Chapter 2561: Demon Annihilation Operation (1)

2561 Demon Annihilation Operation (1)

There was a reason why the Demon Vanquishing Tree didn't attack the blood spring. If he wasn't careful, he would be contaminated. And once he was contaminated, it would be over. Once he fell, the entire Puppet City would fall.

Therefore, the Demon Vanquishing Tree could kill the Bloody Hand Mine Devils because they contained little ominous power, so there was no pressure to purify them.

However, the blood spring was filled with the ominous aura and the suppressing pressure of the Great Monarch Bloody Hand. Thousands of Bloody Hand Mine Devils were guarding there like devout believers for the ominous aura.

At this moment, the Demon Vanquishing Tree had agreed to part of Han Fei's request, so he began to attack. The Bloody Hand Mine Devils that were trying to break through the barrier of Puppet City suddenly encountered overwhelming green jade vines.

For a time, Flash, Killing Fists, and Bloody Claw filled this space.

At this moment, Han Fei saw a large number of green jade vines being cut apart. Of course, nearly a hundred Bloody Hand Mine Devils were stabbed to death in the first moment.

Seeing this scene, Han Fei thought to himself, It seems that the strength of a Carefree level powerhouse is not without reason. He remembered the power of Dao Domain Sunflower Head back then. Even if she was dying, she could still kill tens of thousands of perfected Star Transformation Realm and peak-level late-stage Star Transformation Realm powerhouses at once.

It was true that the Bloody Hand Mine Devil was stronger, but the Demon Vanquishing Tree only killed a hundred at a time. Its green jade vines were shattered by the Bloody Hand Mine Devils, which meant that Sky Openers could indeed challenge a Monarch-level powerhouse.

The Bloody Hand Mine Devils were not very smart and had almost no soul power. They could only rely on their abnormally powerful level-seven body. That was why they could fight the Demon Vanquishing Tree.

If the Bloody Hand Mine Devils were extremely intelligent and had powerful soul power, fewer of them might die.

Of course, the Demon Vanquishing Tree definitely didn't attack fully. But in any case, Han Fei had a basic judgment of the strength of the Demon Vanquishing Tree.

Apart from the initial outburst, it took the Demon Vanquishing Tree about an hour to kill these 832 Bloody Hand Mine Devils. It was strong indeed. However, this seemed to confirm the fact that the Demon Vanquishing Tree had just entered the Carefree level. Otherwise, it wouldn't have taken him so long to deal with these Bloody Hand Mine Devils.

The Demon Vanquishing Tree dragged the level-six and level-seven minerals back and then collected them into Puppet City. There were more than 800 level-seven mines that could be used to build godly weapons. This meant that if they were refined into godly weapons, there would be more than 800 godly weapons.

As for the Mining Demon Stream, there were tens of thousands of Bloody Hand Mine Devils here, and this was only the number he had encountered. Plus the Bloody Hand Mine Devils that were hidden somewhere, the number might reach 100,000 at most.

Han Fei was quite calm. At this moment, he had no say in asking for a share of the resources from the Demon Vanquishing Tree.

Therefore, although Han Fei coveted those resources, he didn't show anything and let them be dragged away by the Demon Vanquishing Tree.

After the Bloody Hand Mine Devils outside the barrier were all killed by the Demon Vanquishing Tree, Han Fei stepped out of the barrier and said, "Senior Demon Vanquishing, I'm saving Puppet City. I hope you can take this as a favor."

The Demon Vanquishing Tree: "Of course. If you can purify this blood spring, you and your people can camp in the Mine Demon Stream and use the resources here."

Han Fei's heart did a flip. It seemed that the Demon Vanquishing Tree had already known that the Seven Kills Army was training outside the Mine Demon Stream! How did he know? He must have taken a look outside in some way when he was talking to Old Yuan. Otherwise, the Demon Vanquishing Tree should have long known of his existence.

Han Fei nodded and left the spiritual barrier with Old Yuan.

Old Yuan entered Han Fei's Origin Star. The moment he entered Han Fei's Origin Star, Old Yuan said, "This Demon Vanquishing Tree is not stupid. You suffered a huge loss in this deal. This blood spring is not something it can resolve. We can't even guarantee that this Demon Vanquishing Tree will keep its promise."

Han Fei said leisurely, "Old Yuan, Puppet City has declined, and the strongest combat power left is this Demon Vanquishing Tree. But a Monarch is not omnipotent. He can fool me, but the price is his death and the destruction of Puppet City. If he is a smart Demon Vanquishing Tree, he should know that the location of the Mine Demon Stream must not be revealed, so I believe he will know how to choose."

The old turtle asked, "How can you be so sure?"

Han Fei said, "I want to bet. If the Mining Demon Stream can be used by me, this place may become the first base for the rise of our human race."

The old turtle was used to Han Fei's occasional impulsiveness. Of course, this was also related to his trump card. In fact, when he was sleeping in Han Fei's body, he knew a lot of things, such as the background Han Fei had.

...

Several hours later, when Han Fei approached the blood spring, he felt the gurgling power of minerals spreading out. Han Fei, who had double spiritual heritage, would instinctively absorb this power if he didn't deliberately block it.

At this moment, there were 3,462 Bloody Hand Mine Devils surrounding the spring of blood. This time, because he was close enough, Han Fei saw that at the center of the spring of blood, the huge Bloody Hand Mine Devil was actually evolving into a Monarch. This was because the size of the Lizard Demon was also huge, not something the lizard demons he had seen before could compare to.

Yes, the growth of a mine demon might be different from that of a human. It had been absorbing the essence of the minerals here for an unknown period of time. If this thing proved its Dao and successfully evolved, wouldn't it advance to a level-eight mine demon? At that time, even the Demon Vanquishing Tree wouldn't be able to penetrate this Bloody Hand Mine Devil.

Upon seeing this, Han Fei frowned and didn't rashly use the Heaven Enlightenment Divine Technique on the Bloody Hand Mine Devil. Otherwise, if he angered the other party, with the Bloody Hand Mine Devil's speed of light explosion, he would probably be attacked by all the Bloody Hand Mine Devils before he could run to Puppet City.

At that time, even if the Demon Vanquishing Tree wanted to save him, with his killing speed, it would be impossible for him to save him from more than 3,000 Bloody Hand Mine Devils unless the Demon Vanquishing Tree used the power of Puppet City and unleashed the Immortal-level combat power.

Half a day later, after Han Fei set up countless teleportation arrays from the blood spring to the spiritual barrier with tremendous resources, he returned to the blood spring.

At this moment, the Demon Vanquishing Tree had roots waiting far away, waiting for Han Fei to lure these Bloody Hand Mine Devils over. He would not take the risk personally. Being close to the blood spring was a great danger for him.

Of course, the Demon Vanquishing Tree was very curious. With Han Fei's current realm, how could he purify the blood spring?

Buzz!

All of a sudden, the Demon Vanquishing Tree sensed the power of minerals from the blood spring and paused. It seemed that something had happened.

"Huh? So soon? Is this human being so efficient?"

At that moment, Han Fei set up nearly 5,000 God Sealing Spears with the Void Descending Art.

He knew that the God Sealing Spear Array couldn't trap these Bloody Hand Mine Devils. In fact, it had been proven before that the God Sealing Spear Array only had a 20% effect on the mine demons.

However, the God Sealing Spear Array was also a rather powerful sealing barrier. On one hand, it could greatly suppress the enemy's strength, and on the other hand, it could stop the enemy for a while.

The moment Han Fei used the Void Descending Art, thousands of Bloody Hand Mine Devils were alarmed. The moment the God Sealing Spear Array was set up, several attacks immediately hit it.

Ka ka ka ~

Han Fei was lost for words when he saw the seven or eight God Sealing Spears that were shattered by the Bloody Hand Mine Devil. This was only caused by one Bloody Hand Mine Devil. What if thousands of them attacked at the same time?

In the blink of an eye, Han Fei threw the 10,000 years of vitality he had prepared, mixed with the Infinity Water, into the God Sealing Spear Array.

“Explode!”

Rumble!

Dazzling brilliance exploded in this space with a radius of less than 30,000 kilometers. The explosion of a high-quality godly weapon and the divine brilliance produced by 10,000 years of vitality were so terrifyingly powerful that the more than 300 Bloody Hand Mine Devils closest to the center of the explosion were directly purified.

Unfortunately, only the three hundred Bloody Hand Mine Devils were purified. The other Bloody Hand Mine Devils were emitting thick black smoke at this moment, which was caused by the purifying effect of the Heaven Enlightenment Divine Technique.

And this was not Han Fei’s first blow. Three seconds after the Infinity Water exploded, Han Fei threw out the Extreme Cold Pearl.

Buzz!

The thirty-thousand-kilometer void was completely frozen, and the Bloody Hand Mine Devils were instantly turned into ice sculptures. And the power of the Heaven Enlightenment Divine Technique was still ongoing, and more than a dozen Bloody Hand Mine Devils were purified one after another.

Bang!

Finally, when Han Fei launched a Carefree level attack with the Extreme Cold Pearl, the largest ice block exploded. The leading Bloody Hand Mine Devil instantly disappeared. In the next moment, it punched the God Sealing Spear Array near Han Fei.

Ka ka ka!

All of a sudden, more than fifty God Sealing Spears exploded. Han Fei was horrified. Putting away the Extreme Cold Pearl and the Infinity Water, he turned around and ran at 14 times the speed of light.

Bang! Bang! Bang!

In the rear, intense explosions occurred on the Sealed God Spear Array, and Han Fei stepped into a teleportation array at this moment.

This was not a long-distance teleportation array, but a kind of teleportation array that was extremely short but had a fast teleportation effect. Since it was to lure the Bloody Hand Mine Devils away, he naturally had to let the enemy discover his traces. Otherwise, if he ran away in the blink of an eye, the enemy wouldn’t be able to catch up even if they wanted to!

But Han Fei was obviously overthinking. He had only run for less than three hundred seconds when he suddenly sensed something. He set up a time barrier and moved a thousand kilometers horizontally. In the next moment, a terrifying fist light, like a star exploding, landed beside him.

Han Fei didn't accelerate or enter the teleportation array. Instead, he activated his Great Dao and unleashed his strongest combat power. Thousands of kilometers away, with a thought, the terrifying punch of the Bloody Hand Mine Devil had already been stolen by Han Fei and was blasted back.

The Bloody Hand Mine Devil seemed to have high intelligence and reaction speed. It instantly turned its fist into a claw and tore apart this terrifying punch.

Han Fei's heart did a flip. This Bloody Hand Mine Devil seemed to be conscious.

Chapter 2562: Demon Annihilation Operation (2)

2562 Demon Annihilation Operation (2)

On the other hand, Han Fei heard the Demon Vanquishing Tree's voice transmission, "Continue to approach Puppet City. The closer you are to Puppet City, the stronger the power I can unleash."

The Demon Vanquishing Tree probably wanted to test Han Fei, but Han Fei wasn't easy to deal with either. If the Demon Vanquishing Tree didn't help him at all and just watched him being chased by thousands of Bloody Hand Mine Devils without doing anything, he would definitely destroy this Puppet City, regardless of the relationship between the old turtle and Great Monarch Mystic Martial.

Therefore, Han Fei said to him via voice transmission, "Senior Demon Vanquishing, one of the Bloody Hand Mine Devils is abnormally powerful. I think you've already seen it. This is a Bloody Hand Mine Devil that is about to prove its Dao. Senior, can you directly help me solve it? Or can you help me delay the Bloody Hand Mine Devils behind? I'll solve it myself.

"I can help you intercept the Bloody Hand Mine Devils behind you, but the one chasing you seems to have high intelligence. To prevent it from escaping, you may have to deal with it yourself."

"F*ck!"

The Demon Vanquishing Tree's answer was simple. Of course, he knew that what Han Fei did would only benefit him, but he still left the strongest Bloody Hand Mine Devil to Han Fei. This behavior might be a test.

Obviously, if Han Fei couldn't even purify a Bloody Hand Mine Devil, then everything he said just now would be greatly suspicious.

Han Fei didn't panic when he heard the Demon Vanquishing Tree's answer. He wasn't afraid of this Bloody Hand Mine Devil, but of the group of Bloody Hand Mine Devils.

Seeing that the Demon Vanquishing Tree agreed, Han Fei paused and launched the Silencing Fist, clashing head-on with the Bloody Hand Mine Devil's Slaughter Fist.

Rumble!

The entire Mine Demon Stream trembled.

Outside the Mine Demon Stream, the Seven Kill Army who were in the middle of trials were all stunned. Was there an earthquake?

Perhaps this Bloody Hand Mine Devil's body was very strong, and its strength might have reached the Sky Opening Realm. However, just like him, it hadn't comprehended the Dao of the Monarch, so no matter how strong it was, it couldn't kill him.

In terms of strength, this Bloody Hand Mine Devil might not even be stronger than him.

