

## Four Skills 391

### Chapter 391: People Sit At Home, But The Reward Comes From The Heavens! 1

The scene of MO Xiu angrily kicking the goddess would be a hot topic among the descendants of the imperial family for a long time to come. "The match has ended. MO Xiu wins."

The results of the competition were announced on the spot.

Bailey crawled up from the ground in a sorry state. She patted her butt and realized that the footprints seemed to have been imprinted on her and could not be removed. Her anger rose again.

"Brat MO, you don't know what it means to have tender feelings for a woman. I was about to admit defeat, so why did you kick me?"

MO Xiu scratched his head and said, "I'm sorry, Sister Bei. The battle just now was so intense that I didn't have the time to stop. I was just afraid that you had some other moves. This is respect for your strength!"

Bailey stomped her foot in anger. "You're boasting shamelessly. You look like a decent kid, but you're actually very evil!!" "I'm very obedient, alright?" Moxiu shrugged.

"Bah!"

Bailey panted heavily. She was so angry that she did not want to speak anymore. She simply turned around and left.

The audience was overjoyed. Bailey was such a smart person, how could she be so naive?

In all of Moxiu's matches, when had he ever given his opponent a chance to admit defeat?

Admitting defeat against Moxiu was probably even more difficult than defeating Moxiu. Bailey should have quickly left the boundary when she realized that she was no match for Moxiu.

This match was very exciting. What could one learn from watching a match between experts? If he couldn't learn the skill, it would be useless to learn the wonderful use of the skill. After all, everyone's skill was different. What he could learn was strategy and thinking.

This match could be considered a textbook. Moxiu's improvisation, Bailey's various tactics, and her sudden ideas.

Coupled with the classic scene at the end, this match would definitely go down in history.

Bailey walked out of the battle room and saw that everyone was laughing. She fired a Flame Blast at the air!

"Bang!"

The loud voice drowned out the laughter in the audience. Seeing Bailey's ugly expression, no one dared to say anything.

"Bailey, didn't you just lose the competition and get your butt kicked? Is there a need to be so angry?"

Bailey turned around and saw that the person who spoke was Li Ling 'er.

"Go to hell! You have no friends from now on!" "Sigh! It's not a big deal. I'll comfort you then!"

"No need! Get lost!"

Bailey and Li Ling 'er left together. At this moment, Moxiu had just come out of the battle room.

When he returned to the bottom of the leaderboard, he enjoyed the cheers that were like a tsunami.

Most of them were outsiders, but there were also some royalty.

Moxiu was currently ranked fifth, and he was considered one of the top existences among the younger generation of humanity. All doubts had disappeared and were replaced by respect.

No matter what society it was, people would respect the strong.

Everyone, let's end today's challenge here. I'll make some adjustments and continue tomorrow." Moxiu said loudly to the crowd."

For the first time, Moxiu needed time to adjust. This meant that every single person in the top five was a great threat to Moxiu. The difference in strength was very small, or it could be said that Moxiu was at a disadvantage. There was nothing much to say. Since he had already reached this rank, anyone would have to be more cautious.

Moxiu left alone and returned to his room in the Outsider Building.

The people below the leaderboard did not stay idle and began to challenge each other.

Since the beginning of the month, Moxiu's solo performance had attracted most of the attention. The others rarely challenged him.

Moxiu had only fought one match today. There was a lot of time left. After watching Moxiu and Bailey's match, the flames in everyone's hearts were ignited. They could not wait to fight.

Some couldn't hold it in any longer, but they didn't want to miss Moxiu's battle. They waited until now. Some watched the match just now and felt very touched. They had learned quite a few things and wanted to test it out in actual combat.

In Moxiu's room.

Today, he was only going to challenge one round, which was not in Moxiu's plan. His next opponent was Li Chong, and Moxiu did not plan to skip it. If he wanted to give it a try, he had to prepare well.

He had just suffered some injuries from the battle with Bailey and was not suitable to continue the competition.

In the match against Bailey, Moxiu was fortunate not to be injured by the Hellfire.

However, the damage of the Flame Blast was high enough. Motheo had been relying on his high Elemental Defense to hold on. In fact, some of his injuries, coupled with the frostbite effect, would take at least an hour to recover.

This was due to his body, which was not suitable for high-intensity battles. There were also external reasons.

MO Xiu cared about what Hao Ren said, and it was easy for him to find out what was going on. He just had to ask Yue Long.

This old comrade was one of Moxiu's strongest forces and was absolutely reliable.

There was also the matter of the strongest corporation. The sale of the medicinal liquid had caused a huge response and became the hottest topic for a while.

After the first sale ended, they did not stop selling. They immediately started the second round of sales and added more stores. The sales volume increased rapidly.

The original pirated manufacturers, such as Grass Essence, were sold under the strongest group after strict quality control.

The medicinal effects of these medicinal liquids were a little weaker, but there was no limit to them, so the sales were also considerable.

The huge volume of the product did not cause the price of the product to increase, and the distance from the one bottle of medicinal liquid per person per day that Moxiu had mentioned was shortened by a lot.

The medicinal liquid sold well, and the response was also very good. MO Xiu's name was once again pushed out.

He had brought such a good product to everyone and once again became synonymous with heroes.

Last time, Moxiu had saved countless innocent people in the central region of the Alliance. This time, he had increased the strength of the people.

The medicinal liquid also quickly spread to the south and north. According to the specific situation, the strongest group made corresponding controls to prevent the medicinal liquid from being unable to reach the hands of the masses.

However, he was overthinking it. In the south, where the gap between the rich and the poor was the greatest, those nobles did not care about these medicinal liquids.

The medicinal liquid had made a huge contribution to mankind. The last time Moxiu admitted defeat in the school competition, the popularity had dropped a lot during that period of time. This time, it had once again reached its peak.

Not only that, but there were also various officials who came forward to tell the story of Moxiu.

Zeng Liugen, Yang Zekun, Wei Lingyun, Yue Long, and so on. These famous people were interviewed and made into a program to broadcast. MO Xiu browsed through it and found that they were all good things. MO Xiu felt embarrassed when he heard some of the words. He had exaggerated too much.

However, the effect was shocking. MO Xiu's real case was right there, and these well-known celebrities exaggerated it.

Coupled with the fact that the students of Yan University were spreading the news, MO Xiu's reputation was sky-high. He did not appear in the outside world, but he had inexplicably received many awards.

What outstanding young man, the most influential person, and so on? The person who received the award on Moxiu's behalf was actually Zheng Yi. This guy finally got his wish and bragged in front of the public.

Everything had developed too quickly. Even with the explosive point of the medicinal liquid, it was still too fast.

MO Xiu knew that there was someone behind this, and it must be Elder Tang!

Chapter 392: To Cao Cao

This was something that happened in the outside world in a day. It happened quickly and exploded with great force.

Almost all the ordinary people were grateful to Moxiu. After seeing Moxiu's various achievements, they liked this capable and responsible young man even more.

Moxiu didn't know what to say when he saw this news. In the past, he had always heard that heroes could be created.

Because heroes were never a single person. As long as there was a symbol, it would be fine. It was easy to create.

Moxiu knew that he had indeed done something big, but it was far from being as ridiculous as what the outside world was bragging about. In fact, many of his deeds were made up.

There were also people who said that Moxiu was a selfless person who thought about the development of all mankind and never considered his own gains and losses.

Wasn't this nonsense?

Who would not have selfish motives? Moxiu was no exception. Everything he had done along the way was mainly for himself.

When Moxiu first got involved in the firearms incident, he didn't think about how many people would die. He only thought about his mother and friends.

In order to prevent them from being harmed, he had intervened in the investigation. Later on, MO Xiu wanted to save more people. He was not as great as the outside world said.

The victory of the competition was also due to Moxiu's hard work in order to increase his strength.

And the medicinal liquid this time was only for the development of the strongest group in the beginning.

"Hey! "

MO Xiu heaved a heavy sigh. Being praised so highly, MO Xiu felt a little less confident.

With the arrival of the great war, what could he do? Could he lead mankind out of this predicament?

Also, wouldn't this half-true heroic deed push him to a high place?

MO Xiu was very worried. There were too many things that needed to be done, but he did not know if there was enough time.

Little Fushun's safety, the impending war and Mu Qingyi's presence in the north, the Imperial family's progress, and the construction of the strongest group.

