

Flames 361

Chapter 361: Holy Sisters! A dying goddess!

As Tina spoke, the image on the mirror began to distort.

A vortex appeared in the mirror.

Tina's face was distorted.

It was as if it had been stretched out and turned into circles.

This distortion continued for a long time.

When the magic mirror changed, she was keenly detected by Meng Ying a few kilometers away.

At this time, Meng Ying was still talking with the Eldest Princess.

As a strong saint, Meng Ying was very sensitive to some special fluctuations.

The changes just now had involved the rank of rules.

"What's wrong?"

The Eldest Princess asked.

Meng Ying stood up and looked in the direction of the palace.

"Nothing."

After a while, Meng Ying sat down.

As long as the Eternal Night Empire had no ill intentions, Meng Ying wouldn't meddle in other people's business.

After all, she was a guest there.

A full three minutes later, Empress Tina extended her hand and poured some energy into the mirror.

Then, the distortion of the mirror slowly recovered.

Tina's beautiful face appeared in the mirror again.

The strange thing was that Tina was in a dark palace, but in the mirror, there was a clear blue sky and white clouds behind her.

Among the blue sky and white clouds, many beautiful women were flying around like fairies.

They seemed to be taking care of the clouds in the sky, making them more beautiful.

In other words, the background in the mirror was different from the one in Tina's palace!

"Tina..."

Then, Tina in the mirror spoke.

"Sister, Happy Birthday!"

Tina in the mirror spoke again.

With her opening, the time of the Eternal Night Empire just came to the early morning of the next day.

The phrase “Happy Birthday” came at the right time.

Not early, not later.

No, she was not Tina.

Only, she looked the same as Empress Tina.

It had the same face, beautiful eyes, a delicate nose, and curved eyebrows.

However, their hairstyles and decorations were different.

Tina was so beautiful that the first time anyone saw her; someone would only notice his face, but not their hairstyles and decorations.

On the face of the person in the mirror, there was still a trace of sacredness.

This was something Tina did not have.

This feeling was like the feeling of the Elven Goddess!

Perfect.

Incomparable perfection.

There was no flaw in her body!

If Tina and the other lady were compared, she could have scored 100 points.

But now, even if they looked the same, Tina could only score 99.99 points.

Only God was the most perfect!

Tina spoke up. “Dear sister, the Great Goddess of the Eternal Night Empire, should you congratulate me on my 1,000th birthday or 2,000th birthday?”

The other side fell silent.

The words of Empress Tina revealed astonishing information!

Now, the entire Eternal Night Empire knew that today was the Emperor’s millennium birthday.

Apart from the Eternal Night Empire, many other empires were close to the empire that knew that the empress of the empire had lived for a thousand years.

Countless emperors were envious.

In the Continent of God, the king of a normal kingdom could reach the fifth or sixth rank.

As the King, he could use the resource pile to pile it up. Besides, he could also receive blessings from some gods.

However, the strength of an emperor of an empire was not too high. There were many things that an emperor had to deal with, and once he became addicted to power, he would often waste his magic training.

Besides, the emperor was not chosen based on his talent in magic.

The average emperor of the empire was only sixth or seventh-ranked while higher-ranked emperors were eighth-ranked.

A ninth-ranked legendary emperor could be said to be rare.

There were even fewer tenth-ranked Saints.

Who didn't want to live longer or even live forever after being an Emperor for a long time?

Therefore, many of the emperors and kings envied Tina, who had lived for a thousand years.

But now, according to Tina, she was not a thousand years old!

She was 2,000 years old!

Today was her 2,000th birthday!

And the other information was also shocking!

The person in the mirror was none other than the goddess of the Eternal Night Empire!

Empress Tina and the goddess of the Eternal Night Empire were sisters!

Tina's sister was the Goddess of the Heavenly Realm!

While Tina was the Empress of the Eternal Night Empire, a powerful Sanctuary!

This was a pair of Holy Sisters!

This pair of Holy Sisters, one God, and one Saint, actually looked the same as twins!

If Meng Ying knew about their relationship, she would understand many things.

No wonder.

No wonder the imperial power of the Eternal Night Empire was strong, and the Church would not interfere with the imperial power at all.

No wonder the imperial power of the Eternal Night Empire would ever interfere with any decisions of the Church. Their relationship with the Church could be said to be quite harmonious!

Who would have thought that the Goddess of the Eternal Night Empire, and the empress of the Eternal Night Empire, Tina, were sisters?

Tina saw that the Goddess was silent and said:

"It's been a thousand years. I've been in charge of the Eternal Night Empire for you for a thousand years. If you change your mind and delay the breakthrough, I can stay on the Continent of Gods for another thousand years, two thousand years, three thousand years, and ten thousand years, until you have absolute confidence."

The other side fell silent again.

Tina looked at her coldly.

But if someone looked carefully, someone could find a trace of imperceptible concern in Tina's eyes!

Her coldness was just a disguise!

“Tina.”

After a long while, the Goddess of the Eternal Night Empire finally spoke.

“The Continent of Gods is not peaceful. Evil gods are foolish?to resist.?I can feel the power of darkness. Besides that, 10,000 years have passed since the last war between the Abyss and the Heavenly Realm. The Abyss is full of people, and there are also too many Demonic Gods. To?consume the surplus Abyssal Creatures and Demonic Gods in the Abyss, the Abyss will go to war with the Heavenly Realm.”

Eternal Night Goddess Path.

Tina didn’t answer. She looked at her coldly.

The goddess of Eternal Night Empire sighed and continued, “If you don’t reach the fourth rank and don’t have your Divine system, you can only be reduced to cannon fodder in the war between the Abyss and the Heavenly?Realm. If you’re unlucky and encounter a battle between the Divine Lords, you’ll be reduced to dust in one blow. If you don’t reach the fourth rank, I can’t protect you, my dear sister!”

The coldness in Tina’s voice disappeared.

“That’s not a reason.”

She said,

“Once you start breaking through, you’ll immediately be known. Trust me, the forces attacking the Eternal Night Empire won’t fall below ten. With me here, no matter how many forces attack the Eternal Night Empire, I have the confidence to block them, but what about you?”

Tina continued.

The Goddess of the Eternal Night Empire fell silent again.

Meng Ying’s speculation was correct.

The gods of the Eternal Night Empire were indeed not at the fourth rank.

It was the third rank!

As a third-ranked God, she had one of the?top ten empires in the Continent of God. This was a very dangerous thing.

Such an empire was prosperous. Without the corresponding strength, it would be difficult to maintain it.

Moreover, breaking through the third rank to the fourth rank involved the most crucial issue...

That was the quota!

A fourth-ranked God was naturally not a Master God.

However, to a certain extent, the number of sub-Divine systems on the fourth rank was also very scarce. If one person went up, the road would become narrower. If another person went up, the road might be gone.

Therefore, any God who broke through to the fourth rank would be targeted!

Many factors added up.

Once the third-ranked Goddess of the Eternal Night was ready to break through the fourth rank, she would immediately be seen through. That was quite dangerous.

As for how she was able to have one of the top ten ranked empires in the Continent of Gods at the third rank, there must be a lot of stories there.

However, just as Meng Ying had speculated.

Tina was the key point!

She was the sister of the Goddess of Eternal Night.

She had also created the powerful Eternal Night Empire.

“The rest of the gods will only seek a breakthrough after they have established a God system. That way, when they break through to the fourth rank, their God system will buy them enough time. And you...”

Tina paused for a moment, and then continued, “As for you, because you’re afraid of being discovered by others, you chose to break through to the fourth rank and then build a pantheon. Not only is there no protection from the pantheon, but you’ve also lost too many things. Once you break through.....”

Tina paused for a moment and then spat out a few words:

“You’re going to die!”

Chapter 362: Millennium events! Meng Ying made an appearance!

Almost dead!

These words caused the Goddess of Eternal Night Empire to fall silent again.

Tina Empress also went silent.

Both sides looked at each other through a mirror. For a moment no one spoke.

A Sanctuary and a Goddess at the peak of the third rank of the Heavenly Realm was rendered speechless. If both of them were not sisters, then such a thing would never happen.

The Holy Land was really powerful, and Empress Tina seemed not to be the Holy Land of the first stage, but a powerful Holy Land equivalent to Angst.

She might even be stronger than Angst.

