

Flames 441

Chapter 441: You are a good person! An angry Dark Elf!

: You are a good person! An angry Dark Elf!

The aura of darkness did not emit from her body. The darkness was so dense that it could not be dissolved. If she rushed out of the Dark Forest and reached the sky above a city, she could release the aura of darkness and turn the city into darkness in a short period, turning countless people into dark creatures.

These were the Dark Creatures of the Sanctuary.

However, they would not do that. The risk was too meaningful. If they were suppressed by the laws of the Continent of God, they would be easily killed by others and it would be meaningless.

He really has become a Sanctuary! Hahaha, when the power changes, your heart will lose control. These Fallen Elves are all mine. When Angstrom returns, you will definitely go mad with anger, hee hee!

Under the excitement of the Dark Elf, one moment haha , the other moment hee hee , it was like an authentic madwoman!

Other than Angie, the additional Fallen Elves strength had also increased.

The first 500 Fallen Elves had all become seventh-rank Fallen Elves.

Many of the Fallen Elves had reached the eighth rank.

The Fallen Elves who had just arrived had also gained quite a bit. Each Fallen Elf had almost raised a rank.

Even Judith and another legendary Fallen Elf took a big step towards Sanctuary.

However, the Sanctuary needed to understand the rules. Just the increase in strength alone could not push them to the Sanctuary. The two of them had absorbed so much dark energy, and their strength was enough. As long as they understood the rules, they could become Sanctuary.

In short, the Fallen Elves had gained too much this time.

The Dark Elf and the cold will give a lot.

It could even be said to be quite large.

However, if all the Fallen Elves had turned into Dark Elves, their gains would be unprecedented.

More than a thousand powerful Fallen Elves.

If they all turned into Dark Elves and fell into the darkness, their strength would increase even further. That was a terrifying power.

More importantly, compared to the many dark creatures born and bred, their growth space was much larger.

This was also the reason why the Dark Elves and the existence behind them had sacrificed their lives.

Taking advantage of Angsts absence, she captured all the Fallen Elves that Angstrom had painstakingly gathered and turned them into Dark Elves. This kind of thing was enough to satisfy her!

The Dark Elf waited patiently, waiting for Angies advancement.

Finally, Angie opened her eyes.

Her body was so dark that it could not be dissolved, but her eyes were incomparably bright as if there was all the light in the world.

When the Dark Elf saw Angies eyes, she was shocked.

The Dark Elf was feeling worse and worse.

All Fallen Elves leave the rift.

Angie suddenly gave the order.

Following her order, all the Fallen Elves rushed out of the crack before the Dark Elf could react.

The Fallen Elf was above the seventh rank, so she could fly.

In this rift, the suppression of the Laws of the Continent of God was not strong, but outside the rift, the suppression of the Laws of the Continent of God was relatively stronger.

Although there was a Dark Forest outside the crack, and the Dark Forest was equivalent to the outpost of dark creatures, it would take some time for it to fit into the Dark Forest.

When the powerful being crawled out of the crack, the pressure was still quite strong.

You guys

The Dark Elf was still a little dumbfounded. Before she could finish her sentence, Angie was also rapidly rising.

Thank you for your generosity. If you help us increase our strength, you are a good person.

After Angie finished speaking, the whole person left the crack and reached the ground.

In the darkness, the Dark Elfs face slowly changed.

Up until now, how could she not know that Angie had tricked her?

Although she did not know the reason, now, the reason was no longer important.

The most important thing was that these Fallen Elves had absorbed a large amount of dark energy. After quickly increasing their power, they were not attacked by the dark energy!

The Dark Elf could not understand how they did it!

However, this was not important anymore!

What was important was that she was tricked!

It was no problem for her to make such a solemn promise to that cold will!

But now, she was going to die!

Ah, you dare to fool me!

The Dark Elf was on the verge of exploding from anger. She rushed out of the crack desperately.
Success!

She activated her energy and attacked the Fallen Elves.

However, Angie and the two legends easily blocked her attack.

If you dare to come out, then you won't be able to leave.

Angie decisively attacked the Dark Elf.

This was the first time the Dark Elf broke through the crack. After being blocked by Angie, she regretted it in her heart.

She could already feel the suppression from the Continent of God.

This kind of suppression, as if the entire continent of the gods was pressed on her body. It was so heavy that she could not breathe completely.

Angie joined forces with the two legends. Angie attacked while the two legends blocked her path of retreat, causing the Dark Elf to fall into a sorry state.

Not long after, the Dark Elf was heavily injured.

However, she still found a chance and rushed down the crack.

Angie saw that she was injured and chased after her, leaving a few wounds on the Dark Elf.

Angie finally stopped when she reached the entrance of the Dark Abyss.

Just like Angstrom, she did not want to enter the Dark Abyss.

Just you wait, this is not over!

After the Dark Elf left a vicious sentence, she quickly rushed down the crack and fled back to the Dark Abyss.

Angie snorted and flew into the crack.

She was now a Sanctuary. With her here, she was not afraid of the Dark Elf coming back.

As for whether there were gods behind the Dark Elves, Angie was not worried either.

They were not Fallen Elves without the blessing of God.

In addition, Angstrom was about to return. If that Dark Elf came back, Angstrom would give her a bigger surprise!

Chapter 442: The Qualification of the Succubus! The Old Opponent, the God of Darkness!

After this wave of Dark Elves was tricked by Angie, the Fallen Elves' strength increased again.

It was no exaggeration to say that without the help of the gods, this Fallen Elf with more than two thousand people could destroy a small empire.

Of course, the prerequisite was that they could walk freely under the sun.

That not only meant that they could appear in the daytime in the Continent of God, but more importantly, it also meant that their strength would not be suppressed after they left the Dark Forest.

Yes, if they were too far away from the Dark Forest, the Continent of God would still reject and suppress them.

In the Dark Forest, they were much less suppressed and rejected.

The true meaning of returning to light was the same.

To be able to live on the Continent of God without being suppressed, just like the current Angst.

After comprehending the Light and Dark Rules, when Angstrom appeared outside the Dark Forest, he could no longer be suppressed.

Judith, in the future, you two will be on duty together. I will be on duty alone.

Angie made a new arrangement.

This was to prevent the dark elf from coming back.

The Dark Elf was seriously injured. She would not make a comeback in a short period of time, but he could not let it happen.

A large number of Fallen Elves had their strength skyrocketed after being milked. Now, they were all familiar with the new power.

Time flowed by and in the blink of an eye, another week passed.

Whether it was the Heavenly Realm or the Continent of Gods, the people and matters related to Lin Yan were relatively calm.

The Dark Elf did not make a comeback. She was probably still recovering.

The only thing that was not calm was the Abyss.

Queen, I failed. Harubi's ruler of the Abyss doesn't recognize our qualifications unless I don't use the power of the gods to fight it, but I can't beat it. Its already a devil!

In a certain layer of the Abyss, Yvette lowered her head and said with a face full of self-blame.

Even though Yvette's strength had improved by leaps and bounds, the current Yvette was still at the legendary level.

If she didn't use Evil Flames, she wouldn't be able to defeat a demon king.

In fact, it was hard to rely on Evil Flames. Evil Flames were just flames bestowed by Lin Yan, and how much she could obtain would depend on Yvette's own strength. With her legendary strength, it would be hard for her to defeat a demon king with Evil Flames.

Unless Lin Yan cast his gaze.

However, Lin Yan was not their nanny, so it was impossible for him to look at her from time to time unless her life was in danger.

When they were weak, in order to nurture them, he would pay more attention.

But when their strength grew stronger, Lin Yan would let them grow. Only then could they truly grow just like Qing Ling, Meng Ying, and Natasha, who were all kings who could stand alone.

Therefore, among the mechanisms of Lin Yans godhead, there were very few mechanisms that could trigger Lin Yans gaze.

Dont blame yourself, Yvette. Did you get the detailed coordinates of Harubi Abyss?

Natasha asked.

Yi Wei nodded. Yes, Queen, Ive already taken it back.

After saying that, she handed a seal to Natasha.

