

Four Skills 491

Chapter 491: The Company Captains Running Around in circles

The captain picked up the note and read it several times. The font was unfamiliar.

He stood up and checked every corner of his office. Someone had come in. How did they get in? Who would report it anonymously?

The captain didn't want to be distracted, but since there was such a thing, it would be inappropriate not to investigate. When he picked up the phone again, he dialed the number of the captain of the third brigade.

After receiving the call, they said that they would verify it immediately.

The captain sat on the chair and pondered. He did not look for Ape 2222 again. No matter how anxious he was, he had to wait for the reply from the Third Brigade.

If this news was true and there was really a mole over there, his contribution would be halved if he went to do something else.

He had deliberately emphasized on the phone just now that he had to reply to any messages.

Not long after, there was news from the third team. The person who was reported was gathering some people from other teams for a meeting. He was acting suspiciously.

The captain couldn't sit still anymore. He immediately set off for the third brigade. He had to get such a huge credit!

After the captain arrived, he began to interrogate the third captain. The final result of the interrogation was that they were helping the higher-ups investigate and find people who might know the news.

He also obtained another clue. A note appeared at the place where they were meeting. On it were some names.

The two captains then found the captain of the second brigade and began to investigate. After that, they found new clues and continued to investigate. This went back and forth for a long time, and in the end, he wasted an entire day.

What made the captain of the Sixth Brigade the angriest was that after a whole day, the final clue pointed to Ape 2222. He hated himself for not looking for Ape 2222 at the beginning. If he did, all the credit would have been his.

And now? All the captains of the 7th Ape City were gathered together. No matter what the credit was, it would be shared by everyone. Since everyone had contributed, what was the point?

What happened next was a spectacular scene. All the captains of Ape 7 City, including the three main captains, arrived at the area under Ape 2222's jurisdiction. They searched around but could not find him.

In the end, she found Ling in the meeting room!

Fourth Brother was also pitiful. There were so many people on the list, and he had to sort out the order of everyone's transmission. He also had to clearly mark everyone's position and team. With such a huge workload, Fourth Brother did it alone and did not dare to ask for help.

This! After a day of work, they were finally done tidying up. Just as they were about to finish, the door of the conference room was kicked open.

The three head captains and a group of great captains all entered.

Fourth Brother had never seen such a scene before and was so scared that he couldn't speak.

As the captain of the sixth team, he took the lead and said, "Isn't this Fourth

Brother? Where is your squad leader, Ape 2222?"

Fourth Brother realized that something might have happened. His entire body trembled as he said, "I don't know. He asked me to sort out the list here. I don't know where he went."

The captains looked at each other.

"Arrange the list? What list?"

When he heard the name list, Fourth Brother immediately recovered. That's right, Ape 2222 wasn't here. Did that mean that he was suspicious and monopolized the credit for helping the higher-ups investigate? Then, he could use Ape 2222 as a scapegoat and might even be cleared of suspicion.

Looking at the clean and tidy name list, Fourth Brother was full of confidence. There's hope now. Ape 2222, I told you to put down so much work and leave on your own. I'll definitely kill you this time.

' Captain," Fourth Brother said," I've compiled all the names here. It has nothing to do with Ape2222.'"

When the captain heard this, he was furious and said, "You're still helping Ape2222 get away with it!"

The captain strode forward and subdued Fourth Brother.

Fourth Brother was stunned. What was going on? He should have done it!

He quickly explained," Leaders, I think there's some misunderstanding between us. This list is of everyone who knows about the news. I'll help you sort it out."

The captain threw a punch at him." Help us tidy up? Look at the list. Everyone on the list is a suspect. Arrest them all!"

Fourth Brother was stunned. Didn't he say that he had contributed? How could they all be suspects? This time, Fourth Brother couldn't remain calm and wanted to explain again.

The captain didn't give him a chance to explain and brought him back for interrogation.

In the beginning, Fourth Brother had thrown all the dirty water on MO Li, saying that MO Li had told them all the information on the list and that he was only helping his superiors organize the list.

At this time, Fourth Brother had not told the truth and was still greedy for credit.

After a few rounds of torture by the captain, Fourth Brother finally realized the crux of the problem.

Now was not the time to snatch credit. There was no credit in doing this. Now was the time to see if he could save his life.

In the end, Fourth Brother couldn't hold it in and told the truth.

The group of captains arranged for people to search for MO Li's whereabouts while interrogating Fourth Brother.

After listening to Brother Four's story, all the team leaders in the team started to suspect that the investigation was going in the wrong direction. They were only assisting in the investigation to protect themselves?

Based on Ling's current state, he shouldn't be lying.

Just as the captains were thinking, Fourth Brother muttered something.

"Which son of a b * tch reported us? We were clearly kind."

This sentence did not have any practical meaning, but it reminded all the captains present that they were right! Who was the person who reported it? He must have participated in their meeting to know such details.

He also led all the captains in circles step by step. This person knew a lot of information and wanted to buy time.

He knew the name list but had yet to show up.

The sixth captain slapped his thigh and said regretfully, ““This person must be Ape 2222. He deliberately released this information to confuse the public.

Hurry up and search. Don't let him escape!”

At this moment, everyone understood that MO Li didn't want to save the people on the list at all. He wanted to use their meeting as a distraction.

MO Li's trick was very clever. After the captain was cleared of suspicion, who was the next person to be investigated? It was the squad leader.

However, MO Li did not want the captain to investigate him so quickly. What if he wanted to stall for time?

The resources that he could use were the people that Fourth Brother had found for the meeting. If he reported them anonymously, it would distract the captain's attention.

These people were all at the bottom of the hierarchy, and they had left clues everywhere. By the time they investigated MO Li, it would have taken them a long time. It would definitely take more time than the captain investigating the captain directly.

All the troops from Ape 7 City were fighting for time.

Every step was calculated accurately, and he analyzed the hearts of the participants.

This was the biggest matter in Ape 7 City. After this matter was over, there might be a major reshuffle among the higher-ups in the city.

In order not to be washed away, every captain hoped to have a contribution in their hands.

That was why so many captains followed a clue everywhere. No one wanted to give up the credit..

Chapter 492: Battle mode!_I

The captains were running around, so they didn't have time to look for Mo Li.

Mo Li also had some free time to do other things.

There was still no news from the people the team leaders sent to look for Ape Ape 2222. Everyone couldn't sit still anymore and decided to look for him personally.

At this moment, a squad leader came over and reported,""We found traces of Ape 2222!"

"Where?" the captains asked in unison."

"He's on the city wall now. He should be preparing to escape but was discovered by the city guards. He's too strong. The city guards can't stop him anymore!"

At this moment, everyone understood that Ape 2222 was definitely the traitor. They had painstakingly gathered all the people above the rank of Company Leader to lure the tiger away from the mountain and buy some time to escape.

Everyone rushed to the city wall. At this moment, the city wall was in chaos. MO Li had killed countless soldiers by himself. There were corpses on and below the city wall.

All the captains and head captains were filled with regret. After a whole day, not only did they not get any credit, but they were also tricked by Ape2222.

Looking at the dead soldiers, the ones who felt the most heartache were the city guard captain and the other captains.

When MO Li saw them, he smiled and said, "Looks like I can't escape today. Then I'll start a massacre!"

When the captains heard this, they no longer hesitated and all went up to surround MO Li.

MO Li's current strength had already surpassed the captains. He was at a disadvantage when fighting so many captains, but he was still defeated immediately.

MO Li was just a skill and did not have the ability to become stronger on its own. However, MO Xiu's strength kept increasing. Every time MO Li was remade, MO Li's attributes would refresh and become stronger.

MO Xiu's two months of closed-door cultivation had caused MO Li's strength to increase by leaps and bounds.

At this moment, the captains were surrounding him, but MO Li was still able to deal with them. On one hand, MO Li's strength had improved, and it was incomparable. On the other hand, the captains didn't usually train together, so they didn't have a tacit understanding when surrounding them. This gave MO Li an opportunity to take advantage of. At this moment, a voice sounded.

"Move aside! I'll do it!"

