

Flames 431

Chapter 431: Returned full of rewards! The harvest was a bit shocking!

Mavis, come in. Why do you suddenly think of my Divine Kingdom?

In Vera's kingdom, Vera welcomed the Goddess Mavis.

Mavis was the Goddess of the Feng Qing among the Elven goddesses and just like Vera, she was a Goddess with a ninth-ranked Godhead and a ninth-ranked body.

Among the gods of the second rank, she was considered the more powerful goddess.

Wind Elven Goddess dominated her tribe and spent a lot of time finding other Elven tribes from the small forests of the Continent of Gods.

However, the Wind Elven tribe that was involved in the cultivation of Flame Forest believed in another Elven Goddess. That was why the Goddess Mavis did not know about the Lord of Flame but now, she knew.

Goddess Mavis said, What's wrong Vera? You will not welcome me?

Among the Elven Goddesses, she had the best relationship with Vera. The two goddesses were also like a pair of close friends. When there were no other gods on the scene, they often teased each other and their relationship was very harmonious.

Vera took out a plate of fruit and said, Of course I welcome you. Look, I've even prepared your favorite Jade Lotus Fruit.

You know me best. Mavis did not hold back and picked up a fruit to taste.

The taste is much better. Have you improved the variety again? Mavis praised.

Vera said, No, I changed the soil. I changed the five-colored soil into a seven-colored soil. The food grown from the seven-colored soil is different.

Wow, Seven-Colored soil, Vera, you're a rich woman. Mavis exaggerated a little.

She could only hear it when she was alone with Vera.

Normally, Mavis was a reserved Goddess. She would not casually speak to others in such a tone.

The two goddesses started chatting in the upper echelons of Vera.

The lives of Gods were long. Occasionally, they would visit their good friends and chat with them. It was a very pleasant thing to do, especially for the Elven Goddesses.

Elven Goddesses rarely took part in the conflicts between the gods of the Heavenly Realm. Under the threat of the Goddess of Life, even though the Elven Goddesses Domain did not have a Divine system, no other gods dared to attack.

After all, it was not a fun thing to anger a Divine Master.

Although she was her best friend, Vera did not tell Mavis about her change.

Vera was now a third-ranked Goddess.

Her Godhead had already stabilized, but her body had not reached the eleventh rank yet, but soon it would!

Vera hid her aura so that Mavis could not feel the changes in her godhead and body.

In Veras opinion, her promotion was entirely because of her Divine Lord, the Lord of Flame.

If she exposed her strength, it was likely that she would reveal some secrets of the Lord of Flame.

Unless the Lord of Flame agreed, she didnt dare to tell that to anyone.

Mavis sensed nothing.

She knew Veras strength long ago and she did not expect Vera to change so much in just a few months.

Therefore, she did not specifically investigate anything.

That was too impolite.

After chatting with Vera for a few hours, Mavis asked casually, Vera, isnt the Lord of Flame living in your kingdom? Why am I not seeing him?

My Lord has gone into the sun to collect Divine substances. Whats wrong, Mavis? Are you looking for him?

Its fine. I was just curious to ask, isnt it going to take many years for the Lord of Flame to go?

Vera shook her head. Im not sure either.

Every time he entered the sun to collect Divine matter, he came back at least after ten years.

After all, the price of a high-ranked Holy Stone was not cheap.

If he didnt stay a little longer, it would be too much of a loss.

Of course, if he had a ruthless character, he could fly by himself without using the teleportation array. However, even with the speed of a God, it would take him many years to fly once. It would be better to waste time than spending a high-ranked Divine stone.

As soon as Vera finished speaking, she seemed to have heard something, and a look of joy appeared on her face.

My God is coming back.

In the Sun of the Heavenly Realm, Lin Yans flame turned into a huge net. From a diameter of tens of thousands of kilometers, it turned into a small flame.

Lin Yans body changed again, and he transformed into a Divine form. Then, Lin Yans power vibrated and flew out of the Sun. Because of the existence of the space array, it would not take long for him to make a trip to the Heavenly Sun.

In Lin Yans opinion, the cost of a high-ranked Divine Stone was not a problem.

Right now, the amount of power of faith he earned every day was increasing. After a while, he could earn over 50 high-ranked Divine stones a day. Lin Yan had already gained enough from this trip.

He had spent more than a month in the Sun of the Heavenly Realm. Now, Lin Yan already had over a thousand grams of Divine substances in his hands.

Lin Yan, let Vera sell some Divine substances for what she needed to upgrade her Divine body.

Divine substances were still precious.

Although the gods could collect it themselves, they did not mention the teleportation costs of the space array. They might not collect the Divine substance they needed.

There were many types of Divine substances, and 70% of the Heavenly Sun was blazing gold, while 30% was other materials.

It was precisely because of this that the price of Flame Metal was relatively low.

It wasn't that the Elven Gold wasn't good, but that every God had a lot in their hands. Things were rare, and this principle also applied to Divine substances.

To Lin Yan, the Raging Flames Metal was the most valuable Divine substance.

He had more than a thousand grams of Flaming Gold and four hundred grams of other Divine substances in his hands.

Of the four hundred plus items, many of them were rare. Some of them weren't of much help to Lin Yan and Vera. It was better to sell them in exchange for what they needed.

His Divine body had already reached the twelfth rank, but he did not have enough resources to reach the thirteenth rank.

Vera's Divine body had already reached LVL 10, but she was still close to reaching LVL 11.

This was the reason Lin Yan returned now.

He would trade some things that he didn't need for the resources he needed before going to the Heavenly Realm. This was Lin Yan's plan.

Lin Yan quickly flew to the spatial formation. This time, he would no longer hand over the Divine stones.

He passed through the spatial formation and arrived in the sky above the Heavenly Realm.

Lin Yan quickly flew down.

Below, one could still see the burning Divine Kingdom.

That was the Divine Kingdom of Star God Holton.

It was not so easy for the Divine Kingdom to burn up completely.

Lin Yan had already plundered all the useful items inside and had no intention of destroying the Divine Kingdom.

Lin Yan had ignited the flame. Even if Lin Yan did not continue to ignite it, he would still gain some benefits from the subsequent combustion.

As for the Holy Spirits inside, many of them had died during the battle.

There were still some who were not dead. Lin Yan was not interested in paying attention to them.

The Holy Spirits were all very weak. If they were lucky enough to find their soul mark in the Divine Kingdom, they could escape the Divine Kingdom and become the free spirit of the Heavenly Realm.

It was very difficult for the power of the free Holy Spirit to increase, but as long as he did not seek death, he could still live for a long time.

Of course, under normal circumstances, no other God will accept them, unless the soul of one of them was outstanding.

In Veras Divine Kingdom, a tunnel opened again.

Lin Yan flew in.

Divine Master, welcome back. Vera said happily.

During this period, without Lin Yan in the Divine Kingdom, Vera always felt as if something was missing.