However, in a domain like this, once one became a God, the rank of godhood would skip first and second ranks, and even have second-ranked godhood.

Of course, with godhood, one had to build a Divine Body to display their combat strength.

Otherwise, their combat strength would be greatly reduced.

Moreover, the level of godhood was not determined by the amount of Divine energy. This God had to increase his Divine energy constantly to support his battle.

In other words, even such a powerful Sanctuary was still a long way from becoming a God.

How could she dare to speak like this to a peak third-rank Goddess?

After a long time, the Goddess finally spoke:

“I thought you would think that my breakthrough this time would be deathless.”

Her tone was very calm.

However, there was a hint of self-deprecation inside.

Tina’s eyes changed:

“So you still decided?”

The Goddess of the Eternal Night said, “That’s right, my strength has reached its peak. I can’t wait any longer!”

Tina looked disappointed.

She turned around and left.

“During this period, I’ll make sure everything is accurate. You don’t have to worry about the Eternal Night Empire. If you die, I’ll avenge you ten thousand years later!”

Tina’s voice disappeared.

Soon, the picture of the palace dome reappeared on the mirror of the magic mirror.

Everything returned to normal.

The night was long.

The moon that hung high in the sky finally descended.

Before dawn, the entire palace was busy again.

The palace was also divided into the inside palace and outside palace just like Imperial City.

The floor area of the imperial palace of the Eternal Night Empire was quite terrible.

In the outer palace, there was a huge square.

The Emperor’s millennium birthday would be held here.

The nobles who received the invitation were very active.

The counts were the most active. When it was dawn, they came one by one.

“Count Abelard, we haven’t seen each other in over ten years, right?”

“Yes, yes, a dozen years have passed in a flash. We’re all getting old.....”

In the square, such a conversation could be heard everywhere.

Many nobles were looking for their old friends.

The number of Counts in the empire was not small.

After all, this was an empire that had existed for more than a thousand years.

The title itself could be inherited.

In the continuous expansion, more and more nobles were born.

After all, the best way to reward meritorious officials was to reward them with titles!

Of course, after the empire stopped expanding, the number of nobles would slow down.

In the current Eternal Night Empire, the number of nobles had yet to reach saturation.

However, the number of Counts was still over a thousand. This was unimaginable in the kingdom.

In the past, there was only twenty Count in the Xi Ling Kingdom.

Of course, Viscounts and Barons were the most numerous.

Among the nobles, it was also a Pyramid model.

Even among the civilian class, there was also a Pyramid model.

Pyramids seemed to be everywhere, from a kingdom to an empire, down to the civilian class and up to the aristocracy.

Even in the Heavenly Realm, the Abyss was still in Pyramid mode.

An ordinary Pyramid had all the laws of the world!

Therefore, even Godhood looked like a Pyramid!

As the sun rose, Count with a high reputation arrived.

“Count Milne is here. Let’s go and pay his respects.”

Some of the counts saw a count coming and surrounded him.

This scene was the norm for the gathering of nobles on the Continent of God.

Whoever had higher status and prestige, and who was stronger got the attention of more nobles at the time of the party.

Only the nobles were not attending this banquet, but also some officials.

Some officials had titles and were aristocrats themselves.

Some officials came from poor families, but they were in high positions, so they also earned the respect of some nobles.

The title of a Viscount could not be given at will. If it was given, it could not be taken away. After an empire was formed, the title of a Viscount was given in a stingy manner.

Therefore, even some high-ranked officials might not have a title.

“The finance minister is here. Let’s go and greet him.”

“The war minister is also here...”

The arrival of the officials made this place even livelier.

One after another, some big merchants arrived.

Some big businessmen were rich enough to rival kingdoms. When their wealth reached a certain rank, they could also have a great influence. After all, many nobles had to do business with them.

Therefore, these big businessmen were invited to attend the Emperor’s millennium birthday.

Besides the big businessmen, there were also some influential people in society.

For example, some famous wandering poets, legendary figures in some places, and even some opera artists.

“That’s Fuben the Dragon Hunter.”

“That’s the legendary mercenary, Edwin.”

Some nobles surrounded them and greeted them curiously.

These people might not be able to compete with the nobles present in terms of status, but many of them were famous because of one or two incidents.

Chapter 363: Millennium events! Meng Ying made an appearance!

This millennium birthday was indeed a millennium gathering.

They had gathered the most outstanding elites from all walks of life in the empire!

It wasn’t past 8 yet, but more than half of the people had arrived.

However, no heavyweight had arrived yet.

Finally, it was 8 o’clock.

“Look, the Marquis of Hansa is here.”

This millennium birthday, before 8 o’clock, was the time for the Count, officials, and merchants.

After 8 o’clock, it was time for Marquise and above.

The Marquises appeared one after another.

Each Marquise’s appearance attracted a large number of people.

There weren’t many Marquises in Eternal Night. There were only a hundred of them, and they took up the time from 8:00 to 9:00.

Then more heavyweight Dukes began to arrive one after another.

“Duke Victor is here. Come, let’s go see him.”

The first Duke to arrive was Duke Victor. As soon as he arrived, he was surrounded by a large number of nobles.

“These guys all want to come in from behind to show their importance, but they don’t know how much worse it is to be the first one.”

Duke Victor chatted politely with the nobles around him as he thought.

The order of entry was also very particular.

Many Dukes were waiting for others to enter.

But the banquet would officially begin at 10:30. The Duke only had one hour left.

So some Dukes started again and again after measuring their actual status.

Every Duke’s appearance could become the center of the crowd.

Within the borders of the Eternal Night Empire, there were only twenty or so dukes. However, there were more than a dozen Dukes in the periphery of the empire.

The arrival of the Dukes completely enlivened the atmosphere.

“Duke Laurent is coming. Look, what’s next to him is Miss Annie, the Pearl of the six eastern provinces!”

At this moment, Duke Laurent came and attracted a lot of attention.

The nobles naturally did not just come by themselves; they also brought a few followers. Each noble would bring one or two descendants to broaden their horizons and expand their connections. Annie’s arrival instantly made the descendants of some nobles restless.

If they could marry Miss Annie, they would not only become the son-in-law of a Grand Duke!

What was more important was to be able to bring beauty back.

Unfortunately, those nobles were destined to be disappointed because Annie completely ignored them.

After 10 o’clock, the dukes finally arrived.

The people from the other empires arrived.

This time, several people from small empires and a large empire came to attend the birthday.

The emperor personally brought people to the small empire, while the emperor personally came to the big empire.

Since they were not familiar with each other, no matter if they were the people from the small empire or the big empire; they did not attract much attention.

These people from the other empires didn’t have the intention to greet the nobles of the Eternal Night Empire. They all sat down in front of them.

“Look, Holy Magic Academy’s legendary magister, His Excellency Laurent...”

At this moment, some people saw a magister flying through the sky.

“That’s Duke’s nephew, the legendary magister Crane...”

Following that, legendary-ranked beings appeared.

These legendary existences did not have the intention of chatting with the nobles. They flew forward and sat down.

After the official entrance, everyone's seats had been arranged. Generally speaking, the higher the status, the closer the seats were to the front.

One after another, legendary-ranked beings appeared.

Some legendary existences and nobles knew each other, while others did not. However, every appearance of a legendary existence could cause a sensation. This was also an opportunity to get to know legendary existences.

Finally, nearly twenty legendary existences arrived.

Then, an old man with a faint pressure flew across the sky.

“Look, that's the Dean of the Holy Magic Academy...”

Everyone looked at Haywood.

This old man was the dean of the Holy Magic Academy, the powerful Sanctuary!

Whether it was the nobles or the others present, this was the first time many people had seen the Sanctuary!

All of a sudden, there was absolute silence. Everyone, including the people from the other empires, looked respectfully at Haywood.

Haywood flew straight to the front row and sat down.

The location there was naturally not as dense as a movie theater; the distance between each position was separated by fairly open space. Especially the first row of positions.

“There should be no one left, right?”

Some nobles thought.

Someone discovered this.

“That's right; the Holy Flame Empire came too late. It's even more so than Director Haywood. Could it be that the Holy Flame Empire also has a Sanctuary?” Another noble said.

As soon as his voice fell, he saw two figures passing in the sky!

Those were two women with veils on their faces!

“Two legends?”

A noble called out softly.