The voice was very familiar. MO Li immediately recognized the voice of the City Lord.

The City Lord of Ape 7 City was one of the top ten City Lords.

Now that he said he wanted to spar with MO Li, the others immediately dispersed.

At the same time, the captains thought, Oh no! The City Lord had made a move. This time, he could not redeem himself.

“You’re called Ape 2222?”

“That’s right!” answered MO Li.

“Are you a beast or a human?”

“Hahaha, there’s nothing to hide now. I’m a human!”

“Good! Many people don’t know my name. Today, I can tell you that my name is the same as this city’s. It’s called Ape 7. What’s your real name?”

Ape 7 sized MO Li up and said, “Your name is MO Li? What’s your relationship with Morse City?”

“That’s my brother!”

Ape 7 smiled and said, “Alright, you two brothers are really something. Last time, it was MO Xiu and this time it’s MO Li. I admire your courage and ability, but since you’ve been discovered, you have to pay the price. Are you ready?”

“I know I can’t leave today.” MO Li said provocatively. “But you’re a little late.

Look around. How many beasts have I killed?”

Ape 7 had no expression, and no emotions could be seen.

His actions told MO Li that Ape 7 was angry!

Ape 7 was a thin ape. The characteristics of a thin ape were high intelligence, high agility, and high explosive power. It was a standard assassin.

As soon as MO Li finished speaking, Ape 7 disappeared. Unfortunately, MO Li couldn't use God's Authority. Otherwise, reading Ape 7's skill would be another important piece of information.

MO Li looked around vigilantly, in case Ape 7 suddenly appeared and attacked him.

However, it was useless even if he defended. Ape 7 appeared in front of MO Li and attacked at a speed that MO Li could not defend against.

With just one move, MO Li clutched his lower abdomen and knelt on the ground. He was seriously injured!

MO Li realized that Ape 7 was far stronger than him, and there was no hope of victory if they continued fighting.

The strength of a city lord was worlds apart from that of a great captain and a head captain.

Thinking about it, it made sense. The city lord of the front ten cities was the top fighting force under the Beast King.

Ape 7 didn't give MO Li much time to catch his breath. He was about to attack again.

This time, MO Li knew Ape 7's speed and strength. He had some predictions and would dodge the second attack.

At this moment, Moxiu, who was far away in the central royal space, woke up from his cultivation state. He opened his eyes and released an additional skill that MO Li had never used before, Battle Chief!

After using Battle Chief, MO Li's attributes would increase by 20%, which was 120% of MO Xiu's attributes in his Martial God state. With such strength, he should be able to fight Ape 7.

However, there was a fatal flaw. From this moment on, MO Li was no longer under MO Xiu's control. She couldn't even share her divine sense and didn't know what was happening over there.

It doesn't matter anymore! Everything has been arranged.

MO Xiu closed his eyes and entered a state of cultivation once again.

On the other side, on the city wall of Ape 7 City.

When Ape 7's third attack was launched, MO Li's eyeballs turned completely black. It was as if he could not feel anything. He forgot about the pain and stood up straight.

MO Li's change was a little unusual. Ape 7 noticed this and paused for a moment in the process of attacking.

It was also this move that gave MO Li time to react. He turned his body and paused.

However, Ape 7's speed was simply too fast. MO Li only managed to dodge the attack in a vital area. The attack landed on MO Li's left abdomen.

This attack was even more powerful than the previous two, directly piercing through MO Li's lower abdomen.

Ape 7 thought that this attack would make MO Li lose his combat ability. After all, under such pain, he would not be able to exert his strength normally.

Ape 7 was about to grab Li MO and interrogate him when he looked up and realized something was wrong!

MO Li's eyes were dull, and he didn't seem to feel any pain.

Just as Ape 7 was observing MO Li, MO Li suddenly attacked and punched Ape 7's shoulder.

Ape 7 did not expect MO Li to still have any combat ability. He was caught off guard and was hit by the punch.

The punch was so powerful that it sent Ape 7 flying.

Ape 7 laid on the ground and tried to get up, but he failed to do so the first time. MO Li's seemingly light punch was actually full of power, causing Ape 7, who had weaker defense and relied on speed, to be seriously injured.

MO Li was still expressionless. The bloody hole on his body was shocking. However, MO Li seemed to be uninjured as he walked towards Ape 7 step by step.

This scene was very shocking. How could a human be so fierce?

The surrounding captains were stunned for a moment, then they immediately realized that the City Lord was injured, and MO Li still had to continue attacking.

All the captains rushed forward, wanting to subdue MO Li.

However, MO Li's speed was extremely fast, even faster than before he was injured.

He dodged everyone's obstruction and pounced on Ape 7..

Chapter 493: Ape 7 and New Ape 7

MO Li nimbly dodged the crowd's obstruction and pounced at Ape 7.

Ape 7 was badly injured, but in the face of danger, he still managed to increase the distance between him and MO Li.

MO Li was ready to give chase again. The people behind him chased after him.

The one at the front was the head captain of the combat team.

His strength was ranked second in Ape City, and he punched MO Li in the back.

MO Li's reaction was once again beyond everyone's expectations. He did not turn around to block and took the punch head-on.

Without even looking back, he borrowed the power of this punch and charged at Ape 7 again.

Everyone was shocked and could not help but pause. The power of this punch was not light. It had beaten MO Li's back into a bloody mess.

MO Li's performance was the same as before. Regardless of whether he was injured or not, he continued to fight with Ape 7 as his target.

At this moment, MO Li had two relatively serious injuries on his body. If they were not treated as soon as possible, they would be fatal.

One was the punch from the Field Commander, and the other was the bloody hole Ape 7 had made in MO Li's abdomen.

The two wounds would affect his movements, but MO Li did not seem to be affected at all. He charged at Ape 7 at high speed. Ape 7 was also stunned. He did not expect MO Li to be so persistent.

Even though Ape 7 had been through hundreds of battles, he still couldn't figure out MO Li's moves. On the contrary, he was affected by his previous injuries. After MO Li closed the distance, he couldn't immediately pull away and fight with MO Li.

At this moment, the two of them had just exchanged two moves, and Ape 7 was already at a disadvantage.

Logically speaking, even if Ape 7 was injured, MO Li would not be a match for him. However, MO Li's fighting style was simply too crazy. He did not care about the damage he suffered at all. When Ape 7 attacked, MO Li did not even dodge. Just to give Ape 7 one more punch.

Such a life-and-death battle style shocked everyone.

Didn't they say that we beasts were fearless in battle? How could this human do this?

MO Li was at the end of his rope, and there was no way he could survive. Even if he could cause a certain degree of casualties before he died, he would still die

in the end.

Even if he didn't have any concerns, it was impossible for him to be stronger than before he was injured.

Looking at the battle between Ape 7 and MO Li, the Field Commander said, "Second Company Leader! Charm!"

There was only one Fox Tribe Main Team in the Combat Main Team, and it was the Second Main Team.

The captain of the second team was a handsome man from Seductive Fox. If it was a real battle, it wouldn't be of much use against MO Li, so he would use mental attacks.

The second captain said, "Commander, I've already used it just now, but it's useless. I can't even lock onto MO Li's target. I guess that MO Li is able to continue fighting without being affected by his injuries because he has erased his consciousness. Only then can we explain why he can't be locked on. He's already dead."

The Field Commander's brain spun rapidly. He had indeed heard of a human technology that could allow humans to unleash 100% of their strength.

The physical fitness of humans was not as good as that of wild beasts, but their potential was unlimited. The power that each person could use was not their own limit, but the full strength of their body after being protected by their brain.

MO Li could erase his consciousness? Or rather, humans had such technology.

There was no time to lose. While the Field Commander was thinking, the other Company Leaders had already come to Ape 7's side to help Ape 7 block MO Li.

MO Li's continuous attacks had caused Ape 7 to suffer heavy injuries. At the same time, MO Li was also on the verge of death. Battle Chief's characteristic was that he had no thoughts and could go all out. At this moment, he had also reached his limit.

Under the siege of the group of team leaders, MO Li fell to the ground. The team leaders continued to attack. MO Li was too terrifying. They could not give him a chance to live.

