

## Flames 381

Chapter 381: Vera blushed! The origin of the enemy!

With a plan in mind, Lin Yan quickly grabbed the power of belief from his godhead and turned it into a sacred stone!

One sacred stone after another was formed.

In a short time, the number of sacred stones in front of Lin Yan had reached a hundred.

These sacred stones had already reached the high-level sacred stones.

“So many...”

Vera was surprised!

High-ranked sacred stones were not a common item.

A high-level Divine stone was equivalent to ten million ordinary people’s faith for a year!

For example, the God of the Xi Ling Kingdom, the population of the Xi Ling Kingdom was 20 million. Including the devout believers, high-ranked magisters, and Knights, it could be calculated based on the belief of 30 million ordinary people.

In other words, the God of the Xi Ling Kingdom, a year’s worth of power of belief combined was only equivalent to three high-level Divine stones!

The God of a small empire like the Purple Gold Empire had a population of 200 million, and there were many strong ones among them. After a year of faith and power, it was estimated that it would reach over a hundred high-level sacred stones.

Just like Lin Yan, it was terrifying to be able to make more than forty high-level sacred stones in one day.

This was the true strength of Lin Yan’s Godhead!

Of course, this was also related to the number of followers of Lin Yan.

In fact, in terms of Divine energy, Lin Yan’s Divine energy was also quite shocking.

The other gods relied on time to slowly accumulate.

In just a short year, Lin Yan had already surpassed the accumulation of many gods!

After Lin Yan made over a hundred sacred stones, he did not stop and continued to make them.

On the grass in front of him, the number of sacred stones constantly appeared, and the number quickly exceeded 500.

Vera’s face grew more and more surprised.

This was not the end, soon, the number of sacred stones reached a thousand!

For one thousand high-level sacred stones, many first- and second-ranked gods had to accumulate only a few hundred years of faith power!

Lin Yan thought about it and decided to take out another thousand high-level sacred stones.

Beside her, Vera's face was full of shock.

"Vera."

Lin Yan spoke.

Vera looked at Lin Yan.

Lin Yan divided the two thousand high-level sacred stones into two piles, each pile of one thousand high-level sacred stones.

Then, Lin Yan gently grabbed a pile of high-level sacred stones, grabbed a ball of light, and handed it to Vera:

"Vera, these are for you."

Vera cried out in surprise, and her head shook.

"No, I don't want it. This is too expensive. Your strength hasn't recovered yet. You can keep it for yourself. I can help you purchase the resources you need. A tenth rank or above Divine body will cost a lot."

Vera said.

"Your strength hasn't recovered yet?"

Lin Yan was slightly stunned for a moment, and then he no longer bothered with Vera's explanation. "Vera, this is my thanks."

Hearing Lin Yan's words, Vera's expression changed slightly. Her small expression immediately contained some grievance, "I didn't help you because of your gratitude."

When Lin Yan saw her aggrieved look, his heart skipped a beat.

In a daze, Lin Yan reached out and placed his hand on Vera's shoulder.

Vera was stunned.

It was as if a surge of electricity was sweeping through her body.

Even her consciousness seemed to freeze.

Then, Lin Yan's magnetic voice sounded. "Vera, this is my gift. Take it!"

Intent, the word 'thank you' was completely different!

Vera's heart suddenly turned sweet.

She finally nodded her head. Her face was already flushed.

Lin Yan retracted his hand and handed the ball of light that contained a thousand high-level sacred stones to Vera.

Vera's timid gaze met Lin Yan's. However, she immediately ran away and looked away.

Her heart was like a deer running around.

She put the ball of light away and left as if she had escaped.

“I’m going to gather up the resources you have left to reach tenth rank. Don’t leave my kingdom recently. Your enemies have sent a lot of looks for you here.”

Vera’s voice came from afar.

“Enemy?”

Lin Yan muttered the word but Vera had already gone far.

This was Lin Yan’s first time in the Heavenly Realm. Where did he come from?

No, Lin Yan had an enemy!

The God of the Xi Ling Kingdom, the God of the Horton Kingdom, and the Gods of the three kingdoms beside the Endless Desert and also the God of the Purple Gold Empire!

The five gods of the Hun River Principality shouldn’t be counted. They were only at the first rank. They surrendered and handed over the Hun River Principality.

In terms of strength, the God of the Xi Ling Kingdom should be at the second rank of middle school, which could be a God with a sixth rank to eighth ranked godhead.

The God of Horton Kingdom should be a God with a ninth rank to tenth ranked godhead. It was very close to the third rank and was close to Vera’s Realm.

The God of the Purple Gold Empire should be a God of the third rank, but it was very likely that it was at the early stage of the third rank. It only had a godhead and a Divine body of eleventh to twelve rank!

“Who’s looking for me?”

Lin Yan whispered.

“It should be the God of the Purple Gold Empire. Perhaps the God of the Horton Kingdom was involved.”

Lin Yan had a preliminary judgment.

The Elven goddesses were located in a remote Divine domain and were relatively far away from human gods.

To be able to find this place only meant one thing, the other party knew the relationship between Lin Yan and the Elves.

The one who knew about the relationship between Lin Yan and the Elves was most likely the God of the Purple Gold Empire.

Because the Fifth Prince and the Great Prince of the Purple Gold Empire had once surrounded the migrating Elves, Meng Ying, who had just been sent over by the flying ship, found out. Meng Ying, Chen Xi, and Lomina, three legends had descended on the imperial city of the Purple Gold Empire and blew up the imperial palace of the Purple Gold Empire.

Even the emperor was angered to death.

Such a big matter, there must be many believers who would mention it when praying.

The death of the Emperor led to the battle for the throne.

It was the battle for the throne that caused the two million soldiers of the Purple Gold Empire to be tricked.

He was easily beaten by the Flame Empire.

In that war, the God of the Purple Gold Empire not only lost a small empire but also lost a combat avatar.

After the battle avatar was burned by Lin Yan, Lin Yan gained quite a lot.

A large number of rules had been established by Lin Yan, and he had gained a huge amount of evolution points.

The God of the Purple Gold Empire probably hated Lin Yan as much as bone.

In order to find Lin Yan, the God of the Purple Gold Empire would look for clues.

And when Lin Yan's Holy Maiden and the Elves walked together, it would make the holy union of the Purple Gold Empire think of the Elves.

Therefore, after he couldn't find Lin Yan, he found the God Territory of the Elves.

"It should be him!"

Lin Yan thought about these details and locked onto the person's background.

Other than that, there were no other gods.

That's right; there were some barbarian gods in the Orc Kingdom that had their faith totems destroyed by Lin Yan, turning the power of faith into evolutionary points.

However, there were not many powerful gods in the Orc Kingdom.

An orc tribe believed in a God. An orc tribe only had a few hundred thousand people, and the lion tribe had only a million people.

Although the overall strength of the Lion race was not weak, and the adult Lion warriors had the strength of a level one, they were still nothing compared to the Elven Empire.

The Barbarian God of the Lion race was on the second rank.

He probably didn't dare to find trouble with the Lord of Flame in the Heavenly Realm.

The most likely one was the God of the Purple Gold Empire!

"Third ranked God!"

Lin Yan whispered.

He sat down and continued to stabilize his Divine body.

His Divine body had just reached ninth rank, and it would take a few days to stabilize it completely!

As soon as his Divine body would stabilize, Lin Yan would not mind trying to see if an early third-ranked God could withstand his burning!

Chapter 382 Ghosts, Gods, and Snakes appeared! Thunder technique!

In Vera's Divine kingdom, Lin Yan was still stabilizing his Divine body.

However, something had happened in the Golden State of Purple Emperor.

"Reporting to the Queen, there have been 51 killings in York City in the past three days, and there have been 85 more in Aurelius City. In some small towns, there have also been a large number of demonic incidents. According to statistics, there have been thousands of similar incidents in the ten provinces in the past three days."

In the imperial city of the Purple Gold Empire, a female official was reporting the situation of the Purple Gold Empire to Meng Ying.

"So many?"

Below, Mia was a little surprised!

Qing Ling and Meng Ying looked at each other.

