

Flames 421

Chapter 421: Great harvest! Deep in the dark sun!

The second reason was that the sensing range in the Heavenly Realm Sun was too small.

Therefore, for a second-ranked God like Vera, every time she came to the Heavenly Sun, she would stay for more than ten years. The longest time she stayed for more than a hundred years.

The most she had gained was 10 grams of Divine substance.

This was not a gram of the Continent of Gods.

1G of Divine substance, if calculated by weight, would be quite heavy.

On the Continent of Gods, it was heavier than a mountain.

The Divine substances corresponded to magical substances.

As for the Abyss Demon God, he could only use a few hundred grams of demonic substances to support his outer shell. If he wanted to turn his body into a demonic substance, he would need more demonic substances.

Not all Divine substances were heavy, but they were also very light. They had some special functions.

In short, the weight could not understand the concept of "G" to describe the Divine substance. It was just a way of measuring the world.

Lin Yan continued to dive downwards. Not long after, Lin Yan gained something.

He found 1g of Divine substance.

It was a Divine substance with intense radiation.

Lin Yan put it into his storage space.

Lin Yan continued to dive downwards.

The more he went down, the more Divine matter he found and the more dangerous it became.

However, many of the dangers in the form of flames were not worth mentioning.

Of course, this had something to do with Lin Yan being strong enough.

The various currents and tides in the sun of the Heavenly Realm were endless. If he had entered when he was still a Divine Flame, he would not have dared to go this deep.

There was no way to burn in such a dangerous place.

When Lin Yan was diving into the sun of the Heavenly Realm, Angst was also diving into the dark sun.

The difference was that Lin Yan quickly descended and Angst's diving speed was not fast.

That dark sun was only a few hundred kilometers in diameter while the diameter of the Heavenly Sun was more than a hundred million times that of the Dark Sun.

Angst's diving speed was slow, but she continued to dive.

This dark sun was naturally not as dangerous as the Heavenly Sun.

It was a challenge for Angst, a fourth ranked Saint, but it was not particularly challenging.

A few more days passed.

In just a few days, Lin Yan had gained a lot.

In other words, it took Lin Yan a few days to complete the work that Vera had taken hundreds of years to complete.

This was the convenience and strength of the flame form.

“The density of this Divine substance is not small. I'll collect it here.”

Lin Yan thought.

Further down, the load of his energy points began to increase.

Obviously, the sun of the Heavenly Realm still put some pressure on his flame form.

Lin Yan decided to collect the Divine substance from the depths.

A huge flame net with a diameter of 10,000 kilometers began to sweep in the sky.

Lin Yan was far from reaching the core of the Sun of the Heavenly Realm but the concentration of the Divine substance was already huge.

In less than a day, Lin Yan had collected 19g of Divine substance.

This was already a huge harvest.

If this continued, it wouldn't be long before Lin Yan would have a thousand grams of the Divine substance!

In the Heavenly Realm, the Divine matter was also quite valuable.

There were several types of Divine substances. In the sun of the Heavenly Realm, the most common Divine substance was in the form of flame.

It was a Divine substance with a high density and hardness.

Of the Divine substances that Lin Yan had collected, 70% were burning gold.

“If you can collect over a thousand grams of Flaming Gold, you can use it to forge a pair of Flaming Gold Armor or a weapon.”

Lin Yan thought.

The Flame Golden Armor matched the Flame Divine Body!

The best God weapons were basically made of Divine substances.

The higher the content of Divine substance in a Divine weapon, the more powerful that weapon will be.

In some weapons, the content of Divine substance was only about 30%, and the higher one could reach half.

The different ranks of Divine matter represented the different ranks of the weapon.

In the words of the Continent of God, it was the level of a Divine artifact.

Weapons made purely of Divine matter were terrifying weapons.

Armor made purely of the Divine matter was rare.

Some of the fourth-rank gods did not have one!

However, Lin Yan was given some time. He could quickly gather the Divine substance he needed and create a suit of armor that would match his Divine body!

With a target, Lin Yan began to disregard the consumption of energy points, further expand the range of the flame, and quickly collect Divine substances.

After another day in the Dark Abyssal Prison, Angst finally dived into the depths of the Dark Sun with a flourish.

Chapter 422: Dark Magic Array! The beating of the head and the Endless Desert!

: Dark Magic Array! The beating of the head and the Endless Desert!

In the depths of this dark sun, a dark aura surged out from all directions, even Angstrom had to pay attention to it.

An energy shield appeared around her.

This was the protective barrier that Angstrom had erected with her strength.

Angstrom had already quietly used more than one power of law.

In addition, she also obtained a heart flame through prayer.

The darkness that covered the heavens, and the earth invaded from all directions.

This kind of darkness had a powerful attack on ones will.

In this place, not to mention the legends of the Continent of Gods, even a first-stage Saint would be submerged in darkness in a short period.

From strength to the soul, all of them would be polluted and turned into completely Dark Creatures.

However, Angstrom was not afraid of the invasion of darkness. What she possessed was the power of darkness.

However, she still had to prevent her soul and will from being invaded by the darkness.

With the support of a powerful force, Angstrom finally arrived at the center of the dark sun.

That place seemed to be the source of darkness.

Angstrom stretched out her hand.

She sensed that there seemed to be a barrier in front of her.

Angstrom let out a soft exclamation because she felt that there was a dark magic array here.

This dark magic array was quite profound.

The mysteries within had already surpassed the Saint rank.

This is a dark magic array set up by the power of gods!

Angstrom thought.

To be able to set up a dark magic array, one could tell that this God was definitely not a God of the Heavenly Realm, but a God who had grasped the power of darkness.

Its the Abyssal Demon God?

Angstrom thought about the identity of this God.

However, she quickly rejected this conjecture.

What the Abyssal Demonic God grasped was not dark energy. In the Abyss, chaos was the mainstream, and the entire place was in a disorderly state.

Abyssal creatures gave off an extremely evil feeling.

Evil, chaos, depravity.

However, it was clearly different from the power of the Dark Abyss.

This dark magic array should be the power of the gods in the Dark Abyss.

Angstrom did not encounter any powerful existences in the Dark Abyss.

Even Dark Creatures of the same rank were not encountered, let alone the gods of the Dark Abyss.

The Dark Abyss was this large, like a universe. Who knew where they were hiding?

However, the existence of this dark magic array in the dark sun meant that there was definitely a God that grasped the energy of darkness in the Dark Abyss.

This dark magic array protected the core area of the Dark Sun.

Angstrom could not pry into the secret inside.

Angstroms face was cold as she stood there to break through the dark magic array.

She had already reached the core of the Dark Sun, so she naturally wanted to understand what was inside.

This dark magic formation involved the mysteries of large amounts of dark energy. With Angstroms strength, it took her an entire day to break through less than one percent of it.

Her patience was very good, and she decided to continue cracking it. If she really couldnt crack it, she still had one last move.

That was to ask her God, Lord of Flame for help.

Time passed bit by bit and on the Continent of Gods, Empress Tina was still visiting the Flame Empire.

She had been in the Flame Empire for over a month.

The Eternal Night Empire had already formed a complete system of operations. Empress Tina hadnt been involved in anything for hundreds of years, so the Eternal Night Empire was still operating well.

So it didnt matter if she wasnt there.

Of course, she could stay away from the Eternal Night Continent for the time being, but she had to always exist.

She was the strongest expert in the Eternal Night Continent and she was the reason why the Eternal Night Continent was able to stand for a thousand years.

The current Empress Tina, accompanied by Meng Ying, was wandering around the Purple Gold Empire.

She was still observing.

In the blink of an eye, another week passed.

In the Heavenly Realm, Vera was already creating her eleventh-ranked Divine body.

In the Abyss, Natasha laid another layer of the Abyss.

In the Dark Abyss, Angstroms progress was not particularly smooth.

Even if she was a Saint Realm cultivator of the fourth stage, she was already at the peak of her power in the Continent of Gods. In the Abyss, she was equivalent to a Heavenly Demon King above the Demon king!

However, she was still not a God.

Angstrom decided not to drag on any longer.

She began to ask for help from her God, Lord of Flames.

Angstrom prayed right there.

In the Sun of the Heavenly Realm, Lin Yan heard Angstroms prayer.

By now, Lin Yan had collected several hundred grams of Divine substance.