At this moment, the Field Commander, who had not moved, came to Ape 7's side.

"City Lord, how are you?"

Ape 7's injuries were very serious. He coughed out a mouthful of blood and squeezed out a few words with difficulty, "Help...me...back!"

After the Field Commander heard Ape 7's words, he revealed an expression that should not have appeared on his face.

He laughed happily. Slowly, it turned into a loud laugh. He laughed without any scruples.

Ape 7 seemed to have realized something. He struggled to prop himself up and run, but the Field Commander did not give him the chance. He punched out!

One punch!

This punch was extremely powerful, several times heavier than the one he had just punched MO Li. It was obvious that he had held back when he hit MO Li.

The punch pierced through Ape 7's chest. There was no shock in Ape 7's eyes. It was as if he had guessed that this day would come. There was only regret in his eyes.

Its eyes were not closed, and its limbs hung limply. Ape 7 no longer had a trace of life.

Not far away, the Company Leaders had already beaten MO Li into a pulp and happened to see the scene of the Field Commander killing Ape 7.

When the Field Commander laughed, he did not try to hide the fact that he had killed Ape 7.

The Field Commander tossed Ape 7's corpse to the side, turned around, and said to all the Company Leaders, "You saw it, so what do you decide to do?" The captains looked at the other two captains.

The city guard captain and the service captain looked at each other and knelt on one knee together. They shouted, "City Lord Ape 7 died from serious injuries when he was arresting a traitor. We are willing to support you as the new city lord. Please tell us your name!"

When one reached the position of City Lord, they could decide their own name. It was equivalent to a new life.

The Field Commander looked at Ape 7, who had no signs of life, and announced loudly, "From now on, I will be the City Lord of Ape City, and my name will be Ape 7."

All the captains and the city guards who were watching from the side knelt down and shouted together, "City Lord Ape 7!"

MO Li did not see this scene. The world of beasts seemed to be filled with rules, just like Ape City.

It was a military camp with a strict hierarchy system. However, when the Field Commander killed the City Lord, no one reacted much. There was no loyalty to speak of. They didn't even need to think about it, nor did they need to think about right or wrong. They directly regarded the Field Commander as the new City Lord.

The fundamental law of beasts was that the strong preyed on the weak. No matter how gorgeous their appearance was, no matter how much they imitated humans, beasts were beasts!

Neo Ape 7 slowly walked over and examined MO Li's body with the others. When he looked down, he realized that MO Li's body was gone.

"What's going on?" asked Neo Ape 7.

The captain of the city guard said respectfully, "I'm not sure. The corpse suddenly disappeared. I'm sure that MO Li is already dead. That wasn't a corpse anymore, it was a pile of meat."

The captain of the city guards was very impressed with the new city lord, not because the new city lord killed Ape 7, but because he was very clear about the new city lord's strength. He was on par with Ape 7, and after enduring for so many years, he finally found an opportunity..

Chapter 494: A Great Help (1)

Many people knew how strong the Neo Ape 7 was, so they didn't act rashly.

Everyone understood the Beast King's style of doing things. There was not much difference in strength between New Ape 7 and Ape 7. Ape 7 had just been seriously injured, so New Ape 7 killed Ape 7 and replaced him.

The captain would not say anything, and the Beast Kings would not pursue the matter.

However, if someone weaker than Neo Ape 7 joined forces to kill Neo Ape 7, and there was no one who could replace Neo Ape 7, the Beast King would definitely pursue the matter.

This was also the reason why the two head captains and the group of captains, even though Ape 7 had treated them well for many years, did not hesitate to immediately support the new city lord after seeing Ape 7's death.

Neo Ape 7 looked at the empty ground and said, "How could the corpse disappear for no reason?"

"This...I'll go ask."

The captain of the city guards asked everyone at the scene just now, and the final answer was the same.

Everyone's attention was on City Lord Xin, who would look at the pile of flesh on the ground?

This was not easy to handle. The new City Lord had just taken over the position, and he could have pushed the matter of the traitor to the original City Lord. Now that he had caught the traitor, not only did he not have any responsibility, but he also had a great merit.

But now that MO Li's corpse was gone, things became difficult.

Without evidence to give the Beast King an explanation, this matter would become more subtle. The Beast King and the other two people from the top ten cities who would be coming in two days would think that the traitor had not been caught, and that the new city lord had made up the illusion that he had caught the traitor.

Just as the new city lord was at his wit's end, he saw a phone on the ground where MO Li's corpse had disappeared.

"Whose phone is this?" she asked the person beside her."

Everyone looked at each other. In the end, the captain of the city guard said, "The phone is at the location of MO Li's corpse. Our phones weren't lost in the battle, so this should be MO Li's phone."

The new City Lord seemed to have grabbed onto a life-saving straw as he picked up his phone and started flipping through it.

A smile gradually appeared on his face as he whispered, ""This is good."

Just as the city guard captain was about to ask about the situation, the new city lord walked up to Ape 7's corpse and swung his fist. He only stopped when Ape 7 was reduced to a pile of flesh and blood.

Then, he turned around and said to everyone, "This corpse is MO Li. The former city lord's corpse has been cremated."

There was a moment of silence. Although no one said anything about the new city lord seizing power during the crucial moment, this was a blatant fraud and he even used Ape 7's corpse to fake it. He did not give Ape 7 any respect.

Such a method still made some people feel disgusted. Today, the new City Lord could treat Ape 7 like this. Tomorrow, he might do the same to anyone present and make them take the blame.

Since it involved their own interests, the people present didn't respond so readily. The scene was a little noisy. Some of them immediately responded to the new city lord, wanting to curry favor with him. There

were also some who remained silent and were still thinking. There were even some who felt that the new city lord's actions weren't good and were whispering among themselves. "If you have any objections, tell me loudly!" the new city lord said unhappily."

When the new city lord said this, one of the captains of the main combat team finally couldn't hold it in any longer. He stood out and said, "City Lord, I don't think this is appropriate. After all, this is the original City Lord. We should show some respect. Everyone here has seen the current situation. We can testify together that MO Li is already dead."

The new city lord smiled as he approached the captain. As he walked, he said, ""As expected of my previous capable general. He could stand up and help me solve the problem at the critical moment."

The captain and the other captains were all happy. It seemed like the new city lord was easier to talk to.

When the new city lord walked up to the captain, everyone saw an unbelievable scene.

The new city lord grabbed the head of the great captain with his right hand. Without any resistance, the head of the great captain was crushed.

"I don't think Ape 7 wants to either. After all, he's a skinny ape, and he's not as good as MO Li in terms of reminders!"

The captain who had lost his head fell to the ground silently.

"Bang!"

The sound of him falling to the ground sounded an alarm in everyone's hearts.

The newly appointed City Lord was not a kind lord. He was ruthless and could do anything!

Everyone knelt on the ground again and said what they should have said just now.

“This corpse is MO Li. The previous City Lord was badly mutilated by MO Li, and the new City Lord killed MO Li with one move!”

The new City Lord finally nodded in satisfaction and said, “Count the casualties and report to me!”

Then, he slowly left.

The development of the entire situation was basically under Moxiu’s control. In the end, MO Li would definitely die. Moreover, MO Xiu hoped that MO Li would die a miserable death or die in the midst of the chaotic battle. That way, the sudden disappearance of his corpse would not attract too much attention. After all, MO Li was a skill that would eventually disappear.

This was also the only flaw in the entire plan. Moxiu was only worried that the wild beasts would suspect him.

Even though MO Li had lived in Ape 7 City for more than two months, he did not expect such a domineering power struggle to happen in the end. In order to show his contribution and avoid trouble, the new City Lord also helped Moxiu solve this problem.

In the end, after MO Xiu lost control of MO Li, there were two unexpected things.

The second was MO Li’s combat strength.

After using Battle Chief, MO Li’s combat strength far exceeded MO Xiu’s imagination. Although he had ambushed him, he had still severely injured Ape 7.

This kind of fighting style that was not affected by the injury, the strength that erupted was far greater than the normal level.

At night, in the residence of the city lord of Ape 7 City.

