

Four Skills 441

Chapter 441: Go In (1)

Actually, if MO Xiu wanted to stay a little longer, he could take the opportunity to chat with Yiyi.

After interacting with Yiyi for half a day, she was relatively pure and kind. He should be able to get a lot of information out of her.

If he wanted to go home at this time, he couldn't be at ease with those two people. He was a little worried that they would cause trouble.

When they returned to the hotel, Bailey and Nong Zhang had already returned. Moxiu passed his phone to the two of them, and the three of them saved each other's numbers.

"How are you two today?" asked MO Xiu. Have you completed the mission? It was not easy for him to figure out his phone, and he was even ripped off. Now that he had a job, he worked at the convenience store downstairs."

Interesting," Bailey said with a smile."

"What are you laughing at? The convenience store meets my requirements. I can contact more people and stay here temporarily. After I get familiar with them, I can set off for the first ten cities."

Bailey nodded and said," Okay, let's go according to your plan. We've found a house. It's not far from here. The house isn't very big, but it has three bedrooms. We should have no problem staying here. The rent is 800 per month. It's at least three months 'rent at a time. We might not live for three months, but there's no other way. The landlord said that he wouldn't agree to pay once a month."

MO Xiu glanced at the Nong Zhang and said," That's not important. Is the Nong

Zhang still obedient today?”””

Nong Zhang said,” MO Xiu, that’s not right. What do you mean I’m obedient? ‘ I’m very fond of fighting, but I also know how to abide by the rules. You’re the captain, so I should listen to you. Just like how I’m ranked second on the Royal Family’s strength rankings. I haven’t fought for so many years, and I haven’t caused trouble everyvvhvhere, right?”

Nong Zhang said so many words in one breath. MO Xiu was stunned.

Indeed, he had been able to hold himself back in the royal family for so many years. Now that this matter was of great importance, he would definitely be able to control himself.

MO Xiu laughed at himself. It seemed like he had thought too much.

” I know. How about this? Bailey doesn’t have the ability to protect herself, so she’ll be in charge of the logistics first. Nong Zhang will help Bailey tomorrow. You can take your time to find a job. I’ll go to the convenience store to understand the situation first and see how the beasts are doing now.”

The two of them had no objections to MO Xiu’s distribution.

Bailey was very good at socializing. As one of the most powerful people in the royal family, she had to deal with all kinds of things every day.

However, in the wild beasts, she could not use her skills. Without the ability to protect herself, she could not take risks easily.

As for Nong Zhang, he had no problem doing some physical work, but he was not good at socializing.

Moxiu returned to his room after giving his instructions. There were some things that needed to be summarized for the day.

After returning to his room, Moxiu took out a pen and paper and started drawing.

There was still a lot of useful information in one day.

The first was that Beast did not have an identity system in the top ten cities. There was no restriction on the purchase of communication equipment as long as one had money.

This was a crucial point. If the wild beasts had not suddenly invaded, they could have sent a large number of spies as spies after Moxiu had stabilized his footing.

The second important discovery was that the fox clan and the ape clan could reproduce. This was something that Moxiu had never expected. The wild beasts had already broken through the reproductive isolation, and a third species had appeared. They were called hybrids.

Judging from the tone of Ape 9527 and the convenience store owner, the hybrids were slightly discriminated against, but they were not ostracized by the purebred foxes and apes.

There was also the magic fox that MO Xiu had never heard of. The ape clan was divided into strong apes and thin apes, while the fox clan was divided into magic foxes and seductive foxes.

What kind of skills would the children born from the combination of four different species have?

Moxiu believed that there would be a variety of skills, and the weakness of a single beast skill would be made up for.

These pieces of information were crucial, as well as the social form of the beasts.

Beasts went to work and got off work on time. They had convenience stores

and communication devices, just like humans who had no skills.

Moxiu didn't know if the wild beasts had developed this way on purpose, or if it was an inevitable evolution when they imitated humans.

However, Moxiu knew that such a society was not conducive to wild beasts waging an all-out war.

Although humans were not on guard against wild beasts, no matter how much time passed, they would fight as long as they mobilized.

Moxiu couldn't imagine the current beast system. When the Beast King announced the start of the war, would a pure and kind-hearted beast like Yiyi attack humans?

In the outside world, the strongest group was operating at full speed. The medicinal liquid project that originally did not want to make a profit had received support and investment from all parties. Coupled with the voluntary donations from the people, when Mu Mu saw the bill, he did not know whether to laugh or cry.

It was even more profitable than before. Neither Mu Mu nor MO Xiu had expected such a result.

Previously, they were prepared to lose money and earn money. They did not expect it to become the most profitable project of the strongest group.

Recently, there was another piece of good news. Another batch of graduates from the strongest club of Yan University had passed the assessment and joined the strongest group, which relieved a lot of pressure for the strongest group.

Also, one person gave Mu Mu a surprise.

It was Zheng Yi, whom he hadn't seen for a long time. Zheng Yi had consolidated almost all the schools in Yan City. The ranking system of the strongest club had also begun to show results. He had selected a group of trustworthy people to join the strongest group.

At this moment, the most powerful group was firmly in the top position in Yan City and even the entire central region in terms of both financial resources and manpower.

This kind of development speed was not what Moxiu had imagined. His original plan was to advance steadily, but due to the pressure from the beasts, it was too late to advance steadily.

Right now, the strongest group could truly be called the strongest. It could be useful in war and even affect the war.

The growth of the Strongest Group ensured that Mumu had enough people and funds to support Hao Ren's Know-it-all. The reason why Moxiu put Know-it-all into the Strongest Group was to get financial support from Mumu.

The development of the outside world was very smooth. A person quietly arrived at the tavern around Yan City.

He found Da Wangba and Da Song Brush.

Big Pine Brush looked at the familiar face and asked, ""Have I seen you somewhere before?"

"No! I want to join the Imperial Family."

"I've never seen you before," Big Pine Brush said disdainfully. "What right do you have to enter the royal family?"

"My name is MO Li, and I am MO Xiu's younger brother. I have something to report to the Imperial Family."

Big Pine Brush and Big Wangba looked at each other. This person indeed looked a little similar to MO Xiu. The two of them did not want to offend MO Xiu, but they also did not want to let him in so easily.

"If you have anything to say, you can tell us. We'll help you pass it on," asked

Big Pine Brush."

MO Li shook his head and said, "No!"

"Since you say you know MO Xiu, how do you prove it?" asked Da Wangba.

"You have four wives."

"Many people know that"

One has a mole on her left shoulder, one has a big foot, one has a good figure, and one..."

"You...go in!"

Chapter 442: Evolution (1)

Early in the morning, Moxiu and the other two woke up early and went to Bailey's rented house together.

MO Xiu briefly looked at the structure of the house. It had three bedrooms, a living room, a bathroom, a kitchen, and a balcony. The environment was not bad, and there were no inconveniences.

The three of them ate a mouthful of bread in the morning and did not eat anything else. After tidying up the room, Moxiu left for work.

Before he took it away, he gave Bailey and Nong Zhang a mission. They would use today's time to research and see if they could find something suitable for humans to eat, whether it was bought or made by themselves.

Moxiu really did not want to eat bread anymore.

The rented house wasn't far from the convenience store, so Moxiu could just walk there.

The social development of wild beasts was similar to that of humans. However, there were no cars, only bicycles. Moxiu didn't quite understand. Since wild beasts imitated humans so much, it should be easy for them to build cars. For some reason, there were no cars.

The working hours were from eight in the morning to seven in the evening. After the night shift was done with the morning rush hour, they would clean up and hand over the cleaning, just like the day shift.

As the night shift was generally more leisurely than the day shift, the night shift was longer and the overall arrangement was very reasonable.

When he arrived at the convenience store's entrance, Moxiu took a closer look at the convenience store. It was called Fox Fate.

The name of this shop was a little special among the numbers. When Moxiu entered, Yiyi was already checking the inventory with his colleagues on the night shift.

The night shift was also a combination of a man and a woman. The man did the physical labor, and the woman was more attentive and responsible for the warehouse. Moxiu suddenly had the illusion that this was not a society of beasts. This was how human society should be.