Even though there were over a dozen legends present, the two legends had appeared at the same time and were two beautiful women. Naturally, they attracted their attention.

“Master!”

Beside Duke Laurent, Miss Annie, known as the most dazzling pearl of the six provinces of the East, recognized the Eldest Princess!

However, on such an occasion, she didn't shout. It would be rude.

Under the eyes of these nobles, the two women flew straight to the front of all the seats and sat down there.

"This..."

Some of the nobles looked at each other, their eyes filled with surprise and doubt.

That was because the two women were sitting in the first row.

It was also the same row as Headmaster Haywood in the Sanctuary.

Although the two positions were very far apart, they belonged to the same row!

How could he dare to rank up with a Saint Realm?

And on such an occasion, who would dare to sit around?

"Among them, there isn't a Saint Realm, right?"

A nobleman exclaimed.

Chapter 364: Empress appeared! The nobles were conquered by wine!

"Maybe it's the Sanctuary. I don't know which faction they are from. I didn't expect to see two Sanctuaries today!" A Count said.

In the Continent of God, the Sanctuary was high and mighty. It was rarely seen for a long time.

Today, they were able to see two Sanctuaries at once!

Many nobles felt that this trip was worth it!

"Master is a legend!"

Duke Laurent's Holy Maiden Annie thought silently.

"Annie, I remember when you were studying with the Eldest Princess; she was still a sorcerer, right?"

Duke Laurent asked.

Annie nodded softly and said, "Yes, father."

"It looks like the Eldest Princess has had an incredible encounter. So the woman next to the Eldest Princess is a saint."

Laurent's Great justice.

Annie looked at Meng Ying.

Meng Ying sat there quietly and was not moving at all. Her face was covered with a veil, and her expression could not be seen.

However, there seemed to be a special aura around her.

This aura made those who saw her feel an indescribable pressure.

Meng Ying did not deliberately hide her aura, nor did she deliberately release her aura.

But the aura of the Sanctuary, as long as it was not deliberately concealed, could bring this kind of oppression.

"The Holy Flame Empire is just a new empire, but it has a Sanctuary. A legend has it. Annie, after the banquet begins, you have to pay your respects to your master."

Great justice.

"I will, Father," Annie said.

Only a few people knew the identity of the Eldest Princess and Meng Ying.

More nobles were guessing the identity of Meng Ying and the Eldest Princess.

Not many nobles associated them with the Holy Flame Empire.

Under the whispers of the nobles, it was finally 10:30.

All the nobles took their seats.

Soon after, the loud bell rang throughout the entire Imperial City!

The millennium birthday began!

Countless colorful petals appeared in the sky, falling from the sky, covering the entire Imperial City!

Soon after, a large number of beautiful flying magical beasts carried the ladies through the sky. As these flying magical beasts flew past, they left behind a colorful ribbon made of various colors of smoke.

A large number of ribbons were combined to form a rainbow path!

When Rainbow Avenue appeared, beautiful music rang in the Imperial City of the Eternal Night Empire.

On Rainbow Avenue, a large number of petals were still falling.

But what was shocking was that the flowers landed on Rainbow Road, which was made of smoke.

In the capital, countless people looked up at the sky.

In the palace, the people who came to attend the banquet also looked up at the sky.

Then, they saw an empress wearing a red robe and an exquisite crown slowly walking down Rainbow Road!

She was the empress of the Eternal Night Empire, Empress Tina!

Tina did not have a veil on her face.

But no one could even see her face.

As a Sanctuary, there were many ways to hide her face.

But her clothes and her hair accessories all revealed to the outside world that she was an empress!

This was the first time Empress Tina had appeared publicly among the people of the empire.

In the Eternal Night Empire created by Tina Empress, few people hadn't seen her face.

Those who knew that she was a woman were rare.

Therefore, the public appearance of the female emperor Tina made countless people in the Imperial City cheer!

Tina walked down Rainbow Avenue on the cloud step by step.

When she reached the top of the palace, she stopped.

At this moment, in the entire Imperial City, countless commoners and nobles climbed up the high ground to see more clearly.

Tina looked down.

Tens of thousands of nobles, merchants, officials, and celebrities had already gathered in the palace. She had already lived for two thousand years, and the Eternal Night Empire had been built for more than a thousand years.

In a thousand years, another had replaced the nobles, officials, merchants, and celebrities of the entire Eternal Night Empire. And she was always young.

Right now, there were only a few people who could be remembered by her.

She nodded slightly at Meng Ying, then retracted her gaze, put her hands together, and prayed in the sky.

Instantly, the entire Imperial City began to rain!

This kind of rain looked like normal rain, but when it landed on their bodies, everyone felt warm. Those who were sick had their body strengthened. Some minor diseases would be cured by that rain, and some stubborn diseases would be digested!

"The goddess of the Eternal Night has sent down a miracle. My illness has recovered. Haha~ Thank you, the great goddess of the Eternal Night Empire!"

A commoner who had been sick for a long time laughed happily and kowtowed to the sky.

Such a scene was happening everywhere in the Imperial City of the empire.

The Divine Miracle sent down by the goddess of the Eternal Night Empire covered a wide area.

The commoners and nobles all praised the generosity and greatness of the Goddess of Eternal Night.

Ten minutes later, Empress Tina finally spoke.

"Today, the world will be granted amnesty!"

Following Empress Tina's words, cheers erupted in Imperial City once again!

Empress Tina's thousandth birthday officially began.

The birthday party was similar to the other emperors of the Immortal Continent of God.

The first step was to chant the list of gifts.

This list was extremely long, but the nobles listened with relish.

Especially those nobles who gave more gifts.

This session lasted for nearly three hours.

All the nobles raised their ears when they sang the name list of the Holy Flame Empire.

"A thousand feet of silk, ten sets of porcelain, one diamond, a thousand pounds of tea, ten barrels of wine... a long list of gifts. Every noble listened carefully."

"These are all good things. I don't know where the people of the Holy Flame Empire are. I must find them."

Many of the nobles' heads started spinning.

It was obvious that they had all seen the business opportunities.

After this segment, after a few more segments, they entered the official banquet.

A large number of court ladies appeared and presented the wine and delicacies.

The nobles and celebrities were holding wine and talking to each other. This was a rare opportunity to expand their connections.

"Master!"

Annie finally found a chance to walk to the Eldest Princess' side and said in surprise.

"Annie, long time no see."

A smile appeared on the Eldest Princess' face.

"Miss Annie seems to know those two. Duke Laurent, do you know them?"

A duke asked as he chatted with Duke Laurent.

As he spoke, he picked up the wine on the table and took a sip of it.

"What kind of wine is this? It tastes weird."

The Duke raised the glass of wine.

Only then did he realize that the wine was red.

At this moment, the duke also realized that the Wine glass was very strange.

It wasn't the kind of wine glass they usually drank, but a tall wine glass with a thin high foot underneath! However, such a high-legged wine glass, coupled with this red wine, was full of a special charm.

It was as if drinking with such a glass of wine would appear exceptionally... elegant!

That's right!

It was elegant!

The duke couldn't help shaking his glass a few times.

This unintentional action made him feel a strange feeling in his heart.

It seemed that this action was also part of this type of wine, as well as the standard wine cup.

Under the influence of various factors, he took another sip of the red wine.

"The taste of the first drink is a little strange. It's sour, and it seems to be a little sweet. But if I take another sip, why does it feel completely different?"

As a duke, this Grand Duke had tasted a lot of wine, but he had never tasted such wine.

This kind of wine not only had a unique taste, but it also had a unique color. More importantly, it seemed to have a different attitude when drinking this kind of wine.

That would give him a feeling that only this wine was worthy of his noble status!

"Where did this wine come from?"

This Grand Duke could not help but have this question.

"Duke Hess, Duke Hess..."

At that moment, the duke heard Duke Laurent's voice.

Only then did he come back to his senses. He had been too focused on this dark red wine and had not heard what Duke Laurent had said.

Duke Hess quickly apologized.

"Great Duke Hess, I was just saying that they all came from the Holy Flame Empire. The one on the right is the Eldest Princess of the Xi Ling Kingdom and Annie's former teacher. She is now a legendary existence and the one on the left is the Empress of the Holy Flame Empire!"

Great justice.

Queen of the Holy Flame Empire!

These words caused Duke Hess's eyes to widen.

