[God of Fishing](#)

Chapter 2571: If You Don't Die, Who Will?

2571 If You Don't Die, Who Will?

At this moment, Han Fei knew two of the eight people. As for the others, he couldn't tell if they were friends or enemies.

In addition to these eight people, Han Fei also vaguely felt a strange peep. If he guessed right, there should be a ninth person hiding here.

The person from the City of Origin spoke first, "Chen Tianya, since you're here, don't hide it. I didn't expect that a wanderer camp ranked about 100 would dare to get involved in this matter. This Human Butcher is one of your people, right?"

This interrogation forced a figure to step out of the void. But although the person came out, he didn't approach. Because no matter what, he must come today to help Han Fei.

After all, he was a human. Even if he didn't take action, he would at least give others some psychological restraint.

At first, this person from the City of Origin pointed out this guess, causing everyone to look at Chen Tianya.

Even Han Fei couldn't help but look at that side, thinking, Are you stupid? Do you have to be so obvious? You can either attack together with others, or not be discovered, or at least bring more people with you! How dare you come alone in such a big scene? Do you think you are me?

Chen Tianya said, "Do we City of Wanderers have to report to you for what we want to do? I didn't expect you to really treat this person as a member of our City of Wanderers."

Chen Tianya immediately disassociated the City of Wanderers from Han Fei. He was sure that this person was not from the City of Wanderers because he could feel that he didn't have the faith of the Wanderers.

Although they denied any connection to this person, he was very likely to be a strong master from another orthodox human race, so they still had to help him.

Han Fei glanced at Chen Tianya. Something didn't seem right. How could this person give him the feeling of being peeped? He didn't say anything but glanced around. "Are you all here to stop me? Is the Soul Controlling Sect so powerful? How rare."

Someone said, "What's the big deal of the Soul Controlling Sect? Human Butcher, when you wantonly slaughtered the pirates outside the Infinite Mining Area, you should have thought of the consequences."

"Hahaha!"

Han Fei laughed and said, "So that's why you're here. Just a few pirates. Are they worth your time?"

Someone said gloomily, "Just a few pirates? Although those pirates are not strong, they involve many things. Human Butcher, have you ever heard of anyone who dares to slaughter these pirates wantonly in the Infinite Mining Area?"

Someone chuckled. "We can't be bothered to attack you, but you have to pay a certain price. If you can't satisfy us, how can you escape? When Yang Kun from the Soul Controlling Sect comes, you really won't be able to escape."

However, Han Fei suddenly grinned and said, "Why do you think I want to run?"

Everyone's expression changed. What did he mean? Did he want to fight them?

Buzz!

Suddenly, Han Fei's momentum soared, and the power of the Great Dao between the heavens and earth was gone. Han Fei revealed overwhelming blood Qi and continued to walk north.

However, this time, Han Fei was walking step by step.

These people all surrounded him. How could they let Han Fei go now? You are in the perfected Star Transformation Realm and may have hidden your strength, but we are also in the perfected Star Transformation Realm and also have hidden our strength.

Furthermore, some of them had as many as three Great Dao Locks. How could they be afraid of Han Fei?

Therefore, someone attacked Han Fei immediately. The person who attacked was from the Ten Thousand Scale Race. Although this person didn't speak the entire time, he knew that the Ten Thousand Scale Race and the human race had always been enemies.

Once this person learned from Chen Tianya that the human race was being suppressed by the City of Scavengers, it was possible that this matter would cause terrifying consequences of the human race outside slaughtering their way into the Chaotic Wasteland.

At the moment this person attacked, Han Fei suddenly activated the speed of light explosion and charged at this person. Han Fei wanted to see who would attack first. After all, he had to make an example out of this person. He wanted to tell these people not to mess with him.

Song Yu was dumbfounded. He didn't expect that other people would sit by and do nothing after he attacked first.

Song Yu was instantly infuriated. Wasn't this ridiculous? They had agreed to attack the Human Butcher together, but now he was the only one standing out.

And Han Fei came too fast. That punch was like a blazing sun. Only when he came into contact with it could he feel the terrifying power of the fist mark.

Song Yu's strength was not weak. He had cultivated Dao Bones, and the Ten Thousand Scale Race's physique was strong to begin with. Coupled with the two Great Dao Locks, it was impossible for him to fail to withstand this blow.

He shielded his body with his hands, but blood spurted out of his mouth.

However, the blood arrow that was full of runes was annihilated by the unparalleled force the moment it met the fist mark.

“How is that possible?”

Bang!

Like the birth of a starburst, in an instant, the other people around retreated hundreds of thousands of kilometers. As for Song Yu, his flesh and blood had long been crushed, leaving only a few broken bones. They were shining, trying to be reborn.

Han Fei, on the other hand, cracked a smile and reached out. The space was condensed, and the exploded souls and flesh immediately gathered over.

As long as a single bit of Song Yu’s soul, flesh, and broken bones ran out, he could be reborn.

However, Han Fei didn’t give him the chance. In an instant, Han Fei compressed space and drew countless spatial blades from the void, slashing crazily. Song Yu was killed on the spot before he had a chance to beg for mercy.

Rumble...

Under the Great Dao crack, Han Fei said casually, “If you want to attack me, you’d better unlock your Great Dao Locks from the beginning. Otherwise, I’m afraid you won’t even have a chance to fight back.”

“Hiss!”

Instantly, everyone who was about to attack Han Fei gasped. He was so strong!

Yes, this strength wasn’t the strength that a normal perfected Star Transformation Realm cultivator should have. As for the power he had just displayed, although it was still in the Sky Opening realm, its strength had already reached the Dao Proving Realm.

At their strength, they had a judgment of their own strength and that of the Dao Proving realm. They knew that they were very strong, but they also knew their weaknesses.

At this moment, they made a judgment in their hearts at the same time. From the power Han Fei had just shown, they had to break at least two Great Dao Locks to barely be a match for him. And to kill him, they had to break at least three Great Dao Locks.

In the Infinite Mining Area, there were quite a few perfected Star Transformation Realm powerhouses, but there were very few who had had three Great Dao Locks. Most powers ranking below the top 100 only had one such person, who could already establish a sect in the Infinite Mining Area.

For example, the Soul Controlling Sect only had one person of this kind.

It didn’t mean that the Soul Controlling Sect from the Central Sea Divine Realm was weak. However, the people who already had five Great Dao Locks wouldn’t come to the Infinite Mining Area. What they had to consider was how to face the Dao Proving tribulation. It didn’t matter where they were.

Now, the way these people looked at Han Fei changed. This was because they weren't sure if Han Fei had unlocked his Great Dao Locks or not. If he was already so strong before unlocking his Great Dao Locks, what if he had unlocked them?

Of course, there was another possibility. It was that Han Fei had already broken his Great Dao Locks, which was why he was so strong. After all, even if one broke all his Great Dao Locks, the heavenly tribulation wouldn't come easily and would be safe for a period of time. This was also why many people dared to break their Great Dao Locks.

Of course, once a Great Dao Lock was broken, it would be several times more difficult to reseal it. After a few times, it was impossible to reseal it unless they changed a Great Dao and had another Great Dao Lock. This was also the reason why many people refused to break their Great Dao Locks unless they had no choice.

Now, Han Fei killed Song Yu with one punch and one slash. This scene really shocked these powerhouses.

Han Fei laughed and said, "Come on! Don't you want to surround me? Now I'll give you the chance. Who dares to fight me? Hahaha..."

Han Fei kept the hateful arrogance of Chun Huangdian, and even his laughter was full of coldness and contempt.

However, Han Fei's madness had frightened these people. The City of Scavengers had a high status in the Infinite Mining Area, and Zhang Beihai was in charge of many strong masters. Han Fei had killed Song Yu in front of these people, which meant that he had become enemies with the City of Scavengers.

However, Han Fei didn't care. Everyone could tell that this person seemed a little crazy.

At least, from the looks of it, he didn't care who he had offended at all. At this moment, when everyone thought of his title "Human Butcher" and his wanton slaughter of the pirates on the periphery, they couldn't help but understand that he didn't care at all!

Han Fei smiled and said, "Why, no one is joining the battle? Then let me pick someone to fight with?"

As he spoke, Han Fei moved and reached the speed of light explosion. His target was an old man nearby. He didn't know who the other party was, but since the other party had come to surround him, he must be an enemy.

The old man didn't panic. But when Han Fei unleashed the speed of light explosion, he realized the danger and also unleashed the speed of light explosion.

However, his speed of light explosion only appeared for a moment before it died out. His consciousness was stolen by Han Fei. In the next moment, Han Fei activated the Star Fist Technique and punched through the old man. Then, the Infinity Water turned into infinite blades that slashed the old man to death.

At this moment, Han Fei caught up with another person.

Seeing this scene, the man's expression changed drastically. This was because the old man Han Fei just killed was ranked 317th in the Hundred Alliance City. But in a single clash, this strong master of the Fiery Sun Race was blown up by Han Fei before he even had the time to use a technique.

At this moment, the person who was targeted by Han Fei had two Great Dao Locks appear on his body in a row, which made cracking sounds.

The man shouted, "Everyone, let's attack him together. We can't beat him alone. Only by working together can we suppress him."

The corners of Han Fei's mouth curled up slightly. This person's strength suddenly soared, and countless black vines covered the void. This person turned out to be a manipulator, just like Luo Xiaobai.

As the manipulator in the perfected Star Transformation Realm launched an attack, in the blink of an eye, the Nine Skies and Ten Lands seemed to be enveloped by spiritual plants. These spiritual plants would also burst out poisonous fog, demonic sounds, and corrosive liquids.

Everyone watched as Han Fei detonated his fist mark and pierced through most of the demon plant blockade, but he didn't rush out. For a moment, they saw hope to stop him.

Someone roared, "Seal him!"

Someone took out a huge array map of three thousand kilometers and enshrouded the sky.

Someone was condensing a full-strength strike. They didn't want to break their Great Dao Locks, so if they wanted to deal with Han Fei, they could only use the strongest technique in a limited state.

Originally, they had thought that with the six of them working together to suppress this guy, it wouldn't be impossible for them to suppress him! Someone had already severed two Great Dao Locks. With the other five of them, it would be easy for them to suppress a perfected Star Transformation Realm cultivator who had broken three Great Dao Locks for a short period of time.

But at this moment, an unimaginable terrifying force that exceeded the power of the perfected Star Transformation Realm bloomed from the forest of demonic plants. All the demonic plants in the sky and on the earth were reduced to ashes.

As for the array map of three thousand kilometers, it distorted for some reason and then exploded, setting off multiple blue ripples.

"Hehehe!"

"You wanted to kill me, but you couldn't even bear to unlock your Great Dao Locks. If you don't die, who will?"

[God of Fishing](#)

Chapter 2572: Destroy the Soul Controlling Sect and Make a Name!

2572 Destroy the Soul Controlling Sect and Make a Name!

The first to die was the manipulator. This person was careless and tried to block Han Fei with his demonic plants, but Han Fei slashed out and instantly reached the speed of a light explosion.

No matter how fast this person's reaction was, half of his body was destroyed. However, in the next moment, this person completely exploded and disappeared without a trace. The most terrifying method of a manipulator was to transform into a demonic plant, which was very difficult to find.

