

## Full-Moon 171

Chapter 171 First And Last Warning

Rex and Adhara came out of the cave with heavy breaths, they manage to get out of the cave without substantial injury.

The black spiders follows them until the end of the cave, but they didn't go out.

It's not that they're afraid of the light,

But their eyes look to the right as their bodies emit a black aura, the horde of black spiders then run back inside hurriedly.

Seeing this, Rex frowns, 'They're scared? But what are they scared off?'

Their fear aura got sensed by Rex thanks to his Bleak Sense, it will notify Rex if any living being felt fear around him.

"What happened to you? Where are those black spiders came from?", Edward asks in confusion, he didn't see any black spiders when he left them.

Kyran is leaning sitting on the ground and lean on a rock, he already felt better now.

Adhara puts her hands on her waist in exhaustion and said, "They come out of nowhere"

"Alright, this cave is filled with black spiders lets check the other one", Rex said before the group finds another cave.

~

Prof. Nolan is currently smoking beside a car, his job here is to supervise the researchers and scientists regarding the canyon.

With the help of Awakened, he didn't scared of anything.

But while he was smoking, a guy approached him from the side casually.

He looks at the guy who approached him casually with a frown, he can instantly smell trouble just by looking at him.

"Prof. Nolan, may I join you for a smoke?", the guy said.

While squinting his eyes, Prof. Nolan takes out a lighter and replied, "Yes"

The guy then takes out his smoke before Prof. Nolan lights it with his lighter, he then leans on the car with a cigarette in hand.

Prof. Nolan looks at him and asks, "What are you doing here? Do you have permission?"

"I'm not here for the canyon don't worry, I just want to ask a few questions if you don't mind", the guy said with an innocent smile.

But then, his smiling expression turns serious, "Is Rex Silverstar here?"

"Who might that be? I don't recall any Rex coming here", Prof. Nolan lied casually.

He's not afraid of the guy in front of him even when the guy in front of him emits his aura, there are many FAA members here and Prof. Nolan is not worried.

Hurting him here would mean death to the guy,

"Please Professor, I didn't bring any ill intent to you", the guy said with a smile.

Prof. Nolan scoffs hearing this, he's not bothered at all by the malicious smile the guy has, "Yes, there's a student named Rex came here"

Hearing this, the guy smiles.

"Is he going to come here again?", the guy asks while smoking.

Prof. Nolan look at the guy and said, "That guy is a dear student of Vargas, I hope you didn't plan on doing something to him"

The guy laughs lightly, he then waves his hands and left with a mysterious smile.

After the guy left, another person approach Prof. Nolan from the back.

If Rex was here, he will recognize the person as Ari the guy who is sent by the Reed Family to protect him.

Rex already told Ari to stay outside of the canyon, he will be looking out for anyone suspicious that might want to enter the canyon.

The matter with the Platchi Family is not finished, and Rex is not foolish enough to let his guard down even the slightest bit.

"Who is that guy? Why is he asking for Rex?", Ari said.

Prof. Nolan looks at the guy's back who is walking away and said, "I saw a tattoo on his hand, it is the black tiger tattoo"

Hearing this, Ari looks at his front while he mumbles, "Black Tiger huh"

He then left Prof. Nolan before he calls someone, "Sir, there's a member of the Black Tiger Guild searching for Rex"

"Yes, it's only one person", Ari replied.

"Alright sir, I will do as you said immediately", After hanging up, Ari turns into a shadow as he vanished from his spot.

~

Rex and the others finally got out of the canyon,

After hours of searching, they found no other mutated animals even after they went into more than five caves.

But nevertheless, it's evident there are mutated animals here.

"The other caves are very shallow, the best cave will be the cave with the black spiders in it but should I take the risk?", Rex thought.

From the caves he visited after the black spiders, all of them are shallow.

It will not be suitable for their hideout because even if they didn't get exposed directly, they will still be near the moonlight.

Aside from that, if Kyran transforms his scream will certainly be heard.

So for now, the cave with the black spiders in it is the only suitable cave that he found.

Rex and the others got out of the canyon with no injury, the injury Rex and Adhara sustained is already healed by now.

It didn't leave a single scar on their bodies.

"Where's Ari?", Rex asks after looking left and right, he told Ari to stay outside to keep a lookout but he can't find him anywhere now.

Rex looks at Kyran before Kyran shakes his head, he also can't sense Ari nearby.

'Did something happened? but he's a rank six, so if something did happen there would be chaos', Rex thought.

He then shakes his head before they left the canyon after bidding Prof. Nolan goodbye.

In the middle of the night,

Rex opened his eyes as he felt his body shivering, his body is trembling non-stop as the cold wind pierced his body.

From the moment he became a Werewolf, he never felt cold.

His body becomes warmer than a regular human, and cold wind or even snow in the antarctic will probably not make him shiver like this.

'System, What is happening?', Rex asks.

<Yule Moon is near, its cold and merciless light will bring judgment on any Werewolf that wanders into its light>

Reading this, Red looks at his stats and found that the Yule Moon is 23 hours near.

He then looks at his side and found Adhara too is shivering, even her lips become blue in coldness because of the Yule Moon.

Both of them are meditating, but Rex stops after feeling that his body is cold.

Rex then snuggle closer to Adhara trying to find some warmth,

But upon touching Adhara's body, there's a sharp cold pain that strikes Rex's body part that touches Adhara's body.

It makes Rex jolted as he creates a distance with Adhara,

Adhara's body also jolted, "Ouch!", she groans in pain.

She opened her eyes and rubs the source of the pain while looking at Rex, "What is that?"

"It's the next Full Moon, this is the effect it has on Werewolves", Rex said with a sigh, he really hates this full moon.

'Damn it, this must be the worst full-moon', Rex thought before he go to the other room and sleep there, it will be better for both of them.

The next morning,

Rex opened his eyes before he walks outside his room,

His body felt drained and the cold air still lingers in the air, it feels like a hungover where every part of his body felt drained.

Going out of his room, Rex was suddenly greeted by one of his miad.

It was Clarice, "Sir, there's a man called Ari who wishes to meet you in front", she said meekly.

Hearing this, Rex nodded his head before he went out to meet with Ari.

Rex goes outside and meets Ari who looks completely normal, he frowns before he said, "Where were you? I told you to keep a lookout"

"My apologies Sir, just a rat problem", Ari said assuringly.

Hearing this, "Is it the Platchi Family?"

"Yes Sir, they sent a guy to find your whereabouts but I already dealt with them", Ari said, he said that as if it's an easy thing to do.

Rex then said, "I should've dealt with them sooner, I thought that they will not bother me for quite some time but who would've thought they're rushing to die"

After saying that, Rex wanted to go back to his room but stopped when he heard what Ari said.

"It's okay Sir, I guarantee you that they won't bother you anymore", Ari said with a meaningful look.

Rex turns to his back with a frown, 'Huh? Did they killed Duncan?'

~

Last night, After the call,

Ari went to the guy that just ask Rex's location to Prof. Nolan, he stalks the guy who seems to go back to the Platchi Family's mansion.

The night was cold, and the guy tidied his coat's collar to block the coldness.

But when he's about to make a turn, he got goosebumps as he felt something approaching him from the back fast.

Before he can do anything,

**BAM!**

His head got hit by something from the back making him bouncing away, the hit was heavy and his head started to bleed because of it.

Ari appeared in front of the guy with a cold look,

The guy grabs his bleeding head before he looks to the front,

Looking at Ari's cold eyes, the guy widened his eyes in shock, "Ari? What are you doing? I'm from the Platchi Family! We're Allies!"

Without even answering, Ari said, "Sir Stevanus said that your family's contribution has dwindled in these days, was it because of Duncan's oldest son trying to get into the High Table"

"Yes, but it will only be temporary", the guy said hurriedly.

Ari then asks, "Why are you searching for Rex Silverstar? What business do you have with him?"

"Rex Silverstar killed Sir Duncan's son Lucas, it will only be natural to take revenge on him", the guy explained.

He then added, "With the help of the Reed Family, we can kill Rex easily. Can you help us?"

The guy said this with a hopeful expression,

In his mind, the Reed Family will definitely help them because this is not a small matter and they are both allies with each other.

'If Reed Family joins in, Rex will be dead!', the guy thought sinisterly.

But Ari's reply makes his train of thought stops abruptly,

"Rex Silverstar is under the Reed Family's protection, hurt him and you will be the enemy of the whole Reed Family", Ari said fiercely.

"Eh?", the guy was greatly shocked that even he thought that his ears stopped working.

He can't believe what he has just heard, "There must be somekind of mistake, there's no way we're talking about the same guy!"

Ari scoffs before he slashed the guy's head cleanly with a wind sword.

The wind sword beheaded the guy instantly without any resistance, the guy didn't even know how he died before his head got cut off.

After killing the guy, Ari takes the head and vanished.

A couple of minutes later, Ari arrived at the Platchi Family's mansion with a bloodied head in his right hand.

He walks to the mansion with confident steps,

All of the guards there recognize Ari, it seems it's not the first time he's there.

Not long, Duncan got out of his mansion with a frown.

He doesn't expect to have any visitors in this hour, especially someone from the Reed Family.

"Ari? Why are you barging in here? Although you're from the Reed Family, I will not tolerate such behavior in my mansion", Duncan said in anger.

It's late in the night, and someone barging in will certainly piss any man.

Ari raise the bloodied head in front of him and said, "Rex Silverstar is under the Reed Family's protection, do this again and the Reed Family will make sure to flattened your mansion and your family"

Hearing this, Duncan was at a loss for words.

The news came as a shock to him, it arrive just after he decided to do anything to kill Rex.

But if that anything involves the Reed Family, he becomes hesitant because not just him but his family will also die.

The night started to rain,

The rain came as if it's mocking Duncan that thought he will prevail against Rex, it also acts as a symbol of consequence if he tries to defy the Reed Family.

Death will be the only consequence,

Ari then throws the bloodied head in front of Duncan,

"Consider this the first and the last warning, Sir Duncan", he said before he left the mansion under everyone's gaze.

Chapter 172 Yule Moon

Supernatural Territory, Vampire Kingdom.

Solomon is sitting on his throne with a smile on his face, his fangs poke out of his mouth because of how wide his smile is.

There's Nezera beside him with an excited expression,

One can know how excited Nezera is just by seeing her wings twitch and flapped a couple of times, it seems she can't contain her excitement.

In front of them, there's a vampire kneeling on the ground, it is Seth.

"Repeat your words one more time, I want to hear it again", Solomon said with a grin.

Seth bowed his head deeper but his lips are also quirked up, "Because of the ritual you did, our number increased a lot"

"Out of 4,000 humans we have kidnapped, 700 of them survive the ritual and became a vampire. Many of them only have rank four power, but some of them exceeded our expectations", Seth continues making Solomon and Nezera smiles wider.

Both Nezera and Solomon look at each other, they still can't believe what Seth is saying.

"This is great news King, we can send each of them to the battlefield and reinforce all of our camps", a vampire said from the side.

He wears full plate armor with a red cape attached to it, there's a vampiric crest on his chest.

From the look of the vampire compared to Seth, there is a clear distinction between the class of the vampire and Seth.

Solomon glance at the Vampire before he said, "Yes, you will arrange that matter, Valerian. Make sure to send them directly to our camps, and no other races should know of them"

Hearing this, Valerian bowed deeply before he steps back into the shadow and vanish.

After Valerian left, Solomon waves his hand before Seth also bowed once more and left the throne room.

While they are feeling satisfied with the ritual,

"RAARGHH!!", a high-pitch scream was heard from underground, it makes the happiness on Nezera and Solomon's face vanished instantly.

Nezera looks at Solomon with soft eyes, her lips tremble slightly.

"Let's go check on her, she became out of control lately", Solomon said before both of them also left the throne room.

They both walk along the hall before they stopped in front of a wall on their left,

Solomon's ring glows red before a wooden door appears on the empty wall, it's a hidden passage to go downstairs.

He then opens the door before both of them walk downstairs,

The stairs lead them to a spacious room with four royal vampires guarding it, there's a vampire in the middle that is chained to the ground.

Solomon nodded his head before the four royal vampires left the room.

He and Nezera then approach the chained vampire before Nezera's eyes started to tear up, she cannot bear to see the chained vampire.

The chained vampire is Calidora,

Since she awakened the Eyes of Terror, she has been unstable since making Solomon chained her up in this room.

Nezera visits Calidora daily,

But every time she met Calidora, she always tears up.

Her baby that always has these curious eyes and can sometimes make her angry is now gone, all that is left is a monster that is always thirsting for blood.

"I will find him..."

"I will find him..."

Calidora's whispers without an end, she didn't even glance at Solomon and Nezera.

Her lips are already dry and her body is becoming stiff, it seems it has been some time since she drank blood.

"Solomon please, she will suffer if you don't give her something to drink", Nezera pleaded with watery eyes, Calidora is very weak right now.