Now, the surrounding nobles were very certain about Meng Ying. They knew that Meng Ying was 100% Sanctuary.

And now, Saint was the Queen of an empire! Holy Flame Empire!

The name of the Holy Flame Empire had already spread throughout the circle of nobles.

A large number of nobles wanted to talk to the people of the Holy Flame Empire so that they could buy silk and porcelain from the Holy Flame Empire and sell them to the Eternal Night Empire, earning a huge profit.

But now, Duke Laurent told him that the powerful Sanctuary was Queen of the Holy Flame Empire!

Heavens, what was the background of the Holy Flame Empire!

When Duke Hess was shocked, more and more nobles found that the wine they drank on this birthday seemed different! Transparent goblet, red wine, unique taste.

This kind of wine was suitable for nobles' banquets.

As for some nobles who did not drink at first, but had to drink on such occasions, after drinking one or two mouthfuls of wine, they suddenly realized that such wine was not as difficult to drink as other wines.

These nobles immediately became interested in wine.

If they attended a banquet with wine, they would be much more relaxed!

And when some ladies were drinking this wine with tall glasses, they would appear extremely elegant.

This kind of wine was tailored for the nobles!

Therefore, the topic of the banquet quickly turned to wine.

It could be said that once the wine appeared, it conquered the hearts of all the nobles!

"I've seen this wine before. This wine is a gift from the Flame Kingdom to His Majesty. I heard it's called wine!" At this moment, a noble remembered.

"Yes, I've seen it before. This is indeed the wine sent by the Holy Flame Empire."

Another noble said.

"Where are the people of the Holy Flame Empire? Has anyone seen it before? I want to buy this kind of wine, buy a hundred... No, buy a thousand barrels!" A noble saw the business opportunity and said!

Chapter 365: Holy Flame Empire was famous! Robbing the first batch of goods!

"I want to buy it too. I want to buy 10,000 barrels! Baron Viscounts who hold dances in their castles every day will like such wine. If he will have such wine in his dances, he will attract more gentlemen and young ladies to attend."

Another noble said.

"I didn't think there would be such a drink. It wouldn't be hard to drink. I'll have to buy some more. I won't have to drink their bad wine when I'm attending a gathering between the nobles."

"Catherine, have you noticed? This kind of wine is made for the nobles. It's perfect when you're wearing a cocktail dress, shaking your head, and taking a sip! "

"We must find the people from the Holy Flame Empire. Not only do they have silk and porcelain, they even have such wine. The market for this wine is not smaller than silk and porcelain."

During the banquet, it was the emperor's millennium birthday, but at this moment, a lot of topics were focused on wine.

This kind of wine that was popular in another world had once again gained a new luster in the Continent of Gods.

There were more nobles in this world.

These nobles were also rich.

As a result, the wine market was far bigger than the other world!

Moreover, it was many times bigger!

The prospects of the market could be said to be limitless!

At this time, at the banquet, a large number of nobles were asking around, wondering if they could meet anyone from the Holy Flame Empire.

"Calm down, Calm down. His Majesty has something to say."

At that moment, a female official shouted.

The nobles present immediately fell silent.

On the highest stage, Empress Tina, who was sitting there, picked up a glass from the hand of the lady next to her. The glass was filled with wine. Empress Tina shook the cup in her hand and the red wine started to flutter. Her actions were not ordinary.

Then, Empress Tina said, "This wine is indeed a God-given wine. Thank you, Her Excellency the Empress of the Holy Flame Empire, for bringing us such delicious wine!"

Then, she raised her cup in the direction of Meng Ying.

When Meng Ying saw this, she stood up as well. She lifted the wine from the table and clashed with Empress Tina.

Then, the two empresses took a sip!

"It's her!"

Empress Tina's words caused everyone's eyes to focus on Meng Ying!

Some of the nobles' eyes almost popped out.

After all, in the hearts of many nobles, Meng Ying was already a Divine Domain!

However, this domain was the Empress of the Holy Flame Empire!

For a moment, many nobles were wondering what kind of background the Holy Flame Empire had!

An empire with a Divine Domain was not a small empire!

However, when these nobles finally learned of the true origins of the Holy Flame Empire from Duke Laurent and a few other Dukes who had some understanding of the Holy Flame Empire, they were once again shocked!

The Holy Flame Empire was only a small empire formed by the merger of three kingdoms and the Orc Kingdom to the east of the empire!

However, such a small empire had a Saint Realm!

No, other than a Saint Realm, the Holy Flame Empire still had a legend!

It was a Saint Realm, a legend!

The configuration of the Holy Flame Empire far exceeded the scope of the small empire!

The people from the other empires who came to observe the ceremony were also shocked by the Holy Flame Empire!

Especially the people from the small empire.

Among these few small empires, the most powerful were just legends.

In their dreams, they wanted to have a Saint-ranked existence!

However, how could a Saint Domain be so easy to achieve? After becoming a Saint Domain, many Saint Domains devoted themselves to researching ways to become a God, hiding and cultivating. They were willing to be in an empire, especially the Saint Domain that was in charge of the little empire. There were very few of them!

However, a small empire like the Holy Flame Empire had a Saint Realm!

This made the people of those small empires envious!

The God of the Holy Flame Empire was too lucky!

Well, no wonder they think Empress Tina had the same idea at the beginning.

Only Meng Ying knew that it was not the God of the Holy Flame Empire who was lucky, but she was lucky enough!

These people didn't know that the Purple Gold Empire had been beaten down, and Meng Ying didn't plan to say anything.

Otherwise, they would be even more shocked.

After the shock, some nobles were already thinking about how to talk to the people of the Holy Flame Empire.

Originally, the matter was very simple. As long as they could find the people of the Holy Flame Empire, they could just go up and talk about it. To the nobles, this was usually how business was done. However, the problem was that the one from the Holy Flame Empire was the Empress!

Moreover, this Empress was a Sanctuary!

The other person was also a legend!

The nobles did not dare to go up.

Even a Grand Duke wasn't enough to stand in front of a legendary-ranked existence, let alone a Saint Realm.

Even if they were to talk to a Saint Realm, they would probably be scared witless. How would they dare to go up and discuss business?

At that moment, some people noticed Annie by the Eldest Princess's side.

Soon, Duke Laurent was surrounded by the nobles.

"Duke Laurent, your daughter seems to be very familiar with the Holy Flame Empire!"

"Duke Laurent, introduce us."

The other Dukes begged.

Duke Laurent, at the behest of many dukes, had no choice but to brace himself for the princess.

The Eldest Princess quickly found out why he was here.

The nobles wanted to buy silk, porcelain, tea, wine, fruit wine, and even potatoes from the Holy Flame Empire.

"Queen, these nobles can use it."

The Eldest Princess whispered.

The nobles of the Holy Flame Empire were currently trading with the three Eastern provinces of the Eternal Night Empire.

However, with the power of the nobles in the Holy Flame Empire, it was still very difficult to sell goods to the entire Eternal Night Empire.

In two or three provinces, they would reach the limit of the nobles of the Holy Flame Empire. They would not be able to eat anymore.

After all, the provinces to the east of the Eternal Night Empire were much larger than the Holy Flame Empire before its expansion. The population was also much larger.

Under such circumstances, the nobles of the Eternal Night Empire could be used.

Of course, the Holy Flame Empire would control the price of the goods. The price for the nobles of the Eternal Night Empire would be much higher.

This way, they could use the power of the nobles of the Eternal Night Empire to quickly sell the products of the Holy Flame Empire to the entire Eternal Night Empire.

It could even be sold to more than ten kingdoms around the Eternal Night Empire.

This way, the market could be expanded even more quickly, earning a steady stream of gold coins, making the empire more prosperous!

Hearing the Eldest Princess' words, Meng Ying nodded imperceptibly.

"Leave it to me."

The Eldest Princess said.

Meng Ying nodded.

As Queen and the Holy Maiden of Lord of Flame, Meng Ying was a powerful Sanctuary, so she wasn't willing to join the nobles.

Only the nobles liked to socialize.

Meng Ying did not like it.

"Honorable Meng Ying, let's talk again?"

At that moment, Tina stepped down and said to Meng Ying.

The two empresses started talking again.

This time, the topic they were talking about was much easier.

Meanwhile, Annie became the Eldest Princess' follower.

The Eldest Princess came to the front of the Dukes. Behind the Dukes was a large number of Counts.

