

## **Four Skills 551**

### Chapter 551: Something Important to Report

The beast army had arrived at the foot of the mountain. As long as they charged up, they would be able to fight Xi Bei head-on.

This time, before the ape king could give the order, there was movement on the mountain. A pile of energy bodies came down from above. It was obvious that they had been summoned by a skill.

There were all kinds of things, including missiles, bombs, and animal-like robots.

The ape king raised his eyebrows. Human skills were really troublesome.

Since he was already here, he could not find it troublesome. He would fight these energy bodies first.

Most of the energy bodies were not particularly strong, but there were too many of them. He did not know how humans found so many people with summoning skills.

After destroying all the energy bodies, the beast army continued to advance. Finally, they could go up the mountain.

All the wild beasts were stunned when they went up the mountain. There was not a single person.

When the wild beasts fought the energy bodies, all the humans retreated again. Now, they were nowhere to be found.

The ape king took a deep breath, trying his best not to fly into a rage. The Fox King remained calm and said, "The human's old trick is to go to the ape."

“What old trick?” asked the ape.

[illegible]

Of course, the ape king had heard of this saying and understood the logic behind it.

Now that he thought about it, Xi Bei had played tricks multiple times and did not face the enemy face to face. It was really possible that this was what he was thinking.

One was to buy time, and the other was to weaken the morale of the wild beasts.

The ape king began to speak to the army on the spot.

“Everyone, listen up. Humans have always been crafty, but their strength can’t withstand a single blow. They think that this is exhausting us, but in fact, their skills have also been exhausted.!!”

The ape king's voice grew louder and louder until it was somewhat deafening.

When the exhausted beast army heard the ape king's words, they became excited again.

The ape king did not stop when he saw this. He took advantage of the situation and set off with the army once again.

The ape king had already adjusted and stopped countless times. He secretly swore in his heart that he would torture Xi Bei to death the next time he saw him.

Further ahead, after the mountain road, there was an open space without any obstacles.

Behind the empty empty space, a city suddenly appeared in front of them. This was the first city that the beast army had seen so far.

This city was called Defender!

This was the first city on the border of the Western Regions.

As the name implies, this is a city that humans must guard.

Xi Bei and countless soldiers were standing outside the city!

They were not guarding inside the city, but inside the city. The meaning was obvious. The wild beasts could only come here and could not take another step back.

There were soldiers and civilians guarding the city!

This was Xi Bei, the last line of the entire central region. No matter what happened, this city could not be lost.

At this moment, there were more than a million soldiers by Xi Bei's side. From the time Beast arrived at the border until now, almost three hours had passed.

After such a long time, the reinforcements had already arrived, but they did not move forward. They were all arranged by Xi Bei to wait here.

Right now, the soldiers here included the reserve army of the central continent and reinforcements from all the cities in the central continent.

A city and a clan, echoing the entire central region, was the guardian of this border.

When the ape king saw so many people on the other side, he knew that the humans' tactic of stalling for time had succeeded. Reinforcements had arrived.

However, it did not matter. They were both people who had been rushing along the way, and the strength of the wild beasts had an advantage.

Moreover, the road behind the beast army had been opened up to the north. Other beast armies would continue to come through this road.

The wild beasts had no intention of giving up the land they had already seized.

The ape king was no longer in a hurry. In any case, the final battle was coming up. No one could come up with any tricks.

"Xi Bei, did you play so many tricks just to wait for me here?" This isn't smart at all."

Xi Bei looked at the time. It had already been three hours. He heaved a sigh of relief in his heart. His mission had been completed. Now, it was time to watch MO Xiu's performance.

Even if Moxiu's spies were able to achieve an ideal result, they could still hold on for a while.

No matter what, Moxiu's method of retreating while fighting was correct. It would give the reinforcements more time to prepare.

Xi Bei said, "Ape King, your surprise attack this time was to catch us off guard. Now that we're all prepared, it's you who's been running around all the way and seems very tired. It's still uncertain who will win this battle."

The ape king laughed wantonly. His laughter seemed to be mocking every human in front of him.

“You humans have an old saying that people should know their own limitations. You can’t recognize reality at all. Since your brain isn’t clear enough, I’ll wake you up! Prepare to attack!”

All the beasts crouched on the ground, ready to charge.

The people on Xi Bei’s side were ready for battle. They would release their skills at Xi Bei’s command.

The decisive battle was about to begin!

Both sides were at their peak. Just as the tension was building, Beast’s voice broke the atmosphere.

“Beast King! I have something to report!”

The ape king face with anger, this time interrupt momentum is the most taboo.

The ape king looked at the person who had reported the matter and wished he could kill him.

The Fox King saw that the Ape King was somewhat embarrassed and asked on behalf of the Ape King, “Tell me what it is. If it’s not important, you know what will happen to you.”

This person looked around and walked towards the two beast kings.””Beast Kings, something bad has happened. The plan was for the army to come first, followed by the logistics and reinforcements. However, I just received news that they won’t be able to come.”

The ape king instantly flew into a rage, venting all his anger along the way.

The Fox King grabbed the Ape King’s hand tightly, trying to calm him down. If the leader did not calm down at this time, it would affect the morale of the

army.

"The reinforcements are from the remaining top ten cities of the Ape-Fox Alliance," the Fox King asked. "Why can't they come?" Furthermore, the logistics were the responsibility of the entire Western Region's underground forces. How could there be a problem?"

'Someone spread the news, and someone in the other top ten cities gave false news. They said that the Beast King had ordered them to stay put for now, and most of the City Lords had come with them. There was no Beast King in the Western Regions, and it was a mess there. We don't know which news is true and which is false, so we might as well not make a move. If we choose to send troops now, it will also cause chaos.'

The Fox King was filled with hatred. Back then, he had asked all the City Lords to come out to avoid the suspicion of spies and to increase the combat strength of the army. He did not expect that this would be used. The cities behind him were leaderless, and there were no wild beasts that could stop them.

In such a situation, they could only send the City Lords of these cities back. However, it would take a long time for them to return after they had returned and prepared.

"What about logistics? What happened to the logistics?"

"Beast King, the logistics are handled by the underground alliance. It should be foolproof, but the two largest gangs, the West Gang and the San Ba Gang, suddenly started a war.. The entire underground organization is in chaos!"

## Chapter 552: The Person You Think About Day and Night

The Fox King and Ape King were both stunned. Did these underground forces want to die? If they started a war at this time, they would not care about the troops on the front lines.

It was still fine without reinforcements. The current army could contend with the humans and even have the upper hand. They could at least hold on for a long time.

However, it would be troublesome if there were no reinforcements. Because it was a surprise attack, all the soldiers were lightly equipped and did not bring much.

They did not bring any essential supplies, including the most important food. They also did not bring the tools to set up camp and live. Without these, if they could not break through the human defense line during the first attack, they would not be able to enter the city.

If they retreated, they would not be able to set up camp, and it would be extremely dangerous for them to be exposed to the human army.

Wild beasts had strong survivability and physical strength, so they could go without food for a long time.

However, not eating did not mean not drinking water. This part of the road was brought by the ape king, so there was no water source around at all.

Coupled with the various small tricks that Xi Bei had done along the way, the army was exhausted and continued to eat to replenish their strength.

Now that their retreat route was cut off, the army was in a dilemma.

The ape king said angrily, "What are you guys doing?" Without the Beast King, can't you two do the most basic things well?"

The person who reported the news was silent. He was just reporting.

The ape king continued," Since something happened to the people at night and they are not needed, then let the people during the day be in charge of the logistics. "

The night that the ape king was referring to was the dark world after dark. During the day, it was those official companies.

When the person who reported the information heard the ape king's question, his entire body trembled and he said, "Reporting to Beast King, the order during the day is also chaotic. We have gathered a lot of people from the Public Security Bureau for this expedition."

The ape king said angrily, "Usually, the security department has too many people. This time, we've only transferred a small portion. How can there be a problem?"

"There are many reasons. One is rumors. There are too many rumors about our frontline, causing people to panic. Another reason is that the riot in the night world has affected the day. The most fundamental reason is..."

The ape king no longer had any patience and said, "What is it? Hurry up and say it? Otherwise, I'll kill you!"

"The most fundamental reason is that the economic instability that occurred a few days ago has erupted today. Our economics department has collapsed. Now, 100 yuan can't even buy a loaf of bread."

"Bang!"

The head of the person reporting fell to the ground.

He was not wrong, but the ape king could not accept the news he brought. The Fox King did not stop him. He looked to the west with melancholy in his eyes.

