

Four Skills 471

Chapter 471: The Palace of the Beast King

After returning to his residence, he had to wait for the next step.

Looking at Nong Zhang's exhausted appearance, he must have fought a lot last night.

MO Li was a doppelganger skill, so he didn't need to rest. As long as the duration was up, MO Xiu could use it again.

MO Li thought for a moment. There was enough time for him to do something else.

Prince Xi and Nong Zhang had made the necessary arrangements. There was no point for MO Li to stay here. He just needed to come back five days later to get his identification.

He went out and bought a bicycle. Just like the last time he left Ape 69 City, he was going to ride his bicycle to other cities.

However, their destination this time was not Ape City 9, but Fox City 1!

That's right, the other purpose of letting MO Li enter the Beast Territory was to go to Fox City and see what mysterious places there were.

It was much more convenient for MO Li to go than MO Xiu's main body. There were people in Fox City who could control Rong Nation.

Moxiu didn't have the confidence that he wouldn't be controlled. Once he was controlled, the wild beast would use his identity to do many things. It wouldn't just be his own matter, but the entire human race's matter.

Letting MO Li go had an innate advantage. MO Li himself was a skill, just like how the farm badge could not read MO Li's skill.

There was a possibility that the person in Fox City could not control MO Li, which was a huge advantage over the main body.

Secondly, even if MO Li was discovered, he would only be a clone. At most, he would activate the additional skill Battle Chief and make MO Li lose his mind and cause a ruckus in Fox City.

Even if he was controlled, Moxiu could immediately turn off his skills. MO Li no longer existed, so he couldn't still be controlled, right?

It was more flexible.

Not long after, MO Li arrived outside Fox City. Looking from afar, the guards outside were very tight. Without Rong Bangs invisibility skill, it seemed that it would be very difficult to enter.

MO Li was still using his original tactic. He was going to circle around Fox City and observe the terrain.

After looking around, there were some bright spots.

Firstly, Fox City was completely different from Ape City. The guards outside were real and not paper tigers. If they wanted to enter, they could only continue to observe and see if there would be any blind spots when the guards changed shifts. If there were, they would still have a chance to enter. If not, they could only give up.

This was Fox City, and there was a high chance that there was a Beast King inside. No matter how bold MO Xiu was, he wouldn't dare to control MO Li to enter.

The second discovery was that Fox City should be one of the largest cities in the Western Beast Region. However, from the outside, the size of the city was far smaller than Ape City 9. In fact, it was even smaller than Ape City 69.

Small was more troublesome!

In such a small area, there were only two situations.

One was that the population was very dense, to the point where it was crowded. This was not conducive to MO Li's investigation.

The other was that the population inside was small, but they were all top-notch. The possibility of MO Li being discovered was still very high.

He could only hope that there were very few people inside and that there was enough space for him to move around.

Just like that, MO Li observed from night until the next morning. He waited in different directions for a long time and finally found a loophole.

When two groups of guards change positions near the main gate, there will be a moment when there is no one guarding it. Because this position is special, the guards of other positions cannot see it.

MO Li quickly moved to the bottom of the city wall and stuck close to it to prevent being discovered. Then, he focused his attention and used his hearing to detect any movements above.

Time ticked by, and finally, MO Li's footsteps could be heard. He picked up the time and went into the city wall at full speed.

MO Li didn't slow down and quickly found a hidden place.

There was only a moment of opportunity. Fortunately, he had entered.

He didn't act rashly. Instead, he looked at the position of the city wall. The guards were too tight. It might be easier to enter, but it was basically impossible to leave.

MO Li observed the surroundings. After taking two steps, she smelled the fragrance Rong Bang had mentioned.

After sensing it carefully, MO Li did not feel the restlessness that Rong Bang had mentioned. Perhaps it was because MO Li was a skill.

MO Li moved slowly. The buildings here were no longer imitated from Yan City.

They were a little strange. The buildings looked magnificent and magnificent. However, this place didn't look like a city, but more like a palace.

That's right! It was the palace.

After walking around a few times, MO Li confirmed that this was a palace, a palace the size of a city.

This was simply unimaginable. At the same time, another piece of information became clear.

The only person with so many resources in the Beast World could only be a Beast King.

The Fox Beast King lived here!

MO Li walked around for a long time but didn't find anyone. Occasionally, she saw a few people who looked like servants.

This also caused the huge palace to appear a little empty.

Since they had analyzed that this was the palace of the Beast King and there were almost no combatants inside, their target was very clear.

If he didn't get close to the beast king, he wouldn't be able to find any useful information.

It was easy to find the Beast King. Since it was a palace, the Beast King's residence should be in the center or near the center.

There was an even simpler method. He could find the Beast King by following the scent.

MO Li didn't walk far in and realized that the fragrance was getting stronger and stronger.

No wonder Rong Bang fell for it. MO Li couldn't sense it now. However, if this fragrance really had a seductive effect, then the further they went, the more dangerous it would be.

Although MO Li's body didn't have any reaction, she still felt that the fragrance was very tempting. She had a feeling that she wanted to explore it.

The path to the main hall was unobstructed. As long as they walked close to the wall, someone would immediately hide.

When they arrived at the main hall, the door was open. There was a huge hall inside, but it was also empty.

MO Li could imagine that if something big happened, the Beast King would rush all its capable men to come here for a meeting.

He felt like he was going to court like an ancient emperor, but thinking about it, the Beast King had absolute power and prestige in the world of beasts, and was no different from an emperor.

There was no one in the main hall. MO Li began to search for the Beast King's bedroom. From here on, he might be very close to the Beast King. He had to be careful everywhere.

At this moment, the fragrance was extremely thick, but it did not feel greasy. The fragrance rushed straight to the brain. If it was someone else who came here, even if they were not controlled, they would probably be affected by this fragrance.

Following the scent, MO Li arrived at the back courtyard. There were only three rooms here.

As soon as he saw the three rooms, MO Li immediately locked onto the room in the middle.

Because at a close distance, the soul-stirring fragrance was already so dense that it could be seen with the naked eye. The light purple fragrance was constantly wafting out of the room..

Chapter 472: Three Kings!

The target was right in front of him. Even if it was a Beast King inside, even if the demonic fragrance filled the entire courtyard, MO Li had no intention of hesitating.

MO Xiu had always been decisive. Once he had decided on something, he would go back and do it no matter what happened.

However, after taking two steps, she heard a commotion coming from the room on the left. MO Li quickly stopped and leaned against the outer wall of the room on the left, wanting to hear what was going on inside.

“Young Master, don’t treat her like this, okay? She was just a child! I’ll cooperate with you no matter what you want, okay? I beg you.” It sounded like a woman was pleading for another person.

A young man’s voice rang out. It sounded arrogant and domineering.

Are you teaching me?”

The voice was very loud, but it did not speak.

MO Li came to the door and saw a shocking scene through the crack in the door.

Inside was a hall. A young man stood in the middle, and in front of him were two naked women.

One of them was kneeling at the side, trembling, while the other was staring at the man with a dull gaze.

What happened next sent a chill down MO Lidu's spine. He had thought that the man was only going to do some dirty things.

That was indeed the case, but the method was too terrifying. The man bit the woman under him several times during the process.

It wasn't an ordinary bite. There was blood everywhere, and there were a few bites where the meat was bitten off.

When it was over, the man looked at the woman who was on the verge of death and seemed to be a little disgusted.

"How disappointing. He died after playing for a while."

The woman kneeling on the ground seemed to have something to do with the woman who died tragically. She tried her best to control her emotions and did not immediately answer the man's question.

The man was a little unhappy and roared, "Isn't she your daughter? Wouldn't it be fine if he had another one? If you dare to disobey me, I'll kill your entire family!"

In the end, the woman still moved. She used her arms to pick up her daughter from the ground. It was unknown if it was because she did not have enough strength or because she was in despair, but she fell the moment she picked her daughter up.

The man was furious and kicked the woman a few times.

“Damn it, you dirtied the floor. After you carry the corpse away, come back and lick it clean with your tongue. Otherwise, you know the consequences!”

