

## Flames 401

Chapter 401: Original Sacrifice Paper! Flames overflowed into the heavens!

The words of Star God Holton made Vera unhappy.

She said angrily, "I'll only let you bully me more than him. Now that we have so many people, are you ready to use provocation?"

Star God Holton was speechless.

The few of them were indeed prepared to fight as much as they could.

However, the Star God Holton would not give up so easily.

He did not respond to Vera. Instead, he continued to stare at Lin Yan and said, "Lord of Flame, hide behind a woman forever. Let a group of goddesses fight for you. You're no different from the pretty boys on the Continent of Gods."

"So you're going to fight me?"

Lin Yan's voice finally sounded.

The Star God Holton stuffed it again.

He did not dare to fight Lin Yan alone.

Although he was jumping around happily, this was because the great God Saia was in front of him. If Saia was not there, Star God Holton would be as far away as he could and would not dare to return.

"Lord of Flame, you seized my Kingdom. This is my revenge. We will fight one-on-one. This is a duel between two gods. Regardless of life or death, no one else is allowed to interfere, okay?"

Saia finally spoke.

He stared coldly at Lin Yan. In the original plan, Saia did not plan to rely on the other three second-ranked gods.

Bringing them along was just to prevent accidents and to prevent the Lord of Flame from escaping.

In addition, Lord of Flame's helpers needed these three guys to deal with.

It was just that he did not expect the Lord of Flame to have so many helpers.

"Two-third ranked battles. I'm looking forward to it. Ellen, who do you want to win?"

In the distance, the newly advanced goddess Hurley said.

Beside her, Goddess Ellen's eyes were fixed on Lin Yan, as if she did not hear Hurley's voice.

"Ellen, Ellen, what's wrong?"

The Goddess Hurley shouted.

Only then did Goddess Ellen let out an “Ah” and said, “Hurley, what did you just say?”

Hurley laughed. “Ellen, you’re not falling in love with the Lord of Flame, are you?”

Goddess Ellen blushed and shook her head. “How could that be Hurley?”

“I know you must be regretting it. You didn’t help that elf just then, or else you might be able to talk to the Lord of Flame. You’re probably blaming me for stopping you, right?”

Goddess Ellen shook her head. “No, Hurley.”

“I came to the Heavenly Realm ten years earlier than you,” Hurley sighed. “Most of the time, if we did not do anything and walked step by step, even though time was slower, we would always become stronger. However, if we took the risk, we would most likely die. Even if we are gods, we are not able to predict the future. But this time, my choice was indeed wrong. You can blame me.”

Goddess Ellen said, “Hurley, I just blame myself for not being firm enough.”

Hurley looked at Lin Yan from afar and sighed. “A powerful and handsome male God, I’m tempted even if I look at him. However, Ellen the Lord of Flame is a powerful God of the third rank. He is destined to have nothing to do with us. Don’t be delusional. My Divine body hasn’t even condensed yet, and I don’t have my divine kingdom. After watching this battle, let’s go after we buy what we need. In Abru, there’s a powerful Elf godhood that only accepts human goddesses. Although we have certain requirements for joining the godhood, we can join the reserve godhood first. There, we can grow up safely.”

Goddess Ellen nodded gently.

Even though she was denying it, some things were so wonderful.

In a short period, there was a figure that had been rooted in the deepest part of her heart. She would never forget it for many years to come.

In the dead of night, she had thought more than once about whether or not she would have had a chance to say a few words to him if she had helped Garcia.

Saia’s words also made the Holy Spirits who watched the war outside cheer up one by one.

The Holy Spirits were still praying quietly, maintaining the thread of faith because the God behind them was also paying attention to this battle.

In the Heavenly Realm, Divine battles happened from time to time.

For the weaker gods, watching the battle of the stronger gods could lead to a lot of gains.

Among the Holy Spirits who came to the Heavenly Realm to trade, there were many first and second-ranked gods, and a few third-ranked gods.

It was unknown if there was a fourth-ranked God.

After all, the fourth-ranked gods were the real big shots and the Holy Spirits they created were also quite powerful. Some of the fourth-ranked gods could even defeat the first-ranked gods after their power was raised to the peak.

After becoming a God of the fourth rank, most of the items were of little use to them. The items they needed were all quite rare.

In short, this was a battle that had attracted the attention of many gods.

Many gods also wanted to know how strong this new Lord of Flame was and what kind of methods he had.

They wanted to see if the Lord of Flame would choose to fight Saia or if he would rely on the Goddess of the Elves.

After Saia finished speaking, Lin Yan finally moved.

Originally, he was prepared to solve the problem at once.

However, he did not expect the goddesses of the Elves to descend one after another.

“Lord...”

Vera was a little worried.

She knew that Lin Yan only had a tenth-ranked Divine body.

Even if Lin Yan’s godhead was very high and could allow his tenth-ranked body to display extraordinary combat strength, it would not exceed that much.

Under normal circumstances, being able to fight a Rank 11 or Rank 12 Third-ranked God was not bad.

In the realm of the gods, it was extremely rare to cross ranks to challenge.

His Divine energy wasn’t as high as his opponent’s, his weapons weren’t as high as his opponent’s, his Divine body wasn’t as high as his opponent’s, and his laws weren’t as high as his opponent’s. How could he surpass his opponent’s rank?

Unless they were able to obtain some powerful weapons, they would not be considered to be above their ranks. This was because the gap between them had been bridged.

Normally speaking, the longer one immersed himself in the Saint-rank, the more laws one grasped. After becoming a God, one would become more powerful. It wasn’t that this Saint-ranked Deity could surpass one’s rank, but rather that after becoming a God, this Saint-ranked God would be able to possess a higher rank of the Divine spark.

Just like Lin Yan, the moment the godhead was converted; it was a fifteenth-ranked godhead.

If Angstrom had chosen to become a god at the second rank of the Saint Realm, he would have been able to obtain a godhead of second rank or above.

“Don’t worry.”

Lin Yan softly said.

Just as he was about to speak, Lin Yan’s ears twitched because he heard Natasha’s prayer!

Natasha had forced all the Demons in the Abyss to their limit. The Demon king of the Abyss was beaten badly by Natasha. After the demon god behind the Demon Race continued to drop its power and still had no way to defeat Natasha, the Demon God of the Abyss was ready to descend!

Lin Yan did not have much time.

It would take some time for a Demon God to descend, but it would not require much.

“Since that’s the case, let’s resolve it quickly.”

Lin Yan whispered.

Lin Yan took a step forward and said, “There’s no need for a duel. All of you can attack together.”

“Arrogant!”

Hearing Lin Yan’s words, Saia immediately felt that he was being looked down upon. He couldn’t help but grow angry.

Chapter 402: Original Sacrifice Paper! Flames overflowed into the heavens!

This Lord of Flame is indeed domineering.

In the distance, Hurleys eyes lit up.

Lin Yan did not waste any more words. In reality, he did not say a few words from the beginning to the end.

Lin Yan flew up into the sky. A raging flame ignited on his body. Then, Lin Yan pressed his hands down, and a huge pillar of flame crossed a distance of dozens of kilometers and charged towards Saia and the others.

The war between the gods did not seem much different from the attacks of the Magisters of the Continent of God, but the difference in power was huge.

Lin Yan stood above the Divine Kingdom. Saia and the others were quite far from his position.

At this distance, even a Saint-ranked attack would be difficult to reach.

However, it was not a problem for the gods of the Heavenly Realm.

The speed of the gods was not ordinary. Some of the weaker gods would even open up a greater distance to attack to avoid being approached by other gods.

Flame again! This isnt the Continent of Gods!

Saia gave a soft snort.

There was no need for the Star God Holton and the other two gods to attack. Saia stretched out his hand and gently twisted it. A huge transparent shield appeared in front of him.

No, this was not a shield, it was to isolate the space.

Saias attainments in spatial laws were extremely deep.

Back in the Continent of Gods, his avatar didn't carry many spatial laws. The isolated space was already quite powerful but now that his true form had descended, this move was simply superb.

However, Saia's expression immediately changed and the reason for that was, under the impact of the flames, his isolated space was shattered.

Hold on.

Saia roared as his Divine energy surged. Even more of the isolated space diffracted continuously, blocking the flames.

Ice!

Star God Holton also made his move. As soon as he made his move, he used the Ice Rule

The huge pillar of Flame that Lin Yan spat out from his hands instantly froze.

