

Flames 371

Chapter 371: Surprise of Elven Goddess!

In the Divine Kingdom filled with Holy Light, the Elven goddess sat on a swing made of fresh flowers. Besides the swing, two little Elves flapping their wings were responsible for swinging the swing.

The Elven goddess held a thick book in her hand.

Yes, what she was reading was naturally not an ordinary book.

This was a famous "Book of Rules" in the Heavenly Realm.

This Book of Rules contained a large number of laws that were simulated with Divine energy, as well as an introduction to each of the laws.

This would allow the gods of the Heavenly Realm to have a deeper understanding of the laws.

Of course, even if a God understood it, it would not be easy to master a new rule.

This book wasn't everywhere. It wasn't easy to buy, and it was also quite expensive.

The Elven goddess was very studious.

The strength of a God depended on many aspects.

Divine energy was also an extremely important aspect. It could be said to be one of the cores of a God.

The higher a God's Divine spark was, the higher his Divine energy would be.

In fact, the understanding of a God towards the laws was also within his Divine energy.

All attacks and defenses required Divine energy.

Apart from making his Divine power even more advanced, this God could also increase his understanding of the laws through learning. It was also a way to increase his strength. That was why the Elven Goddess had only a few Elves' beliefs. Her habit of reading books made her not weak.

"The moon has risen. I can rest for a while."

After reading the book for a while, the Elven goddess lifted it up.

The sun had already disappeared, and the moon had risen.

The Divine Kingdom was still filled with Holy Light.

In reality, the Elven goddess with her strength did not maintain these Holy lights. Instead, they relied on the energy of the sun and moon.

She could feel the difference between the two energies.

The Elven goddess closed the Book of Rules and prepared to rest.

At this moment, her sharp ears moved because she heard Anna's prayer!

The Elven goddess' beautiful eyes instantly widened.

Inside the eyes, there was a look of surprise!

She had been thinking about the Lord of Flame every day. She had never dreamed of seeing him again.

As a goddess who had lived for a long time, the Elven goddess did not know what poison she had been poisoned with.

Recently, her mind had been filled with the Lord of Flame.

However, as a goddess, she had always been reserved as a goddess, and Lord of Flame was incomparably cold. The Elven goddess felt that even if she took the initiative to extend an invitation, the Lord of Flame might not even pay attention to her.

But now, the Lord of Flame took the initiative to meet her.

The Elven goddess gently touched the air, and the Air formed a mirror that reflected her face.

After a while, the Elven goddess nodded in satisfaction.

Yes, there was nothing to be dissatisfied with.

She was a goddess, and she was 100% perfect!

"Should I respond to Anna now, or should I wait for a while?"

The Elven goddess thought.

In the Continent of Gods, after a believer prayed, even if a God would respond, it would take some time.

First, there was something similar to a signal delay. After all, the Heavenly Realm was extremely far away from the Continent of Gods. Although there was a special channel for the thread of belief, it would take a little time for a God to open the channel to respond to believers.

The second was that some gods were used to letting their followers wait for some time before giving a response. Only in this way could the dignity of this God be revealed!

However, this time, the Elven goddess did not wait.

Instead, she responded directly.

"The goddess responded to me. The goddess seemed to be very happy. She agreed."

In the Holy Flame Forest, Anna spoke to Chen Xi.

In the current Holy Flame Forest, after a few months, the number of Elves had reached over 1.7 million.

More than 1.7 million Elves had yet to reach the limit of the Holy Flame Forest.

The Holy Flame Forest could provide more than two million Elves with freedom.

The Elves had completely settled down. They took care of their homes and enjoyed a peaceful life.

Every Elf was filled with gratitude towards the Lord of Flame.

Even the Elves who had joined later felt disbelief when they heard about the history of the Holy Flame Forest. They were also shocked by the power of the Lord of Flame.

In the City of Holy Light, the gigantic Tree of Life was still growing firmly.

Soon, Chen Xi discovered that the Tree of Life was growing much faster than the Tree of Life in the Rocky Forest.

This was the effect of the Flame of Civilization title.

Chen Xi had thought that something was wrong with the Tree of Life, but after checking, Chen Xi found that the Tree of Life was normal.

Every day, the rapidly growing Tree of Life produced new Elves.

These Elves were naturally female Elves.

Every day, Chen Xi would stay under the Tree of Life for a while, and then spend a lot of time in the exquisite shrine.

After the Elven goddess responded.

After another half a day, Chen Xi and the leader of the Greenland Elves, Anna, came under the Tree of Life and prayed.

As Chen Xi prayed, a ball of fire appeared above the Tree of Life!

"My Lord has descended."

Chen Xi's heart was filled with joy.

Of course, to her, this was only the arrival of the Lord of Flame's consciousness.

But as long as she was closer to the Lord of Flame, Chen Xi would feel extremely happy.

Anna was also praying.

Next, a passageway opened above the Tree of Life.

Then, an Elf with wings on her back flew down.

This Elf was a miniature version of the goddess of the Elves. This was an Elf that she had used her Divine energy to carry a thread of consciousness.

"The goddess has descended."

Anna also felt it.

Chen Xi also looked at her, but neither of them raised their heads to look at each other.

Above the Tree of Life, the Elven goddess transformed into Divine energy and flew to the side of the flame.

Then, she received Lin Yan's consciousness fluctuation.

"I want to see the Divine Kingdom?"

The Elven goddess was instantly surrounded by an even greater surprise!

Chapter 372: Heaven Realm passageways! Entering the goddess Divine Kingdom!

If it was another God that made this request, the Elven goddess would only feel that the other party had no intentions.

Normally speaking, every God would be cautious about letting other gods enter their Divine Kingdom.

The Heavenly Realm was relatively peaceful. It was not as chaotic as the Abyss, but it was only relative.

What if other gods had malicious intent?

However, for some unknown reason, the Elven goddess did not show the slightest worry after hearing the Lord of Flame's words. Instead, she was filled with endless joy.

The Elven goddess wasn't an idiot who had lost her mind.

She had her judgment regarding the Lord of Flame's temperament and personality.

The Elven goddess was already familiar with the deeds of the Lord of Flame.

Of course, it was only related to the Elves.

For example, to release the curse for the Night Elves who were deeply cursed, he even didn't hesitate to fight against the powerful God of Darkness and repeatedly dissolve the backhand of the God of Darkness.

For example, providing the Elves with an endless stream of Holy flames allowed the Elves to cultivate quickly the Holy Flame Forest and build such a powerful empire.

Moreover, the Elven goddess knew that the Lord of Flame had a powerful kingdom in the south.

When the Holy Flame Elven Empire had been established and Meng Ying had sent a congratulatory gift, the Elven goddess had just placed her gaze on it, so she knew this.

The Elven goddess knew a lot about the Lord of Flame.

In her eyes, the Lord of Flame was a powerful, cold, yet generous, powerful God!

After the last close encounter, the Elven goddess felt an irresistible attraction from the Lord of Flame.

All sorts of factors added up, causing the Elven goddess to have such a reaction.

Moreover, the Elven goddess had long wanted to invite the Lord of Flame to her Divine Kingdom.

However, as a goddess, how could she speak?

"That's great. However, I should be more reserved... Vera, you're a goddess."

The Elven goddess said to herself.

After that, she said to Lin Yan, "Respected Lord of Flame, I, the goddess of Greenland, Vera, welcome you to visit my Divine Kingdom."

"Oops, am I being too formal..."

After saying that, the Elven goddess felt that she did not express it well.

Like a flame, the conversation between Lin Yan and the Elven goddess Vera was naturally not through words.

It was through spiritual fluctuations.

The Elven goddess quickly gave up on her entanglement and sent coordinates over.

That seat was the entrance to her Divine Kingdom.

However, these coordinates were useless to Lin Yan. This was because Lin Yan did not enter the Divine Kingdom of the Elven goddess from the heavenly world but the Continent of Gods.

Entering the Divine Kingdom from the Continent of God was easier than entering the Heavenly Realm.

This was because a God could open a passage to descend power and consciousness, so they could also go against this passage and enter the Divine Kingdom of that God.

The prerequisite was that God did not seal the passageway and let you in.

However, this method would cost quite a bit.

