

Four Skills 381

Chapter 381: Want to Admit Defeat? No Way (1)

After the bubble cage's duration ended, Cha Lei exhaled deeply and said, "MO

Xiu, you're amazing. I...'

MO Xiu heavily kicked Cha Lei's abdomen. He controlled his strength just enough to not take his life. However, he would still have to lie in bed for ten days to half a month.

"I told you," Moxiu muttered to himself. "Students who cheat will be punished. Furthermore, you've injured me so badly. Do you want to admit defeat?" No way!"

Moxiu's injuries were very serious. He had originally wanted to use his Holy Sword to block, but the Holy Sword had been shattered. Moxiu had suffered two damages from the explosion and the Holy Sword being damaged.

"The match has ended. Moxiu wins!"

When the results of the match came out, the process was both exciting and boring. The two of them competed in terms of tactics. Charley's tactics were successful, and Moxiu was able to hold on and win easily.

Moxiu had thought of using the bubble tactic from the start, but unfortunately, Cha Lei's lightning armor had a diameter of five meters, and the bubble could contain objects with a diameter of three meters at most. It was unable to wrap around the lightning armor, nor was it able to pass through the lightning armor and directly wrap around Cha Lei.

Otherwise, the competition would have been much easier.

Vacuum Destruction could be said to be Moxiu's trump card. It dealt the most damage among all the skills. Of course, in terms of practicality, the War God and God's Authority were the most useful.

MO Xiu returned to the ranking board. Everyone present applauded, regardless of whether they were outsiders or royalty.

Now that the Imperial Family had acknowledged Moxiu's strength, defeating Zha Lei meant that Moxiu had the strength to enter the top ten.

The top ten of the power rankings were also threatened one day, and the thoughts of the royal family's descendants completely changed.

In the royal family, the strong were always the king. With this strength, Moxiu deserved respect.

Of course, the way they looked at outsiders was different.

On the other side, the big shots who were watching the match between MO Xiu and Cha Lei from afar couldn't help but nod their heads with envious expressions. Elder Tang, you haven't accepted a disciple for so many years, but you've still found such an outstanding successor.

This match allowed even more people to see MO Xiu, and even more people began to value MO Xiu.

This was also what Elder Tang wanted MO Xiu to do. He hadn't caused enough of a ruckus before. It would be fine even if he poked a hole in the imperial family's sky and let everyone see him!

All of Moxiu's preparations were for this step. This step had come a little early, but it didn't affect him.

Looking up at the rankings, Moxiu stood there and laughed foolishly. It wasn't because he had won, but because Wen Tengdao's ranking had risen to 85th place. It seemed like he could still improve.

Under everyone's gaze, MO Xiu said, ""Students, let's continue!"

MO Xiu didn't rest and went straight to the next match. This action once again surprised everyone.

He had clearly suffered such a serious injury just now, yet he was already going to the next match?

She didn't know what Moxiu was thinking. Was he trying to show off or was there really no problem?

Moxiu didn't rest even once until night fell. When the challenge ended, Moxiu was ranked tenth.

On the 1st day of the 7th month, when MO Xiu had just returned to challenge, no one would have expected MO Xiu to achieve such a result.

But now, MO Xiu was standing in tenth place. There was no dispute as he advanced step by step.

It was even harder for MO Xiu to come up with such a method than directly challenging the tenth place. This was because in the continuous battle, the next opponent would be well prepared.

Take Zha Lei for example. If Moxiu had challenged him directly, he wouldn't have come up with such a tactic that would have injured Moxiu.

Along the way, regardless of whether it was the outsiders or the imperial family, they had paid close attention to Moxiu's words and their guesses about his true strength.

After these few days of challenges, he looked back at all of Moxiu's battles.

Other than his match against Cha Lei, no one else could pose a threat to Moxiu.

To put it in an easy to understand way, it was all thunder and no rain. The momentum created by Moxiu was shocking, but the battle process was not exciting.

The fundamental reason was that Moxiu's strength had already reached this stage. He had long since reached the top ten.

After today's match ended, the audience was surprised to find that Moxiu's injuries had actually healed during the battle.

This was simply a freak. He was heavily injured and still continued to fight, and he even recovered in battle. This was a little scary.

This was also noticed by the various upper echelons of the imperial family. This kind of sustained combat ability was unprecedented, and it attracted even more attention than Moxiu's own strength.

These people watched Moxiu's previous battle videos and realized that Moxiu's skills didn't seem to be on cooldown. In other words, they couldn't notice the cooldown intervals of Moxiu's skills. This kind of battle style wasn't very useful in human competitions, but it was different in battles against wild beasts.

After a day of battles, Wen Tengdao had also raised his ranking to 69th place. This was already his limit. From tomorrow onwards, he would not continue to challenge. He would give up the entire stage for MO Xiu to perform. After all, MO Xiu's next opponent would be the top ten on the rankings.

At night, Moxiu seized the time to train in the Skill Training Room. He wanted to 'randomly' level up his skill as soon as possible.

MO Xiu recalled Liu Ruxue's information. There was no weakling in the top ten. An additional skill meant an additional chance of success.

At the same time, two things that were closely related to Moxiu were happening.

The first thing was about Cha Lei. It was a bit embarrassing for him to go back to the Cha family for treatment.

Cha Lei's performance on the field had added some points. He dared to fight, and his strength and resourcefulness were not bad.

However, he did not do it right. The Zha family is one of the four big families and has a lot of power in the royal family. It is easy to find out what Cha Lei did.

Cha Lei's cheating was very embarrassing, but the Cha family's compensation was very generous.

Without waiting for those who had won to come and collect the debt, he directly brought the herbs to these people.

His efficiency was so fast that no one could find any fault with him. That night, he delivered the herbs to the Li family, the 'eldest' family, and Liu Ruxue's coffee shop.

He even gave Moxiu some herbs as compensation. There weren't many herbs, but there was indeed some sincerity in them.

MO Xiu secretly nodded. This Cha clan is really not bad. As the overlord of the imperial family, they didn't use their power to bully others. Instead, they humbly made up for Cha Lei's mistake.

He had the demeanor of a big family. This was somewhat similar to the way the old master of the Ouyang family did things.

Originally, Moxiu's rise to power with the outsiders had truly taught the imperial family a lesson. During the process of Moxiu's challenge, they gradually shed their arrogance and became more humble.

At this time, the Cha family's modest and sensible actions received unanimous praise. Other than a few people in the imperial family, everyone had high praise for the Cha family.

What was worth mentioning was that this move of the Cha family left a good impression on the outsiders. Many outsiders were willing to work for the Cha family..

Chapter 382: I, Old Li, Want to Introduce Someone

MO Xiu knew about the Zha family, but there was one more thing he didn't know.

That night, the manager secretly called all the royal family heads for a meeting. Such a meeting would only be held before a major decision was made.

All the family heads were present!

In a conference room that was so big that it seemed a little empty, an old man in black sat at the front. His age was unknown.

There were seven people sitting below. They were the Elder of Heavenly Secrets, the head of the Zhuge family, Big Cat, and the heads of the four great families.

Below them were the heads of the other families. This was a grand meeting. Those who could enter this meeting room were the heads of the families. The highest combat power of the entire central region was sitting in this meeting room.

Everyone present was very quiet, waiting for the black-robed elder to speak.

The black-robed old man looked left and right. When he saw that everyone had arrived, he slowly spoke.

"The meeting this time is very simple."

"Old You, why did you choose a leader?" Big Cat asked. Could it be that a war has broken out?"

The black-robed old man who was called Elder You replied expressionlessly, "That's right. According to the information sent back by Master Tang, the voices of the beasts are getting louder and louder. I'm afraid they won't be able to control themselves soon."

"If the wild beasts dare to come, we'll fight!" said the Xi Clan's patriarch. If humans could repel wild beasts once, they could repel them a second time!"

Many voices echoed. It could be seen that the Xi family head had a high prestige within the imperial family.

Elder You waved his hand to signal for silence. Then, he continued, "That is why we need a leader to lead our royal team."

"I don't think it's necessary." A voice sounded from below." The manager gave the order, so we just have to listen to it.""

"That's right, but without a spiritual leader, can we really carry out orders efficiently?" The head of the Zha family retorted."

"That's right!" Elder You added. Can we managers lead you? I dare say that everyone here has scolded us old men."

