Chapter 81. Spirit Space! Meeting God!

Even in the Continent of the Gods, Rank 6 was considered a great figure!

In this Orcish Kingdom east of the Fog, there were only one or two Sixth Grade Magister in such a vast area!

Meng Ying had just turned 16 today.

Well, she didn't tell anyone.

A 16-year-old Sixth-Rank, Grand Magus, in the Human Kingdoms, almost no one could do anything against them other than the Holy Maiden of a God!

Of course, Meng Ying was also Lin Yan's Holy Maiden!

Although Lin Yan wasn't an official God, he possessed a Virtual Godhead that could do certain things better than a True God in some ways!

This time, she was able to successfully become a Sixth-Ranked Grand Magus. On one hand, it was related to her talent. On the other hand, she was naturally helped by Lin Yan.

In an underground space, Lin Yan, who had just heard the prayer, and was just completely burned a deep-buried Tianran Gas Mine, turned his attention to her.

The reason Meng Ying prayed was very simple.

She was ready to charge into the Sixth-Rank.

There was a certain risk when breaking into the Sixth-Rank, so Meng Ying prayed for everything to go smoothly!

Yes, she was just like the Qing Ling. She was used to telling God things about her thoughts.

Even if it was some of the most secret things in her heart, she would occasionally complain to her God.

Yes.

She had already completely dedicated herself to God.

Therefore, she was not willing to keep any secrets from the Gods.

She did have some secrets that would make her blush if they were to come out.

For example, she felt that her body's development had increased slightly recently.

She realized that this might have something to do with her becoming more proficient in controlling magic power.

The magic power in her body grew more and more.

Magic power had certain effects on the body.

However, this kind of development seemed to have reached only two parts.

This made Meng Ying a bit confused.

Yes, she would seriously discuss this with her God.

Even though the Lord of Flames did not respond to her regularly!

Meng Ying's breakthrough did not take long.

Lin Yan, who had been paying attention to her for a long time, used a small amount of Divine Power to help her breakthrough to the Sixth-Rank.

Divine Power wasn't omnipotent, and it couldn't be used too often, but it was more than enough to help Meng Ying breakthrough to become a Sixth-Rank Grand Magus!

Meng Ying also felt Lin Yan's help.

After becoming a Rank Six, Grand Magus, Meng Ying was in a very good mood. She sat there quietly, still meditating. At this moment, Lin Yan heard a notification from the system.

This notification was related to the Virtual Godhead.

After Meng Ying became a Sixth-Rank Grand Magus, her spiritual power had already reached a certain level.

At this moment, Lin Yan could use up a certain amount of Divine Power to bring Meng Ying's spirit into a special spiritual space.

Then, Lin Yan would give her his highest blessing!

Because Lin Yan himself was a flame, Lin Yan could give Meng Ying better control over flames, allowing her Fire Magic to be even more powerful, or to for a shorter time, or have some special effects!

After this highest level blessing, Lin Yan could give Meng Ying a permanent effect.

Meng Ying chose this effect.

In the Virtual Godhead, these effects were all expressed in numbers.

For example, Meng Ying's magic power increased by 50%.

For example, the casting speed of Meng Ying magic was reduced by 100%.

For example, Meng Ying's Fire Magic naturally had the effect of Burst Fire!

Of course, this effect did not come out of thin air.

For Meng Ying received something she had to give Lin Yan something

En, this kind of sacrifice was quite good. It was calculated based on Divine Power!

To Lin Yan's Virtual Godhead, a single bit of Divine Power was equivalent to a hundred thousand points of faith.

With the current population of Miracle City, Lin Yan would be able to obtain nearly twenty points of Divine Power every day

It was more than enough to give Meng Ying this highest level blessing!

"The highest level of blessings!"

After receiving the notification, Lin Yan decided to give Meng Ying a blessing!

Then, through the Virtual Godhead, Lin Yan entered the spiritual space!

"This is the spiritual space?" Lin Yan asked himself.

This spiritual space seemed no different from the outside world.

However, the difference was huge.

This was because Lin Yan's spirit entered.

As soon as his mind moved, something changed.

