

## Four Skills 401

### Chapter 401: Class Is Over!

Previously, Moxiu had displayed five skills. According to everyone's analysis, one of them was an innate skill. The remaining four skills had all been awakened. This made sense.

However, when Moxiu and Nong Zhang exchanged blows, he had clearly used a skill that he had never used before.

This skill couldn't possibly belong to a farming badge, which meant that Moxiu couldn't have stolen it from a farming badge.

This also revealed the shocking fact that Moxiu had six skills!

This explosive news spread throughout the entire imperial family in an instant, attracting the attention of various families.

The people who had fought against Moxiu before, Rong Bang, Bailey, Prince Xi, and the others, all fell into deep thought. In their battle with Moxiu, Moxiu had also displayed other abilities.

For example, Rong Bang discovered that he had locked onto the enemy, Bailey and Prince Xi discovered that MO Xiu could know the enemy's skills.

In addition to the five known skills and the latest skill that he had released today, how many skills did Moxiu have?

In their eyes, Moxiu was a bottomless pit. It wasn't easy for him to win against them. They didn't expect him to have a trump card up his sleeve. Now that he was ranked second on the rankings, he could still use a trump card that he had never used before.

MO Xiu was too terrifying!

At the scene.

Nong Zhang was a little surprised that he had fallen outside the boundary. Just now, Moxiu had released a skill at the instant of the fist exchange. This skill seemed to be very powerful, but it was not. The damage was not that terrifying. What was truly terrifying was the impact.

The force of impact that erupted from MO Xiu's fist completely dissolved MO Xiu's and Nong Zhang's full-powered attacks. In reality, neither of them were injured. It was as if their fists had landed on cotton.

After that, the impact made Nong Zhang unable to resist at all and directly flew out of the boundary.

In terms of injuries, only Nong Zhang was slightly injured after he flew out and hit the wall.

"The battle has ended. MO Xiu wins!"

After the results were announced, MO Xiu went over to help Nong Zhang up.

"Moxiu, I'm getting more and more curious about you. You're the only one who has made my innate skill ineffective so far."

When he said this, the live broadcast of the battle had already ended. The audience could not hear the sound in the room.

"Your innate skill hasn't lost its effect. Didn't you copy two of my skills?" Moxiu said."

Nong Zhang shook his head and said, "I don't like to talk to people who beat around the bush like you. You know what I'm talking about. Don't worry!" I won't tell anyone about your secret. In exchange, if the wild beasts really invade in the future, can I fight by your side?"

“Of course!” Moxiu replied without hesitation.”

Nong Zhang’s considerations were very simple. Moxiu had countless skills. With Moxiu by his side, it was equivalent to having an arsenal of weapons. As for Moxiu, he was even more eager to have Nong Zhang stand with him. As an enemy, Nong Zhang was a headache, but as a teammate, the headache was the enemy.

As long as Nong Zhang didn’t reveal the secret that he knew, MO Xiu would be at ease.

Nong Zhang was a person who purely liked to fight and regarded fighting as his life. He could be ranked second because he could defeat Li Chong and was also a freak whose basic strength was stronger than Li Chong.

A person like Nong Zhang was very focused on everything related to strength, so he must have analyzed many of Moxiu’s problems.

First of all, when he read Moxiu’s skills, he only read three skills. This proved that Moxiu had not awakened all four skills.

Secondly, there were some skills that Moxiu had not used before, such as Holy Flame!

Then where did these active skills go? Nong Zhang analyzed that MO Xiu might have a cheat skill, and there was more than one.

Most importantly, all of Moxiu’s skills had cooldowns. However, from Moxiu’s previous battles, he could tell that many of his skills had different cooldowns.

This was especially true for the Void Destruction. It could only be used three times, but Moxiu could use it even more.

This proved that Moxiu had a way to eliminate the cooldown. Every secret was important to Moxiu. Perhaps one of them would play a crucial role in the battle against the wild beasts.

The two of them walked out of the arena. This time, the cheers were not as enthusiastic. There were more people with fear in their eyes.

Moxiu was simply too frightening. He could create miracles every time.

Although the battle this time wasn't as intense, some experts could tell that Moxiu was at an absolute disadvantage. Moreover, he had even greater psychological pressure than Nong Zhang. It would be very difficult for him to win.

He did not expect to obtain victory in such an unbelievable way, There was actually a sixth skill.

Nong Zhang left as soon as he came out. MO Xiu was not in a hurry to leave. Instead, he walked directly to the bottom of the rankings and said to the audience, "Everyone! I won't challenge you again today, and I won't challenge you again in the future. Li Ling 'er is my cousin, and we have sparred privately before, so I won't challenge you anymore."

After saying that, Moxiu left the place and returned to the Outsider Building.

The audience in the central area was stunned. That was it?

Was it over just like that? There were also many people who felt reluctant to part with him and treated MO Xiu's slaughter of the leaderboards as a must-watch program every day.

Just like what Moxiu said, this was a lesson. Not only did it teach everyone who had fought with him a lesson, but it also taught everyone in the audience a lesson.

The audience had been paying attention for so many days. Could it be that they were just watching the show? He also learned a lot from it.

In the beginning, he was mocking Moxiu, but now that it was about to end, he was still a little reluctant.

MO Xiu didn't make his final words clear. He didn't explain what the sixth skill was about. He didn't even say who was stronger when he sparred with Li Ling 'er in private. Was he trying to leave some suspense?

In the room.

Moxiu was lying on the bed alone. The injuries he had sustained from this battle were not light either. The three times of the Enhanced Vacuum Destruction had affected his body and he needed to adjust.

And the so-called sixth skill was actually the passive skill 'Random'.

Random had been upgraded this morning. Moxiu had considered using it, but he hadn't expected it to play such a crucial role in deciding the outcome.

After 'Random' leveled up to level 2, there were two main areas of improvement. He could control the type of the next skill.

Moxiu gave it a try. It was very useful. Imagine that the next skill was an offensive skill. After the current skill was released, the next skill that appeared would be an offensive skill.

However, he still couldn't know the power and effect of the skill, but at least he could control the direction. Random didn't have a cooldown, and when he encountered danger, he could throw out his attack skill. It was still useful. What if a powerful skill appeared?

The second optimization was that he could see the level of the skill.

For example, the skill Moxiu used today was left behind after releasing countless skills.

His level was...Level 10!

Chapter 402: The Fifth Negotiations

This effect seemed useless, but in fact, one could roughly judge the power of the skill by its level.

This skill was carefully selected by Motheo from the offensive skills. It was a Level 10 skill. Even if it was a normal skill, its power should not be small. Moreover, judging from the golden glow of the skill pattern, it did not seem like a weak skill.

Reality proved that this skill was indeed not weak. It should have laws.

Normally, Skills could increase Attributes or other attributes, but there were ways to deal with them. However, they could not deal with Absolute Laws.

For example, invincibility. No matter how high the attack power was, it would not be able to break through the defense.

Moxiu analyzed that this skill carried some kind of law. Firstly, it completely dissolved the power of his and Nong Zhang's punches. Secondly, it seemed that there was no way to resist the impact.

This might be the reason why the nameless skill could reach level 10.

To be precise, this skill was not an offensive skill, but it was not a defensive or healing skill. It dealt some damage, so it was classified as an offensive skill.

From the looks of it, 'Random' was not accurate enough. If the passive skill 'Random' could be leveled up, the higher the level, the finer the division.

In the end, would it become possible to customize skills? In that case, he would have an infinite number of skills that he needed.

However, this was still a fantasy. Even if it could be realized, who knew how many years it would take.

If the skill appeared and was used, it would definitely cause some impact.

