

Flames 471

Chapter 471: Upgrade one after another! Nine sanctuaries!

: Upgrade one after another! Nine sanctuaries!

“Master, there are a total of 9,854 Divine Stones. Three thousand of them were exchanged for something you need.”

In the Divine kingdom, the God of Darkness turned into a well-dressed princess and handed a ball of light to Lin Yan.

Lin Yan took it and threw another ball of light at the God of Darkness.

The God of Darkness took it and saw that there were a lot of Heavenly Realm items inside.

“So many!”

The God of Darkness was shocked.

There were too many things in the Heavenly Realm, and they were all useful to the Abyssal Demon God!

“Master, how many gods have you killed?”

The God of Darkness could not help but think in shock.

“Get rid of them. Don’t let them out too much at once.”

Lin Yan said calmly.

“Yes, Master!”

The God of Darkness lowered her head and lowered her hand. She was as obedient as an obedient child.

If her opponents saw this scene, it would shock them to death!

Moreover, the God of Darkness had recently become obsessed with this role-playing.

If Lin Yan saw her new outfit and noticed her expression, he would be able to encourage the statue.

After Lin Yan left, she still maintained her princess dress, demeanor, and behavior. She was even more like a princess than the princess Luo Ying.

“In that case, the Master is even more powerful than I imagined. Well, then I’ll let my hands go.”

The God of Darkness thought.

She was going to organize an even larger auction.

The Abyss differed completely from the Heavenly Realm.

In the Abyss, without a powerful deterrent, an auction like this could not be organized.

Demonic gods did not follow the rules.

In order for the Demonic Gods to abide by the rules, they had to use their powerful strength as their backing.

In the Abyss, the God of Darkness once again sent out a large number of people to contact more Demon Gods and organize a larger auction.

In the Heavenly Realm, the Elf, Garcia, and Clara split into two groups, turning a large number of Abyssal objects into Divine stones.

They hadn't put much of it on the market, and they had chosen to put it in different domains each time. So far, every time they went there, they would still be snapped up.

As long as there was a rush, Abyss items could be sold at a decent price.

Furthermore, the Abyssal items that Lin Yan had gathered from the Demonic Gods were extremely rare in the Heavenly Realm. There were even abyssal items like the Dead Soul Flower.

As a result, the rate at which the Divine Stone entered the accounts increased.

In addition, a large number of things that Lin Yan needed appeared.

After all, the Abyssal Abyss could attract high-ranked gods, such as the peak of the third rank. There was even a Holy Spirit that seemed to be sent by the fourth ranked God.

The higher the rank, the easier it was for Lin Yan to have what he needed.

In the blink of an eye, another week passed.

“The harvest is too great.”

At the end of an auction, Garcia exclaimed.

This time, not only did he collect five items that Lin Yan needed, but he also collected nearly twenty thousand high-ranked Divine Stones.

Vera was surprised when Garcia handed over the harvest.

“It's probably because the solar energy tide is about to erupt, so some powerful gods want to take this opportunity to improve their strength. Fortunately, they will gain more when the solar energy erupts.”

Vera guessed.

“En, the flare can not only collect Divine substances but there is also strange energy in the sun. After absorbing it, it will be of great help to both the Divine body and the godhead.”

Mavis also said.

Now, there were only less than ten days before Lin Yan could erupt.

As for Lin Yan, he needed more than half of what he needed to reach the fourth rank.

Collecting things through the auction was much faster than when Garcia and the others were gathering things from one god's kingdom to another. When they met the Holy Spirit, they would find out much faster.

This was because the auction itself could attract a large number of gods.

The rank of these gods was not low. Very few gods of the first rank came to join in the fun. Most of them were gods of the second or third rank.

When some gods needed the Abyssal items, and they did not have enough Divine stones, they would often choose to use some of the things in their hands.

This allowed Lin Yan to collect resources very quickly.

Of course, what could be collected now was not particularly rare.

There were a few that were especially rare. It would probably take some effort.

However, if this continued, it wouldn't be long before Lin Yan had all the resources.

Another day passed.

On this day, a completely different fluctuation came from Mavis.

She finally reached the third rank!

A happy expression appeared on Mavis' face.

"Mavis, you've reached the third rank." Vera was happy for her.

Among all the Elven goddesses, Vera and Mavis had the best relationship.

Mavis nodded and looked at Lin Yan. "Thank you, Master God!"

There was an emotion in her eyes as she looked at Lin Yan.

Even Vera felt it strongly.

"Mavis is in love with God."

Vera thought.

She was the same.

Vera was not the kind of goddess who took the initiative.

She really enjoyed her current state. Every day, she followed Lin Yan, and occasionally, Lin Yan would touch her little head. At that time, her heart was especially sweet.

Mavis was actually a little more daring than she was.

Of course, it was only relative.

If Vera was to exchange roles with Mavis, Lin Yan had first entered the Divine Kingdom of Mavis. No matter how much Vera liked Lin Yan, he would not visit Mavis.

But Mavis was bold enough to visit Vera to see Lin Yan.

That was why Mavis was bolder.

But Mavis was still reserved.

Her expression was still reserved.

After all, she was a goddess.

It was impossible to be too proactive.

Mavis had also become the third rank!

Now, Lin Yan only had two goddesses, but these two goddesses were on the third rank!

Vera's godhead was almost thirteenth ranked, and she was about to catch up to the Goddess of Light.

Not only did Vera and Mavis rank up in the Heavenly Realm.

On the continent of gods, Chen Xi was about to break through.

In the Holy Flame Forest, Chen Xi sat under the Tree of Life, staring blankly at a flame.

Chen Xi naturally obtained the flame through prayer.

Within this small flame, there were many rules.

These rules did not confuse Chen Xi.

The first rule she wanted to touch was the life rule.

For elves, the rules of life were also relatively easy to touch.

Chen Xi was very focused. She had been in this state for several days.

On the day that Mavis broke through to the third rank, Chen Xi finally moved.

She stretched out her hand and tapped lightly in the air!

It seemed like Chen Xi only reached out to touch the air, but in reality, this point of Chen Xi had successfully touched a rule!

When she touched the rules of life, the surrounding grass sprouted. Some grass that never bloomed actually bloomed!

Of course, the grass was not the weeds, but the grass was carefully cultivated by the Elves.

It was different from when Meng Ying broke through.

When Meng Ying broke through, she was in the desert, and Lin Yan had helped her increase her strength through a special blessing. Therefore, Meng Ying did not pay attention to controlling the energy fluctuations she brought when she broke through to Sanctuary.

It caused a huge sandstorm!

As for Chen Xi's breakthrough, she relied entirely on herself. She had been carefully controlling the energy fluctuations.

Therefore, when she broke through to Sanctuary, she did not cause too terrifying energy fluctuations.

It was a silent breakthrough.

It was like the wind and rain!

However, it was still sensed by the surrounding Elves.

In the entire Holy Light City, all the Elves seemed to hear a piece of wonderful music. It was the song of the rules.

When the Tree of Life broke through the Sanctuary in the morning light, it seemed to have been nourished and suddenly grew several meters tall!

“The Queen has broken through to Sanctuary!”

Many powerful Elves thought.

Beside the Tree of Life, Lomina had long been guarding it.

Lomina was also very close to the Divine Domain.

Her knowledge was no less than Chen Xi, and her strength was no weaker than Chen Xi.

However, the first to break through was Chen Xi.

During the twenty years underground, Lomina had understood too much about darkness.

This knowledge was not useless.

However, she understood too much that made her less pure and devoted than Chen Xi.

After Chen Xi broke through to Sanctuary, the aura on her body began to change.

Lomina looked at her from the side.

A few minutes later, Chen Xi finally opened her eyes and looked at Lomina.

There seemed to be an endless mystery in her eyes.

As soon as she touched her eyes, there was a “bang” in her head.

Because, after being inspired, Lomina also saw the mysteries of the rules!

Her aura began to change drastically.

“Mother is about to break through?”

Chen Xi revealed a look of joy.

Chapter 472: Upgrade one after another! Nine sanctuaries!

: Upgrade one after another! Nine sanctuaries!

She casually set a barrier up by waving her hand.

This was to prevent Lomina from being disturbed.

If Lomina succeeded in breaking through, then two Divine Domains would appear in the Holy Flame Forest!

With the two Divine Domains, the entire Holy Flame Forest would truly rest easy.

She was not afraid of any enemies!

At the same time, in the Rocky Forest beside the Holy Flame Forest, the cold-faced Angst stood up.

“It should be better!” Angst said.

Yes, she had spent several months healing Olivia.

Being injured by the dark rules was just that serious.

Therefore, Angst's enemies basically did not survive.

If her enemies survived, those enemies wouldn't be able to recover for more than a thousand years.

"Thank you, sister!"

Olivia said.

Over the past few months, Olivia had already known that Angst was still controlling the power of darkness.

However, this dark power was very strange, it seemed that it would not be suppressed by the Continent of God.

Inside, there was also a trace of light.

This discovery made Olivia unable to understand Angst's current state.

However, Olivia was certain that Angst had returned to the light.