An empty room turned into an Immortal Island filled with Immortal Energy.

In the sky, floating islands were everywhere. In the floating islands, green trees, red flowers, and cranes were flying.

It looked quite similar to the Immortal Realm that Lin Yan had read about in Eastern Mythology.

This was a mental space.

What Lin Yan wanted it to become was what it would become.

However, nothing was real.

Of course, if he didn't reach a certain level, he wouldn't be able to tell whether this place was real or fake.

If an ordinary person was trapped in this spiritual space, he might think that this place was real, and then stay here until his flesh died!

After entering his spiritual space, Lin Yan summoned his Virtual Godhead through the line of faith.

In Miracle City, Meng Ying could sense Lin Yan's call!

"My God is calling me?"

Meng Ying was a bit surprised.

After her shock, joy appeared on her face.

Her God actually summoned her!

Her God actually summoned her!

This was something that had never happened before!

If it wasn't for Meng Ying being unable to leave now, she really wanted to share this joy with Qing Ling!

She had to calm down!

Then, she opened her eyes, giving up on resisting, obeying God's summons.

When Meng Ying opened her eyes, she realized that she had come to an Immortal Realm!

In the sky, the floating island was entangled with the white clouds. There were also some beautiful birds flying around.

Everything around her was beautiful, and it didn't look like it was in the mortal world!

"Is this in the Divine Kingdom?"

Meng Ying couldn't help but think.

Meng Ying followed the Divine Revelation and walked towards a grand and exquisite hall.

As soon as she entered the hall, she lowered her head.

It was because a God was most likely on top of it. As the most faithful follower of a God, she could not look directly at a God.

However, Meng Ying couldn't help but become excited when she came to the Divine Kingdom.

If it weren't for her good willpower, her body would have been slightly shaken!

At the top of the main hall was an altar. In the middle of the altar, a ball of flame floated out of thin air, fiercely.

Immediately afterwards, Meng Ying received a Divine Revelation.

"Put your hands into the flames!"

She placed her hand into the flames!

This situation reminded Meng Ying of the time when the Lord of Flames had asked her to jump into the flames.

At that time, she had no choice but to jump.

However, now she didn't hesitate at all. She still lowered her head and slowly walked to the edge of the altar.

After that, Meng Ying extended her hand and placed it into the flames.

That ball was actually Lin Yan himself.

However, after controlling the temperature, he couldn't even damage Meng Ying.

Furthermore, this was the mental space.

Meng Ying was a spiritual body,

Lin Yan was also mentally alert.

The highest level of blessings could only be done in this way. This was also a way to minimize the consumption of Divine Power.

After all, the effect of permanently fixing a Magic Spell for Meng Ying was already at the level of laws.

If the Virtual Godhead was to complete this blessing, it would consume more Divine Power than he could imagine!

Chapter 82: Instant Casting! Eight Races are watching!

Chapter 82. Instant Casting! Eight Races are watching!

After Meng Ying put her hand into the flames, Lin Yan activated the highest level of blessings!

Then, Lin Yan received a notification.

Divine Power was insufficient.

He glanced at his virtual Godhead.

There were tens of millions of faith power in the virtual Godhead.

Lin Yan began to exchange his faith power for Divine Power.

In total, he had consumed over ten million points of faith power to exchange for Divine Power.

After the exchange, Lin Yan's Divine Power had just reached a hundred points.

Then, Lin Yan once again activated his blessings.

A hundred points of Divine Power was spent in a flash.

Immediately afterward, Meng Ying received a Divine Revelation.

The effects of this blessing could be chosen by her.

Meng Ying thought for a moment and said devoutly, "My God, please shorten the time it requires me to activate magic!"

"OK!"

Meng Ying received a Divine Response.

The highest level of blessing was activated!

Immediately afterward, Meng Ying could feel that her understanding of magical profundity was rising to its highest level.

Meng Ying closed her eyes and felt that magical profundity.

This kind of magical profundity was engraved in her heart!

Meng Ying lowered her head and lightly opened her lips, "My God, thank you for your generosity!"

After that, the Divine Kingdom quickly faded before her eyes and disappeared.

