

Four Skills 451

Chapter 451: Let's Stay A Little Longer (1)

It had been a few days since the news of the central continent sending Moxiu back had been announced.

Logically speaking, this matter should have reached the ears of the Beast King, but Moxiu did not notice anything unusual when he went to work. The life of wild beasts did not change, and there were no strange rules.

Could it be that the Beast Kings didn't care that there were spies in their territory?

Moxiu felt that it was impossible. There must be some reason. If he was the Beast King, there were two possibilities that he had not reacted.

One was that he had obtained information about the intruder and was not in a hurry to draw in the net. However, the possibility was not very high. MO Xiu did not believe that there was an existence like the Elder of Heavenly Secrets among the wild beasts.

Secondly, he felt that it would be too troublesome to take things slow, so he was making a plan to lure the snake out of its hole. This was more likely.

For this reason, Moxiu even specially reminded Bailey and Nong Zhang to stay calm and not panic when they heard any news.

In order to lure out the spies, he needed to use the information imbalance to spread some fake news. However, Moxiu had MO Li as his clone, so he had all the information about wild beasts and humans. He was afraid that others would cause trouble.

This was what Moxiu had learned after so many days. No matter how he ate grass and rice together, it would never taste good. magic

Eating faster could reduce the time the food was in the mouth. If it couldn't taste, it would go into the stomach.

Seeing MO Xiu eat so quickly, Yi Yi smiled foolishly.

"Four-Six, don't eat so fast. Eat slowly."

'I want to eat slower too," Moxiu said." But it's too delicious."

"I was still worried that you wouldn't like it after eating the same meal for so many days.""

"How could that be?" MO Xiu grinned. She would never get sick of such delicious food.'

One suddenly lowered his head shyly and said,""Four-Six, you're leaving the day after tomorrow. I have something to do tomorrow night. Didn't you want to show me your cooking skills?"

MO Xiu was stunned. He had thought that this invitation was a joke the last time. He did not expect that this time, he would be officially invited. But going to a single woman's house was not a good idea, right?

"I was just bragging last time. How could I know how to cook?" said Moxiu. If I knew how to cook, I wouldn't have to trouble you to bring me food every day."

"It's alright, I'll make it for you.""

MO Xiu was still a little hesitant. He said,"But...

One by one, they pouted, looking a little aggrieved.

“But what? I’m a woman, and I’m not even afraid. Are you afraid that I’ll eat you? Aren’t you going to take the exam? “If you really enter the top ten cities, you might not come back. I don’t know when the next time we meet will be. I’ll just treat it as sending you off.”

Since Yiyi was so sincere, MO Xiu couldn’t reject her and could only agree.

At night, it was almost time to get off work. Moxiu sent Bailey a message, telling her to go back later and not to worry!

After working here for more than ten days, this was the first time MO Xiu did not leave early. He stayed behind to accompany Yi Dianku.

MO Xiu wanted to help, but he was rejected one by one. They said that this was a one-person job and that it was easy for two people to mess up.

Moxiu could only stand at the side and watch as One-by-One worked.

Yiyi had long hair, but she tied it up when she was working. At this moment, she was checking the items on the shelf. She squatted down and stood up. A strand of hair fell from time to time by her ear, blocking her vision.

Yiyi tucked her hair behind her ears calmly, and she was not impatient even after doing it many times.

Moxiu suddenly felt that girls like Yiyi were really good. Even though she knew about the wild beasts ‘night lives, she often forgot that the girl next door beside her was a wild beast.

After waiting for the next shift to arrive, they went through a simple handover before leaving with Moxiu.

It was a quarter past seven at night, and the moon had just risen. The two of them walked on the street while admiring the moon.

“46, I actually lied to you about something.”

“What is it?”

“Actually, I don’t have any friends, and I haven’t been in Ape 69 City for long.” One by one, they lowered their heads, waiting for Moxiu to scold them.

MO Xiu said indifferently.

“Who says you don’t have friends? Am I the one?”

Yiyi suddenly raised his head. Perhaps he felt that he was too close to Moxiu, so he slowly lowered his head.

The journey was very short, and they had arrived at Yiyi’s home.

After entering the room, Moxiu looked around. He was curious about what the room of a little beast girl would look like.

The house was very small. There was only one room, a living room, a small kitchen, and a bathroom. There was no balcony.

Since the door to the room was open, Moxiu could easily see the entire house.

However, as Moxiu saw more and more, he began to frown.

It was different from what he had imagined.

Yiyi’s house was very clean, but only clean. It was like a room in a hotel.

There were no decorations, and there was not even a doll on the bed. It did not match Yiyi's personality.

The abnormality in MO Xiu's expression did not attract Yiyi's attention. At this moment, Yiyi was busy preparing to entertain MO Xiu. Snacks and drinks were soon placed on the table. "Four-Six, sit down first. I'll cook for you. ""

Moxiu nodded and continued to look around the room.

It was very boring to sit, so Moxiu decided to get up and walk around. The room was very small, and apart from the living room, there was only the bedroom.

"Yiyi, shall we go in and take a look?" MO Xiu asked as he entered the bedroom." One was busy with his hands as he shouted,"Feel free to look!"

After getting the master's permission, Moxiu walked into the bedroom. It was very clean and tidy. There was nothing inside. There was a table next to the bed, and on the table was a headboard. There was also a relatively large wardrobe.

MO Xiu subconsciously wanted to open the closet, but his hand stopped halfway.

MO Xiu ah, MO Xiu ah, a girl's closet is open, what do you want to see?

Thinking of this, Moxiu retracted his hand and obediently returned to the living room to sit down.

He didn't let Moxiu wait for too long. Soon, the dishes were placed on the table one by one.

"Aiyo, it's hot. Let's eat first."

The two of them didn't communicate much during the meal. MO Xiu was a little uncomfortable in a girl's house, and Yiyi seemed a little shy as well. She kept peeking at MO Xiu.

After the meal, MO Xiu helped to wash the dishes. After all, this was his forte.

After washing up, Moxiu shook off the water droplets on his hands and walked out of the kitchen. "Yiyi, thank you for your hospitality. I'll go back first."

"Forty-Six, why are you in such a hurry to leave? Stay a little longer." MO Xiu was forced to stay one by one and was pulled into the bedroom to sit on the bed.

The reason why he did not leave was because he felt that Yiyi had something to say to him.

Just as MO Xiu was about to ask directly, Yi Yi did something that MO Xiu could not imagine.

She unbuttoned her clothes in front of him.

Chapter 452: Don't You Want Me?

MO Xiu had never seen such a scene before. He hurriedly stopped them and said, "Yiyi, what are you doing?"

"I want to change my clothes."

MO Xiu quickly turned his head and heard the sound of Yiyi opening the wardrobe and changing her clothes.

Seeing that MO Xiu had turned his head away, Yi Yi snickered behind his back and said, "I'm done!"

Only then did MO Xiu turn around. Yiyi had already changed into a white shirt. As the wardrobe was not closed, he could see everything inside.

Apart from the two work clothes, the rest of the wardrobe was filled with white shirts.

Moxiu looked at Yiyi strangely. Yiyi might be an obsessive-compulsive disorder patient among the beasts. Otherwise, wasn't this tidiness a little too much?

As he was thinking, they all pounced at him. MO Xiu couldn't react in time and was pressed down by them.

Yiyi hugged Moxiu tightly. Moxiu did not understand what Yiyi meant. He was fine just now, so why did he suddenly become like this? "Yiyi, what are you doing?" asked MO Xiu."

Yiyi was still lying on MO Xiu's body. He did not get up or reply.

His hands moved, wanting to take off MO Xiu's clothes.

No matter how slow he was, Moxiu could understand what Yiyi wanted to do.

"Stop!" he shouted sternly."

Whether it was emotionally or ethically, MO Xiu could not do this, nor could he let Yiyi do that.

MO Xiu's voice was a little stern, and it might have frightened Yiyi.

Yiyi's entire body trembled before he slowly sat up. He looked at MO Xiu with tears in his eyes.

MO Xiu was extremely puzzled.

You were the one who pushed me. Why do you make it seem like I did something to you?

“Four-Six, don’t you want me?” One said aggrievedly.”