After a thousand years, although Olivia still looked radiant and kept her body in her twenties, she was already over a thousand years old and naturally had a mature mentality. However, she was not as radical as she was in the past.

As long as Angst returned to the light, that would be enough.

Why would she care so much?

Angst was also over a thousand years old. In a thousand years, Angst had grown up, so she did not need to worry about it.

In reality, the current Olivia thought that the former Angst did not need her to worry about either.

Angst nodded lightly.

Her expression was always very calm.

Olivia stood up.

Her aura began to change.

She wanted to take advantage of the moment when her injuries had completely healed and charged into the Sanctuary!

On the same day, shortly after Mavis rose to the third rank, Lin Yan found that she could increase her strength for Natasha.

It would take a lot of effort to elevate Natasha to the Heavenly Demon Emperor, but to the current Lin Yan, it was not particularly difficult to bear.

Therefore, Lin Yan immediately increased Natasha's strength.

After raising her strength for Natasha, Lin Yan also raised her strength for Princess Barbara.

However, Princess Barbara was extremely excited because this meant that the Master had started to value her.

Although Princess Barbara was an Abyssal Succubus, she was not too ambitious.

It was impossible for her to develop.

However, her defense was enough.

So now Natasha was in charge of fighting in the Abyss.

Barbara was in charge of overseeing the Succubus Dynasty.

The current Succubus Dynasty started to grow on a large scale.

Abyssal creatures rarely planted anything.

They all depended on the heavens for food. There were too many things to eat in the Abyss. There were many plants and lush plants. Every day, a large number of Abyssal creatures were born. These were all food for other Abyssal creatures!

In the past, the succubus could survive in the resource-poor Red Earth Abyss because of their simple planting methods.

But now, they were going to grow large patches of ghost flowers.

Besides that, there was also a kind of demonic rice filled with energy!

“Thank you, Master!”

In the Red Lotus Abyss, Natasha expressed her heartfelt gratitude to Lin Yan.

Now Natasha had successfully become the Sky Demon Emperor!

This was equivalent to a rank four Saint.

She was in the same rank as Angst.

Natasha was not prepared to go to the next step to become a God.

However, if she wanted to become a God, she needed to stabilize herself and push her realm to the peak of Sky Demon Emperor before becoming a God!

“The special blessing CD seems to have been refreshed again.”

After increasing Natasha’s strength, Lin Yan made a discovery.

Yes, the special blessing could be activated again.

This time, the CD interval was greatly shortened.

“Who will be promoted this time?”

Lin Yan whispered.

Currently, Lin Yan had Sanctuary Saintesses, including those who were about to become Sanctuary. There were Meng Ying, Green Spirit, Chen Xi, Lomina, Angstrom, Angel, Natasha, and Princess Barbara.

The power of faith contributed by the eight Saints was even more terrifying than that of a small empire.

Therefore, after that day, Lin Yan's daily income had increased a lot. Just in terms of the Heavenly Realm's Divine Energy, he could earn a Heavenly Realm's Divine stone equivalent to 100 high-ranked Divine stones every day.

This was equivalent to a year's income for some gods who owned small empires!

Although he had brought the items from the Abyss to the Heavenly Realm to sell, the number of Divine Stones he earned was terrifying.

However, this kind of transaction would be saturated one day.

Moreover, the price would drop as the quantity increased.

His kingdom had always been the core!

Therefore, Lin Yan would not feel that his kingdom was not important just because of one or two fortunes.

Moreover, if the kingdom was more prosperous, Lin Yan's rank of the flame of civilization would increase!

Lin Yan looked at his other Holy Maidens.

Right now, her Holy Maiden had the strength of an eighth ranked forbidden spell magister.

Annie, who had joined later, was now only ranked six.

Annie's progress was already great.

"Let's promote Lucy first."

Lin Yan finally made his decision.

This was because Lucy was already a legend.

As for the other Holy Maidens, they were only forbidden spell magisters.

At this moment, in the Endless Desert, Lucy transformed into a snake tail and quickly passed through.

The entire Endless Desert was becoming more and more prosperous.

In the Endless Desert, a large number of cash crops began to mature.

For example: when the cotton was picked.

In the Endless Desert, hundreds of thousands of people were picking cotton.

Some special fruits, such as watermelon and cantaloupe, had already matured once.

Lucy's snake body didn't look scary. Her scales were thick, and her defense was excellent. Coupled with her beautiful upper body, she looked strangely cute.

Lucy was in a good mood as she watched the endless sand turn into an oasis.

At this moment, she suddenly heard the revelation of God.

"My God wants to raise my rank?"

After Lucy heard the revelation, she couldn't believe it.

But very quickly, she knew that it was true!

Her God, the great Lord of Flame, was indeed helping her improve her realm!

With this upgrade, Lucy would be promoted to Sanctuary!

It was the same as when Meng Ying raised her realm. The realm of special blessings was raised very quickly, and there were no side effects.

Lucy learned her lesson from her previous dream and flew into the sky.

After breaking through to Sanctuary, the energy from Lucy's body also caused terrifying energy fluctuations.

It caused a huge storm in the sky.

Fortunately, she was far away from the ground, so she did not affect the ground too much and that afternoon, in the skies of Holy Flame Forest and Rocky Forest, a wind howled!

Lomina and Olivia had been elevated to Sanctuary at the same time!

The Rocky Forest finally had its own Sanctuary!

In other words, on this day, on the Continent of God, a total of four Sanctuaries were born!

Of the four, three belonged to Lin Yan's kingdom!

At this point, Lin Yan had nine sanctuaries.

Three from the Fire Empire, two from the Holy Flame Forest, two from the Fallen Elves, and two from the Abyss!

In terms of strength, the first six in Sanctuary: Meng Ying, Green Spirit, Lucy, Chen Xi, Lomina, Angie.

The second stage of the Sanctuary: Princess Barbara.

Two in the fourth stage of Sanctuary: Natasha, Angst.

Not counting the Abyss, the number of Sanctuary that Lin Yan had in the Continent of God was already terrified.

Most kingdoms on the Continent of God did not have a Sanctuary.

Only the empires had a Sanctuary.

The great empire was usually an empire that belonged to the peak of the third ranked and the fourth ranked gods.

The stronger this God was, the higher the ranking of the empire.

Usually, a peak third-ranked God could only attract one or two sanctuaries.

One or two sanctuaries weren't particularly strong, either. They were at most second-ranked, and most were first-ranked.

Only a fourth-ranked God could attract more sanctuaries.

In addition, the fourth ranked gods could also nurture their own Sanctuary.

In the kingdom of the fourth rank, there were only rank three and above Saints.

Compared to the fourth-ranked gods, the number of Sanctuary Lin Yan had in the Continent of God was probably not too much!

Chapter 473: Summoning Plans! Sun Glory could explode!

In the next few days, Lin Yan's Holy Maiden, who had just advanced to Sanctuary, were all trying to consolidate their strength.

On the Continent of God, everything was calm.

Of course, they could also see wars between kingdoms from time to time.

Most wars were between kingdoms.

There were fewer wars between empires.

Every second ranked God wanted to break through to the third rank as soon as possible.

Therefore, in the entire Heavenly Realm, from time to time, the kingdom of the gods would be taken away. After it was taken away, this god, without the ability to take it back, could only choose to find some barbaric tribes to slowly nurture.

In the history of the Continent of Gods, there had also been cases where the kingdom had been taken away by other gods in the beginning, and then the barbarian tribes had been nurtured for thousands of years, and finally, revenge had been achieved.

Of course, there might only be one or two such things in history.

“Lucy, Congratulations!”

In the Endless Desert temple, Meng Ying said to Lucy.

Not long after Lucy became a Sanctuary, Meng Ying found out.

During this period, Meng Ying was constantly perfecting her flame rules.

She was Lin Yan's favorite, and she received the most attention from Lin Yan.

The first thing she came into contact with was the Flame system.

This was exactly what Lin Yan and she were good at.

When Lin Yan was free, when he heard Meng Ying's prayers, he would usually give a response. He would give some enlightenment and carefully teach Meng Ying.

Therefore, Meng Ying's progress during this period was especially great.

It had only been a few months, but Meng Ying's knowledge of Flame was already very high. She was almost at the second stage of sage rank.

At this moment, Lucy transformed into two legs and said modestly, “Queen, it's all thanks to my God. If it wasn't for my god, I would have become a Sanctuary in at least a few hundred years.”

Meng Ying nodded slightly and said, “Lucy, if this matter were to be exposed, it would be shocking and detrimental to my God. Please keep it a secret.”

Lucy said, “Don't worry, Holy Maiden, I have my limits.”

After becoming a Sanctuary, Lucy's Petrifying Eye grew stronger.

However, she would not use this ability.

Her eyes also look quite normal at normal times.

"Queen, a large number of crops have matured. Currently, more than a million people are harvesting. However, the population is far from enough. Can we send more people over?" Lucy asked again.

The Flame Empire currently lacked population.

Moreover, it was not an ordinary population shortage.

The Fox Lady Qing Ling had already released a lot of measures to encourage childbirth.

