

Flames 341

Chapter 341: Demon God Falling! Upgrade: Endless Flame!

Lin Yan looked at the system panel. He had burned down the Bat Demonic God. The evolution points were extremely terrifying and could already reach the next rank. As expected, the Demonic God himself was Lin Yan's greatest gain in this battle.

Lin Yan's gaze swept over the Spike Demon God who was struggling to resist the flames. For the time being, Lin Yan ignored it and directly chose to rank up. He was now a tenth-ranked destructive flame.

"I wonder what's behind the flames of destruction."

Lin Yan thought.

Then, he found out.

The realm behind the Destruction Flame was the Endless Flame!

Lin Yan looked at his panel.

[Host: Lin Yan.]

Core Flame Rank: Endless Flame (First Rank).

Number of layers of flame: 48

Maximum temperature: 200W

Evolution point: 18W

Energy point: 2.5WY

Current income: 2kWh/s (floating)

Current consumption: 0.5kWh/s (floating)

Skills: Berserk Burning, Detecting Eye, Continuous Burning, Healing...

Characteristics of Heavenly Flames: Lava Flame, Cold Flame, White Flame, Explosive Flame, Ice Flame, Bone Cold Flame, Abyssal Demon Flame, Black Flame, Obliteration Flame, Holy Flame, Evil Flame

Rules: Flame Rules (100%), Space Rules (100%), Forging Rules (100%), Life Rules (100%), Destruction Rules (100%), Slaughter Rules (12%)

Title: Flame of Civilization LVL 7, Flame of Laws LVL 5, God's Curse LVL 1

[Others: N/A]

After rising to the Endless Flame, Lin Yan would be able to reach a terrifying temperature of two million degrees.

Under such a temperature, only the materials of the Heavenly Realm or the lowest layer of the Abyss could withstand it.

As for Lin Yan, if he was to unleash his berserk flames, the temperature would become even more terrifying. Only his Divine Body would be able to withstand it.

Of course, on the Divine rank, the temperature was not enough to solve everything.

However, it was not just the temperature that Lin Yan possessed.

“What’s the difference between the Endless Flame and the Flames of Destruction?”

Lin Yan whispered.

Soon, he found out.

After rising to the Endless Flame, the temperature increase was the most obvious.

Other than that, the rules he had grasped had also improved in all directions.

Even the killing laws that were only about 3% in the battle of gods became 12% from 3%.

As Lin Yan gained more skills, these skills became even more powerful.

In addition, the greatest benefit of the Endless Flame was that it had truly activated the mode of unlimited ranking.

As long as there were some evolutionary points, Lin Yan would be able to rank up continuously.

There was another change.

That was because Lin Yan had obtained the title of a God’s nemesis.

Lin Yan gave this title.

This title was only first ranked. After reaching the highest rank, it could not bring Lin Yan a law.

But it had one of its greatest uses.

That was to allow Lin Yan to increase the damage that Lin Yan’s flames would do to the gods when he fought them.

“This title is not bad.”

Lin Yan said to himself.

Now that Lin Yan had risen to the rank of a God, this title came at the right time.

After reading through his changes, Lin Yan turned his gaze back to the Spike Demon God.

Since Lin Yan gained so much by burning the Bat Demonic God, Lin Yan naturally would not let the Spike Demonic God go.

After burning the Nailed Demon God, Lin Yan would have a better understanding of the Divine Body.

This time, Lin Yan prepared to burn slowly.

The Spike Demon God’s attainments in space were far inferior to the Bat Demon God’s, and the possibility of escaping was extremely low. Lin Yan planned to use it to study properly the secret of material and energy conversion.

Lin Yan puffed up the flames and charged them towards the Spike Demon God.

The face of the Spike Demon God changed drastically because it felt that the flame that it had been able to block earlier had become harder to block.

“I’m willing to submit!” The Spike Demon made a sound.

“It’s too late, I prefer to burn you.” Lin Yan said calmly.

The flames burned.

Immediately after, ice flames appeared on the penultimate layer of the flame.

The temperature of the flame suddenly dropped.

On the battlefield in the middle of the Abyss, the servant Demons of the Three Dynasties were almost dead, leaving only some powerful servants alive.

That place was looking like a magma land just like Lava Abyss.

All the Demons heaved a sigh of relief.

“My God has passed down an order to destroy them!”

Natasha no longer needed to use her strength to protect the succubuses. She gave the order coldly and attacked the three Demon Kings first!

“I’ll deal with the three of them. Barbara, you deal with those demons!”

Natasha said.

She wanted to fight three against one!

In the Mobis Abyss, the flames in the sky were still burning.

The roar of the Spike Demon God was blocked by Lin Yan.

On the ground, the battle was particularly intense.

Natasha fought three against one, but she was forced to retreat!

The Succubus army was like a rainbow, they were fighting the demons and the remaining powerful minions.

Especially in the Succubus Legion, there was also a Demon King Barbara.

The Demon Army of the three dynasties was destroyed at a terrifying speed.

The three Demon Kings fought Natasha while they were trying to escape from this area.

However, it was not easy for the Demon Kings to escape from this area. How could they escape?

As for them, they were at a disadvantage with three against one. It was not necessarily related to their lack of fighting spirit.

Even the Demon God was defeated and felt how they could dare to fight with their hands and feet!

Finally, Natasha seized the opportunity and heavily injured the Demon King.

“Demon King, a thousand years ago, you defeated the King of Succubus. Today, your Bat Demon Clan will be removed from the Mobis Abyss!”

Chapter 342: Recaptured the Mobis Abyss! The Fallen God Abyss!

Natasha's words reverberated throughout the battlefield!

All of a sudden, countless Succubuses looked up at her.

Under the eyes of the Succubus, Natasha raised her sword.

She still looked extremely weak, unlike the Demon King, who was full of power.

That was also the key that the Succubuses were the weakest among demons.

The body of the succubus was more human.

And Demons were different. Every Demon was very powerful from the innermost layer of bones to the outermost layer of skin.

The effect of blasting them with magic was not good.

On the Continent of Gods, they were suppressed by the laws of the Continent of Gods, so they were relatively easy to deal with.

However, in the Abyss, they had complete strength, and all of them were quite difficult to deal with.

However, Natasha had broken this point.

Even if she did not use the power of the Lord of Flame, she could still completely suppress the Demon King.

Under the gaze of countless Succubuses, Natasha slashed down.

The oldest Demon King of the three dynasties, the Demon King, was led by Natasha!

The Demon King of this generation died!

Normally, it caused a huge shock, causing countless Demons to exclaim.

But now, the death of the Demon King did not cause too much shock!

Even the Demon God had fallen.

What was so strange about a Demon King dying?

These Demons were already numb, and now they only wanted to escape from this area.

And then they would leave the Abyss of the Demons forever!

Everything that happened today was a nightmare for them!

However, to the Succubuses, the death of the Demon King was still of great significance.

This meant that the Succubus had already taken a crucial step on the path of the Mobis Abyss!

"All Succubus, attack with all your strength, let's take back the Mobis Abyss!" After Natasha killed the Demon King with one sword, her voice once again spread throughout the battlefield.

With the power of her killing the Demon King, the succubus on the ground were immediately infected by her words. Tens of millions of Succubuses swarmed the Demon Hunter Ants, and the entire Succubuses that could fly flew into the sky to fight the Demons!

Under normal circumstances, even if all the Demon servants of the Demon Army were wiped out, they would still be able to fight.

In the eyes of the Demons, the minions were nothing more than cannon fodder. It was used to exhaust the opponent's strength.

In addition, the Demons were very conceited, all of them were claiming to be noble.

A noble Demon would naturally not attack if they could not.

They could make countless minions work for them, and their strength was far stronger than these minions.

However, under the full force attacks of the Succubus, these Demon armies almost collapsed.

They did not have much fighting spirit.

Fighting the Succubus, so what if they won?

One of the Demon Gods had fallen, and the other was on the way.

One of their Demon kings had also died, while the other two were also on their way.

If they didn't take advantage of the fact that the tall ones were on top of it to escape, when they had killed all the tall ones, it would be their turn.

Therefore, the Demons scattered and fled.

There were too many Demon armies, and although this space was in chaos, there were still some places to go.