The woman scrambled down and returned not long after. Just as the man had said, she used her tongue to lick the blood on the floor.

Molly clenched his fists tightly at the door. Even if wild beasts were not worthy of sympathy, no matter what kind of creature it was, a mother’s feelings for her child would always be sincere. This man was a little too cruel.

The man seemed to be in a bad mood. He waved his hand and said, “Alright, hurry up and get lost. Don’t be an eyesore here!”

The woman quickly ran down!

MO Li took a deep look at the man. The woman called him Young Master and he lived here. In other words, he was very likely the child of a Beast King. However, he did not look like a fox. He had a delicate face, but his body was

huge.

This man was cruel and merciless. Once a war broke out between beasts and humans, who knew how many humans would die in his hands? MO Li had to remember this man and not let him go.

MO Li was a little agitated and did not notice that the woman from earlier had walked out from the side door and was looking at MO Li.

Oh no!” MO Li cursed in her heart. She had been discovered. She immediately came in front of the woman, covered her mouth, and dragged her out of the courtyard. Just as she was about to kill her to silence her.

“Are you from a department?” the woman asked. She was bold enough to eavesdrop here.”

MO Li was stunned for a moment. It was not because of what the woman said, but because the woman's expression did not have the slightest sadness of having just lost her daughter.

"He killed your daughter. Don't you hate him?" MO Li asked."

At the mention of her daughter, the woman's face showed a trace of sadness, but it flashed past.

"What are you talking about? He is the hope of the entire Western Region. If I were in his position, I might be even crazier than him. If you were in his position, wouldn't you want to do the same? I don't want to enjoy... ugh..

MO Li's right hand pierced through the woman's throat with two fingers.

No matter what the woman said, MO Li would kill him. After all, they were on different sides.

In Yiyi's case, Moxiu knew that wild beasts were not worthy of sympathy. Now, this woman had once again verified this point of view.

This...perverted and twisted worldview!

How could wild beasts coexist with humans? Little Fushun!

MO Li returned to the courtyard. This time, he went straight to the room in the middle and leaned against the wall, wanting to hear the conversation inside.

After listening for a moment, he realized that there was no movement. There was only the sound of even breathing. Was he sleeping?

Just as MO Li was about to peek through the crack in the door, the two people inside began to talk.

“Fox, it’s been a long time since we last met. You’re still the most energetic. The other little foxes don’t have your scent.”

“Ape, can you still exercise so intensely after being injured? Don’t push the blame on me when you attack the humans!”

If the fox beast king was called a fox and did not have a serial number, then the other one called an ape would be the ape beast king.

The two Beast Kings were here. Moxiu, who was in the Royal Space, was on full alert. If there was a problem, he would immediately retract his skill.

The ape said, “Don’t say that. I’m in good health. I can fight at any time. Didn’t I say it? We’ll attack after Tang Wanhua dies. There are many mid-level experts in the human race now, but there are not many top-tier experts left.”

MO Li was extremely shocked. So the reason why the wild beasts didn’t attack was because they were waiting for Master Tang. In other words, Master Tang wouldn’t be able to live much longer?

He couldn’t help but feel pain in his heart.

The fox did not speak, but the ape continued.

“We have the absolute advantage now. Don’t be afraid! You have so many people in Yan City. If you paralyze their core city, how are they going to fight?”

“Don’t be too optimistic. I think that Moxiu isn’t simple. He might not be very strong, but he’s very good at planning and breaking situations. This is something that we beasts can’t compare to humans. After Moxiu escaped from us, Yan City changed.”

“Is this MO Xiu really that powerful?” Yuan said, somewhat unconvinced. He’s just a kid. When I fought Wu Shang back then, he wasn’t that weak either.”

“Stop bragging.

” Don’t underestimate MO Xiu. He’s Tang Wanhua’s disciple. Tang Wanhua is a supreme disciple. This is a lineage that has been passed down from generation to generation. The previous firearms incident was because of him.””

” This kid!” Ape said indignantly.” I’ll definitely kill this kid as soon as the battle starts. Even if we don’t have such a big advantage, what about the eastern region?””

“You’re counting on Old Snake? You must be crazy!”

“No, I can’t! I received news that the Heaven Devouring Beast has returned!”

Chapter 473: Frightened The Two Beast Kings

What?

MO Li’s entire body trembled. He had originally wanted to inquire about the Beast King’s detailed information, but he did not expect to hear news of the person he cared about the most.

However, the two pieces of news were very bad!

Old Master Tang’s life was coming to an end, so he chose to go to the Eastern Region to stop the Beast King.

The Heaven Devouring Beast was Little Fu Shun, which meant that Little Fu Shun was also in the eastern region. Would the two of them fight?

The worry in my heart cannot be concealed

The fox did not feel happy after hearing the ape's words. Instead, he said worriedly, "Has the Heaven Devouring Beast returned?"

Ape knew what Fox was thinking and advised, know what you're thinking. There are rumors saying that the Heaven Devouring Beast is the strongest wild beast, but it has never matured. Don't worry, I've seen the Heaven Devouring Beast before, and it's not as strong as the rumors say."

The purpose of the foxes and apes was not only to rule humans, but also to rule all wild beasts!

The ambitions of the two races were big enough. No wonder they had been unwilling to reconcile with the humans and were secretly playing tricks.

"The strength of the Heaven Devouring Beast cannot be denied. It has once led wild beasts before, but that time, it was killed by Wu Shang."

Right now, our main task is to eradicate the humans. The Heaven Devouring Beast is still not strong enough. If we really can't do it, we can secretly..." Ape comforted.

The fox was happy and said, "You said it yourself. Don't be a coward!"

"How could that be? Let's play a little longer!"

"The child is right next door. It's not good for the two of us to be like this!"

The ape pressed the fox on the bed and said, "How old is the child? He's already playing. If not, we'll get him a younger brother!"

MO Li finally heard a piece of important information. Just now, the man in the left room was the child of the two big beast kings. What was the skill? How strong would he be?

It was a pity that MO Li could not use God's Authority. Otherwise, he would have taken a look even if it was dangerous.

No wonder that woman had said that the man was the hope of the entire Western Region, and that his parents were both beast kings.

"How can it be so easy to get another one?"

"Why not?"

Hearing the commotion inside, the two beast kings were about to start again.

Humans were so full and lustful. Beasts lived in a world without hunting troubles, so their desires were definitely greater than humans.

MO Li saw that the two Beast Kings were no longer talking. He wanted to see their true faces through the crack in the door and look inside! It was covered in purple qi, and nothing could be seen clearly.

' Who is it?!"

MO Li hurriedly turned around and ran. It was Fox's voice. Fox had discovered him.

She had just run two steps when the door of the room opened. Purple qi surged out from inside and enveloped MO Li.

MO Li finally felt that kind of primitive impulse. He actually wanted to pull the fox into his arms. This kind of thought was very dangerous.

MO Li also knew that this was a trap, but he couldn't control his body.

At this moment, the fox and ape walked out of the room and looked at the center of the purple qi.

“What’s wrong? Is there someone in the middle of your purple mist?” Why don’t I feel any aura?”

Fox stared at him and said, “I didn’t feel any aura either, but I just felt someone looking at me. You know, my feeling can’t be wrong. There must be someone in the purple qi. I can feel a consciousness being attracted to me!”

“Then spread out the purple qi. I want to see who is so bold as to dare to peek at you and me.”

The fox nodded, and the purple gas dissipated!

There was only an empty space in front of them.

The ape looked at the fox strangely and said, “It can’t be that you’re acting?”

The fox closed its eyes and slowly opened them a minute later. “That consciousness has disappeared and is not in the palace!”

“Is that true?”

“Of course it’s true!”

“Who is it? With such a divine power, he could escape from your charm.”

The two Beast Kings had grave expressions. They couldn’t be wild beasts. Wild beasts didn’t have the ability to hide their auras.

If it was a human, then it would be another top-notch expert who could come here quietly, resist the charm, and escape from the two Beast Kings.

The ape began to ponder.” As far as I know, even among humans, the only one who can do this is Supreme. However, Supreme has disappeared into the sea. Could it be...”