It looked like a frost pillar that was dozens of kilometers long appeared in the sky but immediately, the flame exploded again, and in less than half a second, the icicle was completely burned by the flame.

Even the steam did not escape at all, because even the steam was burned away.

I'll do it!

The Barbarian God General threw an ax at Lin Yan.

Some mysterious runes lit up on the huge ax, causing the space in Divine Kingdom to crackle.

If this huge ax landed on the Continent of Gods, it could easily cut a crack in the ground!

My Kingdom!

Star God Holton's heart ached.

As expected, things were going in the direction he did not want the most.

The battle continued in his Divine Kingdom.

When the Barbarian God made his move, another God also made his move.

Wind Binding!

That god let out a soft cry. All the air around Lin Yan had instantly become harder than steel!

If the people in this space were ordinary people, these ordinary people would be instantly crushed by this air!

Even if the Dwarf Queen used the weapon she had created to attack the air around Lin Yan, she would never be able to pierce into the air.

Even a Deity of the first rank would be restrained by this move, and would never be able to move.

The giant ax had already flown over, and the air around Lin Yan had separated a path for the giant ax.

The huge ax slashed straight at Lin Yan.

Lin Yan's expression did not change as he disappeared from his original spot.

The huge ax immediately fell into the air, cutting towards the top of Divine Kingdom, creating a deep crack in the transparent wall of Divine Kingdom.

My divine kingdom!

Star God Holton felt his heartache again but soon, he was shocked. Hes coming!

Lin Yan crossed the space and arrived in front of Saia.

Ive been waiting for you for a long time! Saia revealed a sinister smile.

A black paper suddenly appeared in his hand.

Space banished!

Saia let out a light shout. The piece of paper jumped and appeared around Lin Yan in the next breath. Immediately after, a pitch-black space appeared around Lin Yan.

No, there was more than one layer of space. There were many layers.

Furthermore, this space was an endless cycle of space. One layer was broken, and one layer was born. In order to get out, the speed of breaking had to be faster than the speed of birth.

However, even if a peak third ranked God came, he wouldnt be able to get out of here in a few minutes!

If it was an ordinary God, it was very likely that they would be trapped for the rest of their lives, or even to death!

However, Saias confidence in killing Lin Yan was not as simple as trapping people!

After Lin Yan was trapped in that pitch-black space, Saia extended his hand and waved his hand. The black paper once again appeared in his hand.

Go to hell!

Saia used all his strength to tear the paper into pieces!

Seeing Saias actions, Veras face changed drastically.

The Goddess of Light, who had been watching the battle, seemed to have thought of something. Her expression also changed, You have the ancient Heretic Gods original sacrificial paper!

Saia looked at the fragments that filled the sky and laughed loudly, Thats right, no one has made any rules not to use the Heretic Gods item, right? Original Sacrifice Paper, broken paper, broken human. Even a Divine Master at the peak of the third rank wont be able to escape death. The Goddess of Light, the Lord of Flame, is already dead. We have no intention of becoming enemies with the Goddess of the Elves, so we shall take our leave!

Saia was also decisive.

As soon as he killed the Lord of Flame, he immediately withdrew to prevent the Elven goddesses from taking revenge for the Lord of Flame and causing them to be surrounded.

As for Star God Holtons Divine KingdomWhat did it have to do with him?

God Saia, dont, dont leave. My Divine Kingdom is still here.

Star God Holton was about to cry.

Who said Im dead?

Suddenly, Lin Yans voice came from the piece of paper.

Saias eyes narrowed.

How is that possible?

Then, he saw red flames emerging from all the fragments.

Boom!

In the next second, the flames exploded violently, surrounding Saia and the other three gods!

Chapter 403: Flame in his heart! Goddess Ellen's decision!

### **Flame in his heart! Goddess Ellens decision!**

The original sacrificial paper was indeed powerful.

Inside, Lin Yan felt dense darkness energy.

That reminded Lin Yan of the Dark Abyss Prison.

Could this thing be related to the Dark Abyss?

However, Lin Yan did not have much time to study this paper because Saia immediately tore the paper apart!

As soon as the paper broke, the space within the paper quickly shattered!

Each fragment represented a shattered space.

Under the effect of the laws of darkness and the cutting power of space, even if one possessed a level 15 Divine Body, they still could not escape death with the power of laws.

It was to say that this time if it was a third ranked Divine Master who was suddenly ambushed by Saia with this piece of paper, it was very likely that he would die unless the Divine Master at the peak of the third level possessed a treasure of the same level!

If he was lucky, his godhead would still be able to escape.

If his luck wasnt good, he probably wouldnt even be able to escape.

However, Lin Yan had more than one form!

The instant the original sacrificial paper shattered, Lin Yan quickly changed from his divine form to his flame form!

The flame form was Lin Yans strongest form!

As an Endless Flame, it was naturally an indestructible flame. No matter what environment he was in, he could not be extinguished.

As long as Lin Yan did not go out, he could live forever.

Even if there was a large amount of forbidden power in the original sacrificial paper, it could not extinguish Lin Yan!

Therefore, after the original sacrificial paper was broken, Lin Yan shook his flame and decided to use the flame form to solve the battle!

The battle had only lasted for less than a minute.

However, Lin Yan did not have much time because in the Abyss, that Demonic God was about to descend!

With Natashas strength, even if she borrowed Lin Yans strength, she would not be able to directly contend against a Demonic God!

Therefore, Lin Yan decided to quickly finish the battle and descend into the Abyss!

Flames surged out from the fragments of the Original Sacrifice Paper. Under Lin Yans violent burning, Lin Yans temperature was already terrifyingly high.

Boom!

The flames soared into the sky. Under the terrifying heat, even the Star God Holtons Divine Kingdom couldnt withstand it.

Within the Divine Kingdom, a large number of Holy Spirits had evaporated!

The land of the Divine Kingdom melted rapidly as well. Only a small amount of materials from the Heavenly Realm and divine materials remained stubbornly intact.

What a terrifying flame!

Seeing this, the surrounding Holy Spirits could not help but gasp.

Of course, with the strength of these Holy Spirits, they were not afraid of the temperature brought by the flames!

Retreat!

The Elven goddesses flew out of the Divine Kingdom and looked down with shock.

Within the Divine Kingdom, flames overflowed into the sky. Endless flames filled the entire Divine Kingdom.

Under the flames, Star God Holtons Divine Kingdom turned into a huge fireball!

Within the flames, the four gods were all surrounded by flames. They were all using their own means to resist the flames. Some gods tried to escape the sea of flames, but they did not have any extra power to escape because as long as they relaxed slightly, the flames would burn their bodies!

Is this the true power of the Lord of Flame? Its terrifying to transform into flames and burn everything.

In the distance, the newly advanced goddess Hurley opened her mouth slightly, her eyes filled with shock.

Goddess Hurley thought that fire was a form of Lin Yans power, but she didnt know that Lin Yan himself was flame.

In fact, the goddess Hurleys opinion was also the opinion of many observers.

After all, Lin Yan had a divine body. Under his first impression, very few people would think that way.

Besides goddess Hurley, goddess Ellen also stared at the sea of flame.

Her eyes were already filled with flames. The red flames burned without restraint as if they were about to burn everything!

The raging flames also ignited the flames in her heart.

She even had a desire to throw herself into the sea of flames and dedicate herself to the Lord of Flame but she also knew the difference between her and the Lord of Flame.

That was the difference between heaven and earth.

That was also the difference between a bright moon and a firefly.

The law had no right to beg for love.

Hurley, lets go.

The goddess Ellen suddenly said.

Ah? Why dont you want to see it?

The goddess Hurley was puzzled.

Goddess Ellen shook her head and said, I dont want to watch anymore. Lets go to the Abruzzi Star field now. Didnt you tell me that the Divine Master of the Elven God System is still planning to take in the last disciple, so Im going to try?

Ellen, are you serious?

The goddess Hurley was shocked.

Goddess Ellen nodded seriously, Yes, I know this is perilous, but Hurley, if I dont take this risk, I might never be able to catch up to him. I can only look up to him from afar forever. In the Continent of Gods, I became a saint in just a hundred years, but because no one gave me any guidance, I became a god. What I lack is not talent, but luck. Hurley, Ill go first!

After saying that, Goddess Ellen turned and left.

Her eyes revealed an increasingly determined expression.

Hey, Ellen, wait for me.

The goddess, Hurley, left the moment she saw Ellen leave. In the blink of an eye, a large part of her body flew out and quickly chased after her.

