

Flames 331

Chapter 331: Roaring Deities! The legend of being petrified!

On the ground, the Purple Gold Empire's army was fighting harder and harder!

"Damn it, our Imperial Army was tricked by them!"

Within a battle formation, a warrior was bitterly resisted.

The Purple Gold Empire had lost more than two million troops in the battle between the three kingdoms!

Of the two million soldiers, there were six hundred thousand elite imperial soldiers.

If those two million troops hadn't lost anything, they might have been able to fight the Holy Flame Empire.

The final result wasn't too different. It would only bring some losses to the Holy Flame Empire.

Unlike now, he was completely suppressed and beaten.

In the sky, the Purple Gold Empire was no better.

Saint Sean was getting more and more anxious.

Seeing that ten minutes were almost up, he was pressed down from beginning to end and was unable to turn over at all.

The other two legends also did not get an advantage.

Purple Light Holy Son was relatively better. He was powerful and possessed a Divine Art. He was even slightly stronger than the Eldest Princess!

However, the Imperial Tutor who did not contribute his Faith and did not have any Divine Skills was beaten up by the Fox lady Qing Ling!

Suddenly, in the sky, a pillar of light attacked the Meng Ying that was fighting with Saint Sean!

This was the God of the Purple Gold Empire!

The God of the Purple Gold Empire was still unwilling to fail after losing the Divine Incarnation. He wanted to take advantage of the battle between Meng Ying and Saint Sean to launch a sneak attack to kill Meng Ying.

To think that a third-ranked God would launch a sneak attack on the Continent of Gods! One could imagine how furious the God of the Purple Gold Empire was!

However, Meng Ying seemed to have been prepared for this. She blocked the attack of the God of the Purple Gold Empire with defensive magic. She had already completed her displacement.

The beam of light of the deities of the Purple Gold Empire was still partially powerful and landed on the ground. When it hit the immortal Knights of the Purple Gold Empire, a large number of these Knights and their armor disappeared.

The God of Purple Gold Empire had unleashed Saint Realm's power in his rage!

This was not an ordinary consumption!

If it had been a God of the Xi Ling Kingdom who had sent down Saint?Realm?power, he would have probably used up half of his Divine energy. Other than the third-ranked?Deities, the second rank Deities wouldn't have dared to do this.

“Good opportunity!”

Although the sneak attack of the God of the Purple Gold Empire was ineffective, it created an opportunity for Saint Sean.

The Holy Spirit, Saint Sean, began to chant. He first cast a powerful defensive spell, and then he cast a powerful Divine spell.

The sky was instantly filled with violent energy. Saint Sean opened his eyes, and a destructive attack was about to descend.

“It can end now.”

Saint Sean said coldly.

This attack had consumed a lot of energy. Once it was completed, he would be able to retreat from the state of the Five Saints and return to the legends.

But as long as they could kill Meng Ying, they would be able to turn this war around!

However, Saint Sean's casting was about to be completed. In the sky, legendary?ranked?magic came crashing down.

“He should be able to hold on!”

Saint Sean wasn't worried.

But immediately, a terrifying aura was emitted.

Following that, endless black flames burst forth, drowning out the defenseless Saint Sean.

“Abyssal Demon Flame!”

In the sky, the panicked voice of Saint Sean rang out!

He never expected Meng Ying to possess the Abyssal Demon Flame!

Moreover, this Abyssal Demon Flame was still this strong!

With so many Abyssal Demonic Flames, if Saint Sean was prepared, he would be able to block them.

If he was a bit smarter, he might be able to escape.

However, when he was chanting an incantation, his reaction was slightly slower.

This slap was the distance between life and death!

“It can indeed end.”

Meng Ying looked at Saint?Sean who was being burned until he screamed.

These ten minutes of battle had allowed her to completely adapt to the power of a Saint Realm cultivator.

Speaking of which, Saint Sean might not believe that Meng Ying was confident that she could finish the battle in three minutes. However, she deliberately dragged out the battle for a very simple purpose.

She was familiar with Saint-ranked power.

Saint Sean, who was firmly restrained by the Abyss Demon Flame, was the best trial stone.

The shrill cry of the Holy Spirit spread throughout the battlefield!

The Holy Son's expression changed drastically!

He had never imagined that the Holy Spirit would lose!

Now, the Holy Son of the Church could only pray that the avatar of the gods would not be defeated!

But soon, the Holy Son received the Divine decree!

This Divine Master's order had allowed the Holy Son to escape!

In the Continent of Gods, it would take a lot of time to digest a kingdom.

After taking down a small empire, it would take even longer to digest it.

In the past, such a battle had even happened: after a small empire took down another small empire, it was dragged down by the defeated empire while digesting this small empire!

As long as the Purple Light Saint escaped and a large number of the Church's higher-ups escaped, they would be able to organize guerrilla warfare in the kingdom of the Purple Gold Emperor to make the Holy Flame Empire miserable.

It could even drag the Holy Flame Empire down here, unable to advance or retreat!

The Holy Son's face was extremely ugly!

He had never thought of such a result before!

As the Holy Son of the Church, he was the proud son of the heavens. He had a high position in the Purple Gold Empire, and now he was running!

And it was his God who made his escape!

However, the Holy Son was quite decisive.

He was the Son of Saint. If he did not escape, the other side would not leave him behind.

If he escaped, then everything was still possible!

That was why the Purple Light Son of Saint used a powerful Divine skill to force the Eldest Princess back, and then turned around and fled.

"How could this be?"

On the other side, the Imperial Tutor had also collapsed.

"Stop fighting, run!"

The Imperial?Tutor also turned around and fled!

The two legendary existences chose to escape at the same time!

“You want to run?”

Meng Ying had long noticed him.

She waved her wand, and a large amount of instantaneous magic directly cut off the Purple Light Holy Son’s path.

The Purple Light Son of Saint’s face was filled with sorrow.

He finally realized the difference between him and Sanctuary.

Meng Ying waved her wand again. Then, endless flames engulfed the Purple Light Holy Son.

This Legendary Holy Son was completely burned to ashes by the flames!

“So scary!”

Imperial Tutor’s escape was fast, and Qing Ling’s reaction was a little slow. He was about to escape.

However, a woman suddenly appeared in front of him.

This woman’s appearance was quite beautiful. Her face was exceptionally perfect, and her figure was even better.

The Imperial?Tutor did not sense any legendary aura from her.

At most, it was a forbidden-ranked?existence.

“If you dare to block my way, I’ll capture you and go to another empire.”

The Imperial Tutor had a sinister smile on his face. He used a binding spell to attack. To his surprise, the woman did not resist.

The Imperial?Tutor thought it was strange, but after being restrained by him, he could no longer resist.

The Imperial?Tutor did not think too much about escaping. He flew up and grabbed the woman.

During this process, he instinctively looked into the woman’s eyes.

“Her eyes are beautiful.”

He thought.

Then, he saw a light in the woman’s eyes.

“Not good!”

The Imperial?Tutor’s face changed.

But it was too late.

“Kaka!”

There was a cracking sound coming from his body.

The Imperial Tutor tried his best to resist, but it was useless.

Medusa's petrified eyes gave them the power to drive specific rules.

This was a talent.

They did not need to touch the rules.

He did not know what the rule was, what the principle was, and what it was.

All they needed to do was activate the petrified eyes, and they could naturally activate that rule.

Only a small amount of life could possess such a talent in the Continent of God.

As for the national master, he was probably the first legend to be petrified in the last thousand years.

In less than ten seconds, the Imperial Tutor turned into a statue and fell from the sky. He smashed through a house and shattered into pieces.

At this point, the high-end combat strength of the Purple Gold Empire was wiped out.

Meanwhile, Divine Incarnation was long gone.

The overall situation had been decided!

Heaven.

The Divine Kingdom was shaken.

In the Divine Kingdom, all living beings trembled.

"You're infuriating me, you're infuriating me. Men, activate all your power and search for information about the Lord of Flame. If you dare to take my kingdom, I will destroy your kingdom!"

Chapter 332: Power to break the restriction! Burning the throne of God!

In the Imperial City of the Purple Gold Empire, the movement in the sky shocked everyone.

"Your God has been defeated by the Great Lord of Flame. The Son of Saint has been killed, and the Imperial Tutor has died. Everyone, put down your weapons, so I will spare you." In the sky, Meng Ying's voice resounded throughout the Imperial City.

Her words made the people of the Purple Gold Empire feel like the sky was falling.