Fox also became vigilant.” We can’t be careless. It seems like we have to delay the full-scale attack!””

MO Xiu had never thought that his clone would scare the two Beast Kings so much that they broke out in cold sweat!

Royal Space, the top floor of the Xi family building.

MO Xiu was in the midst of closing his eyes to cultivate when he suddenly spat out a mouthful of blood!

The wall was dyed red, and at the same time, MO Xiu’s eyes were dyed red.

When he raised his head, he could clearly see Moxiu’s bloodshot eyes, his clenched teeth, and his fists.

After a long time, Moxiu finally came out of his state. After calming down for a while, he sighed.

It was too terrifying!

He had been charmed by the fox just now, but the effect of the charm was too shocking.

This was what happened.

At that time, MO Li was wrapped in purple qi and gradually lost his rationality. He forgot why he came and only wanted to touch the Beast King Fox!

At the same time, MO Xiu’s control over MO Li was ineffective. Moreover, because they shared the same divine sense, MO Xiu was also affected. However, MO Xiu’s attributes were slightly higher than MO Li’s, so he was slightly less affected.

The impulse in his heart and the release of his primitive desires made it difficult for Moxiu to resist. In addition, Moxiu was in a state of cultivation, and his entire body was filled with spiritual energy.

This triggered Moxiu's desire again. This was the most dangerous time. MO Li and Moxiu were both unconscious.

If this continued for a while longer, Moxiu would not be able to hold on any longer and would be controlled by the fox.

Fortunately, there was the ape, the savior, who made the fox dissipate the purple qi.

As the one trapped was MO Li and not MO Xiu's main body, the fox could not sense the control over MO Li, so it dispersed the purple qi.

At this moment, Moxiu regained his consciousness and immediately turned off his Soul Divergence skill.

This caused the two Beast Kings to look at each other in dismay. They mistakenly thought that Wu Shang had returned, and they were so frightened that they broke out in cold sweat.

One had to know that if it was really Wu Shang, it was impossible for the two of them to defeat him. The best outcome would be for both of them to be seriously injured at the same time and force Wu Shang to retreat.

When the two Beast Kings calmed down, the possibility of guessing that it was Wu Shang was relatively low, because Wu Shang had no reason to eavesdrop on their conversation. Besides, didn't Wu Shang die at sea?

But even so, it still woke the two Beast Kings up. Even if it wasn't Supreme, it was some other top-notch expert. They had to put aside the matter of attacking the humans for now.

At this moment, MO Xiu, who was in the royal space.

After a long period of self-suppression and psychological sorting, he finally returned to normal.

Moxiu had never experienced the charm skills of an ordinary Seductive Fox before, so he didn't know how powerful they were.

The bewitchment of the Beast King Fox was to directly stimulate the desire in one's heart, making desire greater than everything else.

Reason was nothing. For a moment, Moxiu even forgot that he was a human..

Chapter 474: Eight Kings Rule

The fox's skills were not only that. After being charmed, it could seize control of the body and read and delete memories.

Combined with Rong Bang's description, it was easy to conclude.

The most terrifying thing was that the fox's skill did not need to lock onto the target. The ubiquitous fragrance was like tentacles.

The closer he got to the fox, the more tentacles he had. Wherever the tentacles touched, the fox could use skills.

The area covered the entire Fox City!

After obtaining the information about the Beast King's skill, MO Xiu could not delay. Although he was in seclusion, he still had to inform Xi Bei.

Xi Bei was not in the Imperial Family at the moment. MO Xiu had sent him a message directly, explaining the situation of the Beast King Fox's skills. He had a son with two Beast Kings, and he might be a threat.

Of course, the source of the news couldn't say that MO Li had gone to Fox City. There was no detailed explanation and it was just a passing remark.

Xi Bei would not suspect anything about such an important matter. There was no need for MO Xiu to lie, so he did not pursue the source of the news.

After Xi Bei received the news, he also sent a message to MO Xiu.

The fox clan's individual combat strength might not be the strongest, but it was the most lethal to humans.

Back then, Elder Tang's generation had not fought against the Fox Beast King. The reason was that Wu Shang would kill every Fox Beast King immediately.

The fox clan was cunning and ambitious. They would do anything to achieve their goals. They had abandoned their original form in order to rule the Western Regions with the ape clan.

Even Supreme had to kill the Fox Beast King first. Once the Fox released its charm in a human city, it would directly be a disaster for the city.

Also, Xi Bei had answered a question that MO Xiu had always had.

In the previous records, it was mentioned many times that each race had a Beast King. The period of complete victory for the wild beasts was the fifteen races and eight kings.

Now, there were only eight races and seven kings. If Little Fushun returned to the cat race, he would be the king of eight races.

Why did each race only have one King? Couldn't a race have more than one king?

Xi Bei's answer was that the Elder of Heavenly Secrets had once spoken about this before. He had pointed out that wild beasts could only have eight Beast Kings, and before the number of races fell below eight, a race could only have one King.

The Elder of Heavenly Secrets never said the exact reason.

According to Xi Bei's own analysis, the ancestor of the Xi family had once said that among beasts of the same race, Beast Kings had bloodline suppression over ordinary beasts.

Humans did not have bloodline suppression, so it was not easy to understand.

To put it simply, every wild beast was wild, bloodthirsty, and manic.

Logically speaking, wild beasts were more difficult to manage. Internal strife between the same race should be very serious. However, during the war, there would occasionally be friction between the various races of wild beasts. As long as there were beast kings among the same race, there would never be internal strife.

Bloodline suppression was something that was hard to explain, but it was real.

Moxiu recalled what happened in the room on the left of Fox City. The mother and daughter did not resist at all before they died. This might be a kind of bloodline suppression.

If the Eight King Rule was true, then the cat race should be the race that was in the worst state. This was because the Heaven Devouring Beast had been hunted down by humans for generations and had never risen.

This could also explain why the fox was so unhappy when he heard about the

Heaven Devouring Beast. On one hand, he was afraid of the Heaven Devouring

Beast's strength, and on the other hand, he wanted to take the spot of the king. After all, the son of the fox and the ape was the most likely to become the new king.

After understanding it clearly, Moxiu once again released his clone skill to create MO Li.

MO Li had just brought the second batch of people to the Beast Territory. The identification was almost ready, and the mission could officially begin.

Moxiu continued to cultivate. He had just been bewitched by the fox and had suffered serious injuries. After recovering, he repeatedly used the holy flames to heal himself, but he still could not recover to his peak condition.

That mouthful of blood was his heart's blood. His injuries were too internal, and even the holy flames could only alleviate them but not heal them.

He could only rely on passive self-healing to slowly recover.

This was something unimaginable. The Fox Beast King had severely injured MO Xiu when it was tens of thousands of kilometers away from him.

MO Xiu was unable to deal with his strength, which made him even more determined to cultivate in seclusion.

At this moment, he was trying to break through his core skill. Whether it was the War God's Authority or the God's Authority, they were both extremely important to Moxiu.

After he leveled up successfully, MO Yu would practice his comprehension in his room to avoid only leveling up and not comprehending it properly.

On the other side, MO Li set off once again. All of his injuries were inflicted on his main body, MO Xiu.

As a skill, MO Li was in perfect condition when he released it again. At this

time, he led the second team to the wild beast territory.

The people on the way were surprised.

The first was the captain of the second team." MO Li? You're back? When did he come back? We didn't receive any news."

Then, it was the Da brothers. Da Wangba looked at MO Li in shock. He didn't see MO Li return? Why did he leave the imperial family again? Could it be that the imperial family had another entrance besides the bronze mirror?

'MO Li, are you a magician?'" asked Big Pine Brush. Not only could he change his appearance, but he could also teleport into the royal space?"

When he came to the border and met Xiao Lao Bai, he was the most shocked because his skill was space. When did MO Li return? He should have known. Would MO Li do something stupid like take a detour?

MO Li responded with a smile along the way. If he didn't ask any questions, he wouldn't explain. When he was asked, he would say something meaningful, 'Do you know the relationship between my brother MO Xiu and Elder Tang?' What was the relationship between Mr. Tang and the manager?

