Chapter 181: Bai Fan's Equal and Trust

Kingstown, Baifan Military Camp.

After settling down in Kingstown, Bai Fan began to slow down the recruitment of new members and stopped wandering around.

After settling down, Bai Fan immediately announced that he was temporarily staying in Kingstown. Everyone could let down their guard and live in peace.

In the next few days, Bai Fan announced a few more rules. Everyone would put down their firearms on weekdays. They were not allowed to use firearms unless there was a war.

He also assigned work to everyone and made them busy, encouraging them to help each other.

In the beginning, there were no team leaders or team leaders. Everything was handled by Bai Fan alone. In the future, those who performed well could manage some things.

With such a rule, all the burdens were placed on Bai Fan, and he did everything himself.

He had been busy every day, dealing with all kinds of things. Without the help of his subordinates, just the communication and management made Bai Fan extremely tired.

Not to mention that he had to lead a team out to search for supplies and think of a way to be self-sufficient.

However, in the next few days, there was no conflict among the army of more than ten thousand people.

One had to know that such a rapidly gathering army was the most prone to conflict and chaos.

In the past, the firearms army in Shun City often had private fights.

At that time, it was a big problem, and an unavoidable problem. With so many people gathered together, it was easy to get confused and quarrel. Moreover, everyone's emotions were unstable and they didn't feel safe.

The reason why Kingstown's army could do this was largely due to Bai Fan's rules.

At first, Bai Fan told everyone to put down their firearms, and some people were still on guard. However, after arranging work, these people gradually let down their guard.

Bai Fan stood on a high spot and looked at the peaceful atmosphere in the camp. Everyone was busy and living a fulfilling life. There was trust between people.

Unconsciously, Bai Fan smiled. All this was worth it.

The news was sent back to the factory in Xiang City.

MO Xiu looked at the information and smiled.

However, Cao Fenglin, who was sitting at the side, felt that this smile was truly terrifying.

Cao Fenglin said, "MO Xiu, I finally understand. Bai Fan is conducting an experiment. He wants a world where everyone is absolutely equal and has complete trust. However, that world doesn't exist!"

Indeed." MO Xiu nodded." Humans are born unequal. How can there be absolute equality?" Everyone had their own thoughts, so how could there be complete trust?"

‘ Bai Fan’s little system will collapse sooner or later,’ Cao Fenglin said.” I know you’ve been waiting for that moment.””

MO Xiu nodded and said, “That’s right, but this process is very long. We need to make it faster!””

The two of them looked at each other and laughed. Yang Qingzhuo was dumbfounded. What were they talking about?

Xiao Hong was also taking notes very seriously, noting down the key points in her notes.

Kingstown Camp.

Bai Fan used three days to go to every corner of the camp and chose the person with the most supporters in each area to be the person in charge.

The person in charge of each task was also selected. This way, not only did it increase work efficiency, but it also greatly reduced Bai Fan’s pressure.

However, Bai Fan did not relax at all. He knew that this was a critical moment. When someone took over, there would be people who were dissatisfied.

Bai Fan was chosen according to public opinion, which was also the safest way.

On the day these people were chosen, the entire military camp was peaceful.

In the evening, they even held a celebration ceremony to congratulate the people in charge.

“Leader Bai Fan, you’re here. Join our party and celebrate together!”

“No, I’ll go somewhere else.”

Bai Fan had heard similar words countless times throughout the night.

Bai Fan looked at the harmony on this land and became even more determined. It was possible, it was possible.

Unknowingly, Bai Fan actually shed a line of tears for himself, for the person in front of him, and for Xiaohui and Mumu who shouldn't have died.

Looking up at the sky, Bai Fan had mixed feelings. Wasn't this world good?

Only when everyone worked together could they fight against wild beasts and foreign enemies.

Bai Fan was tired of scheming, tired of people's selfish desires, tired of the standards of the world to judge a person's success. This was a whole new world, Bai Fan thought.

The next morning.

A manager rushed to Bai Fan's office.

"Boss, bad news. The person in charge of the third zone is dead." Bai Fan had just relaxed when his heart suddenly jumped.

"Bring me there!"

Bai Fan arrived at the crime scene. The person in charge of District 3 was a man in his thirties. He was a kind person and was very popular in District 3. But now, she was lying on the bed, not breathing. Her neck had been cut open.

Bai Fan walked over and covered the body with the blanket.

“Hey! ”

He sighed and walked out of the room.

After pacing back and forth at the door, the Cangzhou made a decision.

A new election was held. This time, a young man was elected. He was young and energetic.

After choosing, he returned to his office and sat in his chair. He held his forehead with his right hand and sat there until night fell.

For a long time, Bai Fan had instilled in everyone the idea of helping each other and trusting each other.

Therefore, there was no way to block this news. Blocking it would violate this principle.

However, as soon as the news spread, the trust that had been cultivated over the past few days would be gone.

No matter what he did, he would be wrong. No matter what he did, there was no way to make up for it.

Unless they could find the murderer in a short period of time, but Bai Fan had no helpers, so he could only investigate slowly. There was no way to find the murderer quickly.

The biggest suspect was the new person-in-charge of District 3, and he could get the most benefits.

Bai Fan thought about it and decided to wait. He would talk to the new person in charge tomorrow to see if he could find anything.

That night, Bai Fan tossed and turned.

The next morning, another bad news came, making Bai Fan at a loss.

The new person-in-charge was dead again!

Right now, everyone in District 3 was panicking. The other districts had also heard the news and were on tenterhooks.

Bai Fan clenched his fists tightly. What was going on?

The person who was thought to be the most likely murderer was also dead.

Then should they still choose the person in charge? What should he do after he was chosen? Protect this person? What if this was the murderer? No protection?

What if another murder happens?

For the first time, Bai Fan felt helpless.

On the third day.

Bai Fan chose another person in charge of the third zone and announced a new rule.

All persons-in-charge can wear firearms for self-defense.

This was a helpless move. As soon as this rule was made, Bai Fan himself violated the principle of absolute equality for everyone, allowing the person in charge to have more power than others.

On the fourth day, the situation became even more serious. There was a shooting incident!

Someone was shot, and only the person in charge could use firearms.

Was there someone in charge abusing their power and killing people for no reason? No one knew.

Bai Fan had no choice but to choose a new person in charge. This time, the person in charge was someone Bai Fan thought was completely reliable.

This time, Bai Fan violated the principle of complete trust.

All his fantasies were shattered.

So many days, so many efforts, all in vain.

Bai Fan ordered in pain. Everyone could hold firearms...

Everything was back to square one!

Chapter 182: Eating Snacks (1)

In the factory in Xiang City.

Cao Fenglin and Xiao Hong had been stunned for the past few days.

The few operations that Moxiu had done with the information he had gathered were simply astonishing.

Every time Bai Fan gave an order, MO Xiu would respond.

After Bai Fan chose the person in charge, MO Xiu's order was not to kill the person in charge of the third zone, but to organize a protest.

However, he didn't expect someone to help Moxiu kill the person in charge of the third zone the next day.

When Moxiu heard the news, he was shocked. It seemed like there was someone in Bai Fan's team who was restless.

This made things easier for Moxiu as he waited for Bai Fan's next move.

Bai Fan's next step was to choose a new person in charge of the third zone.

Everyone knew that this new person in charge was most likely the murderer.

Since he was a suspect, he would naturally let his guard down. This also gave the ten people sent by Moxiu an opportunity to kill him that night.

The next day, Bai Fan's expression and every move were all reported to MO Xiu.

Bai Fan asked the person-in-charge to use firearms, while MO Xiu asked the spy to take out his hidden firearms to injure them.

This way, Bai Fan was completely defeated, not on the battlefield, but in his heart.

Cao Fenglin sighed." MO Xiu, you're really good at playing with people's hearts! ""

Moxiu shook his head and said," I'm actually not very good at controlling people's hearts. You were the one who told me the relevant knowledge. You told me that firearms can trigger people's desires and bestiality."

Cao Fenglin nodded thoughtfully.

Moxiu continued," After that, I would always think about what the other party would think. The method I used was actually very simple. Bai Fan was in the light while I was in the dark."

"He wants a perfect world. Perfection is hard, but destroying perfection is easy.

I only made the situation imperfect."

