

Four Skills 511

Chapter 511: Mature God's Authority (1)

“Summon all the team leaders and above for an emergency meeting!”

MO Xiu and Mu Qingyi's tacit understanding naturally went without saying, and their speed was extremely fast.

MO Xiu held Mu Qingyi and flew at high speed on the Holy Sword. Every few seconds, Mu Qingyi would activate her teleportation skill, greatly increasing their speed.

As for how he silenced Boboqi and the others, that was naturally the credit of God's Authority.

Unlike offensive skills, which had a trump card after being upgraded to level seven, God's Authority was more comprehensive after being upgraded to level seven.

Skill 1: God's Authority 7

[Skill effect: Investigate. You can see all the skills and skill statuses of up to 1,000 targets. You can also estimate the power of elemental skills (the power of a Level 1 Fireball is 1).]

[Additional effect: Lock on, lock on to the target being read. Able to sense the target's location within six hours.]

[Additional skill: Silence. You can choose to silence any skill of the target being probed. Silence duration is 10 seconds (the same target can be silenced once in an hour).]

[Additional effect: Spirit increase. Within half an hour after using God's Authority, Spirit increases by 5,000%.]

[Additional effect: Precise calculation. After reading the skills of many targets, accurate calculation will be carried out uniformly.]”

The number of targets that could be viewed with God’s Authority had increased from 20 to 2,000. In other words, Motheo could instantly read the skills of 2,000 people.

Locking on to the target’s position had changed from thirty minutes to six hours. This greatly improved his scouting, protracted warfare, and strategic aspects.

Speechless was the biggest bonus skill that had been upgraded this time, and it was also the point that Moxiu was most satisfied with.

Silence was a random skill, and its limitations were immediately lifted. It was originally the next skill of Silence, and many people could defend against it after knowing this characteristic.

This time, it was different. When Moxiu read his opponent’s skills, he could analyze which of his opponent’s core skills were. In addition to the ten seconds of silence, it was enough for Moxiu to challenge someone stronger than him. However, he did not know the effect on wild beasts.

This upgrade also added an additional effect, accurate calculation. It was not a big deal when there were few targets.

If he were to read all 2,000 people, Moxiu would need to calculate each person’s core skill one by one. Then, he would go silent, which would greatly reduce his efficiency.

With this additional effect, Motheo could quickly calculate the skills of 2,000 players. He could either silence them or prepare to deal with them.

This was also the reason why Boboqi and the others had stopped. After Moxiu read the skills of the twenty over players, he had silenced their core skills.

No matter how strong a person was, once they lost their core skill, their combat strength would be greatly reduced. That was why no one dared to go up and fight Moxiu.

For example, even if Moxiu's skills were very comprehensive, once his core skills, Einherjar and God's Authority, were ineffective, he would be at an absolute disadvantage in a battle.

In addition, the passive skill, Flipping, had also been upgraded. Not only could Flipping refresh skills, but it also had a brand new state that allowed a group of two skills to be displayed. In other words, all of Moxiu's skills could be displayed now. They were no longer restricted by each other. Moreover, there was no cooldown time. After each skill was used, the cooldown time would be refreshed immediately.

This solved the problem that Moxiu had been unable to solve. He could only release another skill after releasing one skill.

After the cooldown from flipping and refreshing appeared, it was greatly relieved, but it was still a little inconvenient.

For example, when Moxiu and MO Li appeared at the same time, in order to not be discovered, Moxiu had to use the glass bead to release a vacuum destruction.

Time passed very quickly. MO Xiu and Mu Qingyi were desperately fighting for time.

Soon, they would reach the central region. Once they arrived, Moxiu immediately stopped.

"Don't we have to continue walking?" Mu Qingyi asked."

"I'll make a call first," said Moxiu."

At this time, most of the royal family was outside. MO Xiu did not know where Zhuge Zhong was at this time, so it was faster to make a call.

After dialing the phone, he realized that no one picked up.

Moxiu frowned. What was this guy doing?

Left with no choice, MO Xiu could only give Li Ling 'er a call and try. If it still didn't work, he could only ask for Xi Bei's help. However, MO Xiu didn't listen to Xi Bei at that time and went to the north without permission.

However, the probability of Li Ling 'er and Zhuge Zhong being together was not high. The Li family should be in Shun City now, while the Zhuge family was more scattered.

After making the call, Li Ling 'er picked up the phone not long after.

"MO Xiu? You've already come out of seclusion, right? Where have you been these past few days?
"Uncle Xi is going crazy. Someone already knows that you went to the north. Uncle Xi is trying his best to suppress it and calm things down. You're too reckless!"

" I went to the north," MO Xiu said. " Now is not the time to explain. Can you contact Zhuge Zhong?"

"Hmm..."

"Zhuge Zhong wouldn't be by your side, would he?" MO Xiu continued."

"Yes, she's with me!" Li Ling 'er said awkwardly."

"Zhuge Zhong is in charge of Shun City?"

"Then why did you say that I was fooling around? Aren't the two of you fooling around as well?" MO Xiu said with a smile. I told you the location and you brought Zhuge Zhong here!"

Li Ling 'er asked in embarrassment, "What happened?"

"Grandpa is in trouble in the north. No one else can save him now, so I came back to look for Zhuge Zhong."

Li Ling 'er hung up the phone after hearing that. MO Xiu hadn't even told her the address.

Five seconds later, the call came back!

"The address!"

An hour later, Li Ling 'er brought Zhuge Zhong and met up with MO Xiu. They headed north together.

Li Ling 'er immediately asked about Li Xin's condition when she saw MO Xiu. MO Xiu told her truthfully that her life was not in danger for the time being, but it would be hard to say if she was in danger.

Oh my god!" Li Ling 'er said, panting heavily." MO Xiu, you scared me to death! I thought Grandfather was dying! ""

Then, he turned around and asked Zhuge Zhong, ""How is it? Can it be cured?"

Zhuge Zhong nodded and said, ""Yes!"

MO Xiu was relieved. It was good that his grandfather was saved.

After Li Ling 'er was relieved, she looked at Mu Qingyi and said to MO Xiu strangely, ""Is this the person who asked you to put everything aside and run to the north

MO Xiu did not speak, but Mu Qingyi said, ""Big Sister must be joking. There's still Grandfather in the north, so MO Xiu also has this in mind."

Mu Qingyi was obviously trying to absolve MO Xiu.

Although Li Xin's life was not in danger for the time being, it was inevitable that there would be changes over time. The private party immediately set off and talked as they walked.

"I didn't hear wrongly, did I?" Li Ling'er said. "You called me big sister and grandfather.. You called me grandfather just like MO Xiu!"

Chapter 512: Isn't This Enough?

Mu Qingyi looked at MO Xiu shyly after hearing Li Ling'er's words.

"Sister, what are you doing?" MO Xiu asked.

Li Ling'er said unwillingly, "She hadn't even done anything yet, and her heart was already aching? I'm just kidding. You can disregard everything in the central continent for him. I envy the relationship between the two of you."

As soon as he said this, Zhuge Zhong immediately looked at Li Ling'er. He didn't say anything, but everyone could see the look in his eyes.

Does that mean I didn't do well? Why should I envy others?

Li Ling'er smiled and did not answer. Instead, she said to MO Xiu, "Moxiu, you've probably gone too far this time. The news of you coming out of seclusion will definitely not be able to be hidden. Many people know about it. I've heard that there are voices in many places saying that you're afraid and don't dare to appear at this critical moment. Once the news of you being in the north spreads, your image in the eyes of the public will collapse."

Since I've already made my choice, I have to bear the consequences," Moxiu said. "I'm just a little worried about whether there will be any problems within the strongest group. I hope Mu Mu and the others can resolve it."

This was indeed what Moxiu was most worried about. It didn't matter if his persona was broken. The publicity he had been doing all this time had given him a false feeling. He had been praised too highly and had instead formed an invisible shackle on himself, limiting his performance to a certain extent.

Now, he no longer felt any pressure. He only hoped that the fall of a benchmark would not affect the people's passion for the enemy.

There was also the strongest corporation and the strongest society that Moxiu was most worried about.