Without a clear explanation, he pushed the problem to Manager Lao Bai, making these people mistakenly believe that Manager helped MO Li return to the royal family.

Everyone else believed what he said. Only Xiao Lao Bai at the border was skeptical, but it was not good to ask anymore.

Just like that, MO Li managed to fool him.

What happened next was a repeat of what happened a few days ago, except that the route had changed.

MO Li led the team to Ape 69 City, where Nong Zhang was located, and handed it over to Nong Zhang and the other ten people.

The reason why he changed his route this time was because Xi Bei, that poor guy, most likely had no money. Without money, he couldn't afford a phone, and it would be more troublesome to do things.

When he came to ask for money from Nong Zhang, he went straight to the boss and took 100 mobile phones.

After MO Li had distributed the items to everyone, she left 30 mobile phones for Nong Zhang.

Nong Zhang handed the identification to MO Li and said, "Brother Ape Six's efficiency is very fast. He said that it would take five days to come down, so it was done in three days."

"Great, we can move now." MO Li took the documents and said.

Originally, he wanted to wait a few days in Ape 69 City. When the documents came through, he would immediately set off to find Prince Xi and then go to a top ten city.

Now that the documents were in his hands, MO Li could set off immediately.

He brought the remaining fifteen people and rode their bicycles to the city where Prince Xi was located.

After arriving, the five of them stopped near the city gate. The remaining ten people dispersed after entering the city. This time, everyone had a mobile phone, so they just had to directly give their phone number to Prince Xi.

Chapter 475: I Want to Fight Ten

After finding Prince Xi, MO Li only left behind five mobile phones and gave the rest to Prince Xi. He also gave Prince Xi some cash.

This was like sending charcoal in the snow. The dignified leader of the younger generation of the Xi family almost stopped their spy operation because they

did not have the money.

This money and cell phone greatly relieved Prince Xi's pressure.

However, Prince Xi was still a little troubled. The first batch of ten people had only been arranged to enter the company with two people. Now that another ten people had arrived, the pressure was very great.

Prince Xi's side wasn't like Nong Zhang's. As long as his fists were hard at night, he could also develop by charging around recklessly.

King Xi had entered a formal company. Newcomers did not have any qualifications. Even if they had the ability, it would be relatively difficult for them to make a name for themselves. After just a month, King Xi had shown his ability. Now, he was steadily rising.

However, the speed of this rise would not be very fast. If a large number of people were to be stuffed into the company, it would arouse suspicion and affect Prince Xi's promotion.

For the sake of long-term development, the King could only take it slow. This was also in line with his character of seeking stability.

After MO Li heard what Prince Xi said, he expressed his understanding and agreement. Time was tight, so the two of them did not talk much.

After he was done, MO Li returned to the city gate and continued to set off with the other five. This time, their destination was Ape 7 City.

The five people beside him did not have any identification and could not follow him into the top ten cities. They had entered other cities halfway.

In the end, only MO Li was left with a bicycle and five mobile phones.

These five phones were MO Li's backup. He had to use every one of them to contact Xi Wang, Nong Zhang, and the others.

He couldn't put all his eggs in the same basket. When Moxiu's original phone was in Fox City, he had crushed it into powder.

The northwest was originally the ape tribe's territory, which was why they chose Ape 7 City.

The journey was rather far, and he only arrived early in the morning on the second day.

Similar to Ape 9 City, the workers in Ape 7 City went to work at eight in the morning.

The difference was that there was a queue on the ground, but the queue for registration was smaller. Compared to the queue in Nine Ape City, which required two days, the difference was like heaven and earth.

MO Li threw her bicycle aside and started to line up. It was MO Li's turn at noon.

The attitude of the staff was exactly the same as that of the person from Nine Ape City.

"Show me your identification!"

MO Li handed over his identification card without saying a word!

The staff member took a look at the certificate and began to carefully size up Moxiu.

“You’re from Ape 69 City. Why don’t you go to the nearby Ape 9 City and come to our city from afar?”

MO Li had already prepared the answer.

“I came because of your reputation!”

This answer was a jack of all trades. Regardless of whether Ape 7th City was better than Ape 9th Cheng, the staff would not say anything after hearing it.

But the result was beyond MO Li’s expectations.

The staff laughed and said mockingly, “Hahaha, you’re here because of your reputation? Who doesn’t know that our Ape 7 City is famous for being a bandit army? I don’t think you have the aura of a bandit. If you’re a good child, go to Ape 9 City to take a look. Otherwise, you’ll be bullied here.”

Bandit army?

Wild beasts were already barbaric enough. It seemed like Ape 7 City was a fighter plane among planes and a bandit leader among bandits.

However, this was also good. The more such a place was, the simpler the rules were, and the easier it was to make a name for oneself.

One could refer to Prince Xi and Nong Zhang. Nong Zhang was a one-track minded person who could do well in a chaotic night.

There was no need to pretend anymore. MO Li directly expressed his inner feelings and smiled. "Just what I wanted!"

The staff member was also interested. He smiled strangely and said, "Hehe, interesting. Kid, don't regret it!"

"Why should I regret it?" asked MO Li. Let's start the assessment now!

The staff member said to the person beside him, "This kid wants to take the test."

MO Li followed the man obediently. The staff member sneered and said that such a person would be beaten up for a few years even if he entered the army.

MO Li went all the way to the city wall of Ape 9 City and did not enter the city.

The space on the city wall was relatively small. MO Li asked in confusion, "Is the assessment here?"

Five people suddenly appeared on the city wall and said to MO Li, "Our Ape City has its own rules. Forget about the formal assessment process. If you can last for ten minutes under the hands of the five of us without fainting, you will pass the assessment."

Such a simple and violent method, if it was any other rookie, they would have been scared out of their wits by now, right?

No wonder there were so few people in line. The environment in Ape 7 City was not very good. It was not easy to pass the registration, and it was very likely that they would be beaten up for nothing.

It would be strange if there were many people here. Those who could come were either ignorant of the situation or very confident in their strength and liked this environment.

However, our MO Li is different. He has both!

He didn't know about the situation here before he came, but he liked this environment after he came.

Facing the five of them, MO Li did not panic at all. Since it was such an army, there was nothing to be low-key about.

"That's exactly what I wanted. I didn't expect to be able to move around before joining."

The five of them were all strong apes. How could a few soldiers defeat MO Li with brute force?

Soon, ten minutes passed.

MO Li stood leisurely on the city wall and looked down at the scenery. The five strong apes all fell to the ground unconscious.

After a while, another soldier came up to see why the battle had not ended. Only then did he see this shocking scene.

In the past, there had been very strong rookies who could defeat five veterans, but this was definitely not the result.

At this moment, the five soldiers were lying on the ground. They were clearly unconscious and looked like they had suffered heavy injuries. MO Li, who was standing at the side, looked at the scenery as if nothing had happened.

Two obvious conclusions.

Firstly, MO Li was far stronger than the five of them.

Secondly, MO Li was really ruthless. He didn't hold back at all. The five of them were bruised and swollen.

At this moment, MO Li withdrew his gaze from the city wall and looked at the person who had just come up.

He walked towards that person with a 'kind' gaze.

This person was not stupid. After being beaten up by MO Li, he could not even say anything reasonable. He immediately shouted, "Someone come quickly!" With this shout, another five or six people came up from below.

"Oh, there's still a second stage?" MO Li said when he saw this scene. However, there didn't seem to be enough people. I want to fight ten of them!"

When the people who came up saw the five people on the ground, they instantly understood what was going on. One of them was relatively calm and said, "Brother, are you here for the assessment? According to the rules, you have already passed the test. There is no need to fight anymore!"

MO Li didn't expect that the bandit army was so famous. Why were they so cowardly?

In fact, the more the environment was like this, the more one had to learn to be soft. Otherwise, if one's strength was not enough, they would be beaten up every day.

"Alright then, where should I go next?" asked MO Li."

Everyone looked at each other and did not answer MO Li.

MO Li took the opportunity to shout, "Hey! I'm talking to you guys, didn't you hear me? You! I'm talking to you. Answer me!"

" Ah, ah?!!"