While chasing, she would occasionally turn her head to take a look.

Ellen, that God is burned to death.

The goddess Hurley shouted but Ellen did not turn around.

The goddess, Hurley, continued to follow Ellen to avoid losing her, but she couldnt help but turn around.

Ellen, another God has been burned to death.

The goddess Hurley shouted again.

However, Goddess Ellen did not turn back. She seemed to have decided in her heart. She did not grow up and resolutely did not look at the Lord of Flame because one more look could shake the resolve in her heart.

She wanted to seal off all her feelings. Just like when she was in the Immortal Continent of God, she didn't interact with anyone and cultivated by herself. In just a hundred years, she had become a saint and became a God.

Her talent was quite astonishing.

However, it was precisely because she was focused on cultivation that no one gave her guidance. She had already become a God in the first stage of Saint Realm.

That was why she was so weak but she had already decided that she had to be strong, just to catch up to that person's footsteps!

The voice of the goddess, Hurley, was not quiet. In fact, in the sky, there were still Holy Spirits rushing over.

When these Holy Spirits heard the words of goddess Hurley, they all flew towards the battlefield as if they had been struck with chicken blood.

The gods fell!

Although such things happened in the Heavenly Realm from time to time, their frequency was far less than in the Abyss.

In the Abyss, every Demon God was searching for the location of other Demon gods. Once they found the location of other Demon gods, it would be a battle to the death.

The Abyssal Demon God was too warlike!

Furthermore, because the Heavenly Realm was too big, many Holy Spirits could not be able to see the gods fall for hundreds of years but now, gods were falling one after another!

It was a rare show, so how could these Holy Spirits not be curious.

In addition, the Gods behind them were also very curious.

Goddess Hurley wanted to go back and see the final result.

However, Goddess Ellen flew too fast. Goddess Hurley was worried that she would lose herself, so she had no choice but to fly away with Goddess Ellen.

The Lord of Flame must have won.

Goddess Hurley thought.

As she was too far away, even if she was a God, she could only look back and see the sky-high flames. She was destined to not be able to see the outcome of that battle with her own eyes.

Hey, Ellen, wait for me. I just found out where Abruzzi is.

Her goddess Hurley's voice sounded once again.

In the sky of the Heavenly Realm, the two newly-advanced goddesses passed through a large number of pumice stones and flew towards a distant Divine Kingdom!

In the Divine kingdom of Star God Holton, the battle was intense!

Chapter 404: Instant kill! Gods who had fallen one after another!

Cold ice!

Within the flames, Star God Holton's Divine energy vibrated, continuously driving the laws of ice to contend with Lin Yans flames.

Ice continuously appeared. A one-kilometer-thick ice wall had already appeared around the Star God Holton, surrounding him.

The ice in this ice wall was even more terrifying than ten thousand years of ice.

An ordinary person would turn into an ice sculpture if he touched it.

However, Star God Holton did not feel safe at all.

The space had been sealed.

It was very difficult for him to escape, and he was also powerless to escape.

Although this ice wall was very thick, it melted too quickly.

Even though Star God Holton was still constantly using up his Divine energy and using the laws of ice to create a large number of ice walls, the consumption couldn't keep up with the ordinary.

Star God Holton could only rely on God Saia to unleash his divine might and kill the Lord of Flame.

However, Great God Saia had already used his greatest killing move, yet he still had not killed the Lord of Flame. This made Star God Holton feel that Great God Saia probably did not have a good way to take the Lord of Flame.

**Ah.**

At this moment, a miserable cry came from not far away.

It's that Barbarian God!

Star God Holton instantly recognized the barbarian God's voice.

The Barbarian God was actually a Beast God.

This was the God that the Orcs had become.

In the Heavenly Realm, there were quite a few human gods.

In comparison, the number of gods of other races was much smaller.

The Deities of humans were everywhere. However, there were only one or two Deities of other races. Many races did not even have Deities at all.

At most, the Deities of the same race gathered in one Divine kingdom.

This was the case for the Elves.

Several dozen Elven goddesses were in the Elven Divine Domain.

However, the goddess of the Elven race had once had a Deity system, but it had been several thousand years since she had one.

The Elven goddesses were not weak. Most importantly, they had a Sovereign, a powerful goddess of life!

This was the key to the Elves being able to monopolize a Divine Realm.

The other races did not have such good luck.

There weren't many beast-men and Barbarian gods, and they weren't as united as the Elven goddess. They weren't in the Heavenly Realm.

That Barbarian God was actually the best person to deal with.

That was because what he grasped was the laws of power.

The Barbarian God and the Abyss Demon God were somewhat similar.

In terms of strength, it was hard to say who was stronger and who was weaker, between the Barbarian God and the Abyssal Demon God, he shared a common trait with many Abyssal Demon Gods.

Using the power laws to deal with the flames the effect was not good!

For example, the Star God Holton, who held the laws of ice in his hand, was quite restrained against flames.

Star God Holton was able to use a large amount of Divine matter to create a combat incarnation. The very important reason was that he possessed the Laws of Ice. With the Laws of Ice, he could go deep into the sun of the Heavenly Realm and collect Divine matter from the sun of the Heavenly Realm!

The Sun of the Heavenly Realm was a vast treasure trove. However, the temperature of the Sun of the Heavenly Realm was too high.

There were dozens of degrees on the surface, as well as a large number of toxic substances.

Further down, there was the ocean current layer. Every 10,000 kilometers down, the temperature would increase by a factor of two.

The temperature was terrifyingly high.

It must be known that before Lin Yan passed through, the core temperature of an ordinary star was tens of millions of degrees, but the surface temperature was only a few thousand degrees.

Not only was the Sun of the Heavenly Realm countless times larger than an ordinary star, but the temperature of the core was also even higher.

However, that Barbarian God still had a hand, waving a pair of axes, continuously separating the surrounding flames.

However, after Lin Yan injected his Divine energy into the flames, he could no longer hold on.

In the state of berserk burning, after injecting divine power into the burning, under Lin Yans laws of destruction, the mysterious rune with extremely strong defense on that Barbarian Divine body was destroyed completely in less than three seconds.

After that, Lin Yans flames drowned him!

This was the first God to fall that Goddess Hurley saw!

As soon as the Barbarian God died, Lin Yan focused on the god at the edge of the Endless Desert.

He was also a male God.

He was best at the laws of wind, and he had mastered more than one law of wind.

Under the laws of the wind, his surroundings became wind vortices. These vortices instantly stacked up into thousands, separating the flames completely.

No wonder hes called the Lord of Flames. This flame is truly terrifying. However, if you want to kill me, youre still a bit off!

The male God let out a soft snort before rushing into the sky.

Yes, he wasnt prepared to fight the Lord of Flame.

Although he could block the flames now, his consumption was too great. As long as he charged out of the range of the flames, even if the surrounding space was sealed, he could still leave at an extremely fast speed.

Having mastered the laws of wind, his speed was not ordinary!

Boom!

However, when he was about to rush into the sky, the flames in the sky exploded. After the flames surged over, the layers of whirlpools around him were constantly shattered. It seemed that he could not hold on any longer.

This male God hurriedly stopped and quickly summoned up his strength to create more whirlpools.

At this moment, the Barbarian Gods miserable cry rang out.

One of them is dead. No, we have to break out!

Divine energy surged within this male Gods body. Under his control, an indescribable wind blew the surrounding flames with him as the center.

The opportunity had arrived!

This male God jumped up and rushed dozens of miles away in the blink of an eye!

He escaped!

Boom!

The flames seemed to have exploded violently.

This male God was shocked to discover that under the explosion of the flames, all the surrounding whirlpools had shattered, and none of them remained!

Only then did this male God suddenly realize that the reason why he was able to block the flames was not that his methods were strong enough, instead, it was because Lin Yan did not focus on dealing with him!

The flames instantly drowned him!

Even if he was a second-ranked Deity, he wouldnt be able to last long in front of such a terrifying flame!

Two of them died!

Seeing that it had completely burned the second God to death by the flames, the surrounding Holy Spirits exclaimed.

In a short time, the two gods had fallen one after another!

There was no residue left!

Outside the Divine Kingdom, Vera looked at Lin Yans display of might and revealed a look of joy.

His strength recovered quickly.

Vera thought.

The other Elven goddesses also had looks of shock on their faces!

It was too fast!

In less than a minute, two powerful Second ranked Gods had fallen one after the other. They had no chance of escaping!