However, Han Fei didn't care. He grabbed the Extreme Cold Pearl, and the terrifying power of the Carefree Realm instantly sealed the surrounding hundreds of thousands of kilometers. Not only the manipulator, but everyone else was affected.

They had never thought that Han Fei could unleash such terrifying power.

However, it was too late for regrets. Han Fei blew up a flower bud with a punch, and with a rumbling sound, another perfected Star Transformation Realm powerhouse died.

But this was just the beginning. The guy who was closest to Han Fei was also frozen by the Extreme Cold Pearl before he could run away.

With a dazzling spear, Han Fei broke his Soul Sea and shattered his Star Bead.

Rumble!

The Great Dao Cracks exploded one after another, and the others were shocked. How did the situation turn out to be like this? Two powerhouses in the perfected Star Transformation Realm had died just like that?

Yes, these two people were not weak. They were killed by Han Fei before they had the time to unleash their real strength.

At this moment, they realized what Han Fei said. If they were still reluctant to break their Great Dao Locks, wouldn't they be courting death?

The combat power that Han Fei had shown so far could only be achieved by unlocking at least three Great Dao Locks.

Three of the eight powerhouses who had surrounded Han Fei were gone, and the remaining five unlocked their Great Dao Locks almost at the same time.

Bang! Bang! Bang!

The Great Dao Locks appeared in the sky. They had no choice but to fight because the Extreme Cold Pearl had temporarily sealed their retreat. If anyone was slow to break their Great Dao Locks, they might be killed by Han Fei.

In fact, Han Fei did. One of them hesitated whether to escape or to break his Great Dao Locks.

However, in the next moment, his soul-suppressing godly weapon suddenly left his body and blocked Han Fei's Void Stealing Technique with difficulty. However, Han Fei's All Great Daos in One Sword wasn't slow either. At the moment this person hesitated, it passed through his body. As the Void Lines pressed down, this person had already become Han Fei's puppet.

The other four hadn't noticed it yet. One of them saw that this person had been penetrated by Han Fei and fled to him. He wanted to receive him, but as soon as Lian Gen approached, Han Fei controlled this

person to transform his life into a sword and cut off the other party's lifespan of hundreds of thousands of years, making him look old in an instant.

An Tai, a powerhouse from the City of Origin, immediately shouted, "Don't fight. Leave now."

He ran very fast because he was from the Heavenly Cicada Family. As for fighting Han Fei, he didn't think about it because they knew too little about this Human Butcher. This guy had endless means, and God knew what strange combat methods he would use in the next moment.

Besides, this person was even stronger than they had guessed. More importantly, they didn't intend to attack immediately, and he didn't come here to snatch Han Fei's resources. He was purely carrying out a mission to kill this guy who claimed to be a human.

But now, the main character of the Soul Controlling Sect hadn't appeared yet. Those who had been prepared to watch the show and hadn't planned to attack had almost been killed. Wasn't this an undeserved disaster?

Therefore, after An Tai retreated, the other two also ran crazily. Come on, the eight people couldn't stop Han Fei just now. Now there were only the two of them left. How could they fight?

But at the moment when the two were about to escape, Han Fei slightly opened his mouth and said lightly, "Steal..."

Rumble...

An Tai ran very fast, not daring to stop at all.

But as he fled, he saw several consecutive Great Dao cracks appear in the sky.

"Gulp ~"

An Tai was horrified. They're all dead? Judging from the number of Great Dao cracks, all the people who came today except him were dead. If it weren't for his fast speed and the fact that the ice on the Chaotic Wasteland was also extremely cold, so he had a way to temporarily cope with it, he probably wouldn't have been able to break free from the icy power in time and escape from the Human Butcher.

With this in mind, An Tai felt lucky. God didn't want him to die!

At this moment, he even sympathized with Yang Kun. If Han Fei was so strong, so what if Yang Kun brought the peak combat power of the Soul Controlling Sect?

Unless Yang Kun took out tens of thousands of Six-Winged Mineral Worms at once and exhausted that Human Butcher to death, he really didn't know how the Soul Controlling Sect could cope with the Human Butcher.

On the battlefield where Han Fei was, he unhurriedly regathered the bodies of these people and then stored them in his Origin Star.

Then, Han Fei said, "Fellow Daoist, it's time to come out, right? You've seen what you should see. You haven't left yet. It seems that you are different from them!"

After saying this, Han Fei looked in a certain direction. After ten seconds, a middle-aged man walked out of the void. This person hid himself so well that Han Fei almost didn't notice the spatial fluctuations there.

Upon seeing this person, Han Fei couldn't help but be shocked. This person's aura was extremely strong, and his soul seemed to be abnormally powerful. This should be the reason why he couldn't easily discover him just now.

Based on the person's ability of soul concealment, Han Fei thought that he had at least three Great Dao Locks. Why was he so sure that the other party had Great Dao Locks? Han Fei naturally had his own confidence. Without Great Dao Locks, he was invincible in his realm. No matter who this person was, whether he was the first on the God Roll, Feng Yu, or any disciple of some divine bloodline family.

Without such confidence, how could Han Fei manage the path of invincibility?

Therefore, after seeing this person, Han Fei purposely put on air. He raised his head slightly and put his hands behind his back. "Who is it?"

The middle-aged man smiled. "Fellow Daoist, I didn't expect the orthodox human race to have a powerhouse like you. You're strong in physique, soul, strength, and divine techniques. It's really rare. I'm Long Wu, from the City of Wanderers, the Chaotic Wasteland. Our Monarch is also from the orthodox human race, the current Human Emperor..."

"Bullsh*t!"

Han Fei interrupted him and snorted. "Gu Tingnan tried for 100,000 years but failed to save the human race. With me around, how can he be worthy of the position of Human Emperor? That's simply the greatest joke in the world."

Buzz!

Long Wu suddenly perked up and looked at Han Fei in shock. "You know my master? Humph, Master of Silence created the City of Wanderers. Over the past 100,000 years, he built the City of Wanderers into a level that can compete with the City of Scavengers and the City of Origin. How can others compare to him?"

Long Wu was here to make friends with Han Fei since they were both from the human race. It would be best if he could find out the power behind Han Fei. If there was a chance, they could cooperate with Han Fei and use his power to help the City of Wanderers get out of the current situation of tripartite confrontation.

But who would have thought that not only did this person mention the name Gu Tingnan, but he also seemed to know them very well. More importantly, this guy was actually competing with his master for the position of Human Emperor. Wasn't this antagonistic relationship?

Long Wu didn't know what to say for a moment, but Han Fei said coldly, "I know the situation in the Chaotic Wasteland. Don't ask who I am. If you have a chance, go find out from Gu Tingnan. Think of me as another branch of the human race. If you're willing, you can cooperate with me to wipe out the power of the City of Origin and the City of Scavengers in the Infinite Mining Area in the future. Of

course, you'd better ask Gu Tingnan for instructions, because if you cooperate with me, to a certain extent, you have to completely obey me."

Long Wu: "..."

Long Wu was dumbfounded.

This person was quite bold. He wanted to wipe out the City of Origin and the City of Scavengers. Was this a joke? One was ranked 10th, and the other was ranked 32nd. There were many strong masters there. Who did he think he was?

However, he had witnessed Han Fei's terrifying combat power to kill seven Dao Lock-level powerhouses in one battle. Just this alone was enough for this Human Butcher to join the Hundred Alliances and become a new big shot.

But no matter what Han Fei said, he wouldn't believe that he could wipe out the power of the City of Origin and the City of Scavengers alone. Therefore, Han Fei asked him to consult Gu Tingnan, and he certainly would.

In the Infinite Mining Area, such a terrifying orthodox human powerhouse suddenly appeared. How could he not ask?

Long Wu thought quickly. Although this person was not a Monarch, he was quite arrogant. Besides, he seemed to have some unknown relationship with the Master of Silence. Perhaps he could agree to this person's proposal.

If Han Fei could really take down the City of Origin and the City of Wanderers, he would be willing to even serve as a cleaner.

Long Wu asked, "What are you going to do next? The Soul Controlling Sect will arrive soon. There are still many strong masters behind. Although the weather change here is terrifying, it's relatively far away from them. The people behind won't be able to see it. Therefore, when the time comes, you won't be facing one or two people. With the personality of the Soul Controlling Sect, there will be at least ten thousand mine demons in the Sky Opening realm attacking you."

Han Fei grinned. "That's good! It's about time for our human race to appear. Let's destroy the Soul Controlling Sect and make a name for ourselves!"

[God of Fishing](#)

Chapter 2573: Fierce Battle with the Soul Controlling Sect

2573 Fierce Battle with the Soul Controlling Sect

The gap between Han Fei and the ordinary peak-level late-stage Star Transformation Realm or even the perfected Star Transformation Realm cultivators was huge.

The appearance of the Great Dao crack would inevitably attract the attention of these powerhouses. And once they entered the path Han Fei was on and found that the weather changes here were so terrifying, they would definitely be afraid. The timid ones might directly go home and stop chasing him.

Therefore, Han Fei turned back and flew back the way he came.

In the end, Han Fei left a message for Long Wu. "You're not going to make the human race rise this way. Just watch! Let me teach you what an orthodox human being is, and what the true Human Emperor is like."

This time, Long Wu didn't follow him. He looked in the direction where Han Fei left with a complicated expression. Although he didn't think Han Fei's merits could compare to Master of Silence's, he didn't doubt that once Han Fei proved his Dao, with his personality, his madness would probably be no less than Master of Silence's.

Buzz!

Chen Tianya stuck his head out of the void and looked at Long Wu, sighing. "Are you done talking?"

Long Wu shook his head slightly but didn't explain anything.

Chen Tianya said, "Boss, this Human Butcher is too ruthless and unbelievably strong. He killed seven people alone. You have to know that these people all had at least one Great Dao Lock. Is he really a human?"

Long Wu said, "I don't know if he's a human, but I know that some people are going to be doomed. If I've guessed right, he deliberately took this path. This path is a graveyard he set up for Song Yu and the others in advance."

Chen Tianya's eyelids twitched. "What do you mean?"

Long Wu said, "Let's wait and see! I believe the Infinite Mining Area will no longer be peaceful."

Seeing that Long Wu was about to leave, Chen Tianya said in confusion, "Hey! Boss, why don't we follow him and see what will happen?"

Long Wu shook his head. "No need. We'll know sooner or later. Just wait for the news."

...

After separating from Long Wu, Han Fei directly entered the white cave space. With the help of the Great Dao of Time, he ran at 32 times the speed of light.

An hour later.

Following Han Fei's trajectory, nearly 600 Sky Opening realm powerhouses advanced and retreated together. To put it bluntly, most of these people were here to see if they could take advantage of the situation to gain profits. They were probably unwilling to chase Han Fei desperately.

However, the benefit of acting together was to make a profit in chaos. There would always be someone taking the lead in fighting. And this time, the person taking the lead was Yang Kun, who had finally arrived after traveling for two days.

Yang Kun wasn't too bothered when he saw so many people chasing Han Fei at turtle speed. Even if they wanted to take advantage of the situation, they had to be strong enough. In his eyes, it was impossible for these people to snatch food from him even if they attacked him together.

At this moment, Yang Kun happened to pass by these people and his figure flashed.

However, not long after Yang Kun ran out, he saw a lone boat floating in the sea, and a young man was fishing with a fishing rod.