When Lin Yan was communicating with the Elven goddess, he was already analyzing the passage that Vera had formed.

A large amount of data was gathered in the godhood.

Lin Yan suddenly realized that the barrier of the Heavenly Realm was not a problem with his flame form.

Even Divine systems could release power from the Heavenly Realm to the extent where their consciousnesses were too powerful. It was just that their bodies were too powerful to descend.

As for Lin Yan's flame form, it could also be seen as some sort of power that could descend upon him.

"It might be possible."

Lin Yan thought.

The Heavenly Realm and the Abyss were indeed different.

This kind of difference was beneficial to Lin Yan.

At the thought of this, Lin Yan once again released a spiritual fluctuation in Vera.

Vera thought.

Then, she received Lin Yan's spiritual fluctuation.

The Lord of Flame wanted her to open the passageway between the Divine Kingdom and the Continent of God so that the Lord of Flame could directly enter her Divine Kingdom...

Vera's heart was immediately filled with surprise.

"Could it be that the Lord of Flame isn't planning to enter my Divine Kingdom with his true form?"

Vera thought.

Some gods only needed a Divine incarnation to communicate with other gods, just like the Elf that Vera had transformed into. It was just a drop or two of Divine energy and a wisp of consciousness.

However, Vera could not understand why the Divine Energy Incarnation had such a small effect. If the Lord of Flame wanted to communicate with her, he could just communicate like this. Why would he use the Divine Energy Incarnation to enter her Divine Kingdom?

The shape of Lin Yan's flame was extremely special. Even Vera could not tell that the ball of fire was Lin Yan himself. Instead, she thought that it was just the power that Lin Yan had sent down.

The power of a Divine system was various. This was related to the laws and power that a Divine system grasped. Flame, lightning, water, ice, wind, and so on were all possible.

However, due to her trust in the Lord of Flame, Vera directly used her Divine energy to open a tunnel.

It was not difficult for pure energy to pass through this passage.

It would be extremely difficult for a Divine system to pass with his body.

After this passage was opened, it could not exist for a long time. Every time it was opened for 0.1 minutes, the cost would be many times greater.

It wouldn't take long for the gods to release their power, miracles, or consciousness.

Therefore, Lin Yan did not waste any time.

The moment the tunnel was opened, Lin Yan threw him into the tunnel and headed towards the other side of the tunnel.

Three seconds later, Lin Yan felt the barrier of the Heavenly Realm.

At this moment, as time passed, the path that Vera had opened up through Heaven's Barrier was rapidly shrinking.

In the Divine Kingdom, Vera had once again used a lot of divine energy to widen the tunnel.

Lin Yan didn't stop there and directly threw him into Vera's Divine Kingdom.

Chapter 373: God embodied! Charmed at the first meeting!

Vera's Divine Kingdom was very large.

This Divine Kingdom was divided into two ranks. The upper rank was Vera's residence. There were grasslands, flowers, forests, rivers, and lakes. The area was quite large.

In the Kingdom of God, the concept of the area was different from that understood by the gods.

For example, Vera could shrink her Divine Kingdom at any time to make it stronger.

On the lower rank was the residence of many Elves. These Elves were taking care of the Divine Kingdom for her, making it an entire place.

As for these Elves, many of them were from a long time ago. After the Elves that believed in her died, the Green Elven Goddess used all her strength to lead their souls to the Divine Kingdom by using her Divine energy to create new bodies for them, giving them a new life!

From a certain point of view, these Elves were another form of the Holy Spirit.

Don't look down on them. They were elves with formidable battle prowess.

Yes, they were all women because Vera could not let a man live in her Divine Kingdom.

She had never even let the opposite sex enter her Divine Kingdom!

Lin Yan was the only exception!

The Elves had a long lifespan. The weakest Elves could live for thousands of years. The stronger Elves could live longer, but the Elves would not die.

If they hadn't broken through to the next realm to increase their lifespan before the end of their lifespan, even gods wouldn't be able to save them.

Connecting their souls to the Divine Kingdom wasn't an easy task. It wasn't a small cost.

However, Vera still led a large number of Elves up.

Therefore, there were quite a number of Elves in the Divine Kingdom.

Of course, these Elves could also grow bigger. In the Divine Kingdom, they had eternal life.

Even if Vera died, as long as the Divine Kingdom was not destroyed, they could still live in the Divine Kingdom forever.

Of course, they could also leave the Divine Kingdom but they could not leave for too long.

Moreover, even though they were highly devout towards Vera, they didn't have a body of flesh and blood. Their faith was far inferior to that of the people of the continent.

Even the most powerful Elves could only contribute a tenth of the faith of a commoner in the Continent of Gods.

This was also the reason, why even though there were millions of family planning geniuses in the Divine kingdoms of some gods, they were still fighting for the faith of the Continent of God.

The cost of channeling a human with a flesh and blood body into the Heavenly Realm was so great that it completely outweighs the cost and the more powerful a human is channeled, the greater the cost.

It was better to fight for faith on the Continent of Gods.

If they could cultivate a few devout and talented believers in the Continent of Gods and guide them to become gods, they would be a member of their godhood, and they could also contribute to their faith.

This was also why the gods had nurtured the Holy Son and Holy Maiden.

"The Divine Kingdom of the gods of the Heavenly Realm is indeed different."

When Lin Yan arrived in Vera's Divine Kingdom, he felt a huge difference.

Vera's Divine Kingdom was filled with an exquisite aura.

Its beauty was completely different from the Kingdom of the Abyss Demon God.

A large number of Heavenly Realm laws worked in the entire Divine Kingdom, not the same as the Abyssal Demon God's Kingdom, where chaotic laws ruled everything.

From the Divine Kingdom of a God, one could see the temperament, personality, and power of God.

Holy Light was everywhere in Vera's Divine Kingdom. This kind of Holy Light had a frequency.

In other words, even though her Divine Kingdom always looked like it was daytime, in reality, it was still divided into day and night.

This time was the same as the time when the sun and moon alternated.

When the night came, the Divine Kingdom was still filled with light, but as long as you close your eyes, the light in the Divine Kingdom would not affect you at all.

If he wanted to sleep, he could sleep well.

Vera's favorite thing was sleeping in the clouds.

If a God was willing to stay awake for a thousand years, it would be fine. However, sleeping was a special mechanism for a God. It was still very useful.

After some gods were injured, they would recover their strength by sleeping. That was equivalent to shutting down all the consumption of their bodies, allowing their strength to recover over a long period.

From Vera's Divine Kingdom, Lin Yan read about the peaceful aura. Vera was a typical goddess of the Elves, she did not like war.

For example, if she felt threatened, she could seal up the Divine Kingdom. Living in the Divine Kingdom by herself for hundreds of years would not be boring.

Of course, if someone was overbearing, she wouldn't retreat.

Vera was not weak. From strength to character, she was not weak.

"The Lord of Flame is here!"

After the tunnel was closed, the Elf disappeared and returned to Vera's godhood.

Vera flew over and looked at Lin Yan.

At this moment, Lin Yan was still a ball of flame.

Vera still could not see Lin Yan's form. She thought that it was the incarnation of Lin Yan's Divine energy.

Now, Vera was her own body, not just a wisp of consciousness like the last time she was on the Tree of Life.

Under the close feeling, she felt that Lin Yan's soul was more attractive to her.

As a result, she was going to speak, but she was stunned there and looked at Lin Yan in a trance.

Lin Yan was still observing her Divine Kingdom.

As a result, the two entered a strange state of stillness.

In the sky, a few Elves pushed a white cloud and landed in the lake. They prepared to take a bath in the white cloud.

Well, clouds could also be used to take a bath.

Under the care of the Elves, Vera's Divine Kingdom was so beautiful, neat, and clean.

Of course, the lake was not simple. It was a kind of rare water that Vera had spent a lot of time collecting.

The method of collection was also very simple.

She planted a special tree in the Divine Kingdom. Whenever night fell, the tree would stretch out its leaves to receive the moonlight. As time passed, the leaves were covered with dew.

The water on the dewdrop was the Dew of Heavenly Realm.

In the morning, when the sun rose and the first ray of sunlight shone down, the Heavenly Dew would have the energy of the sun and the moon at the same time. Then, the leaves rolled up and brought back the special Heavenly Dew.