The two were Moxiu's foundations. Although Moxiu had never personally managed them, the success of the two was largely due to his fame.

At this critical moment, Moxiu's reputation had suddenly collapsed. This was also a test for the strongest corporation.

MO Xiu shook his head. This was good. Now was the time to test the strength of the strongest group. He hoped that Mu Mu and the others could get through this difficult time.

At the thought of this, MO Xiu seemed to hear Cao Fenglin scolding him.

The few of them chatted non-stop along the way. Mu Qingyi listened to the love story between Li Ling 'er and Zhuge Zhong and was very touched.

Li Ling 'er was the same. She was very touched when she heard about what happened between Mu Qingyi and MO Xiu.

It didn't take long for the two women to get along. MO Xiu and Zhuge Zhong were a little embarrassed.

The journey back was not as fast as the journey back. After all, he had to bring Li Ling 'er and Zhuge Zhong along, so he could not travel at full speed and teleport.

However, he was also very fast. He rushed back before it was too dark.

Moxiu and the others returned to the camp in the north and found Boboqi standing at the entrance.

“What’s going on?” asked MO Xiu.”

Please come in,” Boboqi said.” I’ve been waiting for you for a long time. Moxiu, I’ve been worried about you while you were away. I’m worried about Mr. Li Xin.

Moxiu looked at Boboqi’s current expression, tone, and words, and felt a little disgusted. Wasn’t his expression changing too quickly?

“Since you’re so worried about my grandfather, let’s go in and get treatment,” said Moxiu.”

“It was my negligence, please come in!” Boboc said elegantly.”

Moxiu gave them a look and went around Boboc to enter the camp.

After they walked in, a man beside Boboc said,””Head Captain, why are you being so polite to this Moxiu? Is it because he can silence the core skills of more than twenty people?”

Boboqi was obviously angered by Moxiu’s attitude.

“Just because? Wasn’t this enough? How I do it is up to you, how can there be so much nonsense!”

Moxiu’s silent move had truly shocked Boboqi. Boboqi’s shock at that time was a genuine reaction.

Nowadays, everyone relied heavily on their own skills, especially their core skills.

If it was the younger generation who had not matured, they might react quickly when their core skills were silenced.

However, someone like Boboqi had used skills for half his life. He had already figured out how to use the skills, what the order was to use them, and how to use them.

Therefore, when the core skill was silenced, the power of the other skills would be greatly reduced. Boboqi was well aware of this. Without a core skill, his strength would be reduced by several levels.

At that time, Moxiu hadn't made a move. If he had made a move, the outcome might not have been certain.

Moxiu's strength was enough to threaten Boboqi. Just Moxiu's Silence alone was enough to bring their strength to the same level.

Boboc was very clear that Moxiu was talking to him like this because he was strong and not someone he could bully.

The reason why Boboqi changed his attitude was because Moxiu's strength was at the peak. If Moxiu could silence the wild beasts, then the beasts would be weakened even more.

MO Xiu had long since become famous for his intelligence, and his current strength was also at the peak. Such a person could definitely help the north.

Although Boboqi was arrogant, he would still put down his arrogance when it came to absolute righteousness.

Moxiu could help the north. If Boboqi could keep Moxiu, he would be the sinner of the north and the sinner of all mankind.

On the other side, Moxiu had already brought a few people to the healing tent. After entering, they went straight to their grandfather's bed.

At this moment, the middle-aged man who claimed to be Li Xin's attending doctor was still standing in front of the window.

“Mr. MO, this is your first time here, so I didn’t know it was you.””

MO Xiu waved his hand and said, “You’re welcome. Please make way. I’ve brought people who can save my grandfather.””

Zhuge Zhong came to the front of the bed and squatted down, looking at Li Xin.

“ Mr. MO,” the middle-aged man asked curiously, “ are you so confident that this young man can cure Li Yingxiong?” All of our healers in the north are powerless against this injury.”

“I don’t know if you’ve heard of the Zhuge family.””

The middle-aged man looked at Zhuge Zhong excitedly when he heard the name Zhuge.

After a long time, he finally managed to say, “ Of course I’ve heard of it. I heard that except for the dead bodies of the Zhuge family, the rest could be saved. ”” MO Xiu didn’t say anything and returned his gaze to the bed.

In just a short while, the deep wound on his grandfather’s chest began to heal slowly.

Unlike the healing effects of the Moxiu Holy Flames, there were no signs of rebound from the healing this time.

On the other hand, beads of sweat appeared on Zhuge Zhong’s forehead. This was the first time MO Xiu had seen Zhuge Zhong heal.

Previously, MO Xiu had not seen Zhuge Zhong’s treatment process due to various reasons.

Every treatment was very fast, so MO Xiu felt that Zhuge Zhong would be able to treat him with ease. He didn’t expect it to be very strenuous.

As Li Xin's wound slowly healed, Zhuge Zhong's expression became a little painful.

Motheo curiously used God's Authority, wanting to see what kind of skill could create such a miracle..

Chapter 513: The Fate of the Zhuge Family

"Talent Skill: Self-Seal (Permanent) [Skill effect: Unable to awaken active skills. Effect is permanent.]

[Innate Skill: Recovery (in use)]

[Skill effect: Able to restore all damaged people and objects without being affected by any status.]

[Innate Skill: Price (Passive)]

[Skill effect: When using Regeneration, there is a corresponding price to pay. The price is the vitality of the main body. The greater the recovery, the greater the loss of vitality.]

[Innate Skill: Life Increase (Permanent)]

[Skill effect: The original body's lifespan is longer than that of an ordinary person, five times that of an ordinary person (Remaining 267 years, 35 days, 6 hours, 17 minutes, and 36 seconds))"

MO Xiu was extremely shocked after seeing Zhuge Zhong's skill. He was certain that the Zhuge family's ancestor was also hit by the meteorite fragment.

The skill was unique to the extreme.

There were no active skills that were normally awakened. There were a total of four skills that were all innate skills.

Moreover, these four skills were not all beneficial skills. Two had advantages and two had disadvantages.

Only one skill could be activated automatically.

The first skill was self-sealing, which prevented the Zhuge family from awakening their active skills. In other words, ordinary people who started to awaken their skills at the age of 18 would not happen to the Zhuge family.

Innate skills were innate. The Zhuge family was born with complete skills.

The second innate skill was the foundation of the Zhuge family, recovery, and recovery without any restrictions.

As the name implied, this was not a treatment. It was to restore the person to the state before they were injured.

Just like Li Xin who was being treated at this time, Zhuge Zhong was restoring Li Xin to the state before the battle with the Beast King.

The moment he saw the skill's effect, Moxiu understood that the Zhuge family had held back.

The Zhuge family's ability was not only to heal, but also to restore objects.

It was reasonable for the Zhuge family to hide it. All of this was because of the third innate skill, the price.

Recovery had god-like power, and there was a price to pay for obtaining power. Recovery could be used normally because of the price.

If the Zhuge family wanted to use Recovery, the price they had to pay was very obvious. They had to pay with their life force. This was more like a fair trade. They had to exchange their lives for the life force of the person who was being treated.

Fortunately, there was still the fourth skill, Life Increase. The extent of the increase and the amount of HP required were not described in detail. Only the time left to live was displayed.

Without the fourth skill, the Zhuge family would probably be short-lived

unless they never used any skills in their entire lives.

MO Xiu looked at Zhuge Zhong and felt a little enlightened. In this era where skills were king, the Zhuge family, which seemed like gods, was actually more like ordinary people.

They didn't have any special combat power, only the ability to recover. They used their lives to exchange for the lives of the people they wanted to save and the things they wanted to recover.

While he was thinking, Li Xin's injuries had almost recovered.

In the end, Li Xin opened her eyes.

The moment he opened his eyes, the most excited person wasn't Li Ling 'er and MO Xiu, but the middle-aged man standing to the side.

"Miracle, this is simply a divine skill. Mr. Zhuge, can you give me an autograph?"

MO Xiu glanced at the middle-aged man. His grandfather had just woken up, and he was already shouting loudly. Zhuge Zhong had only recovered from this one wound, which meant that he had returned to his original state before he fought the Beast King.