All the family heads fell silent. The manager was not a leader. He only limited the existence of the royal family in peaceful times.

Not to mention leading the royal family, the conflict between the two sides that had accumulated over the years was difficult to resolve.

Elder You continued," The role of the manager in this matter is still to support. It still depends on your own will. After choosing a leader, you can start to prepare for the battle."

The family heads below the stage began to discuss intensely. From time to time, someone would put forward feasible suggestions.

After several rounds of discussion and voting, the final conclusion was that the leader would be a family, not an individual.

It was much simpler to discuss and come up with a plan. The rest was voting. Whichever family had the most votes would be elected as the leader of the royal family.

Tianji, Zhuge, and the 'big' families were relatively neutral and did not participate in the election. All the remaining families could be elected.

The ones with the greatest hope were the Xi, Cha, Bei, and Rong families. These four families had the strongest strength.

The final result was not unexpected. The four great clans were in the top four, and the Xi Clan won the election by a small margin.

The Bei Family Head was good at scheming, and the Xi Family Head was forthright. This might be the reason why the Xi Family was elected in the end.

The voting results were out, but everyone's expression was very strange. They looked at the old man of Tianji together, as if this old man had the right to reject.

After the Elder of Heavenly Secrets nodded slightly, everyone began to congratulate the Xi Clan on being elected as the clan head.

The master of the Xi family was an upright person. At this moment, he said with a serious expression, "Everyone! This was not something worth celebrating. At this time, a war was imminent and could break out at any time. It was best to prepare early and ask the other families to support him."

The head of the Xi clan was forthright and humble. He cupped his hands towards the crowd and turned to the other clans around him.

The other three clans cupped their fists in response, indicating that they would do their best to cooperate.

The royal family had been locked in this space for so many years. While they had become arrogant, they had also retained their hatred for wild beasts and their battle memories. They had not forgotten their mission. Perhaps they had lived to protect the territory of humans since they were born.

No matter who it was, no matter how selfish they were, the sense of mission of the royal family had always been there.

Even for people like Ouyang Zhigu, when wild beasts invaded human territory,

they would rush to the front because they were royalty. This was their saddest and proudest thing.

Therefore, when the Xi Clan was chosen as the leader, the other clans did not raise any objections. Even the Bei Clan's head, who had almost lost, did not say anything. This was because to be able to sit on the position of the head of the clan, one had to have a long-term vision and know what was most important.

The head of the Bei Family knew very well that the Xi Family was more suitable to be the spiritual leader. Once war broke out, the entire alliance would be in chaos. As a member of the royal family, it was impossible for them to sit on the fishing platform. They would split up to fight the enemy. There was no guarantee of who would be the commander in a local war.

Therefore, this position was more to prepare for the battle and take the lead. As the number one warrior family of the imperial family, the Xi family was the most suitable.

"There's another purpose of this meeting," said Elder You. "We've chosen a leader, but we still need a vanguard!"

"Old You, if we're talking about the vanguard, our branch is the most suitable, right?" Big Cat asked."

Old You shook his head and said expressionlessly, "You don't understand what I mean. The war hasn't started yet. We need a strong and young team to go to the border to investigate. They can be used as scouts and vanguards, and they can also train the younger generation."

"Then what do you mean?"

"This team also needs a leader!"

As soon as this sentence was said, the various family heads began to discuss.

Manager Elder You and Elder Tang had a very close relationship. He chose a leader of the younger generation and coincidentally raised this idea when MO Xiu appeared and attracted the attention of the family heads.

Elder You had already expressed his intentions. He recommended MO Xiu. Do you have any objections?

However, this was a secret meaning. As the manager, Elder You definitely wouldn't say it out loud. At this time, someone was needed to recommend MO

Xiu.

As MO Xiu's grandfather, Li Xin stood out at this time.

"Hahaha....."

His signature bright smile filled the entire meeting room, causing the entire place to fall silent.

"I, Old Li, would like to recommend someone!"

Old You nodded. Big Cat asked anxiously, "Oh? Old Li, who is your candidate?"

Li Xin straightened her back and proudly shook her head, saying, "The person I recommended is my grandson, MO Xiu!"

Big Cat said again, "Old Li, if you can say it, you have a reason!"

"I'm sure everyone has seen Moxiu's recent performance, right? "We have enough strength and prestige. Most importantly, we have a great reputation in the outside world. We can use this opportunity to show our faces in the outside world.."

Chapter 383: All Mankind Is on High Alert

Big Cat nodded and said, "Yes, it does make sense!"

After Big Cat finished speaking, he turned to look at Elder You. Elder You nodded slightly.

Moxiu was recommended as a matter of course.

However, the other family heads were well aware that there was Elder You, who had a close relationship with Elder Tang, MO Xiu's grandfather, and a 'big' family who had a close relationship with MO Xiu. Wasn't this a double act?

The three of them did not shy away from putting on such a show for everyone to see. Each family had their own ideas in their hearts.

"This candidate can be used as a backup. Are there any other candidates?"

At this moment, an old man said, "I recommend my grandson Nong Zhang!"

The old man was the head of the farmer family, Nong Qiang. His voice was very soft, but everyone heard it.

Li Xin asked, "Old farmer, don't make trouble. The kid from your farm is very powerful, but he's not made for this."

"Why is your grandson qualified but my grandson isn't?" Nong Qiang asked, unwilling to be outdone. At the very least, my grandson is ranked second on the Power Ranking, right?"

Nong Qiang regretted his words and went to Li Xin.

If you're second, who's first? Wasn't she Li Xin's granddaughter, Li Ling 'er?

Nong Qiang was the only one who dared to argue with Li Xin. Li Xin wanted to argue back but was interrupted by Elder You.

"Alright, Nong Zhang is also a candidate. Are there any other recommendations?"

After, the recommendations continued one after another until there were twenty-five candidates. Once the candidates were out, the voting could begin.

This time, it was not like choosing the leader of the royal family. This time, the vanguard team was more about training. Every family head wanted their juniors to go out and train, so when they chose, they sent more private messages.

Soon, the voting results came out. The first place was Nong Zhang. After Nong Qiang saw the results, he glared at Li Xin proudly, as if saying, 'Did you see that? My grandson has been chosen.

Not only did Moxiu fail to win the voting segment, he didn't even make it into the top five.

Rationally speaking, Moxiu was indeed the most suitable candidate. His influence in the outside world and the recent incidents had proven his strength and ability to lead a team.

The reason why he wasn't chosen was simple. Moxiu was never on the same side as the Imperial Family.

The Royal Family and the Dark Shadow weren't very friendly to begin with, and there had always been a conflict with the managers. Compared to Moxiu, they were more willing to vote for Nong Zhang.

Li Xin was angry. She stood up and shouted, "You guys went against your conscience and voted. MO Xiu is obviously more suitable. Can that martial arts fanatic from Nong Zhang lead the team?"

When Nong Qiang heard that Li Xin was his grandson, he was also unwilling. He stood up and scolded Li Xin.

“Old Li, don’t go too far. What’s wrong with my grandson? Strength is the absolute truth. Also, how do you know my grandson’s ability to lead a team is not good if you haven’t tried it?”

Just as the two of them were arguing, Old You spoke.

“Alright, stop arguing. The results are out. There’s nothing to argue about.”

Nong Qiang became even more pleased when he heard this and said, “Haha,

Elder You has already said it. The results are out. Why are you so stubborn?”

Li Xin suppressed the anger in his heart and sat down. This meeting was really frustrating. Not only did it not help MO Xiu win the position of leader, but it was also defeated by Nong Qiang.

“Alright, the results are out. Let’s end the meeting!”

All the family heads stood up and prepared to leave, but a voice made them all stop.

“Wait!”

Everyone looked over. The one who spoke was the Elder of Heavenly Secrets. The Elder of Heavenly Secrets, who had been silent all this while, spoke at this time. What did he mean?

“Tianji, do you have anything to say?” Old You asked in surprise.”

The Elder of Heavenly Secrets looked deeply at Elder You and said to the clan heads below, “The position of the leader of the vanguard squad is still open to discussion. ”

The moment these words were said, the entire place fell silent. What was wrong with the Elder of Heavenly Secrets?

The Elder of Heavenly Secrets did not even express his opinion on the selection of the leader of the royal family. What was the big deal about training a young team? The Elder of Heavenly Secrets actually objected.