Harubi Abyss is too far away, but its easy to do with coordinates. Lets go, lets go to Harubi Abyss. Ill personally get this qualification.

A light flashed across a space formation.

Natasha walked out with over a hundred succubuses.

She looked down.

This was an incomparably huge layer of Abyss. Its size was comparable to the Abyss of the Mobis.

The terrain of this Abyss was especially complicated. In the end, there were mountains towering into the clouds, as well as many rivers and lakes!

This was the Abyss of Harubi.

This was a layer Abyss in the lower Abyss. It was an Abyss dedicated to holding the battle of the gods.

To use the entire Abyss to hold the battle of gods, one could imagine how huge the scale of the battle of gods in the Abyss was.

This place was also the paradise of the gods.

Countless demons and minions fought in this huge Abyss. They were fighting to please the Abyss Demon God behind them.

In Harubis Abyss, the demons that participated in the battle of sacrifices were different from the Abyssal Demon Gods.

For the first time, there were 10 Abyssal Demon Gods participating.

These ten Abyssal Demonic Gods might or might not know each other.

They were also strong and weak, but that didnt matter.

Only those who had the qualifications could participate in the battle.

This qualification required the number and strength of the demons and minions participating in the battle of gods.

Basically, large Demon dynasties were qualified to participate.

For example, the three Demon dynasties that occupied the Abyss of the Mobis could participate, but they did not choose to participate because they were not particularly strong, even if they came to participate in the Battle of the Abyss of Harubi, they would not be able to gain much.

The three Demon gods were only the first-ranked gods.

On the other hand, Harubi Abyss was a paradise for the second and third-ranked gods. Occasionally, the fourth-rank Abyss Demon God would appear.

Under Yvettes lead, Natasha quickly arrived at a Demon castle floating in the air.

Succubus, are you still not giving up?

In the Demon castle, a huge demon that was surrounded by many demons saw Yvette and roared.

Master Harubi, as long as you are a demon, you can participate if you hand in enough chaos source stones. We can monopolize the Abyss of the Mobis. We are powerful. Why cant we participate?

Yvette said.

A ruler was not a realm, but a form of address. It was a title for the existence that controlled a layer of the Abyss.

That gigantic Demon Lord, Harubi smiled ugly: Want to know the reason? Then beat me.

After saying that, Harubi leaped out of the throne and landed in front of Yvette, shaking the ground.

It looks like you are looking for a helper, the breath of the Demon, the king of the succubus, although I heard that you killed three demon dynasties formed by the lower demons in the Abyss of Mobis, you dont think you can come to Harubi Abyss to participate in the war of the upper and middle Demon organization, right?

Harubi said rudely.

If I hit you, it would be fine, right?

Natasha spoke.

Harubi raised his eyebrows and took out a pair of hammers with both hands. He roared:

Come; dont use the power of any god to fight me!

Whoosh!

Natasha pulled out her sword and stabbed Lord Harubi.

Weak and unbearable!

Harubi gave a soft snort and hit Natashas sword and Natashas body.

As the ruler of Harubi Abyss, this guy had the strength of a Demon King. His Divine body was powerful, and his strength was boundless.

When it swung its hammer, the entire Demon Castle trembled.

Seeing that its hammer was about to hit Natasha, Natasha suddenly disappeared.

When she reappeared, Natasha had already arrived behind it. The tip of the sword pierced into the neck of Lord Harubi.

It pierced three centimeters.

You lost!

Natasha said.

Roar! Damn it! I hate space rules the most!

Harubi roared and threw a sign to Natasha. Write your gods name. In a months time, your army must be in position.

Natasha retracted her sword. With the blood of Harubi, she wrote down three words: Lord of Flame!

Lord of Flame! Roar, the king of the Succubus, lets do this. I hope your army can live!

After Harubi said that, he left the demon castle.

Lord of Flame?

The news of Flames main participation in the Battle of the Abyssal Sacrifice to God was soon known by other existences.

The Lord of Flame! Its you, the God of Succubus!

In a Divine kingdom, there was a voice of an existence.

You like a small race like the Succubus. Humph, Ive been looking for you for two years. I didnt expect you to send yourself here. This time, if I would kill you, I will become a God of darkness!

The existence of this Divine Kingdom was Lin Yans old opponent, the God of Darkness in the Abyss!

He was a powerful Demon God with a fourteenth rank godhead and body!

Chapter 443: The Conspiracy of the Dark God! Ten Thousand G of Flaming Gold!

: The Conspiracy of the Dark God! Ten Thousand G of Flaming Gold!

After obtaining the qualification for the battle of the gods, Natasha stayed in Harubi Abyss and sent Yvette back to gather the army.

Princess Barbara was still in the Abyss of the Demonic Bite.

Recently, the news of the Succubus recapturing the Abyss of the Behemoths had spread throughout the middle-and upper Abyss. The entire Succubus who received the news came from the middle-and upper Abyss towards the Behemoth Abyss.

The number of Succubuses in the Abyss of Mobis had surpassed that of the Succubus Dynasty a thousand years ago.

As the Succubuses continued to conquer, they captured more and more demon servants and demons.

However, the Abyss of Mobis belonged to the upper layer of the Abyss.

The Demon was actually a layered structure.

The Bat Demons, Wing Demons, and Spike Demons in the Abyss of Monstrous were all Demons.

If it were not for the Demigods, they would not have targeted the Abyss of the Succubus.

In the Abyss, the deeper down, the stronger the Demon.

In the same realm, ten lower-ranked demons could not defeat one middle-rank demon, and ten middle-rank demons could not defeat one upper-rank demon!

The demons that were captured by the Succubus were basically demigods.

The ruler of Harubi was a standard middle-class demon.

In the eyes of the ruler of Harubi, the war between the Succubus and the Abyss of the Demons was like a few rookies pecking at each other.

This was the reason why it did not give the succubuses the right.

However, Natasha taught them how to be a person with her strength!

Hurry, hurry, the distance is still very long. Dont dawdle.

In the sky, a large number of succubuses have urged the captured demons and minions to pass through the space gate in the Abyss.

Even if they had the coordinates of the Harubi Abyss, it would still be a huge project to transport the huge army to the Harubi Abyss.

In the depths of the Monstrous Abyss, there were already several space gates.

In the Abyss, building a space gate was easier than building a space gate on the Continent of God.

The combined efforts of the Master Gods, which led to the stability of space, had reinforced the laws of the Continent of God.

In the Abyss, many rules were broken. As long as one touched the rules of space, they could basically build space gates.

Natasha, on the other hand, knew the rules of space.

In Harubis deep Abyss, above an empty battlefield, Natasha stood in the air, her eyes coldly looking down.

Below her, there were a large number of space gates, and a steady stream of demons and minions was emerging from them.

These were the demons and minions captured by the succubuses.

In the other nine regions of Harubi Abyss, there was also a steady flow of demons and minions.

That was the army of the other demon dynasties that participated in the battle of the gods.

Thousands of Demons and minions gushed out of each dimension gate every second.

On this battlefield, there were at least a hundred such dimensional gates.

With so many space gates, the demons and minions would not stop for the next month.

After the battle of the gods began, there would be an endless supply of demons and minions to ensure the number of demons and minions on each side.

The scale of this battle would be unimaginable.

God of Darkness, you have to know that making a move in the God Sacrifice Battle is a bit of a breach of the rules.

When the battle for the God sacrifice in Harubi Abyss was about to start, several wills were communicating in a dark and obscure space.

Rules? Humph, whoever had the biggest fist will rule. If I made a move, the Lord of Flame might not dare to come out. Therefore, you are responsible for leading him out.

The God of Darkness spoke in an unquestionable voice.

Its no problem for me to lure him out, but I cant guarantee that I wont tempt the other Demonic Gods. You have to know that the Dark Soul God from the Land of Light also participated in this battle. Thats not inferior to your existence.

The other will vibrate the space and make a sound.

So, are you unwilling to cooperate? Although I cant find your kingdom of God, its easy to destroy all your forces

The God of Darkness spoke in a threatening tone.

No, but we need some assurance

Humph, you guys are smart

In this dark and obscure space, the voice faded.

A plot against Lin Yan was brewing.