Chapter 405: Instant kill! Gods who had fallen one after another!

The most important thing was that the Lord of Flame was fighting the other two gods at the same time when he burned these two powerful gods to death.

Star God Holton continuously used the laws of ice against the flames.

However, Saia was engaged in a special spatial confrontation with Lin Yan.

Lin Yan said that he was fighting against four!

One against four, he still killed two second-ranked gods at a terrifying speed!

This was no ordinary power!

Its over. The Barbarian God is dead, so is the Wind God. Its my turn now, right?

When the Star God Holton God heard the miserable cries of two gods in succession, his heart began to panic!

Lin Yan hadnt focused on dealing with him yet, and he couldnt hold on any longer. Once he focused on dealing with him, he would still be kneeling in the blink of an eye!

After all, Star God Holton had already exhausted quite a bit of his strength in the previous battle.

Unlike the other two gods, they still had some power.

Boom!

As expected, the surrounding flames erupted.

The ten-thousand-year-old ice wall that he had created with the laws of ice instantly evaporated!

Ah, God Saia, what are you doing? Why aren't you fighting back? What's the point of fighting back after we die? Star God Holton cried out in a broken voice!

Two of them had died!

As a third-ranked God, even if he had used his greatest trump card, his own strength was not weak. How could he not have the ability to fight back?

After the Star God Holton shouted, Saias counterattack finally arrived.

I found your weakness.

Saias face lit up with joy. Then, he shouted:

Open it!

Within the flames, a path opened up.

This passage did not go outside the Divine Kingdom, it was a tunnel that broke through the spatial seal!

Saia opened the door and went straight in.

Lord of Flame, the green mountains will not change, the green waters will flow. The war between us is still long.

Saia laughed.

Yes, he was preparing to escape!

If he continued to fight, he would have no confidence at all. Moreover, the original sacrificial paper didn't kill Lin Yan in an instant. If he continued to fight Lin Yan like this, even if he could beat him, the Elven goddess would have a high chance of interfering.

Moreover, Lin Yan was able to escape from the Original Sacrifice Paper. His strength was already terrifying, and Saia had no confidence in fighting him.

Therefore, Saia decided to flee!

It was shameful for the gods to escape, he would definitely lose the dignity of a God but in the face of life and death, dignity was not worth mentioning!

However, just as he finished laughing, his expression changed because he had once again appeared in the flames!

The tunnel he had opened had already been filled with flames.

The door was instantly closed again.

Saias expression instantly became as if he had seen a ghost!

Now, he finally realized that when the Star God Holton had been in the Divine Kingdom, he had been able to escape, but he had suddenly realized that his Scandinavia had disappeared and that he was in the same mood as before!

That wasnt an ordinary fuck!

Ah, what kind of strange ability is this!!!

Saia collapsed!

He was a third-ranked God, yet he actually disregarded his dignity and shouted!

One could imagine how much his current mood had collapsed!

Boom!

Lin Yan did not have the slightest intention of explaining. The flames surged and instantly engulfed him.

Dont even think about killing me. Im a third-ranked God, destined to ascend to the position of Divine Master!

Saia let out a hysterical sound, summoning up all the power in his body and constantly driving the laws he was good at counter attacking.

Under his counterattack, the raging flames continued to scatter, as if they were about to be extinguished by Saia.

Banish!

Saia let out a loud shout and used the spatial banishment technique to trap Lin Yan in a space.

However, Lin Yans spatial laws were not inferior to his!

Crack!

The space created by Saia was shattered constantly, and the flames burned the fragments of space!

Saia still did not accept his fate. As he fought back, he fled towards the outside of the Divine Kingdom.

However, his speed was simply not as fast as the speed of the flames, and the flames continuously chased after him.

In the blink of an eye, Saia had fled to the sky above the Heavenly Realm, but he still had not escaped the flames.

In the sky above the Heavenly Realm, boundless flames spread out, visible from very, very far away.

Ill fight you to the death!

Saias entire body surged with Divine energy as he tried his best to fight Lin Yan.

Boom!

The flames exploded once again, wiping out all of Saias defenses.

Darkness aura, you, you actually came into contact with darkness energy! Saia didnt know what he felt, so he shouted.

You know too much. Lin Yans cold voice sounded.

Thats right, Lin Yan originally didnt plan to use his Chaotic Divine Energy, but Saia had many methods. If Lin Yan wanted to kill him, it would take at least two to three minutes.

It had only been a minute since the battle between him and Saia started.

It was already terrifying to kill a third-level middle-ranked God in such a short amount of time.

However, Lin Yan did not have the time, therefore, he injected both Chaotic Divine Energy and heavenly world Divine energy at the same time!

These two types of Divine energy also ignited, causing the flames to explode once more!

Saia couldnt hold on any longer!

Lin Yan completely burned all of his defensive techniques. Then, Lin Yans flames burned onto his Divine body.

**Ah**

Saia shouted.

The burning of his Divine body was no ordinary pain.

Lord of Flame, you actually dared to come into contact with the dark energy. From ancient times until now, not a single god from the Heavenly Realm who came into contact with the dark energy had a good ending. Hell is waiting for you, ha ha ha ha

At the last moment of his life, Saia let out a wild laugh.

However, his voice was destined to be unable to spread.

Boom!

The flames erupted again, and Saias Divine body was burned in an instant completely!

A third-ranked God had died!

Ill be right there.

Lin Yan had only left a single message for Vera before he retracted all the flames and sent himself down to the Continent of Gods in a powerful manner.

Then, Lin Yan opened the thread of belief and plunged into the Abyss.

There was another battlefield there!

Chapter 406: Natasha the Demon King!

In the sky, the flames instantly disappeared.

However, Saia had been completely burned.

Although under Lin Yans spatial blockade, Saias voice did not come out.

However, the gods and Holy Spirits below had already witnessed Saia being burned to death by the flames.

Too strong!

The Holy Spirit said in a daze.

Just now, he saw a third-ranked great Deity being burned to ashes!

This Holy Spirit couldnt help but doubt his own eyes.

A third-ranked God!

He had used all his methods and even used the Evil Gods item, but he was unable to do anything about it. Instead, he was killed in an extremely short amount of time!

He didnt even flee!

The shock in this Holy Spirits heart was beyond compare!

Through the thread of belief, the Holy Spirit sensed that the gods gaze was also watching the battle above his head.

This great battle caused the gods behind him to be as shaken as he was.

His God was only a second-ranked low-rank God, not even the Star God Holton could compare to, but now, this low-rank second-rank God had personally witnessed three second-ranked Gods who were far superior to him, plus a third-ranked great God, being killed by the same God in a very short time!

This second-ranked God-estimate had a feeling that the Heavenly Realm was too dangerous.

In reality, they were not the only ones who were shocked, the surrounding Holy Spirits and the gods behind them fell silent at the same time.

Whether it was the Holy Spirits or the gods behind them, they were all silently digesting the shock in their hearts!

The Divine Kingdom was still burning.

This kind of burning lasted for more than ten years before the flames were completely extinguished!

In the past ten years, more and more Holy Spirits had come to watch the battlefield.

Every time they saw the Divine Kingdom still burning, every single one of them was greatly shaken.

Star God Holtons Divine kingdom had been destroyed.

Lin Yan had already captured all the Divine substances in the Divine Kingdom, and his analysis of the Divine Kingdom was almost complete. That was why he had allowed the Divine Kingdom to burn there.

The Star God Holton also did not escape.

During the battle between Lin Yan and Saia, the Star God, Holton, who had already lost a large amount of power, was burned to death by Lin Yan.

In other words, the four old friends who had come to kill Lin Yan this time had all died.

As for Lin Yan, after he burned down four powerful gods, his Infinity Flame had risen by four levels.

The current Lin Yan was already a rank 8 Infinity Flame.

The attributes of the Endless Flames of the eighth level had increased by a wave. Lin Yan was now confident that he would be able to fight the peak third ranked Divine Master in his flame form.

As for the fourth ranked God, Lin Yan had never seen him before. He did not know how strong he was, but he was unable to estimate who was stronger or weaker than a fourth-ranked Divine Master.

As for Saias level, he would have known when Lin Yan burned him to death.

Saia was a God with a rank 12 godhead and a peak eleventh-ranked Divine body!

A rank 12 godhead was only rank 3 from rank 15.

However, the rank of a God was not as simple as that of a sorcerer in the Heavenly Realm.

For a God, this difference in third-rank meant tens of thousands of years.