Countless people felt disbelief.

The Purple Gold Empire was extremely powerful. In the past few hundred years, the Purple Gold Empire had expanded from a small kingdom to a small empire.

During this process, there were at least ten kingdoms that were devoured by the Purple Gold Empire.

But now, the Purple Gold Empire has been beaten up by someone!

It was fine if they lost, but the key problem was that they?still lost so miserably and thoroughly.

“I already told you, these people will come back.”

In the Imperial City of the Purple Gold Empire, a commoner spoke.

A few months ago, the commoner had personally witnessed the Imperial City being destroyed and the Great Prince and the Fifth Prince being killed. He had a deep impression of the Holy Flame Empire.

The?incident a few months ago left a deep impression on the entire Imperial City.

The palace was destroyed, the emperor was angered to death, and the two princes were killed.

The result was nothing.

That incident had also caused a considerable loss to the prestige of the Royal Family and the Church of the Purple Gold Empire.

“It looks like the sky is about to change. I wonder what kind of God this Lord of Flame is.”

Another civilian said.

The commoners who were qualified to live in the Imperial City were considered to be relatively better off among the commoners.

Of course, it was only relative.

“The Great Lord of Flame is merciful. All of you, in the future, as long as you voluntarily give away the remnants of the Church; you will have the right to reclaim ten acres of wasteland for each of you. Other than that, all civilians who believe in the Lord of Flame will have ten acres of land!”

Immediately after, Meng Ying directly announced the killing weapon, the reclamation order!

Her voice spread throughout the Imperial City through the amplification magic.

Immediately, the Imperial City of the Purple Gold Empire erupted.

“Giving out a remnant of the Church will give you the right to reclaim ten acres of wasteland, and being willing to believe in the Lord of Flame will give you ten acres of land. Heavens, is this true?”

Some civilians were in disbelief.

In the Continent of Gods, the commoners cared the most about the land.

However, in the Continent of Gods, all Kingdoms?had a Pyramid model.

.

In terms of class, it was a Pyramid. The commoners were the most. The higher up, the fewer people there were.

However, in terms of wealth, it was an inverted Pyramid. The nobles at the top held the most wealth and land.

In all kingdoms, nobles were the cornerstone.

Whether it was the Royal Family, the King, or the Emperor, they were the largest nobles in a kingdom.

Why would they be willing to share the land with civilians?

But the Holy Flame Empire was willing!

Therefore, Meng Ying's simple words caused a huge commotion in the Imperial City of the Purple Gold Empire. Countless civilians could not believe their ears.

After the disbelief, it was ecstasy!

It was like the ecstasy of being hit by a pie falling from the world!

"We surrender!"

Meanwhile, on the battlefield, the soldiers of the Purple Gold Empire began to surrender.

After being disarmed, these soldiers would use flying ships to work as coolies in the Holy Flame Empire.

In the Holy Flame Empire, several large-scale mines were discovered.

These soldiers would stay there for about a year or so until they all believed in the Lord of Flame.

At this point, 20 days after the start of the plan, the Purple Gold Empire was captured by the Holy Flame Empire.

However, the follow-up was still quite tedious.

The members of the Church needed to be screened once, and the higher-ups of the Church would not keep them. Only after the lower-ranked members were screened would they be placed in some special areas to be guarded.

A reclamation order could stabilize civilians.

Then they had to stabilize the nobles.

In short, it would take a lot of time to digest the Purple Gold Empire.

In addition, three kingdoms on the desert side needed to be digested.

Things were piling up.

However, after the four kingdoms were completely digested, the Holy Flame Empire would leap from a small empire to a large one.

Although they might still be behind in the Emperor's Kingdom!

The Great Empire had truly ascended to the top of the Pyramid of the Continent of God!

And if they could turn the Endless Desert into an oasis and become the territory of the Holy Flame Empire, the territory of the Holy Flame Empire would also become exceptionally vast!

Meng Ying continued to guard the Imperial City of the Purple Gold Empire. Then, she issued an order to summon all the nobles.

She wanted to stabilize the Purple Gold Empire before going to the Eternal Night Empire.

On the Continent of Gods, the Holy Flame Empire had expanded many times.

In the Abyss of the Behemoths, the battle of sacrifices had been going on for more than a month.

Of course, the Succubus only had twenty days to fight.

After a few more days, Lin Yan would be thoroughly familiar with Godhood.

In the past few days, Lin Yan had spent a great deal of time observing the three Demon Gods. Lin Yan was still relatively cautious.

“Let’s fight it out. Even if it’s not enough, we’ll still be able to advance by one level!”

Lin Yan muttered to himself.

He rose to another rank and reached the next stage.

The Flame of Destruction was already powerful enough.

With Lin Yan’s current tenth-ranked Extermination Flame, if he was willing, he could summon all of his energy points, Divine energy, and even become a small Sun in a short time!

Of course, it was the sun before Lin Yan transmigrated.

It was not the sun of the Heavenly Realm.

The sun of the Heavenly Realm was simply too terrifying. That was something that existed from ancient times, something that even many gods could not enter!

If he reached the next stage, Lin Yan’s strength would be unimaginable.

Therefore, Lin Yan decided to fight.

Even if the three Demonic Gods did not lower their true bodies, Lin Yan would still be able to rank up by the first rank.

If he lowered his true body, Lin Yan would make a huge profit.

What if he lost?

Lin Yan did not think that he would lose.

“Yvette pays attention to the left-wing. The Bat Demon is here.”

In the sky, Natasha was commanding the war below.

A small number of Succubuses had already joined the battle.

As for the castle in the sky, there were quite a few powerful Demon armies joining the war.

Beside Natasha, Princess Barbara stood there quietly. She was still thinking about the Lord of Flame.

At that moment, Natasha’s expression changed.

This was because she had received a message from her Master.

“Master is going to expand the war now?”

Natasha and Princess Barbara looked at each other.

It was clear that both of them had received enlightenment.

Moreover, the content of this revelation was not simple!

Chapter 333: Power to break the restriction! Burning the throne of God!

His Master told them that he would increase the power of the Evil Flames, allowing the Succubus to become more powerful.

“Yvette, pass on my orders. All Succubuses will participate in the battle and use Evil Flames regardless of the price. Quickly destroy the enemy!” Natasha quickly gave the order.

Since it was the Master’s request, she would carry it out 100%.

After Natasha gave the order, countless Succubus armies on the ground moved.

“Well, what are the Succubuses doing?”

Seeing this, the Demon Kings in the castle all focused their attention.

There were certain rules in the battle of gods.

In the early stages of the God Sacrifice War, they were used to consuming the minions and created Dark Faith.

Killing all of these servant demons at once didn’t have much of an effect, nor was it conducive to the collection of the Laws of Slaughter.

In reality, many Abyssal Demonic Gods needed the battle of sacrificial gods, and they wanted to kill the laws.

The Laws of Slaughter were too powerful.

In the Abyss, the laws of slaughter represented another possibility.

This possibility was enough to make all the Abyssal Demon Gods go crazy.

The Slaughtering Master God from the Abyss had fallen countless years ago.

Whoever can master the law of killing can become a new God of killing.

To become Master of the Laws of Slaughter, one had to first master the Laws of Slaughter.

This was the true charm of the battle of gods.

It was also why the countless Abyssal Demonic Gods were willing to play this game.

Now, the actions of the Succubuses had broken the rules.

When the Succubus army moved, the servant demons naturally couldn't hold on to this huge battlefield.

These Succubuses were even more merciless, and they were releasing a large number of Evil flames. The entire battlefield was instantly filled with monstrous Evil flames, and countless servant demons were burned to death.

"Succubus King, you've broken the rules!"

A cold voice came from the will of the Demon Bat King.

"Succubus King, quickly stop. Do you want to anger the Demonic God?"

Wings Demon King's will also send a voice-over.

"Succubus's King, if you don't stop, doesn't blame the three of us for joining forces to destroy you!"

Another Demon King from the Demon Dynasty, Long-Nail Demon King, also spoke.

The Succubus' actions had angered everyone.

In the sky, there was still no movement from the Pyramids of the three Demon gods. To the Demon gods, they looked down on all living things from above. Their mentality was far colder than what ordinary people imagined.

However, as the organizers of this battle, how could they be willing to let the Succubuses break the rules and anger the Demon gods!

That meant that the three of them were too incompetent!

As far as they were concerned, the Succubuses were going to raise the battle of gods to become a battle of dynasties!