In the blink of an eye, a month had passed.

The huge and incomparable abyss of Harubi has been occupied by an unknown number of demons and servants.

In the sky, countless demons covered the entire sky.

On the ground, the minions squeezed one by one, pushing Harubis Abyss so hard that it could not even insert a needle.

However, within the dimensional portal, there were still demons and minions constantly squeezing out, making the entire Harubi Abyss even more crowded.

This battle would last for quite some time.

A boring game.

On the edge of the Abyss, the ruler of Harubi looked at the endless battlefield below and said.

Many demons came to watch the battle in the Demon Castles.

Some powerful demons used this to amuse themselves.

Its indeed a boring game, but can we start now, Master Harubi?

You dont need to say that I cant bear the anger of the Demonic Gods if I waste their time.

Dang~,

Following that, a loud bell rang throughout the entire Abyss.

Its starting!

Natasha prayed.

In the other nine regions of Harubi Abyss, there was also a Demon God praying.

Boom!

Soon after, pyramid after pyramid descended!

The entire Harubi Abyss was constantly shaken!

These guys, if they cause such a big commotion, the Harubi Abyss will be torn down sooner or later.

There was the Demonic Path.

Even though they were vomiting, the will of each Demon God and the descent of the Divine throne would cause the hearts of these demons to freeze.

Chapter 444: The Conspiracy of the Dark God! Ten Thousand G of Flaming Gold!

In order to show their strength, the Demonic Gods caused more and more commotion when the Divine Throne descended.

“Boom!”

Above Natasha, a huge pyramid descended and stirred up quite a commotion in the endless sky above Harubi Abyss.

“Whose throne is that? It’s so big?”

Whether it was the participating demons or the spitting demons, they were all stunned.

Of course, they only dared to take a look from afar before quickly lowering their heads.

“So it’s the succubus’ god. He actually has such a huge Divine throne. I wonder if he’s trying to make a fool of himself by deliberately putting on a show.”

Quite a few powerful gods thought.

“He’s really arrogant. No wonder he dared to go against me, but this time, he is dead for sure!”

In the sky above the Abyss, the will of the God of Darkness observed the descent of Lin Yan.

The God of Darkness did not believe that the Lord of Flame was stronger than her, even though the Lord of Flame had such a huge Divine throne.

A wisp of her will had exchanged blows with Lin Yan back then. Although Lin Yan had repeatedly broken through her backhand, she was able to roughly deduce Lin Yan’s strength based on her perception of Lin Yan back then.

“You definitely won’t be stronger than me. I originally thought that you were a deity of the Heavenly Realm, but I didn’t expect you to be also an Abyssal Demon God. You

might have been hiding for countless years before you became a second-ranked Abyssal Demon God.”

Thinking of this, the God of Darkness restrained her aura to avoid being discovered by Lin Yan.

She was worried that if Lin Yan discovered her too early, he would not dare to show himself, which would be detrimental to her plan!

After all ten Deities of the Abyss had descended; the Battle of Deity Sacrifice would begin.

“My God has passed down an order that we don’t target the Succubus for now. Let them gain some victory first.”

In an ancient Demon Castle, a Demon King had received an order from the Demon God.

“Send my orders...”

This Demon King immediately gave the order.

In the Abyss of Harubi, unlike what Harubi’s ruler imagined, the Succubus and their army of lower demons did not cause all the middle and upper demons who participated in the battle to be besieged.

There was only one type of Demon against the Succubus.

The scale of this war was too large. The initial investment was only cannon fodder. Even if it was aimed at, there was no sign of any decline.

In the endless skies, ten enormous pyramid-shaped Demon Gods were hovering high above them. The ten Abyssal Demon Gods had already released their willpower to watch this battle unfold.

It looked like this was just a battle between the gods of Harubi over the years.

As for the Demon gods participating in the battle of sacrifice, they could only get what they needed and leave.

To the participating Demon Dynasty, a battle of sacrifice could win the favor of the Demonic God. If the Demonic God rewarded them, they would only lose cannon fodder and excess demons.

However, things were far from that simple.

This battle of God’s offerings lasted for a very long time.

In the blink of an eye, three months had passed, and this battle of God offerings was still ongoing.

The powerful strength of the Succubus attracted the attention of many demons.

In order to find a Demon God, the Abyss Demon God could spend dozens of years. Of course, the Dark God couldn’t help it for several months.

In the past few months, in the sun of the Heavenly Realm, Lin Yan had finally gathered enough Divine substances and the Flame Metal that Lin Yan needed!

Immediately afterwards, Lin Yan began to build his own blazing gold battle armor.

The Flame Gold’s color was similar to gold, but its brightness was even higher. If an ordinary person looked at the Flame Gold, he would instantly be blinded!

On top of the Infernal Gold, golden light could be seen at any moment. It looked particularly eye-catching.

When large amounts of Flaming Gold piled up together, the effect was quite gorgeous.

When it was fished out from the sun, it had a terrifying temperature. However, its temperature would soon cool down, but it was still filled with tremendous energy.

This was a weapon forged from the Raging Flames Metal. It had its own skill, the Raging Flames Blast.

Don't underestimate this skill. If a Blazing Gold Sword contained more than a thousand grams of Blazing Gold, the Blazing Gold Sword would unleash a Blazing Gold attack that would cause even the first-rank gods on the second floor to be afraid.

If it was used to deal with existences in the Abyss or Dark Abyss, then the damage would have an extremely great increase!

The energy in the sun of the Heavenly Realm was originally used to suppress life in the Abyss and Dark Abyss.

After the energy of the Flaming Blast is used up, you can also put the Flaming Sword into the sun, which is equivalent to recharging it.

As for the armor made of the Flaming Gold, it didn't have any offensive skills, but it had a pretty good defensive skill.

That was Flame Defense!

In short, the weapons and armor forged from the Flaming Gold were extremely powerful.

Up until now, Lin Yan had collected Divine substances for several months, and the amount of Flaming Gold he had collected had barely exceeded 10,000 grams.

It could create an extremely powerful set of Flame Gold Armor and Flame Gold Sword!

Chapter 445: The next step! The second goddess!

Ordinary gods of the Heavenly Realm couldn't create armor entirely from Divine substances.

The armor of an ordinary Heavenly Realm God was usually made of high-strength Heavenly Realm materials.

A small amount of Divine substance supplemented it.

The gods of the Heavenly Realm mainly used long-range attacks. Generally speaking, they would pay more attention to their weapons.

After all, killing someone first was much better than pure defense.

However, even among their weapons, the content of Divine matter was generally not high.

This time, Lin Yan was prepared to use six thousand gram Flaming Gold to forge a set of Flaming Gold Armor and four thousand gram Flaming Gold to forge a Flaming Sword!

The strong flame sword made by 4000g of strong flame gold would be quite terrifying.

It was likely that the attack of the sword alone could threaten a third-ranked God!

The method of creation was not difficult.

There was one in Vera's collection.

To the gods, the difficulty was never to create a method, but to collect enough Flaming Gold.

The Divine substance could not be processed deeply. It was not particularly difficult for the gods to use their Divine energy to bind every one of them.

Within the sun of the Heavenly World, Lin Yan began to forge.

He took out a large amount of Flaming Gold and began to arrange it in an orderly manner.

At the same time, Lin Yan continued to infiltrate his Divine imprint.

This was to privatize the armor and sword.

In other words, only Lin Yan could use it.

Of course, the person authorized by Lin Yan also had the right to use it.

The entire process lasted for a full week.

A week later, a smile appeared on Lin Yan's face.

He maintained his Divine Body state, but soon after, he didn't make any movements. Suddenly, a bright armor appeared on his body!

Flame Gold Armor!

The armor shone with indescribable dazzling light.

This light was not the golden light emitted by gold.

It was even more dazzling than the golden light, even more resplendent, even brighter, pleasing to the eye!

Flame Gold Armor successfully forged!

With a thought, Lin Yan entered his storage space.

With the toughness of the Divine substance, even if Lin Yan burned it with pure temperature, he would not be able to destroy these Divine substances. The defensive power of this blazing golden armor was terrifying.

