#### **Chapter 86. A Sixth-Rank Confrontation! Falling Sky Flame!**

“Fortunately, I didn’t go.”

The ten Lion Princes were all fortunate.

The scene under the city wall just now was terrible.

Five thousand powerful Lion Warriors.

In that little time, he was wiped out.

Only a few of them were left with good luck. They were lucky enough to stand on the periphery, and the Lions who were not bombed or burnt fled back.

“This is how they defeated Burt’s army!”

Aldington also narrowed his eyes.

***[TN: From now onwards Ordinton will be Aldington]***

As a Sixth-Rank Warrior, the explosive spear’s attack was not something he feared.

But this explosive spear was fatal to ordinary Lion Warriors.

“An attack of this scale can probably be cast once. Now we only need to be on guard against their Fifth-Rank Magus. There is no need to test their defenses anymore. I will break through their defenses and enter the city. You can along. That Fifth-Rank Magus can only hit hundreds of people at most. There is still a small interval between spells!”

Aldington stood up suddenly, murderously.

“The order goes on, after breaking into the city, no one is allowed to live!”

Aldington glanced at it. Although his murderous aura was aimed at the city, none of the people present dared to look at him at all.

Aldington stretched out his hand, and its two deputies handed him a long blade.

“Drummers, strike with me!”

*Boom! Boom! Boom! Boom!*

Loud drums sounded, and two Lion Warriors beat the drums vigorously. This was the drumbeat of a full-scale attack.

“Kill!”

Aldington roared, and his voice almost overturned two weaker Princes!

Immediately afterward, Aldington picked up the blade and took the lead, immediately rushing to Miracle City!

“Kill!”

As soon as the Lion Warriors saw Aldington, their blood boiled a little.

Their morale that dropped after seeing five thousand of their fellows being slaughtered instantly soared.

This was the Sixth-Ranked God of War of the Lion Race, Aldington!

There was no need to fight; no one could win against them!

Invincible! Unbeatable!

Suddenly, these Lion Clan Warriors roared at the same time, and then they rushed to the Miracle City like chicken blood!

“This Aldington is simply crazy. When could we, the Wolf Clan, produce someone like him?” In the distance, among the eight races watching the battle, a Wolf Tribesman asked.

“I don’t know if this city can stop Aldington!”

It can be said that the Orcish present were not willing to see the Lion Race win.

However, these Orcish all knew that after Aldington attacks it even this huge city and its impossibly high wall can’t stop him!

A Sixth-Rank Warrior can battle against thousands of troops!

Even if the gates of this huge city were made with iron, they could not withstand the impact of a Sixth-Rank Warrior!

However, what was even more frightening was that Aldington could even jump directly onto the city wall!

If Aldington jumped on the wall, he could even kill all the people on the wall without much effort!

This was the terrible thing about the strong!

The average adult Orcish in the Orcish Kingdoms is as powerful as a First-Rank Human Knight. So how are they still being crushed by humans?

Firstly there was a gap in the quality of the equipment that they had. Humans were always superior.

Secondly, in the Human Kingdoms, the strong were as ample as clouds! There were just so many of them!

Therefore, in the eyes of the eight tribes watching the battle, as soon as Aldington took action, the end of the war had arrived

The number of enemy soldiers was not comparable to the Lion Tribe's army.

Their strongest was not as good as the Lions.

A wall, no matter how high or large it is, could possibly block the Lion clan.

"The Fox tribe, the Cat tribe, and the Centaur tribe are finished. Including the Kobolds our country has lost four tribes in an instant!" Among the eight tribes watching the battle, some Orcs said with emotion.

"He's here, the illegitimate son of the Lion King, the Sixth-Rank Warrior, Aldington!" On the wall, the Fox girl Qing Ling looked at Aldington, who was leading the way and whispered.

Aldington's speed was too fast, it was far beyond the other Lions!

Alongside her, Meng Ying walked to the front of the city wall. At this time, Aldington was nearly halfway to the wall. He was less than 500 meters away from Miracle City.

Aldington could cross this distance in less than ten seconds.

Meng Ying's complexion didn't change, her finger lightly pointed.

A huge, burning ball of fire slammed into Aldington.