The most exciting part was not the Old Prophet's words, but Nong Qiang and Li Xin's expressions.

When the two of them heard this, their expressions changed. That's right! They had not changed at all.

Li Xin's sullen expression changed to Nong Qiang's face, and Nong Qiang's smug expression changed to Li Xin's face.

"MO Xiu should be the leader of the Vanguard Squad!"

At this moment, Li Xin looked at Nong Qiang disdainfully. Nong Qiang was so angry that he walked out of the meeting room.

"Did you hear that?" asked Old You. Tianji had spoken, and the team leader was changed to MO Xiu. Meeting dismissed!"

No one objected to the Elder of Heavenly Secrets 'words.

There were two reasons for this. One was that the Elder of Heavenly Secrets had never made a wrong decision in all these years. The truth came from practice, and the Elder of Heavenly Secrets was the truth.

The second was the Elder of Heavenly Secrets 'qualifications. No one present had the qualifications and prestige of the Elder of Heavenly Secrets.

The Elder of Heavenly Secrets was once a person who was as famous as Wu Shang during the war. After the war, he gradually kept a low profile, but his status was here.

Even people at the level of Elder You and Elder Tang were a generation younger than the Elder of Heavenly Secrets. Who could oppose his opinion? Who would dare to object?

Therefore, no matter how unwilling Nong Qiang was, when the Elder of Heavenly Secrets said those words, it was already set in stone. There was no room for negotiation, so he left angrily.

After the meeting ended, the various families had more things to do. Under the leadership of the Xi family, they entered the stage of preparing for war.

At the same time, the city lords outside received the news and began to carry out the highest secret mission. The cities began to mobilize their military forces to prepare for the war that could break out at any time.

At this time, the city lords were also in a terrible state. The higher-ups did not clearly say whether they could tell the people about the impending invasion of the wild beasts. This was also the most difficult point. When to disclose the information.

The advantages and disadvantages of making information public were obvious. The advantage was that it could raise the vigilance of every citizen, but the disadvantage was that it could easily cause panic and chaos.

If any problems occurred at this time, it would affect the preparations of the various cities.

If the Human Alliance made a big move, it might affect the judgment of the wild beasts and cause an early invasion.

Just as every City Lord was in a state of panic, Shun City Lord Yue Long contacted Yan City Lord. The two of them worked together to send a message to the other City Lords.

At this critical moment, they had to be united and not release the information to the public. As for the timing, it would be Yan City.

This was a difficult decision for both Yue Long and the City Lord of Yan City.

They needed to take the initiative to take responsibility.

If they made a mistake in their judgment, the two of them might be cursed for thousands of years.

However, at this critical time, someone needed to step forward.

At the same time, the north and south of the Alliance also received the news and went into a state of alert..

Chapter 384: War on the Glory Nation!_I

After the meeting ended, the core members of the imperial family stayed behind for a small meeting.

They were the Elder of Heavenly Secrets, the head of the Zhuge family, the big cat, and the patriarchs of the four great families.

Xi Bei, the head of the Xi family, presided over this meeting mainly to formulate a battle preparation plan and how to deal with the problem of war.

When the meeting was about to end, Xi Bei said, "This war is different from the last one. I still have confidence in defeating the wild beasts, but we have to be prepared to pay a heavy price. According to the intelligence sent by Mr. Tang, the wild beasts still have the highest combat strength, but we humans...are no longer invincible!"

The next morning, a night of cultivation passed. MO Xiu didn't know that so many things had happened that night. He also didn't expect that Elder Tang would say that the beasts were coming so soon.

Just like the past few days, Moxiu tidied himself up and went to the rankings.

The situation at the scene was roughly the same as a few days ago. When MO Xiu arrived, there were many people waiting.

When they arrived at the bottom of the ranking board, the outsiders and a portion of the royal children shouted in unison, ""Teacher MO!"

Moxiu's performance had moved a group of the imperial family. This was something that Moxiu had not expected from the start.

He had never thought that the Imperial Family would support him. After all, Moxiu had always been very arrogant in front of others.

He didn't expect that the descendants of the imperial family were so unconventional. They were even more obsessed with strength. As long as you had strength, you would receive support regardless of whether you were friendly or not.

Moreover, even though Moxiu was very pretentious, his personality was quite likable.

Now that Moxiu had gained fame and support, whether he succeeded or failed in the challenge would not affect him too much.

Moxiu's age was placed there, much younger than the other top ten members.

At this moment when he should be the proudest, Moxiu's performance once again surprised everyone.

MO Xiu changed from his usual flamboyant attitude to a humble one. He said, "Everyone, don't make a fuss. In order not to waste everyone's time, the challenge will begin immediately. Next, I want to challenge the ninth-ranked Rong Bang!"

This time, Moxiu didn't say that he was going to teach a lesson. Instead, he said that he was going to challenge someone. His flamboyant personality had also been restrained. Of course, many people would say that Moxiu was starting to act.

However, this was Moxiu's true personality. His previous arrogance was all for the show's effect. After defeating Cha Lei yesterday, he had attracted a lot of attention.

This was what Liu Ruxue told him. When she sent him the message, she said that in order to repay Moxiu for letting her earn a huge sum of money, she had provided him with the information for free. During the match against Cha Lei, more than half of the imperial family's higher-ups had watched the match.

Liu Ruxue had indeed earned a lot. 480 Heaven-rank herbs. Even if Liu Ruxue owned a cafe, it was almost all of her savings. She had doubled it overnight.

To Liu Ruxue, this was a huge gamble. If she won, it was only natural for her to give the person involved some compensation.

When Moxiu heard this news, the burden on his body was lifted. His goal had been achieved.

In the beginning, MO Xiu didn't want to be so ostentatious when he was defending the arena. It was because Elder Tang gave him a mission that he had a series of posturing behaviors such as attending classes.

Since the mission was completed, the only thing left was Moxiu's original goal, which was to challenge him.

Every person in the top ten had their own unique characteristics. There was also a certain gap between each person. Otherwise, the order of the top ten would not have remained unchanged for so long.

After defeating Cha Lei, Moxiu entered the top ten. This only proved that Moxiu's strength stood at the peak of the younger generation.

It couldn't prove that Moxiu was stronger than the previous few. Every advancement in the top ten was a huge challenge.

The next person was Rong Bang of the Rong family.

As one of the Four Great Clans, the Rong Clan represented assassins, the strongest assassins in the royal family.

Rong Bang walked out magnanimously and walked side by side with MO Xiu to the battlefield.

Compared to all his previous opponents, MO Xiu could feel Rong Bang's obvious goodwill.

"MO Xiu, you know Zeng Liugen, right?" Rong Bang asked."

"Not only do I know him, but I'm also very familiar with him!" Moxiu nodded."

"He is a native outsider of our Rong family."

MO Xiu's eyes widened. He had thought that Zeng Liugen was related to the Rong family, but he didn't expect it to be this. In other words, Zeng Liugen was a member of the Rong family who hadn't awakened the heavenly ability. "Did I know something I shouldn't know?" asked Moxiu."

Rong Bang shook his head." No, I just wanted to tell you that even if Uncle Zeng didn't awaken his innate skill, he still received the best education in the Rong family. The Rong family has never looked down on outsiders.""

"Thank you! "

If that was really the case, then the Rong family would have to face the other royal families under immense pressure because they had broken the rules for the native outsiders.

Under such a cruel rule, there was nothing he could say except thank you.

Rong Bang smiled and said, "I'm telling you this not because I want to hear your thanks. I just want to say that I've thought highly of you from the beginning. I've carefully studied all of your skills and made a discovery. This discovery made me realize a problem. I can't beat you."

MO Xiu didn't ask what Rong Bang had discovered. He felt that he shouldn't ask.

The two of them walked into the arena together. The match was about to begin. As usual, Moxiu used his God's Authority to check on Rong Bang's skills.

"Talent Skill: Conceal (to be used)

[Skill effect: Invisible after activation, and all auras will be hidden.]

[Additional effect: Speed increase. Speed increases by 3,000%. (The sum of active skill levels multiplied by 100)]

[Additional effect: Attacks from behind, causing double damage.]