The new City Lord was hugging the wife of the previous City Lord intimately.

The former city lord's wife did not seem to hate him at all. Instead, she was trying her best to please him.

The new City Lord looked at his spoils of war. Just as he was about to fight, a voice came from the door.

"City Lord! Report!"

The new city lord frowned, feeling annoyed that he had been interrupted.

He suppressed his anger and said, "Come in and talk!"

The person who came was the head captain of the city defense team. He was not surprised to see the wife of the former city lord with the new city lord.

The wife of the previous city lord was the most beautiful woman in Ape City. The most beautiful Seductive Fox was something that everyone wanted, so the new city lord would not let her go.

"What's the matter?" asked the new City Lord."

Some people could be killed casually, while others could not. For example, the city guard captain in front of him would be his greatest help in the future.

Without him, the strength of Ape 7 City would be greatly reduced.

"Report, the casualty statistics are out."

"Tell me!"

“Eight hundred and fifty-one people died. Among them, one was a city lord, one was a captain, four were small captains, fifteen were big squad leaders, twenty-nine were middle squad leaders, forty-seven were small captains, and the rest were ordinary soldiers..”

Chapter 495: MO Li's Purpose (1)

The casualties were calculated. In the process of capturing Mo Li, there were heavy casualties, and the main force guarding the city was greatly damaged.

According to the report of the city guard captain, the archives room collapsed during the battle and caused a fire. Most of the archives were gone, and only a small portion was kept.

The new city lord was a ruthless person and was more cautious in his actions. He asked, “Was the incident in the archives an accident or did MO Li do it intentionally?”

It's basically an accident,” said the captain.” MO Li probably doesn't know the location of the archive room, and it was an accident during the battle. ””

The new City Lord nodded and said with satisfaction, ””I understand. You can leave first.”

The city guard general was a sensible person. He would not stay here for long so as not to delay the new city lord's good things.

The new City Lord took out the phone number that MO Li had left behind. This was the most crucial thing. Whether or not he could make a great contribution would depend on the message on the phone.

The beauty at the side was very sensible. She did not say a word when they were discussing serious matters. At this moment, the city guard captain had just left the door and immediately threw himself into the arms of the new city lord. She said bitterly, ”Sir, can we start now?”

“Hahaha, okay, okay. Let’s start now, you little vixen.”

Back in the day, MO Li placed several pieces of paper in different positions, waiting for the sixth captain of the Combat Team to take the bait.

This was a crucial point. If the sixth captain didn’t take the bait and contact the third captain, the entire plan would change.

Before the sixth team leader returned to his office, MO Li had been nearby. He only left after the sixth team leader returned to his office and called the third team leader.

In the past two months, Moli’s understanding of wild beasts had deepened. There were favors among them, but personal interests would always be above everything else. No feelings would waver this point.

Therefore, when the spy was exposed, MO Li immediately thought of using Beast. Fourth Brother and everyone he could contact.

He took advantage of their selfishness and the fact that they wanted to protect themselves, turning them into his bait or sacrifice.

After that, it was the time for the captain and his team leaders to investigate.

They were very conflicted. They hoped that they could be the first to find out who the traitor was and obtain credit, but they did not want the traitor to be within their jurisdiction. Otherwise, they would also be at fault and would not be able to escape.

This was also why the sixth team leader suspected MO Li, but when he saw the report, he still chose to ask about the situation at the third team first.

This was because while he suspected MO Li, he didn’t want MO Li to be a mole. Moreover, he had this clue in his hands.

Similarly, the third team leader immediately began to investigate after receiving the news. There was no other reason than that there was a suspicious person in the team. He did not discover it first, but the sixth team reminded him.

This was a mistake in the first place. If he did not pay attention to it, it was very likely that he would get burned and be completely finished.

After receiving the news, he quickly carried out an investigation and reported the results to the sixth captain. If anything happened, the sixth captain could be tied to the same boat as him.

At this moment, the sixth captain who received the news was overjoyed. At the same time, he immediately moved to get some credit.

When they arrived at the scene, they saw another message left behind by MO Li, pointing to the other teams. Like before, the sixth team leader and the third team leader immediately connected.

Just like that, all the captains and head captains were tied together.

This was unavoidable. They would find MO Li no matter what. MO Li knew this very well, so he didn't hide it. They had bought enough time.

MO Li had only appeared on the city wall at the last moment. What had he been doing before that?

On one hand, he quickly arranged for Prince Xi and Nong Zhang to respond, and on the other hand, he went to silence them.

Based on her memory, the first person MO Li found was the staff member who had received her when she first entered the city.

Because of the traitor incident, all the soldiers were very afraid, afraid that they would be implicated. Almost no one would form a group.

This way, MO Li's movements were much more convenient.

MO Li went straight to the staff member's room and entered without knocking.

The staff member recognized MO Li at first glance. MO Li had left a deep impression on him.

At that time, he looked down on this recruit, but it was said that he was already a small captain now.

"You! You are Ape 2222, why are you looking for me?"

MO Li didn't reply and sat down beside him.

"You have a deep impression of me? Who else did you tell about me?"

When the person heard this, he immediately realized that something was wrong. He wanted to shout for help, but MO Li covered his mouth with one hand and pressed him to the ground.

"It's too easy for me to kill you. If you tell me the truth, I might spare your life."

This person wasn't stupid. Right now, self-preservation was the most important thing. He told them all about those people, but he kept a few of them alive and even threatened MO Li.

"This isn't everyone. There are a few people I haven't told you. If you let them go, I'll find a way to tell you..

The knife slashed across, and the head fell to the ground.

It wasn't that MO Li didn't want to know about everyone, but there wasn't enough time now. He didn't want to waste so much time talking to one person.

MO Li eliminated everyone on the list and went to find the people he had met when he first entered the city, including the five people who had tested him and the people who had climbed up the city wall later.

Kill them all!

Anyone who was suspicious was killed. Wild beasts were not worthy of sympathy.

After that was the last step. MO Li sneaked into the archives room, found his relevant files, destroyed them, and left.

MO Li had done so many things not because he wanted to escape on his own. There was no point in escaping. On the contrary, it would make the Beast Kings strengthen the security of the entire Western Regions. At that time, it would be difficult for King Xi and Nong Zhang.

MO Li was only a skill, and he could be resurrected if he lost it. The main purpose was to erase the identity card that he had taken when he came. On it was the location of the city, which was King Xi's city.

With this proof, MO Li believed that the Beast King could easily touch King Xi. This was the key point.

MO Li had killed so many people and destroyed the files. If he didn't do something, it would still arouse suspicion.

Looking at the time, it was almost time to start the slaughter!

During the battle on the city wall, MO Li's goal from the start was not to escape, but to kill people, so as to reduce the possibility of Ape 7 City suspecting that there were other spies.

He tried his best to carry everything on his back.

In the battle, MO Li killed as many people as possible to cover up the traces of his previous silencing.

They would deliberately destroy the archives in the battle to cover up the traces of the destroyed archives.

He tried his best to create the illusion that he wanted to escape but failed.

The wild beasts would think that MO Li was the only traitor and wanted to escape alone.

In the eyes of the wild beasts, MO Li had failed, but in fact, he had succeeded..

Chapter 496: Self-Destruct

In MO Li's entire plan, there was another key point, which was the phone!

The cell phone was not a mistake. MO Li had a total of five cell phones. The other four were all destroyed. This one was deliberately left as a clue.

It was impossible for a traitor to have no one to support him. MO Li was doing this to eliminate the suspicion of the beasts with the smallest loss!

The next morning, the new city lord of Ape 7 City reported everything that had happened to the Beast King.

He also received the next step of the plan. According to the clues left behind by MO Li's phone, he would wipe out the entire human traitor system.

The new City Lord was very happy after receiving the order. He had naturally reported the news of the previous City Lord's death to the Beast King. The Beast King did not have any reaction, nor did he mention the appointment of the City Lord. This proved that the Beast King had tacitly approved of his existence.

His position as the City Lord could be considered stable. He had just stabilized his position, so he naturally had to do something.

The new city lord brought two captains and a small group of soldiers to personally investigate this matter.