As it turned out, Han Fei's prediction was right. Under his punch, the Bloody Hand Mine Devil was sent flying thousands of kilometers away. However, he was not injured, and there were no cracks on his body.

In the next moment, Han Fei charged forward instead of retreating.

However, the Bloody Hand Mine Devil suddenly disappeared. Han Fei saw a blur in front of his eyes, and a door seemed to open. Then, as if he had been hit by a big star, he was sent flying.

"So fast."

Han Fei's internal organs were tumbling. Although he had an astonishing physique, he was still shocked by the extraordinary speed of this Bloody Hand Mine Devil. Its speed exceeded the speed of light explosion. If he guessed right, it must have used the white hole space to reach a terrifying speed that exceeded 20 times the speed of light.

Bang! Bang! Bang!

In midair, Han Fei was hammered more than 30 times in a row. During this period, the God's Prayer Bead on Han Fei's chest suddenly bloomed, and large swaths of black smoke were instantly purified.

Han Fei's heart skipped a beat. This Bloody Hand Mine Devil was trying to invade his body with the ominous power. Han Fei immediately squeezed a mass of liquid divine brilliance. Instantly, the pure divine brilliance enveloped the Bloody Hand Mine Devil.

Roar!

Amidst the screams, Han Fei seized the fleeting moment.

"Steal."

Buzz!

A huge bloody hand suddenly braked because its speed was too fast, causing its body to rush forward and suddenly hit the bottom of the sea, setting off undercurrents at the bottom of the sea that swept in all directions.

After being hammered more than thirty times, Han Fei finally took a breather.

The Demon Vanquishing Tree, on the other hand, was a little speechless. This human being's physique was so strong. How could he still be fine after such a heavy blow? If it weren't for the fact that Han Fei's

Qi and blood were very strong, he would have suspected if this human being was really a human being. Could he be a mine demon? A level-nine mine demon?

The Bloody Hand Mine Devil, whose speed had been stolen, burst out with a terrifying speed close to the speed of light explosion in the blink of an eye.

“Hiss ~”

“Steal~”

Han Fei was shocked. This guy was indeed highly intelligent and had walked more than one Great Dao. He was obviously trying to escape!

Fortunately, although its speed this time was fast, it wasn't to the point where Han Fei couldn't react in time, so he immediately used the Void Stealing Technique, causing this guy to fall to the bottom of the sea again.

Han Fei didn't steal the consciousness of the Bloody Hand Mine Devil. He was afraid that this spiritual thing would be one of the channels for the transmission of ominous power.

Therefore, Han Fei immediately set up thousands of God Sealing Spears, and then activated the Heaven Enlightenment Divine Technique.

Buzz!

“Roar~ Roar~”

The Bloody Hand Mine Devil was roaring through the Lizard Demon, and large swaths of black smoke were spurting out and fading. Fortunately, Han Fei's strength had reached the peak-level late-stage Star Transformation Realm. Therefore, after consuming only 300 years of vitality, the Bloody Hand Mine Devil fell apart.

Han Fei picked up the scattered minerals. There were three level-seven minerals and six level-six minerals. Among them, there was a piece of mineral the size of half a fist, which turned out to be a rare level-eight mineral.

“Hiss ~”

Han Fei couldn't help taking a breath when he saw the level-eight mineral. The level of the mineral represented its value. There might not be many level-eight minerals in the entire Hundred Alliance City.

In fact, if it weren't for the fact that Han Fei's Great Dao happened to suppress this Bloody Hand Mine Devil, he would have been killed even if he were a perfected Star Transformation Realm cultivator who had two Great Dao Locks.

When Han Fei killed the Bloody Hand Mine Devil, the Demon Vanquishing Tree said via voice transmission, “Come on, leave. The other Bloody Hand Mine Devils are catching up.”

Buzz!

Han Fei pretended to leave, but he forgot that he had just stolen the speed of the Bloody Hand Mine Devil. Therefore, he jumped up and left, subconsciously unleashing the speed of light explosion.

“Huh!”

At that moment, some enlightenment seemed to appear in Han Fei’s mind. This was because he discovered that the jumping ability of the Lizard Demon seemed to be a manifestation the Great Dao of Space.

It turned out that it wasn’t because they were fast, but because they had opened a spatial node with the power of space, a pure spatial node with no time in it.

“Law!”

Han Fei was shocked. This was the law of space, so it could completely block time?

At that moment, Han Fei suddenly had an epiphany and froze for about ten seconds in situ.

The Demon Vanquishing Tree asked, “Human, what are you doing? If you don’t leave now, the Bloody Hand Mine Devil army will catch up with us.”

However, Han Fei didn’t respond. At the last moment of the ten seconds, a Bloody Hand Mine Devil jumped over. At that moment, Han Fei’s figure disappeared, and a light explosion appeared. When the Demon Vanquishing Tree looked again, Han Fei had already disappeared from the spot.

Han Fei was a little excited. He had stolen the speed of the Flash Lizards and the Lizard Demons before, but he hadn’t understood the speed of light explosion from it.

However, the Flash Lizard on this Bloody Hand Mine Devil was different. Its spatial Dao seemed to have risen to the level of a law. Therefore, after he stole it, he had a different understanding.

Han Fei had always thought that he couldn’t have the speed of light explosion until he cultivated the Dao Bones. Even Great Monarch East Martial said so.

However, at this moment, before he cultivated the Dao Bones, he already had the speed of light explosion. At this moment, plus the Void Wings, theoretically, his fastest speed could reach 28 times the speed of light.

Of course, it was better not to use the Void Wings in front of the Demon Vanquishing Tree.

As for what would happen after he mastered the Dao Bone, Han Fei was also looking forward to it.

To reach the speed of light explosion, one didn’t have to enter the white hole space. As long as one didn’t enter the white hole space, there would be traces left. Especially since the strongest Bloody Hand Mine Devil had died, the Bloody Hand Mine Devils chasing him went a little crazy and chased Han Fei madly.

And the Bloody Hand Mine Devils didn’t have much intelligence to begin with. The consequence of their random chasing was that along the way, countless water-shaped vines and the roots of the Demon Vanquishing Tree attacked them.

In just half an hour, more than half of the over 3,000 Bloody Hand Mine Devils were killed by the Demon Vanquishing Tree.

When Han Fei rushed to Puppet City, he saw vines surging into the sea like a tide, sweeping out like a huge wave.

Han Fei observed this power. In terms of energy outburst, this was much more than the energy bursting out of the Extreme Cold Pearl.

However, in terms of destructiveness, it didn't seem to be enough. If it were an ordinary Sky Opening Realm cultivator, he would have been killed instantly, but for the Bloody Hand Mine Devil, Han Fei didn't feel optimistic.

Sure enough, although the Demon Vanquishing Tree's vines surged like a huge tide, it only killed more than 120 Bloody Hand Mine Devils.

However, the number of Bloody Hand Mine Devils killed by the Demon Vanquishing Tree was nearly ten times that of the Extreme Cold Pearl killed, but the energy consumed was dozens or even hundreds of times that of the Extreme Cold Pearl.

It seemed that there was still a gap between the combat power of an early-stage Carefree realm cultivator and the combat power of an ultra-quality godly weapon. At the very least, they couldn't reach the precise control of energy like an ultra-quality godly weapon.

Of course, this was just a measure of the strength of the Demon Vanquishing Tree in Han Fei's heart. But in terms of the speed at which the Demon Vanquishing Tree killed the Bloody Hand Mine Devil, it was actually not slow at all.

After two hours, less than half of the Bloody Hand Mine Devils outside the spiritual barrier could come to the blood spring.

Another two hours passed.

Han Fei was slightly relieved when the last Bloody Hand Mine Devil was killed by the Demon Vanquishing Tree. He couldn't help but admire the terrifying combat power of a Monarch-level powerhouse. That was nearly 3,500 Bloody Hand Mine Devils, equivalent to 3,500 perfected Star Transformation Realm body cultivators.

Although the Demon Vanquishing Tree must have consumed a lot of energy, he had killed all the Bloody Hand Mine Devils and still had some energy left. Han Fei believed that if it were him, without the continuous replenishment of the Bloody Hand Mine Devils, his limit number should be about 30.

If they exceeded this number, he would only be beaten up.

However, the result of this trip was not bad. The Bloody Hand Mine Devils near the blood spring should have been slaughtered. All that was left was the blood spring itself.

[God of Fishing](#)

Chapter 2563: Swallowing the Ominous

2563 Swallowing the Ominous

As the saying went, strike while the iron was hot. As soon as the Demon Vanquishing Tree finished dealing with the Bloody Hand Mine Devil, Han Fei set off again to the blood spring.

When he reached the blood spring, the Demon Vanquishing Tree wouldn't come and wouldn't even look here. All these years, he hadn't gotten rid of the Bloody Hand Mine Devils here because he didn't dare to pry into the blood spring.

When Han Fei arrived, the scene was a mess. The 5,000 God Sealing Spears that he had set up earlier had all turned to dust. Although the materials needed to refine the God Sealing Spear didn't necessarily need to be good, there were a lot of them!

After setting up the remaining more than 10,000 God Sealing Spears, Han Fei summoned the old turtle.

The old turtle said, "I can't resist the ominous power. You'd better let me go back!"

Han Fei asked, "Wait a minute, Old Yuan, do you have any way to deal with the Demon Vanquishing Tree? Although he is a Monarch, I think he must have consumed a lot of energy to kill more than 3,000 Bloody Hand Mine Devils in a row. We have to hold back just in case."

The old turtle looked at Han Fei speechlessly. After a moment of silence, he said, "I advise you not to think too much. The Demon Vanquishing Tree may be a little exhausted, but he won't be as exhausted as you think. Besides, over the years, Puppet City has accumulated countless resources. It won't take long for him to replenish them."

Han Fei was lost for words. "Then why didn't he get rid of the Bloody Hand Mine Devils and let them grow to this level? There are so many Bloody Hand Mine Devils in this Mine Demon Stream. Isn't he afraid that one day, the seal in the Mine Demon Stream will be broken?"

The old turtle said, "This is simple. Firstly, it's because he's too far away. If I've guessed right, this Demon Vanquishing Tree can't leave Puppet City. Therefore, the measures he can perform outside Puppet City are limited. The blood spring is not far from Puppet City, but it blocked his path. Therefore, unless it's a special case, his main consciousness won't take the risk to go out. He will only let his ordinary roots spread out to kill some mine demon creatures or something. Crossing the blood spring, he probably can't kill many Bloody Hand Mine Devils."

Han Fei asked, "And secondly?"

The old turtle said, "Secondly, he doesn't want to wipe out the Bloody Hand Mine Devils. After all, the Bloody Hand Mine Devils can continuously provide him with minerals."

Han Fei frowned. "Do you think this Demon Vanquishing Tree is really not contaminated?"

The old turtle said, "He doesn't seem to have been contaminated, at least not on the surface. But you can't underestimate it anyway. Although you have embarked on the Dao of Extreme Balance and are extremely strong, you are definitely no match for him. There's no doubt about that. Otherwise, what's the point of being a Monarch? As for the means to deal with him, so far, none. If there were, the Demon Vanquishing Tree wouldn't have guarded Puppet City alone in the past."

Han Fei's heart sank. It seemed that he could only trust the Demon Vanquishing Tree!

However, the old turtle suddenly changed the topic. "However, don't trust this Demon Vanquishing Tree. No matter what his race is, there's no absolute trust in the world of the strong. For example, he said that he can unleash immortal-level combat power. I can tell you with certainty that he's lying."

“Huh? What do you mean?”

The old turtle said, “Based on my understanding of Great Monarch Mystic Martial, it’s impossible for her to run away without leaving any trump cards. Think about it, so many of her descendants are buried under the city. How can she not leave any trump cards here? Therefore, Puppet City definitely has the power to resist a Great Monarch-level powerhouse. Therefore, if you can successfully resolve the blood spring, don’t go back. If this Demon Vanquishing Tree burns the bridge after crossing the river, we’ll all be doomed.”

Han Fei narrowed his eyes. “Do you mean that this Demon Vanquishing Tree may have the intention to kill us?”

The old turtle said, “I’m not sure about that, but there’s one thing that can prove that the Demon Vanquishing Tree is not so easy to get close to. In ancient times, Puppet City was the base camp of Great Monarch Mystic Martial, and there were countless powerful puppets in the city. Now, I’m not sure what the situation in the city is like, but I think the real power of Puppet City still exists. Anyway, as long as you don’t enter Puppet City, it won’t be a problem for you to fall out with him in the future. If you have the ability to conquer Puppet City, you will definitely gain a lot. Of course, this is a little difficult. It’s best not to be rash.”

Han Fei made it clear. “Aren’t you on good terms with Great Monarch Mystic Martial? Why do you suggest I conquer Puppet City?”

The old turtle said, “It’s different! I have something to do with Great Monarch Mystic Martial, not the Demon Vanquishing Tree. Besides, Mystic Martial is already gone. Do you think I’ll still guard her home? The best way is to take what belongs to her and use it for my own use. If I meet her again in the future, I’ll return it to her.”