The God of the Purple Gold Empire was not so easy to give up.

On the one hand, this guy was searching for news of the Lord of Flame in Heavenly Realm. On the other hand, this guy was stirring up chaos in the country.

This was also a problem that the expanding countries in the Continent of the Gods often encountered.

Even if they defeated the kingdom of the opposite God, there would still be a large number of stubborn believers of the opposite God. The resistance would last for several years to decades, and the country that won the war would often be dragged to the point of being exhausted!

In comparison, after destroying the foundation of the opposite side's faith, the situation facing the Flame Empire was much easier.

However, the original God of the Purple Gold Empire made a big move.

He created a large number of evil incidents to disturb the hearts of the people and made the people doubt the power of the Lord of Flame out of fear. Once there was doubt, the hearts of the people would be in chaos. Once the hearts of the people were in chaos, the opportunity would come.

However, creating thousands of evil incidents at once covered most of the Purple Gold Empire. The original methods of the Purple Gold Empire's Gods were also too extreme. He was going to do anything to achieve his goal!

As expected, the attributes of strength sometimes did not determine everything.

The power of the Gods of the Heavenly Realm was full of light, but they also had such evil methods.

In the Dark Abyss, Angst was full of darkness, but her heart was bright.

“What else?”

Meng Ying asked.

The female official said, “There are also rumors that the new God of the empire is not strong enough to suppress the situation. That’s why the Purple Gold Empire was targeted by the evil gods. That’s why so many evil things happened.”

“Evil God? I think someone is behind it.” Mia, the winged girl, snorted.

“Have you sent the Temple Knights to investigate?” Qing Ling asked.

“We’ve already sent them. In important cities, we’ve also sent many Temple Knights to guard them.” The female officer said.

Meng Ying said indifferently, “Ordinary civilians have basically changed their beliefs. They cannot have the ability to do so either. There must be a large number of noblemen cooperating with them. Let Hearst send the core Knights to attack and drag them out.”

The female officer went down.

“It’s so scary. I was just in the middle of my life when my heart suddenly beat fast. Then I heard heavy footsteps. When I got up from bed, I saw a huge, blood-red figure walking by the window. I was so scared that I didn’t dare to go out. Then, a scream came from Joseph’s house. When they heard the sound, they saw that everyone in there was already...”

Outside a room full of blood, a commoner dressed in coarse cloth told the story of what happened yesterday.

“Alas, the unfortunate Joseph family.”

After the commoner finished speaking, he kept sighing.

In front of this commoner were a few Temple Knights and a magister.

A Temple Knight asked the commoner a few more words, then looked at the mage.

The mage nodded slightly.

Only then did the Temple Knight walk to one of the Temple Knights and said:

“My Lord, he shouldn’t be lying!”

The leading Temple Knight walked into the room and stared at a symbol on the wall. His voice was cold:

“Demon Cross Starlight, Months of Demons, Blood Dripping Heart, and these symbols look like the symbols of a certain Evil God. However, these symbols have already been analyzed by the Church’s specialized analysts. There is a vague location in the information. Let’s go, let’s go investigate there.”

From her voice, it was a female Temple Knight!

Because the two emperors of the Flame Empire were Queen, many women of the Flame Empire became more independent.

In the current Temple Knights, there was a special female Temple Knight.

Don't underestimate these female Knights.

They were all under the special care of Meng Ying and Qing Ling. They were all-powerful.

There were not many people, only a thousand, but their strength was above fifth rank!

The team leader Temple Knights were basically sixth ranked!

They were also one of the core knights of the entire Church's army.

As women were naturally more meticulous, the investigation of the evil incident was mostly carried out by the Knights of the Goddess Hall.

As the night fell, a group of 20 Temple Knights, as well as several magisters, quietly arrived outside a village.

There were no lights in the village. It was pitch black.

"It should be here. Theresa, go take a look first."

The female captain of the knights of the Divine Hall said.

"Yes!"

A Temple Knight sneaked into the village.

The village was quiet. Other than the chirping of insects and birds, there was not a single sound.

"Captain, there seems to be no one inside."

Theresa went down.

"Come on, let's go in and search."

The captain went in with all the Temple Knights.

The search went up from house to house but the village was completely empty, with no one in it.

"Captain, come quickly."

Just then a knight shouted.

The captain of the small team went over and saw a house in the center of the town, with red blood engraved with the signs of the magic cross, the evil moon, and the bleeding heart!

The sign still looked like blood had not dried yet. It looked like it had just been carved.

"Not good!"

Seeing this sign, the captain thought of something and her face changed slightly.

"Whoosh Whoosh!"

All of a sudden, outside the town, thousands of arrows!

“Top Shield!”

The captain didn't panic when she was in danger.

Although they were all female Knights, they were not weak and had a quick reaction.

Chapter 383: Ghosts, Gods, and Snakes appeared! Thunder technique!

In an instant, the twenty Temple Knights gathered in a circle, raised their shields, and surrounded the magisters of the temple.

“Knock, knock, knock!”

Then a rain of arrows fell on the shields of the Temple Knights.

“Whoosh!”

Following that, the rain of arrows kept landing on the shields of the Temple Knights but the shields in their hands were immovable, and occasionally some of the arrows that had not been blocked by the shields were guarded by their armor.

The arrow rain lasted more than three minutes before it stopped.

Outside the village, the earth-shattering shouts of murder rang out.

Then thousands of heavily armed soldiers rushed into the village.

“Kill them all; no matter how many civilians we kill, it's not as important as killing the Temple Knights. Even the Temple Knights have been killed, and we'll stir up chaos nationwide. Let's see how you end it.”

Outside, a soldier on a horse said coldly.

Yes, they used that symbol as bait to lure the Temple Knights.

On the first day, a large number of civilians were attacked, causing panic.

The next day, the Temple Knights were attacked, causing a wider panic!

On the third day, they would have a series of actions.

Of course, if the reaction of the Flame Empire would be fierce, they would also temporarily avoid the edge.

As soon as the Flame Empire relaxed, they would continue to play with the Flame Empire.

In short, these people of the Purple Gold Empire were ready to fight for a long time, to make the Flame Empire exhausted! This was also the revenge of the Gods of the Purple Gold Empire!

“Teams fight, teams 1, 2, 3 follow me and team 4 protects the wizard.”

In the village, thousands of soldiers rushed in, the female captain decisively issued the order.

In the face of thousands of soldiers, she should take the initiative to attack!

Then, with a loud shout, she rushed out first, her heavy sword slashing straight at the fastest man.

The man saw the captain cut down with his sword and blocked with his shield but it didn't work. The captain cut his shield in half with her sword, and the heavy sword landed on the man... while in the other three directions, the other three five-man teams worked well and quickly killed the incoming enemy.

“Boom!”

Several sorcerers in the middle began to cast magic, and dozens and hundreds of people were killed in each spell.

Outside the village, the face of the soldier on the horse changed because there were only more than 20 Temple Knights and the strength was extremely powerful!

The thousands he had brought were not weak but would be reaped like wheat by the Temple Knights.

In such a short period, more than a third of the thousands of people he brought with him had been killed by the 20 or so Temple Knights!

“What kind of Temple Knight are they? Why are they so strong?”

The soldier on the horse looked ugly.

He clamped his legs and rode towards the female captain.

What greeted him was the female captain's heavy sword!

The warhorse didn't even make a sound when it was split apart by the female captain. Then, the female captain's sword met the warrior's sword.

“How heavy!”

The warrior's heart stopped beating! His sword, under his vision, shattered into pieces!

“Bang!”

The warrior thought he was dead, but the female captain's sword suddenly changed. The sword slammed into his armor, making him dizzy and unconscious.

“Even with this little strength, he dared to cause trouble.”

The female captain stepped on him and said coldly.

“Queen, there were more than a hundred attacks on the Temple Knights throughout the country yesterday, but none of them succeeded. This is a list that the Church's sorcerers asked about through magical hypnosis.”

In the main hall, Hearst handed a list of names to Meng Ying.

This list was filled with names. Many of these names were famous in the Purple Gold Empire.

They were all famous aristocrats!