She was already used to having Lin Yan by her side. Even if Lin Yan was the one who stabilized her Divine body, if she could only watch him from afar in order not to disturb him, some people, as long as they existed there, would be satisfied.

Lin Yan nodded and tore open a space, pouring out a large amount of Divine substance.

Vera, Ive collected this from the sun of the Heavenly Realm. See if theres anything you need. Pick out what you need, and then sell the other divine substances for the resources to rank up your Divine body.

Lin Yan said.

So many!

Vera was shocked when she saw the Divine substances on the ground.

There were simply too many Divine substances.

It was at least several hundred germs.

Vera had never seen so many Divine substances.

The heavens were pitiful. If she wanted to collect so many Divine substances, it would take at least a thousand years.

She didnt want to create a suit of armor filled with the Divine matter as Lin Yan did.

There was only a portion of the Divine substance in her weapon.

Certain Divine substances were important to gods.

Just as Lin Yan was about to take out a high-ranked Divine stone for Vera, he suddenly sensed something and frowned.

Yes, Lin Yan saw Mavis.

It wasnt his fault that he hadnt discovered it before. Lin Yan didnt expect that there would be another Goddess in Veras Divine Kingdom.

At this moment, Mavis's face was filled with shock as she stood there.

She had never thought that the Lord of Flame would collect so many Divine substances!

How did the Lord of Flames do it?

It would have been better if he had collected it for a long time.

However, according to Vera, the Lord of Flame had not been in the sun for long.

It had only been over a month.

A month was too short for the Gods.

There was very little that could be done.

However, in the past month of the Lord of Flame, his harvest had been rather astonishing.

Could it be that he collected it before, and now he's giving it to Vera?

Mavis couldn't help but think.

It seemed like this thought would make it easier for her to accept!

Chapter 432: Divine Body Dual Upgrade! Vera's bold idea!

Greetings, Lord of Flames.

Mavis's reaction was faster when she saw Lin Yan's gaze shift to her, Mavis revealed a charming smile.

This was not because she was trying to seduce Lin Yan. Her smile was like a blooming flower, and it was naturally charming.

In fact, Vera was also equally charming when she laughed.

Lin Yan nodded in response.

I'll go check on your Seven-Colored Earth. Mavis continued. She was not stupid. Apparently, she realized that Lin Yan and Vera had something to say, so she left and gave them space.

Alright, Vera said.

If you have a color that I don't have, I'll exchange some with you to see if you can make some earth. Mavis said.

I'll see. If there is, I'll give you some. Vera said.

Yeah!

Mavis left and went to the lower rank of the Divine kingdom.

They planted many rare plants on the lower floors of the Divine Kingdom, and the Elves usually managed them. The Elves were very careful.

They were all loyal believers of Vera, and there was no chance of betraying Vera. Any precious fruit would not tempt them. It was useless for them to be tempted because they could not use it.

That was the reason Vera trusted the Elves.

Seeing Mavis leaving on her own, Lin Yan took out many high-rank Divine stones and handed them to Vera.

Lin Yan asked, Your Divine body has reached the eleventh rank, isnt it?

Vera nodded and said, Yes Lord, theres a human god there, but he doesnt want to sell it. So, he has to trade it for Abyssal Sand. But I just saw it in the Divine substance that you gave me. Ill let my Elf trade it.

She handed a ball of light to Lin Yan.

Vera said, Divine Master, there are resources you need.

These were the resources that Vera collected for Lin Yan to upgrade to the thirteenth rank.

These resources cost Lin Yan a lot of high-ranked Holy stones.

As a result, most of the power of belief that Lin Yan had accumulated was spent, and there was not much left.

Fortunately, Lin Yan made a large sum of energy stones every day, and the Divine substances he had collected were also quite a fortune. He could exchange them for a lot of resources.

However, the thirteenth ranked Flame body still needed to be upgraded in the Sun of the Heavenly Realm.

Every time the Lord of Flames body leveled up, it required a lot of solar energy.

However, Lin Yan was prepared to return to the sun after returning to Vera.

Although he had over a thousand pieces of Flaming Gold, he could still have forged a pair of Flaming Gold Armor, but this kind of armor was too thin.

At this time, Lin Yan stayed in Veras kingdom for a few days.

Lin Yan once again created higher Divine energy for Vera.

In this way, Vera could raise her Godhead to an eleventh rank, after she had ranked up and stabilized her twelfth-ranked Divine body, like other gods, it would take a long time for their Godheads to raise one level but in Lin Yans place, it was like an assembly line. Of course, it still costs a lot.

It was impossible to not pay any price.

After three days, Lin Yan left Veras kingdom and entered the sun again.

He continued to dive with his Divine body, madly absorbing the energy of the Sun.

Once the solar energy was almost absorbed, Lin Yan could swallow the resources collected by Vera and raise the Divine body to the thirteenth rank.

Vera sent many Elves to sell the Divine substances and purchase the resources needed.

Three days passed and in the Divine Kingdom, Mavis still did not leave.

She was helping Vera take care of some of her plants.

In the Divine Kingdom of the Elven Goddess, these plants were very useful, therefore, every once in a while the goddesses would take care of the plants.

If they made any new progress, they would also further improve the plants, allowing them to bear fruits for a shorter period and absorb the energy of the Heavenly Realm more efficiently. Often, it required many days to take care of it.

That's why Mavis had lived these three days in the Divine Kingdom.

Mavis, thank you, but I'm going to close my door. You can play in my Divine Kingdom. Vera suggested.

Sometimes, a visit between goddesses lasted for several years, or even over ten years.

This was because they all needed a lot of time to improve their strength. They visited their friends only when they were free.

Vera, you don't have to worry about me. I've learned a new method recently. I'll help you take care of all the plants. Mavis said.

Then I'll have to trouble you, Mavis. Vera said.

Mavis said, It's fine.

The two Elven goddesses ended their conversation. With the help of some Elves, Mavis continued to help Vera take care of the plants.

Vera improved her Divine body after Gracia brought back what she needed.

The improvement of the Divine body was not slow, but Vera was not fast like Lin Yan.

It took her several days to reach the eleventh rank.

After this upgrade, Vera had an eleventh-ranked Godhead and an eleventh-ranked Divine body.

Now, Vera could say that she was a third-ranked Goddess.

This is great!

Vera was overjoyed. This joy was not only because her strength had improved, but because she could help Lin Yan.

I can finally help the Lord. Vera thought.

Vera quickly told Lin Yan the good news.

Then she received Lin Yan's response.

Your body has also risen to the thirteenth rank? Amazing!

This was a standard Double Happiness.

I have to collect the resources required to level up the fourteenth-ranked Divine Body for the Divine Master. Vera thought.

However, a fourteenth-ranked Divine body requires a lot of resources, and there are many types of resources. I estimate it will take a long time to collect them. Vera thought again.

The higher the Divine body, the greater the cost, and the more precious the things needed. A high-ranked Divine body and some low-ranked treasures were completely useless.

Vera stood there and figured out what resources she needed.