Grandpa should have other injuries on his body and should be resting quietly.

The middle-aged man was the same. He had just called Zhuge Zhong a young man and doubted whether Zhuge Zhong could do it. Now, he was addressing Zhuge Zhong respectfully as Mr. Zhuge.

His actions were exactly the same as Boboqi's, causing Moxiu's good impression of the middle-aged man to instantly disappear.

When the middle-aged man saw Moxiu's gaze, he knew that he had made a mistake. Without saying another word, he left the tent.

At this moment, Li Xin was lying on the bed. She opened her eyes and looked around. She immediately understood what had happened.

"MO Xiu! You shouldn't be here."

MO Xiu immediately came over and said, "Grandpa, it's good that you're fine.

I'm glad that I came. Otherwise, what would have happened to your illness?"

Li Xin revealed a pained expression and said, "How can an old man like me compare to the entire central continent?"

Grandpa, I understood something when I was in closed-door cultivation. I'm a selfish person. My first priority is to protect the people around me, and then my race. If I can't even protect the people close to me, I don't have the right to save others."

Li Xin wanted to say something, but seeing MO Xiu's confident smile, she didn't say anything in the end.

He turned to Li Ling 'er and Zhuge Zhong and said, "Zhuge Zhong, it's you who saved me again. It's useless to say thanks now."

Zhuge Zhong glanced at Li Ling 'er beside him and said, "You don't have to be so polite. I'm here for Li Ling 'er. If anything happens to you, she'll be sad too."

Li Ling 'er immediately threw herself into Li Xin's arms and cried,""When

Moxiu told me about your situation, I was worried sick."

Zhuge Zhong's words made MO Xiu look at him in a different light. It seemed that even someone as cold and aloof as Zhuge Zhong could be changed by love.

His words made his relationship with Li Ling 'er clear. He also told his grandfather not to take it to heart and shifted the matter between him and his grandfather to the matter between him and Li Ling' er.

MO Xiu smiled as he looked at Li Ling 'er and Zhuge Zhong. At first, Li Ling' er gave MO Xiu the impression that she was a wandering woman with many partners. However, it seemed that Li Ling 'er had never mentioned or been with that partner. She had always been with Zhuge Zhong.

The relationship between the two of them was also very close, and they wanted to be together at all times.

Li Xin woke up. After a simple communication, Boboqi entered the tent.

Everyone knew that Li Xin had stopped a Beast King in the north.

Li Xin laughed and said,"What is this?" Although we are divided into the central and northern regions, we are all humans after all. I do what I want to do."

Boboqi left after exchanging a few simple greetings, which surprised Moxiu.

He thought that Boboqi would threaten him to help the north, but it seemed that Boboqi had changed his mind and was not in a hurry.

Li Xin's injuries were much better. MO Xiu moved his grandfather to a safe and quiet tent. After that, everyone left, leaving only Li Ling 'er to take care of him and let his grandfather rest.

Zhuge Zhong was not in a good state either, so they found him a place to rest alone.

When MO Xiu exited the tent, he glanced at Zhuge Zhong, and this glance shocked MO Xiu.

Chapter 514: This Is It

Eighty-nine years, Zhuge Zhong's life was reduced by eight to nine years.

In order to save Li Xin, Zhuge Zhong paid a heavy price. It seemed that the Zhuge family had to pay a huge price to save Li Xin.

Just this time, it had consumed 89 years of Zhuge Zhong's lifespan.

MO Xiu recalled Zhuge's expression when he looked at Li Ling 'er after the treatment. It was dotting.

Zhuge Zhong seemed to have changed, but in fact, he had not. Li Ling 'er was his everything.

The treatment would cause such great harm to Zhuge Zhong, so Zhuge Zhong was destined not to live long.

MO Xiu sighed. He could see many things clearly, but he couldn't change them.

Mu Qingyi heard MO Xiu's sigh and stared at him with her eyes wide open.

"What's wrong? Now that Grandpa's injuries have been cured, are you worried about the central continent?"

Moxiu smiled and shook his head." No, there is no problem in the central region for now. The key is in Yan City. The day the Western Region spies in Yan City are exposed is the day they launch a full-scale attack. Now is not the time to fight with all their might."

"Then why did you sigh? Do you regret picking me up?" "Hahaha, Qingyi, do you know why I came to the north?"

"Why?"

"I chose to be selfish and follow my heart so that I wouldn't regret it."

Mu Qingyi was very happy, but at the same time, she was very nervous. She was nervous for MO Xiu to let go of everything.

The next morning, Li Xin and Zhuge Zhong returned to normal.

Especially Li Xin, who could already walk on the ground. Such a miracle caused the entire north to boil.

Li Xin had fought against the beast kings for the north, and now that he had recovered, this was an encouragement to the soldiers in the north.

Boboqi wasn't jealous of Li Xin, he was genuinely happy for Li Xin and Beibu.

In the past few days, he had figured out many problems. It was impossible to repel the wild beasts without external help.

His thoughts were very simple. As long as he could defeat the wild beasts and regain the ownership of the north, he was willing to give up everything.

This was a thought that he had long ago, but he had always been unwilling to accept it until Moxiu appeared.

A young man had used only one move to stun the elites of the north. At that moment, Boboqi believed in Elder Tang's plan. Moxiu might really be the second Supreme.

However, there were still many challenges before Motheo. He had appeared in the north at the most critical moment. How to deal with the mess in the central region was a problem, and how to repel the wild beasts that were in full swing was still a problem.

If everything Elder Tang had done was not in vain, then MO Xiu would have solved all the problems. No one would be able to complete it for him.

Because of this, Boboc changed his opinion of himself and Moxiu.

If Moxiu came to the north and did nothing, it would affect him.

In that case, the news that Moxiu had come to the north just to pick up a woman would spread. As the person who had been spreading the news in the central continent during the early stages of the war, such news would affect the unity and momentum of the entire central continent.

Therefore, whether it was for the public or for personal reasons, Moxiu should do something in the north to reduce the negative news.

Boboqi was waiting in his tent, and he had arranged to talk to Moxiu and Li

Xin.

Not long after, MO Xiu helped Li Xin into the tent.

After Moxiu entered, he was stunned for a moment. The layout of the tent had undergone earth-shattering changes. The first time he came here, the layout was very luxurious. Now, it was much simpler.

"Head Captain, have you redecorated your tent?" Moxiu asked after looking around. "

Boboc's expression was calm as he said, "Didn't you dislike my behavior? The customs of the central and northern regions are different. It's normal for you to not like it. In order to make it pleasing to your eyes, I got someone to decorate it again yesterday."

Li Xin was surprised to hear Boboqi's words. After fighting here for so long, he knew Boboqi's character very well. He was a person who would never admit defeat. He had also fought a beast king before. He would not say anything even if he was injured.

What exactly made Boboqi yield to Moxiu? Thinking of this, Li Xin turned to Moxiu.

MO Xiu knew what his grandfather was thinking and smiled helplessly.

"Captain, I can see your worry." He said to Boboqi, "Just tell me what you want me to do. I'm here to do something."

Boboqi nodded and returned to the main seat, saying, "I want to give you the position of commander in chief. You will command. As long as you can make the beasts retreat from the north, anything is fine."

Li Xin had the biggest reaction when she heard Boboqi's words. She looked at her grandson in disbelief.

You think too highly of me," Moxiu said with a bitter smile. "You know that I can't stay in the north forever. I have to return to the central continent as soon as possible. Even if I take over your command, I can't let the wild beasts leave the north."

Boboc lowered his head in disappointment.

MO Xiu changed the topic and said, "However, I will think of a way to help the northern region out of its predicament in the limited time. The northern defense line has completely collapsed. If we don't stop it, the beasts in the northern region will soon attack the central region. I will help you now and help the central region."

Boboc suddenly raised his head, as if there was hope again. Since Moxiu had said so, he would do his best to help.

Right now, he was very helpless. He had yet to walk out of the shadow of complete defeat. He knew everything about Moxiu's past like the back of his hand.

Boboqi knew that Moxiu was much smarter than him, so he could only pray that Moxiu would come up with a solution.