Some of the stronger Evil Demons had escaped by mistake.

"They found the exit, escape!"

In the sky, the Winged Demon King, who had been beaten to death by Natasha, saw some escaping demons. He threw down the Long-Nailed Demon King that was struggling to hold on, flapped his wings, and rushed there.

There was indeed an exit.

When many powerful demons discovered it, they rushed over and rushed out of the area of the Battle of the Sacrifice.

"Wing Demon King, you....."

The Spike Demon King didn't expect that the Winged Demon King would escape alone. He couldn't hold on any longer.

Natasha seized the opportunity and chopped off the wings of the Spike Demon King.

As soon as the Spike Demon's voice rang out, it was surrounded by Evil Flames.

The Winged Demon King's speed was extremely fast. Even though the exit was hundreds of kilometers away from it, it quickly appeared before its eyes under its full strength.

In the back, Natasha was dragged on by the Spike Demon King for quite some time. He could not catch up to it.

“As long as the Demon God doesn’t attack, I can escape!”

The Winged Demon King thought.

Under normal circumstances, the Demon God rarely attacked the Demon King.

The Winged Demon King saw hope.

Close, close.

A large number of Demons had gathered before the exit.

“Get out of the way!”

Like a meteorite, the Winged Demon King crashed into the pile of Demons and sent the Demons flying.

No matter how powerful a Demon King was, the effect of its impact was like the effect of a bullet hitting tofu.

Then, it crashed into the exit.

“We’re finally out!”

The Winged Demon King was delighted.

And then...

The Winged Demon King looked up and saw Natasha not far away.

“Ah... Why did I come back?”

The Winged Demon King collapsed!

The space was in chaos again. The exit had disappeared. The result of its collision was that it had returned! The reason for this effect was because the space there was connected to the space here.

It looked like two different places, but it was one place.

This was the effect of space disruption.

That was why so many demons were trapped in this area.

Disordered space was one thing, but it was still alive. The Winged Demon King flew to Natasha’s surroundings.

The Winged Demon King quickly flapped its wings and stopped. Otherwise, with its speed, it would have hit Natasha’s sword.

“Run, find another exit!”

The Winged Demon King flapped its wings again and fled into the distance.

This battlefield was huge.

And its speed was fast.

The Demon Kings of the three Demon Dynasties each had their regions.

Chapter 343: Recaptured the Mobis Abyss! The Fallen God Abyss!

The Spike Demon King's strongest Demon body was in contact with the rules of power. It was the strongest Demon King.

The Winged Demon King was good at speed, and it came into contact with speed-related rules. Its flying speed was terrifying.

The Demon Bat King was also good at speed, but the Demon Bat King was in touch with the rules of space. This was a relatively difficult rule to deal with. However, no matter how difficult the rules were, if they didn't have a direct ability, their combined combat strength wouldn't be too strong.

Furthermore, it was not easy to grasp the rules of space to a profound rank. This was also the reason why the Demon Bat King was the weakest.

The three Demon Gods were the same.

The Spike Demon God was quite powerful.

When its Divine Body grew larger, it could even lift a huge Abyss by driving the power rule.

A middle-ranked Abyss could be shattered.

The strength was terrifying.

However, its best method was that it did not have a good way to deal with life forms like flames. Therefore, the Spike Demon could only scream in pain from Lin Yan's burning.

In the sky, Natasha did not chase after the Winged Demon King when she saw him run away again.

She was not good at speed, and the Winged Demon King no longer needed to be dealt with by her.

Natasha rushed towards the escaping Demon army.

With her Demon King-ranked strength, she was able to attack the Demon army. Needless to say, the Demon army was powerless.

These Demons were quite smart and did not gather together.

With the size of the battlefield, even if there were tens of millions of Demon armies separated, they would still appear sparse.

Therefore, there were still quite a few surviving Demon armies.

However, as Natasha joined the battlefield, along with Princess Barbara, the two Demon King-ranked Succubuses and a large number of legendary-ranked Succubus chased after them. The Demon army quickly lost its members.

"She didn't chase me!"

When the Winged Demon King saw that both Natasha and Princess Barbara had given up on chasing it, he could not help but be delighted.

"Do you know you can't catch up to me?"

The Winged Demon King could not help but feel proud of his speed.

The advantage of being good at speed was that if he couldn't beat her at least he could still run away, making it impossible for others to catch him. They could only watch him run away.

"Today, we'll leave the Mobis Abyss and find a layer of Abyss with Winged Demons to hide."

The Winged Demon King was planning.

As for its Winged Demon Army, there was probably nothing left.

However, there were countless demons in the Abyss, and Winged Demons were not limited to the Mobis Abyss. As long as it could escape, it would not be difficult for it to gather another Winged Demon army.

In this scheme, the Winged Demon King was looking for an exit at the edge of this space.

"Found it!"

The Winged Demon King finally found a smaller exit and then went straight for it.

Just as it was about to dive out, a pitch-black claw appeared in the endless sky and grabbed the Winged Demon King.

The speed of the claw was too fast. The Winged Demon King was caught by the claw before it could react.

The Winged Demon King was instantly stunned!

When it came back to its senses, it saw an existence with a terrifying aura all over its body staring at it coldly.

"Demon...?God!"

The Winged Demon King did not expect that the one who caught it was the Winged Demon God of the Winged Demon Clan!

Winged Demon God!

The Winged Demon God only gave the Winged Demon King a chance to take a look. Then, it pinched its claws.

The Winged Demon King was crushed like a balloon.

Until death, the Winged Demon King did not understand why the Winged Demon God would kill him.

In the endless sky, after the Winged Demon God killed the Winged Demon King, it casually threw the Winged Demon King away. The expression on its face did not change at all, as if it had just stepped on an ant.

Then, it continued to lie on the ground and its heart was trembling as it looked at the sea of fire in front of it.

It did not dare to escape.

Even the Bat Demon God who controlled the rules of space and activated its Godhood did not escape. How could it escape?

Under the blockade of space, the Winged Demon God's speed would not be able to escape unless it increased by a few ranks and reached the true speed of the world.

Winged Demon rejoiced that his intuition was right.

This Lord of Flame wasn't outside.

It wasn't Godhood.

It was impossible for the Divine Spark he had picked up to possess such power.

Godhoods were not easy to pick up.

The Heavenly Demon God did not fall that easily.

If a fifteenth ranked Heavenly Demonic God were to fall and his godhood was picked up again.

In that case, that person would most likely become the chess piece of this Demonic God.

A Demonic God's godhood didn't have any backing, so it was impossible.

Whoever picked it up was?unlucky.

That kind of the story of picking up godhood and becoming a God was not fake. However, the person who became a God probably had his consciousness replaced, or mixed with other things. It was not entirely him.

The backhand that was equivalent to a God had returned in this way.

It wasn't that he wasn't lucky enough to find pure godhood that didn't involve himself in any schemes, but the chances were too low.

The Winged Demon God could only hope that the Lord of Flame would let it go.

Right now, it didn't dare to act rashly.

Below the ground, the body of the Winged Demon King fell and landed near Natasha.

The Winged Demon God seemed to throw it casually, but it was not truly casual.

Natasha turned the Demon King into ashes.

Then, she continued to chase after the Demons.

This pursuit lasted for a full week.

During this week, the flames in the sky were still burning.

However, the surrounding space had gradually returned to normal.

Under the influence of the laws of space, which were even more profound, space had an extremely good recovery.

Of course, the premise was that there was no other God that could destroy the space?laws.

There were still quite a few demons who had escaped, and there was nothing they could do about it. The battlefield was too large, and it was impossible to kill them all.

A thousand years ago, the Succubus Dynasty had been defeated so miserably, yet many Succubuses had escaped.

However, these Demons had already cast a shadow over the Abyss. They would not dare to return to the Abyss for the rest of their lives.

They did not dare to become enemies with the Succubuses anymore.

Through them, news of what had happened in the Abyss had spread and it caused quite a stir in many Abysses.

The Mobis Abyss had become another Abyss in which two Demon Gods had fallen.

It was also one of the Fallen God Abyss!

At this point, the Succubuses had become the absolute ruler of the Abyss!

Natasha's ambition to regain the Mobis Abyss had become a reality!