Natasha asked calmly:

"Aren't the rules just for breaking?"

"Succubus King, what do you mean?"

Hearing Natasha's words, the Demon Bat King was enraged.

"Succubus King, you want to fight. Alright, we'll fight for you!"

Wings Demon King's cold voice rang out.

After his voice fell, from the Demon Castle group of the Winged Demon King, the dense demons flew out and rushed to the Demon Legion on the ground!

At the same time, a dense swarm of demons flew out from the castle of Demon Kings.

This was the most Elite Demon army of the three dynasties!

There were also many elite Demon Lords inside!

At the same time, the demons that were fighting endlessly in the black clouds also rushed towards the Succubus Army.

On the ground, the endless army of servant demons also turned around and attacked the Succubus Army.

When the Succubus Army had just arrived on this battlefield, their encounter had reappeared!

And now, the situation was even more serious than at that time, because the demons in the Demon Castle hadn't attacked yet!

In the sky, although the will of the three Demon Kings had arrived, they were still thousands of kilometers away. Even if it was a Demon King-ranked existence, if they did not have much knowledge of the laws of space, they would not be able to quickly come.

But the three Demon kings had already moved at the same time.

The Succubus had already broken the rules. They had to destroy the Succubus as soon as possible. This was also their Divine order!

As for the gods of the Succubus, they weren't within their scope of consideration.

At a time like this, gods naturally had gods to deal with.

"Damn, this is over!"

After the three dynasties attacked the Succubus at the same time, the thirty or so Demon Lords that Natasha had taken over were immediately affected.

These thirty Demon Lord's armies were unable to withstand the attacks of hundreds of millions of Demon armies. In an instant, more than half of them were destroyed, they didn't even have time to flee.

The thirty or so Demon Lords were so terrified that their faces turned pale. They fled with all their might.

This was simply a demonic riot!

It was too terrifying!

Although the Succubuses were demons, they did not have wings and could not fly without reaching the seventh rank.

After the thirty Demon Lords' demon armies were defeated, the demons in the sky charged towards the Succubus Army.

On the ground, the servants of the thirty Demon Lords had died almost, to begin with. They had been completely wiped out by this attack.

Following that, the scythe guards that the Succubus had summoned could no longer hold on.

All of a sudden, the Succubus Army was facing a double attack from the sky and the earth!

"Succubus King, you're finished. You must pay the price for your actions!"

The Demon Bat King let out a cruel laugh.

He and the other two Demon Kings had already arrived.

At that time, it would be a three-on-two war.

Before the Demon Bat King's laughter could fall, tens of millions of Succubus on the ground simultaneously unleashed a flame!

This flame instantly covered the sky above the Succubus Army.

As long as the demons charged towards the Succubus army were touched by the flames, no matter how strong or weak they were, they would not be able to stop the flames.

The sky above the Succubus Legion instantly turned into a sea of flames.

Countless demons cried out in pain.

As for this flame, it spread from one Demon to another.

Instantly, the entire sky was filled with demons with flames!

This scene caused the three Demon Kings to be stunned.

At this moment, in the endless skies, the three Pyramids began to shake at the same time.

One of the Abyssal Demonic God's will let out a deafening voice, "Succubus God, you dare to drop your power!"

On the Pyramid, Lin Yan's ice-cold voice sounded, "That's right!"

After he finished speaking, boundless flames sprang up from the Pyramid.

As soon as the flame appeared, it disappeared.

When the flames appeared again, they had already appeared below the Pyramid of the Abyssal Demon God. The towering flames instantly surrounded the Pyramid!

Chapter 334: Burned to ashes! Demonic gods descended!

The Pyramid in the boundless sky was the image of the Abyssal Demon God's Godhood.

The Godhoods all looked like pyramids.

However, there were many colors of Godhoods.

The Pyramids of the three Abyssal Demon God's Godhoods were pitch-black.

It was as if someone soaked it in ink.

When Lin Yan had constructed his throne, he had placed the laws of darkness on the outermost layer, making his pyramid still look black.

After all, in the depths of the Abyss, it would be strange to see a Golden Pyramid.

Of course, the color was only the outermost layer.

What played a decisive role was not the color, but the laws of darkness.

The moment Lin Yan's flames spread out, he instantly confirmed his guess.

The Dark Faith of these three Abyssal Demonic Gods in this battle of sacrifice was indeed stored in the Pyramid.

This Dark Faith already had a preliminary imprint. If it was any other Demon God, it would be very difficult to prove that the dark faith already existed.

However, Lin Yan did not need to claim that he already had it.

He could just burn it straight up and be done with it.

Of course, the power of faith could be burned.

After burning, he could obtain quite a few evolutionary points.

Although this Pyramid was a virtual image of Godhood, its outer shell was woven with some rules.

Even a Demon King would not be able to use this Pyramid.

But for Lin Yan.

It was too simple!

The berserk flames were activated. Immediately after, Lin Yan injected his Divine energy and activated the Laws of Flame and Destruction.

The temperature of the raging flame rises in an instant. No one knew how many times.

And the greater destructive power was not in terms of temperature but in terms of laws.

Driven by two kinds of laws, the Pyramid only lasted for a few seconds before it was completely burned to ashes by a flame!

“Roar! How dare you burn my throne?”

Above the Pyramid, the will of the Demon God roared.

But immediately, the flames ignited. The Demonic God’s will was completely burned by Lin Yan before he could escape!

“You’re courting death!”

Immediately, another will descend from the Demon God. His voice was filled with boundless anger.

Ignoring this weak Demon God’s will, Lin Yan directly arrived at the top of another Demon God’s Pyramid and burned it completely.

In the depths of the Abyss, the chaotic rules were the same as the rules of the Continent of Gods.

As for space rules, they were neutral.

This was also applicable to the Heavenly Realm, also applicable to the Abyss, even the laws that existed in the Dark Abyss.

After all, regardless of whether it was the Heavenly Realm, the Abyss, or the mysterious Dark Abyss, space always existed.

It was just that there was a difference in the form of the display.

This was because when the various laws interweaved, they affected each other, causing some changes.

Seeing this, the third Demonic God's Pyramid quickly dimmed. Just as it was about to flee, Lin Yan's movements became even faster. He pounced on the Pyramid and destroyed it before it could escape.

The three Abyssal Demon Godhoods roared.

Their gains from this God Sacrifice Battle had been robbed by Lin Yan!

What made them even more unable to accept was that the three of them had secretly planned to lure Lin Yan over and attack him.

They were hunters, while Lin Yan was prey.

However, they weren't planning to launch it now, but rather at the end of the battle.

Unexpectedly, Lin Yan was the first to make a move.

He was treating them as prey.

And Lin Yan himself had become a hunter!

The identities of the prey and the hunter had changed!

How could these arrogant Abyssal Demonic Gods accept this!

It was nowhere far from the Mobis Abyss.

This place was below the abyss.

There were countless Abysses. The upper and middle Abyss were as numerous as the stars in the sky.

It was impossible to count the number of Abyss.

There were even more creatures in the lower Abyss.

Moreover, the lower Abyss was extremely large.

The residence of the gods was located at the bottom of the Abyss.

At this moment, in a kingdom that was filled with chaos and slaughter, a huge creature that was tall enough to live on the Throne of the Sky began to roar.

"I won't spare you!"

That enormous creature possessed an enormous body. It naturally did not look like a human, but more like an animal.

Such an animal was known as a spike Demon in the Mobis Abyss.

It was clear that this Abyss Demon God had been transformed from a Long-Nailed Demon!

It stood on the Throne of the Sky. Immediately after, endless power surged out of its body. Under the power, a tunnel was opened.

It suddenly became smaller, becoming only a few meters in length. Then, it drilled into the tunnel.

The end of the tunnel was a completely dark place. There was no light at all.

The Abyss was too big. Furthermore, even for Demon gods, it was not completely unblocked.

Even if it was an Abyss Demon God, if it wasn't an Abyss Demon God who was proficient in space rules, it would still have to travel in some strange places to cross too many layers of the Abyss.

Of course, this process did not take long. It was rather fast.

“Roar! Send me to the Mobis Abyss!”

The Long Nailed Demon God's voice reverberated through this space like thunder.

“Of course, Honorable Lord Demonic God, 100 drops of Divine energy.”

In this space, a few Abyssal creatures were crawling on the ground.

From the looks of these Abyssal Creatures, they were scared to death, yet they still dared to charge a single Abyssal Demon God.

