Chapter 2641: Ambush, Monarch Slaying (2 in 1)

2641 Ambush, Monarch Slaying (2 in 1)

Li Luoluo's cultivation technique to ask for the technique of the Dao of Extreme Balance would definitely fail. This was because even if she severed all her personalities, she couldn't cut her soul body and send it into the Soul Sea to forge a soul heritage like the Demon God.

Besides, the Demon God only had two personalities, but Li Luoluo had seven personalities. Once she became a god, how could she kill her other personalities?

However, Han Fei said, "As a friend, I'll get you a way to switch from Dual Extreme Dao to Singular Extreme Dao, but not now, because I don't know the way now."

Li Luoluo snorted. "But it's not as strong as the Dual Extreme Dao."

Han Fei smiled and said, "Not necessarily. It depends on how you think of this problem. If you obtain the Time Worm and the Space Worm one day, you can immediately become a Great Monarch. Then you will have to consider how to become a god. If you take the Dao of Extreme Balance, perhaps you can only stay in the Great Monarch realm in the end. But if you take the Dao of Extreme Balance, as long as your divine path is fine, once you become a god, there won't be any obstacles."

Li Luoluo was speechless. "Don't make it sound so easy. Is becoming a god so easy? In the entire Sea Realm, do you know where there are still gods?"

Han Fei paused. "I don't know if there are gods, but I do know that in the Age of the Gods, it was because there were many gods that it was called the Age of the Gods. At that time, the Sea Realm could give birth to gods. Why can't it do it now?"

Li Luoluo looked at Han Fei in surprise. "You didn't know?"

Han Fei was puzzled. "What should I know?"

The corners of Li Luoluo's mouth twitched. "As a descendant of the Void Temple, you don't know why there are no gods now. Do you think no one can become a god?"

"Uh ~"

Han Fei was even more puzzled. He asked in surprise, "Isn't it?"

Li Luoluo rolled her eyes. "Let me ask you, why couldn't a king be born in the Yin-Yang World in the past?"

"It's naturally because of the Heavenly Dao Dharma Eye... Does the Sea Realm also have the Heavenly Dao Dharma Eye?"

Li Luoluo curled her lips. "It's not the Heavenly Dao Dharma Eye, but that after the Age of Doom, there won't be any divine tribulation in the Sea Realm."

“Huh?”

Han Fei was dumbfounded. No divine tribulation?

Han Fei hurriedly said, “If there is no divine tribulation in the Sea Realm, why not go to the Sea of Stars to get one?”

Li Luoluo: “There’s no divine tribulation in the Sea of Stars either.”

“Ah, well...”

Han Fei was dumbfounded. “Wait, I can understand there is no divine tribulation in the Sea Realm, but how can there be no Divine Tribulation in the boundless Sea of Stars?”

Li Luoluo said, “Because... Forget it, I’d better not tell you this. This is a problem that only Great Monarch-level powerhouses should consider. When you go to the Sea of Stars one day or become a Great Monarch, you will naturally know. I can only say that the problem lies in the Sea of Stars. Once the problem there is resolved and the path of divinity is paved, there will be more than one new god in the Sea Realm.”

Han Fei: “...”

Han Fei was quite curious. This was the first time he had heard that the Sea Realm couldn’t have a god, and no one had ever mentioned it to him. He had always thought that no one became a god because they were not talented enough, not smart enough, and not cultivating enough.

But now hearing Li Luoluo’s words, Han Fei was completely lost. What the hell was going on? Didn’t this mean that as long as the problem of the Sea of Stars wasn’t resolved, no matter how strong he was, he couldn’t become a god?

But Han Fei quickly realized something. No wonder Li Luoluo wanted to take the Dao of Extreme Balance. This was because when there were no gods, there were still some Great Monarchs comparable to gods.

In the age of no god, such an existence was equivalent to a god.

This was the case for the God of War and the Emperor Sparrow, and Li Luoluo wanted to be such an existence too.

And Han Fei felt that if this was the case, he was also in this category. And it turned out that there were still gods in this world, such as Eldest Senior Brother, Demon God, and the like. They were real gods, which meant that in the entire Sea Realm, or even the entire Sea of Stars, they were the peak existences, unparalleled extraordinary powerhouses.

Seeing that Han Fei was dumbfounded, Li Luoluo couldn’t help but wave her hand in front of Han Fei’s eyes. “Hey, hey! Don’t think too much. You aren’t even a Monarch, so don’t think that far. Let me tell you, it’s easy to reach the Immortal Level, but it’s difficult to become a Great Monarch. There are still many things waiting for you to do.”

Han Fei slowly came back to himself. After more than ten seconds, he smiled. “Alright, then let me become a Great Monarch first.”

“Heh! Even if you want to prove Dao, you have to ensure that you’re alive to do it. Alright, I’ve given you five cute pure-blooded ferocious beasts and pointed out the location of the God Burying Ridge to you. In return, you have to at least give me a way to change from Dual Extreme Dao to Singular Extreme Dao. As for the other benefits, I haven’t decided yet. I’ll ask you for them when I decide.”

Han Fei asked, “Do I owe you such a big favor?”

Li Luoluo said, “Sure. Don’t you know how long the ferocious beasts have guarded the Storm Ridge? Do you think anyone can enter the God Burying Ridge without my approval?”

“That’s true.”

Han Fei didn’t argue. With the methods Li Luoluo had shown, she could indeed kill him. If Li Luoluo had taken the Dao of Extreme Balance, then although her current realm hadn’t reached the Great Monarch level, her strength might have long reached that level.

If Li Luoluo hadn’t allowed it, even a Great Emperor might not have been able to enter the God Burying Ridge, let alone others. In this aspect, he really had to thank Li Luoluo.