Moreover, this was a set of armor made purely of blazing gold.

Apart from his face, the armor usually had no weaknesses.

Next, Lin Yan began to forge his Flame Sword.

This process was also fast.

Another week later, Lin Yan's Blazing Sword was successfully forged!

It was a Fierce Flame Sword composed of a total of 4,000 gram Divine substances!

If it weren't for the fact that Lin Yan's Divine body had already reached rank 13 and was fairly stable, it would have been difficult for him to move the sword.

The weight of this sword was terrifying.

It was not a problem for LVL 13 Divine body.

“Vera seems to have gathered enough resources. Let’s go back first.”

Lin Yan thought.

During this period, Lin Yan had been in the sun of the Heavenly Realm. In addition, he was still watching the battle of gods in the abyss. Therefore, Lin Yan had not returned to Vera’s Divine Kingdom.

The Abyss God Sacrifice Battle had brought Lin Yan a lot of dark faith.

This caused Lin Yan’s chaotic Divine energy to increase.

In addition, Lin Yan’s flame form was also constantly increasing, becoming a rank 8 flame.

.....

“It’s finally rank 12.”

In Vera’s Divine kingdom, Vera let out a breath.

Yes, four months later, Vera not only raised her godhead to rank 12 but also her Divine body to rank 12.

At the same time, the resources she collected for Lin Yan were enough.

Lin Yan had absorbed enough solar energy in the Heavenly Realm Sun. With Vera’s resources, he could directly reach rank 14.

In fact, Vera was still helping Lin Yan collect resources to upgrade his rank 15 Divine body. She had already collected more than half of the resources.

Lin Yan absorbed a lot of solar energy this time, and it was enough to rank up to 15 rank. After Vera gathered the remaining items, Lin Yan could rank up to rank 15!

Once he rose to rank 15, Lin Yan’s Divine body would match his godhead.

Lin Yan’s godhead could be further evolved.

That was rank 16!

Although the difference was only one rank, it represented a different rank — the fourth rank!

“The Celestial Family must be established as soon as possible...”

Lin Yan thought.

Every God at the peak of the third rank needed to establish a Divine system in order to break through to the fourth rank. Lin Yan did not know the secret behind this, but since all the gods did this, there had to be a reason to do so.

As long as Lin Yan did it himself, he would know the reason.

Lin Yan did not need to worry about ranking up his flame form, so he decided to upgrade his Divine form first.

He suppressed his thoughts and stepped into Vera’s kingdom.

“Huh, Master God, you’re finally back.”

Vera felt Lin Yan’s arrival and was overjoyed.

Lin Yan walked in and felt the change in Vera. “You’ve already reached rank 12 with your godhead and body?”

Vera nodded with pride on her face. “Yes! Lord, I lived up to your expectations!”

Next to her, she also flew up. Mavis, who was about to speak, was stunned again!

Rank 12!

Vera had a twelfth ranked godhead and body!

Heavens!

How long has it been!

However, since she had been shocked earlier and knew the power and magic of the Lord of Flame, Mavis took a deep breath and suppressed her shock.

She walked over and said to Lin Yan, “Mavis greets the Lord.”

Lin Yan looked at Mavis and asked, “Mavis, have you considered it?”

Mavis nodded solemnly. “Master God, Mavis has already considered it.”

“Okay!”

Lin Yan opened the system and handed the Divine imprint to Mavis, saying, “Eat it.”

Mavis did not hesitate and directly ate the Divine imprint that Lin Yan handed over.

Then, her name appeared in the second-rank of the pantheon!

There weren’t many Celestial Series, but only five.

The second sequence was already considered the core sequence.

Of course, the sequence could be changed. As for how it would change in the future, it would depend on the performance of each God!

At this point, Mavis became the second goddess in Lin Yan’s pantheon.

In Lin Yan’s Celestial Tree, there was still a lot of space!

Chapter 446: Upgrade! The conspiracy is launched!

rade! The conspiracy is launched!

Generally speaking, there were only a few to a dozen Deities with a Divine Master at the peak of the third rank.

There were only a few gods in the system.

On the Continent of God, six or seven stars could be seen. For example, there were only seven gods in this pantheon.

Of course, the more gods there were the better.

But this kind of increase was not a random increase in the number of people.

The Divine contract was very binding, but it was far inferior to the Saintess contract, master-servant contract, and other contracts.

If a God was willing to pay a huge price, they could still tear apart the contract.

If the number of people increased randomly, a peak third-ranked God could expand the number of people in the pantheon to more than 20.

If that was the case, the hidden danger would be too great. It was very likely that the Divine system would not be his help, but instead his burden.

Usually, there would be more than 20 Deities who had a fourth-ranked God.

Moreover, such a God system usually had a Divine system, which was called a preparatory Divine system.

In the star map of the gods, the positions of the Divine System were usually scattered around the main Divine system, protecting the main Divine system.

Lin Yan looked at his Divine panel, in his Divine panel, there were a total of 48 positions!

Lin Yans Divine contract was not like the other Divine contracts.

Lin Yans Divine contract was created through the System and was much more stable.

In the System, it was called the Divine Imprint.

The most stable thing should be the dark races contract.

Lin Yan quickly made a discovery.

The Dark God system contract, also known as the dark contract, would become very stable after the contract was signed.

This degree of stability was quite terrifying, and it was on par with the master-servant contract.

Even the Abyssal Demonic God could not break free from the restrictions of this contract. Once he joined the Divine System, it would be difficult to betray him.

After looking at his pantheon, Lin Yan had a plan.

Master God, this is the resource you need.

After Mavis ate the Divine imprint, Vera handed the resources she had sent to Lin Yan.

All the resources of a fourteenth ranked Divine Body and some of the resources of a fifteenth rank Divine body.

After reaching the fourteenth rank and fifteenth, the resources needed would be precious.

In order to gather these resources, Vera spent all the high-ranked sacred stones that Lin Yan had given her. She also sold all the Divine materials that Lin Yan had collected for her. At the same time, she also paid a lot of credit to the Elven goddess.

Lin Yan took the resources from Vera and took out a large number of Divine substances.

This time, there were even more Divine substances!

In the Sun of the Heavenly Realm, 70% of the Divine substance was Flame Gold.

The remaining 30% was other Divine substances.

Over the past few months, Lin Yan had collected a total of 10,000 grams of Flaming Gold. There were also quite a few other Divine substances, a total of over 3,000 grams!

So many!

Vera was shocked.

Beside hwe, Mavis was also shocked.

Previously, more than four hundred grams of Divine substance was already scary enough but this time, Lin Yan actually produced more than three thousand grams of the Divine substance!

This was a little too shocking!

Even Mavis had never seen so many Divine substances before!

Vera put away the Divine substance.

Lin Yan did not say anything.

Vera was fully committed to Lin Yan. Lin Yan was relieved to hand over the Divine substance to her!

Oh right, Lord God, there is still a month before the Sun of the Heavenly Realm will erupt once. At that time, a large amount of Divine matter will erupt from the depths of the Sun of the Heavenly Realm, and more than half of the gods of the Heavenly Realm will go there to collect Divine matter.

Vera thought of something and said.

A flare can erupt?

Hearing Veras words, Lin Yans heart skipped a beat.

When the previous battle was in the Heavenly Sun, Lin Yan felt that the energy of the Heavenly Sun had become abnormal.

Something seemed to be brewing.

In other words, it was probably brewing a flare eruption.

No wonder the density of Divine matter in the Sun of the Heavenly Realm had increased!

Lin Yan nodded slightly and turned his gaze to Mavis, only to find that Mavis was looking at his face.

Upon seeing Lin Yans gaze, Mavis lowered her head as if she had been discovered.

Mavis, I can allocate the Divine energy you need, but I need to see your godhead and body. Are you willing?

Lin Yan asked.

Since Mavis had joined the pantheon, and it was not difficult for Lin Yan to deploy high-ranked Divine power, Lin Yan did not mind raising Mavis strength.

Hearing Lin Yans words, Mavis eyes widened slightly. She didnt know what she thought, but her face turned red again.

She blushed even more easily than Vera.

However, she still nodded.