As Moxiu's foundation, the Strongest Corporation was developing rapidly. However, in Moxiu's mind, what kind of power could the Strongest Corporation unleash when the beasts came?

Would Hao Rent's know-it-all be washed away by the wild beasts?

There was also the medicinal liquid. The medicinal liquid seemed to be very effective now, but it was too late. The effect of the medicinal liquid would not be reflected in the short term.

The future of the beast was uncertain!

At the entrance of Shun City's City Lord's Estate, a young man stood there and looked around curiously.

"What's the matter, young man?" The guard asked. This was the City Lord's

Mansion. If there was nothing important, one should not stay at the door."

The young man courteously took out a token from his pocket. This was a token that was distributed throughout the central region of the Alliance. Only those with positions above the Vice City Lord would have this token.

The young man chuckled and followed the guard inside. After waiting for a while in the office, Yue Long appeared.

"And you are?"

The young man cupped his fists at Yue Long and said, "Is it convenient to talk here?"

Yue Long laughed and said, "Hahaha, don't worry. The security level here is very high. No one will eavesdrop. Just say what you want!"

“My name is Li Chong, I’m from the royal Li family. I’m here to meet with the city lord of Shun City, Yue Long.”

The young man was Li Chong. This time, the city that the Li family was going to contact was Shun City!

Shun City’s strength was very strong. It was a piece of fragrant cake that Li Xin shamelessly snatched over.

As Li Chong spoke, he took out a letter and handed it to Yue Long.

Yue Long immediately received the letter respectfully. In the eyes of outsiders, the imperial family had a higher status, so Yue Long was very polite.

Nodding in response to Li Chong, Yue Long read the letter, read the whole letter, and his eyes were actually filled with tears.

“Grand Chieftain, what are you doing?””

“God bless the Human Alliance!” Yue Long exclaimed. If the imperial family can make such a sacrifice, why should we worry about not being able to win?”

“City Lord Yue, every single one of us will strictly carry out the decision of the upper echelons of the Imperial Family this time and actively cooperate with your work. I came here as an advance party mainly to learn from you and understand the local situation.”

Li Chong’s words were very humble. He did not have the arrogance of the imperial family that he had imagined. His tone was also very low-key. The fact that the royal family could do this before the crisis gave Yue Long and all the residents a great encouragement.

Yue Long held Li Chong’s hand with a trembling hand. He couldn’t help but nod and say, “Good! That’s great!”

After a simple communication, Yue Long began to work while Li Chong watched quietly from the side.

At the same time, similar scenes were happening in other cities. Every city lord was surprised and grateful to the royal family for their actions.

Over at Shun City.

Li Chong's first lesson was to see how the City Lord worked.

Li Chong brewed a pot of tea for Yue Long and brought a cup over.

Yue Long smiled and said, "You are a royal, how can I let you do such a thing? Just be casual."

Li Chong chuckled and said, "You've been busy, so I can't help you.""

"Didn't you come here to understand the situation here? Should I get someone to bring you around the city?"

Hearing this, Li Chong became excited and said excitedly, "Sure, I've been rushing here and didn't take a good look. I can also take a look at where my cousin grew up."

Yue Long curiously asked, "Cousin?"

Li Chong nodded and said, "That's right, my cousin.""

His surname was Li, and he was the cousin of the imperial family. He used to live in Shun City.

"MO Xiu?" Yue Long reacted and asked, "The cousin you're talking about is MO Xiu?"

"That's right. City Lord knows MO Xiu?"

Yue Long laughed out loud and said, "Hahaha, it's not just knowing each other. We fought side by side before. It seems like we're on the same side."

Li Chong also reacted. He had heard about the firearms war. Shun City was one City?

With MO Xiu as the bridge, the relationship between the two of them had become much closer.

Yue Long recounted some of MO Xiu's events during the Battle of Shun City, and Li Chong was greatly satisfied.

Li Chong had also mentioned that MO Xiu was currently slaughtering the Imperial Family's rankings. Yue Long had not had much contact with MO Xiu during this period of time. When he heard that MO Xiu was also able to make a name for himself in the Imperial Family, he felt much more at ease.

The two of them chatted more and more. Yue Long took out his phone and played some videos. They were all videos that promoted MO Xiu recently.

Li Chong pursed his lips and said, "MO Xiu is really arrogant. I didn't expect him to be even more impressive in the outside world. I could tell from the first time he returned to the Li family. It's a pity that I'm out on a mission. Otherwise, I could have taken care of him when he challenged me."

At this moment, Yue Long's phone rang.

Li Chong knew his limits and immediately said, "City Lord Yue, you go ahead with your work. I'll go out for a walk."

Yue Long looked at his phone and smiled. "Wait, this kid is Cao Cao, right?"

"Hmm?"

Li Chong did not understand what he meant.

Yue Long picked up his phone and said, "It's a message from MO Xiu!"

### Chapter 393: Tactics Hidden for a Hundred Years

Imperial Family, in a room.

MO Xiu sent a message to Yue Long to ask about the specific situation. Yue Long didn't reply to the message for a long time. Then, a video call came.

"Hmm?"

Moxiu was taken aback. There were very few cases where video calls were made. Sending messages was much more concise and efficient.

With curiosity in his mind, Moxiu picked up the video call. What greeted his eyes was a large face.

Upon closer inspection, wasn't this Li Chong's muscular club? MO Xiu thought that he had sent the wrong message. He looked at his phone carefully and realized that it was correct.

"You...are with Uncle Yue?" MO Xiu asked.

The second face that appeared on the screen answered Moxiu's doubts. Why were these two people together? Also, why would Yue Long do such a thing with Li Chong to give him a surprise?

However, Moxiu instantly understood. Li Chong was the same as the other people on the rankings. He went out to carry out a mission. Wasn't this inadvertently killing two birds with one stone?

"Moxiu, I didn't expect you to be so awesome in the outside world. No one has more influence than you in the central continent, right?" Li Chong said.

MO Xiu was currently troubled by this matter. At that time, Elder Tang had said that he would help him. He did not expect that it would be this kind of help that would allow MO Xiu's influence to rise all of a sudden.

This was different from Moxiu's thinking. Moxiu was more inclined to develop it step by step. Now that there was some fake news, he felt that it was a little fake.

However, MO Xiu didn't blame Elder Tang. He would be able to stabilize himself step by step, but time might not be enough.

Moxiu shook his head." It's alright. It's not that awesome.""

Li Chong looked at MO Xiu's annoying expression and became angry. He said, "Keep bragging. By the way, where did you challenge?"

"The fifth place was you, but you ran away!"

When Li Chong heard this, he was unhappy and said, "Bullshit! Who ran away? Why would I be afraid of you? Have you forgotten that you were beaten down by me the first time we met?"

"Have you forgotten the first time we met?" Moxiu replied."

Li Chong had just finished bragging to Yue Long. He couldn't lose face at this time, so he immediately retorted.

"You brat, wait for me to return! I'll teach you a lesson! Wait, you're the fifth?"

So the fifth place is Bailey!"

' Yeah," Moxiu said." I just got fifth place today. If you don't come back, I'll challenge third place tomorrow.

When Li Chong heard that MO Xiu was going to challenge the third place, his eyes turned and he said, ""Good luck!"

After chatting for a while, Moxiu began to ask about serious matters.

Yue Long glanced at Li Chong before explaining. After Li Chong nodded in agreement, Yue Long explained to MO Xiu.

It was the decision of the upper echelons of the royal family that Li Chong came here. It was also the order of the royal family to spread the news that the wild beasts were about to invade.

Yue Long explained in detail what had happened in the past few days, why Li Chong had come, and what the imperial family's policies were. He told MO Xiu everything.

After hearing this, Moxiu fell silent. Such a big move, even the imperial family had begun a large-scale operation.

Moxiu also felt that this policy of one city and one clan was very correct. If he was the commander, he might not have a better plan.

After hanging up the phone, Moxiu's mind was in turmoil. What should he do first once the war started?

The next morning, Moxiu arrived punctually at the rankings.

At this moment, Moxiu really wanted to put down the imperial family's challenge and go to the outside world to arrange some things.

However, he had an attitude of finishing what he started. His reputation in the Imperial Family had not reached its peak yet, and he had not fought with the strongest few people.

In the end, Moxiu still decided to complete the challenge first.

The audience held their breaths as they waited for Moxiu's challenge. Ever since Moxiu entered the top ten, every match had been exceptionally exciting.

