

## Stone Moon is at the Gate

### Chapter 31

#### Asher's POV

I could kill him right now, walking up with that b\*\*\*h, holding her hand like she is his mate. I am focused on her and I see that Nico saw that as he put her protectively behind him. If nothing else, I will punish them both for that act alone. Yes, I acknowledge that he is under a spell, but it would have never happened if he had just listened to my sister. He is about to find out how much it is going to cost him very soon.

"So sorry to wake you Nico, but we have some things to discuss," I told him.

"Asher, I know you were going to help me, but I was a little busy yesterday with my mate. She was glad to finally get to come to my pack, and I was glad to get to spend some time alone with her too" Nico said to me, and I growled low to him.

"I am not here to help you, Nico. You canceled the plans via text message last night. You also told me I didn't need to come here, for any reason. I thought that was weird because you wanted our

Stone Moon is at the Gate

help getting your pack members away from Shelby, so she couldn't hurt them. Right? Wasn't that the plan Nico?" I asked him.

"Well, it was, but she has gone away, and I don't need to separate my pack members. I already put Shelby on the no access-list, at the gate so she can't get back in. That way Sabrina is safe, and Shelby cannot hurt her" Nico told me.

I am f\*\*\*\*\*g looking at Shelby right now, and she looks scared. I guess she thought that she could bully or bribe the pack into staying quiet and forget that we were here right after Nico took Sabrina, and I guess she thought that once Nico thought that she was Sabrina that all her problems would go away. I see her on her phone, texting, and I know that this will not be good for us, and I step back and speak to Mason quietly, and then he moves off to tell Tate. Tyler stayed right next to me and heard what was said and he is going to let Tate and his 5 men take care of that for me and they head to get their guns right now.

I already know that Shelby is having her goons on their way to us and that they are heavily armed, and I am again thankful for Jaden. He is here and sitting in the back of the SUV that Bree is in, as we WILL get the rejection from Nico today, or I swear

Stone Moon is at the Gate

to the Goddess, that I will kill him myself to free her from the pain that Shelby and Nico are causing Bree.

"What did you need Asher? I know you would not be here unless it was something important, so please just get on with it. You are making Sabrina very upset and nervous, she has been since she heard that you were at the gates" Nico told me, and I cannot stop the surprise from coming over my face.

"Sabrina was scared of ME? Her Brother? Being at your gates? Is that what you said, Nico?" I asked him and could barely contain the laugh.

"Yes, she is very upset. I want to get her back to my room soon so I can help calm her" Nico told me.

"Yes, I know you have been calming her about 4 times a day haven't you," I asked him.

"Look Asher, we are mates, we are adults, and it is none of your business how many times we have s\*x. You know I want an heir to my pack, and we are working on it daily now, to make it happen" Nico tells me, and I hope that Bree cannot hear this, but I know she can, but I need to give Nico a lot to think about before Shelby's men get here.

Stone Moon is at the Gate

"Well, I am Ok with her going ahead and her phasing into her wolf and running back to the pack house and we can finish our talk, Nico," I told him. Nico turns with a smile to Shelby to tell her she can phase and go back to the house when she started crying and saying that she was too scared to phase.

"What are you scared of Shelby? Could it be because you cannot phase due to being human? Or that you men haven't gotten here yet to save you? I bet it's that last one, isn't it? I will tell you that you can go ahead and hand your phone to Nico right now because I would like him to read the last few texts that you have sent out there Shelby. And before you get any ideas, we came prepared. You are surrounded, you will NOT be leaving here. Your men will be seen miles before they get here, and your men aren't the only ones who have guns. What's the matter Shelby, you are OK with f\*\*\*\*\*g with people, don't you like it when it happens to you too?" I asked Shelby and she got paler with each question.

"Why are you calling her Shelby? That is Sabrina, how do you not recognize your own sister, Asher?" Nico said to me.

"No, Nico, that person behind you, is NOT my

Stone Moon is at the Gate

sister. You have been told and warned by several people that the person you are with is NOT Bree, but you chose to ignore them. You are under a spell. Shelby found out that you were going to leave her and made a last-ditch effort to keep her claws in you. If you don't believe me, just ask her"

[Ads-free >](#)

I told Nico.