Vera quickly whispered something into her ear.

The blush on Mavis face faded slightly.

A few hours later, Lin Yan placed some high-ranked Divine energy in a special Divine pot and handed it to Mavis.

Upgrading from Rank 12 to Rank 13 Godhead would take longer. It would not be as fast as before.

However, compared to Veras original upgrade time, it was many times faster.

In the blink of an eye, another week passed. Mavis had reached rank 10. Like Vera, she had already prepared the resources to reach rank 10.

Now that she had used up all of these resources, she was naturally promoted to rank 10.

Next, she began to stabilize her state.

Once it stabilized, Mavis could also begin to raise herself to the third rank.

Lin Yan didnt go to the Heavenly Sun anymore. Instead, he raised his Divine body to rank 14 and stabilized it.

Vera and Mavis sent a large number of Elves to purchase several key resources for Lin Yan to reach rank 15.

These few key resources were not easy to purchase!

For example, the Ten-Thousand-Year-Old Flame Heart Fruit, which was the fruit of a very small number of star cores, was very rare and expensive.

Not even a few hundred high-ranked Holy stones could be bought.

The biggest problem was that the gods who possessed this stuff might not be willing to sell it.

That was why Lin Yan was still waiting.

As long as he could buy those few key resources, Lin Yan would be able to quickly rise to rank 15. Then, he would go all out to build a Divine system and reach the fourth rank!

At the same time, in the Abyss, the battle of sacrifices had been going on for more than three months.

Thats enough. Yasor, go and lure the Lord of Flame out.

In a dark and obscure space, the voice of the God of Darkness sounded.

After more than three months, the God of Darkness did not move but these three months of calm were also part of the plot.

Now, the plot was officially launched!

Chapter 447: Demon Dynasty! All-out war!

These Succubuses are a little unexpected. They actually lasted for so long.

On the edge of the Harubi Abyss, the onlookers watched the battle of the sacrificial gods in Harubi Abyss, and some powerful Demons started talking.

Harubi was not small compared to the Abyss.

With the strength of these Demons, they naturally could not see the situation in the Abyss.

However, they did not need to see the entire Abyss.

Below the Demon Castle, there was a black pool. What was printed in the pool was a thumbnail of the entire Harubi Abyss.

Now, in the pool, there were different areas that represented the top ten Demon Dynasties.

Each area had a different size.

The Succubus wasn't the biggest, but it wasn't the smallest. The area occupied by the Succubuses was more than one-tenth of the size of the Demon Dynasty's frontline!

There were already a large number of Demons participating in the battle.

In the Abyss, Demons were born too quickly. Every Demon Dynasty that had existed for more than a thousand years was not worried about the number of Demons, but how to consume too many Demons.

The battle of the gods was a great choice.

These Demon Dynasties could also choose the powerful warriors they needed through the battle of gods.

Only the new generation of Demons who survived the battle of the gods was qualified to enter the core army of the Demon Dynasty.

Go, attack the succubuses. Whoever can survive will enter the Demon castle and become the king's most heroic warrior!

A Demon looked at the succubus army in the distance and said.

Hearing its words, the new generation of Demons on the mountain jumped down as if they were fighting with chicken blood. They flapped their wings and rushed towards the succubus army.

However, before they could get close, more Demons stopped them.

These were the Demons captured by the succubuses.

They were the cannon fodder of the Succubuses!

The two sides started an intense battle.

In the sky, Natasha's gaze swept over. This battle was not a small one, and Natasha did not pay much attention to it.

In the Harubi Abyss, Demons were fighting each other everywhere.

The area occupied by the Succubus army was even larger than the Purple Gold Empire.

Such a large area, at the edge of the Succubus army, such a war had happened many times at the same time.

Natasha looked down silently.

This time, she did not give the order to dispatch the entire battlefield.

The ones in charge of the entire battlefield were Yvette and Enos.

Yes, Natasha was already training her subordinates.

She was now the Demon!

If she took another step forward, she would become a rank three Sky Demon King!

If Sky Demon took another step forward, it would become a rank four Sky Demon Emperor!

Natasha was not far from the Demon king.

Many Abyssal Demon Lords would begin to study the secret of becoming Abyssal Demon Gods during the Sky Demon Lords period.

Natasha was different from them. She was going to study the secret of becoming the Abyssal Demon God in the Sky Demon Emperor stage.

It looked like it was still far away, but it wasn't that far away. That was why Natasha started to train her successor.

As for her, she was ready to serve her master in the Divine Kingdom after becoming the Demon God of the Abyss.

From Natashas point of view, whether she was the king of the succubus or the God of the succubus in the future, the most important thing was that she was still a servant of the Lord of Flame!

The scale of the war has increased. Let the Demon lords send their elite Demons to participate.

In the sky, Yvette said.

Some rank 7 Succubuses sent her orders.

On the other side, Enos was also adjusting the combat strength of the Succubus. She was constantly putting in new forces to ensure that the Succubus would not fall into a disadvantageous position in this battle.

There were many rules and customs for such a large-scale battle!

The first month had been devoted to the minion.

The next month, there would be a few more than rank three minions.

From the third month onwards, Demons would join the battle.

Under these rules, who could gain the upper hand? Most of the time, it was the speed of replenishment.

The battle of the gods was not a battle of dynasties, nor was it a battle of gods. It was just a game to please the gods.

However, Abyssal creatures sometimes did not obey the rules, especially powerful Abyssal creatures.

That was why the Abyssal Demonic God would participate in the Abyssal God Sacrifice Battle carefully to avoid encountering the overly powerful Demonic God. If the other party did not follow the rules, it would be troublesome.

If he really met an overly powerful Abyssal Demon God, that kind of situation was very likely to happen!

This was the Abyss, so no Demon God liked to play by the rules.

From that day on, more and more Demons rushed towards the Succubus army.

On the third day, Yvette came to report:

Queen, there's another Demon dynasty targeting us. They sent out a large number of new generation Demons to participate in the war. Our Demon captives have suffered heavy losses. Do you want to send succubuses to participate?

Natasha looked down at Yvette.

A large number of Demons charged towards the Succubus army above the servant Demons. They were locked in an intense battle with the succubus Demon captives.

These Demons were all humanoid Demons.

In the Abyss, there were many humanoid Demons, but they were also divided into several types.

Kill them all. What right do these Demigods have to fight with us on the battlefield? Let's do it.

A Demon Lord led its Demon army towards the Demon captives outside the succubus army.

There were quite a few demon captives. There were a large number of demon lords, and their demon army was also extremely large!

However, under the attack of the other Demon dynasties, these Demon lords who were captured by the succubuses and their Demon army were forced back, unless lower-ranked Demons and upper-ranked Demons were many times more numerous and their overall rank was also one rank higher, they would not be able to defeat them!

The same scenario was still happening in many areas.

If the Succubus is finished, I know these high-ranking Demons will most likely cause trouble. A few months ago, in order not to destroy the sacrificial battle, they angered the Demon God. They endured for several months, but now they can't bear it anymore?

On the outskirts of the Abyss, the Demons who were watching the show gathered their spirits.

Watching the show wasn't too big of a deal. It was best to use this sentence to describe them.

As Demons, the bigger the matter, the happier they were. They might even laugh when the world was destroyed.

It's Demon Flora, a powerful middle-ranked Demon. Their attacks are very fierce and interesting. Although the other Demon dynasties didn't attack, there's obviously not much pressure around the Demon Flora's army. It looks like their king has reached a certain rank of tacit understanding!

There was a powerful evil path.

While these Demons were discussing, Demon Floras attacks became even more ferocious.

The first Demon dynasty before was only targeting the succubuses but Demon Flora was clearly ready to attack the Succubuses.

The two Demon dynasties in the vicinity of the Flora Demon Legion had simultaneously reduced their attacks on the Flora Demon and instead entered a chaotic battle with the other Demon dynasties.

This was to relieve pressure on Demon Flora!

Demon King Flora, the battle of the gods isnt halfway through. Why did you expand the scale?

In the sky, the will of the Demon king collided.

Humph, letting a dynasty of Demons join our battlefield is an insult to us. Its enough to let them stay for a few months. This matter has nothing to do with you. Well break the rules. You dont have to interfere.