“Here.”

The Long-Nailed Demon God did not bargain and threw out 100 drops of Divine energy.

Then, in front of him, another tunnel opened and the Spike Demon God leaped in.

The movements of the three pyramids in the depths of the Mobis Abyss stunned the Demon kings below.

Due to the existence of the black cloud, the demons below couldn't see it.

“The war between gods is likely about to begin.”

Amongst the three Dynasties, the Winged Demon King said.

The three Demon kings had already gathered together, but they had yet to attack Natasha and Princess Barbara.

“The Succubus God dared to take the initiative to attack. I'm afraid he has something to rely on. Let's take advantage of the battle to deal with the Succubus first. No matter how strong the Succubus God is, we can't fight against three.”

The Demon Bat King said.

As soon as he finished speaking, a tunnel opened up in the sky. From this tunnel, a terrifying aura came.

“The Demon God has descended!”

Winged Demon King said in a low voice.

Chapter 335: Godhoods! He wanted to escape the moment he arrived!

The endless commotion in the sky alarmed everyone.

When the Demonic God personally arrived, the movements and might were quite shocking!

Unless the Demon God deliberately covered his breath.

Otherwise, every single Demonic God's true form would be able to stir up a large number of ripples when they descended.

The Long-Nailed Demon God did not conceal his breath.

Instead, he released his aura without holding back.

The vibration from the rule rank makes every Demon and every servant Demon feel frightened.

Even the Demon King's ranked existences felt unparalleled pressure.

The power of the Long-Nail Demon God could be seen!

Before the Long Nailed Demon God had even appeared, the evil aura from his body had already passed through the tunnel, causing countless demons and servants to become even crazier.

On the ground, countless servant demons charged at the Succubus Army.

In the sky, even if the demonic flames released by the Succubuses caused the entire sky to burn, there was still a steady flow of demons.

The Evil Flames in the sky began to extinguish under the impact of the aura of the Spike Demon God.

After all, the Evil Flames were released by the Succubus' prayers. Naturally, they would not be able to withstand the attack of the Spike Demon's aura!

However, even though the Evil Flames were extinguished, the demons that were burned to death by the Evil Flames were countless.

A large number of Long Nailed Demons were burned, and in the blink of an eye, the entire sky was filled with Long Nailed Demons.

The fate of these demons in the Succubus Army was self-evident.

"Damn it, our new generation of demons have been killed!"

The Demon Bat King let out a furious voice.

In reality, whether it was the Abyssal Creatures or the Demon, their birth speed was too fast.

As the King of Demons, under normal circumstances, the Demons under his command would not blink after death.

But it all depended on how he died.

Those too many new generation demons were originally meant to be used in the God Sacrifice War to please the fiend celestials.

But now, the Succubus had burned it to nothing!

Naturally, the Demon Bat King was enraged.

However, there were still many Demons in the sky!

These demons were the demons that had rushed out of the Demon Castle.

They were the core of the Three Dynasties.

It was also the most powerful Demon Legion of the three dynasties!

These demons were exceptionally powerful. After the Succubus released the Evil Flames, they were able to retreat. Their losses were not huge.

Under the command of a large number of Demon Lords, these demons changed their tactics—and no longer swarmed forward. Instead, they used a small ambush strategy to test and exhaust the power of the Succubus—continuously.

However, the Evil Flames were far more terrifying than he had imagined.

Of course, Evil Flames weren't omnipotent. After all, it was a self-given Child Flame from Godhood, and its power was extremely weak.

After being strengthened by Lin Yan, the Evil Flames released by a fourth-rank Succubus could only threaten peak fifth-ranked demons.

However, if all the Succubus Demons released their Evil Flames together, the Evil Flames would have a superposition effect.

Although it wasn't omnipotent, the Evil Flames gave the weak Succubus the ability to cross ranks.

After all, the former Succubuses couldn't even fight a demon of the same rank as him!

Therefore, even though the Demon Army in the sky had changed their tactics, they still suffered endless losses. They could only use long-range attacks to fight the Succubus. For a moment, both sides entered a stalemate.

“The Demon Gods have descended. The three of us should finish them off as soon as possible! You deal with another Succubus. Leave the strongest one to me and Long-Nail Demon King.” The Winged Demon King made a sound.

Just as the three Demon kings reached a consensus, a terrifying Evil Flame descended from the sky and attacked them.

The three Demon kings were shocked at the same time and dodged.

“Succubus King, why are you staring at me?”

The Demon Bat King's exasperated voice rang out.

It was because Natasha had launched an attack on the Demon Bat King!

If the Demon Bat King could survive this time, it would probably cast a shadow on Natasha.

“Winged Demon King, help me!”

The Demon Bat King shouted.

With his strength, he was unable to defeat Natasha!

“When did you deal with a Succubus King? Do you want to fight two against one? This Succubus King is quite interesting.”

Winged Demon King sneered and joined the battlefield.

“I was going to let the weakest Demon Bat King deal with you, but now it seems that I can only let you die at my hands.”

The Spike Demon King walked towards Princess Barbara.

The time it took the Long Nail Demon King to become a Demon King was rather long.

A thousand years ago, it was still not a Demon King.

However, its strength surpassed that of the Demon Bat King. It became a Demon King on par with the Winged Demon King.

Of the three Demon Kings, the Demon Bat King was the weakest.

Princess Barbara’s expression didn’t change much as she watched the Demon King walk over.

If it was in the past, even if she had eaten the heart of the Succubus Queen a thousand years ago, she would not have much confidence in dealing with the Spike Demon King.

But now it was different.

After becoming the Lord of Flame’s servant, she had already been strengthened by the Lord of Flame. Now, she was very close to the Demon King.

After fusing with the power of the Succubus Queen’s heart, she had already gained the strength of the Demon King.

More importantly, she could now borrow power from the Lord of Flame!

Thus, just as they exchanged blows, the Spike Demon King let out a soft exclamation:

“She managed to block my attack.”

After that, the Spike Demon King’s soft voice turned into a bewildered voice:

“No, why are you so strong?”

After that, the Demon King Long-Nail roared,

At this moment, another tremor could be heard from the skies above...

The Spike Demon King roared once more. “The Demon God has descended. Now you’re doomed!”

In the endless sky, a huge figure finally appeared in the tunnel!

The Spike Demon King descended!

The evil presence on his body covered the entire place. The entire Mobis Abyss immediately sank into the boundless darkness.

Following that, two more tunnels appeared in the boundless sky.

Two Spike Demon Kings with equally shocking auras walked out from the two tunnels.

Three Spike ?Demon Kings descended!

The three Spike?Demon Kings did not hide their presence at all. Their presence created a terrifying storm of energy in the sky above the Mobis Abyss!

The three of them seemed to be standing on one side, but in reality, they had already sealed off all of Lin Yan's escape routes.

In the depths of the Abyss, there was endless war. Every single Abyssal Demonic God had gone all the way up the path of war.

They did not need to communicate with each other in advance. Everyone found their position and placed Lin Yan within their encirclement.

The arrival of the three Spike ?Demon Kings caused the battle to stop.

Down below, the Spike Demon King and the servants could feel their hearts palpitate as well. They all raised their heads to look at the sky.

However, the sky was filled with black clouds. They couldn't see it at all.

The three great Demon kings prostrated themselves at the same time, expressing their absolute submission to their respective deities.

Natasha and Princess Barbara looked at each other. The aura of the three Demon gods in the sky was shocking, but Lord of Flame did not release any aura.

Battles between the gods of the Heavenly Realm were usually not so specific. However, in battles in the Abyss, the spike demons were extremely ostentatious and rarely hid their auras.

The stronger the evil smell of these Demons, the stronger the combat effectiveness they bring.

Therefore, the actions of the Lord of Flame were somewhat abnormal to the Abyssal creatures.

"Hahaha, Succubuses, your god is?afraid. I'm afraid he is?going to flee. You're done for!"

The Demon Bat King laughed loudly.

As soon as he finished speaking, an evil aura that made his heart tremble rose.

At this moment, as the Spike ?Demon King who didn't even have?a soul, the Demon Bat King could feel a tremor from the depths of his soul!

"This is..."

The Demon Bat King's heart almost stopped beating.

In the endless sky, the three demon gods who had just descended were also stunned. One of them was preparing to tear open the tunnel and escape.

This was because they could sense that it was far higher than the endless pressure brought by their godhoods!