Chapter 476: Fourth Brother and Third s 5th! Please vote!)

They even boasted shamelessly that they were bandits. Each one was more cowardly than the last. In the end, MO Li called out one of them to speak.

This person brought MO Li down the city wall and to the city gate. The staff members who were still checking their identification documents looked at MO Li, who had come down from the city wall unscathed, with a surprised gaze.

He asked the person beside MO Li in surprise, "Him! He passed?"

The man gave MO Li a look and left quickly with him.

When the other people on the city wall came down, the staff put down their work and went to ask.

"What's going on? Did that Ape 2222 kid pass the test? How did he last ten minutes against five seasoned soldiers?"

The person who answered him was the first person to go up.

"Ten minutes? When I went up, the five veterans were lying on the ground unconscious. Ape 2222 stood there and looked at the scenery as if nothing had happened. I saw that the five brothers did not last more than ten minutes."

Another person chimed in. "When the rest of us went up, the scene was a little scary. That kid actually thought that we were in the second stage. He even said that there were too few people. He wanted to fight ten. Damn it, fight ten! How arrogant!"

The staff member was shocked. This ordinary-looking kid was so strong?

Shit, the rules of the Seven cities were very simple. As long as one's fist was strong enough and one's temper was hot enough, one's level would rise very quickly.

Based on the attitude of the staff member MO Li just now, he was afraid that his days in the future would not be easy.

On the other side, MO Li finally entered the city.

The inside looked exactly the same as Ape City. To be precise, it was a replica of Yan City.

MO Li had a feeling that the beast had put all its eggs in one basket. Other than Yan City, did it have no spies in other cities? Otherwise, why were so many cities built in imitation of Yan City?

After entering, the guide handed MO Li over to a person named Ape 404.

He was a small team leader and was nicknamed Fourth Brother.

The person leading MO Li whispered a few words into Fourth Brother's ear. With MO Li's hearing, he naturally heard it clearly.

"Fourth brother, this kid is very strong. I feel that he has at least the strength of the middle class leader. He has already passed the assessment of our city defense team. I asked the small team leader and he said that he would hand this person over to your team."

The four of them nodded and said proudly, "Oh? Your captain is so good?"

After that, the players who led the way left, leaving only MO Li and Brother Four.

Hello, Fourth Brother." MO Li was the first to speak." My name is Ape 2222.""

As the team leader, Fourth Brother wanted to show MO Li his might. He didn't reply to MO Li's words and punched MO Li in the face.

Fourth Brother's strength was clearly higher than the five people he had just fought with. The moment he punched out, MO Li knew that this person was not simple.

He changed his position and dodged to the side. Instead of retreating, he advanced. His left hand grabbed Fourth Brother's fist and his right shoulder leaned heavily against Fourth Brother.

Fourth Brother's reaction was also very fast. He pushed MO Li's shoulder with his other hand and pulled away from her.

MO Li's thoughts were very simple. The rules of Ape City were already very clear. It was just a competition of whose fist was bigger. There was no need to care about anything else. From a certain point of view, this place was even more barbaric than the night world where Nong Zhang was.

Moreover, you were the one who made the first move. No matter how high your official position is, I can still retaliate and be ruthless!

MO Li didn't need to show any mercy here, and he didn't mind stepping on your fourth brother to get to the top.

Fourth Brother didn't attack again. He looked at MO Li in shock and doubt. He only saw the previous encounter.

The other party was not inferior to his fourth brother. Whether it was in terms of moves, speed, strength, or reaction, they were all evenly matched.

If he attacked again, he would have to consider whether he would be defeated and whether there was a possibility of a failure.

After thinking about it carefully, he decided to forget it. It was more important to show off his might than to protect his position.

This young man named Ape 2222 was indeed strong. He was a little too strong. He might even threaten his position as the captain of the team. No wonder the captain of the team had given him to his fourth brother. It turned out that he had no good intentions.

“Fourth Brother, is this some kind of entrance ceremony?” MO Li asked. Do you want to continue fighting?”

Brother Four saw the steps and said,” No need. I just want to see your skills so that I can assign you to somewhere. I already have an idea. Come with me!””

MO Li knew what his fourth brother was thinking, but she didn’t expose him.

The two of them stopped at the entrance of a residential area. There was someone waiting for them at the entrance. Fourth Brother left MO Li with him. Hello,” MO Li introduced himself again.” My name is Ape 2222.””

“My name is Ape 4623, the class monitor. From now on, you are a member of my class. Everyone calls me Little Three.”

“Little San?”

“Yes, you can just call me Little Three. What’s wrong? Do you have any questions?”

“No problem,” MO Li said with a smile. “It’s just that the name has a lot of personality.”

Little San took a look and seemed to feel that MO Li was a little rude, and his attitude became very bad.

The two of them entered the door and went through a round of registration. MO Li had his own identity card in Ape 7 City.

With this identity, as long as it was not a restricted level place, MO Li could enter and exit.

She took the card and saw that it was written.

‘ Main Combat Team, Team Six, Team Five, Class Three, Class Four, Class One, Ape 2222.’

MO Li was stunned. Wasn't this too detailed?

However, the level system of wild beasts was obvious.

They were divided into the main team, the main team, the small team, the big team, the middle team, and the small team.

Currently, there were two main divisions, the Battle Division and the City Defense Division.

MO Li wanted to know more, but the little San looked unhappy and ignored MO Li.

The two of them walked silently in the neighborhood and stopped at Building

The mistress explained perfunctorily, “ Building No. 15 is the camp of our senior class. The area of our first class is on the first and second floors. Don't run around normally, or you'll be beaten up.”

MO Li nodded, indicating that he heard her.

MO Li was left on the first floor, and the mistress left. It was extremely irresponsible, which made MO Li a little unhappy.

Even if this was a bandit army that was not friendly to newcomers, they should not be so irresponsible.

Looking at the many empty rooms, MO Li decided to find one to stay in.

After choosing a few rooms, MO Li didn't have high requirements. She found a room that was pleasing to the eye and prepared to stay there.

Just as MO Li entered the room and was about to close the door, a hand reached inside.

The Moli Gate opened and saw seven people standing at the door.

"What's the matter?" asked MO Li."

"Yes, you can't stay in this room!" One of them said."

"Why?"

"This is my room." f(r)ee

"I'm sorry," MO Li said." I didn't see anything inside and thought no one was living there. I'll go to the opposite side.'"

"The opposite room is also not allowed.. It's my room!"

Chapter 477: Why Did You Break My Door?

"The room opposite is mine."

MO Li frowned. There were no personal items in the room. These people were clearly making things difficult for him. Moreover, the doors of these empty rooms were open. It was obvious that no one was living in them.

“Oh? Then, are there any vacant rooms here?” The six of them said in unison, “No!”

MO Li smiled and closed the door.

The six players did not react in time. As veterans, how could they let this go? They knocked on the door and shouted.

However, no matter how the six people outside made a ruckus, Moxiu had no intention of opening the door.

After a while, it was quiet outside the door. MO Li thought that they were leaving, but the next second, the door was broken open!

Six people rushed in and surrounded MO Li!

“Damn it! You brat, you don’t know how to appreciate favors! Didn’t you hear us calling you from outside?”

MO Li didn’t say anything. Instead, he looked at the broken door!

“Why did you break my door?”

“Hahahaha! Are you stupid? If you still care about the door, we’ll kick you to pieces too. Do you believe it?”

MO Li frowned again and asked expressionlessly, “Why did you break my door?”

He asked the same question again, but this time, it was even more infuriating.

MO Li was expressionless. There was no emotion in his eyes. He was clearly telling them that he did not put them in his eyes.

The six of them couldn't take it anymore and attacked together to teach MO Li a lesson.

MO Li quickly punched each of the six in the stomach. He was so fast that the six did not even have time to react.

The six of them knelt down while clutching their stomachs. MO Li stood up, unwilling to sit on equal footing with them. Her disdain was obvious.

How could the six of them give up so easily? They stood up and continued to attack MO Li.

MO Li picked up a chair and smashed it on one person's head. Then, he grabbed another person's head and smashed it heavily on the coffee table.

