

# Lord of Flames

## #Chapter 61: Miracle City every day - Read Lord of Flames Chapter 61: Miracle City every day

*Chapter 61: Miracle City every day*

### Chapter 61. Miracle City every day

“This city is truly miraculous.”

The Dwarven Queen Ivy looked at the half-built Miracle City and clicked her tongue in wonder.

Miracle City was extremely large.

After it was completely built, it could probably accommodate over a million people.

The design of the entire city was completely in accordance with the enlightenment that the Lord of Flames had given the Fox girl, Qing Ling.

Miracle City was divided into several regions.

The residential area, business district, and other functional areas were also roughly separated!

The streets of the city were wide and straight.

Below the street, the sewers were the focus.

The sewers of Miracle City were quite perfect, and they could run perfectly!

Even if it rained for several months, there would be no water left on the streets.

Besides, all the sewage was naturally discharged into the river that passed through the city.

However, before entering the river, several large sewage stations were designed in different areas.

This sewage station was not the same as the ones Lin Yan had seen in his previous life.

Instead, he used the power of magic to treat the sewage.

The purified sewage was discharged into the river, and the garbage in the sewage was treated by a specialized person. After concentrated, it was burned with flames.

The flames that were cast by would not produce much harmful gas after the rubbish was burned.

This was the power of magic.

It could be used to kill enemies or serve life.

In the entire Miracle City, the streets were all made of cement, and the houses were made of stone.

However, with cement as a coagulant, these stone-built houses were solid and beautiful.

In the city, the planting of trees was also done very well.

Flowers and trees were everywhere.

The Dwarven Queen Ivy had never seen a city of this splendor before!

The Dwarves had never seen something like it either.

The Dwarves did not have high requirements for living conditions.

However, they were naturally happy to have good living conditions.

The Dwarves lived in the northern corner of Miracle City.

The houses there were quite suitable for Dwarves to live in.

Some Dwarves were unwilling to leave after staying for a few days.

Compared to the dark underground, this place was like heaven!

The rooms were spacious and bright.

Every room had a window, and the lighting was exceptionally good.

There was even a balcony where one could see the garden-like street scenery outside.

What surprised them even more was that there was tap water that could flow out with just a twist of a knob!

They had never heard of such a miraculous thing before.

Therefore, the Dwarves on the surface were all extremely curious.

The Lord of Flames immediately left a mysterious feeling in their hearts.

This caused the Dwarves to completely focus on the Lord of Flames!

.....

Under the advice of the Fox girl Qing Ling, those living in Miracle City were naturally not doing so free of charge.

The Foxes were no exception.

However, the Fox clan had long obtained the ownership of their housing through labor.

The Dwarves were the same. They could live first, and then obtain the ownership of their houses through work.

Although this was a gift from a God, there was no free lunch in the world!

If there were lazy people, they would be expelled from Miracle City.

However, no matter if it was the Fox tribe, the Humans who had arrived, or the Dwarves, there weren't many who were lazy.

Everyone was full of energy, working in full swing!

Under such circumstances, even though they didn't have modern tools, tens of thousands of people started the work with all their strength. With the aid of magic, the construction of Miracle City wasn't slow at all.

Miracle City was almost the same every day!

The Dwarves' new Divine Hall was also located in the northern corner of Miracle City.

The Dwarven Queen Ivy lived inside of it.

The Dwarven Queen Ivy had chosen a few beautiful women from the Dwarves to serve as maids of the shrine.

However, their beauty was not those of a Dwarves' sense of beauty but those of a human's.

She, along with the four little lolita-like dwarves, lived in the shrine.

Now, Lin Yan had three Divine Halls and three Holy Maidens!

*Chapter 62: Eternal Heavenly Flames!*

## **Chapter 62. Eternal Heavenly Flames!**

While the construction on the ground was in full swing, Lin Yan was still searching for a Special Flame.

A thick layer of ice covered the wall of a cave!

The ice had spread through countless caves.

This place seemed to have become a world of ice.

The temperature was also extremely low, and no one was willing to come here.

In the middle of these caves, there was an even larger cave.

However, the entire cave was filled with ice!

The ice here had been around for an unknown amount of time as if it had been frozen for ten thousand years.

If he looked at the area with his Eye of Detection, he would see a faint blue flame burning in the thick ice.

Not only did the flames not release any heat, but they also seemed to have absorbed all of the surrounding heat. That was why there was so much ice here!

Suddenly, a scorching flame rushed in.

Wherever the hot flames passed by, the ice melted at the fastest speed possible. It even evaporated and turned into steam!

In the blink of an eye, the scorching flames arrived in the cave where the blue flames were.

The scorching flames suddenly increased the temperature. Instantly, the ten-thousand-year-old ice in the cave vaporized!

The burning flames did not stop. They pounced forward and swallowed the blue flames.

【You have devoured the Indigo Ice Flames and have obtained 3,000 evolutionary points. 】

【You have devoured the Indigo Ice Flames. The system has already analyzed the energy structure of the Indigo Ice Flames. You can use the evolution point to rearrange

the eighth layer of flames to possess the characteristics of the Indigo Ice Flames. Do you want to modify it? 】

The system's voice rang out.

In this underground cave, Lin Yan slightly restrained the flames.

The rock around the cave stopped melting.

Lin Yan chose to modify it.

Two thousand evolution points were spent.

“Modification completed.”

Lin Yan looked at his panel:

【 Host: Lin Yan

Flame Core Level: Level 10 Heavenly Flame

Number of fire layers: 20

Maximum temperature: 5,200 degrees

Evolution Points: 11,580

Energy Points: 54,800,000,000

Current income: 0 Points/sec

Current consumption: 200 Points/sec

Skill: Berserk Burning, Eye of Detection, Continuous Burning, Healing.

'Heavenly Flame' Characteristic(s): Lava Fire, Cold Fire, White Fire, Burst Fire, and Indigo Ice Fire.

Resistance: 50% Water Resistance, 28% Ice Resistance

Item: Virtual Godhead

Others: None】

Yes, Lin Yan had already reached Level 10 Heavenly Fire.

He swallowed quite a few lava flames underground.

However, the new special flame was only found today.

This was the flame!

They were all called Indigo Ice Fire.

When this kind of flame burned, it was different from ordinary flames.

Ordinary flames would release heat.

This kind of flame would absorb heat.

As a result, the temperature around the ice flames was very low.

However, if one reached out to touch its flames, your fingers would probably be burnt to ashes.

Lin Yan transformed his Eight Flame Layer into the Indigo Ice Fire.

The additional skills he had now had were from these flames.

After devouring the Indigo Ice Fire, Lin Yan also contributed a total of 3,000 evolutionary points.

Lin Yan already had over ten thousand evolutionary points.

“It seems we can reach the next stage.” Lin Yan said to himself.

After that, Lin Yan used evolution point to upgrade.

A total of ten thousand evolution points had been deducted!

Lin Yan felt that he had already undergone quite a change.

This change was due to...

The feeling of constantly consuming energy points had vanished.

“This is...”

Lin Yan looked at his panel.

His Flame Core Level had changed, it suddenly turned into a Level 1 Eternal Heavenly Flames!

Eternal Heavenly Flames!

Lin Yan opened the description of this realm.

Soon, Lin Yan understood what Eternal Heavenly Flames meant.

This meant that even if Lin Yan's energy point was exhausted, he would not extinguish at all!

Of course, not extinguishing did not mean that Lin Yan could burn without restraint.

To put it simply, after reaching the First Level of Eternal Heavenly Flames, Lin Yan's consumption under a certain state was zero.

For example, now it was a Level 1 Eternal Heavenly Flames. Lin Yan was just an ordinary flame. If his range was not too large, a temperature of one to two thousand degrees would consume zero energy points.

If Lin Yan started to burn violently, he would definitely consume energy points!

However, as Lin Yan continued to upgrade, he was able to maintain a higher temperature and a wider range of flames!

*Chapter 63: The Holy Maidens leveled up! Cat Clan guests!*

### **Chapter 63. The Holy Maidens leveled up! Cat Clan guests!**

The advantage of ascending to become an Eternal Heavenly Flame was that the energy points that Lin Yan consumed when burning had been greatly reduced!