Not long after, he came back with more than ten heads and reported the situation to the Beast King in detail.

They could confirm that there was only one mole, MO Li, because from the various discoveries at the scene, the entire intelligence network was serving MO Li alone.

When they attacked the network, the other party resisted fiercely. After all of them were wiped out, there were still people stationed at the ape base to prevent humans from making any further moves.

After hearing this, the Beast King was relieved. This matter had temporarily come to an end.

In reality, the people from Ape City were not killing humans, but actual beasts.

These wild beasts were brought over by Nong Zhang. They had been locked up until the moment the army of Ape 7 City arrived.

He also found someone to use his mental skill to anger these people.

These people were already very angry. Coupled with the effect of their skills, they naturally attacked the people from Ape 7 City without holding back.

Ape 7 City was decisive enough. They didn't leave a single person behind for interrogation and killed them all.

This was a little out of Moxiu's expectations. He had originally arranged for Nong Zhang to be prepared to silence him, but now it was a lot easier.

Actually, the city lord of Ape 7 City wanted to save trouble. After arriving here, he knew that there were no large-scale traitors in the human race, so he did not want to add any more trouble to the interrogation.

This matter could be big or small. MO Li took the opportunity to launch a spy mission.

Fortunately, the intelligence on the human side did not move, and Nong Zhang and Xi Wang were not suspected.

Moreover, after two months of MO Li's operation, there were quite a number of spies in the military camp that could be used. That was enough.

In this incident, the Beast King's probing method was not brilliant, but MO Xiu had fallen for it. This undoubtedly sounded an alarm for MO Xiu and the humans.

Beast's power as a three-pronged spy in the Western Regions disappeared with this incident. Now, it was all thanks to the two giants, Nong Zhang and Prince Xi.

Nong Zhang didn't think too much about it. He listened to the instructions. Since Moxiu said that he could continue moving, he would stay in the wild beast territory. If he was told to retreat, he would immediately leave.

Prince Xi was different. He sat in his office, writing and drawing on a blank piece of paper.

Sometimes he wrote quickly in excitement, and sometimes he was in a daze.

After a long time, he slowly heaved a sigh of relief.

“To be able to come up with such a plan in such a short period of time, I can’t compare to MO Xiu, nor can I compare to MO Li. What a pity, someone like MO Li died protecting us.”

“Sigh! Such a decisive choice to self-destruct, I couldn’t think of such a method.”

That’s right, Moxiu’s entire plan was to self-destruct!

Of course, this was based on the fact that MO Li was using a skill and hadn’t truly died. That was why MO Xiu was so decisive.

Prince Xi did not know this, so he felt that he could not think of such a plan.

Humans had a habitual mindset. Whenever they encountered a problem, they would always want to protect themselves and solve it without damaging their own interests.

However, the returns and benefits would often be greater if they paid a portion of the benefits.

A situation like Ape 7 City was a desperate situation!

MO Li’s identity would be discovered very quickly. If they did not respond quickly, Beast would become suspicious and reach out to Nong Zhang and Prince Xi.

The self-destruction had solved the problem. Even if MO Li was a true person, he had only lost one person, a person who could not escape.

It was easy for MO Li to escape from Ape 7 City, but it was impossible for him to leave the wild beasts ‘territory!

Once MO Li escaped, his position would be locked down. When the Beast King made its move, he would still be finished. If he was controlled by the Beast King Fox, it would affect MO Xiu’s main body and cause even more losses.

Therefore, Moxiu did not hesitate to self-destruct after eliminating the evidence and take the blame for everything.

Although this matter had been resolved, the process was extremely dangerous. Even now, MO Xiu was still unable to determine if it was safe. There were too many people involved in this. If there were people who had not been dealt with completely, Prince Xi would still be in danger.

However, this was all he could do now.

In order to make the Beast King no longer suspect anything, Moxiu and Xi Bei communicated and made a difficult decision.

At the front, the spies led by Prince Xi and Nong Zhang continued to gather information, but they had to do so under the premise of their own safety.

The intelligence would also be sent back normally, but Xi Bei was required not to immediately respond based on the intelligence sent back.

This decision was very difficult, and it might cause some losses to mankind.

However, if he wanted to protect the people in front of him, he had to endure first. This was not only difficult, but also contradictory.

This was because the people at the front were risking their lives to gather information. At this moment, in order to compromise and compromise, what was the point of not using the information they obtained?

Xi Bei had such thoughts, but MO Xiu's opinion was completely different.

In the end, what convinced Xi Bei was MO Xiu's words.

“Prince Xi and Nong Zhang will definitely be useful, but not now. It could be at the start of the war, or it could be during the war. Anyway, not now. Exposing Prince Xi and Nong Zhang for some small gains and losses now is the worst loss.”

To Xi Bei, not using the information he had was a huge problem. However, MO Xiu was certain that they would be of greater use, so he had to be cautious at this time.

Xi Bei did not care too much. After all, this was a mission under MO Xiu’s jurisdiction, so he would listen to MO Xiu for now.

After communicating with MO Li, Moxiu closed his eyes and started cultivating again. He wouldn’t be able to obtain any information directly from MO Li.

He needed to check his phone from time to time to see the information that King Xi and Nong Zhang had gathered.

Within Fox City of the Western Region.

Ape couldn’t sit still anymore and said, “Hu, the Northern Region and Southern Region are pressing us. They’re asking me why the Western Region hasn’t made a move even after they’ve been at war for so long. If this continues, they might hold a grudge against us. If we have any problems in the future, it won’t be easy for us to ask for help.”

Fox said nonchalantly, “You should take a longer view. Based on the current situation, the humans in the country can’t withstand a single blow. The main thing is to fight with the other regions.””

“But...sigh!”

Chapter 497: At Any Moment (1)

Half a month later.

Wild Beast Eastern Region.

The three old men were still sitting under the big tree.

After this period of waiting, Elder You's gaze became solemn.

"Old Tang, something's not right. The Northern Region and the Southern Region have already taken action, but why hasn't the Western Region moved yet? If the Western Region doesn't make a move, then the Old Snake of the Eastern Region won't make a move either. When will we make a move? Why don't we go back first?"

Mr. Tang had his eyes closed the whole time. His mental state was much worse than a month ago. The three of them didn't communicate much.

Mr. Tang slowly opened his eyes and looked at Mr. You and Mr. Du.

"How long have I been asleep?" he asked in an aged voice."

"I've been sleeping for half a month. Do you want to eat something?" said Old

Mr. Tang turned his body and said to Mr. You, "What time is it now?"

It's October 3rd now," Elder You said, stunned." It's getting cold. ""

Mr. Tang supported himself on the ground and slowly stood up. He looked back at the human territory and then looked firmly at the depths of the Eastern Region.

Old Du and Old You also stood up. Old You said, "Why don't we go back first? We

can't waste time like this."

"No!"

Mr. Tang's tone was very firm. Mr. You and Mr. Du were stunned. Why did he suddenly become so serious?

"Let's go now," said Mr. Tang."

"Where to?"

"Go find Old Snake!"

But if we go now, regardless of whether we can successfully kill Old Snake or not, the Western Regions will definitely attack the central region. Are we going to push the war forward?"

Elder You was a little excited as he spoke. In his opinion, the difference between humans and beasts was obvious, especially now that humans were no longer invincible. Even Tang Wanhua was no longer around.

The war in the central region would drag on for as long as possible.

Elder Tang could tell what Elder You was thinking. He sighed and shook his head helplessly.

He looked at Elder You and said seriously, "Sigh! Old You, can you and Old Du kill Old Snake?"

Elder You replied without hesitation, "We can't. We don't know how Old Snake's strength is now. He's been improving all these years, but we've long since started to regress."

Master Tang looked at the interior of the Eastern Region and said, "Old Snake is very strong and cautious. Otherwise, he wouldn't have survived until today. He won't move if the Western Regions doesn't move. We've been in his territory for so long, so he probably already knew we were here, but he didn't move."

"Then it's even more unwise for us to look for Old Snake now," Elder You said. "If we fail to assassinate Old Snake, then.."