Meng Ying's spirit returned to her body. She opened her eyes and cast a spell.

Joy appeared in Meng Ying's eyes.

Instant Casting!

She managed to use Instant Casting!

Not to mention Grand Magus' even a slightly more powerful Grand Magus' would not be able to perform Instant Casting.

Of course, it would take a very small amount of time for the Grand Magus to cast some small Magic Spells.

However, after Meng Ying's test, she discovered that other than Divine Spells, all of her current magic, even the most powerful magical spells, only took less than half a second to cast!

This was Instant Casting!

The Lord of Flames was truly powerful!

She didn't know when she would be able to enter Lord of Flames' Divine Kingdom again.

Meng Ying couldn't help but look forward to it.

Even though she had only been in the Divine Kingdom for a short time, Meng Ying could feel that her soul had been nourished and her spiritual energy had increased slightly!

Most importantly, she was able to make close contact with her God.

To Meng Ying, that was the most joyful thing!

...

The preparations for battle in Miracle City continued.

In this battle, the Fox Maiden prepared to rely on the whole Miracle City to fight.

Defend first, and then counterattack!

There were fifteen thousand Centaurs warriors in Miracle City, eighteen thousand warriors in Fox Race, and seven thousand warriors in the Cat Race. They made up a total of thirty thousand soldiers who were ready for battle.

The Dwarves still had 10,000 troops that were ready in reserve.

Together, there were almost forty thousand soldiers.

There were already quite a few people!

With the help of the tall walls of Miracle City, this battle would definitely give the Lion Tribe a great surprise.

...

"Ordinton, I've already invited the Wolf Clan, Snake Clan, Birdman Race, and the others to watch the battle. This battle must be carried out swiftly so that those clans will know the strength of our Lion Clan!" In the Lion Clan's palace, the Lion King said.

"Don't be lenient with Centaurs. Kill the entire Clan. The Cat Race deserves the same. If they dare to kill my son, they will be buried with their entire Clan!"

The Lion King recalled Prince Bert and his voice became cold.

Ordinton stood in the palace. When he stood upright, he was taller than everyone. He was close to the Lion King in height!

“Yes, Father!” Ordinton seemed very obedient.

“How is the army resting?” The Lion King asked again.

Ordinton said, “Father, the army has been working for a long time. It will take another day before we can march again!”

The Lion King clapped his hands.

.

Immediately after, the two Lion Race warriors brought over armor.

“This is a Divine Armor blessed by the Gods. The Centaur Clan has obtained at least a fifth rank Magus from somewhere. It’s that Magus who killed Bert. With this armor, you won’t have to defend against the magus!” The Lion King said.

Ordinton’s eyes lit up when he saw the armor.

This Divine Armor was something that the old Lion King had obtained a few generations back, but he never expected it to be given to him!

Does this mean that the old Lion King’s thoughts have changed a bit, preparing to pass his position to him?

“Don’t worry, Father. I’ll definitely bring back that Magus’ head!”

...

The next morning, the Lion Tribe’s army began to march forward!

This battle was a battle where the Lion Tribe displayed their strength.

The Lion Tribe had been fighting the Tiger Tribe for a full month. Many of them thought that the strength of the Lion Tribe had been damaged, so they secretly made some moves.

For example, powerful Races like the Wolf Race.

Therefore, the Lion King specially invited these clansmen to observe this battle!

Even if the Lion King didn’t invite them, these clans would send people to observe the situation of this battle in secret, so that they could deduce the strength of the Lion Clan.

The Lion King naturally invited them. If you want to see it I'll let you see!

This time, the Lion Tribe sent out a total of sixty thousand elite Lion Tribe warriors!

These Lion Race warriors were powerful and well equipped. They moved in an orderly manner.

Moreover, the morale of these Lion warriors was extremely high!

They had just defeated the powerful Tiger Race!

...

"Who would have thought that the Lion Tribe would have so many powerful warriors after defeating the Tiger Tribe?"

Besides the Lion Race, there were quite a few other prominent Races of the Orcish Kingdom watching the show.