[Skill 1: Black Blade 8 (to be used)]

[Skill Effect: Summon Black Blade. Speed increased by 5,000%. 50% chance of Critical Hit (Critical Hit is 2,000 of the initial attack power)]

[Additional skill: Black Qi Entanglement, reduces the speed and physical defense of the target by 20%.]
[Duration: 1 hour]

[Cooldown time: 30 minutes]

[Second Skill: Phantom 7 (to be used)]

[Skill effect: Can create up to ten phantoms. The phantoms can move alone and deal one attack. Their attack power is 2,000 percent of the main body's. They will disappear after being attacked.]

[Additional effect: Stacking. Attack power can be stacked.] [Additional Effect: Extreme Speed, Speed increased by 1,000%.]

[Cooldown time: 10 minutes]

[Third skill: Void 7 (to be used)]

[Skill effect: Body becomes illusory, immune to all attacks, and at the same time, your attack power is reduced by 30%.]

[Additional effect: Reflect, reflect 15% damage.]

[Duration: 5 seconds]

[Cooldown time: 30 minutes]

[Fourth Skill: Critical Strike 8 (to be used)]

[Skill effect: After use, attack power increases by 10,000%.]

[Additional effect: Price: All attributes will be reduced by 70% after use.]

[Additional effect: Lethal. There is a 1% chance of ignoring the target's physical defense.]

Cooldown time: 6 hours..”

Chapter 385: How Did You Win?_1

Rong Bang's voice was not soft during their conversation just now. The audience could hear it and were puzzled. Why did Rong Bang cower before the battle?

This wasn't the Rong family's style of doing things, nor was it Rong Bang's personality.

In fact, the Rong family's style had always been to seek truth from facts.

After MO Xiu saw Rong Bang's skill, he knew what Rong Bang was talking about.

From his previous matches, he should have seen an additional effect of God's Authority, lockdown!

This additional effect countered the Rong family's innate skill, which was why it was discovered.

It wasn't strange that Rong Bang could see it. Usually, when people looked at their opponents, they would put themselves in their shoes and imagine what the situation would be like if they fought him.

In the process of thinking, he would think of a way to defeat MO Xiu. At this time, he would use his strongest point to find the opponent's weakness.

After repeated comparisons, Rong Bang discovered that when MO Xiu fought against an assassin, no matter how fast the other party was or how good his concealment was, MO Xiu seemed to have some sort of intuition that allowed him to sense the other party's position.

Assassins would repeatedly watch the opponent's video before a battle to find the opponent's weakness.

However, after watching Moxiu's videos, he realized that Moxiu seemed to be a natural counter to Assassins, especially that bubble skill. Once it locked onto him, the match would be over.

After MO Xiu saw Rong Bang's Skills, he was somewhat surprised. He knew that Rong Bang was very strong, but he did not expect his Skills to be so powerful. Only the void-like Skill was a life-saving Skill, and the remaining Skills could be used to effectively attack.

The skill selection method was the same as Zeng Liugen's. This was probably the experience that the Rong family had accumulated over the years.

A skill that continuously increased speed and attack power, a confusion attack skill, a life-saving skill, and finally a fatal skill.

This was not a set of ultimate attack skills. Many Assassins sought the ultimate, pursuing the limit of their damage. They wished that all their skills could be stacked together to maximize the damage.

The Rong family had left a life-saving skill for him. It was not extreme, but it was the most reasonable.

The two of them walked into the arena and began the countdown. During these ten seconds, the two of them did not speak again. Their brains were spinning rapidly, thinking about the tactics after the game began.

What Rong Bang wanted to do was to use their speed advantage to attack Moxiu as soon as possible after the match began. No matter how high Moxiu's defense was, it was impossible for him to withstand 10,000 percent of his attack power.

MO Xiu had considered it thoroughly. Rong Bang's last skill was too threatening. He had to capture him before he could attack him!

"Let the competition begin!"

The two of them disappeared at the same time!

The audience was stunned. The Rongbang immediately activated their innate skill 'Conceal', while Moxiu added all the statuses and moved at high speed.

No one in the audience could see the two of them. It wasn't because there were no experts present, but because the cameras couldn't capture Moxiu's image.

The two of them were moving. Rong Bang wanted to lock onto Moxiu to increase the difficulty, and Moxiu had the blessing of God's Authority to lock onto Rong Bang's position.

MO Xiu knew where Rong Bang was, so he was more relaxed than Rong Bang.

While moving, Rong Bang also noticed this abnormality. MO Xiu's speed was slightly slower than his.

However, Moxiu's movements were very particular. It was as if he knew his position and was walking around him.

This was the same as what Rong Nation had guessed before the competition.

Since that was the case, he immediately released his second skill, Phantom. Ten phantoms appeared and flashed towards MO Xiu.

In Rong Bang's opinion, the phantom would definitely interfere with Moxiu's judgment of his main body. Even if the interference wasn't great, the phantom would still be aggressive. If the phantom approached Moxiu, he wouldn't not dodge, right?

As long as he controlled the phantom and forced Moxiu in a certain direction, he would be able to attack Moxiu.

MO Xiu's actions once again refreshed Rong Bang's understanding. One Sword Illusion Ten Thousand Swords wrapped MO Xiu in the middle, and from time to time, he would throw out a ball of flame to attack the illusion.

On the other hand, Moxiu maintained his original trajectory. The phantoms would disappear when attacked, so after a few seconds, there were only five phantoms left.

Rong Bang's heart tightened. Why did MO Xiu have such a strange move? The second form of the sword?

Also, how did Moxiu know that the phantom would disappear after being attacked? Could it be that MO Xiu had also studied him?

Although he had some doubts, Rong Bang did not take it to heart. After all, it was very normal to investigate the opponent.

Not long after, all the illusions disappeared, and the two of them fell into a stalemate.

MO Xiu dodged Rong Bang and used his agility to keep his distance from Rong Bang.

Rong Bang also needed to move at high speed. Once he was caught by MO Xiu and used that strange bubble, he would lose.

Motheo tried to use Vacuum Destruction to attack and discovered the weakness of this skill.

Any skill that required a target to be chosen would require a lock on time. If the opponent was moving at high speed, it would be very difficult for Moxiu to lock on to them.

This was the reason why the two of them were in a stalemate. The competition was very simple. Victory and defeat could be decided in an instant. It all depended on who would reveal a flaw first.

Moxiu had never lacked patience. As an assassin, Rong Bang had never lacked patience.

This also caused the two of them to fight for a very long time. In the end, Rong Bang could only hope that MO Xiu's cooldown was up.

This was the situation in the arena. The audience outside the arena was so bored that they were about to fall asleep, except for a few phantoms that appeared at the beginning of the game.

In the remaining time, he could only occasionally see MO Xiu's afterimage. This was a competition for the top ten on the strength rankings. Why did it look so boring? He couldn't even see anyone.

Some people who had watched Rong Bang's competition spoke.

"You're really short-sighted. It's obvious that you haven't watched the Rong family's competition before, right? The Rong family's innate skill was invisibility. Not to mention watching it in the video, even if they were at the scene, they would not be able to see Rong Bang."

"This...Maybe Moxiu has a scouting skill?"

"Stop fooling around. Moxiu has already used all four of his skills and his innate skill. Are you saying that there's a sixth skill?"

"Look!"

A voice interrupted their argument. Everyone who was sleepy woke up and looked at the screen.

At this moment, MO Xiu appeared. He frowned and was on guard against his surroundings.

Before Moxiu could stabilize himself, he quickly extended his right hand, and a bubble appeared in front of him.

Three seconds later, the bubble burst. Moxiu summoned the bubble again in a panic and then disappeared again.

After another three seconds, the third bubble appeared and lasted for ten seconds.

During these ten seconds, Moxiu appeared and stood in place."I didn't attack you, but you should know that you lost!"

After the bubble disappeared, Rong Bang's figure appeared. He cupped his fists and said, ""Amazing, I lost!"

Everyone's expression froze.. Just this? How did MO Xiu win?

Chapter 386: The Strongest Professional Clan 2/2) 1

The competition ended. Other than the two people involved, the audience was confused.

Moxiu won by releasing three bubbles? How did he win?

In reality, the battle between MO Xiu and Rong Bang was not as easy as it seemed on the surface. Both of them were highly focused.