"I can live for another month at most!" What?!

Old You and Old Du exclaimed together.

Old Master Tang looked at the worried expressions of his two old friends and laughed instead.

"Hahaha, don't worry about me. I knew it before I came. You don't hate me for pulling you here, right?"

Old Du said with tears in his eyes, "My injuries can't be healed. I've been struggling to survive. If I can die in such a meaningful way, it's my honor. Why would I hate it?" It's just a pity that you're too important to humans. Old You and I discussed it before we came. Even if we have to die, we have to let you live."

Elder You, who had always been active, did not say a word at this moment. He stared at Elder Tang.

Elder Tang said, "There's no need for that. I'm about to die. I've fought countless times in my life. The injuries and sins on my body are too heavy. I can't live on. While I can still use my limbs, let's go kill Old Snake!"

Elder You was a little sad. He looked in the direction of the human territory for a long time.

"I know what you're worried about," Elder Tang said. "The humans have been preparing for this for so long. I believe they'll be fine. Don't forget, even if we're not here, Tianji is still here. Tianji will lead the humans out of this predicament again. There's also...Mo Xiu!"

In the cat territory.

In a huge tent, Little Fushun was still reading.

Ever since he returned to the cat territory and found his clansmen, Little Fushun had been reading books and learning about human culture without a break.

Little Fushun felt a sense of familiarity when he was beside MO Xiu. Ever since he first saw MO Xiu, he had this feeling, but it was also a little different. This was a complicated feeling that Little Fushun could not describe. Or

perhaps, Little Fushun's feelings for MO Xiu were very complicated.

Was it the relationship between father and son, or the relationship between brothers, or the relationship between humans and pets that existed in the pre-human society recorded in books?

Little Fu Shun could feel that MO Xiu and himself were special.

He had been reading countless books recently, not to learn human knowledge, but to find an answer, an answer that puzzled Little Fushun.

Who was MO Xiu? Who was he? Did he have some kind of special relationship with Moxiu?

On the other side, in the territory of the Snake Tribe.

The snake was resting with its eyes closed. This was what he did most of the day.

He was really too old. He wanted to maintain his body in peak condition, so he spent most of his time recuperating.

It had been a month since he invited the Heaven Devouring Beast.

The Heaven Devouring Beast wasn't willing to move, and neither were the two ghosts from the Western Regions. Old Snake was happy to be idle. Suddenly, Old Snake opened his eyes and walked outside to look into the distance.

"Is what should be coming still coming?"

Old Snake had just sensed that the three uninvited guests had moved and were rapidly moving towards him.

They didn't make Old Snake wait for long. Five minutes later, the three of them entered the territory of the snake tribe and flew in front of Old Snake.

The surrounding snakes wanted to attack, but Old Snake stopped them.

"All of you can leave. Remember, no matter what you hear or see, don't appear within a hundred miles."

This order made the Snake Tribe members present tremble. A great battle was about to happen within a hundred miles.

Old Snake seemed to be very dissatisfied with these people's behavior as he reprimanded, "Hurry up and leave!"

This time, the snake tribe began to retreat.

Old Snake's gaze fell on the three elders before finally locking onto Elder Tang.

"Tang Wanhua, long time no see. Back then, Wu Shang's follower finally grew to this state. Why don't we have a chat first? Give my people some time to evacuate."

Elder Tang smiled." Old Snake, your benevolence shouldn't appear on a wild beast. It makes you seem out of place. Of course, it's also because of this that Supreme let you off a few times."

Old Snake shook his gigantic head and said,""You're looking for me, it has nothing to do with my other clansmen. I've already told you that if anything happens to me, the Snake Clan will withdraw from this war."

"Why do you have to do this?" asked Old You. The snake race is very strong, but they are not a warlike race. Why don't you just withdraw from the war?"

"In that case, our Snake Tribe will be exterminated.. If other regions attack our

Snake Tribe, will you humans help?"

Chapter 498: I'm Still That Tang Wanhua!_I

Old Snake looked at Elder Tang again." Tang Wanhua is Supreme's proud disciple. He should have predicted these things long ago. Otherwise, he wouldn't have chosen to come to the eastern region. This battle is unavoidable."

Mr. Tang made his own response and sat down on the ground first, waiting for the members of the Snake Tribe to evacuate.

Elder You and Elder Du didn't quite understand why Elder Tang did this, but Elder Tang's meaning was very clear. The two of them sat down as well.

Old Tang, why should we give him this time?" Elder You asked in a low voice as soon as he sat down." The more the Snake Tribe dies, the better it will be for us humans. You don't believe what he said, that the Snake Tribe won't attack humans, do you?"

“How long has it been, Youyou?” Elder Tang asked. How long have you been in the imperial family? You don’t understand beasts! I’ve been communicating with the wild beasts of the Western Regions for so many years, and I know their nature very well. The apes, foxes, dogs, and cats, which were the most humane before the mutation, have become cruel and unreasonable.”

Elder Tang paused and glanced at Old Snake.

On the contrary, the Snake Tribe used to be regarded as a dangerous species by us, but they wouldn’t take the initiative to attack humans. With Old Snake as a representative, these cold-blooded animals have feelings. They haven’t become ruthless and bloodthirsty. As far as I know, compared to the two tribes in the Western Regions, they have a human touch. I feel that they need respect, and this respect might be useful in the future.”

Old Snake suddenly burst into laughter. His huge head’s mouth was wide open when he laughed, looking rather frightening.

Elder You immediately stood up and prepared for battle. Old Snake said, “Hahaha! Don’t be agitated. I’m just smiling. It’s been a long time since I heard someone praise us snakes. In the eyes of humans, we are dangerous and cold-blooded. In the eyes of wild beasts, we are cunning and fickle. In fact, we are all doing this to protect ourselves. Today, I am the same as you. I am forced to stand here and fight.’

Elder You patted his butt and sat down again. He mumbled, “You can’t laugh so terrifyingly. I thought we were going to fight!”

Old Snake pretended not to hear Elder You and continued, “I guess you came here because you had no choice, right? When the two guys from the Western Regions are together, it will be very difficult for you to deal with them. However, during the war, you humans need the so-called aura, so you want to make an example of me.”

“You’re right,” said Tang Wanhua. “I’m sorry. During the war, your snake tribe did little harm to humans. I’ve always remembered this. I can guarantee that as long as your snake tribe doesn’t attack humans, we humans will definitely let you live.”

Old Snake's expression was very odd as he said, ""The current situation of you humans is not good, right? Where did you get the confidence that humans can survive this calamity? You have to know that this time, the humans are no longer invincible!"

"Who says there is no Supreme? As for Wu Shang's whereabouts, my disciple has the most say. I've never said that Wu Shang is dead, nor have I said that Wu Shang will not appear again!"

Old Snake laughed loudly again." Tang Wanhua, it's useless for you to lie to me. We both know that none of us will be able to leave today. Do you still expect me to inform the Western Regions?"

Mr. Tang didn't say anything, but his eyes were filled with confidence.

Old Snake looked into Elder Tang's eyes, and his thoughts began to waver.

"Is the Supreme you're talking about the same person as the Supreme I'm talking about?"

"Of course!" Tang Lai nodded."

Old Snake wasn't the most surprised when he said that. The most surprised people were Old You and Old Du beside him.

After Wu Shang went to the Sea Race's territory, he never came back. He hadn't appeared for hundreds of years, and Elder Tang had never mentioned him. It was impossible for Wu Shang to still be alive.

Elder You and Elder Du had originally thought that the Wu Shang that Elder

Tang was talking about was MO Xiu, and MO Xiu was the inheritance of the Wu Shang lineage, from Wu Shang to Elder Tang and then to MO Xiu.

But...why did Mr. Tang say that they were the same person?

Could it be that Wu Shanzhen was still alive?

After thinking for a while, Elder You understood what Elder Tang meant.

What was Supreme?

Was it a person's name?

No, no one knew the name Supreme. Supreme was a title given to this person by all humans. It meant supreme.

Supreme deserved this title. He had sacrificed too much for all of humanity.