“Looks like the original God of the Purple Gold Empire has promised them some bad things. Hearst, let the Centaur warriors move out. There’s no need to keep these people.”

Meng Ying said.

In order to completely stabilize the Purple Gold Empire, they had to use lightning.

In the past, when the Flame Empire was still on the western side of the endless desert, this sort of thing had been done by the tribe leader of the Centaurs.

It had been a long time since the centaur soldiers had been mobilized like this.

“How is that possible? Thousands of people besieged twenty Temple Knights, but they were all annihilated. The most important thing is that there is more than one place. We launched more than a hundred places at the same time, but no one succeeded. Where did these Temple Knights come from?”

In a large manor, a noble dressed in luxurious clothes said with a dark expression.

“Sir, what should we do? Should we run?”

One person asked.

“Escape? Why are you gonna escape? We are the cornerstone of the empire. Without any conclusive evidence, they can’t do anything to us. As for the confession of those knights, we can just do it. I don’t believe that they will dare to kill us all.”

The noble snorted.

“My lord, my lord, we are surrounded by half-man and half-horse orcs.”

At this moment, a servant ran in a panic.

The noble’s expression changed.

“I’ll go out and take a look. Quick, gather the guards.”

Under the protection of a group of soldiers, the well-dressed nobles walked out of the manor. Before they could approach, they heard a group of people loudly chanting something.

As soon as he listened carefully, he reached what the centaur was reading.

“The noble Clan of York City, who believed in the evil old Gods, is suspected to have committed more than ten murders in York City and attempted to attack the Temple Knights. They deserve to die!”

Hearing what the people were saying, Count Wen Yue shouted, “Don’t slander me. Where is the evidence? What evidence can prove that I did it? Don’t fool around with a few unconscious people. I don’t know if you will play.”

When the Centaur warrior heard his voice, his expression did not change much.

Then, Count Wen Yue saw a large number of arrows flying into his manor.

“Boom!”

The arrows had just landed when they exploded violently.

It turned Count Wen Yue’s manor into a sea of Flame.

In the next few days, the Centaur soldiers swept over one province after another. As long as the people on the list, whether they were Count, Marquise, or Duke, none of them survived!

The thunderous methods of the Flame Empire stunned the rest of the nobles in the Purple Gold Empire!

Chapter 384: The deterrent power of the push order! Angry gods!

**: The deterrent power of the push order! Angry gods!**

“They dare to do it. Aren’t they afraid of shaking the foundation of the Empire?”

On a noble’s fief, a blue-clothed noble said with a gloomy expression.

In the past few days, more than a fifth of the nobles of the Purple Gold Empire had been wiped out.

There were a few Duke-level top nobles here.

The Purple Gold Empire was small, so it could already be called a Duke. However, the number of Dukes in the Purple Gold Empire was limited.

There were two Dukes on the list!

If the Duke didn’t join in, these people wouldn’t be able to make such a big move.

Even the Temple Knights of God dared to set up a trap to attack, their courage was extraordinary!

However, after Meng Ying sent out the core knights, the attacks of these people did not succeed together!

The army of the Purple Gold Empire had already suffered heavy losses in the war. These nobles had already armed a large number of troops for the fight for the throne of the three princes and these troops had died in the end.

Although they could still spend a lot of money to gather some powerful warriors, they could not withstand a single blow from the core Temple Knights.

Twenty fifth-ranked core Temple Knights were enough to defeat thousands of second-ranked warriors.

This was how terrifying high-end combat power was.

On the battlefield, if there were no corresponding Temple Knights to restrain it, the Church’s Temple Knights would be enough to determine the outcome of a large-scale battle!

“We haven’t been found yet. What should we do? Should we continue?”

Another noble asked.

This time, not all the troublemakers were found out.

In order to mess with the Purple Golden Empire, the God of the Purple Golden Empire had a lot of things, including increasing their lifespan and increasing their strength.

In addition, they were in the dark and had a thorough plan, so they thought that they could control everything behind the scenes.

However, they did not expect that no matter how many schemes and tricks they had, in front of absolute strength, they would still be unable to withstand a single blow!

However, there were still many fishes that escaped the net that had not been found.

“No, it’s another battlefield now. If the Flame Empire dares to kill so many nobles, it’s an enemy of all the nobles. Viscount Raka, don’t reveal your identity. Contact the nobles who haven’t joined and let them unite to protest against the Flame Empire’s actions.”

The noble said.

“This is a good plan!”

Beside him, a noble praised.

In this operation, a large number of nobles did not join them.

However, the fact that the Flame Empire killed the nobles with no trial made the nobles feel threatened.

In the Continent of God, nobles were the cornerstone of a nation.

Therefore, even a king would not kill a noble without trial!

It would have been better to kill one or two occasionally. Like this time, killing nobles on a large scale, even if these nobles were suspected of causing trouble, they had already broken the rules because killing nobles required a trial, and the most important part of the trial was conclusive evidence!

Therefore, they could have cowed those nobles who did not stir up trouble and let the nobles who did not stir up trouble protest the massive killing of the nobles by the Flame Empire.

If the Flame Empire dared to kill these nobles, they would lose the hearts of the people in the Purple Gold Empire.

If they didn’t kill these nobles, then the Flame Empire would be forced to be embarrassed by these nobles and lose their prestige!

In short, the Flame Empire was in a dilemma!

“Of course it’s a good plan. This is the revelation from my God!”

The blue-clothed noble said calmly.

There was already a holy light on his body. The god of the Purple Gold Empire had chosen this noble in green as the new Holy Son.

This group of people moved very quickly.

A few days later, a large number of nobles who were not involved in the chaos were persuaded to rush to the imperial city of Purple Gold Empire.

They had to work together to pressure the Flame Empire.

The actions of the Flame Empire threatened all the nobles and they did not participate in the chaos, so they came out to pressure them.

“Queen, there are thousands of nobles gathered in the Imperial City. They are all accusing us of breaking the rules and traditions. They killed a large number of nobles without trial. They are very popular, and they have won the sympathy of many civilians. They are now gathered in the Purple Gold Square to meet the Queen.”

In the palace, a female official reported.

The imperial palace of the Purple Gold Empire had been destroyed.

The place where Meng Ying and Qing Ling lived was the palace that the Purple Gold Empire had spent a lot of money to rebuild. After the repairs were completed, no one had ever lived there. They were prepared to wait for the new emperor to succeed before moving in.

Now it was easier for Meng Ying and Qing Ling!

“Holy Maiden, I’ll deal with it. My God has already sent a message.”

Meng Ying said to Qing Ling.

Qing Ling nodded and said, “Well, you go.”

“Even if they are guilty, the Flame Empire will kill them today without trial. Tomorrow, they may kill us without trial. If we don’t speak today, today’s them will be tomorrow’s us!”

In the Purple Gold square, a noble shouted.

His words attracted the approval of many nobles.

“Yes. If the trial results show that they’re guilty, they deserve to die. But there was no trial. They killed two Dukes, five Marquises, ten Counts, and a hundred Viscounts. That’s too much.”

Immediately, someone agreed.

The nobles were well-organized and did not seem to be making trouble!

Around the square, there were hundreds of thousands of civilians who came to watch the show.

In the Continent of Gods, nobles and civilians were not opposed to each other. Many civilians relied on nobles to eat.

Of course, after the Flame Empire issued the reclamation order, the commoners no longer needed to rent land from the nobles. However, after a commoner finished farming their land, they would still go to the nobles’ land to help earn money.

Every commoner would dream of becoming a noble.

Therefore, the words of these nobles won the approval of a few civilians.

It was just that the commoners would not openly support the nobles. The Flame Empire had given them ten acres of land and returned them to the God Beads. They would not go against the Flame Empire and find trouble!

Look, this was the foundation of belief.

The original God of the Purple Gold Empire had almost no foundation of faith among the commoners, so he could only have the idea of a noble!

“Not bad.”

In the crowd, a noble spoke to the blue-clothed noble who had come up with this plan.

The noble nodded.

“I heard that the Queen of the Flame Empire is two women. Can a woman be a good emperor? Let’s see how she’ll end it later.” The blue-clothed noble said disdainfully.