"This is like playing chess. How difficult would it be for him to win without losing a single piece? I only need to take one of his stones, and he will think that he has lost. Actually... He didn't lose!"

Cao Fenglin nodded." I understand. I really didn't expect that your ability to control the situation is too strong. ""

"I'm the one who breaks the situation. I've never been the one who plots it!" Moxiu shook his head."

Kingstown Camp.

All his efforts these days were in vain? Bai Fan couldn't believe it.

Bai Fan sat in his office, not knowing what else to do. His beautiful fantasy only lasted for a few days.

He walked to the window and looked outside. Everything was different from what he had imagined.

Bai Fan gently caressed the window and gave an order.

Only the necessary logistics were left behind. All the other people in charge who were appointed by Bai Fan each led a team to explore the surroundings and expand to contact other cities.

Even Bai Fan himself would lead a team to explore.

With this order, everyone's spirits rose. They knew that war was about to begin again.

Although these days had been very peaceful, everyone knew that this peace was short-lived and illusory.

That was why MO Xiu's plan was so successful. The moment something happened, the circle that Bai Fan had built up collapsed instantly.

There must be people who yearned for stability, and there must be people who yearned for chaos.

Xiang City Factory.

After receiving this news, everyone had a round of discussion.

Everyone thought that Bai Fan had given up on his inner thoughts and wanted to expand. He might continue to recruit members in other cities.

'Bai Fan should be starting to doubt himself,' MO Xiu said calmly. 'He's trying to change his experiment method!'

Cao Fenglin frowned while Xiao Hong lowered her head in thought.

Only Yang Qingzhuo looked left and right, not knowing what everyone was talking about.

'We can move now!' said Moxiu.

Hearing that they could go out, the few of them were very excited.

After so many days, only MO Xiu was able to keep his cool and do what he had to do every day.

The others had long been impatient and wanted to go out for a walk. No matter what, it was better than watching MO Xiu train every day.

The few of them looked at Moxiu with eyes filled with anticipation.

‘Yang Qingzhuo, come with me. We’re going on a mission!’ MO Xiu stood up and said.”

Hearing this, Yang Qingzhuo instantly perked up.

“Okay, okay!”

Cao Fenglin and Xiao Hong also stood up, preparing to set off with MO Xiu.

“What are you doing?” asked MO Xiu.”

‘ Didn’t you say you had a mission?’ Xiao Hong asked coldly. I’ll go out and take

“I told you, Yang Qingzhuo and I will be the ones carrying out the mission. All of you stay here.” MO Xiu said mercilessly.”

Xiao Hong rolled her eyes and sat back down. “MO Xiu, just the two of you?” Cao Fenglin asked. Where are you going?’

“Go and get in touch with Bai Fan,” said MO Xiu.”

Cao Fenglin and Xiao Hong were both astonished.

‘ MO Xiu, I’ve seen the video too. Bai Fan’s four skills are very powerful. Are you sure he won’t be in danger?’ Xiao Hong said.”

MO Xiu shook his head." I've been secretly fighting with him for so long. It's time to meet and chat. There won't be any danger. I have Yang Qingzhuo!

Yang Qingzhuo didn't feel shy when he heard this. He straightened his back proudly.

"Don't worry, Moxiu. I'll protect you!"

"Qingzhuo, how did you learn to brag?" Xiao Hong asked."

"Hmph!" Yang Qingzhuo pouted. Just wait and see! Anyvway, MO Xiu didn't bring you there!"

Xiao Hong was furious and didn't say anything else.

Just like that, MO Xiu brought Yang Qingzhuo and a map and set off!

MO Xiu carefully looked at the map and analyzed where Bai Fan might return to.

"Let's go, we'll go here first!"

Moxiu pointed at a location on the map.

The two of them didn't use any skills. They found a car to travel in. In order to make the noise softer, Moxiu drove slower.

Yang Qingzhuo was sitting in the passenger seat and eating a bunch of snacks. "When did you bring these snacks into the car?" MO Xiu asked."

Yang Qingzhuo stuffed the potato chips into his mouth and said, "Hehe, I carry it with me. I'm afraid you won't give me food."

“Eh? When did I not give you food to eat? Have you forgotten the days when you had hotpot every day?”

Yang Qingzhuo pouted and said, “I remember now that you mentioned hotpot. I still remember the first time I ate hotpot. Some people even looked like they were heartbroken.”

“At that time, I was poor and couldn’t afford you!”

“If you can afford it now, you won’t starve me in the future, right?”

Moxiu patted his chest and said, “That’s...” Not necessarily!”

Yang Qingzhuo turned his small face away and ignored MO Xiu. He looked out of the window.

They drove all the way until night time. There was still a short distance to the location marked by MO Xiu when the car ran out of gas.

This place was very remote and there was no place to refuel, so they could only walk.

At 20 O’clock, Moxiu checked the terrain while hurrying along.

Yang Qingzhuo was eating snacks.

At twenty-one o’clock, Moxiu found a place to stay and prepared to set off tomorrow morning.

Yang Qingzhuo was eating snacks.

At twenty-two o’clock, MO Xiu found a place and asked Yang Qingzhuo if he could stay here.

Yang Qingzhuo was still eating his snacks.

At twenty-three o'clock, MO Xiu lay on the bed and prepared to sleep.

Yang Qingzhuo finally stopped eating and shouted, "Mo Xiu! I finished my snacks!"

MO Xiu covered his face and couldn't bear to look at her.. What was the use of bringing her out?

Chapter 183: Upgrade Again

In the morning, MO Xiu woke up and went to Yang Qingzhuo's room to knock on his door.

"Wake up, we need to get to our destination as soon as possible."

"MO Xiu, why are you so early?" Yang Qingzhuo opened the door and yawned. I haven't slept enough yet."

"We're on a mission. If you continue to be so sloppy, I'll send you back!" Moxiu threatened. "

Yang Qingzhuo slammed the door shut.

MO Xiu was stunned at the door. What did this mean? Are you angry?

A minute later, the door opened again.

Yang Qingzhuo had already packed up and was ready to leave.

"Moxiu, let's set off. I'm sorry, don't be angry. It's because you're by my side that I feel very safe, which is why I'm so relaxed."

“Let’s go. You’ve been really annoying all day.””

The two of them set off for their destination.

It was eight o’clock when they arrived. The two of them hid in a tall building.

Let’s just wait here,” MO Xiu said.” If Bai Fan sets out to investigate, he should pass by here around nine o’clock.””

Yang Qingzhuo looked at MO Xiu with admiration.

“MO Xiu, aren’t you too amazing? Not only could he predict where Bai Fan was going, but he could also predict the time. Wasn’t this too godly?”

MO Xiu was embarrassed by the praise.

“It’s actually very simple. The spy will send me a message. I know the route and departure time arranged by Bai Fan.”

Hearing that, MO Xiu’s lofty image crumbled. Yang Qingzhuo pouted and didn’t want to say anything.

As time passed, MO Xiu began to explain the plan to Yang Qingzhuo. Yang Qingzhuo also told MO Xiu all his skills.

“Bai Fan must have brought a lot of people with him. Will we be in danger?”

Yang Qingzhuo asked.”

“Other than Bai Fan, there’s no need to worry about the others.”

Ordinary firearms were unable to break through Moxiu's defense.

During this period of time, Moxiu had been focused on researching skills. No one knew that Moxiu had secretly upgraded all his skills.

During the month in Yan University, MO Xiu specialized in the Divine Sword Weapon and the Holy Explosive Flame. He even asked Xiao Xinru for advice on researching skills and successfully leveled up before leaving Yan City.

As for God's Snooping and the Descent of the Martial God, they had been upgraded recently.

Moxiu had nothing to do and had been practicing his boxing skills all afternoon. Since the two skills were bound, Moxiu had placed his breakthrough on the Descent of the Martial God.

After a lot of practice, MO Xiu finally grasped the essentials, so he looked for Xiao Hong to spar.

The two of them had agreed that if they really fought, it would cause a huge commotion.

If they were to fight in the factory, these two hundred people would have work to do. It might take them a few days to clean up the mess.

Therefore, the two of them found an uninhabited hill to engage in actual

C0111UdL.

The battle process was not complicated. Moxiu's original intention was to hone his skills and find a way to level up. He did not want to win.