Lin Yan's Virtual Godhead had also undergone some changes.

Over the past few days, Lin Yan had consumed quite a bit of Faith Power in his Virtual Godhead.

Lin Yan used his Faith Power, by making his Virtual Godhead to continuously bless Qing Ling and the others.

Qing Ling and Meng Ying's magic talents were already quite terrifying.

.....

In just a few months, under Lin Yan's care, Qing Ling was already close to a Third Rank Magus.

The Fox girl, Qing Ling, did not have much to do every day.

Many important matters required her to make decisions.

The person in charge of Miracle City was Qing Ling.

Of course, Qing Ling didn't care about anything too specific.

Many of the Fox clan's internal matters were the responsibility of Qing Ling's mother.

Qing Ling's mother was quite capable, helping her with a large amount of the work.

However, when it came to matters related to the Dwarves or the Centaur Race, Qing Ling's mother had to ask Qing Ling for her opinion.

The head of the Centaur Race was also the head of the Mountain Centaur Tribe.

She was now the leader of the entire army.

Her daughter, Bai Ling, the beautiful Centaur, lived in the Divine Hall and became the most loyal Holy Maiden.

However, that beautiful little man did not possess the power of the Fox girl, Qingling.

She was more like a pure Holy Maiden. She spent most of the day in the Divine Hall, praying to Lin Yan and presiding over the Divine Hall.

She was also responsible for establishing the Deities Templar warriors of the Centaur Race.

Unlike Qing Ling, Bai Ling was not good at magic.

What she was good at was archery. Archery!

Other than the Magical Orcish, the Orcish did not have the Battle Qi like Human Knight.

Some of the Orcish's power came from their bloodline, which was also their bloodline power.

Some of the Orcish's power came from Ancient Totems, which were bestowed upon them by the Barbarian God. That was Totem Power.

There were also some Orcish who were purely strong.

Just like a group of people.

As Bai Ling's belief in Lin Yan deepened, Lin Yan began to bless Bai Ling and increase her strength.

He also granted Bai Ling the right to pray for the Burst Fire.

In other words, Bai Ling only needed to mention the Burst Fire in her prayers, and the Virtual Godhead would automatically open the passage through the line of belief and send it to her.

As long as there was Burst Fire on her arrow, the power of the arrow would be terrifying!

Lin Yan would occasionally use Divine Power to strengthen her body.

En, a bit of Divine Power could be divided into many uses.

There were too many people. Bai Ling couldn't bear it at all.

Under Lin Yan's care, Bai Ling's strength increased very quickly. She had already reached the level of a Second Rank Warrior!

.....

The greatest improvement were those of Meng Ying!

She was now a Fifth Rank Magus!

She was only one step away from a Sixth Rank Magus!

Such a speed of advancement in magic might not be possible in other Churches.

Meng Ying was actually a Divine Pet.

She was Lin Yan's pet!

This young lady who had chosen to trust Lin Yan in the Misty Mountain Range and jumped into the flames had already undergone a tremendous change compared to before!

....

Meng Ying's understanding and use of Fire Magic was already quite profound.

Moreover, through Lin Yan's revelation, she had learned some Defensive Magic.

This gave Meng Ying a good defensive ability.

As for the Queen of the Dwarves, she knew some Magic and had some research on Battle Qi.

She was the most powerful greatest weaponsmith in the Iron Castle Kingdom after its unification so her strength was not that important.

However, Lin Yan still gave her some enlightenment, allowing her to deepen her understanding of magic.

If one's knowledge of magic was high, it could also be very helpful forging.

The Dwarven Queen listened to Lin Yan's revelation. As she continued to study the forging techniques, she began to learn magic and improve her magic attainments!

It could be said that Lin Yan's Holy Maiden's strength had increased greatly in recent times!

Not long after Lin Yan had leveled up to an Eternal Heavenly Flame, a group of guests arrived at the Fox clan's territory.

They were sent by the Cat Clan!

*Chapter 64: Surprised Kittens!*

## **Chapter 64. Surprised Kittens!**

“Princess Lotte, is this really the territory of the Fox Race? I remember that in the past, the Fox Race lived in the forest. Why is there such a large plain? Have you seen those lands on the plain? Why have I never seen the plants planted there?”

At the edge of the Miracle Wasteland, a few Cat girls entered the Miracle Wasteland under the protection of roughly ten Cat warriors.

In front of them was the Fox Clan warrior who led the way.

These Cat girl's faces were no different from a human's. The only difference was that she had two small Cat ears on her head and a furry tail behind her!

It looked strange and cute.

The Fox girl had two ears that pricked up. However, the Fox girl's ears were slightly sharp and the Cat girl's ears were a bit smaller. This caused the Fox girl's temperament to lean towards elegance. If she grew up a bit more, she would definitely be a fairy-like figure with an exceptional temperament.

As for these Cat-eared women, they were purely adorable girls.

They looked cute.

The Cat girl who was called Princess Lotte was the prettiest and most adorable Cat girl among girls.

The clothes she was wearing were also of high quality.

From the way the other Cat girl addressed her, she should be the Princess of the Cat Race!

When Princess Lotte heard the Cat girl's words, she said, "I don't know either. The last time I came here was a few years ago. Aunt Ai Li and the others indeed lived in the forest at that time. Sister Qing Ling also brought me here, but there were too many poisonous insects in the wilderness. We didn't dare to enter at that time."

"Yi, Princess Lotte, quickly look, Centaurs!" At this moment, the Cat girl pointed at the Wilderness and said!

Princess Lotte looked over and saw that many Centaurs were dragging iron plows across the entire land.

Their efficiency was quite high.

As soon as the land flipped, a Fox man planted a new seed.

With the cooperation of the Centaurs and the Fox Race, the efficiency of sowing seeds was incredibly high.

"Heavens, Lotte, could it be that the Fox Clan has been taken over by the Centaur Race? Why didn't we get any news?"

The Cat girl cried out in alarm.

Princess Lotte looked at it for a while, then shook her head slightly. "It doesn't look like they're being subservient. I'm also confused. Let's go. When we meet Aunt Ai Li, we'll understand everything."

"Mm!"

Along the way, these Cat and girl looked curiously at the fields in the wilderness.

Soon after, they saw some Dwarves working!

The Dwarves were all very hardworking.

Some of the elderly Dwarves were no longer able to move their hammers.

However, these Dwarves could still pull out potatoes.

Therefore, some Dwarves couldn't stay idle, so they also ran out to help harvest potatoes!

"Lotte look, Dwarves!" Seeing the dwarves, the Cat girl next to Princess Lotte called out again.

Dwarves were rare in the Orcish countries east of the Misty areas.

Princess Lotte looked over and saw that there a few Dwarves working in the fields!

"It really is a Dwarf!"

Princess Lotte was also shocked!

As for the situation of the Fox Clan, this little Cats ears had no idea at all!

For a moment, a deep curiosity rose in her heart. She wanted to know what had happened.

Why did the Foxes, Dwarves, and the others live in this wilderness?

It must be known that no matter how close the Orcish was.

Only a few of Orcish Tribes could be seen in the Imperial City that the Lion Tribe had built.

However, these Orcish usually came to trade with each other, and there were very few who settled here

Under such intense curiosity, a few Kittens followed the Fox warriors who led the way to Miracle City!

The sight of the Miracle Wasteland was grand. From afar, Princess Loti saw the tall and large city wall of Miracle City!

Right above the city gate, there was a tall flame moment.

On this flame moment, the raging flames burned day and night!

"That's....."

The Cat girl next to Princess Lotte opened her eyes wide.

She never expected that such a grand city would appear here!

Princess Lotte's heart was also filled with shock!

Most Orcish strongholds were built of wood.

At most, the lower part was made of stone.

Because the Orcish did not have good adhesive, it was easy for the walls to collapse if they were raised with stones.

Only a few powerful Races would build stone walls, but they wouldn't be too high.

These city walls were too high!

At least ten meters tall!

Such a tall city wall was well-built, sturdy-looking, and majestic!

How could such a city appear in the Fox Race's territory?