The remaining few people were also easily defeated. At this time, the six people realized that this newcomer's strength was several levels higher than theirs. He was not someone they could afford to provoke.

The six of them scrambled to leave, but MO Li said, "Did I tell you to leave?"

The six of them looked at each other and returned. Since they were in the same class and lived on the same floor, they would meet sooner or later. They did not want to be beaten again. It was good that they could settle it now.

"Why did you break my door?" MO Li asked again.

It was the same question again. When MO Li asked it for the first time, they found it ridiculous.

When they asked the second time, they felt angry.

Now that MO Li had asked this question for the third time, they felt a chill run down their spines.

The six of them had their own excuses. Some of them shirked their responsibilities, while others apologized.

MO Li interrupted them because they were noisy.

“Alright, stop arguing. We can go over today’s matter. Did you see what was broken just now? I’ll stay in another room for the night and come back tomorrow. When I come back, if there’s still one thing here that hasn’t been repaired, you know the consequences. Oh, right! Remember! It was Xiu! You can’t change it!”

The six of them looked at the messy room. Almost all the furniture was broken. How could they repair it?

Most importantly, apart from the door, the rest were all broken by him.

MO Li didn’t give the six of them a chance to speak and left as soon as he finished speaking.

He went to the opposite room and said something before closing the door.

“I’ll sleep here for a while. Don’t make too much noise when you repair things.

If you wake me up, we’ll talk to you one by one!”

It was already difficult enough to fix these things, but he couldn’t make a sound. Wasn’t this deliberately making things difficult for him?

However, when the six of them recalled the scene where the newbie beat them up effortlessly, they decided to give it a try!

Of course, MO Li did not sleep. He looked out of the window and observed the terrain and other things.

Three hours later, MO Li came out of the room. The six people had not left. They were still in the opposite room, but they were not working.

“What does that mean?” MO Li asked. Protest?”

The six of them had a hard time. They could not complete the mission that MO Li had set for them.

One of them said with a bitter face, “This newcomer, ah no, big brother, we really can’t fix it. We apologize to you. We were blind. Can you think of another way to punish us?””

MO Li pretended to be thinking. After thinking for a while, he sat down.

“Alright, how about this? I just came here and don’t know anything. Tell me about the things and rules here, both written and unwritten.”

As soon as MO Li spoke, the people began to talk. They were afraid of being beaten up, so they said everything they could not say.

It turned out that MO Xiu had been left to cause trouble because of the little class monitor, Little San, who had hinted at him.

There was an unwritten rule in this class. If the mistress stayed behind to introduce the newbie brought by the class monitor to everyone, it meant that the newbie had a background or had a good relationship with the mistress. Everyone should not bully him.

However, if it was like Li MO, after Little San brought it over, he left without saying a word.

Newbies like this could be bullied as they pleased. In the past, the six of them had worked together to bully many rookies. The rookies either couldn’t take it anymore and left or were transferred to other classes. However, this was Ape 7 City. It was the same no matter which class they were in. They had never kicked an iron plate like MO Li.

MO Li also had a guess in his heart. So it was Little Three's doing.

Following that, Moxiu asked about the few points that he was most concerned about. Which position was the lowest that could allow him to come into contact with the core figures of the 7th Ape City?

Only by getting in touch with the core figures could he obtain useful information.

The six people's answer was the same. It was a small captain. It was very difficult for people below the small captain to see the head captain.

Then there was the composition of Ape 9 City.

There were a total of three main divisions, the city defense division, the combat division, and the service division.

The largest number of people was the combat team. There were six to eight people in each small class. The rest were all in the sextant system, which meant that there were six small classes in one middle class, six middle classes in one big class, and so on.

The main service team was the weakest, with relatively fewer people. They were responsible for washing clothes and cooking.

The city defense team was a little special. They weren't the strongest, but they had more money and power because they were responsible for the entry and exit of the population, the assessment of newcomers, and the distribution of newcomers.

The City Lord with the highest authority was also the apex of Ape City. He did not belong to any team and led three main teams.

The distribution of authority and the various positions were clear. The next question was how to advance.

This was just as MO Li had imagined. The conditions for advancement were very simple. Challenge!

There was an internal meeting every week. At the end of the internal meeting, the subordinates could challenge the superiors.

Under the witness of all the members, one could advance by defeating the

MO Li's mind instantly flashed with the image of Little Three's face that needed a beating. She couldn't wait to beat him up.

"When is the meeting?"

Chapter 478: It's What I Said! 1

"Tomorrow! "

After hearing their answers, MO Li revealed a 'friendly' smile. The few of them looked at each other and did not dissuade him.

They didn't have a good impression of MO Li, but that mistress wasn't a good person either.

If the two of them fought, no matter who won, they could watch a show, right?

"Are there any restrictions for this challenge?" asked MO Li. For example, newcomers can't challenge it."

“There are no restrictions. Usually, you can fight between people of the same level, and you can teach your subordinates a lesson. However, your subordinates can’t fight your superiors. You only have the chance to challenge them after the meeting.”

” What if a superior attacks a subordinate?” MO Li asked in confusion.” Can’t the subordinate fight back?””

MO Li thought of how Fourth Brother had fought with him just now.

“You can fight back, but the higher-ups have the power to stop you!”

“After the meeting, is there a high frequency of challenges?” Moxiu continued to ask.”

The six of them shook their heads.

MO Li didn’t understand. Why wouldn’t he challenge if he had the chance? Even if they didn’t win, it was good to give it a try. Could it be that these people didn’t have the spirit to strive?

After their explanation, MO Li understood.

In fact, the gap between the ordinary members and the small class monitor was relatively large, and it was very difficult to win.

There was another point that was more important than pride. If he challenged and failed, the little class monitor would continue to find trouble, which would affect his progress even more.

So that was how it was. Even if it was just a fist-sized place, there were all kinds of theories. Everyone had their own plans.

MO Li already knew what he wanted to know. He stood up and said, “You guys have all performed well. Let’s forget this matter.”

He walked to the opposite room. It was already night time. There were no activities today, so he could only wait for tomorrow's challenge.

The next morning.

Little Three received the news that the rookie who made him unhappy yesterday was not bullied. Instead, it was the six veterans who were taken care of by the rookie.

He had deliberately come earlier today to personally deal with this rookie. He couldn't let him be too arrogant. At the same time, he wanted to teach the other veterans a lesson. They couldn't even defeat a rookie.

When they arrived, they found that there was no one in the residence or the restaurant. After searching around, they realized that the seven members of the team were missing.

After walking around, they could only go to the meeting room to prepare for the meeting. Even if these people went elsewhere, they did not dare not come to the meeting.

When he opened the door of the meeting room, he saw seven soldiers sitting neatly inside. He was shocked. What was going on? These people had never been proactive.

Seeing that MO Xiu was also sitting inside, Little Three said, "Ape 2222, come out for a moment, I have something to say to you!"

MO Li smiled meaningfully. She knew what the mistress, who had always had a bad attitude, wanted to do to her.

He must be trying to use his superior's advantage to teach him a lesson. There was a natural advantage between a superior and a subordinate.

Although the lower level could still fight back, the higher level could stop at any time or start at any time.

In other words, the superior punched you, and the battle began. The moment you wanted to retaliate, the superior said to stop the battle, and you could only give up. Just as you lowered your fist, another punch came, and the battle began.

If this went on and on, the higher-ups wouldn't even need to use their full strength to educate and torture their subordinates.

MO Li wasn't afraid of a mistress, but if she went out now, it wouldn't be worth it to get angry.

MO Li did not go out. He pointed at the watch in the meeting room and said, "Class monitor, it's almost time for the meeting. Let's have a meeting first and talk later."

Little San was even more displeased. This kid actually dared to reject him. But after looking at it, it was indeed not enough to educate this kid. After the meeting, he would definitely make you wish you were dead.

The mistress walked into the conference room with her head held high and her chest puffed out. She sat on the main seat and began to convey the news.

"There are a few things to do in today's routine meeting. First, introduce the new members. Second, summarize the previous week's training and the next week's training plan. Third, convey the instructions of the higher-ups."