Hence, Motheo did not have any tactics to speak of. He fought head-on. In fact, he rarely used any other Skills in the beginning. He only used the War God's Descent to fight.

Of course, he wasn't Xiao Hong's match with just this one skill, and he was quickly defeated.

"Is this a real fight?" Xiao Hong asked. How boring. Your goal is too obvious.

You're using me to train your skills. I have no benefits. Goodbye."

Xiao Hong turned around and left immediately. MO Xiu said,""You didn't use your full strength either. You didn't even use your four skills."

"In your current state, it's a little unnecessary for me to use three skills. During the last battle at Shun City, I saw that you had two other skills."

Moxiu got up from the ground and said,"Come on, if I use my full strength, you'll have to be careful. ""

In the past, Xiao Hong would have laughed in disdain.

But this time, Xiao Hong looked at MO Xiu with a serious expression.

In her heart, MO Xiu was no longer a first-year student at Yan University.

Instead, he was someone who was equal to her, or even stronger than her.

When MO Xiu summoned his greatsword, Xiao Hong said with shock,""Your greatsword has leveled up?"

" That's right." Moxiu nodded." I've been studying it for nearly a month. Is it strange to level up?

Xiao Hong was speechless. Was that strange?

Of course, it was strange. Motheo's last two skills should be at least Level 2.

Moreover, he was certain that he had used medicine to increase his strength. Otherwise, it would be impossible for him to level up right after awakening.

The disadvantage of leveling up medicine was obvious. It was that one's comprehension of skills was not enough.

Moxiu had leveled up again in a short period of time. This time, if he was not in a hurry, it was impossible for him to use medicine to level up again.

In other words, in less than a month, Moxiu had made up for all the comprehension he had missed from the previous medicine upgrade. Moreover, he had even taken another step forward and leveled up again.

Looking at Moxiu's current state, wanting to upgrade a skill was simply abnormal.

In the following battle, MO stubbornly dragged the battle to the end, but he still lost. He continued to lose for the next few days.

Until the afternoon of the day before yesterday, the Descent of the Martial God had leveled up.

During the battle, Xiao Hong already knew that it would be difficult to defeat Mo Xiu.

Unless there was a chance of defeating MO Xiu in a life-and-death battle, there was very little chance of defeating MO Xiu in other situations.

MO Xiu's strength was above Xiao Hong's. In other words, MO Xiu came to the top of Yan University as a first-year.

He had known MO Xiu for less than half a year, but he had grown from a person that Xiao Hong couldn't even be bothered to look at to such a level.

Even Xiao Hong didn't dare to think about such improvement.

MO Xiu's performance reminded Xiao Hong of the disciples who had been training in the imperial family.

She knew that no matter how hard she worked, there was still a certain gap between her and those people and MO Xiu.

This was also the reason why Xiao Hong said that sparring with MO Xiu was boring.

At this point, all of Moxiu's skills had leveled up.

[Skill 1: Descent of the War God 4]

[Skill effect: Increases all attributes by 1,500%, immunity to 50% elemental damage.]

[Additional effect: Cripple. Inflicts damage to other targets under the effect of the skill. Cannot be healed within 30 minutes.]

[Additional Effect: Harden, active, lasts for one minute. Skin Hardens, defense increases by 500%.]

[Duration: 1 hour]

Cooldown time: 20 minutes."

The upgrade of the Descent of the Martial God was an important reason why Moxiu was able to defeat Xiao Hong. Not only did the bonus increase, but his immunity to magic damage had also increased to 50%.

[Skill 1: God's Snooping 4]

[Skill effect: Able to view all skills and skill states of up to ten targets, and estimate the power of elemental skills (Level 1 Fireball has one power)]

[Additional effect: Lock on, lock on the target being read. Able to sense the target's location within 30 minutes.]”

This upgrade increased the estimation of elemental skill damage, and he could finally know the approximate power of elemental skills.

What surprised Moxiu the most was the additional effect. This Lock-on skill could not only detect the target, but also assist in battle. It was simply too practical..

Chapter 184: First Meeting (1)

After upgrading God's Sight, Moxiu even used Xiao Hong as an experiment.

Xiao Hong's first skill, Flame Blast, dealt 500 damage, which was 500 times the damage of a fireball.

Fireball was the most common elemental skill, and many people had it. It was the best way to measure damage.

MO Xiu had not expected the damage of Flame Blast to be so high. During the battle at Shun City, when Xiao Hong used it, the visual impact was not that strong, but the damage was actually so terrifying.

Now, it seemed that he had dodged Xiao Hong's Flame Burst every time in the previous battles.

Otherwise, he would basically lose if he hit the mark.

The second skill, Flame Spear, was thrown out, causing an explosive elemental damage of 200 points.

The third skill, Fire Goddess's Fireball, dealt 10 damage, which was slightly higher than normal Fireballs.

After looking at Xiao Hong's skills, MO Xiu really wanted to see how many skills Xiao Xinru had.

That terrifying lightning should have dealt more than 2,000 damage, right?

<< Second Skill: Explosive Sacred Fire 3 >>

[Skill effect: Can be completely attached to the body to form armor. In the attached state, it increases attack and defense by 300%, and instantly dispels negative statuses.]

After being thrown, the object it touches will explode, causing large-scale damage. It has the effect of purifying the soul, and the target's soul will be at peace. (The first contact damage is 100. After the explosion, each single point of damage is 20.)

[[Duration of attachment: 30 seconds.]

Cooldown time: 2 minutes.”

Holy Explosive Flames was the skill that Moxiu used the least. He would only use it when he was caught off guard.

The upgrade this time was also very big. Previously, he could only attach flames to one part, but now he could attach flames to his entire body.

The damage after leveling up was also very objective and could be used to kill in a large area.

[Second Skill: Sword Saint's Divine Weapon 3]

[Skill effect: Summon a divine weapon from any position within a range of 300. You can freely control the movement of the divine weapon. The sharpness of the divine weapon is equivalent to 350% of the attack power of the original body when releasing the skill.]

[Additional effect: 10,000 swords. Can control the Divine Weapon to instantly transform into any number of small swords to attack. Each small sword can be controlled independently (the number of small swords that can be controlled is related to the strength of one's spiritual power).]

[Summon duration: 1 hour]

Cooldown time: 1 hour.”

The Sword Saint's Divine Weapon seemed to have the smallest upgrade, but it was actually not small. The sword body had become bigger and more flexible. Moreover, the number of small swords it could split into was also controllable, making it easier to control.

Kingstown Camp.

This pair of days, the white fan, the state is very good, do not know whether the next thing to do is correct, even some doubt, always come is not all is wrong?

From the initial outbreak in the conference room, to the dormancy in Bai

Town, to the high-spirited outbreak of firearms, to parting ways with Zhou Qiuwu and searching for the truth alone, and finally to the current helplessness.

Recently, there had been some different voices in the military camp. Some people said that Bai Fan could be a spiritual leader, but he couldn't lead an army.

There were also many people who said that Bai Fan had always been doing useless work and did not have the ability to lead everyone.

Bai Fan knew and heard about it.

Bai Fan needed to maintain his image. Otherwise, the entire army would collapse.

Therefore, he could only expand in all directions and find an opportunity to carry out the next experiment.

It was eight o'clock. Bai Fan led a team of three hundred people to the west to investigate the smallest city nearby.

This city was called He City, and it was located in a remote area. It was precisely because of its remoteness that Qiu Qiu managed to survive when he swept through the surrounding areas.

This was also the next step in Bai Fan's plan.

After setting off, Bai Fan sped up his journey. He had basically searched the surroundings and brought back all the resources he could use.

As they walked, Bai Fan signaled for them to slow down.

This was a place that they had to pass through. Moreover, there were buildings that were neither tall nor short around them. Behind the buildings was a forest, which was the most suitable for sneak attacks.

Bai Fan only slowed down because he wanted to be careful.

"Leader, what's going on?" asked one of the men behind him. There's an anomaly in front?

When they were about to leave this area, Bai Fan shook his head and said, "I just feel that this place isn't very safe. It should be fine."

As soon as he finished speaking, a silver light flew over and shot straight at Bai Fan.

Bai Fan pushed the person beside him away. It was a throwing knife.

“Swoosh!”

The flying knife swept past, and Bai Fan disappeared!