It was about Moxiu's sixth skill, which was currently being spread like wildfire.

At that time, MO Xiu was also very conflicted. Should he expose it?

He had been thinking about it, even before the battle, but he still decided to use it.

The disadvantage of using Random was that it would cause public opinion, letting more people know that he did not conform to common sense and had more skills.

In the past, MO Xiu was very afraid of this, but now, he was no longer afraid. This was because no one could touch the current MO Xiu, be it in terms of strength or status.

The advantage was that it could confuse the wild beasts. This was not a stable skill. The next skill that was randomly released might not be what it was, but if the wild beasts knew this information, they would think that it was a fixed skill of Motheo.

In the future battles with Moxiu, he might have some misgivings that would affect his judgment.

In the end, Moxiu decided to use the Farming Stamp.

In the situation of the battle, Nong Zhang would not let it go, he had to fight to the end.

MO Xiu only had two choices, admit defeat or fight to the death.

However, no matter what choice he made, Moxiu felt uncomfortable. It was not worth it to fight to the death, especially since Nong Zhang still had the Bloodthirst skill. It would be very difficult to win. Moreover, at this special stage, if he did not control it well, both sides would suffer. Then, humanity would lose two of their combat strength at the same time. The gains would not make up for the losses.

However, if MO Xiu were to admit defeat, it would not be in line with MO Xiu's personality. Secondly, it would be because he was unwilling to admit defeat.

In the end, Motheo came up with a compromise on the battlefield, the final blow.

Moxiu had decided to use the skill on the 'Random' skill to see the effect of the last punch. It would be best if he could win, but if he couldn't, he would immediately admit defeat and stop his losses in time.

This was the best method that MO Xiu could think of. Everyone saw the result. MO Xiu won!

This was the entire process of the battle and the change in mindset.

This seemingly simple battle had many considerations.

Moxiu lay quietly on the bed. It was unknown whether it was due to his injuries or his mental exhaustion, but he fell asleep just like that.

Perhaps he was really tired, so tired that he didn't even want to use the Holy Flame that could recover his energy.

He just wanted to sleep quietly like this, to have a good sleep in the most ordinary way.

Moxiu knew that after the matter with the imperial clan was over, there were still many more things that needed to be done. This might be his final rest.

At the western border of the Alliance.

An old man spoke fiercely in the room.

"You want too much. The agreement was signed back then. Why did you suddenly break it?"

There were two people sitting opposite him. One was a small and beautiful woman, and the other was a terrifyingly thin man.

The two of them looked at each other and the woman said, "Dunn, the two of us have just taken over the diplomacy with the humans. We don't know what the rules were in the past, but since we're in charge now, we should set the rules."

The old man was Elder Tang. This was the fifth negotiation in this period of time.

"You set the rules?" Elder Tang snorted coldly. Even if the king of your tribe comes, you have to call me Elder Tang. Who do you think you are?"

The woman angrily slammed her fist on the table and glared at Mr. Tang.

The skinny man quickly stopped him and said to Mr. Tang, "Mr. Tang, let's talk things out. Look at our conditions again. If they don't work, we can discuss again."

Mr. Tang glared at the man and said, "It's fine if you don't want me to be agitated. Take back your so-called conditions. We already agreed on the agreement that humans and beasts would never offend each other. Now, you're using war to threaten humans to cede territory. There's no room for negotiation. Every inch of human land, even every inch of land where you live, has human blood."

The man shook his head, looking very sad.

"Mr. Tang, you can't say that. Before the appearance of the 'Origin', human beings were in an absolute dominant position. When we beasts rose, we couldn't find a way to coexist with human beings. Of course, we have to have our own territory. We will take a step back and you humans will give us a quarter of the land!"

Mr. Tang looked at the man with killing intent in his eyes. He didn't say anything, but the man was so scared that he quickly changed his words. "Mr. Tang, if you're not satisfied with our conditions, we can still negotiate."

"You need your own territory," Elder Tang said. "We've given it to you before. Humans have never wanted to exterminate the wild beasts. After all, we were friends for a while. But you have bad intentions and want to exterminate the humans as soon as possible.""

"Friend?" the woman retorted. "When did humans become friends with animals? You are arrogant and ignorant. Haven't you forced us to a dead end in order to expand?"

Elder Tang didn't refute her words. He just sighed.

"No matter what, the principles of humanity are here. We will not cede territory. It will be the same even if we discuss it a hundred times. We will not give up an inch of land."

After saying this, Mr. Tang waved his hand and left.

The man and woman were left in the room.

"What are you afraid of?" the woman asked. "He's on our territory, so why should we be afraid of him?"

"You're too impulsive. The timing of the battle hasn't arrived yet. The seven kings haven't coordinated well yet. The timing isn't right.""

The woman was still angry. "I know that. It's still early to start the war. But why are you afraid of that old man?"

The man shook his head and said, "Don't look down on Elder Tang. He has a very important position among the humans. To be honest, I didn't stop you just now. If he killed you, so be it.""

The woman recalled Mr. Tang's expression just now, and cold sweat flowed down her back unconsciously..

Chapter 403: Advance Party Leader (1)

In the morning, Moxiu slowly opened his eyes and looked out the window. He did not see the sun.

Yes, this was the royal family, not the outside world.

Last night's dream was very beautiful. In the dream, everyone had no skills and lived a normal and fulfilling life, living in peace with animals.

MO Xiu actually envied that kind of life. However, it was still a dream. There would be a day when he would wake up from a dream.

The matter with the Imperial Family had come to an end, and MO Xiu was preparing to make a trip to the north. The great battle was imminent, and Mu Qingyi was always a sore spot in the north.

After picking up his things, Moxiu prepared to set off. He had to put aside the matters of the imperial family for now. After going to the north, he might have to stay in the outside world for a period of time.

Since the imperial family's strategy was to make one city and one family, then the outside world might be more important than the imperial family.

He pushed open the door and saw Xiao Hong and the other five standing at the door.

"MO Xiu, you've finished slaughtering the rankings. Can we return to the team now?" Xiao Hong asked."

It seemed that this group of people saw that he was free and immediately came to find him.

"I'm afraid not." MO Xiu said regretfully."

"Because I'm going to save the world!" Moxiu replied calmly."

The five of them had serious expressions on their faces. None of them thought that Moxiu was joking.

It seemed that they all knew about the situation. Yue Yuan's father was the City Lord, and Yang Qingzhuo's father was the General Staff of the Yan City Army. It was hard not to know.

"MO Xiu, can't you bring us along?" Yang Qingzhuo asked first."

MO Xiu patted Yang Qingzhuo's head and said, ""1 will bring you along. You have to save the world too, but not now."

The five of them all heaved a sigh of relief when they heard MO Xiue's words. Then, each of them took out vegetables and meat from their backs.

"What's this for?" Moxiu was stunned and asked.'

"What do you think?" Xiao Hong asked. How long has it been since we last had a meal together?"

Liu Ziyang directly pushed MO Xiu back to his room. He stood on the sofa and said loudly, "I hereby announce the start of the twelfth Moxiu Dissing Contest." "It's only noon now. Are we going to have a gathering already?" asked Moxiu."

Xiao Hong said," It's not because you're a busy man. Seeing that you're leaving again, I don't want to waste your time. ""

With everyone working together, the food was quickly ready.

During the meal, the same topic remained, complaining about MO Xiu.

This time, MO Xiu was not unhappy. He did not even pretend to be unhappy because he was really happy.

During this period of time when he had been training separately from the team, no one in the team felt unfamiliar with him.

There was a certain gap in strength, but there was not much difference. Everyone was still like before, communicating as friends.