After a long period, this special Heavenly Dew formed this lake, and its area was slowly expanding.

If he took a bath in this special water, it would be of great benefit to his body.

He couldn't feel the benefits for a while, but if he persisted for a long time, he could feel them.

The cloud was not simple. It was collected by Vera through some special methods.

Vera used to sleep inside, which could slowly increase her understanding of rules.

For gods, as long as there was an increase, it was a good thing. Whether they were slow or not was no problem because their time was almost limitless.

After all, the Heavenly Realm was not an Abyss. No matter how weak a God was in the Heavenly Realm, as long as he did not seek death and hide, he could slowly grow up.

Of course, to grow quickly, conflict and war were inevitable.

The two people's static state lasted for a long time.

"Oops, why am I in a daze?"

The Elven Goddess finally noticed her abnormality.

Well, it was some Elves who secretly reminded her.

After all, her performance just now... was too much like a flower addict.

Although the Lord of Flame was now in the form of a ball of fire, what attracted her was not the appearance of the Lord of Flame, but the soul of the Lord of Flame.

"I wonder what the Lord of Flame looks like."

The Elven goddess thought about it more than once.

"It's a pity that the main body of the Lord of Flame hasn't arrived."

This was also what the Elven Goddess regretted.

She let go of her worries and said in a gentle and clear voice:

"Dear Lord of Flame, welcome to my kingdom!"

The change in the state of the Elven Goddess also affected Lin Yan.

Lin Yan thought for a moment and decided to transform into a Divine state.

The Elven Goddess was quite sincere to him.

Thinking of this, Lin Yan activated his godhood.

Then, energy and matter began to transform.

The Elven Goddess saw a man emerge from the flame.

In less than three seconds, the flame disappeared.

A man with an incomparably handsome face and a pair of starry eyes appeared in front of her.

Needless to say, the Goddess knew that this man was the Lord of Flame!

"Ah~"

The Elven Goddess covered her mouth and stared at Lin Yan blankly and her beautiful eyes were shining brightly.

More than once, she had imagined the face of the Lord of Flame.

But only now did she realize that everything she imagined was far different from the true appearance of the Lord of Flame!

As soon as they met, the Elven Goddess was captivated by the Lord of Flame!

The difference was that in the past; she was attracted to the Lord of Flame's soul.

Now, she was not only attracted by the Lord of Flame's soul, but also by the Lord of Flame's appearance!

So much so that she almost froze again!

Chapter 374: Stayed in the Divine Kingdom! Their respective situations!

"Vera."

Lin Yan spoke.

This was the first time Lin Yan had spoken since he had reached the Divine Body state.

He had not spoken for too long.

When the flame was in its form, it could only send out spiritual fluctuations.

They did the revelation to the Holy Maidens through the Divine Spark, so it was not a word.

So much so that the three words he said sounded extremely hoarse.

This hoarse voice gave Lin Yan's voice a special magic power!

This time, Vera who had finally regained her senses almost became stunned again.

Not only was his soul so charming, his appearance so handsome, even his voice so charming!

Vera felt that she was poisoned!

Moreover, the poison was too deep, completely unable to extricate itself!

"Lord of Flame, what should I call you?"

Vera suppressed her emotions and said.

Lin Yan said indifferently, "You can call me... Lin Yan!"

Lin Yan!

This was the first time Lin Yan had revealed his name.

Of course, this was not Lin Yan's true name.

God's True Name wasn't a name. It was just a special type of true name mechanism.

Lin Yan's true name had already been deeply hidden when he transformed into godhood. His true name was also hidden in a wonderful place, unlike other gods.

It was hidden within his flame core.

One of the important reasons why the other gods hid their true names was that if they weren't separated, it would be easy for people to capture some fragments of their true names when it came to battles involving some laws.

When a True God's name was broken, this god's handle was equivalent to being controlled by someone.

Lin Yan's True God Name was quite complicated.

It was a total of 36 words.

Of course, True God's Name couldn't be lengthened.

Every word involved the power of laws.

In other words, every word that was added would require a great deal of power from this God.

As for the True Name of God, it was changed by a God when his godhood was successfully condensed. How strong would a normal God be when his godhood was successfully condensed?

Therefore, the true name of a God was only seven or eight words and a little more than ten words.

Only a Third Ranked Saint Realm God would have a true name of more than twenty words.

As for Lin Yan, he had an LVL 15 godhood as soon as he converted his godhood, there were almost no people in the entire Heavenly Realm who could have 36 God names.

Lin Yan hid his True God's name in the core of the fire, not worried about the slightest risk of leaking it.

His flame form and Divine Body form were two different power systems. There was no possibility of revealing his true name when fighting in flame form.

The name of God itself was usually the same as when God was a mortal.

For example, the Star God Isaac was his name when he was a mortal.

In short, the name of a God was a branch of learning. There were even special rules for the true name. Everything related to God was profound!

"Lin Yan."

Vera silently recited the name in her heart.

Of course, even if she knew Lin Yan's name, Vera would still call him the Lord of Flame for a long time.

Even though she had a good impression of Lin Yan, in Vera's eyes, Lin Yan was a powerful God that far surpassed her.

Generally speaking, in the Heavenly Realm, powerful gods were called weak gods by their original names.

However, weak gods were called powerful gods. They were usually called gods to show respect!

"Thank you, Vera. I hope I can stay in your Divine Kingdom for a while. I need to analyze your Divine Kingdom. I wonder if you are willing."

Lin Yan asked again.

Staying in her Divine Kingdom for a while?

Instantly, the Elven Goddess Vera felt as if she had been hit by happiness.

In the past few months, Vera had dreamed of meeting with her Lord of Flame again.

It was a pleasant surprise for her to have the Lord of Flame as a guest in her Divine Kingdom!

But now, the Lord of Flame was staying in her Divine Kingdom for some time!

This was something that Vera would never dream of!

"Of course, I'll ask them to prepare a place for you. You can live on the upper rank. You can see the entire Divine Kingdom God Council here. I'll open up the permission to the Divine Kingdom God Council for you to analyze."

Vera said excitedly.

Lin Yan nodded and said, "In that case, thank you."

Just like that, Lin Yan stayed in Vera's Divine Kingdom. He still maintained his Divine State. Analyzing Vera's Divine Kingdom was different from analyzing the Kingdom of the Winged Demonic God.

Lin Yan could destroy the Divine Kingdom of the Analytic Winged Demon God as he wished. He could destroy the Divine Kingdom so that he could see the rules inside.

But Lin Yan could not destroy Vera's Divine Kingdom.

Therefore, he was destined to stay in Vera's kingdom for some time.

This was what Vera wanted the most.

In order for Lin Yan to better observe the entire Divine Kingdom, Vera specifically raised the upper echelons of the Divine Kingdom.

She built a flower hut for Lin Yan by the lake.

However, Vera soon realized that Lin Yan would not enter the flower house at all. He would spend most of his time observing the entire Divine Kingdom by the lake.

Vera was afraid of disturbing Lin Yan, so she did not usually go there. Instead, she was playing on the swing not far away, holding the Book of Rules in her hand. It looked like she was reading a book, but all her attention was on Lin Yan.

And often, as she looked, a smile appeared on her face.

The arrival of Lin Yan made Vera feel that life had a new meaning and was filled with endless fun.

Even if Lin Yan only had a little time to talk to her every day, Vera was satisfied.

Vera's heart was filled with sweetness when she saw Lin Yan every day.

"It would be great if he was here!"

Vera could not help but think.

Whether it was the Heavenly Realm, the Continent of Gods, or the Abyss, time was consistent.

There was no such thing as a day in the sky and a year on the ground.

While Lin Yan lived in Vera's Divine Kingdom, the war in the Abyss was still ongoing.

Natasha continued to expand the scale of the war.

Now, she was attacking the bottom of the Abyss.

In the Dark Abyss, Angstrom was still comprehending the light and darkness rules.

The Dark Aura around her grew stronger and stronger.

Angstrom felt that she would soon break through to the third stage of the Sanctuary.

No, not the Sanctuary, but the Dark Sanctuary!

However, Angst was not afraid at all.