Even in the Human Kingdoms, there were few orderly city walls like this!

Princess Lotte didn't understand at all!

His little head was filled with doubt!

Finally, they arrived at the city gate.

Under the city gates, she raised his head to look. She could feel the height of the city walls!

At the city gate, Qing Ling's mother personally came out to welcome them.

"Aunt Ai Li!"

When Princess Lotte saw Qingling's mother, her face was filled with joy.

When she was young, she had lived in Qingling's mother's tribe for several years, and her relationship with her was very good.

"Lotte, you've grown up."

Qingling's mother smiled as she looked at Princess Lotte.

Qingling's mother and Princess Lotte stood there for quite some time, and then Qingling's mother said, "How bad is it to stand here? Let's go. Let's go to the Divine Hall. The Holy Maiden is a bit busy, so she didn't come out to welcome you."

Princess Lotte was puzzled. "Holy Maiden?"

Qing Ling's mother nodded. "Yes, it's Qing Ling. She's the number one Holy Maiden of the great Lord of Flames!"

"Qing Ling, Holy Maiden?!"

Princess Lotte was even more puzzled.

Qing Ling's mother didn't explain too much." You'll know when we go in. Let's go!"

She led the way.

Princess Lotte followed after him.

"Princess, look, the path here..."

Behind Princess Lotte, the Cat girl pointed at the straight and clean road in front of her. Even though her voice was very low, the surprise within it was obvious!

They had already walked onto the wide concrete road, but they had seen too many surprises along the way, causing them to not notice the road beneath their feet!

Only now did they realize that the path on their feet seemed to be different from that of other places?

What a clean path!

This was their first impression.

There wasn't any rubbish on the way!

One had to know that the Orcish cared very little cleanliness. In comparison, the Fox Race and the Cat Race would do better in terms of personal hygiene, but in terms of public health, it was hard to say a single word!

In the Orcish strongholds, it was pretty good to have a stone path, but the stone path was often filled with rubbish!

Such a clean path couldn't be this common!

It was so clean that it was unbelievable!

Moreover, this path was made out of something unknown. It didn't have any cracks, and it was perfectly smooth, without any unevenness!

They had never seen or heard of such a path.

As they walked, they all lowered their heads to the road.

Even the ten or so Cat warriors protecting them were doing the same!

Just like that, they passed through the city gates and walked into Miracle City.

The little Cat girl finally raised her head and looked at this mysterious city.

Then, his mouth opened into an “O” shape.

This city was simply too beautiful!

.....

PS:(The picture of Princess Lotte is attached, as is the Holy Maiden Building!)

*Chapter 65: Granny Liu had entered the Grand Monastery!*

### **Chapter 65. Granny Liu had entered the Grand Monastery!**

Behind the City Gate was a straight road.

On both sides of the road were wide green belts.

These green belts followed closely behind the Grand road.

It was filled with flowers and trees.

These flowers were not randomly planted.

Instead, they combined a large area of the same colored flowers!

It looked neat and tidy, especially full of visual impact!

Behind the flowers were landscape plants.

Behind them was an even taller tree.

A green plant with a sense of hierarchy was not seen very often let alone in the Orcish countries.

There were not many in the Human countries either.

Even as a Cat Princess, Princess Lotte had never seen such a beautiful green plant before!

Just the green belt on the side of the main road gave this group of kittens a strong impact.

Then, they looked into the distance.

Behind the green belt was a very wide sidewalk.

Of course, these Orcish did not have the concept of a sidewalk. At this stage, this road was not for cars, but for people.

Behind the sidewalk were buildings after buildings.

These buildings were also built of stone, but they were exceptionally beautiful.

It wasn't just the appearance of the building that was full of characteristics. Even between the stone, a white object was used to beautify it.

It looked exceptionally beautiful.

There was no sign of chaos!

As for these buildings, they were all red tiles. At a glance, they were all red. For the Orcish who had first seen this color match, it was simply too shocking!

Even the newly joined Dwarves and those who had lived here for a long time like the Fox Race and the Centaur army couldn't help but look at this city in awe every day!

Not to mention these Cat girls that had just seen it for the first time!

Along the way, Princess Lotte and the Cat girls' mouths had not closed.

Behind them, the dozen or so Cat warriors had also not closed their mouths!

These Cats had never thought that a city of this grandeur would appear in the Orcish Kingdom!

From the outside, it was magnificent!

After entering the city, it was so beautiful that it seemed indescribable!

Compared to that, their Cat Clan's stronghold was like a slum!

The Cat girl next to Princess Lotte let out sounds of amazement from time to time. This was something that surprised her.

For example, those soldiers clad in bright armor that were patrolling the city with orderly steps.

For example, the Fox-men sorcerers in the city were casting magic to make the flowers of the green belts bloom.

For example, the huge temple square, the huge fire monument, and the beautiful fountain surrounded by the fire monument!

When staring at the sights, these little Kittens and the Cat Princess Lotte gave off the impression that they were country bumpkins entering the city for the first time.

It was like a scene written in a classic that Lin Yan had read before he transmigrated: Granny Liu had entered the Grand Monastery!

Even as they arrived outside of the Divine Hall, the Cat Clan members had yet to return to their senses.

Until the Fox girl, Qing Ling walked out.

Qing Ling was wearing a pure white robe and a white veil over her face. Perhaps it was because she had been blessed by God for a long time. Her body looked very holy!

There were also eight Divine maids waiting behind Qing Ling.

These eight maids were all dressed in white robes.

They must not be underestimated. The four on the left were all magi, while the four on the right were skilled in sword-arts.

When Princess Lotte saw Qing Ling, she revealed a look of joy:

“Big Sister Qing Ling!”

She was willing to rush forward and hug Qing Ling, but when she saw her outfit, she couldn't help but hesitate.

This was because Qing Ling had changed greatly.

The aura on her body caused Princess Lotte to feel stunned.

Even though her face hidden behind the white gauze was incomparably beautiful, it also gave off a feeling of Divinity.

This sort of aura also gave off a feeling that one would not allow others to enter.

It seemed that she did not belong to the mortal world.

Only to her God!

A Holy Maiden!

Only now did Princess Lotte understand the true meaning of these two words!

When the Fox girl saw Princess Lotte, she didn't say anything. She walked over and grabbed her hand, saying:

"Little sister Lotty, it's been a long time. The more you grow, the more beautiful you become."

Perhaps it was because Qing Ling's aura had become exceptionally holy. Even if she was the same woman, Princess Lotte didn't dare to look at Qing Ling.

She said, "Sister Qing Ling, did you give yourself to a God?"

The Fox girl Qing Ling nodded and said, "Yes, Lotte, I have dedicated myself forever to the great Lord of Flames!"

"Lord of Flames!"

Princess Lotte carefully savored these words.

Then, she thought of the flames that could be seen everywhere in this magnificent city.

Even on the streets, there were moments of fire every once in a while!

That was actually a "street lamp".

However, it was not powered by electricity.

It was kerosene!

This was extracted from the coal mine.

These street lamps would only be lit at night!

As for electricity, it was not difficult for Lin Yan to develop it.

However, the three clans had already invested all of their efforts in the construction of Miracle City. The combined population of the three clans was only two to three hundred thousand.

He was already running at full capacity.

He didn't have the extra energy to use the lightning again!

That was why Lin Yan had delayed the introduction of electricity!

In fact, the Miracle City had already reserved a pipeline for laying down electric wires.

That's right! Lin Yan was preparing to lay pipes from the underground, instead of causing the entire city to be filled with electric wires!

The advantage of the world of magic was that many materials with magical elements were much better than the world before Lin Yan transmigrated.

After using magic power to modify the electric wire, the loss during transmission would be much less.

However, that was all for much later!

Then, Princess Lotte thought of something.

This majestic and beautiful city could not be the work of the Lord of Flames, could it?

At this moment, the Fox girl's voice rang out:

"That's right, Sister Lotte. As you can see, the Lord of Fire turned the wasteland full of poisonous insects into a fertile plain. It was because of the gift of the Lord of Flames that we, the Fox Clan, walked out of the barren forest and gained our development today!"