Han Fei said, “Fine! When I come out of the Godfiend Sea and return to the Infinite Mining Area again, I’ll give you the way to switch to the Singular Extreme Dao.”

...

When Han Fei was about to leave the ferocious beasts lineage, Liu Qiansi, Wang Xiaojiu, and the others hadn’t returned.

After waiting for three days, Han Fei didn’t see anyone. He was lost for words, wondering if they were all crawling on the ground. They should have arrived after three days of crawling!

When Han Fei found these guys, Wang Xiaojiu and the others were taking Liu Qiansi to travel and play, and Wang Xiaojiu and the others were acting as guides.

After seeing Han Fei, Wang Xiaojiu and the others were all shocked, and Wang Lanlan asked in shock, “Didn’t Master Keke ask you to stay for two more days?”

Han Fei asked, “Why would she keep me here? Li Keke just wanted to have dinner with me and chat with me.”

“A chat?”

Wang Lanlan and the others couldn’t help but raise their voices. They were extremely suspicious of what Han Fei said, but they had no evidence to prove he was lying.

Han Fei said with a black face, “I told you to come back early, but you were sightseeing outside. Are you rebelling?”

Liu Qiansi looked at Wang Lanlan and the others, and Han Fei looked at them, confused. “Why the look?”

Wang Xiaojiu muttered, “Master Han Fei, Master Keke let you go so easily?”

“Yes?”

Huang Ergou asked, “Didn’t Master Keke bully you?”

Han Fei said, “Of course not. Li Keke is very obedient. How could she bully me?”

Wang Lanlan and the others looked at each other, wondering if Master Keke had changed.

Han Fei ignored them. He was in a hurry.

He said, “All of you, enter my Origin Star to cultivate. Leave the ferocious beast lineage with me this time and we’ll go to the northern mining area.”

Wang Xiaojiu exclaimed, “Again?”

Han Fei said, “I’m not asking you to fight. Be quick.”

After a while, Han Fei and Liu Qiansi embarked on the journey north. Liu Qiansi said, “I heard from them that Lady Li Keke often seems to be in a bad mood. Whenever she is in a bad mood, she will unconsciously exert some uncontrollable power.”

Han Fei touched his nose. Although he had long felt that something was wrong with Li Keke, at least he hadn’t seen her in a strange state except when he was in the Yin-Yang World.

However, he didn’t take it to heart. He just said, “Don’t talk to these lunatics.”

Liu Qiansi asked, “Then what should we do now? Wang Xiaojiu said that you had a fight with a Great Monarch in the northern mining area last time?”

Han Fei couldn’t help but raise his head slightly. “It’s a piece of cake.”

Liu Qiansi: “...”

...

Five days later.

After more than thirty abnormal encounters and battles, Han Fei and Liu Qiansi finally left the western mining area. Although they didn’t see the old turtle on this trip, they gained more from seeing the Demon God. However, working with the Demon God was more or less like dancing with wolves.

Fortunately, he had his Eldest Senior Brother to protect him this time. However, in the future, he’d better not do this kind of thing. After all, he’d better be strong enough himself.

There were two ways to go from the western mining area to the northern mining area.

One was to go directly to the northwest, and the other was to take the direction of the Hundred Alliance City. However, Li Luoluo had reminded him before he came that going directly to the northwest wasn’t a good choice. In the Infinite Mining Areas, the locations occupied by the major factions were usually the safest. The reason why no one occupied other places except these safe areas meant that there was something wrong in those places.

For example, in the northwestern mining area, there were mountains and miasma all year round. It was said that the miasma had a strong bewildering effect. There were even some special places with strong poisonous miasma. The mine demons there were mostly poisonous too. Furthermore, there were Monarch-realm mine demons there. Although it was better than the Storm Ridge, it was best not to enter it unless it was necessary.

In fact, Han Fei wasn't afraid of places with miasma, but there were Monarch-realm mine demons, so he had to be careful.

With his current bad luck, if he went in, there was a 100% chance that he would encounter Monarch-realm mine demons. He might as well go in the direction of the Hundred Alliance City. At least, although some Monarchs had come to the Hundred Alliance City, they were quite scattered. Besides, there weren't many powerful Monarchs in the Hundred Alliance City. Unless there were special circumstances, Carefree-Level cultivators wouldn't come here.

herefore, after making up his mind, Han Fei knew that although it was very likely that he would encounter the Monarchs from the Hundred Alliance City, with Liu Qiansi here, he should be able to deal with them.

Then, it was only two hours after they left the western mining area.

When Han Fei and Liu Qiansi were rushing to the edge of the Hundred Alliance City without any scruples, suddenly, Liu Qiansi shouted in a low voice, "Not good, there is an ambush."

To be honest, Han Fei didn't sense this ambush in advance. His current perception range was huge. He didn't care if it was an ambush at the level of the Sky Opening Realm.

However, the ambush escaped his perception, which was a little scary. This meant that the other party wasn't in the Sky Opening Realm at all. Otherwise, no matter how they hid, he would be able to find some clues.

Since it wasn't the Sky Opening Realm, it could only be a Monarch.

Buzz!

Almost at the same time, Han Fei sensed the descent of three laws. One was the law of strength, another was the law of the sword, and the other was a hallucinogenic law.

As the three laws were activated, a sword light instantly shot hundreds of thousands of kilometers away, stabbing at Han Fei's chest.

However, Liu Qiansi's reaction was not slow. Dozens of his hair rolled into vines and he also stabbed out.

Han Fei shouted, "No!"

Before Han Fei finished speaking, Liu Qiansi's green vines exploded and were crushed.

"How is it possible!"

Liu Qiansi was shocked. He didn't feel that this blow was very powerful! How could it shatter his attack so easily?

Han Fei said, "Stupid. Sword cultivators value killing the most. The law of sword intent is not something your hair can withstand."