"The Holy Flame Empire has obtained trade orders from all the provinces of the Eternal Night Empire. Our nobles are also trading with you. We have already built a city at the border. You can purchase the goods you need there. You can sell all the other regions except the six Eastern provinces."

The Eldest Princess had no intention of talking nonsense with these nobles.

Her way of talking was something the nobles liked.

The nobles were too polite. They did not like to be polite, but they had to say that unless they had the strength of the Eldest Princess.

The six provinces in the east were sold to the nobles of the Holy Flame Empire. Those six provinces were enough to fill the nobles of the Holy Flame Empire.

And the purchase price of the nobles of the Eternal Night Empire would be about double the purchase price of the nobles of the Holy Flame Empire!

Of course, the places where the two of them purchased goods were different. The nobles of the Holy Flame Empire purchased goods in their kingdom, while the nobles of the Eternal Night Empire would purchase goods in the border provinces!

"Also, the first batch of goods we prepared wasn't much. You need to hurry."

After the Eldest Princess said that, she left.

Annie followed closely behind her.

Annie had already expressed that she wanted to continue learning from the Eldest Princess. At the same time, she was curious about the Holy Flame Empire and was even willing to learn from it.

The Eldest Princess agreed.

That was why Annie had now become the Eldest Princess' little servant.

The Eldest Princess' words instantly blew up the nobles.

"The first batch of goods isn't much. No way. Housekeeper immediately sends a magic letter to the second son to ride on a flying magical beast and bring ten million gold coins to the border of the Eastern Flame Empire. Buy as many as you can!"

An earl immediately ordered his butler.

"Carlos, hurry up. Take your brother on the flying ship and take all of the family's gold coins to buy. Buy as much silk and porcelain as you can, and buy all the rest of the wine. You must hurry."

The other Marquise ordered his descendants.

On this millennium birthday, these nobles brought one or two people with them.

Therefore, after hearing the Eldest Princess say that the first batch of goods was not many, the nobles all became anxious.

Ordered to have the clan notified to send out flying ships with magic bags and gold coins to the border of the Flame Empire to buy goods!

Whoever was fast could buy the first opportunity.

One had to know that when the first batch of goods arrived in the Eternal Night Empire, it would cause a huge commotion and sell for a higher price!

From here, one could see the difference between the great nobles of the Eternal Night Empire and the great nobles of the Holy Flame Empire.

The nobles of the Holy Flame Empire were all count-type. Many of them did not even have magic bags.

However, the nobles who could attend the millennium birthday party, even the Count, had magic bags in their families.

Many of these nobles had flying ships!

The construction of the flying ship was indeed slow, but the Eternal Night Empire was a thousand-year-old empire. After generations of accumulation, not only were the nobles rich, but many of the nobles had flying ships.

Of course, the number of large flying ships was still quite small. The cost was too high, and ordinary alchemist workshops could not have the ability to build them.

Many of the nobles of the Eternal Night Empire were trading not by carriages but by magic bags and some flying ships.

Using magic bags with flying magical beasts, the efficiency was quite high.

In the Eternal Night Empire, the breeding of flying magical beasts had already become a large scale. As long as the nobles had gold coins, they could buy flying magical beasts.

In terms of efficiency, the nobles of the Eternal Night Empire were much higher.

Of course, once the airships produced by the Holy Flame Empire could meet the needs of the military, they would be available for civilian purchase. By then, the nobles and merchants of the Holy Flame Empire would probably be able to catch up to the nobles of the Eternal Night Empire.

On this day, the Imperial City of the Eternal Night Empire burned thousands of magic letters at the same time.

Soon after, a large number of flying magical beasts and ships flew out from the territories of the nobles of the Eternal Night Empire and headed for the Holy Flame Empire.

One by one, they advanced at full speed. They were fighting for every second. They all wanted to snatch the first batch of goods released by the Holy Flame Empire!

Chapter 366: Tina Empresss plan!

The banquet was still going on in the Imperial City of the Eternal Night Empire.

In the empire of the Continent of Gods, at the Emperor's banquet, the Empress would usually hold a glass of wine and say a few words to the big nobles in the Empire before taking a sip to show mercy and generosity.

However, Tina had never been like this at the banquet in the empire.

She rarely even showed herself.

However, this time, Tina spoke to all the Grand Dukes and some of the other Counts. The Duke and Count were flattered!

Tina rarely appeared, but her control over the empire was strong.

The Goddess of the Eternal Night Empire was her sister, and the Church was completely obedient to her. This was also the reason why the Church of the Eternal Night Empire felt weak.

However, the Church was not weak.

The Temple Knights were quite powerful!

The foundation of a thousand-year-old empire was very strong. It was very likely just the tip of the iceberg.

That was also one of the reasons why Empress Tina was confident to keep the Eternal Night Empire for the Eternal goddess in her dialogue with the Eternal goddess.

Of course, the main reason was that she was strong enough!

After a brief conversation with the nobles, Tina left the nobles' camp and started talking to Meng Ying again.

During the conversation, Tina felt that Meng Ying was young!

But Tina did not ask.

It was impolite to ask a woman's age.

In the relaxed atmosphere of the banquet, Empress Tina and Meng Ying chatted happily.

Empress Tina spoke a lot of knowledge about the Heavenly Realm for Meng Ying.

During the conversation, Meng Ying also talked about the process of establishing the Holy Flame Empire.

These matters were not classified. In the Holy Flame Empire, poems were describing these matters, as well as the deeds of the Lord of Flame.

Tina listened intently.

From time to time, she would ask some questions about the Lord of Flame.

As long as there were no secrets involved, Meng Ying would answer them one by one.

The two women chatted for hours until nightfall, the new program began.

That was a performance.

"Come, Honorable Meng Ying, sit with me!"

Tina Empress invited Meng Ying to sit with her.

In the eyes of the Eternal Night Empire, this invitation was quite an honor.

To be able to sit next to the empress was an honor!

In the past thousand years, no one had ever enjoyed such an honor!

Therefore, when Meng Ying sat beside Empress Tina, everyone was shocked once again.

In the hearts of these nobles, the importance of the Holy Flame Empire had risen!

Then, the performance began.

In the sky, a large amount of magical light appeared and illuminated the entire sky.

Dozens of dancers in long dresses appeared and danced.

Halfway through, the dancers flew into the sky.

This was a flying dance, praising the deeds of the gods.

"Wow!"

All the nobles present there exclaimed.

This was because these dancers were all seventh-ranked Magisters!

Dozens of class seven female instructors began to dance to celebrate the Queen's millennium birthday!

This could also reveal the power of the Eternal Night Empire!

"The Eternal Night Empire is really strong!"

Among the other empires that came to participate, people were whispering.

The flying dance lasted for half an hour.

Then, another dance started.

This was the dance of dozens of Knights wielding a large sword and wearing heavy armor!

At the same time, the Knights jumped into the air and jumped into the sky!

The crowd exclaimed again!

"So many Sky Knights!"

A low cry came from the other empires!

On the throne, Tina glanced at the people and from the empire. There was no expression on her face.

For this millennium birthday, apart from a large empire and a few small empires' emperors, the other empires also sent fewer people to attend the ceremony.

Tina was using this opportunity to show her strength.

"Honorable Meng Ying, let's continue our conversation. Once we reach the Sanctuary, if you're confident enough in yourself, don't be in a hurry to become a God. Once you've mastered 100% of the first rule, you'll reach the second rule. Continue to Master 100% of the second rule. The more rules you've mastered, the stronger you'll become a God."

Tina and Meng Ying chatted while enjoying the dance.

Meng Ying nodded. "My Lord's revelation is the same."

Tina asked curiously, "Your Excellency, you may be a little rude, but I'm really curious. What kind of God is the Lord of Flame? "From what you've told me, I feel that the Lord of Flame should be a powerful, benevolent, and decisive God. He doesn't show any mercy to the enemy, but he loves his people."

Meng Ying replied softly, "Your Excellency Tina, you are right. My God is indeed like this."

Tina asked curiously, "Honorable Meng Ying, does Lord of Flame have his Holy blood?"

Meng Ying frowned and thought for a moment, then said, "I'm not sure. My God's kingdom is not obvious, and I don't know if my God has his Divine system, but..."

At this moment, Meng Ying thought of the Holy Flame Empire to the north of the continent.

