Divine energy even better.

In addition, the godhead had more functions than the virtual godhood.

“Fifteenth-ranked God, what is this?”

Lin Yan whispered.

The strength of a God was different from that of a God. To a large extent, it was reflected in the difference in godhood.

On the other hand, Lin Yan’s godhood was different from other godhoods.

The simplest principle was who could possess two different powers at the same time?

In reality, the attributes of the Divine energy of other gods were also fixed. Lin Yan couldn’t be able to create freely Divine energy like life force and ice force.

Lin Yan clicked on the explanation.

Soon, Lin Yan understood.

1st?Fifth-ranked?godhood was weak godhood. A God with weak godhood was weak. Weak?godhood was also the first-ranked God.

A God with second-ranked godhood was also a second-ranked God.

The Eleventh?to Fifteenth-ranked godhead was middle-grade?godhood. A God with middle-grade?godhood was a middle-grade God. This was a third-ranked God.

Above Fifteenth-ranked, there was high-ranked?godhood, a fourth-ranked God.

In other words, as soon as Lin Yan's godhood changed, he obtained a peak third-ranked godhood.

His godhood was much more powerful than the peak?third-ranked godhead.

However, Godhood determines the rank?of a God.

However, without a powerful Divine body, he wouldn't be able to display his strength.

### **Chapter 329: The Conspiracy of the Demon Gods! The suppressed Holy Spirit!**

The battle of gods began to become extremely intense in the depths of the Mobis Abyss.

After leaving for a short period, Lin Yan returned to the Mobis Abyss.

There was no need for Lin Yan to worry about the battle in the Purple Gold Empire.

The transformation of Godhood had been completed. The next step was to condense Divine?Incarnation?and create the Divine?Kingdom!

Lin Yan did not have this kind of experience.

"If I can find a God to observe, it should be quite helpful for me to condense my Divine body."

Lin Yan whispered.

Having someone's?reference was better than nothing.

His system was an evolutionary system of flame, and it did not directly help in the refinement of his Divine body.

Yes, it was just that it didn't help Lin Yan directly. In other words, the system couldn't help Lin Yan refine his Divine body directly.

However, the indirect effect was still quite great.

Thinking about it, he knew that no God would give his body to Lin Yan to observe.

A Divine?body was like a Divine?spark, a Divine?core secret.

The kingdom of God was still relatively good.

At this moment, Lin Yan thought of the Elven goddess.

For the creation of the Divine Kingdom, one could refer to the Divine Kingdom of the Elven goddess.

As for the Divine Body

Lin Yan turned his gaze towards the other three Pyramids in the sky.

The body of the Abyss Demon God was different from the body of the Heavenly Realm God in many places. To some extent, the body of the Abyss Demon God was somewhat similar to that of a Demon.

Many of the Abyssal Demonic Gods' Divine bodies were close-combat types, with rough skin and thick flesh.

Instead, it was more about the use of energy, as is the case with the Divine bodies of many Heavenly gods.

However, if Lin Yan wanted to condense his Divine Body, he would condense the strongest Divine Body.

“A Divine Body must also involve the transformation of matter and energy...”

Lin Yan muttered to himself.

His Divine Body naturally didn't create another body outside of the flame form. That way, his consciousness would have to be split into two. Lin Yan didn't like that feeling, nor would he do that.

After Lin Yan possessed his Divine Body, the two forms could not coexist. At the same time, he could only possess one form.

The form of flame was the form of energy.

The form of the Divine Body was the material form.

Even if Lin Yan had turned his Divine Body into a flame, his Divine Body was no longer energy, but a substance.

The transformation between matter and energy was a Divine Domain.

Only Deities could use energy to transform directly matter and produce energy from matter!

Therefore, Lin Yan had to capture a God and carefully study it before he could find out the secret.

“Just the three of you!”

Lin Yan's gaze swept over the three pyramids.

However, Lin Yan had to draw down the true bodies of the three Abyssal Demon Gods.

The Abyssal Demonic Gods were full of tricks, and they were extremely cautious. Many plots and tricks were useless to them, so it was quite difficult to lure their true bodies down.

After so many days of observation, according to Lin Yan's judgment, these three Abyssal Demonic Fiends should be at the peak of the first rank.

A God with a fifth-ranked Godhood.

They shouldn't be underestimated.

Although Lin Yan had a fifteenth-ranked Godhood, Godhood without a Divine Body would not be able to unleash its full potential.

Right now, Lin Yan's greatest reliance was his flames.

However, Lin Yan had not fought with the gods.

The Divine Incarnation in the Purple Gold Empire was far from being a God. Even after leaving the Continent of Gods, the strength of Divine Incarnation in battle was equivalent to reaching the first rank.

A God with a First-ranked Godhood.

And these three guys were the peak of the first rank?and had?a fifth-ranked Godhood!

This was a fight with the true body of the Demonic God, not with the power and Divine Incarnation.

However, Lin Yan was not?afraid, he was rather looking forward to it.

Lin Yan's head began to spin as many plans appeared.