Although he failed to block this sword, Liu Qiansi's blow had also depleted 50% of the opponent's strength. With this buffer time, Liu Qiansi attacked again and knocked the sword with three green vines, narrowly breaking this sword.

"Huh?"

Behind Han Fei came a fist light. The fist force was majestic, followed by white clouds. It was an explosive blow with the power of the sky. The Three Thousand Willows took the shape of a sharp knife, protecting Liu Qiansi and Han Fei.

"Puff ~"

The power of this fist mark strangely passed by the green hair, and less than 20% of the power seeped in. This power might be able to hurt other Dao Lock-level powerhouses, but it couldn't hurt Han Fei.

Han Fei didn't care about this person. Liu Qiansi fought against the Great Dao of Strength in the Stormy Quicksand Sea every day, so he was most familiar with the Great Dao of Strength.

Only the last person was Han Fei's focus. He said to Liu Qiansi, "Pay attention to your mind."

Liu Qiansi said, "My soul power is extremely high."

However, in the next moment, Liu Qiansi's soul froze as if he was brought into an illusion by some force.

"Steal!"

Han Fei took action without hesitation and stole the hallucinogenic power. After he stole the power, the Demon Purification Pot shook it off and Liu Qiansi recovered.

Han Fei quickly said, "I told you to be careful. Do you think we're still in the Storm Quicksand Sea? The mine demons there are unconscious, but none of the strong masters outside are weak."

Liu Qiansi was shocked. He didn't know why he was tricked. Were these the cultivators from the outside world? They were all so powerful! However, he couldn't understand why these Monarch-realm cultivators all went to Han Fei.

Not just Liu Qiansi, even Han Fei himself was dumbfounded.

He was confident that his whereabouts were definitely a secret. The only people who knew it were Li Luoluo, Liu Qiansi, and Wang Xiaojie, so there was really no reason for this ambush!

He didn't think Li Luoluo would reveal his whereabouts. Li Luoluo had a lot of things to count on him. Why would she reveal his whereabouts? It wouldn't do her any good.

Could it be revealed by the big-mouthed Wang Xiaojie? That was possible. After getting rid of this battle, he would definitely drag this guy out to interrogate him.

But at this moment, Liu Qiansi probably couldn't resist these people alone. Liu Qiansi was strong, but he could only resist one of the three people at most. Once they fought for a long time, the loopholes of Liu Qiansi's fighting style would inevitably be found out.

Besides, these three people didn't seem to have used their full strength. If they really fought, even if he attacked, he might not be able to escape unscathed.

At this moment, their first round of attacks was fruitless, but they were not in a hurry to attack immediately.

Originally, they just wanted to catch Han Fei off guard or cripple him first. They didn't expect this guy to have a Monarch-realm demon plant protecting him.

However, they didn't care. After a round of confrontation, they basically had a preliminary understanding of Liu Qiansi's strength.

At this moment, the three of them surrounded Han Fei and Liu Qiansi in a triangle.

Han Fei took the lead to ask, "I'm really curious. How did you know my whereabouts? Logically speaking, it's impossible."

The fist powerhouse sneered. "There are many impossible things in this world. Human Butcher, right? Hand over Puppet City and we'll stop immediately."

Han Fei said indifferently, "What if I don't?"

The man said, "Boy, you only have a Dao Prover protecting you. Do you think you can escape today?"

Han Fei said, "Since you know that I'm the master of Puppet City, you should know that I have a large number of puppets to use. If you want to take me down today, aren't you afraid of getting killed? After all, it's not easy to prove Dao."

The female Monarch with the law of hallucination chuckled. "You're quite unique. However, there are no Monarchs in your Puppet City. How can you resist us?"

Han Fei narrowed his eyes. The Demon God's words weren't accurate! Didn't he say that there would only be Sky Openers attacking him at the beginning? He had just left the settlement of the ferocious beasts.

If the ones attacking him were Monarchs from the beginning, there seemed to be no need for him to hold back. This was because Sky Openers didn't even show up.

He said telepathically to Liu Qiansi, "In a moment, prepare a powerful attack. I'll make this woman lose her consciousness for a while. Target this woman and kill her. Let's join forces and kill one first.

Liu Qiansi was surprised. "You're finally willing to help?"

Han Fei said, "I have no choice, because I found that it doesn't matter whether I attack or not."

The woman said, "In such a situation, is it really good for you two to discuss how to kill me? Human Butcher, right? I know you have the means to become stronger in the short term, but you have to think carefully. If you don't kill me, you might be the one who dies."

Han Fei was shocked. "You can hear me?"

The woman said, "Otherwise, what do you think a Monarch is?"

"Kill!"

The woman was about to mock Han Fei, when Liu Qiansi and Han Fei suddenly attacked in unison.

Han Fei activated the Great Dao and his strength soared in an instant. He punched out with the Silencing Fist. Liu Qiansi threw out tens of thousands of willow threads at the same time, instantly piercing through the void and appearing behind the woman. In terms of speed, the two of them were already very fast. Han Fei even burst out with more than 30 times the speed of light.

But even so, the woman took ten steps back, and a bell rang in her hands.

Clang, Clang, Clang.

In the next moment, Han Fei saw thousands of women appear in front of him, each of whom was ringing a bell.

And the power that Han Fei and Liu Qiansi blasted out was indeed fierce. The sword cultivator arrived with a sword. With a wave of his hand, the sea behind him surged, and the waves turned into a sword as he slashed at Han Fei.

Liu Qiansi was horrified. Thousands of strands of hair intertwined and turned into green vines to resist. Even so, countless sword beams were missed, and Han Fei was forced to retreat quickly.

In the next moment, Han Fei's expression changed drastically. It was not because of this sword, but because the fist light blasted out by another person behind him was like fireworks blooming in the starry river.

