

G DOCTOR 2801

Chapter 2801: First meeting gift

Mo Chen smiled, sat, and drank a sip of tea before saying, "It doesn't matter. Go ahead and do what you need to do. I'm going to the place where Leng Shuang is to see the child."

Xuanyuan Mo Ze also got up and left him without further talk.

Mo Chen sat in the main hall for some time. He went out to see the child after drinking a cup of tea.

At this time, they were unaware that after Feng Jiu was sucked into the teleportation array, her hands lit a flame and pushed back the black aura that had wrapped around her hands.

However, her body had already exited the black hole at that point. She looked around when she realised she was about to fall from the array's mighty spirit energy breath. Many powerful cultivators dressed in the same black cloaks awaited her. There was a man in a black lotus mask among them, sitting on a seat surrounded by them.

At the moment of her fall, the man in black who had been sucked into the black hole with her reached out and pulled her down. When she saw this, the Blue Edge Sword appeared in her hand with a move of her palm.

"Sword Shadow Blue Light!"

She yelled loudly, and the Blue Edge Sword in her hand emitted a blue and dazzling light that charged at the man in black with a bloodthirsty intent. It was so fast that it could be called the speed of light. The man in black, despite his great power, was unable to avoid it and took the blow.

"Whoosh!"

"Hiss, aah!"

The sword intent's ferocious and terrifying spirit shattered the shield that the man in black had quickly condensed to block it. The Blue Edge Sword split the mask on the man's face with a loud bang, revealing his true identity.

It was the face of a man in his thirties who looked cruel and vicious. His thin eyes were wide with shock and horror, as if he couldn't believe what he was seeing.

When he was struck, he was unable to move, unable to dodge, and unable to escape. Even an Immortal Venerable Strong Exponent of his level could not withstand a blow from a Celestial-level Strong Exponent wielding an ancient weapon.

A trace of blood oozed and slowly dripped from his forehead. The impact of his fall stunned the men in black who were preparing to capture Feng Jiu...

"Master of the Black Lotus, this is the first meeting gift from me, Feng Jiu, to you! I'm sure we'll run into each other again soon!"

The people below were stunned and dumbfounded when they heard Feng Jiu's cold and domineering voice. They were wondering what she meant when she said this when they saw her fall and wave the Blue Edge Sword around. The sword intent was refracted, giving the impression of a sword shield.

Immediately after that, a burst of flame erupted. For a moment, no one could see her. At this time, the people below could feel a faint breath of formation array emanating from the shield formed by the flame and sword. However, the breath of the formation array evaporated so quickly that it was impossible to detect if one did not pay close attention.

However, soon, the cultivators in black below quickly realised something was wrong because they couldn't see Feng Jiu! The flame and the spirit of the sword intent seemed to hover in the middle of the air before dissipating.

"Something isn't right! There's a problem!"

A cultivator in black yelled and suddenly lifted his vital energy.

Chapter 2802: No trace

However, before reaching mid-air, he noticed that the flame and sword shield were gradually disappearing from the air. However, after it vanished, even a person of Feng Jiu's size disappeared completely!

The black-robed cultivator gaped in surprise. He went forward to investigate and discovered nothing. He couldn't help but return his gaze to the location where his master sat below.

When he saw this scene, the black-robed man wearing a black lotus mask squinted dangerously behind his mask. He stood up in disbelief with his hands clenched beneath his sleeves.

They allowed her to leave once she arrived here?

"This is my order! Search!"

His gloomy voice was filled to overflowing with rage. The atmosphere around him became so terrifying that the cultivators in black surrounding him moved and spread the order to look for Feng Jiu everywhere.

"Master, Feng Jiu is rumoured to have numerous treasures. I'm afraid she used a space teleportation array to flee." A man in a black robe told his master whose whole body radiated a cold aura.

Having escaped in front of so many of them and killed the Immortal Venerable Strong Exponent. Feng Jiu's strength and tactic truly surpassed their expectations.

He'd never met her before. He had only heard of Feng Jiu's brilliant reputation; people said she was extremely powerful. At the time, they didn't believe it. Meeting her in person today proved the saying "Seeing is believing" to be true.

The sword's killing blow not only shocked their eyes but also made their hearts burst with horror. It took them a great deal of time to calm down. Possibly for a very long time in the future, so long as they continue to counter Ghost Doctor Feng Jiu, they will recall the previous scene.