Chapter 344: Kingdom of God! The Elven goddess of tea and food!

In this area between the Three Dynasties, the ground that had melted began to cool down.

Lin Yan covered the penultimate layer of the flames with ice flames that absorbed the heat of the entire Abyss.

Of course, there was still a terrifyingly high temperature inside the flames.

This week passed, and the Long-Nail Demon was completely burned.

In Lin Yan's Divine Spark, there were many more Divine Body data.

Of course, the data of these bodies belonged to the Abyssal Demon God Body.

Although the Divine Body of the Abyssal Demon God was not the same as that of the gods of the Heavenly Realm, there was no small reference.

After burning the Long Nailed Demon Abyss to the ground, Lin Yan raised another rank.

Now, he was a second-ranked Endless Flames.

Then, Lin Yan turned his gaze to the Winged Demon God.

Sensing that Lin Yan was staring at him, the Winged Demon God could not help but tremble.

"Great Heavenly Demon God, I am willing to submit to you and serve you forever. Please let me live."

The Winged Demon God crouched in the sky and said in a low voice.

Lin Yan's faint voice sounded:

"Take me to your Kingdom of God."

"The Kingdom of God?"

The Winged Demon God only hesitated for a moment before saying, "Please open the spatial seal, Heavenly Demon God."

After saying that, the Winged Demon God saw a pitch-black flame flying towards him.

“Swallow it.”

Lin Yan said.

Without any hesitation, Winged Demon swallowed the flame.

As soon as the flame entered the Winged Demon God’s body, it reached its heart.

The heart of a Demon!

If one were to say that Godhood was the energy hub of the Winged Demon God.

Then the heart of the Demon was the core of the body.

Gods were hard to kill. In the Abyss, not every battle between gods could be resolved as quickly as the battle between Lin Yan and the three Demon gods resolved.

Even if a Demonic God died, as long as his Godhood was still alive or his heart was still alive, he could revive and return.

Normally speaking, if Godhood was broken, this Demon God’s strength would drop, but it wouldn’t die.

However, if his heart shattered, there was a high chance that this Demon God would die.

Even if this Demonic God left a few wisps of consciousness on his godhood, it would be useless if these wisps of consciousness could exist for a long time.

Therefore, as soon as the flame that Lin Yan released reached the heart of the Winged Demon, the Winged Demon’s life and death were already in Lin Yan’s hands.

Only then did Lin Yan activate the space?laws and open the spatial seal.

Only then did Winged Demon stand up and tear open a tunnel.

“Please follow me, Heavenly Demon God.”

Winged Demon entered the tunnel.

Lin Yan also entered.

After entering the tunnel, it was a dark place.

After arriving at this place, Winged Demon opened another tunnel and turned around.

After several rounds, an enormous kingdom appeared in Lin Yan’s field of vision.

The Demon Gods of the Abyss were indeed cautious.

Lin Yan had calculated that the Winged Demon God had opened a total of fifteen tunnels from the Mobis Abyss to the?Kingdom of the Winged Demon God.

He had transferred fifteen times.

Such a large number of transits could eliminate the traces to the greatest extent and avoid being tracked to its Divine Kingdom.

This was also the path of survival in the Abyss.

In the Abyss, the better the Divine Kingdom hid, the longer a Demon God would live.

Winged Demon God's Divine Kingdom was very large.

There was still chaos in the Divine Kingdom.

Countless creatures were fighting.

These living beings were fighting against each other endlessly.

On the other hand, once a living being died, it wouldn't be long before they would once again stand up from the turbid pool at the center of Divine Kingdom and join the battle.

This cycle was endless.

After Lin Yan arrived at this Divine Kingdom, he spread out flames in the sky to observe this Divine Kingdom.

On the Divine rank, what he saw was not as simple as what ordinary people saw.

What Lin Yan was analyzing was the composition of the entire Divine Kingdom.

He observed a large amount of rare and special substances. These substances might have been collected from the bottom of the Endless Abyss.

It could have been collected from the Abyss.

Inside, Lin Yan saw quite a few demonic substances.

Then, it was the laws that penetrated the entire Divine Kingdom.

These rules were the rules that every Demon God grasped. Of course, at the lowest rank, there were still the basic rules that supported this world.

The entire Divine Kingdom was the embodiment of the power of a Demon God.

In the Kingdom of the Winged Demon God, there were a lot of chaotic rules woven. Because of the existence of these rules, the entire kingdom was in chaos. The evil aura in the Divine Kingdom was overwhelming, a hundred times denser than any Abyss.

If a Deity from the Heavenly Realm came here, they would feel uncomfortable if they didn't want to stay here for a whole day. They would want to exterminate this place.

But for the Abyssal Demon God, this was the most ideal residence.

Lin Yan started to analyze it.

Beside him, the Winged Demon God stood there quietly, motionless, afraid to disturb Lin Yan.

However, it was also curious.

He was curious about Lin Yan's form.

However, it did not dare to show any curiosity. It was afraid that it would anger Lin Yan and lead to death.

After Lin Yan left, the Succubuses began to clean the battlefield in the depths of the Mobis Abyss.

The three dynasties were destroyed.

After some of the Demons of the three dynasties escaped and brought out the news of the battlefield, the faces of the remaining Demon Gods in the Abyss changed drastically. Thus, in just a few days, none of the Demon Gods remained.

The battle was so intense that even two of the Demon Gods had perished. They?did not know whether the other Demon God was alive or dead, and three of the Demon Kings had died. If they stayed in the Mobis Abyss, wouldn't they be courting death?

Once the Demon Gods retreated, only the Succubuses were?left in the Abyss.

They also had a large number of Demon-Hunting Ants.

“Clean up the battlefield as soon as possible and issue a call to the entire Succubuses in the middle-and upper Abyss. We want to build a new Succubus Dynasty.”

Natasha gave the order.

Then, under her urging, a black Pyramid was built at the very center of the Mobis Abyss.

This pyramid was equivalent to something like a Temple in the Continent of Gods.

It was also equivalent to a collector of Dark Faith.

Of course, Lin Yan did not use this Pyramid.

However, Lin Yan did not stop Natasha from the building.

Around the Pyramid, a large number of Demon Castles were built by the Succubuses.

Every Succubus was building his?own home.

This was the home they had regained.

From now on, they no longer had to live in the middle-and upper Abyss like before.

And all of this came from the Great Lord of Flame.

All of a sudden, even though the Succubuses were the most ruthless Demon, they were grateful to the Lord of Flame.

Every Succubus was addressed as a servant of the Lord of Flame.

Of course, the real servants of the Lord of Flame were only the Demon King Natasha and Princess Barbara.

That was a great honor!

“I don't know what Master is doing.”

Princess Barbara, who was personally supervising the construction of the pyramid, felt a little disappointed.

She had been expecting her master to say something to her, but her Master did not.

The Master left directly.

Princess Barbara couldn't help but be curious about what her Master was doing.

Princess Barbara did not know that she was not the only one who was curious.

“I wonder what he’s doing now.”

The Divine Kingdom filled with Holy Light and beautiful fairies were flying everywhere, the Elven goddess poked her head out of the white clouds and placed her chin on her arm.

As she thought about it, she became fascinated.

“It’s over, it’s over. Why did I think of him again? I almost forgot about business.”

After thinking for half a day, the Elven goddess blamed herself.

Then, she tilted her head slightly and moved her sharp, cute ears.

“Fortunately, I didn’t miss anything important.”

After a few minutes, the Elf Goddess let out a sigh of relief.

She would listen to the prayers of the believers regularly, and recently, she had an important thing to do, which was to help the Lord of Flame watch over the Holy Flame Forest.

What surprised the Elven Goddess was that she received a lot of power of belief.

The power of belief did not seem to affect the Lord of Flame’s benefits.

That was why the Elven Goddess worked so hard.

The Elven Goddess finished her work, took out another book, and read it with relish.

However, after looking at it for a while, the Elven Goddess’s eyes drifted away. She thought of the charming aura she felt in the Lord of Flame’s soul when she came into contact with him.

She thought about it for several hours.

Then she realized it.

“Oh, here it comes again!”

The Elven Goddess was distressed.

She realized that no matter what, she would never forget it.

What made her even more distressed was that she realized that her true distress was not because she could not forget it, but because she could not see it.