After saying that, Qing Ling pointed at the soldiers who were standing in a neat and orderly manner in the hall square:

"Two months ago, the Centaur Race intended to start a war against us. Under the illumination of the glory of the Lord of Flames, we defeated the Centaur Race. From now on, the Centaur Race have submitted themselves to the Lord of Flames and jointly built this Miracle City with us!"

The Fox girl's words caused Princess Lotte's mouth to open slightly!

Next to Princess Lotte, the little Cat girl's eyes almost popped out when she heard Qing Ling's words!

When she saw the Centaur Race earlier, she thought that the Fox clan had been conquered by the Centaur Race.

Only now did she know that the Centaur Race was defeated by the Fox Race!

The little Cat girl did not think that the Fox girl Qing Ling was lying!

Because along the way, she saw that every time the elite armored warriors met the chief of the Fox clan, Ai Li, they would bow respectfully!

For a moment, this little Cat girl was filled with curiosity towards the Lord of Flames!

Princess Lotte was shocked for a long time before she said, "Sister Qing Ling, I remember that the leaders of the Fox Race used to be the Black Fox Tribe..."

Qing Ling said, "The Black Fox Tribe has long been defeated by us and is now being banished into the forest. However, many of the Black Foxes who are devout to the Lord of Flames have already obtained the qualifications to come to the Miracle Wasteland!"

Qing Ling added, "All of the magical things you see are the revelation of the great Lord of Flames."

Princess Lotte understood.

She was also very curious about the Lord of Flames.

Besides her curiosity, there was also a trace of reverence.

She had already witnessed the power of the Lord of Flames and the magic of his methods.

The impact of everything she saw today was far greater than what she had seen in the past ten years!

This city was enough to prove that the Lord of Flames was far superior to the Gods of all Orcish tribes!

*Chapter 66: A letter from the Cat Clan!*

### **Chapter 66. A letter from the Cat Clan!**

Apart from the Lord of Flames, which other God could create such a great city!

Moreover, this city was still under construction!

It was far from complete!

A city that had not yet been completed was already enough to shock them.

Once this city was completely completed, how majestic would it be!

Therefore, in a short period of time, Princess Lotte had already developed a deep sense of curiosity and reverence towards the Lord of Flames.

“Let’s go, Sister Lotte. Let’s go in and talk.” The Fox girl, Qing Ling, pulled Lotte into the Divine Hall.

Within the Divine Hall, there was a small parlor. This was the place where the Fox girl, Qing Ling, would normally meet and discuss matters with Meng Ying and the others.

The only ones in here right now were Princess Lotte and Qing Ling.

After chatting with Qing Ling, she dragged Qing Ling, the Fox girl, and asked a lot about what had happened to the Fox clan.

The Fox girl replied one by one.

This included the White Fox tribe’s rapid rise after being taken care of by the Lord of Flames.

There was also the miracle of the White Fox Tribe defeating the Black Fox Tribe and defeating the Centaurs from above the canyon.

And the Dwarves!

Princess Lotte’s beautiful eyes lit up with excitement.

After hearing this, she began to worship the Lord of Flames!

Only then did Qing Ling, the Fox girl, ask a proper question:

“Why did Little Sister come to the Fox Race this time? Are you only here to play around?”

Princess Lotte shook her head and said to the Fox girl:

“I was entrusted by my mother to bring this letter to the White Fox Tribe. Originally, I should have given this letter to Aunty Ai. Now, it seems that I can give it to Sister Qing Ling, right?”

For some reason, the Fox Race and the Cat Race all had one thing in common.

In these two Races. The status of females was greater than that of males.

Thus, the Cat Clan’s Chief was also a woman.

As for the Black Fox Race, it was an exception.

A letter!

The Fox girl, Qing Ling, nodded.

Princess Lotte took out a letter from her chest and handed it to the Fox girl, Qing Ling. She then said: "Mother said that this letter is of great importance. I was not allowed to read it either, so I do not know its contents."

The Fox girl, Qing Ling, took the letter and tore it open.

Princess Lotte was very conscious, she was not curious enough to peek!

The letter was very long, and it took Qing Ling quite a while to finish reading it.

After reading the letter, Qing Ling began to think.

The contents of this letter exceeded Qing Ling's expectations!

Because Princess Lotte's mother, the Cat Clan's Chief, was planning to move the entire clan!

The reason was very simple!

Recently, the Cat Race had been suppressed a bit miserably!

Moreover, the Cat Clan might face a great calamity!

This great calamity came from the 'Rulers' of the Orcish Kingdom, the Lion Tribes.

In the past, under the care of the Tiger Tribe, the Cat Tribe had lived happily.

The two of them were from the same species. Therefore, they were very close.

The relationship between the two clans was very good.

At the very least, they were much better off than the Fox Race!

In the Orcish Kingdom to the east of the Mist, the Lion Tribe was the most respected, and they could command all the Orcish tribes.

Meanwhile, the Tiger Tribe had grown bigger in recent years, with more and more people, threatening the status of the Lion Tribe.

In addition, the Tiger Tribe also had the intention of replacing the Lion Tribe, so the friction between the two clans had become increasingly volatile.

A month ago, a large-scale war finally broke out between the two clans.

There was not much communication between the Orcish tribes. The mountains were high and the waters were far away, so many things would take quite some time to spread. Coupled with the recent development of the Miracle Wilderness, Qing Ling was not very clear about the war between the two tribes.

But now, she knew.

The war that lasted for a month ended in defeat for the Tiger Tribe.

The Tiger Tribe's army was wiped out by the Lion Tribe.

Seeing that the situation was not right, the remaining Tiger Tribe members fled to the Endless Desert to the east.

It could be said that in this battle, the entire Tiger Tribe was uprooted!

The Lion Tribe was still chasing after the Tiger Tribe's remaining forces, preventing the Tiger Tribe from rising again, returning to seek revenge.

During this battle, the Cat Clan had sent people to help the Tiger Clan.

The Cat Race walked silently, and they could even see the night. Many of the Cat Race's soldiers helped the Tiger Race investigate their enemies and provide information to the Tiger Race.

The Cat Clan's Chief was worried that once the Lion Tribe cleared out the remaining forces of the Tiger Tribe, they would probably attack the Cat Clan!

The power of the Cat Clan was far inferior to that of the Tiger Clan. How could they contend against the Lion Clan?

The Lion Tribe, who was able to command all the Orcish tribes, was quite powerful!

Therefore, the Cat Clan's Chief sent her daughter over. The reason was very simple.

She knew that the White Fox Tribe lived near the Miracle Wilderness.

Of course, the Cat Clan's Chief thought that the Miracle Wasteland was a wasteland filled with poisonous insects!

The Cat Clan's Chief hoped that the White Fox Clan could help her daughter and investigate the situation in the Miracle Wilderness.

Yes, the Cat Clan's Chief was planning to create a village in this wasteland full of poisonous insects!

After all, in the past, no Orcish Race was willing to develop within this wasteland.

The poisonous bugs inside were too terrifying.

Although these poisonous bugs didn't have much strength, their poison was strong, and there were many places to settle down within the wilderness.

Moreover, those places were not easy to be discovered.

Some powerful Orcish Tribes were vulnerable too.

If they wanted to develop it for the entire clan, they would probably have to give half of it to the clan members.

There was still miasma in this wasteland!

To protect the Cat Clan, the Cat Clan's Chief planned to open a path in the wilderness and develop the other side of the wilderness as a new residence for the Cat Clan.

If the Lion Tribe attacked, the Wilderness would block the Lion Tribe.

The reason why they chose this wasteland was because of the reasons mentioned earlier. The other reason was that this place was very far away from the Lion Tribe. It was thousands of kilometers away.

At such a distance, the Lion Tribe might not be willing to chase after the Cat Tribe because they did not pose much threat to them.

One had to know that in the war with the Tiger Tribe, the Lion Tribe's losses were not small either.

In this country, the Lion Tribe was not the only one that threatened the Tiger Tribe.

However, if the Cat Clan didn't move, the Lion Clan wouldn't let them stay alive for much longer.

Moving further away would not increase how much of a threat they, so the Lion Tribe would let them off.

It was only possible.