At this moment, a strong magic wave came from the sky. Everyone felt a huge pressure.

“Are you trying to suppress me? Interesting, if you dare to do this, it would be exactly what we want.” The noble said.

However, the magic wave disappeared in a flash. Immediately after, more than ten figures appeared on the high platform in the middle of the square. The one in the middle had a green veil on her face, and her figure was slim. It was the young girl Meng Ying.

One of the Queens of the Flame Empire!

“Your Majesty, what crime did Duke Bonin commit? Why did you execute him without a trial? This did not conform to the law, nor did it conform to tradition!”

After Meng Ying arrived, a white-haired old Duke stood up and said.

“Yes, you’re Majesty. Even if Duke Charles committed a serious crime, he should be tried publicly. All Marquises and Count should vote to decide whether he should be executed. This is the tradition of all nations. Nobles are the cornerstone of a nation. We have no intention of going against the Empire, and we didn’t participate in it, but we want an explanation!”

Another old Viscount stepped forward.

When the two dukes stepped forward, the other nobles spoke.

“One by one.”

At this moment, a female official shouted.

Seeing that Meng Ying seemed to be prepared to listen to them, all of the nobles lined up and voiced their opinions. Some of the nobles even wanted the Flame Empire to enact legislation to protect the rights of the nobles.

Meng Ying stood there and listened quietly.

After two hours, Meng Ying gently pressed her hand.

Chapter 385: The deterrent power of the push order! Angry gods!

**: The deterrent power of the push order! Angry gods!**

Instantly, all the nobles fell silent.

“The rights of the nobles should indeed be guaranteed.”

Meng Ying spoke.

“But this means that the Flame Empire is afraid. Just wait. Once you give in, these greedy nobles will immediately have even more excessive demands.”

Among the nobles, the blue-clothed nobles whispered.

All the nobles looked up at Meng Ying.

Meng Ying finally spoke again. “I drafted a bill, send a messenger to bring it and read it to them.”

“Yes!”

A female official took a piece of paper from Meng Ying.

All the nobles looked at her anxiously.

Then, the female official spoke:

“Nobles are the cornerstone of a country. The more nobles there are, the more prosperous the country will be. Therefore, in order to increase the number of nobles, this decree is hereby issued: From this day forth, the title of nobility shall remain hereditary. However, the nobles’ territories and titles shall be given to all their heirs. Regardless of whether they are the Eldest son, Second Son, or Second Son, they shall have the right to obtain territory....”

Half way through the female official’s words, the expressions of the nobles present changed because what she was reading was none other than Lin Yan’s famous token of gratitude before he transmigrated.

The order of gratitude was the bane of all dukes but here, it was the bane of all nobles!

The reason why the aristocracy could be strong from generation to generation lies in the inheritance system of the eldest son of the first wife but Thriller gave all the descendants of a nobleman the right to inherit.

Meng Ying even went a step further, breaking up a noble title, for example, a Duke’s title was broken into multiple Marquise titles. A Marquise title was broken into multiple Count Titles.

Once wealth and nobility were separated, when a noble died, his family would be divided into a few middle-class nobles. These middle-class nobles would then be divided into a large number of small nobles.

This way, within a few years, a noble family would fall apart.

“Your Majesty, this law must not be implemented!”

Before the female officer finished reading, all the nobles below panicked and had long forgotten to ask Meng Ying for a statement and knelt down to request Meng Ying to withdraw the decree.

Meng Ying remained unmoved and motioned the female officer to continue.

When all the nobles were sweating, Meng Ying said calmly:

“It’s just a backup bill. If anything evil happens in the Purple Gold Empire, this bill will become a reality. Now tell me, who’s the first to propose that you guys come out and cause trouble?”

All the nobles below heaved a sigh of relief when they heard Meng Ying’s words.

“It’s him.”

At this moment, a noble pointed out the Viscount beside the noble.

The blue-clothed noble made way for the Viscount.

“I, I didn’t, I just...”

The Viscount blushed.

Halfway through his words, he realized that his people were in mid-air but then a ball of flames surrounded him.

The Viscount didn’t even scream. He turned gray and fell from the sky.

“I don’t think he found me.”

The blue-clothed noble hid behind a noble.

At this moment, he suddenly felt an invisible force assaulting him. The next moment, he and more than 20 people floated into the sky at the same time.

The blue-clothed noble was shocked.

He subconsciously looked at Meng Ying. Meng Ying glanced at him indifferently, and then he saw Meng Ying waving her hand. It was like driving away from a few flies.

Flames emerged from her body.

In less than a second, the blue-clothed nobles and the other 20 or so nobles that had not been discovered had turned to ashes.

At the last moment of his life, the noble in green finally understood what kind of terrifying existence he was going against.

If he was given another chance, the original God of the Purple Gold Empire would not deceive him but unfortunately, there was no if.

Although they hid well, they couldn’t hide it from Meng Ying no matter how quiet they were in a domain.

“Let’s do this. From today onwards, there will be another evil incident in the Purple Gold Empire. On the second day of the evil incident, this law will be implemented. You can do it yourself.”

After Meng Ying finished speaking, she left the square.

After Meng Ying left, thousands of nobles looked at each other.

They still felt a lingering fear.

It was the content of the order that made them tremble with fear and if the Flame Empire insisted on pushing the order of favor, they had no good way.

In their family, other than the Eldest Son, they would raise their hands to welcome the order.

In the Divine Kingdom, there was a saying: The Eldest Son of a noble was the son.

Second son, second son, daughter..... Not to mention the title of Viscount, they could not get anything.

However, the token of gratitude would make the second son, the second son, and the daughter all become loyal supporters of the Flame Empire.

“I suggest that our armed soldiers’ patrol. If anyone is still bewitched by the Old God, don’t blame me for being rude.” A Duke said coldly.

“Yes, I am armed with a thousand soldiers, responsible for the security of the cities around my territory.” Another noble said.

“I’ll arm a thousand too...”

Under the threat of the Pushing Grace Order, these soldiers of the nobles kept order for the Flame Empire. They even reported some of the nobles who might have been tricked by the Purple Gold Empire.

Suddenly, the soldiers of the nobles could be seen patrolling

When all the nobles exerted their strength, the situation in the Purple Gold Empire was stabilized as quickly as possible.

“Sister Meng Ying, your methods are too useful.”

The Fox Lady Qing Ling could not help but ask.

Meng Ying replied, “Holy Maiden, this is all a revelation from my God. My God’s wisdom is truly lacking in wisdom.”

Qing Ling replied, “That’s right, Sister Meng Ying. However, we still have some time to guard.” Meng Ying nodded.

“I’m furious!”

In the Heavenly Realm, a God roared in a Divine Kingdom! He was the God of the Purple Gold Empire.

He hadn't expected that Meng Ying would easily resolve the chaos that he had bewitched a large number of nobles.

This was the first time a God from the Heavenly Realm had felt that his intelligence was inferior to that of a human!

More importantly, Meng Ying had killed a large number of nobles who had been bewitched by him with thunderous methods and she had also forced the other nobles to stand on the same side as the Flame Empire with the deterrence of her grace. He could no longer do much in the Purple Gold Empire.

The Heavenly Realm Barrier and an infinite distance separated the Heavenly Realm and the Continent of Gods.

If there were no believers praying to him, he would not even be able to locate the Purple Gold Empire.

In other words, the Purple Gold Empire was lost completely.

It would be strange if he wasn't angry.

"There's still a chance. I must find the location of the Lord of Flame. As long as there's a valid clue about the Lord of Flame, I can exchange him for three hundred high-grade divine stones from me!"

The God of the Purple Gold Empire decided to increase the reward.

Three hundred high-level divine stones, even when he had the Purple Gold Empire, were equivalent to the sum of his three years of power of belief.

It was impossible for him to turn all the power of belief into divine stones.

The Purple Gold Empire was slowly becoming a small empire.

Thus, this was already half of his collection.

The Purple Gold Empire's Deity's voice was heavy.

Chapter 386: I will! The first Goddess in the Divine system!

Through the prayers of the Holy Maidens, Lin Yan naturally understood the situation of the Flame Empire.

Now his Holy Maidens had grown.