Hearing this, Solomon approach Calidora and said, "Are you going to behave? or Are you going to be controlled by your eyes?"

"I will find him..."

"I will find him..."

Even after Solomon squats in front of her, Calidora didn't answer.

She didn't even look at Solomon's face as if she considers Solomon doesn't exist.

Seeing Calidora's behavior that is still controlled by the eyes of terror, anger started to engulf Solomon, "ANSWER ME!!!"

BOOM!

His shout is loud and heavy, it was full of the authority of a king.

But instead of answering, "I WANT HIS BLOOD!!!"

RUMBLE!

The ground rumble as Calidora shouted back, her eyes glows red as it shows off the power of the ancient vampiric eyes.

It makes Solomon felt a little suppression but he shakes it off,

BOOM!

With a flick of his finger, Calidora's chains broke as she got sent crashing to the wall creating a booming sound.

"Huakh!!", Calidora spat a mouthful of blood.

Solomon's eyes are full of fury, he can't believe that Calidora shouted back at him even though he knows that Calidora is under the influence of her eyes.

"SOLOMON! WHAT ARE YOU DOING?!", Nezera cried out in shock.

She tries to grab Solomon's arms but she got flung away by Solomon,

He then walks to Calidora who is still stuck on the wall, the anger inside him finally erupted, "YOU ARE MY DAUGHTER AND A PRINCESS!! IT IS NOT YOUR PLACE TO TALK TO ME LIKE THAT!"

BOOM!

Calidora got pressured even deeper into the wall, Solomon's blood energy is crushing her.

Solomon then takes a deep breath to calm him down, he then continues, "If you want to get his blood, then you must treat me with respect suited for a king AND a father. Until then...no blood for you"

After saying this, the blood energy vanished as Calidora fell to the ground.

He then left the room with heavy steps,

Nezera got back on her feet as she looks at Calidora with teary eyes, "I'm sorry", she mumbles before she too leave the room.

Not long after they left, the royal vampire guard got back in the room.

They healed Calidora of her injuries and chained her again,

~

It is currently noon right now,

Rex is caging himself inside his room meditating, he doesn't want to go out in the condition he's in right now.

The closer the Yule Moon, the worst he felt.

He then looks at his stats,

<Rex Silverstar>

Pack: Silverstar (2/2)

Level: 26 (7,244,000/10,000,000)

Race: High Werewolf

Full-Moon: 7 Hours 13 Minutes - Yule Moon

Berserk: 43%

Sanity: 58%

Mental: 51 (+32)

Strength: 115 (+60)

Agility: 59 (+2)

Endurance: 46 (+26)

Intelligence: 108 (+20)

Attributable Stats: 0

'My sanity stats is still low, and I doubt I will be able to increase it some more', Rex thought before he sighs, his only hope is his high mental stat.

After looking at his stats, he then went outside to check on the others.

Rex found Adhara in the kitchen sleeping on the table, she looks drained and even her body is colder than before.

"Adhara, are you alright?", Rex asks weakly.

Adhara looks up slowly with her drained eyes and said, "Yeah, Can I sleep for a little more?"

Rex nodded his head before he went to Kyran's room, out of all the things that would happen he fear Kyran's state the most.

He didn't tell Kyran about his power, and he just hoped Kyran will accept it and be done with it.

Arriving in front of Kyran's room,

"You're sick! Let's go to the infirmary right now!"

"I'm not sick! Stop touching me!"

"I SAID STOP!"

**BRAK!!**

Hearing the commotion, Rex immediately busts into the room to check on it.

In the room, he saw Ryze on the ground weakly while Kyran is on the bed looking at Ryze with an annoyed look.

Rex checks on Ryze in worry, he found that Ryze's back is bruised.

"What are you doing? You're supposed to look out for each other", Rex said, he looks at Kyran with a warning gaze.

Kyran then replied, "I didn't mean to! I don't know where it came from"

Rex frowns when he heard this, he looks at Kyran and found something weird about him, 'Why is he full of power when I can hardly use any?'

The Yule Moon was supposed to weaken all Werewolves, so why did Kyran not affected by the Yule Moon like Rex and Adhara.

Sure Kyran is also pale and felt cold, but aside from that, he seems to be more lively and even more powerful than before.

'Does Half-Blood not considered as Werewolves?', Rex thought.

<Half-Blood has Werewolf bloodline in them. Half-Blood is considered as a different kind of Werewolf, not human>

Reading this, Rex becomes even more confused as to why Kyran acts this way.

"Control your power, you're not a normal human anymore unlike Ryze", Rex said before he takes Ryze out and gives him to the butler.

They will take Ryze to the infirmary,

At night,

Rex and the others already got back to the canyon but this time, they come without Edward because this is the day the Yule Moon arrived.

"Ari, keep a lookout like before", Rex said.

Ari nodded his head before Rex and the others get inside the canyon.

They then went to the hidden cave with black spiders in it, Rex decided to go to the right side because yesterday there's no black spiders on the right side.

In front of the cave, Kyran hesitated for a moment.

Adhara saw this before she grabs Kyran's hand and said, "It's okay, stay close to me and don't think about the cave"

Hearing this, Kyran nodded before they went inside the cave.

While they're walking inside the cave, "Why are we going here again? Are we going to fight the black spiders?"

"No, we're here to take a shelter", Rex said nonchalantly.

He doesn't want to answer Kyran because all of his body felt weak, it feels the same as if he didn't eat and drink for days.

But he has to answer Kyran,

Kyran frowns before he said, "Taking shelter from what?"

"That", Rex points at the mouth of the cave, the moonlight turns light blue as the Yule Moon finally arrives.

<The Yule Moon will start in five minutes!>

Reading this, Rex then shouted, "Let's hurry to the end of the cave!"

They then started to run to the end of the cave where the writings and drawings are located, despite Adhara and Rex's bodies are weak they still kept running.

<Checking the user's stats...>

<Adding Mental Stat to the user's Sanity...>

<Decreasing the user's berserk stat using the excessive Mental Stat...>

<Completed!>

<Transformation will begin! The user will maintain consciousness during Transformation State>

Just after the last notification,

Adhara and Kyran fall to the ground as they can feel the changes in their bodies.

Rex is also started to transform as his body makes a cracking sound, he fell to the ground with bulging eyes as he tries to endure the pain.

CRACK!!

TWIST!

Adhara started to shout in pain, "ARGHH!!"

"WHAT'S HAPPENING?! RARGHH!!", Kyran shouted with panicking eyes, he can see the bones on his hand moving and his nails grow longer.

Kyran and Adhara's scream is so loud, but thankfully they're near the end of the cave.

With no training in physical pain endurance, Adhara and Kyran succumb to the pain of the transformation as they scream and shout.

"Rrghh!", Rex gritted his teeth, he started to get used to the pain.

All of their bodies started to be covered by fur, and their mouths turns into a muzzle filled with razor-sharp teeth and fangs.

Not long after, Rex and Adhara finished their transformation.

Rex slowly stood up with his Werewolf body, his fierce red eyes look at Adhara and found that she's also finished her transformation.

She still felt the pain, so it will take time before she can stand back up.

"ARGHHH!!"

A scream was still heard as Rex looks at Kyran, he already transformed into a half-Werewolf but somehow his bone is still making a cracking sound.

'Hmm? Isn't his transformation finished?', Rex thought.

He remembers the first time when he turns into a half-Werewolf during the blood moon, and his transformation is exactly like Kyran's.

But Kyran is still transforming, this makes Rex frown.

'System, what is happening to Kyran?', Rex asks, he looks at Kyran who is still rolling on the ground in pain.

<Please touch Kyran's body to scan>

Reading this, Rex held Kyran's body from rolling on the ground.

<Scanning...>

After a few seconds, other notifications appeared.

<Scan Complete!>

<Kyran's Werewolf bloodline is evolving>

'His bloodline is evolving?!'

Chapter 173 Getting Caught

'What do you mean by his bloodline is evolving? I just turned him into a half-Werewolf', Rex thought in shock.

Bloodline evolution should only occur to a full-fledged Werewolf just like when he evolved into a High Werewolf, but Kyran's bloodline somehow manages to evolve now.

The system didn't answer making Rex flustered,

But then, Rex suddenly remembers something, 'Is it because of the excessive blood I gave him when I turn him into a half-Werewolf?'

On the day when Kyran turn into a half-Werewolf,

The system told Rex that he exceeded the blood limit of Kyran's body, and the system also said that Kyran will be a different Werewolf.

'Is this what the system meant?', Rex thought.

"RAARGHH!!", Kyran kept shouting as his transformation is still not complete.

His mouth somehow turns into a muzzle exactly like a full-fledged Werewolf, his furs grow longer and his muscle becomes thicker.

It is not an underestimation if Kyran can compare with Adhara,

Adhara was finally able to get up on her feet, her body is still aching and the injury she got from the transformation started to heal.

She struggles to stand up before she saw Kyran is still shouting and wailing on the ground.

"What happened to him? Why is he still transforming?", Adhara said worriedly, her voice becomes even rougher and there's a hint of purple on her furs.

It was caught by Rex when she stands up, the purple furs are only located on her neck and arms.

Rex turns his head away from Adhara and didn't answer Adhara's question, he also didn't understand fully why Kyran becomes like this.

"Rex do something! You always know what to do!", Adhara said in a panic.

She can see Kyran is starting to injure himself with his own claws because of the pain, it is too much to handle for a kid like Kyran.

But even though Kyran felt like dying a couple of times, his body will not allow him to.

The nasty wound he creates from scratching himself or even because of his transformation healed completely, it feels like hell for Kyran.

Rex then said, "We can only wait, there's nothing much I can do"

After saying that, Adhara and Rex watch as Kyran's transformation is undergone.

It is already a little more than three minutes and Kyran's transformation is still going, his furs become light blue now and there's a single horn growing on his head.

The scene was bizarre, even Rex thinks that he too will scream if he were in Kyran's position.

But when the transformation is about to complete, Kyran suddenly stood up and started crashing his body left and right.

The cave walls were destroyed every time he crashed his body into them.

Seeing this, Rex reached out to Kyran to stop him but to his surprise, he can feel Kyran's strength is on par or even stronger than him.

He held Kyran's body but Kyran struggles madly,

ROAR!!

Kyran swings his arm and hit Rex making Rex push to the side, 'Damn it! My body is very weak right now because of the Yule Moon'

"Adhara, help me restrain him", Rex said.

Both of them then try to restrain Kyran,

Rex hugs Kyran's upper body while Adhara holds Kyran's leg, they try desperately as Kyran struggles to break free.

While Rex is hugging Kyran, he suddenly saw a light blue hue coming out of Kyran's body.

He widened his eyes in shock before suddenly,

ROAR!!

BOOM!!

Kyran suddenly got a boost of power as he break free from Rex and Adhara,

Both Rex and Adhara got flung away as Kyran broke free from them, he then gallop in four towards the entrance of the cave.

"STOP HIM!!", Rex shouted.

Aside from Kyran, Adhara and Rex's bodies felt weak.

The Yule Moon greatly weakened them as if they got hit by silver, while Kyran's power is boosted.

Just from this alone, Rex deduces that Kyran's evolution has a connection with the Yule Moon and also the exceeding blood limit.

He became a very powerful Werewolf,

They then ran after Kyran who is still whining in pain, it seems the transformation still hinders him a bit making him stop once in a while.

With this, Rex and Adhara manage to catch up.

**BRAK!**

The ground underneath Rex's feet cracked as Rex jumped toward Kyran, he tackles Kyran just before he manage to reach the cave's mouth.

In front of Rex, the cave mouth is already within vision.

"Kyran! Snap out of it! You can't go out there", Rex shouted trying to get Kyran back to his senses.

But just like him and Adhara, Kyran is not himself.

It's the same when Adhara and Rex first transform into Werewolves, they're not themselves, especially Rex where the blood moon filled him with bloodlust.

Adhara arrives at the scene and she also pins Kyran on the ground.

By giving everything they have hoping that Kyran will stop, they manage to stop Kyran's movement as he got pinned to the ground.

But suddenly,

**AOOOUUUUU!!!**

Kyran howls as he looks at the moonlight, it seems that he got attracted by the moonlight.

Seeing this, Rex grabs Kyran's muzzle to stop him from howling, "You idiot! You will make us get caught, and that moonlight will turn you to ash!"

"Kyran snaps out of it please!", Adhara pleaded.

But all of this is only wind for Kyran, his body emits the same light blue hue again.

Rex then shouted after seeing the light blue hue, "Adhara! Prepare yourself, put everything you got to restrain him!"

Hearing this, Adhara strengthened her grip on Kyran's legs while Rex also put all of his might into pinning Kyran to the ground.

**ROAR!!**

BOOM!!

Kyran roars before he breaks free from Rex and Adhara again with his boosted power.

BRAK!

Adhara got pushed away as her body roll a couple of times before she hit the wall, Kyran's power is still a shock to her.