She kept waving her hands and memorizing everything she needed, so she could give the recorded list to the Elves and let them search the Heavenly Realm.

Vera soon entered a much-focused state.

When she was thinking about things related to Lin Yan, she was the most likely to fall into this state of concentration.

Yes, I definitely want the Frost Jade Dew and the Moon Crystal

Vera calculated carefully.

Ah!

At this moment, she heard a surprised sound.

Vera turned her head and saw Mavis standing not far away with a small flower basket in her hand. She covered her mouth and looked at Vera in disbelief.

In the small flower basket in her hand, there was an eight-colored soil.

Judging from her appearance, she seemed to have made up the affected earth and was about to bring it over for Vera to look at .

Whats wrong, Mavis? Vera asked.

Immediately, she understood why Mavis had such a reaction.

Just now, she was so focused that she forgot to hide the aura of her Divine body.

Mavis had probably felt the change in her Divine body.

However, it was hard to say if Mavis could guess that she had advanced to the third rank.

Oh my God, Vera, how do I feel your Divine body has become so terrible?

This expression was quite interesting to a beautiful Elven goddess.

Vera nodded and said, Yes, Mavis, my Divine body has upgraded.

Vera did not hide it.

Mavis was a ninth-ranked God at that moment, as she was before. She knew all about the ninth-ranked God.

She already felt the change in Veras body, and Vera could not hide it.

The condition for a Divine body upgrade is a Godhead upgrade. So Vera, has your Godhead already upgraded? Mavis said.

Vera nodded, not rejecting it, and said, Yes, Mavis.

Oh my God, Vera, youre so good. Congratulations, Vera, Im so happy for you.

Mavis had a look of delight on her face.

She was thrilled for Vera.

The Elves were gentle in nature, and so were the Elven Goddesses of the Elves.

If it was a human God, the Human God would certainly not have such a mentality when a God he knew upgraded, but for the Goddess of the genie, it is relatively normal

Mavis was a good friend of Veras.

Thank you, Mavis.

You must have helped the Lord of Flame a lot with this upgrade, right? Vera, so, are you close to level three?

Mavis asked two questions in a row.

Vera hesitated.

She didnt want to cheat her friends, but she was afraid to reveal Gods secret.

Looking at Mavis, Vera suddenly had a bold idea.

Gods power loss was so serious; the old God must no longer exist.

The Lord must have wanted to rebuild the line of gods, but those who were in the line of gods would probably not support the Lord, even if they were alive.

Mavis strength is not weak, let Mavis join the Divine Lords Divine system, it must be a great help to God, it will also help Mavis.

Vera thought.

I just dont know if Mavis will agree.

Vera thought again.

Chapter 433: Vera's combo! The heart couldn't take it, Mavis!

: Veras combo! The heart couldnt take it, Mavis!

Apart from that, there was another big problem, that was the disagreement between God and the Lord.

Joining a Divine system was a two-way choice, but there were priorities.

Of course, a God could choose a different pantheon but after this God chose the Divine system, whether or not the other party accepted this God was another matter.

Some of the gods only looked at strength. Some of the gods also looked at Gods philosophy, style of doing things, and other soft indicators such as mind .

Generally speaking, the stronger the Divine system, the higher the requirements for the gods to join.

The more powerful a God, the more powerful a Divine Master would be.

If the Divine Master was not strong, if the Divine Family wanted to be strong, it would be a fools dream.

After all, a God was at the top of the Pyramid. The height that a God could reach meant the final height that the Pyramid could reach!

There were exceptions, but very few.

In addition, if the Divine Lord was not strong, someone would easily overtake him.

In the Heavenly Realm, there was once a God in the pantheon that surpassed the Divine Master. Then, he launched the Gods laughter Battle to defeat the Divine Master and even kill him, stealing the Divine system.

Therefore, the selection of gods by different Divine systems was actually very particular.

Some peak third ranked gods, who knew that it was difficult for them to rank up, would rarely be willing to join a God who had grown too quickly and could be called a genius because that would threaten ones position.

Of course, to reach the peak of the third rank, one had to have some skills and confidence. Many gods were still willing to accept some rapidly growing gods.

In Veras eyes, Lin Yan must have been a terrifying existence.

It was probably stronger than the average fourth ranked God!

Otherwise, how could the Lord have the ability to deploy the Divine energy that Vera needed?

Mavis isnt weak, and shes also very good. If Mavis will join the Divine system, itll still be very useful. The Lord will probably accept her, right?

Vera thought.

She wanted to ask Lin Yan, but Vera felt that it was not good to ask the Lord before the matter was confirmed.

What if she asked and Mavis was unwilling?

Its better to settle down Mavis first.

Vera thought.

Vera was not a scheming Goddess, and she did not have a city. However, she was not that stupid. She did not want to join the pantheon.

Vera, why are you in a daze?

At this moment, Mavis voice sounded.

Vera was surprised when she saw Marvis ask the question.

Vera had been thinking for a long time.

Seeing Mavis ask herself, Vera said: I just remembered something, Mavis, what did you ask me just now?

The Goddess Mavis said: Vera, are you very close to the third rank now?

As Vera did not reveal any aura of her Godhead, according to Mavis, Vera was now the second-ranked, a Goddess with a tenth-ranked Godhead and body.

She was very close to Vera. The two goddesses had reached the ninth ranked Godhead at almost the same time, and they had created a ninth-ranked Divine body at the same time but Mavis was still a

long way from being a tenth ranked Goddess, but Vera had ranked up ahead of time. She had a tenth-ranked Divine body. Naturally, her Godhead was also tenth-ranked.

Mavis was naturally surprised.

Hmm, this was Mavis normal thought but immediately, Vera answered, and Mavis suspected that she had misheard.

Vera said, Mavis, I already have an eleventh ranked Godhead.

Eleventh rank Godhead? Vera, youre not kidding.

As a Goddess, Mavis naturally would not mishear.

She often teased Vera like a good friend, so she thought Vera must be naughty.

When the two goddesses were together, Mavis would occasionally be mischievous.

Vera said: Mavis, I didnt lie to you; I have indeed an eleventh ranked Godhead now.

Veras aura changed.

She released the aura of her Godhead.

As soon as Mavis felt the aura and momentum on Vera, that pretty little face was instantly filled with deep consternation.

Vera you how is that possible, your Godhead

Mavis, a second-ranked goddess, stammered.

She blinked her eyes and confirmed more than once that she felt that something was wrong.

She confirmed again and again and got confirmation again and again.

There was no sense of error!

Veras Godhead indeed had the charm and aura of a third-ranked Godhead.

The aura could be forged, but the Divine implication cannot be faked.

The so-called Divine aura was the unique smell emitted by Divine energy and rules after they reached a certain rank, allowing the gods to sense it.

The third rank!

Mavis muttered.

Her and Veras progress was almost the same.

The two of them had agreed to upgrade their tenth-ranked Godheads and bodies together but Vera had advanced.