MO Xiu, Yiyi, and the other night shift staff greeted each other at the same time. The night shift staff got off work, and only Yiyi and MO Xiu were left in the shop.

There were very few customers in the morning and afternoon. The hygiene was clean, and the colleagues on the night shift had also made up for it. The two of them only needed to do a simple check before they could start to slack off.

When he was checking the cashier equipment, Moxiu released his God's permission to check Yiyi.

According to the shop owner, the fox race was divided into Seductive Foxes and Dharma Foxes. Yiyi looked pure and innocent, and did not have the charm of the Succubus race. She should be a Dharma Fox without a doubt.

“Skill: Wind Perception (Passive)

[Skill Effect: Perceive Wind Element. Able to freely control Wind Element to attack (no fixed form). High growth rate, unlimited (current power limit is 2000).]

[Skill: Fire Perception (Passive)]

[Skill effect: Perceive fire elements. Able to freely control fire elements to attack (no fixed form). High growth rate. Unlimited (Current power limit is 3000).]”

The difference between the elemental skills of wild beasts and humans was obvious. Wild beasts’ skills had no fixed form restrictions and could grow freely. Human skills often had certain restrictions, but compared to wild beasts’ elemental skills, there were all kinds of additional effects.

It was still a skill with high growth rate and no limits. It was still a simple and crude skill. Beasts were more familiar with the elements than humans, so they should be able to freely control the form of the elements.

After looking at One-One’s skill, Moxiu had two questions.

Why was the fox clan’s skill, Transformation, that he had originally expected gone?

No matter if it was the Seductive Fox or the Magical Fox, they didn’t have the ability to transform. How did the fox clan transform into human form? This question was difficult to ask, and Moxiu had no way of getting an answer.

The second question was Yiyi’s strength!

The maximum power of the elements that he could use was 2000 and 3000 respectively. In addition, he could freely control the form of the elements, which meant that under the limited power, he could use countless skills.

MO Xiu roughly estimated that Yiyi's strength could be ranked in the top 100 of the strength rankings.

With such strength, how could he not enter the top 10 cities of Beast and become an ordinary cashier in the ordinary Ape 69 City?

MO Xiu began to suspect Yiyi. Could she be a disciple of a large wild beast clan who had come out to gain experience?

The two of them were almost done with their work and stood at the cashier.

Moxiu was thinking about how to speak to Yiyi.

One was the first to speak." Four-Six, you're really smart. You've done everything well in the shop. Don't tell me you've done this kind of work before?"

MO Xiu smiled and shook his head." No. Our village is very poor. We don't have such a high-end convenience store.""

A village without convenience stores? That's really rare. Your working condition doesn't seem like a new employee. You're so smart. Are you really the descendant of a strong ape and a magic fox?"

MO Xiuyan's eyes lit up. This was a good topic. He followed Yiyi's words and said,""Oh? Then what bloodline do you think it should be? The bloodlines in our village are quite messy, so no one remembers these things. Actually, I don't know what kind of bloodline I have either. I asked the boss yesterday because I wanted her to help me take a look."

"Didn't you go to school?" " The school has taught you this. The descendants of the four branches are different. For someone like you who is strong and smart, it is very likely that you have multiple

bloodlines. You don't have the temperament of a Seductive Fox. You should have the bloodline of a Magic Fox, a skinny ape, and a strong ape."

MO Xiu scratched his head and decided to ask the first question and test Yiyi.

"I went to school before, but I only went through half of it. I always had a question. I heard from my mother that in the beginning, the fox clan and the ape clan could not have descendants."

One by one, they covered their mouths and laughed out loud.

"Hahaha, Four-Six, how come you don't even know such basic knowledge? Oh, I'm sorry. I'm not laughing at you. I just find it unbelievable."

MO Xiu scratched his head and said, "I grew up in that kind of environment. There are many things that I don't know. It's a little embarrassing to say it out loud. How about this? You don't have to tell me. It's too embarrassing for others to know."

Yiyi thought that MO Xiu was angry and hurriedly said, "Don't. If I tell you this time, won't you know? I didn't laugh at you, and I won't tell anyone. Believe me, I told you to call me Yiyi. We're friends."

With MO Xiu's appearance, it was difficult for him to pretend to be a little naive. However, his sincere gaze did not make Yiyi suspicious.

Most importantly, wild beasts didn't have the awareness that humans would sneak in. Even if Moxiu's behavior was a little off, there was a high chance that they wouldn't think that it was a human.

"Yiyi, thank you so much."

One by one waved his hand and said generously, "Don't be so polite. As friends, we should help each other."

Moxiu could only see innocence and sincerity in Yiyi's eyes. There was no problem with Yiyi. There must be another reason why he did not go to the top ten cities.

"I know!"

"The fox clan and the ape clan can reproduce because the fox clan has evolved.

"Evolve?" Moxiu frowned..Where Stories Blossom: N^ovelBjn.

Chapter 443: Fox City

One by one, they replied," Yes, yes. In the beginning, the fox clan had a skill called transformation. It could allow us to transform from our fox form to our current form. The fox clan has always been proud. After the war, almost all the fox clan members were unwilling to transform back to their original form and remained in their current appearance. As time passed, the transformation skill disappeared, and the fox clan members were unable to transform back to their original appearance."

MO Xiu was enlightened. So that was the case!

There was no way for the fox clan to return to their original form. This was indeed a kind of evolution. They had evolved into a race that was closer to humans than the ape clan. Therefore, the reproductive isolation had disappeared. The fox clan and the ape clan could reproduce and have various kinds of hybrids.

' I see." Moxiu nodded and said," So there's such a thing. I thought that the Fox clan was originally like this.'"

Moxiu was about to ask some other questions when a customer came in.

"Welcome!"

Yiyi and MO Xiu spoke together.

In the northwest of the Western Region of the Beast Territory.

Prince Xi and the other two chose to stay in a village to gather information.

The three of them had no money or cell phones.

However, in just two days, he had already gained the trust of the villagers.

Just as MO Xiu had expected, this group was the most stable. Even if something happened to MO Xiu, there was no problem with King Xi's team.

The three of them chose to be the three marchers from the city. Prince Xi and Zhuge Zhong were very good friends, and Li Ling 'er was naturally Zhuge Zhong's wife.

His practical trick was the same as MO Xiu's. He used the difference to reduce suspicion. When he entered the city, he said that he was from a remote mountain village.

When they entered the village, of course, they would say that they were from the city. As long as they were careful and did not boast too much, they would not be discovered.

The three of them stayed at the village chief's house. Li Ling 'er said,""Prince

Xi, what should we do next? It was impossible for him to live in this village forever, right?"

Prince Xi said," In a few days, we will gather some information before entering the city. But right now, the most important thing is to contact Moxiu and see how things are over there. As long as we share our resources, it will be much easier for us to integrate into the wild beast society."" "It's very strange." Zhuge Zhong interrupted."

“Zhuge, what did you say?” King Xi asked. What’s strange about it?”

“The meat in the village is very strange. I can’t tell what kind of meat it is, but the quality of the meat doesn’t seem to be from a farmed animal. It looks more like wild meat. The meat quality is very tight, and it contains a lot of nutrients.”

Prince Xi said,” It’s indeed a little strange when you put it this way. There’s no place to raise animals in the village, and there’s no habit of hunting. How did the meat come about?” Ape 3476 will go shopping every week. I will think of a way to go out and take a look when I go out of the village next time.” Zhuge Zhong nodded.

After two days of interaction, Prince Xi realized that it was not that Zhuge Zhong was cold and unwilling to talk, but that he had never come into contact with anyone since he was young. He had been studying his skills at home, which led to him not being able to communicate with others.

For example, Zhuge Zhongdu couldn’t say some important polite words between people, so he gave people the impression that he was cold and unreasonable.

Zhug Zhong actually had his own way of thinking. Sometimes, he would be of great help to Prince Xi. Coupled with Li Ling ‘er’s guidance, this group was definitely the strongest.

Western Beast Region, southwest.