There were many things that Lin Yan did not need to worry about.

Whether it was Meng Ying or the green spirit, they all grew up quickly.

Princess Luo Ying also grew up very quickly. Luo Ying was now a rank eight mage, and she was in charge of several provinces in the west of the Flame Empire for Lin Yan. She was powerful.

Mia, the Dwarf Queen, Lottie and the others also grew fast.

After witnessing Lin Yan's miracle in the desert, Lucia from Medusa also built a Divine Hall and became Lin Yan's new Holy Maiden.

They had established a powerful kingdom for Lin Yan in the Continent of God.

"The God of the Purple Gold Empire is jumping up and down. This time, I'm afraid he's pissed off because of nothing?"

Lin Yan thought.

The more infuriated the Purple Gold Empire was, the calmer Lin Yan was. He was still stabilizing his Divine body.

"Almost there!"

Two days later, in Vera's Divine kingdom, Lin Yan let out a breath.

The ninth ranked Divine body was completely stabilized.

Lin Yan tried. The flow of Divine power was unimpeded. The strength of the Divine body was different from when he had just arrived in Vera's Divine kingdom.

At that moment, the Divine kingdom opened and a figure flew in. It was Vera.

These days, not only did she send out a large number of elves, but she also personally went out to collect resources for Lin Yan.

"We've finally collected them all."

Before Vera arrived, a joyful voice was heard.

Then, she appeared in front of Lin Yan and took out a ball of light.

"Eat it, the things inside should be enough to rank you up to tenth rank."

Vera said with a smile.

Lin Yan did not hold back and ate it.

Not long after eating, Lin Yan, who was already very close to a tenth ranked Divine body, had a tenth ranked Divine body!

After the ninth ranked Divine body was completely stabilized, it would not take much time for the tenth ranked Divine bodies to stabilize.

Now, Lin Yan's Divine form had a fifteenth ranked Godhead and a tenth ranked Divine body.

The Godhead was at the peak of the third rank, but the Divine body was at the peak of the second rank.

Although a tenth ranked Divine body couldn't bring out the combat strength of a fifteenth ranked Godhead, it would still be much stronger than a normal peak second ranked Godhead.

In fact, with Lin Yan's Divine form, he could even fight the third-ranked Gods.

Yes, this was the Divine form.

His flame form would only be stronger.

Lin Yan sat there and asked, "Vera, last time you said the enemy was asking about me. Do you know who it is?"

Vera nodded and said, "I've only found one. There are two Holy Spirits who are still searching for information about you. One of them is from the Divine kingdom of the Star God Holton, and the other is unknown to me. I didn't attack them to avoid alerting them."

Vera was smart, once she attacked the two spirits, such as capturing one or two spirits to ask about the situation, it was very likely that she and Lin Yan would be exposed.

Since the other party dared to send the Holy Spirit to investigate the situation, he was not a fool.

Even if Vera could do a hundred things, what if something was left behind?

To the Gods, the clues were all clues, and they could find them.

"The Star God Holton is the same as me. He is a God with a ninth ranked Godhead and a ninth ranked God body. However, he should have joined a God system recently."

Vera added.

Hearing the two words of the divine system, Lin Yan's heart moved slightly.

He opened his system and saw that in the system, Vera's progress had reached 80%.

So fast!

80% Progress meant that Lin Yan could summon Vera into his pantheon.

By the way, Lin Yan remembered something.

The Goddesses of the elves were close to each other. Did they not have their own Goddesses?

After thinking about it, Lin Yan decided to ask Vera about it.

"Vera, have you joined the pantheon?"

Lin Yan asked.

Vera shook her head. "No."

Lin Yan asked, "The Goddess of the elves, don't you have your own Goddess?"

Vera shook her head again. "I used to have it, but now it's gone. I don't know why."

There were not many Goddesses in the elf family.

In the Heavenly Realm, the number of human Gods was the highest, like stars everywhere.

However, the Goddesses of the Elves were all capable.

Lin Yan asked, "Vera, will the Goddess of Life communicate with you?"

Vera spoke of the Goddess of Life with a hint of respect in her voice. “The Goddess of Life is a powerful Master Goddess. She is not interested in many things, but luckily she created the Elves. Otherwise, some powerful deities would have made plans for us...”

The all Goddesses were Elves.

Some human Gods were not like the Gods of Eastern mythology before Lin Yan transmigrated.

Many human Gods also hoped to find a suitable partner.

The perfect Elven Goddess was the best choice.

Fortunately, the Elves were not weak. Most importantly, all the Elves were created by the powerful Goddess of Life.

Under the threat of the Goddess of Life, many human Gods did not dare to make any plans against the Goddess of the Elves.

Lin Yan understood.

He looked at the progress of Vera in his department again.

“I can try to establish a Divine system.”

Lin Yan thought.

“Vera, actually, I also have a Divine system.”

Lin Yan said.

Vera looked at Lin Yan.

Her bright eyes were filled with anticipation.

Lin Yan continued:

“However, I’m the only one in my pantheon, Vera...”

“I’m willing!”

Before Lin Yan could finish, Vera interrupted him.

She was actually very gentle and reserved. She was also a lady.

Therefore, even if she urgently interrupted Lin Yan, the method was still gentle and reserved.

All right!

Lin Yan did not waste any more words. He took out a mark from the System’s panel.

The location of this mark was just below Lin Yan’s name.

That was the first sequence in the pantheon.

Vera took the imprint curiously.

“Do you need me to eat it?”

Vera asked.

Lin Yan nodded and Vera ate the imprint.

That mark represented a special contract.

It was equivalent to a Divine contract.

The moment Vera ate it, her name lit up.

This meant that the Divine system had been fully activated but Lin Yan was right, Vera was the only one in the pantheon.

Chapter 387: Two Gods united! The schemes of the Holy spirits!

“Lord Keno, we’ve recently discovered that the other Holy Spirit is also searching for the location of Flame Master. I wonder if it’s an enemy or a friend.”

In a special city in the Heavenly Realm, one Saint was speaking to the other.

In the Heavenly Realm, there were also some cities. These cities were the places where the gods usually exchanged items.

Of course, the gods wouldn’t trade themselves, instead, they would send out the Holy Spirits of their subordinates.

There weren’t many of these cities and there was usually only one God Territory. Generally speaking, they belonged to a powerful God.

In the city, there were some, who had just gathered their godheads and were forced to leave the Continent of Gods to come to the heavenly world. However, they did not have their Divine bodies, nor did they have their godheads.

These gods were also the weakest gods in the Heavenly Realm. They needed to spend a lot of time gathering resources to create a Divine body!

“Have you reported to my God?”

Saint Keno said.

“Not yet.”

“Hurry up and report to my god. Let’s see how my god’s attitude is. The other party doesn’t know where he’s coming from. Let’s not come into contact with him for now, to avoid alerting the enemy.

“Yes.”

The two Holy Spirits ended their conversation. One of them began to report the situation especially.

The Holy Spirits were similar to the Elves of the Divine Kingdom of Vera.

The Holy Spirit was also the product of God’s devout believers’ souls being drawn to the heavens.

Of course, they had their bodies. They were bodies that the gods had reconstructed with Divine energy, not flesh and blood.

In terms of strength, it was much weaker than the Divine Body.

However, since the Holy Spirits didn't have a body of flesh and blood, they had some strange characteristics in some aspects.

For example, their spirits were quite strong and it was not easy to kill them, because they would often be reborn in the Divine Kingdom if they were killed.

Unless they possessed something like the Abyssal Demon flame, it could kill them from the soul level.

It had to be a powerful Abyssal Demon flame!

In the Heavenly Realm, their strength far exceeded that of the Continent of Gods. The powerful spirits created by some powerful gods were even stronger than weaker gods in terms of combat strength.

The Holy Spirit quickly reported the situation.

Not long after, the Holy Spirits received a reply from God.

"Lord Keno, my god has instructed us to try to contact the other party. The other party might also be the enemy of the Flame Master. The enemy of the enemy is a friend." The Holy Spirit said.

At the same time, another Holy Spirit discovered them.

"Lord David and some other Holy Spirits are also asking about the Lord of Flame in the nearby God Territory."