In this, the Divine substance Flame Gold occupied the vast majority.

According to Lin Yans calculations, forging a set of Flame Gold Armors required at least several thousand grams of Flame Gold.

If there were more of them, the Flame Gold Armor would be stronger.

This was only armor, not weapons.

Thus, Lin Yan continued to expend energy points to expand the range of the flames. He continued to search for the Divine substance in the Heavenly Sun.

The Heavenly Realms sun was too large, and there were still a lot of Divine substances inside. The reason why some gods couldnt find it was because their sensing range was too small. Sometimes, Divine substances couldnt detect even if they slipped away from their sides.

However, Lin Yan did not have this problem.

Dark Sun?

After hearing Angstroms prayer, Lin Yan became interested.

He cast his gaze over.

Ive used up some of my Divine energy.

Lin Yan thought.

Even if he were to cast his gaze on the Continent of Gods through the threads of faith in the Heavenly Realm, his Divine energy would still be exhausted.

Not to mention the fact that he had entered the Dark Abyss.

However, unlike the other gods, Lin Yan could use the other gods to lower himself down after turning into a flame.

The Heavenly Realm Barrier still restricted his Divine body form.

However, there were no restrictions on the form of the flame.

This was the BUG of the flame form.

Although there was a consumption of Divine energy, Lin Yan didnt care at all.

Soon, he saw the Dark Sun.

He also saw the dark magic array in front of Angstrom.

Whats inside?

Lin Yan analyzed it through his Godhead.

Not long after, Lin Yan found a simple and violent method.

In the Dark Sun, after Angstrom prayed, a black flame descended after only ten seconds.

At the same time, Angstrom received a message from the Lord of the Flames.

She held the flame in her hand.

This black flame was still burning tenaciously under the wash of dark aura.

Angstrom sent the flame to the magic array.

Then, he lightly pinched it.

Boom!

This black flame erupted.

After the black flames erupted, destructive energy was released.

It broke whatever it encountered.

Under the destruction of this destructive energy, the magic array was instantly broken into a large hole!

The destructive energy was still not used up, and it continued to cause damage inside.

What a terrifying law of destruction.

Angstrom said softly.

She had a deeper understanding of how powerful the Lord of Flames was.

The Laws of Destruction were rather powerful.

It was so powerful that even Angstrom couldnt even touch the Laws of Destruction with full strength.

However, the Laws of Destruction that Lord of Flame had grasped were rather terrifying.

The Laws of Destruction, on the other hand, could be capable of destroying other laws.

In terms of pure destruction, the Laws of Destruction were even stronger than the Laws of Slaughter.

In the depths of the Abyss, there was another important reason why the Laws of Slaughter were so alluring. It was because the Slaughtering Divine Master had fallen for a very long time. Anyone who could able to master the Laws of Slaughter through the Laws of Slaughter would have the possibility of becoming a Slaughtering Divine Master.

This was the key reason why the Abyssal Demon Gods never tire of organizing the battle.

It wasnt that the Laws of Slaughter were stronger than the Laws of Destruction, Angstrom knew that this was also a way for the Lord of Flame to show her the Laws of Destruction.

Thus, she began to observe carefully.

If she could comprehend the Laws of Destruction, her combat strength would rise to a new rank.

Under her Saint-rank gaze, she could naturally see something even deeper.

The destruction caused by the destructive energy was quite thorough.

In the beginning, a large hole had only corroded the entire dark magic formation.

Then, the destructive energy continued to destroy the foundation of this dark magic formation.

Thus, it stops the dark magic array from recovering itself.

This way, it didn't take long for the entire dark magic array to be destroyed.

The moment the dark magic array was destroyed, an extremely dark aura spread out from the core of the Dark Sun, rushing in all directions.

Soon after, Angstrom found out the source of that evil nonsense!

It came from the core of this dark sun!

What exactly is inside?

Angstrom fixed her body with the laws of the surrounding space to prevent herself from being swept away by the aura of darkness.

After the deepest darkness had dissipated, Angstrom cast her gaze inside.

Soon after, she found out what was at the core of the Dark Sun.

It was an enormous head!

That evil nonsense resulted from this head.

This is

Angstrom's eyes narrowed slightly.

Just this head alone caused Angstrom to feel an intense sense of danger. She began to have the urge to risk everything to increase her power and instantly become a God because only then would she have the strength to face this head!

On top of this head, the remaining half of the black magic array was still extracting dark matter from it.

It was as if this head was the ultimate source of the Dark Sun!

..

The giant head suddenly opened its eyes and spat out a string of words that Angstrom could not understand.

At the same time, in the center of the Endless Desert on the Continent of Gods, a region that was hundreds of kilometers long suddenly began to tremble.

At this moment, Empress Tina, who was in the air above the Endless Desert, frowned slightly!

Chapter 423: Incorrect Answer! Your show time is over!

: Incorrect Answer! Your show time is over!

Meng Ying also felt the beating in the Endless Desert.

Lets go take a look.

Meng Ying said.

The flying ship quickly flew towards the area where they sensed the movement.

Hey, Queen, you guys are here too. This place seemed to be shaking a little, but it didnt look like an earthquake, so I came to check.

When the flying ship that Meng Ying and Tina have on arrived, they realized that Lucy was also there.

Obviously, Lucy also sensed the movement and flew over to check the situation.

From the sky, Meng Ying immediately discovered some differences.

The entire Endless Desert had become an oasis.

There wasnt much sand outside.

This area was the same.

However, this region was clearly different from the other regions.

The water content of this area was far inferior to the other areas.

In addition, the vitality of the plants seemed to have been lost quite a bit.

How long has this been going on?

The plants in the other regions were growing vigorously.

However, the plants in this area were losing their vitality. No matter how one looked at it, it was not normal.

The beating of this area just now left traces in some places.

For example, a small number of plants were wrong.

For example, some of the higher dunes collapsed, and the plants growing on them also fell to the ground, making it look like a mess.

Holy Maiden Lucy, what have you found?

Meng Ying asked.

Lucy said, Ive already sent a lot of people underground. The jump just now should have come from deep underground.

Meng Ying nodded.

The Medusa race differed greatly from the snake race of the Orc Kingdom.

The biggest difference was that they were all Snake Women.

Another difference was that they were very good at walking underground because all they knew were stone and earth magic.

Patriarch, we found something underground.

Not long after, a Snake-Woman came out and said.

In the Dark Abyss, Angstrom looked at the head.

She could not understand the language spoken by the head but soon, the head emitted a spiritual fluctuation.

Humble life, submit to me. I will fulfill all your wishes.

The head said.

Following that, dark energy surged towards Angstrom.

That was indeed an incomparably pure dark energy that could be directly absorbed.

In Angstroms senses, even with her current realm, if she had absorbed this dark energy, her strength would have soared!

The head that was still trapped by half a magic circle was indeed powerful.

Angstrom did not absorb the dark energy. She also released a spiritual fluctuation, Who are you?

That head once again came to a burst of spiritual fluctuations: Ancient God Simba!

Following that, it also sent a mental wave of images.

Angstrom watched.

This scene was about the head of the self-proclaimed Ancient God Simba.

The main idea was that he was once a powerful and Ancient God.

However, countless years ago, he had been killed by some petty criminals. However, those petty criminals could not kill him and could only suppress him.

Therefore, those petty criminals divided his body into several parts and suppressed him in different places.

His head was suppressed here. Through the dark magic array outside, he was constantly extracting its power, trying to use this method to extract its power and exhaust it to death!

And over the long years, it had changed the dark magic array a little, releasing a special mumbling.

Such nonsense could attract some Dark Creatures to save it but no Dark Creatures had ever succeeded.

As long as you help me, I will give you whatever power you want.

When the head finished telling his story, it felt another spiritual fluctuation.

Then, a ball of dark energy appeared from the head.

Angstrom grabbed the dark energy in her hand, but she still did not absorb it.

If it were another dark creature, they would have been tempted.

However, Angstroms expression was very calm. She said calmly:

How can I help you?

The heads tone was faintly dignified as he said:

You have a powerful rule of destruction. That is the bane of these magic circles. You are the person I am looking for. You first destroy all the magic circles that have trapped me and then destroy the chain of rules that is wrapped around me. After that, I will send you to the Continent of God. I calculated that there would be such a disaster, so I hid my heart there in advance. As long as you can take back my heart, I will recover over 70% of my power, and your mission will be completed.