Rex on the other hand is still holding on,

His body is already reinforced with the Pure Brace of Moonlight skill and Force, his force has already become stronger as his body glow with yellow force.

Now he can somewhat hold Kyran in place.

Every time Kyran's body glows with a light blue hue, his power will be boosted.

Without using his skills, Rex will only get flung away as Adhara did just now.

Rex gritted his teeth as he tries to pin Kyran on the ground, but Kyran didn't want any of it as he slash Rex's head with his claws.

SLASH!

"Argh!", Rex grunted as he got clawed right on his face.

This got taken advantage of by Kyran as he slips past Rex and runs to the cave entrance, with the distance he created it is impossible for Rex to stop him before he got out.

"NO! KYRAN STOP!!", Rex shouted in shock.

He can see Kyran is already at the mouth of the cave nearing the moonlight, Rex closes his eyes as he didn't want to see Kyran turn to ash.

But the scream of pain didn't come,

Rex opened his eyes and saw Kyran bathing under the moonlight with ease, he even felt refreshed as he howls in joy.

AOOOUUU!!

This caught Rex off guard because he thought that Kyran will die, but now instead of dying Kyran becomes even stronger as he bathes under the moonlight.

But then, Rex snapped out of his daze when Adhara taps his shoulder.

"Rex! The FAA will locate us!", Adhara shouted in panic.

Hearing this, Rex's body cracks with black lightning as he dashes towards Kyran like a bolt.

'There's no other choice!', Rex thought as his fists glowed with a yellow hue.

Just when Rex's body makes contact with the Yule Moon's moonlight, he suddenly felt a burning sensation all over his body.

It felt like every part of his body is on fire!

<Warning!!>

<The user is exposed to the Yule Moon! Please find shelter!>

Reading this, Rex gritted his teeth as he roared, "RAARGHH!!"

BOOM!

Rex's fist landed squarely on Kyran's back pushing away like a broken kite, his fist is imbued by Force Beam and his black lightning.

He's not playing around anymore,

Kyran got launched because of Rex's punch crashing into the cave in front of him, it was what Rex is aiming for.

<Exp is decreased by 200,000>

<Exp is decreased by 300,000>

<Exp is decreased--

The system kept on giving Rex notifications, his exp kept decreasing under the Yule Moon.

Looking at this, Rex immediately dashes to the cave where Kyran got launched into but then suddenly,

"WHAT IS THAT?!!", a man shouted from Rex's left.

Rex looks to his left before his eyes widened in surprise, there's a scientist wearing a lab coat looking at him in surprise.

He then realized what he was seeing before running away and shouted, "THERE'S A WEREWOLF HERE! HELP SOMEONE!!"

Rex wanted to catch the guy but he already saw a couple of FAA members on the scientist's back, and they all have a gun in their hands.

Seeing this, Rex signals to Adhara to run to the other cave with him.

Adhara then dashes to the cave where Kyran launched into followed by Rex from the back, the moonlight hurts them but they can only grit their teeth and endure.

After they ran to the cave, the FAA members follows them.

"Quick! Call leader! Tell him that we have spotted Werewolves in this canyon"

"We'll pursue them, just go report!"

Meanwhile, Rex and Adhara are searching for Kyran.

They dash like madmen inside the cave searching for Kyran, but then suddenly,

<Sudden Quest!>

Pursuit

The user is currently being pursued by a group of people that have malicious intent and want to kill the user, Eliminate all possible threats and come out of this situation safely.

Quest Rewards: 2,000,00 Exp, 5 Skill Upgrade, 5,000 Gold, Horn of the Red Dragon

Seeing this, Rex steeled his will as he ran inside the cave.

Both of them went inside the cave deeper and soon found Kyran planted on the wall, his body is recovering at a fast rate and he will soon get his consciousness back.

But before Kyran can do that, Rex punched him again.

BAM!!

His fist landed solidly on Kyran's stomach making him growl in pain,

Adhara saw this from the back before she gasps, "What are you doing? You'll kill Kyran if you keep doing that!"

"There's no time for this, he will not die. We need to run", Rex said.

He then carries Kyran on his shoulder before they dash deeper into the cave, the FAA members can already be heard approaching from their backs.

Thankfully the cave is a deep one, and it seems deeper than their cave before.

After running for quite a while, they then arrive in a circle spacious place that has eight holes including the one they emerge from.

Rex looks at his surrounding before he picks one and runs into it.

With every part of his body aching, Rex kept running into the cave as his adrenaline spiked.

He then saw Kyran's injury is healed again before he punched him again using Force Beam, "Adhara take Kyran out of here, I don't want him to be caught"

"What are you going to do?", Adhara asks as she takes Kyran from Rex.

Rex looks to his back where he can hear a group of people coming with a brutal smile, "I'm going to face them, you run from this and hide until the Yule Moon is over"

Hearing this, Adhara hesitated.

She looks at Rex who is smiling brutally, she wanted to say something before she decided to left.

Rex saw Adhara's troubled expression with a frown,

Adhara then carries Kyran and started to run away, Rex then thought, 'Why is she troubled? Did the Yule Moon hurt her?'

#### Chapter 174 Massacring The FAA

Adhara ran deeper into the cave leaving Rex who is preparing himself for a battle, he will try to hold the FAA members to let Adhara and Kyran escape.

Aside from that, he also got a quest to finish.

Rex scans the surrounding with hawking eyes, he saw nothing but rocks and water dripping from the cave's ceiling.

He looks up and saw many stalactites on the ceiling, he then looks at his claws and thinks for a moment,

After looking at his claws, a smile crept onto Rex's face as he got an idea before he vanished from his spot.

Meanwhile,

"Check every corner of the place, I want that Werewolves to be caught", a man said after arriving at the circle spacious place.

He seems to be the leader of the FAA and he looks around the place with a frown,

There are many holes around this place and he can't possibly track each of the holes by dividing his people into groups, it will only lead to their deaths.

"Sir Marcus, There are no signs of which holes they have gone into", one of the FAA members said, he shakes his head while looking at the holes.

Many of the other FAA members are looking around trying to find clues,

Their hands are ready with their gun, and they're on full alert because their target is Werewolves who excels in everything except for magic.

Marcus then commanded, "We should at least get one of them, there's no other choice besides splitting into four groups"

"And also, don't engage with them just locate them and report back to me", he added.

After saying that, Marcus assigns each people to a group.

Marcus divided them into a group of four which consists of 5 people that have a rank five Awakened leading them,

They then went to a random hole to search for the Werewolves.

While they separated from each other, a shadow can be seen crawling on the ceiling before he enters the hole where group one got into.

Marcus suddenly looks back with a frown, he suddenly senses something.

He's exploring a hole by himself because he's confident in his skill, and he frowns when he suddenly feels an aura appear before it disappears again.

'Did I sense it wrong?', he thought with a frown.

In the other hole,

Group one is lead by a guy with long brown hair, his sharp eyes are looking at his surrounding cautiously, "Keep an eye on the rear, there might be a hidden hole"

The group moves fast, they're all Awakened and their movement is fast.

Unknown to them, Rex is following them from behind.

When the FAA members come to the circle spacious place, Rex is on the ceiling hanging by the claws of his four limbs.

He's hiding behind a stalactite on the ceiling just enough to cover his body.

Rex kept silent and watch the FAA members but he avoid looking at the leader for too long.

It is a very risky choice because anyone that looks up might've just noticed him there, and his hulking body is not on his side right now.

But thankfully, the system is there.

Rex bought an Aura Cloak Elixir that he bought from the system, it will hide his aura no matter if it's his Awakened aura or his Supernatural aura.

He bought it for a painful price, but it's okay if the elixir can help him.

Rex scans group 1 and finds that all of them are just rank four with the leader being mid-rank five, it will be easy for him to take them all out.

Even if he's not in his Werewolf form, he can fight them head-on.

With that in mind, Rex then began to move.

He dashes to his right and activates his spell,

The leader of the group kept moving forwards without even looking back, they think that they're hunting for the Werewolves.

But it is them instead who is currently being hunted.

Then, the leader suddenly notices that the ground turns black suddenly.

"HALT! Prepare yourself! We can at least fight one of them", the leader shouted as he sense something is coming, he can feel the fluctuating lightning mana underneath his feet.

He even frown when he felt the mana, there're not many Werewolves that can use magic.

The cave is dark, the Fire Elementalist only makes torches.

Only one of them is a Fire Elementalist, and the torches he can make are only so much.

Rex's fur is pitch black, he didn't even notice that his fur is even darker than the last time he turn into a Werewolf.

It will be hard to see his body with this lighting, Rex has the terrain advantage.

Two people gather metal mana on their hands, as soon as something attacked them then they will be ready to defend anyone.

One of the Water Elementalist is in the middle, while the Fire Elementalist is maintaining the torches beside the Water Elementalist.

The leader is a Wind Elementalist, and he already summons a wind spear in his hand.

But then suddenly, "Hmm?"

The wind spear the leader summons suddenly becomes hard to control, it struggles to maintain its form as if something is disturbing it.

He then looks below his feet and saw a black line of mana connected to his wind spear.

Then suddenly,

"AARGHH!!", The Fire Elementalist suddenly vanished from their vision.

They didn't even see the black shadow that takes the Fire Elementalist to the side, it was so fast for them to see anything.

Only the cries of the Fire Elementalist can be heard,

The leader looks to his left and saw the Fire Elementalist's neck is already clawed.

Fresh blood spilled from his torn neck like a fountain, it makes the leader widened his eyes in shock as he thought that their group can handle the Werewolves.

The Fire Elementalist choked on his own blood before the torches surrounding them vanished.

"Re...Retreat!!", the leader said in fright.

The cave becomes pitch dark, they literally can't see anything.

Many of the Awakened started to panic, they fire their guns aimlessly.

The leader rushes to this hole in confidence with the thought that he can win, it would make his standing higher if he manage to kill a Werewolf.

But that is only in his imagination, killing a Werewolf is not easy.

Especially if that Werewolf is Rex,

The group of five people got dispatch easily, there're only two people left including the leader.

Only screams of horror and pain can be heard from the leader's surroundings, the others got mercilessly killed by the Werewolf.

All of the others already got snatched by Rex and killed, he did it so easily that he even shocks himself with how much power he has during this state.

'If only I can control the transformation', Rex thought with a sigh.

The remaining people run to the other side fearing for their lives,

The leader wanted to use his communicating device but the signal in the cave is weak, it didn't reach Marcus.

Rex can only smile from the dark as he sees the remaining people run.

He then waves his hand before the black ground spat black lightning, it gripped the remaining people in their spot.

Even the leader can't do anything to destroy the black lightning.

It's like a chain that chained them to their spot, and their attack is like a dull knife trying to cut through a steel chain.

The leader struggles to break free, but then,

He saw two red blazing eyes from the pitch-black cave, it appears out of nowhere.

Just from the position of the red eyes, the leader knew that it is a Werewolf twice or even thrice the size of him.

Then suddenly,

The red eyes flash making him feel his power leaving him, his body is frozen on the spot unable to move.

Rex activates his Alpha Intimidation and stuns both of them.

Lightning cracks on his fingers lighting up a sliver of his face,

The leader and the remaining FAA members look at Rex's grinning face in horror, the devilish grin Rex has on his face got etched onto their brains.

And even after their chests are pierced, the smile is the only thing they remember until they died.

After killing group one, Rex stands up and looks to his back.

'Three groups more to go', Rex thought before he vanished in the pitch darkness of the cave.

Just after a couple of minutes of killing the first group, another wails and screams of another group can be heard filling the cave.

It happens to the other group as Rex killed them all.

The fourth group is the last,

Rex didn't want to fight Marcus because he knew that he would lose against him, a rank six Awakened that just assimilate with a spirit is not to be underestimated.

Even if Rex can still remain calmly standing in front of a rank six, it's a different story if he decided to fight against one.

He will completely be obliterated,

Rank six Awakened is not only a higher rank than rank five, but they also got a very powerful spirit that might multiply their power by 2, 3, or even more!

So fighting against Marcus is off the menu, even if it costs him the Sudden Quest.

The last group of FAA is in the same hole where Adhara dashes into, they pick the right hole to pursue Rex and the others.

But picking the right hole doesn't mean they will survive.

Rex already arrives at the back of the group and he also activates his Black Field Orko skill, he already felt the strain of using this spell too many times.

His everlasting mana for the first time is low, and he can't keep this up for long.

It is a foolish move from Marcus to ask the others to split, it only serves Rex's purpose better for taking them little by little.

The ground turns pitch black, Rex already activated his skill.

The last group has three Fire Elementalist on them, so it will be harder for Rex to take advantage of his night vision ability.

But when he saw one of the guys in the group, Rex widened his eyes.

'I recognize that guy, where did I see him again?', Rex thought as he look at the guy, he felt that the guy is very familiar.

Then, he remembered something, 'That is Argus!', Rex thought in surprise.