Under this pressure, their godhoods almost froze, as if they could not continue to operate.

That was the terrifying pressure of a fifteenth-ranked Godhood!

Chapter 336: Demon gods prostrated on the ground!

The Abyss was a very strict social structure.

However, this rank was not the same as the Continent of Gods. It was constructed from layers of titles.

It was strength.

In the Abyss, the weakest was the greatest sin.

These words were also applicable to the Continent of Gods, to the Heavenly Realm, and all places.

However, there was no place that was as naked as the Abyss.

Among the Abyssal Demon Gods, there were also strict ranks.

These three Demonic Gods only had fifth-ranked godhoods, which was far from the fifteenth-ranked godhood.

A God with fifth-ranked godhood was the only first ranked God.

A God with fifteenth-ranked godhood was the peak of the third rank.

In the Abyss, even though there were many powerful Demon gods, a Demon God with fifteenth ranked godhood was still so terrifying.

Even the godhood of the Dark God who had cursed the Night Elves might only be around the fifteenth rank.

Therefore, the moment Lin Yan released the Divine Aura of fifteenth-ranked godhood, the three Abyssal Demonic Gods trembled in fear!

Heavens!

Why would a Demonic God with such strong godhood choose to protect weak Succubuses!

Not every rank of the lower Abyss had a name.

Abyss with names wasn't common in the lower Abyss.

Although the Mobis Abyss was huge and had a name, it was located at the top of the Abyss!

On top of the Abyss was the middle Abyss.

The Mobis Abyss was equivalent to the boundary between the lower Abyss and the upper Abyss.

Compared to the other Abyss that had names in the lower Abyss, the Mobis Abyss still had some differences.

It could be said that it was the smallest Abyss with a name, which was why it was occupied by the Succubus.

In the lower Abyss, Succubuses were famous for their weakness.

The Succubus God was also very weak.

The reason why the demons had targeted Mobis Abyss was very simple.

More than 10,000 years had passed since the last war between the Abyss and the Heavenly Realm. Even though there was a constant slaughter in the Abyss, the number of Abyssal creatures in the Abyss was still uncontrollable.

Simply put, there were too many Abyssal Creatures.

The people of the lower Abyss were unable to hold on any longer.

Therefore, they had to move up the Abyss.

No matter how dense the ordinary Abyssal Creatures were, it did not matter.

Demons needed to become stronger, so they had to find a more enormous Abyss to reproduce.

The Demon Gods behind every Demon race needed to become stronger.

As a result, the three Demon Gods stared at the Mobis Abyss. After decades of searching, they finally found the location of the Succubus. They heavily injured the succubuses and caused the Succubuses to die in the end.

Soon after, the Demons under the three Demon Gods organized a large number of Demons to conquer the Mobis Abyss. In just a short time, they had conquered the Succubus Dynasty.

In the Abyss, there were very few Demons willing to protect Succubus.

Other than that, the new advanced Demons.

The Abyssal Demonic God was the most realistic. In the massive battle between the Abyssal organizations, the Succubus could not obtain enough benefits for them. How could the Demonic God protect them?

Last time, when Princess Barbara came out to seize power, the Abyssal Demonic God she had found was only a second-ranked Demonic God. His strength was pitifully weak, and he didn't even dare to lower his strength. He was afraid that Lin Yan would follow the path to find him.

In the Abyss, there were traces of power.

The powerful Demonic God could push back through the tunnel to find the location of the Demonic God who had descended!

He didn't even dare to lower his strength!

It was precise because the Succubuses were so weak that the three Abyss Demons could not understand how the Succubus race could obtain the favor of such a powerful Demon God!

Even if the weak Succubuses were to be their subordinates, they would not accept them.

They were at the very least peak first-ranked Demons!

It was not cabbage!

Thus, seeing how powerful Lin Yan was, the three Abyss Demon Gods not only had a ridiculous feeling of 'what's wrong with this world in their hearts.

The Winged Demon was the fastest.

He was the last Demons to walk out of the tunnel.

Seeing that the situation was not right, he had to enter the tunnel and leave.

But the tunnel behind him instantly closed!

The Winged Demon could sense the ripples coming from the rules.

Those?were?the rules?of space!

“It’s over; the other side could?activate space?rules!”

The expression of the Winged Demon changed drastically.

After activating the rules?of space, the space was sealed off. It was no longer possible to open the passage directly.

To leave this place, he could only fly out of this area.

However, the Winged Demon God didn’t think that his speed could surpass that of fifteenth-ranked?godhood!

That’s right; the third rank of the Abyssal Demonic God was called the Heavenly Demonic God!

“Heavenly Demon God, please spare me. I have no intention of becoming your enemy. It was their idea. We can give up on the Mobis Abyss. We can give everything to you and your subordinates!”

The Winged Demon God hurriedly pushed the responsibility away, and then his enormous body crouched on the ground.

This scene caused the eyes of the Demon Kings of the three dynasties to almost pop out.

An inconceivable expression appeared on each Demon King’s face!

Especially Winged Demon King!

No matter what, it would never have imagined that one day, it would see the Winged Demon race’s deity prostrate?on the ground, slowly begging for mercy from another Demon Deity!

This scene had already surpassed the understanding of Winged Demon King!

It also greatly impacted its understanding!

In reality, it wasn’t just him. The two Demon Kings on the side also seemed to have seen a ghost!

In their hearts, these two Demon Kings had a bad feeling.

“The Succubus God is so powerful!”

The Demon Bat King’s eyes were spinning as he thought of how to escape.

As long as it could escape, even if the Bat Demon Dynasty was wiped out, it wouldn’t matter much.

In the depths of the Abyss, there were still many Bat Demons.

The Demon Bat King could go to an unknown Abyss to gather the Bat Demons, and then capture another place,?but slightly larger, lower abyss to rebuild a Bat Demon Dynasty.

Even though such an abyss could not be compared to the Mobis Abyss, the speed at which Demons were born would not be too slow. The Demon Bat King would soon regain a powerful army of Demons.

Even if it was the Demonic God of the Abyss, they could only fear him and not be too loyal.

In the end, there was only one way for Demons to remain loyal: to be strong.

He continued to grow stronger!

The three Demons kings were in mourning.

Natasha and Princess Barbara's faces were sunny.

Of course, they were also shocked.

Shocked by the power of the Lord of Flame.

To Natasha, although she firmly believed that her master was the strongest, she did not know how powerful her master was.

Really by now, she knows.

Her master, the almighty Lord of Flame, was so powerful that he hadn't even started a battle before an Abyss Demon God prostrated himself on the ground and begged.

Master was a hundred times more powerful than Natasha could imagine!

At this moment, the former succubus, the extremely Evil Demon in the Abyss, had become as loyal to the Lord of Flame as the Saintess!

This kind of loyalty was not a loyalty bound by a contract.

But even if the contract was broken, Natasha would still be loyal to the Lord of Flame.

This was practically impossible for an Abyss Demon.

No matter how powerful the Abyssal Demon God was, obtaining the loyalty of a Demon was not true loyalty.

Once the power of this Abyssal Demonic God weakened or was defeated by other Abyssal Demonic Gods, the Demons that were loyal to him a moment ago would immediately disperse in search of other backers.

For example, many stories were circulating in the poems of the Continent of Gods. A King who had fled after defeat and returned more than ten years later would be able to obtain many loyal subordinates to wait for more than ten years. It was almost impossible to happen in the Abyss.

However, Now it happened!

Natasha had become loyal to Lin Yan.

Even if she and Lin Yan's Master and servant contract no longer existed, this little Succubus of the abyss definitely wouldn't have any intention of betraying him.

Of course, the Master-servant contract was already deep in her bones. It was impossible to undo it.

Beside her, Princess Barbara's heart was already in turmoil.

However, after being shocked, Princess Barbara felt that she was lucky!

Fortunately, she had become the servant of such a powerful Demon.

This was the first time in her thousands of years; Princess Barbara felt that she had made an incomparably correct decision.

In a short period, the princess of the Succubus Dynasty had already developed a love for the Lord of Flame.

“If only the Master could speak to me later.”

Princess Barbara was looking forward to it.

“Winged Demon God, how can you be so incompetent?!”

Seeing the Winged Demon prostrate on the ground, the Spike Demon Gods roared.

“Can’t you tell that he only has Godhood but not a Divine body? Flames were not his God’s body. Roar! This guy was lucky enough to have picked up Godhood of the Heaven Demonic God. Without a Godhood what if he had a Heaven Demonic Godhood? Bat Demonic God, come with me. We will kill him and seize his Godhood!”