MO Li listened very seriously. She really didn't expect that the management method here wasn't from the human military, but more like the management of a human enterprise.

It seemed that Beast did not obtain the core system of the army. Instead, he merged the superficial knowledge he had learned with the management of enterprises. It was completely different.

After that, it was a normal meeting. After Moxiu introduced himself, the others gave him a fake round of applause.

Then, he began to summarize and plan. Initially, MO Li thought that he would be able to gather some information, but when he heard the content, he knew that the soldiers and the class monitor were dealing with things. MO Li was also a little bored listening to it. He hoped that the recollection would end soon and he could challenge the class monitor.

The summary and plan lasted for an entire hour. The length of this meeting was supported by these meaningless things.

The mistress picked up the documents on the table and said, "Recently, the orders from the higher-ups have not been as frequent as before. There is only one thing to say. The training programs that were added in the previous three months are now paused and returned to normal training."

Huh?

MO Li was very puzzled. Why was this?

The addition of training programs three months ago meant that the beasts had begun to prepare for battle.

But why did it stop now? They had to practice hard before the battle. Once the high-intensity training stopped, the soldiers would relax.

After thinking about it, there was only one possibility!

Beast was prepared to postpone the war. Long-term high-intensity training

would affect the soldiers' condition. "They would tighten up when they were preparing for war.

When he was eavesdropping on the conversation between the two Beast Kings in Fox City, there were no such signs!

They had only said that they would wait for Mr. Tang to pass away. At that time, the tone of the two of them should have been very confident that Mr. Tang would die soon.

MO Li was still deep in thought when the mistress announced the end of the meeting.

The six people beside him knew that MO Li might challenge Little San, so they all looked at MO Li.

MO Li felt the gaze on him and looked up at Little San.

Little San also happened to look at MO Li and said, "Ape 2222, stay and talk to me."

"Class monitor, is the meeting over?" MO Li spread his hands and asked.

"It's over, what do you mean?" Little San said disdainfully. "Don't you want to talk to me?"

"That's not what I meant. I said that I'll talk to you after the meeting, but the meeting hasn't ended yet!"

Little San slammed the table, clearly angry, "Why isn't it over yet? When I say it's over, it's over!"

"Isn't there still a challenge segment?" MO Li pretended to be dumb.

Little San suddenly laughed out loud. He had a total of seven people under him. One was a newbie, and he knew the remaining six were trash. Who could challenge him?

"Good! Since you've suggested that we go, we'll follow the procedure. As for the last part of the meeting, let me ask, is there anyone who wants to challenge

Little Three looked at the six seasoned soldiers one by one with his head held high. He thought to himself, with these few fellows, even if they had the guts, they wouldn't dare to challenge them.

“Yes!”

Little Three was stunned. He searched for the source of the voice and finally locked onto MO Li. “Did you say that?”

“I said it!”

Chapter 479: Beating Up the Little Three)_1

“I said it!”

Little San’s smile gradually turned evil. This newbie looked down on him!

The mistress stood up and pushed the huge desk to the side. The entire table was pushed against the wall.

The six seasoned soldiers stood nervously in the corner, watching this scene.

MO Li didn’t move and sat steadily in the distance.

The more Little Three looked at this newcomer, the more annoyed he became. After the challenge, he continued to sit down and did not even stand up. The more he acted tough now, the more miserable he would die later.

Little San walked over step by step, his imposing manner shocking.

MO Li still didn’t move. He looked ahead expressionlessly.

MO Li spoke up when Little San was already in front of him and was about to raise his fist.

“Wait!”

“What’s the matter? Hurry up and say it!”

“If I win, I’ll be the class monitor, right?”

“What nonsense are you spouting! You win! Can we fight now?”

“Wait!”

“What now?”

“After I become the junior class monitor, how am I going to find the middle class monitor? And what is my job?”

MO Li’s every word sounded as if he was going to win, causing Little Three to feel extremely irritated. He didn’t want to answer such a boring question anymore. This time, he didn’t lower his raised hand and directly punched out!

MO Li didn’t even try to dodge the incoming punch. He sat on the spot and grabbed the punch with his right hand.

At first, the six seasoned soldiers felt that MO Li’s strength was enough to fight against Little San, but now they were being arrogant. This punch was most likely to end the battle. They never expected that Little San’s punch, which was normally exerted when he was standing, would be easily received by this rookie while he was sitting.

One was standing and could exert all his strength, while the other was sitting and could only rely on the strength of his arms. One could tell which was better at a glance.

Little San threw out a punch. He didn't expect MO Li to be able to catch it. Looking at the strange scene in front of him, he was stunned. "Why are you so impatient?" MO Li continued. You haven't answered my question yet."

This sentence made Little San react. He pulled back his hand and threw another punch, which was caught again.

If the first strike was a coincidence, the second strike was definitely not.

Little San pulled back his fist and immediately distanced himself from MO Li. He now understood that MO Li was not as simple as he looked. He seemed to have the strength to threaten his position.

MO Li finally stood up and shook his head helplessly.

"I wanted to talk things over with you, but you didn't answer my question."

Little San no longer underestimated the enemy, he sorted out his mentality and continued to attack.

MO Li didn't use any moves. He would grab a punch and return the punch.

With little San's strength, he could only take two punches. When the third punch landed on little San's body, he directly fell to the ground and didn't get up.

The gap between the two was too big, so big that MO Li could crush Little San with just speed and strength.

After taking three punches from MO Li, Little San was lying on the ground with his mind a little unclear. The six people who were watching the battle were all veterans. Knowing that the class monitor had been replaced, they immediately said, "Hello, class monitor!"

MO Li looked at the little three on the ground who made him unhappy and said to the six people, "The challenge is over. I won. You all saw it, right?"

“I see it!”

The six of them said in unison. What a joke, who dared to say that they didn't see it!

MO Li continued, “That's good. I'm the class monitor now. I want to talk to Mo. You guys can go out first.”

The six of them walked out of the conference room. They didn't dare to go far and just stood at the door to listen to the movements inside.

“Bang!”

“Ah! Ape 2222, please let me go, okay? I...” “I told you to keep a straight face!”

“Bang!”

“Ah! You! You, you, you!”

“What about me? I told you not to answer my question!”

“Bang!”

“Don't fight anymore, don't fight anymore! Can I answer now?”

“Now? Too late!”

“Bang!”

Little San's voice didn't ring out again. The six of them shivered. It was too terrifying. The new class monitor was too terrifying.

Even though MO San didn't say anything else, MO Li still didn't have the intention of letting him go.

"Bang! Bang! Bang!"

After the three sounds, the inner sect sighed.

"Sigh! Why did you faint?"

Then, the door opened and MO Li walked out. The six of them trembled and lowered their heads, not daring to look at MO Li.

MO Li said in an approachable manner, "It's not that I want to talk to him.

You're all present. It's him who wants to talk to me. He even said it twice."

"Yes, yes, yes! We saw it."

MO Xiu wiped the blood off his hands on one of them and said, "Take him to the hospital. Don't let him die! I want to talk to him every day in the future!" With that, he walked out.

The six of them quickly entered the conference room and carried the mistress out to the infirmary of this building.

The meeting was held in the morning. The mistress only woke up the next morning. When she woke up, she felt very disappointed. She had lost her position as the class monitor. When she turned around, she saw someone sitting beside her.

It was one of the six veterans.

He was a little touched. He didn't expect that there would still be someone supporting him when he was down and out.

Little San excitedly held his brother's hand and said, "Brother! You've worked hard!"

This brother was also honest and said, "It's not hard. Class monitor, I'll be here watching you."

"That Wang...Class monitor, did he say anything about me?"

The emotions in the mistress's heart were swept away, and she was about to curse. In the end, she thought of MO Li's strength and held back.

The brother said without hesitation, "Yes! He had said it yesterday when he came out of the meeting room!"

"What did he say?"

Little San asked anxiously. How could he not be anxious? This was related to whether MO Li had forgiven him, whether he could reconcile with MO Li, and whether he would live a hard life in the future. "The class monitor said that he would talk to you every day in the future!"

Little Three said excitedly, "What did you say?!"