Rong Bang had the advantage of invisibility. They passed through many villages and cities without showing their faces once. The way they gathered information made MO Xiu and Prince Xi envious and jealous.

He stood at the side and eavesdropped on the conversation of the locals, then filtered out useful information from these words.

This might not be very efficient, but the accuracy of the information was very high.

Rong Bang heard that the most important and core areas of the wild beasts were the top ten cities. The fox clan and the ape clan both had top ten cities.

If they wanted to obtain useful information, they had to go to the top ten cities. Therefore, Rong Bang did not beat around the bush and went straight to Fox City.

According to the logic of the beasts, this city was the core of power. Perhaps the Beast King was here.

The city was heavily guarded, but it was nothing to an assassin like Rong Bang.

After jumping over the wall, he used the convenience of invisibility to bypass the guards.

As soon as they entered the city, Rong Bang felt that something was wrong. There was a unique fragrance in the air.

Rong Bang's hidden and firm heart was thrown into chaos as a primitive impulse attacked him.

Rong Bang realized that something was wrong and immediately suppressed this desire. He stood on the spot and did not dare to take another step forward.

Rong Bang's advantage was invisibility and agility, but if the enemy could control his mind without seeing him, then everything would be over.

To the west.

Moxiu had chatted with Yiyi for a long time today. He did not expect the progress to be so fast and obtained a lot of information.

Looking at Yiyi's innocent face, MO Xiu suddenly felt that he was a bad person to lie to such a girl.

Thinking of this, MO Xiu finally reacted. He had yet to ask Yiyi's age, so he did

not Know 11 It would De a little ruae to asK directly.

“That...Yiyi, how old are you this year? I don’t know yet.”

One smiled brightly and said, “I’m five years old this year. I’m already five years old and I’m still working in a convenience store.”

MO Xiu was shocked by Yiyi’s words. Yiyi was only five years old? He clearly looked the same age as him. What was going on?

He suddenly felt that he was even less human. Wasn’t this lying to a child?

What shocked Moxiu the most wasn’t this, but the combination of strength and age. It was extremely terrifying.

Either Yiyi was a peerless genius among beasts, one in ten thousand, to be able to reach his current strength at the age of five.

Either that, or the wild beasts had grown so fast, and if their reproduction speed was any faster, humans would not have a chance of winning.

Moxiu could only pray that it was the first possibility. The innocent girl in front of him was a prodigy among wild beasts, or perhaps a lost princess.

However, even just imagining it made MO Xiu feel that it was too much. Even if such a thing had happened, how could he have encountered it so coincidentally?

One by one said that he was already five years old and still working in a convenience store. This meant that he was already an adult among the fox clan and could do many jobs.

This also explained why there was only one school for beasts, unlike humans who had primary schools, middle schools, and universities.

Beast's school only had a year and a half of classes. According to Yiyi, they taught simple language and history.

The other advanced stages of knowledge were after graduation, choosing a company according to their interests, and then learning after entering the company.

In the beast society, there was no test to create value with diligence and wisdom.

After entering the company, if you were willing to learn and work hard, you would have a good future, but as long as you were lazy, you would be eliminated.

This society did not have many rules and regulations, but it was cruel enough..

Chapter 444: The King of the Underground World

Through his conversation with Yiyi, Moxiu learned a lot about wild beasts. A five-year-old was considered an adult among wild beasts. Now, as long as one knew the average age of wild beasts, the average age of death, and the fertility rate, one could roughly estimate the total population of wild beasts.

However, it was not possible to estimate the combat strength of wild beasts for the time being. At the very least, one had to enter the top ten cities to do so.

As they chatted, the evening rush hour arrived again. MO Xiu and Yiyi looked at each other after they were busy. The two of them were working more and more harmoniously. When there were the most people just now, there was no panic at all.

Once the evening rush hour passed, MO Xiu and Yiyi cleaned up. After that, Yiyi went to the storeroom and let MO Xiu leave first.

Moxiu didn't go help, to avoid appearing too deliberate, and left first.

When he returned to his residence and saw the hotpot on the table, Moxiu had a headache.

"Bailey, the two of you have been thinking about it for a day, and you're making me a hotpot?" Moxiu said."

Bailey was also a little embarrassed and said softly, ""Moxiu, I don't have a choice either. I have a very good life in the royal family, and I cook from time to time. I also want to show off my culinary skills, but ah...there's an old saying in the central continent, 'A clever housewife can't cook without rice'. I really don't have a choice."

MO Xiu was a little curious when he heard this. He asked, ""Are you saying that there are no ingredients here? Tell me the details."

Bailey looked at the farm stamp and said, ""Today, the two of us went to almost all the supermarkets in the city. The products there were too simple. The staple food was okay. There was rice, noodles, and oil, but there was nothing else. There was only one type of dish. I couldn't tell what it was, but it didn't taste good. There was only one type of meat, but I couldn't tell what animal it was. According to my observation, many foxes still retained the habit of eating raw meat. No wild beasts were willing to cook, so in terms of seasonings, there was nothing else except salt."

MO Xiu's eyes twitched. He pointed at the hotpot and said, "So, this isn't a hotpot at all. It's boiled meat in salt water?"

Bailey nodded. Moxiu shook his head helplessly. "Looks like we'll be eating bread for a long time."

However, the meat this time was much more delicious than the one Moxiu had eaten at the restaurant. At least the meat was completely cooked and had a meaty fragrance. Other than the lack of seasonings, the taste was surprisingly good.

The three of them had eaten a lot of salted meat. No matter what, it was the most delicious dish they had eaten in the past two days.

After dinner, Bailey asked, "Moxiu, there's no more work in the logistics department. Should Nong Zhang and I go out and find a job?"

"You said that the two of you walked around the city today, so you should know a lot about this place, right? Now, we'll start sharing information, and then we'll decide what you'll do next."

Since the three of them were acting separately, it was necessary to communicate information in a timely manner.

Moxiu told him the information he had learned from Yiyi today. The beast's bloodline, age, education, job, and local customs.

At most, Bailey only talked about some terrains and buildings that she had never seen before.

There was a huge building near the central area of the city. There were many guards around it.

There was a security station in every street. Bailey heard that there were security officers in there to maintain order. Once there was trouble or any case, they would be dispatched. She was not sure about their exact strength.

Every street had a security station, which meant that Ape 69 City's security should be pretty good. However, the three of them encountered Ape 9527 on their first night here. Based on the information they had, Moxiu deduced that Ape 69 City was a completely different city during the day and at night.

Otherwise, why would Ape 9527 rob so recklessly? Moreover, the dark forces at night might have some kind of rules and different forces.

MO Xiu glanced at Nong Zhang and thought of what Nong Zhang had said yesterday.

Could it work?

After an intense mental struggle, Moxiu finally decided to trust Nong Zhang. If he didn't trust his teammates, how could his teammates trust him?

MO Xiu slammed the table and said with a serious expression, "Alright, since that's the case, the two of you can start moving out as well."

Bailey and Nong Zhang looked at Moxiu with anticipation.

Moxiu said, "First of all, Nong Zhang has to bring Bailey to find a job. Without an education diploma, it will be difficult for her to enter a formal company. She'll find a job in a convenience store first. After she finds a job, Nong Zhang will be responsible for sending Bailey to and from work."

Bailey was excited after hearing that. She could finally take action. Nong Zhang seemed a little disappointed. It was such a job again.

There were two reasons for Moxiu to let Bailey work. One was that the security during the day was good, and the danger was greatly reduced.

The second reason was that she knew about the existence of the magic fox. Since there was a magic fox, Bailey's skills would not be as conspicuous. If necessary, she could use her skills to protect herself.

MO Xiu looked at Nong Zhang's disappointed expression and said, "Nong

Zhang, you have other missions."

The originally disappointed farmer immediately raised his head and looked at Moxiu.

For Moxiu to say this, he must have a very important mission.

MO Xiu did not disappoint Nong Zhang and said, ""Do you still remember Ape

Nong Zhang was stunned for a moment before saying, "One of the people who robbed us when we first arrived?"

"That's right, he's the leader of that group. My task for you is to find him." Nong Zhang frowned and said, "This city is so big. How can I find it?" "" MO Xiu voiced his thoughts.