It didnt matter if Vera was promoted earlier. This meant that Vera had become diligent, or she was lucky enough to understand the key to rank up to the tenth rank.

If that was the case, Mavis would still be surprised, but she would also be happy for Vera.

She directly raised her Godhead to eleventh rank.

This made Mavis not surprised, but shocked!

A tenth-ranked Godhead and an eleventh-ranked Godhead seemed to be only one rank away, however, this meant two ranks, one was the second rank and one was the third rank.

The meaning was completely different even strength was also different.

In fact, even if there was only a difference of one rank between the gods, the change in strength would still be considerable.

Each rank was only five levels and the difference in strength between ranks was even greater!

Every breakthrough would become even more difficult.

Mavis was confident that she could break through to the peak of the second rank within a few decades.

Chapter 434: Vera's combo! The heart couldn't take it, Mavis!

: Veras combo! The heart couldnt take it, Mavis!

If she worked hard, she could break through to the peak of the second rank within ten years because she and Vera had a ninth-ranked Godhead and body for a long time, and the accumulation was very rich.

However, she was not confident that the third rank would give her a thousand years but now, Vera had become a third-ranked God!

Even if it was only an eleventh-ranked Godhead, it was still a third-ranked God.

This caused Mavis to change from her initial shock to her current shock!

To Mavis, it was too shocking!

In fact, not to mention Mavis, Veras change would shock even the other Elven goddesses.

No matter how anyone looked at it, it didnt seem real!

Vera, is this true? Youre now the third ranked Goddess!

Mavis was still unsure.

Vera said, Yes Mavis, Im already a third-ranked Goddess.

Mavis was still staring at Vera.

Then she walked around Vera.

She seemed to want to see through Vera.

This is unbelievable.

It wasnt until more than an hour later that Mavis finally accepted the truth.

After digesting the shock in her heart, Mavis began to express her joy for Vera.

Congratulations Vera.

Mavis said.

Vera said, Thank you, Mavis.

Mavis handed the warden over to Vera and said, I've helped you make the Eight-Colored Divine Earth. This basket of Eight-Colored Divine Earth will be given to you as a congratulatory gift. By the way, Vera, now that you've reached the third rank, will you hold a celebration banquet? In the past few hundred years, no goddess has held a banquet.

She could not help but look forward to it.

Only the goddesses of the Elves would attend the banquet. At most, each Goddess would bring a few more Elves. The goddesses would gather in the Divine Kingdom, enjoy food, and chat. A gathering would usually last for many days.

However, the goddesses would not hold a banquet for no reason.

Mavis and Vera, for example, did not hold a banquet when their Godhood reached the ninth rank.

Usually, a banquet would only be held after breaking through to a higher rank.

A banquet? I haven't thought about it yet.

Vera said.

To be precise, Vera had not thought about the banquet yet.

Vera had been too busy lately.

Her Divine Body had just reached the eleventh rank, and she still needed to stabilize it. She still needed to help Lin Yan collect the things he needed to rank up to the fourteenth rank.

In addition, Lin Yan had left her with a higher rank of Divine energy when he left. She had to spend some time comprehending it and try to make her Godhead twelfth rank.

As for having a banquet to celebrate, she never thought about it.

That's true. There's no rush to celebrate. Vera, the Godhead that you've just ranked up to the eleventh rank will definitely need some time to stabilize. Also, your Godhead will need to be upgraded as soon as possible before you can unleash a rank of combat strength.

Mavis thought that Vera was a tenth-ranked Goddess.

Even though she had just sensed the changes in Vera's Divine body.

A God with low strength could not be able to sense that her strength was higher than her own.

She only knew that the opponent was stronger than her but she couldn't tell how strong the opponent was.

Unless it was something that crossed ranks, she could sense the opponent's rank.

However, it was hard to sense where the opponent was at that rank.

Generally speaking, only those with high strength could sense those with low strength.

Mavis was still thinking about Vera. After saying that, she took out another ball of light.

Vera, this is some Divine substance that I accidentally collected. One of them has a very large Divine radiation, but it is beneficial radiation. It would be very helpful to create a Divine body under such radiation. You can use it first and return it to me after you have successfully created an eleventh-ranked Divine body.

Also, if you're lacking something, I have something, just tell me. I'll do my best to support you!

Mavis said.

It could be seen that she truly supported Vera!

Vera said, Mavis, my Divine body has already reached the eleventh rank.

Mavis, who had just recovered from her shock, widened her eyes again.

Her good looks had such advantages. No matter what, she would look good.

Mavis' expression was both pleasant and interesting.

Vera, are you kidding me?

Mavis said.

Mavis, you can sense my Divine body. Vera said.

Mavis hesitated for a moment, but she still reached out and placed her hand on Vera's shoulder.

A Divine body was not like Godhead.

After the Godhead's aura was revealed, she could sense it more clearly.

However, the Divine Body's senses were slightly blurry.

The second-ranked Divine Body and the third-ranked Divine Body were not as distinct as Godheads in terms of pure senses. They could be sensed at a glance!

That was why Mavis only felt that Vera's Divine body had become stronger. She thought that Vera had a tenth-ranked Divine body.

She did not sense that Vera had an eleventh-ranked Divine Body.

However, when Mavis placed her hand on Vera's shoulder, her senses became clearer.

Vera's Divine body had surpassed her by more than twice!

It happened many times.

A tenth-ranked Divine Body could not reach such strength.

Only an eleventh-ranked Divine Body could achieve such strength!

Heavens, Vera, you have an eleventh-ranked Divine Body!

Mavis retracted her hand and covered her mouth.

This time, the shock in her heart was so strong that it could not be dissolved.

An eleventh-ranked Godhead! An eleventh-ranked Divine body!

In other words, Vera was a third-ranked God!

Heavens!

Although it had been quite some time since Vera had ranked up last time, the fact that Vera had ranked up to the third rank was still beyond Mavis' imagination!

It had taken Marvis more than an hour to accept the fact that Vera had an eleventh-rank Godhead but now, Vera had another combo.

Even her Divine Body was eleventh-ranked!

Veras combo made this second-ranked goddess feel like her heart could not stand it!

Chapter 435: Two goddesses working together! He smelled the scent of a love rival!

: Two goddesses working together! He smelled the scent of a love rival!

Mavis covered her little mouth with her hand. If she moved her hand away, Vera would realize that her mouth was wide open and could fit an egg.

No matter what Mavis expression was, it was very good.

However, even if she was extremely shocked, she would not let herself do that.

The Elves were elegant and noble. They had trained many of the ladies in the human kingdoms since they were young, but many of the rituals were actually binding.

Therefore, the Elves rarely acted rudely.

The Elven Goddess could not do it but this time, Mavis was still rude.

That was because her basket, which contained Eight-Colored Divine Earth, fell to the ground.

To a goddess, such a reaction was already rude.

It was easy to imagine how shocked Mavis was.

Vera picked up the basket that Mavis dropped on the ground. The basket was filled with Eight-Colored Divine Earth.

There were quite a few of them.