Argus is the guy that rescued Rex from the Trickster Spider Anansi, he's the one that argued with Rex about the mission difficulty mistake by the FAA.

Seeing that guy, Rex smiles evilly.

He saw that the guy is stuck at peak rank five, he didn't grow at all from the last time they met.

It shows Rex how hard it is to find a spirit to assimilate with.

Rex activates all of his enhancement skills including the yellow Force, he almost becomes two times stronger than before.

Even if he's weakened by the Yule Moon, it will not be a problem for him to beat a rank five.

His Awakened power is no match for a rank five Awakened but his physical abilities are off the charts, and that alone can make Rex kill a peak rank five.

When he killed the first group leader before, the Black Field Orko works because of his higher-rank element and also because the leader is scared.

If not for it, he can break free from his black lightning.

Rex stomps the ground hard and pounces at the group of Awakened like a mad wolf, he recklessly attacks them from the back.

SLASH!!

His claw manage to catch one of them off guard, Rex's claws instantly ripped his stomach open.

The guy didn't even realize what happened until he got slashed, his eyes widened for a second before it turns lifeless.

From all of the torches around them lighting up the place, a third of it dimmed down after Rex killed the guy.

"Everyone retreat!! Report back to Sir Marcus!", Argus shouted decisively.

He creates an ice barrier around him to protect him from Rex's attack and dashes away, the others also defend themselves and run away.

They also fired at Rex while running away,

The bullet is imbued with elements and some hurt Rex, but his regenerative ability is stronger.

Looking at this, Rex smiles a mocking smile.

Rex's body started to blitz with lightning, in a flash,

BLITZ!!

His body turns into a black streak of lightning as he punches through a guy with a fire barrier around him, his fist is imbued with Force Beam as he punches through the fire barrier.

BOOM!

"KUAKHH!", the guy splurged out blood as a gaping hole appeared on his chest.

It came to him as a shock as he saw Rex's fist pierced through him, he looks towards Argus helplessly before he fell to the ground.

Rex looks at Argus with a nasty grin, "I remember you...Argus...", he said with his baritone voice.

Hearing this, Argus got goosebumps all over his body before he dashes away like a madman.

He kept running to the hole's mouth without looking back, and not long he finally realized that he's left running alone.

The others are gone, he's the only one left standing.

'What the fuck? How did that Werewolf know my name?', Argus thought in disbelief.

Out of all his days living in this world, not even once has he ever talked to a Werewolf nevertheless tell them his name.

He's not arrogant enough to think the Supernatural place a bounty on him too.

But there in front of his eyes, the Werewolf not only said that he remembered him but he also know his name.

Then suddenly,

BAM!!

The ice barrier surrounding him suddenly got bodied by something as he got flung crashing to the walls, his head was hit so hard that he felt dizzy.

Without giving another breath,

CRACK!

"ARGHH!!! MY LEG!!!", Argus cried out in pain, his right leg got stomped by Rex and broke instantly.

The grin on Rex's face brings terror, Argus looked at Rex's horrifying look.

Rex can see a bleak aura coming out of him, Argus started to feel fear, "Do you remember me, Argus of the FAA?"

"Who...Who the fuck are you?!", Argus shouted helplessly.

Rex didn't answer his question, "I told you, I remember everything", he said with a grin.

He then raises his hand in front of Argus' vision as his claw becomes longer and sharper, it makes Argus hoped for living almost snapped.

Rex points his claw to Argus's heart, but then suddenly, "STOP!!!"

Chapter 175 I Don't Want To Die

"STOP!", a voice was heard from behind.

Rex's body jolted when he heard this voice, he thought that it's Marcus who caught up to him.

But when he looks at the source of the voice, turns out it is Adhara that is looking at Rex in disbelief.

"Adhara? What are you doing here? Where's Kyran?", Rex asks in confusion.

He remembered that he told Adhara to run and keep an eye on Kyran, but Adhara suddenly appear behind him.

Even Kyran is not on her side,

Adhara looks at Rex with a disappointed look,

She looks around the place and found many FAA members lying on the ground, their blood and limbs are scattered around.

It was a horrifying scene, and she can see it all despite the darkness.

"Why are you doing this?", Adhara asks slowly.

Hearing this, Rex becomes even more confused, "Why? If we don't kill them then they will kill us"

"Look at yourself! You told me that you wanted to massacre Supernaturals, but look at you now! Killing humans as if they're Supernaturals", Adhara shouted as tears fall down her eyes.

She's disappointed in Rex for how easy he killed humans, it's like he's not human anymore.

Rex's expression darkened,

Adhara covers her mouth in tears, she's looking at the corpse around her, "This is wrong! We can just run away from them, Why do you have to kill them?"

This argument happened in front of Argus, he looks at both of them in surprise.

He never thought that he will be in this kind of position, 'Are they exiled from the Supernaturals? Do they want to help humans?'

Rex stands up slowly with a darkened expression, he turns his body towards Adhara.

"Are you even on humanity's side?", Adhara finally said, she never condone killing humans but she kept it all in herself.

She understands that some human deserves to die, but this time they're not.

The FAA members come here to pursuit them is because they're in their Werewolf form, and of course Supernatural will have to be annihilated.

So what they should do instead is run, don't fight the FAA members.

No matter how feeble or weak they are, they're still forces of humanity that will jump gladly into a horde of Supernatural for humanity's sake.

But now, all of them died a meaningless death.

They died fighting against those who is on humanity's side, it completely broke Adhara's heart.

Rex approach Adhara with steady steps,

His expression is grim as he walks towards Adhara, there's a subtle vibration around Rex's body as if something was about to erupt.

Adhara steps back unconsciously feeling the pressure emitted by Rex,

She steps back slowly while looking at Rex, she unconsciously gets cornered to the wall.

Rex arrives in front of Adhara with a grim look,

BAM!!

He punches the wall right beside Adhara's head while looking at her eyes intently, "The day I almost died, I already accepted death as my fate"

"But then, a Werewolf came to mind..."

Rex gripped the cave walls as he tries to hold in his anger, "That Werewolf, the one that killed my parents in front of my eyes is still roaming until this day without worry"

"That is when I refused to die, I don't want to die, not until I killed that Werewolf with my own hands. My parents are still restless on their graves as long as that Werewolf lives", his voice started to tremble.

Remembering the grinning face of that Werewolf, the anger inside Rex boils.

"THAT IS WHY I WILL NOT RISK ANYTHING UNTIL I KILL THAT BASTARD!!", Rex shouted in anger making Adhara looks down.

SWOOSH!!

Rex vanished from his spot as he appear in front of Argus and held his head, "So, What are you going to do now Adhara? Are you going to stop me?"

Looking at this, Adhara bit her lips as she turns her head away.

"That's what I thought", Rex said brutally before he crushed Argus' head instantly killing him.

Adhara turns her head away as she doesn't want to see Argus' death, her emotion is in chaos as she doesn't know what to do.

After Rex killed Argus, they then got back to Kyran.

The Sudden Quest the system gave was completed without even killing Marcus, it makes Rex at least feel better aside from the incident with Adhara.

Not long after they're gone, Marcus found out about all of their group's death.

He checks onto all of the holes and found that not a single person is spared, it makes him punch the cave wall in frustration before he went out of the cave.

Just by looking at their death, not one of them put up a single fight.

Marcus is confident in his ability, but the Werewolves killed the groups without him realizing it speaks of their power.

So it will be safe to just report back about the incident.

~

One week passed,

After the Yule Moon incident, Rex, Adhara, and Kyran rarely speak with each other.

Rex and Adhara mainly train in the training ground on their own, their relationship becomes awkward after the Yule Moon incident.

Kyran is also training using the breathing technique he got from Rex,

The Yule Moon sparks a bloodline evolution in Kyran's body, and now Kyran evolved into an Azure Werewolf.

It is a kind of Werewolf that is surprisingly immune to the Yule Moon.

The system said that the Azure Werewolf is very rare amongst the Werewolf, and it's rare not because of a reason.

While all the Werewolves take shelter during the Yule Moon,

The Azure Werewolf will roam around the Yule Moon without any complications, and they even become stronger during the Yule Moon.

For the Werewolves, these kinds of Azure Werewolf is very respected.

The system also said that Azure Werewolf is highly respected by the Werewolves, and some even considered them as the embodiment of the Origin's blessing.

Yesterday, a crow from the SCO visit Rex at night.

It gives Rex the letter from the green messenger, the letter contains the issue of a mission for Rex and Liliya.

The mission is to get a drop of tear from a creature called Northern Black Head.

Rex thought that the mission will be easy enough but the location surprised him, it is very close to a Vampire stronghold.

So he needs to prepare,

Rex got out of the training ground with hurry steps,

It is already afternoon and Rex wanted to go to the canyon again, he wanted to level up to at least 30 before he goes onto the mission.

Aside from that,

About four days ago Rex reaches rank five, the rune on his shoulder is complete.

The black lightning becomes even easier to control, and their power almost becomes three-time more powerful than before.

Rex is currently walking back to his room,

He wanted to pack his stuff for the mission that will take at least a week to complete, he also need to bid goodbye to Kyran.

Not to Adhara though,

"Kyran, I'm going on a trip for a week or more. You watch the room for me alright, and don't forget to keep training", Rex said while packing his stuff.

Hearing this, Kyran frowns and said, "Can I come too? I want to test my powers"

Rex shakes his head, "We'll go somewhere after I come back, just wait until then"

Kyran smacks his lips in displeasure but he eventually agrees, he's not that mad at Rex because the breathing technique he got from Rex is fascinating.

He doesn't know how, but he can feel his body getting stronger by the day.

From the Yule Moon incident, Kyran surprisingly doesn't remember what happened that night.

He only remembers that he suddenly fell to the ground as pain overwhelms him, but aside from that, he doesn't remember a single thing.

Not even a glimpse of becoming a Werewolf crosses his mind.

Rex and Adhara then decided to tell him later, they lied to Kyran that he suddenly fell unconscious because he's sick.

But the doctors cured him, and everything went back to normal.

After bidding goodbye to Kyran and telling the butlers and maids, Rex went out of the room with a big bag on his back.

When he opened the door, he suddenly saw Adhara in front of the door.

Adhara widened her eyes when she saw Rex, but that surprised look turned into a curious look when she saw a big bag behind Rex.

"Are you going somewhere?", Adhara asks meekly.

Rex glances at her briefly before he walks past her, "Yep, I'll be back in a week or more"

Adhara wanted to say more but Rex was already far away, she clenches her hand softly before she walks inside the room.

She then slams her body on the bed,

Adhara hits the pillow a couple of times in frustration before she calmed down, she looks at the ceiling in thought, 'So that's how his parents died huh, wait...parents?!'

She just realized that if Rex's parents died, then Mrs. Greene and Robert are step-parent.

'I shouldn't have confronted him like that', she thought before she buried her head on the pillow.

Rex meets Ari in the lobby and told him that he will leave for a week, he also told Ari to keep a watch for Adhara and Kyran.

He didn't want Ari to come with him because he will meet up with Liliya.

The matter regarding the SCO will need to be kept a secret, no one will know about it.

After telling Ari what to do, Rex went and met with Edward that is already waiting for him in the parking lot.

Edward saw Rex before his face turns sour,

Seeing this, a smile appears on Rex's face that makes Edward's expression soured, "I believe you brought the key, Give it to me"

"Why do you have to use my car", Edward said helplessly.

Rex takes the car keys off of Edward's hand before he said, "Just because, you're my best friend", he then walks past Edward without any hint of guilt.

"Write me off of the best friend contract! I want to terminate it right now!", Edward shouted.

But Rex only chuckles before he gets in the car and left the university,

~

Ochyra University,

A girl is also packing her stuff in the room, the bag is filled with her clothes.

From the look of it, the girl is also planning on a long trip.

If Rex was here, he will instantly recognize this girl to be Rosie who is packing her stuff with a blank expression.

Her phone suddenly rings when she's packing her stuff.

She takes her phone and answered, "Hello?"

"Are you really asking permission to leave for a couple of days?", the person on the other side asks, there's a hint of skepticism in his voice.

Rosie bit her lips and said, "Yes, my friend died and she's pretty close with me"

"It's going to be hard to approve your permission", the person on the other side said, he still doesn't believe Rosie's excuse.

Rosie then pleaded, "Please, I'm not lying sir"

The person on the other side then sigh, he then finally said, "Fine, I'll approve it this time"

"YES! Thank you, sir, I'm going now", Rosie said happily before she hung up the call.

After getting permission to take a leave, Rosie continues to pack her stuff.

But just when she's about to leave, she suddenly saw a photo of Rex opening a present on her phone that makes her stop on her track.

Rosie looks at the photo with a subtle smile, "Rex...", she said softly.

The photo is a picture that Rosie has taken quietly on Rex's birthday, it is a photo of Rex opening a birthday gift from her.