For example, every new child in a family could reclaim 50 acres of land, regardless of gender.

For example, newborn babies were free to seek medical treatment from the Church's priests. For some serious illnesses, they could even pray for the white flames that had healing effects.

Not everyone in the entire Flame Empire had the right to pray for the White Flame.

In the Godhead mechanism, warriors who fought for the gods had the right to do so.

Then there are the pastors of the Church.

For ordinary civilians, only those with a certain degree of devotion would have this qualification.

Not all diseases required white flames.

Naturally, the Church would not use anything bestowed by the gods.

The priests of the Church would be able to cure a commoner's minor illness and pain.

Moreover, with the addition of the Flame of Civilization, the citizens of the Flame Empire had better physical fitness. They rarely got sick.

It was just that the newborn's resistance was weak, and it would slightly increase when they were sick.

Hearing Lucy's words, Meng Ying said, "We'll recruit a group of workers from other countries in a while. We'll send half of them over!"

Yes, to solve the problem of insufficient population in the Flame Empire, Qing Ling sent a large number of envoys to the north, east and south to recruit people from other countries.

Of course, this recruitment was not done privately. Instead, it was done directly to the Royal families of those Empire.

These people would work in the Flame Empire for about three months.

This was because these three months were the time when the majority of the Flame Empire's corps matured.

With the current number of flying ships in the Flame Empire, it wouldn't be a problem to transport millions of people at once.

This was the Fox Lady's recruitment plan.

This plan actually involved the next step of expansion.

Recently, Qing Ling and Meng Ying were still developing the Flame Empire.

Through the recruitment plan, they could let the civilians of the surrounding empires know in advance of the Flame Empire's strength and prosperity.

After staying in the Flame Empire for three months, those commoners would most likely yearn for the life of the Flame Empire.

Once they returned, they would spread the news of the Flame Empire.

This move could directly shake the hearts of the people of the other empires!

When the time would come, exactly which direction to expand, Qing Ling and Meng Ying still had to ask their gods!

"That's good, Queen!"

Lucy said.

In the past, she was a legend, but now, she was a saint.

In other empires, no matter if it was legends of Sanctuary, they were not willing to care about so many things.

However, Lucy had lived in the Endless Desert for more than a hundred years. She had treated the Endless Desert as her home, so she naturally hoped to see this home get better and better.

Meng Ying was about to speak when she suddenly felt something.

Lucy also felt it.

The two women raised their heads almost at the same time and looked at the huge red sun in the sky!

For ordinary people, the sun was still hard to look at. If they looked at the sun for too long, they would go blind.

But as Sanctuary, the two women did not have to worry about this problem.

At this moment, in the sight of the two women, the red sun hanging high in the sky, turning even redder!

The color change was only superficial.

More importantly, they could feel the energy changes brought by the sun from the perspective of the Divine Domain.

The energy of the sun suddenly became exceptionally violent.

It was as if it was about to explode.

This energy change wasn't particularly obvious when it was sensed in the Continent of God.

Normally, only legends and above could sense it.

Meanwhile, on the Continent of God, a large number of Legendary-rank existences who had been locked away from their homes all walked out of their rooms and flew into the sky.

Meng Ying and Lucy also flew into the sky.

The closer they were to the sun, the clearer the perception became.

“Lucy, can you feel it?”

Meng Ying asked.

“Mm, the energy of the sun seems to have a violent feeling.” Lucy said.

Meng Ying nodded.

It was indeed so.

“It happened a hundred years ago, this should be the precursor.” Lucy continued.

She had already lived for hundreds of years.

On the Immortal Continent of God, the fewer races there were, the longer they would live.

Compared to them, the lifespan of humans was too short.

This was certain.

Who asked humans to have such a powerful reproductive ability?

If he lived a long life, that would be fine.

The world was fair!

“This should be the solar flare that happens once a hundred years. It’s also called the solar flare tide. Now it’s just a precursor. It’ll probably take a few days before it truly erupts!” Lucy continued.

Meng Ying nodded.

She was only in her teens and didn’t know that sun could explode.

Chapter 474: Summoning Plans! Sun Glory could explode!

“Will it affect the Immortal Continent of God?”

Meng Ying asked again.

Lucy shook her head and said, “It has a greater impact on the Heavenly realm. However, there will be many wars on the Continent of God every time a flare occurs.”

Hearing this, Meng Ying relaxed.

It was just a war.

The current Flame Empire was not afraid of war.

“It’s finally coming!”

At this moment, in the Eternal Night Empire, Empress Tina raised her head and looked at the huge red sun in the sky.

The sun was getting redder and redder.

It was as if it was dyed in red ink.

From the aspect of energy, the sun seemed to be accumulating energy, so through the energy-sensing in the light, one could sense that the sun was becoming like a grumpy elder brother.

It was about to explode at any moment!

Empress Tina had lived for two thousand years.

Naturally, she knew that this was only a precursor.

There were still a few days before the true flare could erupt.

When the time came, the Eternal Night Goddess would break through!

Tina did not try to contact the Eternal Night Goddess.

She was afraid of disturbing her.

Since she couldn't stop her, she had to cooperate with her!

That was what Tina thought.

The Continent of God was too far away, and the impact was small. The situation they observed was not the same as in the Heavenly Realm.

At this moment, in the Heavenly Realm, Lin Yan had left Vera's Divine kingdom and came to the sky of the Heavenly Realm. He looked up at the huge sun.

Vera and Mavis were beside him.

At the same time, a large number of Elves were scattered around, flapping their little wings and looking at the sun.

"It's about to start."

Mavis said...

"Master God, you can't enter the sun on the first day of the solar energy explosion. You will be rushed out by the solar energy tide. You can only enter the second day, but the solar energy tide on the second day will still be very strong. Generally, only powerful gods dare to enter. The further you go, the less difficult it will be to enter."

Vera said.

In the past few days, she had taught Lin Yan a lot of knowledge about the explosion of solar energy.

Well, Vera hadn't found out that Lin Yan was the new God.

She thought that Lin Yan had lost a lot of his memories!

Therefore, when she was with Lin Yan, she would teach Lin Yan some knowledge of the Heavenly Realm.

“Master God, it’s still very dangerous for the sun to explode. When the time comes, we’ll go with you. Don’t worry; we’ll absorb some energy from the outer layer. We won’t go too deep.”

Vera said.

Lin Yan nodded.

Vera and Mavis were now third-rank Gods, and Lin Yan could quickly reach them. They did not have to worry about their safety.

This time, the change of the sun made many gods in the Heavenly Realm run out of their Divine kingdom to watch.

The once-in-a-hundred-year solar flare was a rare event in the Heavenly Realm.

In fact, there would be a huge flare every ten times but this time, the flare was huge.

Therefore, there were quite a lot of gods that paid attention to it.

There were already gods heading for the sun.

Lin Yan had yet to move.

Time passed bit by bit.

As time went on, the changes in the sun became bigger and bigger.

From the Heavenly Realm, the sun had expanded a whole circle!

Such a change could be seen even in the distant Continent of God.

The temperature of the sun became even hotter.

The temperature of the surface of the sun was already several hundred thousand degrees.

As the time for the eruption of solar energy got closer and closer, the temperature of the sun continued to rise, reaching a million degrees!

The surface layer had a million degrees!

The temperature in the deep layer was even higher and the temperature was still rising.

In the blink of an eye, a week passed.

There was only one day left before the Sun Glory could be fully unleashed!

Garcia and Clara had returned to Vera’s kingdom because on the last day, no God was in the mood to participate in the auction.

Everyone was watching the sun.

“Soon, this explosion will be especially fierce. I have to lock down the Divine Kingdom and get all the trees out.” Vera said.

“Yes, Master God, I also need to go back to my Divine Kingdom.” Mavis said.

Her actions were quick. In just a few hours, Mavis had settled everything and returned to Vera's kingdom.

Then, Lin Yan brought them to the sky of the Heavenly Realm and watched the sun change.

He went over.

After the moon of the Heavenly Realm descended, the sun rose again.

This was the morning sun, but it was brighter than the usual noon sun!

There was a terrifying energy fluctuation above.

“Boom!”

Finally, a soundless explosion resounded beside the ears of all the Heavenly Realm Gods.

Following that, the gods of the heavenly world saw huge red energy suddenly erupt from the sun.

It looked like someone had thrown a cannon into the oil pot, causing waves to explode!

The height of the waves was more than a tenth of the diameter of the sun!

How big was the diameter of the sun in the Heavenly Realm!

That was why it was too shocking!

This was a shocking scene. Not only did the gods of the Heavenly Realm see it, but it was also clearly visible on the Continent of God!

On the Continent of God, countless commoners had left the gate and looked up into the sky.

They covered their brows with their hands. This method allowed them to see the changes in the sun from the corner of their eyes.

“Wow!”

Countless civilians cried out in alarm.

To the commoners, it was likely that they would never see a sun explode a hundred times in their lifetime.

Someone just happened to be born after the flare burst, and then died when the next flare burst.

They would miss the flare perfectly.

Those who saw it were all lucky.