Han Fei: “...”

Han Fei thought to himself, It’s true that the old turtle never changed his nature! He didn’t even hesitate to rob his good friend. Although the devil’s nature has been restrained, it has always been there.

After asking the old turtle to return to his Origin Star, Han Fei summoned the Emperor Sparrow.

This time, as soon as the Emperor Sparrow came out, he raised his head and stared at the blood spring in the distance. “This is a relatively pure ominous power. And there’s a lot of it.”

Han Fei asked, “How much can you eat?”

Yes, Han Fei said that he had a way to purify this ominous power, but he wasn’t going to use his own vitality to purify it. The Emperor Sparrow had the ability to swallow ominous things, and it did swallow a lot. In the past few years, he had complained to him a lot that he couldn’t get the demon seeds of the Lizard Demons, so he was malnourished, hungry, unable to grow quickly, and so on.

In the past, the Emperor Sparrow swallowed a lot of murderous aura in the Yin-Yang World, which was still fresh in his mind.

The Emperor Sparrow tilted his head and looked at Han Fei. “You can give it a try first. If it’s just what has escaped so far, it can improve and stabilize my realm. It might not be enough.”

“Not enough? Not good enough!”

Han Fei was overjoyed. He was afraid that the Emperor Sparrow couldn't eat enough.

The Emperor Sparrow said, “Don't be happy too early. There's already so much ominous power dissipating. I suspect that there's something under the blood spring. Therefore, it's difficult to estimate how much ominous power is really contained here, so we can only give it a try first.”

Han Fei said, “Okay! Try as much as you want. I'm not in a hurry.”

The Emperor Sparrow didn't ask where this was. Since he opened the sky, he hadn't been full. Even if he had encountered the Bloody Hand Mine Devils, it could only supply energy to his level-up a few times. However, it was far from enough if he wanted to stabilize his cultivation.

The Emperor Sparrow unfolded his wings and ignored the overwhelming blood Qi and black smoke, rushing to the sky above the blood pool.

“Tweet ~”

With a clear cry, the Emperor Sparrow opened his mouth, and the boundless blood mist began to rush into his body.

As for Han Fei, he clicked his tongue in wonder. He knew that the Emperor Sparrow was an ominous nemesis. It seemed that purifying this ominous power was much simpler for the Emperor Sparrow than he had imagined!

Han Fei even set up a hot pot. It was unlikely that the Emperor Sparrow could absorb all the ominous power in one or two days. He would have a big meal first and then start refining weapons.

He had no choice. He was determined to build the Seven Kill Army into a terrifying all-Sky Opener army. Therefore, if possible, it would be best if each of the soldiers had a Sea Quelling Bizarre Treasure, even if it was a low-quality one.

Half a year later.

“Tweet ~”

The Emperor Sparrow flapped his wings and soared to the sky. He shouted, “Han Fei, fuse with me.”

Han Fei was forging a weapon with a sledgehammer. Hearing this, he was shocked, but without any hesitation, he immediately flew away.

When he approached the sky above the blood spring, the God's Prayer Bead on his chest glowed brightly. He saw the Emperor Sparrow turned into a black shadow and suddenly entered his body.

Buzz!

On Han Fei's back, the black wings spread out, and the Emperor Sparrow said to him via voice transmission, “The ominous power at the periphery has all been swallowed by me, and I'm about to make a breakthrough. I originally wanted to go deeper into the blood spring, but there is a terrifying existence below. With my strength, I am not strong enough to be its enemy, so I need you to fuse with me.”

Han Fei had only fused with the Emperor Sparrow once, and this was the second time. And this time, the realm of the Emperor Sparrow was the same as his. After the fusion, Han Fei felt that his strength had soared, and many great techniques appeared in his mind.

At this moment, the blood spring here had dried up and was less than half the size of the beginning. A hole appeared in the center of the blood spring, which seemed to have been drilled out by the Emperor Sparrow.

When Han Fei looked at the hole, he immediately felt a terrifying power shining at him. Without thinking, he activated the Heavenly Fiend Battle Body and the Fiend Eating Divine Technique. Holding the liquid divine light, Han Fei punched into the hole.

Bang!

Below, a terrifying vortex was formed in the hole, as if an invisible hand was trying to drag Han Fei down.

But how could Han Fei be willing to go down? What was suppressed below was one of the arms of the Great Monarch Bloody Hand. After millions of years, this arm could create so many Bloody Hand Mine Devils. No one knew how much power it still had.

However, the suction force was so terrifying that Han Fei had to summon the Heaven Enlightenment Divine Technique. When his body was filled with divine light and he blasted it into the hole, the suction force was slightly relieved.

“Sh*t!”

Han Fei suddenly screamed. In just ten seconds, he had consumed a thousand years of vitality. And the phantom of a blood-colored palm extended out of the blood spring, forcibly resisting the Heaven Enlightenment Divine Technique, seeming to try to grab him down.

In the blink of an eye, Han Fei took out the Extreme Cold Pearl and threw it at the bloody hand phantom.

Buzz!

Ka ka ka ~

The blood was frozen, and the blood-colored hand phantom finally shattered.

After the Extreme Cold Pearl was used, Han Fei threw it into the cold road on the jade stone bridge, so it had long recovered.

Han Fei took a long breath of relief after seeing that the Carefree Realm’s blow could already shatter the bloody hand phantom. It seemed that he was not completely defeated. The other party was only a hand after all, and after millions of years of dissipation, although the bloody hand was still very strong, it was at least not as strong as a Monarch-level one.

Just as Han Fei had this thought, he suddenly felt his body sink. He looked down, only to see that a bloody hand was holding his ankle.

Bang!

In the next moment, above the spring of blood, Han Fei disappeared without a trace and was dragged down.

Below the blood spring was infinite blood, mixed with some black mist.

The consciousness of the Emperor Sparrow appeared in Han Fei's mind. Han Fei unfolded his wings, and a tremendous amount of ominous power surged over.

Because of the ominous power, the God's Prayer Bead kept erupting, so golden divine light spewed out of the hole under the blood spring. The golden light was intertwined with Blood-colored light and black weapons.

This was probably when the God's Prayer Bead was shining most brightly. Han Fei saw a broken blood-colored hand grabbing at him.

With a click, an unparalleled light burst out, and the bloody hand suddenly retracted.

Han Fei's heart did a flip. The God's Prayer Bead cracked.

"F*ck, how dare you destroy my ultra-quality godly weapon? You're asking to be killed... Heaven Enlightenment Divine Technique."

The ten thousand years of vitality was consumed by the Heaven Enlightenment Divine Technique, which illuminated this place with a sizzling sound. In the end, the bloody hand was forced back by the pure light.

However, this situation didn't last long. The ten-thousand-year vitality only lasted for two hours before it was used up.

The Emperor Sparrow said, "Don't waste your vitality anymore. Let this ominous power pour into your body. I want to use this to break through to the perfected Star Transformation Realm."

Han Fei was stunned. "I haven't reached the perfected Star Transformation Realm yet, and you are going to reach it?"

The Emperor Sparrow said, "The perfected Star Transformation Realm, or even the perfected Star Transformation Realm with Great Dao Locks, belongs to the peak-level late-stage Star Transformation Realm. Therefore, I'm not restricted by you at this moment. I'll be responsible for absorbing the ominous power. You'll be responsible for stopping that hand."

Han Fei was shocked. "What? That's the hand of a Great Monarch."

Unfortunately, the Emperor Sparrow didn't respond, but some black fog was surging into Han Fei's body at all times. Seeing that the corrosion of the ominous power was ineffective, the big hand actually attacked Han Fei.

...

Outside, far away, the Demon Vanquishing Tree looked at the blood spring and couldn't help but be surprised. "The ominous power has become so weak. Can that human really purify this ominous power?"

[God of Fishing](#)

Chapter 2564: River Under the Green Jade Stone Bridge

2564 River Under the Green Jade Stone Bridge

The Demon Vanquishing Tree didn't know that there was a fierce battle under the blood spring.

However, the Mine Demon Stream was not affected in this battle.

Obviously, the blood spring was also a seal, which must have been set by the former Great Monarch Mystic Martial to suppress this bloody hand.

After a million years, perhaps because this bloody hand consumed too much power, although Han Fei was mangled by this punch, it didn't kill him in one blow, which explained everything.

It could be seen that even the hand of a Great Monarch couldn't withstand the corrosion of the long years. Han Fei even thought that if it weren't for the ominous power, this bloody hand might have been completely corroded in the long river of time.

"Time Freeze."

Han Fei tried to seal the time here with the Great Dao of Time. However, Han Fei's move was penetrated in less than a thousandth of a second.

This time, the bloody hand was like a knife, stabbing into Han Fei's body and piercing through his body.

However, an invisible shield suddenly appeared on Han Fei's body. Although the bloody hands attacked seven or eight times in an instant, it was several times stronger than the Star Fist Technique each time.

However, it couldn't shake Han Fei at all.

After half an hour, Han Fei finally activated the Great Dao of Life Replacement and entered the invincible state.

"Humph! You're just a hand. Do you think you're a Great Monarch?"

The Emperor Sparrow asked Han Fei to hold on, but the current Han Fei was not qualified to fight this hand at all. Be it the speed or strength, he was far inferior.

The only thing he could rely on was the Great Dao of Life Replacement.

Of course, the duration of the invincible state was too short. The only thing Han Fei could do was to try to steal the power and Great Dao of this bloody hand.

However, when Han Fei first stole the power of this bloody hand, because the power was too terrifying, it directly backfired on Han Fei and caused him to use the Great Dao of Life Replacement.

The second time, Han Fei stole the Great Dao of the bloody hand. Therefore, Han Fei felt some completely different Great Daos. Perhaps for a Great Monarch-level powerhouse, the origin of the Great Dao was a law. He directly stole the power of some laws.

However, Han Fei couldn't understand these laws, so the moment he stole them, he suffered a backlash. Then, he had a moment to comprehend this law in his mind.

Unfortunately, after trying seven or eight times, Han Fei still couldn't understand it.

Stealing power and laws didn't work, so Han Fei took advantage of his invincible state to look at this bloody hand. Although it was rotten and the flesh on it had basically fallen off, Han Fei felt that there were Dao patterns engraved on this arm.

"Dao bones?"

Han Fei's heart did a flip. Can the pattern of the Dao bones be stolen?

"I steal."

This time, Han Fei's arm turned purple all of a sudden, and infinite power seemed to be gathering here.

"Roar!"

Han Fei felt that his arm was about to explode at any time because those Dao patterns were trying to imprint on the bones of his arm.

Han Fei was even a little excited. This was a bloody hand that could shake a god. These bone patterns couldn't be bad.

However, at the moment when Han Fei stole the bone patterns, the green jade stone bridge suddenly trembled.

In the next moment, the green jade stone bridge took the initiative to appear for the first time in midair. And then Han Fei found himself standing on the bridge.

At that moment, on the green jade stone bridge, the power of heat and cold bloomed at the same time.

The bloody hand was enveloped by the sudden scorching heat, producing a large amount of black smoke. It turned out that Han Fei's Original Great Dao also had the power to cleanse the ominous.

The patterns that tried to imprint on his bones were replaced by a brand-new Dao pattern.

Even the Dao Patterns that were imprinted when he got the chance of the Ultimate Hammer were erased at this moment and disappeared without a trace.

Yes, the green jade stone bridge didn't allow the Dao patterns of the Great Monarch Bloody Hand to be imprinted on Han Fei's body, so he took the initiative to pop up. Instantly, a large number of complicated patterns flew out of the bridge and drilled into Han Fei's body.

This scene stunned Han Fei. Could it be that his Dao patterns could only be born from his Original Great Dao? The green jade stone bridge seemed to reject external Dao patterns imprinted on his bones!

This one-sided battle became a stalemate the moment the green jade stone bridge appeared.

The bloody hand floated in the distance and stopped moving, and the green jade stone bridge kept appearing. The Emperor Sparrow was still swallowing the ominous power without stopping. At this moment, his aura was unstable and he seemed to be about to advance at any moment.

Han Fei looked inside and saw some complicated and strange patterns on the bones of his arm. Although he didn't take the initiative to cultivate them, he felt that these patterns seemed to contain the essence of many Great Daos, including power, time, space, Yin-Yang, Heavenly Enlightenment, invincibility, and so on.

Because the arm had been given these remnants of the Great Daos, Han Fei felt that this arm seemed to be different. The power he could use far exceeded before.

"Huh?"

Han Fei's first reaction was to think of the Dao fusion.

However, Dao Fusion was something that only Great Monarchs would do. How could it happen to him?

Han Fei's mind was racing. He looked at the green jade stone bridge and had a strange feeling. Why could the green jade stone bridge provide him with so many Great Daos? Why could he create the Great Dao of making something out of nothing?

Could it be that the green jade stone bridge was prepared for the Dao fusion from the beginning?