Before Yang Kun could speak, Han Fei said leisurely, "I thought you weren't coming!"

"Are you the Human Butcher?"

Yang Kun was not a reckless man. On the contrary, he was thin and his eyes were sharp. There was no telling if it was because his soul power was too powerful, but behind him, six soul swords were spinning in the air. When he stood in the air, if he was sprinkled with golden light, he would look like an almighty Monarch.

At this moment, no matter how bold Yang Kun was, he didn't dare to act rashly. This strange scene seemed to be a trap. Knowing that he was being hunted, he still sat here fishing. He was either fearless or crazy.

After more than ten seconds, Yang Kun couldn't sit still anymore. He was going to try attacking Han Fei because his soul had covered this place as much as possible, but he still didn't find anything unusual.

Just when Yang Kun was about to take action, a large group of strong masters who came to pick up the spoils appeared behind him.

When these people saw this scene, their first reaction was to brake quickly. At this moment, the scene was a little strange, as if the two strong masters were fighting. It was not a wise move for them to rush up now.

Someone sighed. "Yes, this is the Human Butcher. Why did he stop?"

Someone was puzzled. "If this is the Human Butcher, then whose Great Dao crack was it? It appeared seven times in a row, which means that at least seven people died at the hands of this Human Butcher."

Someone sneered. "What's so strange about that? We know how many pirates the Human Butcher killed outside. How many strong masters are there in a single pirate group? There are too many to count, okay?"

Someone said, "Don't get close. Yang Kun is fighting the Human Butcher. If you get too close, you may be affected."

Some people were disdainful. They were so far away. Besides, the two big shots were confronting each other. Why would they lower themselves to fight them, a ragtag army?

For a moment, the crowd was divided into two groups. The first group stayed far away, ready to watch the show first and take action according to the situation. And some people felt that if they were close, they would have a chance to pick up spoils, so they tried to be as close as possible.

The corners of Han Fei's mouth curled up slightly. This time, there were many people. He looked at Yang Kun proudly and chuckled. "Well! Although I don't know how others talked about me, I hope you can remember my title. I am the Human Emperor, the emperor of the human race."

Yang Kun sneered. “Bah, Human Butcher. You slaughtered our Soul Controlling Sect and robbed our treasure house for no reason. I will never let you off. Get your Seven Kill Army out! Either you or I have to die today.”

“Heh ~”

Han Fei chuckled and said leisurely, “I don’t need the Seven Kill Army to deal with you. I alone am enough.”

“Hiss!”

When Han Fei spoke, he didn’t hide anything. When the armies who came to pick up the spoils heard this, they were shocked. Is this guy f*cking crazy?! Alone? Do you know who Yang Kun is? Although the Soul Controlling Sect wasn’t in the Hundred Alliances, it was because it was squeezed out by the Ghost Strait. Otherwise, with the Soul Controlling Sect’s ability to control mine demons, they could completely enter the Hundred Alliances.

Everyone knew what the major factions were like in the Hundred Alliance City. Yang Kun had definitely brought an army with him this time. Even if it was a huge-crowd strategy, few people were willing to fight head-on with the Soul Controlling Sect. This Human Butcher actually wanted to confront Yang Kun alone. How ambitious was he?

Yang Kun snorted coldly. “Humph, since you’re so arrogant, let the Soul Controlling Sect teach you a lesson, you so-called emperor of the human race.”

Buzz!

With a wave of Yang Kun’s hand, the army of 10,000 mine demons formed a military formation and floated behind him.

Seeing this formation, many people exclaimed, “Three thousand Five Poison Mine Demons and seven thousand Six-Winged Mineral Worms. Is Yang Kun really going all out?”

Someone shook his head. “Not necessarily, but theoretically, so many mine demons are enough.”

The so-called Five Poison Mine Demons were produced from the rare poisonous mines in the Infinite Mining Areas. Among the mine demons born in the poisonous mines, there were Black Mountain Centipedes, Green Crystal Scorpions, White Salt Snakes, Golden Toads, and Green Wandering Geckos, which were five types of ultimate poisonous mine demons. This was the unique advantage of the Soul Controlling Sect. Although many factions could actually take down the Soul Controlling Sect, the Six-Winged Mine Worms and the Five Poison Mine Demons were too famous. As a result, under normal circumstances, no one was willing to easily offend the Soul Controlling Sect except for the Ghost Strait.

At this moment, although the 10,000-strong mine demon army was only puppets, 10,000 was too many.

Just as Yang Kun summoned an army of 10,000 mine demons, Han Fei suddenly disappeared, and a fist mark that was being brewed and was transforming at an extreme speed appeared between the heavens and earth.

Boom!

This punch came so fast and suddenly that Yang Kun didn't even have the time to react. This was because he thought that Han Fei would release the Seven Kill Army, but he didn't expect that Han Fei had been preparing to punch him through.

Although he didn't respond fast enough, behind Yang Kun, he instantly used a huge amount of soul power.

In an instant, as if Yang Kun had mastered the soul of a Monarch, he set up a pillar of soul and faced the attack.

Rumble!

At that moment, to everyone's surprise, Yang Kun and Han Fei had shattered the void before unsealing their Great Dao Locks. The aftershock of the blow caused cracks between the endless void and reality, and large holes appeared.

Han Fei's heart did a flip. So could soul power be used this way?

Yang Kun roared, "Kill!"

The seven thousand six-winged flying insects, like a man-eating mouth, swarmed towards Han Fei.

Seeing this, Yang Kun controlled more than 2,000 Five Poison Mine Demons, ready to charge.

Why were there only two thousand? Because there were still a thousand puppets mixed in with the ordinary Six-Winged Mine Worms.

The black mass blocked everyone's vision. In the eyes of others, the army of the Sky Opening Realm that was like a locust swarm was not something ordinary late-stage Sky Opening Realm powerhouses could deal with. Even powerhouses who had perfected the Star Transformation Realm or even had multiple Great Dao Locks might not be able to suppress it.

Seeing that Han Fei was about to be surrounded by the mine demon army, a voice immediately sounded in everyone's ears, "Freeze!"

The void within hundreds of thousands of kilometers was frozen in an instant. As soon as the Extreme Cold Pearl was activated, more than 1,200 six-winged flying insects were frozen. When the power of the Monarch descended, Yang Kun had reacted very quickly and had already used a lot of soul power to resist it.

However, when he took the blow, he still spewed out a mouthful of essence blood.

"An ultra-quality godly weapon?"

Everyone except Yang Kun took a deep breath. Is this Human Butcher so rich? The game has just started but he had already used just a killer move. Then what would he use next?

[God of Fishing](#)

Chapter 2574: Mysterious Powerhouses in A Trinity

2574 Mysterious Powerhouses in A Trinity

The power of an ultra-quality godly weapon was almost invincible in the Sky Opening Realm without the suppression of weapons of the same level. Especially in a group battle, an army of 10,000 mine demons was killed by one-tenth in the blink of an eye. Such combat power was shocking.

The onlookers exclaimed, but Yang Kun was not afraid at all.

He roared, "The power of an ultra-quality godly weapon can only be unleashed once or twice at most. Let's see how many more times you can launch such an attack!"

After using the Extreme Cold Pearl, Han Fei immediately recalled it and threw it to the Ice Road on the green jade stone bridge. Its recovery ability was very fast. He only needed to wait for at most three hundred seconds before the Extreme Cold Pearl was filled with the power of extreme cold again.

In the three hundred seconds, Han Fei could only fight head-on. With so many people watching, he couldn't use many of his trump cards, but so what?

Even if he just activated his Origin Great Dao and unleashed five times the combat power, these Six-Winged Mineral Worms wouldn't be able to resist him. If these mine demons were all at the peak-level late-stage Star Transformation Realm or the perfected Star Transformation Realm, Han Fei wouldn't be able to kill many of them.

However, the strongest among these mine demons was only in the late-stage Star Transformation Realm, which meant that Yang Kun and the others couldn't control a mine demon in the peak-level late-stage Star Transformation Realm or the perfected Star Transformation Realm. How could Han Fei be afraid of the mine demons at such a level? Maybe he didn't even need to activate his Great Dao.

Buzz!

Han Fei's Qi and blood soared to the sky as he formed a fist mark and swept in all directions.

Bang! Bang! Bang!

Knock, knock, knock!

The mine demons were like fireworks, the Six-Winged Mineral Worms exploded one after another, and minerals scattered all over the sky. Seeing this scene, the onlookers kept exclaiming.

For people of Han Fei's level, the level-three or level-four minerals were not very valuable, but for most people, they were important resources.

Someone was shocked. "Is this guy really a member of the human race that has long declined? He killed a mine demon with two punches on average, broke through the Great Dao with one punch, and pierced the soul with another. It doesn't make sense!"

Someone was shocked. "This Human Butcher has such a strong physique. Look, he was bombarded by the Six-Winged Mineral Worm head-on but didn't even have a wound. Even if he is a perfected Star Transformation Realm powerhouse, his physique is too abnormal!"

Suddenly, someone exclaimed, "Look, the Five Poison Mine Demons have surrounded him."

The crazy encirclement of the Six-Winged Mineral Worms was to buy a chance for the Five Poison Mineral Demons. At this moment, Han Fei was surrounded by densely packed Six-Winged Mineral Worms. Although his combat power was unparalleled and he had killed more than 300 Six-Winged Mineral Worms in a moment, the Five Poison Mineral Demons had also found an opportunity.

Dark green, crimson, black, purple, and red Dao runes appeared in the air. The Five Poison Mine Demons were born in poisonous mines and carried the strange poisons of the world. Ordinary people couldn't withstand this. One or two of them were fine, but there were thousands on Han Fei's side.

Bang! Bang! Bang!

However, Han Fei's punches didn't stop. Even though his body was red and green all over, his combat power didn't decrease at all.

His body was crazily absorbing these great poisons. Yang Kun felt a chill down his spine as he watched from the field. Not only was this person's physique strong, but his resistance to poison was also so terrifying?

A hundred seconds had passed, and Han Fei had killed more than five hundred Five Poison Mine demons, but his combat power hadn't declined.

Suddenly, Yang Kun's eyes lit up, because he saw Han Fei's body tremble slightly and he had an extremely slight cough. At that moment, it took him four punches to kill a Mine Demon Centipede.

This scene refreshed Yang Kun. Sure enough, no one could be so invincible. Han Fei was strong, but not strong enough to resist countless great poisons.

Even some onlookers saw this scene. Someone said, "Look, the Human Butcher's combat power has declined. Although he is indeed very strong, he's not strong enough to resist the Soul Controlling Sect alone."

Someone said, "That's right. Although he tried his best to maintain it, his combat power still declined a little. This is true."

Someone frowned. "Even so, the Human Butcher's combat power is still terrifying. Don't you see that Yang Kun doesn't even need to fight? I'm afraid he doesn't dare to fight now. After all, the Human Butcher is a terrifying existence who has slaughtered half of the Soul Controlling Sect. What if he has some trump card specially left for Yang Kun?"

The onlookers discussed animatedly, but their eyes were always on the scattered minerals. In their opinion, it was impossible to fight people like Han Fei or Yang Kun, but if they fought fiercely, they could get these minerals.

Another hundred seconds passed. Han Fei had killed more than a thousand Five Poison Mine Demons and nearly five hundred Six-Winged Mine Worms with one blow. However, his combat power had plummeted again.