"Let's make contact with them and see who it is."

"Yes."

Clearly, this group of Holy Spirits was stronger and more decisive.

Not long after, the two Holy Spirits made contact.

Saint Kino, the subordinate of Star God Holton, was the first to report his origins.

"Star God Holton? So, Star God Holton's kingdom has also been taken away by the Lord of Flame?"

Saint David asked.

The Star God Holton was the God of the Horton Kingdom.

The God of the Horton Kingdom and Vera had the same strength. They both had ninth ranked God bodies and godheads.

"That's right. The kingdom of my God has also been seized by the Lord of Flame. May I ask who the noble god is?"

Saint Keno said.

"My God name is Saia!"

The Holy Spirit David spoke in a low voice with a trace of pride.

The Holy Spirit Kino took out a book, flipped through a few pages, and revealed a surprised expression:

“A third-ranked God from Heavenly Realm!”

“That’s right!”

The Holy Spirit David said.

The Holy Spirit Keno took a deep breath. “So, the kingdom of God Saia is also the Lord of Flame...”

The Holy Spirit David said again, “That’s right, but the Lord of Flame was able to take away my god’s kingdom, and he used a lot of tricks. In addition, he found a Sanctuary to be in charge of and that Sanctuary had the Abyssal Flame. Even our captain, Sean, was killed by her after the fusion.”

The shocked expression on the Holy Spirit Keno’s face did not fade because the Horton Kingdom had been taken away by the Kingdom of the Lord of Flame. It had been more than a year.

At that time, the Lord of Flame did not have any believers of the Sanctuary.

According to the judgment of the God of Horton Kingdom, the Lord of Flame should also be a high-ranked God of the second rank. However, once the Lord of Flame devoured the three kingdoms for some time, it might greatly surpass him.

Therefore, the God of the Horton Kingdom, Star God Holton, sent a large number of his subordinates to search for the Flame Master, trying to launch a divine battle before the Flame Master became a third-ranked God but now, even the kingdom of a third-ranked God had been taken away by the Lord of Flame!

Heavens, just how long has passed!

The Lord of Flame’s Kingdom was expanding at an extraordinary speed.

Moreover, the biggest problem came, since the Lord of Flame dared to take away the kingdom of a third-ranked God, it could only mean that the Lord of Flame was not afraid of this third-ranked God and from the Holy Spirit David, the Holy Spirit Kino knew that the Lord of Flame could attract even a Sanctuary!

No second-ranked God could attract a Sanctuary!

If a third-ranked God was at the early stage of the third rank, it would be hard to attract Sanctuary.

The reason why the powerful third-ranked God was able to attract Sanctuary was that this third-ranked God could provide a lot of guidance for the cultivation of Sanctuary. On the other hand, this third-ranked God could establish a Divine system in the future.

Even the Sanctuary could become a God. It was still very weak when they first became a God. Even if they wanted to join the Divine system, no God would be willing to accept it. However, if they were a third-ranked God, they would be able to join the God system after entering the Heavenly Realm and grow faster.

Of course, not all Saints wanted to join the pantheon.

In short, the Lord of Flame was not afraid of a third-ranked God. Even the Sanctuary could attract him. Adding it up, it meant that the Lord of Flame was most likely a third-ranked God.

Furthermore, it could be an extremely powerful third-ranked God with not an eleventh ranked godhead but a twelfth or thirteenth ranked godhead, while the God of the Holy Spirit Kino, the God of the Horton Kingdom was only a second ranked God with a ninth ranked godhead!

How could a second-ranked God dare to challenge a third-ranked God?

Thinking of this, the face of the Holy Spirit Kino turned gloomy and the spear in his heart became heavy.

The enemy he wanted to find suddenly became a hundred times stronger than his own God. Anyone would be in a bad mood, right?

“That’s good. We can work together to find the whereabouts of the Lord of Flame. We’ve been searching the Heavenly Realm for some time, but we haven’t found anything. Have you got anything?”

The Holy Spirit David said.

After saying that, the Holy Spirit David saw the expression of the Holy Spirit Keno.

“Are you afraid? The Lord of Flame isn’t included in the God’s Book. It’s very likely that he’s a new God who’s hidden away. His strength isn’t certain yet. What’s there to be afraid of if he’s hiding himself and showing his tail? Just look for him. When you find him, my God will take action.”

The Holy Spirit David said lightly.

“I don’t know how you found the Heavenly Realm of the Elven gods, but according to my Divine revelation, Lord of Flame’s subordinates have helped some Elves. This means that Lord of Flame and some Elven goddess are most likely having an affair, which is why we came here. We deliberately caused such a big commotion to attract the enemy’s people to monitor us. As long as we catch the enemy’s people, we have clues.”

The Holy Spirit David said again.

Chapter 388: Vera leveled up! A way to rank up quickly!

“Goddess, according to my observation, the two Holy Spirits searching for the Lord of Flame seem to be united.”

The day after Vera joined Lin Yan’s pantheon, the Elf that Vera sent out, Garcia, came back to report to her.

All the Elves were not big, they were only the size of a fist. When they flapped their wings, they looked quite cute.

Their looks were still the same as when they were Elves.

Everyone was as beautiful as a flower.

Of course, they could also transform into normal forms, but their normal forms were not as strong as when they were Elves.

Vera asked, "Together? Have you figured out the origins of the other Saint?"

Garcia said, "Not yet, Goddess, they are very cautious."

Vera pondered for a moment and said, "Garcia, continue to observe and pick some more Five Phoenix Fruits to sell. You have to be careful. Don't let them find out. If there's any danger, you have to ask me for help before they block the thread of faith."

"Yes, Goddess."

Just as Garcia was about to leave, she heard Vera's voice again:

"By the way, Garcia, this was bestowed by God. Eating it will save your life at a critical moment."

Garcia raised her head slightly and saw a very small flame on Vera's finger.

Without any hesitation, Garcia ate the flame and flew away from the Divine Kingdom.

In the Heavenly Realm, the thread of faith was clearer. Each Holy Spirit was like a god's tentacle. These gods could quickly descend to the side of the Holy Spirit through the prayers of the Holy Spirits.

However, during the long battle, the gods already had a lot of ways to temporarily lock down an area, allowing the faith line in that area to be locked down in a short period.

This kind of blockade did not last long. At most, it would only take a few minutes, but for a Holy Spirit rank battle, a few minutes was enough.

In addition, this seal required some special treasures and these treasures were hard to bring to the Continent of God, so the Continent of God's faith line was hard to seal.

There was no point in locking down the thread of faith in the Continent of Gods because there was no way for a God to come personally.

After Garcia left, Vera came to Lin Yan's side.

She looked at Lin Yan with an emotion that could be called "love".

Vera looked at Lin Yan in a daze. An hour later, Lin Yan tilted his head and met her eyes.

Vera flashed a bright smile at Lin Yan.

"Lord, the two spirits who are searching for you have joined together and they have increased the reward. There are more than a dozen goddesses of the Elves who know about you, but they will not reveal any information. Lord, your enemies must have been very powerful, right?"

Vera asked.

Yes, after joining the pantheon, Vera began to call Lin Yan the God and it was beginning to use respect but as Vera spoke to Lin Yan, her tone became sweeter and some of Vera's recent problems have left Lin Yan a bit puzzled.

Lin Yan did not know Vera's super brain.

However, her findings were useful to Lin Yan.

Lin Yan said calmly, "Let them look for it first. Vera, how long is your godhead from tenth rank?"

Vera said, "There's still a long way to go. Reaching tenth rank requires me to have a higher rank of Divine energy. The amount of Divine energy must also reach a certain rank. It also requires a higher understanding of the rules. My willpower must also be stronger."

The upgrade of godhead was not simple.

It was not the amount of Divine energy that determined the rank of the godhead.

It needed too many things. Divine energy, Divine energy quality, rule comprehension, the will of the gods, and so on...

Lin Yan took out the thousand high-level sacred stones and handed them to Vera.

Vera wanted to refuse, but Lin Yan put it in her hand.

"Vera, I still need a lot of time to advance to the next rank. Only after your strength increases can you help me better. So, take it."