After saying that, he added, Believe me, your reward will be incredible. The two balls of energy just now are just deposits.

I don't believe you.

Angst said. After saying that, she turned around and seemed to be preparing to leave.

We can sign a contract, the head suddenly said.

Angstrom looked at it calmly and suddenly asked:

You said you are very powerful, then what rank of God are you?

The head said without any hesitation, I can't be completely killed. I can only seal the God who consumes strength, only the fourth rank.

So, you were once a fourth-ranked God?

Head's tone was flat: Of course.

Angstrom smiled faintly. Wrong answer, your performance time is over.

The high heels of Angstrom's extra-long boots stepped on his head, making a crisp sound. This kind of sound made the huge head scream again.

Obviously, being stepped on by Angst in her boots greatly insulted his dignity!

However, Angst did not seem to realize this at all. She walked to the front of the head and suddenly, a sword appeared in her hand. She stabbed it into the eyes of the enormous head.

The sword directly pierced the eyes of the head.

Spare me, spare me, don't kill me.

The huge head shouted in panic.

His tone and expression were in sharp contrast to the dignity he had just displayed.

Speak, what are you?

Angst asked coldly.

Queen, this is it.

In the Endless Desert, deep underground in the area that just emitted a beating, some Snake Women brought Meng Ying, Empress Tina, and Lucy to an empty underground space.

Magic Array!

Meng Ying whispered.

Tina walked forward.

There was a thin film that could not be seen with the naked eye, preventing any form of spying.

Strength surged from her body. Then, she gently reached out and patted the film.

With her slap, the surrounding space moved slightly but the magic circle was as safe as ever.

No, this is a dark magic circle.

Tina said.

Dark Magic Array?

Meng Ying was confused.

Even though she was a Sanctuary, she was no better than Tina, who had lived for two thousand years.

Tina explained, Yes, the Dark Magic Array. We are located in the northern part of the Continent of Gods, but there is a dark forest in the northernmost part of the Continent of Gods. In the dark forest, some tunnels lead to a place filled with darkness. It is the Dark Abyss.

Tina knew about Dark Abyss!

Her knowledge was even wider than Lomina and the Queen of Light, Olivia!

It was normal to think about it.

After all, she had lived for two thousand years.

Although her body was still around twenty years old, she had a lot of experience.

The most important reason was that she had a sister who was a peak, third-ranked God!

The Goddess of Eternal Night knew many secrets.

Dark Abyss.

Meng Ying repeated these words.

She knew about the Dark Forest.

This was because the Holy Flame Forest was cultivated from the Dark Forest but Meng Ying did not know about the Dark Abyss.

The Dark Abyss, isn't it the legendary hell?

At this moment, Lucy, the head of Medusas clan, asked.

No. Empress Tina shook her head.

After some thought, she finally said:

The Magisters of the Continent of Gods are easily seduced and fallen by the Abyssal Demonic God. They become the chess pieces and prey of the Demonic God. A large part of the reason is that their strength will increase after falling.

Meng Ying nodded because she knew this.

Empress Tina continued, Actually, there are also some gods in the Heavenly Realm that have no hope of advancing after a long time. They have chosen to come into contact with the power of the darkness to increase their strength. After coming into contact with the power of the darkness, these gods will do anything to become stronger. They will cause great harm to the order of the Heavenly Realm, and this is something that the Heavenly Realm gods cannot tolerate.

Meng Ying understood, So, the Dark Abyss Prison is the place where these gods are imprisoned?

Empress Tina said, Its not very accurate to use imprisonment to describe it, because the Dark Abyss Prison isnt within the Heavenly Realms jurisdiction. Its similar to the Abyss, completely opposing the Heavenly Realm. It should be said that the gods who came into contact with the dark energy could not extricate themselves from the darkness. After being discovered, they fled to the Dark Abyss. As for those who didnt escape, died.

Meng Ying nodded.

Thats right. Why would he be imprisoned if he was able to kill them to avoid future troubles?

The gods of the Heavenly Realm were not that stupid.

Unless, it was an existence that was truly difficult to kill those who had come into contact with darkness energy fled into the Dark Abyss, which meant that the Dark Abyss was indeed an existence that could rival the Heavenly Realm.

Then, the true source of darkness might still be in the Dark Abyss!

In short, there are many secrets of the Dark Abyss. Its not as simple as what I said, but thats all I know. Empress Tina said.

After the topic of the Dark Abyss was over, Empress Tina started observing the magic array.

Soon, she discovered something new:

This dark magic array has the effect of absorbing life, it has existed for at least several thousand years, Honorable Meng Ying, if Im not wrong, the formation of the Endless Desert should be related to it, and I dont know what it holds inside. Unfortunately, I have no research on the dark magic array, if I were to destroy it by force; it would take at least a day.

Let me try.

Meng Ying said.

Then, she prayed.

Yes, Meng Ying directly asked Lin Yan for help.

Empress Tina was stronger than Meng Ying. She couldnt break through this dark magic array in a short period, so Meng Ying didnt have a good idea.

But Meng Yings mind had.

After Meng Ying prayed, a flame appeared in her hand.

Empress Tina looked at all of this in surprise.

Chapter 424: The sweeper of the gods! The passage!

In the past month or so, Empress Tina had received quite a bit of surprise.

She knew a lot about the Lord of the Flames.

Some devout followers of the Lord of Flame could obtain special flames through prayer. These special flames possessed various functions.

For example, White Flame had healing effects.

The effects of White Flame were even better than the healing Divine spells of many church sorcerers in the Eternal Night Continent.

The Lord of Flame was quite good at many things.

Then, she saw with her own eyes the Endless Desert that had turned into an oasis.

She had also heard of the fact that the Lord of Flame had sent down a Divine rain of seven days and seven nights, covering the entire northwestern part of the Endless Desert.

Empress Tina had long believed in the power of the Lord of Flame.

Otherwise, how could the Lord of Flame do so many great things?

Even the Eternal Night Goddess was unwilling to do such a thing through the barrier.

It was not impossible but because the consumption was too great. The gains were not worth the losses.

However, the Lord of Flame did it without hesitation.

It turned an uninhabited desert into an oasis.

In the eyes of other gods, they would only feel that this matter was too laborious to please.

In the Lord of Flames hands, it was very possible. It was not much trouble for the Lord of Flame!

This was something that he did conveniently.

In the eyes of Empress Tina, the Lord of Flame was definitely incomparably powerful. At the very least, he was much stronger than her sister.

Moreover, the Empire of the Lord of Flames made Empress Tina feel refreshed.

She even felt that such an Empire was truly an ideal one.

Now, she had a chance to personally see the Lord of Flame bestow Flame upon her.

Meng Ying reached out to catch the flame.

After that, Meng Ying placed the flame on the membrane of the dark magic array, then, Meng Ying lightly pinched it.

Boom!

That flame instantly ignited.

As the flames burned, the outer layer of the dark magic array seemed to become a layer of transparent plastic film, quickly burning.

The Laws of Destruction!

Empress Tina said softly.

Clearly, Angstrom was not the only one who could tell, Empress Tina could tell as well.

Her strength wasn't weak!

The Laws of Destruction belonged to the Heavenly Realm and the Abyss.

Of course, there were very few gods who had that.

Under the effect of the Laws of Destruction, the dark magic array was quickly burned down.

But in reality, it wasn't a plastic film. It was a dark magic array that even Empress Tina needed a day to crack.

This magic array wasn't as powerful as Angstroms. Moreover, this was the Continent of Gods, and the dark power was greatly suppressed.

When the dark magic array was destroyed, a large amount of darkness aura rushed out.

The dark aura instantly infected the Snake Woman, who was close.

Be careful!

Empress Tina and Meng Ying attacked simultaneously, sending this Snake-Woman out.

Quickly pray to my God!

Lucy said.

Her situation was also not optimistic.

The dark aura that rushed out from that dark magic array was too dense.

In a few seconds, those Snake Women would turn into dark creatures!

Lucy and the Snake women hurriedly prayed.

Fortunately, after Meng Ying prayed, Lin Yans gaze was focused on this side.

Thus, as soon as they prayed, they got a heart flame.