Soon, the meal came to an end.

None of the six of them were pretentious and did not hold any speech giving activities.

Moxiu left the room under the gazes of the five people. This time...he finally didn't have to finish farming.

MO Xiu felt a warmth in his heart as he walked out of the room. He smiled and shook his head before leaving.

Just as he walked out of the Outsider Building, he saw a familiar car parked at the entrance.

Looking closely, it was really scary.

MO Xiu stepped forward and greeted, "Big Scared, why are you here?" What's the matter?"

"I...I'm here to pick you up," Da Afraid said."

"Pick? What's the matter? Why didn't you inform me in advance?" "I've received orders to wait for you here and bring you to the 'big' house."

"Hmm?"

This time, the 'big' cat was a little abnormal. However, Moxiu still got into the car. He wanted to go and take a look to see what was going on.

All the way to the 'big' house, Big Fear didn't say a word. When she reached the elevator, she suddenly stopped.

"Moxiu, you can go up. You should have been to the office of the Big Cat

Leader."

Big Fear left in a hurry after saying that, as if there was something urgent.

Moxiu found Big Cat's office based on his previous memory and knocked on the door.

"Please come in!"

MO Xiu heard the voice and pushed the door open. Big Cat wasn't the only person inside. There were two other people he didn't know. One was a handsome middle-aged man and the other was an old man in a black robe.

After entering, Moxiu looked at the big cat. Why was it not speaking? Shouldn't you at least introduce the other two to me?

Big Cat understood and pointed at the two of them. "These two are the manager, Elder You, and the commander of the imperial family, Xi Bei, the head of the Xi family!"

MO Xiu was stunned for a moment after hearing that. Then, he greeted, "Hello,

Old You. Hello, Master Xi."

"You're welcome, sit down and talk.""

MO Xiu nodded and sat down at the side. He didn't expect Big Fear to suddenly bring him here to meet these two big shots.

Xi Bei was the head of the Xi family and the new leader of the imperial family. He had heard about this when he was video-chatting with Yue Long.

After understanding the strategies of the Xi family in Xi Bei City and coming into contact with Xi Wang, MO Xiu had a good impression of this upright and considerate family head, and he admired him very much.

As for Manager Elder You, MO Xiu had never heard of him before. However, he had heard of the name Manager countless times. He had also mentioned it in his conversations with his grandfather, Li Xin.

Li Xin didn't know the exact number of managers. She only knew that there was a spokesperson who had always spoken on behalf of the entire manager. It was probably Elder You in front of her.

However, MO Xiu had always been a little puzzled. There was a conflict between the managers and the imperial family. The only one who had always stepped forward to manage the imperial family was Elder You. How did he manage to convince the masses?

"What are you doing here?" MO Xiu asked with doubt. "We are all pillars of the royal family. May I know why you called me here today?"

Elder You looked at MO Xiu and nodded slightly. There was even a trace of pride on his face, causing MO Xiu to be a little dumbfounded. This old man knew him?

MO Xiu didn't know that Elder You and Elder Tang had a very good relationship, or that Elder Tang was also a manager in a sense.

When Old You saw that his good friend's disciple was so outstanding, his face would more or less be stained with light.

The one with the most power was Xi Bei. At this time, it was also Xi Bei who came to answer MO Xiu's doubts.

"I called you here because I have something to inform you. The beasts might invade in the near future. Elder Tang should have informed you. We have decided to send an advance team to the border to investigate. You have been voted to be the team leader. The team members are Li Ling 'er, Nong Zhang, Xi Wang, Bailey, and Rong Bang. Including you, there are a total of six people."

Xi Bei did not use a negotiating tone to speak to MO Xiu. Instead, he used a polite tone to inform MO Xiu directly.

Moxiu could understand. In a time of crisis for all of humanity, there was no room for discussion. Even if Moxiu didn't have many identities and was just an ordinary person, he still had to obey orders.

However, from what Prince Xi said, it was a message from Old Tang, informing them that the beasts were about to invade.

Why didn't Master Tang inform me? Although he had reminded her last time, it was not an official announcement.

If MO Xiu had not realized that something was wrong and investigated it, he might not have known the seriousness of the matter..

Chapter 404: Eight Clans and Seven Kings

Back to this team, the members were unimaginably luxurious.

Although they were all people of the younger generation, they were also the top batch. They were almost found from the top down on the strength rankings.

Other than a few people who went on missions in the outside world, the rest were on the list.

I'm sorry," Moxiu said." Please continue!

Xi Bei continued," Wild beasts are different from humans. Humans are one race, but wild beasts are countless races. After the 'Origin' descended to the human world, the wild beasts were relatively united, but there was also constant internal strife. After many years of fighting, countless races were wiped out one after another, and the remaining were annexed. Now, there are a total of eight tribes of wild beasts."

Moxiu had once read in books that there were many species of animals in the past. He did not expect that there were only eight races left now. Many races might have been enslaved.

Xi Bei continued," These eight races are the bears and pythons of the north, the phoenixes and elephants of the south, the turtles and cats of the east, and the foxes and apes of the west."

Xi Bei's explanation was very interesting. Not only did he mention the eight races, but he also mentioned the specific locations of the eight races.

Moxiu thought about it and understood. The bears and pythons in the north would attack the Alliance's north.

The phoenixes and elephants in the south would attack the south of the Alliance, while the enemies in the center of the Alliance would come from both sides. The four races in the east and west were the turtles, cats, foxes, and apes.

Xi Bei explained some details in detail. MO Xiu had never heard of it before, and now he was listening with great interest. From time to time, Big Cat and Old

You would add on to it.

MO Xiu felt great. He had three teachers to hand it in at the same time.

To sum it up, wild beasts were divided into eight races, and each race had its own king. Other than the leaderless cats, the strongest fighting power of wild beasts was these seven Beast Kings.

When he heard this, MO Xiu thought of Little Fu Shun. Without a king, how could he not be annexed? He must have given face to the famous Heaven Devouring Beast, right?

If Little Fushun could return to his territory, would he become the eighth Beast King?

Next, Xi Bei mainly talked about the opponents that the central region faced.

To the east were turtles and cats. The cats were leaderless and could not cause much damage. The turtles were slightly more troublesome. They had extremely strong defense and were best at attacking cities.

However, compared to the west, the east was relatively relaxed.

The two races in the west were foxes and apes. They were recognized as the two races with the highest intelligence and were the closest to humans.

After evolution, apes were almost no different from humans. If there was any difference, it would be that they were very thin and strong. There was no so-called standard figure.

After evolving, foxes had innate skills that allowed them to take on a human appearance. They were also willing to show their human appearance to others.

Most of them were handsome and well-proportioned.

Foxes and apes both looked like humans, but they could be distinguished at a glance.

This time, the advance party was going to the west, pretending to be foxes sneaking into the wild beasts 'territory.

The fox clan had very sensitive noses. Xi Bei would think of a way to find some medicine for MO Xiu and the others to make them smell more like the fox clan.

However, if they were too close to the fox clan, they might be discovered.

Xi Bei's method was to pretend to be a fox to get in touch with the ape clan. This method was the most reasonable and safest.

Moreover, according to the habits of the two races, the fox race and the ape race were very willing to marry. Although they could not reproduce, it was normal for them to be partners.

The fox clan members were all good-looking. When they chose their team members this time, they paid attention to their appearance.

Those who are ugly...can't go!

MO Xiu recalled the few people in the hall. They were all good-looking, except for Nong Zhang.

Xi Bei also explained this point. Nong Zhang was quite handsome after tidying up.

Also, because the two races in the west were very intelligent, they were also the representatives of the beasts.