“No!” MO Xiu replied coldly.” “Am I not good-looking?” “You’re very good-looking!” “Did I do something wrong?”

“No! You’ve done well. You’re a good girl.”

One by one whispered, “What’s that about?””

“I don’t like you!” MO Xiu said helplessly. Ah! No, she didn’t have any special feelings for him. She didn’t have any thoughts about him.”

One by one, they tilted their heads and looked at MO Xiu in confusion.

“You like it?”

Oh no!

MO Xiu knew why Yiyi was acting so abnormally.

This was probably the normal way of direct emotional communication between wild beasts.

He was a human, so he couldn’t accept it.

One continued,” Four-Six, you’re so troublesome. You think I’m good, and I think you’re good too. Why can’t we mate and reproduce?”

“Mating?”

Moxiu seriously suspected that he had been teased by a wild beast.

Moxiu immediately stood up and said, "In short, there are some reasons why the ship can't do this. I'd better leave first."

Yiyi lowered her head as if she was very sad. MO Xiu suddenly felt a little sorry for her. However, there were some things that could not be done. After a long time, they raised their heads and smiled."It's okay. I'll send you off."

When Moxiu left, he wanted to explain further. After all, Yiyi was really good. Such a pure and kind beast was too rare.

However, Yiyi did not give MO Xiu the chance to do so. He closed the door without hesitation.

MO Xiu did not stop her because the look in her eyes when she closed the door...Mo Xiu felt that it was impossible for it to appear on her.

His eyes were filled with disappointment and a hint of coldness.

MO Xiu did not understand the meaning behind Yiyi's final gaze. He was also not sure if the female fox clan would take revenge after being rejected.

After returning to his residence, he even asked Nong Zhang and Bailey. Both of them said that they had never heard of such a thing as revenge.

Bailey teased," Moxiu, I knew you weren't honest. Did you hurt some beast-like beauty's heart and are afraid of revenge?"

Moxiu wasn't in the mood to tease Bailey, so he went straight back to his room.

Yiyi had shown Moxiu the beauty of a wild beast. Moxiu did not want this beauty to disappear from the bottom of his heart. He also cherished the friendship between him and Yiyi.

Carrying such emotions, don't rest and sleep under the ground.

The next morning, Moxiu came to the convenience store early to explain things to Yiyi.

When he arrived, Yiyi was already in the library.

MO Xiu stepped forward and said, "Yiyi, I'm really sorry about yesterday."

One smiled amiably and said, "It's okay. It's in the past. I won't mind. You have to work hard today."

Seeing that there was no change in Yiyi, Moxiu felt a little better.

At noon, when Yiyi handed him a familiar lunch box, Moxiu was completely relieved.

Yiyi was not a petty person, so she was not angry.

In the afternoon, a familiar person entered the convenience store. It was Ape

After buying some things, she looked up and saw that it was MO Xiu at the cashier's desk. Her eyes were filled with fear as she retreated.

"What are you afraid of?" asked Moxiu. I'll settle the bill for you."

Ape 9527's body trembled as he threw the item away and ran.

After the person ran away, MO Xiu picked up the things on the ground. He felt a little strange. The farmer's seal education was so good? Then, he shouldn't be afraid of him, right?

He turned around and asked, "Yiyi, was I very scary just now?" Why is he running?"

One by one covered his mouth and chuckled." I know why too. Maybe you look like a villain, hahaha." ‘

Yiyi was amused by this scene and could not stop laughing.

MO Xiu smiled and decided to ask Nong Zhang about the situation tonight.

A day passed, and Yiyi was no different from usual. He did not reject MO Xiu.

After work, Moxiu immediately returned to his residence to prevent Yiyi from sending him another "invitation."

When Moxiu returned home, Bailey and Nong Zhang were both there.

"I saw Ape 9527 today.""

"So?" Nong Zhang said with a smile. What a coincidence! They rarely go out during the day."

"But he ran away when he saw me today. What's the reason?"

Nong Zhang thought for a moment and said, "When I first joined the gang, I warned them not to cause trouble for you and Bailey anymore. Otherwise, don't blame me for being rude. ""

Moxiu smiled and said, "So that's how it is. Oh right, I'll be setting off tomorrow to take a look at the top ten cities. The two of you will stay here and develop for the time being. You must take good care of each other. If there's anything, tell me immediately. "" Got it," Bailey said. "Don't worry. We're very obedient.""

Nong Zhang nodded in agreement.

After dinner, Nong Zhang changed into his black clothes and was ready to set off. Bailey had complained more than once that his clothes were ugly. Today, MO Xiu asked for one from Nong Zhang and wore it.

Bailey looked at the two of them and laughed.

“MO Xiu, do you want to go to the night with me?” Nong Zhang asked.”

Moxiu tidied up his clothes. From the looks of it, this black outfit that didn’t look like anything was indeed a little ugly.

” Yes, I’m leaving for Ape 9 City tomorrow and won’t be back for a long time..

I’ll go with you to see the world at night and help you adjust before leaving!”

Chapter 453: The Cruelness of the Beast

It was said that this black shirt was custom-made by Nong Zhang after he had recently expanded the gang of Vigorous Ape.

She didn’t know whose taste it was, but it didn’t look good at all.

According to Nong Zhang, this was public opinion. Almost all the members agreed to this uniform, so he had no choice.

MO Xiu was currently acting as Nong Zhang’s underling, following Nong Zhang to see the world.

MO Xiu and Nong Zhang were walking aimlessly on the streets. When it was ten o’clock, the streets suddenly became lively.

“MO Xiu, do you want to...” Nong Zhang asked.

“Don’t call me Moxiu, call me Fox6666 or Four-Six.””

Nong Zhang nodded and said,” Then I’ll call you 46. It’s troublesome to call you Fox 6666. You came here to see the situation at night and collect useful information, right?””

That was indeed the case. Based on the current situation, the agricultural chapter was doing very well.

Leading the sect to grow might not be Nong Zhang’s strong point, but Nong Zhang had his own way of doing things. He said that he was helping Nong Zhang adjust, but in reality, Moxiu did not want to interfere too much.

After that, Moxiu would spend less and less time in Ape 69 City. He should let Nong Zhang deal with it himself. Otherwise, it might affect Nong Zhang’s judgment.

Actually, MO Xiu wanted to see the world at night with his own eyes. He wanted to follow Nong Zhang so that he would not be suspected.

Recently, Nong Zhang hadn’t copied Moxiu’s Martial God. The two of them had a tacit understanding that they couldn’t let Nong Zhang become dependent on the Martial God.

With so many enemies at night, it was easy for Nong Zhang to copy an expert. Even if he did not copy the skills of others, he could still deal with most wild beasts with his own skills and physical strength.

“Forty-Six, since you want to see the world, shouldn’t you go to the custom shop to take a look?” Nong Zhang asked.”

MO Xiu glared at Nong Zhang and said,””Do you miss me that much? I won’t go.”

“I’ve always heard that you’re lecherous from Bailey, so I thought you liked it.”

“Don’t listen to Railev’s nonsense. RV the way _ did. I’ll not go to the custom

shop?”

Nong Zhang nodded in embarrassment, which was rare.

The corner of MO Xiu’s eyes twitched. He had thought that Nong Zhang only knew how to fight. He did not expect him to be so lacking in self-control. He had even rejected Yiyi. He actually...

“What do you want to see?” Nong Zhang asked. “I’ll take you away now.” MO Xiu looked at Nong Zhang’s stiff change of topic and did not expose him. “Where are your underlings? Don’t I have to follow you?”

Nong Zhang said, “There’s an unwritten rule at night. Generally, the sect leaders with some strength will act alone. At most, they will have one or two people by their side. In their eyes, the strong always go alone.”

MO Xiu found it funny. Combined with Old Master Tang’s diary, during the early stages of the mutation, some powerful solitary animals did not fare as well as social creatures.

Most of the races that were left behind were social animals. These social animals actually felt that the strong were always alone.

MO Xiu observed his surroundings. The people in the group did not seem to be very strong. Some of the people with a strong aura basically had beautiful foxes by their side.

“You haven’t said anything yet. Where do you want to go? I’ll take you to have a look.”