The Snake Women quickly swallowed that heart flame, preventing their soul from being corroded by the dark energy.

After that, Lucy prayed for a holy flame to shine on the Snake Women, dispersing the dense dark aura around them.

These Snake-Women were a little afraid, and they all expressed their gratitude to the Lord of Flame.

Lucy's reaction was quite quick.

A bit later, it would be challenging to expel when the dark aura merged with the Snake Women's body.

At that time, they could only follow the path of Fallen Elves.

However, as living beings on the Continent of Gods, they preferred to live under the light.

After the Medusa tribe left the area, only Empress Meng Ying and Tina remained outside the magic array

Empress Tina stood in front of it, resisting the dark aura.

Finally, the most ferocious wave of darkness aura passed.

This place has been modified to resemble the environment of the Dark Forest, but the laws of the Continent of God are still working. I wonder what's inside. If it's an evil creature, their strength will be suppressed.

Tina was the first to enter.

Then, she saw a huge black heart floating in the mid-air.

On this black heart, darkness surged.

This is

Spare my life; I just remember everything I said. I really can't remember too much. I only know that I have to get my heart back in order to get my strength back. But before today, I didn't have any hope. Look at me, my memory has been lost so much.

In the Dark Abyss, the huge head said.

Angstrom looked at it coldly and did not reply.

The giant head was extremely afraid. Under Angstrom's gaze, it did not feel the slightest sense of security.

That's why I lured some of the Dark Saints over. I lured them to offer their hearts so I could try to rebuild one. I've already collected ten hearts and with a few more, I might be able to succeed. However, the reconstructed hearts are far inferior to mine.

The huge head said.

Angstrom already knew its origins.

This guy was not an Ancient God, but his name was Simba.

It had been sealed there for thousands of years.

In the Heavenly Realm, not to mention thousands of years, even ten thousand years old gods could not be considered ancient gods.

This guy was pretending to be an Ancient God to trick Angstrom.

The giant head was a second-ranked deity of the Heavenly Realm, but it was unlucky. After someone took away the kingdom, its strength could not be increased for a long time. After a thousand years of depression, it chose to take a shortcut and came into contact with the power of darkness.

After coming into contact with the dark power, everything was going smoothly. The power was progressing very quickly.

However, it had not been happy for a few days before it was discovered by other gods, causing many gods to hunt it down.

Its heart was actually sent flying by a punch from a God during the battle, landing on the continent of gods.

Although it did not have a heart, it still escaped to the Dark Abyss.

However, not long after it entered the Dark Abyss, it encountered an extremely terrifying Dark God. The other party directly pulled his Divine body into several parts and then used the dark magic array to trap it, absorbing the energy in its Divine body day and night.

That's right, that dark magic array not only had the function of sealing, but it also had the biggest function, which was to suck out the dark energy from this guy's body and use it to nourish the Dark Abyss.

This was how the Dark Sun came. There were a few wellsprings in the Dark Sun, and they were a part of this guy's Divine body.

The Sun of the Heavenly Realm involved complex laws and rules that could burn for countless years.

The Dark Sun directly used its head as a source of darkness, leaving only bones in its head.

After being sealed there, it naturally could not find his heart.

However, there was still a wisp of will in its heart. The will used the energy in its heart to set up a dark magic array to protect the entire heart. It was also absorbing the vitality of all the plants on the ground to maintain its strength.

This guy was the most unlucky God.

It was simply the sweeper of the gods.

Lin Yan had killed quite a few second-ranked gods.

However, they were not weak.

This guy's Divine body was divided into several parts. It had been absorbed by the dark magic array for thousands of years, and it had even absorbed a few dark suns, but this guy was still tenaciously alive.

God was a God, and his vitality was quite strong.

However, it had little power left.

The reason why its head appeared so huge was that it was absorbed by the dark magic array.

The density of the matter inside the head became smaller, and the volume naturally became larger, which was equivalent to being absorbed and expanded.

The two energy balls it gave Angstrom were actually half its strength.

There's still a lot of energy in my heart. As long as you let me go, I can tell you the location of that heart. It's the heart of God. You can use it when you shape the body of God.

The giant head begged for mercy, especially when it only had one head and this head was locked by the Chain of Rules.

Without the Chain of Rules, the giant head would have the ability of a God. Even if it did not have much power left, it might still be able to fight Angstrom in the Dark Abyss.

Open the passage.

Angstrom said coldly.

The giant head had a special connection with its heart. It could open a passage between its heart and its head. Of course, it was completely trapped by the Dark Magic Array and the Chain of Rules.

He could not go there, that was why he wanted to lure some dark creatures from the Sanctuary, but no Sanctuary could enter.

No other Sanctuary creature could break this dark magic array.

However, in the first stage, dark creatures were still brainwashed, and their hearts were given to him.

Right away.

The giant head hurriedly activated its remaining power and opened a passage to its heart.

Angstrom took a step inside.

However, after half a step, she suddenly turned around, and a flame appeared in her hand.

The giant head began to scream.

My God says that the burning Evil God is good, Angstrom said.

With that, she stepped into the tunnel.

She had already checked the passage. There were no problems.

In the depths of the Dark Sun, the raging flames burned. In a very short time, the huge head was completely burned.

Chapter 425: Angstrom reappears in the Continent of the gods!

: Angstrom reappears in the Continent of the gods!

What is this?

In the huge underground space, Meng Ying looked at the huge black heart.

The heart was floating in the air, not beating at all, as if it was a dead object, but it was not a dead thing.

On top of it, dark energy kept surging.

The entire underground space, as well as the dark matter in the magic array, came from it.

Meng Ying also felt terrifying pressure on her heart.

Meng Ying had a feeling that this thing might have caused the Endless Desert to jump.

This is probably the heart of a God, but its not a God from the Heavenly Realm, and its not much like the Abyssal Demon God. Its probably the Dark Demon God from the Dark Abyss.

Tina said.

She made this assumption based on the fluctuations and aura of the heart and the dark magic array.

Demon Gods Heart!

Meng Ying did not expect that there was such a Demon Gods Heart in this place deep in the Endless Desert!

According to Tina, the heart had been here for thousands of years.

The reason why the Endless Desert turned into a desert was probably because of it.

However, the Endless Desert extended many kilometers to the east. She wondered if the formation of the Endless Desert in the east had anything to do with it.

The Endless Desert in the east might have formed naturally, but the Endless Desert in the west might have been absorbed by the magic array around the heart.

Thousands of years ago, a place that was full of vitality had become a desert.

We have to destroy it.

Although Meng Ying was a little surprised, she immediately made a decision.

Meng Ying did not want to be contaminated by the power of darkness, and if the power of darkness appeared on the Continent of God, it would be destroyed immediately to prevent it from causing more harm.

Although it was just a heart, do not underestimate it.

Anything that could touch a God could not be underestimated.

Although this heart was suppressed by the laws of the Continent of God, it was not something that ordinary people could deal with.

If it escaped, even a legendary mage might not be able to deal with it.

And this underground space was even more difficult to deal with because this underground space has been transformed by the dark magic array.

Here, the suppression of the laws of the Continent of God had weakened considerably.

Just like in the Dark Forest, it was also the outpost of Dark Creatures.

Yes, if you want to destroy it, I'll do it.

Tina said.

Her body was filled with power, and then she saw Tina's hands moving mysteriously. Terrifying magic was coming for the Demons Heart.

But before her attack reached the Demon Gods Heart, she saw all the dark matter in front of the Demon Gods Heart. It turned into a black barrier and blocked her attack.

Then, above the heart, a terrifying will was awakening to the people of the Continent of God!

Boom!

The heart that had been still for most of the day suddenly jumped!

With the beating of this heart, the area in the middle of the Endless Desert, which was hundreds of kilometers in radius, began to beat.

On the ground, it was as if the earth was shaking!

Whats going on?

In the Endless Desert, a million captives from the three kingdoms and the Purple Gold Empire were still inside.

The Endless Desert was too big. Although Lin Yan had rained for seven days and seven nights, the Elves had cast a large number of seeds and threw a lot of magic, turning the Endless Desert into an oasis.

However, the Endless Desert still needed to be taken care of in many places, and millions of prisoners were still in the Endless Desert.

At this moment, a large number of prisoners in the area could not stand still and fell to the ground.