Faced with this punch, Liu Qiansi wanted to attack, but with a giggle, the woman approached at some point of time and snapped her fingers beside Liu Qiansi.

The woman and the sword cultivator restrained Liu Qiansi and came to watch the scene of Han Fei being penetrated.

Seeing that the fist mark was almost touching the back of Han Fei's hand, the two of them knew that the winner had been decided.

But at this moment, what they expected to see didn't happen.

The dazzling fist mark suddenly disappeared. Immediately afterward, the puncher suddenly froze. And Liu Qiansi, who should have been hypnotized, suddenly woke up, and a half-foot-long green spike broke out of the void.

"Pu! Pu! Pu!"

Yes, from the beginning, Han Fei's target was not the woman. The voice transmission with Liu Qiansi was also intentional. Compared to a female Monarch who had mastered the law of hallucination, both Han Fei and Liu Qiansi were more familiar with the law of strength, so their first target must be this fist-wielding man.

Han Fei spewed out two mouthfuls of essence blood in a row, bleeding from his seven orifices at the same time, and he was a little dispirited.

This couldn't be helped. At that moment, he stole the fist mark man's consciousness and fist light, as well as the woman's method of hypnotizing Liu Qiansi.

In order to stab out, Liu Qiansi was caught in the sword torrent, and in the blink of an eye, his body was covered with sword marks.

As for Han Fei, his entire arm was extremely red, and fist intent rumbled out.

"Puff ~"

Bang!

The fist-wielding man's soul-subduing godly weapon was first broken by an awl, and the second punch directly blew him up.

Originally, even if this person was blown up, he should have re-condensed his body as fast as lightning. However, there was a bloody light and golden light flickering in the void. The destructive intent attacked the minds of this woman and the sword cultivator.

"Impossible!"

The woman was horrified. How could Han Fei master the law of strength? She could clearly sense that Han Fei's fist mark not only contained the law of strength, but also contained a terrifying destructive intent. Even Han Fei's fist mark had shattered a large portion of the soul of the Monarch.

In the blink of an eye, the sword cultivator stabbed at Han Fei, and a law of sword Qi that was so sharp that Han Fei felt his blood freeze descended.

Han Fei didn't dare to move, but a layer of gravel appeared on his body.

Chi la!

This sword light was of course powerful, but the sand was like a wall, struck by this sword light, and dense cracks appeared on it.

However, the sword missed.

When the sword aura disappeared, the sand naturally dispersed and enveloped Han Fei.

He said, "It's not like I haven't killed Monarchs before. Now we're even. Are you still fighting?"

Just as Han Fei was speaking, the Million Knife Art cut through the void. The Fist Monarch, who was still hoping to be resurrected, felt that his soul had been cut into pieces. Every knife light contained power that was obliterating his soul and vitality.

"How is it possible? How can a Sky Opener cut through my soul?"

"Ahhh~"

The roars were ceaseless and only lasted for less than a second before they disappeared.

Rumble!

At that moment, a rain of blood poured down from the blood-colored sky.

This phenomenon was high in the sky and radiated billions of kilometers.

Han Fei said casually, "Let's talk now. How did you find me?"

Seeing that the woman and the sword cultivator seemed to be vigilant, Han Fei smiled. It doesn't matter if you don't tell me, but you should know that I'm a vengeful person. I'll find your base camp and wipe out your forces in one fell swoop.

God of Fishing

Chapter 2642: Bloodbath in the Northwestern Mining Area(2 in 1)

2642 Bloodbath in the Northwestern Mining Area(2 in 1)

Han Fei and Liu Qiansi killed a Monarch so quickly that the other two were shocked.

The remaining two Monarchs found it unbelievable. As far as they knew, Han Fei's combat power was actually not so strong. Back in Puppet City, he had to use the power of Puppet City to participate in the Monarch war.

Furthermore, the Yin-Yang Millstone that Han Fei used to kill the last remnant soul of the Great Monarch Bloody Hand didn't appear, nor his Dharma World or his five Dao Locks. Yet, he had killed a Dao Proving realm powerhouse. This combat power was a little terrifying.

"A rare treasure?"

The two Monarchs looked at each other. First of all, they were sure that Han Fei suffered a backlash. He must have used some special method to transform the punch just now into his own.

This demon plant wasn't simple either. The female Monarch wondered why her slumbering illusion didn't make the other party pause or hesitate at all. Could it be that this demon plant was born with the ability to resist her?

This ambush was over because of the death of a Monarch. The remaining sword cultivator and the female Monarch didn't attack again, but took a deep look at Han Fei and disappeared into the void.

Naturally, Han Fei and Liu Qiansi didn't chase after them. They would be idiots if they did. Just now, Han Fei seemed to have killed a Monarch so easily, but he stole the power of two Monarchs in an instant and suffered a backlash on the spot. His spiritual power was greatly consumed. Liu Qiansi's Soul Breaking Strike, condensed with his high soul power, seemed to have easily shattered the Monarch's soul suppressing godly weapon, but he could launch another attack of this level at most.

After all, he was a Dao Prover, but the other party was too. If he wanted to win, it depended on who paid the most.

After the two Monarchs left, Liu Qiansi suddenly said, "It's only been a few days. How did you meet so many Monarchs? Do you have so many enemies in the outside world?"

Liu Qiansi did some calculations. Since they came out of the God Burying Ridge, they had encountered countless obstacles along the way. If he was given another chance to choose, he would definitely continue to stay in the Storm Quicksand Sea. It was too dangerous outside.

Han Fei swallowed a mass of liquid divine radiance and said solemnly, "Watch your words. Those two might not have left."

Liu Qiansi was immediately alarmed and didn't dare to ask anymore.