"I don't believe she can get away from me here!" The black-robed man wearing the black lotus mask said in a gloomy tone, "This time I must capture the ancient blue lotus in her body!"

"Yes! Subordinate will immediately take people to search!" The black-robed cultivator beside him spoke up. He quickly retreated after saluting.

The cultivators in black who had surrounded him were divided into twelve teams to search in all directions. Before long, the only people left were the black-robed man wearing the black lotus mask and three to four cultivators in black surrounding him.

"Bury him." " He drew his gaze to the split-in-half black-robed cultivator.

"Yes." One of them answered and called two cultivators in black to remove the body of the black-robed cultivator.

No one knew what the black-robed man wearing the black lotus mask was thinking as he stood there for a moment, gazing upwards. After that brief pause, he turned away.

Feng Jiu was hiding in space at the time. She used the formation array consisting of the flame and the sword shield to conceal herself so that she could escape into space without being discovered.

If she fell down there, it would be difficult for her to escape. Even though she had reached the Celestial level, she was outnumbered by them, and the black-robed cultivators below were not weak. Even if their level of strength was not as high as hers, she would be sure to lose after a prolonged battle.

She should avoid this crisis for the time being and find out the identity of the black-robed man who possessed the world annihilation black lotus.

Chapter 2803: Sneaking in

So, when the people outside were searching for her, she cultivated in space. A few days later, she let out a wisp of her divine sense to survey and discovered that there was no one around. Only one or two groups of black robed men passed by and patrolled there on occasion.

She stood up, took off her red dress, bound her chest, donned the same black clothes worn by those people outside, and hung a waist tag around her waist.

After taking out and putting on a mask on her face, she gathered her breath, flashed out from space, and appeared where the formation array was located. Then she quickly climbed up a big tree and watched carefully what was going on around her.

Soon after, a group of men dressed in black approached and passed beneath the big tree. Another group of men dressed in black arrived and walked below after about the time it took for a column of incense to burn.

After observing for some time, she concluded that this location seemed to be in a mountain forest, surrounded by lush trees, with no sign of anyone else besides these people.

Based on the topography of this location, this place should have been one of their bases, but she can try to investigate from here. So, she could start investigating from here.

After making her decision, she jumped down from the tree and swept away to another location. After seeing one man in black trotted towards the woods to relieve himself, she quietly followed from behind...

"Is there still no news about Ghost Doctor? Even if she used the teleportation array, a person of her size should not be able to run away very far. We will dispatch additional people to broaden the search! We have to find her!"

"Yes!" The cultivators in black responded and led their people in all directions.

Just as Feng Jiu was about to head in a different direction, the black-robed cultivator spotted her.

"Come here, that one over there!" The black-robed cultivator yelled and waved at Feng Jiu. Before Feng Jiu got closer, he asked, "What are you doing there alone?"

Feng Jiu hurried over, eyes downcast, head bowed respectfully. "Subordinate just went to relieve himself." To disguise herself, she gave her voice a deeper tone. Listening to her voice, no one would ever guess she was a woman.

That black robed cultivator glared at the cultivator in black in front of him. "Your waist card!"

Feng Jiu immediately took down the waist card and handed it to him. She had just killed a cultivator and happened to obtain his waist card.

After glancing at the waist card, the black robed cultivator tossed it back to her. "Return to your team!"

"Yes!" Feng Jiu responded and trotted over to the team that the man in black had left.

The black robed cultivator looked away and yelled at the other team. "Hurry up! Increase the search radius! What are you waiting for, that one over there?"

Feng Jiu left with the group, which turned out to be a guard team. When the time came to change guard shift, she was dispatched to a different location to keep watch. When she cast her gaze at the place, it looked like a cave dwelling, which is most likely where the Master of the Black Lotus lived.

She stood straight outside, like other cultivators in black. As time passed, the man in the black lotus mask truly emerged from there with his hands clasped behind his back

Seeing the black robed cultivators moving around outside, he asked in a calm voice, "How is it?"

The black robed man stepped forward. "Master, there is no news yet." His head hung down and his voice was a little lower when he said this. Even after half a day had passed, they had no new information about Feng Jiu.

Chapter 2804: Making the Move

She appeared to have vanished from the world, as no trace of her could be found.