This is Meng Ying's powerful move, Falling Sky Flame!

Aldington moved his shield above his head!

*Boom!*

The fireball hit the shield of unknown material but Aldington was unharmed.

In the rear, the soldiers who saw this scene roared and continued to charge.

"The power is good, but don't try to stop me!"

Aldington snorted and continued to rush towards Miracle City.

But after taking two steps another huge fireball fell.

Aldington blocked with his shield again.

*Boom!*

The shield trembled again.

Before Aldington had time to move, a third fireball slammed down again.

*Boom!*

Then a fourth and a fifth!

The fireball exploded, and although it was blocked by Aldington's heavy shield, the exploding fireball burned large holes on the ground.

In the rear, the charging Lion Warriors watched this scene blankly, only to multiple fireballs swooping down from the air, hitting Aldington.

Each fireball that fell from the sky was bigger than the other.

Aldington was completely surrounded by flames.

Around him, the ground was caved in, and Aldington was smashed into a big pit!

In the sky, those fireballs did not stop, they were still falling!

"Their magician has been restrained by His Royal Highness. Don't worry His Royal Highness will be fine. Don't be afraid, charge!"

Although the scene in the middle of the battlefield looked particularly horrifying, among the Lion Warriors, the supervisors shouted.

The rejuvenated Lion Warriors kept moving continuously rushing towards Miracle City like a tide.

However, the soldiers in the middle have bypassed the area where Aldington is located.

The ground there melted, and a large hole with a diameter of more than 30 meters wide was carved out of the ground. At this time, Aldington was at the bottom of the pit, still struggling to resist those big fireballs.

Among these Lion Warriors, many of the Lion Warriors in front charged forward with ladders.

These ladders, which were made last night, came in handy at this time.

Those pioneers focused on temptation and did not bring a ladder!

In a blink of an eye, they rushed to a distance of more than a hundred meters from the city wall.

“Arrows!” The Fox girl Qing Ling gave the order.

At the same time, a line of fire appeared on the wall of the Miracle City!

This line of fire was exactly the exploding arrow prepared by more than two thousand Fox and Cat archers!

After this line of fire appeared, one kilometer away, an extremely unpleasant look appeared on Reid’s face!

*Chapter 87: The Centaurs were charging!*

## **Chapter 87. The Centaurs were charging!**

On the city wall, those archers released their bowstrings at the same time!

In the eyes of people in the distance, a line of fire appeared and flew into the sky.

Then, this line of fire slammed onto charging the Lion Warriors!

*Boom!*

More than two thousand arrows exploded among the Lion Warriors!

In an instant, many Lion Warriors were killed by the explosive arrows!

What was more terrifying was that the flame caused by the explosion of the explosive arrows split the Lion army in half.

Half stopped one hundred meters away from the city wall.

But within the 100 meters of the wall, there are still a large number of Lion Warriors!

“Let’s shoot! Free to shoot!”

Under the city wall, the command of the Fox girl Qing Ling sounded again.

This time, there was no need for exploding arrows!

An archer can only shoot an exploding arrow twice a day.

Under the city wall, those Lion Warriors who had just been shocked by a burst of arrow attacks once again rushed into a rain of arrows!

Many Lion Warriors were hit by the shock, and before they had time to defend themselves, they were shot by arrows and screamed again and again.

Upon seeing this, the remaining Lion Warriors raised their shields.

But immediately, on the wall, another group of people attacked.

This was the Magus unit of the Miracle City!

Miracle City now has two Magus Units. Each of them consisting of one hundred people!

In one of the Magus Units, there were several First-Rank magicians.

The rest are all Magic Apprentices above level 8.

The other Magus Unit has lower levels and consists of Magic Apprentices below level 5.

However there were one hundred of them, even if their levels were low, when they attacked together the divided Lion Warriors were all struck down!

“They have so many archers! There are so many magicians!”

A kilometer away, General Reid’s eyes narrowed again!

He did not expect that the war would be like this!

The extremely powerful Aldington was nearly bombarded to death by the opponent's Magus, and the fireballs that fell from the sky one after another, continuously, smashed Aldington deep into the ground!

And the other party had that kind of explosive attack!

One round of attacks killed at least thousands of Lion Warriors!