This was already the second time!

As expected, its not that simple.

In the underground space, Tina walked.

The attack just now was just a test.

It was a test, but it wasnt weak. Even the Sanctuary might not be able to take it, but the heart could easily block it.

After blocking Tinas attack, the heart seemed to have recovered from hibernation.

The will of the Demon God has awakened.

Tinas expression turned serious.

Lets attack together.

Meng Ying said.

Okay!

They attacked together.

Tina was much more powerful than Meng Ying.

She was at least a second-stage Sanctuary.

She might even be a third stage or higher Sanctuary!

However, Meng Ying was a fire magister. Under Lin Yans careful training, the fire magic she released had a great restraining effect on the dark power.

You dare to look down on your dignity? Youre courting death!

In that heart, the Demonic Gods Will released a spiritual fluctuation.

Then, in the heart of the Demon God, dark energy surged.

A surge of power shook Meng Ying and Tina Empress, and they had no choice but to switch to defending.

Following that, endless dark energy surged out and turned into the sharpest attack, attacking the two women.

I'll defend; you attack with all your strength.

Tina stood before Meng Ying and blocked the attack from the Demons Heart.

Meng Ying used all her magic attacks.

Her instantaneous magic was too easy to use. One by one, she attacked the Demon Gods Heart.

The energy in this heart is too deep. The two of us can't even compare to it. We can't exhaust it like this. We must drive the rules to break through its defense limits.

Tina said.

This heart was indeed powerful.

However, it was just a heart, so the attack method was too limited.

Until now, the attack method of this heart was very simple, which was to directly use dark energy to launch an energy attack.

In addition, the Demonic Gods Will on this heart was simultaneously launching attacks on the mental plane.

To the Demon Gods Heart, it was an even sharper attack, but Tina could defend against it.

However, even if Meng Ying continued to use powerful magic attacks, she could not break through the defense built by the Demon Gods Heart.

Leave it to me.

Meng Ying's aura changed, and then she began to drive the power of the rules.

Chapter 426: Angstrom reappears in the Continent of the gods!

: Angstrom reappears in the Continent of the gods!

For the Sanctuary, the consumption of the rules was not small. A Sanctuary could not fight with the rules for too long, so they could use conventional methods to solve the battle. The Sanctuary would usually use conventional methods to solve the battle first.

Only battles that could not be solved by conventional means would drive the rules.

Unlike the gods, there were usually some fragments of rules in the composition of Divine energy.

When Meng Ying activated the rules, her fire magic suddenly became exceptionally sharp.

Boom!

The flame surrounded the heart.

Holy Flame!

Meng Ying prayed for the Holy Flame to disperse the dark matter in the underground space.

If it would change the environment, she would change it back.

The effect of the Holy Flame was too good.

As soon as it appeared, it dispersed a large amount of the dark matter in the underground space!

Boom!

The Demon Gods heart could not attack for a long time, and Meng Yings attack had become so sharp.

Endless attacks of dark energy attacked the two women.

It was completely drowning them.

Follow me closely.

Tina and Meng Ying kept dodging.

As for Meng Ying, she kept attacking while dodging.

The underground space began to collapse.

There are stones on it!

Tina said.

A huge stone fell from that heart.

Even if there were Saint Realm existences and they were all magisters, they would not be able to withstand that stone that was tens of thousands of tons.

But there were too many ways to protect themselves.

Meng Ying waved her hand, and a huge fireball rushed forward, blasting the huge stone into countless pieces.

Boom!

As the battle intensified, this space continued to collapse.

On the ground, the vibrations were even more intense.

Damn it, if this isnt the Continent of Gods, if my body is still here, you two are worthy to be my enemies!

The Demonic Will on the Demonic Gods heart roared.

Under the impact of the dark energy, the speed of the space collapsing once again increased.

Countless boulders were smashed into pieces.

Tina didnt say a word. She continued to use her methods to neutralize the Demons Heart.

On the other hand, Meng Ying did not care about the consumption of magic power. The instant cast magic was also thrown at the Demon Gods heart as if it was free.

The fluctuations of the battle between the two sides had gone far.

Step back.

In the distance, Lucy led the snakes and continued to retreat.

You guys continue to retreat. Ill go see if I can help.

Lucy said.

Although her strength was only legendary, as the clan leader of Medusas clan, her petrified eyes were still quite powerful.

If she used it well, even the Sanctuary could be petrified.

However, there were too many restrictions on the petrified eyes. If she didnt look at you, then you wouldnt be able to do anything.

This Demonic Gods heart was just a heart, and it had no eyes at all. It was difficult for Lucys Petrifying Eye to take effect.

However, she still decided to see if it would be helpful.

Of course, she wasnt brainless. If she found out that she couldnt intervene, she would hide far away to avoid becoming a burden to Meng Ying and the others.

Not long after, Lucy rushed over there and was shocked by the scene before her.

The underground space had expanded many times.

The underground space had completely collapsed.

This underground space was at least a few kilometers away from the ground, but now, under the impact of the battle, they could actually see the sunlight coming in.

The impact of this battle was terrifying.

In the underground space, the energy impact was still coming.

The terrifying dark energy rushed everywhere. Every time it collided, it could shatter large amounts of rocks.

So scary.

Lucy thought.

Then, she saw the black heart.

She didnt expect that the target of the fight between two powerful Saints was just a heart!

That heart was already so terrifying. If the body carrying the heart was still alive, how strong would it be?

Boom!

In the blink of an eye, the battle lasted for more than ten minutes.

This underground space had completely collapsed.

Moreover, the area of collapse became exceptionally large.

In the Endless Desert, a huge hole appeared.

From this hole, terrifying energy waves were constantly being emitted.

If this was not within the Flame Empires hinterland, this fluctuation would have attracted the attention of many other elites.

Its running away!

Meng Yings voice sounded.

Yes, the Demon Gods Heart was about to flee

After the underground space was completely destroyed, the Demon Gods Heart was suppressed by the laws of the Continent of God.

It was extremely disadvantageous to continue fighting.

Therefore, the Demon Gods Heart was ready to escape.

It had stayed at the bottom of the Endless Desert for thousands of years, and it had never been discovered. Unless it had no other choice, it would not choose to escape. It would consume too much energy to escape once.

Stop it.

Tina no longer defended herself. She attacked together with Meng Ying.

However, the Demon Gods Heart was determined to escape, and it instantly broke through their blockade.

Just as the Demon Gods Heart was about to flee, a dark tunnel opened beside the Demon Gods Heart.

A woman with a dark aura suddenly appeared and grabbed the Demon Gods Heart.

Chapter 427: Flame is my Lord! Empress Tina was shocked once more!

: Flame is my Lord! Empress Tina was shocked once more!

The will in the Heart of the Demon God roared.

The person who came out of the tunnel was naturally Angstrom!

Angstrom was slightly taken aback when she heard the roar of the Demonic Gods will.

After that, she realized that the will of the Demon in the Heart of the Demon could not sense the situation in the Dark Abyss.

In the Dark Abyss, Simbas heart had been punched into the Continent of Gods. Even though he had a lot of power in his heart, Simbas will remained.

However, Simba was the main body in the Dark Abyss.

That was why Simbas head could sense the condition of his own heart.

He could even use this feeling to directly open the path to his heart.

Simbas will on his heart naturally did not recognize Angstrom.

After Angstrom understood, she did not intend to explain it.

The heart of the Demon kept beating, trying to struggle out.

However, no matter how much the Demon God struggled, he could not struggle out.

The Demonic Gods heart did not have many tricks up its sleeve.

However, it was still difficult for Meng Ying and Empress Tina to deal with.

However, dealing with darkness was not difficult for Angstrom.

In addition, Angstrom obtained the method to target the heart from Simbas head.

Therefore, after Angstrom pinched the Demon Gods heart, the dark energy that had emerged from the heart suddenly squeezed it.

Angstrom crushed the will of the Demon God within the heart of the Demon God!

Without the will of the Demon God, this Demon Gods heart was still dangerous for the people of the Continent of Gods.

However, it was nothing for Angstrom.

Angstrom took the heart of the Demon God and threw it into the dimensional pocket.

The value of a Demon Gods heart was naturally great.

If some dark race creatures had obtained it, they might choose to use this heart instead of their original heart.

However, Angstrom would not do so.