And this was exactly what Han Fei wanted to show them.

In the eyes of outsiders, Han Fei's combat power suddenly dropped by a small margin. At this moment, Han Fei threw out the Extreme Cold Pearl again.

As soon as the pearl appeared, Yang Kun's face suddenly changed. As he issued an order in his heart, the Six-Winged Mineral Worms immediately swarmed up, and the Five Poison Mineral Demons retreated.

Buzz!

In an instant, a hundred thousand miles was frozen. Although Yang Kun's speed was fast enough to make the Six-Winged Mineral Worms fly like moths to the fire to offset the Monarch's blow, he was still a little slow. On such a fierce battlefield, more than a thousand Six-Winged Mineral Worms had their souls frozen in an instant, and seven or eight hundred Five Poison Mineral Demons were also frozen to death.

"Puff ~"

Han Fei pretended to vomit blood and then retreated quickly.

Han Fei shouted, "Yang Kun, right? I can kill five thousand of your mine demons at once. How many times can you resist me? Soul Controlling Sect, just wait to be wiped out!"

In the blink of an eye, Han Fei retreated and directly opened the white cave space. This scene exceeded many people's expectations, but it was also what many people expected.

The onlookers felt that Han Fei couldn't resist so many mine demons alone without the Seven Kill Army. In fact, they believed that if it weren't for the two attacks of the ultra-quality godly weapon, Han Fei would have already been defeated.

Of course, even so, many people had witnessed Han Fei's strength. After all, he wasn't a Monarch. It was already incomprehensible for him to kill so many mine demons with the power of the perfected Star Transformation Realm.

As Han Fei retreated quickly, the onlookers became excited. They wondered if Yang Kun would chase after Han Fei. If Yang Kun did, they would be able to loot the minerals left by the mine demons killed by Han Fei.

However, Yang Kun's army of mine demons quickly picked up the scattered minerals. This made people speechless. Aren't you f*cking going to chase the Human Butcher? He has already run away. Hey, why are you still gathering these lousy minerals?

In fact, Yang Kun's speed was not slow. It only took him three seconds to gather the army of mine demons, recollect them into his Origin Star, and then chase after Han Fei unhurriedly.

To the remaining people's disappointment, there was nothing left after the battle. They had come for nothing.

Therefore, the group of people chased after them again.

This time, Han Fei ran in the white cave space at 22 times the speed of light for an hour when he suddenly felt that the white cave space was unstable.

At this moment, Han Fei knew that Yang Kun's real killer move had come.

Just as others guessed, Yang Kun was not stupid. Han Fei could sweep through half of the Soul Controlling Sect, which meant that Han Fei had the corresponding strength. If Yang Kun still felt that he could easily crush Han Fei with the mine demons, he was not qualified to make a name for himself in the Infinite Mining Area.

The white cave was said to be untraceable, but that was only for those whose speed didn't reach the speed of light explosion. Once their speed reached the speed of light explosion, they could grasp the white cave and catch up with Han Fei.

Therefore, when Han Fei saw three unfamiliar middle-aged powerhouses, his heart turned slightly cold. Was a mere Soul Controlling Sect so powerful? The feeling these three people gave him was that none of them were weak. This feeling meant that each of them had sealed at least three Great Dao Locks.

Besides, these three people looked very strange. The array they arranged was integrated as if he was facing a single person.

Han Fei held his head high and said indifferently, "An ancient array of the three in one?"

One of them said indifferently, "Not bad. The three of us are connected in soul and can even fight Monarchs together. Human, although you are talented, you should know that there are always stronger people out there. How dare you be so arrogant? Do you think you've proved your Dao?"

The three of them were in the same fighting posture as if they were one person. Although the other party's spear was darting at him, Han Fei sensed power far beyond the so-called two Great Dao Locks.

At that moment, even Han Fei had to dodge, because the other party's true combat power seemed to have reached the Dao Proving realm.

At the very least, Han Fei felt that the other party's soul power and strength had increased in an instant. It felt as if he had activated five times the power of the Great Dao.

Han Fei raised his hand and slashed out All Great Daos in One Sword.

Clang!

Han Fei's hand was shaking, but the three powerhouses looked shocked. Obviously, Han Fei's combat power had exceeded their expectations.

In the next moment, the three middle-aged men burst out at the same time. However, Han Fei felt that something was wrong because he sensed strange emotions. Because he found that three attacks appeared respectively from the past, the present, and the future.

Han Fei couldn't see the sword from the future, but he could feel the threat.

Han Fei suddenly had an idea. He pretended to be violent and faced the enemy, holding a void rift.

Bam! Bam! Bam!

Han Fei's slash shattered the sword from the present when it came, but the sword from the past and the sword from the future seemed to descend at the same time in a certain time and space, directly tearing the battle suit on Han Fei's body into pieces, and two blood marks were cut on his sturdy body.

[God of Fishing](#)

Chapter 2575: Strong Suppression

2575 Strong Suppression

If it were anyone else, they would definitely be proud to have injured this terrifying Human Butcher to such an extent.

However, the three powerhouses looked puzzled at the same time. How could this person's physique be so strong?

Han Fei was also a little surprised. He had wanted to test the strength of these three people, but at the moment of the encounter just now, he had indeed suffered two unknown injuries.

However, Han Fei didn't believe that these three people could attack the past, present, and future at the same time. This was because once they were attacked in the past, he should be able to sense it in advance. Also, there were too many variables in the future. He didn't believe that this was a power that Sky Openers could master.

"The problem is the soul."

Han Fei's heart did a flip. The other party was known as a trinity, but there should only be one who attacked him in reality. The other two attacks should have made use of the Great Dao of Time.

It was not difficult to verify all of this. The problem was whether he needed to expose his Great Dao of Time now. Because Han Fei knew that there were still people observing in the dark. It might be someone from the Capital of Horror, or it might not be. Once his Great Dao of Time erupted, the possibility of being seen through was high. After all, there were not many people who walked the Great Dao of Time.

Therefore, even if he wanted to unleash the Great Dao of Time, he shouldn't be here.

Fortunately, these three people weren't strong enough, or perhaps they hadn't unlocked their Great Dao Locks, so even if they attacked him, it was impossible for them to kill him.

On the other hand, he could study their special Great Dao of trinity.

Han Fei's fighting style suddenly changed. His speed soared, and he planned to kill one person first. In terms of speed, these three people might not be slow, but their speed limit couldn't be higher than his, and he didn't need to use his fastest speed.

When Han Fei's speed soared to 25 times the speed of light, the three of them had no time to react. Because his speed was so fast, no one Han Fei aimed at could escape.

"Puff ~"

All Great Daos in One Sword killed one of the middle-aged men in an instant. Han Fei thought that it was too easy, but the killed middle-aged man's figure condensed in another place in an instant as if he had just killed an afterimage.

"Huh!"

Han Fei's expression changed slightly. He was sure that the person he killed was a real person, a real powerhouse who had reached the perfected Star Transformation Realm. Although the other party mainly cultivated the soul and he couldn't directly penetrate the other party's Star Bead, if his entire soul body was instantly minced, his Star Bead should be revealed, right? But he didn't.

One of them said, "Don't waste your effort. You don't understand our Dao at all. However, your physique is indeed unparalleled. We will use your flesh and blood to complete our final path of the perfected Star Transformation Realm."

Another person said, "You can't escape now."

Han Fei looked at the deep sky, only to see that Yang Kun had already caught up.

Han Fei glanced at the three of them and then at Yang Kun, and his face suddenly became solemn.

Facing the mysterious attacks of these three people, Han Fei rushed forward and vomited three mouthfuls of golden blood in a row. Hundreds of sword marks appeared on his body, some so deep that his bones could be seen, but Han Fei still rushed out.

In the rear, Yang Kun immediately shouted, "Stop him."

However, this was actually already the northern mining area. It was theoretically just the periphery.

Watching Han Fei rush into the northern mining area, Yang Kun and the others looked at each other and decided to go in first.

Although the northern mining area was very dangerous, it was just the periphery. If they didn't go deeper, how could there be danger?

Less than half an hour after Han Fei and the others rushed into the northern mining area, a large group of onlookers came from behind. But most of them stopped outside the northern mining area.

Someone stopped chasing and hesitated. "Are we going in? This is an unexplored area. There is no information about this place!"

Someone shook his head. "Forget it! It's not worth it to rush into the northern mining area just to pick up some leftovers. This place is extremely dangerous. The Soul Controlling Sect is bold because they're skilled. The Human Butcher is really strong. It's fine if they enter, but if we enter, we'll be courting death."

Someone echoed, "That's right. Although we can enter the northern mining area, it's not necessary. Brothers, we're all here for opportunities. In fact, no matter who wins this battle, it won't hurt us. It won't be too late for us to take action when both of them are injured or one of them wins."

Someone was puzzled. "Take action against whom? We only have six hundred people, and some of them are not itinerant cultivators."

A few people retreated slightly, and someone said, "Although we are not itinerant cultivators, we are also here for resources. As a vulnerable group, we should work together. No matter who comes out, their combat power will inevitably be greatly damaged. It's not impossible for us to join forces to take down one of them. Although the Soul Controlling Sect has many mine demon puppets, I don't know how

many they can bring back. As long as there aren't more than 3,000 people, even if Yang Kun comes personally, he will still have to die."

Everybody came to a conclusion, which was to wait. The sandpiper and the clam were fighting each other, and the fisher would reap the benefits. However, there were too many fishermen. But even if they didn't get much, they wouldn't return empty-handed.

To be honest, at least half of the people here were here not only for resources, but also for the opportunities.

After another half an hour, Han Fei pretended to slow down, and Yang Kun and the others behind seemed to see hope.

Yang Kun nodded. Two chains appeared on each of the three middle-aged men, which were Great Dao Chains.

Bang! Bang! Bang!

The Great Dao Locks on the three of them were broken. In the next moment, the three of them suddenly unleashed a terrifying speed 30 times the speed of light.

After only a minute, Han Fei was besieged. However, at this moment, Han Fei's injuries had healed, and his desire to escape was not high. When he saw Yang Kun and the others, Han Fei took the initiative to turn back and attack first.

Apart from Yang Kun, the three powerhouses attacked at the same time, but in the next moment, the space here was unstable, and weird void collapses appeared in all directions.

One of the middle-aged men said, "Not good. The space here is unstable and time is affected."

Another person said, "It's okay. Let's take this person down first."

Just when the three of them felt that they could easily take down Han Fei, Han Fei suddenly turned back and grinned. "Steal, steal..."

Han Fei performed the Void Stealing Technique twice in a row, and the last middle-aged man among the three suddenly changed his face.

Han Fei grinned and said via voice transmission, I knew there was something wrong with your trinity. You are not three, but one. Because your soul power is too strong, you created two clones, each sharing the soul pressure and avoiding the Monarch tribulation. In order to ensure that the three bodies can be one, you have to be connected mentally. However, once the other two clones are restricted, you will only have individual combat power left.

The middle-aged man was horrified and immediately shouted, "Yang Kun, stop him. I'll go over and kill him."

However, Han Fei sneered. "Go over? You can't go over until I tell you to. If I tell you to stay, you have to stay. Time Freeze."

At that moment, the scene here was frozen. In terms of the Great Dao of Time, Han Fei was only stronger than these people, no weaker than them. This person's so-called going over to kill him should be at an extremely short period of time. Only the time difference was almost negligible, so he didn't notice the problem immediately.