"Good! Since you said that, I'll tell you about the situation now."

MO Xiu nodded and went forward with Li Xin.

Boboc took out a map and pointed at it.

"Look, we're here. There are no wild beasts around us because the terrain here is easy to defend and difficult to attack. The wild beasts are still occupying other places, so they haven't attacked. And here! And these three places! And...'

Motheo listened to Boboc's narration, and his brows slowly furrowed. In the end, he could not help but interrupt him.

"Wait! It's useless to say this!"

"Hmm?"

Boboqi was a little confused. This was the most basic division of strength. If it was useless, what else was useful?

Don't misunderstand," Moxiu hurriedly explained." These things are indeed useful under normal circumstances. However, they are useless in a situation where the difference in strength is so great."

Boboqi knew that the strength of the wild beasts was much stronger than that of the north.

“Then what should we do now? Is there no hope?”

Moxiu lowered his head and began to think. A few seconds later, he said, “If you want to turn the situation around as soon as possible, you need a special move.”

“What strange move?”

Boboc asked.

“The beasts in the north should be much stronger than those in the north. How did the north hold on for so long?”

“That’s because the two races in the northern region are not on good terms and have affected the battle.”

“This is it!” MO Xiu’s eyes lit up..”

Chapter 515: The Root of the Problem

Boboc was a little disappointed after hearing Moxiu’s analysis. The conflict between the two races was not a secret. In the past two months of battle, he had thought of all kinds of ways to make use of it, but in the end, he had failed.

Boboc thought that Moxiu would come up with a new method, but he didn’t expect it to be this. He was inevitably disappointed.

“Moxiu, I’ve known about this since long ago. I’ve thought of many ways to make use of it during the battle. I don’t dare to say anything else, but I dare to say that there’s nothing I can use.”

” That’s because you haven’t found the root of the problem,” Moxiu said with a smile.” The difference in strength is so great that it’s too difficult to solve it bit by bit. You have to find the root of the problem.”“

Boboc pondered for a while, then suddenly raised his head and said in shock,“”Origin! You mean...”

“Since you’ve guessed it, tell me about the skills of the Bear clan and the Turtle clan. Also, let’s talk about the two Beast Kings.”“

Boboqi was a little hesitant. Since the start of the battle, the two Beast Kings of the north region were almost invincible existences. Moxiu had immediately set his sights on the Beast Kings.

There was only one question in Boboqi’s mind at this moment. Could it work? If anything happened to Moxiu in the north, the central continent might hold a

grudge against him.

Moxiu interrupted Boboc’s thoughts.

“Head Captain! Tell me!”

Boboqi came back to his senses and looked at Moxiu’s confident expression. He probably wouldn’t act rashly.

“Alright, I’ll give you a detailed introduction. There are two races in the northern region. According to the central region, the bear race is a warrior with extremely high defense and attack power, especially their metal claws. If they catch someone, they will cause serious injuries. The turtle race is a mage and a defensive warrior. Their turtle shells can strengthen their defense and are very difficult to break through. At the same time, they are water-type mages who can control water to carry out all kinds of attacks.”

MO Xiu nodded. Xi Bei had told him this basic information when they were in the royal space.

“Please continue. What I want is detailed information, such as the history of the feud between the two races, the characteristics of the skills of the two Beast Kings, and the conflict between the two Beast Kings.”

Boboqi said, “There is a record of the battle. Just a few days ago, when we were defeated, the two Beast Kings fought once. They were probably fighting for territory. However, they were still a little afraid of us at that time, so they didn’t use their full strength. In the end, they didn’t do anything.”

“Is there a detailed record?” Moxiu asked, his interest piqued. This is very important.”

Boboqi took out a laptop and placed it on the table.

“There are no records, but there are blurry video recordings.”

“That’s even better!”

The three of them watched the video of the dispute together. The video was indeed a little blurry. It seemed to have been taken from a very far place, but they could still see the rough outline.

After watching it, Li Xin said, “This video is a little blurry. I can’t even see the moves used by the two Beast Kings clearly. Moxiu, let me tell you the scene of my battle with the Bear King. ””

MO Xiu nodded and said, “That’s too good. ””

” Actually, we only managed to make two moves at that time, and I also managed to silence him, so there wasn’t much meaning in using him as a reference. Silence didn’t have much of an impact on his physical strength and attack power. I only managed to make one move, and I was caught in the second move.”

It seemed that the Bear King’s skill was a passive skill, the kind that permanently strengthened one’s physical fitness. Only then would it not be affected by Silence.

Boboqi also said, "I was fighting against the Turtle King. He was very big and his entire body was wrapped in mist. He could shrink to the size of a human body. After shrinking, his defense and control of the water would increase." Moxiu began to ponder after hearing Boboqi and Li Xin's words.

Boboqi and Li Xin looked at each other and didn't disturb Moxiu's thoughts.

After a while, MO Xiu remembered that the two of them were still waiting for him. He said embarrassedly, "I'm sorry, I'm thinking about something. How about this, I'll think about it first. Head Captain, organize all the information that we know and let me take a look."

Moxiu wanted to walk forward, but he was stopped by Boboqi.

"Eh? Moxiu, I've already said that I'll leave the position of the commander-in-chief to you. You can stay here and work. I'll immediately get someone to tidy it up. It'll be more convenient to send it here after it's done." "Alright," MO Xiu said. "Time is of the essence. Hurry up!"

After that, Moxiu stayed in the tent where Boboqi worked. Boboqi and Li Xin walked out of the tent.

After the two of them walked out, Li Xin asked, "Head captain, I don't really understand why you want to give up the position of head commander. No matter how outstanding my grandson is, he's still a junior after all."

Li Xin's words revealed her love and confidence for MO Xiu.

Boboqi smiled and said, "You don't know. When you were unconscious, MO Xiu wanted to find someone to treat you. I once tried to stop him. MO Xiu shocked more than 20 people, including me. He used the silence of the Li family."

"Is that true? Hahaha!"

Li Xin didn't hide his laughter at all because he was simply too happy. Moxiu was his grandson. On one hand, he was so promising. On the other hand, Moxiu had used the signature silence of the Li family. Of course, he was happy.

After she stopped smiling, Li Xin said, "Even if that's the case, it shouldn't be. I know that you've been guarding against the central continent your entire life. I can tell from the way you treated the Spatial God Mu Clan. Why would you suddenly hand over authority to Moxiu?"

Boboqi didn't say anything. He brought Li Xin to an empty tent.

"What does that mean?" Li Xin asked.

Boboqi took off his shirt, revealing his upper body. A hole that went through his chest appeared in front of him.

There was no blood around the hole. Perhaps some method had been used to temporarily alleviate his injuries.

But because of this, it looked even more terrifying.

"Head Captain, this is..." Li Xin said.

Boboqi smiled bitterly and said, "This was an injury I received when I fought the Turtle King. After I came back, I received a simple treatment and became like this. It didn't affect my movements, so I kept it a secret. You know that once this matter is spread, the north might be completely finished."

Li Xin had been in the north for a long time and knew the current situation. Boboqi was not only the head captain, but also the spiritual sustenance and hope of the entire northern people. He could not be easily defeated.

"I secretly visited Mr. Zhuge last night and asked him if my injury could be cured."

“What did he say?” Li Xin asked.

“He said there’s no hope.”

Li Xin shook his head and sighed. No wonder Boboc had changed so much. He was dying, and he wanted to stabilize the situation in the north before he died. Actually, Boboqi didn’t tell the truth. Zhuze Zhong’s original words were not

like that.

Zhuge Zhong was right.

“If I save you, I will die, and I won’t be able to heal all of your injuries. You won’t live for more than a year..”

Chapter 516: Some Things Don’t Have a Why (1)

MO Xiu sat in Boboqi’s tent for an entire night, and Mu Qingyi came over to accompany MO Xiu.

Moxiu spent the entire night reading the information that Boboc had sent people to organize. His brows were tightly knitted.

Mu Qingyi saw MO Xiu’s serious expression and knew that he had something important to do, so she did not disturb him and poured tea for MO Xiu.

An entire night passed. Moxiu gathered all the information he had gathered and finally sighed heavily.