As he listened to what the black robed cultivator said, the Master of the Black Lotus spoke in a gloomy and menacing tone and exuded mighty pressure. "Anything that I wanted! I've never failed to get them!"

The black robed man sensed a strong pressure coming from his master's body. For a brief moment, he pondered. "We received word from Peng Lai Immortal Island that Feng Jiu's figure had been spotted there, Master. It seems that..."

When he heard this, Master of the Black Lotus, who was standing with his hands behind his back, scoffed. "If she did not appear here, it is plausible to assume she is over there. Do you think it possible that the person who appears there is she, given that she has been brought here by the teleportation array?"

The black robed cultivator bowed his head and remained silent. It was strange to him as well. Feng Jiu was originally in Hundred Rivers City, but she was sucked here by the teleportation array. How did she appear on Peng Lai Immortal Island?

After giving it some thought, he said, "But, Master, our people followed her all the way to Peng Lai. Could it be that the Feng Jiu we caught with the teleportation array was just her clone?"

Master of the black lotus paused momentarily. "Her clone? Even I can't conjure such a genuine clone. I'm sure that the Feng Jiu we captured is definitely not a clone!"

He said as he walked with his hands behind his back, "She did go to Peng Lai. But based on what they said, Feng Jiu went back quickly later, so she must have a device that can quickly teleport her."

His eyes narrowed slightly as he looked up into the air. "It was like she disappeared right in front of so many of us." As he spoke, he entered the cave-dwelling.

As he entered the cave-dwelling, Feng Jiu still stood perfectly erect at the door, but her lips quivered beneath the mask. Another group arrived in the middle of the night to change their posts, allowing their team to rest.

There was only a faint flash of fire in the darkness. Feng Jiu sat with the black robed men and listened to what they said, gathering useful information...

A few days later, Feng Jiu was still nowhere to be found. The Master of Black Lotus departed on this day after receiving a message. Also on this day, Feng Jiu started to make her move.

"Dead bodies discovered in the eastern woods!" A cultivator in black reported.

Two groups sent their men to investigate. The two groups of about twenty people went for a long time, but then nothing happened.

Those waiting here sensed something was wrong. After sending more people to the eastern wood, the black-robed cultivator who led the group did not advance but instead waved his hand, "Go up and have a look!"

Two cultivators moved forward and walked for a few metres, but nothing happened. Then they looked back and said, “No...”

Cloud Devouring Beast bit off his neck before he could speak, and a wind blade passed into the other man’s body. The man collapsed and died instantly as blood oozed from his neck.

“It’s bad!”

When everyone saw this, they all took a few steps back and stared with wide-open eyes at the two sacred beasts that jumped out of nowhere.

No! These two were not sacred beasts! Instead, one of them was a super sacred beast, while the other appeared to be a mutant beast!

“Go, tell Master!” One of the black robed cultivators yelled.

Chapter 2805: Rakshasa

But when he spoke, no one answered. The only sound was that of bodies hitting the ground.

He suddenly turned around and saw a cultivator in black holding a bloody dagger and killing the dozen or so other cultivators in black who were with him.

Those cultivators with exceptional cultivation levels stood motionless, without resistance, allowing the sharp blade to slash their throats...

The scent of blood in the air brought him back to his senses. After seeing the masked figure, he exclaimed in shock, “Feng Jiu! You’re FengJiu!”

Those people didn’t fight back because they were all struck by mighty pressure. This was the absolute Strong Exponent! It could only be done by people stronger than them. Other than their master, Feng Jiu was the only one who could do it.

He was about to flee when. But, when he turned around, he was attacked by a fierce sword intent. The man froze and fell to the ground.

Feng Jiu stepped forward, looked at the black-robed man who was crawling on the ground, and said, “Unfortunately, you know too late.” Cloud Devouring Beast ran up to him and bit off his neck. His scream was stifled within his own throat.

“Master, let’s kill them!” Old White came beside her.

“Don’t rush, give it a moment.” Feng Jiu said while collecting their space rings and cosmos sacks. “We don’t need to make a move after the time it took half a column of incense to burn.”

She and the two beasts sat here for the time it took half a column of incense to burn. After some time had passed, she changed her clothes and returned with the two contract beasts.

When she saw the wailing cultivators lying on the ground, she curled her lips coldly. If the Master of the Black Lotus had dared to bring her here, he should have had this painful realisation.