The one who spoke earlier was a Wolf with gray fur.

"The Centaur Clan and the Cat Clan are finished this time. The strength of the Centaur Clan is not weak. No one in the western region can defeat them. I wonder why they joined the Cat Clan this time."

A winged Orcish from the Birdman Race pondered.

"Haven't you heard that a Centaur army one thousand strong wreaked havoc in the territory of the Lion Tribe for three days, killing several thousand Lion Tribe soldiers? Even the eldest son of the Lion King, Prince Bert, was killed."

At the side, a Snake replied, quite well-informed.

"Really? Tell me more."

When the other clansmen heard the snake man's words, they all revealed curious expressions.

The Snake man told them the news. The other seven Orcish around him clicked their tongues in surprise.

"It seems like this battle is going to a bit of a show."

"It's also possible that the number of other people is still too small. The entire Centaur Clan only has a hundred thousand people, right? It's not bad to be able to produce ten to twenty thousand soldiers."

“That 1,000-man Centaur battalion might have obtained equipment from the Human Countries in the west. However, this time, the Lion Race is sending out 60,000 troops, and the powerful Ordinton. If I’m not mistaken, Ordinton is already at the Sixth-Rank, right?”

Chapter 83: The City shocks one Race after another.

Chapter 83. The City shocks one Race after another.

“Ordinton must be at the Sixth-Rank. The reason why the Tiger Race dared to challenge the Lion Race this time is that the Clan Chief suddenly reached the Sixth-Rank. It is said that the younger sister of the Tiger Race Chief is only one step away from the Sixth-Rank. One was at the Sixth-Rank, and one was nearly there. This was the reason the Tiger Race was so confident. However, the Tiger Clan’s Chief was killed by Ordinton!”

Among the eight spectating Clansmen, the Snake man once again spoke of the secret.

“In that case, the Lion Tribe has two Rank 6 fighters. Apart from that, the old Lion King’s former General Reid is also a Rank 5 fighter. It is said that the Lion King also has one of the most elite units consisting of a hundred Rank 3 fighters. If this elite unit were to attack, it would be able to defeat an army of ten thousand people.”

The eight Clansmen were discussing amongst themselves.

Those who could be sent here to watch the battle were not of low status within their clans. There were even some direct descendants of the Clan leader who knew quite a few secrets.

As they chatted, they followed the Lion army and headed towards the territory of the Centaur Tribe.

...

The speed of the Lion Tribe’s army was not particularly fast, but it was many times faster than when the Cat Tribe moved!

After half a day, they passed through Lion Pass.

The Lion Pass had already been destroyed, the fire burned for several days, turning the entire Lion Pass into ruins!

The people from the eight Clans all clicked their tongues in amazement.

They were even more curious about that Centaur army!

After half a day, these people passed through the territory of the Cat Race, and then passed through the territory of the Kobold people

The territory of the Kobold people had also been destroyed!

There were no Kobold people in the entire territory!

.

“Eh, the Kobold people have disappeared!”

The other eight Clansmen were especially surprised!

“The Kobold people should have been destroyed by that army!”

“When the Cat Race moved, the Lion Race’s ability to obtain news so quickly must have been because of the Kobold. I didn’t expect the troops to be so powerful. Although Kobolds are filthy, they still have more than ten thousand soldiers. That army of troops wreaked havoc in the territory of the Lion Race for three days. Even after so many battles, they managed to exterminate the Kobold Race. How powerful!”

The people of the eight Clans exclaimed.

Along the way, the members of the eight Clans sent a message to their subordinates.

Half a day later, the Lion Clan’s army advanced to the small plain where Rick and the Centaurs clashed.

However, the corpses of all the Lion soldiers had already been dragged away.

It was because other than the Lion Race themselves, the other eight Races didn’t know that there had been a battle here where the Lion Race had lost 1000 troops and their enemy had only lost one!

...

More than sixty thousand Lion Tribe soldiers filled the small plains. When the vanguard arrived at the jungle before the small plains, they were still several dozen kilometers away.

The army was exceptionally long!

However, the detection of the Lion Race warriors was much better than that of the ordinary soldiers.