If I'm not wrong, Ape 69 City will change into a completely different place when night falls. People like Ape 9527 will come out. I don't believe that they don't have their own system. You should go to the place where you met last time and look around to see if you can find him."

Moxiu's analysis wasn't purely based on guesswork. After analyzing the situation, he realized that the security department didn't care about anything at night. Wasn't that strange?

Also, during the past few nights, Moxiu realized that there were very few people strolling on the streets. Even if there were, they would walk around in groups like Ape 9527. They didn't look like good people.

"I understand. What happens after we find him?" Nong Zhang replied. What should I do? Arrest him?"

MO Xiu smiled and said, "No!" You tell him that you want to come out and make a living. Let's see how he will respond. He has seen your strength and can be a breakthrough."

Nong Zhang wasn't stupid and knew what MO Xiu meant. He said excitedly, ""Are you saying that if there is an underground world in this city, I can join it and fight without being restricted? But there's one thing I'm not good at. How should I tell them to make them believe me?"

' You don't have to worry about that," Moxiu said. "I'll help you write a good script. You just have to say it naturally when the time comes.""

Nong Zhang nodded.

MO Xiu looked out the window and sneered.

There was something that MO Xiu did not say.

MO Xiu wanted Nong Zhang to become the king of the underground world!

Chapter 445: Tang Wanhua

It was already late at night. Looking at the scenery outside the window, Moxiu suddenly had an idea. However, he didn't know if this idea could be realized.

"I'll go look for it now," said Nong Zhang."

MO Xiu took out a pen and paper, wrote a paragraph, and handed it to Nong Zhang."If you see Ape 9527, tell him what's written on the note."

Nong Zhang took the note and hurried out.

"Moxiu, didn't you say that the farm stamp is unstable?" Bailey asked. Why did he have to carry out such a dangerous mission?"

Moxiu stood beside Bailey and said,"Then what do you think we should do? Nong Zhang is indeed unstable, but he is one of us. We live here and carry out missions, so we can only rely on each other. What Nong Zhang told me yesterday made me feel very touched. No matter how warlike he is, he is still a member of the royal family. At least he knows what he can and cannot do. Besides, there is something that is very suitable for him to do. There is no problem."

Bailey looked at Moxiu and nodded. That's right, they couldn't contact the humans. They couldn't even contact Prince Xi and Rong Bang. The only people they could rely on were the three of them. They should give Nong Zhang more trust.

MO Xiu started to think about how to go out and how to go out for a few days. If there was anything, he could immediately come out and solve it.

However, now that he thought about it, he should just let it go. Since he had already decided to believe in Nong Zhang, then he should trust him completely. There was no point in doing so.

It was better to send a message.

“Pay attention to your safety. Contact me immediately if anything happens.”

Soon, Nong Zhang replied.

“Understood!”

Moxiu returned to his bedroom. At this moment, the three of them had stabilized. The first task was to contact Prince Xi.

MO Xiu wasn't very worried about Rong Bang, and it would be very difficult to contact him.

During the day, he would leave it to Moxiu and Bailey, and at night, he would leave it to Nong Zhang.

MO Xiu picked up Elder Tang's diary and continued reading.

“April 19th.

It was unknown what kind of deep hatred existed between humans and wild beasts. Not long after the war ended, the wild beasts started a third war.

Sigh! I'm going to be separated from Li Qing again.”

“September 20th.

The wild beasts seemed to have found their advantage in being on the side of the wall. They launched a large-scale attack, and we were defeated one after another.”

“October 30th.

Humans first use nuclear weapons before use, hot weapons before use, beast damage before use, limited, on the contrary, there are some people who take the opportunity to launch a coup, this time, nuclear weapons before use, don't know what the result is?”

“December 9th.

The results of the nuclear weapons were out.

It caused a large amount of damage to the wild beasts, but the defense of the wild beasts was amazing. Most of them did not die. According to the investigation, these wild beasts had mutated. It was still unknown whether the wild beasts would develop in a stronger direction or become weaker.”

“March 16th.

In the past few months, the human camp had relied on the casualties caused by nuclear weapons to relieve a lot of pressure.

However, the news had just come back that the nuclear weapon had mutated the wild beasts, and their combat strength had soared. The human camp might not be able to hold on any longer.”

“April 5th.

The human camp was completely defeated, and the wild beasts rushed into the human territory.

He had gone back! Everything returned to the initial stage of the mutation, and there was only chaos.”

“April 7th.

I’m still at the front line. I wonder how Li Qing is doing? I was very conflicted. Should I be a deserter to save Li Qing?”

“April 8th.

I’ve decided to stay at the front line. I just talked to Li Qing on the phone. She’s safe there. If I go back, she’ll look down on me, right?”

“Li Qing is dead!”

“September 11th.

Supreme accepted me as his disciple.”

Seeing this, Moxiu closed the diary. The handwriting at the back was different from before. It should have been written after a long time. Moxiu didn’t continue reading.

Because Moxiu was also very sad, he could feel how heartbroken Elder Tang was at that time.

There were no other words on the entire page, not even the date. There were only four words: Li Qing was dead.

The words were a little distorted and seemed to be trembling. What kind of emotion did he have to write these words?

Not only that, MO Xiu was very upset when he read this part. He thought of himself and Mu Qingyi, and the current situation was similar to Old Tang and Li Qing's situation back then.

He was at the front line, the beasts were about to start a war, and Mu Qingyi was far away in the north. The strength in the north might be breached, and MO Xiu's worry for Old Master Tang had turned into worry for Mu Qingyi.

This diary entry was Beast's third war.

Mr. Tang and Li Qing had just gotten married not long ago, and they had yet to live a peaceful life. Mr. Tang had no choice but to go to the front line.

The war was still as difficult as ever. The real turning point was the use of nuclear weapons.

The diary had mentioned that the effect of humans using firearms was not obvious, and there was the danger of a coup.

It meant that the true ruler of mankind at that time was not supreme. Someone else had real power.

After the use of nuclear weapons, there were several twists and turns.

Firstly, nuclear weapons were effective, causing casualties among wild beasts.

The human side benefited from this and relieved most of the pressure.

After that, there was news that the wild beasts had mutated, but no one knew which direction they had mutated in. Everyone was in a panic.

Then, the mutated beasts became even stronger and launched a general attack on the humans. In the end, the humans were defeated or even fell.

The turning point was nuclear weapons.

Due to various considerations, humans did not use nuclear weapons in the beginning. It was the beasts who had repeatedly waged war, and humans were at a disadvantage, so they used nuclear weapons.

In the end, everyone thought that the ones who would suffer in the end would be humans themselves.

Moxiu looked at the cover of the diary in a daze. This was truly the best history book. Otherwise, after a hundred years, during the chaotic times, very few people would record history. Some details and key events would be forgotten by people.

Fortunately, Mr. Tang had the habit of writing in his diary.

There was one last question. At the end of this paragraph, Elder Tang said that Wu Shang had accepted him as a disciple.

Did that mean that Mr. Tang and Yoruhan were brothers?

MO Xiu was not in the mood to continue reading the diary. Curious, he flipped to the last page of the diary.

It was Tang Wanhua.

It turned out that Wan Hwa was Mr. Tang, and Mr. Tang was Wan Hwa.

When MO Xiu asked about Wan Hwa, Mr. Tang even shamelessly boasted that Wan Hwa was a little handsome.

MO Xiu shook his head. If it was said that Elder Tang was Wan Hua, then didn't that mean that Elder Tang had studied the Heaven Devouring Beast a hundred years ago?

In the illusion of the patterns on Xiao Fushun's back, the two of them had once crossed time and space to meet, and the old Tang back then was completely different from the current him.

At that time, Elder Tang was domineering and didn't fear any wild beasts that wanted to hunt the Heaven Devouring Beast. Now, Elder Tang had become easy-going and his temper had gradually been tempered. He even named the Heaven Devouring Beast Little Fushun and sent it to him.

Wait a minute!

If Mr. Tang and Yoruhana were the same person, that meant that there was no one hunting Little Fushun.