He continued talking until night time, but he didn't finish. In the end, Xi Bei handed a notebook to MO Xiu and asked him to go back and take a look..

Chapter 405: Elder Tang Covers the Sky with One Hand

Moxiu had originally wanted to go to the outside world, but it was already night time.

Flipping through the notebook in his hand, he recorded the appearance, habits, and some skills of the eight races.

As he was walking and looking, he only took a simple look and subconsciously focused on the information about the cats.

The more he looked, the more he felt that Little Fu Shun was a cat, and his identity as a Heaven Devouring Beast had long been confirmed.

As long as Little Fushun could return to the Cat Clan, he would become the seventh Beast King. At that time, he would have no choice but to become an enemy.

As he walked, MO Xiu hesitated. Should he stay in the Imperial Family for another night or go to the outside world?

Moxiu had never liked his plans to be interrupted. After thinking about it, he decided to go to the outside world to take a look at the situation. He would head to the north tomorrow morning.

When MO Xiu walked all the way to the rooftop and was about to knock on the bronze mirror outside, a black shadow flew past and appeared behind him. Moxiu was very alert. Could it be that someone was following him at this time?

She turned around but didn't see anyone.

"Who is it? Don't be sneaky! Come out!"

There was no movement. MO Xiu turned around and wanted to continue contacting the Da brothers in the outside world.

When he turned around, he saw an old face. MO Xiu took a few steps back before recovering.

It wasn't that Moxiu was timid, but he didn't notice at all that a human face had appeared in front of him. It was a little scary.

Looking closer, wasn't this the same Old You from earlier? Why would he appear here?

"Young man, don't be so shocked!" Elder You said."

If this Elder You wasn't an elder, MO Xiu would have punched him twice already. Wasn't I shocked by you?

"Senior, you want to go to the outside world. What do you mean by that?" MO Xiu cupped his fists and said."

Old You stroked his beard and said,""Nothing much. I want to show you around my territory."

"Can we not go?" asked MO Xiu."

MO Xiu didn't want to waste any time because of this. The territory that Elder You was talking about should be the territory of the manager. It was meaningless to MO Xiu.

Of course you can," Elder You said meaningfully." But you have to think carefully. You might not have the chance in the future. This has something to do with Elder Tang.""

MO Xiu was a little hesitant. Elder You was clearly trying to lure him. He said that he had a relationship with Elder Tang, but he did not say how much. It was most likely a pretense.

"Elder You, I want to ask, will this trip take long?" Elder You smiled, as if victory was in his grasp. "No need. We're very busy too. It's only an hour."

"Deal!" MO Xiu said happily."

The fact that it was related to Elder Tang really attracted Moxiu's attention. In addition, he was curious about the managers. If he didn't waste too much time, he could go.

"Elder You, please lead the way." MO Xiu asked when he saw that Elder You was not moving."

Elder You slowly walked to MO Xiu's side. MO Xiu looked at Elder You with some doubt, as if asking, why aren't you leaving?

The next second, MO Xiu received an answer. Elder You grabbed MO Xiu's shoulder with one hand, and the two of them disappeared from the rooftop. When they reappeared, they were in an empty room.

Moxiu looked around. The facilities in the huge room were very simple. One of the walls was filled with surveillance cameras that monitored every corner of the Imperial Family.

There were two old people sitting in the room. One was a grandfather, and the other was a grandmother.

The old lady sat in front of the surveillance camera and looked at it with her lifeless eyes. It was unknown whether she was looking at it or not.

Another old man sat cross-legged in a corner of the room, resting with his eyes closed.

Elder You shouted loudly as soon as he returned. He did not have the bearing of a senior at all.

"Look, you two. Who did I bring?

The two old men didn't seem to listen to Elder You's words and turned around mechanically.

When they saw Moxiu, they were all shocked.

"Who is this young man?" asked the granny."

The old man who had his eyes closed just now also looked puzzled. Why did Old You bring a young man back?

"You two are really something." Elder You sighed. "You just closed your eyes and stopped asking about the outside world?" He was MO Xiu, who had recently slaughtered many people in the Imperial Family. He was also Elder Tang's disciple. "

'Master Tang's disciple?' Come over quickly, let me take a look." The old man on the other side also stood up and walked over.

"Old Du, you're still watching the surveillance cameras all day. You don't even know MO Xiu!"

"Go to the side!" said the old man called Old Du.'

Elder You was unwilling and said to the other old man who was walking over, "Old Bai, look at Old Du!"

"You should say less!" Lao Bai said with a smile that was not a smile."

At this moment, Moxiu also obediently walked over. Old Du and Old Bai looked left and right, very curious about Moxiu.

At this moment, Elder You almost exploded in anger. He had originally wanted to bring MO Xiu back to show off, but not only did he not receive any praise, he was even bullied by the two of them.

What was even more infuriating was that MO Xiu and the other two were chatting fervently.

Seeing this, Old You shook his head helplessly. He was already so old. There was no need to be angry with these two old fellows.

Old Bai and Old Du kept talking about this and that. MO Xiu was very confused, but he also heard some clues.

The two of them, along with Elder You, were very close to Elder Tang. Gradually, Moxiu understood that the three people here were the so-called team that Elder Tang was talking about.

Anyone with some power in the outside world knew that Elder Tang had his own team and wanted his son to become a member of MO Xiu's team.

For example, Liu Jingshan and Yue Yuan.

But...Moxiu didn't understand. According to the outside world, wasn't Mr. Tang's team in charge of Shadow? And didn't the higher-ups of Shadow supervise the managers?

What was going on?

Old Master Tang could cover the sky with one hand?

Elder You came over and seemed to see through MO Xiu's confusion.

"MO Xiu, we are good friends with Elder Tang. You are Elder Tang's disciple, so you are our disciple. If you have any questions, just say it!"

Moxiu hesitated for a moment before asking the question in his heart.

"Seniors, there's something I don't understand. You should be my master's team, right? Then shouldn't you be supervising the managers? How did you become a manager?"

"Who did you hear this from?" Lao Bai smiled."

MO Xiu was stunned for a moment. He didn't know who exactly it was. The outside world generally thought so. To be more specific, it was Liu Ziyang's father. Liu Jingshan was the first to tell MO Xiu this information.

“Isn’t what I learned from the outside world correct?”

Lao Bai shook his head and said, “No!”

It’s not wrong,” Old Du interjected. “According to the original plan, this is correct. ”

“I don’t like the two of you. Why are you pretending?” Old You said impatiently.

Moxiu, let me tell you.”

After Elder You’s explanation, MO Xiu finally understood the whole story.

These people were indeed members of Elder Tang’s team, but Elder Tang had left the team after the battle.

The team slowly became a manager, and Old Master Tang developed a new branch, Shadow!

Chapter 406: The Royal Clan’s Covenant

Originally, there were many people in the manager’s team, but now there were only three old men left. The purpose of Mr. Tang’s establishment of Shadow was to supervise.

In reality, the Shadow was in charge of the other departments. As the boss of the Shadow, Mr. Tang was in charge of the managers.

There was no conflict between the two matters, but they were two independent matters. The outside world had mixed the two together.

The events that happened one after another were mistaken by the outside world as happening at the same time, which created such an illusion.

Everyone in Mr. Tang's team held high positions in the Shadow and decided the candidates for the manager.

Old You was the main speaker, while Old Bai and Old Du added on from the side.

As Moxiu listened to the stories, he felt that they were extremely . After all, there were almost no records of what happened during the Great War, and he had never heard of them before.

The three of them talked about the interesting things that happened when they were young, and Moxiu became a tool for them to reminisce.