“I have a plan. Qingyi, help me find the Head Captain. Oh, right, Grandpa is here too.”

Mu Qingyi agreed and went out. MO Xiu sat alone in the tent and said to himself, ""I've calculated it so many times. There shouldn't be any problems." Not long after, Bobo and Li Xin rushed over.

The two of them did not sleep well that night as they waited for news from Moxiu.

After the two entered, they sat down directly opposite Moxiu. Boboc seemed a little anxious.

"How is MO Xiu doing?" Is there a way? How many troops were needed? How should I cooperate with you?"

MO Xiu sat on the main seat, as if he was the owner of this place. He gently waved his hands twice and said, "Head Captain, don't be anxious. After a night of calculation, there is indeed a feasible method."

"Is that so?" What method?"

Moxiu said," It's still the same thing. The problem lies at the root. The current situation is almost a dead end. We still have to let the two Beast Kings have problems.""

This time, Li Xin waited for Boboqi to speak and said, ""Mo Xiu, the strength of the two Beast Kings is not to be underestimated. No one in the north can escape unscathed from the two Beast Kings."

"Grandfather, there's none in the north, but there's one in the central region!" said Moxiu."

"Who is it?"

Boboqi and Li Xin said in unison.

Moxiu pointed at himself and said, "Me! ""

Hmm...

Such pretentious words made the three of them, including Mu Qingyi, speechless.

In the end, it was Mu Qingyi who broke the silence.

“Moxiu, I’ll go with you. You carry out the plan, and I’ll bring you out.” Moxiu nodded. “Yes, you’re part of the plan. You have to follow me.””

Mu Qingyi was relieved to hear MO Xiu’s words. As long as she could be with MO Xiu, she would feel more at ease no matter where she went.

Li Xin frowned and hesitated.

“What’s your plan, MO Xiu?” asked Li Xin.”

Moxiu spread his hands and said, “I’ve already finished explaining the plan.

We’ll find a solution from the two Beast Kings.””

Li Xin and Boboqi looked at each other. Both of them knew Moxiu well enough. If it was someone else who spoke like this, Boboqi would have already thrown him out.

MO Xiu’s words sounded very off-topic and frivolous. However, since MO Xiu had said it, there was only one reason for him to say so. MO Xiu had already made a plan, but he did not want to tell the two of them. Otherwise, why had MO Xiu not slept the entire night? Doing some strange exercise with Mu Qingyi?

“Moxiu, it’s good that you have a plan,” Boboqi said. “Let me know if you need any cooperation. I’ll arrange it immediately.””

Motheo lowered his head and thought for a moment before saying, "Hmm.. What you need to do is very simple. Gather all the soldiers and prepare to launch an all-out attack on the wild beasts. After hearing my signal, attack immediately without hesitation. Oh, right. Be careful not to alert the enemy."

Boboqi was even more confused after hearing Moxiu's words. He asked, "Is that all? What about your operation? Don't you need help from others?"

MO Xiu shook his head. "No need. Qingyi and I will go."

"But..."

Before Boboc could finish his sentence, Moxiu interrupted, "Head Captain, you've already handed over your authority. Don't you trust me? Or are you afraid that Mu Qingyi and I will run away? I won't leave Grandpa behind. Also, I said that no one can stop me if I want to leave."

Boboc shook his head slowly. Moxiu could tell that the sincerity in his eyes was not fake.

Moxiu was curious as to how Boboqi had changed so much in just one day. He didn't know that Boboqi didn't have long to live.

'No, I believe in your strength, but I'm worried about your safety," said Boboqi." Although I don't know your plan, I guess it's just a delaying tactic even if it succeeds this time, right?" If the plan succeeds, but you are in danger, it is not worth it. You are the hope of the central continent and the hope of all mankind."

After knowing that he didn't have much time left to live, Boboqi had seen through many things. He didn't put too much importance on personal interests. He could see many things clearly.

Who was MO Xiu? She was Master Tang's disciple. Where was Master Tang? He was Supreme's disciple.

Wu Shang had made a huge contribution to the entire human race. No one could compare to Wu Shang.

If there was one person who could get close to him, it would be Elder Tang. Elder Tang had dedicated his entire life. In a sense, his contribution to mankind was not inferior to the highest.

MO Xiu had been passed down from this lineage. Moreover, it could be seen from Elder Tang's series of actions that he had great expectations for MO Xiu.

After analyzing the situation, Boboc had an inexplicable trust in Moxiu.

Moxiu looked at Boboc seriously and said, "Don't worry, I know what I'm doing. I won't take any risks."

Boboqi nodded. He was relieved, but Li Xin was not.

"Moxiu, I just understood that you can't tell me your plan, and you have to do it yourself. I disagree!"

MO Xiu smiled as he pointed at Mu Qingyi and said, "I'm not going alone. Isn't there someone else here?"

Li Xin followed MO Xiu's finger and glanced at Mu Qingyi. Mu Qingyi nodded.

"Then I don't agree either!"

The old man began to protect his son. MO Xiu shook his head and said with a bitter smile, "Grandpa, it's not up to you to disagree. I'm just informing you!" Li Xin stood up excitedly and said, "Brat. you've grown wings. haven't you? You

don't listen to Grandpa anymore, do you?" [upd@te by new . org](http://www.upd@te by new . org)

MO Xiu also stood up and walked in front of Li Xin. "Grandpa, now is not the time to be obedient. There are some things that only I can do!"

Li Xin continued, "Why? Will you be able to solve it if you go? If anything happens to you, what will happen to your mother and me?"

"Why? Grandpa, that's a good question. I also want to ask you, why did you fight against the Bear King on the battlefield? Would you be able to solve the problem just by facing the bear king? If anything happens to you, what will happen to me and my mom?"

Li Xin was speechless.

MO Xiu held Mu Qingyi's hand and walked out. When they reached the entrance of the tent, he turned around and said to Li Xin, "Some things don't have a why!"

The two of them walked out of the tent.. Li Xin sighed and said, "Little brat!"

Chapter 517: Fate (1)

After MO Xiu walked out of the tent, Mu Qingyi asked, "Moxiu, it's only the two of us, right? When do we set off?"

MO Xiu smiled and said, "Of course, it's better to do it at night. You must be tired from not sleeping all night, right?" Go back and rest first. I'll call you tonight."

Mu Qingyi was not a warrior, and after many years of training, her physical fitness was only slightly stronger than an ordinary person. She could not be like MO Xiu who could not eat or sleep for a long time.

So MO Xiu told Mu Qingyi to rest and set off at night.

During the day, the main character, Moxiu, had some free time. He began to stroll around the camp in the north.

After walking around for half a day, he realized that the camp was really big. From the entrance, it looked relatively small, and there were many armed forces.

However, as Moxiu walked, he realized that the camp was in the shape of a long strip. The front half was the army of the northern leaders, and the largest part in the middle was the civilians.

Of course, in the face of war, there were no civilians. There was only resistance. These people's combat strength was relatively weaker in the middle, and the last part was still the leader of the army.

Moxiu was satisfied with the overall arrangement. The strongest leader protected the civilians.

The leaders of the north usually enjoyed a good life in the Holy City. Now that war had come, it was time for them to repay the civilians.

This was the time for them to stand up. This was very similar to the central continent. The royal family was the same. Although they did not live with the commoners and gave the people of the central continent a relatively fair competitive environment, they still took up more than 80% of the resources of the central continent.

When war came, these people who usually enjoyed preferential treatment would rush to the front to protect the civilians.

After walking around, MO Xiu returned to find Li Ling 'er and Zhuge Zhong.

After entering their tent, the two of them were making out.

"Cough cough, it's about time. The two of you can be considered an old couple.

It's not good to be like this all day."

When Li Ling 'er saw that MO Xiu had arrived, she immediately stood up and walked over, saying, "Mo Xiu, I heard that you are going to find trouble with the

Beast King. I will go with you. It will be safer with Zhuge Zhong around.”

MO Xiu said, “There’s no need. We lost the Beast King this time, and it’s not just anyone else. It would be dangerous if the target is too big. Qingyi and I can go. Both of us have movement skills, so we’re more mobile.” free.c om

Li Ling ‘er wanted to continue, but MO Xiu said, “I didn’t come here to ask you to help me with that person. I just want to have a simple chat with you. I’ll leave at night.”