The remaining Lion Warriors were frightened by the terrifying power of the explosive arrows, and they were a little afraid to step forward.

"His Royal Highness will be fine. When the enemy's Magic Power is exhausted, that is, when Aldington will strike back, the enemy's explosive arrow attacks will not continue, and the Magus' magical power is not endless. This city must be destroyed, otherwise, it will be more difficult to fight in the future, and it will make the Lions lose face!"

General Reid thought about it and issued the order:

"Continue to attack, don't retreat!"

"General, the soldiers dare not step forward. His Royal Highness's situation is unknown. Without His Royal Highness, no matter how many soldiers move forward, we can only become the enemy's target!" A leader said.

"Huh, I dare not attack!"

General Reid stood up: "Then I will pave a way into the city. The other Magus has been restrained by His Royal Highness; I can still get into the city!!"

After speaking, he stood up, shook his body. His eyes showed his deep fury!

"Guards, follow me!"

General Reid rushed out with a blade!

By its side, more than a dozen elite guards followed!

As soon as General Reid appeared, the spirits of other Lion Warriors rose again!

"Kill!"

General Reid took the lead and rushed to the forefront!

In the Orcish Kingdom, those who lead the armies are the strongest in this army.

When fighting, they tend to be at the forefront. This is a tradition.

“Arrows!”

On the wall, seeing the Lion Warriors coming like a tide, the Fox girl Qing Ling gave the order again.

*Swish*

*Swish*

Thousands of explosive arrows shot out again.

“Defend!”

General Reid shouted and raised his shield.

Around him, more than a dozen guards raised their shields at the same time, protecting the space above their heads.

*Boom!*

Explosive arrows fell on their shields.

These explosive arrows shot by the Foxes were perfectly defended by them.

But other Lion Warriors are not so lucky!

Their shields were far not as strong, and their strength was not as great as that of General Reid and his guards, and they were suddenly blown up again.

After blocking a wave of explosive arrows, General Reid once again took the lead and rushed towards the gate of Miracle City.

Behind them, the Lion Warriors saw this, taking advantage of the explosive arrow's flame to become a slightly smaller target, and rushing up again boldly.

*Swish*

*Swish*

Soon, another round of explosive arrows came!

“Defend!”

General Reid shouted again.

His guards were still perfectly shielded from the explosive arrows, but the Lion Warrior behind him was blown up again.

However, seeing that General Reid was still unscathed, the Lion Warriors from the rear rushed forward once again with no fear of death.

In a blink of an eye, General Reid and his guards had withstood more than five waves of explosive arrows, and there were many magical attacks too!

Behind them, the deaths and injuries of the Lion Warriors have reached more than ten thousand, but behind them, the Lion Warriors still rushed in continuously.

There are too many of them.

This battle has been fought so far, and the deaths and injuries of the Lion Warriors are amazing!

Therefore, General Reid has no retreat.

If he retired after the army received such large casualties but did not demolish this newly emerged city, the Lion Clan's dominance would be endangered. The old Lion King would kill him for his incompetence!

With the determination to fight back, General Reid finally rushed to the city gate with a magical attack.

Then General Reid took out his blade and slashed it on the city gate.

*Boom!*

The heavy city gate shook.

The gate was obviously of cast iron, but General Reid cut into it with his blade!

Although the cut was small, it had given General Reid hope!

This was the strength of a Fifth-Rank Warrior on display!

If it was the Sixth-Rank warrior Aldington, the gate may not have able to stop him!

"Holy Maiden, the man below us is destroying our city gate!"

On the wall, the Fox girl Qing Ling received a report from her subordinates.

She had seen him.

Just as she was about to make a move, Meng Ying, who was still casting magic, glanced there lightly, swallowed a “White Fire” and moved her fingers slightly.

Then, an extremely huge fireball slammed down.

“Be careful, general!”

A dozen guards who were at the city gate raised their shields.

*Boom!*

The fireball exploded.

“Ah~~”

A dozen guards were blown to pieces.

They could withstand the explosive arrows, magical attacks from the Fox girl Qing Ling, but they could not withstand the magic of the Sixth-Rank Grand Magus, Meng Ying!

In a big pit by the city gate, General Reid stood covered in blood.