As Han Fei expected, the two people didn't leave immediately.

The woman said, "How badly do you think the Human Butcher and the demon plant were injured?"

The sword cultivator said, "Human Butcher lost at least 30% of his combat power. The demon plant wasn't injured, but his soul power is probably extremely powerful. Otherwise, he wouldn't have been able to destroy a soul suppressing godly weapon in an instant. It's just not worth it for us to take action now. Did you see the last punch of the Human Butcher?"

The woman asked, "Yes?"

The sword cultivator said, "The power contained in that punch is too complicated. It can break the body before it becomes a law. It can block the soul power of a Monarch. It's a bit like the legendary technique of dual killing of body and soul."

"What?"

The woman couldn't help but look shocked. "The technique of dual killing of body and soul?"

The sword cultivator said, "It's completely possible. The Human Butcher's strength can't be weak. In the battle in Puppet City, it's said that he took the Blood Hand Divine Fist head-on. Just now, that punch actually defeated the soul of Silver Fist. That power even has the power to destroy the recombination of the soul. It must be the technique of dual killing of body and soul."

The woman's face was solemn. "These damn divine beasts! They wanted to use us to kill the Human Butcher, but they didn't even tell us some basic information."

The sword cultivator said, "Not necessarily. They might not know. It's just like how we didn't know that there would be a demon plant to protect him. The ferocious beasts shouldn't have Monarch-realm demon plants. It can only be said that the Human Butcher has many unknown secrets."

The woman asked, "If this is the technique of dual killing of body and soul, can it resist the power of our laws? Just now, the three of us tried to suppress them with the power of laws, but we failed."

The sword cultivator said, "It's possible. Whether it's because of this special technique or not, the Human Butcher definitely has the ability to resist the power of the law, but he can't completely withstand it. That demon plant couldn't completely resist your hallucinogenic law at first. What I'm worried about is that the treasure in Human Butcher's hand can actually forcibly transform the attack of Silver Fist into his own."

The woman asked, "Is it possible that it's a divine technique?"

The sword cultivator frowned slightly. "Divine technique? If there is such a divine technique in the world, what level is it? Forget it, it's useless to say anything now. This time, we were too naive and underestimated him. But the news of Human Butcher's appearance has already spread throughout the Hundred Alliance City. There are many people who want to attack him. Now that we have seen his strength, we might as well let those people attack him first."

...

The death of a Monarch should have caused a sensation.

Unfortunately, the place where this Monarch died was too remote, very far away from the Hundred Alliance City. The ferocious beast lineage received the news immediately. Li Luoluo just looked at the distance and stopped the agitated ferocious beasts.

She muttered to herself, "He has been targeted so quickly? Are there spies among the ferocious beasts? Impossible. I know my people. But why?"

...

Han Fei and Liu Qiansi soon recovered.

Liu Qiansi said, "Are we still going the same way?"

Han Fei shook his head. "Of course not. If my whereabouts hadn't been leaked, it wouldn't have been a big deal. But now, even Monarchs have begun to ambush me. If I still follow the original path, I'll only be courting death."

Han Fei said, "Walk along the edge of the northwestern mining area."

The northwestern mining area was full of Miasma and Poison Miasma. Han Fei didn't go deep, so in the next two days, although he accidentally entered the Miasma once and encountered a few mine demons in the Perfected Star Transformation Realm, there was no big problem.

On the third day.

Han Fei suddenly sensed the synchronization of information from Zhang Daqian.

"Here?"

Han Fei couldn't have felt worse. Zhang Daqian shouldn't be here at all. But when he sensed the synchronization of information, he immediately learned a lot of information.

For example, in the Hundred Alliance City, someone reported his whereabouts every half a day. For example, there were undercurrents surging in the Hundred Alliance City, and countless forces were forming an alliance, preparing to hunt him.

These forces were quite mixed. They were also afraid of Han Fei's revenge, so the strong masters of many forces formed teams.

Considering Han Fei's fame, these teams needed an average of a hundred people.

There was even a message that a Monarch leading a group of five or six teams was going to attack Han Fei.

However, none of the intelligence he obtained from Zhang Daqian mentioned that there was a Monarch-realm demon plant around him, nor did anyone mention that a Monarch had died under his hands.

Lastly, it was naturally where Zhang Daqian was. These people had actually entered the miasma in advance and hid. There were even array powerhouses setting up arrays, waiting for Han Fei to walk into the trap.

Han Fei couldn't have felt worse. It wasn't because someone set up an array to intercept him in advance, but that his whereabouts were updated every half a day with great accuracy. There was even a f*cking road map.

Han Fei couldn't understand it. The only person who knew his whereabouts was Liu Qiansi, but Liu Qiansi had never left him. Or maybe, there were strong masters secretly following him, but if they were only in the Dao Proving realm, he would have long discovered them. If they weren't in the Dao Proving realm, they could have taken him down directly. There was no need to do this.

Therefore, Han Fei immediately discovered the problem. Someone had some kind of rare treasure or strange ability that could accurately locate his whereabouts.

Han Fei paused with an ugly expression. It was already too late when he received the message from Zhang Daqians. This was because they were hiding in the miasma and had set up a large array, affecting the distance of the information synchronization.

In addition, their hunt this time wasn't just an ambush in one place. The other party had set up six ambushes at once, and there was a Dao Proving realm leader in each of them. From the moment Han Fei sensed the synchronization of information, he had already entered the encirclement.

And Zhang Daqian's team happened to be led by a Monarch of the Divine Demon Forest from the Central Sea Divine Realm that he had once attacked.

Han Fei was speechless. Just to kill him? The six Monarchs had joined forces and each brought two or three hundred-person teams. Zhang Daqian could sneak in because the City of Scavengers sent a four Dao Lock-level powerhouse and three perfected Star Transformation Realm powerhouses, which gave him the qualification to watch the battle.