MO Xiu didn't waste any time and directly skipped over Li Chong.

"Challenging the third place, King Xi!"

MO Xiu's challenge caused a huge uproar. He didn't challenge Li Chong, but directly challenged the third place.

However, the audience did not really want to watch the match between Moxiu and Li Chong. Many people knew Li Chong's skill, Silence!

Fighting with anyone would be a close combat, and there was no meaning to it. However, it was different with Prince Xi. Two outstanding warriors were finally going to face each other!

Moxiu had been staring at his phone. According to Li Chong, the Imperial Family had gone out on a mission this time. A small number of people had gone out to learn.

The Xi family already had Xi Huazhang go out. This Prince Xi wouldn't go out again, right?

It was alright!

Prince Xi slowly walked out from the crowd!

Prince Xi was in the crowd. It seemed that he had prepared for the battle with MO Xiu in advance. The two of them looked at each other and walked to the battle location together.

Humans did not panic in times of crisis, nor did they panic because of personal gain and selfishness.

Especially the strategy of one city and one clan, which vividly reflected the selflessness of the imperial family.

This was great. For the first time, Moxiu felt that the central continent's management system was very good. Every city had a City Lord who directly managed it.

The City Lord was the person who held the highest authority and was also a native. He knew the city the best.

In the process of management, there was no higher-ups to give orders. They could manage according to the specific local conditions, which was relatively autonomous.

On the basis of autonomy, the network in the central region was very developed. The connections between the various cities were very close. What happened in which city, the other cities could also know.

In this way, all the people would have a sense of belonging to their own city and leave a good impression on other cities.

When the war came, every city was an army, and all the armies formed the Central Alliance.

The royal family, which had been hiding behind the scenes and had the highest combat power, had no intention of appearing out of nowhere to take over everything when the war came.

Instead, it would become the strongest weapon of each city and join the other cities.

This was equivalent to giving every army a nuclear weapon, which could maximize the value of the royal family.

Each city was relatively independent, and each city would support each other. Unlike civil strife, this was a war against wild beasts.

The battle between races would unite the cities and bring out their greatest strength.

The Xi Clan's arrangement was admirable. MO Xiu had the same feeling when he faced Prince Xi. What kind of clan was this?

He was selfless, magnanimous, and knew what was the greatest gain and loss. As expected of one of the four great families of the imperial family.

Such a tactic perfectly matched the policies of the outside world. It even gave Moxiu a feeling that this wasn't the tactic that had been decided on for now.

Instead, it was a strategy that had been set up many years ago after the war had just ended and the management method of the next city and city lord had been formulated.

Once the wild beasts invaded again, they would use this method to fight the enemy. This might be a tactic that humans had hidden for more than a hundred years.

In the arena, MO Xiu suddenly said, ""Thank you!"

Chapter 394: The Strongest Warrior, Super Soldier

Emperor Xi obviously knew why Moxiu said this. Moxiu did not represent himself, but his relatives and friends, all the people around him who were threatened by the war, and even...the entire human race.

Moxiu's view of the imperial family was gradually changing. When he first joined the imperial family, he felt that the outsiders were pitiful, and the imperial family was equally pitiful. They were locked up in a place like this to preserve the strongest fighting strength of humans.

Later, when he saw the various forms of oppression that outsiders were subjected to, he felt that the royal family was very arrogant.

After the Ouyang Clan's incident, MO Xiu felt that the imperial clan was slowly decaying and needed to be rectified.

Until a few days ago, when Moxiu had challenged all the way to the top ten, many members of the imperial family had changed their views of him.

Only then did MO Xiu realize that the imperial family was not rotten. It was just that they had been in this environment for too long and their thoughts had been solidified. The strong were respected, and they believed that they were the strongest.

Yesterday, when MO Xiu heard about the decision that the Xi clan had made with the entire royal family, he was deeply moved. The royal family was not born to rule over mankind, but to save the world!

None of the members of the royal family had forgotten their mission. Over the past hundred years, the inheritance of several generations had not made them lose their courage. They had not forgotten why they had become members of the royal family and why they had come to this space.

The current MO Xiu only had respect for the Imperial Family!

Small flaws could not hide the royal family's righteousness.

In the battle arena, MO Xiu and Prince Xi looked at each other, not saying a word.

Because of MO Xiu's recent rise in fame, King Xi had also investigated MO Xiu's information. Recently, news of MO Xiu had spread all over the world, and he was building up momentum.

With Prince Xi's identity, he naturally knew that there was someone behind this matter, but he still managed to find out the true information about MO Xiu.

No matter how exaggerated the publicity was, the foundation of everything was based on what Moxiu had done.

Putting aside the things that Moxiu should have done, there were two things that people were talking about the most. The firearms incident and the sale of medicinal liquids at extremely low prices.

After Prince Xi understood, he was also filled with respect for MO Xiu. Regarding the medicinal liquid incident, MO Xiu had his own selfish motives, but the general direction was for the sake of all the people.

The firearms incident was completely resolved without the royal family taking action.

Just like that, the two people who had never met each other before were attracted to each other. At this moment before the battle, their hearts were filled with admiration.

The two of them silently entered the competition area and began the countdown.

Moxiu used God's Authority.

"Talent Skill: All-rounded (Passive Skill)

[Skill effect: Increases all attributes by 100 times the total of all skill levels (3200%)]

[Additional effect: Immunity: 60% immunity to elemental damage (changes with skill level)]

[Skill 1: Brutal Charge 10 (to be used)]

[Skill effect: Collision in a straight line from a distance of 1,000 meters, causing five times the damage of the main body's current state.]

[Additional effect: Extreme Speed. The speed of impact is three times the original body's current state.]

[Additional effect: Retractable. Able to stop or change direction.]

[Second Skill: Archangel Descent 7 (to be used)]

[Skill Effect: Angel Possession. Increases Attack Power, Defense (Physical and

Elemental), and Speed by 3,000%. Wields Angel Sword. Attacks with Angel

Sword increase Attack Power by 3,000%.]

[Additional effect: Invisible wings. The main body has the ability to fly.]

Additional skills: Angel's Judgement, Release Judgement Ray, Light Ray, Pass, Area, Cause Light Element Damage (3000), Able to Use One Time.

[Duration: 1 hour]

[Cooldown time: 1 hour]

[Third Skill: Heavy Punch 8 (to be used)]

[Skill effect: Increases the damage of the fist by five times and has a huge impact.]

[Additional effect: Disabled. Wounds inflicted by heavy punches cannot be healed within an hour.]

[Additional effect: Penetration. Deals damage to the target. 50% chance to penetrate the target's armor and deal direct damage to the target.]

[Duration: 10 seconds] [Cooldown time: 10 seconds]

[Skill 4: Super Punch 7 (to be used)]

[Skill effect: Fist becomes five times larger. When punched, all defenses and immunity are ignored.]

[Additional effect: Ripple effect. After a punch is thrown, in addition to dealing damage to the target, the surrounding space will tremble, causing 10 seconds of continuous physical damage (the power remains the same, does not have the effect of ignoring defense and immunity). ]

[Additional effect: Target that is hit or affected will enter a weakened state. All attributes will be reduced by 40%. Lasts for 1 minute.]

Cooldown time: 10 minutes.”

The Xi family’s innate skill was simple and clear. It increased all attributes.

It did not need to be activated. It was a passive skill and had growth potential. The level of all active skills multiplied by 100 would increase the increase of all attributes.

Up until now, humans had not verified whether the skill was at the maximum level. Logically speaking, this skill of the Xi family could grow indefinitely.

When the royal family chose an active skill, they would choose a skill that was compatible with their talent skill.

It could be seen from Xi King’s active skills that the level of the active skill affected the innate skill.

Therefore, among the four skills of the Xi King, two of them were common skills.

These two skills were the highest level skills, and Brutal Charge had reached an astonishing level of 10.

There were two advantages to choosing a simple and ordinary skill. One was that the skill would level up quickly, and the skill level would directly increase to the talent skill.

The second was the more ordinary Skills. Although they might be weaker in terms of power and effects, they had their advantages. They had short Cooldowns and could be used repeatedly within a short period of time.

People with ordinary skills and short cooldowns would usually be recruited into the army.

When students awakened their first skill, they had to make a choice. If there was a very amazing skill with great growth potential, they had to choose it. If all three skills were relatively ordinary or there were no outstanding skills, some people would choose basic skills such as Charge, Fireball, Healing, and Backstab.