Gods things were naturally not as simple as they looked.

The space in the basket was huge.

Vera had prepared less than a lot of Seven-Colored Divine Earth.

Mavis had another color that Vera did not have.

So she helped Vera rearrange it and made it Eight-Colored Divine Soil.

The energy in the Eight-Colored Divine Soil was even denser, and there were more nutrients inside.

The same plants were planted with the Eight-Colored Divine Soil, which was better than the Seven-Colored Divine Earth.

This was also the ultimate skill of the Goddesses of the Elves.

They could find the materials they needed in the Heavenly Realm and could create all kinds of soil.

In the Divine Kingdom of the human goddesses, it was not bad to have Tri-Colored Divine Soil.

The reason why there were so many precious plants in the Elven Kingdom was related to the Divine Earth.

After all, the soil was the root of plant growth.

After Vera picked up the basket, Mavis was still in a daze.

Vera did not say anything. She placed the basket on a white stone and sat down to stabilize her Divine body.

This time, more than an hour later, Mavis came back to her senses. She came to Vera's side and said:

Vera, this is unbelievable. How did you do it?

Without waiting for Vera to answer, Mavis had already guessed the answer. I know. It must be the help of the Lord of Flame, right Vera?

That's true, Mavis. It was with the help of my master that I broke through to the third level so quickly. Vera nodded.

Vera, the Lord of Flame is too powerful. Even the Goddess of Light can't do it. Vera, I've been wondering if the Lord of Flame was powerful.

Vera looked at Mavis and asked, Mavis, why are you asking?

Mavis came over and said in a low voice, It's very simple. The Lord of Flame is such a powerful God. Why didn't he have any reputation in the Heavenly Realm before? And according to those gods, the kingdom of the Lord of Flame only appeared on the Continent of God two years ago. This means that the Lord of Flame was probably heavily injured and lost his kingdom, but the Lord of Flame is so powerful

At this point, she paused for a moment and then said her speculation.

So I think the Lord of Flame is probably a powerful God who was heavily injured a long time ago.

Ah! That's what you think too, Mavis?

Vera was surprised to hear what Mavis said.

Mavis said, According to the Lord of Flame's growth trajectory, it seems that this is the only way to make sense, but it doesn't rule out other possibilities. For example, the Lord of Flame is truly a peerless genius, and in such a short period, he has grown to this extent.

But Vera, there hasn't been such a genius in all the years of the Heavenly Realm.

She added another sentence.

Yes.

It was not Mavis's fault that she thought so.

Vera could not be blamed for thinking that way.

Ever since the birth of the Heavenly Realm, there had been several gods in the Heavenly Realm, among these gods, some were extremely talented.

For example, the Human Goddess Ellen had become a Sanctuary in only a hundred years.

This was quite terrifying.

It was just that Ellen's luck was not good. Without the guidance of a famous teacher, she became a Goddess too quickly.

If Ellen had been lucky enough to meet a famous teacher, she would have chosen to accumulate some experience and become a Goddess at the second or fourth level of the Sanctuary. With her talent, she would have broken through to the third level within a thousand years.

This was the genius of the gods.

However, if the Lord of Flame was not an Ancient God, but a new God, then the growth rate of the Lord of Flame might not be too shocking.

That was twice as fast as Ellen.

It was N times faster.

N were at least double digits!

In the Heavenly Realm, such a genius had never appeared before!

Many gods needed to accumulate Divine energy slowly, comprehend the rules, study high-level Divine energy, and obtain the resources needed by the Divine body.

After becoming a God, the best plan was to follow the order but if the Lord of Flame was a new God, then the Lord of Flame would break the record of the entire Heavenly Realm!

Even a descendant of a Divine Master would not have such speed.

Mavis, I think so too. The Lord must have a very powerful enemy

Vera began to speculate.

Chapter 436: Two goddesses working together! He smelled the scent of a love rival!

: Two goddesses working together! He smelled the scent of a love rival!

Mavis had already made her guess. From Veras point of view, Mavis had already guessed it.

Vera knew Mavis very well and knew that she would not reveal it.

Moreover, Vera did not tell Mavis about Lin Yans core secrets.

Therefore, the two goddesses began to work together in Veras kingdom.

They had to admire their brain power.

When the two goddesses were making up the brain together, it was more detailed than when Vera was making up the brain, and the content of the brain was getting more and more ridiculous.

I think the Lord of Flame might be a powerful ancient God.

Mavis thought to herself.

Hmm, maybe

The two goddesses gathered together for several hours.

At last, Mavis remembered something and could not help but ask, Vera, between you and the Lord of Flame, is it

After that, she could not continue.

However, the meaning was obvious.

What she wanted to ask was whether Vera had fallen in love with the Lord of Flame.

It was normal for her to have such thoughts.

After all, Lin Yan had been in Veras kingdom for months.

Among the Goddesses of the Elves, Vera was the first to let a male God into her kingdom.

Not to mention the fact that this male God had been stunned for so long.

The Goddess of the Elves was the same as the Elves.

Very few Elves were willing to talk to humans about love.

Of course, there was no such thing as absolute. The Continent of Gods was so large that there might be one, but the number was definitely very small.

At least there were no Elves among the Elven tribes that joined the Holy Flame Forest and the Rocky Forest.

Peoples hearts changed.

However, whether they were Elves or Goddesses in the Heavenly Realm, they were able to guard their hearts. They were not as powerful as some Human gods.

From what Mavis knew, no Elven Goddess in the Elven Divine Realm had ever been interested in Human gods.

To them, love was not a necessity.

Unless they really met the right person, there was no such thing as the Elves being blinded by love.

Now, Vera was the first.

That was why the Elf Divine Realm had not been calm recently.

Many Elven Goddesses who knew each other were discussing this matter.

However, Vera was willing, and the Lord of Flames had a good impression of the Elven Goddesses. Therefore, the Elven Goddesses were only discussing, and there was no such thing as bad talk.

In addition, what they discussed was more about the previous war.

The Elven Goddesses had a lot of guesses about the origins of the Lord of Flames.

Vera blushed when she heard Maviss words.

Mavis, I I do like him, but we dont have that kind of relationship yet.

Vera said.

She actually admitted her love for Lin Yan in front of Mavis.

It was like whispering among your best friends.

Mavis smiled. Vera, I can see that you like the Lord of the Flames. Although the Lord of Flames is powerful, he is willing to take the time to help you improve your strength. It shows that the Lord of Flame values you very much. The Lord of Flame must have paid a lot, right?

Vera nodded and said, Yes!

In Vera's view, Lin Yan must have paid a huge price to help her upgrade.

This also left Vera's heart completely tied to Lin Yan's body, unswervingly!

The Lord of Flame must like you too. Vera, come on!

Mavis encouraged.

Vera thought for a moment and felt that the time was right. Then she issued the invitation:

Mavis, if I invite you to join the line of God, will you?

At Vera's words, Mavis was surprised again.

Vera, are you inviting me to join the Lord of Flame?