"Ape, let's retreat!"

The ape king was unwilling to give up and clenched his fists tightly.

"How did this happen? In just one day, the Western Regions had fallen into such chaos! Go back first and take charge of the situation. Investigate what's going on. I must break through this city!"

At this point, the Fox King appeared very calm and said, "I have a guess, and it should be correct. If we don't go back now, the Western Regions will really cease to exist. You know that the Western Regions are our foundation." What the Fox King could see, the Ape King could also see.

The two Beast Kings thought that they had escaped from Moxiu's control, but in fact...this ambush was probably within Moxiu's expectations.

In this surprise attack, the Beast Kings and the elites had all come out. None of the beasts left in the Western Regions could take charge of the situation.

It was precisely because of this that humans stole the homes of wild beasts.

Doesn't the Fox King hate him? He also hated them, but things had already come to this. What he needed to think about now was not to defeat the humans, but to go back and reduce his losses as much as possible.

"Ape!" the Fox King said. Let's go back!"

The ape king looked at the human army and said, ""No, I can't! "If we retreat so easily this time, our clansmen will think that we are afraid and must fight. Even if there is no result, you can take the dragon and return first!"

The Fox King understood the logic behind this and did not waste any more time. He immediately brought the dragon back. The earlier they returned, the lesser the losses in the Western Regions would be.

Watching the Fox King walk away, the Ape King turned around and looked at Xi Bei.

Beast's actions couldn't escape Xi Bei's eyes. When he saw Beast's actions, Xi Bei knew that Moxiu had succeeded.

Now that the Fox King and the man beside him had suddenly returned, Xi Bei felt as if he had taken a pill of reassurance. This battle was won!

"Ape King! Aren't you beasts always brave? Are you afraid of discussing a meeting before the battle?"

The ape king was furious.” Xi Bei, what a good plan. You humans are indeed forced to be shameless!”

“What did you say?” Xi Bei pretended to be surprised. Why don’t I understand?”

“You don’t understand? If you are stalling for time, you are stalling for time for the spies in the western regions, right?”

Xi Bei suddenly realized and said, “Oh!” Are you talking about the spy? I’m not sure about that. Moxiu has always been in charge of it.”

Xi Bei pushed the blame onto Moxiu. In reality, it was indeed Moxiu who had manipulated it, and Xi Bei was only cooperating.

When the ape king heard the two words ‘Moxiu’, he was simply unable to contain his anger. Ever since the start of the battle, this name had been appearing constantly. Every time it appeared, it would bring bad news.

Now, the ape king hated Moxiu to the bone. This hatred even surpassed that of Tang Wanhua, his opponent for the past hundred years.

“I don’t care who did it, you must die today! Kill them!”

He couldn’t drag this out any longer. Moxiu had too many tricks up his sleeve. If he dragged this out, who knew what would happen?

With a loud shout, the ape king rushed to the front, leading the beast army to charge at the human army.

Xi Bei’s mood relaxed a little. At this moment, the aura and combat power of the wild beast army could not be mentioned in the same breath.

“Everyone, listen up!” Xi Bei shouted.”

“Yes!”

“Something has happened on the Beast side, and the morale of the army is unstable. Don’t be afraid, we will win!”

” Victory! !

“Attack! ”

As soon as Xi Bei gave the order, everyone charged towards the beast army.

The two sides engaged in a chaotic battle.

Xi Bei was still the one who was going up against the ape king, but this time, Xi Bei had a helper. Se??ch  
?ew?o?e?. O?g on ?oo?l?

The four of them had known each other since young, and there was no problem for them to cooperate with each other. They could also use all sorts of combination skills.

Xi Bei alone could not defeat the ape king. Now, there were four people at Xi Bei’s level.

In the end, the Ape King found it a little difficult to deal with. The four of them had sixteen skills, not to mention their power, and that was not counting their innate skills, making it difficult for the Ape King to parry them.

Battle intent soared into the sky, and blood stained the ground.

The battle lasted for an hour, and both sides entered a state of exhaustion.

The beasts were still fine, at least they did not have any skills to cool down. The humans had already changed two waves of soldiers.

The consumption was very high, and the disadvantage of humans not being suitable for prolonged battles was reflected.

If this continued, the casualties would be huge.

At this moment, while the ape king and the four clan heads were engaged in a fierce battle, a sword light flashed and arrived in front of the ape king.

“Who are you?” the ape king shouted angrily.

“The person you miss day and night! “

Chapter 553: Battle Ape King

“The person you miss day and night!”

The ape king put some distance between himself and the four clan heads in

case there was a trap.

Looking over, he saw a young man standing on a flying sword with his hands behind his back, looking at him calmly.

The ape king was greatly shocked. This way of appearance, this unique temperament, had once made the ape king think that the supreme had arrived.

After taking a closer look, he realized that it wasn't the case and heaved a sigh of relief.

"Stop playing tricks here. Speak! Who exactly are you?"

"You don't know me?"

"Why should I know you?"

The young man shook his head and said, "How pitiful. You don't even know who defeated you. My name is MO Xiu!"

The ape king's eyes were about to spew fire as he said angrily, "You are MO Xiu! I will kill you today!"

After saying that, he charged forward and wanted to attack MO Xiu. However, before he could reach MO Xiu, he was stopped by the four clan heads.

"MO Xiu, could it be that you are a despicable and shameless villain? Do you only know how to play tricks behind my back and not dare to fight me head-on? You still have to hide behind others!"

"Clever?" MO Xiu smiled. Even small tricks could put you in a desperate situation."

The ape king dealt with the four clan heads while sneering, "Bullsh \* t, you? You can also put me in a desperate situation?"

MO Xiu's right hand hovered in the air. When the four clan heads saw the hand signal, they stopped their attacks and came to MO Xiu's side.

"What?" asked the ape king. Are you surrendering?"

MO Xiu raised his palm and extended his right hand. He made a gesture of invitation and said, "Ape King, why don't you turn around and take a look!"

The ape king looked over skeptically. The scene behind him made the ape king spit out a mouthful of blood.

The human army slowly retreated and fought, but the beast army actually had internal strife and began to kill each other.

"Stop!" the ape king shouted. Attacking humans? What are you doing?"

When the beast army heard the Ape King's words, they stopped. However, in less than a minute, they started a chaotic battle again.

The ape king knew that this must be MO Xiugao's ghost again. He was a spy planted in the beast army. Casually attacking and injuring people would result in a chaotic battle. All the beasts were wary of the people around them. In such a state, they could not fight at all.

The ape king turned around and glared fiercely at MO Xiu, saying, "Mo Xiu, I won't do anything else today. I'll just kill you."

Moxiu still had the same expression. He looked at the ape king with a smile and said, "Then come and try!"

Of course, the Ape King couldn't tolerate this. Even if this ambush failed, he would still let Moxiu die here.

I can't keep this man!

The ape king rushed over. Moxiu raised his right hand unhurriedly and activated Vacuum Destruction, enveloping the ape king within.

The ape king was hit, and his speed immediately slowed down. He attacked the inside of the bubble with all his might.

Of course, it was useless.

Moxiu did not want to keep trapping the ape king. It was meaningless. He directly burst the control bubble and caused damage to the ape king.

The Destruction Element could ignore any defense, but it was still somewhat affected in the face of absolute physical strength.

It would not be an exaggeration to say that the ape king's body was the strongest on the entire continent. The destructive vacuum had limited damage to the ape king..

However, it had also injured the ape king.

The ape king looked at Moxiu in shock. He had not expected that Moxiu's strength had already reached a level that could injure him.

MO Xiu's determination to not let this happen grew stronger.

Just as he was about to move, the vacuum bubble appeared again.

The ape king furrowed his brows in thought, while Moxiu was still smiling.

Moxiu knew that the Void Destruction would cause too much damage to the Ape King. However, when he wanted to come over, Moxiu subconsciously stopped him.

The four family heads understood and surrounded the wish in the bubble.

The bubble burst, causing damage to the wish. At that moment, the ape king exerted strength in his legs and burst out at full speed, not wanting Moxiu to lock onto him.

The four clan heads seized this opportunity and attacked the ape king with their killer moves.

However, the ape king's speed was too fast, and it was exerting force upwards. The four clan heads' killing moves might have to be unleashed in vain.

At this critical moment, a person suddenly appeared in front of the ape king who was jumping up.

This person was MO Xiu!

Moxiu's speed was definitely not as fast as the ape king's, but Moxiu had the teleportation skill. He also had the advantage that Moxiu had since he was in school, his reaction speed in battle.