The reason was that if he didn't develop well in the future, he could still rely on his simple and effective skills, high level, and short cooldown time to enter the army. It was also a good choice.

The most feared thing was that the skill he chose would not grow well, or it would be difficult to level up. It would be difficult for him to have a way out if he stayed at level 1.

Of course, this was based on the situation in the outside world. As one of the four great clans, the Xi clan must have their own set of perfect skill selection standards.

The Xi family's talent skills were very suitable for creating super soldiers. The four skills were very ordinary, but with the talent skills, their combat strength was extremely strong.

According to the Xi King's skills, Moxiu speculated that the Xi Clan's method of choosing skills should be to choose ordinary skills as much as possible for the first few skills to ensure the initial combat strength. Then, for the later skills, they should choose high-intensity skills..

Chapter 395: Battle Between Men (1)

In this case, the Xi Clan would be divided into two factions. One was the strongest army formed by a large number of super soldiers.

The other was a general created by a combination of high-intensity skills and ordinary skills like King Xi. Due to the characteristic of increasing all attributes, in other words, the Xi family itself was an army, possibly the strongest army in the royal family.

The 'big' clan was also very strong, but their numbers should not be comparable to the Xi clan.

MO Xiu and Prince Xi were in the middle of the countdown as they thought about the battle tactics.

With their strength reaching this level, it was impossible for both sides to unleash their full strength in a battle. Moxiu could no longer fight with all his might like he did in the match against Bobosai.

For example, in the previous battles, if Charlie, Rong Bang, and Bailey were to fight at full strength, one of them might lose his life.

Thus, before the battle, both sides had to think carefully about their tactics, they had to stop at a certain point and not use killer moves.

"Let the competition begin!"

The first skill that King Xi used was Heavy Punch. Just like the others, in order to break Moxiu's silence, he used the second skill, Archangel's Descent.

On Moxiu's side, when faced with Emperor Xi's defense, it was impossible for the Holy Sword's automatic attack to break through his defense, so it was not troublesome.

The first skill, Martial God, and the second skill, Holy Sword, Holy Flame, were all released. First, the status was added to prevent accidents. Then, he tried to release the bubble of Void Destruction.

King Xi's reaction was very fast. He used Brutal Charge, and after his speed was fully increased, Moxiu was unable to lock onto the bubble and release it.

At this moment, King Xi rushed over. His speed was so fast that it was difficult for MO Xiu to dodge. He split his Holy Sword into five and held one in his hand. The other four swords protected him in front of him, and he used the momentum to bounce off.

This shot made Moxiu realize the seriousness of the problem. In the short exchange just now, Moxiu did not face King Xi's barbaric charge head-on, but he felt a huge impact.

Furthermore, he had appeared in front of him in an instant just now. The speed, strength, and attack power that Emperor Xi had displayed had exceeded MO Xiu's understanding.

Moxiu did some calculations based on his body's basic attributes. King Xi had added all his skills and was stronger than him, but not by that much.

At the moment of contact, Moxiu suddenly realized that Emperor Xi was ranked third, even higher than Li Chong.

And a battle with Li Chong, that barbarian, could only be a physical fight. The King Xi before him had defeated Li Chong in a physical fight???

It was simply unbelievable. Li Chong had spent all his energy on improving his physical fitness since he was young. He had not cultivated his skills too much.

King Xi was different. The total level of his skills was 32, which meant that he had spent a lot of effort on his skills. Even so, King Xi was still able to defeat Li Chong without any bonuses or skills. What kind of person was this?

Thinking of this, Moxiu focused all his attention and paid attention to King Xi's position. He also moved at high speed.

In this way, the two of them became a chase. Moxiu used his agility to dodge, while King Xi used the speed boost from Brutal Charge and the ability to change direction at will to chase after Moxiu.

Even though MO Xiu's adaptability was strong, King Xi's speed was simply too astonishing. He kept running back and forth in the arena, occasionally bumping into MO Xiu.

Every collision would disrupt Moxiu's rhythm and damage him.

The battle between the two was unusually intense, but the audience could not see it.

This was the same as when MO Xiu and Rong Bang were fighting. The speed of the two was too fast, and the camera could not capture them. All they could see on the phone screen was a blank space.

This is the battle between King Xi and MO Xiu, the battle for the strongest warrior. After waiting for so long, you're giving us nothing?

Many warriors felt that it was a pity. Shouldn't such a competition be a battle between men? It should be like muscles colliding with muscles, like Mars colliding with Earth. How did it end up like this?

In the arena.

Moxiu also wanted to have a brawny fight. However, after the first clash, Moxiu was terrified. He had no choice but to be terrified. He was definitely not a match for him in a head-on clash.

It was not until King Xi finished running a kilometer and Brutal Charge entered cooldown that the chase ended.

King Xi rammed into him with ease. Under King Xi's absolute speed, MO Xiu was covered in injuries and was in a miserable state.

King Xi's speed finally dropped, and Moxiu could finally catch his breath. However, King Xi did not give up on his pursuit. He continued to move at high speed and used his heavy fists to hit Moxiu.

With his speed reduced and his agility increased, King Xi was still able to catch up to Moxiu. Fortunately, Moxiu was able to exchange blows with King Xi while running.

As long as he was careful not to be hit by heavy punches, the consequences would be unimaginable.

Everything wasn't as easy as Moxiu had imagined. As they exchanged blows, Moxiu discovered something.

Not only did King Xi have high basic attributes, but he also knew martial arts. His moves were extremely mysterious, and he hit Moxiu with two consecutive punches.

According to Moxiu's previous fighting style, he would definitely continue to engage in close combat. He would rather be injured than learn the martial arts of the Xi family.

However, after these two punches, Moxiu had suffered considerable injuries. The additional effects of the heavy punches were crippling and penetrating.

Moxiu knew that if they continued fighting, it wouldn't be a matter of injuries anymore. They might even lose their lives, so he immediately pulled away.

Both effects had been triggered. The two wounds on Moxiu's body could not heal. Fortunately, he had the passive skill Self-Healing to heal them, so he did not continue to lose blood.

He had also activated Penetration. The Holy Sword that surrounded him blocked, but it still injured Moxiu. Not only that, but he also felt that he had suffered internal injuries.

Moxiu immediately released his holy flames to heal himself, and only then did he feel slightly better.

However, Moxiu wasn't someone who would suffer a loss. In the process of exchanging blows, the bubble of vacuum destruction finally locked onto King Xi and was released.

This was also the reason why Moxiu was able to pull away.

MO Xiu and Prince Xi both stood still. The audience outside the arena finally saw a different scene.

Everyone had seen the intense exchange between the two of them just now, but none of them could understand it. They could only wait and see the outcome.

The result of the exchange was that Moxiu had suffered rather heavy injuries. From the video, it could be seen that Prince Xi had the upper hand, but now, he was surrounded by Moxiu's trump card, the bubble.

Everyone focused their attention on Moxiu, wanting to see if his bubbles would affect the outcome of the battle.

In the arena, King Xi looked at the bubble beside him and smiled. There was no way to speak in the vacuum, so he waited quietly for three seconds.

The bubble burst, and the Destruction Element dealt damage to King Xi.

Xi Wang spat out a mouthful of blood, and his skin showed signs of cracking, looking very horrifying.

Moxiu did not stop because King Xi could hold on. The Destruction Element could ignore all defenses, but King Xi's body was strong enough.

With the enhancement of all attributes, his physical strength would increase again, and he would not cause fatal or irreversible damage.

The two of them looked at each other and laughed together.

Even if they didn't risk their lives in this battle, it was destined to be extremely tragic..

Chapter 396: Irrelevant Victory (1)

The audience was stunned. Why was he still laughing? Feelings?

The laughter of the two people in the arena came to an abrupt end. Emperor Xi used Brutal Charge again.

Next was a repeat of the previous battle. Under the Barbaric Charge state, Emperor Xi's speed was extremely fast as he chased after Moxiu.

Moxiu dodged in all directions and was injured. The Brutal Charge ended, and Emperor Xi chased after Moxiu with a heavy punch, playing out the same scene as before.

Prince Xi was hit by the air bubble, and MO Xiu was injured and retreated. After that, it repeated three more times, and both of them were seriously injured.

MO Xiu's entire body was covered in fist marks, and he looked extremely miserable.