This meant that there was a high possibility that Little Fushun was still alive. Moxiu sighed. It was good that he was still alive.. He hoped that they would not meet again in the future!

Chapter 446: I'll Bring You One Every Day From Now On

Early in the morning, MO Xiu arrived at the Fox Fate convenience store as usual. His work was the same as yesterday.

After the two of them were busy for a while, they began to chat. The two of them were very familiar with each other, and Moxiu could easily ask some questions.

"Yiyi, I heard that the Beast Kings might start a war soon. Is that true?" asked Moxiu."

"I've heard about this too, but that's not what we should be thinking about.""

MO Xiu said excitedly,"Don't. It's fine for us to talk. I'm very interested in this. Don't you look forward to war?"

Moxiu said that on purpose. Although wild beasts had learned a lot of human knowledge in the past hundred years, it shouldn't be so easy to completely get rid of their wild nature, right?

Yiyi did not seem interested and said, "What's so good about war? I feel that my current life is very good. It's comfortable and fulfilling."

MO Xiu still looked at Yiyi with anticipation. Yiyi had no choice but to say, "Alright, I heard that the Beast King wants to attack the human territory, but I don't think it's necessary. Our living environment is good, and our territory is sufficient."

Yiyi's face was filled with disgust. Moxiu was somewhat puzzled. Yiyi was somewhat against war. Why was that? Was he trying to maintain a stable life? Where was the bestial nature of a beast?

If this was the general idea of wild beasts, it was definitely good news for humans.

That day, Moxiu spent his time chatting with Yiyi.

When he left the convenience store, Moxiu still felt a little reluctant. He did not get much information today. Basically, it was about local customs. However, chatting with Yiyi gave him a very comfortable feeling.

Chatting with Yiyi did not feel like a burden. It was like a gentle breeze. Moxiu often forgot that this was the territory of wild beasts and that the girl in front of him was a wild beast.

Back at her residence, Bailey said excitedly, "Moxiu, I found a job. We're in the same industry, and I'm also a cashier. I work in a supermarket."

Moxiu nodded and said, "Not bad. You found a job so quickly. We've learned more or less about the social environment of wild beasts in the past few days. The next important thing is to find a way to live in the top ten cities. There must be a way, but it might be a little secretive. Don't be too hasty."

Bailey replied, "Understood. Don't worry. My supermarket is very big. People from all walks of life will go there. I'll take my time."

There shouldn't be anything to worry about on Bailey's side. Moxiu turned his gaze to Nong Zhang.

"Nong Zhang, how are you?"

Nong Zhangru reported, "I didn't meet Ape 9527 last night, but I met someone who looked like one of the five people from that day. He ran away immediately after seeing me."

"Then Ape 9527 will most likely appear tonight. Remember, if there are a lot of them, try to communicate with them. If they don't listen, you can use force." When Nong Zhang heard this, his eyes lit up and he said, "Are you saying that I can make a move?"

Moxiu sat at the dining table, picked up a piece of meat, and put it in his mouth. He frowned. The meat this time wasn't as delicious as yesterday.

"Of course, you can use force at night, but you have to slowly learn when to use force. Tonight, you can only use 50% of your strength at most. If 50% of your strength is not enough to deal with the enemy, escape immediately."

Nong Zhang was a little dejected at first, but then his eyes became firm. He raised his head and said to MO Xiu, "Understood. I will do as you say."

Early in the morning, MO Xiu wanted to wait for Nong Zhang to come back and ask about the situation, but he didn't come back even when it was almost time for work. Seeing that he was going to be late, he could only go to work first. When she arrived at the convenience store, it was just in time. She was about to be late.

When she entered, Yiyi had already finished checking the library and was about to complete the inspection.

"I'm sorry, Yiyi. I'm late."

"It's okay, you're not late."

Moxiu quickly went to the cashier to help out, then started chatting again. At noon, Yiyi took out two lunch boxes from his backpack and handed one to

Moxiu.

MO Xiu took the lunchbox and asked in confusion, "" What is this?"

One said shyly, ""I saw that you've been eating bread for lunch every day these past few days. When I was cooking yesterday, I made some more, so I brought it for you."

MO Xiu was stunned. What was going on? Brought me food?

It wasn't that he didn't want to eat anything else, but he really couldn't eat anything else other than bread.

Yiyi's cooking was probably the same, but how could she reject his good intentions?

She opened the lunch box and was a little surprised.

It was fried rice. It was a mixture of a few ingredients from the Beast World. There was rice, meat, and vegetables, but because there were no seasonings, the color did not look very good.

The food made like this didn't seem so irresistible. MO Xiu looked at Yiyi and took a bite.

The taste was very strange. It was clearly a few unpalatable things, but after putting them together, it didn't feel that bad. Of course, it was definitely not delicious. At most, it was like human food. "Yiyi, thank you for the food."

One by one smiled and said, "Is it delicious?" ""

Moxiu quickly nodded and said, "It's delicious. This is the best meal I've ever eaten." "

Moxiu added in his heart. This was the best meal in the wild beast territory. Yiyi looked very happy and said, "Then I'll bring it for you every day in the future."

MO Xiu was stunned. Although this meal wasn't difficult to eat, it couldn't compare to the status of bread in his heart.

"No need, no need. I'll just eat bread."

One was still smiling a second ago, but in the next second, she pouted and said, "Is it because my cooking is not delicious?"

MO Xiu lowered his head silently and said, "Delicious!" "That's good. I'll bring it to you every day in the future."

"I'm so sorry. I always eat your food."

It's nothing. You're such a good person. Let's help each other. I live alone.

There will always be a place where I can ask you for help."

"Do you live alone?" Moxiu asked. Where's your family?"

One shook his head and said, "I don't have a family. I live alone in this city. I live not far from here. You can go and take a look when you have time."

MO Xiu thought about how a person like Yiyi would not have a family. He then nodded subconsciously.

Yiyi did not expect MO Yu to agree so readily. Her face was slightly red as she lowered her head and said, ""Wait a few days. I have something to do these few days, so I won't invite you."

Only then did MO Xiu realize that it was a little impolite for him to go to the lady's house. He hurriedly said, "No rush! Ah, no, after eating your food, I'll go to your house and let you taste my cooking when I'm free."

Yiyi nodded and said softly, ""Alright!"

Chapter 447: Aiya, F * Ck (1)

In the evening, MO Xiu didn't stop and returned to his residence.

There was no news from Nong Zhang for the entire day. Moxiu was a little worried. When he returned, he saw Bailey Nong Zhang sitting down and waiting for him.

"Why haven't you heard from me for a day?" MO Xiu looked at Nong Zhang and asked. "

I was too tired last night," Nong Zhang said embarrassedly. "I went to sleep after sending Bailey off in the morning. I slept until I picked Bailey up just now.""

"Alright then. It looks like we succeeded last night, right?" Moxiu sat down and said."

Nong Zhang nodded and began to explain what happened last night.

Time returned to last night.

Nong Zhang strolled around the place where he met Ape 9527 last time. It was just 10 pm when Ape 9527 appeared, and he was not the only one. There were many others.

After Ape 9527 heard that Nong Zhang had appeared nearby, he immediately gathered his men to come here today for nothing but revenge.

There were a lot of people on the other side. There were more than a hundred of them. Nong Zhang did not panic at all when he saw them. Instead, he appeared a little excited.

Ape 9527 walked closer and saw the excited expression on Nong Zhang's face. He cursed in his heart, "Pervert!"

"You! Your name is Fox888, right?"

Nong Zhang nodded without saying anything.

Looking at Nong Zhang's expression, Ape 9527 recalled the day he was beaten up and could not help but feel a chill in his heart.

After looking back at the people behind him, he became more confident and continued, "Kid, you sure have guts! He still dared to come here. Where was the leader?"

"He won't come," said Nong Zhang. "I'm the only one who came. In the future, only I will come. ""

Ape 9527 laughed and said, "You're so funny. I don't even know if you can go back today. You still want to come back?" That's impossible!"

"I'm not here to cause trouble," Nong Zhang said. "I want to earn more money. I need to join you.""