Meng Ying did not know about the Abyss, but she knew about the Holy Flame Elf Empire.

Meng Ying spent some time in the Holy Flame Empire and had a lot of conversations with Chen Xi and Lomina on the way to the Purple Gold Empire.

If it was before, Meng Ying felt that it was normal.

But now, after Meng Ying's understanding of the Heavenly Realm increased, Meng Ying suddenly realized that the other gods only had one country, but the Lord of Flame had two.

Most importantly, in these two countries, one was the Human Kingdom, and the other was the Elf Kingdom.

In the Human Kingdom, there were also orcs. However, since they were from the same kingdom, they could be ignored.

A God's Divine Light was relatively concentrated. When it was cast from the Heavenly Realm, it could only be cast into a kingdom.

No one would choose to cast the Divine Light on two different countries because the Divine Light could not be scattered.

There was no Divine ability to do that.

Here came the question. How could the Lord of Flame have two countries at the same time?

Unless...

It was achieved through the Divine system!

At this moment, Meng Ying thought of the Green Elves in the Elven Empire. While the Greenland Elves believed in the Lord of Flame, they also believed in an Elven goddess.

Meng Ying did not know that the Elves generally had dual beliefs or even multiple beliefs.

So, in Meng Ying's opinion, was the Elven goddess a member of the Lord of Flame's pantheon?

Tina said, "The rule of God is whether a God has more than one kingdom, and in other kingdoms, the people there have a double faith!"

"Ah!"

Meng Ying said in a low voice, "That means it's possible..."

Immediately, Meng Ying realized that this might expose the power of the Lord of Flame.

Tina's eyes flashed with shock. She said, "Don't worry, Your Excellency. I won't reveal anything, and I don't mean any harm."

The palace performance lasted for quite some time before it ended.

After this performance, there were a few more serious programs. It was lively until noon, and the banquet ended completely!

This Empress's birthday was completely over!

Meng Ying said goodbye to Tina and went back to rest.

"Honorable Meng Ying, when are you going to leave?"

When they parted, Tina asked.

Meng Ying said, "Tomorrow, I will come and say goodbye to you when we leave, Honorable Tina."

Tina nodded and said, "Yes!"

The two women said good night to each other before parting ways.

Tina returned to the palace. She was the only one there.

She came to the depths of the palace and reached out her hand, ready to open the passageway to all the rooms of the magic mirror.

But halfway through, Tina pulled her hand back.

"If you were to join a Divine system first to seek protection and then make a breakthrough, you probably wouldn't be willing."

Tina whispered.

She knew her sister too well.

This was why she stopped.

"But, what if I use my most devout faith as a price to find a fourth-ranked God to help you?"

Tina said to herself again.

"However, the Lord of Flame's appearance was very sudden, and his strength is not certain. Moreover, you might succeed in breaking through this time. The matter of faith is no small matter. Wait until I find out, and when you can't stand it, then makes a decision."

In the palace, Tina's voice slowly disappeared.

Chapter 367: A co-optation! A special race!

Tina was very cautious.

The decision of the Goddess of Eternal Night to break through to the fourth rank was a recent matter.

There were too many things that needed to be prepared for a breakthrough.

Therefore, it would take some time.

This period could be a few months or more than a year.

Although Tina felt that the goddess was dying, what if she succeeded? Of course, that was what Tina wanted to see the most.

But what if she didn't succeed?

If she didn't succeed, then it meant that the Goddess of the Eternal Night had perished!

That wasn't what Tina wanted.

If the goddess would die, even if Tina could protect the empire, it would be meaningless.

Although she was powerful, she was only powerful in the Continent of Gods. Once she would enter the Heavenly Realm, although she could form a powerful Godhood, it would take a lot of time to become a third-ranked God.

Once Tina would enter the Heavenly Realm, the empire would fall apart.

This was certain, even if she became a God, she couldn't protect the Eternal Night Empire unless she would become a God of the fourth rank.

An empire as powerful as the Eternal Night Empire was a kingdom that belonged to the gods of the fourth rank!

But now, the reason their sisters could own this kingdom was that the goddess of the Eternal Night had a good disguise, and because Tina was too powerful in the Continent of the Gods. But when Tina would enter Sky Realm, who would she expect to protect?

The head of Holy Magic Academy was also a saint, and he was Tina's uncle, but he was only a saint. He couldn't protect one of the top ten empires!

Therefore, once the Goddess of Eternal Night fell, the existence of the empire had no meaning at all.

Unless Tina did not enter the Heavenly Realm to avenge her.

Of course, Tina was confident that she could break through to the fourth rank within ten thousand years, but by the time she became stronger, the empire would no longer exist.

So, after comprehensive consideration, Tina decided that once the goddess of the eternal night would be defeated in Heaven and her life would be in danger, she would use her faith as a price to ask a fourth-ranked God to help protect her!

But this fourth-ranked God had to be chosen, and it had to be strong.

The ones who would attack the Goddess of Eternal Night Empire were at the peak of the third rank. A fourth-ranked God seemed to be enough to deal with it, but what if she also had a fourth-ranked helper? Therefore, she had to be strong enough.

Second, it had to be reliable!

Whether a God was reliable or not, it could be seen from the deeds of a God. However, one could not trust all of them because, in order to increase one's faith, many of the deeds of a God had the possibility of being put on a show. However, Tina was able to learn from the Divine Kingdom about Divine temperament and philosophy.

So, Tina decided to go to Flame Empire after a while!

Even though she had to wait until the goddess of the Eternal Night couldn't hold on any longer before choosing to take that step.

However, Tina had to be prepared. She had to determine which fourth-ranked God she wanted to ask for help.

Once she contributed her faith, after she became a God, she could become one of the gods.

But as long as the Lord of Flame was worthy of her faith, it was not a big deal.

Saving her sister was the most important thing!

The next day, Meng Ying came to bid her farewell.

"Honorable Meng Ying, after a while, I'm going to visit the Flame Empire. Does the Flame Empire welcome me?"

Tina asked.

Hearing her words, Meng Ying nodded in surprise and said, "Of course, you are welcome, Honorable Tina."

The two women chatted for a while before parting ways.

While Meng Ying and the Eldest Princess were on their way back by Airship, a large number of Airships arrived in the eastern region of the Eternal Night Empire.

In the middle of these flying ships, there were many flying magical beasts!

"Quick, speed up. We can't let Duke York's men beat us to it."

"Honorable, this is already the fastest speed. If we hurry, we won't have the energy to go back."

"If there's no energy, then there's no energy. As long as you get the goods, are you afraid you won't be able to return?"

On a flying ship, such a conversation was going on.

Following that, the flying ship shot out like an arrow.

"Shit, he cheated, increase the speed to the fastest, and don't be afraid of energy consumption!"

On the other ship, a Duke's descendant said.

The Airship also rushed out.

Seeing this, the other Airships could only ignore their energy consumption and chase after them desperately.

In the sky, this special competition was going on.

Everyone wanted to hurry to the Flame Empire and snatch its goods.

"Hurry up! I'll give you chicken legs every day!"

The flying ship could speed up regardless of the energy consumption.

But how could flying magical beasts accelerate?

It was useless to threaten him.

Like riding a horse, it was useless to use a whip.

How dare you fight a flying magical beast in the air?

Do you still want to live?

Therefore, they could only lure him!

"Ouch!"

The chicken leg was indeed effective. The flying magical beast quickly flapped its wings and became much faster.

"What's so good about chicken legs? As long as you surpass them, I'll find a female bird to accompany you every day..."

The descendant of another noble saw this and immediately used his ultimate move!

When the flying magical beast he rode heard that, it instantly exploded!

It was like it had been injected with chicken blood and eaten a few kilograms of stimulants. It rushed out like a cannonball. In a short period, it surpassed all the flying beasts and flying ships!

"Shit, it's still like this. Hurry up and catch up to it, I'll find your mother too..."

A descendant of a noble was about to talk about a female bird when he suddenly realized that he was riding a female bird.

The female bird could be used to motivate the male bird.

However, there was no way to use the male bird to motivate the female bird.

"I'll go find you a phoenix feather!" The noble descendant finally came up with a solution.

When the female bird heard that, her eyes lit up, and she rushed forward with her wings.

When the other noble descendants saw this, they all made various promises to encourage the flying magical beasts.

Flying magical beasts were generally more human and could understand what people said. Of course, they were difficult to speak to.