If she saw the Lord of Flame again, would all his worries disappear?

“It would be great if I could invite the Lord of Flame to my Divine Kingdom as a guest.”

The Elven Goddess couldn’t help but think.

Then, she felt that it was unrealistic.

Inviting an unfamiliar God to her Divine Kingdom was a dangerous act.

However, the Elven Goddess subconsciously felt that inviting the Lord of Flame was not dangerous or risky.

The problem was, with the Lord of Flame’s aloofness, would he come?

The bigger problem was that as a goddess, she invited a God who should be a male God to visit her kingdom. How could she say that?

Chapter 345: All-round Developments! To the Eternal Night Empire!

Time passed slowly.

In the Kingdom of the Winged Demon God, Lin Yan was still analyzing the constitution of the kingdom.

It took the Winged Demon God many years to build this Divine Kingdom. If Lin Yan wanted to analyze it thoroughly, it naturally wouldn't take decades, but it would be done in days.

He wanted to collect all the data of this Divine Kingdom, and then he would head to the Divine Kingdom of the Elven Goddess to see how her Divine Kingdom was built.

The Divine Kingdom of the Abyssal Demon God was completely different from the Divine Kingdom of the Heavenly Realm God.

However, Lin Yan had mastered two powers, so he naturally had to refer to the Divine Kingdoms on both sides.

Naturally, the Elven Goddess did not think that she was still troubled about how to invite Lin Yan to her kingdom. Lin Yan was prepared to go to her kingdom.

Well, of course, if she did not agree, Lin Yan would think of another way.

In the Mobis Abyss, the new Succubus Dynasty had taken shape.

Demons did not have as many rules as humans.

The establishment of the Succubus Dynasty did not require a grand ceremony. However, they had to wait for the construction of the Pyramid in the Abyss to complete.

The Pyramid was built to a huge height of nearly a thousand meters.

Even if the number of Succubuses in charge of construction was huge, they still used a large number of Demon hunters, and it would take a lot of time to complete the construction.

After learning that the Succubuses had completely taken down the Mobis Abyss, many of the Succubuses in the upper or middle layer walked out and joined the Succubus Dynasty in Mobis Abyss.

After joining the Succubus Dynasty, the territory allocated would be on the outskirts of the Mobis Abyss.

Meanwhile, the core of the Mobis Abyss was occupied by the first group of Succubus.

The core area was the battlefield between the three previous dynasties.

In the past, the reason this battlefield was empty was that the three dynasties were tied down, and no one could occupy it.

For the new Succubus Dynasty, there was no such problem.

Recently, the Holy Flame Empire had annexed the three kingdoms and conquered the Purple Gold Empire. Coupled with the flourishing development of the Yan Nation itself, the Flame of Civilization had risen to LVL 7.

Once the Succubus Dynasty was established, Lin Yan's Nation would increase by another.

However, it was hard to say whether or not it could be upgraded to LVL 8. After all, the later it reached, the harder it would be to upgrade the Flame of Civilization.

After the Succubuses occupied the Mobis Abyss, a large number of Succubuses spread throughout the Mobis Abyss. The Mobis Abyss would begin to nurture succubuses. The Succubuses would have a steady stream of fresh blood. This was the meaning of occupying an entire layer of the Abyss.

"Yvette, your territory is here."

In the sky, Natasha pointed to a large piece of land.

"Thank you, Queen!"

Joy appeared on Yvette's face.

In the past, she was just a little succubus, struggling with Natasha in the Red Earth Abyss.

But not long after, she had already become a legendary Succubus.

A standard Demon Lord!

From now on, Yvette could continue to accept the Succubuses who were willing to adhere to her and form her Succubus army.

Of course, the core of the entire Succubus Dynasty was still Natasha.

She was the Queen of the Succubus Dynasty.

As for Princess Barbara, she would be one of the pillars of the Succubus Dynasty.

When Natasha launched a war against the outside world, Princess Barbara would be in charge of the Succubus Dynasty.

On the Continent of Gods, the work of stabilizing the Purple Gold Empire continued.

The Purple Gold Empire originally had 10 provinces.

These 10 provinces were all quite large.

Overall, the Purple-Gold Empire was 2.5 times larger than the Holy Flame Empire.

On the other hand, the three kingdoms beside the desert, not counting the population, were 1.5 times the size of the Holy Flame Empire.

Of course, the national strength couldn't just be based on the size of the land. The three kingdoms were too barren, their population was small, and their resources were scarce. There weren't even a few decent mines, and there was only a huge area left.

In other words, after annexing the three kingdoms and the Purple Gold Empire, the size of the Holy Flame Empire had increased by four times.

All the provinces of the Purple Gold Empire were merged into the Holy Flame Empire.

In this way, the Holy Flame Empire had four provinces. Adding the three kingdoms that had become provinces and adding the provinces of the Purple Gold Empire, the Flame Empire had 17 provinces.

No, these were 18 provinces.

Because Meng Ying and Qing Ling had incorporated the western part of the Endless Desert into the territory of the Holy Flame Empire, they established a new province, Desert Province.

This was also the largest province in the Holy Flame Empire. This province was the size of the Holy Flame Empire before its expansion, but the number of people in this province was pitiful.

There was only the Medusa Tribe in Desert Province.

In the Endless Desert, there was also a type of sand beast and some animals like camels. These were pure beasts, and they were not people at all.

The current governor of Desert Province was the head of the Medusa tribe, Lucy.

Following that, Meng Ying sent over a million captives to serve as coolies, and even sent over a hundred thousand local troops to serve Lucy.

Another important function of the 100,000 warriors of the local army was to guard these captives.

Lucy was ready to turn the Endless Desert into an endless oasis.

The method she used was very simple, it was groundwater.

Under the Endless Desert, there was a large amount of underground water. The Medusa people could accurately find this underground water, and then use magic to lead it up to irrigate the desert.

But this was a huge project.

Lucy needed a lot of sorcerers, as well as a lot of coolies.

And the large number of soldiers captured from the Purple Gold Empire was now excellent candidates for coolies.

After the Endless Desert had been under control for some time and the Purple Gold Empire had been completely stabilized, the millions of soldiers would have their initial faith in the Lord of Flame, so they could put it back and recruit people with gold coins.

In terms of population, the Purple Gold Empire had 200 million people.

The Holy Flame Empire had nearly 80 million people.

The three kingdoms together had nearly 60 million people.

Taken together, the expanded Holy Flame Empire now had 18 provinces with a population of more than 340 million!

With such a large population, once all of them believed in the Lord of Flame, the amount of faith they could provide every day would be shocking!

“These nobles are quite sensible, but some of them must have some ideas. Holy Maiden, Mia, Winnie, I’ll leave this place to you.”

Above the Imperial City of the Purple Gold Empire, Meng Ying said to Qing Ling.

Meng Ying was preparing to leave for the Eternal Night Empire.

After all, the Green Fox Spirit was an orc. It was quite inconvenient to go to a pure human empire like the Eternal Night Empire.

In addition, the Purple Gold Empire also needed legendary-ranked combat strength.

In addition, the Eternal Night Empire's attitude towards the Holy Flame Empire was still unclear. As a saint domain, it was also the most appropriate.

The one with Meng Ying would be the Eldest Princess.

The Eldest Princess had a better understanding of the Eternal Night Empire and was also good at dealing with human nobles.

Qing Ling nodded and said, "Sister Meng Ying, don't worry. Leave this place to me."

Yesterday, in the Imperial City of the Purple Gold Empire, a grand gathering of all the nobles was held.

At this grand event, Meng Ying and Qing Ling issued a trade order. They took out silk, sorghum wine, wine, fruit wine, and a large number of strange things that the Purple Gold Empire did not have.

These items could be shipped to the Purple Gold Empire in the future.

It could also be sold to the east and north of the Purple Gold Empire.

Of course, due to the existence of the Endless Desert, transportation was a big problem. Therefore, Yan Province would especially rent a batch of cargo flying ships for these nobles.

Under the stimulation of these high-profit goods that could sell well at a glance, the heart of the nobles of the Purple Gold Empire grew faster.

However, according to Lucy's observation, some of the nobles might still have some thoughts.

The people of the Medusa Tribe were very good at observing people's hearts.