In front of the Lion Tribe's great army, there were more than a thousand Lion Tribe spies, expanding their reconnaissance to dozens of miles away!

They were slowly but surely relaying all the information.

Not long after, the Lion Clan's army arrived at the place where the Kobold army was burned to death.

At that time, the temperature of the flames was too high. Even the weapons in the hands of the Kobold people had been melted, so there was no trace that the Kobold people had even existed!

After a few days, this place looked like a mountain that had lost its fire.

None of the Lion Race warriors who had passed by had ever thought that there would be over ten thousand Kobolds burned to death in this place!

After walking for a few hours, the sky turned dark and the Lion Tribe army began to set up camp.

The advance of an army was different from that of a chasing army. It wasn't too fast, to avoid any accidents!

In the eyes of the Lion Race, even though this battle could easily crush the Centaur Race, it was of great importance. Ordinton was not careless.

The next morning, the Lion Tribe's army started again.

At noon, the Lion army had finally reached the territory of the Centaur army.

"We'll attack after an hour's rest!"

Ordinton gave the order.

"Your Highness, according to the spies, the territory empty, not a single Centaur has been seen!"

Ordinton received a report from his subordinates.

"It's Empty? What?" Ordinton asked.

"Very likely, these people are quite cunning, but where can they escape? The Cat Race still had more than a hundred thousand people. Could it be that they were going to risk crossing the poisonous wasteland and the Misty to get to the Human Kingdoms? How could Humans accept them?" Besides Ordinton, a Lion Prince asked.

This war against the troops had followed a large number of Princes.

The troops were far inferior to the Tiger Tribe. Therefore, in the eyes of these Princes, this war was the best opportunity to gain military merit.

Every one of them rushed forward. A total of ten Princes followed Ordinton!

“Send out spies, we must find our troops. The troops will not be able to go far with such a large number of the Cat Race’s people!” Ordinton said.

The Lion Tribe’s army entered the Centaur Race’s former territory. There was indeed no one there. Even the Centaur stronghold was empty, and there were no crops in the fields.

“The Centaur Clan has most likely escaped!”

The eight Clansmen also made their guesses!

...

The Lion Tribe’s spies searched the territory of the Centaur Tribe, but none of them were found.

“Look to the west. The west is the territory of the Fox Race. The Fox Race is only a small Race. If they dare to block us, they will be wiped out. Ask them if they have seen the Centaur Race!”

Ordinton spoke coldly.

The Lion Tribe’s spies entered the territory of the Fox Tribe.

The Fox Clan’s territory wasn’t big.

In the past few months, even the Black Fox Clan had deepened their faith in Lin Yan. They had all moved to the Miracle Wasteland and joined the construction of Miracle City.

As a result, no one from the Fox Clan was able to find these Lion Clan spies.

Under the order of Ordinton, the Lion Tribe’s spies continued west.

“Isn’t the miasma wilderness that is covered with poisonous insects in the west? Could it be that they are going to barge into that poisonous wilderness?” The three Lion Tribe spies ran west as they spoke.

“It’s possible that they had. Otherwise, where else would they go?” The other Lion Tribe spy said.

The three Lion Tribe spies were very fast. Not long after, they passed through the forest and saw an endless plain!

“When did a plain appear here?” A Lion scout said in surprise.

“This should be the poisonous wasteland! This place was completely burned. It has turned into a vast plain. The soil here is still black!”

“Look!”

At this moment, the third Lion Tribe spy pulled the two beside him. His mouth had already resembled the letter “O”.

The other two Lion Tribe spies looked over. At the edge of the plain, a huge and majestic city appeared just over ten kilometers away from them!

Immediately, the mouths of the two Lion Tribe spies also opened.

“What? A huge city appeared in the poisonous wasteland? You’re not lying, are you?”

After receiving the news, Ordinton’s first reaction was disbelief. He immediately called the three Lion spies over for questioning.

The three Lion Tribe spies hurriedly said, “Your Highness, why would we dare lie to you? There is a city there. That city is too big; it’s probably even bigger than our Imperial City.”

The three Lion Tribe spies scrambled to describe the city they saw.