It was just that the green jade stone bridge prevented him from using other Dao patterns and passively gave his arm a mysterious Dao pattern. But how could he refine Dao bones next?

Returning to reality, Han Fei was surprised to see that the green jade stone bridge still appeared in the outside world.

Han Fei looked at the bloody hand again and suddenly said, "Steal."

This time, the patterns on the bloody hands were no longer stolen, but Han Fei seemed to see a fist mark, a blood-colored fist that illuminated the Sea of Stars like a blood shadow, spanning billions of kilometers.

"Puff ~"

In the next moment, Han Fei's seven orifices were bleeding and his soul was shaking.

That punch was so terrifying that Han Fei felt that his soul was penetrated just by looking at it. Correspondingly, Han Fei felt that his arm was hot. He subconsciously wanted to use the Star Fist Technique, but he didn't know how to continue because of that strange feeling.

Han Fei frowned and thought for a long time, but still failed to punch out.

Unwilling to give up, Han Fei tried to steal the patterns of the bloody hand again, but nothing appeared next. He couldn't help but sigh. He seemed to have missed an opportunity to comprehend the third level of the Star Fist Technique.

However, this kind of epiphany couldn't be forced. Perhaps if he could recall it at a certain moment, he would be able to launch the Silencing Fist.

However, this method of letting the green jade stone bridge passively give him Dao bones clearly couldn't help him completely condense and refine his Dao bones.

If the complete corpse of the Great Monarch Bloody Hand was here, the green jade stone bridge might be able to passively give him Dao bones if he forcibly stole Great Monarch Bloody Hand's Dap patterns.

But the current situation clearly didn't allow it.

However, the existence of the green jade stone bridge actually suppressed the bloody hand. This was something Han Fei had never expected.

He felt that he should pay more attention to the green jade stone bridge. What was this thing? Why had it become his Great Dao? Why had it helped him with the Dao fusion? Why could it suppress the remains of a Great Monarch?

Han Fei felt that he might have some unknown secrets. Old Han might not have told him the truth back then.

However, since the Great Monarch Bloody Hand was suppressed, this was a rare opportunity.

Han Fei said, "Emperor Sparrow, eat it quickly. Finish the ominous power contained in this bloody hand."

However, the Emperor Sparrow said, "I can't finish it. This entire hand is polluted. If it were me in my previous life, it might be easy for me. But now, I'm still in the Sky Opening realm. How can I swallow the power of a Great Monarch?"

Han Fei was dumbfounded. "Even you can't finish eating it?"

The Emperor Sparrow: "..."

At this moment, the Emperor Sparrow really wanted to use the Eye of Disaster on Han Fei. Is this human language? What do you mean by "even I can't finish eating it"? After I became your spiritual beast, have I ever eaten anything good except today?

This bloody hand seemed to be very afraid of the green jade stone bridge. It wanted to attack Han Fei but didn't dare to move. It could only let the Emperor Sparrow devour the ominous power here crazily.

Later, Han Fei simply canceled the fusion with the Emperor Sparrow and started refining weapons again. And the Bloody Hand seemed to find that Han Fei couldn't do anything to it except swallow the ominous power here, so it left this place.

Another year had passed, a clang was heard, and Han Fei had heard this voice for the third time.

He stopped the hammer in his hand and looked into the distance, only to see a black chain appear on the Emperor Sparrow again.

Han Fei couldn't help but sigh. Look at him. He had casually reached the perfected Star Transformation Realm and put on another Great Dao Lock. It was so easy for him to make a breakthrough.

Even Little Black and Little White were the same. In just a few decades, they had completed the entire Sky Opening Realm.

On the other hand, his path of cultivation was full of obstacles.

“Why can’t I reach the perfected Star Transformation Realm all at once? The green jade stone bridge can help me refine Dao bones. Otherwise, why would it reject other Dao patterns imprinted on my bones?”

Do I have to steal other people’s Dao Patterns to trigger the green jade stone bridge?

Han Fei cursed, “Can’t you take the initiative? It’s only a matter of time before I reach the perfected Star Transformation Realm.”

Han Fei heaved a sigh. Sh*t, he could only watch other people make breakthroughs. But the fact was that he had walked all the roads on the green jade stone bridge, but he really couldn’t reach the two doors.

Clang! Clang! Clang!

Han Fei lowered his head and continued to refine weapons. Suddenly, Han Fei raised his head and looked at the green jade stone bridge.

“No, there’s another road that I’ve never walked before.”

Han Fei’s heart was beating wildly. Yes, it was not that only a road could be called a road. The green jade stone bridge was above the river, but from the outside, there was no river at all. Where was the river?

Thinking of this, Han Fei put away the refining equipment and stepped onto the green jade stone bridge, coming to the center of the bridge.

He leaned over the railing and looked down. Good lord, perhaps he had neglected something from the beginning. This was a bridge. The bridge was something that existed as a connection. What was blocking the connection?

Han Fei looked at the clear water and saw his reflection in the water, and then he suddenly jumped down.

[God of Fishing](#)

Chapter 2565: Condense Dao Bones

2565 Condense Dao Bones

Just like last time, Han Fei never thought that the green jade stone bridge could be taken reversely.

He had never thought that the water under the green jade stone bridge could be used for bathing.

When Han Fei jumped into the river, he felt his entire body tense up. Countless indescribable Great Dao rules appeared in his mind.

At that moment, Han Fei felt that he could simulate any Great Dao he had seen.

Yes, it was a pure simulation. As long as you dared to show it, I could simulate it. This terrifying realization scared Han Fei himself. Was the green jade stone bridge so awesome, or was he?

As for the Dao Bones that he had been thinking about how to forge, he didn’t need to forge them now. As long as he took a shower in the river, he would have everything.

The energy of this river was beyond Han Fei's imagination. Not only was it condensing Dao Bones for Han Fei, but it was also nourishing Han Fei's flesh and strengthening his soul.

Han Fei, who had never felt the feeling of winning without doing anything, finally felt it this time.

It turned out that from the beginning, he could obtain a tremendous amount of returns from the green jade stone bridge, but he just walked it by brute force.

When he crossed the green jade stone bridge and encountered the mirror barrier, he almost exploded himself before barely clearing the path.

However, if he were smart enough to jump into the river and take a shower, his body and soul would have taken a qualitative leap. Then it would have been as easy as a pie for him to break the mirror barrier.

At this moment, Han Fei knew that in addition to the Demon Purification Pot, his green jade stone bridge was probably also an extraordinary treasure, but he had never paid too much attention to it.

There was no sun or moon under the bridge, so although Han Fei thought that a long time had passed and his Golden Jade Bone was covered with dense and complicated patterns, when Han Fei was sure that he had condensed Dao Bones, only a blink of an eye had passed in the outside world.

The river had no side effects and had always been comfortable, but Han Fei could feel that the power that spread to his body was weakening.

Buzz!

With a thought from Han Fei, he appeared in the outside world.

The Emperor Sparrow was still absorbing the ominous power here, and the bloody hand was still far away, minding its own business.

Han Fei took a look at his personal information:

Owner: Han Fei

Level: 109 (Sky Opening- Extreme Dao Balance)

Bloodline Ranking among the Clans in the Infinite Ocean: the 120,012nd

Immortal Qi: 1,480,000

Soul: 48.86 Origins (48,866,549 points)

Perception Range: 50 million kilometers

Strength: 48.86 Star Powers (48,866,549 waves)

First Spiritual Heritage: Origin Spiritual Heritage

Second Spiritual Heritage: Eternal Darkness Spiritual Heritage

First spiritual beast: Twin Yin-Yang Sky Swallowing Fish (Level 109)

Second spiritual beast: The Emperor Sparrow (Level 109)

Main Art: Godfiend Formless Technique

“Hiss!”

When Han Fei saw this data, to be honest, he was stunned. His soul power and strength had soared by more than 40%. Previously, his soul power was nearly 35 Origins, but now it was nearly 49 Origins.

This was just because he had condensed Dao Bones.

Originally, Han Fei’s main goal for this exploration was to find a body for the old turtle and a place for the Seven Kill Army to settle down.

However, Han Fei never expected that he would be the one who benefited the most.

He had already achieved the speed of light explosion.

He had somehow refined his Dao Bones.

Wait...

Suddenly, Han Fei saw that his bloodline ranking among the clans in the Infinite Ocean had changed. The bloodline that should have taken another three or four thousand years to complete the evolution was suddenly completed. Was it because of the river? Or, on the green jade stone bridge, there was no concept of time, so a long time had passed?

Han Fei doubted that. It could be either. Maybe it was because he had spent enough time and the evolution was naturally completed. Or maybe the river water helped him accelerate the evolution.

Anyway, his bloodline had reached the 120,000th among all the races in the Infinite Ocean.

Han Fei couldn’t help but sigh. This ranking should be very high, right?

Han Fei subconsciously glanced at the conditions for bloodline evolution. Sure enough, the divine beast bloodlines like the Divine Tide Whale and the Sky Strike Jade Shell had all disappeared.

The information showed:

Number of Races in the Infinite Ocean: 29,621,356

Owner: the 120,012nd

Bloodlines nearby: Twin Yin-Yang Spirit Swallowing Fish, The Emperor Sparrow, and the Heaven Sea Conch

Recommended Bloodline: Heaven Sea Conch

Yes, the only essence blood he could use now was that of the Heaven Sea Conch.

Without hesitation, Han Fei took out the drop of Heaven Sea Conch’s blood essence and swallowed it.

Perhaps, after digesting this drop of essence blood, he would be ranked among the top 100,000.

In fact, Han Fei didn't feel much about the strength of his bloodline, because as his bloodline became stronger, his comprehensive strength was also becoming stronger. His soul and body were growing very quickly.

As for the bloodline level, on one hand, it determined the speed of his growth, and on the other hand, it determined the limit of his growth. In any case, the higher the bloodline ranking, the better. In this way, there would be no pressure or shackles when he grew up.

"Have I reached the perfected Star Transformation Realm?"

Han Fei murmured, but then he realized something. "That's not right. My Origin Star's quality isn't following up, nor is the mass of the Star Core."

Han Fei realized that he was cultivating both the Supreme Divine Technique of the human race and the Godfiend Formless Technique. In terms of the Supreme Divine Technique, he needed to compress his Star Core a thousand times more in order to truly reach the perfected Star Transformation Realm, even if his current combat power had definitely exceeded the normal perfected Star Transformation Realm.

However, others were others and he was he. There was still a huge gap before he reached the peak of the perfected Star Transformation Realm.

Han Fei condensed his Dao Bones in an extremely short period of time. The Emperor Sparrow clearly sensed Han Fei's breakthrough in strength and couldn't help but ask via voice transmission, "Why did you suddenly make a breakthrough? Have you reached the perfected Star Transformation Realm?"

Han Fei said, "Not yet. Almost."

The Emperor Sparrow said, "Well, I think we can give up purifying this place for the time being. I've already tried my best and can only barely devour the ominous power other than that in the hand of the Great Monarch. However, I made breakthroughs too quickly and improved too much. It might take me a thousand years to digest it. Even in your Origin Star, it will take several years."

Han Fei was stunned. "Even you can't suppress this bloody hand?"

The Emperor Sparrow said, "After all, it's the hand of a Great Monarch. With my current strength, it's not enough. However, after a long time of corrosion, the ominous power of this bloody hand has dissipated a lot. In addition, it's declining, so its strength is less than 1% of its peak state. There's no need to worry that it will counterattack. However, this bloody hand seems to have developed extremely high intelligence. If we deal with it by force, the consequences might not be what we want."

Han Fei said, "Then come back first."

When the Emperor Sparrow returned to Han Fei's Origin Star, he was not in a hurry to leave. As Han Fei issued an order in his heart, the green jade stone bridge disappeared.

At the moment when the green jade stone bridge disappeared, as Han Fei expected, a blood shadow instantly broke through the air. If it wasn't the Great Monarch's bloody hand, what could it be?

But this time, Han Fei didn't just let the bloody hands attack him.

At the moment when the bloody hand moved, Han Fei moved too. A light spot erupted, and a pair of Void Wings appeared behind Han Fei.

At that moment, a terrifying speed as high as 28 times the speed of light erupted. At the same time, Han Fei operated the Great Dao with all his strength. Although he had condensed Dao Bones, his basic combat power had also become stronger. With the enhancement of six times his strength, he didn't know if his current body could withstand it.

However, this was one of the few opportunities for him to fight a Monarch. Although it was dangerous, he had to try. Because in the future, he would inevitably face a real Monarch, not just a hand.

When his combat power was increased by six times, Han Fei felt that his body was filled with power and even a little stiff. However, his body had completely withstood it. This released a signal that the improvement of his bloodline and the refinement of his Dao Bones had greatly increased the tolerance of his body.

However, before Han Fei could feel the power, the bloody hand slapped him from the side.

"So fast."

Although Han Fei had already expected that his speed might not be comparable to a Great Monarch, or even a Monarch in the Dao Proving realm, it was still better than 14 times the speed of light. At least his speed had doubled.