“Are you here to chat?”

“Yes, the two of you have seriously violated the rules. Not only did you meet up in Shun City without permission, but you also came to the north during the war.”

Li Ling ‘er looked at MO Xiu’s expression and smiled evilly. “Mo Xiu, Shun City is managed by the Li family, and the city lord of Shun City is also Yue Long, right? “We can’t be punished for things that have to do with you. Besides, I’ve already thought it through. The two of us will follow you from now on. You’re our leader. No one can say anything like this.”

Moxiu smiled. “You sure know how to find a shield. My reputation in the central continent will soon be tarnished. At that time, I don’t know how much influence it will have. It’s hard to say if I can protect the two of you.” “I know your ability. Isn’t that what you’ve been doing all this time?”

“I might have to disappoint you this time,” MO Xiu said. “This time, I plan to rebuild after destroying.”

Li Ling ‘er and Zhuge Zhong looked at each other, the deep affection in their eyes unconcealed.

Li Ling ‘er said perfunctorily, “You can do whatever you want. The two of us will follow you anyway.”

The three of them chatted for a while more before Zhuge Zhong started chatting. He was no longer as reserved as before.

MO Xiu only left when the sky gradually darkened.

When they came out, Li Ling 'er saw Zhuge Zhong off. Because he was still injured, he did not come out.

MO Xiu and Li Ling 'er were outside the tent. MO Xiu asked for no reason, ""Sister, Zhuge Zhong's body was injured to a certain extent in order to treat Grandpa. I'm a little worried that his treatment method might harm himself."

Li Ling 'er's smile disappeared instantly, and her expression turned ugly.

MO Xiu knew that Li Ling 'er must have found out the truth.

"He's fine. He's just a little tired after the treatment."

MO Xiu looked deeply at Li Ling 'er. Some things were fate. Li Ling' er clearly knew that Zhuge Zhong saving Li Xin would reduce her lifespan, but she had no choice but to let Zhuge Zhong treat her.

Both of them were deeply in love with Ling 'er, so there was nothing they could do.

Li Ling 'er's acting wasn't very good. She was smiling, but the worry in her eyes was still clear.

MO Xiu didn't expose Li Ling 'er's lie. He smiled and said,"It's good that the two of you can continue to be happy."

This time, worry flashed across Li Ling 'er's eyes, replaced by happiness.

She said playfully," Of course!"

MO Xiu left with a smile. He didn't know what kind of ending would come from the relationship between Li Ling 'er and Zhuge Zhong.

After taking a few steps forward, MO Xiu looked at the sky. It was almost nightfall, and he could move.

He went straight to Mu Qingyi's tent, opened it, and walked in. Mu Qingyi was already prepared and was waiting for MO Xiu to arrive.

MO Xiu tilted his head and said, "Girl! Come with me, then.

Mu Qingyi smiled and nodded. It had been a long time since she fought alongside MO Xiu.

MO Xiu held Mu Qingyi's hand and walked towards the north.

Summoning the Holy Sword, the two of them sped along the way. MO Xiu told Mu Qingyi where they needed to move, and Mu Qingyi would move once, and the journey was smooth and unobstructed.

"MO Xiu, you didn't look at the map, so how did you know the terrain accurately and avoid the enemy?" Mu Qingyi asked curiously."

Motheo pointed to his head and said, "The terrain is all in my head. The plan for the operation was already formulated before the information arrived. I spent the entire night analyzing the terrain and the distribution of the enemies. Of course, the distribution of the enemies is not fixed. Do you see the small swords around us? They are my scouts."

"You're just bragging," said Mu Qingyi.

The two of them were very fast. It did not take long for them to leave the northern territory and arrive at the wild beast's territory.

When he was five hundred miles away from the two Beast Kings 'sleeping quarters, Moxiu stopped.

"I know," Mu Qingyi said. "We have to sneak over slowly next, or else we'll be discovered."

"No," Moxiu shook his head and said, "You're wrong this time. Stay here and don't leave. Help me."

"However, this place is still very far from the Beast King's location."

"Wait for me here," said Moxiu. "This is an order."

Mu Qingyi's expression changed and she was a little angry. They had agreed to fight side by side, but she was left here.

"Don't underestimate your support," Moxiu immediately consoled. "It's very important!"

Chapter 518: Irresolvable Conflict (1)

Even if Mu Qingyi was extremely unwilling, she could not possibly delay MO Xiu's plan at this point, right?

After hesitating for a while, Mu Qingyi said, "Alright, then you must be careful."

"Don't worry!" said MO Xiu.

After saying that, Moxiu turned around and left, heading straight for the Bear King's residence.

The closer he got to the Beast King, the tighter the security became. MO Xiu was extremely careful, causing his speed to be very slow.

It was not until midnight that they arrived outside the Bear King's residence.

After a simple search, Moxiu locked onto the Beast King's residence.

The Bear Tribe was not like the Ape Tribe or the Fox Tribe. Their civilization was very backward, and they mainly lived in caves, tree holes, and tents. There might be a bear living under a tree. This was also why Moxiu was especially careful and advanced slowly.

The Bear King's residence was the largest cave nearby. One could tell from the decorations and manpower outside the cave.

Moxiu paced around the cave for a while and found a suitable spot. He took out a note from his pocket.

He casually picked up a stone, wrapped it up, and threw it with his right hand. The note flew into the hole.

In the cave, the Bear King was holding a banquet to celebrate the victory of the

war. Such a banquet had been held for many days, from the day the Northern Alliance was broken through until now.

This was a tradition of the bear clan. Due to the years of war with the Turtle clan, they had developed the habit of finding joy in hardship.

Whenever there was a victory, there would be a banquet to celebrate, let alone such a great victory.

If there was anyone here, they would definitely sigh at the cruelty of the bear clan, because the meat on the table...was the meat of humans and the Turtle clan.

This was also the main source of food for the bear tribe, and the bear tribe was used to it.

Before they invaded human territory, the bear clan's main food source was the Turtle clan. What about the Turtle clan? Their main food source was the bear tribe.

Tortoises and bears were carnivorous, and the conflict between the two races could be traced back to the early stages of mutation.

At that time, there were still enough races in the Northern Region. There was a huge conflict between the two races and they had been fighting.

What was the most important thing in war? Food!

The war between the two races was even more so. The intense battle caused the members of the two races to consume a lot of physical strength. They needed to eat a lot, especially meat.

In this way, the other races would suffer and become the food of these two overlords.

The war had never stopped, and the two races had no time to develop other industries, including breeding.

The bear clan and the Turtle clan were not that intelligent, so in the hundred years of war between the two clans, other than the two overlords, all the other races were wiped out.

This was very different from the Western Regions where the Fox Tribe and the Ape Tribe resided. There were four enslaved races in the Western Regions:

cattle, sheep, dogs, and pigs.

According to Prince Xi's investigation, these four races were all enslaved, or rather, farmed.

Among them, sheep and pigs were raised as meat supplies, while cattle and dogs were trained as suicide squads.

Without such high intelligence and plagiarism abilities, the other races would not even have the chance to survive.

There was no meat from other races to eat, but the war continued. Wild beasts had no taboos. In the end, the bear tribe's food became the Turtle tribe, and the Turtle tribe's food became the bear tribe.

At this point, the conflict between the two races could no longer be resolved, nor could it be resolved.

This had never happened before. The two races were each other's natural enemies, each other's only food.

This was also the reason why the Northern Region wanted war the most. Even if the Western Region, which was the starting gun, did not make a move, they could not wait to make a move.

The bear and turtle races also wanted to change the current situation.

Attacking human territory and feeding on humans was the best solution.

When Moxiu saw this information, he couldn't help but sigh. The wild beasts of the Northern Region were truly pitiful. They hadn't developed in the past 100 years and were still worrying about food.

At this moment, the Bear King was sitting on the main seat, looking at the cheering Bear tribesmen below with a proud expression.

He slowly stood up and raised the cup in his hand. He did not know what the bright red drink in the cup was.