While Lin Yan was thinking about how to attract the true body of the Abyssal Demon God, a conspiracy was going on in the seemingly calm skies.

"What are?your considerations?"

A will said.

"It's a little risky."

Another will said.

"There are three of us, why?are you risking your life..."

The third would?join?the conversation.

"The Succubus God won't be that strong. I know. Are you on guard against me?"

The first will spoke.

"Aren't you also on guard against me?"

"There's no point in guarding against each other. If you're not willing, this matter will be dropped."

"Alright, I'll join....."

The will of the three Abyssal Gods?quickly reached a certain consensus.

After that, he retreated like a tide.

In the endless skies, everything returned to normal.

They seemed to be waiting for an opportunity!

.....

"Why does she know how to cast magic instantly?"

At the same time, on the Continent of Gods, Saint Sean was stunned by one spell after another.

These spells were not ordinary spells.

It was a legendary-ranked forbidden spell!

Legendary-ranked forbidden spells required a lot of casting time.

For the Holy Spirit Sean, who had the strength of the Divine Domain after the integration of the five Holy Spirits, it was not difficult to block the Legendary ranked forbidden spell.

However, the problem was that the Legendary-ranked Forbidden spell in Meng Ying's hands was one after another. He could only block them with his full strength.

But the problem is that Meng Ying's legendary forbidden spells hit one by one so that he can only resist with all his strength.

Ordinary Saint-ranked existences were only powerful in terms of attacks. If their bodies were attacked by a Legendary-ranked forbidden spell, they would not be able to withstand it.

In the sky, Meng Ying's expression was cold. She did not use the power of laws.

Just the continuous and instantaneous legend of magic was enough to make Saint Sean passively defend.

This was how terrifying instant casting magic was.

This was the horror of instant magic.

The Holy Spirit, Sean, couldn't instant magic.

After ten minutes, the time of the unity of the five Holy Spirits ended, and the Holy Spirit Sean showed the prototype immediately.

The Holy Spirit Sean couldn't help being a little anxious. He fiercely used the power of rules to stop all Meng Ying's attacks outside, and then launched a fierce counterattack.

However, Meng Ying also possessed the power of laws.

Furthermore, even if Meng Ying used the power of laws, she could still cast magic instantly.

Saint Sean once again fell into a passive state.

And this time, he was even more passive!

"Why is this happening? I am a Saint!"

The Holy Spirit roared in Sean's heart.

He summoned all his strength to launch a counterattack. It was not only ineffective, but it was also counterproductive!

The higher he jumped, the more miserable he felt.

**Chapter 330: Defeat first! Completely defeated!**

On the other side of the battlefield, the opponent of the Eldest Princess was the Holy Son of the Church!

The Holy Son of the Church was a well-known legend, and he even had Divine skills. His strength was quite strong!

The Eldest Princess had only been promoted for a few months.

However, the new legend Eldest Princess was on par with the Holy Son of the Church!

On the other side, the Fox Lady Qing Ling had just risen to the legendary rank, but the Imperial Tutor could not lift his head!

The legendary battlefield was also in the sky. That place had become a sea of magic and Divine Arts. The battle between the four legends of the two Sanctuaries had completely engulfed the entire area.

In the Imperial City of the Purple Gold Empire, nearly two million people raised their heads and looked at the sky filled with magic. Everyone's expression was almost lifeless.

It was not hard to imagine that if the magic in the sky fell, the Imperial City of the Purple Gold Empire would be completely destroyed.

These weak citizens would probably not be left!

On the ground, the armies of both sides had also engaged!

As a small empire with over 200 million citizens, the Purple Gold Empire was quite strong.

Although their 600,000 Elite Royal Army had already been captured and sent to the Holy Flame Empire to work as coolies, they had gathered another million troops!

Among the million soldiers, there were a total of 250,000 relatively strong Church troops.

The other 750,000 troops were not bad either!

In the battle for the throne, 30% of the big nobles did not send troops.

These big nobles were all veterans. The troops they armed were not too bad.

The Army wanted to defend the city, but after the chief of the tiger tribe Winnie killed the city wall and destroyed a magic array of the city wall,

Instead, the wall became a burden on the army!

Therefore, they rushed out of the city wall and formed a battle formation to fight with the army of the Holy Flame Empire.

Although Sanctuary had affected the balance, it could not solve all wars.

The military war was still very effective.

The simplest principle was that if the army of the Purple Gold Empire lost and was about to be wiped out, it would have to affect the mood of the high-rank powerhouse of the Purple Gold Empire, and then affect the rhythm of this high-rank powerhouse.

On the side of the Holy Flame Empire, they used an elite strategy.

One hundred thousand Church troops and two hundred thousand Orc soldiers against the Church troops of the Purple Gold Empire.

The other 700,000 troops were against the other Purple Gold Empire troops.

Both sides started a war outside the Imperial City of Purple Gold Empire.

The Purple Gold Empire's Church army was indeed strong.

After a large number of Temple Knights put their shields together, even if the Fox Archer carried an explosive flame bow, it would not cause too much damage.