The people in front of her had lost all of their spirit energy breath. Their bodies felt like they were being gnawed by a swarm of insects and ants. They were in so much pain that they couldn't even breathe as they rolled around on the floor.

They were terrified when they saw Feng Jiu dressed in red approaching slowly, followed by two sacred beasts.

"Feng, Feng Jiu? She, why is she still here!"

They didn't find her after searching for days, and they all assumed she had escaped, but who knew she was still here? How could they not know what was going on when they thought about this problem and then saw Feng Jiu coming slowly?

Feng Jiu stopped, observed the men, and ordered the two contract beasts behind her, "Leave no one alive!"

The two contract beasts swooped forward with a low roar in response to this command. Simultaneously, Feng Jiu's sword flashed out and began harvesting life like the emissary of hell...

Screams rang out constantly as blood splattered and body parts were scattered. Those cultivators couldn't help but tremble after witnessing the bloody scene. They weren't afraid of death, but when they saw death coming step by step; when they saw the red figure like Rakshasa that harvested people's lives coming toward them, their hearts shook.

They wanted to flee, but even if they abandoned their bodies to escape with their Nascent Soul, they couldn't. It's because they had no strength and none of their spirit energy breath was left...

Chapter 2806: The Blue Fluorescent Flower

The flames were set ablaze, consuming the bodies on the ground and the splashed blood to ash. As the raging fire rose into the sky, the air was filled with smoke and an unbearable stench.

This fire, along with the trees in this area and the formation array, burned for three days and three nights. It gradually died out when there was nothing left to burn...

Three days had passed by the time the Master of the Black Lotus heard the news and hurried over. As he took in the devastation and emptiness, his fists clenched before he let out a roar that echoed through the sky. "Feng Jiu! Even if you flee to the ends of the earth, I will find you and tear you to pieces!"

His voice was so loud that it shook the ground and echoed through the sky for a long time. Even at great distances, people could hear the rage and killing intent in his voice...

In stark contrast to the indignant Master of the Black Lotus, Feng Jiu was resting lazily beneath a tree by the roadside.

It had been three days since she had left that place. At this point, she was confident that even if she went out wearing a dazzling red dress, the people of the Master of the Black Lotus wouldn't be able to find her.

She considered using the Aurora Teleportation Device to leave this land beyond the seas. But since this was a rare chance for her to come here and she might not be able to return once she left, she thought she'd use this time to travel around.

The Aurora Teleportation Device could get her to her parents, but Mo Ze probably hadn't gotten there yet even if she did.

She flipped over and jumped down from the tree, calling out, "Old White."

In a flash of light, Old White leapt out of the space in its horse form and landed in front of her, wagging its tail and looking at her fawningly, "Master."

Feng Jiu hopped on the horse's back and gave it a pat on the head. "Let's go!"

"Yes." Old White responded, started moving and took her forward. Its speed was so great that the road dust rose and the red figure and white horse were no longer visible.

When one person and one horse arrived at the coastal area in the evening and saw a flickering blue light from the water, Old White couldn't help but stop and exclaim, "Master, look, what is that blue thing?"

Feng Jiu jumped down and stood by the sea, watching, as Old White galloped ahead, making a splash in the water. Once its hoof touched the water, the palm-sized, flickering blue object shrank and dove beneath the surface.

"Master, these things are from the East. Are they edible?" Old White asked, took a quick step with sparkling eyes, trampled on the palm-sized flickering blue object, and then kicked it to the side with his hoof.

Feng Jiu took a look at it and said, "This thing isn't edible. It's poisonous."

"What? Poisonous?" Old White, who was still in the water, took a step back right away.

Feng Jiu gave it a quick look and said, "This is an underwater creature. It is called the Blue Fluorescent Flower because it blooms like a flower and emits blue fluorescent light. It has a gallbladder in its body. This gallbladder is the source of blue fluorescence. If it is used as medicine, it can be made into a drug that slows down the whole body."

She said with a smile and a sparkle in her eyes, "This is an excellent drug. I'll use this opportunity to refine some -just in case I need it someday."

Chapter 2807: Three Pills

"Master, are you going to catch some?"

Old White asked as it looked at the objects in the water that were glowing blue. No blue fluorescent flowers were nearby because Old White avoided them when it entered the water.