The turning point was when Moxiu suddenly appeared. At that time, more than half an hour had passed since the start of the match, and it had truly become a prolonged battle. Rong Bang's Phantom had not been used even after its cooldown was over. They were just waiting for Moxiu's War God to enter cooldown.

How could MO Xiu not know what Rong Bang was thinking? That time, MO Xiu had deliberately left a flaw behind.

Firstly, he wanted to stop Rong Bang so that he could release the bubble. Secondly, he wanted to create the illusion that the Einherjar's skill had a cooldown.

Moxiu was taking a huge risk by giving up a safe spot just to gain an opportunity.

There were many unforeseen circumstances. The first unforeseen event was that he thought that when Rong Bang saw him stop, there would be a pause in his reaction.

However, as an excellent assassin, Rong Bang didn't have the time to react. The moment his prey revealed his weakness, he pounced without hesitation.

Moxiu didn't get the chance. He focused even more. This time, he didn't succeed. His rhythm was messed up. If he ran again, it would be too late. He could only wait for the moment before Rongbang attacked. At that time, even the most outstanding assassin would have a period of strength.

Fortunately! MO Xiu seized this opportunity and trapped Rong Bang.

At this moment, Moxiu did not let his guard down. The bubble would cause damage after three seconds, but Rong Bang had a life-saving skill,

Void-ification.

This skill was immune to all attacks. After three seconds, the bubble burst and the damage was triggered.

As expected, Rong Bang used his void-ification to receive this attack and reflected a portion of the damage to Moxiu. The damage was not very high, and Moxiu could use Self-Healing and Holy Flame to offset a portion of it. However, due to the characteristics of the Destruction Element, Moxiu was still injured.

The moment the first bubble burst, Moxiu immediately summoned a second bubble to wrap around Rong Bang.

The duration of the void-ification was five seconds. Moxiu would wait for this bubble to burst before releasing another one. Then, he would be able to win.

However, the second change occurred!

The illusory Rong Bang actually came out of the bubble and was not bound by the bubble.

MO Xiu made a prompt decision and immediately started running. Although Rong Bang was not under his control, his speed and attack power were affected by the void-like state, so he could not catch up to MO Xiu.

Moxiu took note of the time and released a bubble to trap Rong Bang for the last time at the instant the void-ification ended, winning the match.

The audience hadn't seen the exciting part of the match, so even though the match was long, the audience still felt that Moxiu had won easily.

When both sides knew each other's skills, the competition was more about tactics and improvisation, not skill strength.

This match was a mental battle, so Moxiu felt extremely tired.

Rong Bang was neither anxious nor angry after losing. Just like he said before the match, he knew that the chances of defeating MO Xiu were not high.

The match was over. Rong Bang was convinced that they had lost. MO Xiu's control of the details in the match was more stable and precise.

He was now certain that Xio knew his skill. No matter how she knew, she knew very well about void-ification.

Because at the end of the match, Rong Bang thought that he still had a chance. After the void-ification ended, he could immediately accelerate and escape from the lock.

However, Motheo's control was too precise. He released the bubble the moment the illusion entered cooldown, killing the last chance. The void-ification skill could save his life, but it also dragged him down.

MO Xiu also felt a lot. Just from the information Liu Ruxue gave him, he couldn't directly see the strength of the four great clans.

After fighting against Cha Lei and Rong Bang, MO Xiu gradually understood.

Their skills were undoubtedly very strong, and their talents were also outstanding. The double of the Xiang family's skills was the best support for their special abilities. The Rong family's stealth was even more compatible with assassins. There was no cooldown time for complete stealth, and it was easy to attack when the enemy was unprepared.

The four great families of the imperial family represented the strongest professions.

The strongest assassin Rong family, the strongest ability Cha family, the strongest mage Bei family, the strongest warrior Xi family, and the strongest support family were hard to say. It could be the Tianji family, the Zhuge family, or the Li family.

After these two matches, Moxiu became even more curious about the Bei and Xi families, especially the strongest warrior Xi family.

And the eighth person on the rankings, the next person to challenge, was Xi Clan's Xi Huazhang.

Moxiu returned to the rankings. There wasn't much movement from the outsiders and the royal descendants. This match was really boring, and he didn't understand it.

Moxiu's gaze was abnormally firm. This was the true purpose of entering the imperial family To train himself. challenge himself. and spriass himself-

Seeing that his opponent was getting stronger and stronger, Moxiu became more and more excited.

"I challenge the eighth place, Xi Hua Zhang!"

A familiar recipe, a familiar taste.

MO Xiu was slightly injured, but he still didn't rest and directly went to challenge.

Perhaps it was because of MO Xiu's heroic spirit that more and more imperial descendants were cheering for him.

This match could be said to be highly anticipated.

Moxiu's moves were numerous and varied, but his core combat style was still that of a warrior. Coincidentally, the Xi family was known as the strongest warrior of the royal family.

Such a battle would definitely be much more exciting than the previous battle. The audience was looking forward to it.

What happened next was a little different from before.

In the past, every time MO Xiu challenged, his opponent would quickly step forward to accept the challenge. After all, experts also wanted to exchange blows with MO Xiu.

However, Xi Huazhang did not appear. Time ticked by, and MO Xiu stood alone at the bottom of the rankings, looking a little lonely.

He had challenged her so many times before, but she hadn't stood him up. Now that she was in the top ten, would there be anyone who wouldn't accept the challenge?

At this moment, the outsiders began to make a ruckus. They felt that the Imperial family was disrespecting MO Xiu. The Imperial family was also very strange and was trying to get in touch with some people who had more contact with Xi Huazhang.

The answers they received were very consistent. Xi Hua Zhang had expressed that he was looking forward to the match with MO Xiu yesterday, but he couldn't be contacted this morning and couldn't be found.

Many people understood the Xi family. As the number one warriors of the imperial family, the Xi family was mostly forthright and would definitely not refuse a challenge because they were afraid of battle.

MO Xiu also understood this point. After the battle with Cha Lei and Rong Bang, he knew that it was impossible for the four great clans not to accept the challenge.

In order to show his sincerity and respect, Moxiu decided to do as he had said before. He didn't skip over Xi Hua Zhang and waited quietly.

Perhaps Xi Huazhang had been delayed by something, so MO Xiu stood under the rankings and waited while the others waited for MO Xiu.

He waited for a whole day. When it was 8 PM, the challenge ended, but Xi Hua Zhang still didn't appear.

MO Xiu felt that it was a pity that they only had one match today and did not have to fight with the Xi family that they were looking forward to the most..

Chapter 387: Did Something Big Happened?_I

After waiting for an entire day, Xi Hua Zhang still did not appear.

Since the time was up, there was no need to wait any longer. Moxiu said, "Everyone, today's challenge ends here. See you tomorrow!"

After keeping his arrogance, he still had his personal charm.

This could be said to be an innate ability. This was because Moxiu had never

been timid when he first faced a big scene. It could also be said that he had trained himself. Over the past year, Moxiu had experienced a lot.

After walking out of the crowd, Moxiu returned to the Outsider Building and headed straight for the Skill Cultivation Room to cultivate.

He even bumped into Yue Yuan in the skill training room. Yue Yuan looked a little tired.

“What is it, Yue Yuan?” asked MO Xiu. What happened recently?”

Thinking about the situation in the past few days, other than Xiao Hong who had come to find him once because of the medicinal liquid, he had not seen anyone else in the past few days.

Yue Yuan’s originally exhausted expression immediately perked up when he saw MO Xiu. He said, “” Nothing happened, but Boss, you’re amazing. You actually made it into the top ten of the strength rankings. Congratulations!””

MO Xiu patted Yue Yuan’s shoulder and said, “”It’s good that you’re fine. Don’t be too tired.”

Yue Yuan didn’t say much. He was very happy that MO Xiu could have his current results. He left after a simple chat.

Although Yue Yuan said that there was nothing wrong, MO Xiu could tell that Yue Yuan was very tired. The current situation should have been caused by cultivation, right?

In reality, Yue Yuan was under a lot of pressure. On one hand, everyone in the team was under pressure. They had to increase their strength as much as possible in order to help MO Xiu.

On the other hand, Yue Long had told Yue Yuan about the imminent invasion of the wild beasts. Yue Yuan did not want to see his father desperately protect Shun City like last time. He wanted to raise his strength as soon as possible to help his father. The double pressure was too great.