After all, the Lion Tribe might choose to kill a chicken as an example!

But the Cat Race had to struggle for a bit, right?

....

However, the Cat Clan's elders never expected that this wasteland had already been burned by Lin Yan, and then turned into an incomparably fertile black soil, becoming a place bestowed by the Gods!

The Cat Clan's Chief also mentioned one thing in her letter.

That was because in the recent period of time, some unknown evil underground creatures had somehow found an exit that arrives directly to the Cat Clan's territory, and they had also caused trouble on the ground. Therefore, the reason why the Cat Clan's Chief wanted to move was that they were threatened by underground creatures.

This matter was of great importance, so the Cat Clan's Chief instructed in her letter that this information must not be revealed to anyone!

This was because the Lion Tribe did not see any activity from the Cat Tribe, nor did they pay any attention to the Cat Tribe. They left the Cat Tribe to settle their debts after autumn.

However, if they knew what the Cat Clan was planning, they would probably settle it now!

.....

After reading the letter, the Fox girl went silent.

Princess Lotte sat there quietly. She had a head of white hair and two braids on her hair. She looked exceptionally cute.

From the fact that she had not asked the contents of the letter, she was able to restrain her curiosity.

This was a cat-eared princess who appeared to be cute and was very well-behaved and sensible!

After a while, the Fox girl Qing Ling said softly, "Men"

"Holy Maiden Pavilion, do you have any instructions?"

A waiting girl walked in.

The Fox girl said, "Go and invite Meng Ying, my mother, the Centaur Clan Chief, the Holy Maiden Bai Ling, and the Dwarven Queen to discuss matters."

"Yes, Holy Maiden!"

The girl went down.

Seeing this, Princess Lotte said, "Sister Qing Ling, I'll go take a look around the city. This city is too miraculous. I haven't seen enough."

She was really sensible!

The Fox girl Qing Ling nodded.

The following discussion might involve some secrets of Miracle City. Lotte's presence wasn't proper here! Princess Lotte left.

She truly thought about the needs of her people and Miracle City first.

*Chapter 67: Finding a way! Qing Ling's ambition!*

## **Chapter 67. Finding a way! Qing Ling's ambition!**

Meng Ying was the first to enter the divine hall.

"Holy Maiden, what's wrong?" Meng Ying asked.

Qing Ling handed the letter to Meng Ying.

Meng Ying began to read.

Soon after, Qing Ling's mother, the Centaur Clan Chief, Bai Ling, and the Dwarven Queen had also arrived.

Then, they all read the letter.

About half an hour later, they had all finished reading the letter.

Meng Ying spoke first, "Holy Maiden, we need more people now. There are many Human Kingdoms in the west, but we can't go there for the time being. Our God didn't open the passageway through the Misty Mountain Range. I believe this is why Our God did this."

The Fox girl Qing Ling nodded. She also agreed with Meng Ying's words.

Meng Ying continued, "The best way for us to do this is to conquer the entire Orcish Kingdom first, place it under the glory of Our God, and then take the next step!"

In her simple words, the information she revealed was not simple.

In the City of God's Miracle, Meng Ying was mainly focused on the Fox girl, Qing Ling. She didn't seem to have an opinion, but she was actually very smart.

In Miracle City, Meng Ying was a human after all.

Moreover, she was the only human in Miracle City.

To Meng Ying, it was not good for humans to interfere in matters within the Fox Race.

Therefore, Meng Ying focused on the Fox girl, Qing Ling.

Then, she silently increased his strength.

Meng Ying knew that sooner or later, her God would need her to play a role in the Human Kingdoms!

.....

.

The Fox girl, Qing Ling, nodded in agreement again. She still did not interrupt because she knew that Meng Ying had something to say.

Sure enough, Meng Ying continued:

"If we can accept the Cat Clan's population, it would be a very good supplement for us. However, the Lion Clan's threat has to be considered. Once we accept the Cat Clan, it would mean that we will face the Lion Clan in the open."

Only then did Qing Ling say, "The Cat Clan has been under the protection of the Tiger Race for a long time. In order to dispel the concerns of the Lion Race, the Tiger Race chose to believe in the Gods of the Lion Race. The Cat Race is the same. Now that the Tiger Race has been destroyed, the Cat Race no longer believes in the Gods of the Lion Race. Once they see the miracle of Miracle City, they would undoubtedly believe in Our Lord."

Her words solved the first problem.

The question of faith.

This was a very important issue.

If the Cat Race was determined to believe in another God, then there was no point in helping them!

That was purely doing good deeds.

If that happened, the Fox girl, Qing Ling, might be willing to protect Princess Lotte and her mother but it was impossible to protect the entire Cat Clan!

She was the Holy Maiden of the Lord of Flames, but not the “Holy Mother “.

Fortunately, this problem was easily solved!

Seeing that everyone was listening to her seriously, Qing Ling continued:

“The second issue, The Lion Tribe’s a problem, If we were to help the Cat Clan, It meant that we are making enemies out of the Lion Tribe, However, sooner or later, we will face the Lion Tribe, The Lion Tribe was powerful, however, the difference between us and the Lion Tribe is not much. It is only because of the difference in the number of soldiers, As the number one clan, with a population of hundreds of thousands, it was said that there are nearly a hundred thousand warriors. We’re nowhere near that!”

At this point, her voice changed:

“However, it is precisely because of this, that we must draw all the forces that are hostile to the Lion Tribe to enrich ourselves! When the Lion Tribe fought the Tiger Tribe, their strength was greatly damaged. At this moment, there must be one or two tribes who have ideas about the Lion Tribe. As long as we hurry up and take advantage of the Lion Tribe’s lack of awareness regarding us, we will help the Cat Tribe move over. Then Lion Tribe might not be willing to attack them.”

At this point, her voice turned cold. “As long as the Lion Tribe doesn’t attack, we can give them a big surprise. Even if the Lion Tribe attacks, Miracle City is not afraid of them!”

The city walls of Miracle City had already been completed.

Miracle City now had a large number of archers.

The ten-meter-tall city walls, combined with these archers, would make the Lion Tribe hesitate to attack.

Even the Human Kingdoms would find it difficult to attack such a city.

The Lion Tribe was not as good at building siege engines as humans!

Therefore, Miracle City was not afraid of the Lion Tribe attacking.

Moreover, they still had the final insurance.

Their God!

The Fox girl, Qing Ling, did not count on the Lord of the Flames for everything.

She was the Holy Maiden of God.

She had the ambition to build the Greatest Kingdom for her God!

If she was always counting on the Lord of the Flames to do everything for her, then the Fox girl Qing Ling felt that her existence was meaningless.

This was the case for all the churches on the continent.

These churches would take the initiative to attack cities for the sake of winning more believers.

The Fox girl Qing Ling did not want to lag behind the people of those churches!

Moreover, a Deity should not personally come out and participate too often.

The Fox girl Qing Ling knew how to consider Lin Yan's position!

....

"Holy Maiden, you're right. There's nothing to do about the Lion Tribe right now. We already have a large number of warriors equipped with new armor. The armor has great protection against magic. Our warriors have also obtained new weapons forged by the Dwarves. Even if our warriors were to fight against them one on one, our warriors can still fight the Lion Tribe."

The Centaur Clan's Chief said.

As for the Holy Maiden of the Centaur Race, the beautiful Centaur Bai Ling was listening quietly.

Her understanding of military matters was not great.

That was why she wisely chose not to interrupt, only to listen.

The combat strength of the troops was not weak.

Previously, when the Fox clan was unable to retaliate, the Centaur Clan's Chief was too careless and was ambushed.

In addition, the Fox Race's strength increased greatly.

Now, with the armor designed by the Dwarves, these Centaur warriors were much more terrifying than human cavalry.

Every soldier was equipped in sturdy armor.

After being optimized by the Dwarves, these armors were not particularly heavy, but their protection was very good.

Moreover, after being forged in Lava Fire, it had gained quite a bit of Magic Resistance.

Even the weapons on the backs of these Centaur soldiers changed greatly.

Each Centaur soldier carried a spear with an iron spearhead, a broadsword, and a shield wrapped in iron.

En, in reality, they would carry many spears made of wood. These spears were used for throwing!