The voice of the Long-Nail Demon shook this space.

Following that, he charged Lin Yan.

Chapter 337: Flame burning God! The day of the fall of the Demon God!

The Long-Nailed Demon charged Lin Yan with monstrous killing intent.

In the endless sky, even though they were far away, the three Demon Kings still felt their hearts palpitate.

The war between Demons was too terrifying.

A Demon King-ranked war could easily destroy a city.

The war between Demon Gods could easily destroy nations!

In the Abyss, it was common for even the weakest Demonic Gods to destroy the Abyss.

Of course, it was not as simple to destroy Mobis Abyss as it was in the depths.

After all, this was the Abyss with a name. It wasn’t only extremely outstanding in nurturing Demons, but this kind of Abyss was also sturdier; it was not easy to destroy it.

Unless a powerful Demon God especially came to destroy this Abyss.

However, the Demons were not filled to the brim. Why would they waste their power to destroy the Abyss?

The destruction of the Abyss had no benefits for the demons.

Therefore, unless it was to vent their anger or to be affected by the battle, the Abyss would not be destroyed by the Demons.

The moment the Long Nail Demon moved the Bat Demon followed suit.

The Bat Demon flapped his wings and charged across the distance towards Lin Yan.

This?Bat Demon's attainments in space were not low.

"You're actually in the form of a flame, so it seems like you were lucky enough to obtain the Godhood?of the Demonic God from a special flame. You're really lucky. I didn't expect that after the special flame obtained the Godhood, it could produce consciousness!"

The Long Nail Demon's powers of observation were astonishing, and he instantly came up with a reasonable guess.

If Lin Yan was not a jumper, this was the most likely conjecture.

Whether it was the Continent of Gods, the Abyss, or the Dark Abyss, there were some special flames.

A special flame was just a type of flame. Almost no special flame had been born.

However, if the godhood of the fallen God was obtained by a special flame, this special flame might give birth to consciousness.

However, Lin Yan was not that kind of special flame!

Even with such a special flame, it was far from being able to compare to Lin Yan. It?was not even as strong as a tenth of Lin Yan's strength!

In this world, there were as many gods as stars, but only Lin Yan had the Godhood!

Hearing the words of the Long-Nailed Demon God, the Winged Demon, who was still crouching in the air, felt a slight movement in its heart. However, it had just been scared out of its wits and was still worried. Therefore, it only stood up and did not attack with the Long-Nailed Demon God.

Down below, when the three Demons heard the words of the Long Nailed Demon, they felt much more relaxed.

"So that's how it is. I said such a powerful God cannot protect that Succubus." The three Demon Kings thought silently.

"There's no need to run now."

The Demon Bat King let out a sigh of relief.

On the other side, even though there was a lot of information in the words of the Long-Nailed Demon God, both Natasha and Barbara were confident in their master. Only they knew that their master was truly powerful. They firmly believed in this!

Especially Natasha.

Other Demonic Gods would not be able to bestow upon the tens of millions of powerful Evil Flames like the Lord of Flame.

Other Demons couldn't be like the Lord of Flame He could not only grant power but also retain the perfect body of the Succubus race.

Other Demon gods couldn't raise Natasha to Saint Realm like the Lord of Flame!

Therefore, the words of the Long-Nailed Demon God did not affect Natasha and Princess Barbara!

The speed of the Long-Nailed Demonic God and the Bat Demonic God was extremely fast. Almost instantly, they reached Lin Yan's side.

“Attack together and destroy his flames!”

The Long-Nailed Demon activated his Divine energy, and endless evil power surged towards Lin Yan's flames.

As Demons, their combat experience was incomparably rich. It wasn't that they didn't have experience dealing with flames in the past. Among the attacks of many gods, flames were extremely powerful.

Especially the Flame Demon God who had walked out of the Lava Abyss.

Their entire bodies were covered in flames.

As for the Earth Demon dragon in the Abyss, the flames it spat out were also exceptionally terrifying.

In the Continent of Gods, the Heavenly Realm, the Abyss, and the Dark Abyss, the flame was one of the most popular methods for living beings.

In different places, the form of the flames was completely different.

In the Abyss, flames possessed a dense evil aura!

The two Great Demonic Gods attacked at the same time. Each of them used their methods to summon up a terrifying evil power in an attempt to extinguish Lin Yan forever!

“Let's retreat!”

Natasha ignored the three Demon Kings and flew down with Barbara.

The three Demon Kings of the three great Demon dynasties could no longer care about their castle and flew down at the same speed.

The five Demons had just flown down the black cloud when the energy ripples from the Demons' full-strength attacks were transmitted over.

Immediately, the black clouds in the sky were swept away.

The endless sky was filled with Demons!

“Look!”

A large number of Succubuses noticed the situation in the sky. They all looked up at the sky.

With their gazes, they could not see the location of the three Demons.

The sky was dark. Even though the three Demon gods had large bodies, they could only see a blurry outline.

However, even though they couldn't see it, as long as their gazes swept past the location of the bodies of the three Demonic Gods, they would feel their hearts palpitate.

Deities could not be seen directly!

It wasn't just about the dignity of a God.

The most important problem was that looking at a God would kill them!

If a Demon God appeared in front of an Abyssal creature, if this Abyssal creature dared to look at a Demon God directly, its eyes would explode!

The Demonic God's Divine body was not as particular as the Heavenly Realm's Divine body.

Many heavenly deities would pay attention to lines and beauty.

Especially the female Heavenly Realm gods, they would make themselves as perfect as possible without affecting their combat effectiveness.

But the body of the Demon God was born purely for fighting.

It was not an exception for a small number of Demon gods. For example, the original Demon God of the Succubus race was pretty.

Many Demons liked to use special demonic substances to strengthen their Divine bodies.

Some magical substances were fatal to ordinary creatures.

For example, the demonic substance that the Demon God had fished out from the Abyss was enough to kill an entire city if it was thrown into the Continent of Gods!

The greater threat came from the level of laws.

Every single Demon God was a master of the laws. A glance at this Demon God was like seeing the endless mysteries of this world.

How many mysteries could there be in the world?

If it was a commoner, his eyes would explode because of receiving too much information. His head would explode and turn him into an idiot!

Of course, this was for the weaker ones. The stronger ones were much less affected.

However, looking directly at the Demon God would also make the Demon God unhappy. Even if a powerful Demon could block the threat of the Demon God's natural aura, it would still be easily killed by the Demon God's punishment.

Just like when Natasha arrived in the sky, she met God's punishment when she looked at the Pyramid throne!

Fortunately, the distance between them was far enough, so the problem was not too big.

Moreover, these Succubuses could not see clearly.

However, the flames in the sky were too bright.

The flames covered the heavens and the earth, and an evil power that was so dense that it couldn't be dissolved.

Under the attack of this evil power, no flame could continue to burn.

However, under the attack of the endless evil power, the flames seemed to have not been affected in the slightest as they burned tenaciously.

Under the light of the flame, they seemed to see two enormous creatures releasing terrifying energy in an attempt to extinguish the flame!

“What’s wrong with the sky? Why do I feel so scared?”

One of the Succubuses could only feel the heaviness in his heart and could not help but ask.

“Heavens, it can’t be the God Sacrifice Battle!”

Another Succubus said.

These Succubuses already knew that this war was a battle of sacrifices.

Just as Lin Yan descended, a terrifying ripple spread out, causing them to have some guesses.

However, their line of sight had always been blocked by the black clouds, so they could not see the situation in the sky.

But now, they saw that!

There seemed to be several demon lords fighting in the sky!

“It must be the Great Lord of Flame fighting with the other three Demonic Gods. I didn’t expect to see the Demonic Gods fighting. These three Demonic Gods heavily injured our Succubus race a thousand years ago, and they are relatively powerful existences among the Demonic Gods. I wonder if the Great Lord of Flame can defeat them.”

.

A recently joined Demon path.

After the Succubuses joined the Succubus Army, they had obtained the right to use Evil Flames. They had already experienced the power of the Lord of Flame. However, they still had doubts.

In their opinion, the three Abyssal Demonic Gods that defeated the Succubus race a thousand years ago were naturally powerful existences.

As long as the body of a Demon God with fifth-ranked godhood wasn’t too weak, it wasn’t too weak among the Abyssal Demon gods.

“My Lord will win!”