Their observation was also very accurate.

However, Meng Ying did not plan to take any measures.

First, it was because she immediately went to the Eternal Night Empire.

Second, it was because Meng Ying knew that even though three laws were like gods and many policies were beneficial to the nobles, the Purple Gold Empire was not so easily stabilized.

This was a small empire that had existed for hundreds of years.

The God of the Purple Gold Empire would cause trouble.

But Meng Ying was not worried.

She was waiting.

Wait for some people to jump out.

Then, they were all captured.

The Holy Flame Empire had already given the carrot.

Next, it was the big stick.

A carrot in one hand and a stick in the other were the ways to conquer.

Chapter 346: Days of a miracle! The desert turned into an oasis!

Meng Ying said goodbye to the Fox lady Qing Ling and took the Eldest Princess, Lucy, and some Medusa. She took a flying ship and flew to the Endless Desert.

She wanted to send Lucy back to the Endless Desert before heading to the Eternal Night Empire.

When she passed by the three kingdoms, Meng Ying saw that the three kingdoms had already started to cultivate.

All the civilians were cultivating their land.

The potato seeds had already been transported by special cargo ships. These cargo ships could transport thousands of tons of goods at a time, and they would need a lot of time to meet the needs of the three kingdoms and the Purple Gold Empire.

However, everything was going in the direction of prosperity.

The ship quickly flew past the three kingdoms and reached the Endless Desert.

“Holy Maiden Meng Ying, such a large desert, if someone could manage it, it would be a great thing.”

Lucy looked at the desert and said.

They had lived in this desert for hundreds of years.

Their original residence, the forest of the Great Rock Kingdom where they originally lived, had long been destroyed by humans.

In the human world, it was very difficult for other races to survive there.

Meng Ying nodded when she heard Lucy’s words.

The Endless Desert was too big.

If it could be managed, it would indeed be a great thing.

However, after thinking about it, she knew that governing such a large desert was not easy.

At this moment, in the Endless Desert, a million captives had already arrived and started to dig wells in Endless Desert.

The underground water in the Endless Desert was very deep, so these wells were hard to hit.

However, as long as they could get through, the Medusa Tribe would be able to use magic to concentrate the underground water and form a river in the Endless Desert.

If there was a river, there would be an oasis.

When these oases became large, the Endless Desert would slowly become an oasis.

Of course, it would take a long time.

As for whether the ground would collapse due to too much groundwater, it was not for Medusa to consider.

There was no one living in the Endless Desert. If it collapsed, it would collapse.

They were all-powerful beings, and ordinary geological collapse was not a threat for them.

With the stability of the Continent of Gods, the collapse of the surface layer had little to do with it. A new geological structure would form soon after the collapse.

“We’re here, Holy Maiden Meng Ying. Let’s go.”

After arriving in the middle of Medusa’s residence, Lucy smiled brightly.

At this moment, Lucy was in a leg transformation state.

She could turn into a leg for a long time. She only needed to recover her snake body for a while.

Meng Ying thought for a moment and said, “Lucy, wait a moment.”

Lucy turned around and asked, “What’s wrong, Holy Maiden Meng Ying.”

Meng Ying said, “The governance of the Endless Desert would take too long. I want to pray to my God to see if my God can help us.”

“The great Lord of Flame?”

Lucy looked interested.

Meng Ying nodded.

Lucy said, “Thank you so much Holy Maiden Meng Ying.”

She couldn’t help but feel curious. She didn’t know if Lord of Flame had any good ideas.

After all, based on the name alone, the power of the Lord of Flame seemed to be related to flames.

What was needed to control the Endless Desert was water.

After Meng Ying finished speaking, she began to pray.

In the kingdom of the Winged Demon God, Lin Yan heard Meng Ying’s prayer.

Currently, in Lin Yan’s Godhood sequence, Meng Ying, Qing Ling, Chen Xi, and Natasha were first ranked.

When they prayed, Lin Yan could hear them directly.

The voices of the few of them were very pleasant to listen to. They each had their characteristics. Listening to their prayers was sometimes an interesting thing.

“Regulate the Endless Desert?”

Lin Yan thought for a moment and turned his gaze over.

Lin Yan naturally knew about the Endless Desert.

Back in the battle between the Lion race and the Tiger race, the remnants of the Tiger race had fled into the Endless Desert.

However, most of the remnants of the tiger tribe had died. Only Winnie was left in the tiger tribe.

Winnie had already let go of her hatred towards the Lion race. After all, the culprit behind the destruction of the Tiger race, the Lion Royal Family, had been uprooted by her.

However, Winnie was not going to stay in Yan Province.

It was probably because she was afraid of seeing things.

She usually stayed in Xi Ling Province.

Now, she had an even more important mission: to stay in the Purple Gold Empire.

This was something she was willing to do.

To govern the desert, no matter how one looked at it, it had nothing to do with flames.

However, Lin Yan could activate the rules of life, and then use a large amount of Divine energy to sprinkle “dew “.

It was the same as when the Dark Forest was cleared.

The desert was?different from the forest.

The forest itself had an environment suitable for plants to grow.

The soil was fertile, and there was a lot of water in the soil and air. The Divine rain that Lin Yan sprinkled was just like icing on the cake.

However, the Endless Desert environment was naturally the bane of all plants or even life.

There was no water in the sand.

There were not many nutrients inside.

And the sand layer was quite thick.

If Lin Yan were to use his original method, his consumption would increase by a hundred times.

Of course, for Lin Yan, it was?possible.

However, this kind of consumption would make?Lin Yan feel that it would be a?waste of Divine energy.

“I can try the methods I recently learned.”

Lin Yan thought.

Yes, after burning the two Abyssal Demonic Gods and analyzing the data of the two Abyssal Demonic Gods, Lin Yan had a deep understanding of the method of converting matter and energy that the gods had mastered.

And Lin Yan could do better than many gods.

However, Lin Yan had been studying the Divine Kingdom recently, so he didn't have time to try.

Now, he could give it a try.

Thinking of this, Lin Yan activated his godhood.

In the sky above the Endless Desert Lucy was looking at Meng Ying, who was praying devoutly on the flying ship. She was still wondering if the Lord of Flame would help.

Below the ship, there was a long line that was dozens of kilometers long. It was a million captives who were drilling a well.

At this moment, Lucy felt something fall on her face.

She reached out and touched a drop of water.

“Huh, where did the water come from?”

Lucy was curious.

Then, she looked up and saw countless raindrops falling from the sky!

It was raining!

Lucy had not seen rain for over a hundred years.

There was no rain in the Endless Desert!

“Meng Ying, it’s raining!”

Beside her, a Medusa with the Petrified Eyes muttered.

Yes, it was raining!

Meng Ying stopped praying because she had received the enlightenment of the Lord of Flame.

This rain was brought by the Lord of Flame.

In the Endless Desert where no rain happened for hundreds of years, now who else could bring this rain except for Lin Yan?

“It’s raining, it’s raining. Is this the manifestation of a God?”

On the ground, tens of thousands of snake women jumped with joy.

In the distance, the millions of prisoners who were drilling wells also looked up at the sky.

It was raining in the Endless Desert.

Moreover, this rain quickly turned into the pouring rain, the rain was like a basin!

“Holy Maiden Meng Ying, the great Lord of Flame has helped us. Look, this rain is too heavy.”

Lucy’s voice was filled with excitement.

The area covered by the rain was shocking!

Under Meng Ying’s order, the flying ship shuttled through the rain.

Soon, Lucy knew how much rain this was.

This was the rain that covered the entire northeastern part of the Endless Desert!

Lucy's face was filled with shock.

The Lord of Flame was too powerful!

How could there be so much rain!

Then, something happened that made her eyes drop.

In the Endless Desert, a large number of plants began to appear on the ground that had just been washed away by the rain.

These plants covered the sky and covered the entire dune.

After that, these plants began to grow rapidly.

A tall coconut tree grew out.

Following that, a large number of bushes also grew out.

Beside these bushes, there were flowers.

This dune turned into a green?vegetation-filled green field in less than three minutes.

Lucy rubbed her eyes?because she was?unable to believe it.

This was not the only dune.

And the surrounding dunes were rapidly changing.

In a short time, a large oasis was formed nearby.