Even for those gods with great talent and a powerful kingdom, it would mean hundreds to thousands of years!

The difference in strength was even more terrifying.

It wasn't like it had always doubled, or increased by eight times for third rank, instead, it meant that the difference in strength was more than ten times.

A Divine Master at the peak of the third rank was not an ordinary one.

As for Saias suggestion that contact with dark energy would not lead to a good end, Lin Yan didn't care at all.

He was no ordinary god of the Heavenly Realm.

When the gods of the Heavenly Realm came into contact with darkness energy, their Divine energy would be contaminated, and even their will would be contaminated.

Within his godhead, two types of power coexisted, and there was even a sea of dark Divine energy.

After all, Lin Yan was the only person with a system.

It was naturally not accurate for Saia to guess Lin Yan as an ordinary deity of the Heavenly Realm!

Above the Divine Kingdom, the dozen or so Elven goddesses looked at the burning Divine Kingdom below. The red flames reflected their faces, making their already beautiful faces appear slightly rosy.

Vera, have you really joined the Deity System of the Lord of Flame?

An Elven goddess asked.

Vera nodded. Yes, Audrey. Thank you for your help today!

Vera, there's no need to thank us. We didn't do anything. The Lord of Flame is too powerful. It shouldn't be a problem even if we didn't come.

Adele said.

That's different. I'll help you if you have any difficulties in the future, Vera said.

Vera, is the Lord of Flame living in your Divine Kingdom?

At this moment, another Elven goddess asked.

Vera's face was slightly red. She didn't know if it was because of the flame.

She nodded slightly and said, Yes, my Lord is currently a guest in my Divine Kingdom.

I envy you, Vera.

The Elven goddess said.

Vera's face turned even redder.

Some of the Elven goddesses began to leave.

However, there were Elven goddesses still here. Vera was also waiting here. Lin Yan said that he would come right away, so she still had to wait for Lin Yan here.

The news of this battle between the gods was already known by many of the gods, and then slowly spread out, causing quite a stir in many Divine Domains!

The name of the Lord of Flame began to gain a certain rank of fame.

Of course, the Deities who were paying attention to the Lord of Flame were still at the first, second, and third ranks.

Although it was smaller than the Abyss of the Moons, many demons were living in the Abyss. Natasha stood in the air with a cold expression, watching the battle below coldly.

The evil aura around her grew stronger and stronger.

As a Demon king, Natasha was a synonym for evil.

Queen, the other party's altar is emitting an enormous ripple. They are about to descend.

Yvette flew up and said.

Continue attacking. Don't worry about their Demon Gods.

Natasha said coldly.

Yes, Queen.

Yvette accepted the order and was about to leave when Natasha suddenly stopped her.

Queen, what order do you have?

Yvette asked.

Natasha said, Yvette, you've been with me for so long, and I hope that you can stand alone. Now think about it, why hasn't the Demon God descended for nearly five minutes?

Yvette was stunned.

She used to be a little succubus. Even if Lin Yan increased her strength, she rarely thought about it because Natasha was in front of her.

Until now, Natasha seemed to have the intention to guide her. Their Demonic God is also waiting for the Master to descend and fight a divine battle, she said. Yvette, in this world, many Demon gods never know their limits.

Roar! Little Demon king! How dare you act so impudent! How dare you slander me!

As soon as Natashas voice fell, a furious voice came from the sky.

The Abyssal Demonic God was easily enraged, especially when one provoked it.

Of course, the weak demons had provoked them and killed them.

When Demon king level existences provoked them, they would often become angrier and stronger.

Yes, even if they were furious, they would still weigh the pros and cons. However, the way they acted was different.

However, in the eyes of the gods of the Heavenly Realm, they were authentic psychopaths.

They were temperamental.

Once that voice sounded, an enormous foot appeared in the sky.

The moment that foot appeared, the entire Abyss started to tremble.

This Demon God had already descended. The reason why he had caused such a huge commotion at the altar was to conceal his presence!

This guy wanted to ambush the Succubus God!

Now, it was prepared to stomp Natasha to death!

Natashas face didnt change when she saw the huge foot. She raised her hands and a green evil flame rushed up from her hand, colliding with the foot.

However, his foot did not dodge at all, nor did he suffer any injuries. He unswervingly stepped down.

Natasha was about to be stepped on, but she still didnt dodge. In fact, she couldnt.

That foot came too quickly. Moreover, Gods attack had a certain locking function. If it was a battle of the same rank, this locking function would be broken quickly. However, it wasnt very useful to deal with ants that were weaker than him!

Natasha summoned her full strength again and released the Evil Flames.

That enormous foot had already arrived above her.

The next second, Natasha would be trampled by that foot. Even if she was a demon king, she would be trampled by that foot but that did not happen.

That was because the power of the Evil Flames she released exploded, directly piercing through that enormous foot!

Pain, pain, pain! What kind of flame is this?

That Abyss Demon God in the sky uttered a funny cry.

Soon, it knew what kind of flame it was.

In the Abyss, Natasha raised her head and glanced at the Demon God who was burning up. Then, she lowered her head.

At the crucial moment, her God saved her once again.

At this moment, a pillar of light descended from the sky.

This pillar of light contained an incomparably dense amount of energy.

Natasha's power increased rapidly again.

In a short period, Natasha had risen from the Demon Kings realm to the Great Demon Kings realm!

From the Demon king to the great Demon King, it was actually so simple!

Natasha took a deep breath and bowed to the sky.

At that moment, the sky above the Abyss had completely turned into a sea of flames.

That Abyss Demon God who attempted to ambush Lord of Flame had become the nourishment of this sea of flame!

### **Chapter 407: Rapidly growing strength! Increasingly prosperous!**

Thank you, Lord!"

In the Abyss, Natasha piously said to the sky.

After becoming the Demon King, Natasha looked even more radiant.

Of course, because she was a succubus of the Abyss, her beauty had a unique evil feeling.

It was very dangerous but it also made people feel that they could not.

However, no human would ever see her face because her face was always covered in a faint mist.

Only her Lord could look at her face.

After becoming the Demon King, Natasha's aura was even more terrifying.

Now, the Succubus Dynasty had two demon kings!

The Abyss occupied by the Succubus Dynasty was already three!

Among the three Abysses, the Abyss of the Mobis was the main Abyss of the Succubus's. Although the other two Abysses were relatively small, as the lower Abyss, the speed at which new Succubus's were born was not slow and this Abyss was about to become the fourth.

After Natasha became the Demon King, she brazenly joined the war.

With Natasha's attack, the last resistance of this layer of the Abyss quickly disintegrated.

The huge war finally ended.

The entire Abyss was burning with evil flames.

Countless demons were killed.

Many demons and minions were captured.

These demons and minions were good cannon fodder.

Natasha stood in the air, silently sensing the owner's aura in the sky.

Not long after, in the sky, the flames disappeared, and the Abyssal Demon God disappeared completely.

To Lin Yan, the first ranked Abyssal Demon God was not enough.

However, he could still contribute a lot of evolutionary points.

"Master has left."

Natasha thought.

Immediately, she received the revelation from her Master.

"Yvette."

Natasha spoke.

"Queen, I'm here."

Yvette said.

"Send someone to Harubi Abyss. We are going to participate in the battle of the gods there. No, you can go yourself."

Natasha said.

"Yes, Queen!"

Yvette left.

In the Abyss, war was always the mainstream so the Heavenly Realm was relatively peaceful.

However, in the war that had just ended, a small stone was thrown down on the calm surface of the lake, causing quite a ripple.

Above the burning Divine Kingdom, Vera waited quietly.

Beside her was Mavis and the Goddess of Light, Philo Mina.

At this moment, a passage opened and Lin Yan walked out.

"Lord God."

Vera was delighted.

Lin Yan looked unharmed, which made Vera feel relieved.

Vera could not help but wonder, where was Lin Yan?

She never would have thought that Lin Yan had just gone to the Abyss and killed an Abyss Demon God!

Lin Yan nodded and reached out his hand to grab the final Divine substance in the Divine Kingdom of Star God Holton.

Then, Lin Yan had a brief chat with the Goddess of Light, Philo Mina. He left and returned to Vera's kingdom.

The Elven goddesses dispersed one after another. Soon, there were no more gods around the burning kingdom.

However, there were still Holy Spirits who kept coming. The gods behind them used these Holy Spirits to focus their attention.

After returning to Vera's divine kingdom, Lin Yan took out a lot of high-ranked Divine stones and made Vera buy a lot of resources.