Mavis asked in surprise.

Vera nodded and said, But Mavis, I don't know whether the Lord agrees or not. If you agree, I will go to the Lord and will ask him that if the Lord agrees, then we can be in the same department. If the Lord doesn't agree, we will still be good friends.

She did not deceive Mavis.

Vera said, Besides, Mavis, you also know that the Lord must have a powerful enemy. If we join the Lord's system, we may not be able to be as stable as we are now. His enemy may come and we need to fight side by side with the Lord. His enemy is our enemy. Mavis, are you ready?

Mavis looked a little strange.

She seemed to want to be reserved, but in the end, Mavis was not.

Vera, she said, I would like to join the God of the Lord of Flame. Please tell the Lord of Flame.

Hey!

Vera did not expect that Mavis would be so easy and agreed.

She looked back and saw a hint of anticipation on Mavis' face.

At this point, Vera thought of something.

Why did Mavis come to visit her?

And Mavis knew that the Lord of Flame was in the Divine Kingdom of Vera and came.

If Vera had known that there was a male God in Mavis' Kingdom, she would not have been an electric lamp.

Well, it's natural that this assumption doesn't hold. There's no male God in Mavis' Kingdom but Mavis still came and when Mavis saw the Lord of Flame, she seemed very happy!

She didn't come just to see me, did she?

Vera can't help thinking.

As a Goddess, Vera's instincts were still very keen in some aspects.

So in a short period, Vera smelled a trace of rivalry in Mavis' place!

Chapter 437: Mavis joined! Steady development time!

Of course, Vera did not intend to monopolize Lin Yan.

She and Lin Yan had yet to establish a formal relationship.

However, in Vera's eyes, she was satisfied as long as she could stay by Lin Yan's side.

If she would have been a step closer to Lin Yan, Vera blushed at the thought, but she did not dare to continue thinking.

However, occasionally when she slept, she would dream of scenes that made her blush for several days.

In those images, Lin Yan's face was unusually clear.

Heavens!

She was a goddess who had not even held a man's hand and had never even been within 100 meters of another man.

As a goddess, she could stop herself from watching dreams but Vera did not stop.

Although that kind of dream would make her blush.

However, that was her subconscious expectation!

Vera, you're in a daze again.

Mavis's voice sounded.

Mavis, let me talk to the Lord first. If the Lord agrees, we cannot sign the contract until the Lord returns. You can play in my kingdom for a while longer, Vera said.

Mavis said: Of course, Vera, I have nothing to do recently.

Vera then prayed to Lin Yan and told him about Mavis.

In the sun of the Heavenly Realm, Lin Yan's huge net of Flame swept over the sun.

He quickly collected the Divine substance.

The Divine substance in the Sun of the Heavenly Realm was not fixed in one place, but constantly flowing.

The principle of the Sun of the Heavenly Realm was very different from the sun before Lin Yan transmigrated.

It was filled with terrifying energy, much scarier than the sun before Lin Yan transmigrated.

Lin Yan discovered that some of the areas that he had swept past would soon be filled with Divine substances.

However, the density would be greatly reduced.

Therefore, Lin Yan did not turn back.

There was no need to go back.

The sun in the Heavenly Realm was too big. Lin Yan didnt even reach a hundred millionth of the Sun in the Heavenly Realm.

Therefore, Lin Yan only needed to go to the area where the Divine substance was concentrated.

His accumulation rapidly increased.

At that moment, Lin Yan heard Veras voice.

Among the gods of the Divine system, the mechanism of the Godhead was even higher than the Holy Maiden.

The reason was simple: Every Holy Maiden of Lin Yan would pray to Lin Yan every day and report the work of the day.

There might be important content, but there might not be important content.

However, the gods in the pantheon would not just pray to God. If they prayed, something big would happen.

Therefore, all the gods in the pantheon were naturally ranked first.

Of course, it also depended on the sequence.

Now, there was only one goddess in Lin Yans pantheon, and that was Vera. Vera was also the first among Lin Yans pantheon!

Goddess Mavis.

After listening to Veras prayer, Lin Yan pondered for a moment and then responded.

In Veras kingdom, Mavis looked at Vera nervously.

However, she did not say anything but waited patiently.

Vera was also patient.

About three minutes later, Vera turned to look at Mavis.

Mavis felt a little nervous when she saw Veras appearance. The next second Vera said happily: Great, Mavis, the Lord agreed.

Really?

Mavis was also extremely happy.

Vera said, The Lord will not come back for a while, and the contract can be signed after returning.

Mavis nodded.

A Divine contract had to be signed in person because God was more powerful. It would be difficult to succeed if they did not sign it in person.

Thus, Mavis stayed in Veras Divine Kingdom.

Vera continued to stabilize her eleventh-ranked Divine body.

Time slowly passed.

In the sun of the Heavenly Realm, Lin Yan was still collecting Divine substances.

Everything was as calm as ever in Veras Divine Kingdom.

In the Divine Domain of the Elves, the burning Divine Kingdom of Star God Holton was still burning.

Every day, some Holy Spirits came to watch.

This battle has spread to the nearby Divine Realm.

Many of the gods in the Divine Realm knew that a fierce man, the Lord of Flame, had come to the Heavenly Realm who killed four gods in one day!

He even killed a third-ranked God!

These four gods were all gods that had not joined the Divine system, so there was no such thing as fighting the younger ones and getting older.

There were no gods of the Heavenly Realm who wanted to avenge them.

In the Heavenly Realm, Lin Yan could develop steadily for a period.

On the Continent of God, the Flame Empire was also developing rapidly.

Not to mention the four provinces in the west, which was the starting point of the Flame Empire, the core region, and also the most prosperous region.

Under the encouragement of the population policy of the Flame Empire, a large number of newborns were born in the Western Four Provinces.

Including these newborns, the population of the four western provinces had already exceeded 90 million, and they were firmly moving towards 100 million.

The Flame Empire had too much food, so there was no need to worry about living.

In the Endless Desert, after the Demon Gods Heart was taken care of, there was no hidden danger in the entire desert.

The Fox Lady Qing Ling gathered a large number of people and went to the Endless Desert to plant a large amount of cotton in some places where the altitude was high and the light was strong.

In the Endless Desert, large areas of cotton appeared.

The cotton used to make cotton clothes and quilts was a good choice.

The other cash crops in the Endless Desert had also matured. They were welcomed by the four provinces in the west of the Flame Empire.

West Province in the western part of the Flame Empire was now quite rich. Even the commoners had quite a bit of savings.

They could also eat some special products from other regions of the Flame Empire from time to time.

In comparison, although the thirteen provinces in the northeast had a larger population and a larger area, they were far less wealthy than the four provinces in the west.

But as time passed, the thirteen provinces in the northeast became more prosperous than before.

There was no need to mention the commoners there. After living a good life that they had never dreamed of, their faith in the Lord of Flames had become unwavering.

The nobles had long forgotten all about the Royal Family and the gods.

These thirteen provinces were developing rapidly.