It was just a second-ranked Gods heart.

If she became a God now, her godhead would instantly reach the second rank.

Angsts eyes were on the Divine energy of Darkness and the energy of laws within the heart of the Demon God.

In the darkness, there were many forbidden methods.

Angstrom could safely claim the Dark Divine energy in the heart of the Demon God as existing.

Some dark gods would even choose to eat this heart directly.

This was also the main reason why there was no room in the Heavenly Realm to infect the gods of darkness.

Angstrom naturally couldnt do something as disgusting as eating that heart, but she could steal the Divine energy of Darkness and the power of laws inside after becoming a God.

She destroyed this heart.

.

So strong!

Not far away, Empress Tinas eyes couldnt help but narrow when she saw Angstroms appearance and the Demon Gods heart that had been subdued in such a short time.

She felt a certain amount of pressure on Angstrom.

Dark Elves?

Empress Tina whispered.

Dark Elves were even eviler than Fallen Elves that was why Empress Tina didnt relax even though Angstrom instantly killed the Demonic Gods will and took the Demonic Gods heart. Instead, she seemed to be facing a great enemy.

Although the Demonic Gods Heart was an object of the gods, it was only a victory. Its methods were limited, and it was easier to deal with but if it was a dark Elf of the same level, it would mean a bitter battle.

Although Empress Tina understood that dealing with darkness was sometimes easier.

However, Angstroms ability to easily subdue the Demonic Gods Heart had made Empress Tina feel threatened.

Under the suppression of the Laws of the Continent of God, theres still such a terrifying energy ripple. Its at least at the third or even fourth stage of the Saint Realm.

Empress Tina silently estimated Angstroms strength.

Even though Angstrom was a dark elf in her eyes, Angstrom had yet to show any obvious hostility.

Empress Tina did not act rashly.

Besides Empress Tina, Meng Ying was also facing a great enemy.

Meng Ying did not know Angstrom.

However, for some reason, Meng Ying felt a familiar aura on Angstrom.

It was precisely this familiar aura that prevented Meng Ying from attacking.

The two of them looked at Angstrom warily.

Then, they saw the aura of darkness rapidly fade away from Angstroms body.

Following that, an extremely dense aura of light was emitted.

It was as if Angstrom had been clad in a layer of darkness, or perhaps surrounded by darkness.

At that time, she had rushed out of the darkness!

Yi, its not a Dark Elf!

Tina exclaimed.

I dont know where that tunnel came from, but the atmosphere inside is very dark. Did she go to the Dark Abyss? She had been in the Dark Abyss for too long, so she was shrouded in darkness and looked like a Dark Elf?

Tina had a guess.

Even with her knowledge, she could not guess the real reason why Angstrom could instantly transform from darkness to light.

The Dark Abyss was rarely recorded on the Continent of God.

Not many people knew about that.

The gods of the Heavenly Realm knew a lot, but they would not reveal anything to their followers.

Like the Goddess of Light never told the Queen of Light, Olivia.

However, on Tinas level, she knew that a powerful Sanctuary had entered the Dark Abyss.

In comparison, the Dark Abyss was more dangerous than the Abyss.

Every time the Abyss crack opened, the Upper Abyss would attract many human visitors.

However, there were too few human visitors to the Dark Abyss.

The main reason was that humans were like cannons in the Dark Abyss. They were too eye-catching and would be drowned by dark creatures as soon as they entered!

That was why only Sanctuary would enter the Dark Abyss.

In order to prevent themselves from becoming cannons, these Sanctuaries would choose to disguise themselves and gather dark matter outside their bodies to make themselves look like dark creatures.

Now, in Tinas opinion, Angstrom was just like that.

When did the Elves have such a powerful existence? Could it be from another part of the continent?

Tina thought to herself.

Whether it was the Eternal Night Empire, the Flame Empire, or the Human kingdoms further north of the Flame Empire, as well as the Dark Forest and the two Elven empires beside them, they were all in the northern part of the Continent of God.

In other regions, Elves naturally existed.

Chen Xi and Lomina had been flying for a few months and only received a million Elves. Now, the two Elves of the Elven Empire combined only accounted for about half of the total number of Elves in the Continent of God.

In a faraway place, there were still many Elves but according to Tina, there wasnt even a Saint in the Northern Elven Empire.

Angstrom gave Tina the feeling that she was at least a powerhouse of the same level. It was more likely that she was stronger than her!

Tina couldnt help but guess where Angstrom came from.

Chapter 428 : Flame is my Lord! Empress Tina was shocked once more!

Meng Ying did not know much about the Dark Abyss but Meng Ying heaved a sigh of relief when she saw the changes in Angstrom.

That strange and familiar feeling made Meng Ying feel puzzled. At the same time, she did not want to make a move on Angstrom.

As this was the Flame Empire, Meng Ying was the first to speak:

This is the Flame Empire. Are you an elf from the Rocky Elven Empire?

Meng Ying didn't have as much speculation as Tina. She didn't know much about the Continent of God.

In Meng Ying's understanding, the Holy Flame Elven Empire did not have a powerful existence like Angstrom.

Then, only the Rocky Elf Empire remained.

Well, Meng Ying did not know much about the Rocky Elven Empire.

Flame Empire?

After hearing Meng Ying's words, Angstrom repeated the words.

Seeing that she seemed to know about the Flame Empire, Meng Ying said, Yes, the Flame Empire.

Angstrom suddenly asked, Do you believe in the Great Lord of Flame?

Angstrom's words made the eyelids of Empress Tina, who had not spoken at all, jump next to her because the word great was in her vocabulary.

This meant that Angstrom knew about the Lord of the Flames.

Furthermore, it was to acknowledge or even respect the Lord of Flame. Otherwise, such a powerful Sanctuary would not have chosen to use that word.

Meng Ying did not think too much. She nodded and said:

Yes, the one we believe in is the great Lord of Flame.

Lord of Flame is my Lord, so this is the kingdom of my God, Angstrom said.

After she finished speaking, her vibrating strength began to rise rapidly.

She wanted to see the Flame Empire.

Flame is my Lord!

She's also a follower of the Lord of Flame!

Empress Tina took a deep breath.

She originally thought that Angstrom only knew and recognized the Lord of the Flames.

Unexpectedly, Angstrom actually believed in the Lord of Flame!

Heavens!

Angstrom was at least at the same rank as her!

She was not the second rank of the Sanctuary but was third or fourth ranked Sanctuary!

Such a powerful Holy Domain actually believed in the Lord of Flame!

As the Emperor of the Eternal Night Empire, Empress Tina had been overseeing the Empire for a thousand years.

She naturally knew how difficult it was to have a third or fourth stage of a strong Saint Realm belief!

Some of the kingdoms of the fourth-ranked gods did not have the powerful Saint Realm of the third and fourth stages!

The third and fourth stages of the Saint Realms were too difficult to achieve.

It wasn't something that could be piled up for a long time.

Some of the Sanctuaries had been at that stage for thousands of years, but they still could not break through the third stage of the Sanctuaries, let alone the fourth stage.

Normally, only the top ten empires in the Continent of God would have Saint Realm cultivators in the third and fourth stages.

The gods of the Great Empire were all-powerful gods of the fourth level.

Of course, the situation in the Eternal Night Empire was an exception.

The Eternal Night Continent's top ten was purely fought by Empress Tina.

Could it be that the Lord of Flame also has one of the top ten empires?

Empress Tina couldn't help but think.

She had some understanding of the top ten empires of the Continent of God.

All of the top ten empires had existed for thousands of years, even tens of thousands of years.

Compared to them, the Eternal Night Empire was only a young man, and the Eternal Night Empire was only the last one.

In the Immortal Continent of God, the top ten meant a lot. This was also one of the reasons why the Eternal Night Empire would face a siege once the Eternal Night Goddess was exposed.

However, Empress Tina thought about it and didn't think that any of the top ten great empires believed in the Lord of Flame.

But this could not stop her shock at all!

This allowed Empress Tina's knowledge to be refreshed once again.

To be able to obtain the faith of such a powerful Saint, and to be able to obtain this powerful Saint as an Elf, the meaning behind this was immense.

The Elves were different from humans.

It was difficult for a human God to obtain the belief of an Elf.