Clearly, Zhang Daqian had long known of the danger and specially followed to inform his original body.

Unfortunately, it was still a little late.

At this moment, Han Fei looked solemn.

In six directions, the six Monarchs had been blocked from the front and back. There was even an ambush in the miasma in the northwest mining area.

"Son of a b*tch, who dare leak my information? If I don't rip off your head, I'll write my surname upside down."

At this moment, if it weren't for these six Monarchs, it was actually very easy to get rid of these people. 10,000 puppets could easily flatten these six teams.

However, the six Monarchs were so powerful that even an army of 20,000 puppets wouldn't be able to resist them. Even if he fought them head-on, the puppet army would inevitably suffer heavy losses, and the six Monarchs would just run away and then come back to surround him again. How many soldiers could he have to fight them?

Besides, it wouldn't be worth it if the puppet army of Puppet City died in such a place, so Han Fei gave up the idea of pushing through with the puppet army.

Liu Qiansi and he could only deal with three Monarchs at most, and they had to catch them off guard and launch a sneak attack.

If he fought seriously, he could probably fight a Monarch in a short time.

He might be able to win in a one-on-one fight, but other Monarchs weren't fools and wouldn't give him this chance.

In the face of the six Monarchs, even if he could launch a sneak attack, and even if he could launch a sneak attack on two Monarchs, he and Liu Qiansi couldn't resist the remaining four Monarchs.

Therefore, be it with the puppet army or fighting head-on, he was completely at a disadvantage and didn't have any advantage.

Then, there was only one result, which was to rush into the northwest mining area.

Only in this way could he truly escape the pursuit of these forces. When he was safe, he would go to the b*stard who revealed his whereabouts.

Han Fei said to Liu Qiansi via voice transmission, "Don't show any abnormalities. We were ambushed. In six directions, there are six Monarchs and more than 2,000 Perfected Star Transformation Realm cultivators. But they probably don't know of your existence. Disguise yourself as my weapon. Later, let's break through the way and enter the northwest mining area.

"Six Monarchs?"

Liu Qiansi couldn't have felt worse. There were only three Monarchs just now, but now there were twice as many. Were there so many Monarchs in the outside world?

Liu Qiansi asked, "Did you offend so many people outside?"

Han Fei asked, "Are you scared?"

Liu Qiansi said, "How is that possible! I just feel that I've met more strong masters than I've ever seen in my life after being with you for a few days."

Han Fei said, "This shows that the outside world is very interesting."

Liu Qiansi was speechless. Interesting? Cruel instead! Don't you know that you're hunted every day?

Liu Qiansi immediately turned into a rod and flew to Han Fei's hand, and Han Fei grabbed it.

About an hour later, Han Fei knew from the information synchronized with Zhang Daqian that the Monarch of the Divine Demon Forest informed them to get ready to attack.

At this time, Liu Qiansi also reminded him, "There seems to be demon plants spying on us. Shall we continue forward?"

Han Fei shook his head. "No, let's leave."

In the blink of an eye, the moment Han Fei decided to leave, he grabbed Liu Qiansi and sprinted crazily towards the northwestern mining area.

"Huh!"

The strong master from the Divine Demon Forest, who had been waiting for Han Fei to fall into the trap, was puzzled. Could it be that something went wrong and this guy found out?

He shouted, "Everyone, enter my Origin Star. Chase him."

At this time, Han Fei had obviously begun to escape. These ambushers certainly wouldn't wait stupidly. It was rare to know all the routes of this guy. If they still let him escape, it would be unforgivable.

Some Monarchs sneered. They had long been guarding against this guy running into the northwestern mining area, so they had already set an ambush there. Today, he wouldn't be able to escape.

In the previous trip to the north, Han Fei had only captured the hearts of the itinerant cultivators. The cultivators of the major forces all hated Han Fei. Besides, everyone present would envy and covet the inheritance Han Fei had obtained.

At this moment, Han Fei didn't panic. He knew that these people who ambushed him weren't stupid. Since they could ambush him here, they must be prepared for him to enter the northwest mining area.

However, you only left a Monarch in the miasma. Aren't you a little naive to think he can catch me?

Although it had only been a few days and he had encountered so many dangers, Han Fei already had a certain understanding of the bad luck given to him by the heavens.

The so-called Heavenly Dao wouldn't directly attack him. It would only change his future through some coincidence like writing a script.

However, the protagonist in the script was not under control.

At this moment, Han Fei was piercing through the void at thirty-two times the speed of light. This speed was actually comparable to some of Dao Proverbs.

However, it was only comparable.

If it were anywhere else, Han Fei would definitely not be able to escape. But in the northwestern mining area, he had been walking close to this Miasma Mine since he came here, so now that something happened, he entered the mining area very quickly.

The so-called Miasma could bewilder one's mind, distort space, make one lose direction, and produce disordered perception. This was normal. The first time he entered the miasma, the God's Prayer Beads glowed and formed a faint glow on Han Fei's body, helping him block the corrosion of the Miasma.

Han Fei put on a smile. An ultra-quality godly weapon was indeed powerful, especially an auxiliary one.

Han Fei didn't know where the Monarch hidden in the miasma was, but he didn't think that the Monarch might know where he was. After all, the Monarch was not a god. How could he know so much?

An hour later.

Han Fei passed a miasma and encountered another wave of poisonous miasma. There was a power in the miasma to suppress perception, which reduced the sensitivity of perception by almost ten times. Logically speaking, they shouldn't be able to find him directly.

However, just when he had just let down his guard, Liu Qiansi suddenly said, "Someone is here. A Monarch."

Han Fei was surprised. "How is that possible?"