"Hahaha, you're not looking for trouble?" Ape 9527 said disdainfully. "You haven't settled your debt with me yet. I can't let you join."

Nong Zhang was expressionless as he asked seriously, ""If there's a problem, we'll solve it. At that time, you were the one who wanted to rob us first. It was just that you didn't succeed, so I didn't hold it against you. I want to see how you want to settle the score."

These words were taught to Nong Zhang by Moxiu. There should be rules wherever you go. Since this was the dark zone, you couldn't be seen in public. There were all kinds of rules in the daytime world, but in the end, it was still a competition of who could fight with their fists.

There were rules in the world at night, but they couldn't be any more than during the day. Those who were stronger had the right to speak.

Therefore, the character that MO Xiu had designed for Nong Zhang was not a

smooth person, and Nong Zhang could not do it.

Directly shaping Nong Zhang into a tough character. If you're not convinced, you can try it. This is in line with Nong Zhang's personality. It's not easy to expose himself. Moreover, as long as you have strength, this way of doing things should grow very quickly at night.

Ape 9527 had experienced Nong Zhang's strength before. Nong Zhang's domineering words made him a little at a loss.

Nong Zhang's words were very clear. If you were reasonable, I would reason with you I am in the right-

However, if you don't want to be reasonable, then let's have a competition. I'm not afraid of you!

While Ape 9527 was still thinking about how to deal with this matter, a person behind him shouted, ""9527, why are you talking to him? Just kill him!"

The man was about to go up when Ape 9527 grabbed him and said to Nong Zhang, ""Fox888, I'm not an unreasonable person. You can join us if you want, but we have to fight this battle today. No matter who wins or loses, you can join us."

Ape 9527 wasn't stupid. On the contrary, with his ordinary strength, he had so many brothers. It could be seen that he had some brains.

Nong Zhang's attitude just now made Ape 9527 sober up. The two of them indeed had some hatred, but it was not a deep hatred. Fox888 wanted to join him, which was a good thing. At least he had a strong helper.

However, since these hundred people had already come, they could not just let them go back. That would be too embarrassing. They might as well fight. Regardless of whether they won or lost, the previous grudges would be written off.

It shows that you are not afraid of being a coward, but also shows that you are sensible, and you are clear about your feelings.

Ape 9527 was proud that he could come up with such a good method, he wanted to kiss himself.

Nong Zhang, who was on the opposite side, looked over. Among these hundred people, all of them were strong apes. There were some hybrids among them. Their main fighting method should be to rely on brute force.

At this moment, Nong Zhang had Moxiu's Martial God on him, so it would be effortless for him to deal with them. However, it would be troublesome if Moxiu did not allow him to use his full strength.

Nong Zhang was a martial arts fanatic and a battle maniac. He was not good at other aspects, but in terms of combat, he was an expert in investigating the opponent's situation and estimating the opponent's combat strength.

While the three of them were sharing their resources, Nong Zhang was also memorizing these things.

Therefore, at this moment, it was obvious that this battle could not be lost. The crowd was led by Ape 9527, which meant that the average strength of this group of people was at most Ape 9527's level.

"Good!" Nong Zhang said. Since I want to join you, let my brothers see my strength...'

Ape 9527 stood there with the demeanor of an expert. He raised his right hand and waved it gently.

“Brothers, give me...Oh my god! Fox 888, I haven’t even started yet!”

These 100 strong apes were not strong, and Nong Zhang did not use his full strength.

So even if Nong Zhang had overwhelming strength, he had to fight them one by one.

The battle lasted for an entire hour. The 100 people, including Ape 9527, were all lying on the ground with bruises on their faces.

Moxiu said that he couldn’t use his full strength, nor did he say that he had to hold back in a fight.

Ape 9527 clutched the bump on his head, feeling regretful.

What was this? He wanted to regain some face, but this time, he didn’t get any face back and was beaten up again.

After an hour of fighting, Nong Zhang didn’t show any signs of exhaustion. Seeing that everyone around him had reached the bottom, he said, “What’s wrong? Should he continue? If you want to fight again, I can wait for you to recover.”

Ape 9527 quickly stood up and said, “We won’t fight anymore. We admit that we can’t beat you.”

What kind of joke was this? Nong Zhang’s combat strength was clearly several levels higher.

“According to what you said before, can I become one of you?” Nong Zhang asked. ”

Ape 9527 said, "It's possible, but our temple is small. I don't know if it can accommodate a big Buddha like you."

Nong Zhang smiled and said, "If I say I'll join you, then I'll join you."

Ape 9527 said, "Good!" Brothers, welcome our new brother!"

After a round of applause, Nong Zhang said the last sentence that MO Xiu had given him.

"I just entered the industry and don't know much about the night.. Brothers, can you bring me around to familiarize me?"

Chapter 448: One City, Two Cities!_I

After hearing Nong Zhang's explanation, MO Xiu asked, "It seems that the plan is going very smoothly. What happened after that? What happened at night?"

Moxiu's idea was to let Nong Zhang gain a certain amount of strength at night, and then he would personally investigate as Nong Zhang's underling.

Because Nong Zhang's method of gathering information was weak, he might not be able to remember it.

Nong Zhang was stunned for a moment, as if he did not know where to start. How about this?" MO Xiu said helplessly. "You answer whatever I ask. How about that?"

Nong Zhang nodded.

"Is there a time limit in the world at night?" asked Moxiu."

Nong Zhang answered affirmatively, "Yes! It starts at 10 pm and ends at 4 am at the latest, but I heard from them that it usually ends at 1 or 2 pm."

"What activities are there in the world at night?" Moxiu asked. Robbery was definitely not the main activity. The local residents knew the rules at night. How could there be so many people coming out to be robbed?"

Nong Zhang nodded and said, "Yesterday, Ape 9527 brought me around the entire city. Some hidden shops open at night, and some food and entertainment facilities are actually open. There are also custom streets that are mainly Seductive Fox." "Folk Street? What's that?"

MO Xiu asked in confusion.

"Moxiu, how come you didn't even know about this?" Bailey asked with a smile. Even I, a member of the royal family, know about it. I think you're pretending not to know and want to go and take a look, right?"

Moxiu had never heard of it before. Combined with the tone and expression of Seductive Fox and Bailey, he could roughly guess it.

Moxiu glared at Bailey and said, "If you continue to spout nonsense, I'll let you go there as a spy. I think you'll definitely get a lot of useful information."

Bailey glared fiercely at Moxiu. She did not talk back but muttered softly, "You still know!"

Moxiu didn't speak to Bailey anymore. He turned to Nong Zhang and asked, "Is that all? These were not enough to support the entire night life. How did people like Ape 9526 earn money to live?"

Nong Zhang said, "This involves gangs. I joined a small gang formed by the Strong Ape. It belongs to the weakest organization. Its way of earning money is to participate in all kinds of gambling, fight for territory, open shops at night, and so on."

This was what it looked like to be in the dark. MO Xiu said, ""Can you elaborate on it? For example, Ape 9527's strength."

"Our sect only has one shop. It's a custom shop made up of strong apes. Usually, our business isn't very good. Our main source of income is to do some manual labor to earn money."

MO Xiu was puzzled. Ape 9527 was also a talent. He had opened a store for strong apes. With the fox clan, who would be interested in those strong ape women? As a wife, it was still acceptable. Who wouldn't want to find a good-looking woman to play with at night?

Moxiu's understanding of the way a gang earned money was to rely on a big gang and help the big gang do odd jobs to make a living. Wasn't Ape 9527 equivalent to a contractor?

Why didn't he work during the day? At least his income during the day was guaranteed.

"Is there anything else besides these?" Moxiu asked. Something special?"

My ability to gather information is relatively weak," Nong Zhang said." But I also carefully remembered two places. I feel that they are very important.""

MO Xiu's interest was piqued. It seemed that the farm stamp was quite reliable. He even knew how to pay attention to it.

"Tell me."

Nong Zhang said," Well, one is the Arena. There's nothing much to say about it. It's where the rich fight in the day and the poor fight to the death at night for fun."

MO Xiu nodded his head. This was not unfamiliar at all. Back then, Qiu Qiu had built an arena similar to this in Shun City.