"Let me say a few words!"

The bear king spoke, and all the bears stood neatly and looked at the bear king.

"Go straight for the center of the human race!"

All the bears cheered together. The bear tribe was happy to have such a king.

Right at this moment, a stone shot towards the bear king at an extremely fast speed. The bear below was startled and was stopped before the stone could hit the bear king.

“Quickly go outside and take a look!” a bear said.

The bear king was very concerned about that stone. The person who shot the stone should know that it was impossible for this stone to hurt him, so this person had another goal.

The bear king sat down calmly and said, “Bring me the stone!”

The bear brought the stone in front of the bear king. The bear king saw that there was a piece of paper wrapped around the stone at a glance. It opened it curiously and took a look.

The words on it were very simple.

“The emissary from the central region is here to see you, MO Xiu!”

The Bear King of the central continent was no stranger, and neither was Moxiu.

Even though they had been celebrating this period of time, they had not been idle either. They had been gathering information about the central region. The northern region had already been defeated and was not worth mentioning.

There were two main reasons why he could not defeat him in one fell swoop.

One was the conflict between the two races. The two races had not decided on the distribution of the spoils of war, which was the distribution of the cities between the humans and the humans. They did not easily launch the final attack.

The other was that humans were the new food for that race, and they had yet to figure out how to deal with them.

After two months of fighting, the two races had accumulated enough food. It would be a waste to start a war now.

The hundred years of war had taught the two races that they had to continue developing. They could not exterminate the humans, or they would fall into the same predicament as before.

Since the people in the north had temporarily not moved, the two races set their sights on the central continent.

He had been collecting information about the central continent. Of course, the source of the information was the captured northerners and the northern leaders.

The news in the north was blocked, so the northerners had limited information about the central region. This could be considered a contribution of the Boboqi policy to the central region.

The Bear King had heard the name Moxiu many times in the only news he had. Therefore, he believed that this person called Moxiu was very famous and important in the central continent.

He did not expect that before the Bear King went to look for MO Xiu, MO Xiu would come looking for him himself. He wanted to see what tricks MO Xiu had up his sleeves.

Throwing the note aside, the bear king walked out of the cave. Just as it walked out, it heard the crowd making a ruckus.

“Silence!” the bear king shouted.

At this moment, Moxiu was standing openly in the middle of a group of bears.

The bear king walked forward, and the group of bears parted to form a path. The bear king strode in front of Moxiu.

“You are MO Xiu?”

The Bear King’s body was huge, three heads taller than Moxiu.

MO Xiu raised his head and said with an imposing manner, “That’s right!”

Chapter 519: Two Crucial Sneak Attacks

“That’s right!”

The Bear King was surprised to see Moxiu’s reaction. Even the highest leader of the northern region, Boboc, had to be wary of him. This Moxiu was obviously a junior, so where did he get the courage to face him so calmly in the Bear Clan’s territory?

“Aren’t you afraid of me?” asked the bear king.

“Afraid of you?” MO Xiu said indifferently. Why should I be afraid? I’m not here to fight you to the death.”

The Bear King opened its mouth wide and laughed strangely.

“Hahaha, then what are you here for?”

“Negotiate!” Moxiu said.

The bear king said, “I know that your status in the central continent is very high. I’ll capture you first. Is there a need to negotiate?””

Moxiu spread his hands and said, "Then you can try to arrest me. What I want to talk to you about is very important. It can maximize your benefits. Don't you want to hear it?"

"Oh? Then tell me!"

"It's not convenient here. There are some things that you don't want many people to know, right?"

The bear king pointed at the cave and said, "Then let's go in and have a chat!"

Beside him, an older bear who looked like a military officer came forward and whispered into the bear king's ear, "King, you should be careful. This person came here for no reason. There must be a conspiracy."

Bear King didn't care, said: "I don't care, I don't care, I don't care, I don't care, I don't care, I don't care, I don't care."

This was the core territory of the bear clan. There were many bear clan soldiers around. In addition, the bear king was confident that a human junior could not hurt him.

Just like that, Moxiu and the bear king entered the cave together.

The two of them had just entered the fifth minute when the Bear King shouted from within the cave, "Men!"

Following that, a large number of bear soldiers entered the cave. After a while, these bear soldiers came out of the cave and began to patrol the surroundings.

But the bear king never came out.

At 3:30 in the morning, in the Turtle King's camp, a subordinate had just sent a secret message. In the central region, Moxiu had gone to the bear king's cave three hours ago and never came out.

After the Turtle King heard this news, he paced back and forth in the camp. The Bear King knew Moxiu's name, so he naturally knew it as well.

He was currently thinking about whether there was some conspiracy behind the Bear King gathering in the central region. If there was no conspiracy, then Moxiu really wanted to come to the northern region to negotiate. He should look for both Beast Kings, not just the Bear King.

Just as the Turtle King was puzzled, the tent was opened, and the person who came in gave the Turtle King a fright.

It was the Bear King!

The Turtle King immediately became vigilant and said, "You old bear, how did you get in here?"

The bear king laughed out loud." Who else can stop me from coming to your place other than you?"

"Cut the crap. You coming here makes me very uncomfortable. If you have something to say, say it quickly. Don't dawdle."

The Bear King swaggered and sat down. Its two front paws were placed together on its legs. This was the Bear King's signature move.

"I know you must have received the news that Moxiu went to look for me. I'm here to tell you what Moxiu told me."

The Turtle King snorted coldly. Why would you be so kind? Even if you tell me,

I might not believe you."

The bear king looked at Big Eyes and said, "Yo! If you don't want to hear it, I'm leaving."

The Turtle King hurriedly stopped him.

“Don’t forget, we’re still allies. If you hide anything, you’ll be breaking the contract.”

When the Bear King heard the Turtle King’s words, he laughed even louder and said, “Hahaha, Old Tortoise, you’re going to kill me with laughter. You didn’t break the contract between all the beasts and humans. That’s just a relationship of interest. What kind of shitty alliance is that!”

The Turtle King didn’t want to continue talking with the Bear King. After a

hundred years of battle, the two of them knew each other’s strength. Neither of them could do anything to the other. Since they couldn’t stop the Bear King, then let him go.

“If you don’t want to say it, then leave!”

The Bear King stood up at this moment and leaned towards the Turtle King. “Don’t be anxious. I’ll tell you right now. The matter that Moxiu came to me to talk about is really not a small matter. I can’t complete it alone.” “If you want to say it, say it quickly. Don’t keep me in suspense!”

The Bear King once again approached the Turtle King. The Turtle King also approached the Bear King out of curiosity.

The Bear King whispered into the Turtle King’s ear, “Moxiu only told me one thing, and that is...he wants your life!”

The Turtle King reacted quickly and immediately retreated, but it was still too late. The Bear King’s iron claws swept across, leaving three shocking wounds on the Turtle King’s neck.

After the Turtle King stood still, he glared at the Bear King and said, “You dare to ambush me here? Aren’t you afraid of death?”

“There’s not much of a difference between our strengths,” the bear king said.”

Now that you're injured, you're no match for me!"

"This is my territory. As long as I heavily injure you, you won't be able to live!"

The Turtle King was using words to deal with him. Even if he was at a disadvantage, he did not want to make a move.

Because the wound on his neck was very deep and had yet to heal, it would definitely be a life-and-death battle. The Turtle King had lived for so long and did not want to die just like that.

The bear king laughed again and said, "I can do it alone. Didn't I say that there's still MO Xiu?!"

'What?!'

Amidst her exclamation, the Turtle King noticed someone approaching from behind. When she turned around, she saw that MO Xiu was already very close to her.

A punch landed on the right leg of the Turtle King, and the Turtle King was injured once again. These two sneak attacks were very successful, causing the Turtle King to suffer relatively heavy injuries.

MO Xiu's next punch arrived!

The Turtle King roared. The sound wave ripped open the huge tent. Only then did the other members of the Turtle clan realize that something had happened inside and immediately surrounded it.

The Turtle King was furious. He had a deep grudge against the Bear King. As a

wild beast, it had actually joined hands with a human to ambush him.