Apart from the commoners, the nobles and sorcerers, as well as a large number of hidden experts, all ran out.

The commoners were curious.

The experts were watching the changes in the world!

“Glory! It's exploding!”

A deity whispered.

Chapter 475: Gods who are dispatched one after another! Have a certain reputation!

The flare was similar to the solar flare before Lin Yan transmigrated, but the principle and scale were completely different.

With the size of the sun in the Heavenly Realm, the “spray” that rushed out of the sun was many times larger than the sun before Lin Yan transmigrated!

The speed of these “waves” was too fast. Almost instantly, they rushed up into the sky and then fell.

The entire process had to last for a long time.

The next wave of tides came before it could fall.

On the first day, it was the time when the sun could explode the most ferociously.

Then it would slowly weaken.

The entire process would last for more than a month.

The gods of the Heavenly Realm usually chose to stay inside for more than a month to collect Divine substances.

“Master God, there will be three waves of tides on the first day. After the third wave, there will be some powerful gods entering. The first few days are also when the Divine matter is the most concentrated. After the later tides fall, the Divine matter will also disperse and it will become difficult to collect.”

Vera explained to Lin Yan in detail.

“Let’s go up.”

Lin Yan said.

On the first day, entering the sun was very easy to be rushed out, and it was also too dangerous. However, they could go up and wait for the right time.

Lin Yan led the two women out of the Divine Kingdom and flew into the sky.

“Vera, Mavis, are you going to the sun too?”

Not long after she flew into the air, Vera met an acquaintance.

Another Elven goddess.

“That’s right, Alice. We’re going with the Divine Master.”

Vera said.

Vera and Mavis had already absorbed all the ripples, so the other party did not know that Vera and Marvis had broken through to the third rank.

The two of them were not prepared to reveal it yet.

Alice was also a goddess of the second rank.

“Hello Lord of Flames!”

Alice greeted Lin Yan.

Lin Yan also replied.

“Vera, let’s go up together.”

Alice was invited.

“Wow!”

Vera agreed happily.

Along the way, Vera met more and more goddesses.

There were dozens of Elven goddesses in the entire Divine Domains.

Although it was difficult to become a god, the years of a God were endless. Over the years, dozens of Elven goddesses were few and far between.

There were many human gods.

Of course, there were still the most gods of the first rank among them. There were also a large number of gods who did not have their own Kingdom, only a few of the barbaric tribes.

Perhaps after the previous incident, the goddesses were already familiar with Lin Yan. When they saw him, they would greet him.

Lin Yan would also respond.

“Lord of Flame, we meet again.”

When they reached the dimension gate, Lin Yan met the Goddess of Light again.

The goddess of light was still radiant, and she looked incredibly charming.

It was obvious that the Goddess of Light was preparing to go to the sun to collect divine substances.

After Lin Yan gave a faint reply, the Goddess of Light said, “I already know about Angst. She used to be an elf with great talent. I treated her like a child with Olivia. I didn’t expect her to come into contact with the dark power. It’s a pity. Thank you for your help. Now that she has given her faith to you, I feel very at ease!”

The Goddess of Light chatted with Lin Yan for a while, more than thirty Elven goddesses came.

This was the Elven Divine domain, and there were only the Elven goddesses near the portal.

“Let’s go in together. I’ll go first!”

Goddess of Light said.

She was waiting for all the Elven goddesses.

After entering the space gate, they were closer to the sun of the heavenly world. To prevent any accidents, the more powerful Goddess of Light took the initiative to advance.

After the Goddess of Light finished speaking, she took the lead and entered the dimensional portal.

Lin Yan did not argue with her and followed closely behind.

After entering the dimensional portal and stepping out, they arrived near the Sun of the Heavenly Realm.

Then, Lin Yan saw something from the red sun rush to the space gate!

This flare was not ordinary!

It actually rushed so far away from the sun.

However, the construction of the space gate clearly took into account the explosion of solar energy. In the end, the matter in the sun did not reach the space gate but fell again.

The gravitational pull of the Sun of the Heavenly Realm was terrifying.

If the ordinary Holy Spirit reached the space gate, it would not be able to struggle against the gravitational pull of the sun in the heavenly world, and it would be sucked in, unless the Holy Spirit carried Divine energy, there was the hope of escaping.

On the dimensional portal, the Elven goddesses rushed out.

Soon, all the Elven goddesses left the portal.

Then, a human god walked out. The human God was shocked when he saw the group of Elven goddesses.

“Let’s go. Let’s go to the side. Don’t block the dimensional door.”

The Goddess of Light arrived.

There was naturally more than one space gate near the Sun of the Heavenly Realm, but each of the space gates near the Sun of the Heavenly Realm corresponded to too many space gates in the sky of the Heavenly Realm.

In fact, there were already many human gods around.

There were quite a few of these human gods, and they were separated by a distance. Some were alone; some were in groups, watching the sun of the Heavenly Realm.

The arrival of the Elven goddesses attracted the attention of many human gods.

However, there were no human gods who came out of their misery.

“I’ll come with you in three days. Let’s not go too far.”

The Goddess of Light said.

The sun in the Heavenly Realm was too big, so the gods here would always be separated. However, the gods who were close to each other would be able to take care of each other.

The Elven goddesses all nodded.

A large group of Elven goddesses was waiting.

Among the Elves, Lin Yan was more eye-catching.

It could not be helped. Anyone among the group of Elven goddesses with devastating looks would be more eye-catching.

“Who is that? He actually walked with the Elven goddesses.”

Some gods were secretly curious.

Some gods knew each other and gathered to discuss Lin Yan.

“It’s the Lord of Flame!”

A God actually recognized Lin Yan.

“He’s at least a third ranked God. He killed four gods a few months ago. He’s a ruthless character. Don’t mess with him; just stay as far away as you can.”

Some gods knew each other.

The gods near this dimension gate were only a part of the gods of the Heavenly Realm. Several gods knew about Lin Yan.

Lin Yan had gained a certain level of fame in the Heavenly Realm.

Lin Yan ignored the gazes of others.

He stared at the Sun of the Heavenly Realm, observing the influence of the solar energy tides of the Heavenly Realm on the Rule Plane.

Through this observation, Lin Yan could learn more about the rules.

Otherwise, why would he come so early?

After the initial discussion, the other gods all stared at the Sun of the Heavenly Realm.

It was still the first burst.

After the first burst, it began to fall back.

Not long after Lin Yan arrived, the second wave of solar tides erupted.

This wave of Glorious Tide would take several hours before the third wave.

These three waves of the strongest solar tides would last for an entire day.

Only after the third wave the powerful gods would enter.

But at that time, it was still dangerous.

Even the Goddess of Light only dared to enter on the third day.

After the second wave of energy tides erupted, Lin Yan focused.

“What intense flame energy.”

Lin Yan thought.

In fact, the first day of the three waves of solar energy tides was the time when the energy density and concentration of the divine substance and the sun were the highest.

However, because it was too dangerous, and it was easy to be rushed out by the solar tide, basically no god would enter the sun of the Heavenly Realm on the first day.

But after observing, Lin Yan immediately decided to enter the Sun of the Heavenly Realm!

Chapter 476: Amazing moves! The shocked gods!

“Vera.”

Lin Yan looked at Vera.

“Lord, I’m here.”

Vera said.

“I’ll enter the sun first. You and Mavis, wait for the tide to retreat and enter with Mavis.”

Lin Yan said.

“Alright, Divine Master!”

Vera said obediently.

She did not understand what Lin Yan meant.

She thought that Lin Yan was going to wait for the first three waves of solar energy tides to enter!

Mavis also gave a positive answer.

“Alright, I’ll go first!”

After Lin Yan finished speaking, he activated his Divine energy and flew towards the sun of the Heavenly Realm.

Vera finally reacted.

“Divine Master...”

Before Vera could shout out, she saw Lin Yan rush into the “huge wave” that the solar tide had rushed out.

Her words were stuffed into her mouth!

She finally understood what Lin Yan meant by “I enter the sun first “.

Lin Yan actually entered the sun now!

However, the current sun was so dangerous that it was filled with terrifying energy. It was like a boiling pot.

Even if a third-rank God went in, there was a high possibility of being injured.

One had to know that the solar tide instantly rushed out some of the ingredients in the center of the sun.

Ignoring everything else, the temperature alone was terrifyingly high.

The core temperature of the Sun in the Heavenly Realm was much higher than the temperature that Lin Yan was currently burning with all his might.

When the solar tide rushed out, the temperature was terrifying.

Moreover, when the solar tide rushed out, it was extremely fast.

In a short period, he had crossed hundreds of millions of miles.

There were even rules and even laws related to space.

Even a peak third rank God could be rushed out.

Every peak third rank God was basically a God.

If he had just rushed into the sun and been rushed out by the solar tide, he would have lost face.

Normally, some fourth-rank gods would choose to enter after the first day.

But Lin Yan actually rushed in!

Vera was stunned because she did not expect Lin Yan's actions.

Mavis was also dumbfounded.

"Vera, the Lord, he... why did he go in?"

Mavis asked.