MO Xiu replied without hesitation, “Let’s go to the arena and the gaming grounds.”

MO Xiu had already thought about it before he came. This was the place that best reflected the way wild beasts lived at night. He had to go and take a look.

Nong Zhang's current status was extraordinary, and he was also very rich. He first brought MO Xiu to the largest arena in Ape 69 City. The entrance fee was

5,000 yuan.

This was not a price that ordinary beasts could afford. One had to know that the latest cell phone only cost 1,000 yuan.

After entering, Moxiu discovered that the arena was a little strange.

The venue wasn't a regular one. Instead, it was a five or six-story cylindrical building. The ground was the venue, and every floor was open for viewing.

The lower the floor, the clearer he could see.

It was just past ten o'clock, but there were already many people gathered here. There were no seats on the first level, so MO Xiu and Nong Zhang could only go to the second level to watch.

On the second floor, the two of them rested their arms on the guardrail and looked down. There was nothing in the arena except for weapons on the ground. There were knives, spears, sticks, and so on.

There was no host as MO Xiu had expected. At 10:30, the doors on both sides of the venue opened, and two people came out.

As soon as he appeared, the audience burst into cheers. Many people were urging him to fight quickly.

As for the two wild beasts, one of them looked like a male fox and the other was a strong ape. The two of them looked at the scene on the viewing platform in a daze, as if they did not know that a battle would be held here today.

Then, the two of them quickly reacted and picked up their weapons on the ground to look at each other.

The voices at the scene grew louder and louder. The two of them did not want to fight at first, but as time passed, the two of them fought.

The fox man seemed to have released a skill, and the ape man suddenly stopped moving.

The fox man shouted excitedly at the audience.

The audience's emotions were also stirred up. The entire stadium and the entire stands erupted with crazy shouts.

MO Xiu felt a little uncomfortable as he stared intently at the White Fox man. After the fox man vented his emotions, he found a sharp knife on the ground

and cut the ape man.

Every slash was controlled, and while it left a shocking wound, it was not fatal.

After the male ape was slashed dozens of times, he might have regained his consciousness due to the pain, but he did not have the ability to fight back at this moment.

The White Fox man cut his throat with a knife and walked out of the arena amidst celebrations and cheers.

Not long after, the next match began. Three scantily dressed women entered the venue.

The surrounding wild beasts became even crazier and kept shouting.

Moxiu tugged at Nong Zhang, and the two of them walked out of the arena. Moxiu didn't want to continue watching.

The beasts did not enjoy the process of fighting, but the bloody scene that stimulated their bestial nature.

It was enough to just watch one match. After that, it should be the same scene.

The two of them walked to a place where no one was around.

"I don't quite understand."

Nong Zhang said, "I also don't understand why Beast likes to watch this. There's no competitive nature to it. Many battles are one-sided, and the winner will kill and maim crazily. This is completely meaningless."

That's right! In the eyes of the martial arts fanatic Nong Zhang, these were indeed meaningless things. He would not think about the bloodthirsty nature of wild beasts.

"That's not what I want to ask," Moxiu said. "The two people in the first battle were clearly flustered when they first entered the arena. They didn't know what to do. They didn't have the intention to fight at first, but why did they fight like crazy as if they were different people?"

Nong Zhang looked into the distance and said, "I also had doubts about this at the beginning. I haven't checked it out yet, but there's a rumor that the organizers have a drug in their hands. They will inject every contestant before the competition.."

Chapter 454: Hu Sanba

MO Xiu was stunned. Injecting drugs?

"Why didn't you mention it to me before?"

Nong Zhang looked at MO Xiu's expression and felt that something was wrong.

He realized that he had made a mistake.

'I thought it was a normal thing, so I didn't say anything. Also, it's uncertain, so it's hard to say. ""

MO Xiu didn't answer Nong Zhang and started to think.

In the battle just now, the ape and fox had undergone a terrifying transformation.

At the beginning of the battle, there was a hint of confusion in their eyes. At that time, Moxiu had thought that this battle might fail. It couldn't be that bad, right? It was their first time watching a battle, and they had already failed.

But then, the two of them rushed together and started fighting.

The Fox man did not use his Charm skill immediately. He waited until he was injured before he released his skill to control the Ape man.

After that, he would adjust the atmosphere and let out a realistic roar. It was impossible for him to act it out.

And the extremely cruel way of killing the enemy at the end. It didn't seem like something that a confused person would do at the beginning.

Therefore, the matter of the drug was not groundless. There was a certain basis. Even if it was not a drug, the organizers had found a way to control the beastly nature of wild beasts.

Beast had the technology to create a suicide squad in a war.

A team that was not afraid of any harm and had no reason but to kill. Once such a team appeared, it would cause great harm to humans.

MO Xiu came back to his senses, and the Nong Zhang in front of him called out to him.

“Did I do something wrong?” Nong Zhang asked. Did we delay the report?”

“I don’t blame you for this. I should have come earlier!” said MO Xiu.”

MO Xiu immediately relayed the news from MO Li to Xi Bei. There was a possibility of this medicine, so there had to be a countermeasure.

With Moxiu’s current location, he didn’t know the full strength of the central continent, so he couldn’t make any arrangements.

However, Xi Bei’s current position knew the power that the central region could mobilize. Once the news was sent back, how they would deal with it would depend on Xi Bei’s arrangements.

Hearing the screams coming from the arena, Moxiu felt disgusted. He didn’t want to stay there for another second.

The social system of humans was not necessarily suitable for wild beasts. That was why there were two cities in the day and night, and why there was such a deformed industry like the Arena.

MO Xiu wanted to leave with Nong Zhang, but at this moment, two people walked over from afar, a man and a woman.

Nong Zhang looked in that direction and didn’t move. MO Xiu asked softly, “What’s wrong? You know him?”

“Yes, he’s the boss of a relatively friendly gang. He’s been helping me a lot recently.”

The two of them had already approached the man from the ape race. He was a

thin ape with a shorter stature and beside him was a Seductive Fox.

However, from her appearance, this Seductive Fox was considered very outstanding among the foxes.

The man laughed and walked over. It really is you! Didn't I say that I looked like you from afar?"

MO Xiu secretly laughed. At that time, he didn't know how to shorten the name of a wild beast, so he had called Nong Zhang's name Hu 888. Now that he was called by this skinny ape, it was really funny.

Nong Zhang could sense that MO Xiu was mocking him, but he couldn't be bothered with someone else at this time.

"Brother Six, I brought my younger brother here to see the world," said Nong Zhang."

Brother Ape Six hugged Seductive Fox tightly and said with a laugh,""Hahaha, he's your biological brother, right? They really look alike. Have fun. Call me if you need anything. I still have some say here."

Nong Zhang nodded. He didn't flatter him and said indifferently, "I'll look for you if there's anything. You go play too."

Brother Ape Six tapped Nong Zhang's shoulder and left with Seductive Fox. After Brother Ape Six walked far away, MO Xiu asked,""Who is this person?"

"He and Ape 9527 come from the same family. His name is Ape 4236. Those who are familiar with him call him Brother Ape Six."

MO Xiu looked at Brother Ape Six's back and said, ""I remember you said that Ape 9527's family is the largest robust ape family in Ape 69 City. But this person is clearly a skinny ape."

Nong Zhang explained, "It's indeed the family of Strong Ape. His parents are both Strong Apes, but he's a skinny ape. He's been disliked since he was young. I heard from Ape 9527 that since Brother Ape Six became an adult, through his own hard work, his strength has reached the top level among his peers. He's also good at communicating, so he's doing well in the family. However, he's a skinny monkey in essence, so his status in the family is a little strange." No wonder!

Brother Ape Six's behavior earlier was more like a robust ape than a skinny ape. This was the reason why he was a member of the robust ape family. He had been ostracized since he was young and longed to become a robust ape.

In such an environment, he was still able to grow up against the wind. This person was definitely not simple.

"Ape 69 City at night relies on fists," Moxiu said. "It also requires intelligence.

If you have the chance, you can look for him to work with. Be wary of him. ""

Nong Zhang scratched his head."

"Ah!"

Another scream rang out as MO Xiu said, ""Let's go!"

Looking at the time, it was already past eleven o'clock. In other words, the game of death had already begun. Moxiu couldn't see the start.