At this moment, the Turtle King couldn't see Moxiu at all. It controlled the water elements to include the Bear King.

The bear king was dealing with the other Turtle clan members and was slightly distracted. The attack struck the bear king in the stomach.

The Bear King was injured and looked towards MO Xiu, asking him to think of a

way.

MO Xiu waved his hand and used Void Destruction. A huge bubble appeared and wrapped around the Turtle King.

Bear King!" Moxiu shouted." Bear King, we've had a great time working together this time. Whether or not we can escape will depend on our own luck!

As soon as MO Xiu finished speaking, he disappeared into the distance. When the bear king saw that Moxiu had run away first, it cursed," Despicable human!!!"

The Turtle clan continued to pour in. The bear king was also injured, so staying behind was not a solution. While Moxiu was trapping the turtle king, he shook off the Turtle clan members beside him and ran towards the bear territory.

Not long after it ran out, the air bubble on the Turtle King burst, and the air flowed backward, causing damage to the Turtle King twice.

The damage this time had severely injured the Turtle King. It had no choice but to shrink its body and strengthen its defense.

As soon as he landed, the Turtle King stared at the direction the Bear King had left with his bloodshot eyes.

“Chase! Gather all the troops and launch an all-out attack on the bear clan. We won’t rest until one of us dies!!!” A great battle was about to break out!

Chapter 520: Battle Between Bear and Turtle (1)

attacks

Turtle King, who was known for his defense, had suffered a total of three sneak attacks from Bear King and Moxiu. He was now heavily injured.

The entire Turtle clan exploded. Many experts, including the Turtle King, pursued the bear king at full speed.

Perhaps it was because of its injuries, the Bear King’s speed was not very fast. Moreover, the Bear Race could not fly and could only run on land.

The Turtle clan could fly with the help of water elements, so they were slightly more mobile than the bears.

Even though the bear king had run a few seconds ahead of time, it was unable to pull away. The Turtle clan followed closely behind.

Running all the way until 5 am, the bear king finally reached the territory of the bear clan.

Just as a bear wanted to stop him, he looked over and saw that it was the Bear King.

“Bear King!”

The Bear King didn’t have time to pay attention to it and said,“”Pass down the order to stop the Turtle clan’s attack!”

After saying that, the bear king quickly left, leaving the bear soldiers looking at each other.

What was going on? Stop the Turtle clan's attack? They had just won a battle against the humans, yet they were going to start a war with the Turtle clan again?

Just as the bears were thinking, the army of the Turtle clan arrived.

The bears resisted with all their might, but they only managed to stop the Turtle clan army for a moment before they all died.

There was no comparison between the two. The bear soldiers were just ordinary soldiers guarding the border.

The elites of the Turtle clan would definitely be able to charge at the front of the army, so they killed the bears without any suspense.

The army of the Turtle clan continued to approach. The bear king's speed increased once he reached the territory of the bears, wanting to return to the safest place.

As it was dawn, many of the bear clansmen had not woken up, allowing the Turtle clan army to arrive at the bear king's cave without any obstructions.

The Turtle King was very angry at this time and said, "Do I need you to say that? This is the Bear King's residence."

"What do we do now?"

"Before the bear clan can react, we'll kill the bear king. He's also injured! Kill!" "Kill!"

When time returned to the sneak attack, MO Xiu had finished releasing the vacuum bubble and immediately teleported five hundred miles away on the Holy Sword, arriving at Mu Qingyi's side precisely.

Mu Qingyi did not relax at all, and her mind was highly focused. When MO Xiu appeared in her body, she pulled MO Xiu's hand and went along with it.

"Wait..." Moxiu said.

Before he could finish, the next teleportation began.

" You want me to say..."

Another teleportation!

MO Xiu hugged Mu Qingyi's shoulders, trying to make her stop. Perhaps it was because she was extremely nervous, but Mu Qingyi ignored MO Xiu's actions and continued to teleport.

MO Xiu was helpless. After this teleportation ended, he moved his mouth closer to Mu Qingyi and kissed her directly.

The moment Mu Qingyi's red lips touched MO Xiu's lips, her eyes widened as she looked at MO Xiu in disbelief.

He pushed MO Xiu away and said in surprise, ""Mo Xiu, what are you doing?"

MO Xiu smiled as he patted Mu Qingyi's head and said, ""I wanted to ask you what you were doing. Why didn't you let me speak?"

Mu Qingyi turned back to look and said, " The two of us haven't left the danger zone yet. I want to bring you out as soon as possible before we talk.""

MO Xiu sighed and said, "You're too nervous. There's a change of plans. We won't go out for now. Let's go back and take a look!"

Mu Qingyi shook her head vigorously, very resistant to going back.

"It's alright. The relationship between the Bear clan and the Turtle clan is worse than I thought. I've already done everything I could. The rest is up to the two clans. We need to go back and see what they're up to."

"But..."

Mu Qingyi was still a little worried. MO Xiu said, "There's nothing to be afraid of. I'll take you away. When you teleport, you can teleport over the obstacles."

In the end, Mu Qingyi compromised. Although she was very worried about MO Xiu's safety, MO Xiu had his own plans. As her woman, she had to trust him unconditionally.

Mu Qingyi did not believe that MO Xiu would not put himself in danger, but she believed that MO Xiu would definitely not bring her along to take the risk.

Mu Qingyi understood MO Xiu too well. The time when he was in danger was when MO Xiu had acted alone just now. Now that MO Xiu was willing to bring her along, there should not be any danger.

The two of them set off, heading towards the Bear King's cave.

The journey was very smooth. Mu Qingyi's teleportation was much more convenient than MO Xiu's alone. He could avoid his enemies with high efficiency and was even faster than the Turtle clan.

When they arrived near the cave, MO Xiu and Mu Qingyi found a hidden spot to hide and looked towards the entrance of the cave.

Before long, the bear king returned and entered the cave. The army of the Turtle clan arrived and stopped at the entrance of the cave. Then, MO Xiu and Mu Yi heard a deafening shout.

“Kill!

Afterwards, the Turtle Clan, led by the Turtle King, charged into the cave.

Mu Qingyi looked at the scene in front of her and felt that she was dreaming.

What was going on? The Turtle clan and the bear clan did have some conflicts, but they had reached an agreement on attacking the humans. The two clans would occasionally have some friction with the humans, but they had never gone to war.

However, the Turtle King had just led the Turtle clan to charge into the Bear King’s residence, so this matter was definitely not going well.

Now, it would depend on how things developed. The more the conflict between the two races worsened, the more beneficial it would be for the north.

Mu Qingyi said in a very small voice, “Mo Xiu, how did you do it? Why did the Turtle King come?”

Moxiu stretched his neck forward, meaning that he would know if he continued looking.

Mu Qingyi muttered softly, “How annoying, always keeping me in suspense.” His gaze returned to the cave entrance in front of him.

The bear tribe also reacted by surrounding the entire cave. Some of the bear tribe leaders led their troops into the cave.

Ten minutes later, a figure flew out of the cave and landed on the mountain beside it.

The mountain trembled when it received the impact, and Moxiu and Mu Qingyi were implicated. Fortunately, Moxiu was holding Mu Qingyi to stabilize his body, or else he might have been exposed.

After this figure came out, the Bear King also came out of the cave. Don't look over, it turned out that the one who had just been sent flying was the Turtle King.

At this moment, the Turtle King's injuries were very serious, and he felt somewhat overwhelmed.

The Turtle King angrily rebuked, "Bear King, you're a Beast King after all. You actually schemed with Moxiu to ambush me. Now, you're pretending to be injured to come here because of me. I really didn't expect you to choose to attack me at this time."

The Bear King looked at the Turtle King coldly and said, "I don't know what you're talking about. You were the one who barged into my residence to ambush me, but you wanted to make a false accusation. But now, it doesn't matter."

The Turtle King retreated, getting closer and closer to MO Xiu and Mu Qing.

Mu Qingyi held MO Xiu's hand tightly, and MO Xiu shook his head, indicating that they should observe the situation first.

The Bear King didn't let the Turtle King continue to retreat. It jumped over and landed in front of the Turtle King.

"Old Xiong, you have to think carefully..."
