

EVERYONE HAS FOUR SKILLS

Chapter 15

Natural Warrior

This battle was deliberately arranged by Wang Lei and Wang Yi. After all, Mu Qingyi and Mo Xiu were the closest in terms of their individual strength.

Mu Qingyi would slightly restrain Mo Xiu, who did not have any long-range attacks. According to their deductions, Mu Qingyi would win with a slight advantage.

However, the outcome of this battle wasn't just unexpected. During the battle, Mo Xiu's decisiveness and extreme maneuvering were equally astonishing.

For a moment, there was silence.

"Mo Xiu wins! Today's combat class ends here."

Wang Lei's voice broke the silence. Then, Mo Xiu and the rest headed to their own rooms.

Wang Lei said, "Wang Yu, what is your recent research project?"

Wang Yu adjusted his glasses and stared intently at Mo Xiu's back.

"Recently, I've been researching the conditions and other patterns involved in the awakening of two skills."

Their voices weren't soft, and Mo Xiu heard their conversation clearly.

When he heard about the other forms involved in the awakening of two skills, his heart tightened. Could it be that his possession of two skills had been discovered? After all, this was his greatest secret.

Mo Xiu suppressed his emotions and returned to his room.

Wang Lei and Wang Lei also returned to their room.

The moment they entered their room, Wang Yu said, "Elder Tang, Mo Xiu did not react to what I said."

Elder Tang stroked his beard and said, "I saw it. This child is not simple. Regardless of whether he has a second skill or not, he is a rare talent."

At this moment, Wang Lei interjected, "Mo Xiu's improvisation in the battle just now was too shocking. Even I wouldn't be able to react in that extreme situation."

Elder Tang nodded and said, "Yes, Mo Xiu's strength does not solely come from his hard work. He is a genius. He's born to be a warrior."

...

Mo Xiu, who had returned to his room, sat down on the bed in a panic.

"Have I been discovered? Does God's Eye really have a trigger effect that I don't know about?"

After some serious thought, Mo Xiu slowly calmed down.

If he was really discovered, there was no need for Wang Yu to test him. He could simply talk to Mo Xiu.

His conversation with Wang Lei was either a coincidence or an attempt at probing.

It was very likely that he was being probed. If anyone was probing him, then it must be Elder Tang.

Elder Tang must have other motives for giving him such a great opportunity and bringing him to the Cosmic Tuition Class for no reason.

"That's not right. If the Wang brothers said that it was arranged by Elder Tang, then Elder Tang is..."

...

Wang Lei, Wang Yu, and Elder Tang were talking when someone suddenly knocked on the door.

Knock, knock, knock!

Wang Yu frowned. Who could it be at this time?

“Who is it?”

“I am Mo Xiu, and I would like to ask you some questions. Is it convenient for you, Teacher?”

Wang Yu looked at Elder Tang, who did not say anything. Then, he stood up and walked out of the small door.

Wang Yu opened the door and Mo Xiu simply squeezed in.

“Teacher, I have some questions that I can’t figure out. I would like to ask you.”

Wang Yu gestured for Mo Xiu to sit down before speaking any further.

Mo Xiu observed the room. It was very large and had four beds. There were also tables and chairs.

Wang Yu also sat down and said, “If you have any questions, just ask.”

After Mo Xiu sat down, he said respectfully, “Why is there a difference in the strength of people’s skills? Previously, you said that everyone’s skills have their uses. However, I’ve seen many useless skills, such as increasing your strength by 5% or understanding the language of pheasants.”

Wang Yu replied, “Not everyone can get into a university, but they can have strong abilities. Some people’s skills are more suitable for production. It might be useless to increase their strength by 5% in battle, but it might be very

useful in labor. It's precisely because of these ordinary and selfless people that we can have a better training environment."

Mo Xiu looked enlightened and said, "Teacher, I have other questions..."

After that, Mo Xiu asked a bunch of irrelevant questions before pretending that he had benefited greatly.

As soon as Mo Xiu left, Elder Tang came in from the back door and sat at the seat Mo Xiu had been sitting at.

"Hahaha, Mo Xiu is interesting. I was the one probing him, but now he's probing us."

Wang Yu nodded and said, "Elder Tang, this child, Mo Xiu, is not simple. He must have noticed something. The moment he entered, he observed the layout of the room."

"When he asked his questions just now, although he did it very discreetly, I could still tell that he was carefully observing every detail in the room. After asking a few questions, he would take a look at other locations."

At the side, Wang Lei also said, "I could see it too. He clearly saw through our attempt at probing and came specifically to find us."

Not only did Mo Xiu's actions not make Elder Tang angry, Elder Tang even smiled smugly.

"Hahaha, this little fellow is interesting. Since I've been discovered, I'll leave."

Wang Yu asked, "Elder Tang, do you need us to continue testing Mo Xiu after you leave?"

"There's no need. Your mission has changed. Not only must you not probe him, you must also help him protect his own secrets."

Wang Lei and Wang Yu looked at each other. What was the meaning of this? Didn't Elder Tang get Mo Xiu into the Cosmic Tuition Class to find out Mo Xiu's secret?

Then, Elder Tang's next sentence completely shocked the two of them.

"You can say that Mo Xiu is my disciple to outsiders. Hahaha, I finally have a successor."

Mo Xiu did not know what happened after that. After returning to his room, he felt that his guess was correct.

Elder Tang was at the Cosmic Tuition Class. Furthermore, he was staying in the teachers' room.

Mo Xiu had taken a closer look at the room earlier and found that there were only Wang Lei and Wang Yu in the room. However, there were obvious signs of habitation on three beds, which meant that one more person was staying there.

Mo Xiu was still preparing for the battle of wits and courage with Elder Tang in the future. Little did he know that Elder Tang had already left the Cosmic Tuition Class.

...

The next morning was also the fourth day since Mo Xiu arrived.

Just like the past few days, Wang Yu arrived at the classroom on time.

"The original plan was to give you a detailed explanation of wild beasts today, but after much consideration, I decided not to. You don't need this knowledge now, and telling you will only increase the pressure on you."

"Today's last lesson has no content. It's simply a question and answer session. If you have any questions, feel free to ask. As long as it's something that I know, I will tell you anything that I understand."

Although there was no theory class today, the entire morning was not wasted. Everyone kept asking questions.

In particular, Mo Xiu had the most questions. Mo Xiu knew that he had the least knowledge and didn't want to waste this opportunity. Therefore, he would ask any questions he had.

After class, Mo Xiu asked, "Teacher, you said today is the last lesson, so what should we do in the morning after today?"

Wang Yu smiled mischievously and said, "I told you on the first day that the primary task of the tuition class is to improve your combat ability. From tomorrow onwards, you will attend the combat class for the entire day."

They were a little troubled. It was not that they did not want to take the combat class. After all, the combat class was very beneficial to everyone, but it also consumed a lot of energy.

A few days ago, the combat class in the afternoon had made everyone tired. In the future, the combat class would last a whole day. It seemed like everyone would have a hard time.

In the afternoon, the four of them stood together and waited for Wang Lei and Wang Yu's orders.

The two of them sat on the chairs and whispered to each other.

Liu Ziyang might not be convinced of his defeat yesterday. Thus, he volunteered to say, "Teacher, who am I going to fight today?"

Wang Lei said unhappily, "Who are you going to fight? Did I say that there will be individual battles today?"