The man was shocked. "Do you know the Great Dao of Time?"

Yang Kun was also shocked. As soon as he arrived, he saw that his family's senior having three souls, who was almost certain to prove Dao, actually said this.

In the blink of an eye, he saw that only one soul of this elder was still sober. He naturally knew that something was wrong.

However, it was already too late. Han Fei clenched his fist and punched out three times in a row, covering the sky.

Bang! Bang! Bang!

The three of them were instantly blasted to pieces by these terrifying punches, and their souls collapsed.

Yang Kun was horrified. He didn't know how Han Fei did it, but saving people was more important at this moment. However, when the Six-Winged Mineral Worms and the Five Poison Mine Demons pounced at him, Han Fei clasped the air with one hand and a fishing line cut through the sky.

"Freeze!"

Yes, this was the third time the Extreme Cold Pearl appeared. At this moment, more than a thousand Mine Demon puppets were destroyed by Han Fei.

While throwing out the Extreme Cold Pearl, Han Fei grabbed the three middle-aged men with the Void Lines. Then he looked at Yang Kun and smiled. "You have mine demons, but do you think I don't?"

Yang Kun was shocked. He sensed that something was approaching at fifteen times the speed of light.

However, at the moment Yang Kun sensed it, the thing had already entered the battlefield.

A Flash Lizard suddenly appeared on the battlefield, and its target was a Six-Winged Mineral Worm.

As for the number of Flash Lizards, almost in a second, more than three hundred of them suddenly appeared.

Yang Kun might never understand why there were so many Flash Lizards. With the enhancement of speed, it was simply too easy for the Flash Lizards to kill ordinary Six-Winged Mineral Worms. After all, the Flash Lizards were level-five mineral creatures. Therefore, their strength was not comparable to the Six-Winged Mineral Worms at all.

Han Fei had already reserved this path to lead Yang Kun into the Flash Lizards' camp. Here, no matter how many Six-Winged Mineral Worms there were, they were nothing.

In the Infinite Mining Area, low-level mineral creatures, as long as they hadn't grown up, were the food of high-level mining demons.

Yang Kun had brought tens of thousands of low-level mine demons with him, intending to kill Han Fei with the huge-crowd strategy.

But now, countless Flash Lizards had been attracted.

Every second, nearly a hundred Flash Lizards flew close. Yang Kun was about to recall the puppets, but Han Fei said with a smile, "Look, sometimes numbers are not the key. The food chain is."

God of Fishing

Chapter 2576: Soul Controlling Divine Seal

2576 Soul Controlling Divine Seal

The mine demons were also territorial. They hunted each other even crazier than outsiders.

Therefore, when the Six-Winged Mineral Worms and the Five Poison Mineral Demons entered the territory of the Flash Lizards, there was only one result, which was a battle between the two groups.

When a large number of Flash Lizards appeared, Yang Kun's heart skipped a beat. So, this was Han Fei's trap? He used the mine demons to balance the mine demons.

At this moment, a battle between the mine demons was about to break out. This Flash Lizard was abnormally fast. It was clearly impossible for him to save the three people. Although these three people were not completely killed, they were suppressed by Han Fei.

Now that his Mine Demon Puppets were restricted, it was almost impossible for him to rush forward to save the elder from Han Fei. Yang Kun knew his limits. His elder had split his soul into three parts and cultivated two Great Dao Locks at the same time. With the three in one, he was almost certain to become a Monarch. Even so, he was still suppressed by Han Fei alone. It could be seen that Han Fei was only scarier than the rumors said.

Therefore, although he was reluctant, Yang Kun knew that he had to run. Victory and defeat were common in war. In the Sky Opening realm, no one dared to say that he was invincible. Otherwise, he wouldn't have been suppressed by the Ghost Strait and couldn't enter the Hundred Alliance City.

However, just as Yang Kun began to collect the Mine Demon puppets, Han Fei said leisurely, "Didn't you want to kill me? Why didn't you kill me? Heh, it's too late for you to run now that you've fallen into my trap."

"Steal~"

Buzz!

A square silver chessboard appeared above Yang Kun's head.

Han Fei just frowned slightly and then dismissed it. After all, the Soul Controlling Sect and the Ghost Strait were very similar. Both sects mainly cultivated the soul, and both sects had deep research on the path of the soul, so he wasn't surprised that the Void Stealing Technique was blocked.

Soul suppressing weapons were extremely rare even if they weren't godly weapons or just Sea Quelling Bizarre Treasures. And the people of the Soul Controlling Sect all seemed to have soul suppressing weapons.

Seeing that the Void Stealing Technique was ineffective, Han Fei didn't intend to fight Yang Kun, mainly because he didn't think it was necessary. Without the mine demon army, even if Yang Kun activated all three Great Dao Locks, he would only be a little stronger than before. How could he be like Han Fei? Just by cultivating the Godfiend Formless Technique, he had doubled his physical and soul powers.

And now, he had also reached the perfected Star Transformation Realm and his Dao bones had been formed. Even without activating his Great Dao, he could contend with the strong masters with three Great Dao Locks. Now that he was activating his Great Dao, be it speed, strength, or soul, he could crush Yang Kun.

Feeling that Han Fei's speed had soared to an incomprehensible level, Yang Kun was horrified. He thought to himself, It's over. This guy didn't use his full strength from the beginning to the end. Everything was just his disguise. He made everyone think that his combat power was just that, and he made so many people watch his combat power.

At this moment, Yang Kun felt that Han Fei was no longer the person who struggled to charge at the Mine Demon puppets just now.

At this moment, Han Fei stood proudly in the air. The mine demons protecting Yang Kun were staring at him warily, ready to protect his master to escape at any time.

However, this time, Han Fei's fist mark was filled with unparalleled golden light. From Yang Kun's eyes, the golden light was so dazzling that he couldn't even look straight at it. The man in front of him was like a god, bathed in the golden light.

He is unstoppable! This idea filled Yang Kun's mind.

"The path of invincibility?"

Yang Kun's face changed in shock. He had no time to collect his mine demons. He had heard of the path of invincibility and even seen it before. However, no one had ever walked the path of invincibility to such an extent. When he saw the Invincible Fist, the only thought in his heart was that this guy was invincible.

In an instant, eighteen late-stage Star Transformation Realm Five Poison Mine demons exploded almost at the same time.

The only thing Yang Kun could do was to unlock the three Great Dao Locks at that moment. Without power, he couldn't resist Han Fei's blow. Therefore, he would either unseal the Great Dao Locks or die.

After the seal was lifted, Yang Kun's purpose was not to fight Han Fei, but to escape.

Bang!

A huge shell blocked Han Fei's fist mark, but then the shell exploded from the inside and flesh and blood splashed.

“Huh! A giant shell in the peak-level late-stage Star Transformation Realm?”

Han Fei’s heart did a flip. He had thought that Yang Kun wasn’t strong enough to refine a puppet of the peak-level late-stage Star Transformation Realm.

Not only that, Han Fei saw a total of eight exquisite shells surrounding Yang Kun. And this shell armor that blocked Han Fei was one of them.

While running, Yang Kun shouted, “Human Emperor, we’re even now. I promise I won’t come after you again.”

Upon hearing this, Han Fei smiled faintly. “People who are about to die better say something you should say.”

Yang Kun said, “Human Emperor, I suggest that this matter ends here. My Soul Controlling Sect was established by a great power from the Central Sea Divine Realm. Killing me will only bring you unnecessary trouble. Why don’t we forget our grudges today?”

Bang! Bang! Bang!

As Han Fei punched, he smiled and said, “I don’t believe it. Even if the heavens come today, you’ll have to die. Not just you, the Soul Controlling Sect, even the people of the Three Temples will be knocked out by me.”

Han Fei detonated the Silencing Fist again. This punch was like a star falling from the sky, filled with invincible will.

“No ~”

At this moment, Yang Kun panicked. However, it was already too late.

This fist mark was restrained, but one could sense the majestic intent, coupled with the invincible will.

Eight peak-level late-stage Star Transformation Realm shells floated in the air, but they were shattered in a row, and Yang Kun only had his broken head left after being punched.

Since then, the Soul Controlling Sect, including Yang Kun, had been completely wiped out.

Han Fei grinned, and the divine brilliance on his body descended. The serious injuries that he pretended to have were instantly healed.

Han Fei glanced at the way he came. There should be seven or eight hundred people who saw the battle between him and the Soul Controlling Sect.

This was good. These people were all eyewitnesses, so when they described Han Fei’s strength, it was not very convincing.

Yang Kun knew that Han Fei wouldn’t spare his life, so he shouted with his only head, “Who are you exactly? Why do you still come to the Infinite Mining Area when you have four Great Dao Locks? Why did you attack the Soul Controlling Sect?”

Han Fei’s heart did a flip. “Four Great Dao Locks? Why do you say that?”

Han Fei didn't know how Yang Kun judged his strength like that, so he might as well listen.

Yang Kun shouted angrily, "Your attainments in the law are poor, but your combat power is almost unparalleled. Even Elder Three Souls of our Soul Controlling Sect was defeated by you. How can I not guess your strength? Hahaha, you unlocked your Great Dao Locks in advance, and your attainments in the law are not enough. If you can't condense five Dao Locks, you will face the Monarch tribulation. You can't survive it, you can't survive it..."

Hearing Yang Kun's hysterical roar, Han Fei couldn't help but feel a little curious. It turned out that his real combat power was like this in the eyes of others!

Indeed, since his Dao Bones were formed, he could completely crush the powerhouses with three Dao Locks. When he was pretending earlier, he used less than 70% of his strength, so he might be judged to have unlocked two or three Dao Locks.

However, he hadn't fought a powerhouse with four Dao Locks yet, so it was hard to tell which was stronger. However, because of the condensation of his Dao Bones, the compression speed of his Star Core was accelerating. Soon, his Star Core would be compressed a thousand times more, and then he would be considered a powerhouse who had unlocked four Dao Locks.

With this in mind, Han Fei put on a smile and grabbed at the void, crushing a mass of water vapor that was Yang Kun's soul that was trying to escape.

Han Fei said, "Well, actually, I want to tell you that I don't have a Great Dao Lock at all."

Buzz!

Yang Kun's eyes widened. He didn't believe it. However, whether he believed it or not, Han Fei's question was his last thought before he died.

Han Fei pierced through Yang Kun's soul-subduing godly weapon with the power of his Yang Soul and then grabbed it with the Void Lines.

A moment later, information popped up in Han Fei's eyes.

Soul Controlling Divine Seal (Sky Opening Realm, Ultra Quality)

Introduction: The Soul Controlling Divine Seal, a sealing technique that fuses arrays, seals, soul controlling technique and parasitizing. This technique was created by a genius array master in the Central Sea Divine Realm. The Soul Controlling Divine Seal enters the array with the soul and parasitizes it with the array, condensing a soul parasitizing seal, sealing the souls of others and controlling their bodies. If you use this technique, you will lose a certain percentage of your soul. The creator thinks that the only reason this technique isn't divine-quality is that it consumes his soul to control puppets, and he can't control creatures stronger than himself, so he works to improve this technique.

Deduced Technique: Soul Controlling Law Seal

Consumed Energy: 500,000 points of Immortal Qi

Effect: With this technique, the user can control and enslave all creatures weaker than himself.