Because once she understood the light, and dark rules, the darkness would no longer be scary.

She had been in a state for a long time.

Of course, she would occasionally pray to tell the Lord of Flame some of her doubts.

At this time, the Lord of Flame would often give her some enlightenment, which would make her suddenly feel better.

On the Continent of Gods, the descendants of the great nobles of the Eternal Night Empire dragged the first batch of goods back to the Eternal Night Empire and exploded!

The silk directly attracted the attention of the nobles. These nobles bought it from the Eternal Night Empire at a price of one foot one hundred thousand gold and then sold it for two hundred thousand gold. They could sell it!

Porcelain was also sought after.

Once a noble bought a set of porcelain, they would show off the porcelain at a banquet!

The silk and porcelain in the first batch were still relatively small.

Therefore, the price was exceptionally high.

Other than these two, the wine was sold out within a day.

The originally inconspicuous sorghum wine was also popular. It undoubtedly attracted the attention of the nobles and civilians.

Compared to wine, sorghum wine was cheaper and some commoners could afford it!

After all, sorghum wine was also the most popular wine in the Lord of Flame.

Apart from that, the tea leaves also caused a good reaction.

There was green tea and black tea from the Flame Empire. Both green and black tea were sold out in a short period.

Fruit wine, sugar, and numerous crops were also popular!

The nobles also earned a large amount of gold.

They also realized that the goods of the Flame Empire were all treasures!

Under the stimulation of the profits, these nobles sold the goods and rushed to the border of the Flame Empire without stopping.

It could be said that this trade with the Eternal Night Empire had a very good start.

Meanwhile, life in the Holy Flame Empire was relatively peaceful. Chen Xi spent a lot of time reading various ancient books daily to broaden her knowledge.

Lomina was the same.

The Queen of Light, Olivia, had already returned to Rocky Forest. She still could not find Angstrom.

Lomina would occasionally visit her.

In fact, some changes had occurred in the Eternal Night Empire.

The Temple Knights of God quietly expanded their army.

The nobles had all received the secret orders. Every noble was buying more armor and training the warriors.

Tina wanted to make all the preparations before the Goddess of Eternal Night breaks through.

The breakthrough of the Goddess of Eternal Night was not two days in a day, and it was not easy to discover in the early stages. However, once it was found, it would mean all-out war between the Heavenly Realm and the Continent of Gods.

That might be the greatest war in the recent hundred years in the Continent of Gods.

After all, it had been a long time since the top ten empires had fought a war!

The enemies that the Eternal Night Empire would face would not be just one or two, but many. Even though many of these enemies might not be as strong as the Eternal Night Empire, their combined strength was still terrifying.

As such, Empress Tina was preparing for battle.

As for her, she was ready to go to the Flame Empire after she had finished her preparations.

Time quietly passed.

In the blink of an eye, Lin Yan had been in the Divine Kingdom of the Elven Goddess Vera for a week.

"Thump!"

In the lake, the Elven Goddess swam.

She used to soak in the lake every day.

Of course, there was still a difference. Even when she was swimming, she still had clothes on her body.

To God, swimming in clothes was not difficult to achieve.

After swimming for a while, Vera stopped, and her head came out of the water. Her hair, which was originally wet from the water.

She looked at Lin Yan.

This was her habitual move.

Every day, she spent half of her time watching Lin Yan.

At this moment, she saw something different.

That was a place that she had not discovered for the past few days!

Chapter 375: Misunderstanding and Decision of the Elven Goddess

: Misunderstanding and Decision of the Elven Goddess

What Vera noticed was that Lin Yan's Divine body was weak!

In her senses, it was weaker than her Divine body!

This was a bit illogical!

In Vera's eyes, Lin Yan was at least a peak, third-ranked God.

The goddess of the Elves was different from the gods of humans.

The obvious difference was that the Elven tribes that believed in Vera were scattered across the continent.

This was not because Vera's Divine light was scattered in several Kingdoms, but because Vera's Divine light was based on her followers!

How many Elves were there!

When the number of Elves that believed in her was the largest, it did not exceed 200,000.

As for the Elves, their individual strength was strong. The contribution of these two hundred thousand Elves was equivalent to millions of devout humans.

That was why Vera did it!

However, once the number of believers increased and the quality decreased, the best way was to concentrate the Divine light in one Kingdom.

In Vera's eyes, Lin Yan now had many Kingdoms. When he cultivated the Holy Flame Forest, he showed great strength.

In addition, when he blessed the Tree of Life, Lin Yan also showed his strength. All of this meant that Lin Yan was powerful!

But why did such a powerful Lin Yan have such a weak Divine body?

This was what Vera did not understand.

Vera's Divine body could still be distinguished from the incarnation of the gods.

She hadn't noticed it in the past few days, mainly because she hadn't observed the strength of Lin Yan's body.

All her attention was on Lin Yan. She was attracted to Lin Yan's soul and appearance. Coupled with her preconceived notions, how could she observe whether Lin Yan's Divine body was strong or weak?

It wasn't until now that she made this discovery. Vera remembered the way Lin Yan had come.

Lin Yan did not come from the Heavenly Realm to her kingdom. Instead, he chose to come from the Continent of God.

At that time, Vera thought Lin Yan was sending an avatar to visit.

But now, Lin Yan's arrival was a Divine body.

Vera hadn't thought about it before, but now that she thought about it, it didn't make sense.

"Could it be that the Lord of Flame has descended on the Continent of Gods with his true form?"

Vera thought.

This was the only way to explain why Lin Yan would enter her kingdom from the Continent of God!

However, to descend to the Continent of God with his real body.....

That was a fourth-ranked God, and it had to be something that the most powerful God at the fourth-rank could do.

Moreover, even if they could, they might not be able to do it. After descending, their strength was greatly weakened and the risk was too great.

If a peak of the fourth-rank descended and was killed or seriously injured by a powerful Sanctuary beyond the third-rank, it would be a joke.

Furthermore, the gods of the fourth-rank were big shots, and they had a huge Divine Family. There were many things that did not need to be done by themselves. Why would they want to descend to the Continent of God?

Vera could not figure it out.

Time slowly passed.

Despite the doubts, Vera did not ask Lin Yan.

Every day, her gaze remained on Lin Yan for a long time.

This kind of time made her feel exceptionally happy, and it also made her feel exceptionally full.

Lin Yan's understanding of the Divine Kingdom grew.

Vera's observation was correct. His body was still weak.

His Divine body was his original body, but when he transmigrated, the mysterious energy of the universe transformed into the form of flames.

In addition, his body had also been strengthened by the mysterious energy of the universe. Only then could he reach the threshold of a Divine body.

When Lin Yan was converting matter and energy, he had strengthened his Divine body with Divine energy.

But his Divine body was still very weak!

It was not easy to strengthen the body of a God.

To all gods, a Divine body meant combat power. They would also spend a lot of time building and strengthening their Divine bodies.

Lin Yan's system was bound to the flame form. He could not use the system to strengthen his Divine body like the flame form.

In that case, the rapid enhancement of the Divine body could only rely on some special treasures in the Heavenly Realm of the Abyss.

However, Lin Yan was not particularly anxious.

After analyzing the Divine Kingdom, Lin Yan began to build his Divine body!

And now, every day, Lin Yan was using his Divine energy to strengthen his Divine body, making his Divine body more convenient, faster, and more powerful.

Even though his strongest form was the form of flame, and the combat power of the form of flame was truly terrifying, since he had a Divine body, Lin Yan did not mind developing both sides.

Well, the evolution of the flame form no longer required Lin Yan to do anything personally.

In Natasha's war in the Abyss, she could burn a large number of powerful demons and a large number of servant demons with Evil Flames every day to earn a lot of evolution points for Lin Yan.

As long as Natasha forced out the Abyss Demon God behind some demon race, Lin Yan would personally kill the Demon God!

However, Divine energy had a very strong effect on people below the realm of gods, so it wasn't particularly effective on Divine bodies. Over time, the Divine body would gradually become stronger, but it didn't have any immediate effect.

To quickly strengthen his body, he still needed some special treasures.

In the blink of an eye, another week passed.

"The Heavenly Sieve Fruit has matured."

