

## Lord of Flames

### **#Chapter 46: They Couldn't Stop At All! - Read Lord of Flames Chapter 46: They Couldn't Stop At All!**

*Chapter 46: They Couldn't Stop At All!*

#### **Chapter 46. They Couldn't Stop At All!**

“Chief, run! We can't beat them!”

Beside the Centaur Clan's Chief was the High Priest of the Centaur Clan.

Although the High Priest's strength wasn't weak, it was also very limited. Since he had just saved the Centaur Clan Chief from Meng Ying's Divine attack, the energy he spent was already quite high.

His face had turned extremely pale.

Run?

Escape?

As the Centaur Clan's Chief looked at his soldiers who had been beaten into submission, his heart was filled with despair!

The Centaur Tribe had never been this unsuccessful in a war between the Orcish tribes.

Even if they lost, it would still be against a powerful race like the Lion Clan and the Bear Clan.

However, they were beaten up like this by the weak Fox Clan!

The Centaur Clan Chief was unwilling to give up.

But no matter how unwilling he was, it was all useless!

“Retreat!”

Once the Centaur Clan's Chief shouted, he took the lead in rushing out of the gorge.

As soon as he gave the order, the remaining soldiers in the canyon stopped charging and started fleeing!

“They’re about to run away!”

Above the canyon, the Qing Ling looked at the fleeing soldiers and exclaimed.

Their speed was extraordinary, if they were to focus on escaping, then the Fox Clan wouldn’t be able to catch up to them.

As a result, the moment the Centaur soldiers started to run, many of the Fox soldiers became anxious and began to chase after them.

However, the Fox soldiers were unable to catch up to them!

Upon seeing that these people were about to escape, Meng Ying shouted, “Holy Maiden! Pray!”

The Fox girl nodded her head and placed her palms together near her chest, she started praying in a low voice.

Three seconds later.

*Boom!*

In front of the fleeing Centaur soldiers, flames suddenly appeared and rose.

These flames spread extremely quickly. In the blink of an eye, a wall of fire formed in front of them!

Because of the momentum, some of the speedy warriors couldn’t stop at all. They charged directly into the flames and became ashes.

Even though the Centaur soldiers behind them managed to stop in time, they were immediately pushed into the flames by the troops further behind them.

“Don’t push! There’s a fire ahead.”

“Stop! Don’t rush forward!”

The people in front all cried out loudly.

Behind them, the soldiers also had bitter expressions on their faces.

They also wanted to stop... But everyone at the back just wanted to escape. They couldn’t help but push forward!

Thus, in an instant, countless Centaurs were pushed into the flames by the people behind them and had burnt to death!

.....

“The great Lord of Flames has helped us!”

The atmosphere on this side of the battlefield was completely different from what the Centaur soldiers were experiencing. The Fox warriors were extremely excited!

In this battle, these Fox soldiers had already performed quite well.

The archers were the main attack force. They cooperated with a large number of spear throwers.

In the foremost of the battle, a lot more Fox warriors were in charge of protecting these archers and spear throwers, they prevented the enemy soldiers from reaching them.

At the start, there were more than 8,000 Centaur soldiers, but now, only less than half of them remained.

Because they were fast, it was difficult for the Fox warriors to annihilate them.

Fortunately, the great Lord of Flames released his powers and blocked their enemy's path of retreat!

The Fox people who had witnessed the power of the Lord of Flames were all a little excited and had a boost in morale!

....

“We're losing and our escape route has been sealed!”

After seeing this scene unfold before him, the Centaur Clan's Chief's expression became extremely ugly.

“Charge through the canyon and break out on the other side!”

The Centaur Clan's Chief immediately made a decisive decision. He led the Centaur soldiers back and started rushing through the canyon!

Above the canyon, the Fox people had already started attacking again.

Even though their opponents' speed was very fast, after rushing through this gorge, they once again managed to hit several hundred enemy soldiers.

As soon as they were about to charge out of the canyon...

*Boom!*

Another raging wall of flames suddenly rose!

These flames weren't made by their Lord of Flames, but were instead, prepared by the Fox warriors!

A large amount of firewood was placed at the mouth of the canyon, and then it was lit by magic to form a wall of fire.