Old You said excitedly," Old Bai, don't look at how you're with Old Du now. I used to chase Old Du too. If it wasn't for the tense situation at that time, I

would have taken her down. What would you have to do?" Thinking back to the past, he was really too naive."

When Lao Bai heard this, he looked at Lao Du, as if he was questioning him. "Don't listen to Old You's nonsense. That's not true!" Old Du quickly explained."

Elder You said unhappily," Old Du, you're so dishonest. You're already so old. To put it bluntly, none of us know how many more days we can live. What are you afraid of admitting?"

"Old You, stop talking. Are you looking for a fight?" Old Du said angrily."

"Fight?" Elder You asked. With the two of you in your current state, if I let the two of you attack together, can you win?"

“Your body is useless compared to the two of us. Have you forgotten where we are?” Lao Bai said disdainfully.”

Elder You stopped talking.

This was just one of the interludes, and they started chatting again.

MO Xiu looked at the time. He couldn’t go on like this. Although the gossip between the three elders was very interesting, if it was in the past, MO Xiu would be very willing to listen to them. But now, he didn’t have the time.

The three of them chatted like wildfire, and MO Xiu appeared a little embarrassed. He could only bring up the topic of the battle from time to time. Gathering some information was more useful than gossiping.

After Moxiu’s relentless efforts, the topic finally returned to the main topic. Moxiu failed to bring the topic back to the war, but it was not bad. The three of them talked about the early days of the peaceful era.

Back then, the few of us set various regulations to restrict the royal family,” said Elder You.” At that time, we felt that it was very correct. Now, it seems that there are still many improvements.”

‘ Yes,” Old Du said.” Especially in the royal treaty. Some clauses are unnecessary, and some clauses are not added. This has also led to a long-standing conflict between the royal family and us.””

MO Xiu couldn’t help but feel curious and asked,””Seniors, what is this imperial treaty?”

Old Du casually took out a document from the drawer under the monitor and handed it to Moxiu.

“Take a look. Don’t damage it.”

Moxiu took it and flipped through it. There were over a hundred articles on this treaty.

Almost all of the agreements were targeted at the royal family. Only a few were beneficial to the royal family, such as unlimited resources, priority in the use of herbs, and supreme power under certain circumstances.

The remaining rules were all restrictions on the imperial family.

For example, they were not allowed to enter the royal space at will, they were not allowed to use force on ordinary people, and they were not allowed to carry out missions without the permission of the manager.

Even the managers had the right to interfere in marriage and reproduction.

The more MO Xiu looked, the more puzzled he became. What was the imperial family thinking at that time? Why would they sign such an unfair treaty? When facing external enemies, humans were united.

However, in times of peace, everyone wanted to have power and more say and decision-making power due to various selfish desires.

At that time, the war had just subsided. It was the time when the royal family wanted to show their ambitions and become the leader of mankind. Why would they obediently sign such an unfair contract?

Not only that, but in the many years of conflict with the manager, he had not violated the treaty and had been suffering from such injustice until now.

Looking at MO Xiu's frowning face, Old White asked, ""Moxiu, any questions or suggestions? We can modify it according to your suggestions." "Huh?" MO Xiu was stunned for a moment before he replied. Can I?" "Sure, you can be considered one of our managers," said Old You." Again?

MO Xiu was stunned. He could be said to be an outsider, the Dark Shadow Prince, or even the royal family. But a manager? Isn't that a little far-fetched? This made Moxiu feel that these old men were up to no good, so he quickly rejected them.

" I think it's better to just call it in. A treaty isn't something that can be done as one pleases. It requires a long period of practice. Besides, I don't seem to be on the same side as the manager, right?"

" You're not on the same side as the manager, but don't forget that you're Mr. Tang's disciple, the successor of the Shadow. In other words, you're Mr. Tang, and your team is equivalent to us. Do you understand?" Lao Bai smiled. You don't have to consider it now, but you'll have to consider it sooner or later."

MO Xiu really hadn't thought of this. Making Xiao Hong and the others managers? How was this possible? Besides, there was also a clown like Liu

Ziyang. How could he be a manager?

MO Xiu nodded, but he didn't say whether he agreed or not.

"Seniors, I have a question. I wonder if I can answer it."

"MO Xiu, I've already said that you're Elder Tang's disciple, so you're our disciple as well. Feel free to ask. We'll answer whatever we know. There's nothing we can't let you know.""

' I just looked at this contract," Moxiu said." Most of the terms on it are unfavorable to the royal family. I want to know how the royal family agreed and signed it. How did he control the royal family after that?"

Old You glanced at Old White and said,""Is this move powerful? Do you want to learn? This is Old White's unique skill. You can't learn it, so when your team becomes a manager in the future, you need to make a big change."

MO Xiu looked at Old White, wanting an answer.

"Mr. Tang, you didn't misjudge me," Lao Bai said with a smile."You got the key point right away. It's also the core secret of us managers.""

“Senior, if it’s not convenient...” MO Xiu said.

Lao Bai waved his hand and interrupted MO Xiu. He slowly said, “There’s nothing inconvenient about it. This involves two of my skills. There were three reasons why the royal family was so obedient until today. The royal space, the herbal resources, and the treaty itself.”

“Oh?”

Herbal resources were understandable. The two reasons seemed to have something to do with Lao Bai’s skill..

Chapter 407: God’s Authority Loses Its Effect

Senior, I can understand the herb resources,” Moxiu said.” At that time, the herbs were in your hands, right? What about the other two?””

Lao Bai continued to explain.” We have to start from the beginning. First of all, your question is why the royal family signed it. It’s very simple! They would naturally sign if he used his supreme name to pressure them.”

“However, signing is only the first step. At that time, Supreme was no longer in the human territory. This order was not issued by Supreme. It was forged by us. The royal family was very angry when they found out. This is also the reason why the royal family and the managers have had conflicts for so many years.”

“This is the cause. Let’s talk about what you’re most concerned about. How did we control the entire royal family with the strength of three people?”

“One of the skills is called a contract. With the support of my skill, the contract signed will definitely be valid and cannot be violated.”

When MO Xiu heard this, he could not help but interject,”Senior, I want to ask, is Beast also signed under this skill?”

Lao Bai shook his head helplessly and said, "No, at that time, we humans wanted to use this method, but how could the beasts agree? My skill had a fatal weakness, which was that it required the person who signed the contract to agree and swear an oath. The limitations were too great. If there were no limitations, I might have ruled the world. It was also because of this limitation that I was teased by him for a long time, saying that my skill could only be used on my own people."

MO Xiu smiled but didn't say anything. He gestured for Old White to continue.

Old White nodded and continued, "After signing the contract, they can't go back on their word. However, there are quite a number of royal family members. They need to be managed together. Under the restrictions of the contract and the temptation of herbs, all the royal family members enter the royal space and have their freedom restricted."

"This is my other skill, and it is also the skill that I have been cultivating my entire life. Space! This entire royal space is my skill. Guess what level my skill is at?"

Lao Bai didn't hide the pride in his words. This was probably the proudest thing in his life.

With such a good opportunity to suck up to Moxiu, he had to cooperate.

"I have seen many experts, and the limit of my understanding is level ten.

Senior's skill can't be above level ten, right?"

Level 10 skills were very rare, but there were some, such as the ordinary skills of the 'big' family and the Xi family.

For Lao Bai to ask such a question, it meant that the skill was most likely above level 10.

Moxiu's answer was very clever. He didn't directly guess the level. If he guessed too much, Old White would lose face. If he guessed too little, it would make it obvious that Moxiu didn't like Old White.