After Moxiu saw the situation clearly, he did not pause for even a second. He immediately reacted and teleported above the ape king's head to seal his path.

The ape king had started fighting a hundred years ago, so he had rich combat experience. Facing Moxiu, who had suddenly appeared, he did not panic. Instead, he revealed a look of joy.

The light punch that he had used against Xi Bei was thrown at MO Xiu.

The moment this punch was thrown, Moxiu felt an unprecedented sense of danger. It was the feeling of death.

This feeling was something that Moxiu had experienced in countless battles. It wasn't just an ability, but an instinct of the human body.

MO Xiu knew that this punch was definitely not simple. However, he had to stop the Ape King now. Otherwise, after the four clan heads' killing move was released, the Ape King would be able to leave calmly.

Moxiu cast all his buffs on his body, and the Holy Sword appeared in front of him to block.

Feeling that it wasn't enough, Moxiu summoned his clone, MO Li, to confuse the Ape King.

In that instant, Moxiu had done so much.

When the ape king saw the fox king in front of him, he narrowed his eyes and threw a punch without hesitation.

The clone disappeared the moment it came into contact with the punch. Next, the Holy Sword disappeared as well.

Just as his fist was about to touch Moxiu, Moxiu blocked it with both hands in front of his chest. Countless skills flew out from his hands.

This was Motheo's third passive skill, Random.

After leveling up to level 3, he could choose the type of skill more accurately, but the power of the skill still depended on luck.

Skills were thrown out continuously, landing on the ape king's fist. However, the ape king's fist continued to approach Moxiu, seemingly unaffected.

Moxiu secretly prayed in his heart that it would be best if he could release a skill that had such a huge thrust like the one he used against King Xi.

The fist was about to land on Moxiu's body, but it was too late.

Motheo immediately threw out his last skill, then crossed his arms in front of his chest.

It was this last skill that worked.

It wasn't the pushing skill that Moxiu had expected. It was a pure offensive skill.

A blood-red fist suddenly appeared to meet the ape king's fist.

The killing intent contained in the bloody fist shocked the ape king. The ape king's fist collided with the bloody fist, and the force was mostly offset. The ape king's pained expression could still be seen.

However, the ape king still gritted his teeth and endured it, punching Moxiu's body.

It hit Moxiu's arms that were protecting his chest. The huge force spread through his arms and sent him flying.

At the same time, the skills of the four clan heads landed and hit the ape king squarely.

Moxiu's pained cry merged with the ape king's scream, mixing into a sharp and ear-piercing sound.

It tore through the sky!

Chapter 554: Retreat and Advance

The two screams merged into one, and MO Xiu was sent flying. The ape king had withstood the killing moves of the four clan heads and was standing still on the spot.

Xi Bei's reaction was the fastest, and he rushed in the direction MO Xiu had flown out.

In the past, he had felt that Moxiu was the inheritance of Wu Shang and Elder Tang's lineage and must be preserved. Now, Xi Bei completely understood that Moxiu was truly the hope of all mankind.

It wasn't an exaggeration to say that MO Xiu had single-handedly turned the tables in this battle.

As long as Moxiu was still alive, humanity's chances of victory would be even greater.

In addition, the Bei, Rong, and Cha family heads did not move from their original positions, still surrounding the ape king.

Blood seeped out from the corner of the ape king's mouth as he looked in the direction where Moxiu had flown.

The thing that the ape king was most worried about now was whether or not Moxiu was dead.

The three clan heads did not act rashly. The ape king and Elder Tang had been rivals for many years. They were very clear about how powerful the ape king was.

Although the ape king was injured now, he still had the strength to fight if he erupted with his full strength.

Seeing that the Ape King's gaze was fixed on Moxiu, the three clan heads followed suit.

The atmosphere in the stadium suddenly became very strange. Everyone was paying attention to Moxiu, as if Moxiu could influence the outcome of this battle.

In reality, even if Moxiu did not die, he would be severely injured. It was impossible for him to affect the battle between the four clan heads and the ape king.

Xi Bei's speed was very fast, and he caught MO Xiu, who was still flying

Dackwaras.

He protected MO Xiu and placed him on the ground.

Moxiu's eyes narrowed. He looked like he was in great pain. There was a deep depression in his chest, and his arms were at a strange angle. It was obvious that his bones had been shattered, and his arms were crippled.

"MO Xiu, how are you?" Xi Bei asked nervously. Can you hold on?"

MO Xu forced a smile and said, "I'm fine. If possible, don't let the ape king leave. Go and deal with the ape king!"

"Then you..."

Before Xi Bei could finish his words, he felt a murderous aura behind him. He hurriedly turned around. Yuan Wan was charging over.

He looked at the other three clan heads who were following the ape king. It seemed like they had failed to stop the ape king.

The ape king gritted his teeth. His injuries did not look light either, but his gaze at Moxiu was filled with determination. It seemed that he had to kill Moxiu today.

Xi Bei was in his best condition at this moment, blocking the ape king's attack with all his might.

However, Xi Bei was more worried about MO Xiu. If he was not careful, the ape king would attack MO Xiu.

In Moxiu's current state, even a god wouldn't be able to save him if he were to take another hit.

Moxiu smiled and looked at the ape king.””Ape King, you can’t kill me today. If you can survive, that would be the best outcome.”

“Shameless boasting!” the ape king said angrily. You must die today!” Xi Bei was anxious. MO Xiu was still provoking him at this time.

MO Xiu saw the panic in Xi Bei’s moves and said,””Uncle Xi, don’t worry. My rescue has arrived. I’ll still say the same thing. If it’s possible, leave the ape king behind!”

As soon as MO Xiu finished speaking, a figure appeared in front of him.

Mu Qingyi dared to come. Mu Qingyi, who had been hiding at the back, saw that the situation was not good and immediately rushed over. When she saw MO Xiu’s appearance, her heart ached.

He hurriedly grabbed MO Xiu’s hand and was about to teleport away. However, when he grabbed MO Xiu’s hand, he felt that MO Xiu’s hand was extremely soft, and his bones were shattered.

He immediately changed his posture and helped MO Xiu sit up. He then placed his hand on MO Xiu’s shoulder and teleported.

The ape king was heavily injured and his combat strength was not as good as before. He was delayed by Xi Bei and was unable to attack MO Xiu.

Seeing Moxiu teleport away, he was filled with hatred. Moxiu’s survival was still a threat to the Western Regions.

This time, the surprise attack that they had originally thought would bring heavy damage to the central region had completely failed. Not only had it not injured the central region, but it had also allowed Moxiu to turn the tables. Now, even Moxiu had not been killed, and the ape king himself was heavily injured.

MO Xiu teleported away, but he couldn’t catch him.

The ape king's gaze turned to the wild beast army. It was already in chaos. The human army had long since retreated, leaving only the wild beasts fighting each other.

Even if the ape king was extremely furious and helpless, he could not stay any longer. If he stayed any longer, not only would it exhaust the beast army, but he might also die here.

The ape king had experienced countless wars of all sizes in his life. He had even fought with Supreme, but he had never been in such a sorry state.

All of this was because of MO Xiu!

The ape king could not drag this out any longer. With a wave of his arms, he forced the four clan heads to retreat and jumped out of the encirclement.

The four clan heads were all shocked. The ape king could still have such explosive power at this point in the battle. The endurance of a beast king was not just for show.

After the ape king landed, he gritted his teeth and said, "Everyone, retreat!"

The killing within the Beast Army had already reached its peak, and their eyes were red from killing.

Only a small portion of the wild beasts stopped when they heard the ape king's words. Most of the wild beasts were still fighting.

The ape king was extremely furious. He moved to the center of the army's battle and without any explanation, he killed a group of wild beasts without distinguishing between friend and foe. He roared again, "Retreat!"

This time, all the wild beasts stopped fighting and no longer killed each other. They began to retreat with the ape king!

The ape king felt a lot of unwillingness in his heart, but fortunately, he managed to stop the losses in time.

However, not long after he ran out, a voice came from behind him.

The ape king was very familiar with this voice. It was a voice that made him feel very bone-deep, like that of a demon.

It was MO Xiu's voice. This brat still dared to come out???

"Everyone, listen up! Chase after him!"

Moxiu's order was beyond everyone's expectations. The Ape King! Xi Bei! The Beast Army and the Central Alliance.

The ape king thought that it was impossible for the humans to chase after them anymore. After all, there were many human casualties in this battle.

As for the four clan heads led by Xi Bei, they had a psychological hint from the beginning of the battle.