Vera snapped back to her senses and said, "Mavis, I don't know either, but I believe in the Divine Master. He won't do it without absolute certainty!"

Mavis nodded.

In the Heavenly Realm, the two Elven goddesses had the most confidence in Lin Yan!

Vera and Mavis knew Lin Yan's strength and magic. They were surprised, but they quickly accepted it and were confident in Lin Yan.

But the other gods were different from them.

"Why did the Lord of Flame go in?"

The Goddess of Light saw Lin Yan's actions and could not help but say.

She had been observing the Sun of the Heavenly Realm, but she suddenly saw a figure rush into the Sun of the Heavenly Realm.

The Goddess of Light was shocked. She quickly realized that the figure was the Lord of Flame!

The Goddess of Light was confused. She did not know why Lin Yan had rushed into the sun.

It was only the first day, and the second wave of solar tides had just arrived!

The Goddess of Light was shocked.

Vera had no choice but to explain. "The Lord needs a lot of Divine matter, so he went in to collect it."

The Goddess of Light said, "But it's very dangerous inside now?"

She was worried.

Vera said, "Don't worry, the Lord of Gods is powerful; he won't do anything he doesn't know."

After seeing Lin Yan enter, the Goddess of Light felt that Lin Yan was stronger than she had imagined, but she was still worried.

She was just worried, but the other gods had all seen ghosts.

Especially, the Human gods.

“Who is that person?”

When Lin Yan rushed into the sun, a God raised his eyebrows and stood up.

“Look, someone is entering the sun now.”

Immediately, there was another god. This was a god who had come together with his friends.

“It’s true; he actually entered the sun now. I don’t know if he’s not afraid of death or if he really has the strength.”

Another God saw it.

The act of Lin Yan entering the sun had already attracted the attention of the gods.

“It’s the Lord of Flame!”

A God who knew Lin Yan.

The Lord of Flame? “What god? Why haven’t I heard of him?”

Beside him, a God could not help but ask.

“The Lord of Flame is a God, who came out of nowhere, but not a new God, but an extremely powerful God. A few months ago, the Lord of Flame killed four gods who went to kill him in the Divine Domains. One of them was a great God from the Divine Domains!”

The God who knew the Lord of Flame explained.

So powerful?”To be able to kill a God means that the Flame Lord must be a third-rank God. However, even a peak third rank God would not choose to enter today. Could it be that the Lord of Flame is still a fourth-rank God?”

The other God could not help but guess.

“It’s rare for a fourth-rank God to choose to enter today. There’s no need to worry. When the third wave of the solar tide erupts, we’ll see if he’ll be rushed out.”

Another God said.

These gods did not usually speak much.

They usually interacted with other gods in their own kingdom.

However, whether it was humans or gods, they all had social aspirations.

Therefore, there were not many gods participating in the discussion. More gods were silently shocked!

However, the gods who participated in the discussion quickly spread the news.

Near this dimensional portal, many of the gods of the Heavenly Realm knew that the God who entered the sun today was called the Lord of Flame.

He also knew about the deeds of the Lord of Flame!

“At least a third-rank God. I don’t know if it’s to show off or if he really has the ability. Let’s see if the third wave of energy tide will rush him out.”

A God whispered.

“If the Lord of Flame can still stay inside after the third wave of solar energy tide arrives, that would be terrifying.”

Some gods thought.

The discussion of the gods and the silence were all waiting for the second wave of energy tides to pass.

Time passed quickly.

A few hours later, the second wave of solar energy tides finally came to an end.

Then, the third wave of solar energy tides arrived!

This wave of energy tides was also the largest.

Since Lin Yan was the first to rush into the sun, all the surrounding gods were excited to see if Lin Yan would be rushed out.

Chapter 477: Was a terrifying harvest!

“The Divine substance is indeed much denser.”

In the sun of the Heavenly Realm, Lin Yan muttered to himself.

He had now turned into a flame and turned into a net of Flame that was even bigger than the last time. He crazily swept towards the sun.

From Lin Yan’s perception, this time, the Divine substance was much denser than before!

There were many types of Divine substances, as well as some special and rare Divine substances!

For example, a Divine substance with its own spatial attributes.

“This Divine substance is probably one of the core materials for the construction of the Space Gate.”

Lin Yan did not hold back and directly collected the Divine substance.

There was also a special Divine substance. Even in the sun of the Heavenly Realm, it maintained a slight temperature. It was neither high nor low. This Divine substance was one of the materials used to build a Divine Kingdom.

There was also a transparent Divine substance that could be used to create the boundary wall of the Divine kingdom, making the Divine kingdom stronger and indestructible.

A few hours after the second wave of energy dissipated, Lin Yan had actually collected several hundred Grams of the Divine substance!

Although it was nothing compared to his previous harvest of 10,000 Grams.

But the last time, he collected it in a few months, this time only a few hours!

If it was another God, even if they were to enter now, their harvest would only be a few gigabytes.

In the current sun, the Divine substance was indeed dense, but this density was also relative.

The distance between the two Divine substances was more than a few hundred kilometers.

The Divine substance was also very small.

In the current sun, the senses of the gods were also greatly reduced.

A few hours wouldn't be much.

Therefore, ordinary gods would not take the risk to enter.

However, there was no such problem with Lin Yan's flame form.

Ignoring the burning of his energy points, Lin Yan expanded the range of his flames into a huge Flame net that was tens of thousands of kilometers long.

If the big Flame net madly swept away the goods, the shelter would be huge!

"The third wave of solar tides is about to begin."

At this moment, Lin Yan felt the energy surging in the depths of the sun.

This was the largest wave of solar tides.

"The third wave of solar energy tide is also the time when the Divine substance is at its maximum. Then there's no need to consider energy points."

Lin Yan whispered.

He once again ignored the consumption of energy points and expanded the range of his Flame net by several times!

This Flame net was too big.

If this Flame net was thrown into the Continent of God, it would cover the Eternal Night Empire and the Flame Empire!

Lin Yan's energy points were quickly consumed.

Each second required more than ten million energy points.

And as Lin Yan went deeper, the consumption of energy points became faster and faster.

"Not enough, not enough!"

Lin Yan continued to expand the flame net.

The third wave of solar energy rushed out in just a few minutes.

After reaching the peak, it would slowly fall back.

The entire process continued for several hours.

These few minutes were Lin Yan's prime time!

Why was that so?

The reason was simple: Lin Yan was moving in the sun of the Heavenly Realm, but his speed was not particularly fast.

Dragging such a huge flame net and still collecting Divine matter naturally would not be too fast.

But when the third wave of the solar energy tide rushed out of the sun, it would pass through Lin Yan's Flame net!

If Lin Yan did not move, the third wave of solar energy tide would carry an immeasurable amount of solar matter and energy through Lin Yan's Flame net!

In other words, Lin Yan had become a vast screen.

He didn't even need to move himself to collect all the Divine substances he passed!

This was the reason why Lin Yan wanted to expand the range of his Flame net.

This was also the main reason why Lin Yan wanted to enter the sun!

"Not enough!"

Lin Yan continued to expand the Flame net!

Given the size of the sun in the Heavenly Realm, Lin Yan's flame net was too small.

Now, Lin Yan's flame net was only a hundred thousand kilometers in diameter.

In the Heavenly Sun, it was like putting a sesame seed on a football!

No, not a sesame seed!

Sesame was too big. Even the sand that was smaller than sesame was too big.

It was equivalent to placing a cell on a football!

Naturally, the range of the solar tide was not the entire Sun of the Heavenly Realm. However, Lin Yan's net of flame was quite small in the range of the solar tide.

"Keep expanding!"

Lin Yan began to ignore the energy points and continued to expand the range of the flame.

In the blink of an eye, Lin Yan's flame exploded tenfold!

His consumption of energy points exceeded 100 million per second!

"Not enough!"

Lin Yan thought.

Lin Yan did not feel bad about the energy points.

To Lin Yan, the least valuable thing was the energy points.

His current energy points were in the trillions. He did not have to worry about running out.

Of course, under normal circumstances, Lin Yan would not waste energy points, but now, this was not an ordinary situation!

Lin Yan continued to expand the Flame net.

He even used space rules to expand the flame net.

His flame net became bigger and bigger, and the consumption of energy points became extremely terrifying!

But Lin Yan only needed a few minutes!

“It should be enough!”

Ten minutes later, Lin Yan muttered to himself.

The range of the Flame net was about to reach its limit. No matter how large it was, it could naturally expand. However, Lin Yan could not limit his collection of Divine substances.

The godhead naturally handled automatically collecting Divine substances.

Yes, under the circumstances where Lin Yan released his authority, the Godhead could also automatically handle many things for Lin Yan’s flame form.

This was the convenience of having a godhead. It was equivalent to a super computing center.

With Lin Yan’s Godhead’s computing power, even a computer as big as a planet couldn’t compare.

Moreover, normal computers would not be able to enter the field of godhead computing.

That was the domain of God!

An ordinary computer probably even could not analyze the composition of a drop of Divine energy!

“Here it comes!”

Not long after Lin Yan stopped expanding, he felt the surging energy of the sun!