She caress the photo slowly before a tear from her eyes, 'I swear that I will pull you to me again, I will not stop until we went back like we used to', she thought with determination.

Rosie then turn off her phone and left the room,

Chapter 176 Scavenger Test

Rex is currently on his way using Edward's car, but first, he must go to the UWO office first.

The border between the Supernatural and humanity is guarded heavily by the military and also other high-ranking Awakened from UWO, it will be impossible for Rex to sneak out.

That is why he needs to go to the UWO office.

In order to go out of humanity's territory, Rex needs to go through a long procedure.

The people that went out of humanity's territory are called Scavengers,

UWO will make these Scavengers sign multiple documents such as family acknowledgment, death contract, and also the time until they return.

All of this is a must because being a Scavenger is very risky and if they didn't come back in the agreed period, they will be considered dead and their bodies will not be collected.

It's a ruthless law but the Supernatural territory is just that dangerous.

By religion retrieving a dead body is a must to give their family something to mourn, but the UWO decided that it is not necessary.

Many are angry about their decision, but they can't do anything about it.

A Scavenger must be at least rank five to go out, they will not be permitted if they are an Awakened below that rank.

After about thirty minutes of driving, Rex arrives at the nearest UWO Office.

He could've just ask Vargas to approve him to become a Scavenger but he refrain from doing so,

The reason he becomes a Scavenger is due to the mission from the SCO, and it will be suspicious if Rex a student apply to become a Scavenger.

That is why Rex decided to go to the UWO himself.

He knows that eventually his activity will be found out, but it's better then than now.

The UWO Office is the tallest building in sector 3E,

The building is 60 floors tall, the tip of the building can be seen from miles away, the building is square-shaped and this place is crowded with people.

Around the UWO office, there are many military camps and also Awakened camps.

It is not an exaggeration to say that the UWO office is the most secure place in the whole sector, not even the mayor's home is this secure.

Rex went inside the building with steady steps,

He's not wearing Faraday University's uniform but rather he wears casual clothes, this will at least increase the probability of getting accepted as a Scavenger.

If he wears a student uniform, the staff will certainly make it hard for him to become a Scavenger.

"Mom, I'm going to send you a file from university, you just need to sign it okay?", Rex said to his mother, he's currently on the phone with Mrs. Greene.

Then, his mother replied, "What's it about?"

"Something about a tournament that said to be a little dangerous, so they need your approval for me to join it", Rex lied, he didn't want his mother to be worried.

He can just tell his mother other excuses, toning down the real truth, in this case, is best.

Instead of saying that he will become a Scavenger that will wander inside the Supernatural territory, he instead said that it is a dangerous tournament.

The latter is more acceptable than the first.

"Are you going to be okay?", Mrs. Greene said worriedly, the word dangerous will definitely make any mother concern about their children.

Rex then said assuringly, "I'm strong mom, did you forget?"

Hearing this, Mrs. Greene hesitated for a moment before she finally agrees to sign.

After getting his mother's permission, Rex went to the counter and ask for a Scavenger verification from the UWO's staff.

He then got guided to a place where a couple of people are waiting in line.

From all of the people that are queuing up to the Scavenger test, Rex found that each of them emits a battle-hardened aura.

Not even one of them have a weak aura, they're all like a sword that is already tempered by hundreds of battle.

Rex queues up behind them, and many of them look at Rex in shock.

They're not shocked by Rex's dominating aura, but they are surprised by his look that is very young for someone that wanted to be a Scavenger.

Only experienced Awakened wanted to be a Scavenger,

The materials such as mutated plants, mutated animals that only exist in the Supernatural territory, or even Supernatural's carcass are all valuable things.

But all of them wanted the fame of being a Scavenger, and also treasures.

Treasures are self-explanatory,

Many treasures that can evolve an element, containing spirit to assimilate with, or even mutated plants that can boost their power are certainly desirable.

Compared to the human territory where all such items already got looted, the Supernatural territory is indeed a wonderland for Awakened that wanted to become strong but have no money.

Scavengers are well respected not only by normal humans but also by Awakened.

All of them are known for their power and wits that help them survive the harsh and brutal place, and it will be easier for a Scavenger to join a high-ranking guild or even dive into FAA or UWO to be a commander of Awakened.

The standing these Scavengers has is outstanding,

"Kid, Is this your first time going through a Scavenger test?", a man in front of Rex said, his jaw is strong, and his eyes show that he's been through a lot of battles.

Rex looks at him and answered, "Yes, this is my first time"

"If I may ask, what are your reasons to become a Scavenger?", the man asks politely.

Hearing this, Rex sigh before he said, "I'd like to experience the terror of Supernatural, and also it will be great for my power development"

The man nodded his head in understanding,

He look troubled as he want to say something, he then eventually said, "You know the requirement to become a Scavenger is being a rank five right?"

Rex smiles mysteriously making the man widened his eyes in shock.

Based on Rex's look, the man thought that Rex is no older than 25 despite his huge frame.

But with the mysterious smile on Rex's face, the man realized that Rex knows about this which means that he's a rank five Awakened!

"Are...Are you being serious?", the man asks in surprise.

"Hah! There's no way such baby like him is a rank five Awakened, don't go around telling your lies kid only a fool will believe it", another guy intervenes from the back.

The guy just queue up behind Rex and heard their conversation.

His look is that of a mocking look when he heard their conversation, it is simply impossible for a 25 years old person to be a rank five Awakened.

Even a genius will take 2 years assimilating with their new element before they make their rune to reach rank five.

Gathering mana to complete the rune will also take a long time, so it's just not possible.

'For your standard is impossible, but with the system, it's so easy to reach rank five', Rex thought in his heart, he doesn't feel offended by the guy at all.

If they knew that Rex reach rank five in just a bit more than 3 months, they will faint in shock.

Rex didn't answer making the guy behind him smile in triumph, he thought that he just exposed Rex of his lies.

The man in front of Rex takes one last look at Rex before he turns away.

The Scavenger test only takes five minutes for each person,

Rex queues up motionless as the line got shorter, he then finally near the testing room enough to see the inside of the room.

On Rex's left, there's a mirror that views the testing room.

It's the man in front of Rex's turn, and Rex is curious about his power, 'Crystal Elementalist, I wonder what his power looks like', Rex thought.

While they're talking before, Rex already scans the man in front of him.

The man is called Zane and he's a Crystal Elementalist, it is a higher rank element from the earth element tree.

Not many have this element, and Rex is greatly interested in it.

Zane is in the middle of a white room with an observer on the side, they talk for a moment before a man enters the room.

The man is a peak rank five Fire Elementalist, he then stops ten meters in front of Zane.

After getting into their position, the man conjures a spell creating a huge fire saber above his head that is filled with fire mana.

Looking at this, Zane also chanted his spell.

His body glow with a red-pinkish color as red crystal materialize around him creating some kind of barrier, it reflects the light making it glow brightly.

SWOOSH!

The fire saber blasted fastly towards Zane, Rex can feel the power emitted by the fire saber.

BOOM!

It hits Zane's crystal barrier directly before it creates a huge explosion,

The observer knit her eyes while looking at the scene, and after the smoke clears out Zane's crystal barrier can be seen glowing strongly.

The fire saber didn't manage to penetrate his barrier, not even a scratch can be seen.

Rex looked at the scene in surprise,

From the scan he does to Zane, he knows that Zane is only an Awakened that just enter mid-rank five not long ago because of his low intelligence stat for a mid-rank five.

But to his surprise, Zane manage to fend off an attack from a peak rank five Awakened!

This shows truly the power of a defense-based element like the Crystal element, not even a higher rank Awakened attack can penetrate this.

After testing his power, Zane then came out of the testing room.

Rex then walk inside the testing room after Zane got out, it is his turn now and he already somewhat guessed the test.

But before he got inside the testing room,

"Good luck kid, with your rank five power you will certainly pass the test smoothly", the guy behind Rex said sarcastically.

Rex ignores the guy and went inside the testing room with confident steps.

"What is your rank?", the observer asks.

Rex glance at the observer before he answered, "Early Rank Five, Black Lightning Elementalist"

Hearing this, the observer nodded her head before she said, "What kinds of test will you choose? Power test? Defense test? Or Versatility test?"

"Versatility test", Rex replied nonchalantly.

"The specification of the test?", the observer asks again.

Rex thought for a moment before he said, "Multiple targets"

After getting Rex's answer, the observer talk through her earpiece before four chained mutated rhinos came out of the other room.

Their skin is filled with hard blue scales, their eyes are red with hulking bodies, and they have six brawny legs instead of four.

Seeing this, Rex scans the rhinos and finds that they're all early rank five.

"You may begin", the observer said as she steps back.

The rhinos got released from their chains just after the signal from the observer,

ROAR!!

Without a moment of pause, the four rhinos charge at Rex as their animalistic instinct to run away kicks in.

Looking at this, Rex smiles.

His body glows with a yellow hue as he activated his force power,

This scene greatly shocks the observer and even other people that watched Rex from outside, it's almost unbelievable for someone to achieve the yellow Force.

One needs to train their body like a madman to just comprehend Force, let alone Yellow Force.

"Black Field Orko"

ZOOM!!

The ground suddenly turns pitch black after Rex chanted his spell, even the observer looks at the ground in shock when she feels the lightning mana in it.

It's overwhelmingly dense and she realized that the Black Lightning is a Peak Great Element!

'Such power for his age, he must be a genius from a high-ranking family', the observer thought as she look at Rex in awe.

BLITZ!

Black Lightning zapped out of the black ground hitting four of the rhinos.

The rhinos got electrocuted as their body becomes stiff, and black whip-like lightning wrap around their body holding them in place.

It happened in less than five seconds, all of the rhinos got stopped by Rex.

His fist then glows with a yellow hue, "Force Beam!"

BOOM!

Rex punched the air sending four Force Beam towards the four rhinos,

The Force Beam hit the rhinos right on their head and penetrate through it, their hard scale didn't put any resistance to the Force Beam.

Strength-wise, Rex is comparable to a mid or even peak rank five.

So the rhino who only has early rank five power have no chance, the Force Beam pierced through their head and destroyed their brains.

BRAK!

The four rhinos fall lifeless as Rex retract his spells,

Rex looks at the observer who is still in shock before he puts his hand on his pocket and left, he didn't even need to hear the observer's result.

The guy that mocked Rex before was stunned to his core, he looks at Rex in disbelief.

He then realized that he said many offensive things to Rex as he put his head down, he saw Rex approached him after getting out of the testing room.

It makes his heart thump uncontrollably,

The power Rex shows inside the testing room proves to the guy that Rex is stronger.

He lowers his head afraid that Rex might mess with him, but to his surprise, Rex only stops in front of him before Rex walks past him.

Not even a single word came out of Rex's mouth,

But before Rex disappear around the corner, the guy bowed and said, "I'm sorry for my ignorance!"

Hearing this, Rex smiles lightly before he left.

Chapter 177 The Great Barricade

After the rank test has ended, Rex was given a bunch of papers by the staff.

The paper is exactly like what he search on the internet, the time inside the Supernatural territory, family acknowledgment, and death contract.

Rex speed-read all of the papers and finally get the gist of all of it,

The first contract contains a statement of Rex's identity, his current power result from the test before, the amount of time he will spend in the Supernatural territory, and which part of the Supernatural territory will he visit.

All of this will summarize Rex and his purpose in going to the Supernatural territory.

The second contract is the family acknowledgment contract that will have to be signed by a family member, their identity, and their status to the Scavenger.

Mrs. Greene or Robert must sign the contract as proof of approval from family members.

The last contract that Rex needs to sign is the death contract,

When Rex searched the procedure on the internet, he found that the death contract will need to be signed in case he didn't come back.

But turns out, a Scavenger can pay for them to be searched if they didn't come back in a certain period of time.

The fees are for the retrieval team, they will search for Rex's whereabouts if he doesn't return in the time stated in the contract.

This greatly shocks Rex because it's a surprise to find someone willing to work like this.

Searching for a corpse inside the Supernatural territory is a really dangerous job, and turns out there are people mad enough to work this job.

'The fees are outstanding, \$5 million must be paid in advance?', Rex thought.

For the danger of the retrieval team, the payment sure is high enough for these madmen to take the job offer.

After filling the contracts out, Rex submits his contract to the staff.

The staff read through Rex's information while submitting it to the computer, but then the staff frown when he looks at the second contract.

"Rex Silverstar, Are you the only child of your family?", the staff asked.

Hearing this, Rex nodded his head.

The staff then said with a straight expression, "I'm sorry sir Rex, but the rules stated that the Scavenger must not be the only child of a family. We cannot accept you as a Scavenger"

Rex frowns, he studied the staff's expression before he got an idea.

He sneakily takes out a pouch that he took from his pocket, "There must be something you can do to help me", he said while giving the pouch to the staff.

The staff takes the pouch and looks inside it,

A smile then appeared on his face before he said, "I'll do what I can to help you, please wait a moment"

After about ten minutes, Rex got approved as a temporary Scavenger.