Demon King Floras will was firm.

Demon King Flora, the will of the God of Dark Soul is watching this war. Ill give you a week. If it affects my Gods income, dont blame us for being rude.

Dark Soul Demon King said.

Dont worry; we still dont dare to anger the powerful Dark Soul God.

Demon King Flora made a promise.

Its good that you know

The will of the Demon kings quickly retreated, as if they had reached a certain agreement.

Then, densely packed Flora Demons rushed out from the black clouds and rushed towards the Succubus Dynasty!

On the ground, the slave Demon army of the Demon Flora rushed towards the Succubus army.

In the sky, the Demon castle group of the Flora Demon Dynasty was also rapidly moving towards the sky above the succubus army.

Theyre trying to destroy us.

Yvette instantly understood the intention of the Flora Demon Dynasty!

This dynasty, which was made up of powerful middle-rank Demons, had expanded the scale of the war ahead of time, trying to destroy the Succubus Legion and drive the Succubus Dynasty out of this battlefield!

Send my order. The Succubus Army will fight back!

In the sky, Natasha gave the order.

Following her order, the succubus army moved.

Compared to the other Demon armies, the biggest disadvantage of the Succubus army was not only their weak bodies but also their ability to grow wings. Without wings, they could not fly until they reached rank seven.

The other Demons were born with wings.

The Succubus could not fly, but their Demon Hunter Ants could fly up to rank three or four.

Under the command of the succubus, a large number of powerful Demon-hunting ants flapped their wings and rushed into the sky. They fell into a fierce battle with the Demon army of the Flora Demon Dynasty.

The two dynasties were already in an all-out war.

In the endless sky, above the ten Pyramid Thrones, there was not the slightest ripple from the Demonic Gods.

The Demon God behind the Flora Demonic Dynasty, Yasor, who was entrusted with the task by the Dark God, was also lying dormant there, watching the war below coldly.

It had to wait for the right time.

The Abyssal Demon Gods were more cunning than ever.

In Yasors opinion, it was not easy to lure the Lord of Flame down.

If it was targeted by a powerful Abyssal Demon God, such as the God of Darkness or the God of Dark Souls from the Land of No Light, even if the Demon of the Flora Demon Dynasty died, it would not appear.

The Demons would all die, and soon new Demons would be born.

However, if it appeared and was killed by other Abyssal Demon Gods, it would be a huge loss.

However, Yasor had already prepared a rather thorough plan to lure the Lord of Flame down. Demon Floras attack was only the beginning!

Chapter 448 : Instantly killed the Demon army! Demon God Flora descended!

The army of the Demon Flora Dynasty was too large.

As a powerful middle-class Demon, the Flora Demon Dynasty not only had an entire layer of Abyss with a name, but it also had more than twenty layers of lower Abyss to nurture the Flora Demon.

In the Abyss, the Abyss with a name had a special meaning.

The Monstrous Abyss was not the weakest of the Abyss with names, but because it was too close to the upper-middle Abyss, it was not favored by the upper-middle Demons.

As for the Abyss that the Flora Demon Dynasty occupied, it was located in the middle and lower ranks of the Abyss.

They were quite powerful.

Demon Flora's number covered the sky.

The number of their minions was overwhelming.

It was very difficult to calculate the number of minions.

These servant Demons did not fear death and started a war with the succubus.

Countless minions fell every second.

“I'm really excited. I like this kind of battle the most!”

In the sky, a large number of Demon of the Flora Dynasty rushed towards the succubus army excitedly.

Demons were fond of fighting, and the powerful upper-middle-class Demons were even more militant.

Under their frenzied attacks, the Demonic Army, which had been captured by the Succubuses in the months of the war, could not take it.

However, a steady stream of demon hunters and a large number of seventh ranked succubuses rushed into the sky and stubbornly resisted the attack of Flora demons!

“A weak Lower-Demon, the succubus, is the weakest of all Lower-Demon. I don't know where I got the courage to come to the Abyss.”

A Demon Lord Flora said disdainfully.

“Lord, their Demon Hunter Ants are a little tricky. These Demon Hunter Ants are too strong. It's hard for us to break through their defenses.”

Next to him was a Demon Flora.

“No use. You guys protect me. I'll break through the Demon Hunter Ant's defense line!”

After the Demon Lord finished speaking, it flapped its wings and charged towards the succubus on the ground. It was ready to tear a succubus alive to show its strength!

On its two wings, the densely packed Demons formed a sharp blade. Under the leadership of the Demon Lord's Blade Tip, it forcefully made its way through the Demon-hunting ant army.

“You're finished!”

The Demon Lord revealed a sinister smile.

It had already stared at a little succubus, its sharp claws shining coldly, as long as it grabbed the shoulder of the little succubus, the little succubus would be torn in half!

“Shiver!”

The Demon Lord laughed.

Seeing that the little succubus was about to be caught by it, a green flame suddenly rose and surrounded by the Demon Lord!

“Boom!”

Although the Demon Lord was surrounded by flames, the momentum of the Demon lord's dive was still there. However, the Demon Lord was suddenly surrounded by evil flames. This Demon lord had completely lost his sense of propriety. He slammed his head into the ground and screamed.

This was the first Demonic flame that rose on the battlefield!

This evil flame did not attract the attention of many Demons.

However, in the endless sky, the will of the Abyssal Demon Gods moved on to the other nine Pyramid Thrones except for Lin Yan.

“The Succubus broke the rules.”

A not-so-strong Abyssal Demonic Path.

Yes, the battle of the gods could not use the power of the gods.

As Abyssal Demon Gods, they could naturally tell that Evil Flames belonged to the power of the Lord of Flame.

“However, Demon God Flora broke the rules first. The God of Dark Soul and the God of Darkness didn't move, so I'd better not get involved. Moreover, there seems to be a trace of conspiracy inside.”

As soon as the Abyssal Demon God thought about it, he instantly lost the intention of meddling in other people's business.

The Abyssal Demon Gods were not stupid.

The unusual actions of the Flora Demon Dynasty, as well as the cooperation of the two surrounding dynasties, relieved the pressure on the Flora Demon Dynasty. It seemed that the Flora Demon had to deal with the Succubus, the lower-rank Demon, and the weakest Demon among the lower-rank Demons to vent their dissatisfaction about participating in this battle of gods!

The Abyss was the Abyss of Demons.

Among the Demons, the rank was very strict. This rank wasn't a blind one; it was arranged based on strength.

Therefore, it made sense for Flora to launch a full-scale attack on the succubus.

However, this Abyssal Demon God still smelled a trace of conspiracy.

Of the 10 demon gods who participated in the battle, it was not particularly powerful, so it decisively withdrew its gaze.

Anyway, the plot was not against it.

If you break the rules, then break the rules. Anyway, it was the Succubus and Demon Flora fighting.

After the first succubus used Evil Flames, there was a second and a third.

Although the overall strength of the Succubus was increasing, the first group of succubus that followed Natasha was no less powerful than some lower-rank Demons.

However, in the entire succubus army, it was also true that most succubuses were weak.

Without the help of Evil Flames, it was very difficult for them to contend against powerful middle-rank Demons.

However, for some unknown reason, there was no indication from the Abyssal Demon that the Succubus was breaking the rules.

“Succubus, you broke the rules. Don’t blame us for being rude.”

Although there was no indication from the Abyssal Demon God, Demon King Flora did not do anything. He used his Will to vibrate the space and made a terrifying sound.

The Succubus could use the power of God, and the Flora Demon could also use the power of God.

In the sky, Natasha gave a new order expressionlessly:

“All Succubus, use Evil Flames to counterattack and destroy them! Yvette, you’re also participating!”

“Yes, Queen!”

Yvette entered the battlefield with a large number of flying elite succubuses.

On the battlefield between the Succubus and the Demon Flora, there were Demonic flames everywhere!

A large number of Flora Demons were burning and screaming!

A Succubus releasing Evil Flames was completely different from a group of succubuses releasing Evil Flames.

When a group of Succubus released Evil Flames, Evil Flames and Evil Flames could amplify each other.