Shortcoming: It will consume one's own soul and consistently wear and tear his soul, which hinders cultivation.

"Interesting. This thing has room for improvement."

Han Fei's heart stirred. This technique is wonderful. I wonder if that genius has modified this technique. If he modifies it, doesn't it mean that he can control puppets stronger than him without using his soul? This puppet technique is simply much stronger than Hong Yue's puppet Dao.

Looking at his 1,480,000 points of Immortal Qi, Han Fei wasn't stingy at all. He wanted to bet that the array genius modified the Soul Controlling Divine Seal.

A moment later, information popped up in Han Fei's eyes again.

Soul Controlling Law Seal (Sky Opening Realm, Divine Quality)

Introduction: This is a sealing technique that fuses arrays, seals, soul controlling technique and parasitizing. It's created by a genius array master in the Central Sea Divine Realm. The Soul Controlling Divine Seal enters an array with ownerless souls and parasitizes it with arrays. The array evolves on its own, condenses into a soul parasitic seal, seals other people's souls, and controls other people's bodies. To use this technique, you need to find a large number of ownerless souls and have extremely high attainments in arrays.

Deduced Art: Unknown

Energy Consumed for Deduction: 1 million points of Immortal Qi

Effect: It can control and enslave any creature below the Monarch level, and as for Monarchs, it depends.

"Phew! It really worked. But what does it mean that the array evolved on its own?"

[God of Fishing](#)

Chapter 2577: Became Famous

2577 Became Famous

Someone suggested, "I'm afraid it's not that Human Butcher isn't interested in you, but he deliberately left a way out for you to come back and spread the news. In addition, although the leader of the Soul Controlling Sect is dead, there are still some people and some mine demons guarding their base. If I'm not wrong, he wants to use you to take care of the remaining forces of the Soul Controlling Sect. And you still have the time to brag to me? I'm afraid many people have already secretly gone to the Soul Controlling Sect."

"Shoot ~"

"Hiss ~"

"That makes sense! Yang Kun perished and the Soul Controlling Sect had been looted. There are only some ordinary powerhouses left in the sect, so they're naturally not worth killing by the Human Butcher. Therefore, he really wants to use us to completely destroy the Soul Controlling Sect!"

“Come on, let’s go to the Soul Controlling Sect to pick up some treasures.”

A moment earlier, the itinerant cultivator was still lamenting that he didn’t pick up any treasures and escaped from Han Fei. But in the next moment, he set off again to the Soul Controlling Sect to pick up some treasures.

As for life and death, at such a critical moment, many itinerant cultivators chose to forget it. They stayed in the Infinite Mining Area just to become stronger. Otherwise, what was the difference between them and a salty fish?

In the camp of the Capital of Horror, Xiangxiang was listening to the reports of several women.

One of them said, “Yang Kun has indeed perished. We saw his death up close. That Human Butcher seems to have discovered us, but he didn’t care as if he didn’t care about us at all.”

Another person said, “Master Xiangxiang, there’s one thing that we dare not tell anyone...”

Xiangxiang frowned. “Speak!”

The person hurriedly said, “Lord Xiangxiang, Elder Three Souls of the Soul Controlling Sect has mastered a little bit of the Great Dao of Time. We know this. However, when Human Butcher killed the Elder Three Souls, he also unleashed the Great Dao of Time, and it was very strong. Elder Three Souls can’t compare to him at all in terms of the Great Dao of Time. We suspect that the Human Butcher has something to do with the Time Temple.”

“The Time Temple?”

Xiangxiang Xiang frowned at first, but then she was shocked. The human race? The Great Dao of Time? Perfected Star Transformation?

Buzz!

Xiangxiang suddenly stood up. “Could it be him?”

Xiangxiang Xiang’s eyelids twitched crazily. Although the intelligence showed that Han Fei was from the Wild Ancient Race of the Western Desert and wasn’t an orthodox human, this bit of information wasn’t absolute.

After Han Fei showed up in the Divine Capital Dynasty, his identity as a disciple of the Void Temple was exposed and attracted the attention of the world. However, at this moment, Han Fei disappeared. He had never appeared in any other place.

From the Queen of Horror’s attitude towards Han Fei, to Master Dian’s familiarity with Wushuang, and even knowing that Wushuang was preparing to prove Dao,

The answer was not hard to guess.

Xiangxiang Xiang said coldly, “You two, shut up. Don’t mention what happened today to anyone. Otherwise, die.”

Chapter 2578: The Soul Controlling Sect Is More Terrifying Than I Thought

2578 The Soul Controlling Sect Is More Terrifying Than I Thought

Days passed, and the name of the Human Butcher finally spread throughout the Infinite Mining Area.

On the third day after Yang Kun chased Han Fei into the northern mining area, the Soul Controlling Sect was wiped out by some forces that had been prepared.

The Sky Opening powerhouses of the Soul Controlling Sect were all killed or injured, becoming the main source of the new batch of refined stars in the Hundred Alliance City.

The Sea Establishment Realm powerhouses of the Soul Controlling Sect were divided up by some major factions and thrown into the endless mining work.

From then on, the name of the Soul Controlling Sect became a thing of the past in the Infinite Mining Area. The destruction of an old faction was mostly accompanied by the birth of a new faction.

In theory, the territory where the Soul Controlling Sect was now belonged to Han Fei. Many people were even waiting to watch the show. They wanted to see if Han Fei would take the Soul Controlling Sect's territory.

If Han Fei went, then Han Fei and his Seven Kill Army would come to light. This was what many people wanted to see, because Han Fei had already offended many people.

In fact, if Han Fei really took the territory of the Soul Controlling Sect, he would probably be immediately attacked by countless factions and become the next Soul Controlling Sect.

Of course, with the Mine Demon Stream, Han Fei was naturally not interested in the territory of the Soul Controlling Sect.

Days passed, and people still talked about the destruction of the Soul Controlling Sect. However, news about the northern mining area became much more expensive because Han Fei had disappeared in the northern mining area for a long time.

One month Later.

The Hundred Alliance City welcomed a newcomer.

However, what kind of place was the Hundred Alliance City? It was the most well-informed place in the Infinite Mining Area. Therefore, when this person came, in just three days, someone learned her identity.

“Wushuang? Wushuang the Demoness of the Capital of Horror?”

The intelligence agencies were all shocked when they received the news. As intelligence agencies, how could they not know about the major events in the East Sea Divine Realm?

Decades ago, Wushuang the Demoness participated in the 100,000-Year Grand Competition in the Divine Capital Dynasty and ranked third in the competition, winning an Origin Ground as a reward.

To the powerhouses who had been in the Infinite Mining Area for many years, what did the Origin Ground mean? It represented an almost 100% chance of proving Dao.

Logically speaking, it was impossible for Wushuang to come to the Infinite Mining Area at this time, but since she had come, no one knew what she was here for.

On this day.

In the camp of the Capital of Horror in the Hundred Alliance City, a large-scale meeting was going on.

As a future Monarch-level powerhouse of the Capital of Horror who the Queen of Terror took as her own daughter, Wushuang had become the person in charge since she came here, even if there were some people present stronger than Wushuang, or even much stronger.

At this moment, Wushuang glanced at the more than hundred powerhouses in the perfected Star Transformation Realm and smiled. Then, she said in a gentler voice, "Everyone, let me make it clear first. I won't stay in the Infinite Mining Area for long. It may be a few years, decades, or hundreds of years. After I leave, the forces of the Capital of Horror in the Infinite Mining Area will still belong to you and will have nothing to do with me."

Upon hearing this, many people secretly heaved a sigh of relief. Wushuang had specifically mentioned that she was just a passerby. Even if she was in charge of this place, it wouldn't last long.

While everyone was relieved, someone asked, "Master Wushuang, are you here to prove your Dao?"

For a moment, everyone looked at Wushuang. They felt that it would only be a few hundred years before Wushuang proved her Dao. Logically speaking, Wushuang, who had an Origin Ground, could prove Dao anywhere. However, since she had come to the Infinite Mining Area, they couldn't help but wonder if the Origin Ground in Wushuang's hand was related to the Infinite Mining Area.

Wushuang smiled. "That's not for sure. I may prove my Dao here, but I didn't come to the Infinite Mining Area to prove Dao. Let me make it clear first. During the time I'm in the Infinite Mining Area, anyone has to listen to my commands. Any information that flows out of my mouth has to be circulated in the way I want."

After that, Wushuang looked at Xiangxiang. She knew Xiangxiang. They had been together for a while, and she was a very capable woman.

Xiangxiang smiled. "During this period of time, Xiangxiang is willing to follow Lord Wushuang's lead."

Wushuang smiled and echoed, "Xiangxiang, you're too polite. I'm new to the Infinite Mining Area, so I need you to give me some information about the Infinite Mining Area."

After that, Wushuang stopped the pleasantries and said indifferently, "Today, I want you to imperceptibly leak a piece of news. The ninth war of the northern expedition may begin. Remember, this news didn't spread from the Capital of Horror. As for who spreads it, I don't care. Anyway, it has nothing to do with the Capital of Horror. Xiangxiang, you are in charge of intelligence. I want you to take care of this matter."

"Hiss ~"

Xiangxiang nodded slightly. Although her heart was in turmoil, she knew the reason. All of this was to cooperate with Han Fei.

At this moment, it further confirmed her guess that the Human Butcher was Han Fei.

In the 100,000-year competition of the Divine Capital Dynasty, the first place was Han Fei, the second was Feng Yu from the South Sea Divine Realm, and the third was Wushuang. It was said that Han Fei gave Wushuang the third place. Many people knew this because many people in the Divine Capital Dynasty were watching the competition.

Even Zhao Qinglong, the most famous powerhouse on the God Roll at that time, didn't make it to the top three, but Wushuang did. No one would believe it.

Xiangxiang said, "Understood. I'll take care of this matter. No one will ever find out that it's me who spread the news."

However, there were many people here whose status was no lower than Xiangxiang's. These people were still at a loss. Someone said, "Master Wushuang, what happened? Why is the northern expedition about to start?"

Someone said in surprise, "Yes! The northern expedition is not a small matter. The northern mining area is full of danger. If we're not careful, even if tens of thousands of peak-level late-stage Star Transformation Realm cultivators join the expedition, they will be killed."

Wushuang unfolded a fan with a swish, flapped it a few times, and said leisurely, "This is the first time. You can listen to what I tell you. If I don't tell you, don't ask. If you do it again, return to the Capital of Horror! The Infinite Mining Area is not suitable for you."

Everyone was shocked. Why did she suddenly become so tough? Just now, she was still smiling like a girl-next-door. Why did she suddenly fall out with them?

Xiangxiang couldn't help but roll her eyes at them. How could you know the reason for Wushuang to host the northern expedition in person?

After a while, the meeting was adjourned.

Wushuang left Xiangxiang alone and said, "You're the only one who knows this, right?"

Xiangxiang nodded. "I'm the only one so far. Ah Yue and Ah Cai must be suspicious. After all, we gave a lot of refined stars to that person, and I didn't mention the pros and cons to them, so it's normal for them to be suspicious."

Wushuang nodded. "Give them credit and let them return to the Capital of Horror!"

Xiangxiang frowned slightly, but when she thought of the scene just now, she still nodded slightly. "Okay."