The energy tide was coming!

“Here it comes!”

When Lin Yan and the Elven goddess came out of the space gate, a large number of Heavenly Gods were also excited and looked at the Heavenly Sun.

There were more than a hundred gods here, not counting the goddesses.

This space gate led to at least five or six Divine Domains!

Now, these gods wanted to know if Lin Yan would be rushed out!

“Boom!”

A loud sound was heard!

Then, in the sight of all the gods of the Heavenly Realm, a terrifying solar substance rushed out from the Heavenly Realm Sun!

In just a short amount of time, he had rushed into the sky!

This speed was far faster than the speed of light!

Otherwise, why would a peak third-ranked God be rushed out?

“The Lord will not be rushed out!”

Vera and Mavis looked at the Heavenly Realm sun nervously!

If Lin Yan was rushed out, he would be embarrassed.

However, Vera and Mavis did not see Lin Yan.

“Wait a minute, there’s still a minute before it reaches the peak. He will definitely be rushed out!” A God whispered.

Meanwhile, in the sun of the Heavenly Realm, Lin Yan was supporting the Flame net without saying a word.

His Flame net was too big.

Even if the flames were invisible, Lin Yan was still under a lot of pressure. He was almost pushed out!

Fortunately, when the energy tide passed through Lin Yan’s flames, Lin Yan sensed that something was wrong. He immediately burned his Divine energy and firmly positioned himself in the sun of the Heavenly Realm.

“What terrifying energy point consumption!”

Lin Yan thought.

The current consumption of energy points was too terrifying!

It was so terrifying that Lin Yan’s energy points would be consumed by more than half!

Apart from that, Lin Yan’s Divine energy was also consumed greatly, but these were not as great as the gains!

Yes, Lin Yan’s harvest was too terrifying!

Billions of kilometers of solar tides had passed through Lin Yan’s Flame net!

Although Lin Yan’s Flame net could not cover the entire range of the solar tide, his gains were still terrifying!

Now, the number of Divine substances in Lin Yan’s storage dimension has exceeded 100,000 grams!

In just a few minutes, his gains had exceeded his previous monthly income by more than ten times!

Among these Divine substances, there were even more rare Divine substances!

If a God were to rush into the solar energy tide that rushed out of the sun, he would discover that there was a huge empty cylinder inside the solar energy tide. There was no Divine substance inside because they were all captured by Lin Yan!

Yes, this was the standard one!

Such a terrifying harvest was unimaginable, even when the energy tides erupted.

Even if the more than one hundred gods of the Heavenly Realm who were near the dimensional portal were to gather more than a year's worth of information in the Sun of the Heavenly Realm, they would not be able to obtain as much as Lin Yan in just a few minutes!

Chapter 478: Flame ranked up again! The fourth rank was right in front of him!

Flame ranked up again! The fourth rank was right in front of him!

“One minute left!”

Lin Yan continued to burn his Divine energy and energy points, supporting the Flame net.

The solar tide was still rushing out of the sun!

Every second, an immeasurable amount of solar energy passed through Lin Yan's Flame net!

The energy of the Sun in the Heavenly Realm was not in the form of flames, and the matter of the Sun was not ordinary matter.

Just like when the volcano on the Continent of God erupted, Lin Yan entered the lava. It looked red, but in fact, Lin Yan did not get much from the lava.

After swallowing the lava flame, he had gained quite a bit!

However, in the form of flames, Lin Yan could still obtain quite a few evolution points from the sun. This came from some special energy in the sun.

Lin Yan was not particularly worried about the evolution of his flame form.

In the Abyss, the nine Demon gods in the pantheon also started a war for Lin Yan. They were transforming a large number of Abyssal creatures into Lin Yan's evolution points.

He was now a rank 10 Infinity Flame. He was only one step away from the next stage.

As long as they passed through Lin Yan's Flame net, Lin Yan would intercept the Divine substance inside.

.....

At this moment, outside the Sun of the Heavenly Realm, the gods were looking at each other, but they did not see Lin Yan come out.

These gods were not sure that Lin Yan would not be rushed out if the power tide was not at its peak.

In the sun of the Heavenly Realm, Lin Yan naturally did not know what was happening outside. At the last minute, some matter and energy in the depths of the sun would also surge out.

This minute was crucial, so Lin Yan focused all his attention.

Meanwhile, Lin Yan's godhead was still filtering the divine substance for Lin Yan.

“Special Flame!”

At this moment, Lin Yan made a discovery.

There was a special flame in the sun!

This special flame was rushed up along with the energy tide, and then it was swallowed by Lin Yan.

After swallowing, Lin Yan had another special flame. At the same time, there were a lot of evolutionary points.

“Not bad!”

Lin Yan thought.

This special flame contributed a total of 100,000 evolution points.

After analyzing its characteristics, the System naturally completed the modification of the outermost layer of flame.

Lin Yan named this special flame the Blazing Sun Flame!

Lin Yan did not have time to look at its characteristics.

“Eh, what is this?”

Just as he swallowed the special flames, Lin Yan was surprised, because Godhead had brought back special energy.

Soon, the amount of special energy was increasing.

“Is this the energy that Vera and the others want to absorb?”

Lin Yan thought.

As the last minute continued to shorten, these special energies became more and more numerous, and they were also divided into different types! The godhead quickly collected these special energies.

Soon, the special energy condensed into a huge ball!

Lin Yan did not have time to study the effects of these special energies.

Perhaps it could be added to the Divine energy, allowing it to have some better characteristics.

Divine energy was high-ranked energy, but the composition of each god's Divine energy was different. After adding some special energy, the Divine energy would have some strange characteristics. Whether it was used to attack or do other things, the effect would become better.

Lin Yan estimated that the special energy that he had collected from his godhead would not be completely collected even after dozens of solar tides.

Just as Lin Yan was thinking, his heart suddenly moved because he felt a special aura!

This aura was very faint.

It was very light.

However, Lin Yan's heart was filled with a strong desire!

“What is that?”

This aura was mixed in the energy tide. It was neither energy nor matter.

The aura quickly passed through Lin Yan's Flame net.

Godhead wanted to capture it, but he didn't catch it!

"Give me burning!"

Lin Yan injected a large amount of Divine energy.

"Boom!"

Within the sun of the Heavenly Realm, the gigantic net of Flame exploded out!

At the same time, a large number of laws were driven by Lin Yan.

Soon after, Lin Yan's flames instantly caught a special aura, and then burned away!

"You have ignited the Source of Laws and obtained 50W of Evolution Points."

The system's notification sounded.

Origin of Laws!

What was this?

Lin Yan did not have the time to study the origin of laws.

This was because after burning the origin of laws, Lin Yan's evolution points seemed to be enough!

He could rank up now!

Up until now, the number of evolution points required to upgrade to the next rank was enormous.

After all, it was already a tenth ranked Infinity Flame!

Even if Lin Yan did not rank up, in the form of a tenth ranked Infinity Flame, Lin Yan would probably be able to fight against a fourth ranked God regardless of how much he consumed!

However, if he could rank up, then he could rank up. Lin Yan would not delay it. He directly chose to rank up.

"You've successfully ranked up. Congratulations, you've reached the second stage of the Endless Flame."

[Host: Lin Yan]

Flame Core Rank: Endless Flame (second stage)

Number of layers of Flame: 48

Maximum temperature: 380 W

Evolution point: 3.3W

Energy point: 2567WY

Current income: 125KW/s (floating)

Current consumption: 1025KW/sec (floating)

Skills: Berserk Burning, Detecting Eye, Continuous Burning, Healing...

Characteristics of Heavenly Flames: Lava Flame, Cold Flame, White Flame, Burst Flame, Ice Flame, Bone Cold Flame, Abyssal Demon Flame, Black Flame, Obliteration Flame, Holy Flame, Evil Flame, Blazing Sun Flame

Rules: Flame Rules (100%), Space Rules (100%), Forging Rules (100%), Life Rules (100%), Destruction Rules (100%), Slaughter Rules (12%)...

Rules: Can be created

Title: Flame of Civilization LV8, Flame of Laws LV7, Deity Curb LV3

[Others: N/A]

Lin Yan took a glance at his interface and instantly realized something different!

“But what does it mean to create laws?”

Lin Yan thought.

Lin Yan clicked on the description.

Soon after, Lin Yan understood the meaning of these words!

Lin Yan could create his rules!

The creation of laws was the method of the fourth-ranked gods!

The reason why gods were so powerful was that they could use Divine energy and the power of laws.

As for the fourth ranked God, the reason why he had such a high status in the Heavenly Realm was not only because he was powerful, but also because the fourth rank God could already create a law!

However, this law had to be chosen well; because the fourth ranked gods had to rely on the laws they created to touch the corresponding laws!

Of course, the fourth-ranked gods did not create the main rules.

For example, in the laws of ice, the laws of ice were the main laws. This was equivalent to the main road of a river.

On the main road of this river were a large number of tributaries. There were a large number of nameless secondary rules. These were the other secondary rules of the ice system. The main rules were born.

The secondary laws were born, and some of them were created by fourth-ranked gods.