When he appeared again, he was standing on top of a building and locked onto the person who ambushed him.

“Who is it?”

Seeing that they had been discovered, the other party quickly ran towards the forest behind the building. Bai Fan could see clearly that there were two of them, and their speed was not fast enough.

Bai Fan stood on the roof and ordered. “Everyone, retreat from this area and wait for me outside.” With that, he disappeared again!

This time, he appeared directly in front of the two ambushers.

Bai Fan saw it clearly. It was a man and a woman. The man had a well-proportioned figure and looked very explosive. The woman was smaller and very agile.

However, the two of them were wearing cartoon masks, which made them look a little funny.

Two guns appeared out of thin air in Bai Fan’s hands and he aimed them at the two of them.

The man's speed was extremely fast as he pounced towards Bai Fan. The woman took the opportunity to run into the forest and hide.

Boom! Boom! Boom!

The man didn't dodge and continued to move forward.

Bai Fan was shocked. There was actually no way to break through the defense.

Frowning slightly, the gun disappeared. He placed his hands in front of his chest, and a larger gun suddenly appeared.

"Bang!"

This time, the man did not take the shot head-on. He dodged to the side.

He stopped for two seconds and attacked again.

This spear was specially made by Bai Fan. Compared to ordinary spears, it was much more powerful and faster.

He did not expect the man opposite him to be able to sense danger and dodge it.

This time, the man didn't attack in a straight line. Instead, he dodged left and right.

He was so fast that Bai Fan couldn't even lock onto him.

He raised his gun and aimed a few times before putting it down. He placed the spear in front of his chest and stared at the black shadow.

“Bang!”

The shot did not hit the man, but it stopped him.

Because Bai Fan was unable to aim, he predicted the man’s trajectory and fired a shot while the man was moving.

If the man had not stopped in time, the shot would have hit him.

Seeing that the other party didn’t move, Bai Fan asked, “Who are you? What is the purpose of the sneak attack on me?”

The man did not run away. Instead, he answered readily, “Amazing, how did you predict my actions?”

Bai Fan narrowed his eyes and aimed his gun at the man again.

“Answer my question!”

“You know you can’t hit me at this distance,” the man said arrogantly. Bai Fan smiled and disappeared, reappearing in front of the man.

She pressed the gun against the man’s shoulder and said, “What about now?!”

The man still did not run. He took off his mask.

“You’re indeed amazing. Nice to meet you!”

Bai Fan looked at the man in front of him and was speechless. It was actually him?

‘MO Xiu?!’

Chapter 185: Does He Know His Mistake? 1

“MO Xiu?”

“That’s right, it’s me.”

Bai Fan frowned and aimed the gun at MO Xiu’s head.

“Is that necessary?” Motheo asked, turning his head and grabbing the rifle.”

“You actually dare to come and find me?”

“Shall we talk?”

Bai Fan knew that dealing with MO Xiu would be very difficult. In such a close-range battle, MO Xiu could easily catch him.

It would be very difficult to hit Moxiu from a long distance.

MO Xiu had the same thought. Bai Fan was very difficult to deal with.

When Bai Fan had taken out the special rifle, Moxiu had sensed danger.

Moxiu felt that this gun could hurt him.

In addition to Bai Fan’s infinite teleportation, it would be very difficult to defeat him.

“What do you want to talk about?” Let’s chat here.”

“I admire you very much. You and I are very similar. It’s just that the two of us walked on two completely different paths. Sometimes, I really want to be friends with you, but unfortunately, you killed Mu Mu!”

MO Xiu’s eyes suddenly turned sharp. When Bai Fan heard Mu Mu’s name, his expression became unnatural.

“I’m sorry Mu Mu died! She was the last person who should have died, but I had no choice at that time, and she wouldn’t let me leave so easily.” “You’re regretting it now!” MO Xiu said word by word.”

Bai Fan took a step back and looked at MO Xiu warily.

“What exactly do you want?”

MO Xiu took a step forward and said, “I said you regret it. You regret killing Mu

Mu.” ‘

Bai Fan took another step back and looked at MO Xiu without saying anything.

“Especially when things develop and you realize that everything is different from what you imagined.”

It’s not like I imagined,” Bai Fan sighed.” But I don’t regret it.”“

“Oh? No regrets? ” Then I’ll put it another way. You’ve wavered. You’ve wavered after seeing Zhou Qiwu’s ambition and the innocent people who died in vain.”

“As expected, you’re different from the others. You single-handedly ruined our plan, and yet, you’re able to find me at this time. Instead of sending troops to encircle and annihilate me, you’re actually talking nonsense with me.”

“Alright, since you don’t want to answer my question, let’s continue talking about Mu Mu!” MO Xiu said with a smile.”

“I don’t want to talk.”

“Why do you think Mumu blocked the door when he knew he would die?” Bai Fan didn’t want to answer Xio’s question.

“Don’t say these useless words anymore. I know I can’t keep you here today. If there’s nothing else, I’ll leave first.”

Bai Fan waited for two seconds. MO Xiu didn’t say anything else and walked back.

“You’re a paranoid perfectionist,” Moxiu suddenly said.”

Bai Fan’s body paused for a moment before disappearing.

MO Xiu looked into the distance. At this moment, Yang Qingzhuo walked out of the forest and came to MO Xiu’s side. “Why is this Bai Fan so hard to communicate with?”

“No, I think the two of us had a good chat.”

Since Bai Fan had left, MO Xiu let him go. He knew that no one could stop him in his domain.

When he first saw Bai Fan, MO Xiu had used God’s Snooping.

Bai Fan wasn't a good-for-nothing. On the contrary, he was a genius, an out-and-out genius.

His physical fitness wasn't any weaker than Moxiu's, and all four of his skills were Level 5.

Each skill could be used in different fields.

Every skill had many restrictions, and coincidentally, every skill was very compatible with firearms.

Mastery allowed him to modify firearms, extreme operation allowed him to use firearms better, and the Dimensional Pocket allowed him to carry a large number of firearms. The Spatial God provided him with the necessary mobility.

However, these skills were not very helpful in battles without firearms.

Although extreme operation increased strength and speed, the restriction was too great. It was just a finger. No matter how strong the finger was, it was useless if it could not hit someone.

However, with the help of the Spatial God, Bai Fan could still fight even without using firearms.

Spatial Gods also had their limitations, but the effects were stunning enough.

Spatial skills were rare to begin with, and almost every one of them was very powerful.

Wang Yu had once commented on Mu Qingyi that there were no useless spatial skills.

Bai Fan and Mu Qingyi had their own strengths and weaknesses.

Mu Qingyi's skill had a short cooldown. and the distance of her teleportation

was relatively short. However, there was no space restriction, and as long as she had enough stamina, she could use it indefinitely.

Bai Fan's skill could be used for 20 minutes without a cooldown. The distance of his teleportation was also very far. The only weakness was that it was limited to 1,000 meters. As long as he left this range, it would be useless.

It was such a terrifying skill, but it was a pity that it was Bai Fan's last awakened skill.

If he had awakened the space earlier, Bai Fan would not have been treated unfairly.

If everyone Bai Fan met was as gentle as Mu Mu, he wouldn't have chosen this path.

MO Xiu and Yang Qingzhuo returned to Xiang City.

Moxiu didn't say much along the way.

"MO Xiu, what's wrong?" Yang Qingzhuo asked carefully. Are you unhappy?" MO Xiu finally spoke.

"You said...Did Bai Fan know that he was wrong? Did he know that he was walking into the abyss?"

Kingstown Camp.

After Bai Fan met up with the team, he returned without any intention to continue his investigation.

After returning, Bai Fan had been thinking about MO Xiu's purpose for coming here. He mentioned Mu Mu and said a lot, but he didn't say anything about him giving up resisting.

What did he mean by saying those words? MO Xiu knew where he was, yet he still deliberately exposed himself. What was the meaning of this?

Bai Fan's heart was in a mess as he thought about MO Xiu's words. Did he really regret killing Mu Mu?

On the other hand, he was wondering what Moxiu was up to.

Bai Fan had seen MO Xiu's strategy before. He had single-handedly destroyed Qiu Qiming's plans that had been laid out for many years.

Why did he appear at this time? Moxiu was like a wolf that could come and bite at any moment.