At this moment, Han Fei made a fist mark and tried to resist, but as soon as the fist mark touched the bloody hand, Han Fei felt a terrifying power much stronger than his own.

Bang!

Han Fei was blown back, and his arm had turned into an octopus tentacle, deflecting half of the force.

"It's been a million years, but the hand is still so strong? Is the Carefree Realm so terrifying?"

Han Fei thought that since his strength had skyrocketed this time, even if he couldn't beat it, he could at least contend with it.

However, the result was no different. Be it speed or strength, he was much weaker than the Bloody Hand.

At this moment, a blood-colored light flashed again, and Han Fei moved in the air, narrowly dodging the blow. In the next moment, his Dao Bones glowed, and Han Fei activated the power of his Dao Bones, raising his speed to more than 30 times the speed of light.

Han Fei was overjoyed. Sure enough, it was beneficial to reach 18 times the speed of light without using the Dao Bones. That was, the Dao Bones themselves had been integrated with the Great Dao of speed, so when they erupted to their limit, they could increase his speed further.

However, this increase was not much. Han Fei estimated that the additional speed provided by the Dao Bones was only between four and six times. This speed increase was still meaningless against the bloody hand.

Sure enough, in the next moment, Han Fei was sent flying by a punch.

However, this upgrade was not completely useless. At least, after being punched by the bloody hand, his injuries were not as serious as before.

If he could resist three punches from the bloody hand before, he felt that he could take at least ten punches now, or even more.

[God of Fishing](#)

Chapter 2566: Turtle Body

2566 Turtle Body

“Hey! Are you still the Great Monarch Bloody Hand?”

Seeing that he couldn’t beat the Bloody Hand, Han Fei didn’t intend to fight it but asked tentatively.

However, the moment he asked, the bloody hand suddenly burst out with intense blood light. It seemed to have gone crazy and turned into a bloody hand that was tens of thousands of meters long. Han Fei felt a chill down his spine.

“F*ck! Brother, I’m just saying hello to you. Do you have to do this?”

Han Fei broke into a run and stopped fighting.

...

Bang!

At the bottom of the Mine Demon Stream, at the entrance of the dried blood spring, a shocking bloody light suddenly rushed out. Along with the bloody light appeared a figure with a swollen face.

Rumble!

Han Fei’s head was smashed into the rock wall hundreds of thousands of kilometers away. He was dizzy and drenched in golden blood.

“F*ck...”

“Heaven Enlightenment Divine Technique.”

When the healing divine light descended, Han Fei finally took a long breath. He waited for an hour before he completely recovered.

After Han Fei’s injuries healed, he said casually, “Senior Demon Vanquishing, look at how badly injured I am. You should know how much I’ve done for you.”

Then, Han Fei picked up the God’s Prayer Bead on his neck and said, “Senior, take a look. This is an ultra-quality godly weapon. It’s very valuable. Now it’s almost ruined. Senior, I’ve sacrificed so much to suppress the Bloody Hand. It’s not a small sacrifice. It’s time for you to fulfill your promise, right?”

“How did you know I was here?”

Vines of the Demon Vanquishing Tree appeared along the rock wall.

Han Fei said, "Senior, since I dare to go to the Blood Spring to suppress the severed hand of the Great Monarch Bloody Hand, you should know I'm quite talented. Otherwise, why do you think Old Yuan is with me? Therefore, it's not difficult to find you."

The Demon Vanquishing Tree tacitly agreed with Han Fei. If it were an ordinary person, he would have died long ago, but Han Fei came out of the blood spring alive. For him, this was already a miracle.

But the Demon Vanquishing Tree said, "Human being, you said that you would purify the blood spring and all the ominous. Now it seems that you only suppressed the severed hand, but the source of the ominous is still there. It seems that you haven't fulfilled your promise, right?"

Han Fei grinned and said, "Senior, the blood spring has already dried up and won't dissipate for 100,000 years. This is already a very good result. I'm still weak and can't completely eliminate the bloody hand. But in the near future, it will be easy for me to purify this bloody hand. Senior Demon Vanquishing, what do you think?"

Han Fei's heart turned cold. The Demon Vanquishing Tree was too greedy. If the Demon Vanquishing Tree didn't give him the turtle egg, he wouldn't take it either. He would just turn around and leave, as long as the Demon Vanquishing Tree felt that he could bear the price.

Of course, what Han Fei said about suppressing the bloody hand for 100,000 years was nonsense. According to the Emperor Sparrow, this blood spring would dissipate again in at most a thousand years.

But he didn't care. Would the Demon Vanquishing Tree dare to enter the blood spring to investigate? He didn't dare, so he could only trust Han Fei.

If this Demon Vanquishing Tree kept its promise and could protect the Seven Kill Army, in a thousand years, it would be enough for him to destroy this bloody hand.

If the Demon Vanquishing Tree dared to offend him, he was only a carefree-level Monarch anyway. Even if he used the power of Puppet City, his strength would at most be at the immortal level.

But were there really few immortal-level powerhouses in the Sea Realm? Han Fei couldn't beat him, but he could kill him with a borrowed knife.

Sure enough, the Demon Vanquishing Tree seemed to be thinking for a moment and said, "Alright, human, you've indeed done enough. In that case, come to Puppet City! The turtle egg can only be used in Puppet City."

Han Fei smiled faintly. With a thought, a peak-level late-stage Star Transformation Realm clone descended from the void, and then the old turtle left his Origin Star.

Han Fei said, "Senior, let my original body leave the Mine Demon Stream first! My people should be waiting for me to go back. I'll come to disturb you next time."

The Demon Vanquishing Tree understood. Han Fei was certain that he couldn't take him down, so he was a little relaxed now. Once his original body left the Mine Demon Stream, he would be a great threat to him. It was impossible for him to cross the Mine Demon Stream to kill Han Fei.

This person could survive the bloody hand. As he said, he was indeed talented. Even if he took action, he might not be able to take this guy down.

Therefore, the Demon Vanquishing Tree didn't force Han Fei to stay. Once he did so, they would immediately fall out. Once they fell out, the consequences would be uncontrollable.

The old turtle exchanged a glance with Han Fei and said leisurely, "Don't worry. I know Puppet City well. Hey, Little Demon Vanquishing, there are many puppet arrays in Puppet City. I think these things can be used. You've seen Han Fei's potential. I know the heritage of Puppet City. If you two can form an alliance and become friends, even if Great Monarch Mystic Martial hasn't returned, Puppet City might be able to return to its former glory."

The Demon Vanquishing Tree knew that he couldn't stop Han Fei at this moment. He didn't dare to attack. If Han Fei ran away, the consequences would be disastrous.

The Demon Vanquishing Tree even guessed that Han Fei was actually luring him to attack him just now by pretending to be seriously injured.

Otherwise, why would he heal himself before mentioning that he knew he was here?

At this moment, the Demon Vanquishing Tree was a little tired. Is this what a human being is like? A race that has risen and declined countless times in history but has never been terminated? What a deep-minded race!

After careful consideration, the Demon Vanquishing Tree didn't completely refuse. Instead, he replied, "Puppet City will be open to you for a thousand years as repayment for suppressing the Bloody Hand this time."

Han Fei's eyes lit up. It seemed that his threat was indeed useful. Unfortunately, he probably wouldn't go to Puppet City this time.

The only pity of this trip was that he hadn't really entered Puppet City. Besides, before he had the strength to fight the Demon Vanquishing Tree head-on, he wouldn't go to Puppet City again.

Unfortunately, he probably couldn't get the resources in Puppet City.

However, since his people were going to Puppet City to train, the Demon Vanquishing Tree shouldn't be too stingy and not give them any resources.

Also, not going to Puppet City didn't mean that he couldn't get resources.

Han Fei glanced at the old turtle and said, "Old Yuan, return early after reconstructing your body. Our journey has not been completed."

Old Yuan said, "Don't worry. When I return with a new body, I'll take you to the place where I used to sleep."

...

Several hours passed.

Puppet City.

This time, Han Fei's clone moved forward with the old turtle, entering the inner city from the outer city.

Above the city gate of the inner city, the words “Puppet City” hung high.

Although it was just his clone, Han Fei almost collapsed when he looked at it.

The old turtle was about to speak, when Han Fei said, “I know, it’s the calligraphy of the Great Monarch! It’s just that the calligraphy of Great Monarch Mystic Martial is a bit awesome! I once saw the calligraphy of a former god in the Gate of Heaven, and I felt that the two were similar!”

The old turtle said, “It’s different. The calligraphy of that god you see might be casually written. However, Puppet City has been guarded by a Great Monarch for countless years and is soaked in the strong aura of a Great Monarch. Besides, you’re just a clone. Of course, you can’t withstand it.”

As for the Demon Vanquishing Tree, he was shocked. He didn’t remind Han Fei just now because he felt that it was impossible for him to pass through. Who would have expected that this human had really entered Puppet City with his clone?

“Sure enough, I underestimated this human!”

The Demon Vanquishing Tree was slightly relieved. Fortunately, he didn’t attack them before. Otherwise, he would probably be in trouble.

The Demon Vanquishing Tree said, “The turtle egg...”

The old turtle said, “I know where the eggs are. Puppet City specially built a God Gazing Cave. Little Demon Vanquishing, you might not believe it, but I gave this name to it.”

Han Fei immediately turned his head and took a deep look at the old turtle. It’s you again? Are you a follower of Great Monarch Mystic Martial, or is Great Monarch Mystic Martial your follower?

The little treeman transformed from the Demon Vanquishing Tree also looked at the old turtle blankly, thinking, Is this person really so close to Great Monarch Mystic Martial? Then why is there no information about him in my inherited memories?

The interior of Puppet City was very different from what Han Fei had imagined. Han Fei saw many mineral puppets erected in every corner of Puppet City like statues.

Han Fei didn’t think that these puppets were decorations. According to their molding materials, there were obvious levels. Han Fei even saw many level-five and level-six mineral puppets.

Yes, level-six minerals had been made into puppets here. On the way from the city gate to the God Gazing Cave, Han Fei had seen no less than 3,000 puppets. And this was only the number of puppets he had seen along the way. God knew how many such puppets there were in this Puppet City.

Han Fei couldn’t release his perception, or it would seem too presumptuous. However, if he could get so many puppets...

After arriving at the God Gazing Cave, Han Fei was about to follow them in, but was stopped by the Demon Vanquishing Tree.

Three months later.

From the God Gazing Cave, a dark green rock more than ten meters long and wrapped by scale armor was sent out by a cluster of branches.

“What the hell? Is this an egg?”

At this moment, the treeman avatar of the Demon Vanquishing Tree appeared and said, “I now believe that this person does know Great Monarch Mystic Martial, because he knows the eggs of Mystic Martial too well. He can perfectly carry a turtle body.”

Han Fei: “???”

God of Fishing

Chapter 2567: You Can Call Me Young Master Dian

2567 You Can Call Me Young Master Dian

It had been almost two years since Han Fei entered the Mine Demon Stream.

Outside the Mine Demon Stream.

When Han Fei saw the Seven Kill Army again, to be honest, even he was very surprised.

He saw that tens of thousands of people were recovering every second under the protection of a group of Sky Openers. And the battlefield outside the Mine Demon Stream was in full swing. Although most of the battles happened in the void, in reality, the mountains were still broken and it was a mess.

Of course, the result was beyond Han Fei’s expectations. He discovered that more than 90% of the people had already advanced.

Yes, Han Fei didn’t see it wrong. Except for some children, most of them had advanced. Han Fei had thought that it would take at least decades for all of them to establish the sea.

But now it seemed that even those who hadn’t advanced had basically reached the peak of the Venerable realm. Obviously, with Han Fei’s long-term resource supply, the impartation of cultivation techniques, and the time acceleration supply, these people had grown rapidly in actual combat.

As soon as Han Fei appeared, he immediately attracted the attention of countless people.

Someone shouted, “Master Human Emperor is back.”

Someone was delighted. “Master Human Emperor has returned from his exploration. The Mine Demon Stream must have been cleared.”

Before seeing Han Fei, everyone was fighting the mine demons. When they were tired, they would take a rest under the protection of Sky Openers, and would return to battle when they recovered.

This battle lasted for two years. Those who were really afraid of death and were negligent in fighting had basically died in battle. The rest could be said to be warriors who had experienced hundreds of battles.

Hong Yue, Zhou Jingjing, Wang Xu, Chen Tong, and the others all gathered around.

Han Fei glanced at everyone and said, “The effect is not bad. In two years, there were more than 10,000 Sea Establishers added. These two years have not been in vain.”

Hong Yue said, "Master Human Emperor, it's a pity that there is still a threshold for the Sea Establishment Realm. Although the number of Sea Establishers has increased, some people have also died under some extreme pressure."

Han Fei said indifferently, "The best resources have been given to them. It's up to them whether they can grasp them or not. By the way, I guess you've felt the pressure after you entered the Star Transformation Realm, right?"