Wild beasts were very powerful. In a battle between humans and wild beasts, as long as they could defend their territory, it would be considered victory.

The current situation was the same. Xi Beigang didn't think that the central region would be able to defend against this wave of wild beast attacks.

Being able to chase the wild beast back was already something worth celebrating. He did not think of chasing after it, and he did not think of chasing after the wild beast to kill it.

This was the mindset of the weak. Even if they were unyielding, they would never think of counterattacking.

With Xi Bei as the leader, almost all the people from the central region had the same thoughts. Of course, Tang Wanhua was not included.

MO Xiu had seen Tang Wanhua's ambition and bold words in the illusion.

Perhaps it was because the main force had lived a comfortable life since they were young and could not jump out of the mindset of the weak.

They couldn't, but MO Xiu could!

Moxiu helped them jump out of this train of thought and use the perspective of an expert to think about the problem.

MO Xiu shouted, but no one moved.

No matter how amazing MO Xiu was, the commander was Xi Bei. Xi Bei reacted for a second and said the exact same thing as MO Xiu.

"Chase after him!"

Only one word ignited everyone's emotions.

Everyone present knew what this word meant.. It meant that humans were no longer afraid of wild beasts and could also fight back!

Chapter 555: I Will Take Your Life While You Are Sick!\_1

The humans 'morale soared as they charged forward, ready to kill the wild beasts.

The beast army began to panic. The humans began to counterattack. This order was given by Moxiu.

Every wild beast in the army that had followed the ape king all the way here had their own considerations.

Recently, Moxiu's name had been mentioned many times. Everyone was not blind. They could tell from the ape king's performance just now.

All of this was what Moxiu had said. It was all because of Moxiu that the imposing assault army had become like this.

Wild beasts were wild, and there was something in their bones that they feared, such as the suppression of their bloodline. At this moment, Moxiu gave them such a feeling.

Moxiu could do anything. Moxiu was the natural enemy of wild beasts.

At this moment, the ape king was the most uncomfortable. When the humans caught up, they couldn't possibly bring their army back halfway to fight, right?

If that was the case, their momentum would be weaker, and they would be easily defeated.

However, if the shell humans chased after him and ran back, the wild beasts of the Western Regions might not laugh at the ape king. Not only would they lose their title as king, but it would also cause the already chaotic Western Regions to become even more chaotic.

After weighing the pros and cons, the ape king would definitely run. He could talk about future problems in the future. He couldn't possibly lose his life here for the sake of face, right?

At the thought of this, the ape king killed MO Xiu several times in his heart.

MO Xiu was truly ruthless. He had forced the wild beast into such a state, yet he still did not let go. He was prepared to exterminate him. Moxiu's method perfectly reflected one sentence.

I'll take your life while you're sick!

It had to be said that the speed of the beast army was very fast. At first, the humans could not catch up, but after a while, they began to climb the mountain. After crossing the hill, they reached the rugged road.

The speed of the beast army immediately decreased.

The human army had caught up with them. They first launched a round of long-range attacks against the wild beasts on the hill, causing a certain degree of damage to the wild beast army.

The ape king's response was very decisive. Even if he was hit, he did not stop for a moment to escape, seizing the time to reclaim the Western Regions.

The leader of the humans, Moxiu, and the four family heads chased after them.

"MO Xiu, did you come by yourself this time?" Xi Bei asked. You didn't bring any reinforcements?"

In less than half an hour, Moxiu's severe injuries had already healed by more than half.

Xi Bei was surprised, but this was MO Xiu's secret, so he didn't ask.

At this moment, MO Xiu was sitting on the divine sword and walking side by side with the four clan heads. The external injuries on his hands and chest had all recovered, but there should still be some internal injuries. However, it did not seem to be a big problem.

'The only team I can mobilize is the 'big' family," Moxiu said." They came with me and will arrive shortly.'"

Xi Bei was delighted. Although the Xi family was the strongest warrior family, in terms of actual combat ability and endurance, no one in the entire royal family could compare to the 'big' family. With the support of the four War God's Descent skills, they were simply a super army.

Upon hearing MO Xiu's words, Xi Bei's view of MO Xiu changed once again. The big 'family' only listened to the orders of the Elder of Heavenly Secrets. Now that they were following MO Xiu, it also meant that the Elder of Heavenly Secrets acknowledged MO Xiu's strength.

However, on second thought, it made sense. MO Xiu was able to play such a big role in this battle. How could the Elder of Heavenly Secrets not know about his divine foresight?

MO Xiu sat on the Holy Sword and no longer spoke. He seemed to be fully recovering from his injuries.

The human army gradually caught up with the wild beasts, and both sides had a small battle.

However, the ape king was not in the mood to continue fighting. The battle ended as soon as it began. Sometimes, the ape king would even abandon a portion of his men to bring up the rear, buying time for the main group to escape.

Xi Bei felt that the wild beasts were very cruel. They were their own kind, and the ape king had abandoned them without the slightest bit of sympathy.

Moxiu, on the other hand, was no longer surprised. He had been to the Western Region and the Northern Region, and wild beasts were inherently murderous and cruel.

However, if one were to compare them, one would realize that the bear clan and the turtle clan of the northern region were more humane than the fox clan and the ape clan of the western region.

At the very least, the bear clan and the Turtle clan were more humane towards the wild beasts within their clans and did not kill their own kind.

Let's take the simplest example. The conflict between the two clans in the North Region was essentially a threat to their clansmen. The two beast kings kept fighting to protect their clansmen.

It was the same for the recent battles. The Turtle clan knew that it would be very difficult to defeat the bear clan without a beast king, so why did they fight the bear clan head-on?

It was because the bear king had killed the turtle king that the bear king had to take revenge. These two races were cruel to other races, but there was still friendship within their own race.

The Fox Tribe was different from the Ape Tribe. When MO Li was discovered, 70% of the Ape Tribe's Field Commanders took the opportunity to rebel. The other Commanders and Great Commanders turned a blind eye and immediately obeyed the new City Lord.

The wild beasts of the Western Regions had no feelings or bottom line. They were purely egoistic.

In today's situation, even if the Ape King had left all the wild beasts behind to save his own life, Moxiu would not have found it strange.

The chase continued.

What happened that day was very strange. In the beginning, the ape king led the beast army to chase after Xi Bei, all the way to the city wall.

The current situation was exactly the opposite. Xi Bei had led the human army to chase after the ape king all the way and had now reached the border between wild beasts and humans.

"MO Xiu, are we still chasing?" Xi Bei turned his head and asked."

"Why not?" asked MO Xiu. The Western Regions are in chaos now and have no time to care about us. They won't send troops to support the Ape King either." Xi Bei nodded and led the human army into the human territory.

The moment when the large group entered the wild beast territory had a very important memorial significance.

As the battle continued, Moxiu suddenly opened his eyes.

Xi Bei sensed it and asked, "What's wrong?" Has the situation changed?"

Moxiu stood up from the Holy Sword. The Holy Sword split into two groups and circled around the four Clan Heads.

"Mount your swords. Let's meet the ape king at the front."

The family heads did not hesitate. They had also realized that they were now very deep in the Beast Territory. If they went further in, the Fox King might come back to help.

They could handle one beast king, but if another one came, the situation might change again, and the army might run back.

He couldn't follow anymore. He would seize the last chance to attack the ape king again. It was time to leave.

MO Xiu and the four heads of the family, along with the five swords, rushed over the entire beast army and arrived at the most powerful place.

The beasts of the Western Regions had another fatal weakness, which was that they could not fly.

Otherwise, it wouldn't have been so troublesome to attack the central region.

In fact, out of the four regions of wild beasts, only the Southern Region's phoenixes had the ability to fly.

The five of them suddenly appeared in front of the ape king. The ape king ordered the army to stop temporarily.

The ape king did not look at the four clan heads. He stared at Moxiu and said, ""Mo Xiu, you actually dare to appear in front of me. You really aren't afraid of death."

MO Xiu looked a little sloppy and said, "That soundless punch of yours should be your ultimate move. If your ultimate move can't kill me, what should I be afraid of?"

Before the battle between the main characters began, the sounds of battle could be heard from behind..

Chapter 556: Is the Beast King So Naive?

The sounds of battle could be heard from behind, but the main characters of the battlefield had yet to move.

The ape king's gaze swept across everyone's face and said, ""Do you have to make me stay here today?"

"To be precise, we only have the greatest possibility of keeping you here."

The Ape King slowly calmed down. The situation was clear now. It was a battle anyway. He began to carefully size up Moxiu.