Some of these resources were for Lin Yan's use, while others were for Vera.

Some of them were used by Lin Yan to create a Divine Kingdom.

Meanwhile, Lin Yan stayed in Vera's divine kingdom. He continued to upgrade his Divine body while weaving the basic rules needed to build the Divine Kingdom.

In addition, Lin Yan was still engaged in an important matter.

That was where the other three gods were located.

Although these three gods were dead, their kingdom was still there. As long as Lin Yan could find them, it would be quite a fortune. The things inside would be very useful for Lin Yan to create his kingdom.

"The Lord lost his kingdom. The enemy must have been quite strong."

Vera thought.

She clenched her fists and said, "I need to become stronger!"

Time quietly passed.

In the blink of an eye, half a month had passed.

In Vera's Divine Kingdom, Lin Yan let out a breath.

In this half a month, Lin Yan had gained a lot.

He successfully found the Divine Kingdom of the Barbarian God through the information he obtained from burning the God, and then robbed the Divine Kingdom completely.

Lin Yan's Divine body also successfully rose to eleventh rank.

Now, Lin Yan had a fifteenth-ranked godhead and an eleventh ranked Divine body. In the form of a Divine body, he was a third ranked god.

In the past half a month, Vera's divine body had reached tenth rank.

Lin Yan continued to search for the kingdom of Saia and another God.

If a Divine Kingdom was completely sealed, it would be difficult to find.

Fortunately, when Lin Yan burned them, he obtained a lot of information about the Divine Kingdom. Through the clues, it was much easier to find them.

In the Heavenly Realm, this battle was still causing a stir.

In Vera's kingdom, time was calm.

Vera was still stabilizing her tenth-ranked Divine body.

Lin Yan was also doing several things at the same time.

Their strength was increasing rapidly.

On the Continent of gods, after the death of Saia, the Purple Gold Empire was not to be feared even if there were some remnants.

Without the guidance of the gods in the sky, these remnants would not be able to survive.

Under the threat of the Thief Order, the nobles of the Purple Gold Empire started to attack the remaining forces.

The Purple Gold Empire stabilized very quickly.

Then, Meng Ying and Qing Ling brought a lot of goods from the Flame Empire to the Purple Gold Empire. No, now it was in the top ten provinces of the Flame Empire!

It was a great welcome in the new ten provinces.

The Flame Empire then opened up the rental of cargo ships. At the same time, a new city was built at the edge of the Endless Desert. The citizens of the 13 provinces in the northeast of the Endless Desert could purchase goods from the Flame Empire from that city!

The nobles of the Purple Gold Empire saw business opportunities. Under the temptation of gold coins, many big nobles began to rent flying ships to transport goods from Yan Province and sell them in the thirteen provinces in the northeast.

Under the combination of grace and power, the Purple Gold Empire did not cause any trouble.

In addition, a magic vehicle track that traversed the entire Flame Empire was under construction.

The thirteen provinces of the Purple Gold Empire also started to reclaim land.

A large amount of land was reclaimed.

It was a bustling scene!

The entire Flame Empire was already thriving!

Chapter 408: Help Vera upgrade again! Flaming God Body!

Time flowed by.

In the blink of an eye, another few days passed and Veras Divine body stabilized.

Master God, my body has stabilized.

Vera said happily.

She felt it was unbelievable.

Lin Yan had been in her kingdom for less than two months but in less than two months, Veras godhead and body had both risen by first rank.

Now, she was already at the peak of the second rank.

She was only one step away from the third rank and this step requires a lot of time for other gods.

For example, the Star God Holton, if it were not for Lin Yan, he would have been able to defeat the Xi Ling Kingdom and occupy two kingdoms. He might even have taken over the Hun River Principality and occupied three kingdoms.

The Star God, Holton, would only be able to become a third ranked God after sitting on these three kingdoms for decades.

The power of belief collected by the gods of the Heavenly Realm was different from Lin Yans. It was too much.

According to the previous Xi Ling Kingdoms calculations, even if the Star God, Holton, was the last to occupy three kingdoms, the three kingdoms combined would produce more than ten pieces of high-ranked Holy stones a year.

With the prosperity of these three kingdoms, the power of faith produced by these three kingdoms would slowly increase.

However, he would never reach the current rank of the Flame Empire.

To become a third rank God, one needed a large amount of Trust Thirteens power to study the secrets of high-rank Divine energy.

It also required a large amount of time to deepen his understanding of the rules. It also required a certain amount of Divine energy!

However, for Lin Yan, all of this was not a problem. Vera could help him solve it.

The power of faith that Lin Yan received in one day could create dozens of sacred stones.

Vera did not need to study the secret of high-ranked Divine energy.

It would take her a lot of time to research and explore.

Just like doing experiments, it would take countless mistakes to find the right direction.

Lin Yan just showed Vera the most correct result.

Moreover, there would be no hidden dangers in this way, because Vera had learned it herself, but she did not take a detour!

Throughout the entire Heavenly Realm, only Lin Yan could do this because Lin Yan could create high-ranked Divine energy with different attributes and ingredients at will. He did not have to waste too much time!

Lin Yan said to Vera: Vera, I need to take a look at your Divine body and godhead, and Ill be able to create more Divine energy for you.

Vera blushed.

She lowered her head, like a shy little girl on the continent of gods. She grabbed the corner of her clothes with both hands and nodded gently.

Then, she waved her hand and a flower house appeared around her. Vera stood there and took off her clothes

Lin Yan turned around and saw Vera's actions. You don't have to take off your clothes

**Ah~**

Vera blushed.

A day later, Lin Yan got all the data on Vera's Divine body.

Vera's face was still red.

Although Lin Yan did not move too much in her clothes, the whole process still made Vera blush.

That was still equivalent to that Lin Yan had seen everything.

After that day, Vera looked at Lin Yan more gently.

Deep in her heart, she already thought of Lin Yan as her own man!

Another day later, Lin Yan gave Vera a small pot of higher Divine energy!

So many!

Vera was shocked!

In order to break through to the third rank, the other peak second ranked gods were all drops of high-ranked research Divine energy.

Lin Yan gave her a pot!

Vera was shocked!

Vera, this should be enough for you to reach the third rank, Lin Yan nodded.

Thank you, Lord God!

Vera was touched.

She didn't put on airs. She took the small pot filled with high-ranked Divine energy from Lin Yan's hand and was very happy.

This was a high-ranked Divine energy that Lin Yan had specially prepared for her, and it was perfectly compatible with her.

What Vera needed to do now was to completely fuse the high-ranked Divine energy and study the composition of the high-ranked Divine energy. When she could create the same level of high-ranked Divine energy herself, she would reach the third rank!

Of course, during this process, she could still add her things.

After all, the high-ranked Divine energy that Lin Yan gave her did not have any defense.

As for Vera, she had to encrypt the high-ranked Divine energy and reassemble the energy inside so that it could not be broken by others.

Vera began to fuse with the high-ranked Divine energy Lin Yan gave her.

It wouldn't be long before she reached the third rank.

Meanwhile, in Vera's Divine kingdom, Garcia and the elves were still running around the various Divine regions every day, buying resources for Vera and Lin Yan.

Not long after Vera fused with high-ranked Divine energy, Lin Yan opened a dimension.

This dimension was equivalent to Veras library.

Yes, Vera gave Lin Yan all the authority of the Divine kingdom.

Lin Yan could even enter the core region of the Divine Kingdom.

In this library was a large number of Books of the Heavenly Realm.

What Vera liked the most was the Book of Rules.

Apart from that, there was also the Book of Divine energy, which specifically introduced the composition of Divine energy. There were more than a thousand different types of Divine energy recorded.

This time, Lin Yan took out a book about the Divine body!

The Book of Divine Bodies!

This book introduced a large amount of knowledge about Divine bodies.

Dont underestimate this knowledge, in the Heavenly Realm, this knowledge was very important.

As for this knowledge, ordinary gods had no access to it.

These books were not cheap either.

Star God Holton did not even have these books.

This was because these books had been written by the Goddess of Life a long, long time ago. As for whether she had sent someone to write them or whether she had written them herself, it was unknown.

This was also one of the reasons why the goddesses of the Elven race were not weak despite having very few believers.

Divine Body.

Lin Yan opened the book and started reading.

Once one possesses a Divine Spark, one would be able to create a Divine body.

The Divine bodies of the gods of the Heavenly Realm were still made of flesh and blood. However, they had to be specially shaped so that they could withstand the flow of Divine energy and the drive of laws.