Instantly, Hong Yue and Zhou Jingjing looked at each other. Not only did they feel pressure, but they also felt that the star transformation road was too difficult to walk. It required countless resources, and resources alone were not enough. It also required a long time to digest and absorb.

At this moment, they were only molding the ground veins. Although they had already molded a lot, the ground veins still needed to be modified. If it weren't for Han Fei's Origin Star, it would take them at least two or three hundred years to mold the ground veins.

Hong Yue said, "Master Human Emperor, we didn't know until we entered the Star Transformation Realm that it's too difficult to reach the peak-level late-stage Star Transformation Realm. No wonder it took countless people hundreds of thousands of years to reach the late-stage Star Transformation Realm cultivators. Now we have a deep understanding of it."

Han Fei grinned. "That's for others. The path of the strong is cultivated through hard work, not blindly. Zhou Jingjing, gather everyone!"

Zhou Jingjing's heart trembled. "Yes, Master Han Fei."

After a while, in a cleared open space, everyone held their heads high. They hoped that Han Fei could see their growth.

There were 223 people in the Sky Opening Realm and 83,402 below the Sky Opening Realm.

Yes, there were much fewer people than when they first saw Han Fei, but their comprehensive strength had improved more than one time.

Han Fei shouted, "Everyone, I have two things to tell you. Firstly, there is an ancient city under the Mine Demon Stream. There is a Monarch in the city. Now, this Monarch has reached a temporary alliance agreement with me. The Seven Kill Army can enter the city to carry out some special prehistoric cultivation tests."

"Hiss ~"

The news was quite shocking.

Cooperate with a Monarch in a prehistoric ancient city? They could even enter the city for special training? If they hadn't met Han Fei, they might never have had such an opportunity in their lives.

Hong Yue, Zhou Jingjing, and the others were also stunned. Han Fei could cooperate with a Monarch now? Did his strength go further, or had he proven Dao in secret? Otherwise, why would a Monarch agree to such a thing?

Han Fei continued, "The second thing is that in the future, the Mine Demon Stream may become the habitat of our Seven Kill Army or even our human race. Therefore, I need you to become stronger. I need you to be good fighters and could become true powerhouses, participate in the battles of the strong and survive in the future. I can't promise you now that each of you can open the sky. I can only guarantee that as long as you don't die, everyone will reach the peak of the Sea Establishment Realm and have a chance to open the sky."

For most people, being able to open the sky was actually enough. Han Fei's guarantee was already good enough. How many forces in the world could guarantee that all their subordinates could reach the peak of the Sea Establishment realm? Even the Divine Capital Dynasty or the Capital of Horror didn't dare to make such a guarantee.

Someone shouted, "Master Human Emperor, you have done too much for us."

Someone was moved. "Master Human Emperor, I'm willing to follow you to the death."

Someone was excited. "Master Human Emperor, what you're pointing at is where our weapons are headed."

Amid countless promises, exclamation, and vows, Han Fei said indifferently, "I don't need any guarantees from you now. What I need is your growth. You are the first batch of members of the Seven Kill Army. You are the guardians of the billions of lives of the human race and are their guides. In the Seven Kill Army, most people are not human beings. What I give you needs your return. And what I want in return is your dedication to the future of the human race..."

After that, Han Fei looked at everyone and said, "Before going to the ancient city, I'll let you enter my Origin Star to cultivate for a period of time so that you can digest your cultivation during this period of time. When this cultivation is over, all of you will enter the ancient city of the Mine Demon Stream for special training."

...

Half a year later, Han Fei returned from cultivation. The old turtle had been gone for so long. Was it so difficult to rebuild his body? With the old turtle's means and a ready-made turtle egg, shouldn't it only take him a few days to have a new body?

Also, even if the old turtle was really reconstructing his body and was in some special situation, his clone should at least send the news back.

However, Han Fei waited for half a year but got no message.

Han Fei thought of going directly into the Mine Demon Stream, but on second thought, the danger of the blood spring had been temporarily eliminated by him. If he went in rashly, in case the Demon Vanquishing Tree had already set up an inescapable net, he wouldn't be a match for a Monarch.

Therefore, Han Fei thought hard for a few days and left a Sea Establishment Realm clone here to wait for the old turtle. Then he jumped away and went to the Hundred Alliance City.

If he wanted to open the way into Puppet City, there were still hundreds of thousands of Bloody Hand Mine Devils to kill. If he didn't kill these Bloody Hand Mine Devils, it was impossible for the Seven Kill

Army to enter Puppet City. If he wanted the Mine Demon Stream to become one of the habitats of the human race in the future, he had to open this way.

Also, what was going on with the Demon Vanquishing Tree? Was he acting before? The old turtle hadn't come out for so long. It was hard to tell if he had been detained.

Therefore, under such circumstances, Han Fei must not enter the Mine Demon Stream alone.

In addition, there were so many Bloody Hand Mine Devils in the Mine Demon Stream. He couldn't clear this road alone. Not to mention that he wasn't a Monarch yet, even if he had proven his Dao, it wouldn't be easy for him to kill 100,000 Bloody Hand Mine Devils.

Before, Han Fei didn't know the difference between the Sky Opening realm and the Monarch Realm. But now, Han Fei could objectively see the difference between the two.

In terms of physique and strength, the other party might not be stronger than him, or even weaker.

However, if a Dao Proving realm cultivator's Great Dao was stronger than his, his soul strength should also be stronger than his. This was not something that physique alone could compare to.

For example, in the battle with the Bloody Hand, to be precise, he was beaten up and had no power to fight back. He couldn't even beat a hand, let alone a real Dao Proving Level cultivator.

At least, not now.

...

One month later, in the Hundred Alliance City.

Han Fei had a level-seven mineral sign hanging on his waist. With the help of the Demon Purification Pot, he could make it. It could be said that once this sign appeared, it was a symbol of strength and identity.

Behind Han Fei, Qin Cheng followed closely, with a level-six mineral sign hanging on his waist.

At this moment, Qin Cheng felt as if his head was being hit. He said in a low voice, "My lord, can we really walk in the Hundred Alliance City so openly?"

Han Fei grinned and said, "Why not? They know you, Qin Cheng, but they don't know me. I'm here this time to see how charming you are and how many people you can attract."

Qin Cheng: "..."

After walking for a while, Qin Cheng saw Han Fei going to the intelligence center of the Capital of Terror. He couldn't help but ask, "Master, are we here to buy information?"

"No! We're here to sell information!"

Qin Cheng's heart stirred. During this period of time, he had been suppressed by Han Fei on his Origin Star, so he didn't know what Han Fei had done in the past few years. Now Han Fei was here to sell information. He didn't know what information he was going to sell.

In the intelligence center of the Capital of Horror, when the shop assistant saw the level-seven token hanging on Han Fei's waist, he couldn't help but be shocked. A level-seven token could only be worn by a big shot. A level-six token was enough to establish a sect in the Infinite Mining Area, and someone with a level-seven token was a powerful existence that could enter the top 100 forces.

However, no one recognized Han Fei's face. This person's appearance was extraordinary, his face was filled with arrogance, and he walked with the vibe of the strong, but he was still so young. This meant that Han Fei was definitely from a rich family and had a powerful background.

Look, Qin Cheng, who was wanted by the Soul Controlling Sect at a high price, was now following this person. More importantly, Qin Cheng also got a level-six mineral token. Was this something that Qin Cheng, a peak-level late-stage Star Transformation Realm cultivator, could wear? Not to mention that Qin Cheng was only a peak-level late-stage Star Transformation Realm cultivator, even if he had reached the perfected Star Transformation Realm, he wasn't qualified to wear a level-six mineral token.

Now, Qin Cheng had openly appeared in the Hundred Alliance City, which clearly meant that the person who ambushed the Soul Controlling Sect must have something to do with this young man.

At this moment, one of the leaders of the intelligence center of the Capital of Terror, a coquettish woman took the initiative to approach Han Fei. She giggled. "Fellow Daoist, you don't look familiar. May I know which family you are from?"

Although she asked who Han Fei was, the woman seemed to have seen through Han Fei.

With the intelligence she had, she had already guessed Han Fei's identity, and the accuracy was extremely high.

Qin Cheng had ruined the Soul Controlling Sect's business. The Soul Controlling Sect was slaughtered by the human race's Seven Kill Army. Therefore, if he guessed right, this person was the Human Butcher who had disappeared for several years. He was also the leader of the Seven Kill Army that was on a killing spree outside the Infinite Mining Area.

However, he didn't know who this Human Butcher was or where he came from.

As soon as this person entered the Infinite Mining Area, he attacked the Soul Controlling Sect. There was no telling if he was from the Central Sea Divine Realm.

Holding his head high, Han Fei glanced at the woman casually. "You don't have to care which family I'm from. Anyway, I came to your intelligence center today. You can call me Young Master Dian or Young Master Chun Huangdian. I'm here for a big business. Let the manager talk to me. Your level is not high enough."

The woman: "..."

[God of Fishing](#)

Chapter 2568: The Legacy of the Great Monarch Bloody Hand

2568 The Legacy of the Great Monarch Bloody Hand

"Chun Huangdian?"

The woman was lost for words. This Human Butcher was truly arrogant. However, he did have the qualifications to be arrogant. How long had he been in the Infinite Mining Area? He had already obtained a level-seven mineral token. It could be seen that in the past few years, he must have gone to explore the unknown areas of the Infinite Mining Area.

Of course, there were also many people who could hunt high-level mine demons in the Infinite Mining Area. This person's strength had reached the perfected Star Transformation Realm, but it was impossible to tell if he had a Great Dao Lock or not. Perhaps he also had his own power in the Infinite Mining Area. Perhaps he was a Heavenly Talent from a big power in the Central Sea Divine Realm.

However, judging from this person's talent, it was already precious that he could cultivate to the perfected Star Transformation Realm at this age. Even if he was just an ordinary perfected Star Transformation Realm cultivator, he was still a top existence in the Infinite Mining Area.

Under normal circumstances, the people in the Infinite Mining Area wouldn't attack a perfected Star Transformation Realm cultivator because they didn't know if this person had Great Dao Locks or not, nor did they know how strong this person was. If they encountered a tough opponent, they might be in serious trouble.

Therefore, the woman bowed slightly and spoke to the manager telepathically.

The person in charge came quickly. It was a woman. As soon as this person appeared, Han Fei felt a sense of déjà vu. She looked a little like the Queen of Horror.

This woman was wearing a black gauze dress but didn't look mature. Instead, her light pink lips, shallow dimples, and simple pearl earrings made her look like a young girl.

As soon as the woman appeared, she waved her hand slightly to beckon the female servant to leave. After she left, the woman bowed slightly and said, "I'm Xiangxiang. Nice to meet you, Master Dian."

The first time he saw this woman, Han Fei felt a little confused. In his eyes, this woman looked a little like Xia Xiaochan. Oh no... They were very similar.

Han Fei immediately felt that something was wrong. For some reason, he was a little dizzy.

At this moment, the God's Prayer Bead on Han Fei's chest suddenly glowed.

In an instant, Han Fei woke up.

Xiangxiang's pupils were constricted slightly as she looked at Han Fei's chest. This power, this quality, is this an ultra-quality godly weapon?

"Huh? Xiangxiang?"

Before Han Fei had time to react, Qin Cheng's pupils were constricted as if he had heard a terrifying name.

In the next moment, Han Fei felt that Qin Cheng was holding his breath. Yes, this guy closed all the pores on his body and held his breath.

If it weren't for the environment, Han Fei felt that he would have raised an energy shield to protect himself.

Han Fei raised his eyebrows, wondering why Old Qin was so stupid. Who couldn't tell that there were two perfected Star Transformation Realm cultivators here? Why was he holding his breath?

Xiangxiang laughed and said, "Qin Cheng, my Dao of Fragrance is against the enemy. Do you think I would attack you in my own territory? Is your reward money worth it?"

Hearing that, Han Fei realized that this woman's Great Dao was related to smell. Could there also be a Great Dao? Then could he make a Great Dao of fragrant hot pot after stealing it?

Han Fei patted Qin Cheng's shoulder, and a gentle power surged in. In the next moment, divine light escaped from Qin Cheng's body.

Upon seeing this, Xiangxiang frowned slightly. She had left a trace of tracking information in Qin Cheng's body, but it was instantly cleared by this person.

It could be seen that this person was quite strong. He was not a playboy but a real strong master. This was interesting.

However, Han Fei said, "Miss Xiangxiang, for this gift, the price of my intelligence must be increased by one level."

Xiangxiang: "???"

Xiangxiang had seen all kinds of big scenes. How much would a piece of information be worth?

Therefore, Xiangxiang smiled carelessly. "Since Young Master Dian has said so, I certainly have to agree. How dare I say no? Come on in, Young Master Dian. I have Nether Mist Flower Tea that's produced in the Capital of Terror. I dare not say that it's unparalleled in the world, but it's definitely ranked in the top three in the East Sea Divine Realm."