Xi Wang's skin broke and blood oozed out. He was a bloody man.

A long time had passed, and the two of them were still repeating this cycle. If it weren't for the fact that they could see the aggravation of their injuries from the video, the audience might have thought that there was a problem with the software. The video kept replaying.

The two people on the field had different thoughts, but they didn't make any changes and maintained their fighting style.

On the surface, they were evenly matched, but in reality, King Xi had the advantage. After all, he still had a skill that he had yet to release.

The two of them were competing in endurance. King Xi felt that MO Yucheng would fall under such a consumption. This was also King Xi's advantage. He had two skills with very short cooldowns.

On the other hand, Motheo was fearless. In any case, he had the passive skill, Self-Healing. He would get injured and leave many wounds on his body, but he would not cause any substantial damage.

On the contrary, as time passed, more and more wounds appeared on King Xi's body, and he was unable to heal.

In the end, after a brutal collision, King Xi released four skills in an attempt to change the situation.

Moxiu had always been at a disadvantage in the battle. He could not even learn the martial arts of the Xi family. However, Moxiu maintained a high level of concentration and realized that King Xi's moves were a little unnatural. He guessed that King Xi might have to use four skills.

"Bang!"

There was an explosion.

It wasn't King Xi's four skills, but MO Xiu's Holy Flames!

Moxiu had not used Holy Flames all this while because he understood that all attributes would increase. It would not cause much damage to King Xi even if he used it. The moment he used it, it would affect his movements. The gains would not make up for the losses.

This time, Moxiu seized the moment when King Xi used his fourth skill, Super Punch, and threw it at King Xi's face. It was to block King Xi's vision so that he could avoid this fatal blow.

All the audience members in the stadium became excited with the explosion. Judging from the state of the two people, it was finally time to break the deadlock and determine the winner.

Prince Xi had not expected that after such a long battle between gentlemen, MO Yucheng would suddenly use a dirty trick.

The explosion of Holy Flame was just right. King Xi had already used his fourth skill and could not be retracted. At this time, his vision was blocked, causing King Xi to be stunned. It was precisely this time that King Xi fell into a passive position.

If there is no this pause, then MO Xiu will be in front of the body of the king of learning, quickly hit this one punch, MO Xiu will not be too low, it is possible to dodge.

In such an intense battle, if he paused, Moxiu might change his direction.

King Xi could no longer hesitate, or MO Xiu would run far away. He turned around and threw a punch behind him. The huge fist brought with it the sound of wind breaking, and its power caused the ground to crack.

After the punch ended, Prince Xi regained his sight. MO Xiu was not behind him, but he stood still on the spot.

The situation just now was critical, and victory was decided in an instant. King

Xi reacted very quickly. MO Xiu could not run far, so he could only move closer.

Emperor Xi could think of the most likely direction that MO Xiu would go. It was behind him, where he could most effectively dodge. Furthermore, he could also launch a sneak attack after the punch.

This was the terrifying part of MO Xiu. He had guessed what Prince Xi was thinking and stayed where he was without moving, dodging this attack.

Prince Xi was gambling, MO Xiu was also gambling, and this time, MO Xiu won.

King Xi turned around and used his fourth skill. Moxiu's position changed from the front to the back of King Xi.

At this moment, MO Xiu did not give up on this opportunity. He stabbed his sword towards Prince Xi.

MO Xiu had won the bet, but there was something he hadn't expected.

Moxiu had taken a direct punch from King Xi, and all his attributes had been weakened by 40%.

This sword stabbed King Xi, but the damage was limited. MO Xiu did not have the time to release his holy flames.

Emperor Xi waved his fist and turned around, sending Moxiu flying from behind. The first thing that came to Moxiu's mind was not to heal himself, but to release a Void Destruction to envelop Emperor Xi.

Moxiu was sent flying far away before he crashed heavily onto the ground. This punch had been received by Moxiu while he was in a weakened state. He had received a huge amount of damage and almost fainted.

He used the last of his consciousness to release holy flames on himself to regain his consciousness.

Even so, MO Xiu didn't stand up for a long time after he landed on the ground. He had suffered too many injuries in this exchange.

On the other side, King Xi was also in a miserable state. He had been stabbed by Moxiu and was also injured by the Destruction Element. At this moment, he was half-kneeling on the ground and did not get up.

MO Xiu lay on the ground and smiled at King Xi. He extended his hand and released another bubble to envelop King Xi.

This time, it was just a cage. Ten seconds later, the bubble burst. MO Xiu said, "I won!"

Prince Xi also smiled and said, "Yes, you won."

Both of them were heavily injured, and it was impossible for them to engage in a high-intensity battle. Moxiu lay on the ground and did not get up. Even if Emperor Xi could move, his speed was very limited, and he could not avoid Moxiu's bubbles.

Just now, MO Xiu used the bubble cage to tell King Xi that he could continue to use the bubble to attack.

The winner had been decided, and the results of the competition were announced live.

"The match has ended. MO Xiu wins!"

MO Xiu stood up with difficulty and supported Prince Xi out of the room. "You can actually unleash a stronger combat power, right?" asked MO Xiu.

King Xi was covered in blood. He grinned and revealed his teeth. It was truly terrifying.

"Aren't you the same? There were simpler and more effective ways of fighting, right? However, the damage is too great. There's no need for us to be like this. There's no need for us to fight to the death for the sake of victory. I tested it just now. Your ability to fight for a long time shouldn't be inferior to mine. Your recovery ability is far above mine. When killing wild beasts, you're more useful than me. I admit my defeat wholeheartedly."

MO Xiu had never thought that Emperor Xi would care about these things the most during a battle. He was considering his own endurance and recovery ability.

MO Xiu did not say anything else. He smiled and shook his head. What kind of clan was the Xi Clan? To be able to educate a person like Prince Xi?

Everything was for the sake of fighting the beasts. His understanding of this battle wasn't about who could beat who, but who had the advantage when fighting the beasts.

MO Xiu felt that even he couldn't have such a mindset and breadth of mind.

Even though they knew that the beasts were a great threat, who wouldn't want to win the battle?

Prince Xi was stubborn and had a different view of things.. At this time, wasn't humanity lacking such people?

Chapter 397: Just in Time (1)

The two of them walked back to the Board of Punishments and clapped.

MO Xiu and Prince Xi looked at each other and smiled. "Everyone, let's call it a day. We'll continue tomorrow. As you can see, I might need to rest for a while."

MO Xiu and Prince Xi's current situation was about the same. MO Xiu's entire body was covered in injuries, and one could tell at a glance that he was extremely weak. Prince Xi's entire body was covered in blood, and his appearance could no longer be seen.

The two of them supported each other and left. After walking for a while, they parted ways because their destination was different.

MO Xiu looked at Prince Xi's back as he left. There were such selfless people in this world, but he didn't know what their fate would be like.

After returning to his room, the first thing Moxiu had to do was to recover from his injuries. He closed his eyes and entered a meditative state. This kind of half-asleep and half-awake state was the most suitable for healing.

It was only at night that Moxiu slowly opened his eyes. He took a shower and changed into a set of clothes.

When he picked up his phone, he saw dozens of messages from everyone. Most of them were from his acquaintances in the royal family.

After looking at them one by one, he finally understood what had happened in the afternoon.

Moxiu was happy from the bottom of his heart. He laughed alone in the room.

“Hahaha, I didn’t expect it to be so fast. This might be the best news I’ve seen recently.”

All the information was about one thing. Xiao Hong’s team had come out of seclusion. In the afternoon, through cooperation, everyone had entered the top 100 of the strength rankings.

Xiao Hong was ranked 62nd, Xiao Xinru 78th, Liu Ziyang 82nd, Yue Yuan 84th, and Yang Qingzhuo 88th.

Their rankings weren’t high, at least they had all made it into the top 100. Xiao Hong still had the momentum to rise.

This matter had caused a considerable impact on both the outsiders and the royal family’s descendants.

On the outsiders’ side, other than Xiao Hong’s team, there were three others who also made it into the top 100. The passion of the outsiders was completely ignited, and they launched an all-out attack on the royal family.

This was all thanks to Moxiu’s leadership. Now that Moxiu was ranked third, there was nothing to prove.

MO Xiu massacred and expanded his territory, and Wen Teng Dao gave all the outsiders a shot in the arm.

Xiao Hong’s team entering the top 100 was inevitable and also a pleasant surprise.