"Your injuries have actually recovered?"

"My dear Lord Ape King, didn't you properly understand what kind of enemy you were facing before the war? We have a healing team that can heal injuries quickly."

Moxiu smiled very smugly. This was a blow to the ape king's confidence.

Compared to humans, wild beasts were stronger in terms of physical fitness and endurance. However, due to their single skill, they were rarely able to cooperate.

Most of them were melee attacks, but humans were different. Humans were divided into five classes: Warrior, Assassin, Mage, Esper, and Support.

If one were to subdivide the skills, there would be countless types.

This also allowed Moxiu to have more troops and all kinds of coordination methods.

Warriors usually had healers in their teams, which greatly increased their ability to fight for a long time.

Assassin teams were equipped with recon soldiers to make ambushes and surprise attacks more efficient.

Mages were equipped with special support classes that increased the power of their skills or the cooldown they saw. They could maximize the power of their skills.

This was the advantage of humans, but it was also something that humans had always ignored.

Although there was a team competition during the school stage, everyone was trained to rely on their teammates to defeat the impossible team.

However, there were still too few of them and they did not pay enough attention to them. Only after entering the army would they receive professional training. Even the law enforcement team and the royal family could not do so.

Moxiu's next step was to introduce the battle tactics of the army's professional phalanxes into the entire human army.

From the chase along the way, Xi Bei had clearly realized this point. He was doing experiments and related training, but he had yet to mature.

Back to the main topic.

When the ape king heard Moxiu's words, he became unprecedentedly solemn. Yes, humans had many weaknesses compared to wild beasts.

However, these weaknesses were not completely irreparable. They could be reduced through training and some other methods.

That was what the ape king thought, but he couldn't say it out loud. The ape king said, "'Mo Xiu, no matter how well your injuries have healed, you must die today!"

Since he had already said so much, Moxiu did not want to waste any more time. They were now in the deeper parts of the Western Regions. Who knew if the Ape King had used a special method to request the Fox King's rescue?

MO Xiu opened his right hand and aimed it at the ape king. The ape king saw MO Xiu's hand gesture and immediately understood. It immediately accelerated and escaped from MO Xiu's lock.

Moxiu's attempt to release the Void Destruction spell failed. He activated his full body and summoned his clone, MO Li. MO Li's appearance was the same as his.

In a battle, it was best to look the same as oneself, so as to confuse the opponent.

Moxiu no longer hid his strength.

There were two reasons. The enemy they were facing now was the ape king, an existence stronger than all their previous opponents. They could not hold back at all.

The second point was the change in Moxiu's mentality. In the past, Moxiu had always wanted to hide his skills. When he fought against wild beasts, the more trump cards he had, the higher his chances of winning.

This was not a wrong idea, but that was when he was facing an opponent who could hide his strength. He could not do it now.

After Moxiu came out of seclusion and decided to go to the north first, his mentality underwent a huge change.

From the mindset of a weakling to the mindset of a powerhouse.

Moxiu had always been very confident, but that didn't stop him from having the mentality of a weakling. He was always on guard, especially when his reputation didn't match his strength.

Now, things were different. Moxiu had to face himself and put down the reputation that didn't belong to him. He had to start anew with his own strength and put down all the burdens.

The current Moxiu was the strongest in any sense.

Moxiu summoned his clone again. The ape king looked at Moxiu's clone thoughtfully.

He had never heard of Moxiu having a Doppelganger Skill before, and it didn't seem like a skill that had just awakened. Then why did Moxiu hide this skill? What did he do to the beast?

The four clan heads saw Moxiu's actions and followed him into battle mode.

The ape king looked at the five people in front of him and took a step forward to arrive in front of Moxiu, wanting to strike first!

Even if he was injured, he would make sure that MO Xiu stayed in the Western Regions forever.

This was not the time. Previously, when MO Xio was injured, he had received the Ape King's attack in order to block the Ape King.

He didn't have to face the attack now. He could use his body's flexibility to dodge the attack.

Furthermore, the Ape King was currently injured, while Moxiu was in his peak condition.

However, even though the ape king was injured, he was still the fastest among them.

With this step, he crossed the distance between him and MO Xiu and arrived in front of him.

A punch was thrown. It was not the soundless punch. MO Xiu was slightly relieved. However, this was, after all, a punch from the ape king, so the power was definitely not small.

Out of caution, MO Xiu did not receive this punch.

He dodged to the left and was about to dodge.

The moment Moxiu dodged, a strange smile appeared on the ape king's face. The wind in his punches changed and he continued to attack Moxiu. He also threw another punch, sealing off Moxiu's escape route.

The ape king's attack speed was too fast. Moxiu could not dodge this time, and two fists landed solidly on Moxiu's body.

The ape king stood up straight and smiled smugly. A voice came from behind him." Ape king! Isn't it too early for you to be smug?

The ape king suddenly turned around and discovered that the other MO Xiu was behind him, stabbing over with his holy sword!

The speed of the sword was extremely fast, directly stabbing towards the ape king's head.

Unable to dodge in time, the ape king grabbed the Holy Sword with his right hand.

Moxiu exclaimed in admiration. The Ape King's strength was too astonishing. He could actually hold the Saint Sword with his bare hands. The Saint Sword had unleashed a single slash, yet it was caught so easily.

Moxiu had already seen the Ape King and Fox King's skills with his God's Authority.

The Fox King was no different from ordinary foxes and apes. It was a pure Seductive Fox. The description of its skills was the same, but the number of people it could control and the degree of control was unknown.

The ape king was a little stronger, and even the percentage of increase was unknown. The ape king was not a simple strong ape, but more like a hybrid of a strong ape and a thin ape.

It had both the strength of a strong ape and the explosive power of a thin ape.

Without a specific number, it was very difficult for Moxiu to estimate the Ape King's actual strength. Therefore, he had to probe more during the battle.

God's Authority was not omnipotent. It was difficult to estimate the strength of an existence at the level of a Beast King. Moreover, the Ape King was a passive skill and could not be silenced.

The ape king gripped the holy sword tightly, wanting to drag Moxiu over.

Moxiu's reaction was very fast. He immediately gave up on the Holy Sword and retreated. Then, he directly used his sword, and the Holy Sword would be in his hand.

The ape king looked at Moxiu in confusion and said, "The clone I just attacked? But I clearly saw that it was the original body of the talent." "Is the Beast King also so naive?" asked MO Xiu with a smile..

Chapter 557: Slaying the Ape King

“Are Beast Kings also so naive? What the eyes see must be true? Hahaha!”

Moxiu’s laughter further infuriated the ape king. The ape king was about to continue attacking Moxiu when Xi Bei appeared and stopped him.

The ape king was furious and did not want to tangle with Xi Bei. He forced Xi Bei back with a punch and continued to move forward.

He had just taken a step when a gust of wind blew past in front of him, leaving a bloody mark in front of the ape king.

The ape king had fought with the four great patriarchs before and knew that this was the main branch of the Rong family. The Rong family was the strongest assassin, and their innate skill could make them completely invisible. There was no smell or aura, which made the ape king very distressed.

As he walked forward, a huge wall appeared and blocked the ape king. It was a defensive skill released by the Cha family’s head, blocking the ape king.

‘Ape King, it won’t be that easy for you to kill me,’ Moxiu said.” We have five people. No! Including my clone, there are a total of six people.”

The ape king was furious. Right now, he only wanted to kill MO Xiu.

Suddenly, a blood-red aura erupted from the body of Wish, and its body doubled in size.

He stood on the spot and punched out. This punch was the silent punch. It looked the same, but it also seemed different.

This punch didn’t have any sense of space, and it was so far away from Moxiu. When the fist came out, it directly shattered the huge wall in front of him. It looked like it was about to land in front of Moxiu.

Moxiu wanted to move, but he was restrained by something invisible. He couldn't even move his fingers, let alone run.

It seemed like this was the Ape King's final killing move. If such a sure-kill move landed on MO Xiu, he would definitely die.

The four clan heads did not dare to block this punch for Moxiu. The only thing they could do was to attack the ape king's body in an attempt to affect him.

The ape king's gaze was extremely determined. Killing Moxiu was his first goal, ignoring the attacks of the four clan heads.

The attacks of the four clan heads had caused some damage to the ape king, but it was not to the extent of serious injury.

The fist slowly landed on Moxiu's body. This time, Moxiu was completely locked onto, and he couldn't even release his skills.

The fist fell and his body disappeared.

The fist landed on Moxiu, and his body shattered in a slow motion. He turned into powder and dissipated in the air.