Normally, flying magical beasts above the sixth rank would have a high rank of intelligence and could say simple things.

As they got closer and closer to the border of the Flame Empire, this special aerial competition became more and more intense.

"Look, there are so many flying ships and magical beasts!"

On the ground, some of the caravans from the Flame Empire looked up into the sky.

The flying ships and magical beasts rushed towards the border of the Flame Empire like cannonballs.

"Damn, what are they going to do? Are they going to attack us?"

A person from the caravan.

Chapter 368: A co-optation! A special race!

"Shit, you want to attack us with such a small number of people? I'm afraid you don't know how strong our air force is." Another person said.

"Are these people crazy? They're flying so recklessly, and nothing is chasing them?" One man said in disbelief.

"I don't know. I think they must have gone crazy."

In the sky, the flying ships and magical beasts that were thought to be brain-infused were still frantically rushing towards the borders of the Flame Empire.

In a moment, a person would take the lead but immediately, another person caught up and because a flying ship flew too fast for a long time, the magic patterns on the sails were too heavy, and it caught fire.

"Hahahaha, I'll let you go all out. Now that it's done, even the flying ship is half-crippled. This is great!"

Those who did not win laughed.

On the flying ship, that noble descendant was furious!

However, no matter how angry he was, it was useless. He had to extinguish the fire quickly.

As long as a small portion of the sails could be saved, they could still fly back slowly. If they were completely destroyed, they could only find someone else to pull them.

Fortunately, the ship was fine.

A flying ship, the magic patterns on its hull allowed it to float in the air, but the speed of this flying ship depended on the sails.

This flight competition lasted for more than an hour.

Finally, a flying ship left the other flying ships and flying beasts far behind.

In the middle of his vision, a city appeared.

That city was a city built by the Flame Empire at the border, specifically for trading!

"Hahaha, I won, I won, this time I will make a big profit!"

The descendant of the noble laughed but before he could finish laughing, he saw a large number of flying ships suddenly appear in the sky from the white clouds.

There were quite a number of these flying ships. There were more than a dozen of them, each carrying a large number of crossbows!

Apart from that, there were also a large number of winged warriors who descended from the sky with sharp arrows in their hands.

"Stop, this is the air force of the Flame Empire!"

A winged warrior said.

The noble's descendant was so scared that he quickly slowed down and stopped.

"Brother, I'm Duke Walker's second son. I'm here to buy silk and porcelain. This is allowed by your Queen!" The noble descendant hurriedly said.

It wasn't easy for him to get first place, so he didn't want to be destroyed because of some misunderstanding.

"Go in, your range of activity cannot exceed that city." The winged man said.

"Okay!"

The descendants of the nobles landed on the flying ship.

That city hadn't been completed. It only had one wall built. This wall was on the side of the Eternal Night Empire.

However, there were already a large number of buildings and stalls in the city.

In this city, the official supply was from the Flame Empire.

Then, they all used magic carts to transport them here.

As for the nobles of the Flame Empire, in addition to the production of their territory, they would also spend money to buy large amounts of goods from the people.

Right now, the goods were in high demand, and the supply was short, so the purchase price was not low.

This would improve the economy of the commoners of the Flame Empire.

Meanwhile, the Flame Empire directly supplied the official goods produced by Yan Province to the nobles of the Eternal Night Empire. They could prevent these goods from appearing in the market of the Flame Empire, thus affecting the prices of goods supplied by the public.

Meng Ying considered everything

Hiding wealth from the people was the key to the prosperity of a kingdom!

As for many things, they were cleverly controlled by economic means, and the results would be quite good, allowing the Flame Empire to prosper even more.

There were many empty spaces in the city. After the noble descended, he immediately sent people to start purchasing.

"Hurry, hurry, hurry, grab all the goods."

The noble's descendant was holding a large magic bag. It was filled with gold coins!

Immediately, the second airship landed. The nobles on top also rushed down.

They quickly realized that a single person couldn't eat these goods.

Because this city was too large, it would not be able to escape in a short period. Moreover, the supply from the Flame Empire was not small.

"Take the silk first."

Even more, flying ships descended.

A hundred thousand gold coins worth of silk had attracted the attention of the nobles.

"Hahahaha, I got a hundred feet of silk, the harvest is too great."

"I got it too. Quick, let's grab something else."

The silk was the first to be robbed.

Following that was porcelain, it was quickly taken away.

Then, it was wine.

"Give me a thousand barrels. I need a hundred coolies. Who will do it?"

A noble descendant shouted.

Yes, the Flame Empire had prepared many coolies here.

These coolies were all recruited by the people.

How much could they earn? The Flame Empire would not collect taxes from them.

In order to snatch more goods, the descendants of the nobles all offered high prices, making these coolies earn a lot of money.

Therefore, along with the booming trade in this city, it even supported tens of thousands of coolies!

Although these coolies earned a lot of gold coins!

In less than an hour, all the wine was snatched away.

One must know that the Flame Empire had prepared over a hundred thousand barrels of wine this time.

Some of the noble descendants who were filled with flying ships and magic bags began to return.

However, the descendants of other nobles were worried.

"I didn't get the silk, I didn't get the porcelain, and I only got a few dozen barrels of wine. How am I supposed to go back and pay it off? It doesn't matter; there are still so many good things in the Flame Empire. Just fill up the flying ship."

A noble's descendant snatched sorghum wine, tea, fruit wine, sugar, and so on.

Soon, the descendants of the nobles realized that these things were of good quality!

The descendants of the nobles who hadn't been able to reap the rewards immediately snatched all these things!

Only three hours had passed and the large number of goods prepared by the Flame Empire was all snatched away.

A large number of coolies smiled and counted the gains today.

Meanwhile, the nobles who were rushing over were worried.

"Wait; let's see how long it will take for the Flame Empire to replenish its supplies." Some noble descendants thought.

Chapter 369: Darkness God! Meet the Elven goddess!

The whistle sounded.

"Huh, what is that?"

The descendants of the nobles who were waiting in the border city of the Flame Empire looked into the distance. There was a huge creature that was approaching quickly.

This behemoth was too long. It seemed to be moving on a fixed track, and its speed was extremely fast.

This was the magic vehicle of the Flame Empire.

It was similar to a train, but the manufacture of a magic vehicle involved many magic techniques. In terms of technology, it was much more advanced than a train.

Two to three hundred noble descendants were waiting.

They stood up one after another, and soon, they saw the magic vehicle approaching.

Soon after, the carriages opened.

The eyes of these noble descendants were instantly attracted by the things in the carriage!

That was a large number of goods!

Silk, tea, porcelain, wine, and lots of potatoes and other crops.

"Grab it!"

Someone shouted.

All of a sudden, the descendants of the nobles lost their noble demeanor and rushed toward the magic cart.

The magic cart was snatched away before it could be delivered.

The nobles first grabbed the goods, then looked for the person in charge of the Flame Empire to calculate the price and pay.

No one dared to escape. That was meaningless. There were so many combat flying ships and winged people in the sky. Moreover, if they do that, they might be pulled back in the future and lose the right to come here.

The magical vehicle, which was more than twenty carriages in length, finally made every one of the two hundred noble descendants more or less gain something.

As long as they would return to the Eternal Night Emperor and sell the goods at a higher price, they would earn a huge profit!

"We need to send a few people to stay here to buy goods for us. By the way, I think there seems to be a rental warehouse in the city. There seems to be magic inside, so we can rent one."

A noble descendant thought.

More than one person noticed this.

A large number of noble descendants began renting warehouses in the city.

Then, they left behind some of their core confidants, who were in charge of purchasing the goods of the Flame Empire.

This city had just been half-built, and it had already started to earn a lot of money for the Flame Empire.

"The situation seems to be good. All of our goods have been sold."

Another day passed. After Meng Ying returned there, she found out about the situation in this city.

"It seems like this city doesn't have a name yet, right? Let's call it Friendship City."

Meng Ying said.

Tina gave Meng Ying a good feeling. They already had a friendship, so it was called Friendship City!

"That's a good name. Now we can dispose of a lot of agricultural products." The Eldest Princess said.

Recently, the Flame Empire's crops had grown too fast.

It couldn't be helped; LVL 7's title of 'Flame of Civilization' was too terrifying.