Since that was the case, the two of them were not in a hurry. They slowly walked to their destination and checked out the night world.

It wasn't as if they had gained nothing along the way. Moxiu discovered that there were many wild beasts killing each other on the streets, and there were quite a few corpses along the way.

As for the wild beasts that passed by and the dead bodies on the ground, they did not have the slightest sympathy for them and pretended not to see them.

“How should we deal with the bodies of the dead bodies?” asked MO Xiu.”

Nong Zhang looked at it and said,” The Night World ends at four o’clock. After that, someone will come to clean it up. As for where the bodies went, I don’t know either.’

It seemed that the meat that the wild beasts ate was really the meat of their own kind. Thinking of this, Moxiu felt a little uncomfortable. After all, he had eaten quite a lot before. There was once when he thought that the taste was not bad.

When they reached their destination, it was already past midnight. Nong Zhang brought Moxiu to the game location. It was a huge villa that covered an area of more than 1,000 square meters.

It was surrounded by a metal net, and there was a guard at every certain distance.

At this moment, the main door was closed. There was a screen above the main door, and the screen was playing the scene inside the villa.

“There’s a fee to enter here to watch the screen, and it’s not cheap,” said Nong Zhang.”

After paying the entrance fee, the two of them could watch the bloody scene on the screen up close.

Nong Zhang explained from the side,” This is the game I told you about. There are only three venues in the Night World. This is the largest game with the largest number of participants.”

Moxiu nodded and looked at the screen.

There was a huge screen with more than ten images on it. It was the surveillance of every room, corridor, and of course, there were also outdoor surveillance cameras.

MO Xiu scanned through the images.

Corpses littered the ground!

Most of the images were filled with corpses. There were roughly hundreds of them..

Chapter 455: Only A Sigh In The End

Other than corpses, there were also people fleeing everywhere.

These people moved very fast, so the scene was a little blurry. He couldn't see what was going on.

No wonder there were so few people watching here. They liked the feeling of nervousness and excitement. The experience of watching here was completely different from watching in the arena.

They couldn't tell anything from the video, so MO Xiu and Nong Zhang walked closer to the others and listened to what they were saying.

"Amazing. How many times has this woman come? You kill so many people every time."

"Yeah, I heard he killed everyone twice and took the prize money for himself." "How much is that? If I had the ability, I would also earn money like this!" "Forget it! With your guts, you would only dare to take a look outside."

There was nothing substantial about it, as if it was saying that a person was very powerful.

“Guys, we just came in. Is it convenient for you to tell us what’s going on inside?” Moxiu asked.”

The few of them looked at MO Xiu. They originally wanted to ignore him, but at this moment, Nong Zhang came over.

Hu Sanba had been in the limelight recently in the Night World. How could they not recognize him?

Seeing that the two of them were together, he immediately introduced them obediently.

“You two may not know this, but in the past month, a Terminator has appeared in the game of death. As long as he goes out to battle, he will never fail. Moreover, he will try his best to kill as many opponents as possible. It seems that what he really cares about is not money, but the feeling of killing.”

Another person added,” That’s right. Many people have heard of the news and are coming here. More and more people are participating in the death game just to defeat this person. Today, a new record has been set. There are a total of 511 participants. The game starts at 11 O’clock. From the current situation, no one can stop this Terminator.”

“When will the competition end?” asked MO Xiu.”

“One o’clock. The results will be announced in less than half an hour.”

Moxiu looked at the screen again, but he still couldn’t see anything clearly. He didn’t know what was happening inside.

However, this was just the gossip of the beasts and had nothing to do with him. The purpose of this trip was not to investigate the so-called Terminator, nor did he care about the outcome of the battle. He only wanted to understand the situation of the beasts.

Moxiu started to look around to see how the game was organized.

After walking around and communicating with the other wild beasts, he roughly understood some things.

Moxiu had originally thought that there was a fundamental difference between the game and the arena. The arena was for excitement.

The standard of this death game would be relatively high. After all, no one wanted to die. If they were not confident, they would not enter.

However, this was not the case. Most of the people who participated in the game were weak ordinary people. There were very few experts. That was why the Terminator had caused such a huge sensation.

The reason was very simple. The bestial nature of wild beasts and the warlike nature of farmers were fundamentally different.

Nong Zhang hoped to meet a strong opponent. The stronger the opponent, the happier Nong Zhang would be.

However, the bestial nature of wild beasts was more of a desire to kill.

In other words, for a lion, killing a rabbit was no different from killing a deer.

There was only a difference between ease and trouble.

Powerful wild beasts mostly had a lot of resources and could do whatever they wanted. They could kill many wild beasts in their own homes. It was safe and convenient. Why would they come to such a place?

This was the problem that humans had to face. During the mutation period, all gentle creatures had gone extinct.

The rest were either bloodthirsty creatures or bloodthirsty creatures that had been changed by the times. No matter which one it was, it was engraved in their blood.

After MO Xiu figured it out, he decided to go back. There was nothing else to see here, so he called Nong Zhang to leave.

At this moment, someone shouted, "The game is over. Open the door and invite the winner out! ""

The sealed door was opened, and Moxiu and Nong Zhang stopped in their tracks. Since they had made it in time, they would see how many people were left. They would also know the survival rate of this game.

The door was completely opened, and there was only a figure inside. He was wearing a red dress and a mask as he slowly walked out of the door.

Everyone's eyes were focused on this person, and Moxiu was no exception. He frowned as he watched this scene.

After this person walked out, no one else appeared after a few seconds.

There could only be one winner in this game.

At this moment, Moxiu changed his mind. He straightened his body and did not plan to leave.

It wasn't that Moxiu was attracted by the gossip, but that this figure was very familiar.

The winner slowly took off the mask given by the organizer. Every member would be given a mask like this when they entered.

He took off his mask and placed it by his side, revealing a friendly smile in Moxiu's direction.

One by one!

MO Xiu suddenly felt like he had lost something.

That innocent and adorable Yiyi. That kind and playful one who is at a loss

You shouldn't be like this!

Don't you hate war? Why?

Looking at Yiyi, who was still smiling at him even though her hands were covered in blood, all the doubts in Moxiu's heart were resolved.

The clothes were not red, but white!

His white shirt was dyed red by the blood.

Why would there be so many identical shirts in the closet? It was because after every night of fighting, they could no longer wear them. They could only change into new ones.

Why was the house so clean? Because in Yiyi's eyes, it was just a hotel. It was just a place to sleep. The extra things were useless.

Why did Yiyi say that she had something to do at night when she invited him to her house? What could a woman who lived alone without friends do?

Moxiu should have discovered it long ago, but he was deceived by Yiyi's performance and appearance. He did not expect to be deceived by such a simple method.

Also, why did Ape 9527 run away in a hurry from the convenience store?

It was not because she saw him, but because she saw Yiyi behind him!

One by one, Ape 9527, who had been wandering around Ye City, didn't dare to stay for even a moment!

Moxiu originally thought that Yiyi was the representative of the good guys among the wild beasts, but he was actually the most bloodthirsty one.

Recalling what happened at Yiyi's house that day, after he rejected Yiyi, Yiyi lowered her head and fell silent for a long time.

Then, when he saw her off at the end, the expression on her face when she closed the door.

Lowering her head and being silent wasn't because she was sad, right?

At that time, you should be thinking about whether you should kill me or not, right?

Nong Zhang noticed MO Xiu's abnormality and asked softly, "Four-Six, do you know this person?"

Moxiu did not answer and just stared at Yiyi. At this moment, Yiyi took the prize money from the organizer and walked towards Moxiu.

He stopped in front of MO Xiu and tilted his head to look at him.

She didn't seem to understand why Moxiu would look at her like that.

MO Xiu's emotions were very complicated. He wanted to question Yiyi, but thinking about it, Yiyi had never mentioned what she was like at night.

Perhaps he shouldn't care so much. After thinking about it for a long time, he couldn't say anything. In the end, he could only sigh.

"Hey! "

Chapter 456: Change (1)

"Hey!"

The sigh was not for Yiyi to hear, but for MO Xiu himself.

Yiyi was still smiling and asked in confusion, ""46, why are you here? Aren't we going to Ape 9 City?"