Bai Fan felt uneasy as he couldn't confirm MO Xiu's goal.

He thought about it for a whole night. The next morning, Bai Fan gave an order.

"Everyone gather, pack up, and prepare to attack He City!"

Chapter 186: Goodbye (1)

After MO Xiu returned to Xiang City, he practiced his boxing as usual and then went to sleep.

Cao Fenglin was curious about what Moxiu and Bai Fan said when they interacted. Moxiu felt that there was nothing much to say, so he told him.

However, Cao Fenglin and Xiao Hong didn't believe it.?

He only said a few unimportant words?

In order to verify their suspicions, the two of them went to Yang Qingzhuo and asked him. The result was exactly as MO Xiu had said.

This time, the two of them were puzzled. What did this mean?

In order to say a few useless words to Bai Fan, he didn't hesitate to expose himself.

This way, Bai Fan would definitely be on guard and might even find out who the spy was. This was simply helping others.

Judging from Moxiu's current performance, he had returned to a state of waiting quietly.

Cao Fenglin sighed. It was so troublesome. I thought it would end quickly."

Xiao Hong agreed." That's right. The entire Battle of Shun City was such a big scene, but it only took five or six days to settle it. Why is it so slow this time?"

Even if they didn't understand, there was nothing they could do. They could only wait for Moxiu's next move.

In fact, MO Xiu was also anxious to find out the truth, waiting for Bai Fan to make a move.

Fortunately, MO Xiu didn't have to wait for too long.

The next morning, MO Xiu received news from Feng Danian and Yue Yuan.

Bai Fan suddenly became radical and ordered everyone to gather at He City. He wanted to take down a city with people.

Cao Fenglin and Xiao Hong immediately turned to look at MO Xiu. It was hard for them not to associate this with MO Xiu.

MO Xiu had just finished talking to Bai Fan yesterday, and Bai Fan was already making such a big move today.

MO Xiu was also very excited when he saw the information. He said to Yue Yuan, ""Quickly inform Uncle Yue to gather the army. We can also find some reinforcements in other cities."

"I'll go now!" Yue Yuan replied.

"Wait! Remember, don't act rashly and wait for Bai Fan to attack He City before surrounding it."

Yue Yuan went down to make arrangements for Cao Fenglin and Xiao Hong. He knew that the crucial moment had arrived.

"MO Xiu, are we setting off now?" Cao Fenglin asked."

MO Xiu looked at Cao Fenglin and said, "Wait!"

Although they were a little disappointed, Cao Fenglin and Xiao Hong were still filled with anticipation.

At the start of the battle, MO Xiu had a stable arrangement and turned the tables in one move.

Moxiu wasn't as calm as before. He didn't practice boxing and sat on the chair, waiting for news.

It wasn't until night that new news came.

Bai Fan's army split into four teams and surrounded He City, successfully launching a surprise attack.

He City's defenses were very weak, and it was expected that there would be results tomorrow morning.

After another night of waiting, the news of Bai Fan Army's victory arrived.

“How are the casualties in He City?” asked MO Xiu.”

Feng Danian said,” Basically, there are no casualties. There aren’t many defenders in He City. When they saw the army, they immediately surrendered.

The entire night, we were basically arranging the accommodation of the army.”

After Bai Fan occupied He City, he gave many orders.

After entering the city, you must not kill innocent people.

They were not allowed to seize the property of local residents.

All residents were restricted from leaving the city.

As soon as these orders were given, the firearms army became very aggrieved. They did not get anything after winning the battle, but instead became the defenders.

Bai Fan issued many orders to the residents of He City, as if he wanted to be the new city lord.

Even without MO Xiu’s explanation, Cao Fenglin and the others could already see through it.

Bai Fan wanted to shift the experimental subjects from the firearms army to the residents.

This method was indeed feasible. After Bai Fan seized He City, he did not do anything to harm the residents.

The orders he gave were also beneficial to most people.

After a while, these residents would let down their guard and feel that the life Bai Fan gave them was actually not bad.

This kind of situation would also collapse, but it would last longer.

After Cao Fenglin thought it through, he asked, "MO Xiu, this isn't good. Do we still have to continue waiting?" "We can't kill the residents, right?" "No need, I'm going to He City!" MO Xiu said with a smile.

"Or you and Yang Qingzhuo?" Xiao Hong asked.

"No, I can't! Just me! I'll talk to Bai Fan again!"

Everyone was stunned for a moment. If Moxiu hadn't destroyed Qiu Qiming's plan, they would have thought that Moxiu was going to betray them.

MO Xiu said to Yue Yuan and Feng Danian, "Let those ten people come back! After I enter He City, I will send a message back and have Uncle Yue take action to surround He City!"

The two of them had very strong execution abilities and weren't like Cao Fenglin, who asked questions.

After making the arrangements, Moxiu packed his things and prepared to leave.

"MO Xiu?" Yang Qingzhuo asked. Did you think I was a burden last time, so you didn't bring me along this time?"

"That's right. Was I that obvious just now?" Moxiu said with a smile.

Yang Qingzhuo's face immediately turned pale, and tears welled up in his eyes. As a support, being a burden was the worst.

MO Xiu looked at Yang Qingzhuo and immediately patted her head. "You, I'm just teasing you. You performed very well last time, but this time it's different. This time it's an infiltration, so the fewer people, the better."

Last time, he brought Yang Qingzhuo along because he didn't know Bai Fan's true strength.

Now that he knew Bai Fan's strength, although he couldn't defeat him, he wouldn't be injured.

Yang Qingzhuo saw that MO Xiu didn't seem to be coaxing him and immediately became happy.

"Then you must bring me along the next time you go out!"

"Alright!" MO Xiu nodded.

In the central building of He City.

Bai Fan looked out of the window and asked, "How is it?"

Governor Bai," said a young woman," your reform is effective. In just one day, the number of people protesting has decreased significantly."

Good job," Bai Fan said." You can leave first!"

This building was where the former city lord worked. Bai Fan broke into the city and defeated the former city lord immediately and imprisoned him.

He had displayed his absolute strength. The people who were originally working here, whether they were really submissive or submissive on the surface, were now working for Bai Fan.

Bai Fan's actions did not touch the bottom line of the residents. There was no trouble in their lives. They were just following Bai Fan's orders.

This way, the residents could quickly stabilize themselves and trust Bai Fan.

“Dong dong dong!”

Bai Fan didn’t even turn back, “Please come in! ””

The door opened and a stack of documents was placed on the table.

“Put it on the table and go out!”

“You’d better take a look. We can still discuss it.” Hearing this voice, Bai Fan suddenly turned around.

“MO Xiu? How did you get in?”

“Is it very difficult to come in?” MO Xiu sat down impolitely. This city seemed to be well-guarded, but in reality, it was a pile of loose sand.”

When the two of them met again, Bai Fan was not as nervous and cautious as the first time.

He also walked to the table and sat down. He knocked on the table twice.

“What’s your purpose for coming here?” “I’m here to help you!” Moxiu shrugged.”

“Help me?”

“That’s right. I think your experiment is very interesting. I want to help you and see how long you can last.”

Bai Fan leaned back in his chair, his eyes narrowed as he pondered..

Chapter 187: Did It Succeed?_I

Bai Fan said, "I can't let you stay. If others see me with you, then..." Is that what you want to see?

MO Xiu took out his phone and placed it on the table. "I won't leave any evidence. The moment anyone sees you, you can attack me. That way, you can get rid of suspicion."

MO Xiu had already sent a message to Yue Yuan and did not need to contact the outside world anymore.

Bai Fan thought about it for a long time and finally agreed to let MO Xiu stay.

For no other reason, it was better to keep such a dangerous person by his side than to deal with him outside.

If Liu Ziyang knew what Bai Fan was thinking, he would definitely think that Bai Fan was crazy. MO Xiu had single-handedly entered the enemy's territory and destroyed the entire Underground Arena.

Bai Fan said, "You can stay, but you can't leave this room. There's a lounge here. You can sleep here. Of course, I can't stop you. You can leave if you want, but don't come back."

Moxiu laughed out loud. "Hahaha, interesting. I'm here to help you. Is this how you treat your teammates?"

Before knowing that Mu Mu was still alive, MO Xiu hated Bai Fan and wanted to kill him personally. But now, he didn't hate Bai Fan as much as before. Instead, he found Bai Fan interesting.