If Moxiu was told that the beasts were about to invade, he would be able to accept it quickly. After all, he had already guessed it before, and with Elder Tang’s hint, he was mentally prepared.

However, it was completely different if the news was passed to Yue Yuan. Yue Yuan had never heard of this matter before. He only thought that it was better to be prepared than to worry about wild beasts.

Living in this peaceful era, this generation never thought that wild beasts would invade. After all, they had learned from a young age that humans and wild beasts had signed an agreement.

Suddenly saying that the wild beasts might invade and that the war from a hundred years ago was about to break out again, even Yue Yuan, the young city lord, found it difficult to accept.

One could imagine what the consequences would be if the news reached the ears of ordinary people.

In the skill training room.

Moxiu entered a state of cultivation. During the past two days of cultivation, the icon of the 'random' skill would flicker from time to time. Moxiu had experienced this state before. It was a sign that he was about to level up, which was why he was so anxious to cultivate.

MO Xiu didn't have absolute confidence in defeating the top five.

With a good reference point, Li Chong, who was ranked fourth, Moxiu felt that it would be very difficult for him to defeat him. Then, the strength of the others would not be too weak either.

"Beep!"

His phone rang. It was the voice of the ranking software. Could it be that Xi Hua Zhang had accepted the challenge at this time? Moxiu picked up his phone and saw the words on it.

"Challenge failed!"

The notification was that the challenge had failed, not that the other party had rejected the challenge.

There was only one reason for the failure of the challenge, and that was that the other party was not in the royal family now.

MO Xiu put down his phone. He didn't think too much about it and continued cultivating.

The night quickly passed, and the sky gradually brightened. MO Xiu opened his eyes unwillingly.

He hadn't leveled up yet. He was still a little short.

Shaking his head, he got up to have breakfast and went to the rankings.

Since Xi Hua Zhang wasn't in the Imperial family and no one knew when he would return, there was no need to wait any longer.

MO Xiu raised his head to look at the rankings and said, "Challenge the seventh place, Cha Dan!"

Chashan was Chashan Lei's elder sister. She had a hot temper and was stronger than Chashan Lei. There was a saying in the royal family: "It's better to provoke thunder than to provoke bombs.""

After Moxiu finished speaking, Cha Dan didn't immediately appear. He just waited. Moxiu was thinking about the battle tactics in his mind.

"Beep!"

The notification on his phone rang. Moxiu picked up his phone with a bad feeling.

As expected, the challenge failed.

MO Xiu was confused. What was going on? The Xi clan's people weren't in the Imperial clan, and the Cha clan wasn't either?

MO Xiu no longer hesitated and said, "Challenge the sixth place, Rong Lingke.""

As soon as this sentence was said, the audience in the stadium began to stir. Xi Hua Zhang did not accept the challenge, and this Cha Dan also did not accept

The outsiders had an explanation. They did not dare to accept the challenge.

Although the royal descendants didn't want to admit it, they couldn't say anything. Xi Huazhang and Cha Lei both rejected the challenge.

These two had already become experts. Xi Hua Zhang was a member of Old Xi's family and was definitely not someone who feared battle. Cha Dan's fiery temper was even more famous. Everyone knew about it. How could he do such a shameful thing?

Ranked sixth was Rong Lingke, Rong Bang's elder sister. According to the information Liu Ruxue had provided, Rong Lingke was much stronger than Rong Bang.

When fighting with Rong Lingke, there were many things to pay attention to, such as...

"Beep!"

This voice...

Moxiu didn't want to hear it at all. He picked up his phone and saw the familiar failure of the challenge.

What was going on? He wouldn't go to the outside world to hide from him, right?

Moreover, the managers were very strict with the royal family. It was very difficult for the royal family to go to the outside world. Why did so many people go this time? What were they doing?

Excluding the activities of the royal family that Moxiu did not know about, he could only think of carrying out a mission. However, the royal family had not had much contact with the outside world for so many years. What mission could they carry out?

What happened in the outside world?

Thinking of this, Moxiu quickly contacted Hao Ren and asked him if anything big had happened in the outside world.

“Hao Ren, did anything big happen recently?” After a while, Hao Ren’s message came.

“Yes!”

MO Xiu thought, Indeed! Something happened outside.

“What is it?”

” Under the leadership of Moxie, the The Strongest Group has achieved great success in the first sale of the medicinal liquid. They are now under construction and are preparing to open multiple branches in the central part of the Alliance. They are also about to expand to the northern and southern parts of the Alliance.”

Seeing Hao Rents recovery, Moxiu almost cursed on the spot.

He was worried, and Hao Ren was flattering him. He didn’t have this skill before, and it seemed like he was led astray by Lin Feng.

“Stop flattering me, let’s get down to business!”

“If it’s serious business, nothing major happened. It’s just that something strange happened yesterday!”

“What strange thing? Tell me!”

“My subordinates in the various cities have reported that the defense state of many cities is changing. The number of patrols by the law enforcement team has obviously increased. The city army, which usually doesn’t move much, is conducting drills in the city. It’s very similar to preparing for war!”

Moxiu knew that this was bad. They were preparing for the invasion of the wild beasts, and the City Lords should have already received the notification..

Chapter 388: A Clan in a City

The situation might be worse than Moxiu had imagined. Many things were about to accelerate! “Beep!”

“Challenge failed!”

The next challenge would be the top five, but the situation was critical and he had to speed up the task at hand.

If the news of the beast invasion was really notified to the various City Lords, then it would be implemented to all humans. The situation at the border might not be ideal.

“Let’s challenge the fifth place, Bailey!”

The crowd’s voices grew louder. What was happening?

MO Xiu’s guess was right. After the royal family meeting ended, Xi Bei made many arrangements, including contacting the outside world as soon as possible to discuss plans to fight the enemy. The first was to send hundreds of core members to connect with the various cities.

If it was a small family, each family would be responsible for one city. If it was a large family, they would be responsible for multiple cities or core cities.

No matter what, he had to make sure that there were people from the royal family in every city to directly contact the City Lord.

This was a very big strategy. Xi Bei's deployment was actually the idea of the Bei family's head, Bei Heng, who was good at scheming.

What was the purpose of doing this?

The strategic goal was to break up the whole and send out the first batch of advance troops.

Xi Bei repeatedly instructed that the people who went out this time could not point fingers at the various City Lords. They were mainly there to learn, not to take over.

The imperial family had been kept in a corner for too long and did not understand the situation outside. It was a little slow to understand now, but it was better than not understanding at all.

This was the purpose of the first batch of people who walked out. They wanted to understand the situation in the outside world and learn more from the City Lord.

Every City Lord was not necessarily the strongest person in the city, but they were definitely the ones who understood the city the most. The City Lord would formulate different preparation plans according to the differences in the place.

Once the battle started, all the royal families would be dispatched. The royal families would be sent to support the corresponding cities.

Xi Bei and Bei Heng's plan was very shocking. The name of the plan was 'One

City One Clan!'

The city was in front of the clan. This was the core idea. When humans were in danger, the royal family would all move out. They would not lead the various cities, but become the strength of each city.

He had been insufferably arrogant in the royal family for so many years. He had been in conflict with the managers for so many years because he wanted to go to the outside world and obtain more power.

However, at this critical moment, the upper echelons of the royal family made such a decision. They made the City Lord, who understood the city the most, the first leader. The royal family was the fist of every city.

Xi Bei led the royal family to set an example and make sacrifices. As long as they could defeat the wild beasts, humans needed to be united.

The royal family's leadership had no objections to this plan. After it was passed down, some families were still dissatisfied with this strategy.

The royal family did not appear like a hero, so this kind of support policy was not impressive at all.

Xi Bei cursed at this and said a famous saying that had been passed down through the ages.

"This is the imperial family's mission! Only a hero can save humanity! "

The Elder of Heavenly Secrets then expressed his agreement, and the various families no longer had any objections.

After a day of selection, they immediately set off for the mission after confirming the candidates. Every imperial family member who went out thought of Xi Bei's words. This was the mission of the imperial family!

Of course, there were also many other ideas. For example, why didn't they concentrate their combat strength in a critical moment? They even had to split up their strongest combat power?

Xi Bei only asked one question, and it left these doubters speechless.

“What is the purpose of the invasion? What are we protecting?”

Everyone knew the answer, it was territory!