Xi Bei shouted, "Mo Xiu!!!"

The four clan heads all clenched their fists tightly. Moxiu had died just like that. Moxiu could not die. This was too important to the central continent.

The ape king stood where he was and took a deep breath, then exhaled in various ways. He had finally been able to vent his pent-up emotions after such a long time.

Then, he started laughing wildly.

“Hahaha! Hahahaha! MO Xiu, weren’t you arrogant? You’re finally dead! Our Western Region will definitely flatten the human central region. Unfortunately, you won’t be able to see it...”

“Puchi! ”

Before the ape king could finish his sentence, a sword pierced through his chest, and blood sprayed all over the ground.

The ape king reacted quickly. He took a step forward and pulled the sword out of his body. He immediately turned around and looked behind him.

When he saw the scene behind him, the ape king could not help but spit out a mouthful of blood.

It was MO Xiu!

Moxiu was holding the Holy Sword and wiping the blood from the corner of his mouth as he smiled at the ape king.

“Ape King, did I say you were naive?”

When the ape king saw MO Xiu, he understood that he had been deceived by MO Xiu.

In fact, Moxiu’s original body was the one that had been struck in the beginning. The clone had come out with the Holy Sword and said that it was the original body.

When the ape king saw that his clone was holding the holy sword and could use it freely, he treated it as his main body, which was why he had just used his killing move.

He had thought that he had killed MO Xiu, but he hadn’t expected it to be a clone.

The ape king gritted his teeth and said, "Mo Xiu!!! You were forced to be shameless!"

MO Xiu put away his Holy Sword and cupped his fists."

The ape king spat out another mouthful of blood. He staggered two steps back and sat on the ground, no longer having the demeanor he had just now.

Moxiu had a little trick up his sleeve. He hadn't thought of using such a tactic from the start,

However, he did not expect that the ape king hated him to the bone and wanted to kill him the moment he came up.

In the two moves he had exchanged with the ape king, the ape king's fist was too fast. Moxiu could not dodge in time at all. After being hit, he slapped the ape king to finish off the attack. At first, he wanted to use his clone to attract the ape king's attention.

Later on, when he saw that the ape king seemed to have determined that the clone was the main body, Moxiu thought of this move to beat him at his own game.

The ape king had been injured by the attacks of the four clan heads when he had used his trump card. In addition to his previous injuries, he had been too pleased with himself after killing Moxiu.

Only when the ape king's defense was lowered to the lowest level could Moxiu take advantage of it and stab his sword into the ape king's chest.

Even if it was the ape king's body, the penetrating wound on his chest was still fatal.

If the ape king could recuperate in peace at this time, there was still hope for him to survive.

But now that he was surrounded by MO Xiu and the others, there was no hope.

“Ape King, have you resigned yourself to your fate?”

The ape king smiled and forced himself to stand up. He shouted with all his might, “Listen up! Kill these five people!”

Moxiu’s eyes narrowed. Was he prepared to throw all the wild beasts down as a scapegoat?

The wild beasts were fighting with the humans. When the people in front heard the Beast King’s order, they immediately rushed over and surrounded the five of them.

“Ape King, you know that you won’t be able to survive even if you do this,” said

Moxiu.”

The Ape King didn’t say that he had ordered the Beast to attack the five people. He pushed out the herd and wanted to escape.

MO Xiu flew over on his Holy Sword and said, “Uncle Xi, I’ll teach you guys this place. You guys hold on for a while, I’ll go kill the ape king!”

Xi Bei said, “Don’t worry. You don’t have to worry about this. As long as we can kill the ape king, we will win this battle.”

Moxiu nodded in the air and flew away.

In the process of chasing after the ape king, Moxiu was deeply impressed by the ape king’s strength. He was still able to move at such a fast speed despite suffering a fatal injury.

Moxiu was only able to catch up to him at full speed. The ape king ultimately lost his stamina and fell.

He fell to the ground and breathed heavily. He looked at Moxiu with a ferocious expression.

Moxiu landed on the ground and walked towards the ape king step by step.” Ape king, you are a beast king. The territory of your wild beasts is enough to live on. Why do you want to start a war?”

The ape king tried his best to calm his breathing and asked,””Why did the emperors of ancient humans expand outward? Because...I

entire continent!”

Moxiu shook his head.”

The ape king laughed out loud.” Kid, don’t think that you’re so powerful. You’re just a little more scheming. I had old injuries that hadn’t healed before I went to the battlefield. Otherwise, you wouldn’t have survived!”

Moxiu approached the ape king and squatted down.

“How many humans have you killed in your life?”

The ape king said disdainfully, “Maybe it’s as many animals as you killed before.””

MO Xiu didn’t want to talk to the Ape King anymore. He stood up and held his Holy Sword, ready to give the Ape King a quick death.

“Moxiu, we meet again!”

Moxiu looked ahead warily. Two figures appeared in front of him.

Moxiu was no stranger to these two people. He immediately became vigilant and retreated several steps.

It was the Fox King and the dragon!

The ape king's injuries were already like this. Even if he did not die, he would be crippled. He absolutely could not lose his life just to kill the ape king..

## Chapter 558: New Beast King

The Fox King didn't have any actual combat strength, but his charm could take a person's life. MO Xiu had to be extremely vigilant.

There was also the Dragon by the Fox King's side. Logically speaking, the Dragon hadn't reached the level of a Beast King yet, so its skills could be accurately checked. However, when Moxiu used his God's Authority, it showed that the Dragon had many skills. All the skills of the Strong Ape, Skinny Ape, Seductive Fox, and Magic Fox, but the exact power was not shown.

This was very strange. Could it be that the dragon's strength had already reached the level of a beast king?

When the Ape King saw the Fox King, he laughed out loud." Hahaha, MO Xiu, the heavens won't kill me. Let's see who's going to die this time."

Moxiu slowly distanced himself from them, preparing to escape while they slept.

The ape king said to the fox king and the dragon," Fox, help me up. Dragon, go and kill MO Xiu. I'll see him die with my own eyes.""

After the ape king finished speaking, the fox king and the dragon did not move. They just looked at the ape king quietly.

Moxiu realized that something was wrong and temporarily stopped his retreat.

The ape king's eyes flickered as he looked at the fox king and said, ""Fox, what are you doing? Didn't you hear what I said?"

"I heard it!" The Fox King replied coldly."

These three words pierced straight into the ape king's heart. They were even more ruthless than Moxiu's sword strike, and there was not the slightest bit of affection between husband and wife.

The ape king propped his body with both hands and looked warily at the fox king and the dragon.

"What are you two here for?"

This time, the Fox King did not speak. The Dragon said, "" You're really useless. You can't even do this kind of thing well. You've let the humans fight their way to the west.""

"What can I do?" the ape king shouted angrily. Everything is decided by Fox and me. Why don't you ask her what's going on? I can't stop this!"

It was unknown if the dragon had heard the ape king's words, but it slowly walked toward the ape king.

The ape king seemed to have predicted what was going to happen next and could no longer remain calm. He said anxiously to the fox king, "Fox! What did the dragon want to do? Hurry up and say something!"

The dragon walked up to the ape king and stopped, saying, ""It seems like you still don't understand. Regardless of whether you lose or not today, regardless of whether the wild beasts will defeat humans or not, your final outcome will be death. It's just that you will die a little earlier."

The ape king's entire body began to tremble. It was unknown whether it was fear of death or anger.

The ape king still did not speak to the dragon. He turned his head to look at the fox king and said, "Fox, is what he said true?"

The Fox King Restaurant owner smiled. She was supposed to be charming, but this smile didn't have a hint of charm, only endless coldness.

"Ape! There could only be one king on this continent, and there could only be one noble race. This king would be the dragon, and this race would be the fox!"

The ape king understood everything. Back then, the gap between the fox clan and the ape clan was very large. It was the fox king's step-by-step plan that led to the current situation. The fox clan's power was on par with the ape clan, and a full-blooded dragon king appeared.

The ape king was no longer needed in the Western Regions. Or rather, when the Fox King and the ape king were together a hundred years ago, they had already planned to eliminate the ape king.

The ape king did not say anything else. He looked at the two people in front of him silently. One was his wife, and the other was his son. The two of them, MO Xiu, wanted him dead. What a joke.

The ape king suddenly turned around and said to Moxiu, ""Mo Xiu, this is what I deserve. I wish you the best of luck in razing the Western Regions. Hahaha..."

"Swish!"

The dragon's right hand stretched out like a knife and slashed across the ape king's neck.