It was equivalent to every single crop having a magister who came to help them grow. It wouldn't be a problem even if they were cooked three times a year.

The immediate consequence was that the Flame Empire was now overproducing.

Especially in Yan Province, where there were mountains of potatoes and grapes everywhere. Tea trees were the same, and there were not enough people to pick them up.

Fortunately, a lot of prisoners had recently been imported from the three kingdoms and the Purple Gold Empire, which slightly eased the shortage of labor.

"Hmm, Eldest Princess, you're still here. I'm going to the Purple Gold Empire."

Meng Ying said to the Eldest Princess.

"Okay!"

The Eldest Princess nodded.

The Purple Gold Empire was still stable. On the surface, it looked stable, but there might be some hidden schemes.

The God of the Purple Gold Empire was not so easily defeated. In the Purple Gold Empire with a population of 200 million, there were all kinds of people. That God must have some hidden believers.

In addition, as long as their God offered some benefits to some big nobles, such as increasing their lifespan, these nobles would be tempted.

This was the difficulty of conquering a small empire.

Fortunately, the three laws of the Flame Empire destroyed the foundation of the belief of the God of the Purple Gold Empire.

Otherwise, the problem would become a hundred times more troublesome!

Meng Ying and Qing Ling were not in a hurry, they were waiting for those restless people to jump out of the Purple Gold Empire.

Once the foundation of faith was destroyed, the God of the Purple Gold Empire could not cause too much trouble.

The Flame Empire was not ordinary. Meng Ying was not afraid of the God of the Purple Gold Empire!

At the same time, in the Abyss, three days passed.

Lin Yan's analysis of the divine kingdom of the Winged Demon God had completely ended.

The data of the entire Divine Kingdom appeared in Lin Yan's godhood.

Lin Yan let out a light breath.

It was boring.

Fortunately, he could listen to the Holy Maidens' prayers every day. He could also see what the Holy Maidens were doing to relieve their boredom.

Besides Lin Yan, as the owner of the Divine Kingdom, the Winged Demon God could sense that Lin Yan had already finished his analysis.

"He won't kill me, right?"

The Winged Demon thought.

The moment he thought of the two demon gods who had been burned to death by Lin Yan, Winged Demon trembled.

"I can use him to test my Divine ability."

Lin Yan thought for a moment, then opened the system and found the Divine element in his godhood.

The display of the Divine system was still like a tree branch.

The highest place was Lin Yan.

With a thought, Lin Yan's Divine system became another display method.

From the highest place, it became the most central place.

Chapter 370: Darkness God! Meet the Elven goddess!

The two of them had the same meaning. It was just that they could not be viewed from an angle, one was from the perspective of status and strength and the other was from the position of the Divine Kingdom.

The center of every Deity was the Divine Kingdom of the Master of the Divine System.

The Master of the Divine Family was the Master of the Divine Family, he was not a Sovereign.

In reality, a Divine Master did not represent a realm, but only a status.

He was fairly close to a Master God. To be able to survive a battle between Master Gods, however, there was a world of difference between his power and that of a Master God because the peak of the third rank could start to create their Divine system, the peak of the third rank could be considered a Divine Master as long as they established a Divine spark.

Of course, a Divine Master at the peak of the third rank and a Divine Master at the fourth rank were two different things.

A third-rank God had 11-15 ranked godhood and was a middle-ranked God while a fourth-ranked God had a 16-20 ranked godhood and was a high-ranked God.

The difference between these two wasn't a little.

Lin Yan was in the center of the transformed Divine system diagram.

The second round was the Holy Maidens of Lin Yan.

However, the Holy Maidens' names were all gray, indicating that they had not been activated.

On the third lap, there was a name: Sevilla Weaving (25%), this could be the Elven goddess.

Her progress was 25%, which was only a quarter. This was a little unexpected for Lin Yan.

Lin Yan looked at some of the Winged Demonic Gods. He didn't plan to bring the Winged Demonic God to this Divine element.

Many Abyssal creatures did not differentiate between genders. The same was true of the Winged Demonic God. It did not even have any organs related to reproduction on its body, because they were born directly from the Abyss.

Only the Succubus was an exception.

However, this fellow was a dark race creature.

At this moment, Lin Yan noticed that the pattern of the Divine system could be flipped.

He flipped it over.

After which, Lin Yan found out, on the front was the Divine Light system, the Heavenly Realm Divine system.

On the back was the dark race God!

Lin Yan decided to give it a try and place the Winged Demon on the outermost circle of the Divine system.

He tapped the icon on the outermost circle, and then a special imprint was created.

Lin Yan understood what this imprint was.

After the Divine imprint was created, it was bound tightly by the Divine system.

"Forget it." Lin Yan thought.

This Winged Demon was too weak.

He was only at the first rank of the Divine Realm.

Furthermore, it was a Demonic God, but it was a weakling amongst Demonic Gods. Lin Yan did not like it much either.

It was better to burn it and turn it into evolutionary points.

Thinking up to here, Lin Yan's flames flapped violently, completely igniting the Winged Demon God and its Divine Kingdom.

Under Lin Yan's violent burning, the Winged Demon God didn't last long before it was completely burned.

"I haven't leveled up."

Lin Yan thought.

However, after the Divine Kingdom was completely burned, Lin Yan rose to another rank.

Now, he was a third-ranked Endless Flame!

After burning the Divine Kingdom, Lin Yan's understanding of the Divine Kingdom deepened.

However, this was the Divine Kingdom of the Abyssal Demon God.

It was different from the Divine Kingdom of the gods of the Heavenly Realm.

After Lin Yan finished referring to the Divine Kingdom of the Abyss Demon God, he still needed to refer to the Divine Kingdom of the Heavenly Divine systems. Only in this way could he build his Divine Kingdom.

"Where is my Divine Kingdom going to be built?"

Lin Yan thought.

He had yet to go to the Heavenly Realm.

The barrier of the Heavenly Realm was very firm.

The existence of the barrier made it very difficult for the gods to descend.

"The barrier of the Abyss was also strong, but I still created a small hole."

Lin Yan thought.

The barrier of the Heavenly Realm was different from the barrier of the Abyss. However, since Lin Yan created a small hole in the barrier of the Abyss, he could be able to use the same method to deal with the barrier of the Heavenly Realm, right?

However, there were two key points: Natasha and Demon Abyss!

Without Natasha and the Abyss of Demons, Lin Yan could not do it easily.

In other words, the Abyss itself had a loophole. This loophole was a crack in the Abyss once every twenty years.

It was the Heavenly Realm.

If Lin Yan revealed his fifteenth-ranked godhood on the Continent of Gods, he would soon be expelled from the Upper Heavenly Realm, but he was afraid that it would be easy to go up and hard to go down.

Yes, his godhood was different from other gods. He could hide it through the system.

As for the other Divine sparks, even if they were ten percent, they would not be able to hide them, so they had no choice but to go to the Heavenly Realm.

When Meng Ying met Empress Tina, Lin Yan had used Meng Ying to learn about the situation in the Heavenly World. But that was only a rough picture.

"Let's meet with the Elven Goddess first. When the gods release their power and consciousness, there will be a tunnel. If I can capture this tunnel, I will be able to think of a way to create a special Heavenly Realm tunnel."

Lin Yan thought.

Thinking of this, Lin Yan turned his gaze to Chen Xi of the Holy Flame Empire. Then, Lin Yan gave Chen Xi enlightenment.

"Anna, Elven..."

After Chen Xi received Lin Yan's revelation, she quickly found the Green Elves' Clan Chief Anna.

"What's wrong, Queen Chen Xi?"

Anna was taking care of the garden.

She planted flowers in the small forest where she lived, which made the forest full of flowers.

Chen Xi descended and said, "The flowers you planted are really beautiful. By the way, Anna, my God has just revealed to me that he wants to see the other Elven goddess you believe in through you."

"My God wants to meet me... Green Goddess?"

Both of them were gods that she believed in, so she almost subconsciously said that she wanted to meet him.

That was too awkward.

Anna said, "Of course. Leave it to me."

Chen Xi nodded and said, "Then I'll trouble you."

Anna poured a cup of scented tea for her and said, "Queen, you wait here for tea. I'll pray to my Goddess."

After saying this, the beautiful Green Elf walked into the flowers and prayed to the Elven goddess!

Lin Yan did not have a way to contact the Elven goddess directly. He could only use this method.