As a result, the scene that happened just a while ago appeared once again!

“Stop! Stop! Stop!”

The soldiers at the front begged for the army to stop pushing them.

However, due to the fear, the Centaur soldiers kept moving forward.

Although they wanted to stop, they really couldn't!

*Chapter 47: Heaven Burning Flame! Kneeling!*

### **Chapter 47. Heaven Burning Flame! Kneeling!**

“What should we do? Chief, we can't escape!”

At the Centaur Chief's side, a Centaur warrior asked softly.

Currently, there were less than three thousand people left who still had the strength to fight.

However, some of them were injured.

It was equivalent to saying that there were over five thousand soldiers in the valley.

The life force of the Centaur warriors was very strong. Many of these Centaur warriors did not die. However, even if they could survive, they would not be able to recover without at least half a year of rest!

“Surrender first, Chief!”

The High Priest of the Centaur Clan said.

As he spoke, the Centaur Clan's High Priest gave the Centaur Chief a look.

The Centaur Clan's Chief was willing to listen. He put down his weapon and raised his hands, and shouted at the top of the canyon, “Surrender, we surrender!”

When the Centaur Chief shouted, the surrounding Centaur soldiers let out a sigh of relief.

Many of the Centaur warriors had long wanted to surrender!

This battle completely stunned these soldiers!

They had never felt so aggrieved before. They had been completely suppressed, not even able to retaliate!

The Fox Tribe, which was originally seen as a little lamb for slaughter, had actually become so powerful!

These Centaur warriors completely lost their fighting spirit. They no longer wanted to continue fighting!

After hearing the tribe leader's words, more soldiers raised their hands and shouted their surrender!

"Holy Maiden, the Centaur Race has surrendered. Should we accept their surrender?"

Above the canyon, a Fox warrior ran over to report to the Fox girl, Qing Ling.

The Fox girl Qing Ling pondered for a moment "Everyone, keep your guard up. Let's go down."

After saying that, she said to Meng Ying, "Sister Meng Ying, keep an eye on that High Priest of the Centaur Clan later."

Meng Ying nodded.

The two women walked down with quite a few fully-armed Fox warriors.

.

Behind them were a large number of spear warriors.

On both sides of the canyon, more than a thousand archers were already in position. They drew their bows and aimed their arrows at the Centaur warriors. If they moved, they would face a merciless blow!

Below them, all the soldiers were squeezed together. They had already put down their weapons and had no intention of resisting!

“Patriarch, I have a single-use Explosive Flame in my hand. Once it is released, it will be enough to kill the other party’s Magus’ and higher-ups. At that time, you should break out of the encirclement!”

At the very front, the High Priest spoke to the Centaur Clan’s Chief in a low voice.

The High Priest was very wise and did not want to turn the tables.

At this moment, there were only two thousand wounded soldiers left, and the Fox race did not suffer any losses. It was almost impossible to turn the tables.

The High Priest only planned for the Patriarch’s escape.

As long as he returned to the Centaur Clan, the Centaur Clan’s Chief could immediately gather a large army of thousands and mount a counterattack!

This time, the Centaur Race had been ambushed. Next time however, they will be a bit more careful. The Centaur Race might not necessarily lose!

The Centaur clan leader’s heart moved slightly, but the expression on his face did not change at all.

Not long after, the Centaur Clan’s Chief saw the two young girls walking over a hundred meters away from him.

“The Fox race is lead by two young girls!”

The Centaur Clan’s Chief was slightly shocked.

“Chief, it’s time. Let’s begin!” The High Priest said.

Thus, the Centaur Clan’s Chief and the High Priest walked towards the two young girls.

At the back, more than two thousand Centaur soldiers thought that they had really surrendered!

They didn’t see that behind Meng Ying and Qing Ling, there were several maids from the Divine Hall praying quietly.

Soon, the Centaur Clan’s Chief and the High Priest arrived at a place not far from the two young girls.

“Swoosh!”

An arrow shot at their feet.

“Stop!”

A Fox warrior gave a warning.

“It’s time!”

A cloth bag with various complicated imprints suddenly appeared in the High Priest’s hand.

He then pressed a certain symbol on the cloth bag and threw it at Meng Ying and Qing Ling with all its might!