On this day, Vera picked a fruit from a tree at the edge of Divine Kingdom and brought it to Lin Yan with great interest.

"This is the Heavenly Sieve Fruit, the fruit of the Heavenly Sieve Tree. The Heavenly Sieve Tree will only bear fruit once every five hundred years. It tastes very sweet."

As Vera spoke, she had the two elves pour out of a bottle and wash the fruit before handing it to Lin Yan.

Lin Yan took the Heavenly Sieve Fruit and took a bite.

When the fruit entered his mouth, it quickly melted.

Following that, Lin Yan felt that his Divine body had undergone quite a transformation.

Immediately, Lin Yan knew that this kind of Heavenly Sieve Fruit was not as simple as being sweet to eat.

This was a rare fruit that had an extremely good effect on the Divine body.

This kind of fruit was extremely precious even in the Heavenly Realm.

Only one in every five hundred years. Thinking about it, he knew that this was not a common commodity!

Vera was really generous!

Lin Yan quickly finished eating the Heavenly Sieve Fruit.

After eating a Heavenly Sieve Fruit, Lin Yan's Divine body underwent a tremendous change.

Chapter 376: Misunderstanding and Decision of the Elven Goddess

: Misunderstanding and Decision of the Elven Goddess

If it was said that Lin Yan's Divine body was still in its initial state, it was only equivalent to a first ranked Divine body corresponding to a first ranked godhood.

Now, Lin Yan's Divine body had changed from a first rank Divine body to a second rank Divine body!

"Good stuff!"

Lin Yan thought.

Indeed, there were quite a lot of good things in the Heavenly Realm.

"Isn't it delicious?"

Seeing Lin Yan's change, Vera was extremely happy. She immediately handed another Heavenly Sieve Fruit to Lin Yan.

Lin Yan looked at her, "Vera, there are only two Heavenly Sieve Fruits, right?"

Vera nodded. "That's right, but the Heavenly Sieve Fruit isn't very effective on me. I can only treat it as a snack. I'm very happy to be able to use it on you."

Lin Yan looked at Vera with curiosity.

Vera suddenly understood Lin Yan's gaze and said, "I'm now at the second rank. I have a ninth-ranked godhood and a Divine body, and I'm still away from reaching the peak of the second rank. The Heavenly Sieve Fruit produced in 500 years is very useful for a God body below fifth rank. If I go up, the effect will be useless, so you can eat without worry. However, the Heavenly Sieve Tree produces one kind of fruit every thousand years and another every three thousand years. This is also the reason why I have very few believers and few people but my strength is not particularly weak."

Vera was actually at the second rank of strength and was at the high rank of the second rank. She was even more powerful than the capital of the Xi Ling Kingdom. She was probably not much weaker than the god of the Horton Kingdom, which surprised Lin Yan.

The goddess of the Elves had some special features, she could cultivate some special plants in her Divine Kingdom and then improve these plants. She could use these plants to collect some special and rare energy from the heavenly world and condense it into fruits to increase her strength.

It was difficult for human gods to learn this.

Vera had already revealed what she had just said. She knew that Lin Yan's Divine body was below fifth rank.

Lin Yan did not explain why his Divine body was like this. He took the Heavenly Sieve Fruit and ate it again.

After eating it this time, Lin Yan's Divine body quickly became a third ranked Divine body under the effect of the Heavenly Sieve Fruit.

The energy of these two fruits were not completely digested.

After their energy was completely digested, Lin Yan's Divine body would probably become a fourth ranked Divine body.

As these two fruits turned Lin Yan's Divine body into a fourth-rank Divine body. Even to a God, they could already be considered as Divine objects.

Vera was indeed generous to Lin Yan. Although she did not think too much of it, if she sold the Heavenly Sieve Fruit in the Heavenly Realm, she could exchange it for many things she needed.

In the Heavenly Realm, the precious fruits produced by the Elven Goddess were always in demand. Every one of them could be fought over by many gods!

However, for Lin Yan's sake, Vera did not hesitate to give Lin Yan all the precious Heavenly Sieve Fruits.

After eating the fruit, Vera did not bother Lin Yan because he needed to absorb the energy from the fruit.

Vera sat on the swing and leaned forward, her hands holding her chin as she stared at Lin Yan.

"It is the same as I thought."

Vera thought.

Yes, these days, she had a bold guess.

This bold guess was that the Lord of Flame was probably a God who had been seriously injured in the battle of gods.

This kind of heavy injury even caused the Flame Master's Divine body to be destroyed, leaving only the Godhood. Then, the Flame Master's Godhood fled to the Continent of Gods, risking a great deal to hide in the Continent of Gods to recover its strength.

Until recently, the power of the Lord of Flame had recovered a lot, and it was not until then that he started to create his kingdom on the Continent of God.

"Hmm, that should be the case."

Vera thought.

She thought of a lot more, with the power of the Lord of Flame, if he was not seriously injured, why would he have to build his own kingdom?

She also learned about the deeds of the Lord of Flame from Anna.

The Lord of Flame had started his career from a small orc tribe.

A peak third rank, or even a fourth ranked God would not do that.

The Lord of Flame had done so and in a very short period, he had re-created an empire, which could prove Vera's thoughts.

"The Lord of Flame trusts me very much."

Vera thought again.

The reason was simple.

If Lin Yan did not have the form of a flame, as Vera thought, he would be a severely injured God. Even if Lin Yan had a fifteenth ranked godhood, he would not be able to defeat Vera when his body was only at third rank.

A fifteenth ranked godhood was very attractive to a second-ranked God.

If Vera had any ill intentions, Lin Yan would be in danger.

Of course, this was just what Vera saw.

Therefore, in Vera's opinion, the Lord of Flame trusted her quite a lot. This was tantamount to handing her life and death.

Vera's gaze softened at the thought.

"His Divine kingdom must have been destroyed and his Divine body has just been rebuilt. He must be very powerful..."

Vera thought to herself.

It was as if she had seen an extremely powerful God. After being schemed against by others and fighting the world with one's strength, she finally came to a sad end. After hiding in the Continent of God for countless years, the strong returned to seek revenge against the enemies who had plotted against him!

"I must help him, even if his enemy is a fourth-ranked God!"

Vera made the decision!

"Vera, Vera....."

At that moment, Vera felt someone calling her.

This was her friend, the goddess of the Elves, and the goddess of the Wind Elves, the Goddess of the Wind, Mavis.

Mavis was using a special method to contact her.

"What's wrong, Mavis."

Vera responded.

Mavis' voice rang out. "Recently, a human God sent people to inquire about a God called the Lord of Flame. Do you know him?"

Ah!"

Vera exclaimed.

"What's wrong? Vera?"

Mavis said.

"It's fine, thank you for the news, Mavis."

Vera quickly ended the conversation.

Then she looked at Lin Yan, her eyes filled with worry.

"His enemies came so quickly."

Vera thought.

"His current Divine body is too weak. No, I have to help him!"

Chapter 377: Veras gift!

"Garcia, quietly investigate, who's searching for information about the Lord of Flame. Bring some Five Phoenix Fruits to exchange for some Falling Star Stones. Be careful not to be discovered."

In the Divine Kingdom, Vera was called an Elf.

This Elf was also the strongest Elf in the Divine Kingdom.

She was the clan leader of an Elven tribe thousands of years ago. After her lifespan came to an end, she was brought to the kingdom by Vera. She was one of Vera's most important fighters.

After following Vera's orders, the Elf named Garcia flapped her wings and flew out of the Divine Kingdom.

Vera looked at Lin Yan after she sent Garcia.

Lin Yan was still sitting by the lake with flowers everywhere. The flowers gave off a unique fragrance. If one smelled the fragrance of the flowers for a long time, it would make one's mood happy. A God would also become stronger.

This was how the Divine Kingdom was. Everything in it had its uses.

Vera thought for a moment and reached out her hand to tear it apart. A tunnel appeared and she walked in.

Here, there was still a valley illuminated by Holy Light. The valley was also full of flowers.

The difference was that among these flowers, there were also many plants that grew fruits.

This was the heart of Vera's Divine Kingdom, where she kept some precious treasures.

The valley was still in the Divine Kingdom but no one would notice unless someone destroyed the entire Divine Kingdom!