In the middle of the oasis, there was a vast lake.

In the oasis, there were many fruit trees, flowers, and vegetation.

“Heavens!”

The few Medusa on the flying ship exclaimed.

A miracle!

This was a genuine miracle!

Not only was there rain covering the entire northern part of the Endless Desert.

In such a short period, such a huge oasis was created!

Other than miracles, they?could not be explained in any language.

Outside Oasis, the millions of captives who saw this all knelt at the same time.

As for the tens of thousands of Snake Women, they all bent down and paid their respects to the God who had sent down the miracle.

“Holy Maiden Meng Ying, I've decided that the Medusa family will also believe in the Lord of Flame!”

Lucy instantly made this decision.

Chapter 347: Materials and Energy Transformation! The first appearance of the Divine form!

In the face of such a miracle, Lucy had suffered too much.

The flying ship quickly flew past the green area.

Lucy saw that the green area was too large.

It stretched for dozens of kilometers!

The position of the green area was also quite good.

Because as the heavy rain continued to fall, a river would soon appear in the middle of the green area. The water in these rivers would be turbid, which was certain. There was a large amount of sand inside.

But sooner or later, the river would become clear.

“I wonder how long this rain will last.” Lucy couldn’t help but think.

A week later, she did not know how long the rain would last.

After a whole week!

A whole week of heavy rain soaked the thick yellow sand in the Endless Desert.

In the Endless Desert, a large number of lakes began to appear in some low-lying areas.

There was also a river.

That river was rootless water.

Because there was no source.

Lucy’s original plan was to continuously draw underground water up to form the source of these rivers.

But whether or not there was a source, it was no longer important.

After seven days of continuous rain, the water reserves in the Endless Desert were already terrifying.

The rain would not disappear.

Soon, even if the Lord of Flame stopped sending miracles, the environment in the Endless Desert would change quickly.

After the water in the desert evaporated, it would form a cumulonimbus cloud. The more clouds there would be the more it would rain.

Of course, the formation of the Endless Desert also had special climatic conditions.

However, after seven days of heavy rain, the weather conditions could be changed to some extent.

That was why Lucy, who had received such a strong shock, chose to believe in the Lord of Flame!

Such a Great God was already worth their faith!

“The transformation of matter and energy is so simple.”

In the kingdom of the Winged Demon God, Lin Yan whispered.

If Lin Yan did not want the Winged Demon God to hear him, the Winged Demon God would not hear him.

It was simple, but not that simple.

It was even quite difficult!

Divine energy was liquid. A drop of Divine energy was like a drop of water.

The sea of Divine energy looked just like an ocean.

But Divine energy was not water.

Divine energy was energy.

And the water was substance.

Just now, Lin Yan used his Divine energy to transform into water. Then, it began to rain over the Endless Desert.

The effect of directly transforming the Endless Desert with Divine energy was naturally better, but the consumption would be incomparably huge.

Through this method, a drop of Divine energy could be converted into water that was equivalent to a lake that was dozens of kilometers in diameter and eight meters deep!

With this change, Lin Yan didn't use up much of his Divine energy. Just above the Endless Desert, he caused heavy rain. Of course, the main reason was that Lin Yan had just arrived in the Continent of God.

He was a force that descended directly from the Continent of God.

If it was a God of the Heavenly Realm, and the rain fell from the distant Heavenly Realm, God would probably be reluctant to part with it. Because the consumption would be more than a hundred times greater than Lin Yan's.

It was also a big problem for the gods of the Heavenly Realm to complete the positioning of the Endless Desert.

That required a large number of believers from the Heavenly Realm God to go to various regions of the Endless Desert. Only then the Heavenly Realm God would be able to accurately locate and achieve full coverage.

No Heavenly God was willing to do this.

However, Lin Yan was just in time to try out the transformation of matter and energy, so he used the Endless Desert as an experiment.

Reclaiming the Endless Desert was very useful.

In this desert, a large number of cash crops could be planted. These cash crops would be a good trade resource and could increase the prosperity of the Holy Flame Empire. The more prosperous the Holy Flame Empire was, the faster the title of Lin Yan's Civilized Flame would rank up.

Lin Yan had created a huge oasis in the desert, which was driven by the rules of life.

This still involved the transformation of matter and energy.

Otherwise, where did those vegetation seeds come from?

“Divine energy is almost omnipotent.”

Lin Yan whispered.

Within Lin Yan’s flames, a small area appeared.

In this small empty area, many substances kept appearing.

Soil, plants, air, iron, copper, and even gold.

If someone saw this scene, they would probably use an idiom to describe it:

Creating something out of nothing!

That’s right, it was nothing!

To create these substances out of thin air, no matter how one looked at it, was different from the law of conservation of energy.

However, energy conservation was the law of the world before Lin Yan transmigrated.

In the Continent of Gods, the law of balance was powerful. It was also the law hidden at the bottom of all laws.

The deeper the law was, the stronger the law would be. It could affect almost all laws.

In the law’s branch of balance, there was also a law of conservation.

But this conservation was not simple conservation of energy.

It was about matter and energy. It even involved the conservation of the soul and spirit.

In other words, these substances were created by Lin Yan. It looked like they were created out of nothing.

But in reality, Lin Yan had used up some energy.

However, in this world full of magic, this consumption was sometimes disproportionate and did not need to be proportional.

If someone could consume 1 point of energy and generate 100 points of matter while there was no reason then the laws like this could be broken directly there, as long as someone was strong enough.

In short, this was the transformation of matter and energy.

These were all directly converted by Lin Yan with his Divine energy.

However, with such a transformation, some were worth it, some were not.

For example, it could be transformed into the water by Divine energy. If the water was just of great use, it was quite cost-effective.

However, it was not worth it to convert it into gold or iron.

How precious the Divine energy was! It could transform those things that could be seen everywhere in the Continent of Gods. Was it enough to support?

Chapter 348: Materials and Energy Transformation! The first appearance of the Divine form!

As a God, he needed to use magic to attract attention.

“No, it’s not omnipotent.”

Lin Yan continued because this transformation had an important prerequisite.

It was not something that could be easily transformed. Instead, it required Lin Yan to master the corresponding rules to complete the transformation.

Moreover, most of the transformations were not something that just one or two rules could do.

Instead, it required many rules to be interwoven.

This did not require Lin Yan to grasp 100% of the rules.

As long as they could get to know each other, it would be fine.

Of course, if it could reach 100%, the transformation speed would be greatly accelerated and the consumption would be reduced.

For example, Lin Yan’s method of creating Oasis involved the rules of life, space, earth, nature, and so on.

If he didn’t master these rules, or if he didn’t have enough rules, he wouldn’t be able to do such a thing out of thin air.

He could only find some plant seeds and scatter them in the desert. Then, he could directly send down his Divine energy to complete such a miracle.

However, in terms of skill, they were far behind.

Lin Yan kept trying to transform.

He could convert a lot of substances, such as rocks, water, ice, air, and iron, copper, gold, silver, and even light.

However, there were still many things that could not be converted.

For example, some rare metals and substances.

Like a living life.

And most importantly, the Divine substance.

Or rather, a demonic substance.

The more sturdy and complex things were, the greater the amount of Divine energy needed to transform them.

As for what the gods needed, it was probably only about 1%. It could be directly transformed with Divine energy... Moreover, after transformation, it would be very difficult to transform the substance that was transformed into Divine energy again.

However, it could be converted into other forms of energy.

“That’s right, how could it be so simple.” Lin Yan thought.

If Divine energy could truly transform everything, then it was enough as long as Divine energy was enough. Why would the gods go around collecting treasures and forging their Divine bodies?

However, to Lin Yan, the transformation of matter and energy was still of great significance.

This meant that Lin Yan could create his Divine Body.

If he did not know this secret, Lin Yan’s flame form was energy, and his Divine form was the matter. How could these two forms change each other?

After all, two forms could only exist at the same time!

“The Divine bodies of the gods of the Heavenly Realm are all blood-oriented bodies. The Divine bodies of the Demonic Gods are almost all fused with Divine substances. They are completely a fighting machine.” Lin Yan compared the pros and cons of the two Divine bodies.

In the end, Lin Yan still decided to choose the Divine Body of the Heavenly Realm.