However, Moxiu felt that it wasn't simple.

As expected, in Nong Zhang's description, Moxiu discovered something different.

The purpose of this arena was completely different from Qiu Qiu's. Qiu Qiu's arena could be said to pave the way for the war with firearms, but it could also be said to be for making money.

Therefore, the arena in Shun City was still considered normal in all aspects. There was nothing too excessive.

However, the night arena in Ape 69 City was completely different. All it needed was excitement!

There, regardless of identity or status, as long as the one, the one, the ticket, the one, the one, the one,
the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the
one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one,
the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the
one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one,
the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the
one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one, the one,
the one, the one, the one, the one, the one

However, for the poor, just to see the bloody scene, even victory or defeat was not very important. In order to find the wild nature hidden in their hearts, they could disregard the lives of their own kind.

Any weapon could be used. As long as the scene was bloody enough, they could earn money.

Some of the bigger gangs had their own arenas to attract rich people to invest and support the entire gang.

Bailey fell silent after hearing that. Although Nong Zhang did not describe the details of the scene in the arena, she knew that it was absolutely terrible just by guessing.

Moxiu sighed. It seemed that the wild nature of the beasts was still there. The society of the beasts was not as harmonious as it seemed on the surface.

“What about the second location?”

Nong Zhang took a deep breath and said, “The second venue is even more perverted. It’s a game. The organizer limits a venue, and there are all kinds of weapons in the venue. They publicly gather the people who participate in the game. To participate in the game, you need to pay a ticket. The organizer takes 30% and the remaining 70% is divided equally among the winners. The winning criteria is that all the participants enter the venue at 11 pm and close the venue at 3 am. Anyone who walks out of the venue is the winner.”

Moxiu and Bailey also took a deep breath after listening. This was too terrifying.

If the Arena was to watch others fight bloody battles, then this game was for those who felt that watching it was not enough and wanted to experience it for themselves.

According to Moxiu’s analysis, the ticket price would not be cheap. If they wanted to earn back their capital or earn money after entering, they would have to kill as many people as possible. The fewer people left in the end, the more bonus they would receive.

The beastly nature of wild beasts had never receded. It had always existed, and it was very likely that it had developed to another level in a hundred years.

Previously, Moxiu had thought that the situation was advantageous for humans. The society of wild beasts was orderly, and there would be more and more wild beasts like Yiyi. It would be difficult to mobilize the Beast Kings during a war.

But now, it seemed that the wild beasts had always been looking forward to fighting. Not only were they fond of fighting, but they were also fond of killing!

It was impossible for humans to release their wildness by killing each other.

There were also security stations on every street. Such a dense number of security stations was not because Ape 69 City had good security. On the contrary, only when it was poor would there be so many security stations.

The security office was closed at night, and no one was in charge. Everything that happened at night was tacitly approved by the Beast King.

The wild beast is constantly developing and progressing at the same time, but also does not want to lose that wild nature.

Ape 69 City was not just one city, but two.

During the day, it was a civilized human society.

The night was the wild age of the beasts..

Chapter 449: Beasts Are Not Humans After All

The optimism that he had built up in the convenience store and Yiyi over the past few days collapsed.

If the bloodthirsty nature of wild beasts could not be eradicated, the war would never end.

Just like what Yiyi said, the beast society was constantly improving and perfecting, and the territory was large enough. Why would they still start a war?

Sometimes, there was no need for a reason.

Perhaps it was because of the wild beast's impulse, the desire for war.

The situation in Ape 69 City could be found in any city in the territory of wild beasts. This system could easily release the wildness in the hearts of wild beasts.

However, it was not a long-term solution. As time passed, conflicts would still erupt. If they did not start a war against the humans, there was a possibility of a civil war erupting. That was why this incident had happened.

Moxiu had thought through many things. A wild beast would always be a wild beast. No matter how much they learned from humans, they could never become a human!

However, there were still wild beasts like Yiyi and Little Fushun. Not all wild beasts would look forward to war, right?

After Nong Zhang finished talking about what he had come into contact with, Bailey said, "Moxiu, when I was working at the supermarket today, I discovered something."

Moxiu's thoughts were pulled back by Bailey's words. He asked, "Is there anything strange?"

Bailey nodded and said solemnly, "Yeah, haven't you always been curious about what kind of meat wild beasts eat? " I went to the storeroom today to check. It's very strange. There's not a single complete corpse. All the meat was imported from Ape 99 City. There's no explanation."

"Just say what you want to say!" Moxiu asked."

Ever since we entered the beast territory, we haven't seen any beasts other than humans," Bailey said. "Do you think this meat is..." Hearing Bailey's words, Moxiu also felt that it was possible.

"You mean they eat their own kind?"

Bailey nodded and said, "That's right. I think it's possible. The reason why humans don't eat humans is not only because the law doesn't allow it, but also because of morality. We don't know if wild beasts have such restrictions. I think according to what Nong Zhang said about the night world, there shouldn't be morality among wild beasts."

MO Xiu laughed and said, "Hahaha, thanks to you, we have something we can't

eat. ""

Wild beasts were not humans, but their appearances were no different from humans. Regardless of whether Bailey's analysis was correct or not, they could no longer eat meat.

Moreover, Moxiu had come into contact with so many wild beasts these days, and he was most familiar with Yiyi. When he thought about how the meat in the bowl was of the same kind as theirs, Moxiu found it difficult to swallow. Bailey and Nong Zhang both agreed with Moxiu. They should just eat bread in the future.

The three of them chatted and ate. Nong Zhang saw that it was almost ten o'clock and was ready to go out. It was his turn to go to work.

Nong Zhang, I won't bother about what happens tonight," Moxiu said." You just need to strengthen your current guild. If there's any important information, the three of us can exchange it. ""

"Understood. I will expand my sect as soon as possible," said Nong Zhang."

"There's one more thing!"

"What?"

"Without affecting your plan, help me find out where the people in the arena came from. Is it voluntary or forced?"

Nong Zhang nodded and left.

Seeing Moxiu's worry, Bailey asked, ""Moxiu, although we don't know what will happen next, we did a good job in the first step. The three of us have jobs and can stay hidden for a long time."

I'm not worried about our situation," Motheo said. "I'm worried about the situation of the entire human race. Wild beasts love to fight and kill, so war is inevitable. We might be at a disadvantage in terms of combat power. However, there's one thing I can't figure out."

Bailey came over and asked softly, "What is it?"

"Why didn't the wild beasts catch humans off guard? Instead, he had dragged it out until now? This wasn't the way beasts did things. What was the conspiracy?"

"You mean that this is the key to the victory of this war?" asked Bailey.

"That might not be the case," Moxiu said. "But the Beast Kings must be waiting for an opportunity."

Bailey was deep in thought and did not say anything. Moxiu walked towards his room. Halfway there, he suddenly turned around and said, "You've come into contact with more DeoDle than me. Think of a way to contact Prince Xi!"

In the morning, Moxiu arrived at the convenience store.

Yiyi was still very early and was smiling at him.

Every time he saw Yiyi's smile, Moxiu would temporarily forget about the brutality of a beast.

The morning's work quickly passed. When it was lunchtime, Yiyi took out two lunch boxes from his backpack and handed one to Moxiu, just like yesterday.

MO Xiu took it, but his heart was against it. He opened it and saw that it was the same as yesterday. It was fried rice.

There was meat inside. He looked at the fried rice in the lunch box and then at

Yiyi's expectant eyes.

Forget it, let's eat!

He did eat it, but he didn't eat the meat inside.

Yiyi saw him when he was cleaning the lunchboxes. Yiyi looked at MO Xiu strangely and asked, "46, don't you eat meat? It's so strange."

Suspicious? Did all beasts eat meat?

"I used to love meat," Moxiu said, feigning calmness. "Maybe I ate too much meat, so I don't feel like eating meat anymore. I'm sorry. Did I waste it?"

"Wasted?"

Wrong again? However, he had never seen any wild beasts save food.

Moxiu immediately changed his words and said, "Yes, I've wasted your effort."