"What help can you give me?" Bai Fan asked.

Moxiu thought for a while and said, "I'll give you some information first. You're surrounded now."

"What kind of information is this? " I've already guessed that the other factions didn't do anything to me because I didn't make a move. Now that I've conquered Hwa City, they will definitely come to attack."

' I'll help you next." Moxiu smiled playfully." I'll tell them not to attack and just surround you like this.'"

"You're really capable. You can command the Yan City Army, and now you can stop the other forces from attacking. Tell me, why did you do that?"

"Why are you so suspicious?" MO Xiu shrugged. I've already said that I'm here to help you. I want to see the results of your experiment."

Bai Fan was starting to believe in Moxiu, because in this situation, if Moxiu and the DeoDle from the outside worked together. the army would be defeated.

The cohesion of this firearms army was not as good as before. Their combat strength was not strong to begin with, and now it was even weaker.

Bai Fan's attitude softened a little."

"It's time for your experiment to come out with the results."

"What if I succeed? What if everyone in the city is united and doesn't accept your so-called rescue?"

Moxiu looked out the window and said, " I don't think you'll succeed, but if you do, I'll have them retreat. If others come to attack, I won't be able to control them." "Thank you!"

"You're welcome!"

For the next two days, MO Xiu covered his face and was with Bai Fan.

Bai Fan was extremely busy, so MO Xiu did not interfere too much. He only occasionally gave some suggestions.

Every time MO Xiu made a suggestion, Bai Fan's eyes would light up.

However, it was Moxiu who had proposed it. Bai Fan repeatedly calculated and confirmed that there were no side effects before executing it.

As time passed, Bai Fan slowly began to accept MO Xiu and trust him.

Even Bai Fan couldn't believe that he would believe the terrifying person who ruined Qiu Qiming's plan.

MO Xiu had been very relaxed these past two days. All he had to do was watch Bai Fan work.

After another two days, Bai Fan would take the initiative to ask for MO Xiu's opinion when he encountered a difficult problem that he could not solve.

MO Xiu didn't hide anything and said whatever he wanted.

Under the efforts of the two of them, the citizens of the city began to slowly change. Some people even openly supported Bai Fan. Of course, some people supported him, while others opposed him.

The people who supported Bai Fan were basically the lower-class residents. Their lives in the past were more difficult.

What Bai Fan brought them was equality. Their status became higher, their lives became easier, and they became happier.

Against the white fan, the people are those who stand before, the city pyramid, the tip of the one part of the people.

In a small city like He City, this was an extremely small group of people. These people had a lot of power and resources.

When Bai Fan arrived, he wanted them to distribute the resources in their hands to the lower-class residents.

Of course, they were unwilling. They resisted, but they were extinguished.

Firstly, the firearms army had a large number of people, and they were no match for them.

Secondly, there were also lower-class residents under them. As more and more people supported Bai Fan, more and more of their subordinates rebelled.

If the pyramid collapsed, they would no longer be standing at the top of the pyramid, but on the ground.

Everything in the city was going according to Bai Fan's expectations. It seemed like this time was more successful than the last time.

However, Bai Fan did not let his guard down. He knew that the system would collapse at this time.

They had been keeping an eye on the people in the city day and night. They had ordered the army of firearms to monitor the residents 'every move, afraid that someone would ruin this beautiful scene like last time.

At night, Bai Fan looked out the window and smiled.

It seems that after all, success has always been the steady development of everything, but it is too likely to have problems.

MO Xiu was still sitting in his usual spot. He said indifferently, "You're looking in the wrong direction."

“What do you mean?” Bai Fan asked.”

“You’re afraid that there will be problems in the experiment, but the problems might not necessarily appear internally.”

Bai Fan looked into the distance and said, “The forces outside?” Didn’t you say that they wouldn’t attack?”

Bai Fan didn’t want to rely on MO Xiu, but if the people outside attacked, there was really no way to deal with them.

“You’re an excellent leader, but you’re not an excellent architect.” Moxiu shook his head helplessly.”

Bai Fan was a little nervous. He knew that MO Xiu had discovered something he didn’t know. He immediately came over and asked,”“What do you mean? Tell me in detail?”

Moxiu took out a piece of paper and drew a circle on it.

” You don’t understand what I mean. Internal refers to the group of people you’ve experimented on. External refers to those who haven’t experimented

“

Bai Fan was stunned and immediately ran out of the door.

Bai Fan understood. MO Xiu was referring to the firearms army.

This was Bai Fan’s foundation, but it wasn’t stable.

It had been five days since the invasion of He City, and Bai Fan had been busy with the residents of He City.

He had never considered the issue of the army of firearms.

His attention was diverted, and he knew nothing about the situation of the firearms army.

However, the situation was extremely dangerous now, and he could lose control at any moment.

Once it went out of control, not only would they lose the firearms army, but they would also harm the entire city's residents.

Bai Fan had a meeting with the firearms army that night.

The next day, she walked back to the office exhausted.

However, Bai Fan was too slow!

An old man broke into the office despite the obstruction of the various employees.

He knelt down at Bai Fan's feet and said," City Lord Bai Fan, my daughter has been missing for three days. Until now, her whereabouts are unknown. Three women have gone missing on our street and countless assets have been lost. We reported to the higher-ups according to the regulations, but there was no response. I couldn't wait any longer today, so I came to look for you. My daughter..." Where is it?"

It seemed like a normal case of missing and theft. In fact, Bai Fan knew the seriousness of the matter..

Chapter 188: Relying on You (1)

What this old man said was very serious.

Bai Fan had basically achieved equality. The resources of the residents were equally divided. Basically, they would not steal, let alone kidnap women.

There was a high probability that this was done by the firearms army.

Bai Fan first comforted the old man and promised that he would find his daughter and catch the murderer.

After sending the old man off, Bai Fan slammed the table and flew into a rage.

Gather all the people in charge of the firearms army.

After scolding him, he explained his difficulties and the importance he attached to the firearms army.

He also gave a death order to find the missing person and catch the murderer before night time.

MO Xiu quietly watched from the side. There was nothing wrong with Bai Fan's words. In fact, they were extremely outstanding.

However, these words might accelerate the development of the situation.

After everyone left, Bai Fan asked, ""How should we resolve this matter?"

Moxiu shook his head and said, "It can't be solved!" Your experiment has failed."

Bai Fan asked in surprise, "Why do you say that? It's still within the controllable range."

"I'm leaving!"

Bai Fan was a little flustered. He didn't know how true MO Xiu's words were.

"Moxiu, this is your true scheme, right? You want me to get used to having you by my side and then leave at the critical moment, causing me to panic. Aren't you underestimating me too much?"

MO Xiu had already stood up, but when he heard Bai Fan's words, he sat down again.

"I have never underestimated you. Otherwise, why would I have gone through so much trouble to come here?"

"I've always wanted to ask you a question," Bai Fan asked. "How did you know I wanted to try?" The experiment you mentioned?"

"When you were in Kingstown, I arranged for ten undercover agents.""

Bai Fan immediately understood. His eyes were filled with anger as a firearm appeared in his right hand and he aimed it at MO Xiu.

"So you were the one who killed the leader of the third district, which led to the collapse of the firearms army."

Moxiu didn't care about the gun pointed at him.

"I admit that I did some things, but I didn't do the first step. I didn't kill District 3's leader. I ordered the two people to be killed.""

Bai Fan helplessly put down his firearms. He understood that MO Xiu was only trying to speed things up.

Even without Moxiu, the firearms army would have collapsed very quickly. "Then why did you say I failed this time?" Bai Fan asked."

MO Xiu walked to Bai Fan's side and said, "Your thoughts come from the injustice you've suffered in the past. You've worked so hard, and even if you achieve some results, no one will acknowledge you. You want to change this, you want everyone to trust each other, and everyone to be equal, but that's impossible."

Bai Fan unconsciously lowered his head and asked, "Why not?"

"Everyone is equal. Who will maintain order?" MO Xiu sighed. Who would lead everyone? This was a false question."

Bai Fan pointed out the window. Wasn't everyone equal in this city?"

MO Xiufang laughed. "Bai Fan, I told you that you're a paranoid idealist. That's just your imagination. Humans are not born equal. How can everyone be equal?"