He's worried when the staff said that he can't become a Scavenger due to the family rules, but thankfully, with a bribe of five high elemental stones, he manages to get through.

Rex then got back into his car,

With the Temporary Scavenger license in his hand, he then drives to the border.

The journey to the border between the Supernatural and Humanity is long, it is even further than going to a level four-city.

In order to go to the border, Rex needs to go through Border Toll.

The UWO decided to make Border Toll to facilitate the road to the border if there's a crisis in the future, and that is why Rex go through this Border Toll.

If he goes by regular roads then the journey will take almost three days by car,

Border Toll, on the other hand, will shorten the time to arrive at the border to just more than a day of traveling.

The car moves super fast as its speed reaches 300 mph, it will approximately take about 20 hours of driving until Rex reaches the border.

It is already night,

Rex scratches his eyes as the car went into autopilot,

He opens the car window and can feel the harsh wind blowing past the car, he then sets the autopilot mode to reduce the speed.

After the car slowed down, Rex looks outside and saw the moon shining brightly.

For the second time in his life, he will be going to the territory of his most hated creature on this world, the Supernatural.

But every time he thought of it, he also remembered that he's one of them.

Rex always declines his train of thoughts and convinces himself that he's just a Supernatural in the flesh, but in heart, he will be forever a human.

Other cars can also be seen in the Border Toll, and all of them are Scavengers.

As the night wind blowing inside the car,

The moonlight also gives a warmth to the cold wind as Rex closes his eyes, he felt uneasy the closer he get to the border but his body quickly relaxes under the caress of moonlight.

In the end, he finally fell asleep.

After hours of autopilot driving, Rex opens his eyes when he heard a notification from the car.

"Arriving at destination in 20 minutes"

Rex opens his eyes as he saw a huge wall at the end of his vision,

The wall is the entry point into the border where the war is still going, many military cars, mobile artilleries, and even military aircraft can be seen left and right.

From here on out, the shelter of peace is no more.

This is where the fight happened just like Rex's last mission where it almost killed him, the scene brings some bad memories from his past.

Rex's car got stopped by the military,

Four people from the military stopped Rex's car with weapons in their hands.

It's been only more than three months since Rex got out of the military, but the weapons they're holding are not familiar to Rex at all.

Even during the Orc mission, the firearms there are different than this one.

The weapons they held is more advanced and look more deadly, Rex then scans the weapon.

<Little Guy>

Automatic Rifle that uses enhanced bullet created from Mutated Animals, or even Supernatural. It can pierce through solid steel easily, and it is designed to be used for a long period of time.

Firing Mode: Automatic

Power: 900 - Equivalent to a rank four (Mid)

Reading this, Rex widened his eyes in surprise.

The gun they are holding is equivalent to a mid-rank four Awakened attack! It's groundbreaking enough that catches Rex in surprise.

If all of the military men use this, rank four Supernatural will be obliterated easily.

The only thing that can protect these rank-four Supernaturals is only by using a defensive spell or an armor that is strong enough to block that bullet.

But for Supernatural that is more of a brute than a thinker, they can be easily dispatched.

One of the military men signal Rex to roll down the car window,

Rex nodded his head and rolls down the window before the military man said, "Show me your license please"

Hearing this, Rex takes his temporary Scavenger license and gives it to him.

While the military man in front of Rex is checking his license, the other military men open Rex's trunk and check inside the car.

"Why do my car have to be checked?", Rex asks.

The last time he's here, he knows that there's no such procedure to check the inside of someone's car when going to the border.

So this makes Rex curious about the reason for the change,

The military man in front of him then replied, "Some jackass tries to sneak in unlicensed people, that is why we have to check the inside"

Rex shakes his head, 'Some people are just too much', he thought.

After getting all of the necessary things checked the military man in front of him let Rex through, "Sorry for the inconvenience, you can pass and follow the instruction inside"

20 minutes later,

Rex already got out of the car after he parked it in the parking lot,

The place he's currently in right now is not the actual border but rather the last defense line of humanity, it's still miles away from the real border.

This place is called the Great Barricade,

The Great Barricade is a place where food, firearms, and hospitals are stored and kept.

It is basically a place where the military and Awakened that fight in the war rest and resupply their war needs, a safe haven of some sort.

But Rex was not here for this place, he will be going inside the Supernatural territory.

Unlike humanity's border that has a very long wall that will act as a defense from the Supernatural that tries to sneak in, the Supernatural side only has a scouting post.

So sneaking inside the Supernatural Territory is more probable than going to human territory.

But of course, it is hard to maintain the long wall.

Immense manpower is needed to keep an eye on the very long wall that the humans don't have, that is why incidents like Zrolis City happened.

To get to his designated place,

Rex will be escorted by a military man that is assigned to transfer Scavengers to their designated location, he just needs to go to the compound.

But before he goes there, he must meet up with Liliya first.

"Where can I find her in this place? She should be a Scavenger too right?", Rex thought.

He then went to the Scavenger camp that is used for Scavengers to wait and rest, it is located on the right side of the place.

Rex looks around the place and frown when he saw that the place is crowded.

From the danger of the Supernatural Territory, Rex thought that the Scavengers are only a handful of people that have the guts to embark.

But to his surprise, the tempt of treasures and fame pull many into this place.

Scavengers from veterans to beginners like Rex are scattered around the place, and it is hard to locate a person in the midst of the crowd.

After searching for fifteen minutes, Rex walks out of the Scavenger Camp with a frown.

He forgot that Liliya has no phone and it is hard to track for her, 'The SCO must've done something for this problem', Rex thought.

Rex looks around but now he's not looking for Liliya,

But just after he turns his body to the back, he suddenly saw a crow sitting on a tree branch looking at Rex from afar.

After Rex spot it, the crow flaps its wings to the side.

Looking at this, Rex started to follow the crow thinking that it will guide him to Liliya.

And true enough, he saw Liliya sitting on a bench just beside the compound where they will queue to get escorted to their designated part of Supernatural Territory.

"LILIYA!!!", Rex shouted.

Liliya heard his call as she looks around trying to find Rex, their eyes then meet before she too approach Rex.

"Where have you been? I've been waiting for days already", Liliya said.

This makes Rex scratches his head feeling guilty, 'I'm grinding exp in the canyon and forgot about Liliya, I think I'll buy Liliya a phone later'

Rex then said, "Sorry, got things that I need to do before going here. Well, shall we move on?"

Liliya nodded her head before they go to the compound to be escorted,

After about an hour of waiting for their turn, it is finally their turn to be escorted.

The part of the Supernatural Territory that they will be going to is called, Lightless Marsh which is located west of the Barricade Wall.

<Rex Silverstar>

Pack: Silverstar (2/2)

Level: 28 (8,105,000/15,000,000)

Race: High Werewolf

Full-Moon: 7 Days - Violet Moon

Berserk: 47%

Sanity: 40%

Mental: 51 (+32)

Strength: 137 (+78)

Agility: 95 (+10)

Endurance: 68 (+31)

Intelligence: 236 (+20)

Attributable Stats: 3

Looking at his stats, Rex nodded his head in content.

Although he wanted to reach level 30 before going to this mission, leveling up to level 30 has proven to be a hard task for Rex.

Reaching rank five greatly increases his stats, it looks insane now especially his intelligence stat.

The Horn of Red Dragon that he gets from completing the pursuit mission also gives him a substantial Claw Exp, increasing his Claw level greatly to level eight.

His Black Lightning also attribute to the immense increase of his Agility and Endurance stat, he became very strong because of his breakthrough.

After putting the attributable stats into mental,

Rex takes a deep breath inside a military armored vehicle, he then exhales as the car drive into the Supernatural territory.

His expression turns fierce as he enters Supernatural territory,

This is the time where Rex will study the Supernatural territory, this place will definitely be a battlefield for him in the future.

Chapter 178 Veteran From The Great War Of Dwight City

While they are getting escorted by the military to Lightless Marsh, the place is barren with nothing more than rocks and cracked lands.

There are a couple of huge rocks that stand like mountains and also abandoned buildings amidst the nothingness of the barren land.

Rex looks to his surrounding before he sighs,

The barren land was once a metropolitan city that filled with people,

All of them are minding their own lives as they struggle in society, the mental health of these people is rock bottom but turns out they should be grateful for their condition.

The first time when the Supernatural emerges, this barren land was where the nightmare start.

Supernatural that measure from all sizes emerge from the ground, sea, and even some fall from the sky like a meteor.

At first, the Supernatural was shocked when they saw so many humans around them.

Some even started to run away from the places when they saw humans,

But then one Supernatural unconsciously smack a human and killed that human instantly, and right after that the Supernatural turns into fierce animals.

They instantly turns the city into a brutal brawl, chaos engulfed the city.

Citizens from young to old can be seen running around the places, they are running for their lives as the Supernatural went berserk.

The Supernatural pent-up anger that is held within them burst upon seeing humans.

Nothing was left, not even a single soul was left after the military takes back the city after a grand fight against these Supernatural.

And from there, all went downhill.

'I can't believe the war still hangs around for years', Rex thought with a sigh.

Although he's not from this particular city, it is the first news that got broadcasted on live television that sent the world into chaos.

Finally, half of the world got taken from humanity.

The journey to the Lightless Marsh is a long one, and it will take another day time to arrive at the place if there are no mishaps.

They already went past the border and embark inside the Supernatural Territory.

Rex and Liliya become alert right after they enter the territory.

This place is not a safe zone anymore but rather an enemy zone, so they need to keep their guards up because anything can attack them now.

The military vehicle went past the right side of a scouting post slowly,

Some Supernatural can be seen from afar, but the vehicle thankfully is designed to make as little noise as possible.

Two military men are inside the vehicle with Rex and Liliya.

It is another day in the war for them, and the invisible scar they got from the fighting against Supernatural can be seen through their eyes.

"Thank you", Rex said shocking the military man beside him.

The military man looks at Rex before he asks, "I'm sorry?"

"Thank you for fighting against Supernatural for us", Rex replied clearly.

From the look of the military man in front of Rex, he's probably around 28 or early 30s.

But even though he looks hardened from the outside because of the war, Rex can feel the overwhelming frustration inside him that wanting to burst.

Just after hearing what Rex said, the military man unconsciously shed a tear.

It comes out as a surprise because it's not under his control, but rather his body unable to hold onto the tear that he save for so long.

Realizing that he's crying, he turns his head away and wipes his tear.

Liliya from the side also shows a sympathetic look because she knows that the military man in front of Rex doesn't have a choice, he might even be forced to join the military during the desperate times.

The drive went silent again as the driver look at Rex from the rearview mirror.

He knit his eyes before he asks, "Are you also from the military?"

"Yes, my name is Rex Silverstar from the Ghoul Den mission in Dwight City", Rex answered calmly, his past is not something that he would keep a secret.

Hearing this, the driver widened his eyes in surprise.

"I'm...I'm from the 6th Infantry Battalion under General Shin that was sent to reinforce the Great War of Dwight City", he said with a shocked look.

He then suddenly shouted, "THANK YOU FOR YOUR SERVICE SIR!!", he slightly bows his head.

"No need to thank me, I'm just doing my duty", Rex said with a smile.

The driver turns out to be one of the infantry in Dwight City,

Rex's last mission during his time in the military is to destroy a Ghoul Den that contributes greatly to the Dwight City war, and he manages to blow them to pieces.

This was the Medal of Honor he got came from,

His and his comrade's deeds greatly reduce the casualties in the war where normal humans dominate humanity's forces, and the driver is one of the people Rex saved.

"No sir! On behalf of the 6th Infantry Battalion, I want to say thank you. My comrades will definitely do the same upon meeting you", he said with a determined expression.

The reason he's still breathing today and escorting Scavengers is because of Rex.

In his heart, Rex will forever be someone he would look up to.

Rex smiles genuinely and accepts the thanks from the driver, there's no reason for him to decline such a genuine thanks from someone he saved.

But then,

"WATCH OUT!!", Rex shouted.

SCREECH!

The military vehicle's tire makes a screeching sound before it flipped to the side.

BOOM!!

Rex suddenly saw a big hulking figure charging at them from the side, he can't see the creature clearly but it is certainly big.

The creature hit the vehicle directly and flip it to the side.

"Arghh! Are you okay?", Rex asks the driver and the military man in front of him.

Although the hit was hard, an Awakened like him and a gifted like Liliya will certainly survive the crash but not the two normal military men.

\*COUGH\* \*COUGH\*

He got hit by the metallic door that caved in after getting hit by the creature, his stomach is stabbed by a sharp metal created from the collision.

The military man on the other hand is okay, he only hit his head because of the impact.

CLANG!!

Rex punched the door of the military vehicle, it flung away easily because of his punch before he, Liliya, and the military man got out.

After getting out, "Check on the driver! Keep him alive!", Rex said.