Beside him, another Succubus spoke with a firm tone.

This Succubus had already joined the Succubus Army and had much greater confidence in the Lord of Flame.

“My Lord will win!”

More Succubus spoke firmly.

As if to confirm their words, as soon as they finished speaking, the flames in the boundless sky burst forth. In almost an instant, they surrounded the two behemoths.

The entire space shook.

In less than a second, the temperature of the flames had risen countless times.

The terrifying heat engulfed the sky and instantly burned the evil power of the two demons!

The Spike God sensed the threat and retreated, but its speed was too slow. It was instantly caught up by Lin Yan, who was driving the spatial laws, and the flames surrounded it.

The Bat Demon flapped its wings, wanting to drive the space away as well.

However, the attainments of the Bat Demon in terms of space could not compare to Lin Yan at all. He could not even escape!

The two Demons were instantly surrounded by a sea of flames!

“The aura of the Heavenly Realm’s Divine energy, you are not the Abyssal Demon God!”

Sensing something, the Long-Nailed Demon roared out. However, its voice had long been locked down and could no longer be transmitted out.

“Who told you that I must be the Abyssal Demon God?”

Lin Yan’s cold voice sounded.

“Roar! Don’t even think about killing me!”

The Long-Nailed Demon was terrifyingly powerful. Even though it was surrounded by flames, its expression did not change. It shrunk its body and leaped out of the flames with all its might.

“Go die!”

The Long-Nailed Demon opened his mouth and spat out a pitch-black pearl. The moment this pearl appeared, it exploded.

Soon after, large amounts of space collapsed, and Lin Yan’s flames were torn apart by these collapsed spaces!

“It has such a treasure!”

Seeing this, the Bat Demon, who was bitterly resisting the flames, was overjoyed! The Bat Demon flapped his wings and was about to fly out of the range of the flames. However, before it could fly into the sky, the flames below it erupted again.

Space shook once more.

This time, the flames were exceptionally terrifying.

What was even scarier was that within the flames, the Bat Demonic God could feel an aura that caused his heart to palpitate.

“This is...”

Then, the Bat Demon was completely engulfed by the flames.

With the support of a large number of energy laws, the flames broke through the layers of defense around the Bat Demon?God?and burned his true body.

Even the layers of isolated space that the Bat Demon had laid down were useless.

“Ah, Long Nailed Demon, save me!”

The Bat Demonic God let out an earth-shattering?roar!

Even though the strongest part of the Abyssal Demonic God was his own body, under the burning of the flames, the Bat Demonic God felt as though a catastrophe was imminent.

The Bat Demonic God finally realized just how difficult it was to fight against the flames.

This was not as simple as the flames released by other powerful existences.

Other existences used flame as their means of attack. They could dodge or defend.

However, the Lord of?Flame had so many methods. He was even able to activate space?rules, unable to dodge, and unable to defend against them.

In fact, even the Bat Demon Gods could not imagine how effective they could be against such flames.

Under the explosion of the flame, the space?collapse caused by the explosion of the pearl was directly fused by the flame, not causing any damage to the flame.

The Long-Nailed Demon’s eyes narrowed as he saw boundless flames once again appearing around him.

“Today is the day when the Demons fall!”

Lin Yan’s ice-cold voice sounded within the flame.

Chapter 339: Godhood shattered! The collapsing Bat Demon God!

“Everyone, use your strength to resist the heat!”

Natasha’s voice came from the sky.

Next, Natasha took the lead and poured out her strength,?and?lowered?the surrounding temperature.

However, the range of the tens of millions of Succubus’ army?was too fast. Even if she was a Demon King, she would not be able to protect the entire Succubus.

Fortunately, there was Princess Barbara!

Princess Barbara also protected?a group of Succubus.

The Succubus also defended.

The other Succubus, strong or weak, all released energy to lower the surrounding temperature!

In the sky, the temperature of Lin Yan's flame was too high.

It was even much hotter than the center of the star!

Even from such a distance, the Abyssal creatures on the ground were still roasted and melted.

Yes, melting!

In the Mobis Abyss, the countless minions were melting under the scorching heat.

Then, flames began to rise!

The entire ground turned into a sea of flames.

Even the ground began to melt!

A battle between gods was just as terrifying to ordinary life forms!

It wasn't just the battle between gods that destroyed the Continent of Gods, countless years ago; it was precisely because of this.

In the sky, the Demon castles of the three dynasties had already completely melted, turning into lava that fell from the sky.

The most elite Demons of the three demon dynasties flapped their wings and prepared to fly there.

However, they soon discovered that the space on the battlefield had been destroyed by the pearl of the Long Nailed Demonic God, and then by the collision of the space rules of Lin Yan. It had long become extremely chaotic. Only a few powerful existences among them were qualified to escape!

Fiends who couldn't escape could only come to the ground and gather together, using their power to resist the heat bitterly.

"What a terrifying flame!"

The Demon Bat King's eyes narrowed when he landed on the ground.

"I wonder if the Bat Demonic God will be able to block such flames!"

The Demon Bat King's eyes were spinning as he wondered if he should flee right now.

The battle between demons usually lasted for quite some time. It would not be decided so quickly.

Unless the difference in strength was too great, for example, a battle between a first-ranked ordinary Demon God and a second-ranked Great Demon God would end in a very short amount of time.

However, the Demons were all smart. Ordinary Demons of the first rank did not have absolute confidence. They would not be willing to provoke the Great Demons of the second rank!

The Great Demon God of the second rank would not provoke the God of the third-ranked for no reason!

On the other side of the Demon Bat King, the Long-Nailed Demon King and the Winged Demon King did not flee. Instead, they used their power to protect their Demon army while observing the movements in the sky. They were all waiting for an opportunity to move.

In the endless skies above, the flames rapidly penetrated into the body of the Bat Demonic God.

The Bat Demon God was in utter panic!

There was a large amount of devilish substance in its body. The reason it was called devilish substance was that it corresponded to the Divine substance of the Heavenly Realm.

Many of the Divine substances of the gods of the Heavenly Realm were gathered from the sun that hung high above the Heavenly Realm. Many of these Divine substances gushed out from the center of the middle sun, and they would not melt even in a high temperature of tens or even hundreds of millions of degrees.

Quite a few magic substances were the same. High-temperature resistance was just a basic operation.

It was extremely difficult to destroy.

The gods of the Heavenly Realm liked to use Divine substances to build their armor and weapons, but their Divine bodies still maintained their flesh and blood.

After all, many of the gods of the Heavenly Realm had evolved from humans.

Moreover, the gods of the Heavenly Realm preferred to use energy to fight. After the Divine substance merged into their bodies, it would cause some obstacles to the flow of energy.

As for the Abyssal Demon God, he preferred to fuse directly the demonic substance into his body.

That was why one rarely saw the armor-clad Abyssal Demon Gods because the hardness of their Divine bodies exceeded most of the material in the world.

Their Divine bodies were quite formidable.

However, no matter how strong it was, it would still be difficult for Lin Yan to withstand the flames.

In reality, when dealing with flames, the Heavenly Realm Deity's methods were a little better than the Abyssal Demon God's.

Assuming that the body of the Bat Demon was composed entirely of demonic substances, perhaps Lin Yan wouldn't be afraid no matter how much he burned.

However, the problem was that within the body of the Bat Demonic God, there was only a small amount of such demonic substance. It only accounted for a few percent of the total.

Demonic substances were rather rare. How much would a first-ranked Demon like it gather?

This hypothesis was not true!

That was why even though the body of the Bat Demonic God was incomparably powerful, it was still melting in the face of the flames that Lin Yan was unleashing with his godly power!

The Bat Demonic God's panicked cries shook heaven and earth. It was still trying to escape, but it could not escape at all!

This was the difficulty of space rules.

Even though the attainments of the Bat Demonic God in terms of space were not low at all, they were far from being able to compare to Lin Yan!

“Long spike, why?are you?still standing there!”

The Bat Demon God roared out.

Not far from it, the Long-Nailed Demon shrank down and used his body to resist the erosion of the flames.

It was the strongest of the three Demons.

The weakest of them was the Bat Demon!

However, the Bat Demon was well-versed in the laws of space and possessed decent means of escaping.

Unfortunately, today, its escape methods were ineffective!

Hearing the roar of the Bat Demonic God, the Spike Demonic God roared out as well.

It was also a muddy Bodhisattva that had crossed the river, unable to protect itself!

After its Divine body shrank, its defense increased greatly.