He finally realized the level of the attacks Aldington faced.

It was an attack that he could not resist at all!

At this moment, he was a little worried about Aldington.

“I’m dying, and I’m still worried about what he does.”

General Reid’s consciousness gradually blurred. Before it blurred completely, it seemed to hear the sound of the ground shaking.

Centaurs!

General Reid immediately thought of something, his eyes widened suddenly!

On the city wall, the number Centaurs had been low. General Reid always thought that the Centaurs would stay behind the city gates.

But now, he knows that he was wrong!

The Centaurs were charging!

*Chapter 88: The victory is set! Qing Ling's joy!*

## **Chapter 88. The victory is set! Qing Ling's joy!**

*Boom!!*

On the Miracle Wasteland, near the Misty Mountains, Ten Thousand Centaur Warriors swooped down from the mountain!

The slope of the Misty Mountains close to the Miracle Wasteland is not very large. Ten thousand Centaurs were hidden in it before, and now they finally launched their attack.

At this time, Aldington's situation was unknown. General Reid was not in sight of his troops. The Lion's troops suffered heavy casualties under the assault of the Warriors of Miracle City, and their hearts were floating!

The charging Centaurs came at the right time!

"Beware of the sky!"

At this time, the Fox girl Qing Ling finally launched a magical technique!

A large number of Heavenly Flames fell from the sky, instantly turning an area several hundred meters into a sea of ??fire, and the Lion Warriors inside were killed.

Immediately afterward, more than a dozen catapults in the Miracle City also moved.

These catapults threw huge stones. After the stones hit the ground, they still rolled at the Lion tribe's troops at a very fast speed for several hundred meters before stopping.

They traveled leaving a long trail. A trail of broken limbs!

Although the lethality of these stones was not as good as that of Qing Ling's magic, the panic it caused the Lion Race troops was advantageous!

*Boom!!*

Immediately afterward, the Fox girl Qing Ling launched another magic technique, killing countless Lion Warriors again!

On the city wall, the magicians no held back their magic power. They cast spell after spell at the enemy.

The archers drew their bows and shot and an endless stream of arrows!

Under the city wall, the Lion Warriors who came like the tide suddenly couldn't stand it, and began to retreat!

The entire Lion Clan army was panicked for a while and began to fall into chaos!

The Lion Warriors who were near the Misty Mountains had changed their faces.

Ten thousand Centaur Warriors with bright armors charged. Their momentum was terrifying!

Some Lion Warriors turned pale.

"Spears!"

A Leader yelled!

Facing a cavalry charge, the most effective was naturally the spear array!

The Lion Race soldiers in the front row quickly took their spears from their backs and pointed them at the rushing Centaurs.

Then...

They saw that the Centaur Warriors throwing spears with flaming spearheads!

*Boom!!*

The densely packed Lion Warriors were blown up instantly.

Then, the Centaur Warriors in full armor smashed into them, knocking into the Lion Warriors who had not prepared anything behind the forward line!

The Centaur Warriors did not stop at all, and continued to run forward with the help of the momentum they had gained from rushing down the mountain!

Their formation had formed a sharp cone!

At the forefront of this sharp cone was the Chief of the Centaur Race!

This sturdy woman had finally achieved her goal, rushing in the forefront of her Warriors.

Unlike when she was in the Lion Clan's territory, where she was afraid to rush forward because meng Ying was on her back, here she had no such qualms.

This sharp cone was like a sharp knife that had carved its way into the Lion Tribe's army!

In front of the unstoppable Centaur army, the Lion Warriors were instantly mowed down!

Even if they encountered ?Lion Warriors who tried to resist, the Centaur Chief and those behind her will only clear the way with their exploding spears. They do not stop! They continue to run!

Not once did the Centaur tribe run so joyously in the past.

The Chief had wanted to stop and fight at first.

But the Fox girl, Qing Ling, received enlightenment from their God and told her specifically, that they shouldn't stop, they should just keep running.

The most that they were allowed to do was to throw a spear while running!

She only needs to keep running, keep running, and run to the place where the Lion Clan was densest!

This way of fighting made the Centaur Chief very puzzled.

Just keep running?