*Boom!*

The cloth bag instantly exploded. Inside, a red flame emitted a dangerous luster.

Meng Ying had long been on guard against the High Priest. Her magic staff moved, and a red light shot towards the red flame.

However, her fire magic did not affect the red flame.

Just as the red flame was about to explode, another flame suddenly rushed out from behind Meng Ying and pounced onto the red flame.

Meng Ying saw that the red flame had disappeared in an instant!

It seemed like it had been destroyed or had it been swallowed?

Immediately afterward, the flame that was rushing out suddenly expanded.

*Boom!*

Instantly, the sky began to burn.

Flames were ignited in the sky dozens of meters above the canyon!

This scene looked especially shocking!

Flames could actually burn the sky!?

Moreover, it had burned such a large area of the sky!

In an instant, regardless of whether it was the Centaurs or the Fox people, their eyes widened!

“A miracle! This is a miracle! The mighty Lord of Flames has given us a miracle!”

Seeing this scene, the thousands of Fox warriors rejoiced!

Those Centaur warriors were all shocked. The expressions on their faces were as if they were in mourning.

It was unknown who took the lead, but the soldiers dropped to knees one after the other!

All those in the canyon instantly began kneeling!

*Chapter 48: Mountain Tribe Centaurs Shock!*

### **Chapter 48. Mountain Tribe Centaurs Shock!**

“This is...?!”

When the High Priest saw this, his heart trembled.

Then, Meng Ying’s magic staff lit up.

This was the last scene he saw!

Meng Ying didn’t hold back. She, along with the leader of the troops, directly used powerful magic to kill him!

When the High Priest of the Centaur Clan saved the Patriarch from Meng Ying’s divine attack, the consumption was already quite high.

In addition to being frightened by the flames in the sky, his head was a bit sluggish. He did not have the slightest resistance against Meng Ying Magic!

Meng Ying killed the High Priest of the Centaurs and the Centaur Clan’s Chief, with that done she looked at the flames in the sky.

Then, she bent down and lowered her head.

Who else could release such flames other than the great Lord of Flames, the only God in her heart?

Flames burning in the sky!

Meng Ying once again had a clear understanding of the power of the great Flame God.

“Holy Maiden, reinforcements for the Centaur troops are here!”

At this moment, a Fox warrior reported!

Centaur reinforcements!

“Holy Maiden, that shouldn’t be their reinforcements. They brought the white flag, and they seem to be from the Mountain Tribe Centaurs. They were relatively friendly to us in the past.”

Another Fox warrior came to report.

The Fox girl Qing Ling nodded slightly and said, “Ask their leader to come up and see me regarding the Centaur clan.”

.....

The leader of the Mountain Tribe Centaurs was a woman.

She had a body and a mane of white hair.

However, this woman was rather valiant.

Although her lower body’s hair was white, her upper body was tanned. One could tell that she had experienced a lot of time under the sun.

Yes, she naturally had clothes on her body.

The head of the Mountain Tribe Centaurs originally wanted to see the situation. She had some friendship with the Fox clan, so she didn’t want to see the Centaurs attacking the Fox clan too ruthlessly!

However, she never expected that the situation she saw would be so shocking!

At this moment, the Mountain Tribe Centaurs Chief led hundreds of people through the canyon. When they saw the soldiers on both sides, they were all shocked!

The Mountain Tribe Centaur’s soldiers never expected that the powerful army of soldiers would lose!

And they were defeated so thoroughly!

A complete defeat!

In this gorge, there were only corpses of the Centaur people. There were also a large number of heavily injured soldiers who were standing there!

However, not a single Foxman’s corpse was visible!

What did this mean?

This meant that the Fox Tribe might have won this battle with almost zero casualties!

Even if this was an ambush, this result was a bit too shocking!

They were powerful men!

The other party was the warriors of Fox Tribe who was less than a quarter of their height!

In the past, a strong Centaur warrior could defeat three or four Fox warriors!

However, these Fox people were able to defeat more than 8,000 powerful warriors with zero casualties!

If they hadn't personally witnessed such a thing, they wouldn't have believed it!

Then, they saw the burning flames in the sky!

"What is that...?"