Hearing this, the military man nodded his head but got stunned when he saw the creature in front of him that is hulking.

Rex and Liliya look to the side and find a Minotaur standing in front of them,

"Humans! Do you think you can pass to our territory that easily?, the Minotaur said harshly, its bulging muscle and fierce eyes sent shivers to the military man.

But that doesn't apply to Rex at all,

Rex already scans the Minotaur as his face darkened, "Liliya can I ask you to protect both of them?", Rex said slowly.

Hearing this, Liliya nodded her head.

She never see Rex's expression this mad before, she even felt threatened by Rex's aura, 'Isn't he just a rank four before? How can I feel threatened?', she thought.

Blitz...

Black Lightning started to appear sizzling on Rex's body,

"An Awakened huh? Do you think you scare me with that little lightning of yours?!", the Minotaur mock, he doesn't felt concerned at all.

BOOM!

Rex's Black Lightning suddenly turns fierce, the ground cracked under the black lightning's pressure.

The little spark of Black Lightning turns into a fierce Black Lightning that emits horrifyingly dense mana, the rune on Rex's shoulder glow in a dark light.

The sudden change caught the Minotaur off guard, "Wait!", he shouted in shock.

"Flash"

BLITZ!

In the blink of an eye, Rex disappeared and appeared in front of the Minotaur's face.

The Minotaur widened his eyes in surprise, his body can't react to how fast Rex's movement that even his eyes can't see.

Rex's hand already grab the Minotaur's head, he then whispers, "You should be"

BOOM!!

The ground cracked creating a web-like crack as Rex slam the Minotaur on the ground, it was a powerful slam that even the internal organs of the Minotaur shook heavily.

"HUAKH!!", the Minotaur spat a mouthful of blood.

Its skull already got cracked by Rex's might, and its head got planted on the ground roughly.

Rex mount on top of the Minotaur with a fierce gaze, he positioned himself before he started pounding the Minotaur crazily.

BAM!

BAM!

BAM!

The Minotaur can't do anything under Rex's pounding, he's clearly outmatched with Rex.

Every punch Rex landed on the Minotaur's face is like a mountain hitting at the Minotaur repeatedly, the sound of flesh hitting flesh reverberated to the surrounding.

Under such pounding, it didn't take long before the system notification rings.

<Killed a Peak Rank Four Minotaur, Obtained 100,000 Exp>

After killing the Minotaur, Rex retracts his bloodied hand from the Minotaur's face that is already hard to look at by now.

Not a glimpse of the Minotaur's normal look can be seen.

Blood decorates him, Bone can be seen through his ripped flesh, and even his teeth and horns broke with little to nothing left.

Anger can be seen through Rex's eyes, even Rex didn't know why he's this angry.

He then walks towards the military vehicle and finds that the military man already standing beside the vehicle door,

The military man then shakes his head towards Rex making Rex's expression grim.

Rex approached the military vehicle and peek into the driver's seat, there he found the driver is clinging to the rope of life because of the sharp metallic object that pierced through him.

His face is pale and his pain can be seen through his face.

The driver looked at Rex who is looking at him with immense guilt,

If Rex hadn't been caught off guard stay alert, the driver may just be still fine because he can sense the Minotaur coming towards them.

But the conversation they had before distracted him,

"It's okay, no need to blame yourself for this", the driver said weakly.

Rex can only hear his last words as he stood by the car window, if he opens the car door the sharp metallic object will be pulled out of the driver's body and will instantly kill him.

The driver then look up to the sky with a smile,

He remembers the days he spent in the war and saw many of his comrades die before him, and he always curse himself for that.

Many good people died in vain while he was still alive until now, it's just not fair.

"The day I survived the Dwight City war, I always thanked you in my heart and also grateful that I'm still alive", the driver said with a slight chuckle.

He then continues, "Although I survived, many of my comrades don't. From then on, I always thought the life I have left since the Dwight City war is just a bonus"

"I bid my family goodbye one last time and dedicated myself to the military, dreaming that one day humanity will return to what it used to be. Peaceful, Beautiful, and... \*Cough\* \*Cough\*", the driver coughed painfully.

Rex already bought an elixir from the shop wanting to help but the driver raised his hand and declines,

The driver can feel his time is near, "Do you think...my dream will come true?"

"Yes, I'm certain it will come true!", Rex said while holding the driver's hand, he felt a connection with the driver but his time is already up just after Rex met him.

And to his surprise, the driver had already breathed his last breath.

Rex shook his hand a couple of times before his eyes burned with determination, "I know your dream will come true, no, it has to"

After ten minutes or so,

They resume their journey leaving the grave of the driver there, Rex and the others personally dig his grave to at least put his corpse in peace.

Beside the grave, there's a spear planted on the ground with the Minotaur's head on the tip.

It is a foolish move by Rex to leave behind a corpse of a Supernatural that will expose him later, but he wanted the Supernatural to come for him.

He wants them to know, Destruction of the Supernatural is here.

## Chapter 179 Lightless Marsh

Rex and Liliya arrives at the Lightless Marsh,

The place is a swamp and just as the name sad, it is devoid of light with ink-black trees that have no leaves can be seen filled the place.

With just a glance, one can tell that this place is not habitable.

Although the Lightless Marsh is moist, dark with shallow water wherever Rex's feet land, the place is full of mutated animals.

Rex can sense many mutated animals around him, and staying here is a task of its own.

"Will you be okay going back alone?", Rex said to the military man.

He then continues, "The death of the driver will make you go back alone, are you up for it?"

Hearing this, the military man smiles assuringly and said, "His name is Gustavo, and yes I will be okay going back alone you don't have to worry"

"Gustavo huh...", Rex mumbles before he bid the military man goodbye.

The dead driver's name is Gustavo, and Rex will remember him as a true fighter of humanity.

After the military man leaves silently, Rex and Liliya walk into the Lightless Marsh with a map in Liliya's hand.

"You don't look surprised", Rex said.

Liliya look at Rex with a questioning look before Rex continues, "Seeing that I'm an Awakened"

This is the first time Liliya saw him using his Black Lightning element, and he didn't even try to hide it anymore because the SCO definitely knows about this.

And knowing her, she certainly didn't watch Rex's tournament before.

"The Green Messenger told me", Liliya said nonchalantly.

Hearing this, Rex slightly widened his eyes in worry.

He wanted to ask for more but then, Liliya added, "He said that you're an Awakened, but you will still be a member of the SCO organization"

Rex nodded his head,

Liliya seem to also doesn't like Awakened, but thankfully she doesn't act weird around him.

It will break the team more if Liliya becomes weird to Rex, especially after Devan got kicked out of their team after the SCO realizes that he's not a human.

Although Rex looks calm, his head is filled with thoughts, 'Will I be put in a different team? Why did they let me off so easily?'

But soon, Rex shakes his head and focuses back on the mission.

He's currently not in the human territory, so anything could happen and he will not be rescued by anyone if he's in danger here.

"Do you know of these Northern Black Head?", Rex asks changing the topic.

Back when he's in the university,

He didn't have the time to check on this creature on the internet because of the canyon, and he has never heard of these Northern Black Heads in the university.

It should be a low-ranking one, because Rex has never heard of it.

Liliya look at the map and said, "All the Green Messenger told me is that, their body is covered with a black hood and their legs are white tentacles"

"Black hood? Is that somekind of clothes for them?", Rex asks.

Liliya shakes her head, "It's their skin, their skin somehow mutated and creates a black hood that covers their face"

Hearing this, Rex frowns.

"And we have to get their tears? Without even knowing how their face looks like?", Rex said with a troubled look.

Rex then continues, "And what is this creature capable of? Did the Green Messenger told you about it?"

Liliya pause as she's reading the map before she answered, "The tear is said to have some kind of hallucination properties, but I don't know the details"

Rex then put into thoughts, 'What are they trying to achieve here?'

He also thinks about how to extract their tear,

If these Northern Black Heads have eyes, then it will be easy for them to extract their tears.

Such a way is to rip their tear socket from their eyes or poke their eyes to force the tear out, but that only applies if they have eyes.

So they need to see the creature first before finding a way to extract their tears.

'I'll just ask the system later, the system will probably know', Rex thought.

In these kinds of times, it's okay for him to rely on the system.

So far, the system has never been wrong when it is assessing Supernaturals or even humans so he believes that the system knows of this as well.

Liliya points to the left before she said, "We'll just have to take a look first, it shouldn't be that hard because they're only a low-ranking Supernatural"

After saying that, both of them walk carefully inside the Lightless Marsh.

Their shoes are already wet and muddy because of the terrain, and it becomes even more slippery the more they go deeper.

Mutated birds with gruesome eyes are hawking at them from the trees,

But Rex and Liliya ignore them because they are unlikely to attack, they're not that dumb enough to attack something stronger than them.

PLOP!

"Hmm?", Liliya frowns before she looks to her feet.

Her feet felt something under the shallow water, she wanted to take a closer look before suddenly,

SPLASH!

Rex looks in Liliya's direction and finds that she suddenly disappears from his sight, something pull her inside the water.

It caught Rex off guard because he thought that the water is shallow,

So there is no way they got pulled inside the water, the water only covers their feet so this situation shouldn't happen.

"LILIYA?!", Rex shouted.

He tries to jump into the water but before he has the time to,

SPLASH!

Liliya came out of the water with heavy breaths, she looks around trying to find Rex before she said, "I'm okay, the water is deep here and for some reason, it is heavier to swim up"

Hearing this, Rex tries to step closer to Liliya and find out that it's true.

He can feel his feet clinging by the end of a cliff or some sort which mark the water becomes deep, 'No wonder, she must've slipped'

They then try to circle around the place and manage to find another shallow water.

Because of the incident before, they proceed their journey with extreme caution knowing that there is deep water here and there must be something down there.

It doesn't make sense if nothing lives in these waters.

After walking for a couple of hours, "We need to find a shelter, it will be bad if we have to rest in this kind of terrain", Rex said.

Hearing this, Liliya nodded her head in agreement.

The place is filled with mutated beasts, but many of them for some reason only look at them from the side without attacking them.

It's like they're afraid of the murky water, and they prefer jumping from tree to tree.

Rex and Liliya are thankful because of this, they don't need to fight mutated beasts that will attract stronger ones.

It will be bad if they attract other stronger ones, and it will be worst if they meet Supernatural here.

Finding a shelter here proves to be difficult,

Nothing like some land or even a rock that they can sit on came to their vision, only endless swamps with dead black trees filled this place.

"There! We probably can rest there", Liliya said while pointing at a tree.

The tree is thicker and bigger than the others, and it will certainly be able to sustain both of them.

They then climb up the tree after Rex clears the big three,

As they observe before, the mutated animals here like to jump from tree to tree so for this big tree they're currently on there are many mutated bugs, lizards, and other animals that need to be cleared before they rest.

"I'll keep a watch for the night, you go on ahead", Rex said.

He doesn't need sleep as normal humans do, so keeping a watch for him will be easy.

Liliya didn't argue as she touch her arm before a red mark appeared, she then also put another red mark on Rex's arm before a notification appeared.

<Stats has been increased by 20%>

After doing that, Liliya lie down on one of the branches and closed her eyes.

The journey here is tiring, and she even waits for Rex for days in the Great Barricade so that must've made her tired.

'Let's just meditate then', Rex thought before he closes his eyes.

~

Meanwhile, Faraday University.

Kyran is currently meditating using the breathing technique given by Rex, he's intoxicated by the feeling of getting more powerful.

He's sitting on the bed while closing his eyes while Ryze is lying on the corner.

Ryze already came back from the infirmary and he already recovered from the incident before, but he still feel afraid of being close to Kyran.

That is why he's on the corner of the room with a pillow.

He doesn't want to sleep in the same bed as Kyran fearing that Kyran will hit him again,

There is another bedroom inside Rex's spacious top-ranker room, but Ryze still hasn't asked permission from Rex yet so he can't sleep there.

Ryze can only sleep in the corner of the room with a meek look,

If someone was to see this, they will be pity Ryze to live with a group of Werewolf that he doesn't even realize yet.

On the other room,

Adhara is sitting on her bed meditating,

She looks graceful sitting on her bed while the moonlight illuminating her, but then her eyes tremble as she opened them.

After opening her eyes, she slam her body on the bed feeling tired.

She touches the bedsheet on her side feeling weird that Rex is not here, and she is all alone in this huge bedroom.

Adhara then started to play with her fire elements to improve her control.

The purple fire blaze on her hand beautifully like a dancing beauty, she tries to condense the purple fire into a ball shape but she suddenly frowns.

She tries to condense it more but it is so hard, she can only condense it to as big as a volleyball that is still not enough.

Feeling that this is a challenge, she sits up and tries to condense it.

The frown on her forehead becomes even evident as she tries to condense it, but the purple fire refuses to as if they didn't want to be condensed.

Adhara tries for almost half an hour before she finally gets the hang of it.