If she hadn't been told by the Fox girl Qing Ling that this was a Revelation from their God, the Centaur Chief might not have implemented this strategy.

She had never fought like this before.

But now, after the Centaur Chief rushed into the Lion Clan's army, she discovered that running all the time was indeed the best choice.

It was also the fighting method that can bring the most damage to the Lion army!

That was because the ten thousand-man troop led by her completely pierced the entire Lion Clan army!

Before they came, the Lion army was a whole unit. Even if the vanguard was frustrated, they could continue to attack the city until the magicians on the wall exhausted their magic power and the archers exhausted their physical strength!

Their exploding arrows were not endless.

The physical strength of the archers was not endless either.

The magic power of the magicians was also not endless.

Even though the Sixth-Rank Meng Ying can kill thousands of Lions with her strongest attack, and even if everyone exhausted all their resources, they could only kill more than half of these Lion Warriors at most.

The other half of the Lion Army could then siege the city!

But now, this Centaur army was like a sharp knife, inserted into the heart of the Lion army, completely dissecting them.

The entire Lion Clan's sixty thousand man army was divided into two parts by the charging Centaurs!

It was like a person has been divided into two!

Then three parts, and then four parts!

The Lion army was completely divided.

This split has brought huge damage to the Lion army!

Just the exploding spears that were thrown by these ten thousand centaurs during their killed numerous Lion Warriors!

Not to mention the Lion Warriors who were killed by the heavily armored Centaur Warriors during their stampede too!

"Kill!"

Soon after, the Gates of Miracle City opened.

From inside Miracle City, another five thousand Centaurs Warriors emerged!

These five thousand Warriors brandished their weapons and rushed toward their enemies. The Lion Warriors who had been beaten back!

The first wave of attacks to meet these Lion Warriors was the exploding spears.

The power of the exploding spears disintegrated the defense of these Lion Warriors in an instant!

The Lion Warriors in the rear lost most of their fighting spirit in one go!

Then they were killed by these Centaur Warriors!

These five thousand Warriors did not stop. They were like a scalpel that sliced through the enemy army with extreme precision!

“Kill!”

Behind the five thousand horse Warriors, ten thousand Dwarf Warriors rushed out.

The Dwarven Queen wielded the Divine Punishment sword at the front of the pack!

These Dwarven people were like rainbows.

And those Lion Warriors felt ashamed of being beaten under the successive blows.

Many Lion Warriors have already surrendered.

More Lion Warriors are at a loss.

Their army, after being scattered by two Centaur units, became fragmented.

Not only was the army broken.

Even their hearts were broken!

Some Lion Leaders were still gathering their men to try and resist.

But most of the Lion Warriors have completely lost their fighting spirit!

Therefore, although these Ten Thousand Dwarves were much shorter than the Lion Warriors, they killed those Lion Warriors as they retreated steadily!

“Our victory has been set!” On the city wall, the pale Fox girl, Qing Ling, said.

She launched her magic three times in a row, which not only caused huge losses to the Lion Warriors but also scared many Lion Warriors.

The price was that her spiritual power consumption was extremely large.

However, her face radiated joy.

“After this battle, we can conquer the entire Orcish Kingdom!” The voice of the Fox girl, Qing Ling, was full of joy as well.

She could finally lay down the groundwork for the creation of a powerful kingdom in the name of her God!

*Chapter 89: How handsome he was when rushing out! Feeling miserable enough to die!*

## **Chapter 89. How handsome he was when rushing out! Feeling miserable enough to die!**

“The Lion army has been defeated!” On a hill in the forest, a Wolfman took a deep breath, said!

Although the Lions still had tens of thousands of soldiers left, their defeat was set!

Unless Aldington could rush out at this time, behead their opponent’s high-level Magi, and then gather his subordinates to counterattack!

But Aldington obviously couldn’t get out.

The fireballs falling from the sky were doing so continuously!

Aldington was crushed from start to finish, and it was unknown whether he was dead or alive!

“Unexpectedly, the other party has a Grand Magus!”

A Snake-man stared at the miraculous city, his eyes full of shock.

A Grand Magus and Fighter were those who had achieved the Sixth-Rank.

But on the battlefield, a Grand Magus was even more terrifying than a Sixth-Rank Fighter.