His Divine energy was indeed powerful.

However, without any dilution, a drop of Divine energy was enough to explode a great magister.

Even a forbidden spell magister would not dare to rashly absorb Divine energy into his body.

At the Saint Realm, even the Saint-ranked magisters bodies were already quite strong, but they still couldnt maintain their Divine energy for long.

Therefore, one must possess a Divine body.

Through diluting his Divine energy, he could slowly transform his body into a Divine body.

However, it was far from as fast as borrowing some treasures.

For example, the Five Phoenix Flower and Fruit of the Divine Kingdom of Vera, together with a few other things, could quickly turn the mortal body into a divine body.

As for the Heavenly Sieve Fruit that she had given to Lin Yan, she could quickly upgrade her body.

The strength of the Divine body was reflected by the level.

However, there were some special Divine bodies.

For example, some of the extreme gods had used their Divine bodies to create their Divine bodies, turning themselves into a battle machine like the Abyssal Demon God.

In the Heavenly Realm, there were quite a few such gods. After all, the gods of the Heavenly Realm were all transformed from humans, so they naturally did not want to become like monsters.

However, it was not ruled out.

For example, some Divine bodies with special attributes.

For example, the Frigid Ice Divine Body!

Some Deities who had mastered a large amount of the Laws of Ice had specially crafted Deity bodies.

Star God Holton wanted to create this kind of Divine body, but this kind of Divine body could only be created after reaching the third level.

Such a Divine body was still graded, but it was especially powerful in some aspects.

Just like the Abyss with a name and the Abyss without a name.

The Abyss with a name was always larger than the Abyss without a name, and the demons living on it were also stronger.

Lin Yan's gaze landed on the page of the Book of Divine Bodies.

That was the Raging Flame Divine Body!

Although Lin Yan had grasped a lot of power, as a flame, the strongest part of Lin Yan was still a flame.

My flame laws are the strongest.

Lin Yan muttered to himself.

Chapter 409

Creating the Flaming Divine Body was not in conflict with Lin Yan's current upgrade of the Divine Body.

Now, Lin Yan was an eleventh-ranked God.

The successful creation of the Inferno Divine Body was the eleventh-ranked Yan Nations Divine Body.

When Lin Yan used his flame power, his Flame Physique would become quite powerful. However, it would not have a big impact on the other powers.

Lin Yan began to ask Garcia to buy what he needed to build the Flame God Body.

“Master God, if you want to build the Flame God Body, the best way is to enter the Sun of the Heavenly Realm and absorb the energy inside. With Master God’s current strength, as long as you don’t go too deep, there will be no big problems.”

That day, Vera knew what Lin Yan was planning.

Lin Yan looked up. Through the boundary wall above the Divine Kingdom, he could see the sun hanging in the sky.

This sun not only illuminated the entire Heavenly Realm, but it also illuminated the entire Continent of God.

“How do I get up there?”

Lin Yan said.

“Keep flying towards it,” Vera said.” After reaching a certain height, the Lord can see some space circles. The cost of teleportation is a high-level sacred stone. It can be said to be near the sun, and the Lord can enter again.”

One high-rank God stone at a time!

The price was quite expensive, but it also indicated the distance.

For ordinary gods, they only dared to collect Divine substances from the surface of the sun. Whether or not they would be able to harvest them depended on luck.

A high-ranked Holy stone was not cheap.

The God’s Stone was not born. All God’s Stones were created by the power of faith.

All the power of faith came from the Continent of God.

For some first-ranked gods, a high-ranked God stone meant more than ten years of accumulation.

To Lin Yan, it was no problem at all.

It would take some time for Vera to reach the third rank, so Lin Yan decided to use this time to make a trip to the sun in the heavenly realm to turn the Divine body into a blazing Divine body.

In addition, he could also take advantage of this opportunity to collect a large amount of Divine matter.

Thinking of this, Lin Yan said goodbye to Vera and left Vera’s Divine Kingdom.

After flying for more than an hour, Lin Yan really saw a space formation.

There was no one guarding the space formation.

Lin Yan went to the space array and threw a high-ranked Holy stone into the space array.

Then, the space array lit up.

Lin Yan stepped forward and reappeared in a new place.

In front of him, there was a burning sun; it was hard to see how big the sun was!

“Such a long distance.”

Lin Yan whispered.

This space formation probably involved a portion of the power of the space law!

This let Lin Yan know that this space formation might be the creation of the Master God!

Lin Yan looked at the sun.

Such a temperature was enough to melt steel.

However, the space formation was intact.

Lin Yan pondered for a moment, and then he shook his strength and flew towards the sun of the Heavenly Realm.

He needed to first absorb the energy inside and use the method recorded in the book to create the Flame Divine Body.

Then, he would collect the Divine substance inside.

“The monthly milk production of the Queen, Silver Sand, Hun River, and Garland West has reached a million tons. The milk production has already increased. Do you want to lower the price of domestic milk?”

On the Continent of Gods, in the imperial capital of the Flame Empire, a female official reported to Qing Ling.

Qing Ling nodded and said, “Lower the price of domestic milk, so that the commoners can drink it and maintain the price for export.”

“Yes, Queen.”

The female official left.

The three kingdoms at the edge of the Endless Desert had now become the three provinces of the Flame Empire.

The three provinces had always focused on raising cattle and sheep.

After the reclamation order was issued, a large amount of land was reclaimed.

However, the three provinces were sparsely populated, and a large area of land was still the grasslands. The Fox Lady Qing Ling immediately issued measures to encourage farming. In the three provinces, animal husbandry was quite developed.

With the addition of the flame of civilization, the grasslands of the three provinces grew exceptionally luxuriant, and the production of milk was terrifying.

In the past, it was hard to sell milk from these three provinces but now, with the magical preservation methods provided by the Church of the Flame Empire, and the transportation of flying ships, the milk of these three provinces began to supply the entire Flame Empire.

The Fox Lady had already lowered the price of milk several times, even ordinary civilians could afford to drink milk.

Now, in the entire Flame Empire, the commoners began to become rich.

Some hard working civilians could even eat meat and drink milk every day.

This was something they did not dare to imagine before.

As for the commoners, there were many large and small merchants.

There were even a few big merchants who could rival nobles.

To the commoners and nobles of the Flame Empire, this was a magnificent era!

Everyone could benefit from this era.

However, how much a person could gain depended on that person's opportunity and his most important insight!

Yes, diligence was also essential.

No matter how good the times were, it wouldn't be possible to sleep at home all day long and thanks to his faith in Lord of Flame, Lord of Flame's domestic security conditions were good.

The physical fitness of the citizens was also increasing.

In the end, all of this was fed back to Lin Yan's Godhead with the power of faith.

Every day, the power of faith that Lin Yan received from the Flame Empire was slowly growing.

The increase was not small; there were a few thousandths per day.

Don't underestimate this thousandth. This means it can double in less than a year.

This was quite terrifying.

Of the two Emperors of the Flame Empire, the internal affairs were basically handled by Qing Ling. Under the little Fox Lady's care, the entire Flame Empire became orderly.

As a Sanctum, Meng Ying's main focus was on increasing her strength.

In addition, Qing Ling sent a large number of flying ships to search for orc tribes to expand the population of Yan Province.

A month ago, a flying ship found some orc tribes in a wild area.

In these orc tribes, there were foxes, horses, lions, and even tigers.

After using the airship to move the orc tribes to Yan Province, the number of orcs in Yan Province reached over five million.

The problem of the shortage of population in Yan Province was finally solved and the orc army expanded once again.

The number of Centaur warriors had increased to forty thousand. The tribe leader was still the same valiant female tribe leader.

The number of Lion warriors had increased to 100,000.

The size of the fox archer had also expanded.

After the expansion, the number of orcs had more than doubled, reaching 500,000.

Of course, the orc warriors who joined later were weaker.

However, even if Lin Yan didn't bless them with a large amount of food and nutrients, their strength would still increase steadily.

In addition, under the leadership of the female dwarf giant Hearst, the Flame Empire also found the tribe of the Dwarf giant in the north.

This Dwarf giant tribe did not have many people, there were only a few thousand people, but each Dwarf giant was quite powerful.

The Flame Empire also formed a short giant knight brigade.

Meanwhile, Lin Yan's other Holy Maiden had their own things to do, Luo Ying was mainly in charge of the three provinces in the west, Mia was in charge of the thirteen provinces in the northeast, while Winnie was assisting her.