Even though it was very difficult for a Human Goddess to obtain the belief of the Elves, the male God was even more difficult but the Lord of Flame had a kingdom of Elves in the north.

He even obtained the faith of this powerful Elven domain.

Does this mean that the Lord of Flames is not only powerful but more importantly, reliable?

There was definitely no problem with the Divine grade.

The idea of the Lord of Flame also revealed that the Lord of Flame was a kind, open-minded, and innovative God who would not hesitate to act decisively at a critical moment.

Such a God was the ideal person for Empress Tina to ask for help.

Other than that, such a God was worthy of Tina's faith.

That's right; Empress Tina planned to exchange her most devout faith for the help of a powerful God.

The gods would not attack for any reason, especially, in an unrelated situation, so Empress Tina had to pay the price. The price she had to pay was herself.

It was not easy to contribute to faith.

Especially given Empress Tina's strength and the fact that she had a goddess, she had a deep understanding of God.

If Empress Tina did not identify with a God from the bottom of her heart, even if Empress Tina wanted to believe in a god, she would not be able to do so but now, the Lord of Flame had already made her agree with him in her heart!

No wonder I feel a sense of familiarity with her. She is also a believer of my God.

On the other hand, Meng Ying could not help but think when she heard Angstrom's words.

That's not right. If you were just a believer, you wouldn't feel that familiar

Meng Ying thought again.

Honorable Tina, let's go. Let's follow and take a look.

Meng Ying said.

Tina nodded.

Meng Ying called Lucy and the three girls flew into the sky together.

Angstrom had already flown tens of thousands of meters into the sky. In her vision, it was still an Endless Desert.

However, far away, Angstrom saw a prosperous country.

Meng Ying, Empress Tina, and Lucy flew up quickly.

They did not say anything until Angstrom retracted her gaze. Meng Ying took the initiative to invite her.

Since you are also a believer of my God, why don't you stay in the Flame Empire for a while and taste the food of the Flame Empire?

Angstrom shook her head slightly. No, I still have things to deal with. Are you Holy Maiden Meng Ying? My name is Angstrom, and I am also the Holy Maiden of the Lord of Flame. If you need help in the future, you can use this imprint to contact me with a magic letter.

After Angstrom finished speaking, she handed a seal to Meng Ying.

When she would write the magic letter, she would be able to point it at Angstrom.

After Meng Ying received it, Angstrom bid her farewell and flew north.

Hearing Angstrom's words, Empress Tina was completely stunned!

She was not only a believer but the Holy Maiden!

Such a powerful Holy Domain had become the Holy Maiden of the Lord of Flame!

Heavens!

Chapter 429: Pairs of sisters! The Goddess visited.

Honorable Meng Ying, Ive been nagging you this time. Thank you very much for your hospitality.

On the ship, Tina spoke to Meng Ying.

Yes, Tina was ready to return.

She had been in the Flame and Smoke Empire for nearly a month and a half, and she understood what she needed to know.

Meng Ying said, Honorable Tina, youre welcome

In the past month and a half, Meng Ying spent a lot of time with Tina. The two of them had become friends.

Qing Ling also came out to see her off.

After bidding her farewell, Meng Ying took Tina to the border and bid her farewell.

The thirty-something flying ship of the Eternal Night Empire rose into the air and left the borders of the Flame Empire.

On the flying ship, Tina looked at the retreating land, still feeling shocked.

In the past month and a half, Tina had gained a lot from her time in the Flame Empire.

She saw too many things.

She also saw that the Lord of Flame was different from all other gods.

In the Flame Empire, from the aristocratic officials to the commoners, the spirit of each of them was clearly different from the other Empires in the Continent of God.

They were filled with passion and hope for life. Whether it was civilians or nobles, they were all trying their best to build their own homes.

They truly loved their empire.

It was because of this love that the people of the Flame Empire became especially devout towards the Lord of Flame!

Tina had already made her decision.

However, whether this decision would become a reality depended on whether her sister could create a miracle when she broke through.

Tina felt that her sister would not be able to create a miracle.

Its a pity she didnt listen.

Tina sighed.

A day later, Tina returned to the Imperial Capital of the Empire. Everything was normal, but this was just a phenomenon.

The Eldest Princess was right.

The Eternal Night Empire was quietly preparing for war.

As a millennium empire, the Eternal Night Empires accumulation was quite strong.

There were countless amounts of gold in the national treasury, and a large number of sophisticated weapons were stored in the weapons warehouse. There were quite a lot of experts from the Eternal Night Empire.

Some of the big nobles who were secretly summoned back were also doing their best to arm the army.

In comparison, grain accumulation was not a particularly big move.

There was plenty of grain left in the granaries of the empire.

Other than the Flame Empire, which had a close relationship with the Eternal Night Empire, no other empire had discovered this huge monster.

In an empire, there would be some spies from other empires but until the Eternal Night Empire publicly prepared for war, the spies would not be able, to tell the truth from a few clues.

Moreover, according to common sense, there was no way that a large-scale war could happen in the Eternal Night Empire. In the Northern part of the Continent of Gods, the Eternal Night Empire was a gigantic existence that stood for a thousand years without falling. It was a standard millennium empire.

In the eyes of many people, the Eternal Night Empire even had the potential to become an empire for ten thousand years.

After returning to the Imperial Capital of the Eternal Night Empire, Tina returned to the palace with the magic mirror.

Magic Mirror, help me contact her.

Tina said.

The image on the mirror began to distort.

Soon, the face of the Goddess of the Eternal Night appeared in the mirror.

Her face looked exactly like Tinas.

As sisters, Angstrom and Olivia, the Queen of Light, looked completely different.

Tina felt that Empress and Eternal Night were standard twin sisters.

Angstrom and Olivia did not have parents.

They were only born from the Tree of Life. Their life marks were connected, so they were a pair of sisters.

It was normal to not look like it, because there was no blood relationship.

The word consanguinity was not valid for Elves either because they had no parents. The increase in the population of the Elves was purely from the Tree of Life.

The Goddess of Eternal Night did not speak after she appeared.

This pair of identical sisters looked at each other through the mirror.

Tina, aren't you going to persuade me this time?

Finally, the Eternal Night Goddess spoke first.

Empress Tina said, How long before you start?

Six months.

The Goddess of Eternal Night said.

Six months later, the Sun of the Heavenly Realm will erupt once in a hundred years. A large amount of Divine matter will surge onto the surface. When that time comes, most of the gods of the Heavenly Realm will go to the Sun of the Heavenly Realm and collect Divine matter there. That is my chance.

The Goddess Eternal Night explained.

If the other side was not her sister, she would not have explained it in such detail.

Empress Tina's voice was calm and she couldn't hear any emotions. Alright, inform me when you start!

Empress Tina finished her conversation.

Strange.

In a certain Divine kingdom in the Heavenly Realm, the voice of the Goddess of the Eternal Night sounded.

Tina's performance today made her feel strange.

Although she was her elder sister, they were actually twins. Their ages were the same, but she was the one who came out first.

After learning about the Eternal Night Goddess's plan, Tina would persuade her every time she contacted her but that day, Tina did not try to persuade her, and her expression was very calm.

This was exactly what the Eternal Night Goddess found strange.

However, if Tina didn't say anything, the Goddess of Eternal Night didn't make too many guesses.

She still had many things to do.

.

In the sky, Angst flew quickly.

She flew very high above the clouds.

Without the cover of the clouds, the sunlight became exceptionally intense.

The bright sunlight hit her body, giving Angst faint warmth.

It also made her feel very comfortable.

Angstrom was in a good mood.

In the past, even if she flew out of the area covered by dark matter every day to bask in the sun, at that time, her heart was longing for light, but her body rejected the sun. The sun would hurt her, even though that kind of damage was rare.

However, her body was still repelling the sunlight but now, she was completely free to enjoy the sunlight.

This was something she did not dare to imagine in the past thousand years.

That was why Angstroms speed was not fast.

Although it wasnt fast, a few days later, the towering Rocky Mountain Range still appeared before her eyes.

Behind the Rocky Mountains was the place where the Elves lived.

Angstrom flew over there.

The Rocky Mountain Range was too high.

It was not only high, but it was also dangerous.

In the Rocky Mountains, ordinary beasts couldnt survive at all. Only some stronger magical beasts lived here. Angstrom quickly flew to the top of the Rocky Mountains. She lowered her head and saw the thick ice wall that was a thousand meters tall.