Lin Yan said.

When Vera heard Lin Yan say that she could help him, her face immediately revealed joy.

Vera nodded heavily. She had already decided. She wanted to reach tenth rank as soon as possible. No matter what, she could help Lin Yan deal with a peak second ranked two enemy, right?

"Vera, if your godhead wants to reach tenth rank, what kind of rules do you need?"

Lin Yan asked again.

Vera said, "There are many laws of life. I don't even have one that reaches 100%. The goddess of life is very generous. Every time the Elves plant a Tree of Life, we can use it to comprehend some of the laws of life, but after all, the Heaven Realm barrier separates us, so we can't sense it clearly."

Lin Yan nodded slightly.

After that, Lin Yan used more than a hundred thousand pieces of faith power and added some fragments of laws into it. He exchanged them for a bit of low-grade Divine energy and then exchanged ten points of low-grade Divine energy for one point of high-grade Divine energy. After that, Lin Yan used ten points of high-grade Divine energy to exchange for one point of high-grade Divine energy.

After exchanging five times, Lin Yan took out the drop of Divine energy.

When Vera saw that drop of Divine energy, she instantly forgot about a thousand high-level Divine stones.

This was because the drop of Divine energy that Lin Yan had provided was simply high grade.

Not only was it a high grade, but more importantly, this drop of Divine energy did not contain any defensive means.

Divine energy was also one core of a God.

Every God's Divine energy contained different ingredients.

Divine energy condensed directly from the power of belief was also Divine energy, but no God would choose such Divine energy, because this was the most easily broken Divine energy.

Every God would add a private item to it and turn it into their Divine energy!

In addition, every single God had set up a large number of defenses within their Divine energy to prevent others from breaking through their Divine energy.

Chapter 389: Vera leveled up! A way to rank up quickly!

This was because once someone cracked the constitution of his Divine energy; he would be able to find a way to target it. If even his Divine energy was targeted, this God would most likely lose the battle.

The more powerful a Deity was, the more powerful the defenses within his Divine energy would be.

If it was a Divine energy bestowed by a powerful God, one could use it to attack or destroy it.

However, there was no way to break it. One simply did not know the specific composition of one's Divine energy, the proportion of these components, and the arrangement of the energy.

If he forcefully cracked it, it would only cause that drop of Divine energy to disappear automatically.

However, the drop of Divine energy that Lin Yan gave Vera could allow Vera to decipher its composition, energy arrangement and many other aspects. This allowed Vera to obtain a large amount of valuable experience and quickly level up.

In Vera's eyes, Lin Yan had given her his core secret.

She looked away, "Master God, this is your core secret. I can't read it..."

Before she could finish her sentence, a drop of high-grade Divine energy appeared in Lin Yan's hand once again. This drop of high-grade Divine energy gave her a completely different feeling. The ingredients inside were very different from the laws involved.

Every single Deity's Divine energy was unique but why did the Lord of Flame have two different types of high-grade Divine energy?

Was he not afraid of conflict?

But this did not end, another drop of high-level Divine energy appeared in Lin Yan's hand. This drop of high-level Divine energy still didn't have any defensive means.

Following that, Lin Yan conjured ten drops of high-grade Divine energy like a magic trick.

This was the biggest difference between Lin Yan's virtual godhead and the godhead of the heavenly world.

The Divine energy in the godheads of the Heavenly World's gods was all the same types. Even if they wanted to level up, they would only continue to condense and condense, making them even stronger.

The gods of the Heavenly Realm were all very single-minded.

After they found the Divine energy that was most suitable for them, they rarely studied the second type of Divine energy.

They couldn't hold their godheads.

Some gods might study the constitution of the enemy's Divine energy, but they would not allow the second type of Divine energy to appear in their godheads to avoid conflicts.

However, Lin Yan's godhead could use the power of belief, energy points, and the fragments of laws that Lin Yan had comprehended to form different Divine energies.

It was also easy for his Divine energy to become high grade. He could continuously exchange ten low rank Divine energies for first high ranked Divine energies.

Not only was there a lot of Divine force in his godhead, but there were also many types of Divine force. Even chaos and darkness Divine force could exist!

"So many..."

Vera opened her mouth!

There were ten different drops of high-grade Divine energy!

Vera sensed a drop of high-grade Divine energy that matched her next step!

"Is there anything you need? I'll adjust it."

Lin Yan said.

Deployment!

These two words made Vera feel ridiculous.

Heavens!

Could Divine energy be freely mixed?

In order to increase the power and use of Divine energy, some Deities spent a great deal of time studying the composition of their Divine energy in order to make themselves even more powerful.

However, in Lin Yan's hands, he had casually created ten types of high-grade Divine energy!

Could this be the terror of a fourth-ranked God?

Seeing Lin Yan's bright eyes looking at her, Vera suppressed the shock in her heart. She stretched out her hand and chose a drop of Divine energy.

This drop of advanced Divine energy deployed by Lin Yan made Vera feel quite consistent with her own power.

“Eat it.”

Lin Yan said.

Vera nodded and swallowed the drop of high-level Divine energy.

After this drop of high-level Divine energy, which was completely defenseless, entered Vera’s body, Vera felt that even the cells in her body were jumping with joy.

A large amount of information regarding this drop of high-grade Divine energy was broken through by her.

In her small head, there was a buzzing sound as if it had exploded because she saw the secret of the next level.

She was completely stunned.

“Unfortunately, one drop isn’t enough!”

Vera felt a little regretful. She was currently in a rather mysterious state, not moving at all.

At this moment, she could feel that a lot of the high-grade Divine energy she needed had appeared in Lin Yan’s hand.

Lin Yan sent all of these high-level Divine forces into her mouth.

Lin Yan’s finger accidentally touched her lips. Vera felt as if a mortal had been struck by lightning.

Yes, he was a God. If a real electric current hit her, it wouldn’t make her feel this way.

After Lin Yan high-grade Divine energy entered her body, Vera quickly transformed it, cracked it, absorbed it, and continued to charge towards another level.

Only ten minutes later, Vera’s body suddenly radiated Holy Light.

Soon after, a special ripple radiated from Vera, spreading throughout the entire Divine kingdom.

In the entire Divine Kingdom, a large number of Elves were alarmed.

Vera took a deep breath.

She already had a tenth ranked godhead, reaching the peak of the second rank.

It was only one step away from the third rank!

“This method is indeed effective.”

Seeing Vera’s change, Lin Yan muttered to himself.

This meant that Lin Yan had found a way to help Vera quickly level up.

Of course, Vera was not too far away from a tenth ranked godhead. This time, she would be able to do it so quickly. However, after she found a way to do it, Vera’s strength would also far surpass that of an ordinary God!

Chapter 390: Holy Kino’s trap! Garcia who had fallen for the trap!

“I obtained a tenth ranked Godhead so quickly!”

In the kingdom of God, after Vera had a tenth ranked Godhead, she found it unbelievable. It was too easy.

Even a fourth-ranked God couldn't let her advance so easily.

Unless the God of the fourth rank had the rules that Vera needed to advance, he could use the Divine energy that Lin Yan had created.

The probability was too small.

God was not the same as the power that God wields.

Even the Goddesses of the Elves had different powers and rules.

Who could be like Lin Yan, the standard "Flame of Rules".

He had too many rules.

In addition, a fourth-ranked God could not spend too much time with Vera. In fact, Lin Yan did not spend much time because his Godhead was too powerful.

"Thank you, My Lord."

Vera said happily.

Lin Yan said, "You need to stabilize it for now, and then quickly gather the resources to raise your God body to tenth rank. If you don't have enough advanced God stones, I still have a lot here. After you reach tenth rank, you can raise your Godhead to eleventh rank."

"And it can rise to eleventh rank Godhead?"

Vera blinked her cute big eyes, filled with surprise.

Lin Yan nodded and said, "However, I need to check your Godhead and body."

Vera thought of something and blushed.

She sat beside Lin Yan and began to stabilize her state.

In the Heavenly Realm, the huge sun was high in the sky.

After flying out of Vera's Divine kingdom, the Elf Garcia flapped her wings and flew towards a large city.