“In other words, after I created the laws, would my body become fourth-ranked?” Lin Yan thought.

“No, that’s not right. Half a foot must have reached the fourth rank.” Lin Yan quickly corrected his thoughts.

It was not difficult to create rules through the system. Lin Yan could just click it.

The reason why this option appeared was probably related to the source of laws that he had caught and burned.

However, if it was another peak God at the third rank, even if they obtained the origin of laws, it would be difficult to create laws. The Origin of Rules only made it easier for the peak of the third rank to create rules.

It was ten times simpler!

It was only ten times simpler, but it was still quite difficult.

As for the other peak third-ranked gods, they would only reach the peak after countless years of accumulation.

Their order was usually to first condense the high-ranked Divine energy that belonged to the fourth rank and then upgrade the godhead to the sixteenth ranked edge.

This was the first half of the step.

The latter half of the step was to create a rule so that the godhead could be completely stable at sixteenth rank. Only then could he be considered having reached the fourth rank.

The first half of the step was already quite difficult.

The second half of the step was even more difficult, and many of the third-ranked peak deities were stuck in this half step.

The rules were simple.

A God could create its own internal rules.

In the Divine Kingdom of the gods, this God could do whatever he wanted. It would not be a problem for him to make water flow high up through the rules.

However, what the fourth ranked God wanted to create was not a small rule within the Divine Kingdom, but a secondary rule that was attached to the main rule and would be passed through the entire world.

Blind creation was not possible. And it was quite dangerous.

The slightest carelessness would result in a backlash from the Rule Force. The weaker one would suffer damage to their strength, while the stronger one would suffer serious injuries and collapse!

Most importantly, the success rate was usually less than 10% and Lin Yan directly created a rule through the System, which was equivalent to stepping out the most difficult step first.

After that, another half step was enough.

The order was reversed!

However, the difficulty was far too small!

After all, Lin Yan's current resources might already be enough for his Godhead to reach the sixteenth rank.

The System actually used the remaining rare resources to create rules, but at that time, the Origin of Rules had solved this problem perfectly!

It could be said that the trace of Rule Origin was Lin Yan's greatest harvest this time!

He knew how precious this thing was.

If it were not for Lin Yan's huge Flame net, he would not have been able to catch it.

After all, Lin Yan had been scanning the sun for a few months, but he could not find the Source of Rules!

In the third wave of the solar tide, there was only this trace of the origin of the rules!

Now, Lin Yan got it!

"That's not right, there are still three more."

Lin Yan quickly scanned the system panel and found that there were only three resources left, which was enough!

"There's still half a minute left. In this half a minute, the energy tide will pass. Taking advantage of the fact that so many gods will come here, we'll directly buy from these gods at a high price!" Lin Yan made a plan.

He wanted to take advantage of the fact that his flame form had ranked up to the fourth rank!

The fourth rank was right in front of Lin Yan!

Chapter 479: Charged out of the sun! A God who was shocked!

"The Solar Tide is approaching its peak!"

At this moment, outside the sun of the Heavenly Realm, the more than a hundred deities in front of the dimensional portal were all staring at the Solar Tide.

Finally, the Glorious Tide seemed to have been pressed and stopped abruptly.

This meant that the third wave of the Glorious Tide had reached its peak!

After a few seconds, the Solar Tide began to fall back.

The speed at which the Glorious Tide rushed out was extremely fast.

However, after reaching the peak, the entire process would last for several hours.

A God blinked.

With his eyesight, he would never make a mistake.

He did not see Lin Yan being rushed out by the Solar Tide!

"Did you see the Lord of Flame being rushed out?"

This God asked a God beside him.

"No!"

That deity shook his head and said.

"He actually resisted the third wave of the Solar Tide!"

On the side, a deity took a deep breath and said with shock.

His mind was high and mighty in front of mortals, but it wasn't that they didn't have any emotions. However, in order for a God to express his emotions, it had to be something that could surprise even this God!

In order to make God lose his composure, someone had to greatly exceed his expectations or imagination!

At that time, Lin Yan had rushed into the sun before the third wave of the solar energy tide, but he had not been rushed out by the third wave of the solar energy tide. This matter itself could shock many gods of the Heavenly Realm!

"It might have fallen inside."

At this point, another Goddess said.

"Fall? The Lord of Flame is at least a third-ranked high-level God, and if he is in danger, he will at most be seriously injured. How could he fall inside, unless he kills his way into the core of the sun?"

Another deity shook his head, not agreeing with this point.

"He didn't die, nor did he rush out. Could it be that the Lord of Flame is at the fourth rank?"

At this moment, a God who wasn't that strong came up with a guess.

Fourth rank!

These four words caused the expressions of many gods to freeze slightly!

"The capital of the fourth rank is a powerful Divine Master. Even though the Lord of Flame is powerful, the Lord of Flame doesn't seem to even have a Divine Element, right? Otherwise, why would a few Level Two or Three Deities need the Lord of Flame to act personally?"

Immediately, a deity raised a retort.

"That's right. Moreover, there's a certain chance that the Solar Tide will rush a fourth-ranked God out."

As soon as they finished speaking, they heard the voice of a God beside them, "Look, he's coming out!"

The discussion roused their spirits as they looked at the sun in the Heavenly Realm.

Lin Yan had already rushed out from the ebbing energy tide.

At this moment, the Glorious Tide had begun to recede.

In other words, Lin Yan was not rushed out by the Solar Tide.

He had come out himself.

"He must be injured!"

God's eyes flashed as he guessed.

In the eyes of this God, Lin Yan had come out so quickly. Ignoring his strength, he was most likely injured. Otherwise, why not spend more time in the sun of the Heavenly Realm?

Many gods had such thoughts.

“Master God!”

Seeing Lin Yan rush out of the Heavenly Sun, Vera was overjoyed. She flew out to welcome him.

Although Vera was full of confidence in Lin Yan, she was actually quite worried during these few hours.

Now, seeing Lin Yan come out, she was extremely happy.

Her current actions were completely subconscious.

In the blink of an eye, Vera had flown to Lin Yan's side. She was actually a bit worried that Lin Yan would be injured, but from a close range, Vera discovered that Lin Yan's aura was still extremely strong. There was no sign of him being injured at all!

Vera instantly became even happier.

“Divine Lord, how did you get out so quickly?”

Vera asked.

Lin Yan took out a special ball of energy and asked, “Vera, is this the energy you wanted to collect?”

Vera was stunned when she saw the energy: “So much!”

“Hiss!”

In the distance, when the gods saw this special energy, they were also shocked.

Lin Yan had taken out too much special energy!

These gods simply couldn't believe their eyes!

With so much special energy, even if they had to collect it themselves, they might not even be able to collect it after dozens of solar tides.

“He actually gained so much. The contents of the third wave of energy tides are indeed terrifying! I wonder if he's injured.”

A God thought in shock.

“A lot!”

The two gods who knew each other looked at each other.

If they were in the Abyss, perhaps there would already be some Abyssal Demonic Gods who were after Lin Yan.

However, in the Heavenly Realm, under such circumstances, no Heavenly Realm God would dare to do such a thing.

Moreover, Lin Yan was not someone to be trifled with!

“Here you go, Vera. Keep it.”

Lin Yan tossed the ball of energy to Vera and then flew forward for a distance. His Divine energy vibrated, and his faint voice spread throughout the area:

“I need the Tear Sieve Fruit, the Ten Thousand Radiance Heavenly Essence, and the Dragon Blood Scarlet Fruit. Any of these three can be exchanged from 1000G Divine substances in my hand...”

After Lin Yan finished speaking, he gently rubbed his hand.

Instantly, a large amount of divine substance appeared in front of him!

These Divine substances floated in the air. Some emitted light, while others were plain and unadorned.

“So much!”

Vera was shocked again.

Not only was Vera shocked, but the other Heavenly Gods were also shocked.

Lin Yan had taken out too many Divine substances.

Most likely, it was at least ten thousand gigabytes.

Vera clearly remembered that Lin Yan had already given her most of the Divine substance.

She was now equivalent to Lin Yan’s little butler.

Didn’t that mean that Lin Yan’s Divine substances had just been collected?

“There are so many Divine substances. Look, that’s Void Gold. It’s the perfect choice for creating spatial weapons. Wow, there’s even Ganges Sand. These are all extremely rare Divine substances.”

A God cried out in alarm.

“There are still traces of the sun’s aura on these Divine substances. Generally speaking, after the Divine substances are collected, all the sun’s aura on them will disappear within a day. Could it be that the Lord of Flame collected these Divine substances within these few hours?”

Another God speculated.

“If your speculation is true, then it would be too terrifying. However, the third wave of energy tide has rarely entered. Once you are injured, you will often be seriously injured. Not to mention 10,000 G, even tens of thousands of G of Divine substances cannot repair it. No matter how I see it, the Lord of Flame is not injured at all!”

“I also think so...”

Under the stimulation of the Divine substance that Lin Yan took out, these normally quiet gods could not help but speak more!

Some gods were silently observing Lin Yan.

Lin Yan did not have the slightest trace of being injured.