Even with tens of thousands of times the microscope, not a single crack could be seen on the surface of its Divine Body!

Such a Divine Body could effectively prevent the flames from burning.

But the Long-Nailed Demon could only protect himself.

There was another important reason why it was able to protect itself.

That was Lin Yan’s full strength against the Bat Demonic God.

To activate the Laws of Space required a large amount of Divine energy.

Right now, Lin Yan was driving not only the Laws of Space but also the Laws of Destruction and the Laws of Flame. In addition, Lin Yan had also ignited his Divine energy, causing his flames to burn even brighter.

The consumption of his energy points was also terrifying.

Every second, the consumption was tens of millions.

Of course, to burn a Demon God was a huge gain!

“Not enough, not fast enough!”

Lin Yan whispered.

He did not like to drag it out.

The body of the Demonic God was indeed strong. According to Lin Yan’s estimation, even if it continued to burn like this, it would still take a month to burn completely the Bat Demonic God!

The Divine Body was one of God’s greatest reliance, and it was not that easy to destroy.

A thousand years ago, the true strength of the Succubus race was far inferior to the three Demons. Even though they were heavily injured, they still managed to escape. Their injuries were too severe

before they ended up dying. It was because of bodies. Otherwise, they would not have been able to escape.

“Bat Demon, go all out. I can’t save you!”

The Long-Nailed Demon roared.

When the Bat Demonic God heard the voice of the Long-Nailed Demonic God, he gritted his teeth and spat out a pitch-black pyramid!

The moment the Pyramid appeared, even the Abyss of Mobis felt cold.

Godhood!

This guy spat out his godhood!

The Pyramid grew larger and larger, filling the Bat Demonic God within.

That’s right. The Bat Demon had chosen to use his godhood to protect him at a critical moment.

A Divine Spark was something stronger than a Divine Body.

However, Godhood was the true core of a God.

If it wasn’t for the fact that he was at the end of his rope, a God couldn’t reveal his godhood.

The risk was too great.

But now, the Bat Demonic God was forced to spit out his godhood.

However, the effect was quite obvious.

The Pyramid of godhood instantly blocked the flames around the Bat Demonic God.

Its godhood was indeed powerful!

Fifth-ranked godhood was not weak!

As for the flames inside the godhood, they were quickly extinguished by the Bat Demonic God’s Divine energy as they did not replenish their strength.

The Bat Demonic God activated his godhood and was about to force his way out of this place.

This move was very fast. The moment the godhood appeared, the entire godhood was activated.

At most one second, it could use its godhood to protect him and charge out of this place.

Although this move was risky, its effects were obvious.

Just as it was about to flee, another aura rose.

The Bat Demonic God was shocked, “It’s over! How could I have forgotten about this incident?”

After that, it saw another Pyramid with a terrifying aura slam into it.

Under the impact of LVL 15 godhood, its godhead made a cracking sound before it lasted for a short while.

Large amounts of cracks appeared just like that, and it was about to shatter!

The Bat Demonic God had collapsed!

Chapter 340: Demon God Falling! Upgrade: Endless Flame!

The fifth-ranked Godhood was indeed powerful.

However, the difference between an LVL 5 godhood and an LVL 15 Godhood was not a small one.

The collision of two Godhoods was the most dangerous.

However, this sort of danger was only the danger of the Bat Demonic God.

Under the violent collision, the godhood of the Bat Demon God did not even last for a moment before cracks appeared.

On the outside of Godhood, the laws began to become chaotic, and the sea of Divine energy created waves. The inside had become a mess!

But this did not end.

A second collision followed.

“It’s over, it’s over!”

The Bat Demon God was filled with despair.

However, despair was useless.

In the blink of an eye, Lin Yan’s fifteenth-ranked Godhood charged forward and smashed the Godhood of the Bat Demonic God into pieces!

The Bat Demon God seemed to have heard its Godhood making a crisp sound.

It was a voice that was even more pleasant to hear as compared to the glass being broken.

But such a voice was something that it would rather never hear!

Once the Divine Spark was shattered, all of the laws that formed, shattered and turned into a large number of fragments of laws that scattered in all directions.

The flames surged up once more and instantly captured the fragments of the laws.

At the critical moment, the Bat Demon God opened his mouth and sucked in all the Divine energy from the sea of Divine energy. But its movements were a little slow.

The flames had already spread out and burned within the sea of Divine energy.

“My Divine energy!”

The Bat Demonic God collapsed once more.

Even though the Abyss Demon God’s body was incomparably powerful, this did not mean that his Divine energy was useless.

On the contrary, without Divine energy, their Divine bodies couldn’t continue to grow stronger.

Divine energy was fundamental to every single Deity.

The strength of a Divine Spark required Divine energy as well.

The activation of the laws also required the consumption of Divine energy.

In addition, without Divine energy, he would never be able to become a Sovereign.

But now, the Bat Demonic God had made a wrong decision and released his Godhood. After being smashed by Lin Yan's LVL 15 Godhood, his Divine energy had also been wiped out by Lin Yan.

The Bat Demonic God's heart ached!

That was the Divine energy that it had used up for countless years to accumulate. At that time, it had been completely burned by Lin Yan!

If it were any longer, it would not feel any heartache.

Because the flames once again spread to its Divine Body.

The heart of the Bat Demonic God was filled with endless despair and regret.

If he knew earlier, even if the Bat Demon Dynasty was annihilated, it wouldn't descend at all!

Wasn't it better to hide within his kingdom and enjoy endless life?

Why was he greedy!

At the same time, it also hated him.

He was so strong, so why didn't he look for the protection of those powerful fiendish races? Instead, he chose the weakest Succubus race, so that the three of them made a wrong decision!

The Bat Demonic God was once again engulfed by the flames.

This time around, without Godhood, the defense of the Bat Demonic God's body had dropped a lot.

"This should be faster!"

Lin Yan's low voice sounded within the flame.

At the same time, he ignited his flames with the Divine Energy of the Heavenly Realm and the Divine Energy of Chaos and then injected over a hundred million energy points at once.

His flames instantly increased many times.

The body of the Bat Demonic God began to melt rapidly.

Within the flames, the miserable cries of the Bat Demonic God reverberated through the entire space, causing everyone's expressions to change.

On the ground, tens of millions of Succubus stared blankly at the sky.

Today, they had witnessed the death of an Abyssal Demon God!

Even though the war between the Demon Gods continued in the Abyss, and the Demon gods had fallen from time to time, many Demons never saw the death of a Demon God!

And now, they saw it with their own eyes!

The Abyssal Demon, the God of the Bat Demon was burned to ashes by the powerful Lord of Flame! Not even his ashes were left!

If it was any other substance, it would more or less leave behind many useless things.

For example, Ash.

But his Divine Body didn't.

After his Divine Body was completely burned out, he truly did not have any ashes left.

This was because every cell in the Divine Body was useful and could be fully burned into energy points.

In addition, during the process of burning, Lin Yan was analyzing the constitution of his Divine Body.

This was also one of Lin Yan's goals in targeting these three Abyssal Demonic Gods.

Analyzing the constitution of a Divine Body did not mean that the slower the burning, the better.

Lin Yan could better analyze the characteristics of this Divine Body while it was burning.

Naturally, there was no need for Lin Yan to complete all of this. His Godhood already worked for him.

Godhoods were extremely useful, it was almost omnipotent.

If Godhood was treated as a computer, even a planet-sized computer might not be as powerful as godhood.

Of course, the usage of different godhoods was different.

Not every God could make good use of godhood.

Many gods preferred to use their godhoods to fight. Usually, they would use their godhoods as an energy hub. They believed in binding weapons, which was far different from what Lin Yan had developed.

Well, they couldn't be blamed for this.

Their godhoods probably weren't as useful as Lin Yan's.

Lin Yan's godhood was converted from his virtual godhood.

As for the godhoods of other gods, they were slowly constructed by him. The functions of the godhoods were also what these gods needed to construct.

Of course, ordinary godhoods had a certain amount of calculation and analysis ability, but those gods did not pay too much attention to them.

After the Bat Demonic God was completely burned out, a large amount of Divine Body data appeared within Lin Yan's godhood.

In addition, Lin Yan had also collected a large amount of matter that could not be burned.

With his current terrifying temperature, he was still unable to burn these substances. The toughness of these substances could be seen as ordinary!

“Is this a magical substance?”

Lin Yan put away the materials and put them into his storage space.

This was a good thing.