"Nico don't listen to him, I am your mate. He just doesn't want us together. He is just angry with you"  
" Sabrina said to Nico, and she looks scared.

"Actually, we are here for a rejection, Nico. I will leave you the "Sabrina" you have behind your gate

Stone Moon is at the Gate

with you, but I will need you to accept the rejection of the Bree that we have on our side of the gate" I told Nico, and watched the surprise cross his face. He knows that there is no way for there to be two of them, and I cannot wait for him to realize that the crazy b\*\*\*h that he aligned himself with, has really messed him up for the last time.

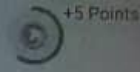

"What in the hell are you talking about Asher?

There is only one Sabrina, and she is with me, she loves me, and she wants to be with me" Nico tells me, and he is getting upset now.

"Well, she did love you, Nico. She even offered to let you mark her if you would have just stayed with her and sent Jaden back to get your pack taken care of. Which reminds me, since you wanted your pack members to be able to get to a safe place, please mindlink Angela, one of your Omegas, and her family to the gate. Tell them they can pack and leave your pack safely with us. I will be glad to take them into my pack or get them into another pack safely, as she was threatened just yesterday here in your pack. That way she and her family will be free from being hurt here for refusing to agree to the deal your Luna Shelby tried to make yesterday" I told Nico.

"What are you talking about Asher? You weren't

Stone Moon is at the Gate

even here yesterday, so how the hell would you even know?" Nico asked me and I smiled back at him.

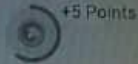

"That was just what I was told by Jaden last night. He heard them talking in the kitchen and Angela was told if she didn't play along, that Shelby would be having her men kill off her family one by one until they were all dead, and then they would come after Angela. I don't want someone to be killed because they are being honest, I will take as many of her family into my pack as want to go" I told Nico.

I get a mindlink that Shelby's goons are coming in quick in two vehicles and I nod that I got it and looked over at Tyler, who nodded at me that he had received the link as well. We anticipated that there might be some gunplay today and we were going to take care of it. We won't allow any of our people to be harmed because Shelby is a horrible person.

I backed away from the gate and got in front of my SUV. Tyler came near me, along with Travis and we all three kneeled down in front of the SUV to let Tate and his people deal with her mercenaries. I am glad that they will be getting dealt with quickly because once Bree told me

Stone Moon is at the Gate

what Shelby had planned to let her men do to Bree, it made me sick to hear how vicious Shelby truly was. Nico is watching us with a frown, and he probably didn't know what was going on. Tyler whispered that Tate and his men were about to take her team out, and we heard four shots ring out in the silence.

We stayed down until the kills were confirmed, and Tate gave us an all-clear. I walked back up to the gate and I see that Shelby is further away from the gate and closer to the car. I called out to Nico, "Just a question Nico, does Sabrina or Shelby have access to four men who are trained killers? Because the one on your side of the gate texted them to come here to kill us, only they are the ones who are dead now. Nico, you are smarter than this, how do you not see that you have Shelby and not Sabrina. I feel so bad for you when you realize that Shelby has cost you your mate. Why haven't you even looked at her phone, Nico?"

I turned to look at Bree in the SUV with Jade next to her. I can see my sister is crying and that makes me want to kill Nico and Shelby right now. Jade nods at me and I know they are about to exit the car.

"Shelby, you need to say whatever you need to, for

Stone Moon is at the Gate

Nico to accept Bree's rejection" I called out to Shelby.

"And if I don't Asher? What are you going to do about it?" Shelby called out to me laughing.

"Then the men who took out your team will take you out. You won't make it two feet, and if anyone deserves it, it is you" I called back to her with a smile and I see her look around like she was looking for them, but she would never see them.

"Nico, accept Sabrina's rejection. I will still be here with you, but you need to accept her rejection, so please say it to her" I heard Shelby call out to Nico and she is really pale now, none of her tricks are going to work with us, but we need my sister to not be getting the pain of their betrayal.

"What in the hell are you talking about Sabrina, I will never accept your rejection. I love you, I won't make it without you" Nico turns to tell her.

"No, Nico, she means for you to accept mine" I heard Bree call out to Nico from behind me.