Han Fei raised his head and nodded slightly. "Not bad. It seems that the Capital of Horrors knows how to treat guests."

After a while, at a quaint tea table, Han Fei held a level-seven mineral teacup and took a sip of the tea that ranked among the top three in the East Sea Divine Realm.

Qin Cheng stood behind Han Fei and didn't dare to move, because the effect of the Nether Mist Flower Tea was too strong. This was not just tea! It was a medicine, but the kind of medicine whose effect was too strong and turned into poison. For those who could withstand it, it was a precious medicine, but for someone like Qin Cheng who wasn't strong enough, he was already showing signs of being poisoned.

However, Han Fei couldn't say that Xiangxiang used poison, because it was indeed a great tonic for him. One cup of it could increase his soul power by a thousand points. If it weren't for the fact that he had to maintain Chun Huangdian's hatefully arrogant personality, Han Fei would have drunk all the tea here.

However, Han Fei still did something. He just snapped his fingers casually, and a beam of divine light fell on Qin Cheng, dispelling the poison in him.

Han Fei said, "Let's get down to business."

Xiangxiang smiled. "Young Master Dian, as you want. May I ask what kind of information you have brought this time? It seems to be very valuable."

Han Fei asked, "Qin Cheng, how much is he worth?"

Qin Cheng: "???"

Qin Cheng almost peed himself. Why the f*ck is this about me? I'm your lackey now!

Xiangxiang said with a smile, "Young Master Dian, are you kidding me? Qin Cheng has already appeared in the Hundred Alliance City. He's no longer valuable."

Han Fei smiled and said, "Oh? Is that so? That's a pity. Then let's talk about real business! I found the inheritance of the Great Monarch Bloody Hand in the northern mining area. Well, Miss Xiangxiang, give me an estimate first."

Xiangxiang's body slightly trembled. "Great Monarch Bloody Hand? Why have I never heard of such a Great Monarch in the Infinite Mining Area?"

Han Fei grinned and said, "Really? The Capital of Horror, the top power of the Infinite Mining Area, doesn't even know about the Great Monarch Bloody Hand? Millions of years ago, his pair of bloody hands could even shake gods. Are you sure you don't know about it? If you don't, I might have to consider negotiating with another intelligence center."

Qin Cheng was secretly shocked. Who? The inheritance of a Great Monarch? Did his cheap master have the inheritance of a Great Monarch?

More importantly, why don't you keep the inheritance of the Great Monarch for yourself but sell it? Are you out of your mind?

Xiangxiang's reaction was actually the same as Qin Cheng's, but being provoked by Han Fei, she pretended to think for a moment and immediately smiled. "Ah! So it's that person. When Young Master Dian said that his bloody hands could shake the gods, I recalled him. Legend has it that in the Age of Gods, there was indeed such a Great Monarch. However, in the Infinite Mining Area, very few people know of the existence of this Great Monarch. If Young Master Dian discovered this person's inheritance, why would you want to come to the intelligence center of the Capital of Horror to sell it?"

Han Fei said coldly, "Only if I'm alive can I have a chance to obtain the Great Monarch's inheritance. There are tens of thousands of Bloody Hand Mine Devils in the late stage or peak-level late-stage of the Sky Opening realm there. Do you think I can take them alone? Girl, give me a price. After that, let's talk about it."

Xiangxiang sneered in her heart. This person looked cold and arrogant, but he was actually cunning. If this information was true and he was willing to sell it, the price must be very high, at least a hundred 360,000-kilometer refined stars.

Xiangxiang's pupils were constricted slightly, but then she returned to normal. "Master Dian, the information you provided is too little. Tens of thousands? Can you give me the exact number? Are the

Bloody Hand Mine Devils mostly in the late-stage Star Transformation Realm, peak-level late-stage Star Transformation Realm, or the perfected Star Transformation Realm?”

Han Fei said, “Just give me a rough price. I want to see if the intelligence center of the City of Terror is really willing to negotiate. If you don’t even give a price, there’s no need to negotiate.”

Xiangxiang’s smile disappeared. “Based on the information provided by Young Master Dian, if this information is confirmed to be true and the location information can be sold, I can give you a hundred 360,000-kilometer refined stars, or something of equivalent value.”

Han Fei sneered. “Is the inheritance of a Great Monarch worth so little? If you get this information, you can sell it for ten times the price. Why? Is this all your Capital of Horror has got?”

Qin Cheng broke into a cold sweat. Boss, you’re really bold! In the Infinite Mining Area, you provoked the dignity of the Capital of Terror. Are you tired of living? Aren’t you afraid you won’t be able to walk out of the Hundred Alliance City?

In the eyes of the top powerhouses of such a top faction, the bullsh*t rules were targeted at ordinary people and didn’t have much binding power on these superpowers.

Xiangxiang said, “Young Master Dian, why don’t you tell me more useful information?”

Han Fei tapped his fingers on the teacup, and Xiangxiang was lost for words. She poured him a cup of tea and Han Fei said leisurely, “There are at least 30,000 Bloody hand Mine Devils in total, mostly in the perfected Star Transformation Realm. They may not be so much, but not much less.”

“Thirty thousand?”

Xiangxiang almost screamed. She thought to herself, Are you crazy? Thirty thousand in the perfected Star Transformation Realm? Are you crazy or am I crazy?

Xiangxiang said, “Master Dian, at least thirty thousand? Are you serious?”

Han Fei said, “Sure. I can’t completely assess the exact number, so I can only give you a rough estimation. Of course, although there are a lot of them, they are very scattered. It won’t be difficult to solve them if many strong masters attack them together.”

The corners of Xiangxiang’s mouth twitched. It’s not difficult? Are you f*cking setting off the ninth northern expedition?

Xiangxiang took a slight breath and suppressed her irritable emotions. “What else?”

Han Fei said leisurely, “Also, the inheritance of the Great Monarch Bloody Hand is located in a place called the Mine Demon Stream. In the Age of Gods, this Mine Demon Stream was also a very famous place. Do you know it, Miss Xiangxiang?”

Xiangxiang glared at him. “Mine Demon Stream? Are you sure it’s the Mine Demon Stream, Master Dian?”

Han Fei nodded. “Yes, you heard it right.”

Xiangxiang suddenly stood up. “Master Dian, sometimes you can’t say things you don’t know. The Mine Demon Stream is the territory of Great Monarch Mystic Martial during the Age of Gods. The inheritance of the Great Monarch Bloody Hand is in Great Monarch Mystic Martial’s base camp? Are you sure your information is true?”

Han Fei grinned and said, “What’s there to be uncertain about? Since I dare to come, I dare to guarantee the authenticity of this information. I have my ways to prove it. So now, Miss Xiangxiang, what’s your price?”

[God of Fishing](#)

Chapter 2569: Summon Wushuang

2569 Summon Wushuang

In order to prove the location of the inheritance of the Great Monarch Bloody Hand, he had to take someone to see it in person or give strong evidence.

But Han Fei was only pretending to be a big shot at this moment. Was he really going to take the people from the Capital of Terror to check it?

Therefore, how to confirm this information became a problem.

Xiangxiang thought for a moment. Although the number of 30,000 mine demons in the perfected Star Transformation Realm was a little shocking, mine demons at this level were also a resource.

Judging from the tokens on Han Fei and Qin Cheng’s bodies, they could probably obtain a large number of level-six or even level-seven minerals from the Bloody Hand Mine Devils.

If this information was true, it was indeed valuable. Even without the inheritance of the Great Monarch Bloody Hand, it was still quite valuable.

Xiangxiang said, “If you have a way to prove the authenticity of this matter, the price will be negotiable. I can give you five hundred 360,000-kilometer refined stars. Master Dian, we’re the only one in the Infinite Mining Area who can offer this price. Of course, the premise is that you can’t cheat me, or I will be very sad. If I’m sad, there might be no place for you in the Infinite Mining Area anymore, even if you are from a big family in the Central Sea Divine Realm.”

Han Fei sneered. “Oh? How dare you say that? Do you know who I am?”

Xiangxiang blinked and looked at Han Fei. “If Young Master Dian is willing to tell me, I’m all ears.”

Han Fei slightly raised his head and snorted.

Xiangxiang said five hundred 360,000-kilometer refined stars. This price had already shocked Qin Cheng.

Han Fei also knew that this was a scam after all. It wasn’t that he didn’t want to scam more, but this was just intelligence. Although theoretically, it wouldn’t be an exaggeration to say that this intelligence was worth more than a thousand 360,000-kilometer refined stars.

However, he had his own purpose after all. His real purpose was not to sell information here, so the price for this information was actually just by the way.

Han Fei had already cheated the Demon Vanquishing Tree by revealing the information about the Mine Demon Stream. But the old turtle hadn't come out yet, and he couldn't completely trust the Demon Vanquishing Tree. Maybe he didn't show enough threat.

Furthermore, the Demon Vanquishing Tree had said that he could unleash the immortal-level strength. Then, it was impossible for anyone who hadn't reached the immortal level to enter Puppet City.

However, although Monarchs didn't come to the Infinite Mining Areas often, they might help when important matters were involved.

Therefore, Han Fei changed the topic and said proudly, "Miss Xiangxiang, what I'm talking to you about now is only the value of the information itself. But you know there is a premise to sell this information."

Xiangxiang complained in her heart, Why does this matter sound so troublesome?

Xiangxiang smiled sweetly. "What's the premise for buying this information?"

Han Fei said, "The premise is that I need the Capital of Terror to send an old friend of mine over. Well, let Wushuang come! First of all, she can prove the authenticity of my information. In addition, I believe there are other things we can cooperate with the Capital of Terror about."

Xiangxiang: "..."

Xiangxiang's pupils were constricted slightly. Did this person know Wushuang? She had even only met Wushuang a few times. Besides, she was in the intelligence business. Wushuang had obtained an Origin Ground from the Divine Capital Dynasty. How could she have the time to care about this? She was preparing to prove Dao.

Xiangxiang slightly retracted her smile and said indifferently, "Young Master Dian, Miss Wushuang may not have time now. Besides, Young Master Dian is thinking about other girls in front of me. This really makes me unhappy."

Han Fei smiled casually. "The Queen of Horror owes me a favor, so I'm sure she won't refuse my request. Also, it takes more than a day or two to prove Dao. I think Wushuang has time. What do you think?"

Xiangxiang froze for a moment and quickly came back to herself. Her voice was cold. "Master Dian, or to be exact, Master Human Butcher. There are some things that you can't say carelessly. It's not a joke to say that the queen owes you a favor."

Behind Han Fei, Qin Cheng's forehead was covered in sweat. What the hell? The Queen of Horror, the queen of the Capital of Horror, was so famous! Who didn't know her in the East Sea Divine Realm? She was one of the leaders of the Capital of Horror.

When Qin Cheng looked at Han Fei again, he felt that his new boss was extremely mysterious. Did he ride on a super big shot's coattails?

Han Fei said proudly, "I think if the Capital of Terror wants to maintain such high control in the Infinite Mining Area, there should be a way to directly send a message back! You can convey my words back. Just tell her that I can help her ask about the way."

“The way?”

Even though Xiangxiang had been in charge of the intelligence center of the Capital of Horror in the Infinite Mining Area for many years, she was still a little stunned at this moment. This was the first time she had seen such a thing.

If this person really knew the Queen of Horror and Wushuang, then his background couldn't be weak. This person first came to provide information, asked for an offer, and now asked the Queen of Horror to return the favor. This meant that this person was definitely not just selling information. He was just using information to attract her, the real master of the intelligence center, to come out.

Xiangxiang withdrew her smile and calmed down completely. She took out a piece of black jade right in front of Han Fei and twisted it with her fingers, which glowed brilliantly. It seemed to be a kind of long-distance communication treasure.

After more than a hundred seconds, Xiangxiang remained calm. When she raised her head, she smiled sweetly. “Young Master Dian, I was wrong to suspect you. The queen has agreed. She said that Wushuang will reach the Infinite Mining Area in three months and personally contact you. In addition, although this business hasn't started, I absolutely believe you. Servants...”

The woman who left just now opened the seal and stood aside respectfully. Xiangxiang said, “Take six hundred 360,000-kilometer refined stars and give them to Young Master Dian.”

“Huh?”

The woman was dumbfounded. How many? 600? She knew that this deal might not be simple, but it shouldn't cost so many refined stars! And they were all 360,000-kilometer refined stars. That would empty our pockets!

600 refined stars equaled the death of more than 600 Star Transformation cultivators. Besides, none of them were modified stars, so it was no wonder that the waitress lost her cool.

Not to mention this woman, Qin Cheng felt as if he had been struck by lightning. On the one hand, the number of the refined stars stunned him, and on the other hand, the Queen of Horror really owed this lord a favor? Then, what was the identity of this lord? Was his new boss really so powerful?

Not just Qin Cheng, even Xiangxiang herself was a little stunned. This was because the queen ordered her to give this man a price as high as possible and pay him immediately to nail this matter first in case the other party went back on his word.