Moxiu looked at Yiyi, who was acting the same as usual. There was no change in her expression or tone, but her hands were covered in blood.

Looking at Yiyi's smile, Moxiu suddenly understood. Yiyi's innocence and beauty during the day was exchanged for the extreme killing at night.

No wonder he was confused by Yiyi, because whether it was Yiyi in the day or Yiyi in the night, they were all real.

Just like a dual personality, there was a switch in Yiyi's brain. When it was usually closed, she was a gentle and kind girl. Once it was opened, she would become a bloodthirsty demon.

MO Xiu couldn't accept it and decided to cut ties with Yiyi.

Facing Yiyi's question, MO Xiu said expressionlessly, ""We'll set off later. I'll be leaving first! "

MO Xiu turned around and walked out, Nong Zhang following beside him.

The beauty of the beast was gone, and Moxiu didn't want to stay. Just as he took a few steps, Yiyi's voice came from behind.

"46! You're very rude!"

One's voice was filled with anger and killing intent.

MO Xiu did not stop at all because of Yiyi's words. He continued walking forward.

A gust of wind howled behind them as they attacked one by one.

MO Xiu's eyes were closed. No one knew what he was thinking. When he turned around, Yiyi had already been repelled by Nong Zhang.

"Do you know this person? Do you want to kill him?" Nong Zhang asked in a low voice."

"Leave it to me!" Moxiu said.

With that, he walked towards Yiyi.

The way Yiyi looked at Moxiu was like he was staring at his prey.

It was as if the friendship from before had disappeared, and he was more like a

hunter without emotions.

MO Xiu walked closer and closer, looking at Nong Zhang behind him.

After exchanging a blow with Nong Zhang, he knew that Nong Zhang was not simple and was a dangerous person. Seeing that Nong Zhang did not react, he said to MO Xiu, "I will kill you today."

MO Xiu replied.

'Why?'

What answered Moxiu was One-by-One's attack. One-by-One's skill was the wind and fire elements, increasing the speed of wind and increasing the intensity of fire.

The flames covered the area where Moxiu was, and the surrounding crowd cried out in alarm. The young man who had been talking to them just now had died just like that.

However, this was just a surprise. Soon, the expressions of these people turned from surprise to excitement. They stretched their necks, wanting to see Moxiu's death.

This was the world of wild beasts!

The flames disappeared, but MO Xiu was nowhere to be seen. He looked around vigilantly. How could he have disappeared?

The surrounding people were also very puzzled. He turned into ashes? The temperature shouldn't be this high, right?

In the next moment, MO Xiu appeared in front of Yiyi.

Yiyi immediately raised her hand to continue attacking. MO Xiu's right hand formed a claw and directly grabbed Yiyi's face.

He pressed down on One-One to the ground.

One, who was lying on the ground, didn't resist. He just stared straight at MO Xiu.

She hadn't expected MO Yucheng to be so strong. Even if she resisted, she wouldn't be a match for him.

"I really didn't expect you to be so strong. Kill me?"

"Why?"

MO Xiu still said these two words. It was the same as when Yiyi said that he wanted to kill him.

Yiyi was stunned for a moment before he smiled again and said, "I wanted to kill you just now!"

"So, why?"

Yiyi seemed to have returned to the original Yiyi as he patiently explained to Moxiu.

"I originally wanted you to be my spouse. After all, I'm at the age where I can give birth, but you rejected me. At that time, I wanted to kill you, but I held back. This time, your attitude made me unhappy, so I wanted to kill you." MO Xiu smiled bitterly and said, "I've always treated you as a friend." The smile on Yi Yi's face disappeared, and the coldness reappeared.

"Friends? Why do you think I don't have any friends? Everything during the day was fake. The world of beasts had never changed! Hahaha!"

MO Xiu let go of Yiyi and turned to leave.

"Silky, if you don't kill me today, aren't you afraid that I'll kill you one day?" MO Xiu didn't reply and returned to his residence with Nong Zhang.

As soon as he returned, Moxiu went straight to his room. Bailey saw that Moxiu was a little strange and asked what was going on with the farm stamp.

Nong Zhang told Bailey what had just happened.

Bailey pondered and whispered, "Moxiu is in love?" That's impossible!" In the room, Moxiu sat by the bed without moving for a long time.

MO Xiu was not moved, but he did treat Yiyi as a friend.

Yiyi had always shown Moxiu the beautiful side of a beast, giving Moxiu the illusion that perhaps beasts and humans would live in peace because of the existence of such a person.

When he saw Yiyi in the game of death, all his fantasies were shattered.

The truth of Yiyi brought Moxiu back to reality, but he was also disappointed with Wild Beast.

Moxiu had originally thought that even murderous beasts had kindness, just like how humans had good and bad.

However, reality had taught MO Xiu a lesson. Even a person like Yiyi would turn into a completely different person at night.

Just like what Yiyi said, the world of beasts had never changed!

The cruelty and bloodlust in his bones could never be changed.

Moxiu's expectations of wild beasts had been dealt a heavy blow. Now, only Little Fu Shun was left with hope.

Before dawn, MO Xiu had already set off.

Yiyi's incident had changed Moxiu's state of mind and his view of wild beasts.

When he first entered the wild beasts 'territory, Moxiu only felt that the living environment of wild beasts was similar to that of humans, He did not have any special feelings.

After that, when he got along with Onesie, Moxiu realized that even wild beasts had a kind side. War would also bring disaster to them.

Even after Nong Zhang brought back the truth about how wild beasts lived at night, Moxiu still felt that there were many people like Yiyi in the world of wild beasts.

But now, everything had changed. In the future, when Moxiu had conflicts with wild beasts, he would kill them without hesitation. Because in Moxiu's subconscious, all wild beasts were the same.

Before he left, Moxiu gave Bailey and Nong Zhang some instructions.

The most important thing was to inform the two of them that unless there was a life-threatening danger, they could immediately evacuate. If anything else happened, they must report to him.

Moxiu had to be wary of the Beast Kings 'methods to prevent Bailey and Nong Zhang from being tricked by them.

After that, Moxiu set off alone.

The closest top ten city to Ape 69 City was Ape 9 City.

According to the current intelligence, it didn't matter whether it was Ape City or Fox City.

There was no reproductive isolation between foxes and apes, so the division of races and tribes was blurred.

The number of foxes and apes in each city would not differ much, so Moxiu was not worried.

As for something that Xi Bei was very concerned about before he came, the fox clan had a keen sense of smell, so it was best not to come into contact with the fox clan.

This matter was no longer troublesome. The fox clan had lost their original body and transformed into a human form. Their sensitive sense of smell had also disappeared.

There was nothing to worry about, and Yiyi's ties as a friend were cut off.

Let's move forward to complete the mission!

Chapter 457: Wild Beast, Pig! 1

Traveling alone was boring and long.

There were no cars or trains in the Beast World, and the traffic was relatively backward.

Moreover, the two major races of the Western Regions did not have the ability to fly. Moxiu could not fly and travel, so he could only buy a bicycle and ride it out of the city.

As Moxiu rode, he realized that the quality of the bicycle was quite good. It could withstand 20% of his strength when he was in the Martial God state. This meant that his speed was not slow.

He rode from morning to night. Moxiu stopped in front of a small village and looked at the map in his hand to decide whether he should stay the night.

There was still some distance to Ape 9 City, about ten hours 'journey.

If they stayed in the village and set off tomorrow morning, they would arrive at Ape 9 City the next night and would not be able to take the assessment.

In the end, Moxiu decided not to rest. He rode through the night and arrived at Ape 9 City the next morning.

Just as Moxiu was about to move, he saw a wild beast pacing back and forth at the edge of the village.

MO Xiu was attracted by this scene.

It had nothing to do with what the beast was doing. What attracted Moxiu was the beast itself.

This wild beast also walked upright. Its body was bloated and did not match the physical characteristics of apes and foxes.

Upon closer inspection, his face was very ugly, clearly different from a human's. He had a fat head, big ears, and a nose pointing up.

MO Xiu immediately thought of an animal that he had read about in a book from the underling. It was an animal that existed before the world changed.

Pigs!