Some Centaurs who were good at archery also carried a bow and many arrows!

Their combat strength had already made a qualitative leap.

As for the Magus' on the Fox side, their strength was constantly increasing.

More than ten first-rank sorcerers had been born, and the rest of the apprentices were very close to becoming first-rank Sorcerers.

Moreover, Meng Ying was a fifth rank Magus!

In addition, the Dwarves could also produce some warriors, so they should not underestimate these Dwarven warriors. They had been forging for many years, and they were very strong.

Of course, the Fox girl Qing Ling was not prepared to let the Dwarves fight.

These were all precious forging craftsmen. It would be a pity if any of them died!

On the Fox side, not only were there Magus, but there were also a large number of archers.

It could be said that the battle strength of Miracle City was already quite strong.

The only thing missing was a great number of warriors!

Now that the Centaur troops were at full capacity, they would be able to assemble an army of ten thousand people.

There were still seven to eight thousand Fox men.

In total, it was less than twenty thousand.

The Lion Tribe had a few hundred thousand warriors. Even if they had died in the war with the Tiger Tribe, they still had at least a few hundred thousand!

Although there were many enemies, none of the people present were afraid.

They were all trying to figure out a way to handle the situation.

The Dwarven Queen also spoke, The Dwarves can provide 10,000 warriors. Taking advantage of the current situation in order to make a name for ourselves it would be best to fight the Lion Tribe. As long as we defeated the Lion Tribe once, the Miracle Wasteland and Miracle City will become famous in the Orcish countries. With our Lord's power, it would be easy enough to win over the faith of a few Tribes. We will continue to grow stronger!"

*Chapter 68: Moving! A thousand-kilometer migration!*

## **Chapter 68. Moving! A thousand-kilometer migration!**

"That's right. If we can accept the Cat Clan, we will be able to squeeze out more warriors. The Cat Clan will also be able to gather some warriors. In this way, we will be able to take the initiative to fight the Lion Clan with one or two more dependent Tribes!" The Centaur Clan Chief said.

The Fox girl looked around. Everyone present was very confident!

She couldn't help but recall the situation the Fox Race had been in a few months ago!

At that time, the survival conditions of the entire Fox Race were not very good. Coupled with the oppression of the Black Fox, many of the White Fox Race's Clansmen were starving to death.

However, right now, they were sitting here, discussing the matter of starting a war with the Lion Clan. Not only were they not afraid, but they were also even more eager to give it a try.

All of this was due to the great Lord of Flames!

Without the Lord of Flames, the White Fox Clan would still be worried about food, right?

This was how they could have the mentality and achievements that they were showcasing today!

The Fox girl, Qing Ling, could not help but feel some gratitude towards the Lord of Flames.

Then she said, "Wait a moment, I'll go pray to our God!"

The other girls all nodded.

The Fox girl, Qingling, walked up to the altar and began to pray.

She did not know that Lin Yan was currently resting on the Fox Clan's flame. He already knew what they had discussed.

Thus, not long after Qing Ling prayed, she received Lin Yan's revelation.

This revelation only had one word:

**Battle!**

Lin Yan was still searching for other Special Fires.

After becoming an Eternal Fire, Lin Yan did not consume millions of energy points every day.

Right now, he did not lack energy points. What he lacked were evolutionary points.

By devouring other flames, the evolution points obtained far exceeded what burning the Misty Mountains' forests gave him.

Moreover, devouring the other flames would also transform the outer layer of Lin Yan's Flame Layers.

Therefore, Lin Yan would be busy for a while.

However, he would still pay attention to this possible war.

.....

After obtaining Lin Yan's enlightenment, the Fox girl, Qing Ling, walked back.

"Our God has given us enlightenment!"

The Fox girl, Qing Ling, spoke with determination.

After saying that, she said to Meng Ying:

“Then it’s settled. Sister Meng Ying, you should lead this operation!”

Meng Ying nodded. “Alright!”

.....

This time, the operation to help the Cat Race migrate had officially begun.

Meng Ying led this operation.

The Centaur Clan’s Clan Chief gathered a thousand strong Centaurs, and she personally appeared to lead them on this mission.

Including her, there were a total of 1,001 Centaurs.

There were both men and women among these Centaurs. Among the Centaurs, females were not seen as weak.

They put on armor, prepared weapons, and brought food and water.

Meng Ying was riding on the Centaur Clan Chief.

In addition, Meng Ying also brought two first-rank Fox man sorcerers and several clever Fox man warriors.

They were used for reconnaissance.

Two first-rank Fox-man sorcerers sat on the Centaurs.

Princess Lotte of the Cat Race also sat on a female Centaur. Her role was also very important.

She wanted to tell her mother everything about Miracle City. She believed that after she told her mother, her mother would make the right choice.

She believed in the great Lord of Flames!

Then, the Centaurs set off grandly!

The speed of the troops was very fast.

The dwarves had also designed special horseshoes for their hooves so they would not need to fear caltrops!

Moreover, it would allow them to run faster.

When she arrived at the beginning of the Miracle Wasteland, Princess Lotte chose a route that didn't have any Orcish living nearby, to avoid alerting the Lion Tribe.

Right now, the thousand-plus Centaurs still chose that route.

Of course, it was impossible to not be discovered at all.

As long as no one knew their purpose, that was enough.

Then, before the Lion Tribe could react, they would help the Cat Tribe complete their relocation!

With a straight distance of over a thousand kilometers, these Centaurs would still need a day or two to arrive if they took a detour.

After all, the entire area wasn't entirely covered in plains, so their travel speed would slow down if they traversed through forested areas.

Princess Lotte had taken four days to reach the Miracle Wasteland!

However, only two days and one night passed. When night fell, the small army finally reached the territory of the Cat Clan.

At this moment, on the territory of the Cat Clan, most of the Cat Clan had already started preparing for their departure.

The Lion Tribe's pursuit of the Tiger Tribe was about to come to an end. The Cat Tribe Patriarch had originally decided to take a risk regardless of whether or not Lotte would return.

The Cat Clan's Chief knew that developing a wasteland that was filled with poisonous insects would kill many Clansmen, but it was better than the slaughter of the entire Clan by the Lion Tribe.

There was no doubt that the Lion Tribe would be able to do such a thing.

There were not many people left in the Tiger Tribe.

Only a small portion of them escaped!

With Princess Lotte around, this one thousand-man team smoothly entered the Cat Clan's territory and arrived at the core area of the territory, where the Cat Clan's Chief was located.

The tall Centaurs attracted the attention of quite a few of them.

The bright armor on the Centaurs' bodies made these Cat Clansmen stare straight at them.

“So much iron.”

“That’s not ordinary iron, is it? Look, there seems to be Magical Runes on it.”

“Is the Centaur Race powerful now? The warriors’ equipment is very good.”

The surrounding Cats were discussing animatedly.

In the Orcish countries, even the Lion Tribe might not be able to gather so much equipment.

Moreover, they were all equipment that they had accumulated.

Hearing the Cat Race’s discussions, the soldiers all raised their heads.

Originally, many of them were defeated by the Fox Clan, and they could also be considered to be captives.

However, after witnessing the Lord of Flames’ miracles, these Centaurs learned of the glory of the Lord of Flames.

The Lord of Flames did not treat them differently. He gave them the same treatment as everyone else.

These Centaurs were already very grateful to the Lord of Flames.

At this moment, hearing the discussions of these Cat Clansmen, these Centaurs couldn’t help but feel proud.

They couldn’t help but feel even more grateful to the Lord of Flames. They all yearned to be able to fight for the Lord of Flames and gain his favor!

....

“Mother, it’s like this...”

In the room, Princess Lotte told the Cat Clan’s Chief about what she had seen and heard in Miracle City and the decision of the Fox girl, Qing Ling.

When the Cat Clan’s Chief saw those Centaur warriors, she was very shocked.

They were simply too eye-catching.

With the appearance of these thousand warriors, the Cat Clan's Chief naturally believed Princess Lotte's words.

"Alright then, we'll go to Miracle City and give our faith to the Lord of Flames!"

The Cat Clan's Chief immediately made a decision.