It was also the work of the Lord of Flames.

At that time, this ice wall was still getting thicker and thicker.

The ice walls outer shell absorbed more and more ice.

The existence of this ice wall also turned the surrounding hundred miles into a world of ice and snow.

All the trees were covered in thick snow.

These trees had been cultivated by the Elves before and their vitality was tenacious, so they would not die.

To be able to create such an ice wall meant that the Lord of Flame had made great contributions to the rules of the ice system.

At the same time, he grasped the two opposing rules of Flame and Ice. In addition, he also grasped the rule of destruction.

Angstrom could not help but be curious as to what kind of God her God was.

She even had the urge to become a God and go see the Lord of the Flames.

However, Angstrom would not become a God now.

Moreover, she didnt know whether she would go to Heavenly Realm or another place after becoming a God.

Angstrom quickly flew past the ice wall and crossed the Rocky Mountain Range.

Angstrom flew towards the Rocky Elven Empire.

She flew very high and did not sense anything.

It was only when she flew to the capital of the Rocky Elven Empire, above the City of Light that the Elves in the sky noticed her.

This is the capital of the Rocky Elven Empire. May I know who you are..

Chapter 430: Pairs of sisters! The Goddess visited.

A Young Winged Elf did not recognize Angstrom.

Strictly speaking, in the Rocky Elven Empire, aside from the Light Elves, more than half of the Elves did not recognize Angstrom.

Angstrom said, "My name is Angstrom. Tell this name to Olivia and she will know."

The Young Winged Elf was slightly dissatisfied when she saw Angstrom calling out to the name of Queen of Light, but she did not show it.

She said, "Please wait a moment."

The Young Winged Elf flew down.

At this moment, in the City of Light, the Queen of Light, Olivia, was giving blessings to some new Elves on the flower square under the Tree of Life.

The population of Elves was sparse, and there were not many new Elves each year.

The number of Elves added depended on whether the Tree of Life was strong or not.

The power of the Tree of Life often depended on the size of the forest.

A small forest could not grow a large Tree of Life.

This did not mean that the Tree of Life had absorbed the nutrients from those trees.

On the contrary, the Tree of Life and the forest were mutually reinforcing. The larger the forest, the higher the limit the Tree of Life could reach.

The larger the Tree of Life was, the more it could feed the entire forest and make it more prosperous.

The winged Elf landed outside the Flower Square and walked in.

"The Queen is giving blessings to the new Elves. Please wait a moment."

On the Flower Square, two elf guards spoke to the winged Elf.

"It's fine. If you have anything to report, just say it."

Olivia's calm voice sounded.

The Young Winged Elf said, "Queen, there's an elf named Angst asking for you."

Olivia's body froze!

Angstrom!

This word was her heart disease for the past thousand years. Olivia had been injured by a Dark Creature that had just ascended to the Sanctuary using the dark rules. Her injuries had not healed for the past thousand years, and it had much to do with her heart disease and recently, because she was worried about Angstrom, after obtaining Lomina's promise of help, she had searched for Angstrom in the Dark Forest for several months, but had not found Angstrom!

Unexpectedly, when she returned to the Rocky Forest and blessed the new Elves, Angstrom appeared.

"Angstrom"

Olivia repeated the words and then asked the Winged Elf:

"Rose, are you listening correctly?"

Yes, Olivia could not believe it, so she had to confirm it.

The greater the hope, the greater the disappointment.

The Young Winged Elf said, "Yes, Queen, I didn't hear wrong."

Olivia took a deep breath and flew into the sky.

When she flew thousands of meters, she saw a beautiful shadow standing in the air.

When she saw that familiar and unfamiliar face, Olivia was instantly stunned!

That face belonged to Angstrom!

Olivia could not believe her eyes.

Angstrom had actually appeared!

She actually came back to find her!

After all, over the past thousand years, Olivia had contacted Angstrom countless times, but Angstrom had never given any response.

Therefore, when these two sisters were reunited a thousand years later, Olivia's first reaction was not joy, but shock!

"Heavens, Angstrom, it's really you!"

Rebecca's voice rang out.

Elven Elder Rebecca also came!

Rebecca could not believe her eyes.

After that, Rebecca noticed something that Olivia did not notice.

Angstrom, look up at the aura on your body....."Heavens, you've returned to light?"

Rebecca cried out in surprise, her voice filled with joy!

When she heard what Rebecca said, Olivia realized the same thing.

It was normal for her not to notice before. She was stunned when she saw Angstrom, not noticing anything else.

“Angstrom, you don’t have the slightest bit of darkness on you. That’s great, you’ve really returned to light!”

Olivia also had a look of joy on her face.

Her eyes were already dripping with tears.

Rebecca’s eyes were red as well.

Following that, more Elven elders flew up. These Elven Elders were people that Angstrom had known before. When they saw Angstrom, they were all extremely excited.

Many Elven Elders began to wipe their tears.

The Elves were not sentimental; they were not weak either.

The tears they shed were not only because of their emotions but also because of their happiness!

Those were the tears of joy.

“Angstrom, you are welcome home!”

Olivia tried her best to suppress her tears and said to Angstrom.

Olivia and Angstrom were standing outside the palace at the edge of the Flower Square, on the painting that was also full of flowers, looking at the waterfall below and chatting quietly.

They were talking, but Angstrom’s words were very, very few. It had always been Olivia.

This was also the way this pair of sisters interacted a thousand years ago,

Angstrom was the type of person who decided on one thing and did it.

She rarely explained the reason to others, whether the opponent was an enemy and was still his family and friends.

Olivia’s personality was actually friendlier, and she was also gentler.

Of course, that only belonged to her people.

“Angstrom, after you left, I’ve been looking for you for a long time. I shouldn’t have refused to believe you so much. Today is our reunion. I shouldn’t have said this, but I still have to face you and say, “I’m sorry!”

Olivia sincerely apologized to Angstrom!

“Angstrom, I know, we still owe you a thank you!”

Olivia continued.

Olivia was not stupid. With her intelligence, she naturally knew that the Elves who cultivated the Dark Forest did not encounter any powerful dark creatures after that. It must be because Angstrom had blocked them. Angstrom had used her thousand years of darkness to exchange for a thousand years of peace in the entire Rocky Forest and this time, Angstrom’s return was naturally not for the

sake of staying in the Rocky Forest for a long time. Her most important goal was to help Olivia heal.

As for Olivia's apology and thanks, Angstrom did not have a big reaction.

Her face was as calm as ever.

No one knew what she was thinking.

More than an hour later, in Olivia's palace, Olivia was sitting on Nanzi, and Angstrom was checking her wound.

Upon checking this, Angstrom discovered that Olivia's injuries were even more severe than she had imagined.

After a thousand years, it was only half cured.

Being injured by Rule Force was just that serious!

Once a God was seriously injured in the battles between many gods, he would sleep for hundreds of thousands of years to recover injuries.

Olivia's recovery power could not compare to the gods.

The Goddess of Light had also released the power.

However, Olivia's injuries were deep in her bone marrow, and her heart condition was hard to get rid of. Unless the Goddess of Light paid a huge price to lower something like the incarnation of a God, it would be difficult to cure Olivia.

However, Olivia would rather recuperate slowly than the Goddess of Light expend too much energy.

"Don't move, I'll help you."

Angst was too familiar with the Dark Rules. Olivia's injury was not difficult for her, but it would take some time.

"Angstrom, are you able to return to the light with the help of the Lord of Flame?"

Olivia sat on the chair without moving and asked.

Angstrom nodded gently.

"I guess so. Angstrom, the Lord of the Flame is a powerful and benevolent God. The Goddess of Light also wants you to return to the light, but the Goddess of Light will not force your faith."

Olivia said.

Angstrom said indifferently, "I've become the Holy Maiden of the Lord of Flame."

Olivia was shocked, but after this, she said nothing.

She respected Angstrom's choice.

Moreover, she was not qualified to say anything.

Angstrom fell silent again.

Meanwhile, Olivia was still chatting with Angstrom.

After not seeing her for a thousand years, Olivia seemed to have spoken a lot.

.....

On this day, a visitor arrived in Vera's Divine kingdom.

That visitor was her good friend, Goddess Mavis!