Moxiu recalled that pigs were the main meat of humans in the previous world and did not have much attack power.

Wild boars were very powerful, but the wild beast in front of him did not look like a wild boar at all.

It was obviously the domestic pig that humans used to eat.

MO Xiu suddenly reacted. Xi Bei had said that although there were only eight great races of wild beasts, there were also some enslaved wild beast races.

It had been half a month since they entered the wild beast territory, but other than apes and foxes, they had not seen any other species. This was the first time they had seen it.

Moxiu rode the bicycle to a place where there was no one and laid it on the ground to avoid being discovered.

Then, he quietly came to the village and greeted his pig friend.

“Hello!”

Who knew that when this pig saw MO Xiu, it was so frightened that its entire body trembled.

As he retreated, he said, “I didn’t run. Let me go!”

Just as Moxiu was feeling puzzled, Pig’s voice attracted the attention of two men from the Fox clan. It seemed like they were the Dharma Fox, and they caught Pig.

One person took him away, and the remaining person said to MO Xiu, “Brother, what are you doing here so late at night?”

There was no need to hide it, so MO Xiu replied honestly, “I want to go to Ape 9 City. I’ve been on my way. By the time I realized what was going on, it was already night. There’s only one village around. Can I stay for the night?”

This person carefully sized up Moxiu and said, “There are more people like you. We don’t take in useless people. They either stay to work or pay.”

MO Xiu took out a hundred dollar bill from his pocket and handed it over. When this person saw that he had money, he immediately took it and brought MO Xiu to a straw hut. "You can sleep here!"

After saying that, she took the money and left happily.

Moxiu didn't stay for the night. He wanted to find out what was going on with the pig.

Moxiu opened the door a little and peeked out to check. He did not find anything unusual, and there was no one patrolling either. Only the outer perimeter of the village was guarded.

MO Xiu quietly slipped out. The area he was in now was filled with straw huts. There were more than ten of them in total. There should be no need to investigate.

Further ahead, there were five three-story buildings.

Four of them looked a little shabby from the outside, and the other one looked like a dormitory.

MO Xiu did a rough check. There was nothing to see in the dormitory. The people living there were all magic foxes.

He placed the focus of the investigation on the other four buildings. After walking in, he realized that there were numbers on each building. They were one, two, three, and four.

MO Xiu checked them one by one. The first was 1!

There were guards in every building, so Moxiu chose to sneak in from above.

MO Xiu leaped onto the rooftop. The entrance to the rooftop was sealed, so he could only use Black Qilin to open it.

After sneaking in, Moxiu checked from the third floor to the first floor. There were countless rooms inside, and every room was filled with Little Pig.

Most of the newborn baby pigs were sleeping.

MO Xiu was a little puzzled. Why were these pigs under unified management? Could this be a death squad created by wild beasts?

With a question in his mind, Moxiu went to the second building.

From the third floor to the first floor of Building No. 2, there were all young pigs of different ages.

The slightly older ones were wearing uniforms. Some of them were blue, while others were red.

The environment was rather bad, and every room was dirty and messy.

There were adult pigs here, so Moxiu used his God's Authority to check the skill.

Skill: Thick Skin (Passive)

[Skill effect: Body can grow without limit. High growth rate, unlimited.

Immune to 50% of physical attacks and reflect 20% of damage.]”

This skill looked very weak, but thinking about it carefully, if it was allowed to grow, it would be a top-grade meat shield. It just did not increase elemental defense, but it might appear during the growth process.

Moreover, it had some characteristics of high growth and unlimited growth. No wonder it could survive.

Moxiu could roughly guess that the purpose of such a unified management was to limit their growth. Otherwise, it would threaten the dominance of the foxes and apes.

When Moxiu entered the third building, he knew that he was wrong at first glance.

Beasts were really different from humans. If humans enslaved such a race, they would first control it and then think about how to use it. But wild beasts were different. Wild beasts were simple and cruel.

This was what Moxiu saw.

A lifeless pig in red clothes was lying on a platform.

Standing on the side was a pig in blue clothes. He took off the corpse's clothes and weighed it.

Then, he used the large knife at the side to chop it into pieces.

Beside him was another pig in blue clothes, sealing and arranging the meat.

This was a slaughterhouse!

The meat that the wild beasts ate came from here.

After the pig died, the skill lost its effect and there was no defense. It was easy to deal with.

The colors of the two clothes corresponded to life and death.

The red-clothed pig is a meat pig that will be killed and cut into pieces.

Blue clothes are used to kill the same kind of pigs and do some physical labor to gain a slightly longer life.

Moxiu silently walked out of the third building. Beasts were even crueler than humans.

Not only did they want to eat pork, but they also wanted the pigs to kill their companions and let the pigs do the dirty work.

What was the final outcome of the labor pig? In the end, he would also lie on the platform in red.

Extremely cruel!

Moxiu felt ashamed for eating pork.

Unlike humans, the pigs here were obviously intelligent and could think independently.

However, the wild beasts used such a cruel method to raise and kill pigs. They also ate meat, but the wild beasts did not care at all.

Raising his head, Moxiu walked towards the fourth building. Even before they entered, they could roughly guess what was inside!

Chapter 458: The Sinister Fox Clan (1)

Entering the fourth building, just as Moxiu had expected, this was a breeding ground. He had selected some pigs to give birth here.

MO Xiu could also guess that the genes of these pigs were not outstanding. The fox clan wanted to completely turn the pigs into meat.

The pig's skills in the past might have been stronger than now. It had controlled its genes during the enslavement stage.

This was similar to how the royal family preserved excellent genes. People with excellent genes would reproduce more to ensure the quality of their genes. On the other hand, pigs were the opposite. If pigs with poor or defective genes were allowed to reproduce, they might be close relatives. Otherwise, pigs would not look so intelligent.

Creatures would evolve slowly under normal circumstances. After being protected, they might accelerate their evolution or retain excellent bloodlines. However, once the fox clan did this to the pig clan, the pig species would degenerate.

After Moxiu finished reading, he was slightly shocked. To be precise, after entering the wild beast territory, everything that happened was a shock to Moxiu.

The primitive society that was initially expected did not appear. While the wild beasts developed rapidly, they still retained their bad roots and were fundamentally different from humans.

He had seen all the buildings. These four buildings were a complete ecosystem, from the birth of the pigs to the final processing.

There was also the magic fox that specialized in countering pig skills. The magic fox's skill was elemental, and pigs happened to have no resistance to elements. It was obvious that there was a way to counter it.

MO Xiu wanted to leave, but halfway through, he saw the person who had just brought him into the straw hut.

MO Xiu quickly walked over and said, "Brother, why aren't you sleeping?"

This person was a little surprised to see MO Xiu outside and said, "Why did you come out?" Go back quickly, don't run around and chase others out. I can't help you."

Moxiu looked around and took out another hundred yuan bill and stuffed it into the man's hand.

“Brother, to be honest, I live in Ape 69 City and have never seen the species I just saw. I’m a little curious. Can you tell me about it?”

This person didn’t want to say anything more to MO Xiu, but since he had already accepted his ‘sincerity,’ he decided to just say it.

He pointed at MO Xiu and returned to the straw hut with MO Xiu. He sat down and said, “It’s normal for city people like you to not have seen pigs before. There are processed pork there. I’ve been working here for seven or eight years.”

When it came to this person’s strengths, of course, he had to keep them in suspense.

“I want to hear it, tell me.” Moxiu cooperated.”

An hour later, the man left.

Moxiu was helpless. There were also such people among wild beasts. The history of a pig made him speak like a storyteller, keeping them in suspense.

In conclusion, pigs were a very powerful race in the early stages of the mutation. They had two characteristics that allowed them to rise rapidly.

First, there were many of them. Pigs were the main meat of humans during that period, and their numbers were terrifying.

The second was intelligence. Although pigs were easily slaughtered, they were actually very intelligent. After the mutation, it was immediately reflected.

There were also some objective reasons, such as wild boars!

The combat power of wild boars could not be underestimated. After mutation, they were even stronger. However, their numbers were relatively small, so they quickly joined up with the domestic pigs to form an alliance.

Such a group had the potential to dominate for a moment.