They could even block the magic attacks of several seventh-ranked sorcerers.

They could even block the forbidden spell.

“Fox Archers stop attacking the Temple Knights, attack the ordinary army!”

In the sky, Winged maiden Mia gave the order.

In this war, when Meng Ying wanted to deal with the Sanctuary on the other side, Qing Ling and the Eldest Princess couldn't get away. On the ground, the Winged Maiden Mia commanded.

Mia already had the strength of a seventh rank. She was powerful.

On the side of the Purple Gold Empire, there were still quite a few seventh-ranks fighters.

However, there was no need for Mia to act personally.

On the side of the Holy Flame Empire, there was still a lot of seventh-ranked combat strength.

Not to mention the eighth-ranked Winnie.

After the expansion of the Purple Gold Empire, there were 200,000 Temple Knights and 50,000 Hall Magisters.

This was a terrifying number.

Whether it was the Temple Knights of the Magisters of the Church, they were mostly second, third, or fourth-ranked.

They had started a war with the Temple Knights of the Holy Flame Empire and the Orc Army.

Although the Church's army of the Holy Flame Empire was only 100,000, the strength of these 100,000 men of Church's army was exceptionally high. Most of them were third or fourth-ranked!

The Orc warriors were equally powerful.

Both sides formed several hundred battle formations and started a battle on the vast battlefield.

“Sister Winnie, the Purple Gold Empire's core Temple Knights of God is powerful. You can break the formation.”

Mia said.

The tiger sister Winnie did not say a word and rushed towards the Purple Gold Empire's core Temple Knights of God.

These Temple Knights were above the fifth rank. There were only two thousand of these Knights.

In fact, on the side of the Holy Flame Empire, there were also Temple Knights of God. However, there were only a thousand of these Knights.

It looked like the Holy Flame Empire was slightly inferior.

However, the Purple Gold Empire was an old empire. Over a hundred years, they had only accumulated 2,000-strong Temple Knights.

However, the Holy Flame Empire was new. It had only been a short time since they had such Elite Knights. It was already terrifying.

On the battlefield, even though there were a few hundred people, the core Temple Knights of the Holy Flame Empire were on par with the Temple Knights of Purple Gold Empire! This was the purpose of the equipment!

“Watch out for magic!”

In the battle formation, a large number of Temple Knights raised their shields at the same time.

The magic landed on their shields, causing them to tremble.

However, they managed to block the magic.

This was a sneak attack by a seventh-ranked Magister!

At this moment, on the battlefield, all sorts of magic were flying everywhere.

These Temple Knights not only had to face the enemies in front of them, but they also had to guard against the magical attacks that would occasionally come from the sky...

If he was not careful, he would die.

“Captain, why are they able to block our attack despite their small numbers!”

A Temple Knight asked.

“Their armor is too powerful. Bright Blossom, you command me. I'll break the formation. As long as I defeat them, we can attack the other armies and turn the tide of the battle!”

The team leader of the Temple Knights said.

This captain had the strength of an eighth rank!

After saying that, he jumped up and charged towards the core Temple Knights of God of the Holy Flame Empire with a heavy shield in his hand.

“Good luck!”

In front of the Temple Knights of the Holy Flame Empire, the short giant captain, covered in armor, shouted and blocked the captain.

This Dwarf Giant was originally the leader of the Temple Knights of the God of the Xi Ling Kingdom, but after submitting, he was now the leader of the core Temple Knights of the God!

Her strength had also reached the eighth rank!

As soon as the two of them exchanged blows, they realized that neither of them could handle the other.

But at this moment, a swift figure rushed towards the Purple Gold Empire's core knights.

Her movements were exceptionally smooth. She touched the Knight's shield, and in a short amount of time, the two swords in her hands passed through the neck of a Temple Knight.

The armor on his neck couldn't stop the two blades.

In less than a second, the figure had reaped the lives of several Temple Knights.

"Another eighth-ranked!"

The captain of the Purple Gold Empire narrowed his eyes, and a bad look appeared in his heart.

"Roar!"

At this moment, the sound of a bear growling came from the battle formation. The captain turned his head to look and saw a large number of bear-man soldiers holding heavy shields, smashing one of the knights back.

On the other side, the tall lion warrior held a shield in one hand and a sword in the other. It also caused a team of Temple Knights to fall to the ground!

The ordinary soldiers summoned by the nobles were even more vulnerable!

After the Fox Archers and a large number of Human Archers turned their attacks towards the ordinary army, before the army of the Holy Flame Empire could attack, a large number of explosive flames exploded within the ordinary army.

The soldiers were not as strong as the Temple Knights and the shield.

There was no way to block an arrow that carried explosive flames.

Instantly, it was blown to pieces.

The soldiers behind him were so scared that their faces turned pale and their fighting spirit was gone.

It could be said that before the battle, they were defeated!

"How is that possible?"

It had only been a few minutes since the battle, but the army of the Purple Gold Empire had been defeated!

It was a complete defeat!