His head fell to the ground, without any signs of life.

Everything happened so fast that even MO Xiu found it unbelievable.

The Fox King and the Dragon had not come to save the Ape King, but to kill him.

This ever-changing plot made Moxiu unable to react in time. The ape king was dead, and the fox king and dragon were probably going to deal with him next. Just as he was about to turn around and leave, he saw a magical scene.

The dragon suddenly fell to the ground in pain and cried out loudly.

The Fox King looked at the dragon excitedly and muttered, "It's here! He was here! So fast!"

What was coming? MO Xiu was puzzled.

After some simple thought, Moxiu understood that it was the Eight Kings Rule!

There were a total of eight races in the four regions of wild beasts, and each race could only have eight kings.

Unless one race went extinct, there would be a second king for another race.

The snake clan and the Turtle clan did not have any beast kings, but they were not extinct. There was still a chance for new beast kings to appear.

As for the races with Beast Kings, they would suppress their own races. There would not be a new king during the reign of the old king.

It was different if the ape king died. The ape tribe would no longer have a Beast King. If there was an ape tribe member whose strength met the requirements to become a Beast King, he would immediately become a Beast King.

The current dragon was transforming from an ordinary wild beast to a king of beasts.

Once it succeeded, the dragon's strength would advance further, perhaps becoming an existence even stronger than the ape king.

MO Xiu, who was about to leave, had the intention to kill.

Dragons were too much of a threat to humans. They could not allow dragons to successfully transform into beast kings.

MO Xiu charged forward with his sword. The Fox King looked at MO Xiu warily. "Little brother, don't disturb others. What if I play with you?"

The Fox King's words were a great deterrent to Moxiu. Coupled with the Fox King's charming expression and actions, Moxiu actually stood rooted to the ground.

Moxiu forced himself to maintain his consciousness and used the Holy Sword to cut open his left hand.

He raised his head and glared fiercely at the Fox King.

The Fox King chuckled. His clothes were half-undone, revealing a large patch of snow white. This was a huge blow to MO Xiu.

"Are you here to play? Don't be so polite with me!"

It had to be said that the Fox King's Charm had been trained to the extreme. Such a simple action had made Moxiu lose his fighting spirit. Now, he was only relying on his willpower to hold on.

Moxiu wanted to beat her at her own game by getting close to the Fox King and stabbing her, but in his current state, he didn't dare.

He really didn't dare to. He was afraid that he would lose himself if he got close to the Fox King. Once he was controlled, his life wouldn't be a problem anymore.

Just as Moxiu was struggling, the Fox King's unique purple gas was slowly approaching Moxiu.

MO Xiu moved to the side to avoid the gas and said, "You still dare to call yourself sister? You're a few generations older than my grandmother, right?" The Fox King looked at MO Xiu in disbelief. "You can actually resist my charm?"

Moxiu didn't waste any more time with the Fox King to prevent him from playing any tricks. He held his sword and walked towards the dragon.

How could the Fox King let Moxiu injure the dragon so easily? He used the purple gas to block Moxiu's path.

MO Xiu wanted to go around it, but the Fox King suddenly appeared in the purple gas. It turned out that the Fox King could use the purple gas to teleport.

MO Xiu stabbed his sword at the Fox King. The Fox King's body gradually turned blurry and turned into a ball of purple qi that fused with the original purple qi.

What was going on?

While MO Xiu was still thinking, the purple qi dissipated.

The dragon and fox king behind the purple gas had disappeared.

Looking into the distance, the Fox King had already run far away with the dragon in his arms.

Had he fallen for it?

It was clearly just an instant earlier.. How did the two of them run so far away?

Chapter 559: Becoming Famous in One Battle

When the Fox King and the dragon disappeared from Moxiu's sight.

A voice suddenly entered their ears.

It was the Fox King's voice, and it was filled with endless temptation.

"Brat MO Xiu, you really don't want to try it out with big sister? I really want to try it out with you. I want to try what the top man of mankind tastes like! I won't play with you this time. See you next time. That's right! We won't take the credit for killing the ape from you."

This voice that made people feel extremely numb after hearing it echoed in Moxiu's alarm clock many times. It was like a seed in Moxiu's mind.

It was only when the sound had completely dissipated that MO Xiu turned around and left.

To humans, the Fox King was even more terrifying than the Ape King, and there was also a new Beast King, the Dragon!

The purpose of the Fox King and the Dragon's visit this time was very obvious. They wanted to confirm the death of the Ape King. In order to prevent Moxiu from being unable to kill the Ape King, the Dragon had taken action personally.

In this way, the dragon became the new king of beasts.

It was unknown whether this outcome was good or bad for the world of beasts, but it was definitely not a good thing for humans.

After expending so much effort to kill the ape king, a new beast king immediately appeared.

When Moxiu rushed back to the battlefield, the battle had already ended.

Most of the beast army had been killed, and the remaining ones had surrendered.

It should not have ended so quickly, because the ape king had abandoned the army and left alone.

The wild beasts knew that they were doomed, so their fighting spirit was not as strong.

Also, the second batch of reinforcements and the 'big' family had arrived.

The two sides were originally evenly matched, but with the addition of the humans, the balance was broken, and the wild beasts were quickly defeated.

At this moment, they were cleaning up the battlefield, preparing to return victorious.

When MO Xiu returned, Xi Bei and Big Cat saw him at the same time. The two of them had been looking forward to it for a long time.

Moxiu put away his Holy Sword and landed on the ground. The two of them ran over together.

"MO Xiu, how is it?" Xi Bei was the first to speak. Is the ape king dead?"

MO Xiu nodded. Xi Bei and Big Cat were a little excited when they saw this, secretly clenching their fists.

However, when he turned around, he saw that Moxiu's expression wasn't right. He didn't seem that excited.

Big Cat asked," Moxiu, you're too amazing this time. Not only did you get rid of the wild beasts 'surprise attack, but you also killed a Beast King in one fell swoop. What are you unhappy about?'"

"It's hard to say whether the ape king's death is a blessing or a curse. Although the ape king is dead, but..." Moxiu sighed.

Moxiu told the two of them what had just happened. The two of them were the pillars of the central region, so there was no need to hide anything.

The two of them fell silent at the same time. According to Moxiu, although the Ape King had died, a new Beast King had appeared in the Western Regions.

Big Cat stared at him and said, "Wait! Moxiu, are you saying that the ape king's wife and child killed the ape king with their own hands in order to make their child a beast king? Oh my god, wild beasts really have no bottom line."

Moxiu nodded and said, "That's right. That's what happened. When I was playing chess with the Fox King just now, I almost fell for her trick. I tried my best to guard my mind and not let myself be controlled by the Fox King.

However, I must have fallen into some kind of environment that allowed the Fox King to escape."

Xi Bei looked at MO Xiu and said seriously, "Moxiu, you shouldn't have taken the risk to charge forward. The dragon becoming a beast king is indeed a great threat to us, but humans can't do without you either. If you were to be controlled by the Fox King, the consequences would be unimaginable."

MO Xiu nodded. He had thought that he could handle it, but now that he thought about it, he had unknowingly fallen for it. He was a little afraid.

"Yes, but Rong Bang is not completely out of control yet," Big Cat said. "This Fox King is so strong. Do we have a way to deal with her?"

Xi Bei thought for a moment and said, "I've read some records. The fox clan used to be dominated by seductive foxes, and they had a huge impact on humans during wars. Therefore, whether it was Supreme or some other mighty figures, when they fought wild beasts, the first thing they had to do was to eliminate the fox clan. Supreme had killed many fox kings, and it was said that the method of killing them was instant kill."

"Instant kill?" asked MO Xiu.

"That's right. It's to kill the Fox King instantly before he can make a move."

Moxiu nodded and said, "It seems like this is the only way. When the Ape King was with the Fox King, he also thought that he could control the Fox King. Now, it seems that he was led by the nose every time."

Big Cat took a look. The battlefield was almost cleaned up. It was time to retreat.

"Let's go back first. Don't wait until the dragon becomes the king of beasts before coming back."

Moxiu said confidently, "Don't worry, Beast doesn't have the time to care about us. The internal situation is in chaos. If they can't handle the matters in the north, the Western Regions will become a tiger."

In fact, other than retreating, Moxiu had another idea in mind. Everyone would charge into Fox City in one go and kill the Fox King and Long Zhijie.

This was the best opportunity. The wild beasts were in a mess and could not mobilize much power.

If it was just the Fox King and the dragon, as well as a small number of wild beast armies, it was really possible to succeed.