Even more people entered the top 100, challenging the imperial family's rule in the top 100. This was an inevitable outcome. Otherwise, Moxiu's current position in third place would be meaningless to outsiders.

What surprised Moxiu was that the Imperial Family's reaction was a little strange.

When they challenged outsiders, there was no resistance, no disgust, and no worry. Most of them were excited and agitated.

Because the top 100 people had been too comfortable before and had never suffered such a strong impact. They thought that this would help their strength improve.

Just like how MO Xiu's slaughter of the rankings would bring about a wave of challenges and a cultivation craze.

MO Xiu shook his head. It seemed that he didn't know enough about the royal

family. This was a hateful and cute person. MO Xiu didn't know whether to laugh or cry.

Like the paranoia of Prince Xi, like the thoughts and behavior of the vast majority of the Imperial Family.

MO Xiu originally thought that when the outsiders rushed to the rankings on a large scale, it would cause the Imperial Family to resist strongly, which would lead to the deterioration of the relationship between the outsiders and the Imperial Family.

However, it seemed that things were developing much better than he had imagined. Not only did the royal family not hate outsiders, but they also quickly accepted outsiders.

Not only did the relationship between the two not worsen, but it had even eased up a lot. Perhaps it would develop even better in the future.

Moxiu's miscalculation was due to his lack of understanding of the imperial family. It was easy to understand the psychology of outsiders because Moxiu himself was an outsider. He grew up as an ordinary citizen of the outside world, so he could empathize with them.

He had thought that the thinking of the royal family and ordinary people would not be too different, but Moxiu had thought too simply.

The royal family had been living in this enclosed environment for a long time. Although they could understand the outside world through the Internet, the impact on them was limited.

As time passed, the culture of the royal family and the outsiders began to differ.

Outsiders revered the strong, but they also had complicated emotions, which was jealousy.

Hatred towards the rich was a very common situation in the outside world.

This was the helplessness of the people at the bottom and could not be avoided.

However, there was no such situation in the royal family. There was no gap between the rich and the poor in the royal family. Every member of the royal family received sufficient resources.

When the two sparred, if they could not win, it meant that they were not strong enough. Therefore, they worshipped the strong and did not worship or chase after them with jealousy.

Later on, outsiders entered the royal family. There was a huge gap between the rich and the poor between the outsiders and the royal family.

Outsiders thought that the royal family was lucky and could enjoy more resources from birth.

However, the imperial family had a different opinion. In their opinion, they could enjoy more resources than outsiders because of their strength. The strength of outsiders was not enough to fight against them.

Therefore, they felt that it was only natural for them to have more resources and a higher status.

In addition, for a long time, none of the outsiders had entered the top 100 of the strength rankings, which made the royal children even more convinced that the outsiders were not strong enough.

As time passed, he developed a seemingly arrogant personality.

Until Moxiu's appearance broke their understanding time and time again.

Their thoughts were gradually changing, and their views on outsiders were also changing.

Actually, Moxiu had already noticed this. When he had entered the top twenty, there were already quite a few members of the imperial family supporting him. Their thoughts were relatively simpler.

After Moxiu saw the reactions of the various realms, he sent a message to everyone in Xiao Hong's team.

To Xiao Hong," Well done. You are a qualified captain. Don't tire yourself out."

To Yang Qingzhuo," Good luck, I'll give you more meat to eat! Don't tire yourself out."

To Xiao Xinru, how's your skill training? Don't tire yourself out."

To Yue Yuan," Brother, after seeinz what vou've done, don't forget to rest."

To Liu Ziyang," Don't get carried away. Be steady and don't tire yourself out."

Moxiu's messages to everyone were contradictory. While encouraging them, he didn't want them to be too tired.

This was nonsense. In the world of the strong, what was exhaustion?

However, even if it was just a sentence of nonsense, Moxiu still wanted to say it. He wanted them to feel his presence and feel better.

This was the guild that Moxiu had chosen. They hadn't fully matured yet, but they were already in their infancy.

Moxiu didn't know if choosing them was a good thing or a bad thing for them. Unknowingly, he had also put them under immense pressure.

"It's not necessarily a bad thing to be stressed. I'm just thinking too much."

Moxiu muttered to himself as he walked out of the room and went to the skill training room.

His teammates had been working hard, and he could not stop for a moment to continue cultivating.

MO Xiu sat in the Skill Training Room for an entire night. When dawn arrived, MO Xiu did not stop. It was as if he had entered a state of obsession.

The sun was high in the sky!

MO Xiu slowly opened his eyes and revealed a smile.

"Just in time!"

Chapter 398: Brothers, Please Get Your Votes!)\_I

MO Xiu stretched his waist and slowly stood up. After sitting for such a long time, it was time to exercise.

After packing up, he went to the central region's ranking board.

When MO Xiu arrived, it was already afternoon. There were still a lot of spectators, but the main character had been changed from MO Xiu to other outsiders who were rushing for the rankings.

After arriving here, Moxiu didn't rush in. Instead, he watched from the periphery for a while.

Everyone, whether they were outsiders or royalty, were in high spirits. They continuously challenged each other to battle, regardless of whether they won or not. In fact, the outsiders no longer cared about the points. They only wanted to fight and train their combat ability.

MO Xiu watched with great interest, occasionally shouting a few times to cheer for the people fighting.

They would also shake their heads and sigh when they saw the pity of losing some matches.

After being the main character for so many days, he finally had the chance to experience the audience's feelings. Needless to say, it was quite satisfying!

Happiness was always short-lived.

In the end, MO Xiu's career as a spectator ended with him not being able to control his emotions and shouting 'Go' too loudly.

This cheer immediately silenced the surrounding people and they looked at Moxiu.

After watching the competition for so many days, who couldn't recognize MO Xiu's voice?

MO Xiu thought to himself. This was the end. He couldn't watch the show anymore.

“F \* ck, MO Xiu! We all thought that you wouldn’t come today!”

A person who had discovered Moxiu shouted, attracting the attention of even more people.

Seeing that he could no longer watch the match quietly, MO Xiu covered his mouth with his right hand and coughed lightly.

“Cough cough! There are some matters today, so it’s a little late. However, a good meal is not afraid of being late. Today, I challenge the second place, Nong Zhang!”

Moxiu’s words ignited the audience’s emotions. Moxiu did not come this morning, so everyone made some guesses.

It was said that MO Xiu’s injuries yesterday were very serious and he might need to recuperate for a few days before challenging.

There were also people who said that Moxiu would not continue to challenge. At this ranking, there was nothing else to prove. The slaughter of the rankings would end here.

It was also said that Moxiu sending out his own guild was a signal that Moxiu’s mission was completed. The rest was up to everyone.

There were many other speculations, but no matter what they were, everyone unanimously agreed that Moxiu would not come to challenge him today, or rather, he would not appear in the next few days.

However, he didn’t expect that at this moment, when the challenge was about to close, MO Xiu would come and immediately start the challenge.

As expected of MO Xiu. This was his style of doing things.

“MO Xiu, I love you. I can be your concubine!”

“And me! I’m willing too!”

“Count me in!”

At the scene, most of the men were envious, and the people who spoke were the royal family, and the royal family had concubines.

There were many women who said such things. Who wouldn’t be envious?

In other words, if MO Xiu agreed now, he could open a harem on the spot! F \* ck, comparing people was infuriating.

A man looked at this group of infatuated royal women and said what most men were thinking.

“Would MO Xiu take a fancy to you? Are you cheap?”

Even MO Xiu had never seen such a scene before. It was inevitable that he would feel a little awkward. Just as he was thinking of a way, a voice saved MO Xiu.

“MO Xiu, I accept your challenge.”

It was Nong Zhang!

Nong Zhang wasn’t at the scene just now, but he immediately rushed over after receiving the challenge.

Nong Zhang’s clothes were a little sloppy, and his hair was a little messy, as if he hadn’t washed it for a long time. How did he look like a royal now? He looked more like a beggar.

However, the strange thing was that Nong Zhang's eyes were especially bright and full of energy. There was a light that even his sloppy appearance could not hide. He did not seem to be a fallen person.

The expression on his face when he spoke...was a little excited.

That's right, excitement!

MO Xiu saw that Nong Zhang's expression was a little off and asked, ""Are you happy that I challenged you?"

Nong Zhang replied, "Of course I'm happy. I can't even remember how long it has been since someone challenged me. If I don't fight, I'm worthless.""