Vera walked up to a fruit and gently plucked the fruit.

These fruits did not grow from those plants.

It was some other rare fruits that Vera had used to keep the energy inside.

Vera held the fruit in her hand and said to herself:

"There should be some benefits."

After that, she threw the fruit into a dimension beside her.

Vera would not carry anything precious with her. Instead, she would keep it in the Divine Kingdom. This was also the practice of many gods in the Heavenly Realm.

Once a God had a Divine battle, under the collision of various Divine energies and rules, the space that a God used to store things might be crushed.

The Divine Kingdom was different. Many gods had fallen but the Divine Kingdom still existed.

There were many stars in the Heavenly Realm. Each star represented the projection of a Divine Kingdom, but there were quite a number of Divine Kingdoms belonging to fallen gods.

Vera walked and picked the fruit.

Occasionally, she would pick one or two flowers and put them away.

From time to time, she could find one or two special treasures among the flowers.

For example: a crystal clear stone and some Divine substances.

She buried these Divine substances in the ground. She planned to keep them for herself later, but this time, she dug them all out.

She did not know what she was planning to do.

She chose to spend a lot of time here.

Yes, she was indeed a little rich woman. There were many good things.

With a ninth-ranked godhood and body, she was considered a powerful God among the second ranked gods. Her status in the Heavenly Realm was not low.

Although it was difficult to become a God, it could not withstand the vastness of the Continent of God. Once one became a God, the time was endless.

Half a day later, Vera walked out of the valley where the treasures were stored.

"I'm still lacking quite a few things."

Vera thought.

After thinking for a while, Vera called over a large number of Elves and arranged some tasks for each Elf to buy what she needed. In order to buy these things, Vera gave a large number of treasures to the Elves to exchange for them.

"If you find something, then you can directly exchange it. If you can't directly exchange for something, then you can purchase it with a God Stone. I don't have a lot of God Stones, so I'll save some."

Vera said to her Elves.

The Elves nodded. They were Vera's most loyal subordinates, so they naturally would not cheat Vera. The Elves flew out of the Divine Kingdom.

Vera thought about it and contacted another Elf goddess, the Goddess of the Wind, Mavis.

In the Heavenly Realm, the gods each occupied their area. This was the Heavenly Realm.

The goddesses of the Elves were not far from each other.

This also meant that they were trying to get warm together.

Although the gods spent most of their time in their kingdom, the Divine domains were still very useful. It was a bit like a noble's territory, but there was no one in it.

The gods were interested in the resources inside.

In the Heavenly Realm, there were many good things but the resources of a region were relatively limited.

Therefore, to be able to occupy a larger area of Heavenly Realm meant that it was possible to gather more resources.

In the Heavenly Realm where Vera and Mavis were close friends.

"Mavis, do you still have a thousand years old Heavenly Sieve Fruit in your hands?"

Vera asked.

Although the Heavenly Sieve Fruit was magical, with Vera's strength in the Divine Kingdom, she could only plant one at most. Any more would be a burden to the Divine Kingdom.

Mavis said, "I still have one. What's wrong, Vera?"

"Mavis, can you sell it to me? I need it right now. Tell me the price."

Mavis said, "Yes, Vera. Just give me a high-ranked sacred stone."

Vera was grateful because Mavis' price was too cheap.

"Thank you, Mavis. I still need some blue vine leaves. I see you have them..."

Vera added.

"Okay, Vera, you're welcome. You helped me last time too. I'll help you gather all the things you wanted, but there are a few things you don't have. Ask them again."

Mavis said.

The goddess of the Elves, every goddess would plant different types of celestial plants in their Divine Kingdom.

However, the plants of the Heavenly Realm had different characteristics. They had to be well-matched, or else they would impose a huge burden on the Divine Kingdom.

Therefore, the plants planted in the different goddess's kingdom were different.

Usually, when there was a need, everyone would exchange it or buy it with a sacred stone.

God's Stone was the currency of the Heavenly Realm. It was the same as the gold coin on the Continent of Gods.

The stone did not grow naturally.

It was made by the gods themselves. The raw material to make the stone was very simple, and that was the power of belief.

Furthermore, it was a pure power of belief, which meant that the gods had to take the initiative to eliminate the directivity of this power of belief, which could be used by other gods.

The power of belief inside a low-ranked God's stone was equivalent to the power of belief of 100,000 ordinary people for a year.

An intermediate God stone was equivalent to the power of belief of millions of ordinary people for a year.

A high-ranked sacred stone was equivalent to the power of belief of thousands of ordinary people for a year.

Of course, the quality of the Divine stones made by different gods was also different. This caused the value of different divine stones to be very different.

After ending the conversation with Mavis, Vera contacted another Elf goddess.

Chapter 378: Veras gift!

"Vera, this is already the lowest price. If you don't have the sacred stone, use the Divine substance to trade with me." The Elf goddess threw a shadow over and said.

"Alright, I have some Flaming Gold from the sun. Can I exchange 1g of Flaming Gold for your lost weight fruit?" Vera said.

"Of course, Vera: You already have a ninth-ranked Divine body. What are you doing to lose weight?" The Elf goddess asked.

Vera did not reveal her purpose and said, "I want to make something."

The other Goddess said, "Wow, you don't have a tenth-ranked godhood, do you? Could it be that you're preparing to create a tenth-ranked Divine body?"

Vera said, "I'll send someone to deliver Flaming Gold to you today."

"Okay, Vera!"

The two goddesses ended the conversation.

Vera immediately contacted another Elven goddess, who also cast a shadow.

In fact, Vera could be seen in the goddess' Divine Kingdom.

"Olivia, do you have Star Sand?"

Vera asked.

"I have a few more grams. I can give you half of it if you want. By the way, Vera, do you remember the Holy Flame Forest on the Continent of Gods a few months ago? The Elven tribe that believes in me believes in a God called the Lord of Flame, but your Greenland Elf tribe seems to have some faith in you, right?"

Olivia suddenly asked.

Vera did not change her expression. "Yeah, what's wrong, Olivia?"

Olivia said, "Oh, I heard that the Holy Spirit is inquiring about the whereabouts of the Lord of Flame. It seems to come from a different Divine Kingdoms. There seems to be a third-ranked god's subordinate inside. He is very generous. They are willing to use a hundred high-ranked God stones to buy effective clues."

Vera's expression did not change much. She seemed to not care much:

"I don't know anything about the Lord of Flame. Olivia, do you have any clues?"

Olivia shook her head. "Although the Lord of Flame caused me to lose the faith of an Elven tribe. I won't retaliate for this. Besides, the Lord of Flame is so powerful, I'm not that stupid."

Vera heaved a sigh of relief. "Then give me all of your Star Sand. Olivia, I'll trade the Celestial Land with you."

After contacting Olivia, Vera went into the valley again. She took out a lot of things and continued to contact the Elven goddesses.

In this way, a full half day passed, Vera contacted a total of seven or eight Elven goddesses and her valley filled with treasures was completely empty.

This was something she had accumulated over the years.

Vera looked at the valley. Although it was empty, she thought it was worth it.

After a few more days, the Elves that she sent out came back.

They had brought back a lot of good things, but the sacred stones and treasures they brought out were all spent.

Now, Vera was really broke.

Vera did not feel anything.

She looked at Lin Yan from afar and summoned a large number of Elves.

"Ellie, I'll open an entrance. You guys hold it. I need more sunlight." Vera arranged for the Elves.

With the cooperation of a large number of Elves, Vera got busy day and night.

Meanwhile, Lin Yan was still observing Vera's Divine Kingdom.

However, Lin Yan noticed that Vera had not spoken to him for many days. She seemed to be busy.

"What is she busy with?"

Occasionally, Lin Yan would be curious.

Time quietly passed.

Everything on the Continent of God was normal.

On one side, the Flame Empire was engaged in intense trade with the Eternal Night Empire, while on the other side, it was still engaged in stabilizing the Purple Gold Empire.

There was an undercurrent under the Purple Gold Empire and some big nobles began to gather frequently.

However, whether it was Meng Ying, or Qing Ling, there was still no movement.

They were waiting, waiting for these big nobles to jump out and fight them all.