She was a decisive person!

After making a decision, she would immediately carry it out.

All Cat Clan's Chief immediately announced that they would take action overnight!

The entire Cat Clan had a population of 150,000.

They numbered far more than the Fox Race.

One hundred and fifty-six thousand people in a long line could stretch over ten kilometers.

Thus, a grand and mighty migration of a scale that had never occurred before in the history of the Orcish Kingdom had begun!

*Chapter 69: The Lion Race's pursuit! Charge!*

## **Chapter 69. The Lion Race's pursuit! Charge!**

Night after night, three or five Cat Tribe members walked through the forest and headed towards the Miracle Wilderness.

The Cat Tribe had excellent night vision, coupled with the clear weather and moonlight, no one lit a torch.

More than a hundred thousand Cat Tribe members had long received the orders of their Chief, no one spoke.

This great migration was quietly proceeding under the night sky.

As for Meng Ying and the 1,000 Centaur soldiers, they stayed at the back, protecting the Cat Race from behind.

Princess Lotte and the Cat Clan's Chief were at the end.

The Cat Tribe's soldiers were not strong.

In the past, due to the care of the Tiger Tribe, the Cat Tribe did not have many soldiers.

The entire Cat Clan only had four to five thousand soldiers.

If they fought with the Lion Tribe, a thousand powerful Lion Tribe soldiers would be enough to kill all the Cat Tribe's soldiers.

Therefore, with these warriors, Meng Ying had no hope at all. They had all sent the Cat Clan Chief to help the Cat Clan carry their belongings.

The team's speed was not fast.

One night passed, and they had walked over a hundred kilometers.

According to this time, it would take six days for the entire Cat Clan to reach the Miracle Wasteland because it was impossible for the Cat Clan to not slow down and rest!

They took more than twice as much time than Princess Lotte did.

However, this was normal. Princess Lotte had only brought a dozen or so people, and they were all warriors with good physical strength. And now, out of the hundred thousand or so Cat Tribe members, the old and the young accounted for a large proportion.

This speed was already extremely fast.

.....

"Ma'am, I haven't noticed any movement from the Lion Tribe yet."

Behind him, on the back of a Centaur soldier, a Fox soldier said.

Meng Ying nodded and said, "Keep on alert, increase the alert range!"

"Yes Ma'am!"

That Centaur carried the Fox Race warrior and left.

Along the way, soldiers from the rear came back to report the situation.

Meng Ying did a good job of reconnaissance!

The large force continued.

This time, to complete the migration as soon as possible, the majority of the Cat Tribe did not make any detours.

There was no way to completely hide such a large amount of people.

It would be better to get closer and hurry up!

At noon, the large army finally left Cat Tribe's territory and entered the territory of another Orcish Tribe, the Kobold Tribe!

The Cat Clan's movements caused many Kobolds to become curious.

"The Kobolds are eager for money. I've given some money to their Clan leader. They shouldn't have leaked any information."

The Cat Clan's Chief said to Meng Ying.

Meng Ying nodded.

The large army continued forward.

Two days later, the Cat Tribe members traveled day and night. They only rested for a short amount of time at night, but they only walked less than four hundred kilometers.

They had yet to reach the halfway mark!

At this moment, soldiers guarding the back brought a piece of bad news:

The Lion Tribe was chasing after them!

Hearing this news, the Cat Clan's Chief and Princess Lotte couldn't help but become nervous.

"How many people are there in the Lion Tribe? How far are they from us?" Meng Ying asked.

"My Lady, there aren't many people in the Lion Tribe. There are about a thousand or so people, less than fifty kilometers away from us." The Centaur soldier said.

It was less than fifty kilometers away. For the Elite Lion soldiers, even if they were to travel in the forest, they would only arrive in a few minutes at most!

Even if a hundred thousand people from the Cat Clan were to use all their strength to escape, they would not be able to escape!

"The Lion Tribe is still chasing after the Tiger Tribe. This should be the Lion Tribe's army in Lion

Pass." The Cat Clan Chief said.

Meng Ying pondered for a moment, then said to the Cat Clan Chief, "Tell your Clan members to speed up. Leave these Lion Clan warriors to us. After you leave, if you encounter any danger, you can pray to the great Lord of Flames. The Lord of Flames will send down help to you."

The Cat Clan Chief nodded. Together with Lotte, she urged the exhausted Cat Clan to speed up.

When the Cat Tribe heard of the Lion Tribe's impending arrival, no matter how exhausted they were, they all used all their strength to charge forward!

.....

"Lady Meng Ying, how are we going to fight?" After the Cat Clan Chief left, the Centaur Clan Chief asked.

Meng Ying pondered for a moment before asking, "What do you think?"

The Centaur Clan leader said, "The more flat ground our soldiers have, the greater the advantage they have. The place we passed just now has a small plane!"

Meng Ying agreed, "Alright!"

.....

In the forest, a large number of Lion Race warriors were running.

These Lion Tribe warriors were clad in leather armor. There were some mysterious symbols on their leather armor.

Needless to say, these mysterious symbols had certain magical protection effects.

Every one of them was strong and swift. When they ran through the forest, they liked to have all four limbs on the ground.

When they were fighting, they would stand up and draw out their weapons, giving their opponents a painful blow!

"These Cat Clansmen dare to escape. The Chief of the Cat Clan dares to do so. If it wasn't for the Kobold Clan's warning, perhaps they might have escaped!"

In front of the group was an iron armored Lion.

This Lion man was exceptionally tall, almost five meters tall.

This was a powerful Lion, and it was also the leader of this group of Lion Race warriors!

“Leader Rick, the Cat Clan has over a hundred thousand people. Shall we attack them directly?” A Lion asked.

Rick said with a snort, “So what if they have over one hundred thousand people? There are less than ten thousand people who can fight. Even if we only have one thousand people, we’re more than enough to defeat ten thousand sick Cats. We didn’t participate in this war against the Tiger Tribe, so we didn’t get any merit points. Now that opportunity has already presented before me, it’s time to destroy the Cat Tribe and obtain the merit points!”

“Milord is right!”

Seeing this, the nearby Lion immediately agreed.

This Lion didn’t think that there was anything difficult to deal with.

As the ‘Royal Clan’, the Lion Tribe had all come out. These Lion Tribe warriors were all experienced in hundreds of battles, and their morale was exceptionally high. These thousand Lion Tribe warriors could walk freely within many Clans in the Orcish Kingdom!

This group of Lion Tribesmen was very fast. In just ten minutes, they had climbed a mountain and passed through the dense forest.

A plain appeared in his vision.

This plain was not big, only a few kilometers wide.

As soon as a thousand Lion Tribe got out of the dense forest, they saw the armored Centaur soldiers on the opposite side of the plain!

“Leader Rick look, Centaur!”

The Lion Warrior beside Rick said.

“Stop!”

The leader roared. Immediately, more than a thousand Lion Tribe soldiers slowed down and arrived at the edge of the plain. They tidied up the formation and stood with the Centaur across the plain.

“From the Kobold’s report, there are many Centaur behind the Cat Clan’s main force. These people are quite bold, actually daring to help the Cat Clan!” The leader snorted lightly.

“Milord, look! These people are all covered in armor!”

The Lion Warrior beside Rick exclaimed.

Under the sunlight, the armor on the 1,000 Centaur soldiers looked exceptionally bright!

Bright and neat!

In the eyes of these Lions, they were simply blind!

Their bodies were leather armor.

However, these Centaur soldiers were wearing such bright and orderly iron armor!

The leader Rick naturally saw it as well!

“Where did these Centaurs come from?”

The leader was similarly puzzled.

During the pursuit, it had heard the Kobold describe the Centaur.

However, it did not believe them.

Centaur warriors were indeed strong.

However, compared to the Lion Race warriors who had won hundreds of battles, they were still far inferior.

But now, the movements of the Centaur soldiers made Rick’s heartbeat a little bit faster

“Milord, do you want to talk to them?” The Lion Warrior beside Rick asked.

“Prepare!”

At this moment, on the other side of the plain, the Centaur Chief had already issued an order.

Immediately, the upper half of all the troops began to lean forward. This was a charging posture!