However, the good times did not last long. In terms of intelligence, they were still a little inferior to the ape clan, and they did not have the flexibility of the fox clan.

At that time, pigs hated humans the most. In the continuous war with humans, they worked the hardest and consumed the most.

There were also internal conflicts among the wild beasts. In a war with humans, the pig tribe was framed by the fox tribe. They were isolated and surrounded by humans.

At that time, the Pig Tribe was completely injured. They did not recover until the end of the battle and the signing of the contract. The war between the beasts and humans had subsided.

The internal war began.

The war between the tribes was still a matter of life and death. At that time, the biggest power was the ape tribe, followed by the fox tribe and the pig tribe.

According to human thinking, no matter what, the second and third would work together to restrict the first, so that the race could continue.

However, the wild beasts had different thoughts. The pig clan hated the fox clan to the core, so it was impossible for them to join forces with the fox clan.

The fox clan's adaptability was extremely fast. They immediately contacted the ape clan and joined forces with the ape clan. In just a few years, they had pacified the pig clan.

The pig race had lost their vitality, and the fox race had to think of a way to protect themselves.

That big brother did not tell MO Xiu how he had protected himself. He only said that the pigs were enslaved by the fox clan and developed until now. They no longer had the ability to resist.

As expected, the fox race had caused the pig race to degenerate and become meat in the mouths of other wild beasts.

The ape tribe had the highest intelligence, but from the looks of it, the fox tribe was the most sinister.

He had heard all of this from that person. Moxiu had done his research after entering Ape 69 City. Beasts did not care about history. There was no history book. They only cared about the present.

Therefore, the authenticity of these things was questionable. Even if they were true, it was passed down from generation to generation by word of mouth. There should be some deviation.

In the end, he mentioned how the fox clan stopped the ape clan from starting a war.

The reason was very simple. One was that the fox clan should have had a beast king at that time, and the battle between the beast kings was not so easy to carry out.

There was also something that could be analyzed from the current situation.

Integration!

The fox clan had completely transformed into human form. It was possible that it was intentional.

Without reproductive isolation from the ape tribe, he could completely integrate into the ape tribe and become a family with the ape tribe.

If this was true, the fox clan might have an even bigger conspiracy.

Smosius was already clear about the development of humans, and he was slowly learning about the development of wild beasts.

Moxiu felt that the secret hidden in history was psychology!

Why did humans make plans to survive? How did wild beasts achieve their goals through dark means?

The historical records were all beautiful, but they were all dirty in nature.

After knowing the whole story, Moxiu quietly left.

Moxiu felt that pigs were very pitiful, but this was the fate of pigs. Moxiu could do nothing about it. What he had to do now was to work hard for his human race to not be harmed.

After walking out of the village, Moxiu found the bicycle he had hidden and continued on his way to Ape 9 City.

As they had wasted some time at the slaughterhouse, they only arrived at Ape 9 City at noon the next day.

From the outside, Ape 69 City and Ape 69 City were worlds apart.

Ape 69 City did not have any defensive measures. Ape 9 City had high city walls, and there was a person guarding the city walls at regular intervals.

It could only be described as heavily guarded.

From afar, the scale of the city was not something Ape 69 City could compare to.

After entering, he saw a few long lines at the city gate. Moxiu didn't know which line he should line up in, so he specially went to the front to ask.

There were a total of four teams, three of which were residents of Ape 9 City returning to the city. They could only enter the city after their identities were verified.

Only one was prepared for outsiders. After passing the assessment and verifying their identity, they could enter the city..

Chapter 459: Sneak In!

Moxiu looked at the queue that was so long that he couldn't see the end of it. He sighed and could only start from the beginning.

Following the line, Moxiu finally found the last row. The few people in front were all looking at him with the same gaze.

"Is there anything on my face?" MO Xiu asked as he touched his face. Why are you looking at me like that?"

The few of them seemed to be unwilling to communicate with Moxiu. They turned around and no longer looked at him. Many of them were carrying many things on their backs, and some even brought blankets.

Why were these people so confident? After confirming that he could pass, he directly moved?

Soon, MO Xiu's doubts were resolved.

At four o'clock in the afternoon, the team stopped moving slowly. The old man in front of them who was holding the blanket directly laid on the ground and lay down.

The others also sat on the ground to rest.

After confirmation, it was confirmed that the staff had finished work. The line would not move today, so the line was just here.

Those people started to look at him strangely. They couldn't understand why MO Xiu had come to line up empty-handed. He should have at least brought some water and food, right?

MO Xiu sat on the ground helplessly. He had never expected such a situation. However, since it had already come to this, he had to take it as it was.

He couldn't waste any time, so MO Xiu displayed his ability to make things up and chatted enthusiastically with the people around him.

Gathering news from Ape 9 City and some other bits and pieces of news.

The night passed just like that. At eight o'clock in the morning, the team began to move slowly. The speed was very slow. It was still very difficult for Moxiu to get his turn today.

MO Xiu didn't want to waste another day's time. He looked at the few people in front of him who had a good chat yesterday and came up with a plan.

He took out a hundred -dollar bill and stuffed it into the person in front of him. "Big brother, little brother is in a hurry. Can we change seats?"

Everyone was very anxious. No one wanted to waste time in the queue, but if they could get a hundred yuan just by sitting one seat behind, why not?

MO Xiu touched his pocket. The travel expenses that Nong Zhang had prepared for him were quite thick, so he could spend some money.

Just like that, Moxiu moved forward one spot at a time. Coupled with the slow progress of the team, it was finally Moxiu's turn when it was almost four o'clock.

The staff behind the table said, "Show me your identification!"

Certificate? MO Xiu was stunned. Other than the people from the top ten cities, didn't everyone else have identification? Where did the documents come from? No one had told him about this. Could it be that he had lined up in the wrong queue? No!

"May I ask what documents you need?" asked MO Xiu."

"Another one who doesn't know. Go to the city wall and take a look. There are instructions there."

"Can't you do it without identification?" MO Xiu struggled. Can I take the assessment first and then patch my ID?"

"What are you thinking about? Hurry up and move aside. Next!"

MO Xiu was unwilling to accept this. He had spent two days and one night queuing up, and he had also spent quite a bit of money. Now that he had left the queue, he would have to queue up again.

"But..."

"There are no buts. If you don't leave now, I'll ask you to leave."

Moxiu eventually left the line. When had he ever been so angry? This line was for nothing.

He walked to the foot of the city wall and saw a piece of paper pasted on it. It wrote down the documents needed to join Ape 9 City and the assessment procedures.

The certificate needed to be processed at the city lord's mansion in the place of birth. After the city lord's mansion investigated his background and confirmed that there were no problems, they would issue this certificate.

After that, they came to line up and then take the assessment.

The assessment was divided into willpower and combat strength.

As the name implied, willpower was a test of mental strength and whether one had the potential to become an outstanding warrior of the Western Regions.

The combat strength assessment was even simpler. It tested whether one's combat strength could meet the standards.

The procedure was very simple. Moxiu asked the others about it. The procedure was something that everyone knew, unless it was a remote place that didn't know.

In other words...

Yiyi and the shop owner knew but didn't tell him?

He did not expect that the beast, who seemed to be eager to help him, would keep his eyes open and not tell him everything he knew.

He had trusted Yiyi too much. MO Xiu shook his head. He had to bear the losses he had suffered.

The current situation was very troublesome.

If he were to go through the proper procedures, Moxiu would need to spend a day and a night to return to Ape 69 City. Then, he would have to find a way to get Nong Zhang to find someone to see if he could get this certificate. It would take at least another day.

Then, he would come back, queue up, and take the assessment again.

It would take nearly ten days to enter Ape 9 City. It was too long!

No one knew when the beasts would start a war. Every day that they delayed, the information would reach Xi Bei one day later, and the battle would be less certain.

He had to get the information as soon as possible. The sooner, the better. He had already been delayed for a few days, and Moxiu did not want to drag it out any longer. It seemed that he would have to use an irregular method to infiltrate.

It would be best if they could enter the city through a formal method. Since the top ten cities had identification documents, there must be many places that required identification documents to register before entering.

Obtaining the documents through the proper method was the safest way. That was why Moxiu had asked so many questions and waited in line for so long.