In the Endless Desert, after seven days of downpour, the entire desert was not short of water.

Although Lin Yan had only created an oasis, after receiving Lin Yan's revelation, several flying ships came from Holy Flame Forest.

On the flying ship, a large number of Elves scattered the seeds of plants and cast some magic.

It only took some time for these seeds to germinate, grow up, and make the entire Endless Desert full of vitality.

Lucy, the head of Medusa's tribe, led tens of thousands of Medusa and drove a million prisoners to do something important.

It was a man-made interference in the river, allowing the newly formed rivers to cover most of the Endless Desert.

The climate of the Endless Desert had been greatly changed and once all the plants grew up, the western part of the Endless Desert would be completely controlled.

In the blink of an eye, another two weeks passed.

Now, Lin Yan had been in Vera's kingdom for more than a month.

Vera had been busy for the past two weeks. Unlike before, she would talk to Lin Yan every day when he was free.

That day, Vera was finally finished.

"It's finally done."

Vera clapped her hands, her face was full of joy.

She raised her hand and six balls of light appeared in front of her.

There were six numbers on the six balls of light.

The numbers were: 5,6,7,8,9,10!

Don't underestimate these six balls of light.

The six balls of light had consumed Vera's thousands of years of accumulation.

For them, Vera used up all the treasures she had prepared to upgrade to tenth rank.

Generally speaking, leveling up godhood was the most difficult because one needed to comprehend it by them and also needed a large amount of power of belief. Internal and external conditions were indispensable.

The level of godhood determined the final rank of a God.

Of course, a Divine body could be higher than godhood, but once a Divine body was higher than godhood, the level of godhood would slow down.

Therefore, under normal circumstances, gods were promoted to godhood first and then to the Divine body!

It was also very difficult to level up a Divine body, but leveling up a Divine body was more difficult in terms of collecting resources.

Things to upgrade a Divine body were quite expensive.

It took God a lot of time to gather those things.

As long as there was no shortage of resources, leveling up a god's body would become simple.

These six balls of light were the treasures that she had used up, as well as all of her sacred stones so that she could level up sacred body!

If the number was 5, she could raise her body to fifth rank after eating it.

Of course, they needed to eat step by step.

In other words, Vera was going to help Lin Yan push his Divine body to tenth rank.

It was also a second-ranked peak Divine body!

In Vera's opinion, Lin Yan had a high-ranked godhood and a tenth rank body. It shouldn't be a problem to deal with the early third-ranked gods, right?

This was the gift Vera had spent so much time preparing for Lin Yan!

Chapter 379: Divine Body Level Up! Rich Lin Yan!

Divine Body Level Up! Rich Lin Yan!

"Building a Divine Kingdom requires a lot of Celestials Land and at least one-star core."

In Vera's Divine Kingdom, Lin Yan's analysis of the Divine Kingdom went from the level of rules to the level of resources needed.

Vera gave Lin Yan all her authority, allowing him to see the composition of the entire Divine Kingdom.

Divine Kingdom and Divine Domain were two different concepts.

Heavenly Realm was defined by the boundaries of Divine Realm. They could be considered as provinces.

The Divine Kingdom was a kingdom of gods. Although the Kingdom of God was located in the Heavenly Realm, the Kingdom of God involved some special laws and rules. When a god wanted to reveal it, it could be revealed.

If a God didn't want to expose it. It could be half-hidden, making it impossible to find the passage.

Of course, even if they were half-hidden, ordinary Divine Kingdoms would still project out and receive the baptism of the sun and moon.

In fact, most of the gods' kingdoms were half-hidden.

Only when a Divine Kingdom was completely hidden would the star that the Divine Kingdom represented be extinguished.

However, it was not easy to hide it completely. Moreover, once it was completely hidden, a large number of functions would be turned off in the Divine Kingdom, and the loss of that God would not be small.

The advantage was that it was almost impossible for others to find his Divine Kingdom.

Just like what the God of Xi Ling Kingdom had done.

Only some extremely powerful gods would fully reveal their Divine Kingdom and declare to all the gods their strength and inviolability!

A God like that was almost a fourth-ranked God!

"I don't know if I need to collect these resources by myself, or if I can buy them. If I can buy them, what kind of things do I need to buy?"

Lin Yan thought silently.

He did not know much about the Heavenly Realm.

However, Lin Yan could ask Vera.

Just as he thought of Vera, he saw Vera walking over.

There was a look of joy on her face. She looked very happy.

There was a smile on her face.

Vera wanted to laugh when she finished the six balls of light, but she would not laugh.

She was a goddess!

A reserved goddess, Vera would have been a standard lady in the Continent of Gods.

"Lord of Flame, how is your comprehension?"

Vera came over with her little bare feet and falsely stepped on the flowers and asked.

Lin Yan nodded, "It's okay, but I still have some questions."

Vera said, "You can ask me if you have any questions, but before that, I have a gift for you."

"A gift?"

Lin Yan said.

"Hmm!"

Vera blinked her beautiful big eyes, then reached out her hand and touched it in the air. In front of her, six balls of light appeared.

There were still six numbers on top of the six balls of light.

"This is..."

Without Vera's explanation, Lin Yan found out what it was. Because his body was emitting a desire.

Those light balls were all useful to his body!

Those things were the things needed to level up a Divine body!

Soon, Lin Yan understood the meaning of the six numbers.

Although the six clusters looked the same size, the contents were different.

The higher the number, the more things inside and the more precious those things were to Lin Yan.

In addition to the direct fruits and treasures, there were also some potions prepared by Vera.

These potions were standard elixirs.

One did not need to think to know how precious these things were.

From a fifth rank Divine body to a tenth-ranked Divine body!

—All answers!

Vera did not even have a tenth-ranked Divine body but she did not collect it randomly.

She considered Lin Yan's power attribute.

Since Lin Yan was known as the Lord of Flame, he knew that Lin Yan must have a deep understanding of the rules of flame.

When Lin Yan helped the Elves reclaim the Holy Flame Empire, he also displayed a powerful light system.

Vera also knew that Lin Yan must be good at life rules and ice rules.

She had learned from the elves that Lin Yan had once reduced his strength and directly sealed the huge gap in the Rocky Mountains, bringing with him a thousand meters tall ice wall.

Without the ice rule, it was very difficult to do this.

She was very thorough and considerate!

No wonder Lin Yan saw the elves entering and leaving the kingdom frequently. It turned out that Vera was collecting resources for him.

The way Lin Yan looked at Vera softened.

"You must have spent a lot, right?"

Lin Yan asked.

"It doesn't cost much. Try it. How is the effect? Eat it all at once!"

Vera said lightly.

Lin Yan nodded and did not put on airs.

He ate the light ball with the number 5.

There were quite a lot of things in that light ball.

However, after entering Lin Yan's mouth, it quickly melted away. The matter and energy inside were constantly reacting and Lin Yan's Divine body rapidly strengthened.

"Let me help you."

Vera also made her move. She used her Divine Domain to cover Lin Yan, allowing him to completely absorb the energy.

After half a day, Lin Yan let out a light breath.

His Divine body had already become a fifth-ranked Divine body.

This was how the Divine body was upgraded. The hardest part was the collection of resources.

Those ordinary gods, who had just entered the Divine Kingdom and were poor, needed a lot of time to search for resources to advance to first rank.

Like Lin Yan, with Vera's help, it was almost impossible!

God's resources were all precious!

Who would give it to someone for no reason?

As for weak gods, even if they wanted to join the Deity system, no one else would want them.

Still, in the Heavenly Realm, it was a pyramid model. The weak gods occupied an absolute number. The more powerful the gods, the fewer they were.

In terms of the control of resources, it was another inverted pyramid model. The God at the top of the pyramid controlled most of the resources.

"Let's stabilize it for a bit before upgrading to the next stage."

Vera suggested.

Lin Yan agreed.

"Let me help you."

Vera attacked again, using her Divine energy to help Lin Yan stabilize his Divine body.

Two days later, Lin Yan ate another light ball.

His Divine body quickly rose to sixth rank.

Vera attacked again to help Lin Yan stabilize his Divine body.

Her consumption was not small, but she did not show it. The expression on her face was always light.