Since MO Xiu was chosen by Elder Tang, he was also the hope of all mankind. If MO Xiu could one day become like Wu Shang, wouldn't MO Xiu be Wu Shang?

In essence, there was no difference. The title Supreme did not represent a certain person, but a person who could lead the entire human race out of a predicament.

From this, it could be seen that Elder Tang had high expectations and confidence in MO Xiu. Even Elder Tang did not call himself Supreme, but he placed the title of Supreme on MO Xiu.

Old Snake was also shocked, but he quickly returned to his normal state.

"Tang Wanhua, I'm not sure if what you said is true or not, but don't forget your promise just now. Our snake tribe doesn't invade humans, and you humans won't kill us all in a hurry."

"You and I have known each other for so many years. I used to be young and vigorous, but have you ever seen me go back on my word?" Mr. Tang slowly stood up and said. Just like today, I've sat here and chatted with you for so long!"

Old Snake nodded and said, "Then I'm relieved!"

Mr. Tang waved his right hand, and Mr. You and Mr. Du also stood up.

"It's almost time. Let's begin!"

Old Snake stared at Old Master Tang without any emotion.

"Let's begin!"

Since they were old rivals, there was no need to probe further. Elder Tang didn't want to waste any more time. Golden light flashed from his body, and his entire body turned golden as he threw a punch at Old Snake.

"Hahaha!" Old Snake laughed loudly. "It's been so many years, and I've seen your golden body skill again. You're still as high-profile as ever."

"I'm still that Tang Wanhua!"

As he spoke, Old Snake did not let his guard down. His huge body was not clumsy at all, and he quickly dodged Elder Tang's attack before extending his tongue to attack Elder Tang.

Mr. Tang waved his right hand and blocked the snake's tongue, not causing any harm to Mr. Tang.

Old Snake hurriedly retracted his tongue, as though he had been hurt.

At the same time, Old Du also understood and disappeared on the spot!

Old Du was an assassin, so he knew what he had to do. As the main attacker, Old Tang was now evenly matched with Old Snake, so he could not rashly disrupt Old Tang's rhythm.

What he had to do now was to hide and find an opportunity to kill him in one blow!

Elder You did not move. He stared at the battle and raised his right hand as if he was about to use a skill at any moment.

Elder Tang waved his right hand, and a saber that was much larger than his body appeared by his side. He raised it with one hand and attacked Old Snake again.

A giant saber that was as tall as a person and was emitting golden light all over its body. If MO Xiu was here right now, he would probably sigh and say that his master was as cool as he could be when he was young.

This was the truth. When Elder Tang was young, he was just like his brilliant skills, domineering and wonderful.

However, as he grew older, Elder Tang understood many things that Wu Shang had told him.

His name also changed from the brilliant Tang Wanhua to the title of Elder

Tang..

Chapter 499: Old Snake's Transposition

Elder Tang wielded his broadsword and attacked aggressively. Elder You was about to cry as he watched from the side.

This old fellow was already so old, yet he was still so domineering when fighting. Even if his opponent was the Beast King, Old Snake, who had lived the longest, he would still suppress Old Snake!

When the two collided, a huge sound would be produced, echoing and shaking the mountains and rivers.

Of course, Old Snake wouldn't take a beating passively. He began to spit out a pale yellow gas from his mouth. When the gas came into contact with Elder Tang's body, Elder Tang's movements slowed down.

This was poisonous gas!

The three old men all knew, but none of them dodged. They were surrounded by the poisonous gas.

Compared to their own lives, the trio cared more about killing Old Snake.

Therefore, even if the poison gas was lethal, they still stared at Old Snake without moving.

Compared to their own comfort, they wanted to keep an eye on Old Snake and not let go of any chance to kill him.

Elder Tang's speed and strength had been affected. Old Snake took the opportunity to counterattack, twisting his huge body to surround Elder Tang in the middle, looking for an opportunity to entangle him.

Elder Tang didn't give Old Snake a chance. Another ray of light appeared on his body. At this moment, Elder Tang's body was covered in gold and purple.

The purple gold color continued to alternate as Elder Tang's combat power soared once again. He punched Old Snake, but this time, Old Snake was unable to dodge.

One punch!

A bloody hole appeared on the snake's body.

A hole appeared on the mountain-like snake's body. It looked terrifying.

What was even more shocking was that the bloody hole was healing at a speed visible to the naked eye. Elder Tang threw another punch, but Old Snake used his tongue to block it, protecting his body.

In that short period of time, Old Snake's body had already recovered.

This scene shocked Old Du and Old You. They had heard that the snake race had the ability to heal themselves, but they did not expect it to be so strong.

Elder Tang noticed Elder You's abnormality and said, "Don't be afraid. The snake race has the ability to recover, but it's not strong. Old Snake is a little special. That's not self-healing. He's just moving flesh from other places to fill the bloody hole just now. Coupled with self-healing, it's only exaggerated."

Elder You nodded. The flesh on his body could be freely controlled? It was still very terrifying. If Old Snake had enough flesh, or in other words, if he had grown long enough, he would have been able to continuously recover, and Old Snake wouldn't have been seriously injured.

Old Snake said, "I really didn't expect you to know my secret, Tang Wanhua. I

haven't told anyone about this secret, but so what if you know? Can you break through my skill?"

Old Snake's response was a slash from Elder Tang, which cut straight into Old Snake's body.

"I can cut off all your flesh!"

Elder Tang's words made Old Snake laugh maniacally.

"Hahaha! Tang Wanhua, how long have we known each other? Have you seen my tail? Everyone knows that our snake clan grows stronger and stronger after the mutation. Then do you know how long I am?"

Only then did Elder Tang react. Indeed, he had never seen Old Snake's tail.

"I'll show you today!" Old Snake said."

Before he finished speaking, the ground began to shake. The shaking became stronger and stronger, and Old You could barely stand still.

The tremors on the ground were getting stronger and stronger, so much so that Elder You could only sit on the ground.

Finally, the tremors ended. Elder You staggered to his feet. Just as he stood up, the ground shook violently again.

It was even more intense than before, and this time, it was accompanied by cracks on the ground.

The crack grew larger and larger, and the ground began to undulate until Old Snake's body appeared from the crack.

Even Elder Tang did not expect Old Snake's body to be so large that he needed to be buried underground.

Old Snake laughed maniacally." Hahaha, this is only a part of it. I'll show you everything today! "

The ground continued to shake as Old Snake's body emerged from the ground.

Seeing this, Elder Tang also stopped his attacks, wanting to see Old Snake's true body.

After a long time, when the ground stopped shaking, there was no intact ground within a radius of a hundred miles.

The ruins were filled with Old Snake's body. Even if they saw it, they would not be able to estimate how big Old Snake was.

Old Snake's body was always underground, and he could constantly move underground. If he stretched his body out, he could cover the entire eastern region.

Such an astonishing length was also the reason why Old Snake was able to know everything that happened in the entire eastern region.

Old Snake laughed maniacally as he vented his emotions.

How many years had it been?

All these years, Old Snake had been enduring silently. He was the one who hoped for peace the most among all the wild beasts.

When there was no conflict, he would endure as much as he could. He did not want to see his clansmen die because of war. This was something he insisted on his entire life.

Therefore, no one in this world had truly seen his strength. He had been hiding his strength for so many years.

As the leader of a race, he had to protect his people.

But at the same time, he was also a Beast King, one of the few people who stood at the top of the world. He had his own pride.

After enduring for a hundred years, he finally exploded.

At this moment, he did not have any worries. He could bring out all his strength and fight to his heart's content. He no longer had any worries.

Because he knew that he had lived for too long. Sooner or later, someone would come to take his life. Tang Wanhua today was this person.

Tang Wanhua had been educated and baptized by Wu Shang, and his way of doing things was very similar to Wu Shang's. If he didn't have absolute confidence today, he wouldn't have come back.

Since Tang Wanhua was here, Old Snake knew that he was doomed.

It wasn't that he didn't have confidence in himself, but that there were many things in this world, many things that were essential. Old Snake had lived for so long that he had long seen through them.

Of the three elders, Old Du was not affected at all. He continued to move around, trying to find Old Snake's weakness.