Let's not talk about talent in terms of skills. Everyone's talent is different. Some people are sensitive to numbers, while others are good at communicating. It's because everyone is different that the world you think of will not appear."

Bai Fan had been suspicious and hesitant before, but when MO Xiu said this, his heart wavered for the first time.

Bai Fan said self-deprecatingly, "I'm really stupid. I still fell into your trap. You stayed by my side for so long, helping me analyze various situations, and gaining my trust just to say these words to me now, right?"

Moxiu nodded and admitted it generously.

"That's right! Do you know that you were wrong?"

Bai Fan's head was even lower. His entire shoulder had collapsed as he sat down weakly.

” You should leave. The boss won’t give up. This situation is still under control.””

Moxiu didn’t waste any time and stood up to leave the room.

This was also the first time MO Xiu had walked out of his room after coming here for so long. If he walked out, it meant that he would never return.

After leaving the house, Moxiu headed straight for the edge of the city, preparing to leave the city. His mission this time was completed.

The dissatisfaction of the firearms army seemed to be greater than Moxiu had imagined.

This time, they did not even need to add fuel to the fire. This Bai Fan army was about to collapse.

Xiang City, in the room where the core members were analyzing the information.

” Teacher Cao, MO Xiu has been gone for six days,” Yang Qingzhuo said anxiously.” There’s no news from him at all. He didn’t pick up his calls or reply to his messages. Is he in danger?” Letting the army attack the city will affect Moxiu’s plans. Shall I go and take a look?”

Cao Fenglin said,” Nonsense. If you go now, you’ll only cause trouble for MO Xiu. Just wait! ””

Yang Qingzhuo was still worried. He stood up and paced around the room.

” Yang Qingzhuo, stop pacing around,” Xiao Hong chided.” You’re making me dizzy. Can you keep your cool?””

”Why are you so angry at me?” Yang Qingzhuo asked. Do you have the ability to save MO Xiu?”

The two women started arguing. Cao Fenglin and Feng Danian didn't know how to stop them.

Yue Yuan had gone out of He City to gather information and had yet to return.

The two women quarreled more and more fiercely. They were at daggers drawn and were about to fight.

"Why did you guys quarrel?"

"None of your business!" The two girls replied in unison."

But thinking about it, it didn't seem right. This was... MO Xiu's voice?

Everyone looked at the door. MO Xiu had returned.

Yang Qingzhuo ran over and grabbed MO Xiu's arm. "Mo Xiu, why didn't you send a message back?"

"What can happen to me?" MO Xiu said with a smile. I've already said that there's no one in He City who can hurt me. What's there to worry about?"

Xiao Hong was about to walk over, but when she saw Yang Qingzhuo running over, she didn't move.

"MO Xiu," Cao Fenglin said, "If you didn't come back soon, I would have thought that you had betrayed us. ""

"Teacher Cao, you really know how to joke."

Cao Fenglin said, "Quick, sit down and tell us. What did you gain from your trip to He City?"

MO Xiu didn't sit down. He just stood there and didn't move.

“This time, my mission is completed. If nothing unexpected happens, this matter will be over very soon, and we will be returning soon.” “Is there going to be a big move?” Cao Fenglin asked.”

“Yes, we’ll be depending on you from now on.” Moxiu nodded.”

Cao Fenglin pointed at himself and said,”Me?” Tell me, what do you want me to

“Let’s talk alone!”

Cao Fenglin saw MO Xiu’s serious expression and didn’t act arrogantly. The two of them returned to MO Xiu’s room.

The remaining few people were also tactful. They knew that this was a critical moment, so they obediently waited for the result.

Cao Fenglin stayed in MO Xiu’s room for the entire night and didn’t come out.

The two of them chatted for the entire night.

The next morning, Cao Fenglin left Xiang City in a hurry..

Chapter 189: Prelude

He City, evening.

Bai Fan sat on the chair with his palms pressed together. No one knew what he was thinking.

Bai Fan didn't personally investigate what the old man said. He wanted to trust the firearms army again and give himself another chance.

Someone knocked on the door.

"Enter! "

Two people in charge came in with a person in their arms.

"Leader Bai Fan, we found him. He kidnapped three people and stole their belongings."

Bai Fan got up to check and asked, "Dead?" "No, he's unconscious," the leader replied. "How are the three women?"

"It's said that it's nothing serious!"

Suppress him," Bai Fan said. "We'll deal with him when he wakes up!" The two of them agreed and went down.

It seemed like everything wasn't as bad as he had imagined. Bai Fan's mood eased a little.

The next morning.

Bai Fan didn't interrogate the criminal immediately. Instead, he went to the old man's residence alone.

After knocking on the door, it took a long time for it to open.

When Sir System opened the door and saw that it was Bai Fan, his eyes were filled with complicated emotions.

Bai Fan realized that something was wrong and asked, "What's wrong?" Didn't your daughter come back?"

Sir System did not say anything and walked into the house without closing the door.

Bai Fan hesitated for a second before closing the door and following Sir System into a room.

There was a woman lying on the bed. She was about 24 or 25 years old and was still sleeping. She did not look well and looked very haggard.

Bai Fan immediately went closer to take a look. On the surface, there was no problem, but he looked very tired. He must have been frightened.

"How's your daughter after she came back?" Bai Fan asked."

As soon as she finished speaking, the woman on the bed suddenly opened her eyes and looked at Bai Fan in horror.

Her reaction was very intense. She immediately got out of bed and hid in a corner of the room, trembling all over.

Only then did Bai Fan see the wounds on his wrists and ankles. They were obviously caused by being tied up for a long time.

Anger rose in his heart. After adjusting his emotions, Bai Fan said,""Don't be afraid. I won't hurt you!"

The woman was still very nervous. Bai Fan knew that the woman would not let her guard down at this time.

He could only leave the room and let the woman calm down first.

First Master also came out. Bai Fan pulled First Master and said, ""What's going on?"

Sir System's eyes were filled with disappointment as he said weakly, "Governor Bai, our family used to live a miserable life, but we were happy. You brought us to a better life after you came. I once shouted 'Long live Governor Bai' on the street, but now it seems that your policy is just a new one. You are even crueler!"

Sir System's every word hit Bai Fan's sore spot. This was not what Bai Fan wanted to see.

"Sir, tell me in detail, what exactly happened?" Bai Fan asked. There might be some things I don't know."

"Alright, I'll tell you. My daughter was sent back last night and told me that the murderer was Xiao Chen, who was on duty in our area. ""

Bai Fan nodded and gestured for Sir System to continue.

"But Xiao Chen can't be the murderer. Xiao Chen is only in his early twenties and is a good child. After my daughter went missing, he even helped to find her.'

Bai Fan recalled the man who was brought here last night. He was indeed young.

"Oh? Is that true?"

Sir System gritted his teeth and said, "Also, look at my daughter now. She's crazy and covered in wounds. This is definitely not done by one person. It was done by a group of people.'""

'You're saying that the murderer isn't Xiao Chen but someone else?' Bai Fan asked." A few people used Xiao Chen as a scapegoat to escape the crime?""

Sir System nodded and said, "That's right. There are three people missing. My daughter is the only one who came back. The whereabouts of the other two are unknown. Such a thing has happened and it makes us feel disappointed. If you don't care, how can we trust you?"

Bai Fan understood that someone was up to something. Things were not that simple.

"Sir, don't worry. I'll definitely investigate this matter and give you justice."

Bai Fan said goodbye to the old man and went to the other houses on the street.

The situation was not much different from what Sir System had said. Bai Fan knew what was going on and immediately went back to find Xiao Chen. The breakthrough now was with Xiao Chen. As long as he could find out who caught Xiao Chen, he would probably know the murderer.

After returning home, Bai Fan went straight to where Xiao Chen was being held. When he entered, he saw Xiao Chen lying on the ground, no longer breathing.

Bai Fan was completely furious. The entire firearms army was now rotten.

For the next two days, he would try his best to follow up on this matter. There were many clues left behind, such as who captured Xiao Chen and who were the guards nearby.

Soon, the culprits were caught. There were a total of eight people. These people had evil intentions and gathered together to do many evil things. Bai Fan really did not expect that he would have such people under him.

On the same day, Bai Fan brought the eight of them to the door of the First Master's house and apologized to the First Master and his daughter.