“It’s even bigger than our Imperial City? If you dare to lie to me, I will have your heads in my hands!” Ordinton still did not believe it.

“Our Royal City has only cultivated for several decades to its current size. No city in the entire Kingdom can compare to our Royal City. Even some of the cities of the Human Kingdoms cannot compare to our Royal City. The three of you are saying that the city is bigger than our Royal City. Are you kidding me?”

Next to him, the ten Princes who had followed him did not believe him either. They talked and expressed their opinions.

“Reporting, Your Highness, a spy has come to report that a huge city has appeared in the poisonous wasteland!”

“Reporting, His Highness”

....

At this moment, two spies brought back news.

They reported the same thing.

A huge city appeared in the poisonous wasteland! It also reached the ears of the eight Clansmen who had come to watch the battle.

Soon, this news spread.

All of these eight Clansmen became curious.

There were even people from the Birdman Race flying up into the sky, heading towards the poisonous wasteland.

Not long after, the Birdman flew back with a look of shock on his face. “There really is a that big a city. I didn’t dare to fly close, but I saw quite a few people of the Fox Race in that city!”

“The Fox Race? Are you seeing things?”

The Wolf Clan didn’t believe it.

“The Fox Race has made some moves recently. A few days ago, they even sent people to buy news from us, but if they were to say that they have built a huge city, I wouldn’t believe it.” A snake man stated.

The Snake Race’s news was extremely well-informed, and they didn’t know how they did it!

...

“Let’s go and take a look!”

Ordinton immediately led hundreds of soldiers in that direction.

Seeing this, the eight Clansmen who had come to give their opinions followed.

Not long after, they arrived more than ten kilometers away from Miracle City.

From afar, they saw the tall walls of Miracle City and the huge fire that was burning day and night above the city gates

Even though it was very far away, the size of this city still occupied all of their vision.

The eight Clansmen who had come to watch the battle were all shocked by this huge city.

They could not understand why such an enormous city had appeared here!

Even Ordinton's eyes narrowed!

His heart was filled with shock!

Even the Princes of the Lion Race beside Ordinton were so shocked that their expressions froze!

Chapter 84: Destroy a city by himself?

Chapter 84. Destroy a city by himself?

"Wow... What a huge city! Is this an advance force sent here by the Human Kingdoms?"

After a long while, a Lion Prince finally returned to normal and stammered.

"The Human Kingdoms have always wanted to destroy us, but can they pass through the Misty Mountains? More than ten years ago, a whole army of the Human Kingdoms had perished on the Misty Mountains! What's more, if they did attack, their army would have already entered our territory. Why would they build a city here?"

The other Lion Prince shook his head. He didn't think that the Human Kingdoms were attacking them.

"Then where did this city come from? Such a large city can't appear out of thin air!" The Lion Prince said.

The Lion Prince was stopped by the question. The heavens were pitiful, and he was also confused!

"Reporting, Your Highness, after we got closer, we found some Fox and Cat people on the city walls. Occasionally, we could see the soldiers of the Centaur Race!"

At this moment, another spy came to report!

This spy's words caused an uproar in the surroundings.

"What? The Fox, Cat, and Centaur people?"

"You're not mistaken, right?"

The ten Princes were talking.

“Shut up!”

Ordinton finally got angry. These guys were too noisy!

The expression on his face darkened.

As a powerful Sixth-Rank warrior, Ordinton’s vision was extraordinary.

Even though it was close to ten kilometers away, it could still see the situation on the city wall.

That spy was not wrong!

There were truly Fox men, Cat men, and men on the walls of that huge city!

“Your Highness, these three Clans are truly working together! This city is very strange. What should we do now?” Besides Ordinton, a somewhat older Lion man asked.

This Lion was the Lion King’s General, Reid. Before Ordinton rose to prominence, he controlled the entire Lion army.

Although he was older, his strength was not weak. He possessed the strength of a Fifth Rank Warrior!

Without such strength, it wouldn’t be valued by the Lion King!

“It’s a city built by the Fox Race and the Centaur Race! My god, why would these three Clans join together and create such a large city? It’s rare to even see a city like this in the Human Kingdoms!”