"I'm going to extract the inner cores from those flowers and make medicinal pills out of them." Feng Jiu responded. However, she walked toward the environment, formed a formation around it, and then took a silver net from the space to catch those Blue Fluorescent Flowers.

Old White stood back and watched, wondering why she had to set up a formation. It looked at its Master and asked, "Master, then, what am I going to do?"

"Go and gather some branches for me! I'll use them later." Feng Jiu pointed in one direction. "Go out from there, and enter from the same place when you come in."

"Master, why are you setting up a formation array?" Old White asked while leaving.

"Because I do not want to be disturbed. This formation array is invisible to people outside." Feng Jiu replied while taking the net to the opposite bank, where she then threw it out into the water and then retrieved it. The silver net had now caught a large number of blue fluorescent flowers.

Old White did what she said and didn't ask any more questions. It went back and forth picking up a lot of branches and saw its master sitting in front of a small table that had a jade basin on top of it.

When Old White came over to look, Feng Jiu had already removed the inner cores of many flowers. Old White just sat on the side and waited because it couldn't help with anything else. The night grew darker as the sun set. Feng Jiu had already placed a night-luminescent pearl on the small table. The gentle and bright light illuminated the line of sight around them like a full moon in the sky.

Feng Jiu was so busy that she worked from night to morning. The following morning, all of the inner cores of these blue fluorescent flowers were removed and placed in two small basins until they overflowed.

Once everything was in place, she pulled out another tool. Because these cores were poisonous, the toxins had to be extracted while the beneficial components were preserved before they could be used in medicine.

She became fascinated as soon as she refined the elixir and never seemed to be tired or hungry. Old White didn't dare to bother her, instead roaming around leisurely until she finished what she was doing.

Exactly two days later, on the seaside, Feng Jiu was working on the pill furnace as she refined medicinal pills. As soon as she noticed the blue smoke rising from the pill furnace, she quickly stepped back and swept the smoke away with her sleeve.

She extinguished the furnace and removed the medicinal pills once they were formed. Three blue fluorescent medicinal pills lay quietly in the furnace. "I wonder who will be the tester of these three pills?" She chuckled as she took them.

"Will one die if they eat it, Master?" Old White came and asked.

"One will not die, but I'm not sure what exactly will happen." She smiled and took out a bottle, filling it with the three medicinal pills and storing the ground medicinal powder. Then she stretched, took a spirit fruit, and ate it. "I've been here for a few days now, yet I haven't visited the town. Let's go! We'll go back after we get something to eat in town."

When Old White heard this, it shook its tail and jumped up next to Feng Jiu. "That's great, Master! Let's go now!"

Chapter 2808: Spend the Night

Feng Jiu smiled. She took down the formation array, jumped on Old White's back, and rode down the road.

The wind carried the scent of salty sea water along the coastline. After riding a while, she spotted a small coastal village.

"It's getting dark. I don't know how far it is from town. Since there is a small mountain village, let's rest here." Anyway, their schedule wasn't too tight, and she hadn't gotten much sleep lately. She might as well make a stop in this humble mountain village before continuing on her journey.

"Master, there might not be anything good to eat here." Old White said, concerned about the food.

"How can there be no good food in a place with a sea view?" Feng Jiu smiled. "You, on the other hand, can't talk in front of people for fear of scaring them."

"Yes." Old White said, taking her to the place ahead.

When they arrived at the small mountain village, Feng Jiu dismounted and Old White followed. When she entered the village, she discovered that there were only a dozen households. Some children were playing outside and the elderly people were sitting at the doors.

People stopped what they were doing to stare at her. Some of them even took the children back inside and shut the door.

When she saw this, she approached an elderly holding a child in his arms, smiled, and said, "Old man, I'm just passing through. Can I spend the night here?"

"Immortal, you'd like to spend the night here? Of course, you can do so." The elderly man stood up nervously. After giving it some thought, he then said, "It's just that we don't have anything good to entertain you with."

He had never seen a girl in red who was as stunningly beautiful as a fairy before. But he knew that only the immortals above could be so graceful and charming.

People in their small village couldn't even imagine what it would be like to entertain immortals. They had never thought that such an immortal would ever visit this place.

"It doesn't matter. I'm very laid back." Feng Jiu smiled. When she saw the skinny child in the elderly man's arms blinking curiously at her, she then took a few fruits from the space.