Hearing MO Xiu's words, Yiyi smiled happily again and said, "If you don't want to eat meat, I won't put meat in tomorrow."

MO Xiu smiled awkwardly. He was thinking, 'Don't bring me more. I really don't want to eat it. There's no meat. Isn't it just grass fried rice?'

In the outside world, a drastic change was happening.

The north officially entered the preparation phase. The main force of the Holy City moved to the border, ready to fight at any time.

The South was doing a large-scale publicity campaign. They did not plan to hide the fact that the beasts were about to invade the people. The entire South was in chaos. Many organizations were fragmented. There was no civil war at the moment of the survival of the race.

In the central region, they had been silently preparing and mobilizing their forces.

Some of the more perceptive people had already noticed that something was wrong. In addition to the abnormality in the south and north, rumors spread everywhere.

The City Lord of Yan City quickly contacted Yue Long. In just ten minutes of communication, they decided to announce the truth to the public and strengthen their defenses.

Originally, he could have waited a little longer, but that stupid teammate from the south couldn't hold back and had already made it public.

The current situation was that if they were to announce the news a minute later, they would lose a portion of the people's trust in the City Lord's Mansion.

Once the news spread, the people immediately panicked. Fortunately, the sale of the medicinal liquid stabilized the situation. No matter how panicked they were, the medicinal liquid could not be left behind for even a day.

There was still a long queue in every medicinal liquid shop in the city. The law enforcement team and the army were mobilized to guard outside the medicinal liquid shop to prevent anyone from causing trouble.

When selling the medicinal liquid, the staff would also spread relevant knowledge. After a few days, the panic of the people in the central region

became a sense of crisis..

Chapter 450: Can Increase the Difficulty

No one had expected the strongest corporation and the medicinal liquid to play such a crucial role in the early stages of the war.

This made the City Lords secretly feel lucky. They did not expect it to be resolved so easily.

After the central region stabilized, the people began to learn about wild beasts, both old and new.

The old knowledge had been left behind a hundred years ago, while the new knowledge had been told to Xi Bei by MO Li, who was in the royal family.

Xi Bei realized that the wild beasts of today were very different from the past, so he quickly passed down the new information to the streets and alleys, to everyone.

The benefits of doing so were obvious. It allowed everyone in the central continent to have knowledge about wild beasts.

The most terrifying thing was not the disparity in strength, but the unknown.

Humans were always afraid of the unknown. As long as everyone knew about wild beasts, they would no longer be unfamiliar with them. At least, people would not be afraid of wild beasts.

However, there was also a disadvantage.

If the wild beasts had spies in the central region, they would immediately send the news back to the Beast King.

It was difficult for new information that had suddenly appeared on the humans not to be suspected.

If the Beast King suspected something, it would conduct a screening in the territory of the wild beasts. This undoubtedly made it difficult for Moxiu and the others to ambush them.

Xi Bei and MO Li had discussed this before. When MO Li found Xi Bei, he said that he and MO Xiu had some kind of skill connection and could communicate with MO Xiu.

Xi Bei told MO Li the pros and cons of the matter, wanting to seek MO Xiu's opinion.

Moxiu's reply was:

"We can increase the difficulty of our mission, but we can't increase the difficulty of our enemies."

The meaning behind his words was very obvious. If he did not spread the news, what was the use of this undercover mission?

On the imperial family's side.

According to Moxiu's report, there was no news of the wild beasts taking action yet. However, the imperial family was still accelerating their preparations for battle.

In the first phase, the imperial family members sent to the various city lords' mansions returned. After explaining the situation, they entered the second phase.

The younger generation would be the main force in the teams heading to the various cities to prepare for the Royal Family to move out.

The younger generation was not the most powerful generation in the royal family, but they were the most efficient. This operation was to lay a foundation in various cities so that they could properly publicize the appearance of the royal family.

West of the Western Beast Region.

Moxiu was working at the convenience store as usual.

It had been more than ten days since they entered the wild beast territory.

In these ten days, the outside world had undergone earth-shattering changes. MO Xiu and the other two had also made a lot of progress.

There were three most important cases.

Firstly, Nong Zhang's personality and way of doing things were very suitable for the world of wild beasts at night. With his strong fists, he had developed Ape 9527's gang into a medium-sized gang in just a few days. It was only a matter of time before he could threaten those big gangs.

The information brought back by Nong Zhang also cleared up many of MO Xiu's doubts.

Strong Ape's gang was very weak, but they were not annexed or broken up. The main reason was because of Ape 9527.

Although he himself was not very capable, his family was impressive. They were the most powerful and robust ape family in Ape 69 City.

Therefore, even if he was weak, he could still run a gang. Many people were willing to follow him.

Moreover, Moxiu wanted to know how the people in the arena came to fight, and Nong Zhang had also investigated thoroughly.

Some wild beasts were willing to fight. If they won the battle, they would get a lot of money, but they might lose their lives.

Some of them were captured. Some of them were the poor who offended the rich, and some of them were homeless beggars.

Moxiu sighed. The world of wild beasts was really strange. They would seek such stimulation.

The second thing was that after Bailey's hard work, she finally found the possibility of contacting Prince Xi.

The newspaper!

There were newspapers in the Beast World, and they had a large circulation. Many beasts were willing to order them to make themselves look more like humans, but very few beasts would read them.

Beasts would not look, but humans would, especially people as cautious as King Xi. He would not let go of any clues to gather information.

MO Xiu used the money that Nong Zhang had obtained in the Night World to find the largest newspaper in the Beast World and requested to advertise on it. The position did not have to be too obvious, but it had to be long-lasting.

The advertising slogan was also very simple. Lizhang Company was inviting investment! It was MO Xiu's phone number.

The name was Li Zhang, and it was too obvious. Beast's company name had some strange combinations of Chinese characters other than the serial number.

Moxiu had only gotten one word from Bailey and one word from Nong Zhang. He did not put his own name in because his reputation in the central continent was too high. If he was suspected, he would be finished.

If Prince Xi could see this advertisement, regardless of whether he could confirm that it was MO Xiu and the others, he would call to ask.

The first two incidents were all the credit of Bailey and Nong Zhang. Bailey was at the information exchange point during the day, while Nong Zhang was even more all-powerful at night.

From the looks of it, the Farming Chapter that Moxiu had thought was the most unstable had made the greatest contribution.

On the contrary, Moxiu did not do anything.

The third matter was something that MO Xiu had asked from Yiyi and the boss.

At the end of Moxiu's internship, the boss came over for an official review.

At this moment, MO Xiu spoke of his great ambition to enter the top ten cities. He wanted to ask the two if they had any ideas.

Hearing MO Xiu's ambition, the boss and Yi Yi looked at MO Xiu in a different light and enthusiastically explained for more than an hour.

In the end, Moxiu summarized a few points.

There were three ways to enter the top ten cities.

The first was to be born in the top ten cities. As long as one had proof, they could enter. This did not apply to MO Xiu. It was not desirable.

The second was recommendation. Every year, each company would recommend candidates to the city lord to enter the top ten cities. The city lord would then go through another screening before they could enter the top ten cities.

This way, the remaining people were all experts among experts.

This method wasn't feasible either. It would be troublesome to enter the official company with MO Xiu's identity. There was also the problem of time. As a newcomer, it was very difficult to get a recommendation. Even if he got a recommendation, it would take a long time to go through the various procedures.

On the other hand, Moxiu didn't have that much time. Putting aside when the war would break out, every second he stayed here would mean more danger. It was better to complete the mission and return as soon as possible.

Therefore, there was only the third method left. Every top ten city would recruit new members from the outside world. The way to enter was through an assessment.

Neither Yiyi nor the shop owner had experienced it before, so they couldn't tell Moxiu exactly what the assessment was.

However, among these methods, only the third method was feasible. Moxiu decided to give it a try.

For this reason, MO Xiu asked for two days of leave from the boss and prepared to take the assessment.

If he succeeded, he would send a message back. If he failed, he would come back to work.

The boss had a flirtatious appearance, but he was actually a good person. He agreed immediately and wished MO Xiu success.

She even muttered, "If you succeed, my shop will be famous.."