Wushuang asked, "Have you guessed who he is?"

Xiangxiang nodded. "I guessed so."

Wushuang said, "Don't worry. This northern expedition won't be simple. In any case, no one must know that we proposed the northern expedition. Also, I know some of the people here today, and some don't.

It's hard to say if these people will leak it out. I need you to secretly monitor them. If anything happens, kill them."

Xiangxiang was a little frightened when she heard that. Was Wushuang so ruthless even to her own people? But on second thought, it was hard to say. She'd better quickly let the source of the news leak out from other powers. And the most suitable power to leak the information about the northern expedition was naturally the Divine Capital Dynasty.

...

Han Fei didn't expect Wushuang to come so quickly either. At this moment, he was studying the Soul Controlling Law Seal.

The difficulty of the Soul Controlling Law Seal was not low, especially when it came to the exquisiteness of soul engraving arrays.

The main difficulty was that in order to control a creature, one had to fully understand the structure of such a creature and imprint and modify the core of such a creature through arrays.

For example, if Han Fei wanted to control a person with the Soul Controlling Law Seal, he had to imprint the array seal on the person's heart. In order to ensure that the person could still be controlled by him after breaking and recombining, he had to imprint the array on his Star Bead.

The complexity of this array depended on the size of the human body, the veins, blood, bones, flesh, and blood.

Therefore, Han Fei immediately understood why the mine demons controlled by the Soul Controlling Sect were only Six-Winged Mineral Worms and Five-Poison Mineral Demons. Even the trump card Yang Kun left for himself was only a few controlled clams.

If he used the Soul Controlling Divine Seal to control creatures, then he had to thoroughly understand a creature first. This would first take a lot of time. Even if the mine demon was made of minerals, to put it bluntly, it was a stone. However, a stone with a Great Dao was no ordinary stone. In a sense, the only difference between it and humans was the composition of its body.

Another problem was that it took too long to engrave an array. Because arrays involved a lot of things, the difficulty of a single array was equivalent to the difficulty of drawing tens of thousands of array fusion arrays in the past.

Therefore, when Han Fei studied the Soul Controlling Law Seal, he couldn't help but sigh that the array master was indeed an extremely smart person to be able to make such a complicated array composition.

Han Fei caught a flash lizard and studied it in his Origin Star for twenty-five years before he finally figured out the overall structure of the flash lizard. It also took him another ten years to carve a control array that matched the flash lizard.

After Han Fei finished drawing this array, he roughly understood why the Soul Controlling Sect could only control a few Six-Winged Mineral Worms a year.

That was because it was difficult! Even if there was the slightest mistake in such a complicated array, it had to be remade. In order not to make any mistakes, he had to be highly focused and not dare to slack off at all when engraving the array.

“Huff~”

After the first Flash Lizard was successfully modified by Han Fei, Han Fei felt that he could control it to do whatever he wanted with a thought.

Han Fei put on a brilliant smile. For others, drawing a few seals a year could give them several puppets in the Sky Opening Realm.

However, for Han Fei, with the Demon Purification Pot, he could replicate the same array 100% accurately. Therefore, Han Fei suddenly discovered that as long as he had enough ownerless souls, he could actually create enough armies.

“Gulp ~”

Han Fei suddenly raised his head. “The Soul Controlling Sect seems to be much more terrifying than I imagined! If the person who created the Soul Controlling Divine Seal was still here, how strong would he be?”

[God of Fishing](#)

Chapter 2579: Great Monarch Bloody Hand Is A Demon God?

2579 Great Monarch Bloody Hand Is A Demon God?

Three months later, Han Fei had hunted more than 18,000 flash lizards in total. It was not that he couldn't hunt more, but that the ownerless souls in his body had been exhausted.

The energy crystals he had stored in the Chaotic Wasteland had been used up. If he had known that energy crystals could still be used like this, he would have gotten more energy crystals no matter what.

However, this wasn't difficult to do now. Wasn't Long Wu from the City of Wanderers? Although Han Fei didn't think highly of Gu Tingnan, what he wanted to do was for the human race, so Gu Tingnan probably wouldn't refuse.

If he were Gu Tingnan, he wouldn't refuse. He wouldn't use the lives of billions of humans as the tool to compete with others.

Therefore, Han Fei composed himself and appeared in the outside world with a smile.

He thought that since the matter of energy crystals was settled, it was about time for him to go to the Hundred Alliance City.

However, before going to the Hundred Alliance City, he had to take a look at the Mine Demon Stream.

It didn't make sense that the old turtle hadn't come out yet. What Han Fei was worried about was that the old turtle had been detained by the Demon Vanquishing Tree.

When Han Fei came to the Mine Demon Stream again, he didn't feel his projection clone echoing with him, which meant that his clone was still in Puppet City.

Standing outside the Mine Demon Stream for a long time, Han Fei took a deep look at the Mine Demon Stream. He would not risk his life to enter the Mine Demon Stream. If the Demon Vanquishing Tree really took action, he would be walking into a trap if he went in now.

Therefore, Han Fei stood there for a while before he returned to the Hundred Alliance City.

...

On this day, when Han Fei appeared in the Hundred Alliance City again as Chun Huangdian, there was an uproar as soon as he entered the city.

For a moment, countless people looked at Han Fei. It was said that this person had destroyed the Soul Controlling Sect alone and had already made a name.

Everyone had thought that Han Fei wouldn't return to the Hundred Alliance City anytime soon after what he had done. However, it hadn't been long, and he had walked proudly in the city.

"It's Human Butcher. He's back."

Someone exclaimed in shock at Han Fei's return.

Someone sighed. "Good lord, he still dares to come back. Not only did he destroy the Soul Controlling Sect, but he also killed Dao Lock powerhouses of other powers. Now that he's back, is he really not afraid of revenge?"

Yes, at first, no one knew that Han Fei killed Song Yu and the other seven people from the City of Scavengers.

However, after all, An Tai from the City of Origin had run away, so this matter couldn't be kept a secret anymore, so everyone in the city knew it now. Of course, this was deliberately done by the City of Origin. Han Fei had killed so many strong masters of theirs. How could they not cause him some trouble?

Someone said in a low voice, "What do you know? I heard that the Human Butcher found the inheritance of a Great Monarch. I don't know which Great Monarch it is, but he must have found it."

Someone didn't believe him. "If he has the inheritance of a Great Monarch, why is he still running to the Hundred Alliance City? Why doesn't he accept the inheritance?"

Someone sneered. "It's not as simple as you think. He's willing to come, which means that he can't eat it alone. Last time, he took Qin Cheng to the intelligence center of the Capital of Horror in a high-profile manner. Maybe he needed some special information."

"Eh! Look, he went to the intelligence center of the Divine Capital Dynasty this time."

There weren't many powers who could establish an intelligence center in the Hundred Alliance City. There were only a few who were powerful enough and had sufficient intelligence. Although the Divine Capital Dynasty wasn't very strong in the Infinite Mining Area and was only ranked eighth, their intelligence ability was beyond doubt. After all, they were a subordinate organization of the Divine Capital Dynasty.

In the intelligence center of the Divine Capital Dynasty, an old man received Han Fei.

The moment Han Fei met the old man's eyes, both of them were slightly shocked, because they both felt how powerful the other party was.

What surprised Han Fei was that this old man definitely had more than three Great Dao Locks. It was very likely that he had four or even five Great Dao Locks.

What surprised the old man was that this Human Butcher was indeed very strong. Although he didn't look at his bone structure, judging from his Qi and blood, he was too young. And the other party's strength could actually resonate with him. This meant that the other party had the combat power of at least four Great Dao Locks.

Holding a string of beads in his hand, the old man looked at Han Fei with a smile. "Fellow Daoist Dian, you're really a rare visitor!"

Han Fei smiled. "Sure enough, the people in the intelligence centers are all powerful. It seems that you already know my name?"

The old man chuckled. "Since you've already been to the intelligence center of the Capital of Horror, some information will always be known. I wonder why you've come to the intelligence center of our Divine Capital Dynasty?"

Han Fei held his head high. "That's right. I'm Chun Huangdian. As for why I'm here? Heh, although the Capital of Horror suppresses the Divine Capital Dynasty in the Infinite Mining Areas, the Divine Capital Dynasty has more accumulation. I'm here to buy some information."

"Oh?"

The old man invited Han Fei in and then sealed the place with a wave of his hand.

The old man said, "Fellow Daoist Dian, what information do you want to buy?"

Han Fei said firmly, "I need to know all the information about the Great Monarch Bloody Hand in the Infinite Mining Area in the Age of the Gods. Do you have any?"

"Great Monarch Bloody Hand?"

When the old man heard that, he recalled that there was indeed such a person. In the Age of the Gods, there were not one but dozens of Great Monarchs in the Infinite Mining Areas.

Among them, a few were special. For example, this Great Monarch Bloody Hand was extremely strong in combat, but he was arrogant by nature. He didn't have many friends or subordinates.

The old man thought of all kinds of rumors that came out of nowhere recently, saying that the ninth northern expedition was about to begin. Before, they had never known how or who spread the news.

However, when Han Fei mentioned the Great Monarch Bloody Hand today, the old man had to think more. It was in the northern mining area that Han Fei destroyed the Soul Controlling Sect.

Following that, the term "northern expedition" appeared.

Now that Han Fei mentioned the Great Monarch Bloody Hand, the old man couldn't help but wonder if the rumors of the northern expedition were related to this Great Monarch Bloody Hand. Could it be that someone was manipulating something?

Upon hearing that, the old man said, "Fellow Daoist Dian, we have intelligence on the Great Monarch Blood Hand, but it's about ancient times and may be expensive..."

"How much is it?"

Before the old man finished speaking, he was interrupted by Han Fei as if he were showing off his wealth.

As the intelligence center, the old man thought for a moment and said, "Sixty 360,000-kilometer refined stars, or items of equivalent value."

For an ordinary person, with 60 refined stars, his star path would definitely improve greatly. Before reaching the perfected Star Transformation Realm, he didn't even need to worry about resources.

However, with so many resources now, it was only enough to buy one piece of information. Most people would retreat.

However, Han Fei raised his hand and threw out thirty 360,000-kilometer refined stars, fifty 250,000-kilometer refined stars, and a bunch of weapons. "Is it enough?"

The old man couldn't help but look solemn. Good lord, this guy was really generous. In fact, the price he proposed was negotiable. He didn't expect Han Fei to take out the money without hesitation.

With one party agreeing on a price and the other paying, the deal was naturally reached. No one could say anything. The old man naturally didn't think that Han Fei had deliberately come to the intelligence center of the Divine Capital Dynasty. Otherwise, it would be a waste. No matter how rich Han Fei was, he shouldn't be so stupid.

Therefore, this deal was naturally completed.

Han Fei did want to know something about the Great Monarch Bloody Hand. Why did this once powerful Great Monarch end up severing his own hand and being sealed for countless years?

The information recorded in the report was very detailed. The first part was about the life of the Great Monarch Bloody Hand. The main information was that when the Great Monarch Bloody Hand accidentally took a magical mineral in the Infinite Mining Area when he was in the peak-level late-stage Star Transformation Realm. It was said that after taking it, his hands mutated, and his pair of bloody hands became extremely powerful. In his strongest state, he could even shake gods.