When the Evil Flames continued to form, the effect was astonishing.

In an instant, countless Demon Flora were killed.

“Damn it!”

Demon King Flora roared.

Immediately after, a large number of elite Demons emerged from the Demon castle.

“They have broken the rules. Don’t be polite with them. Pray for the power of the Demon God in battle!”

Demon King Flora roared.

The Demon King Flora had a large number of elite demon armies. This was the core of the entire Demon Dynasty Flora!

More importantly, among this elite Demon army, many Demons had the right to pray to the Demon God for strength.

Demon Flora was already powerful. If they were to pray to the Demon God to strengthen their bodies, they might not be afraid of the Demonic flames summoned by the Succubuses.

After all, the evil flame summoned by the succubus was just a child flame, and its power was very small.

Of course, there were not many of them.

Unlike Lin Yan, Flora the Demon God could freely allow the succubuses to summon evil flames.

In fact, in the entire Flame Empire, as long as the degree of piety reached one degree, they could summon cold flame, white flame and other sub-flames.

These summonses were automatically handled by the godhead.

The believers wouldn't just summon for nothing. If they didn't summon for nothing, they would be "blackened" by the Godhead.

This kind of summoning was not a loss, especially when summoned by the Succubus. Every time the Evil Flames burned, it would bring a large number of energy points. This was the benefit of Lin Yan's energy points.

After the Demon King gave the order, the elite Demon army of the Demon Dynasty rushed towards the succubus army.

At the very front was the powerful Demon Flora.

In this war, other than the Demon King ranked existence who had not participated in the war, almost all the legendary Flora Demon had participated.

Chapter 449: Instantly killed the Demon army! Demon God Flora descended!

: Instantly killed the Demon army! Demon God Flora descended!

The legendary Demon Flora did not attack the ordinary Succubus. Instead, he started a battle with Yvette and Enos in the air.

They were indeed powerful.

Even if Yvette and the others had Evil Flames, it would be very difficult to defeat them in a short period.

More powerful Flora Demons had rushed out of the Succubus Legion.

"When they release that kind of flame, I will use the power of the Demonic God's descent to support the Divine Light and block that kind of flame. As long as you break the seal of that flame, you will kill them abnormally!"

In the Flora Demon Legion, a rank seven Demon leader said.

The core army of Demon Flora was not only powerful but also experienced in battle. They were not like the Demons of the three Demon dynasties in the Abyss of the Demon.

The three demon dynasties looked vulnerable to them.

The gods of the three demon dynasties were also very weak. They were only the first-ranked gods.

As for them, they were powerful middle-rank Demons. Their gods were still the second ranked Abyssal Demon Gods!

Therefore, they quickly found a strategy to counter the Demonic flames.

Use the power of God to fight against the power of God.

They could break through the Evil Flames' blockade as long as they could counteract it.

In their eyes, as long as they could get close to the succubuses, the succubuses would definitely die!

The weak-bodied succubuses didn't possess the strength to fight against powerful mid-ranked demons in close combat!

In the sky, the elite Demon Flora Corps didn't use the same overwhelming charge as before.

Instead, they reorganized the formation and charged at the Succubus army in a sharp cone.

At the very front of the spike were the powerful Demon Lords.

In this huge battlefield, there were many such sharp awls.

It looked as if it had started to rain.

With this type of charge, the Demon Lord at the front could use the power of the Demonic God to support the divine light and block the Evil Flames!

Under their dive, the defensive line formed by the Demon-hunting ants in the sky was instantly broken through.

Countless small holes were punctured!

A large number of sharp awls descended from the sky!

"They're here, prepare!"

Below, the Succubus had already made preparations!

Many succubuses gathered together and prepared to release the Evil Flames.

The power of the Evil Flames would also be exceptionally great.

"Great Demon God Flora, give me strength!"

On the top of a pointed cone, the Demon Lord roared.

Then, a force descended from the sky. It belonged to Demon God Flora. This Demon Lord quickly raised his Divine Light!

The speed of its dive was extremely fast.

In the blink of an eye, it was close to the ground. The Demon Lord could already see the determination on the faces of the Succubus.

"Go die!"

The Demon Lord sped down, and behind it, there were densely packed Demons!

"Boom!"

The evil flames of the succubuses had finally erupted.

A large number of succubuses also gathered together and formed a huge Evil Flaming Pillar, charging towards the sharp awl formed by the Demons. Under the enormous impact, the divine light that the Demon Lord had supported only lasted for a moment before it shattered.

Then, the Evil Flames engulfed the entire spike!

Under the attack of the Demonic flames, a large number of Demons turned into ashes.

The Demons that hadn't turned into ashes were even more miserable, every one of them was burned to the point of screaming.

“Boom!”

It wasn't just the Evil Flames that erupted.

Countless columns of Evil Flames erupted at the same time!

In the sky, the “sharp cones” falling from the sky became “Flame cones”!

Countless elite Demons were instantly killed in an instant.

More Demons were being burned by the evil flames. They were desperately trying to escape the evil flames.

“Demon hunting ants, attack!”

Demon hunting ants took advantage of this opportunity to attack and kill a large number of Demon Flora whose strength was originally stronger than theirs!

The succubuses, who had freed themselves, began to attack the slave Demons of the Demon Flora Dynasty. Countless slave Demons were burned to death by the Evil Flames!

Flora was so angry that his lungs almost exploded.

“I found you!”

Natasha whispered in the sky.

She suddenly disappeared from where she was. When she reappeared, she had already appeared in the sky above the demon castles of the Demon Flora Dynasty. With a raise of her hand, a large amount of Evil Flames rushed towards the demon castles.

“Boom!”

Under the attack of the Demonic flames, the castle of Demons exploded one after another.

Following that, a miserable figure fell out from within.

It was Demon King Flora.

“Succubus King, you are courting death “!

Demon King Flora was powerful and charged at Natasha.

Natasha snorted and fought with Evil Flames.

Her Evil Flames were many times more powerful than those of an ordinary succubus.

Even though Demon King Flora was powerful, he was still beaten up by Natasha!

“There’s no need to continue this game.”

Natasha was not going to drag it out with Demon King Flora.

Before Flora Castle could react, she was sent flying by the Evil Flames. Natasha chased after him and held the sword in her hand. She was about to behead Demon King Flora but at this moment, a terrifying fluctuation suddenly came from the endless sky.

Following that, an extremely terrifying attack descended from the sky and attacked Natasha.

Natasha’s face changed, and she left as soon as the rules of space were activated.

The attack landed on the group of servant Demons below, killing countless of them.

“There’s going to be some fun to watch. Demon God Flora is enraged. He has completely broken the rules and attacked the Succubus King. However, the Succubus King is able to dodge the attack of a Demon God, so he has a bit of strength. No wonder the succubus dared to participate in the God Sacrifice Battle in Harubi’s Abyss.”

Among the surrounding demons, Lord Harubi said.

“Demon God Flora is too angry. The king of the succubus is a powerful devil king. He might not be able to do anything to her. I wonder if Demon God Flora will come.”

Another Demon said.

In the eyes of these Demons, Demon God Flora was unwilling to accept the defeat of the Flora dynasty!

“Demon God Flora, you actually attacked directly! You’re not afraid of angering the God of Dark Soul and the God of Darkness!”

In the endless skies, an Abyssal Demonic God transmitted his will.

“Mind your own business.”

Yasor, the Demon God of Flora, retorted without any hesitation and continued to chase Natasha.

However, as the Demon king, Natasha was powerful. The Demon God Flora had no way to deal with her.

Yasor snorted in his heart and stood up from the throne in the Divine Kingdom, tearing open a tunnel.

Yes, it was preparing to descend!

When Demon God Flora opened the tunnel, a terrifying wave came from above the Abyss.

“Heavens, is Demon God Flora really prepared to descend with his explosive temper? It was a second-ranked God, yet it dared to break the rules like this. Wasn't it afraid that an even stronger Demon God would take care of him?”

Lord Harubi and a large number of powerful demons who gathered around looked dumbfounded.

Chapter 450: Lin Yan's strong presence! An overbearing dark contract!