Liu Qiansi said, "I saw it with my hair. The person turned into a cloud of mist, so it's not easy to be discovered."

Han Fei frowned. "Just one?"

Liu Qiansi said, "Just this one."

Han Fei gritted his teeth. Although a large-scale battle in such a situation was meaningless to him, if he could make an example out of this Monarch again, the effect would be good.

...

Yang Yunwu was a Dao Prover from the Cloud Fog Sect of the Central Sea Divine Realm. He had nothing to do with Han Fei and had never made enemies with him. Only a few of their disciples went to the northern expedition. In the end, they were saved by Han Fei.

However, he still joined the ambush. After all, who could hold back from obtaining the inheritance of a Great Monarch?

At this moment, Yang Yunwu held a sensor stone in his hand and thought to himself, This brat is really bold yet careful. He entered the Miasma at the first sign of trouble outside.

When the sensor stone was quite close to the target, the light would become brighter and brighter. Yang Yunwu grew vigilant. Although this time they were besieging a Skyn Opening Realm powerhouse, they couldn't underestimate him. This wasn't a simple Sky Opening Realm powerhouse. They had to treat him as a powerhouse on the God Roll.

On this side, Yang Yunwu quickly caught up to where Han Fei was just now, and the power in his body was already circulating.

However, he didn't expect that a saber beam would sweep over from the void.

Yang Yunwu was speechless. Did this Human Butcher misunderstand something? He was the one who was hunted. Now that he had found something wrong, he should have run away! Why did he ambush him here?

Yang Yunwu felt that Han Fei was really stupid. How dare a Sky Opener ambush him, a Dao Prover? If he wasn't crazy, he must be really bold.

Yang Yunwu instantly turned into a human and waved his hand. The Miasma seemed to be compressed and enveloped Han Fei. There was a reason why it was he who stayed in the Miasma to ambush.

The Cloud Fog Sect was best at controlling cloud mist. Whether it was miasma or poisonous miasma, it might be useful to others, but to Yang Yunwu, not only was it useless, but it might even become his weapon.

As the clouds swept over, Yang Yunwu grinned. The inheritance of a Great Monarch was right before his eyes. How could he not be excited?

Swish! Swish! Swish!

When a large piece of miasma was cut apart by the knife light, Yang Yunwu clenched his fist and the power of the law surged. The clouds were thick and sticky. As long as he was in the clouds, Yang Yunwu was confident that he could easily take down Han Fei.

"Huh ~"

But in the next moment, Yang Yunwu's face changed slightly. How could a Sky Opener break his cloud law?

A sword light emerged from the clouds and slashed at Yang Yunwu.

It was just a saber beam. Although it was very powerful and seemed to have reached the limit of the Sky Opening Realm, how could such an attack be taken seriously by Yang Yuanwu?

He pointed his finger gently, and the clouds in the sky rolled into a cloud dragon, enveloping Han Fei's knife light.

"Puff ~"

"Rip ~"

After pointing at Han Fei, Yang Yunwu was waiting for Han Fei to make a fool of himself.

However, in the next moment, his expression changed drastically. He saw that his Cloud Sea Flood Dragon had been completely penetrated by Han Fei's blow and its entire body was cut from head to tail.

"That's impossible."

Yang Yunwu finally became solemn. Although it was just a cloud dragon, it contained the power of his soul and the law of clouds. How could it be cut open by a Sky Opener? Even the top ten powerhouses on the God Roll couldn't break a law!

At this moment, a ten-thousand-foot-tall giant was clenching a destructive fist mark.

“Humph! How dare you play Dharma World with me in the clouds? Cloud Binding, Rain Twining.”

At that moment, Han Fei saw that all the clouds and mist gathered here, and the clouds were unusually moist and sticky. Because he was in the mist, this power couldn't be avoided.

The Silencing Fist was blasted out and fell into the clouds.

Yang Yunwu was shocked to see that his Cloud Mist Divine Technique was collapsing. What was the background of this Human Butcher? His physique and soul had reached a terrifying height.

Finally, Yang Yunwu didn't dare to underestimate Han Fei anymore. He waved his hand and seemed to turn into a cloud, looking like a fairy.

However, just as Yang Yunwu raised his head to the sky, thinking about how to break the Dharma Idol of the Human Butcher, his body suddenly stiffened because a force rushed into his body. Who else could it be but Liu Qiansi?

At that moment, Yang Yunwu knew that something was wrong and immediately released 200 Perfected Star Transformation Realm cultivators.

At the moment when these people appeared, Han Fei walked out of the Void Mountain, but he ignored them. With a casual wave of his hand, an army of a thousand puppets appeared in the void and surrounded the two hundred people.

Han Fei said indifferently, “I don't know who told you about my whereabouts. Didn't he tell you that I've already killed a Monarch?”

Seeing Yang Yunwu's surprised expression, Han Fei smiled and said, “They really didn't tell you? Isn't that cheating you?”

Yang Yunwu felt like a marionette. When he looked down with difficulty, he saw a cyan rod with billions of strands of hair inserted into his body.

Bang!

Liu Qiansi said, “He blew himself up, but not willingly.”

Han Fei said, “Since he likes to blow himself up, I don't mind giving him a hand.”

Liu Qiansi was surprised. “Aren't you going to sign a master-servant contract with him?”

Han Fei said, “I can't sign a contract with a humanoid. Besides, I've changed my mind. I'm not in a hurry to go to the northern mining area on this trip.”

[God of Fishing](#)

Chapter 2643: One Man Vs. Five Monarchs (2 in 1)

2643 One Man Vs. Five Monarchs (2 in 1)

Han Fei discovered that the curse of the heavens and bad luck couldn't be avoided.

If he took a normal path, there would be people coming out to intercept him. If he entered the northwest mining area, he would definitely encounter Monarch-realm mine demons and might fall into some special miasma.