Because Han Fei paid a high enough price, the magical mineral was also described. It was said to be blood-colored, an extraordinary mineral that surpassed level-nine minerals. It was at least a treasure of the Chaotic Spiritual Treasure level.

It seemed that except for the mineral that the Great Monarch Bloody Hand obtained, there was no such mineral in the Infinite Mining Area. Of course, the Infinite Mining Area had never been fully explored, so no one knew if there were more. If someone was lucky enough to encounter such a mineral one day, he might turn into a phoenix from a chicken and soar to the sky.

The mineral was a catalyst. After the Great Monarch Bloody Hand proved Dao, he became a little withdrawn, often irritable, furious, and fierce. Later, it was speculated that it was because of the blood-colored mineral he took.

The intelligence mentioned Great Monarch Mystic Martial, who was one of the few friends of the Great Monarch Bloody Hand. However, she was only mentioned once.

This was just some information about the Great Monarch Bloody Hand's life. Han Fei wasn't very interested until he flipped to the end and found an interesting piece of information. It was said that in the Infinite Mining Area, a huge pit suddenly appeared where the ominous had appeared.

At that time, the seven Monarchs, including Great Sovereign Blood Hand, fought in the abyss of the extreme north and finally destroyed the huge pit. However, it was said that Great Monarch Mystic Martial lost a hand and searched for Great Monarch Mystic Martial with it. Then, the two Monarchs disappeared and never showed up again.

The story should have ended here.

However, another piece of news caught Han Fei's attention. More than 300,000 years after the disappearance of the two Monarchs, a gods' battle broke out in the depths of the Infinite Mining Area. It was said that a god had entered the demonic Dao and called himself a Demon God. And the Demon God at that time had once used the Bloody Hand Divine Fist, which was the exclusive fist technique of the Great Monarch Bloody Hand.

"Huh?"

Han Fei suddenly raised his head. "Did the Great Monarch Bloody Hand become a god or a demon god?"

The old man smiled and said, "I don't know about that. After all, it's too long ago to be verified. The records are just pure records. In this intelligence, there's the location where the Great Monarch Bloody Hand obtained the extraordinary mineral. Although it's deep in the Infinite Mining Area, it's also the reason why this intelligence is expensive. As for the rest, it might just be rumors."

[God of Fishing](#)

Chapter 2580: Secret Meeting

2580 Secret Meeting

However, what Han Fei valued most about this piece of information was not the location where the Great Monarch Bloody Hand discovered the Blood mineral in the past.

The fact that this position still existed showed that it wasn't a secret back then. Otherwise, it wouldn't have been your turn to find it. After such a long time, countless people must have searched for it countless times.

And the last piece of information was even more important. The last sentence of this piece of information clearly gave a specious result, which was to deliberately lead the audience to conclude that the Great Monarch Bloody Hand was a Demon God.

If the information was true, then the last battle of the gods might be the last battle of the Demon God.

Han Fei couldn't help but remember that the old turtle's original body once said to him, "The Demon God is fighting in...". He hadn't asked about this before because he didn't want to touch the secrets of the Godfiend Sea for now.

But now it seemed that he happened to know, so it was inevitable to investigate.

Therefore, Han Fei immediately asked, "Where did the gods' battle mentioned in the intelligence break out?"

The old man was a little surprised that Han Fei was interested in this. But he immediately shook his head and said, "It's hard to say. How can the battle of gods be limited to one area? Besides, the place where a divine battle erupts must be a forbidden land. If a Sky Opener goes there, he will probably die. Even Monarchs won't be willing to go there. Therefore, it's difficult to tell the exact location of this divine battle. At most, we can only give a rough location."

Han Fei asked, "Which direction? How much is the information?"

The old man said, "This is free. Its exact location should be in the west, extremely deep. However, I advise you not to touch the divine battle. In the past, there were many strong masters who tried to find the ruins of the divine battle, but none of them returned."

Han Fei frowned. "None of them returned?"

The old man nodded. "None of them returned. Therefore, the strong masters of the Hundred Alliance City rarely set foot in the depths of the west, which led to the west gradually being occupied by ferocious beasts."

There were many ferocious beasts in the west. Han Fei knew this. Logically speaking, those ferocious beasts should be the lackeys of the Emperor Sparrow. But before the Emperor Sparrow's strength reached a certain level, it was actually impossible for him to unify the ferocious beasts in the Infinite Mining Area. The ferocious beasts were naturally relatively ferocious. Who would be willing to submit to others? However, now, the Emperor Sparrow should be strong enough. This guy had swallowed a large amount of ominous energy and had successfully formed three Dao Locks. This improvement in strength was already fast enough.

If he guessed right, the Emperor Sparrow might be able to have five Dao Locks after he completely digested what he had absorbed. This was because there was no law bottleneck for the Emperor Sparrow.

Of course, it wasn't for anyone. To become a Monarch, one didn't necessarily have to impose a Dao Lock on themselves. The Dao Lock existed to prevent their Monarch tribulation from being too difficult.

If that weren't the case, one could directly prove Dao after reaching the perfected Star Transformation Realm. That way, the effect wouldn't be bad. After proving Dao, it would be very fast to make up for the loss of the Dao Locks.

Han Fei thought for a moment and stopped the topic with a smile. He said with a casual smile, "Now, our first deal is over. Why don't we talk about a second deal?"

The old man looked at Han Fei in confusion. "A second deal?"

Han Fei grinned and said, "Yes, for example, the location of the inheritance of the Great Monarch Bloody Hand. I wonder if the Divine Capital Dynasty is interested!"

Buzz!

The old man suddenly paused and then said leisurely, "So, in the past few months, it's said that the ninth northern expedition is about to begin. Was it secretly arranged by you, Fellow Daoist?"

Han Fei raised his head slightly. "So what? As long as the information I gave is accurate."

However, the old man shook his head decisively. "No."

This time, it was Han Fei's turn to be surprised. The old man said, "Our Divine Capital Dynasty is the leader of the East Sea Divine Realm. If your information involves a northern expedition, it will inevitably prompt many people to go to the northern mining areas, and there will be immeasurable casualties. If our Divine Capital Dynasty takes the lead in this matter, any accident will only ruin our reputation. Therefore, the Divine Capital Dynasty won't buy this information."

Han Fei nodded slightly. "That's a pity. I'll ask someone else."

The old man suddenly said, "I think you have mentioned this when you went to the intelligence center of the Capital of Horror, right? There's a certain chance that they will buy it, right?"

Han Fei smiled. Yes, they had already bought it! But wouldn't it be better if I could sell a second copy?

However, this was also within Han Fei's expectations. No one was a fool. What others could do might not be something the Divine Capital Dynasty could do.

After leaving the intelligence center of the Divine Capital Dynasty, Han Fei said lightly as soon as he walked out, "Sixty 360,000-kilometer refined stars. That's really expensive!"

When Han Fei said this, the old man's expression suddenly changed. This was because Han Fei didn't block the sound, but there were many people in the Hundred Alliance City. With Han Fei's words, many people would know that he had completed a deal with the Divine Capital Dynasty.

Logically speaking, this was nothing. He didn't talk about the contents of the transaction but only the price. Even if he talked about the contents of the transaction, it was information that he had spent money to buy. What was wrong with discussing it?

However, the old man had a bad feeling. It seemed that Han Fei came and left for some reason.

Shouldn't he investigate further if he couldn't sell the information? Good lord, once he heard that the Divine Capital Dynasty wasn't selling, he left without worrying that the information of the Great Monarch Bloody Hand would be leaked by the Divine Capital Dynasty.

...

The moment Han Fei walked out of the intelligence center of the Divine Capital Dynasty, in the mineral selling office of a certain non-intelligence center in the Capital of Horror, another Han Fei was sitting cross-legged at a table enjoying tea. Opposite Han Fei, who else could it be but Wushuang?

Wushuang asked, "If you're here, who's the one swaggering around outside?"

Han Fei smiled and said, "A clone! A clone of mine! Take a guess."

Wushuang smiled faintly. "I guess not. You have a lot of secrets. Okay, now everyone's attention is attracted by you outside. No one will notice this place. So, why did you specially call me to the Infinite Mining Area?"

Han Fei said, "Aren't you already doing that? Northern expedition. I'm going to launch a northern expedition."

Wushuang frowned and said, "It's not that simple, right? I heard that you created the Seven Kill Army of the human race. You were extremely high-profile inside and outside the Infinite Mining Area. You destroyed the Soul Controlling Sect and even left a message mocking them. This doesn't seem to be your style."

Han Fei grinned and said, "Oh, yes! I was happy, so I left a message. Let's talk about this northern expedition! In this northern expedition, there will definitely be great casualties, so I'll take your Capital of Horror out. But I collected 600 refined stars from you. If you believe me, you can earn ten times the money back. I want you to help me attract as many strong masters from the City of Origin and the City of Scavengers as possible, even if Zhang Beihai and An Qingzhi come personally. Of course, I know they won't come, so I can only let them send more people over."

Wushuang was a little surprised. She had always felt that Han Fei was really from the West Sea Divine Realm. However, the City of Origin and the City of Scavengers seemed to be from the Chaotic Wasteland, right? Why did Han Fei attack these two?

However, for whatever reason, Han Fei chose to take action, which meant that the two forces had come to an end.

As the current successor of the Void Temple, she would believe it even if the Chaotic Wasteland was wiped out by Han Fei, let alone dealing with two small factions. However, Han Fei set up the trap himself. This was clearly a trial. Therefore, no powerhouses from the Void Temple would participate in this trial.

Wushuang nodded. "Okay! If you want to lure a large number of strong masters from the City of Scavengers and the City of Origin in, you have to give me the bait, the Mine Demon Stream, but you can't use it. Also, it's definitely not enough to drag the two forces down with you, so we have to drag at least ten forces down with us. Anyway, the enemies of the Capital of Horror are too many to count. However, we have to jump in ourselves too. Can you guarantee that nothing will happen to our people?"

Han Fei nodded. "Okay, as long as you listen to me, nothing will happen to the people of the Capital of Horror."

Wushuang immediately smiled and said, "That's good. I'll go there personally and cooperate with you. After that, we can help you solve the City of Scavengers and the City of Origin."

Han Fei shook his head. "No, just help me keep the situation under control. I'm going to uproot these two powers with my own hands."

Wushuang thought for a moment and said, "Then I think you must be quick, because after the ninth northern expedition, there will be a lot of casualties and then many Monarchs will come. If anything big happens again, it will definitely be noticed by Monarchs. Take note of this."

Han Fei nodded. This was why he asked Wushuang to come. With her unconditional cooperation, he didn't have to worry about betrayal. It wasn't just a matter of whether they were on good terms or not. The main reason was that Wushuang and the others knew his true identity, and he had promised to help the Queen of Horror ask for her way.

After talking about serious matters, Han Fei said, "When are you going to prove Dao?"

Wushuang poured a cup of tea for Han Fei with a smile and said softly, "If everything goes well, in about a hundred years! If there's an extraordinary opportunity, it might be even faster. What about you? I haven't seen you for only a few decades, but you've already reached the perfected Star Transformation Realm. You should be preparing to prove Dao, right?"

Sizzle~ Ah~

Han Fei took a sip of tea. prove Dao? How could his path of proving Dao be so simple? However, the first step had finally begun.

Han Fei said with a smile, "If I've guessed right, it should be later than yours."