Although she had found some tiger tribes, they were not the tiger tribes that Winnie had once lived in, so Winnie remained in the 30 provinces in the northeast.

As for the Endless Desert, it had become an oasis.

There were a lot of red dates, wolfberries, cantaloupe, and a lot of special crops in the Continent of Gods.

After these crops matured, they were also a popular cash crop.

The Endless Desert was also a province. It was called Desert Province. The governor of the province was Lucy, the head of the Medusa Tribe.

This legendary Medusa was now Lin Yan's Holy Maiden.

However, Desert Province had the lowest population.

A million captives were not the population of Desert Province.

In the entire Desert Province, there were only tens of thousands of Snake Women but the area was the widest.

The population of the Flame Empire was still insufficient even if there were more than 300 million people now.

The Flame Empire was too large but now, with the 300 million people of the Flame Empire, there was no need for so much land.

Just the four provinces in the southwest could easily feed more than 300 million people.

Therefore, in the current Flame Empire, the productivity was enough and the population was insufficient!

However, Meng Ying and Qing Ling weren't prepared for the next expansion because the Flame Empire still needed further construction.

As soon as the Empire was completely stabilized, Meng Ying and Qing Ling would consider the next step.

“Queen, a magic message came from the border. An envoy from the Eternal Night Empire has come to meet you.”

When everything in the Flame Empire was on the right track, the Fox Lady received a report.

“Envoys? Let them come.”

Qing Ying said lightly.

About half a day later, a group of envoys with dozens of people arrived at the capital of the Flame Empire.

They handed over the Eternal Night Emperor’s message.

The Emperor of the Eternal Night Empire, Empress Tina, would visit the Flame Empire in half a month!

Chapter 410: Holy Daughter leveled up! Angst’s transformation and belief!

Do Tina want to visit in half a month?

In the imperial capital of the Flame Empire, Meng Ying was slightly surprised because more than a month had passed since Meng Ying had last attended Tinas millennium birthday.

When Meng Ying left the Eternal Night Empire, Empress Tina said that she wanted to visit the Flame Empire.

Meng Ying had always thought that Tina was just being polite but she didnt expect that Empress Tina would really come.

Qing Ling nodded and said, Sister Meng Ying, I will let you take care of her. You and Tina will be more familiar with each other!

Meng Ying nodded and said, Good.

In this room, the Eldest Princess was also there.

The eldest princess said, Queen, Empress Tina hasnt visited any Empire or Kingdom in a thousand years. Shes rarely even visited the Eternal Night Empire. Why is she visiting us this time?

Meng Ying pondered for a moment and said, Do you think it has something to do with our speculation that night? We cant rule out this possibility. The Eternal Night Empires grain purchases have increased recently. Some of the nobles in the Eastern Province even tried to purchase weapons made by dwarves from us. Coupled with Tinas abnormality, I feel that something might happen in the Eternal Night Empire.

After saying that, she shook her head and said, Its also possible that Im thinking too much. An empire that exists for a thousand years would be very peaceful and have a strong national power. There are also eighteen kingdoms surrounding it, and it also has a top ten ally. At the same time, its also friendly with a few small empires. How could something big happen?

What she said made sense because the Eternal Night Empire was incomparably powerful. Even the current Flame Empire was inferior in many ways.

The simplest thing was population!

Qing Ling didn't know much about the population of the empire. Tina didn't seem to care about this, and she didn't talk to her about it but after thinking about it, she knew that with the size of the Eternal Night Empire, the number of people could definitely be more than one billion!

Whether it was billions or billions, the population would be terrifying but the Flame Empire only had 300 million people!

This was the problem of foundation.

A thousand-year-old empire had a deep foundation.

As for population, it was the most urgent thing, because reproduction required time and it would take more than ten years for a baby to reach adulthood.

Of course, if this continued, the population of the Flame Empire would increase by several times in at most a few decades. It would not be a problem to break through one billion or even two billion.

With the Flame Empire's current size and grain production, a billion people could fit in.

After all, the distance from the eastern border of the Flame Empire to the western border was over 10,000 kilometers!

With the addition of the title of Flame of Civilization, the food output of the Flame Empire was terrifyingly high.

Apart from the population, the Eternal Night Empire also had quite several strong espies. There was also a Holy Magic Academy that was well-known in the Continent of God. The Holy Magic Academy was also a magic academy that had existed for a thousand years. There had been more than one Saint Realm born in the academy, and even gods!

Moreover, the Eternal Night Empire didn't make enemies everywhere. The Empire was peaceful and the people were at peace. Under the protection of the gods, the wind and rain were calm, and there wouldn't be too many natural disasters.

No matter how one looked at it, there wasn't the slightest sign of something major happening in the Eternal Night Empire.

Of course, if they were to compare Flame Empire and Eternal Night Empire, the Flame Empire's population and heritage weren't comparable to the Eternal Night Empire but in many ways, it actually surpassed the Eternal Night Empire.

One must know that the concept of the Flame Empire was completely different from that of the Eternal Night Empire.

Tina was powerful, but she was a native of the Continent of God, so there wasn't much difference between her empire and the other empires but the Flame Empire was different.

Lin Yan was a traveler, therefore, everyone who arrived at the Flame Empire would be surprised at the novelty of the Flame Empire at first. If they lived in the Flame Empire for some time, they would be able to feel the difference from a deeper rank!

Hearing the Eldest Princess words, Meng Ying said, There are too few clues we can find out. We will find out why Empress Tiina is coming here in half a month.

The Eldest Princess nodded and said, Hmm!

The gathering quickly dispersed and Qing Ling continued to deal with political affairs.

Of course, she would also spend a lot of time increasing her strength.

Meng Ying still comprehended the rules of flame.

Lin Yan had given her a lot of help. Although Lin Yans special blessing was still on the Godhead, Lin Yan could use ordinary blessings to improve her magic senses.

Meng Ying could better study the flame rules.

Meng Ying could even pray to obtain the flame that Lin Yan had prepared for her. She was bathed in the flame, and Meng Yings understanding of the flame rule was even deeper.

Under such circumstances, Meng Yings strength would increase very quickly.

At a speed that no other Sanctuary could imagine, they were heading towards the peak of the first stage of Sanctuary.

Meanwhile, the Eldest Princess, Chen Xi, Lomina, and Lin Yans other Holy Maidens were all working hard to cultivate to make themselves stronger.

When Lin Yan burned the Divine Kingdom of Star God Holton, the powerful Holy Spirits in the Divine Kingdom of Star God Holton were also burned by Lin Yan, not every Holy Spirits were strong.

Some of the Holy Spirits were not as powerful as a rank three or four magister.

Only during large-scale Divine battles, the gods could enhance the power of these Holy Spirits.

However, there were still dozens of powerful Holy Spirits inside, these powerful Holy Spirits contained a lot of spiritual energy.

Lin Yan gave all the spiritual energy of the Holy Spirits to his Holy Maiden and some devout temple magisters.

Among all the gods of the Heavenly Realm, only Lin Yan could do this. That was because Lin Yan possessed the Abyssal Demon Flame and could use it freely. While burning the soul of the Holy Spirits, he still retained a large amount of spiritual energy.

Therefore, Lin Yans Holy Maidens had made great progress recently.

His Holy Maidens were basically eighth-ranked.

Even Jenna, who had finally joined the Hun River Principality, had the strength of a seventh-ranked.

In addition, Lin Yan recently had two new saints.

One was Annie from the Eternal Night Empire. When the Eldest Princess left the empire, Annie followed her to the Flame Empire and continued to study with the Eldest Princess.

However, after living in the Flame Empire for more than a month, she suddenly decided to become the Holy Maiden of the Lord of Flame!

After passing the religious assessment, this pearl of the six eastern provinces of the Eternal Night Empire officially dedicated her life to Lin Yan

Angst had been in the Dark Abyss for several months.

Under Angsts lead, the Fallen Elves were still guarding the huge crack.

As Lin Yan left the Abyssal Prison, dark creatures began to climb up one after another.

The Dark Creatures that crawled up were not as turbulent as when the crack had just changed its position.

Usually, a stronger dark creature would climb up every few days.

Whenever Dark Creatures climbed up, the Fallen Elves would kill them without hesitation.

I cant suppress it anymore.

During that time, Angst was also troubled.

Yes, her power was almost out of control, not just her, but the other Fallen Elves too, after all, they had been suppressed for hundreds of years!