One had to know that injuries in the energy tide were usually hard to hide in a short period.

However, not only did Lin Yan not show any signs of being injured, but his aura was also as strong as ever. This caused many gods who thought Lin Yan was injured to be uncertain!

“He managed to withstand the third wave of energy tides. He hasn’t been injured yet, and he has also collected so much Divine matter and Divine energy. Even an ordinary fourth-ranked God can’t do it, right?”

An early stage third-ranked God had gathered a lot of information, and the conclusion he came up with immediately frightened him!

Chapter 480: Was left in shock! Goodbye Goddess Ellen!

“I have the Myriad Manifestations Heavenly Essence, and I'm willing to exchange it with you!”

Not long after Lin Yan finished speaking, a God spoke.

Lin Yan said lightly: “Okay!”

God flew over and handed a ball of light to Lin Yan.

Lin Yan took the ball of light. The thing inside the ball of light was the Ten Thousand Radiance Heavenly Essence.

This was actually a type of plant, but it only grew in the air. As long as there were some special places, it would be extremely difficult to find.

However, he still chose to trade the Ten Thousand Radiance Heavenly Essence for 1,000 G of divine substance. No matter what, that deity had earned it.

Lin Yan had over a hundred thousand G of divine substances in his storage space. The three items required a total of 3,000 G of Divine substances.

To Lin Yan, spending a few hundred thousand G's was only saving time, so he did not care at all.

“I can choose these Divine substances, right?”

God asked with an excited expression on his face.

Obviously, there was something he needed in these Divine substances.

Lin Yan nodded.

The God quickly chose 1,000 G of Divine substance, as if he was afraid that others would snatch it from him.

“Thank you, the Lord of Flame!”

God's voice was filled with gratitude, and he quickly left.

Clearly, he was preparing to return to his Divine Kingdom.

This God was not strong. He was only at the second rank. He had 1000 G of Divine substance. If he entered the sun, it would be bad for him to be remembered.

He had probably obtained the Ten Thousand Brilliance Heavenly Essence by chance.

This was the case in the Heavenly Realm. Sometimes, the precious resources one needs might not be in the hands of powerful deities.

It might be in the hands of some weaker gods, but it was very difficult for one to know whose hands it was.

...

This second-ranked God naturally knew that he was taking advantage.

However, Lin Yan didn't care. He didn't even look at which Divine substance he had chosen.

He was rich and arrogant.

"Is there anyone who has the Tear Sieve Fruit and the Dragon Blood Vermillion Fruit?"

Lin Yan asked again.

"I also want to exchange."

A God of the first rank looked at the Divine substance with shining eyes.

Helplessly, he had never even heard of the two things that Lin Yan had said, let alone had them.

Lin Yan asked again.

There weren't two other divine substances among the more than one hundred gods near the spatial gate.

"Find it near the other spatial gates."

Lin Yan thought.

The Elven God Realm was relatively remote. This spatial gate was connected to several spatial gates in the Elven God Realm.

The God Realm's strength near the Elven God Realm wasn't that strong.

Among the more than a hundred gods, Lin Yan did not even see a peak third level one.

Therefore, Lin Yan was prepared to go to another spatial door to look for it.

"Vera, Mavis, wait for me in the Divine Kingdom."

After Lin Yan finished speaking, he expressed his intention to the Goddess of Light and left.

With the special energy he had gathered, which was the energy of divinity, Vera and Mavis no longer had to venture into the sun.

Divine energy was the energy that could be fused into Divine energy and become one of its ingredients.

His Divine energy was quite high.

There was no way ordinary energy could do anything about it, nor was it qualified to become a component of Divine energy.

Only Divine energy had this qualification.

Lin Yan's energy points could also be combined with the power of belief to form new Divine energy. Thus, Lin Yan's energy points were actually equivalent to some sort of divine energy.

It was just that the number of energy points was too small.

It was equivalent to the Divine energy that had been diluted many times!

Lin Yan left as soon as he said he would. He quickly left, leaving behind a pile of shock and questions for the surrounding deities.

These questions included whether or not the Lord of Flame was fourth ranked god.

How did the Lord of Flame survive the third wave of energy tides?

In what way did the Lord of Flame collect so much Divine matter and Divine energy.

These questions were actually accompanied by shock because regardless of Lin Yan's strength, what Lin Yan did was already a miracle!

Lin Yan was fast.

In the Heavenly Realm, every Divine Domain had a portal to the sun.

Usually, a few Divine Domains portals pointed to the same point.

The distance between Divine Domains was so much.

However, near the sun, the distance between these space gates was not too far.

After Lin Yan used the rules of space, not long after, Lin Yan saw another space gate.

There were still a large number of gods near the dimensional portal.

There were even more gods there and it was clearly divided into a few parts.

Of course, there were also gods alone.

Lin Yan flew straight over.

When the gods saw Lin Yan flying over from afar, they all looked at him.

Without another word, Lin Yan moved his hand and a large amount of Divine substance appeared in front of him!

This time, Lin Yan took out more Divine substances, more than 20,000 G.

Lin Yan's actions instantly shocked and confused the gods for the Divine substance.

"Are you showing off your wealth?"

Some gods even thought.

Just thinking about it made sense...

It was like before Lin Yan transmigrated, a group of people gathered together to wait for the bus. Suddenly, a person appeared. Without saying anything else, he poured out billions of cash from the bus in front of this group of people.

That group of people felt the same as these gods!

Shocked and dumbfounded!

However, these gods soon knew what Lin Yan was going to do.

“I need the Tear Fruit and the Dragon Blood Vermilion Fruit. Any of the two is the same. You can choose 1000G among the divine substances here.”

Lin Yan said calmly.

The gods near the dimensional portal started to stir.

1000G Divine substance!

Even now, with the eruption of the solar tide, ordinary gods would not be able to collect so much Divine matter even if they had collected it for more than a year when the density of Divine matter was at its peak.

Moreover, among the Divine substances that Lin Yan took out, there were also a lot of rare Divine substances.

The gods immediately moved.

“Do you have Tear Fruit?”

“I don’t what about you?”

“Neither have I. I’ve never even heard of the Dragon-Blood Scarlet Fruit.....”

The gods started discussing.

Lin Yan asked again. When he saw that there was no response from the gods, he wiped his hand again and put away the divine substances and quickly left.

“Hey, don’t go. I want to trade something else for some Divine substance.”

A God quickly shouted, but Lin Yan had already disappeared.

“Which God is this? How does he have so many Divine substances?”

Some gods were curious about Lin Yan’s identity.

“If I’m not mistaken, he should be the Lord of Flame, a third-ranked God.”

In front of this dimension, a God recognized Lin Yan.

“Third ranked?”

Hearing the words of the God, one of the gods stared at the direction Lin Yan left in. His eyes flickered as he thought of something.

Soon, Lin Yan arrived in front of the third dimension and used the same procedure.

Lin Yan shocked more than one hundred gods in front of the third dimension as usual. However, there were no gods that possessed the Tear Fruit and Dragon Blood Vermillion Fruit.

Lin Yan left in disappointment.

Then he headed to the fourth-dimensional portal.

This time, Lin Yan was lucky to exchange for the Dragon Blood Vermillion Fruit!

Lin Yan went to the fifth-dimensional portal.

Near the fifth-dimensional gate, there were many gods.

Lin Yan saw many human goddesses inside.

The group of human goddesses was gathered together. It seemed that they belonged to the same pantheon.

“Could it be the goddess of the Elven godhood?”

Lin Yan still knew the Elven Divine system.

He quickly flew there.

Lin Yan did not know that when he flew closer, one of the goddesses was shocked.

“Ellen, look, it’s him!”

A surprised voice sounded.

Among the group of goddesses, Ellen and Hurley, who had seen Lin Yan in Divine Domains before, were also present!

Ellen had already seen Lin Yan!

She did not expect that a few months later, after she joined the Celestial Elven Department, she would see the Lord of Flame here!

“Junior sister Ellen, who is he? Do you know him?”

At this moment, beside Ellen, a tall and slender goddess asked.

When Ellen suddenly saw Lin Yan, her eyes became a little dazed.

Hearing the goddess’ words, she quickly put away the peculiarity in her eyes.

“He is the Lord of Flame I mentioned.”

Ellen said.

“The Lord of Flame does look pretty good, but Ellen, you’re now the Lord’s personal disciple. You can’t be so short-sighted. You’re just a third-ranked god, and you don’t

have a big background. There's no need to dream about him. With the Lord's help, you'll soon surpass him."

The tall goddess said.

Her tone was very calm, and there was no discrimination in her words. However, Ellen could already feel her natural contempt for the Lord of Flame.

Ellen felt a little uncomfortable.

Just as Ellen was about to speak and defend Lin Yan, she saw Lin Yan fly in front of all the goddesses. With a gentle swipe of his hand, an immeasurable amount of Divine substance appeared in front of Lin Yan.

The number of Divine substances was too terrifying.

When they appeared, the surrounding space trembled slightly!

Ellen immediately heard the tall goddess shout.

Obviously, she was shocked by so many Divine substances!