After another two days, Lin Yan once again ate the ball of light with the number "7".

Vera was well prepared.

Not only was it fast, but it was also very receptive.

Yes, as long as the level of the godhead was reached and the resources were sufficient, the god's body could be shaped like this.

Of course, the current stability was only preliminary.

In the end, Lin Yan still needed a lot of time to stabilize him.

Lin Yan's strong godhead also played a significant role there.

Chapter 380: Divine Body Level Up! Rich Lin Yan!

Otherwise, the time between Lin Yan eating the ball of light would not be two days, but a few days, or even more than ten days and half a month.

"It's really what I thought it would be."

When Vera saw Lin Yan's reaction, she could not help but confirm her guess.

If Lin Yan was just an ordinary God, even if he ate the stuff that Vera had prepared, he would have to digest it for at least three days after he ate the ball of light and it would take dozens of days to stabilize his Divine body.

It would take at least half a year for the six balls of light to be finished.

However, it only took Lin Yan half a month to eat the sixth ball of light!

To be able to achieve such a speed meant that Lin Yan's level was high!

After having one experience, the second time he came, he became familiar with it.

That was why Lin Yan had such speed!

Vera felt that what she had done was worth it.

She wanted to help Lin Yan return to his peak strength.

As for whether there would be a return, actually, Vera didn't think about it!

Her mind was filled with worry that the third-ranked Human God would come knocking on her door.

Yes, she was not worried about her safety, but about Lin Yan's safety.

Therefore, she only wanted Lin Yan to become stronger.

Before his enemies would discover him, he needed to be strong.

There was no such thing as a reward... These two words had never appeared in her mind!

Fifteen days later, Lin Yan's Divine body had reached ninth-rank!

After that Lin Yan ate the sixth ball of light that Vera had prepared.

This time, Lin Yan's Divine body did not rise to tenth rank after everything in the ball of light was completely absorbed.

"Not even close!"

Vera said regretfully.

She had already taken out all of her collection, but she needed too much to upgrade from fifth rank to tenth-ranked. Lin Yan's Divine body's demand for resources was beyond Vera's expectations.

Lin Yan opened his eyes and looked at Vera. "Vera, thank you."

Vera quickly shook her head and said, "No need. My Divine Kingdom is still safer. You can continue to stabilize your Divine body here. I'll see if I can collect more things to raise your Divine body to tenth-rank."

In Vera's opinion, Lin Yan had to have a level 10 body to be able to deal with the third level God but right now he was not even level 9.

A ninth-ranked Divine body was not strong enough and it was unable to display the effect of high-level Divine power among high-level godheads.

Lin Yan asked, "Vera, what do you usually do in the Heavenly Realm?"

Vera said, "If there's something that both parties need, then we'll trade it for something. The extra part will be made up of sacred stones. If there's nothing that both parties need, then we'll have to buy it with sacred stones. But generally, we don't need sacred stones to buy it."

Lin Yan asked, "Why?"

Vera said, "Because the sacred stone is condensed from the power of faith, there are still many resources in the Heavenly Realm. As long as we send more people to search, we can find some treasures. But the power of faith is precious to every God, so under normal circumstances, all gods are not willing to trade the sacred stone for something, unless that thing is particularly precious."

Lin Yan nodded.

He looked at the power of belief in his godhead.

His godhead was converted from virtual godheads. On the system's panel was the attribute panel of the godhead.

Lin Yan's power of belief was terrifying!

The power of belief that belonged to the gods of the Heavenly Realm had exceeded a hundred billion points and the current growth was even faster.

In Lin Yan's calculations, an ordinary believer could contribute 1 point of faith and power every day while a devout believer of ordinary people, the power of faith could reach 2-3 points.

The stronger this person was, the more faith power he would contribute.

A First Ranked warrior could contribute 10 times as much faith power as an ordinary person and if it was a devout Sanctuary, then one person was comparable to a kingdom!

This was also why the gods of the Heavenly Realm wanted to attract the followers of the Sanctuary.

In fact, Lin Yan now had three holy believers. Of course, two of them were Abyssal Succubus, offering only Dark Faith.

However, the power of faith provided by his Holy Maiden Meng Ying was terrifying.

Moreover, Lin Yan also had several legendary Holy Maidens.

There were also a large number of eighth-ranked Holy Maidens and now, the population of the entire Flame Empire exceeded 300 million!

The Elven Empire also had more than a million powerful Elves. Their numbers were small, but they were not strong enough.

The number of Elves who believed in Lin Yan was close to a million.

These Elves were all level three or four or above. The amount of faith power they contributed was terrifying.

In this way, Lin Yan's daily harvest of power of belief had exceeded one billion, approaching 1.5 billion!

One month was forty to fifty billion points!

Based on 150,000 points of power of belief to one point of Divine energy, Lin Yan could exchange nearly 10,000 points of Divine energy every day! This was quite terrifying!

"Vera, how are we going to use the power of faith to create the stone?" Lin Yan asked.

"The method is very simple. I'll teach you."

Vera said.

With that, she stretched out her hand and pulled out a lot of power of belief from her godhead.

Soon after, Vera removed the power of belief.

Yes, the power of belief was directed towards her. If one didn't clear the direction, others wouldn't be able to use it.

As for this kind of orientation, it could only be cleared by God himself. If someone else were to clear it, even though it could be cleared, it would not be worth it.

After clearing the direction, Vera gently patted it and gathered all the power of belief together. The surrounding area was fixed with a small amount of energy and formed.

"That's right. This is a low-grade Divine stone. The power of belief inside is equivalent to the power of belief of a hundred thousand ordinary people for a year."

Vera handed the low-grade Divine stone to Lin Yan and said.

“The power of belief in the immortal stone is calculated according to the power of belief of commoners. This was a unified calculation method.”

Lin Yan took the Divine stone and began to feel it.

Immediately, Lin Yan felt something unusual.

The power of faith in this Divine stone was far less than Lin Yan had imagined.

According to Lin Yan’s calculations, an ordinary person would get 1 point a day, 100,000 points a day, and 36 million points a year. But in reality, the power of faith was not that much.

Lin Yan thought for a moment and decided to make a Divine stone himself to try.

He grabbed a ball of power of belief from his godhead.

This ball of power of belief was just 36.5 million points.

After that, Lin Yan quickly cleared the direction of the power of belief and used Vera’s method to create a Divine stone. As long as the gods were willing to give up the power of faith, the speed at which they could make Divine stones was not ordinary.

“See if that’s the case.”

Lin Yan handed the Divine stone to Vera.

Vera took it and was shocked. “This is a high-level Divine stone!”

High-grade Divine stone!

Lin Yan was clearly based on the power of faith of the beginner Divine stone!

Why would it have such an effect?

“Could it be because the quality of the power of belief collected by my godhead is extremely high?” Lin Yan thought.

This was possible.

Before the conversion of the godhead, the virtual godheads didn’t need to be stored in the church like the other gods and they collected regularly.

Instead, it was created and directly entered the virtual godhead.

Lin Yan could obtain 1-3 points of power of belief from an ordinary person in one day.

As for the other gods, they could only obtain a fraction of the power of belief.

In other words, the power of belief that Lin Yan obtained from a devout believer would be many times higher than that of other gods!

Perhaps it was because the method of collecting beliefs was different!

Other deities needed the church to store their faith through some special items and then open the passage to the Heavenly Realm regularly, which would cause a lot of losses. As for Lin Yan’s godhead, it was a direct collection of faith, one hundred percent without loss!

Coupled with the fact that Lin Yan's godhead was already very powerful, the amount of faith power stored in his godhead was extremely high.

"In other words, my power of belief can produce over forty high-level Divine stones in a day?"

Lin Yan thought.

After all, Vera's previous collection was only a dozen high-level Divine stones!

Of course, she had turned a large amount of faith power into Divine energy. High-grade Divine stones would only be converted when needed; otherwise, they would not be at least this small.

However, Lin Yan could create more than forty high-level Divine stones with his power of belief in a single day. This was a rare sight in the Heavenly Realm!

"First, I'll buy a thousand high-level Divine stones to purchase resources."

Lin Yan muttered to himself.

Vera had used up a lot of energy, so Lin Yan naturally would not let her work for him in vain.