The plot of the God of Darkness was actually very simple.

It was to let God of Darkness, the Demon God of Flora, lead Lin Yan down and kill him.

It would be very difficult to draw down an Abyssal Demon God, especially when the other party had discovered your plot.

Therefore, the plot of God of Darkness, the God of Flora, was very simple.

That was to make the plot look like it was not a plot, and let everything go naturally.

Every Abyssal Demon God was an expert at plotting and scheming. Their vigilance was high and they would not fall for it easily.

To the Abyssal Demon God, the most brilliant plot was definitely a plot that could not be seen through at all!

Just like now, it seemed that God of Darkness, the God of Flora, had attacked in anger because of the defeat of the Flora Demon Dynasty.

This made sense.

After all, a powerful middle-ranked Demon dynasty had actually lost to a lower-ranked Demon dynasty. These lower-ranked demons were the weakest of all the lower-ranked demons!

For Demon God Flora, this was a huge humiliation!

If it did not personally take action to save face, then even if the Demon God Flora was a second-ranked Demon God, his reputation in the Abyss would be greatly damaged.

Well, the Demonic God also valued fame. A Demonic God without fame could easily become the soft persimmon in the eyes of other Demonic Gods. Perhaps other Demonic Gods would think about it.

In the Abyss, the ranks between Demons were quite strict.

A middle-rank demon was usually too lazy to talk to a lower-rank demon.

For example, this time, the ruler of Harubi knew which demon gods were participating in the battle of sacrifices, and he also knew the God of Darkness. However, he would not tell the succubus this information, even if the succubus was qualified.

Of course, Master Halrubi did not know about the grudge between Lin Yan and the God of Darkness.

Among the Demon gods who participated in this battle, a few of them knew that the God of Darkness had participated, but they would not say anything.

After all, Lin Yan was not a genuine Abyss Demon God. In terms of understanding of some information in the Abyss, he was indeed inferior to a native Abyss Demon God!

Of course, even if Lin Yan knew of the God of Darkness, it was nothing.

It was different from the past because back then he was not afraid of the God of Darkness.

Now, he was still not afraid!

God of Darkness and the God of Flora, did a full play.

While a large number of Demon Flora was charging at him with a sharp awl, it did not drop much power.

Otherwise, Demon Flora would not have died so quickly.

Even before they were completely wiped out, they could bring some casualties to the succubus.

But in order to complete what the God of Darkness had told him, and to obtain the benefits promised by the God of Darkness, the God of Flora, sacrificed the Demons.

The entire Flora Demon Dynasty would be greatly injured, but it did not matter.

As long as he cooperated with the God of Darkness to kill the Lord of Flame and obtain the item promised by the God of Darkness, it could at least increase its godhead and body by one rank.

As long as it remained strong, the Flora Demon Dynasty would soon become strong again!

After all, the birth of Demons was too fast, and the growth of power was also fast.

In the endless sky, the movement of the approaching Demon God Flora made the entire war in Harubi Abyss pause.

It was as if a pause button had been pressed, but then the war between Harubi and Abyss continued.

However, a large number of powerful Demons from the other eight Demon dynasties focused their attention.

These eight demon dynasties did not violate the rules.

They continued to follow the rules and step by step, not expanding the scale of the war too early.

Among the eight Demon dynasties, the powerful Demons did not participate.

Even the core Demon armies of the eight Demon dynasties did not participate.

Their core Demon army was in the Demon castle in the sky. They were all-powerful Demons!

The arrival of Demon God Flora was not that fast. After the passage opened, it would still take at least a minute or two to arrive.

Natasha dodged its attack and looked up at the tunnel.

She frowned.

Instinctively, Natasha felt that things were not so simple.

However, Natasha still prayed.

While praying, Natasha made some guesses!

“Demon God Flora wants to descend personally! It seems that the defeat of the Flora Dynasty by the Succubus Dynasty has greatly stimulated him. However, he left his kingdom just like that. Isn't he afraid that others will attack him?”

In the endless skies, the Demon God who had thought that there was a plot was muttering to himself again.

“Why do I always feel that something is amiss.....”

After Abyss Demon God finished speaking, he fell silent because he knew that even if there was something fishy going on, with his strength, he had no right to participate.

The other Demon gods looked down at the commotion caused by God of Darkness.

The Master of Darkness also concealed his aura and silently watched the situation unfold.

For now, there was no special reaction from the Abyssal Demon God.

Some of the Abyss Demon Gods were not strong enough. Even if they wanted to take advantage of Demon God Flora, they were not strong enough.

That powerful Abyss Demon God might still be observing.

The Abyssal Demon God was rather cautious.

In any case, it wasn't them that Flora wanted to deal with.

It was better to watch the play.

“Master God, you only need the same resources as the Fruit of No Flowerless to rank up your rank 15 Divine Body. There is no news of the Fruit of No Flowerless yet. Mavis and I are looking for other substitutes.”

In Vera's Divine kingdom, Vera spoke to Lin Yan.

Mavis was still in Vera's Divine kingdom. She was still stabilizing her LVL 10 Divine body.

At the same time, she also comprehended the secrets of higher Divine energies.

Once she completed her comprehension, she would be able to attempt to raise her godhead to rank 11.

Just as Lin Yan was about to speak, he moved slightly.

“Demon God Flora.”

Lin Yan muttered in his heart.

“I'll be right there.”

After Lin Yan finished speaking, he left Vera's Divine Kingdom.

In Harubi's Abyss, countless powerful Demons stretched their necks, waiting to watch a battle between the Demon gods.

Although the war between the Demon gods was widespread and they often ended badly, this was the abyss of Harubi. To these Demons, Flora was not the strongest Demon God.

Even if he broke the rules, he would only dare to attack the Succubus and the Succubus God, the Lord of Flame.

He probably did not dare to affect the gains of the other Demon Gods.

Therefore, these powerful Demons were not worried.

“Lord of Flame, according to your style, you’ll definitely descend, right?”

In the endless sky, the will of the God of Darkness descended and cast his gaze towards the God of the Pyramid.

She had absolute confidence that she would not be exposed.

At the very least, she guessed that Lin Yan would most likely descend.

As long as Lin Yan descended, it would be easy.

She would let Lin Yan know how serious it was to anger her.

However, up until now, there was still no movement on Lin Yan’s pyramid throne.

“God of Darkness, don’t descend too fast. Three minutes!”

Seeing this, the will of the God of Darkness sent a message to Flora.

The more powerful a Deity was, the faster it would descend.

At most, there was only a minute and a half left.

The God of Darkness didn’t want the God of Darkness to be too strong. Based on her understanding of the Lord of Flame, the Lord of Flame would most likely take the risk to quickly kill the God of Darkness after God of Darkness’s arrival.

The commotion caused by Demon God Flora grew louder and louder.

In the sky, the Succubus was still chasing after the Demon.

After the Demon king escaped, he didn’t care about the war below. Instead, he hid from Natasha.

“If I let you be arrogant, you’ll die after my God descends. Humph, your God doesn’t dare to descend, does he?”

Demon King Flora thought bitterly.

It did not know the true purpose of Flora.

If it knew that Flora had sacrificed more than half of its dynasty to lure Lin Yan down, even it could have sacrificed itself; it would not know how it felt.

In the blink of an eye, three minutes had passed.

However, there was still no movement within Lin Yan’s Divine throne.

“Could it be that he’s scared?”

The God of Darkness couldn’t help but think.

If Lin Yan did not come down, her plan would have failed.

“God of Darkness, what should we do? He hasn’t moved at all.”

Flora Demon God Darkness was only one step away from coming. However, seeing that Lin Yan did not make any movement, he had to ask the God of Darkness about her idea.

“It’s too obvious if we drag it on. Descend and attack the Succubus. If the Lord of Flame doesn’t dare to descend, kill all the Succubus in one minute and destroy the Succubus Dynasty in the Abyss of Mobis. Let’s see how long he can hide.”The God of Darkness snorted softly.

Without any hesitation, God Flora walked out of the tunnel.

As it descended, a terrifying energy tide rose in the entire Harubi Abyss.

“It really has descended!”