These Mountain Tribe Centaurs were all shocked.

They had never even heard of such flames!

Heavens, what kind of flame was this?

Even the legendary Special Fires weren't that terrifying!

These Mountain Tribe Centaurs were all trembling.

They were afraid that the flames in the sky would descend and burn them to death.

What was even more frightening was the two thousand plus Centaur warriors who were afraid.

Even though they had surrendered, they did not have the heart to resist anymore. However, their leader and High Priest tried to kill their opponent's magus' and escape!

For some unknown reason, when they saw their Clan Chief and High Priest being killed, not only did many of the soldiers not feel the slightest bit of anger, they even felt a bit happy!

The reason for that was, if the actions of the Centaur Clan's Chief and the High Priest were successful, they would most likely have been killed by the enraged Fox warriors!

...

Amidst the anxiety, the leader of the Mountain Tribe Centaurs arrived not far away from the Fox girl Qing Ling.

Their weapons were naturally all confiscated.

“Eh, Qing Ling, you’re the leader of the Fox Race now?”

When the Mountain Tribe Centaur’s Chief saw Qing Ling, she revealed a trace of surprise.

She actually knew Qing Ling!

*Chapter 49: The Enemy Troops have submitted!*

### **Chapter 49. The Enemy Troops have submitted!**

“O great Lord of Flame, our Mountain Tribe is willing to give you our most devout faith!”

In the valley of the canyon, the Chief of the Mountain Tribe Centaurs bent her knees and knelt on the ground!

Yes, after witnessing the defeat of the Centaur clan, even the Clan Chief and the High Priest were defeated, and seeing such a great miracle, the leader of the Mountain Centaur Tribe had already decided to submit to the great “Lord of Flames”!

Soon after, the remaining soldiers also expressed their allegiance!

Under such circumstances, not submitting meant death.

However, quite a few Centaur warriors were not forced to do so!

These soldiers had never seen a miracle before!

The Barbarian Gods that the Centaur tribe had believed in had never given them a miracle!

Therefore the Lord of Flames’ miracle was too shocking!

What was even more shocking was that the Fox race, who believed in the Lord of Flames, had become so powerful in such a short period of time!

This wilderness that had been burned by wildfire seemed to have been bestowed to them by the Lord of Flames!

With all these factors added up, the reverence that these warriors had for the Lord of Flames had reached an incomparable level!

Then, the Fox girl, Qing Ling, conveyed the Lord of Flames' message.

*Allow these soldiers to treat their severely injured companions!*

As for the great Lord of Flames, a white flame descended.

Some of the heavily injured Centaur soldiers who were caught by this type of flame recovered quickly!

This was another incredible miracle!

At the same time, it also showed that the great Lord of Flames was merciful!

He was not though. This was merely him showing kindness toward his followers!

He was not merciful to his enemies!

That was certain!

To be merciful to one's enemy is to be cruel to oneself!

Previously, they were enemies, so they were brutally attacked!

Now, they had already submitted, so they were treated with mercy!

The Lord of Flames displayed its power and mercy. The remaining warriors had almost all submitted to the Lord of Flames.

.....

In the next few days, the Centaur Clan underwent a huge change!

The news of their defeat within the canyon was sent back, as well as the news of the Lord of Flames displaying a miracle.

The Centaur Clan was shaken!

With the support of the Fox warriors and the Centaur warriors who had submitted to the Lord of Flames in the canyon, the leader of the Mountain Centaur Tribe was able to completely wipe out all the forces of the previous Centaur Clan Chief!

At the same time, all the Troop Leaders of the smaller tribes were completely wiped out!

Then, the Mountain Tribe Leader became the new Clan Chief of the Centaur race.

All the small tribes were reorganized!

Some restless factions were expelled!

In fact, after hearing the surviving soldiers narrating the miracle, other than the higher-ups of the previous tribes, the lower-level soldiers had no other intentions other than to submit!

There were no troops, daring to contend against a God who had performed a miracle!

Earlier, the higher-ups of those tribes had also been completely eliminated by the Mountain Tribe leader!

Without these high-ranking members of the previous tribes causing trouble, the entire army was united as quickly as possible.