Lin Yan’s flame form was the strongest form, so Lin Yan did not need to turn his Divine Body into a combat machine.

He was not a true Abyssal Demon God.

However, Lin Yan would learn some of the advantages of the Abyssal Demon God’s Divine Body to make his Divine Body stronger.

“During my transmigration, my original body will fuse with the mysterious cosmic energy and turn into a ball of flame. Is this not a transformation of matter and energy?”

Lin Yan said to himself.

Lin Yan started to drive his godhood and pushed back.

Under this pushback, Lin Yan quickly grasped the key.

When he teleported his original body was not gone.

.

Instead, after fusing with the energy of the mysterious universe, it transformed from matter into energy and the form of flames!

After the transformation of the mysterious cosmic energy, it merged with Lin Yan’s consciousness, forming his current system that was completely used by Lin Yan.

This system was just a mechanical system. There was no System Consciousness.

Lin Yan quickly found the key.

“Transform it!”

Lin Yan whispered.

Following that, the energy began to transform into matter.

Lin Yan’s flame quickly shrank.

Within the flames, a pair of feet quickly appeared.

Then, his calf.

Then, half of his body appeared.

In a short period, a man who was bathed in flames appeared.

This man looked exceptionally young and handsome, but he did not appear young and tender. His face was faintly dignified, and his gaze was reserved and was not threatening or angry.

Following that, the flames on the man’s body all retreated.

This was Lin Yan’s original body.

However, under the transformation of the mysterious energy of the universe, his current body was no longer mortal.

It was even more handsome than before.

It could be said that it looked like Pan An!

No, he could beat Pan An!

There was even a faint glow around him.

This was just like the Queen of Light, Olivia. If she did not deliberately restrain herself, there would always be white light around Olivia. She looked like a star that could shine.

Lin Yan stretched out his hand, and a mirror appeared in the air, revealing his current state.

The change was not big.

Overall, it was a better chance.

Although it was his previous body, due to his current state, this body was naturally not ordinary!

This was his Divine form.

But this was only the initial transformation of the Divine form.

From Lin Yan’s perspective, it was far from qualified.

Therefore, Lin Yan only managed to maintain his Divine form for a few seconds before he transformed into a flame form.

His Divine form and flame form could not coexist.

And Lin Yan still chose to appear in the form of a flame for a long time, which was also required for evolution.

Chapter 349: Hunting Demonic God! The nobles of the Eternal Night Empire!

“After analyzing this Divine Kingdom, it will take another three days.”

In the kingdom of the Winged Demon God, Lin Yan resumed his flame form and continued to analyze the kingdom.

He had already acquired a Divine form.

Lin Yan still needed to strengthen constantly his Divine form.

In addition, the flame form also needed to evolve.

After all, the form of fire was Lin Yan's greatest reliance.

After owning a few countries, Lin Yan needed to evolve, so he did not need to do anything.

Just like the war launched by the Succubus, it could not only bring Lin Yan a lot of Dark Faith and a lot of evolution points.

The huge gains from burning the Demon God allowed Lin Yan to see another way to evolve quickly.

Demonic Hunting God.

However, the Abyssal Demonic Gods were hiding more and more tightly. It was not easy for these Demonic Gods to come out.

There were quite several Demonic Gods in the Abyss. In the war between gods, a lot of time was wasted trying to find the other party's position.

For example, the three Demon gods spent many years together to find the position of Demon God of the Succubus.

Ten years were nothing for the Demon Gods.

It was an interesting thing for them to spend decades playing a game of hunting Demon gods.

The power of the Demonic Gods increased, but they were not as fast as Lin Yan.

But Lin Yan could not wait.

He could not bear to spend decades finding a Demon God and then hunting it down.

He had to evolve quickly.

Lin Yan looked at Natasha.

Yes, Lin Yan needed a larger-scale Abyss War.

The Mobis Abyss was only the first step.

As long as Natasha started a war for him and fought the powerful demons that occupied the entire Abyss, Lin Yan would not only gain a lot of Dark Faith and evolution points.

The most important thing was to be able to force out the Demon gods behind these powerful Demon races.

That was Lin Yan's chance.

After some thought, Lin Yan gave Natasha a hint.

In the Abyss of the Behemoths, Natasha stood in the air, looking at the busy Succubus below.

"Queen, these days I feel like I'm dreaming. I didn't expect that one day; our Succubus race would be able to build another Succubus Dynasty!" Next to Natasha, the leader of a newly joined Succubus tribe expressed her surprise to her.

"This is all thanks to the Master."

Natasha did not take credit.

Beside her, Princess Barbara also had a look of approval on her face.

"But this isn't the end."

Natasha's words suddenly changed.

It wasn't the end!

These words puzzled the succubuses.

Princess Barbara also looked puzzled.

In Princess Barbara's eyes, taking down the entire Abyss of the Demonic Beads had already completed all her goals.

Next, building the Succubus Dynasty and living freely in the Mobis Abyss was Princess Barbara's ultimate dream. Therefore, Princess Barbara did not understand the meaning of Natasha's words.

Natasha looked around and saw her core class background:

"After the construction of the Pyramid is completed, Barbara, you sit in the Abyss of the Demons. I will lead the Succubus army to continue attacking the lower Abyss. Barbara, there is no permanent stability in the Abyss. If the Succubus Dynasty wants to continue to prosper, we can only become stronger. We are so strong that even the most powerful demon races will be scared witless when they hear our names!"

Natasha's words caused Barbara's eyes to widen slowly.

After speaking, Natasha seemed to have heard something.

Then, a look of joy appeared on her face. "Master gave me an indication. Yvette, reorganize the army. We'll first destroy a few layers of the Abyss near the Mobis Abyss."

In the Mobis Abyss, after a simple silence, the Succubus army moved out again and attacked a few Abysses near the Mobis Abyss.

Meanwhile, on the Continent of Gods, Meng Ying bid Lucy farewell and took a flying ship to the Eternal Night Empire.

Not long after, the flying ship flew out of the Endless Desert and arrived at the borders of the Holy Flame Empire.

In the Holy Flame Empire, there was a busy scene.

Caravans carrying large quantities of goods could be seen everywhere. There were also a large number of fleets in the river, and crops were planted everywhere on the land.

“It’s prosperous.”

The Eldest Princess whispered.

The Eldest Princess had witnessed the prosperity of the Holy Flame Empire.

When the Endless Desert was conquered and the thirteen provinces in the northeast joined, the Holy Flame Empire had become even more prosperous.

Meng Ying nodded gently.

After passing through the capital of the Holy Flame Empire, Meng Ying switched to an even more exquisite flying ship.

This was the Queen’s exclusive ride. There were two such ships in the Holy Flame Kingdom.

Not only was it exquisite and luxurious, but it also had even faster speed and better defense.

Behind this flying ship were eight other flying ships.

Four of the flying ships were carrying a congratulatory gift for the Eternal Night Empire.

wread.com .

After all, since they accepted the invitation to attend the birthday of Eternal Night Empire, they definitely could not leave empty-handed.

There were quite a several congratulatory gifts, as well as a variety of gifts. They were mainly high-end silk, porcelain, wine, and diamonds.

Apart from that, there were also three flying ships with the Queen’s Guards.

The Queen’s Guards were all women. Don’t underestimate them. They were not weak. There were 500 magisters and 1,000 female warriors who were good at direct combat.

Their strength was above the fourth rank, and there were only 1,500 people.

There was also a flying ship for them. This was the Queen’s team.

As one of the Queens of the Holy Flame Empire, Meng Ying naturally had a guard of honor when traveling.

A total of 9 flying ships!

The nine flying ships formed a fleet and flew towards the Eternal Night Empire!

The fleet quickly passed through the Holy Flame Empire and arrived at the border with the Eternal Night Empire.

The borders of the Holy Flame Empire were exceptionally busy.

A large number of noble caravans passed through the border gates and headed to the Eternal Night Empire to trade.

The potatoes occupied a large amount of the items transported by these noble caravans to the empire.

There was also some silk in the beginning, but the quantity was relatively small. The silk that was now shipped to the Eternal Night Empire was also of average quality.

The production of silk had yet to arrive.

The silk of good quality was digested by the Holy Flame Empire.