To put it bluntly, I've seen many experts. To be clear, I'm very knowledgeable. However, for someone as knowledgeable as me, the limit of what I can understand is only level 10. If Lao Bai can surpass level 10, he's an existence that I can't understand.

The last sentence was the essence. Senior, could it be that you've surpassed level ten?

This sentence expressed his disbelief. He felt that there shouldn't be anyone in this world who was above grade -10. However, there was also a rhetorical question. It meant that if there was, he believed that senior could do it.

Lao Bai laughed out loud after hearing that." Kid, I'll let you see it now. The

Royal Space has countless functions that you can't imagine. It's level fifteen."

MO Xiu was so frightened that he stood up and exclaimed, "Oh my god!"

This time, it wasn't flattery. It was Moxiu's true reaction. He had expected that it would exceed level ten, but he only felt that level eleven or twelve was more or less enough.

After all, Moxiu had never seen a skill above level 10. Out of curiosity, Moxiu released God's Authority on Old White, but he did not read anything.

This...

This wasn't the first time he had failed to access the God's Authority. He had failed twice before. The first time was the Elder of Heavenly Secrets, and the second time was this time.

This time, it was not just one person. Moxiu could read the skills of many people at the same time. When he read Old White, he also read Old Du and Old You's skills, but they all failed.

Moxiu had thought that after God's Sight had been upgraded to God's

Authority, there would no longer be any failures. What was going on?

Could it be that when the skill level reached level 10 and above, there would be a situation where the reading failed? Would this happen when he used it on wild beasts?

Lao Bai saw MO Xiu's serious expression and asked, "What's wrong with you?"

Elder You and Elder Du also looked at MO Xiu in confusion. What was wrong with this child? He was quite excited just now, but now he was in a daze. It was as if something bad had happened.

MO Xiu came back to his senses and said embarrassedly, "It's nothing. It's just that the impact of level-15 is a little too great for me to accept."

"What's there to be unhappy about?" Lao Bai said meaningfully. "I can tell you clearly that this world is bigger than you can imagine. It's even bigger than I can imagine. I've lived for more than a hundred years, but I don't know what the situation in the ocean is like. Even someone like Wu Shang went to the Sea

Race and never returned."

"Old Bai" Old Du interrupted."

Lao Bai reacted and continued, "I'm sorry, people tend to be sentimental when they're old. Please forgive me, but there are quite a few people in the royal

family who are above level 10. If we calculate the level of the Beast King's skill, I'm afraid it's almost level 20. I'm not saying this to show off, but I just want to tell you that we humans might not know the limit of the skill."

After Moxiu heard this, he sighed. He had originally thought that he had grown to the point where he could fight against wild beasts.

No matter how strong a person was, they were only people like Big Cat. Once the four Martial Gods descended, they would be invincible.

Now, it seemed that he was still too naive. Moxiu began to worry about the future of mankind.

Elder You said a few words to ease the heavy atmosphere.

“Stop pretending. You just want to show off. Don’t listen to him, Moxiu. We humans have more experts than you can imagine.”

Lao Bai glared at Old You as if to say, “What are you trying to do?”

Lao Bai continued, “Back to the main topic. Although my spatial skill has reached level 15, it is not perfect. The internal space is almost complete. Other than the sun and some other things that cannot be simulated, it has been perfected.”

However, there is a fatal flaw. If you find the exit, non-natives can enter and exit on their own. You just need to summon the bronze mirror. If you don’t believe me, you can try. This secret has never been told to the imperial family. The members of the imperial family were basically born in this dimension, so I can control them.”

Old White explained very clearly, and Moxiu understood.

The manager was not as mysterious as he had imagined, and his strength might not be as strong as the overall strength of the royal family.

Relying on the two skills of Confused and Deceived and Old White, he was able to control the Royal Family..

Chapter 408: The Last Conversation (1)

However, no matter what method they used, the Manager had indeed controlled the Royal Family, the strongest fighting force of mankind.

Moreover, from the looks of it, the effect was much better than letting the imperial family do nothing.

The north and south of the Alliance were a good example. The unity and fighting strength of the north and south were definitely not as good as the central region.

This had something to do with the manager's plan. There was no royal family in the outside world, so it would be relatively fair. If there were extremely talented young people, they would have a chance to make a name for themselves.

Moreover, the concept of outsiders was also very useful, although the various rules were not perfect.

The royal family was not very compatible with outsiders, but at least it was a bridge for the royal family to communicate with the outside world.

After MO Xiu's recent slaughter of the rankings, the two fused quite well,

Moxiu had thought that the relationship between the two would get better and better until they reached a certain balance. However, it seemed that it would be very difficult now.

It wasn't that accidents would happen to either side, but it was an external reason.

The wild beasts were about to invade. At that time, whether it was the outsiders from the royal space or the royal family, they would definitely come out to deal with the enemy.

Even if the battle eased up, the imperial family would not agree to enter this space again.

The restrictions on the royal family were all based on Lao Bai. If anything happened to Lao Bai, or if Lao Bai was too old to survive until the next peaceful era, all the restrictions on the royal family would disappear.

Would the royal family, who had been deceived once, still acknowledge the so-called manager?

This war was different from the previous one. Without the absolute leader, who could control the royal family?

Moxiu shook his head. He was thinking too far ahead. All of these possibilities were based on the possibility of mankind winning. What if they lost?

It was still too early to think about this. The royal family had to move out, and the humans had to win. This was a battle of life and death, so they had to focus on the battle.

This time, what the three old men said to Moxiu was mostly to resolve the doubts in his heart. There was not much practical significance.

After saying this, Moxiu fell silent. He didn't ask any more questions, nor did he leave. Instead, he quietly listened to the three old men's conversation.

MO Xiu finally understood why Elder You had brought him here.

Looking at the three of them, it seemed like they hadn't talked like this for a long time. He was an opportunity.

The three of them had lived in this room for more than a hundred years and had nothing to say. From their words, Moxiu could tell that Old White had probably not moved for a long time in order to let it live longer.

The herbs in the corner could prove that Lao Bai must have spent a lot of effort to control this space. It was very likely that he was at his wit's end. It was not obvious from his appearance because he had been taking herbs.

Old You had the best health, while Old Bai and Old Du looked like they would have a hard time fighting.

Moxiu could imagine Old White sitting in a corner for more than ten years, or

Old Du's health seemed to be even worse. He sat under the surveillance camera and did not look at it. The meaning of life might be to accompany Old Bai.

Every time Elder You returned to this space from the imperial family and saw his old friend living in a dead manner, his heart would ache even more with every glance.

The surveillance camera was on, and the only person watching it was Old You. Sometimes, Old You wanted to talk to his two former friends.

But he was afraid!

He was afraid that if he woke up his two good friends, they would lose their lives for various reasons.

This was a kind of helplessness. Lao Bai was the most tired, but he should be living the most fulfilling life.

Old Du's leg was injured and he couldn't stand up. He lived to accompany his lover.

The one who suffered the most was probably Elder You. Not only did he have to manage the matters of the royal family, but he also had to endure endless loneliness when he returned to this space.

From what the three of them said, there were hundreds of managers in the beginning, but as time passed, they all left.

There were originally five people in Mr. Tang's team, but now there were only three left. Once the wild beasts attacked, the entire imperial family would be mobilized.

Without motivation, Old Du and Old Bai might leave soon, and Old You would be the only one left.

It was at this critical moment, when the door of the royal space opened.

Elder You dared to bring Moxiu in to wake up his two old friends for a chat, reminiscing about the beautiful times of his youth and relieving decades of loneliness.

When MO Xiu realized Elder You's intentions, he regretted asking so many questions and not letting the three of them catch up.