Now, he could only sneak in. After entering, there would be a lot of trouble. He would go in first.

Moxiu walked to a deserted area and moved at high speed. At this speed, no one could see Moxiu clearly. After circling the city for a few rounds, he stopped at a corner.

The purpose of doing this was to observe the situation of Ape 9 City while moving at high speed and see if there were any loopholes that could be exploited.

Ape 9 City looked heavily guarded from the outside, but it was actually a paper tiger.

As the soldiers guarding the city were all standing on the city wall, the position below the wall was a blind spot, and there was no surveillance.

Such guards were of no practical use. Could it be that beasts also played formalism?

Moxiu found the most remote corner of Ape 9 City. It was surrounded by

barren land with no signs of human habitation.

He directly used Black Qilin to dig a small hole to see the situation inside.

It was pitch-black inside, so there should be no one inside!

Then, he neatly cut a door in the wall. After Moxiu entered, he placed the cut part back in its original place.

It was cut very neatly. From the outside, there was only a crack. If one did not look carefully, it would not be discovered in a short period of time.

After entering, Moxiu took out his phone to illuminate the place. He realized that it was a warehouse. Dust was everywhere, and it looked like it had been abandoned for a long time.

MO Xiu found the door and slipped out without being seen.

He quickly went to the street and pretended to be an ordinary passerby.

There was no hurry to enter. Moxiu observed the streets as he walked. The clothes and mannerisms of the other passersby were not much different from those of Ape 69 City.

As he walked, he felt that this city was inexplicably familiar.

Unknowingly, Moxiu sped up and stopped in front of a square.

This is...

The central square of Yan City was a place that MO Xiu was very familiar with. The school team's match and the battle with Qiu Chunxia were all held here.

Looking at the familiar scene in front of him and looking around, Moxiu finally understood.

Ape 9 City had replicated Yan City 1:1..

Chapter 460: The Strength of a Beast

If Ape 69 City was built after Yan City, then Ape 9 City was a copy of the entire Yan City.

Not only did they replicate the landmark buildings and terrain, even every corner was exactly the same.

What kind of method was this?

It meant that the number of spies in Yan City was far beyond human imagination.

Even if a professional architect wanted to move the entire Yan City here, it would still be an impossible task.

This was an extremely crucial piece of information. MO Xiu immediately informed Xi Bei of this matter through MO Li.

The city that the Xi Clan corresponded to was Yan City. Originally, they thought that Yan City was one of the cities with the strongest defense and was located in the center.

It was suitable for Xi Bei and the City Lord of Yan City, and the Xi Clan's army could also provide support from all directions.

Now, it seemed that Yan City was the biggest problem. Once Yan City fell, it would be empty and easy to lose the whole game.

Yan City's crisis was far more than that. During the war with firearms, a large number of fanatics were eliminated.

There were definitely no spies from Beast among that group of people, because they had to stay in the city and wait for orders.

Yan City had lost a large number of people. After the war ended, a large number of people flooded into Yan City, which undoubtedly led to more wild beasts entering.

Apes and humans had a high degree of similarity in appearance, but because of their distinctive characteristics, most of the spies should be foxes.

This was the most troublesome part. The Seductive Fox had the Charm skill. One Seductive Fox could control three ordinary people.

Now, Yan City was a gathering place for spies. Once the war started, a large portion of the residents would listen to the commands of the wild beasts.

He did not know how Xi Bei would deal with the news. From Moxiu's point of view, even the Strongest Corporation was in danger. There were too many wild beasts. Perhaps one or two of them would enter the Strongest Corporation.

The best solution MO Xiu could think of was to surround Yan City and shift the core of the battle to another location.

This was only MO Xiu's idea. He had also reminded Xi Bei through MO Li that he would need to listen to many opinions on what to do next, such as the manager, the City Lord of Yan City, and the Elder of Heavenly Secrets.

MO Xiu continued walking. There weren't many people on the street. There was a residential building in front of him, but when he saw the neighborhood, he felt that it was a little strange.

MO Xiu swaggered in to take a look, but he was stopped by the guard.

"Please show your identification."

"I walk around here every day. Do I need to show my ID?" Moxiu said disdainfully. Don't dawdle, move aside."

In human society, this method was very useful if one wanted to enter a residential area.

However, when the guards heard Moxiu's words, they had a strange expression on their faces and whispered something to the people beside them.

With Moxiu's hearing, he could hear everything clearly.

He said, 'Go make a call.

The moment Wei Men lowered his head, he raised his head again and realized that the young man from before was gone.

MO Xiu ran at top speed to avoid being discovered. He had deliberately turned his back to the camera just now. Even if he was suspected, he would not be immediately caught.

He didn't expect the security of a small district to be so strict.

Moxiu found it strange because the walls of the neighborhood were frighteningly high, as if they were guarding against something.

Moxiu didn't leave the neighborhood. Instead, he found a deserted place and climbed up the wall to take a look inside.

With just one glance, Moxiu knew what was inside and immediately left.

This was a militarized camp, but it looked like a residential area.

There were people patrolling inside, wearing the same uniform.

After that, Moxiu explored a few other residential areas, and the scenery inside was all the same.

It seemed that the top ten cities were not rich districts, but military districts. Beasts were choosing excellent soldiers.

Upon seeing this, Moxiu thought of something, something very important. freeweb .co m

It was also a key question whether there were spies in the armed forces of Yan City.

MO Xiu had never been to the Law Enforcement Team before, so he didn't know what it was like inside. However, he had been to the encampment of Yan City Army many times.

He would check if the facilities in the camps of Ape 9 City and Yan City were the same. Then, he would know if there were any spies in Yan City's army.

MO Xiu immediately rushed to the encampment of Yan City's army. He took a quick look from the outside and found that some of the facilities inside were the same. It seemed that there were spies in Yan City's army, but not many.

Moxiu kept running around Ape 9 City, inspecting every building and gathering information to perfect the situation.

As they walked, Moxiu finally understood why the security outside such a magic

crucial City was so lax.

This was because almost everything inside was militarized, and every place required identification. Even eating and going to the toilet required swiping the card. Even if an enemy infiltrated, it would be difficult to move.

Moxiu had this feeling right now. He could only stroll around the streets. It would be difficult for him to enter any building.

Of course, he could still infiltrate the place by taking some risks, but Moxiu felt that it was unnecessary.

After walking around the entire city, Moxiu roughly understood that the city was filled with soldiers. Other than restaurants and entertainment venues, the other residential buildings and buildings were all military camps.

And looking at the situation outside, it was still in the midst of recruitment.

Moxiu memorized all the camps and estimated the number of soldiers in each camp based on their size.

In the end, they came up with a total of at least 50,000 soldiers in this city. This was only one of the top ten cities of the ape tribe. There were 20 such cities. In other words, the beasts had prepared an army of millions for war.

This number was shocking. All the armed forces in the central region, including the law enforcement team, the army, and the shadow, did not even reach a million.

Moreover, Beast's soldiers were carefully selected. This was only the western region. The central region still had to face the eastern region. When the time came for a pincer attack from both sides, the central region would have a hard time moving forward.

There might be some errors in the rough estimation of the number of beast soldiers, but this was already the limit of Moxiu's ability. He couldn't possibly enter the military camp and check them one by one, right?

The number was known, but the average strength of the soldiers was unknown.

If he wanted to know the exact number of these enemies, he still needed to enter Ape 9 City through the proper route.

After passing the assessment, one could analyze the soldiers' minimum strength. After passing the assessment, one could enter the military camp openly, and Moxiu would be able to find out more secrets.

However, there were a few difficulties that could not be solved. Firstly, it would take a long time to go through the process again.

Then, there was the identification certificate. If the farmer's seal couldn't find the relevant person, it would be very difficult to obtain this certificate, and it would be easy to give himself away.

The last thing was MO Xiu's appearance. Since there were so many spies in Yan City, the higher-ups of the beast organization, or some soldiers, they might have seen his appearance before. It would be very dangerous for him to sneak in.

There was a way to solve this problem, which was to let MO Li come over and go back himself.

MO Li's appearance could be changed by MO Xiu's imagination, turning him into a proper and strong ape.

However, the clone's strength was limited. If others were in danger, it might not be able to help..