However, there were too many uncertainties in doing so. Firstly, the Fox King's full power and range of charm were unknown. Secondly, the strength of the dragon as the new Beast King was unknown.

Moxiu would lead everyone to Fox City and kill the two Beast Kings, but by then, the Western Regions would be completely crippled.

However, the casualties would definitely not be few, and there would be a lot of power at any time.

This temporarily formed army was a large part of the central region's power.

The imperial clan had four clan leaders and the 'big' clan, as well as the imperial clan and the military law enforcement team sent by each city.

After losing so much power, even if the Western Regions were crippled, the central region would also be crippled. The central region would be unable to withstand a single blow.

One had to know that the enemies of the central region were not only the western region, but also the northern region, the eastern region, and the southern region.

These three regions did not pose a threat to the central continent for the time being, but that did not mean that they could not pose a threat in the future. The Northern Region was in the middle of a civil war. With the Northern Alliance holding them back, they were safe.

The eastern region announced that they would stop, but no one knew what the situation was like in the eastern region and whether they would suddenly attack.

The most dangerous thing was the Southern Mountain Range. The war in the South had been going on for a long time, and the Alliance's South, which was originally the weakest, had not lost even after holding on for so long.

The strength of the Southern Region was not weak at all. It was impossible to predict when the Southern Region would be defeated.

If they were not defeated, the Southern Mountain Range would not hesitate to attack the central region.

Therefore, Moxiu didn't say anything risky about the pros and cons.

As long as there's life, there's hope!

It was not the time to risk their lives yet. It was more important to protect the main force first.

Xi Bei said to MO Xiu, "MO Xiu, it seems like my previous worries were unnecessary. You were able to use your own strength to prove yourself. You've become famous in one battle."

Moxiu shook his head. He didn't care about these things. If he had become famous in one battle, he would have done so during the firearms war..

## Chapter 560: Return, Everything Is Different

The battle was over.

No one had expected such an ending, not even the instigator, MO Xiu.

There were gains and losses, but most of them were gains. Other than the appearance of the Fox King and the dragon, everything else was beneficial to mankind. It could be said that it was an all-round victory.

After resolving the crisis caused by the wild beast's surprise attack, the wild beast would be quiet for a long time after this victory to deal with internal affairs.

The beast army was the absolute main force, accounting for half of all the beast soldiers. In the end, they were all wiped out by the humans, and their vitality was greatly damaged.

The crisis of war had been temporarily resolved. The central continent had never dreamed that peace would be restored so quickly.

On the way back, Mu Qingyi pouted and found MO Xiu.

When MO Xiu saw that Mu Qinglan had found him, he separated from Xi Bei and Big Cat. The two of them were very busy, so they immediately went to deal with other matters.

MO Xiu walked to Mu Qingyi's side and said,""What's wrong? Are you unhappy?

Why?"

Mu Qingyi hit MO Xiu with her fist unhappily and said,""Liar, you said that you brought me to the border to fight alongside you. Why can't I find you when we fight?"

Before entering the Western Region, MO Xiu had deliberately found an excuse to get rid of Mu Qingyi. His motive was naturally to protect her.

However, Mu Qingyi was really furious as she said,""Moxiu, you've gone too far. You brought me here and sent me away."

"Alright then!" MO Xiu said with a smile. I won't bring you along next time!"

'You!"

Three days later.

Time passed very quickly. MO Xiu and Mu Qingyi brought their 'eldest' family back to Yan City.

They were in a rush when they came here, so when they returned, MO Xiu brought a large group of people to Shun City to catch up.

He mainly wanted to see his mother, Li Yuan, his godsister, Ye Qian 'er, and Yue Long.

MO Xiu spent more time with his family and didn't say much. He chatted more with Yue Long and talked about the situation and the things he needed to prepare.

After all this, MO Xiu had already returned to Yan City three days later.

The situation in Yan City slowly returned to normal after MO Xiu finished screening the wild beasts. The city was no longer sealed.

When MO Xiu returned, Yan City had regained some vitality. Of course, the people outside the city needed to observe for a period of time and would not rashly enter Yan City.

Moxiu led the large group through the main entrance and was stunned the moment they entered.

The two sides of the road were filled with people, and there were so many of them that even Moxiu was a little surprised. He immediately ordered the team to slow down and not cause any accidental injuries. He only needed to walk forward and enter the city.

Upon closer inspection, everyone in the team was shocked.

The people of Yan City had already suffered a lot, and now, one-tenth of them had been killed.

But at this moment, the line formed by the people seemed endless. It seemed that all the people in the city had come out.

Moxiu first listened to it, and after confirming with the big cat, he understood the whole story.

During the time that MO Xiu was on the expedition, plus the three days that he had returned.

Something big had happened in Yan City.

Firstly, due to the sudden decrease in population, almost all businesses had stopped operating.

The strongest group was the first to recover. Only on the day of the accident did they temporarily stop the distribution of the medicinal liquid. The next day, the medicinal liquid returned to normal.

This gave the people of the city great confidence and psychological comfort.

It was hard to determine the nature of Moxiu's killing, but the image of the strongest corporation that was deeply rooted in the hearts of the people had been somewhat restored.

Secondly, the law enforcement team helped the citizens of the city to restore order. The effect was obvious.

This law enforcement team had experienced too many things. They had fought with firearms and sealed the city. They had responded quickly and accurately.

Third, Yan City Army's Yang Ze Kun!

Yang Qingzhuo's father used to be very close to MO Xiu. However, after MO Xiu entered the Imperial Family, the two of them gradually lost contact.

However, it didn't mean that their relationship wasn't good. Yang Zekun had probably made the greatest contribution to MO Xiu's heroic image.

On the second day of the incident, the mood of the army wasn't high either. They also had friends and family who had died in this catastrophe.

What Yang Zekun did was very simple. He didn't comfort the soldiers, nor did he speak up for MO Xiu.

He made such a statement in the memories of the entire army.

"Soldiers, you've done an excellent job. Even if you endured all kinds of pain, you've carried out your orders. I believe that someone killed your friend with his own hands, and my heart aches for you.

However, at this critical juncture of the war, we can only trust Moxiu. As for whether Moxiu killed the innocent, I'm not sure either."

As the commander of the Yan City Army, Wei Lingyun knew that Yang Zekun was up to no good. He didn't expose Yang Zekun to his face and closed his eyes.

Following that, the Yan City Army issued an order. All the soldiers were to investigate whether MO Xiu had killed an ordinary person by mistake. Those who found evidence would be rewarded, and they could make it public after justice was done.

The result was...

How could God's authority be wrong? Moxiu didn't kill any of the mixed-bloods. All he killed were wild beasts.

The people were in an uproar, but no one came out to collect evidence to bring down MO Xiu.

These days, the more the soldiers gathered evidence, the more they felt fear. Fear towards Moxiu.

That's right!

It was easy for a wild beast to disguise as a human when it was alive, but after it died, all kinds of evidence appeared. It was not difficult to investigate.

As long as he gave the truth some time, it would be good!

This was also the reason why Moxiu was not in a hurry to explain. It was fine to misunderstand for the time being. The most important thing was to let the people see the truth for themselves.

The results of the investigation were obvious. MO Xiu did not kill anyone wrongly.

These data were quietly made public on the Internet, and the public slowly learned the truth.

Yang Zekun's method was very simple, but the effect was surprisingly good.

If Yang Zekun didn't say these words, the truth would be made public sooner or later, but it would take a little longer.

What Yang Zekun did was only to guide them.

This incident had greatly reversed Moxiu's image in the hearts of the people.

Afterwards, Wei Lingyun found Yang Zekun and asked, ""Not bad, but your method is based on absolute trust in Moxiu. What if Moxiu really killed him by mistake? It will have the opposite effect, right?"

Yang Zekun said indifferently, "I don't know if you've noticed something, but the 'big' family of the royal family came to find us.""

"Of course I know. What does that prove?" Wei Lingyun replied. Moxiu had a good relationship with the 'big' family? Or rather, he had a good relationship with the entire imperial family?"

Yang Zekun shook his head and said, "This has nothing to do with relationships. For such an important matter, the imperial family will not give orders. As far as I know, the 'big' family only listens to one person's orders."

"Who is it?"

"Elder Tianji! "

Fourthly, MO Xiu had passed by Shun City on his way back and had been delayed for some time.

In these three days, the news from the front line was enough to be sent back.

The public still couldn't figure out MO Xiu's serial scheme.

However, it was enough to eliminate all the wild beasts that had attacked and kill one Beast King!