Other than that, there was also a large amount of sorghum wine, wine, fruit wine, milk, porcelain, and so on.

There weren't many porcelain wares in the Continent of God. Most of the noble's tools were silver. Ordinary civilians used pottery.

It was just as Lin Yan had predicted before he transmigrated.

Porcelain was very popular the moment it was born. It was even more expensive than the tableware made of gold.

In the Holy Flame Empire, a set of exquisite porcelain was a symbol of the nobility's wealth and status.

Of course, this had nothing to do with the current production of porcelain.

The manufacturing cost of porcelain was not high, and the core technology of porcelain was still in the hands of the City of Miracles.

These high-end products were all treasures to reverse the trade deficit.

These products were undoubtedly welcomed by the three eastern provinces of the Eternal Night Empire.

The flying ship did not fly high.

Therefore, not long after the flying ship entered the Eternal Night Empire, it was discovered by a flying magical beast squad patrolling the border.

“This is the flying magical beast squad of the Eternal Night Empire. The Eternal Night Empire has a mountain range dedicated to raising flying magical beasts, so they have a flying magical beast army of around 50,000 people.”

The Eldest Princess said.

Back then, the Xi Ling Kingdom had such a flying magical beast army, but there were only one to two hundred of them in total. They were usually only used to scout and could not be used as a climate.

Chapter 350: Hunting Demonic God! The nobles of the Eternal Night Empire!

The Eternal Night Empire was worthy of being ranked in the top ten Empires. Even the flying magical beast army had fifty thousand people.

The current Winged force of the Holy Flame Empire was now only four thousand warriors under intense expansion.

Of course, the combat strength of the winged people was generally stronger than those flying magical beasts.

Flying magical beasts were humans riding on magical beasts.

How could the winged men be flexible?

In addition, the Holy Flame Empire also built a large number of flying warships. These flying warships were the real weapons for air combat.

As time passed, the number of these flying warships would play an unimaginable role on the battlefield.

After handing over the invitation from the Eternal Night Empire, the flying ship smoothly entered the territory of the Eternal Night Empire and headed towards the capital.

Meng Ying stood at the bow of the flying ship and looked down at the Eternal Night Empire, comparing the difference between them.

The Eternal Night Empire was still a Pyramid of nobles.

However, the Royal Family was quite strong.

The Church of the Eternal Night Empire had a large number of magisters as well as their own Temple Knights.

However, the Church's sense of existence was very weak. As long as it involved the policies of the Emperor, the Church would never have any objections.

In the Eternal Night Empire, the Church's role seemed to spread the faith of the gods.

The Church's sorcerers would only appear when the crops needed to grow and get rid of the pests.

The Temple Knights were almost invisible.

However, the empire was indeed prosperous.

Whether it was agriculture or commerce, they were all quite prosperous.

From time to time, flying ships could be seen speeding through the sky. There were also quite several caravans on the ground.

In the past, the Xi Ling Kingdom was indeed a wasteland.

Of course, the Pyramid's social structure was destined to have a high concentration of wealth. That was why ordinary civilians in the Eternal Night Empire weren't wealthy; even though they were relatively well off. That was why potatoes were sold so much.

"There's still a day and a half left. Queen, go and rest."

The Eldest Princess said.

Meng Ying nodded and walked into the window of the ship, meditating there.

Because they wanted to stabilize the Purple Gold Empire, they had to leave at a certain time, half a day earlier than the start of the birthday celebration of Eternal Night Empire.

There was a huge city in the center of the Eternal Night Empire.

The scale of this city was exceptionally large. Even the capital city that the Holy Flame Empire was still building would be far inferior.

The population of this city was even more terrifying.

It was close to ten million.

It was a well-deserved Giant city.

Traces of magic could be seen everywhere in that city.

The streets were wide and straight, and there were neat stone slabs on them. There was also a sewer system, and there were flowers everywhere in the city.

The city was also very clean and tidy. The entire city's transportation system was realized through the omnipresent carriages.

There weren't many such cities in the Continent of the Gods, and they could be counted with a finger.

Of course, other than being large, this city was not as good as the City of Miracles in some aspects.

As for the capital city that the Holy Flame Empire was building, once it was completed, it would not be much worse than this city.

At this moment, the city became exceptionally busy.

Long carriages passed through the city gates and entered the city.

These convoys were all owned by the nobles of the Eternal Night Empire who had come to attend the Emperor's birthday. The convoys were usually accompanied by gifts for the Emperor.

Behind each convoy, there were a large number of guards.

Some of these nobles were nobles from the Eternal Night Emperor.

Some of them were the kings of the other Kingdoms around that Empire.

Those who could be invited to the Emperor's birthday, even in the Eternal Night Empire were usually only Earl and above were qualified to attend.

"Remove the veil and let the people of the Imperial City see how rich Duke Webb is, the King of the Rocky Kingdom!" In front of a convoy, an old man in exquisite clothing said.

"Yes, Butler Abe."

After receiving the order, the leader of the guards walked to the back and shouted, "All of you, remove the cover!"

Following his order, the soldiers surrounding the dozen or so carriages behind them opened the covers on the carriages.

After the cover of the carriages was removed, golden light filled the sky.

“Wow!”

The crowd on both sides of the street exclaimed.

Those people were civilians and some officials from the Imperial City and many small and medium-sized nobles.

That was because the carriage was filled with priceless gold!

The light from that gold made the surrounding streets bathed in golden light.

Then, the second carriage was lifted.

Instantly, the surrounding streets were once again illuminated by the silver light.

On this carriage, there were all kinds of silver weapons!

In the Continent of Gods, gold and silver were both hard currency!

This was a direct symbol of wealth.

And now, the King of the Rock Kingdom, Duke Webb, had given the Emperor two carriages of gold and silver. Those carriages were filled with hundreds of pounds of gold and silver

How much gold and silver would that be?

The silver and gold were all carefully crafted, and they could not be used to calculate the price!

Some of the commoners' minds were filled with golden and silver light, and their eyes were filled with gold.

But this did not end!

Immediately, the cover of the third carriage was removed.

Inside this carriage, there were all kinds of jewelry.

Agate, Lucite, Night Pearl...

The jewelry was also packed in a whole carriage, causing the surrounding civilians to exclaim again.

“Wow!”

“Duke Webb is too rich.”

“Look, there's more!”

A commoner shouted.

That's right; Duke Webb's gift to the Emperor of the Eternal Night Empire had a total of ten carriages!

Every carriage was at least five hundred kilograms!

At the front of the convoy, Duke Webb listened to the exclamations of the civilians around him and his face was full of color.

“This duke is rich. Countess, should we open our carriages?” In a convoy next to Duke Webb, a butler asked.

“Open it; of course, we have to open it. We don’t want to compete with Duke Webb, but those old friends have to compete with them.” The Count said.

Yes, the emperor’s thousandth birthday was also a rare trip to show off their wealth for the nobles of the Eternal Night Empire.

On an occasion like this, who would be more generous, who would give a more precious and rare gift. Whoever was famous would become more famous, spread more widely, and have greater influence. Therefore, as long as the nobles entered the city, they would rush to open the covers on the carriage and show off their wealth.

On this day, the entire Imperial City was filled with gold, silver, and jewelry.

Not to mention civilians.

Even many nobles had never seen so much gold, silver, and jewelry in their lives.

“Although these dukes are rich, they are authentic bumpkins. Gold, silver, and jewelry are everywhere. What’s so strange about them? Men, open the carriage and let these bumpkins see them real good.”

Seeing the bustling streets, countless commoners and nobles exclaimed in disdain.

“Yes, my Lord!”

Then, another carriage was lifted.

“Huh, what is that?”

Inside this carriage, it was not gold, silver, or jewelry, but a kind of cloth.

“Unexpectedly, a nobleman sent cloth to his majesty. How shabby of a noble to be able to give such a gift! Even a Viscount wouldn’t be able to bring it out!” One of the Viscounts laughed.

“It’s a bumpkin. It’s silk that’s recently produced in the east of the empire. It’s worth 100,000 gold coins afoot. We’ve had a lot of connections to buy this silk car. You can’t buy it even with money. How dare you say it’s shabby?”

Hearing the Viscount’s words, the well-dressed butler spoke in a disdainful tone.