“Kill!” The Centaur Tribe leader shouted.

Following that, all the Centaur warriors shouted at the same time and charged towards the Lion Tribe soldiers opposite the plain!

A great battle was imminent!

(This is the last free chapter)

*Chapter 70: Crushed! Shocking battle losses!*

## **Chapter 70. Crushed! Shocking battle losses!**

“They dare take the initiative to attack!”

On the other side of the plain, the Lion man next to Leader Rick could not help but say in shock when he saw a long line of men rushing over.

The Centaur warrior just happened to stand opposite the sun’s light. The bright armor was illuminated by the sun, and the 1,000 Centaur warriors turned into a dazzling light!

At this moment, this streak of light was charging forward in a grandiose manner!

However, a few kilometers wide plain would not take long for warriors to arrive!

Leader Rick roared, “Go! Kill them all!”

Even though the armor on the Centaur warrior made Leader Rick a little doubtful, Leader Rick made his decision in an instant.

Fight!

As a powerful Lion warrior, he did not know retreat!

He was very decisive!

Hearing Leader Rick’s words, a thousand brave and battle-hardened Lion warriors roared at the same time. Then, they stood up and took up their shields and weapons. With one hand holding their shields and the other hand holding their weapons, they charged towards the Centaur warriors.

When they stood upright, their speed was not much slower than when they were on all fours.

However, as Orcish, they retained some of the characteristics of wild beasts. When they were on all fours, it would save them a lot of effort.

Therefore, when these Lion Clansmen ran over a long distance, they would choose to have all their limbs on the ground. When they fought, they would all stand up!

They stood up, holding weapons. This was the biggest difference between them and the animal that they shared traits with, the lion!

Their combat strength would also rise by several levels!

On this plain, two lines were rapidly approaching!

Whether it was the Centaurs or the Lions, they were all speeding up!

This plain that was several kilometers wide was enough for them to increase their speed to the maximum!

Finally, the two lines approached!

*“Swoosh!”*

*“Swoosh!”*

On the plains, the sounds of spears sailing through the air echoed about.

At a distance of one or two hundred meters, no matter if it was the Centaurs or the Lions, they all chose to throw their spears!

The strength of the Centaur and Lion Race warriors was extremely great. Their spears were quite terrifying at high speeds!

Even though these spears were cut from wood, if the opponent used ordinary wooden shields to defend, they would be easily penetrated!

Then they killed the warrior behind the shield!

The Centaur warrior threw out another salvo of spears, and immediately threw another salvo!

That's right, they didn't even defend!

Their bodies were covered in armor, and their heads were wearing eye-protecting helmets, protecting their entire bodies!

As for the Lion warriors, they only had one chance to throw their spears.

The distance was too short.

After throwing a round of spears, they had to protect themselves and draw out their weapons to fight!

.....

The Lion warrior's spear landed on the Centaur warrior's armor, making a muffled sound.

On the plains, a large number of clanging sounds rang out.

However, these wooden spears could not penetrate the armor of the Centaur warriors!

The charging Centaur warriors didn't even slow down much!

The advantage of the Centaur warriors' equipment was the greatest!

.....

On the other side, the first spear of the Centaur warrior also arrived at a Lion warrior.

Both sides were good at throwing spears.

Lion warriors raised their shields to defend!

These Lion Race warriors also worthy of being experienced warriors.

Ordinary warriors would only hide the vital parts of their bodies behind their shields when they encountered dense spears. They would be forced to do so!

However, these Lion Race warriors took the initiative to brandish their shields and block the incoming spears!

Their shields were not made of iron

It was also a wooden shield, but the wood used was rather dense. There was a layer of leather in front of the shield.

This layer of leather looked like old leather that had been soaked in oil for quite a while. This kind of leather was extremely tough, and it wasn't easy to burn through with fire!

There were also mysterious runes on the leather, which had a good protective effect against magic!

The spear of the Centaur warriors was blocked by them with shields, making a particularly muffled sound.

That layer of leather was indeed very protective.

The spear could only pierce that layer of leather, but it could not break through the shield!

Only a few shields were pierced by the spears, but it was not a threat to the warriors behind them.

Even so, there were still more than a dozen Lion Race warriors who didn't block the spears. They were hit by the spears, became heavily injured, and completely lost their fighting strength!

But this was enough to prove the strength of the Lion Race warriors!

This was a head-on charge. The reaction time was too short. If the Centaur warriors threw long spears against the other Races, even if they had shields on the other side, they would be able to kill hundreds of other Races.

.....

However, even if the Lion Race warriors were so powerful, they would not be able to make up with their inferior equipment.

Because the Centaur warriors did not need protection, the first round of the spear fell for less than a second when suddenly the second round of spears arrived.

Many of the Lion Race warriors who had just blocked the first round of the spears were struck by the second round of spears before they could react!

No, many of them had never imagined that there would be a second round of spears!

At that time, could it be that the Centaurs did not raise their shields and guard?

Due to their speed swift speed when the Lion warriors who were hit by the spears hit the ground they suffered greatly. Screams rang out one after another!

The second round of spears had destroyed a third of the Lion Tribe's warriors!

.....

Before the two sides could fight each other directly, more than a third of the Lion warriors had been destroyed.

Then, the Centaur warriors charged forward with their spears that had iron spearheads!

A muffled sound rang out!

The spear of the Centaur Warrior crashed into the shield of the remaining Lion Warriors!

After a few kilometers of acceleration, the warriors rushed over with their full strength. The power they carried with their spears was simply too terrifying.

The shields of these Lion Race warriors were pierced by the sharp iron spear even though they were covered in thick leather.

Soon after, the spear hit the Lion warriors!

The Lion warriors' bodies continued to move forward!

The strength of Human heavy cavalry was largely due to their defensive and collision powers.

This type of collision was simply too terrifying.

Originally, the Lion Race warriors were also running, and they also had the power to charge.

However, their equipment was inferior, and coupled with the fact that they were facing each other on the plains; they were using their weaknesses to face the strong points of the Centaurs.

Therefore, the Lion Tribe was immediately knocked over.

Even though some of the agile Lion warriors had dodged the collision and fought back with their swords, they still found that they were unable to cut down the Centaurs!

The armor on the Centaur's body was so hard that it caused despair!

After all, this was a piece of armor that the dwarves had redesigned and forged in batches!

*Rumble!*

After the Centaur Warriors collided, they did not stop at all. They ran forward for several hundred meters before stopping.

On the battlefield where the two sides had clashed, there were only less than two hundred Lion warriors left standing!

These warriors that were still standing were also more or less injured!

In one exchange, only one-fifth of the Lion Tribe's Warriors remained!

On the other hand, only one Centaur had fallen!

The ratio of losses was simply too exaggerated!

That fallen Centaur was the one who was forcefully cut down by the powerful Leader Rick!

Leader Rick was indeed powerful.

His weapon was a pitch-black heavy blade. With this heavy blade, it had cut down a Centaur in a short period of time.

However, this man didn't die, he was only seriously injured!

The location of the leader's attack was just crack in the joint of the armor!

Although Leader Rick was brave, he was still stunned at the center of the battlefield.

After just a short round of battle, only a few of his warriors were still alive!

If there were more Centaur warriors, it would be understandable.

However, their numbers were the same!

Against similar numbers, they had never lost!

Even if they fought against the powerful Tiger Race, the Lion Race could still win.

But this time, the most exaggerated battle loss in the history of the Lion Race was born.

It was even born at his hands.

Over eight hundred powerful warriors had died.

However, only one enemy had fallen!

At this moment, Leader Rick did not understand what was happening.

What was wrong with this world? When did the Centaur Warriors become this powerful?

They were crushed!

This was a complete suppression!

The Lion Race warriors who had won hundreds of battles were crushed by the Centaurs on the battlefield!

No one would believe such a thing!

It had always been the Lion Race that crushed others, yet no one had crushed the Lion Race!

Even Leader Rick felt that this situation was so surreal!

However, on this plain, the corpses of the Lion warriors on the ground were scattered on the plain in a curve.

Some of the Lion Race warriors were still groaning in pain!

All of this told Leader Rick, this was true!