'This time, I think I can do it', she thought before she summon her purple fire again.

The purple fire dances on her hand before it turns ball-shaped, then Adhara grit her teeth and tries to condense the purple fireball smaller.

Her hand started to tremble as she desperately tries to reduce its size.

The purple fire resisted heavily unwanted to get anymore condense than it already is, but Adhara forced it even more.

When suddenly,

SWISH!!

The purple fireball is condensed as small as a tennis ball, and it started to glow brightly.

Adhara's interest was piqued as she look at the glowing purple fireball, she never saw this happening to her element before.

She tries touching it when suddenly,

BOOM!!

The purple fireball exploded burning Adhara and the bedsheet, it shocked Adhara for a second because of how sudden it is.

CLANK!

Adhara recovers from the explosion as she kills the burning purple flame.

She fans the smoke from the burn bedsheet away before suddenly she saw something, there is a purple stone that appeared on the bed suddenly.

From the energy it emitted, the stone is definitely created by Adhara's element.

Adhara takes the stone and brought it closer to her face, she studied it for a minute before she widened her eyes in shock, 'This is...'

Chapter 180 Dark Monkeys And The Black Leaves

Rex opens his eyes after an hour of meditation,

He looks up to the sky and found that he can't look at the sky, he even lost sense of time because of the thick fog covering the sky.

Notification from the system is the only thing making Rex keep track of time.

'This fog, are they always been there?', Rex thought, he frowns as he somewhat remembers that the sky before is not covered with this thick fog before.

But then,

Swish Swish...

The sound of something jumping from tree to tree can be heard,

Its rustling sound becomes evident as the thing got closer, Rex already stands up to prepare.

From the end of his vision, he saw red eyes glaring in his direction.

Rex wanted to see what this creature is but the darkness covers its body, he can't see it even with his night vision ability.

He already takes out the Black Devil Gloves expecting a fight,

AKH AKH AKH!!

The creature makes a strange noise that makes Rex alert, from the sound of the strange noise the creature is certainly calling for others.

Without wasting a single second,

"FLASH!"

BLITZ!

Rex disappears from his spot as he jumps from tree to tree towards the red eyes creature, he leaves a black streak of lightning wherever he goes.

The creature saw this as it jumped to the side avoiding Rex attacks,

BOOM!

The tree where the creature was before got destroyed by Rex's punch, it collapse to the side before Rex jump to another tree.

He then look at his front and saw the creature he's dealing with,

<Dark Monkey>

Race: Mutated Primates

Power: Rank Four(Peak)

Mental: 60

Strength: 83

Agility: 138

Endurance: 47

Intelligence: 0

Looking at this, Rex's body glows with a yellow hue.

He activates his yellow force as his movement is slower compared to the Dark Monkeys, and with the help of Liliya's mark, Rex becomes even faster.

SWOSHH!

The Dark Monkey widened its red eyes as he saw Rex bolting towards it,

It stretches its long black furry hands as it jumped to a nearby tree and grabs the tree trunk, it started running away from Rex.

Rex studies the Dark Monkey as he tries to close their gap,

The Dark Monkey jumped to the right tree with its nimble moves but Rex already anticipated this.

SLASH!

He slashes the Dark Monkey cutting its right arm cleanly,

ROAR!!

The Dark Monkey roared in pain as it landed on another tree trunk, it saw that his arm got cut off before he glares at Rex.

Rex looks at the Dark Monkey mockingly,

But then, he saw the Dark Monkey also sent a mocking look to him.

'Why is it smiling like that? Its hand just got cut off', Rex thought.

But then, he remembers something, 'Shit! I unconsciously got separated from Liliya!'

BLITZ!

Rex run back towards Liliya like a madman,

Chasing the Dark Monkey unconsciously brought Rex far away from Liliya, he didn't expect the Dark Monkey to have this sort of intelligence.

<The user's stats has been decreased by 20%>

Reading the system notification, 'Liliya is in trouble, she just retracts her mark', Rex thought.

BOOM!

BOOM!

A loud explosion can be heard as Rex got closer to Liliya, he picks up his pace fearing that Liliya got ambushed by the Dark Monkeys.

Arriving at the scene,

Rex saw Liliya battling countless Dark Monkeys that came out of nowhere,

The Dark Monkeys leaped towards her but got blocked by a red symbol that appears every time they got close, the red symbol then emits sinister energy before it exploded.

KABOOM!

Many of the Dark Monkeys got blown away by the explosion,

It is a very effective skill to fight multiple opponents, but Rex can see that it takes quite a toll on Liliya's body to use it repeatedly.

FLASH!

Rex appear mid-air beside the countless Dark Monkeys before he started to massacre them.

The Dark Monkeys are fast-mutated animals but when caught off guard, they are no more than chickens especially with such low Endurance stat.

SLASH!

BLITZ!

SLASH!

With Rex's speed and the momentum from the black lightning, Rex jumps from tree to tree as if there's glue on his shoes.

Dozens of Black Monkeys were killed by Rex, they're caught in surprise.

"Are you okay?", Rex said as he appear beside Liliya while still looking cautiously at the Dark Monkeys around them.

They all have burly bodies with grey fur around their necks,

Razor-sharp fangs can be seen sticking out of their mouths as they pound their chest in aggression, they seem to want to battle still.

Liliya and Rex put their backs against each other before she said, "Where were you? I got attacked when I'm sleeping"

Rex looks at her and found an injury on her stomach, she got clawed by the Dark Monkeys.

"Try to reserve your energy, I can fight them all as long as you stay safe", Rex said before his body started to sizzle with Black Lightning.

But then,

CRANK!

A big monkey suddenly appear amongst the Dark Monkeys,

And after the sudden appearance of the big monkey, all of the other Dark Monkeys started to pound their chest in excitement.

ROAR!!

The big Dark Monkey roared as it spread its bloodlust,

Rex saw the Dark Monkey that got slashed by him before beside the big monkey, and it seems to whisper to the big monkey before its red blazing eyes fall onto Rex.

"That little snitch, bringing the big guy eh', Rex thought in contempt.

But then,

<Sudden Quest>

Dark Monkeys

The user just got surrounded by Dark Monkeys that inhabit the Lightless Marsh, their numbers are countless and they will not stop until the user is dead! Kill the leader of the Dark Monkey to break their spirit and send them away!

Quest Reward: Lightless Leaves, 5,000,000 Exp, and 5 Skill Upgrade.

Reading this, Rex's fighting spirit boiled.

As the system said, if the big Dark Monkey hasn't come then he will have to fight an unending battle with the Dark Monkey.

So by the arrival of the big Dark Monkey, it is more like a blessing than a curse.

He looks at the snitching Dark Monkey before he swipes his thumb on his neck, signaling to the snitching Dark Monkey that he will definitely kill it.

Looking at this, the snitching Dark Monkey smile in contempt.

ROAR!!

The big Dark Monkey roared as he pounce towards Rex with bloodlust, the tree trunk got destroyed by his power.

Liliya looks at Rex in concern but her guts tell her otherwise,

From the display of power, Rex has shown before, his power is definitely already surpassed her making him stronger than Liliya.

So looking at the big Dark Monkey that has a rank five early or mid-power, Rex will definitely be fine.

HU! HU! HU! HU!

The Dark Monkeys become excited as they saw their leader was about to kill Rex, they all are pounding their chests and jumping in their places in excitement.

Just as they become excited,

Rex's eyes suddenly glow bright red making the big Dark Monkey's body went stiff, it can be seen clearly by how he clenched his hand suddenly.

He activates his Alpha Intimidation towards the leaping big Dark Monkey,

<The Target's stats has been decreased by 30%>

Right the instant the big Dark Monkey got stunned, Rex appear in front of the big Dark Monkey like a ghost with a sinister smile plastered on his face.

GRIP!

Rex grip the big Dark Monkey's neck brutally,

The veins on his arm are bulging as his muscle also contracted,

The grip he has on the big Dark Monkey is firm, the big Dark Monkey tries to break free but Rex's grip is just too strong.

SPLASH!

Both of them fall to the shallow waters with Rex's hand still on the big Dark Monkey's neck.

The big Dark Monkey tries to break free from Rex's grip by hitting his arm repeatedly to no avail, his force barrier becomes even stronger because of the Yellow Force.

BAM!

BAM!

BAM!

It kept trying to break free, and each of the big Dark Monkey attacks creates shockwaves.

Although Rex looks composed if let too long his barrier will break.

Rex then looks at the snitching Dark Monkey with a mocking smile as he held the big Dark Monkey in its neck,

This sent a shiver on the snitching Dark Monkey's back as he runs away.

Looking at the snitching Dark Monkey that was about to get away, Rex turns his nails into claws that penetrate through the big Dark Monkey's neck.

He then grips the big Dark Monkey's adam's apple and ripped it out.

SPLURT!

<Killed an early rank five mutated animals, Obtained 300,000 Exp>

After killing the big Dark Monkey, Rex shouted, "Liliya, mark me with your Enhancing Mark!"

Hearing this, Liliya frowns as she looks around and finds the other Dark Monkeys is running away like a scared cat after seeing Rex killed their leader.

"Just mark me!", Rex said as Liliya mark Rex with her enhancing Mark.

Rex then bolted from his spot pursuing the snitching Dark Monkey that gets on his nerve, he will certainly kill that Dark Monkey.

Meanwhile,

Hu! Hu! Hu!

Countless Dark Monkeys run away from Rex as they saw their leader got killed easily, it wasn't even a battle as Rex ripped the big Dark Monkey's neck.

All of them are scattering around without even looking back,

Amongst the running Dark Monkey, there's one Dark Monkey that only has one arm running slowly compared to the others.

Although the snitching Dark Monkey runs first, he's still left behind by the others.

With only one arm that assist him to leap tree to tree, its speed decreased tremendously making it sweat bullets.

It then stops feeling the pain from its torn arm, But then,

SPARK!

BLITZ!

The darkness that is supposed to cover the Lightless Marsh suddenly lit up with black lightning, this makes the snitching Dark Monkey run away desperately.

Rex is already on its tail, and he will catch up eventually.

BLITZ!

THUD!

After activating his Flash spell, Rex turns into a flash of lightning as he arrives in front of the snitching Dark Monkey.

Looking at Rex in front of it, the snitching Dark Monkey turns pale.

All of the living creatures have this sense of danger no matter what they are, and this Dark Monkey in front of Rex can feel the immense danger signal from Rex.

Rex's piercing eyes are looking at the Dark Monkey coldly, his huge frames with black lightning surrounding his body make even the hardest of will to tremble.

Without a second of doubt,

The snitching Dark Monkey jumps back trying to escape but got intercepted by Rex.

GRAB!

Rex grabs the snitching Black Monkey right on the back of his neck before he punches the Dark Monkey with his other arm.

BAM!

The punch is imbued with Force Beam that blown the Dark Monkey crashing to the shallow water, Rex completely messed up its internal organ just by a punch.

SPLASH!

Rex landed in front of the Dark Monkey that is already in a half-death state.

He looks at the Dark Monkey coldly feeling pissed that he got tricked, "I told you, You will die", Rex said making the Dark Monkey tries to run away desperately.

But all the Dark Monkey can do is crawl on the shallow water with only one arm.

Seeing the pathetic state of the Dark Monkey, Rex shakes his head before he stomps the Dark Monkey's head.

SPLAT!

The shallow water turns red as the Dark Monkey's head burst like a watermelon.

It died just like that, Rex killed the snitching Dark Monkey brutally without feeling any sympathy.

After killing the Dark Monkey, Rex wanted to go back to Liliya to let Liliya rest again but then he caught something from the edge of his eyes.

Rex stopped and turns his head to the left,

At the end of his vision, he saw a black creature that is floating above the water.

Rex went closer to the black creature and find out that they're the Northern Black Heads, which is evident from the black hood and the white tentacles.

He studied the Northern Black Heads and find that it is doing something strange.

It floats above the water with its white tentacles like standing on the ground, and it is looking up as if it is waiting for something.

Rex waits for a moment before suddenly,

PSSHHH!

PSSSHHH!!

The black tree in front of the Northern Black Heads spat a grey gas as holes appear around the tree's body, and right after that, black leaves grows from its dead trunk.

Only a handful of black leaves grows, and it catches the Northern Black Heads' attention.

The black leaves started to fall from the tree, and there are only two black leaves the tree manage to produce.

Rex saw this as the Northern Black Heads takes the black leaves with its tentacle.

It was catching the black leaves carefully as if it's precious to them,

But just when the Northern Black Head finished taking the black leaves, its body suddenly turn in Rex's direction.

Seeing this, Rex steps back when suddenly.

SWIT!!

Something suddenly hits his head making his vision blurry,

Rex shakes his head a couple of times feeling dizzy but after he recovers, the Northern Black Heads vanished from his vision.

He look around with a frown and found nothing.

'Where did it go? Isn't it just a low-ranking Supernatural?', Rex thought.