Of course, this city was only large and there weren't many living beings inside.

In fact, the number of living beings in the Heavenly Realm was not small. In the Divine kingdom of some powerful Gods, there were millions of Holy Spirits.

Even in Vera's kingdom, there were tens of thousands of Elves.

However, these Holy Spirits would never come out.

Most of the Holy Spirits were not strong, but only a few were strong.

The reason why the Holy Spirits appeared in the Heavenly Realm was that they were all very powerful. Some powerful holy spirits could even defeat some weaker Gods. The reason was very simple, those who could be sent out were the strongest among the Holy Spirits.

That was why it created the illusion that the Holy Spirit was very strong.

Not long after, Garcia flew to a street in the city, occupied a position there and took out the Five Phoenix Fruit in her hand.

These Five Phoenix Fruits were not particularly valuable in Vera's Divine kingdom, but they were still very attractive to some Gods who had not even condensed their Divine bodies.

"Hey, Garcia, you're selling Five Phoenix Fruits again?"

Beside her, another Elf greeted Garcia.

"Yes, Lucy."

Garcia said.

"Garcia, according to our Goddess, Goddess Vera has sold a lot of things recently. Is Goddess Vera ready to charge into the tenth ranked Godhead and body?"

Lucy, the Elf, asked again.

Garcia shook her head. "Lucy, I've always been outside. I don't know."

Lucy said, "Goddess Vera is diligent."

The two Elves started to chat with each other.

In this city, this was a street dedicated to exchanging and selling some treasures.

"I've heard a long time ago that the Goddess of the Elves has a lot of good stuff in the Heavenly Realm lands. How is it? Did I lie to you?"

"That's right, if I collect some good stuff, I can condense my Divine body."

"Yes, I still need to collect some things to create a Divine kingdom."

At this moment, the two of them, no, the two Gods spoke.

These were two new Gods. One had no Divine body, and the other had no Divine kingdom.

"Huh, the Five Phoenix Fruit."

One of the New Gods walked over with a face full of joy when he saw the Five Phoenix Fruit.

As a new God who hadn't even taken care of the Divine Body and Divine Kingdom, he naturally didn't have his Holy Spirit. He had to handle everything personally.

There was no wild stuff like the Holy Spirit.

After some of the gods died, the Divine kingdom was sealed completely, and the Holy Spirits inside could not come out.

If the Divine kingdom was destroyed, the Holy Spirit would be destroyed as well. This was because the mark of the Holy Spirit was bound to the Divine kingdom. Otherwise, how could the Holy Spirit continue to exist?

“How did you sell the Five Phoenix Fruit?”

The new God came to Garcia’s booth and asked.

This new God’s face was shrouded in a layer of fog. It was impossible to see his appearance.

“Coming!”

At this moment, Garcia’s eyes turned cold.

She saw that on this street, the holy spirits who had been searching for clues about the Flame Master had come again.

These Holy Spirits were all male.

They were tall, wearing long clothes and carrying a sacred aura on their faces.

“Ten low-grade divine stones or one middle-grade divine stone. It’s only a divine stone.”

Garcia pretended that she did not notice the Holy Spirits and faced the new Divine path that asked her for price.

The new God had a troubled expression on his face.

Before becoming a God, some new Gods would more or less train some believers in the Continent of Gods!

Normally, these new Gods would do this at the pseudo-God rank.

At the Saint-rank, he wouldn’t waste his energy on such things.

Of course, they would only do it quietly. The commotion wasn’t big, but there was more or less some power of belief.

The Continent of Gods was vast and boundless and the kingdoms of each God were limited. Therefore, there were still many wild lands. If these new gods were lucky, they would be able to find many believers after becoming gods!

Yes, the Flame Empire’s surroundings were considered a relatively populated area of the Continent of Gods but even so, ten low-ranked Divine stones were not something a new God could afford!

Therefore, the new God immediately revealed a troubled expression.

Garcia’s attention had been on the other Holy Spirits.

“Let’s go to the Heavenly Realm and see if we can find some treasures to sell. Then we can trade for some Divine stones.” At this moment, another new God pulled that new God.

The two New Gods left.

Meanwhile, Garcia focused all her attention on the Holy Spirits.

As these few Holy Spirit walked, suddenly, one of them actually stopped.

Joy appeared on his face. He waved his hand at the surrounding Holy Spirits and whispered:

“Lord Keno found a God willing to sell clues to the Lord of Flame. Let’s go and take a look!” After saying that, the Holy Spirits all left.

Although his voice was very quiet, the powerful Garcia still heard him.

Garcia was shocked!

“Who is it?”

Of course, Garcia knew that the person in the Divine Kingdom of Vera was the Lord of Flame. She also knew that Vera liked the Lord of Flame, so she naturally became worried. After a moment of silence, she decided to follow her and report to the Goddess Vera.

“Lucy, the Goddess is looking for me. I’ll go back first.”

After saying goodbye to Lucy, Garcia quietly followed.

The Holy Spirits were much weaker than Garcia, so she easily caught up to them and followed behind them silently.

After the holy spirits left the city, they flew all the way. Finally, they arrived at a pile of fragments in the sky above the Heavenly Realm.

In the Heavenly Realm, there were a large number of stones that could float in the air. Other than floating in the air, these stones had no other characteristics.

However, when building the Divine kingdom, these stones had to be dug up more or less than an ingredient.

The Holy Spirits entered the floating rubble.

Garcia was relatively small and powerful, so they didn’t notice her.

The holy spirits flew upwards. Finally, they stopped on a huge floating island.

Garcia followed.

The floating island was extremely flat.

Many plants were growing on it.

Garcia quickly saw the few Holy Spirits disappear behind a Divine restriction. Garcia hid herself and moved closer slowly.

“This Divine restriction is a bit troublesome.”

Garcia thought.

The Divine Restriction was a restriction set up by the Gods of the Heavenly Realm. It could block sight, sound, and even attacks. A powerful Divine restriction was quite powerful.

Although it was not as powerful as the Divine Restriction set up by the Gods, it was more than enough to block Garcia.

“Let’s report the situation to the Goddess first.”

After Garcia thought, she prayed.

However, her expression immediately changed. As soon as she prayed, she felt as if a shell had appeared outside, blocking the line of belief in her and the Goddess.

“Not good, this is a trap!”

Garcia’s face changed.

As Vera’s right-hand, Garcia instantly knew that she had been discovered!

No, the other party must have set up a trap to lure her in!

“Hahaha, Lord David’s method is not bad. He’s gained quite a lot. Someone has been fooled. Come out!” At this moment, Holy Spirit Keno’s loud laughter could be heard from above the floating island.

Following that, Saint Kino’s attack descended.

All the trees and rocks on the floating island instantly turned into mustard!

Even though the material density of the Heavenly Realm was higher than the Continent of Gods, it could not withstand the attack of a powerful Holy Spirit!

“Hey, there’s someone fighting over there.”

Not far away in the sky, two figures flew over. These were the two new Gods.

“It’s the Holy Spirit. Be careful. This Holy Spirit is a bit powerful. It’s probably from the Divine kingdom of a second-ranked God.”

A new God stopped his companion with a solemn expression.

However, this new God was not worried.

No matter how powerful the Holy Spirit was, it could defeat weaker Gods, but it was only a Holy Spirit, not a God. It was very difficult to kill a God with the methods of the Holy Spirit unless the Holy Spirit carried the Divine energy bestowed by his God.

However, generally speaking, even if it was a New God, they would have a chance of escaping if a powerful holy spirit did not ambush them. Other than that, even if the Holy Spirit was the Holy Spirit, it would not be able to become a God for a million years.

As for a God, even if it was a weak new God, it still had unlimited possibilities.

However, the two new Gods were still shocked by the might of Saint Kino.

The huge floating island was blasted into pieces.

Everything was shattered.

The only thing that didn’t break was the little Elf Garcia.

The Elf, Garcia, used her power to form a small barrier that completely enveloped her, allowing her to survive the attack of Saint Kino.

“An Elf. We have limited time. Let’s fight together. We must subdue her in three minutes.”

Saint Kino said coldly.