For this reason, she tried to calm down for more than ten seconds. Was the queen afraid that he would go back on his word? Who was this person?

Han Fei was a little puzzled. “How did it become 600?”

Xiangxiang said with a smile, “Young Master Dian, you forgot that you said that you wanted an additional ten percent just now. I thought about it. Since you've asked, I'll round up an integer for you! You can take the six hundred refined stars now. Besides, before Miss Wushuang comes, you can leave or stay as you want.”

Han Fei thought that the Queen of Horror must've said something to her, but it didn't matter. He hadn't planned to stay long in the Infinite Mining Area.

Now that the old turtle would get his new body, he had to consider how to solve the City of Scavengers and the City of Origin. After these two parties were resolved, he could leave. When the time came, he would leave the Seven Kill Army in the Mine Demon Stream. Anyway, there were plenty of resources there.

The 600 refined stars were soon placed in front of Han Fei. Han Fei certainly wouldn't refuse the things he got for free. Besides, he didn't think the Capital of Horror would suffer a loss this time.

Han Fei smiled casually. "In that case, I'm leaving. I'll come when Wushuang comes. However, there's something that you need to cooperate with me."

Xiangxiang said, "I dare not disobey Young Master Dian's orders."

Han Fei nodded slightly. "Since I entered the city, many people have been staring at me. I can't let them keep staring at me, right?"

In fact, it wasn't Qin Cheng who was targeted the most, but Han Fei himself.

Xiangxiang's heart skipped a beat. "What do you mean, Young Master Dian?"

Han Fei snorted coldly. "I'm new here, and many people don't take me seriously. I'm very angry about this. Therefore, I have to get some to establish my authority."

Hearing this, Xiangxiang couldn't help but frown slightly. This person is so arrogant!

The Soul Controlling Sect must have already received the news of Qin Cheng's appearance. It was only a matter of time before they arrived. Besides, you slaughtered so many pirate groups outside the Infinite Mining Area. Of course, there were many people targeting you!

However, at this moment, instead of thinking about how to ease the tension, you were thinking about how to kill and establish your authority. Was it normal?

Xiangxiang said, "Young Master Dian, the people from the Soul Controlling Sect will probably do something big this time. Young Master Dian, will you wait for Miss Wushuang to arrive, or..."

There were many grudges in the Infinite Mining Area. Qin Cheng had betrayed the Soul Controlling Sect and caused half of the sect to be destroyed. There was no way they would let him off.

However, from what Han Fei said, he seemed to want to protect Qin Cheng and even kill the people who targeted them.

Han Fei said leisurely, "When someone rises, there must be someone destroyed. The new will replace the old. That's how things are, isn't it?"

Chapter 2570: Lure the Enemy

2570 Lure the Enemy

After Han Fei left the intelligence center of the Capital of Horror, the waitress exclaimed, "Sister Xiangxiang, where is this person from? Six hundred 360,000-kilometer refined stars. That's half of our inventory!"

Xiangxiang said, "Don't ask what you shouldn't ask. Anyway, this person has an extraordinary background. By the way, don't tell anyone what happened today. We haven't reached any substantive deal with this Human Butcher yet."

"Ah... Yes, Sister Xiangxiang."

After leaving the intelligence center, Qin Cheng followed Han Fei carefully. He couldn't understand Han Fei at all now. Han Fei was obviously using him as bait to wander openly in the Hundred Alliance City. And he was also a very good bait. If he weren't in the Hundred Alliance City, he might have been killed.

Furthermore, Qin Cheng was certain that in less than two days, the people from the Soul Controlling Sect would definitely arrive. And since the people from the Soul Controlling Sect had learned his information, they should also know of Han Fei's existence. And when Han Fei attacked the Soul Controlling Sect, he specially left a note. God knew what Han Fei was thinking.

They knew that he was the Human Butcher and that he was strong, so they would definitely find helpers!

Qin Cheng felt that Han Fei was a little careless, because he knew that the strength of Han Fei's so-called Seven Kill Army was actually mediocre. Most of Han Fei's Sky Opening realm subordinates had just opened the sky, and their strength was mediocre. Except for the guy who only had a Yang Soul left, the others combined were not as strong as him.

Therefore, he felt that Han Fei was too conceited and shouldn't spread rumors like this. Once he went out and people really came to kill him, how could he resist them alone?

However, when he remembered that Han Fei once used an ultra-quality godly weapon to kill hundreds of Six-Winged Mineral Worms in one go, he had mixed feelings.

He said, "Master... Master Dian, are we going to stay in the Hundred Alliance City forever? In fact, not only me, but there are also many people who target you, Master Dian. As the saying goes, a gentleman doesn't stand under a dangerous wall. Shall we leave first?"

Han Fei smiled. "Do you think there won't be many people chasing us if we leave now? Let's wait a little longer. The more the merrier!"

Qin Cheng: "..."

One day later.

Holding a braised shrimp in his hand, Han Fei walked to the city gate while eating. Qin Cheng, following behind him, felt that his blood was freezing. Should they just go out like this?

"Gulp ~"

Han Fei took a bite of the garlic prawn and stuffed a string of food into Qin Cheng's mouth. "You're going to enter my Origin Star anyway. Why are you so nervous? After this trip, I can give you a few of

the refined stars. You're going to reach the perfected Star Transformation Realm anyway. How many refined stars do you need..."

"Eight. Master Dian, eight should be enough."

Han Fei grinned and said, "Okay, although you don't have to do anything, at least your presence helps me this time. I'll give you ten later."

Hearing this, Qin Cheng was overjoyed. He had thought that his plan to break through to the perfected Star Transformation Realm would be delayed for a long time, but he didn't expect it to be about to succeed!

Although he was a little panicked, Han Fei didn't panic! Not only did Han Fei not panic, but he had also established a relationship with the Capital of Horror and used their resources to clean up the mess.

Why? It must be because Han Fei wanted to attack these people.

If Han Fei wasn't afraid, why should he be?

...

"It's moving. The Human Butcher is moving."

Since Han Fei and Qin Cheng entered the Hundred Alliance City, Han Fei's identity had already been guessed. The Soul Controlling Sect didn't deliberately hide it, so information about Han Fei and the Seven Kill Army had long been everywhere. It was just that they had disappeared in the past few years.

At first, everyone thought that Han Fei and the others had left the Hundred Alliance City. But now, they had blatantly appeared. Wasn't this a provocation?

Once Han Fei appeared, it wouldn't just be the Soul Controlling Sect who would deal with him. Outside the Infinite Mining Area, Han Fei had killed too many pirates and plundered too many resources, which had touched the cake of many forces in the Infinite Mining Area. Therefore, Han Fei knew what he would face at this moment.

Therefore, seeing Han Fei was leaving, many people began to take action.

Someone immediately said, "Human Butcher is running. Shall we chase him and kill him?"

Someone said, "Human Butcher is definitely not weak. Let's not act rashly and let others attack first. Or we can attack when the time is right."

Itinerant cultivators who had accepted the mission were discussing with each other. "Well, are we going to fight him or not? There are too many people targeting this Human Butcher! I'm afraid we itinerant cultivators are not strong enough to fight him."

Another person said, "What's there to be afraid of? It's said that this Human Butcher has a Seven Kill Army, and there must be many strong masters in it. There may not be any perfected Star Transformation Realm cultivators, but there must be some in the peak-level late-stage Star Transformation Realm. When the battle starts, we can take advantage of the chaos."

Someone echoed, "That's right. If we really can't get anything, let's just go back!"

Someone said, "In my opinion, this Human Butcher is quite bold. He entered the Hundred Alliance City openly and even took Qin Cheng with him. Isn't he courting death? However, why would a powerhouse in the perfected Star Transformation Realm court death? I suspect this is a trap!"

Everyone nodded. Someone said, "That's possible, so we definitely don't have to be the vanguard. Aren't the people from the Soul Controlling Sect coming? Wait for them to come! These guys can control the mine demons. They're definitely good at leading the charge."

...

In the Hundred Alliance City, several forces were hesitating.

One of them was the camp of the City of Scavengers.

One of them said, "My lord, that Human Butcher is leaving. Should we take him down? After all, he's a human being and we were born enemies."

"Don't be hasty. Let's follow them and take a look. I heard that the Seven Kill Army is very messy in composition and has all kinds of races. As for that Human Butcher, we don't even know his name. It's hard to say if he's a human. But no matter what, we have to keep an eye on him and pay attention to the reaction of the City of Wanderers at all times. If he's really a human, they probably won't sit idle."

...

At the same time, in the City of Wanderers, two strong masters came together, and one of them secretly said, "Master Long Wu, is the mere Human Butcher really worth your coming to the Hundred Alliance City personally?"

Long Wu said, "If he's a human being, such a powerful human being shouldn't have come from the Chaotic Wasteland. Do you know what this means? It means that there is a super force of the human race in the East Sea Divine Realm or somewhere in the Central Sea Divine Realm. Once we can join forces with them or they become the ally of our City of Wanderers, this matter won't be a big deal to others, but it means a lot to us."

...

Hundred Alliance City.

Buzz!

Suddenly, everyone saw Qin Cheng disappear, and Han Fei swooshed into the air. His fastest speed was 15 times the speed of light.

"F*ck! So fast."

"F*ck, they just ran like this?"

"So they just ran under our noses?"

Many people were dumbfounded. What they thought most was that the forces behind Han Fei would come to help Han Fei. At the very least, you had to reach the speed of light explosion if you wanted to run, right?

However, Han Fei ran at 15 times the speed of light. It couldn't be said that this speed was slow, because no one below the perfected Star Transformation Realm could catch up with him. Even the cultivators in the perfected Star Transformation Realm might not be able to catch up with him.

Of course, this was the Infinite Mining Area. The perfected Star Transformation Realm cultivators here were different from the ordinary ones. The perfected Star Transformation Realm cultivators here were mostly here to seek a breakthrough or even prove Dao. Therefore, there were still many people who could reach the speed of light explosion.

However, few such people would target Han Fei.

Therefore, after Han Fei ran out, there were only four people chasing him.

Of course, before one's speed reached the speed of light explosion, no matter how he ran, he would leave traces. Therefore, as soon as Han Fei ran, hundreds of people flew away.

"Go after him! Don't let him get away!"

Someone shouted but only reached nine times the speed of light, which was still far away from Han Fei's speed.

Someone was lost for words. "Hasn't the Soul Controlling Sect arrived yet? The Human Butcher has already escaped."

Someone sneered. "Even if the Soul Controlling Sect has come, so what?"

Someone said, "It's good that the Soul Controlling Sect didn't make it in time. It's said that the Human Butcher slaughtered many pirates and obtained countless resources, godly weapons, and refined stars. If we kill him..."

Someone said, "Itinerant cultivators can go now. You don't even have the ability to find refined stars. What are you doing?"

"Who's talking nonsense? Are you looking down on us itinerant cultivators? Believe it or not, I'll kill you first!"

Six hours later.

Finally, someone realized that something was wrong. Someone was surprised. "Why do I feel that something is wrong with his running direction? Why is he running north?"

As for the perfected Star Transformation Realm cultivators who were following Han Fei, some of them had already noticed that something was wrong.

Most of these people were not from the same power. From the four people at the beginning, there were now eight of them, and the number of strong masters chasing Han Fei was increasing. However, these people didn't attack Han Fei directly, and no one was willing to stand out first.

However, Han Fei went all the way north, and the mining area in the north was a restricted area. The Hundred Alliance City had tried to conquer the north eight times, but all failed. They couldn't resist the mine demons in the northern mining area at all.

Now that Han Fei was running north, they couldn't help but be afraid!

For a moment, someone finally couldn't help but say, "Everyone, we can't go on like this. The people from the Soul Controlling Sect are too slow, but if we continue to chase him at this speed, we'll enter the northern mining area soon. Shall we really chase him in? Why don't we join forces and stop them first? Anyway, this Human Butcher has done many evil deeds."

Someone responded, "Okay! I agree. If we really enter the northern mining area, the trouble we'll encounter won't just be this Human Butcher."

They exchanged opinions and decided to take action.

Swish swish swish!

At that moment, after eight consecutive light explosions, these people all erupted.

After only dozens of seconds, Han Fei was surrounded.

One of them said, "Human Butcher, we don't want to make things difficult for you. Leave all your resources, especially the godly weapons and the refined stars, and we'll leave you alone."

Han Fei glanced at these people. One of them was from the Heavenly Cicada Family. His wings were still exposed. As for the other person, Han Fei was familiar with him. He was from the Ten Thousand Scale Race.

He understood why the Ten Thousand Scale Race had come. But why were the people from the City of Origin here? Also, these two parties had come. Had the people from the City of Wanderers come? This was interesting. The people from the Soul Controlling Sect hadn't come, but the forces in the Chaotic Wasteland had popped up.

Although this was within Han Fei's expectations, it was indeed beyond his expectations that they would take the bait so easily.