"These are for you." She handed the fruits to the child, who did not respond and stared at the elderly man.

"Oh, you shouldn't." The bright red fruit was fresh and juicy, with a sweet aroma. When he saw the fruits, his mouth watered, but he didn't dare to accept them.

"It doesn't matter, it's just a few fruits, so take it!" Feng Jiu smiled and shoved the fruits into the elderly man's hand.

The elderly man took the fruits with trembling hands, thanking her repeatedly, and invited Feng Jiu into the room.

“Old White, stay right here.” Feng Jiu pointed to the side, telling it not to run around.

Old White nodded, but did not speak; it simply came to the side to lie down and rest, as instructed by its master.

The elderly man led Feng Jiu to the back of the house and said, “Immortal, I have an unoccupied room here. Can you check to see if it’s livable for you?” He was a little nervous because his house was run-down and he felt it was incompatible with this beautiful immortal in red.

“Yes, as long as I can get some rest.” Feng Jiu then asked, “Old man, is it just the two of you in the family? Why are there only the elderly and young children here? What about the young people?”

When he heard her question, tears welled up in the elderly man’s eyes. He remained silent for a moment before lifting his thin hand to wipe the tears away.

Chapter 2809: The Immortal in danger

“The City Lord wanted to build a palace and has arrested a large number of able-bodied men. The child’s parents were taken away. They have not returned in a year, and we do not know if they are alive or dead.”

When Feng Jiu heard this, she stopped asking questions and just comforted him. “Please don’t be too sad, I think your son and daughter-in-law will return safely.”

“Thank you for your kind words, Immortal,” the elderly man said. “Immortal, please take a seat first. I’m going to prepare some food.”

Feng Jiu noticed that the elderly man had nothing to eat when she first arrived, so she said, “There’s no need. I’ll just go get some food from the sea.”

The elderly man was astounded and said quickly, “Immortal, you shouldn’t. The sea has a sea monster in it. It feeds on humans.”

“It’s alright.” Feng Jiu said, went out and called Old White to the seaside.

When the other elderly people noticed her leaving, they came over and asked, “Is the immortal leaving?”

“No. “The immortal wants to find food from the sea.” The elderly man replied with concern in his voice.

“There’s a sea beast there. It eats humans.”

“It is! Why does the immortal want to go to the sea? It’s too dangerous.”

“Is there nothing to eat in your house? I still have some, so ask the immortal to return! If not, accidents can happen.” Another elderly man said.

“Yes! I also have some on hand. I’ll go and get them for you.”

“Yes, yes. I also have some.”

The elderly people, who were holding young children, all said that they were willing to take out their food for the immortal who came to stay overnight here.

When the elderly man saw this, he thought about it and said, “Then, let us go and persuade her!” As a result, the elderly people from more than a dozen families went to the sea while calling out for her.

“Master, they are following us here.” Old White turned around and was surprised to see that all the elderly people from the small village had come.

Feng Jiu stopped when she heard their voices. When she saw several elderly people approaching, she asked, “What are you going to do here?”

“Immortal, there is a sea monster in the sea. You can’t go. You can’t go.” An elderly man said with horror in his eyes. “Last time, last time people from other places went to the sea on a boat. I saw the boat capsize and the sea monster devoured all the passengers.”

“Yes! Immortal, we have some food. There will be enough food for you if we get them out together.” Another elderly man joined in.

“That sea is too dangerous. We do not usually risk going into the sea nor are we able to do so.”

Her heart warmed when she heard the elderly people’s caution and saw them coming with the young children, some of whom were barefoot and without shoes. She said with a smile, “It really doesn’t matter because I’m an Immortal. I’m not afraid of sea monsters.”

She smiled, looked at them, and asked, “Don’t you usually go to the sea to catch fish and shrimp?”

“We all grow some sweet potatoes and wild vegetables in the backyard. Those are the food we typically eat. On occasion, we go into the woods to cut wood, which we then trade for rice or other food in the city.” An elderly man said.

Feng Jiu nodded. “Alright, I understand.” She looked at them and asked with a smile, “Do you want to come with me? Just go to the seashore and take a look. I can help you later get some back.”

They were all stunned and looked at each other, and one of the elderly people said, “That’s fine, Immortal. We’ll follow you. But, if you are in danger, you must run away.”