Wild beasts were indeed warlike, but after gaining intelligence, they also knew the value of life. Starting a war meant death and injury, and blood flowed like rivers.

If it wasn't for their territory, they wouldn't be willing to attack humans.

What humans protected was their territory. At the end of the last war, the premise of the contract signed by humans was to give the wild beasts enough living environment. Otherwise, the wild beasts would not stop fighting.

Last time, they had ceded territory to seek peace. This time, they could not retreat. Territory represented resources. If they gave up resources to wild beasts, humans would be devoured sooner or later.

Humans had to protect their territory. They could not give up even an inch of land to wild beasts.

If they concentrated their forces, they would inevitably lose land. This was the fundamental reason. Once the war started, the cities would support each other and defend the border!

At that time, it would be divided into countless battlefields, which was also the reason why the whole would be divided into parts.

It was difficult for the north and south to follow the policies of the central continent. Although the entire human race was called the Alliance, the three parts did not have much contact.

Their lifestyle and policies were even more different. After the war in the central continent, the management style had always been like this. Every city was managed by the city lord, and the royal family was relatively mysterious and independent.

The people in the north were more valiant. The leaders lived with the ordinary people. Relatively speaking, the leaders had a higher status. They had always been managing the ordinary people. The managers of every place were also leaders.

This way, the north would not be troubled by the central region, and the leader could directly lead the people to fight.

There were both advantages and disadvantages to the policies in the north. The ordinary people had always been under the leadership of their leaders and were not as strong as the people in the central region.

The ordinary people had no leaders, no opportunities for training, and no opportunities for promotion. This caused the ordinary people in the north to not be very motivated, and the combat strength of the middle and lower levels was relatively weak.

When defending against foreign invasions, the most important thing was precisely the combat strength in this aspect. After all, the number of top-notch experts was limited. First, they had to protect their territory. The combat strength of the bottom level was the most important.

Therefore, the leaders of the north were both fighting forces and leaders. At the beginning of the war, they would fall into a certain degree of trouble.

The situation in the south is even worse.

In the south, the nobles were definitely superior to the commoners. The nobles openly enjoyed more than 90% of the resources in the south and did not manage them.

The leaders were chosen by the commoners. This might seem no different from the central continent, but in fact, it was much worse.

The first was that nobles lived with commoners and enjoyed resources openly. The quality of life between them and commoners was very different.

Secondly, the nobles had absolute authority. The commoners could manage themselves, but the nobles could reject them with one vote. In fact, the commoners were still controlled by the nobles.

Thirdly, the laws and rules of the commoners could not restrain the nobles. The nobles in the south were like gods.

This also caused the south to be the most ununited part. The thoughts of the commoners and the nobles could not be unified.

Even the commoners were divided into two factions. One faction was resistant to contact with the nobles. They hated everything about the nobles. It was their existence that caused the commoners to suffer all kinds of injustice.

The other faction was the believers. The nobles were like gods in their eyes, and they regarded the nobles as their faith.

The central, northern, and southern regions had three completely different management systems, creating three different societies.

Which one was the most correct would be revealed once the battle started!

Chapter 389: Battle Bailey! 1

Under the rankings, Moxiu challenged Bailey, who was ranked fifth.

Five minutes passed, but Bailey did not appear.

Moxiu felt that everyone on the ranking board might have gone out on a mission. Just as he was about to take out his phone to take a look, Bailey appeared.

A beautiful figure walked over from afar. She did not appear immediately because she was not in the crowd just now.

Bailey had delicate features and was dressed in traditional clothes, but she looked elegant.

“Moxiu, I accept your challenge. Let’s go!”

Her voice sounded like she was talking to an older sister.

“Please!” MO Xiu said.

Bailey was the most outstanding among the younger generation of the Bei Family. She was outstanding in all aspects. Her strength, strategy, and leadership skills were all top-notch.

However, his performance in the Challenger League had always been violent, and his most well-known skill was his ability to cover the entire arena.

The two of them walked side by side to the battlefield. Bailey smiled and said, “Moxiu, you are very powerful. If I was still young, I might have pursued you. But now, I already have a partner and a child.”

Bailey was 28 years old this year. At this age, she had to get married and have children.

His tone was somewhat similar to Li Ling ‘er’s. Did all the young ladies in the Imperial Family like to joke like this? “Don’t joke around like this. Let’s start the competition!” Moxiu said.”

Bailey covered her mouth and chuckled.”

MO Xiu was helpless. What nonsense was Li Ling ‘er spouting? Besides, how was he shy?

“Your relationship with Sister Ling ‘er is not bad?”

Bailey nodded and said, "That's right. I'm Li Ling 'er's only friend. You should call me sister.'" "

It seemed that Li Ling 'er's reputation was really bad. Only this friend of hers seemed to have the same bad smell as her.

"Then...Sister Bei, shall we begin?" said MO Xiu."

Bailey walked into the venue with a smile and the countdown began.

MO Xiu used God's authority to check Bailey's skills.

"Talent Skill: Amplify (Passive)

[Skill effect: Able to freely enlarge the range of the skill (maximum of 1,000 times)]

[Additional effect: Permanent. Skill damage will not decrease as the range increases.]

[Additional effect: Unmovable body, immune to skill damage.] [Skill 1: Flame Blast 9 (to be used)]

[Skill effect: Summon up to ten Flame Balls from the ground within a kilometer of the user (within five minutes) and explode (6000).] [Additional effect: Continuous burning. Damage dealt for 1 second.]

[Cooldown time: 2 minutes]

[Second Skill: Cold Flame 8 (to be used)]

[Skill effect: A cold flame is shot out, causing 3000 damage to the target. It does not have a burning effect.]

[Additional effect: Chilling air. When the target is hit, the chilling air will enter the target's body, reducing the target's speed by 30%, and increasing elemental and physical defense by 50%.]

[Additional effect: Frostbite. Deals 5 seconds of continuous damage (300) to the target. Ignore Elemental Defense. Cannot be healed within 1 hour.]

[Cooldown time: 30 seconds]

[Skill effect: Light armor on body, increases speed by 5,000%, elemental defense and physical defense by 5,000%, can be switched on and off freely.]

[Additional effect: Light Thorns. When other targets come into contact with the Light Armor, they will receive light attribute damage (500).]

[Duration: 3 hours]

[Cooldown time: 30 minutes]

[Fourth Skill: Hellfire 7 (to be used)]

[Skill Effect: Summons Hell Flames (3000) within a one-meter radius from the ground, burning the area continuously.]

[Additional effect: Devil's Entanglement reduces the target's burn to 100% of the target's elemental defense.]

[Additional effect: Indestructible. Once the Hellfire touches the target, it will attach itself to the target and cannot be extinguished.]

[Duration: 30 seconds]

Cooldown time: 6 hours.”

Among Bailey’s four skills, other than the third skill, Light Armor, which was a defensive skill, the other three skills were all killing moves.

The first skill was Flame Blast, which was the same as Xiao Hong’s skill. It was at Level 9 and was simply terrifying.

The damage dealt was 6000, and it lasted for one second. This second could not be underestimated. Xiao Hong’s Flame Burst was instantaneous, and it only dealt one damage. If it lasted for one second, the damage could be doubled.

The second skill was a damage and control skill. Just the 3000 damage and 30 second cooldown was already very scary. There was also an additional effect like Frostbite.

The third skill was Bailey’s only defensive skill. It simply increased her speed and defense.

The fourth skill was the most terrifying. For some reason, this skill that should be cultivated the most was the lowest level.

Hellfire’s damage wasn’t particularly high. 3000 damage was the same as the second skill.

It was mainly because of the two additional attributes that this skill was essentially upgraded to a higher level.

When the demon was bound, it would lower one’s defense by 100%, which was equivalent to ignoring elemental defense. One could only rely on elemental immunity and the strength of the body to resist.

Indestructible? This effect was too terrifying, and it even had an attached effect. If Moxiu didn’t understand it wrongly, this attached effect was contagious. Even if others touched it, they would be infected.

In addition, it lasted for 30 seconds. It was too useful in battle.

Just by looking at these skills, Bailey actually had a fatal flaw. It would be difficult to lock onto the position of an Assassin or Warrior.

The best part was the passive skill. It allowed the range of the skill to be expanded. There was no need to consider whether it could hit or not because the range was large enough.

“Let the competition begin!”