The land was being reclaimed in an orderly manner, and roads were being built everywhere.

The production line of the flying ship was also expanding.

Next to the City of Miracles, the forest where the Fox Clan lived had been razed.

A large number of new factories were built there.

There was even a magic vehicle track that led directly to that area.

Every day, there were a few magic carts carrying ores from far away.

Every day, a large number of cargo flying ships flew down from the sky, carrying all kinds of ores.

In the current Flame Empire, there were still a lot of minerals

Especially in the territory of the Purple Gold Empire, there was a large amount of iron ore, rare metal ore, and even large oil and natural gas fields.

However, in the world of magic, there were some oil changes.

The Fox Lady Qing Ling did not use the oil to develop the technology trees before Lin Yan transmigrated.

Oil was not only used for burning. There were many useful substances inside that could be extracted.

In the world of magic, oil was far less useful and using oil as an energy source was too polluting. Qing Ling would not choose.

In terms of energy, the Fox Lady Qing Ling had too many choices.

Therefore, the oil fields were not mined on a large scale, but only a small amount. Then Lottie from the Cat Clan studied a set of methods to extract some useful ingredients from the oil fields, creating some new items.

On a flying ship, based on the current production capacity of the City of Miracle, a full hundred flying ships could be produced in a month!

The Flame Empire had already opened up the purchase of domestic noble airships.

Of course, they could only buy small airships.

Medium and large-scale flying ships, as well as cargo flying ships, could be rented.

The maintenance of the flying ship was much more convenient than the plane before Lin Yan transmigrated and it was safer.

The current Flame Empire was looking like some big empire. Flying ships could be seen everywhere in the kingdom.

It was believed that it would not be long before it would surpass all the empires and become a kingdom on a flying ship .

Lin Yans Holy Maidens were also focused on improving their strength.

In the north, the Holy Flame Empire was also very calm.

Chen Xi and Lomina often gathered to discuss the secrets of Sanctuary.

More and more Elves joined them.

Such a discussion would allow them to deepen their understanding of this world.

Their strength was growing rapidly, and they were getting closer and closer to Sanctuary!

In the Rocky Elven Empire, Angst was still healing Olivia.

It was not difficult to dispel the dark rules.

What was difficult was to get rid of any hidden dangers.

It would have been better if Olivia had reached the Sanctuary herself but when Olivia was injured, it was only a legend.

Therefore, it would take some time to remove the hidden dangers.

The Queen has sent us a message. The Queen has returned to the Continent of God, and she will be reunited with us soon.

In the Dark Forest, beside the huge crack, Lin Yans Holy Maiden, Fallen Elf Angel said.

Really? Thats great. I havent seen the Queen for a long time.

Angels words made the surrounding Fallen Elves happy.

Sisters, practice hard. When the Queen returns, we will give her a surprise.

Angst continued.

Hmm!

The Fallen Elves nodded.

After they obtained the Heart Flame, their strength increased by leaps and bounds. During this period, the strength of each Fallen Elf had increased by a lot.

There were already three legendary Fallen Elves.

Angst was only one step away from Sanctuary.

At this step, Angst felt that she could break through at any time.

The reason she did not break through was that she wanted to be more stable.

She had been here for hundreds of years, so she was not in a hurry.

When the Queen returns, I will break through to Sanctuary.

Angst thought.

Chapter 439: Dark Elf came! Angie's confrontation!

When this Dark Elf thought of that number, he couldn't help but feel a little excited.

She began to search for her target.

These Fallen Elves seem to be much stronger.

The Dark Elves made a new discovery.

However, she could not discover the flames in the Fallen Elf's heart. She could not discover the things that Lin Yan had bestowed upon her.

It looks like Angst has been trapped for the past few months. They can't suppress the energy of darkness in their bodies anymore.

This Dark Elf's energy towards the Fallen Elves had skyrocketed, and it automatically made up for it.

Therefore, the ability to replenish one's brain was strong. Sometimes, it was not a good thing.

Soon, this Dark Elf found a target!

That target was the legendary Angie!

The Dark Elf made up her mind.

Obviously, she knew Angie.

Her entire body was hidden in the deep darkness, quietly sneaking towards Angie.

Her stealth ability was indeed not weak.

When she hid, even Angst needed some time to find her. In this crack, Angie's chances of finding her were extremely low.

In the crack, Angie stood on a protruding rock, looking at the bottom of the crack while feeling the dark power.

The deeper this crack went, the clearer it was to sense the dark rules.

However, Angie had not yet reached Sanctuary, so she would not dive too deep.

The lower they went, the weaker the suppression of the Laws of the Continent of God would be.

The Dark Creatures on the continent would be weaker. Once they met a dark creature at the Sanctuary level, Angie would become extremely dangerous.

Suddenly, a voice sounded.

It's you!

Angie also knew about this Dark Elf.

This Dark Elf wanted to seduce her more than once, but she never succeeded.

Thats right, its me. Hehe, Im here again.

The Dark Elf laughed.

Angstrom wasnt around, so she was much more courageous.

Are you going to repeat your old line that youve said hundreds of times without even changing your words?

Angie said calmly.

Hehe, little sister, whats so good about the Continent of God? You cant go back now. Instead of suffering here, why dont you sink into the darkness with me? Youll find that theres actually a lot of fun in the darkness. I can also let your strength increase, and you can obtain eternal life. Becoming a God is also an easy task. The Dark Elf said.

Angies eyes were searching in the darkness, trying to find the Dark Elf.

It was still very difficult for her to achieve this.

However, Angie was still trying. She continued to lure the Dark Elf to speak and said, Youre just a Sanctuary. How can you make me stronger? Why should I be with you?

Hehe, wouldnt you know if you tried?

The Dark Elf smiled.

Alright, lets try, Angie said.

Her frankness made the Dark Elves find it hard to believe.

So quick? Could there be fraud?

The Dark Elf could not help but think.

However, this Dark Elf never expected the existence of such a magical thing as the Heart of Flame.

So what if shes deceitful? As long as she dares to accept the dark energy, dark energy will only corrupt her soul sooner or later. My plan will succeed.

The Dark Elf thought.

Hehe, welcome the baptism of strength, little sister.

The Dark Elf let out an evil laugh. In the darkness, she raised her hands and performed a mysterious ritual.

Then, huge dark energy surged towards Angie.

This energy of darkness was very similar to the two balls of energy of darkness that the unlucky God named Simba gave out in the dark sun in order to seduce Angstrom.

However, the number was not that large.

There was nothing wrong with the energy of darkness, but Angie still checked it carefully.

Be careful, little sister. Dont worry. Youll be able to reach Sanctuary soon, hehe.

The voice of the Dark Elf came.

Angie was no longer polite and absorbed all the energy of darkness.

Her aura was increasing, and she was about to break through to Saint Realm.

Breakthrough, breakthrough. As long as you break through, your soul will definitely fall.

The Dark Elf whispered in a voice that only she could hear.