Old Man You chatted as he looked at the time, occasionally glancing at MO Xiu. He was calculating the time, calculating the one hour appointment with MO Xiu.

Now, an hour had passed. Elder You wanted to let Moxiu leave, but he knew that once Moxiu left, the room would fall into silence again.

He felt sorry for Moxiu. As a manager, as a member of Old Master Tang's team, and as a human, he wasted Moxiu's time for his own selfish desires.

But he was reluctant, really reluctant. His old friend had woken up to chat with him. Who knew if it would be the last time?

It was only when MO Xiu looked at the time that Elder You ended the conversation.

"Alright, let's stop here. Moxiu has to go back and settle some serious business.

Let's go back then," Lao Bai quickly said." We have important matters to attend to. Important matters to attend to! ""

Old Du nodded slightly at Moxiu as a farewell. Then, he sat up straight and closed his eyes.

MO Xiu stood up and stood beside Old You. He watched as Old White walked back to his corner, and a sense of guilt suddenly rose in his heart.

This...might really be their last conversation.

Elder You brought MO Xiu back to the rooftop and then disappeared.

Throughout the entire process, Elder You did not say a word.

MO Xiu could tell that Elder You wanted to thank him. He looked at him several times, but he still didn't say it.

Standing on the rooftop, Moxiu paused for a few seconds before shaking his head.

Time was clearly tight, so why was he still in a daze? He walked to the place where the bronze mirror was connected, squatted down, and tapped it a few times.

After waiting for a while, there was no response. He looked at the time. At this time, the Da brothers might be sleeping. Could it be that they were destined not to leave tonight?

That's right!

Old White said that he could leave by calling out to the bronze mirror. MO Xiu tried it out. He knocked on the ground while calling out to the bronze mirror in his heart.

A black dot suddenly appeared on the ground and gradually expanded into a black hole.

Moxiu knew that this should be the exit. Without any hesitation, he jumped down.

The scenery in front of him blurred. When he regained his vision, he appeared in a room.

Da Wangba was lying on a large bed with an unknown number of people. He was in the middle and there were four women beside him. MO Xiu appeared in midair and landed on Da Wangba's stomach.

"Aiyo, stop it. We'll play in the morning." "What do you want to play?" asked Moxiu. "You mean playing...Mo are you here?"

"Four women? You're so corrupt!"

Chapter 409: All For Free

Their movements woke up the four women beside Wang Ba.

One of the women saw MO Xiu and said embarrassedly, ""Aiya, Brother Wangba, why do you have such a hobby? But if it's this handsome guy, I'm willing!" Wang Ba's face turned green with anger. He said angrily, "Willing my ass! All of you, get out!"

When the four women saw that Da Wangba was angry, they immediately ran out of the room.

Don't misunderstand, MO Xiu," explained Wang Ba." I, Wang Ba, am not someone to mess around. These four are my wives!!"

MO Xiu laughed. Didn't you almost get cuckolded on the spot just now? Doesn't it match your name?

"I understand. I've been in the royal family for so long. It's normal to know how many wives you have. "

Da Wangba had been confused by MO Xiu earlier and only then did he react. He immediately questioned, "Mo Xiu, how did you get out of the city by yourself?"

"I have the key to the bronze mirror." MO Xiu got off the bed and said."

Da Wangba rolled his eyes and asked tentatively, "What key? Don't tell me you know the secret of the bronze mirror?"

MO Xiu didn't answer. He only nodded. The Da brothers had been in charge of the bronze mirror for many years, but he couldn't be sure if they knew the secret of the bronze mirror or not. He didn't want to be interrogated, so he didn't say anything.

Wang Ba thought for a while and said, "My brothers and I have been in charge of the bronze mirror for so many years. We know that some people will get a response when they call out to the bronze mirror. If they want to come out on their own, this is the only way. I'm just curious. How did you know?" According to the Great King's explanation, he should only know what was going on, but he didn't know why. Since that was the case, there was no need for MO Xiu to explain to him.

"I figured it out myself."

After saying this, Moxiu left.

After leaving the house, he found a villa on the border of Yan City, which was very close to the pub. He didn't expect there to be a villa in such a place.

After finding the car parked beside the tavern, MO Xiu drove back to the Cloud Top Villa.

It was early in the morning, and there were not many people on the road. Occasionally, there would be an army patrolling. It seemed that Yan City had been on high alert recently, and there would be an army patrolling all night.

After returning to the Cloud Top Villa, MO Xiu entered the house and found that Zheng Yi was not there either. There was no one there.

Little Fushun wasn't here, and Zheng Yi didn't have to stay here all day. Facing this empty house, MO Xiu felt a little lonely.

She stood at the door, not knowing whether to stay or go. After thinking for a moment, she decided to leave.

From MO Li's side, he knew that Mu Mu and Cao Fenglin were both in the strongest group. They were going over to give some instructions, so he decided to go to the north.

He really missed that woman!

In the CEO's office of the Strongest Group.

Mumu's desk was filled with all kinds of documents. Many applications for discounts needed to be approved. Because it involved the interests of too many companies, the flow of funds was very large.

He could ignore other matters, but he still had to take care of the money. Cao

Fenglin was supposed to share the burden with Mumu, but now that Cao Fenglin was in a bad state due to the evaluation team, he had no time to care about Mumu.

At this moment, Moxiu arrived at the Strongest Group and found Cao Fenglin, who was busy.

Cao Fenglin had too much work to do. There were countless people in the entire alliance who applied for discounts, whether it was real or fake. There were people with high or low quotas. If he didn't want any problems, he had to be strict with them. This almost drove Cao Fenglin crazy.

At this moment, when Cao Fenglin saw MO Xiu, he merely glanced at him and said, "MO Xiu, you're here." He then lowered his head and continued working.

MO Xiu walked over to Cao Linfeng's side and gently patted his shoulder. "Put down the work at hand. Let's have a meeting."

Cao Fenglin frowned. "MO Xiu, if you have anything to say, tell me now. I can't leave."

“Don’t be so tired. Stand down and rest for a while. Follow me to a meeting.”

Cao Fenglin sighed heavily.””Stop fooling around, MO Xiu. I’m too busy. Do you know how long it’s been since I’ve had a good sleep? I know you can’t be more relaxed than me, but since this is...”

MO Xiu didn’t allow Cao Fenglin to continue speaking. He pulled him out of the door and walked towards Mu Mu’s office.

Seeing how serious and responsible Cao Fenglin was, Moxiu felt very gratified. He hadn’t misjudged Cao Fenglin. He had given the most important work to this person who was usually sloppy but was so hardworking at critical moments.

The two of them walked into Mu Mu’s office. There were many people helping Mu Mu with his work.

“All of you, go out. We have a meeting!” Moxiu said.”

These people were nervous and had already completed the process of their work. They suddenly stopped and looked at the source of the voice.

When they saw that the person who spoke was MO Xiu, they nodded and walked out of the room one after another.

Mu Mu didn’t look at MO Xiu. She placed her hands on her forehead and leaned against the table. She was too tired, physically and mentally.

Moxiu had the two of them sit down and released the healing effects of the Holy Flames on the two of them. Their energy was instantly replenished, and the pressure in their hearts eased quite a bit.

Cao Fenglin stood up and said,”So you’re cheering for us?” Roger that. I’m full of energy now. I can continue working. I’m going to get busy!”

Mu Mu also picked up a document from the table and started reading it.

MO Xiu walked forward and snatched the document from Mu Mu's hands, pressing it on the table.

"That's enough. You don't have to be so tired anymore. You don't have to continue working like this."