Sir System vomited on the eight of them one by one and clenched his fists. "You scum deserve to die."

The group members who were watching from the surroundings also shouted that they deserved to die.

“Why did you do this?” Bai Fan asked in front of everyone. What did they do

wrong?

One of them said indignantly, “Leader Bai Fan, we followed you because we wanted power and freedom. We’ve already conquered He City. We can’t do anything, yet we still have to protect them. Why?” “Why?” “Who knew how many people were thinking about this?”

Bai Fan shouted, “Stupid, don’t you want to live a stable life?”

“I don’t want to! The moment I picked up the firearms, I didn’t think that I could be safe in the future. Bai Fan, you don’t deserve to be our leader at all. You don’t think about us, but you think about these trash.”

Bai Fan slapped the man’s face and he fainted.

Bai Fan shouted, “You have to pay the price for your mistakes. These people hurt others. They deserve to die!” The others should take this as a warning!” He took out his pistol and ended their lives on the spot.

Cheers filled the entire city, even if some residents thought that this was a self-directed play by Bai Fan to win the hearts of the people.

However, it was still unstoppable. The trust that the people of He City had in Bai Fan rose to a new level. Everyone knew that Bai Fan had the ability to protect them.

On this day, Bai Fan had gained the support of the entire He City, but he had planted a hidden danger.

What Bai Fan did next was to reorganize the army.

He set up rules to restrict the firearms army to prevent such a thing from happening again.

Bai Fan was a little tired after working late into the night. His condition had improved.

However, the hidden danger of the firearms army was still there. Using forceful methods was not a solution. He had to fundamentally resolve the dissatisfaction of the firearms army.

Bai Fan's thoughts were in a mess and he didn't know what to do next.

He suddenly thought of Moxiu, the person who had given him countless suggestions.

If Moxiu was here right now, what tricks would he come up with to control the firearms army?

In fact, Bai Fan did not realize that what should have been the strongest power in Bai Fan's hands was now restricting him..

Chapter 190: One Night (1)

Bai Fan fell asleep on the table. He had been too tired recently. His condition had just improved, so he could sleep peacefully. He slept soundly.

Boom! Boom! Boom!

The sounds from the firearms mixed together and entered Bai Fan's dream.

Bai Fan suddenly woke up and found that it was a mess outside.

He immediately walked to the window and looked out. This time, it was as if he was struck by lightning. Bai Fan directly sat on the ground.

The outside was filled with flames, and the army of firearms had turned He City into a mess.

The sound of firearms, laughter, and screams mixed together into Bai Fan's ears.

Bai Fan immediately stood up and shouted, "Men!" Men!"

No one responded, as if the entire building was empty.

Bai Fan walked out of the door and found his most trusted people lying on the ground.

She quickened her pace and ran through the lobby on the first floor and out of the building.

There was no one else in the building. Everyone was partying in the city.

Boom! Boom! Boom!

The sound of firearms rang throughout the entire He City. Many people were shooting into the air.

Bai Fan took a few steps forward as if he was releasing his emotions that he had been suppressing for a long time.

He saw a man break into a house and rob it.

Bai Fan rushed over to stop that person and roared, "What are you doing? What are you guys doing?"

When that person saw Bai Fan, he immediately ran away.

Sweeping his gaze across the room, he saw a young couple sitting on the ground. They looked at Bai Fan with hatred in their eyes.

Everything had changed. Overnight, all the trust had turned into hatred.

How much trust he had in the past was how much hatred he had now.

Bai Fan didn't say anything to the two of them. He didn't know what to say and walked out of the room.

After arriving on the street, Bai Fan finally knew what the firearms army was doing.

He was doing what he should have done when he attacked He City!

Bai Fan came back to his senses and started to run as fast as he could to stop everything.

However, no one listened to Bai Fan. They all dodged when they saw Bai Fan. Bai Fan couldn't stop what was happening. He felt so helpless.

Whether it was the firearms army or the residents of He City, no one believed him and no one listened to his command.

The last time this feeling of powerlessness appeared was before the meeting room incident.

During that time, no one was willing to interact with Bai Fan. Bai Fan's good intentions were completely misunderstood and distorted.

The feeling now was even worse than that time.

He had completely lost control. Bai Fan finally understood what MO Xiu meant.

It had already failed. Yes, it had already failed at that time.

The moment the old man entered the office, he had already failed.

Thinking of this, Bai Fan ran to Sir System's residence. When he arrived, there was no one inside. It seemed that he was doomed. Bai Fan lowered his head and muttered softly.

"I know I was wrong..."

"Moxiu, I know I was wrong...If I had known earlier, this tragedy wouldn't have happened."

"If I had realized my mistake earlier, would I have been able to save the residents of He City?"

Bai Fan walked around aimlessly.

He tripped over a rock and fell to the ground.

This fall woke Bai Fan up!

Bai Fan immediately stood up and ran to stop a person who was robbing money.

"Stop immediately, stop hurting the residents, or I'll make a move!"

The man gave Bai Fan a strange look before turning around to enter another house.

"Bang!"

Bai Fan's hand fell, and that person fell at the same time.

The residents were stunned. What was going on? Why did Bai Fan attack his own people? Were they not in cahoots?

Bai Fan laughed loudly.

“Hahaha, hahaha...”

“MO Xiu, you MO Xiu!”

Bai Fan finally understood why MO Xiu had come to help him even though he knew he would fail.

Because Moxiu wanted him to do his best to change this city. Even if he failed now, Bai Fan still had feelings for this city and every resident.

He couldn't just leave like this. Even if he had to save one more person, Bai Fan would definitely do it.

As long as Bai Fan attacked the firearms army, it would prove that the spiritual leader did not exist.

The war with firearms ended here.

Bai Fan was still laughing. The residents and the people from the firearms army all thought he was crazy and hid far away.

Then, Bai Fan began to stop the firearms army. At first, he even persuaded them to put down their weapons.

Slowly, Bai Fan stopped talking and started attacking the firearms army. Once again, Bai Fan transformed into the God of Death and traveled through the city.

It was the same as last time!

The last time was the beginning of everything, and this time would be the end of everything!

The various factions outside quickly discovered the strange situation in He City.

The first thing they did was to break into the city and rescue the residents of

He City.

Moxiu brought everyone outside the city.

“MO Xiu, the residents of He City...” Yue Yuan asked.

“I know what you want to say.” Moxiu nodded. “You want to say that I harmed the residents here.”

Yue Yuan shook his head and said, “No, Kingstown is the closest to here. Even if we sent out our troops the moment we heard the news, we wouldn’t be able to stop Bai Fan’s army in time. Everything was destined. I just feel that it’s a pity.”

MO Xiu said, “Don’t worry, there will be very few casualties this time. Even if the firearms army doesn’t listen to Bai Fan, they will still have some scruples.

It won’t be too tragic. Let’s go in!”

After taking a few steps, Moxiu asked again, “Have you arranged everything I asked you to do?!”

Yue Yuan and Feng Danian looked at each other and said, “Everything has been arranged properly. My dad has also told us.”

“Very good. Let’s enter the city!” MO Xiu nodded.

A whole night passed. Under the fierce attacks of various forces, all the members of the firearms were killed.

That's right, not a single one was left behind.

At this time, they were still busy taking care of the injured residents and recovering and destroying firearms.

Bai Fan was sitting on the ground floor of the central building.

There was no color in his eyes, as if he had lost the meaning of living.

A person slowly walked over and sat beside Bai Fan.

"In the end, I still can't defeat you, MO Xiu."

MO Xiu smiled and said, "You were wrong from the beginning. Not this beginning, but the very beginning.""

Bai Fan smiled as well. He looked at MO Xiu and said, "I can answer your question now."

MO Xiu didn't say anything and waited for the answer.

"I know that I was wrong, so wrong that it was ridiculous. I don't know how to repay it, and I can't repay such a grave sin."

"There were less than a hundred deaths in He City last night, but many were injured. This is related to your decisiveness. You came out of nowhere and caught the firearms army off guard."

Bai Fan lowered his head deeply. He had let down too many people. The people in the conference room, the innocent residents, and the firearms army that had died last night.

One night.

He used up all his bullets.

He used all his strength.

He let go of all hope.

He accepted all his sins.

Bai Fan was asleep....