General Reid’s words indirectly confirmed the spy’s information.

As soon as his words were heard, the eight spectating Clansmen were immediately astonished.

“I already said it. You still didn’t believe me.”

The people from the Birdman Clan said proudly.

The eyes of the eight Clansmen flickered as they immediately sent their subordinates to send the message back to their Clans.

This time, the eight Clans had brought quite a few subordinates to watch the battle. Their purpose was to send news back at any time.

Then, the eight Clansmen suppressed their doubts and looked at Ordinton. They all wanted to know how Ordinton would handle it.

Whether to retreat or to attack this city that suddenly appeared!

Ordinton's gaze had always been on the huge city. The height of the city wall made him rather shocked.

A city of this scale was quite difficult to assault for the Orcish who lacked siege weapons.

However...

On the Continent of the Gods, if an expert could reach a certain level, he would be able to crush everything!

"As long as the Magus hasn't reached the Sixth-Rank, I'll be able to crush this city by myself!"

Ordinton's eyes darkened.

He had already decided!

He would siege the city!

As a powerful Sixth-Rank warrior, he also possessed the Divine Armor given to him by the Lion King. As long as this city did not have a Sixth-Rank magus, Ordinton would be able to break through the city by himself.

There were too few Rank 6 Magus'. Ordinton did not think there would be a Rank Six Grand Magus on the other side.

After returning to the Lion Tribe's territory, he had personally visited Lion Pass and the place where Prince Bert was killed.

Ordinton had his thoughts on the power of that Magus!

There was absolutely no way they would be at the Sixth-Rank!

At most, they were only at the Fifth-Rank!

And he, Ordinton, was an authentic Sixth-Rank Warrior!

Someone who has reached the Sixth-Rank could dominate a war against several thousand people!

A Sixth-Rank warrior could kill a group of two to three thousand people on his own!

The scale of this war was naturally not limited to several thousand people.

But after all, there were still sixty thousand powerful Lion Warriors behind Ordinton!

Ordinton only needed to use his powerful strength to break through the door and kill the enemy's strongest unit!

Even if the Fifth Rank magus had powerful attacks, as a Sixth-Rank Orcish Warrior, he was not afraid of the other party.

Moreover, it still had the Divine Armor!

As for the destruction of the city, there would naturally be a powerful Lion army that would take care of everything!

No matter how strange this city was!

As long as they fought, everything would be clear!

"Relay my orders. From this afternoon to tomorrow morning, we will rest. Tomorrow at sunrise, we will attack the city! No matter how tall these city walls are I alone can break it!"

Ordinton gave the order, his voice filled with confidence!

"Ordinton is indeed a Sixth-Rank Warrior. He can crush a city by himself. If it were anyone else, they would be seen as an overconfident and arrogant person, but if he were to say it, it would feel that he could do it!" ?At the orders, the representatives of the eight Races were filled with fear.

Of course, these people from the eight races definitely wouldn't be too happy.

The more powerful Ordinton was, the more powerful the Lion Tribe was, and the more uncomfortable the eight tribes were!

...

This afternoon, the Lion Tribe's army moved out, clearing the forest and clearing a large area.

This was to prevent the Magus' in the huge city from using fire attacks to sneak attack them.

Some Lion warriors were also using trees to make simple siege weapons! For example, ladders.

Even though Ordinton was confident that he could break through the city by himself, General Reid, who was experienced in battle, decided to be safer.

Ordinton did not say anything.

Although he commanded the entire army, the person who commanded this specific army was General Reid.

As a Sixth-Rank Warrior, he was usually the first to charge at the front. This was also the reason why he could win the support of a large number of Lion race warriors!

...

After a night of rest, the next morning, the sky had just brightened, and the mighty Lion Tribe army headed towards Miracle City!

The Lion Tribe warriors had never seen Miracle City before.

Therefore, when they saw the Miracle City, they were equally astonished.

Some Lion warriors felt the beating drums in their hearts!

Even if they had a large number of people and were brave enough to fight, they still felt a bit of fear when facing such a great city!