MO Xiu frowned. This man was very strange. He looked even stranger than Prince Xi.

The rankings went from top to bottom.

Li Ling 'er, Nong Zhang, Xi Wang, Li Chong, Bailey, Rong Bang, and Cha Lei.

None of them could be considered normal. If one had to choose a more normal

person, it would be Rong Bang.

Could it be that experts had to have some quirks?

Since they were here, the two of them would enter the battle arena.

Moxiu and Nong Zhang weren't the type to drag things out. As soon as they entered the arena, Moxiu used his God's Authority.

MO Xiu was very curious. According to Liu Ruxue's description, the farmer family and the Li family were equally famous. They both had extremely powerful innate skills, but their numbers were small.

There was very little information on the information. Just like Nong Zhang himself said, it had been a long time since anyone had challenged him, so there was very little combat information left behind.

Ruyan Liu only knew that the farmer had more than five skills, which made MO Xiu very curious.

"Innate Skill: Dip (to be used)

[Skill effect: Read the target's active skill and choose two to copy. Can be used once.]

[Additional effect: Strengthened, the effects of skills received will be increased by 20%!]

[Skill Duration: 1 hour (Skills that are not used for 1 hour will be cleared)]

[Cooldown time: 1 hour (can be shortened according to the comprehension of the skill)]

[Skill 1: Flying Dragon in the Sky 8 (to be used)]

[Skill Effect: Summon five Wyverns, all attributes increase by 1,500%]

[Additional Effect: Dragon's Dignity. Cannot be controlled. Moves independently.]

[Duration: 1 hour]

[Cooldown time: Half an hour.]

[Second Skill: Bloodthirst +8 (to be used)]

[Skill effect: Increases 1,000% attack power, defense (physical and elemental), and speed.]

[Additional effect: Bloodthirst. The increase will increase according to the degree of injury of the main body (unlimited).]

[Duration: 1 hour]

[Cooldown time: Half an hour.]

[Third Skill: Meteor Ice Thorn 8 (to be used)]

[Skill Effect: Summons a meteor shower formed by ice thorns (1000 thorns per second, covering a range of 500 meters). Each ice thorn deals physical damage and elemental damage (300).]

[Additional effect: Deceleration. The target's speed will be reduced by 30%(the target will not be affected)]

[Additional Skill: Combination of Ice Thorns. Multiple Ice Thorns can be combined together (up to 20). Damage stacks on the target. Can be used twice.]

[Duration: 20 seconds.]

[Cooldown time: 30 minutes]

[Fourth Skill: Phantom Flash 8 (to be used)]

[Skill effect: Flash to any location within a 100-meter radius, leaving behind an illusion.]

[Additional effect: Phantom Attack. Phantom can attack once.] [Additional Effect: Critical Hit. The first attack after Flash is a critical hit

(2000% of the base attack). ]

[Cooldown time: 1 minute.]

Moxiu was shocked. Not to mention the most terrifying innate skill, the four active skills were enough to surprise Moxiu.

The four skills were abilities, warrior, mage, and assassin skills.

This person called Nong Zhang in front of him was the same as him, someone who was not restricted by the theory of physical limitations..

Chapter 399: Stealing from You, And Stronger Than You! 1

Of course, the most terrifying thing was still the innate skill of the Nong Zhang.

MO Xiu finally understood why the farmer family was as famous as the Li family. Their innate skills were all cheat-like existences.

There was a key problem. The farm badge could read other people's skills.

While snatching, it could selectively snatch and also look at the skills once.

This was very important to Moxiu. The secret might be exposed. Fortunately, according to the introduction of the Farming Stamp's innate skill, only active skills could be seen and copied. Innate skills and passive skills could not be copied.

With the flip feature, Nong Zhang should only be able to see three of his skills.

Moreover, it was the three skills that MO Yu wanted Nong Zhang to see. If it was a life-and-death battle, the skills that MO Yu wanted Nong Zhang to see were the first skill, God's Authority, the second skill, Holy Sword, and the third skill, Vacuum Bubble.

Without the War God and the Sacred Flame, Nong Zhang's combat power and endurance would not be too strong. Although the Destruction Bubble was powerful, MO Xiu would not die after taking three hits.

However, considering the confidentiality and various reasons, the skills that Moxiu showed Nong Zhang were fixed.

The first skill was Martial God, the second skill was Holy Sword or Holy Flame, and the third skill was Vacuum Bubble.

After copying the Nong Chapter to the Martial God, MO Yucheng was forced into a passive position.

Nong Zhang had the War God, and with his other four skills, he might have more playstyles than Moxiu.

Not only that, the truly terrifying part of the Farming Stamp's innate skill was that it could increase the skill taken from others by another 20%.

What kind of concept was this?

The skill I stole from you is even stronger than your own.

This was no longer a thief, but a hooligan!

Everyone had a skill, and not every one of the four skills could be a core skill. Of course, the 'big' one was an exception.

Under normal circumstances, one would choose one or two core skills, and the remaining skills would be used as support to make up for the shortcomings or strengthen the power of the core skills.

For example, Motheo's current core skills were Martial God and Void Destruction, two killer moves.

The remaining God's Authority, Holy Flames, Holy Sword, and Soul Clone were mostly chosen by Moxiu himself.

On the other hand, Nong Zhang could steal the other party's two core skills and use his own four all-purpose skills to support him.

Whether it was in theory or in reality, Nong Zhang was a person who would become stronger when he met a strong opponent. The stronger the opponent, the stronger he would be.

This was also the reason why Nong Zhang had said that if he didn't fight, he would be worthless. No one would want to meet such an opponent, and neither did MO Xiu.

Now, Moxiu was starting to regret not finding the Farming Stamp and using his God's Authority to check it. If he had known about the Farming Stamp's skill, Moxiu would not have challenged it.

He raised his head and looked at Nong Zhang's appearance. He felt a little better. If he didn't challenge such a person, he wouldn't be able to see him.

He didn't want to challenge them for other reasons. He was afraid of exposing his secrets.

Before the war broke out, the most important thing for Moxiu to do was to keep this a secret.

Because no one could be sure that the secrets exposed here would not be learned and used by the beasts.

If the wild beasts wanted to invade, they would definitely do a certain degree of investigation on humans.

Therefore, out of caution, Moxiu could only let the farm badge read the skills that had already appeared. After all, he had to be clear about which aspect was important.

However, if that happened, how would MO Xiu fight when Nong Zhang had a Martial God with a 20% boost? It was not worth it.

The countdown started. When MO Xio used God's Authority, he had an idea.

"Moxiu, I'm very interested in your skill. Thank you for lending it to me."" "What do you mean?" Moxiu pretended to be surprised."

Nong Zhang laughed." Because of my farmer's talent, I've been studying all the videos of your battles in the past few days. I'm very interested in your Silence skill and the skill that can tell me a lot of things..."

Not easy to deal with!

The others had their own guesses about Moxiu's skills, but most of them were after the battle. However, these two sentences from Nong Zhang conveyed two meanings.

He knew that Silence wasn't an innate skill, and he knew that Moxiu had a skill that allowed him to see other people's skills.

Just as Moxiu was about to speak, the sound of the battle beginning rang out.

Moxiu immediately entered battle mode. After using the Martial God, he summoned the Destruction Bubble and Holy Flames and stared at Nong Zhang.

Nong Zhang's side reacted quickly. Just like the others who were fighting against Moxiu, he first used a skill, then quickly used his innate skill to break Moxiu's Silence.

Nong Zhang's first skill was Flying Dragon in the Sky. It was the skill that he felt was the least useful, so he immediately used his innate skill on Moxiu.

At the same time that Nong Zhang let out a cry of surprise, Moxiu had already arrived in front of Nong Zhang, fully armed. Moreover, the Holy Sword had appeared and dealt damage to Nong Zhang.

All of this happened in a second. Nong Zhang only had time to release his Bloodthirst skill. Being injured by the Holy Sword triggered Bloodthirst and his attributes increased.

However, it was far from enough. Moxiu was currently attacking with all his might, continuously throwing out holy flames to attack. It could be said that he was going all out.

This wasn't Moxiu's usual fighting style. Moxiu would usually probe first and quickly find the opponent's weakness before targeting it.

However, this time, he was going all out, wanting to defeat Nong Zhang in a short period of time.