Angie stopped when she was only one piece of paper away from Sanctuary.

Whats wrong, sister?

The Dark Elf thought something was wrong and could not help but feel anxious.

Angie said, Such a good thing, its fine if I call more people, right?

Call more people?

The Dark Elf thought she heard wrong.

Angies reaction this time made the Dark Elf confused.

No matter what is strange, as long as you come into contact with more energy of darkness, you will definitely fall. Lets gamble.

The Dark Elf was also quite decisive and quickly made her decision.

Its mostly because they cant suppress their power. Their hearts have already been infected by the darkness and are beginning to distort.

The Dark Elf thought so again.

Hehe, of course, you can little sister, good things should be shared together, you shout more people to come does not matter

The Dark Elf giggled.

If a man had heard her voice, he would have lost his soul. However, when Angie heard her voice, it was extremely evil. Every word of this Dark Elf used the energy of darkness. If anyone believed her, it would be over.

Angie quickly flew out of the crack.

How many people would she call?

The Dark Elf could not help but think.

Soon, she knew how many people there were.

Angie called five to six hundred people.

These five to six hundred people were all relatively weak Fallen Elves.

Of course, they were just weak.

However, they were all fifth-ranked.

So many people?

The Dark Elf was startled by Angies shout.

With so many Fallen Elves, she had to pay a lot of dark energy.

They are all fifth-ranked Fallen Elves. What's her plan? However, the rank 5 Fallen Elves, once they let you absorb a wave of dark energy and increase your strength, even Angstrom would not be able to save them! Regardless of whether you have a plot or not, these hundreds of Fallen Elves, I'm determined!

The Dark Elf made a decision.

She never thought that there would be such a magical thing in this world!

Otherwise, she would never have thought of this.

That was true. Even the third-ranked Goddess of Light could not bring the Fallen Elves back to light.

Aside from the Fallen Elves, who would have known that Lin Yan had created a Heart Flame that could burn in heart and fight back against the magical flames of the light in his heart?

Chapter 440: You are a good person! An angry Dark Elf!

: You are a good person! An angry Dark Elf!

We have more than 500 Fallen Elves here. Can you increase our power?

Angie asked.

Hehe, you've done what you said. Be prepared to welcome the arrival of darkness!

The Dark Elf's hands swayed in the air.

It looked like she was dancing a strange and beautiful hand dance.

It was a rather mysterious ritual.

As her hands moved, a passage was opened above her head.

Following that, a large amount of dark energy surged out, and more than 500 Fallen Elves rushed out.

Absorb as much as you can.

Angie said.

The Fallen Elves had already received Angie's orders. All of a sudden, they began to absorb the dark energy.

Under their full absorption, the dark energy quickly increased their strength.

In the Abyss, Abyssal Creatures could directly increase their strength.

In the darkness, there were even more taboo methods that could quickly increase one's strength.

Of course, these forbidden methods could not compare to Lin Yan's blessing of mixing the two Divine energies.

The side effects of these forbidden methods were also quite obvious, which was that one had to fall into the darkness to achieve it.

And after you truly fell into the darkness, even your soul was corroded by the darkness, you were no longer you.

The shortcut was not that easy.

However, the blessing that Lin Yan activated with the combination of the two Divine energies would not have the side effects of these aspects while directly improving his realm.

Although the duration of this method was a little longer and the consumption was a little higher, it was best if there were no side effects!

The Fallen Elves all used their full strength to absorb the dark energy.

Their strength rapidly increased.

Very soon, a Fallen Elf had risen by the first rank and reached the sixth rank.

Then, the second Fallen Elf reached the sixth rank.

Then came the third and fourth.

Seeing this, the hidden Dark Elf smiled.

Raise it; raise it, the faster your strength improves, the faster your mind will fall.

The Dark Elf smiled happily.

She wanted to laugh three times.

In her opinion, even though Angies reaction today was a little abnormal, it could still be explained by Angies strange behavior after being corrupted by the darkness.

A Fallen Elf, when she was about to turn into a Dark Elf, her actions did seem strange.

Because at this time the bright side in their hearts has not completely disappeared, and they are still resisting.

This resistance was carried out within the heart.

Containing a lot of their energy will make them extraordinarily weird in their external behavior.

Once the Light Face completely perished, these Fallen Elves would change their minds.

It was completely separated from their past.

Evil, crazy, and hysterical.

Although it looked normal now, it was because it was not stimulated.

Every Dark Elf was good at disguising themselves. If they knew how to hide their dark aura, they could even disguise themselves as normal Elves.

More than 500 Fallen Elves absorbed it with all their might. Soon, the dark energy produced by the Dark Elf was not enough.

The five hundred Fallen Elves had all reached the sixth rank, but only a few had reached the seventh rank.

Its just an upgrade. Is this considered a surge in strength?

Angie's mocking voice sounded.

Hehe, don't worry, there's more.

The Dark Elf was eager for these Fallen Elves to raise a few levels.

Then, under her evil ritual, another dark energy descended.

More than five hundred Fallen Elves began to absorb it.

Their strength kept rising.

Soon, a large number of Dark Elves broke through to the seventh rank.

This scene made the Dark Elf happy.

I'll give you another flame.

The Dark Elf once again performed an evil ritual with both hands.

After three consecutive waves of dark energy, more than 80% of the 500 Fallen Elves had reached the seventh rank.

Angie was watching from the side. She did not absorb it.

As long as she absorbed some dark energy, she would be able to break through to Sanctuary!

Hey, little sister, why don't you absorb it?

The Dark Elf said.

Angie shrugged. No, how can I absorb it?

The Dark Elf was at a loss for words. Of course, she did not have any left now.

Don't worry, there's still a lot left. I'll take care of it.

After the Dark Elf finished speaking, she performed another mysterious ceremony.

But this time, the dark energy did not descend.

In the Dark Elf's senses, an extremely cold will descended.

The Dark Elf quickly sealed her surroundings and lowered her head. God, trust me, this time's harvest is definitely greater than the price.

The cold will retreat.

Then, an even larger dark energy descended. This dark energy was much larger than the previous ones.

Absorb as much as you like!

The Dark Elf activated the dark energy, and her voice was filled with strong temptation.

Angie finally moved.

She quickly absorbed the dark energy and her aura began to change.

Then, another two Fallen Elves flew down.

Huh, two more here?

The Dark Elf was delighted because those two Fallen Elves were legendary Fallen Elves!

As soon as the two legendary Fallen Elves arrived, the whale swallowed the sea and absorbed the dark energy.

Above the crack, the Fallen Elves continued to arrive.

I knew it. After suppressing them for hundreds of years, these Fallen Elves are finally unable to suppress them. HaHaHa, my chance has come. Enjoy this carnival!

The Dark Elf let out a hysterical sound.

Her state was a little crazy.

For this reason, she kept performing evil rituals. Immediately, two waves of dark energy descended.

Up until now, a total of six waves of dark energy had descended!

When the last wave of dark energy arrived, Angies aura finally changed.