"Very clear. He said that he would talk to you every day in the future! I'm here to see if you're awake. The class monitor hasn't talked to you yet!" Little San, who had just woken up, fainted again!

She didn't know if she fainted from shock or if she was pretending.

On the other side, MO Li had just taken office. His subordinates came to curry favor with him. Some came with gifts, while others came to say good things.

At this moment, MO Li felt that beasts and humans had something in common!

The most powerful person, after finding MO Li, directly spoke ill of MO, wanting to use this method to close the distance between them.

“Class monitor. little San has been too mean all these years. He bullies the weak and fears the strong!”

MO Li thought to herself, ‘You’re all the same. When you talk about others, don’t you think about yourself?’

Seeing that MO Li was not interested in this topic, he immediately changed the topic.

“Class monitor, do you know why little San is called little San? Instead of calling him third brother like everyone else?”

MO Li was interested in this topic, but he also had some questions in his heart. The number 6 was called Brother Six, and the number 4 was called Brother Four. Why was he called Little Three?

“Because we have a squad leader called Fourth Brother. If he calls Third Brother, wouldn’t he seem older than the squad? In order to please others, she called him a mistress!”

MO Li sighed.. This mistress was quite good at bootlicking!

Chapter 480: The Two Beast Kings of the Eastern World Fields

Wild Beast Eastern Region.

The news of the Heaven Devouring Beast's return had already spread throughout the entire eastern domain.

But what happened next was unexpected.

In the past, whenever a beast king appeared in a wild beast tribe, it would be a huge event. Not only would all the wild beasts celebrate, but the tribe would also hold a grand celebration.

Firstly, it was to warn the other tribes that they also had a Beast King and that they should not provoke them easily. Secondly, it was to establish prestige within the tribe.

However, the news of the Heaven Devouring Beast's return had been circulating for a long time. Not to mention the cat clan's banquet, the other wild beasts had not seen the Heaven Devouring Beast.

It was very difficult to see them even if they wanted to!

This was because the cat race was quite special among other beast races.

Other creatures could live in groups, and so could cats. However, they did not only live in groups, but they also did not like to be restrained. Therefore, the entire cat race did not have a fixed residence.

Cats roamed the eastern region in groups of three to five. Due to their large numbers, they could be seen everywhere.

Other than the Heaven Devouring Beast being exceptionally powerful, the Cat Clan was at a complete disadvantage against the Snake Clan.

The Snake Clan was also very respectful. They had not attacked the Cat Clan for so many years. On one hand, they were afraid that the Heaven Devouring Beast would take revenge. On the other hand, there were too many of them.

It was very difficult to completely defeat them. Although the cats were scattered everywhere, they were the most disciplined among the wild beasts. If they wanted to gather together to fight the enemy, they would quickly gather and deal a fatal blow to the enemy as long as they sent a signal.

Such a lifestyle allowed them to advance and retreat at will. They had almost no natural enemies. You attacked me, but I was scattered and everywhere. You couldn't completely defeat me, but once I attacked, it would be a heavy blow from the main force.

If you can't hit me, I'll hit you to death.

Therefore, even without the Heaven Devouring Beast, the cats would continue to search.

The Snake Tribe, like the other beast tribes, was actively preparing for war. They were just waiting for the starting gun from the Western Regions.

When the Western Regions moved, the four directions also moved.

This was the strategy of wild beasts. It was because the foxes and apes of the Western Regions looked like humans and had the most intelligence and information, so they were in control of the situation.

There were no more problems with the snake tribe, but the cat tribe was the only tribe without a king. There was no one who could make the decision. The other tribes did not know what the cat tribe meant and whether they would participate in the war against the humans.

Recently, the news of the Heaven Devouring Beast had spread, but the Cat Clan had not made any moves. The others were not anxious, but the Snake Clan was! North, South, East, West, Beast Regions. Each region had two races. When the war began, the strength of two races was naturally much stronger than one race. At the very least, the combination of skills was not too simple.

The cats of the Eastern Region had not expressed their stance for a long time. They did not know if the cats would participate in the battle.

If they didn't participate in the war, the Eastern Region would only have the Snake Tribe, which would undoubtedly become the weakest region.

It could also become a breakthrough point for humans. How could the snake race not panic?

Therefore, the highest leader of the Snake Tribe, the King of Beasts, Old Snake, could no longer sit still and decided to meet the Heaven Devouring Beast.

No one knew the name of the Snake Tribe's Beast King. Everyone called him Old Snake, and even the people in his tribe called him that.

The reason for this name was simple. This snake was too old. At the beginning of the mutation, he was already over a hundred years old. He was the oldest top-notch expert at that time.

Furthermore, no matter how intense the battle was, Old Snake had always been alive. He was still alive and sound.

That was why Beast King and Old Tang called him Old Snake.

He had lived for so long, and had seen the glory of the Heaven Devouring Beast. At that time, no one could rival it, and it was insufferably arrogant. However, it was still slain by the Supreme Sovereign. He had also seen the miserable state of the Heaven Devouring Beast, where an ordinary member of the imperial clan could kill it.

Old Snake had lived in this land for too long and was too familiar with it. He knew every creature that came to the eastern region, such as the three humans who had been at the border a month ago.

Old Snake had his own reasons for not looking for the Heaven Devouring Beast.

He understood the Heaven Devouring Beast. Every generation of the Heaven Devouring Beast had a different personality. It was very likely that before they reached the complete form, they would not awaken the memories of the previous generation.

And this Heaven Devouring Beast was probably not even an adult, let alone a complete one. Even if Old Snake went, he would not recognize him, much less show any mercy.

As such, Old Snake had been waiting for the Heaven Devouring Beast to arrive. However, as time passed and the time for the war drew closer, Old Snake could no longer sit still.

Without expending much effort, Old Snake headed straight for the Heaven Devouring Beast.

Unlike the apes and foxes, the snake tribe did not have the same body as humans. The strength of the snake tribe was easy to distinguish. The longer the snake, the stronger it was.

And how long was Old Snake? No one knew.

There was a saying that was used to describe Old Snake. One could only see his head but not his tail.

He could see his head, but he couldn't see where his tail was. It was so long.

The place Old Snake had arrived at was a relatively large group of cats.

When a few cats saw Old Snake, they immediately invited him inside.

In the Eastern Region, Old Snake was the absolute overlord. Regardless of the race, they had to be respectful when they saw Old Snake.

Old Snake was led into a tent, and upon entering, he saw the Heaven Devouring Beast reading a human book.

"Heaven Devouring! I don't know if you remember this old friend of mine." The Heaven Devouring Beast was Little Fu Shun.

After such a long time, Little Fushun had changed again. His body size did not change much, but the color of his body had completely changed from silver to silver.

The silver color had a metallic feel to it, giving off a sparkling feeling. After staring at Old Snake for a long time, he shook his head in a human-like

manner.

“I don’t remember, but I know him!”

Little Fushun could speak!

Speaking of which, it was funny. When he was in Moxiu’s villa, Little Fu Shun had never learned the human language. After returning to the eastern region, it was his clansmen who taught him the human language.

“Then do you know why I’m here this time?” Old Snake asked as he coiled up beside him.”

” You’re Old Snake, the overlord of this area,” Little Fushun replied.” I should be the one visiting you. As for the purpose of my visit, I don’t know.””

Old Snake replied,” You’re welcome. We’re both Beast Kings. There’s no difference between you going to my place and me coming here. I want to ask you about the war today.”

Little Fu Shun didn’t seem to understand and asked,””What war?”

Old Snake looked at the cats beside him and asked,””You don’t know what war is? Didn’t your people tell you that we wild beasts are going to attack humans again?”

“I really don’t know. What about the contract?” Little Fushun shook his head.”

“Contract? Are you talking about the human contract? None of us wild beasts acknowledge that kind of thing. It’s just a piece of paper. What’s the use?” Little Fushun lowered his head and said nothing.

I’m here to ask you,” Old Snake pressed.” What do you cats think?” Should I join this war?

“Not participating!”

Old Snake had not expected the Heaven Devouring Beast to reject him so decisively.

Little Fushun repeated himself.

“Not participating!”