Cao Fenglin walked back halfway and said, "'Moxiu, what do you mean by this? Your system is perfect, and we are operating smoothly. But if Mu Mu and I stop, the entire system will stop."

Mu Mu finally spoke, "'Moxiu, we are indeed very tired, but we are willing to continue to make such a great contribution to society."

Moxiu shook his head and said, "You've done well. I thought my plan was good at first, but it seems like it's too late now. ""

Mu Mu and Cao Fenglin asked at the same time, "What do you mean by too late?"

MO Xiu didn't answer their questions and asked, "'How's the production capacity now?"

MO Xiu was asking the obvious because all the production work was handled by Mo Li.

Mu Mu replied, "Right now, the production capacity can supply everyone in the central region with one vial of medicinal liquid per day. There's no guarantee for the southern and northern regions. Even if the price is so low, there are still people who can't afford it. They need to apply for preferential policies. However, it's impossible for Feng Lin to approve it so quickly. They need to delay it for a period of time. Most people are stuck here."

Cao Fenglin said in embarrassment, "'Moxiu, I've thought of a solution, but the evaluation team has very high expectations for their employees. Even if we borrow people from everywhere, we don't have enough manpower. In terms of speed, it's more important to be fair."

MO Xiu nodded and pushed all the documents on Mu Mu's desk to the ground.

Mu Mu exclaimed in shock. Cao Fenglin said, ""Mo Xiu, what are you doing?"

"From today onwards, all medicinal liquids will be free of charge.. The spare manpower will be assigned to the production and sales departments!"

Chapter 410: My Woman (1)

"MO Xiu, what nonsense are you spouting? How could it be free? How will the company operate if it's free?"

"What are our main operating costs?" Moxiu asked."

Mu Mu thought for a moment and said," If the medicinal liquid is free, our biggest expense will be labor costs. Most of the shops are bought without cost. But there are so many partners. How are we going to explain it?"

Cao Fenglin said," MO Xiu, our current price is already low enough. Why do we have to offer it for free?" Was he afraid that the people couldn't afford it? Or are you afraid that we'll work hard?"

"What exactly is that?"

Moxiu pulled the two of them to the window and pointed at the patrolling army downstairs.""Do you see it? Why do you think the army is patrolling all night?"

Both of them had been too busy recently. They had to deal with the company's matters and control public opinion. They had no time to think about these things.

Cao Fenglin changed his mind and said in shock, ""Is something big about to happen? The army's abnormal behavior meant that a war was about to begin.

Could it be that they were beasts?"

Moxiu nodded. There was nothing to hide. Anyone who cared about this would be able to guess it.

It could even be foreseen that some people were prepared to make a fortune from the war.

Mu Mu and Cao Fenglin fell into deep thought. Not long after, Mu Mu said, "Moxiu, are you making the medicinal liquid free for the war? Even if they gave the medicinal liquid to more people for free, it would take at least a year for the medicinal liquid to show its effects. The army was already preparing for war, which meant that the war was not far away, right?"

"That's right," Moxiu replied. "Even if we activate the free medicinal liquid now, it might not have much of an effect on the overall combat strength of the people. However, it will still have some effect. In addition, it will increase the weight of my name and the name of the strongest corporation in the hearts of the ordinary people."

Mu Mu and Cao Fenglin understood that MO Xiu wanted to build up momentum once again. Not only did he want MO Xiu's name to be able to move the people, but he also wanted the strongest group to have a certain amount of say in the war.

The free medicinal liquid meant a lot, and the strongest group was forced to change its business.

Mu Mu and Cao Fenglin heaved a heavy sigh. They had just gotten on the right track and now they had to change again. This feeling wasn't good.

But now that things had come to this, he had to either control the tide or go with the flow. It was better to listen to MO Xiu. It would be more powerful to take the initiative.

Actually, Moxiu didn't want to change it either. After all, although he didn't participate in the operation of this system, he had thought hard about it.

Through Mu Mu, Cao Fenglin, and the others, he had spent countless sleepless days and nights to create it.

This system that had just formed a complete closure had to be overturned and restarted. Anyone who made such a decision would not feel good, and Moxiu was no exception.

There were two difficulties in starting over. One was to give an explanation to all the partners, and the other was how the strongest group could maintain its operations without revenue.

The three of them discussed these two problems. The first problem was relatively easy to solve.

Moxiu had analyzed these companies long ago. They were not trying to get a share of the profits from the strongest group, and they did not have much profit.

They treated investing in the strongest group as a charity event to gain praise and fame from society.

Now that they knew their true goal was to get them to be the best, Moxiu only needed to make a small change and they would be rendered speechless.

All of them being free was a greater public service, and they would receive more profits from famous advertisements. Some companies might be even happier with the sudden change in the strongest group.

In order to alleviate the pressure on the operation of the Strongest Group, Moxiu was not willing to stop there. He came up with another plan and asked the investors to increase their investment. Once the investment reached a

certain level, the medicinal liquid sales point of the Strongest Group would become the sales point of the company's title.

Using advertisements to attract another wave of investment was no longer a business, but a performance or a public service activity.

After Moxiu came up with his idea, Mu Mu and Cao Fenglin both agreed. This was left to Mu Mu to discuss.

Next was the company's operational issues. If the negotiations with Mumu went smoothly, it could greatly ease the pressure on the strongest group.

Without the cost of sales, the main expenditure would be on labor. Moxiu advocated reducing the salary of employees. Every employee would have an extra tube of medicinal liquid to receive and use every day. The user could decide.

By controlling the cost and making up for it with the medicinal liquid, there would be no loss of employees. After explaining the situation, the employees would have additional motivation to work.

Mu Mu and Cao Fenglin were very satisfied with the resolution of these two problems. They had indeed solved the problem of operations in a short period of time. As for the long-term, once the war started, there would be a large number of volunteers to help. They didn't have to worry at all.

Mu Mu was responsible for these two matters. Cao Fenglin pointed at himself and said, "Mo Xiu, what should I do then? Should I assist Mu Mu?"

MO Xiu had an evil smile on his face as he looked at Cao Fenglin. "Don't be anxious. You have more important things to do."

Cao Fenglin's lips twitched. He originally thought that he could finally escape from the evaluation team and relax a little.

Looking at MO Xiu's expression, he didn't seem to be holding back anything good. It might even be a difficult job.

Cao Fenglin said, "MO Xiu, speak clearly. Don't try to trick me again."

Get me a camera," Moxiu said seriously. "I need to record a video. You'll know what's going on after you record it."

Half an hour later, the recording ended.

The entire recording was Moxiu's speech. After the recording ended, Cao Fenglin finally knew what his job was.

At this time, he said with a bitter face," MO Xiu, you have relieved Mu Mu's pressure. She will be free after this period of time, but my job is not free at all.""

MO Xiu looked at Mu Mu and said, ""Old Cao, why are you still comparing yourself to your wife? If you don't care about your woman, you can change your job scope. I don't care anyway."

MO Xiu's words made Cao Fenglin feel both amused and angry. He was happy that MO Xiu kept emphasizing that Mu Mu was his wife.

What made him angry was that Moxiu had already said this, leaving him with no way out.

Cao Fenglin rolled his eyes and said," MO Xiu, what are you saying? Men should do more work. How can they let their women suffer?""

MO Xiu rolled his eyes. His expression changed so quickly. However, Cao Fenglin and Mu Mu were tied together, so it was much easier to fool them.

After such a long discussion, the sky was already bright. "MO Xiu, you're leaving, right?" Cao Fenglin asked."

"Yeah, how did you know?"

"If you didn't leave, why would you record the video? What are you going to do this time?"

"You have your woman, and I'm going to find mine.."