At first, Old Du paid attention to the snake's seven inches, which was the snake's weakness.

At first, Old Snake did not reveal his true form, so Old Du had a hard time finding this weakness.

Now that his entire body had appeared, he did not expect it to be even harder.

Old Snake was simply too long, and he could not even find the seven inches.

Also, Old Snake could use Transposition, so he could also move his position seven inches away, making it impossible to find him.

In this way, if he wanted to kill the old snake, he could only behead it or think of a way to cut it into pieces.

However, Old Snake's body was too thick. He was as tall as a small mountain when he laid flat on the ground.

Of course, Master Tang could also think of the method that Old Du had thought of.

At this moment, he didn't waste any more words. He raised his saber and arrived on Old Snake's body in two flashes, slashing down.

Old Snake revealed his true form, and his shock and combat strength had been greatly enhanced. At the same time, Old Snake's body was too big, which affected his movements.

Old Snake did not have as many slashes as before.

When Mr. Tang's knife touched Old Snake's skin, a golden light was emitted.

Old Snake's defense had increased?

Elder Tang gripped the hilt of his saber tightly with both hands and burst forth with all his might. In the end, he still managed to break through Old Snake's defense.

He sliced Old Snake in half..

Chapter 500: It Has Nothing to Do With You (1)

The moment the saber broke through Old Snake's defense, it expanded once more, instantly becoming larger than Old Snake's body.

The broadsword shone with golden light like a divine weapon.

It was as if it could cut mountains and rivers, cut the world, and cut everything.

The golden saber descended, and Old Snake's body was split in half.

Old Snake's ability was to transplant flowers into trees, but the prerequisite was that he could control his body. How could he control his body if it was severed?

Elder You felt that the opportunity had come and was about to release his skill.

Elder Tang said, "Wait!"

Elder You's body froze. Then, he saw a shocking scene.

Old Snake's severed body instantly reconnected, and even his wounds could no longer be seen.

"If I'm so easily exposed, how could I have been a Beast King for so many years?" Old Snake said with a smile. Tang Wanhua, you can indeed hurt me, but you can only cut off a small part of my flesh. This flesh is nothing to me!" "I never thought that I could kill you so easily. You've been testing me, and I've

been trying to find a way to defeat you." Elder Tang smiled."

"Have you found it?"

"If you find it, it'll be a little troublesome!"

"Then let's begin!" Old Snake said.!!"

After the old snake finished speaking, the color of his body changed from cyan to light purple, and his body also became smaller. Small, limited, but also small.

Elder Tang understood that Old Snake had entered battle mode. After entering battle mode, Old Snake was still using the skill of 'Transposition of Flowers and Trees' but was burning his flesh and blood to gain strength.

Mr. Tang's body flashed with a silver light again.

Up until now, Mr. Tang had strengthened it three times: gold, purple, and silver.

The first two enhancements had clearly strengthened his body, but compared to the third enhancement, the difference was like heaven and earth.

After this strengthening, Mr. Tang's face became younger, as if he had returned to his youth. His entire body was filled with strength.

Old Snake said, "I've long heard that Tang Wanhua's strongest form is Tricolored. It comes from three different skills. When all three skills are released, they complement each other. His strength is comparable to that of a god. I'm finally fortunate enough to see it today!"

"This is the first time I've seen you in this purple combat state," said Elder Tang. "However, I don't think my current state is enough to fight you. Giant's

Soul, come out!"

As Master Tang's voice fell.

Mr. Tang's body began to grow. In a short while, he was hundreds of times bigger than before.

As his body grew bigger, the tri-colored light on his body also grew bigger. Even though Old Snake was coiled up on the ground, he had to raise his head to look at Elder Tang.

The three-colored light surrounded the huge body. It was no different from a

god descending to the mortal world.

Elder Tang swung his saber and slashed down!

Old Snake didn't have any tricks up his sleeves this time. If this slash hit, he would lose a lot of flesh and blood.

When the saber descended, Old Snake's extreme speed allowed him to dodge.

Old Snake thought that he had dodged the attack and was about to take the opportunity to counterattack when Elder Tang's saber didn't land completely. Instead, it disappeared on the spot.

This was the only skill that MO Xiu knew of, the Spatial Skill.

Elder Tang dragged his huge body and teleported. When he reappeared, he decisively slashed down with his saber.

This time, Old Snake did not have the time to dodge and could only take the hit head-on.

The slash didn't really cut Old Snake in half. Elder Tang knew that the damage to Old Snake was limited.

As the saber cut into Old Snake's skin, it turned and cut out a large chunk of flesh.

Even Old Snake, who had been through hundreds of battles, had never encountered such a battle method before. He cried out in pain.

"Ahhhh! Tang Wanhua."

Elder Tang threw the piece of meat into the air.

Ignoring Old Snake's shout, he shouted, ""Old You! You're the best!

Elder You, who had been preparing for a long time, saw the large piece of meat in the sky and said excitedly, "Leave it to me!"

Elder You raised his right hand, and a ball of green flames appeared out of thin air.

With a flick of his right hand, the green flame shot out and accurately hit the piece of meat.

At the moment of contact, the flames were magnified. A few seconds later, the piece of meat was completely devoured by the flames.

Old Snake saw through Elder Tang's tactic and attacked Elder You with his tail.

"Old Du!" Elder Tang shouted.

"He's here!"

Old Du immediately returned to Old You's side, picked him up, and quickly dodged.

Old Du hugged Old You from behind. Old You was a little surprised and asked softly, "How do you feel hugging me? Have you thought of our past? If it weren't for Old White, we might have been able to succeed."

"What time is it?" Old Du replied coldly. After this battle, if you can survive, I'll have a good chat with you."

"Yo!" Old You smiled and said. Really? He felt a little sorry for Lao Bai, hahaha!"

"Humph! What are you thinking!"

On the other side!

Old Snake did not want Elder You to leave so easily. Killing Elder You was the key to breaking through Elder Tang's tactic.

The head wanted to continue chasing, but the blade was right in front of him!

"If you want to go over, have you asked me?" asked Master Tang."

Old Snake and Old Tang were once again embroiled in a fierce battle.

This time, Old Snake's attack was even more ferocious. He wasn't being suppressed by Elder Tang like before.

This was because Old Snake knew very well that he had truly fallen into a passive situation. He had to find a way out of this predicament.

The battle had just begun!

Elder Tang's human form still had an advantage over Old Snake. At the very least, he was much more agile. Whenever he had the chance, he would slice out a piece of flesh from Old Snake's body and toss it into the air for Elder You to burn.

Old Snake's trump card was Bind. As long as he could bind Elder Tang up, it would have a Silence effect. At that time, even if Elder Tang had extraordinary abilities, he wouldn't be able to use it and could only wait for death.

Unfortunately, Old Master Tang's teleportation skill always allowed him to escape from danger.

Elder Tang's judgment and consciousness were too strong, and he was always able to escape before Old Snake managed to entangle Elder Tang.

Old Snake's battle was very depressing. Old Tang kept cutting out his flesh and consuming it.

This battle was the best battle on the entire continent.

The snakes, cats, and some other enslaved races all looked at the center. No one dared to approach.

Everyone had felt the earthquake just now. The snake clansmen knew very well that it was proof that the King of Beasts, Old Snake, had used his full strength.

At this moment, loud bangs and Old Snake's screams could be heard from time to time in the center of the battle.

Every snake tribe member was very worried about the Beast King's comfort, but at the same time, they knew that this battle was not something they could interfere with.

Even at night, the sounds of battle did not stop. The battle was still going on.

No one knew how long this earth-shattering battle would last.

Finally, the cat clan's Heaven Devouring Beast King appeared.

He appeared at the edge of the battlefield and looked into the distance.

His expression was serious, and he would occasionally frown as he pondered. It was as if there was a very difficult question waiting for him to make a decision.

The Heaven Devouring Beast stood there for an entire night.

"Heaven Devouring! It has nothing to do with you. You don't have to interfere!"

This was Old Snake's voice. The Heaven Devouring Beast finally shook its head and left..