Bailey first released her second skill, Cold Fire, and then used Light Armor.

Just like the others, the second skill was only to prevent Moxiu from being silenced. The real purpose was to use the Light Armor.

At the same time, Moxiu released the Martial God and used the Holy Sword to test the Light Armor. However, he failed to break through the Light Armor’s defense.

Moxiu then released the Void Destruction Release. If he could succeed, the match would be over.

Bailey’s resourcefulness was displayed at this moment. Bailey enlarged the Light Armor to about five cubic meters.

This was the size of Cha Lei’s lightning armor. In that battle. Moxiu did not use

bubbles on the lightning armor. Bailey guessed that bubbles had a certain limit on the size. This time, she directly enlarged the size to prevent Moxiu from making a move.

When Moxiu saw this, he decisively used his Holy Flames and maxed out all his stats before rushing off.

As expected, none of the top ten of the Power List was stupid. Each one was smarter than the last.

MO Xiu had just taken a step when the entire arena turned into a sea of fire.

With Bailey's passive skill buff, she activated Flame Blast, and Moxiu was instantly enveloped.

Moxiu had expected this. Bailey would use Flame Blast the moment she came up. If he was slow, Moxiu would be able to break through the Light Armor and defeat her in a few seconds.

Motheo's plan was to continue charging forward, ignoring the damage from the Flame Blast.

However, Moxiu had underestimated the impact of the Flame Blast.. The impact made it impossible for Moxiu to control his body to move forward!

Chapter 390: The Footprints of 43

The flames on the ground caused Motheo to be unable to move freely, and his speed was greatly reduced.

The damage of the flames had reached an astonishing 6000 points. Motheo had relied on the Elemental Defense that all his skills had increased to withstand the attacks. He also had to continuously release Holy Flames onto his body to maintain his injuries.

Such a double disruption had a very short effect on Moxiu. Moxiu's strongest ability was his ability to adapt. He quickly adapted to such an environment and sped up towards Bailey.

Bailey had the support of the Light Armor, so her speed was quite impressive. Although she couldn't get rid of Moxiu, she could buy some time.

In addition, Moxiu was somewhat affected and was unable to catch up to Bailey in a short period of time.

However, this also conveyed a piece of good news to Moxiu. Bailey did not use her next skill to attack.

Bailey's skills were all very powerful, but she did not use all of them at this time. This meant that these skills were not compatible and might even affect each other.

The Hellfire was not used. Three seconds had passed and the second skill was no longer silent. Bailey did not use it either.

This was good news for Moxiu. Three skills definitely couldn't stack damage.

However, if he used all of his damage skills at the same time, even if the damage was not increased, it would still cause more trouble for Moxiu.

This way, Moxiu could focus on dealing with each skill.

Ten seconds later, all ten Flame Burst had been released and entered a cooldown state.

Moxiu was able to activate his full speed and launch a fierce attack on Bailey.

Bailey raised her hand, and her second skill, Cold Light Flame, shot out. At first, it should have been a ball of flame, but after it was magnified by a

thousand times, it turned into a wall. Moxiu had nowhere to hide and could only take it head-on.

Damage wasn't a problem, and it wasn't as high as Flame Blast. Debuffs could also be recovered through Holy Flame, but Frostbite was more troublesome. It caused continuous damage and couldn't be recovered.

Moxiu could only use the effect of the War God to block 70% of the elemental damage. However, the remaining damage would have to be taken by Moxiu's body.

This was a real injury that would affect Moxiu's movements.

Bailey's strategy was also clear. She could not use all three skills at the same time, so she would use them one by one. She wanted to use Flame Burst and

Cold Light Flames to exhaust Motheo, and then use Hellfire to end the match.

Moxiu suddenly sped up again and headed straight for Bailey. The moment to decide the outcome had arrived!

Bailey's strategy was very clear, but Moxiu was more determined. Bailey did not use Hellfire at this time because she wanted to observe the situation. If Moxiu did not attack decisively, she could drag it out.

Flame Burst and Cold Light had very short cooldowns. If he could drag it out until the cooldown was over, he could use it for the second round of consumption. By then, his chances of winning would be even higher.

Moxiu had also seen through this. Without any hesitation, he closed in on Bailey at full speed.

Bailey's reaction was extremely fast. With Moxiu's speed, even if Bailey could dodge to a certain extent, two seconds was enough for Moxiu to catch up to her.

The area expanded and covered the entire venue.

The instant the hellfire appeared, Moxiu reacted extremely quickly. The Holy Sword lifted Moxiu into the air and he was not injured.

Moxiu had already thought of this move. Flame Burst and Cold Light Flames could be used in the air, but this Hellfire didn't seem to be able to.

Since Bailey's skills were used one by one, the opportunity would come after the first two skills were used.

He flew into the air and attacked Bailey. At this time, the defense above Bailey's head was the weakest.

The Hellfire was black in color, and it burned shockingly on the ground. It was not particularly tall, and the highest point of the flame could reach 1.5 meters.

It could not cover Bailey, not to mention that Bailey's armor was still enlarged.

The Bei Family's amplification skill could only expand, not shrink.

Just as Moxiu was about to dive down, Bailey did something that no one expected.

Bailey lay down!

Once he lay down, the height of the Hellfire could cover his entire body. If Moxiu wanted to attack Bailey, he would have to suffer damage from the Hellfire first.

Moxiu suddenly stopped halfway. Bailey's ideas were no less than his.

Not only was Moxiu stunned, but the audience below the rankings were also stunned.

Less than half a minute had passed since the start of the match, but Moxiu and Bailey had displayed their cunningness to the fullest.

In such a short period of time, there were many tactics, inducements, and responses. It seemed that the competition was not about skills and strength, but about brains.

In the current situation, MO Xiu was facing a dead end. Should he charge or not?

The audience's thoughts were different from MO Xiu's. The audience did not know the most crucial piece of information.

The Hellfire had a long cooldown and only lasted for 30 seconds. As long as Motheo waited for the Hellfire to enter its cooldown, Bailey would have no trump card left.

Merely relying on Flame Burst and Cold Light Flames wasn't enough to defeat Mo Xiu.

Bailey had been lying down for a while and realized that something was wrong. If this dragged on, the situation might change.

Could it be that Motheo knew the cooldown time of the Hellfire?

This was the question that popped up in Bailey's mind. If she didn't know, it would be too strange. What gave Moxiu the confidence to continue waiting?

After a few more seconds, Bailey could no longer sit still. No matter what Moxiu was thinking now, once the Hellfire entered cooldown, their chances of winning would be greatly reduced.

Bailey began to use Flame Blast to attack Moxiu. The attack range was very large, and Moxiu had no way to dodge.

Moreover, Moxiu was in the air at this moment. The impact of the Flame Blast was very difficult for Moxiu to resolve. If he wasn't careful, he would be hit by the Hellfire.

MO Xiu moved around in the air, losing his balance for a moment, and then straightening his body to maintain a stable flight.

Even though he stumbled, he was still safe. Every time he was about to touch the Hellfire, Motheo would always make a strange movement to dodge.

Bailey laid on the ground and gritted her teeth. The situation was getting worse and worse for her!

As time passed, the Hellfire entered its cooldown state, and the black flames on the ground disappeared.

At the same time, Bailey's {Flame Blast} and {Cold Light Flame} had entered their cooldown period.

Unable to use any of her three major offensive skills, Bailey was in a desperate situation, and the situation was reversed again.

Moxiu didn't hesitate and attacked Bailey directly.

Bailey stood up from the ground and did not dodge, as if she had given up on the competition.

Just as Moxiu arrived near the Radiant Armor and was about to break it with his sword, the armor instantly enlarged!

Moxiu was unable to react in time and was pushed back by the rapidly expanding armor. He was still very fast and quickly reached the edge of the arena.

He had not expected Bailey to have such a move. This move did not deal much damage and was purely a wonderful use of her skill. The beauty of this move was that it caught him off guard.

Fortunately, Moxiu's reaction speed was fast enough. He held his Holy Sword and broke a hole in the Light Armor, then crawled in.

The Holy Sword slashed and the Light Armor collapsed.

Bailey was relieved and smiled." My little brother is amazing. I admit that you're a

Before Bailey could finish her sentence, she had already flown out of the arena, leaving a size 43 footprint on her butt..