A Fighter can kill those weaker than them with one attack.

However, a Grand Magus can kill hundreds of people weaker than them in a single attack.

A Sixth-Rank Grand Magus was worth an army of ten thousand people. This sentence was not nonsense, but something that was taken into account after many battles as a reference!

“What is the origin of this city? They consist of the Fox tribe, the Cat tribe, the Centaur tribe, and the Dwarf tribe, and now there is even a Grand Magus. What incredible combat power!” The voice of the Wolf tribesman conveyed his genuine shock.

“I don’t know. Have you seen the flames on the wall? Why do I always feel that the establishment of this city is related to flames? Otherwise, why are there so many burning flames on the wall? They also use flame-related attack methods!” The Snake man speculated.

These people of the eight Races, while chatting, kept passing back the news of the battle of Miracle City.

“Look, the Tiger Clan!” At this time, the Bird tribesman who has not spoken much alerted everyone.

The other people were shocked when they heard the words and looked around. They saw a Tiger throw itself out of the forest. Its speed was so fast and it didn’t slow at all. The Lion warriors were hit by it as it passed by.

Its target was surprisingly those Lion Princes who were trying to evacuate the battlefield under the protection of their guards!

“Quick, withdraw, we can’t stop it!”

On the battlefield, the ten Lion princes saw their defeat, but none of them thought of gathering their men to fight. They were fleeing in a hurry.

These ten guys are pussies.

***[This was the direct translation...]***

Each of them has more than ten guards, and all the guards add up to more than one hundred men.

At this time, they were fleeing towards the forest.

Suddenly...

A Tiger roar sounded, and then, a Tiger tribesman armed with two knives came in.

“The Tiger tribe, why are there people Tiger tribe here, block it!” The ten Lion princes were shocked.

But immediately, something even more shocking happened to them.

All of them add up to more than one hundred guards, and in just a few seconds, they were killed by this Tiger tribe warrior!

The strength of this Tiger tribe warrior was completely beyond the imagination of these ten Lion Princes!

“You... who are you?”

A Lion prince was so scared that he almost wet himself.

The Tiger tribe warrior didn't talk at all and cut off the heads of the ten princes with one knife.

"Roar!"

Then, it let out a roar, wrung its hands, and killed the surrounding Lion Warriors.

The Tiger tribe's killing efficiency was too high, and it moved fast, in a blink of an eye, it killed thousands of Lion Tribe warriors!

Seeing this, the surrounding Lion warriors avoided it like one would avoid snakes and scorpions!

Its addition made the Lion Warriors defeat arrive even faster!

The remaining Lion Warriors no longer had any fighting spirit, from a small rout to a big rout, until they are completely defeated!

The Lion Warriors on the entire battlefield have begun to flee!

Even some of the Lion clan leaders who were resisting did not resist anymore. They were just fleeing for their lives!

"Catch up to them and kill them all!"

The Centaur army began to hunt them down!

On the city wall, the Fox girl Qing Ling did not stop this pursuit!

Even if the Lion Clan may surrender to the glory of the Lord of Flames in the future, it is not now.

The Lions were too powerful.

If they were not weakened, they would become the biggest hidden danger to the Kingdom that the Fox girl Qing Ling was preparing to build.

Fox Girl, Qing Ling, knew that although this Kingdom belonged to the Lord of Flames, the Lord of Flames will not waste energy controlling this kingdom.

Then, to ensure the stability of this country, she must eliminate all hidden dangers!

"That's Aunt Winnie! The sister of the Tiger Clan's chief, I didn't expect her to be alive." On the wall, Princess Lotte was genuinely surprised.

The Fox girl Qing Ling also saw the Tiger warrior who was killing the enemy quickly.

“She is probably at the Sixth-Rank already!” The Fox Girl Qing Ling said.

Princess Lotte said: “It should be true. Auntie Winnie was at the top of Rank Five before. After being chased by the Lions for so long, and encountering such a big change, under grief, there is a great possibility of breaking through Sixth-Rank! But don’t worry, Holy Maiden, Aunt Winnie won’t be our enemy!”

The Fox Girl Qing Ling nodded.

The warriors of the Lion race quickly escaped.