Nong Zhang didn't use the skill he stole from Moxiu, so he was still being beaten up.

The reason was simple. Nong Zhang's innate skill had been silenced. These three seconds of silence was the best opportunity for Moxiu to defeat Nong Zhang.

Nong Zhang and the others who were fighting against Moxiu used the same strategy, but they still fell for it. Nong Zhang also couldn't understand. Wasn't

Actually, that was not the case. The silence of God's Authority was not an additional effect, but an additional skill.

The difference between the two was that the additional effect was automatically activated when using God's Authority, while the additional skill could be controlled independently. It was equivalent to having an independent switch. As long as Motheo did not use it, he could use it on the same target the next time.

Previously, Moxiu had always activated this additional skill before the match when he used God's Authority.

The purpose of this was because the opponent was not strong at the beginning, so this Silence skill could defeat the opponent without using it.

Slowly, Moxiu became accustomed to using Silence before the match. He wanted to confuse the others and make them think that his Silence skill could only silence the first skill of his opponent.

This was a trap, a trap, to make all the opponents let down their guard and form a habitual mindset.

Setting up a plan in battle for the future, MO Xiu had learned this move from

Yue Yuan.

Moreover, this backup plan was not originally prepared for Nong Zhang.

Instead, he was preparing for Li Ling 'er. With this backup plan, he would greatly increase his chances of winning against Li Ling' er.

However, now that he was facing the farm stamp, he could only take it out in advance..

Chapter 400: The Sixth Skill

In order to successfully silence the Farming Stamp's innate skill, Moxiu had been highly focused since the start of the competition.

According to his habits, Nong Zhang would use a skill that he thought was the least useful, and then immediately use his innate skill.

The interval between the two was very short. Moxiu had to seize this interval and use God's Authority's additional skill, Silence, to achieve his goal.

The interval would be very short, because thinking from another perspective, with such an innate skill, he had to use it as soon as possible. The faster he used it, the greater the advantage.

Thus, the interval was destined to be very short, making it difficult for Moxiu. However, it also gave Moxiu an opportunity. Although it was difficult to judge the interval, Nong Zhang's reaction time was also shortened.

Fortunately, MO Xiu found the gap and silenced Nong Zhang's innate skill.

He had won these precious three seconds. Moxiu also knew that these three seconds would be the best opportunity. Once Nong Zhang's innate skill was restored, it would be very difficult to fight.

The spectators in the stadium were also dumbfounded. As soon as the battle began, Moxiu instantly disappeared from where he was and appeared in front of Nong Zhang. After a series of fierce attacks, Nong Zhang was beaten into a sorry state. Why did it seem like it was a one-sided battle?

At this moment, two seconds had passed. The more Moxiu fought, the more he felt that something was wrong. Nong Zhang had a Flash skill. He should be using it to stall for time. Why was he being beaten up?

It can't be like this!

Moxiu immediately changed his strategy and used his fastest speed to push

Nong Zhang out of the ring. At this moment, he activated Illusory Flash and

Nong Zhang arrived at the other side of the ring. The afterimage he left behind

attacked Moxiu, but Moxiu easily resolved it.

The two of them pulled away from each other, and Moxiu closed in again. Three seconds had passed, and Nong Zhang was reading his skills. However, choosing skills and using stolen skills also required time to release and adapt to the skills. There was still a chance to attack.

As MO Xiu ran, five dragons blocked him.

However, Moxiu still made use of his speed advantage to arrive in front of Nong Zhang. Just as Moxiu slashed down with his Holy Sword, Nong Zhang reacted quickly and released Void Destruction, trapping Moxiu within.

At the same time, Moxiu's reaction wasn't slow either. He also released Void Destruction.

The two of them were trapped in the bubble. Moxiu had not used the bubble before because the bubble would only cause damage after three seconds. After three seconds, the farm badge might have already finished stealing the skill, so it was useless if it was not effective.

The audience had a huge reaction to this scene.

"F \* ck, what is going on? Did Moxiu release a bubble on him?"

"Looking at the movement just now, why does it feel like the bubble used by the farmer?"

"Nong Zhang and MO Xiu have the same skill?"

At this time, an older man said, "" You guys are still too young. This is the innate skill of a farmer. You can borrow the opponent's skill."" The two people who were discussing just now shouted at the same time.

"F \* ck!"

In the arena, after three seconds, both of them were injured. As soon as they landed, they used the bubble again and entered the bubble again.

After that, he repeated it again. The farming badge did not have the cooldown effect of flipping the remake, and all three bubbles were used up.

When Moxiu wanted to use the bubble again, Nong Zhang started moving at high speed. Moxiu had no choice but to move at high speed.

The audience looked at the blank screen and said angrily, ""Again?"

The three bubbles seemed to be evenly matched, but in reality, Moxiu's injuries were more severe, to the extent that it affected his movements.

The two skills that Nong Zhang had chosen to copy were Martial God and Vacuum Destruction. These two skills would increase the effect of Nong Zhang by 20%.

Nong Zhang used the 20% increase in power of the Martial God to withstand the normal vacuum destruction.

Moxiu used a normal Martial God to withstand the 20% increase in the power of the Void Destruction.

As this went on, MO Xiu suffered even greater damage.

After running for a while, Nong Zhang suddenly stopped, as if he was not afraid of MO Xiu's attack.

Seeing Nong Zhang's strange behavior, MO Xiu didn't immediately attack. He wanted to see what tricks Nong Zhang had up his sleeves.

As expected, Nong Zhang spoke.

"Moxiu, your way of fighting is very interesting. Were all the previous battles just to mislead? Unfortunately, he didn't manage to defeat me within three seconds."

But I still have a chance,” Moxiu asked.” I want to know why you didn’t teleport in those three seconds.””

Nong Zhang smiled, looking somewhat paranoid and terrifying.

“Why should I hide? I have a skill called Bloodthirst. You should know that the more injured I am, the stronger I will be. In theory, I can use my strongest attack when I’m on the verge of death, and I can die with any creature.”

MO Xiu was completely certain that Nong Zhang was a lunatic, completely different from Prince Xi’s personality.

Prince Xi was more concerned about the big picture and did not care about the outcome in front of him. On the other hand, Nong Zhang was the exact opposite. He felt that no one could beat him.

This was the first time Moxiu had thought of giving up since he was born. He repeatedly thought about what would happen if this battle continued.

According to Nong Zhang’s personality, he couldn’t stop like the others. Nong Zhang wouldn’t give in, and as long as Moxiu didn’t give in, both sides would suffer.

The best case scenario was that Moxiu would be heavily injured, and the worst case scenario was that they would perish together.

Nong Zhang wasn’t afraid of being attacked by Moxiu at this moment. He stopped and said these words because he wanted to tell Moxiu that the next battle might be a life-and-death battle.

MO Xiu lowered his head and pondered. Nong Zhang did not take the opportunity to attack, as if he was waiting for MO Xiu’s decision.

Moxiu looked at all the pictures in his mind and came to a conclusion.

“Come on, I won’t use the bubble, and you won’t use your last skill either. How about we fight?”

There was still a spell skill that he hadn’t used yet. It seemed like it didn’t matter whether he used it or not.

“That’s exactly what I’m thinking!” Nong Zhang said.

“Come on then!” said MO Xiu.

The two of them were about to clash head-on with their physical strength. The audience’s emotions were all stirred.

Moxiu had the buffs of the Martial God and Holy Flames, while Nong Zhang had the buffs of the strengthened Martial God and Bloodthirsty. He was slightly stronger than Moxiu.

The following head-on clash might not have any moves, and the outcome would be decided in one move.

The distance between the two of them rapidly closed as they punched at the same time!

The moment the two fists met, MO Xiu’s entire body shone brightly. This fist emitted a golden light.

The audience couldn’t see what was happening on the screen.

At the scene, the entire space seemed to freeze.

When the two fists met, the light reached its maximum brightness. The audience could not see anything except the golden light.

MO Xiu and Nong Zhang were the same. They couldn't see their opponents, but they could feel their fists colliding.

"Bang!"

The golden light disappeared, and the situation at the scene was revealed.

Moxiu stood on the spot and panted heavily. On the other side, Nong Zhang was sent flying and fell out of bounds.

This punch really decided the victor, but...

Where did that golden light come from?

It seemed like MO Xiu had released it. How was this possible?

This question filled the hearts of every audience member. Until someone shouted in horror,"" The.... the sixth skill!"