Soon after, the Mountain Tribe leader also sent people to build a new Divine Hall in the Miracle Wasteland.

In order to express her loyalty to the great Lord of Flames, she sent her most beautiful daughter, a very special little white Centaur, into the Divine Hall in order to be the Holy Maiden of the Divine Hall!

Her white hair was not tainted by any other colors!

It was said that she was the most beautiful Centaur among the young women of the Centaur race.

Yes, only looking at half of her body was indeed beautiful.

This little white horse was not bad.

*Chapter 50: Flourishing!*

## **Chapter 50. Flourishing!**

The battle against the Centaur Race had completely moralized the Fox race!

It was only now that all the members of the Fox clan had realized that they were already so powerful!

All of this was brought to them by the great Lord of Flames!

All the members of the Fox clan had great faith in Lin Yan.

Every day, a large amount of Faith Power gathered into Lin Yan's Virtual Godhead.

Over eighty thousand Foxes could contribute more than a hundred thousand belief power every day!

It was equivalent to giving Lin Yan a drop of Divine Power every single day!

Of course, this was the lowest level of Divine Power.

Lin Yan's use of Divine Power was also very low.

Therefore, Lin Yan allowed his Faith Power to be stored within the Virtual Godhead.

As for the tens of thousands of people from the Black Fox tribe, they could also contribute a large amount of Faith Power to Lin Yan every day!

Following the submission of the Centaur Tribe, the Centaur Tribe also began to contribute Faith Power to Lin Yan!

As a flame with a system, Lin Yan might not be able to follow the path of becoming a God, in the same way as other Gods, but with the Virtual Godhead, the power of belief he collected was naturally greater!

.....

The next ten or so days was enough time for the troops to regroup.

After half a month of chaos, the Centaur race was on the right track.

The new Divine Hall was also completed.

The beautiful daughter of the Mountain Tribe leader, that little haired girl had already entered the Divine Hall.

Her name was similar to Qing Ling's name.

Her name was Bai Ling.

The temple is situated in the territory of the Centaur race located in Miracle City to allow those people to pray!

Lin Yan activated his blessings several times at the right time, causing the Centaur tribe's people to exclaim in admiration at the generosity and power of the Lord of Flames. Their faith in him had also deepened!

The Mountain Centaurs were given the right to live in the Miracle Wilderness.

As for the people of other races, as long as they were devout enough, they could also live in the Miracle Wilderness!

As for the Centaur Race's original dwelling place the small plains, it was also used for the planting of potatoes.

Everything was on the right track.

Everything was flourishing!

.....

After burning all the totems of the Centaur race, Lin Yan returned to the Fox Clan's Divine Hall with a large harvest.

At this moment, the Fox girl Qing Ling was praying to him.

"My god, thank you for the flames you have given us. The dwarves' iron smelting efficiency has become even higher. I want them to design a suit of armor suitable for the Centaurs troops so that they can become warriors charging forth in the name of our God. Is that feasible my Lord?" The Fox girl asked.

When she was alone in the temple, she would always speak her thoughts when she prayed.

Sometimes, Lin Yan would respond to her.

Sometimes, he would not respond.

Even if Lin Yan did not respond, the Fox girl Qing Ling would not worry.

And once Lin Yan was able to respond in any manner, the Fox girl would be happy for a long time.

This time, Lin Yan had given her enlightenment.

*Sure!*

His words became more and more precious.

However, this word made the Fox girl's spirits soar, bringing her to cloud nine.

Her idea was indeed feasible.

Why is the cavalry of humanity so powerful?

A person riding on a horse whilst wearing heavy armor was the reason why the cavalry was so powerful!

However, how could the coordination between a human and a horse be perfect?

Not only were they not as powerful as the Centaur warriors, even though the horses of the heavy cavalry were all huge, but they also were not as strong as the Centaurs!

The highest level of cavalrymen was the combination of man and horse. Yes, it was the combination of men and horses.

The cavalry he had now was the unification between man and horse! The Centaurs!

What they lacked were weapons and equipment!

Lin Yan thought for a moment and gave the Fox girl, Qing Ling, a Revelation.

The Revelation was that when the dwarves were refining their armor, adding magical runes would cause the armor to gain a certain amount of magical protection!