But for those who didn’t have time to escape, a full one or two thousand were killed by the female Tiger, Winnie.

The horror of a Sixth-Rank Fighter was evident!

If they are allowed to be on the battlefield without someone of the same level to contain them, it would be a disaster!

Winnie no longer chased the Lion Warriors but ran in the direction of Miracle City.

Where there was a big hole.

The diameter of this big hole has reached more than fifty meters.

The depth of the big pit was also dozens of meters deep.

The big pit was full of magma!

In the magma, Aldington, a powerful warrior of the Sixth-Rank, stood there with a look of malaise.

His body was already scarred.

The scorching magma had flooded up to his chest.

But even though the magma’s temperature was at a thousand degrees, the threat to him was not that great. The threat was the big fireballs in the sky.

His shield had already disappeared under the attack of those fireballs, and now he was blocking them with both hands.

His hands, even with the Divine Armor given to him by the old Lion King, were still covered with scars.

Not to mention how miserable he felt now.

It could be said how handsome he was when he had rushed out earlier.

And how miserable he was now!

As for the arrogant declaration of him destroying a city, it has already become a joke.

Now, the Lion clan's army has been slain, and their corpses are everywhere.

He was suppressed by Meng Ying's endless magical attacks without raising his head from beginning to end!

Aldington was too aggrieved!

A Grand Magus couldn't be like Meng Ying, with the ability to instantly cast magic.

This was a threat to the Sixth-Rank warrior. A normal magician needs several seconds of casting time, which was enough for Aldington to block and move on until he was close enough to engage!

However, Meng Ying's magic fell endlessly; Aldington didn't even have time to catch his breath!

How was he not depressed, how has he not suffocated?

It could be said that Aldington was defeated by Lin Yan's highest blessing.

The most advanced blessing gave Meng Ying the permanent ability to cast magic instantly.

*Chapter 90: A Sixth-Rank Fighter joins! Great shock!*

## **Chapter 90. A Sixth-Rank Fighter joins! Great shock!**

On the city wall, after seeing the female Tiger Winnie approaching the big pit, Meng Ying finally stopped casting.

After becoming a Grand Magus, her magic power had become quite large, and her mental power was also very strong, but she used a lot of spells in such a short amount of time.

Moreover, she swallowed a "Cold Fire" supplement!

Aldington was indeed powerful, he was bombarded for nearly half an hour, and he was not dead yet.

Of course, this was because of his special shield and the Divine Armor on his body.

Otherwise, even if he was a Rank Six Fighter, the fact that he was in the magma for a long time and he had to resist the raining fireballs from the sky, he would have died long ago.

The strength of a warrior depends not only on his strength but also on his equipment.

Unfortunately, his shield still failed to withstand the fireballs' might.

Aldington was also seriously injured.

When he felt that the attacks from the sky had finally stopped, Aldington shouted, leaped sharply, and jumped more than 20 meters high.

He pushed off the wall of the now-deep pit and jumped to the ground.

The powerful strength of a Sixth-Rank Fighter was fully displayed by his movements.

If Meng Ying were not here, he could have indeed jumped directly onto the city walls.

Well, after seeing his amazing jumping ability, the Fox girl Qing Ling had decided to raise the walls of Miracle City a little higher.

Initially, there were very few workers who helped build the wall.

Now it is different. Miracle City has a large population, enough to further heighten and thicken the walls, and even add a lot of magical protections!

Red lava slid off from Aldington's body.

Then he noticed the person in front of him.

"It's you!"

Aldington recognized Winnie!

You must know, he had chased Winnie for more than ten days.

At that time, Winnie was still the pinnacle of Rank Five.

Winnie was able to escape again and again; this was due to Aldington's ulterior designs.

He hoped that after Winnie broke through the Sixth-Rank, she would take revenge against the ineffective Princes of the old Lion King.

It was best for him if all the Princes were killed, and she was the opportunity Aldington's was looking for.

Therefore, Aldington chose to let her go!

And Winnie did not disappoint his hopes.

Winnie killed ten Lion princes as soon as she appeared.

But now, Winnie stared at Aldington with hatred.

If Aldington was at his peak, he would not need to fear Winnie at all, otherwise even though he knew that Winnie was attempting to enter the Sixth-Rank why would it let her go?

Aldington was a veteran Sixth-Rank Fighter.

But now...

Aldington was severely injured by Meng Ying's magic, leaving less than half of his strength.

Ironically the Tiger that Aldington had intended to use as a killing tool reaped his life as well!

A wry smile appeared at the corner of Aldington's mouth: "Come on!"

Winnie was not polite and attacked with a pair of knives.

Ten minutes later, Aldington's head fell to the ground.

The Fox Girl, Qingling, and Meng Ying walked out and came to Winnie's side.

This was a rather dangerous distance.

If a Grand Magus allows a hostile Rank Six Fighter to come within ten meters of them, the Grand Magus would be easily killed!

Because the Grand Magus could only effectively defend against the attack of Rank 6 Fighters for at least half a second.

And the attack of Rank Six Fighters will fall on the Grand Magus before that!

But Meng Ying was not afraid.

Normal Grand Magus' are not able to Instantly cast magic like her.

Besides, Winnie was not hostile to them.

"Thank you, for letting me avenge my tribe!" Winnie said to Meng Ying.

"Aunt Winnie!" Princess Lotte came out.

"Lotte!" Winnie recognized Lotte.

Winnie's relatives were killed by the Lions in the war. Seeing Lotte, she felt very cordial.

"You are very strong; I want to join you, with you, to avenge the Tiger Race!" After chatting with Lotte for a while, Winnie said.

"I already know from Lotte, your strength comes from the great Lord of Flames. I am willing to believe in the Lord of Flames and become his believer!" Winnie said again.

Fox Girl Qingling nodded.

If a powerful Rank 6 Fighter were to join them, Miracle City would become much stronger.

Of course, Winnie was not young anymore, and she was relatively sturdy, so she naturally wouldn't be one of Lin Yan's Holy Maidens.

However, she became the Commander of the Temple Warriors.

In the future, the Temple Warriors will be commanded and trained by her!

The belief of a Rank Six warrior must not have reached the most pious stage so soon, but the Fox girl, Qing Ling believed that as long as Winnie had seen the miracles of the Lord of Flames, she would become His most loyal believer!

A large number of Fox Warriors began to come out to clean up the battlefield.

In this battle, the Lions suffered too many casualties.

And there was no damage to Miracle City!

After the Lion warriors arrived under Miracle City, they also tried to throw spears, but they were ineffective.

The archers of the Fox tribe were not close to the edge of the city wall, as they fired from the middle of the city wall.

The spear was thrown in a straight line, and no one can be seen. Who would it have hit?

Below the Miracle City, the corpses of Lion warriors are all over the mountains.

These corpses were all gathered together, and then the flames obtained by Meng Ying's prayers burned them all up.

The entire Miracle Wasteland was cleaned in a day or two.

And further afield, the fifteen thousand Centaur cavalry were still chasing the Lion tribe army.

These Lion warriors fled all the way, and the Centaur warriors chased all the way.

Lion warriors escaped quickly, and many Lion warriors didn't need their equipment, so their weapons and armor were thrown away, just so that they could escape faster.

But the Centaurs chased them with joy.

Also, the Centaur warriors were more familiar with the terrain in this area and could always take a shortcut to cut the Lion warriors off in the front.

These Lion warriors finally realized how the Tiger clan must have felt when they hunted them down and killed them.

The Tigers had fought with them for more than a month, and there had been constant battles of all sizes, but there had not been a major defeat like this one at all.

This time the Lions had lost too badly.

Centaur warriors chased the Lions for a whole day and night.

They didn't stop until they neared the Lion Pass.

In this great pursuit of thousands of miles, less than ten thousand of them escaped and eventually fled back to the Lion territory!

Of the sixty thousand strong soldiers, more than fifty thousand died!

And even the Sixth-Rank Fighter Aldington had perished.

The Fifth-Rank General Reid also fell under the gate of the Miracle City.

This battle shocked the entire Orcish Kingdom.

It is said that the Chiefs of the eight tribes who sent people to watch the battle screamed out of their seats.

Among the Lions, the old Lion King was even more furious after learning the news and slapped the War Minister, who was in charge of the report, to death.

Most of the palace hall was demolished by him!