Even though he had never shown up, his whereabouts had been leaked and updated in real time. This made Han Fei speechless. What methods did the other party have?

If a carefree-level or even an immortal-level powerhouse wanted to deal with him, it wouldn't have had to be so troublesome.

It was possible if it was an ultra-quality godly weapon, or even a Spiritual Treasure of Heaven and Earth or a Chaotic Spiritual Treasure. For example, the Vast Ocean Navigator had such an unreasonable directional ability.

At first, Han Fei thought that just like the Nine Palace Luck Ruler, the Vast Ocean Navigator would become less and less useful as his strength increased. But in fact, it was not the case. Not long after he reached the Sky Opening Realm, the Nine Palace Luck Ruler was almost useless, but the Vast Ocean Navigator could even point out the location of a god. The quality difference between the two was huge.

And this functional device that could detect his whereabouts was probably far more powerful than the Vast Ocean Navigator. After all, the Vast Ocean Navigator could only be used three times a day.

Although he was pressed for time, Han Fei still wanted to take a look at Yang Yunwu's memories. He wanted to see who leaked his whereabouts.

Because the memories were very close, Han Fei found them easily.

However, he saw a golden turtle that drew a road map of Han Fei's operation without any help. Then, it gave a bead to each of Yang Yunwu and the others. The turtle said, "I've planted a mark on the Human Butcher. As long as he approaches, the bead will shine and flash. Even if he hides in his Origin Star, this connection won't be severed. If he really enters his Origin Star, this will be your chance."

Upon reading this, Han Fei felt that his blood was freezing. When had he ever offended such a turtle? This was not a turtle but a prophet!

Also, Han Fei was still scared. A moment ago, he really wanted to hide in his Origin Star for a while. Now it seemed that he was lucky that he didn't have time to think carefully. Otherwise, if he really entered his Origin Star, he would be doomed.

After being delayed for nearly ten seconds, Han Fei knew that he had to go. There were Monarchs in the other directions, who must be coming to him at full speed.

However, before leaving, Han Fei had to send Yang Yunwu to hell.

Rumble!

In the five directions, the five Monarchs' faces suddenly changed. Such a violent astronomical phenomenon could be sensed even across billions of kilometers of sky. This was the sign of the death of a Monarch!

Furthermore, their perception was even sharper. In an extremely short period of time, there was a Great Dao crack on the left and one on the right, indicating that every time a Heavenly Dao crack faintly appeared, it meant that a Perfected Star Transformation Realm cultivator had died.

On Han Fei's side, the puppet army almost crushed the Perfected Star Transformation Realm cultivators. It wasn't that they were stronger in individual combat, but there were too many of them. After all, the thousand puppet army was all in the Perfected Star Transformation Realm. Furthermore, puppets didn't feel tired or in pain but only knew how to fight.

Unfortunately, the time was too short. Even with Liu Qiansi's help, Han Fei couldn't kill all the Perfected Star Transformation Realm cultivators in just ten seconds. He only killed 118 people, and only three of the puppets died.

After all, when these cultivators saw that a Monarch was captured, they knew that something was wrong and their fighting intent was greatly reduced. They just rushed forward blindly, trying to escape.

Han Fei didn't care if these Perfected Star Transformation Realm cultivators were all dead or not. He recalled the puppet army and ran.

While running, Han Fei took out the Vast Ocean Navigator and asked silently, "Where is the mark on my body?"

Han Fei was shocked when the Vast Ocean Navigator pointed. This was because the Vast Ocean Navigator was not pointing at a certain part of his body, but at something he had never expected. It was the God's Prayer Bead.

"God's Prayer Bead?"

Han Fei was lost for a moment. How could it be the God's Prayer Bead? He got this thing from the Ruins of God, and the guy who gave it to him called himself a god. Although he guessed that that guy was definitely not a god, he would never have thought that this was the reason why he was besieged.

"A divine beast?"

Han Fei became solemn. He would be a fool if he still couldn't figure it out at this moment. The God's Prayer Bead had only passed through the hands of two people, one was the guy he released back then, and the other was him.

Now, someone had used this to locate him. It could only be the guy he had released back then.

And the Emperor Sparrow had said that the guy suppressed back then had the aura of a divine beast. It seemed that this judgment was very correct.

So, the golden turtle he saw in Yang Yunwu's memory must be him, and now that he had returned to the lineage of divine beasts, he took the opportunity to attack him.

Previously, Li Luoluo had reminded him that because of the northern expedition, the appearance of the Emperor Sparrow made the divine beast lineage pay special attention to the movements of the ferocious beasts.

As for this turtle, it must have guessed his identity with the God's Prayer Bead and learned that he had appeared among the ferocious beasts. That was why he wanted to kill him with a borrowed knife.

"The lineage of divine beasts? I didn't want to be your enemy. I even let your people go during the northern expedition, but in the end, you want to kill me, you b*stards."

Sure enough, there was a reason why this turtle gave him an ultra-quality godly weapon like the God's Prayer Bead. Perhaps he had known about the existence of the Emperor Sparrow from the beginning, so he gave him the God's Prayer Bead in order to be of use in the future. Otherwise, it was impossible to explain why the turtle gave him an ultra-quality godly weapon like the God's Prayer Bead.

"Sure enough, there is no free lunch in the world."

However, at this moment, the God's Prayer Bead had been refined by him. He didn't know if the turtle could locate the God's Prayer Bead itself or him after he refined the God's Prayer Bead.

The turtle said that even if he hid in his Origin Star, he would still be detected. This meant that even if he put away the God's Prayer Bead, it might not help.

The only way was to reforge the God's Prayer Bead, modify it with the Demon Purification Pot, and refine it again. In this way, maybe he could get rid of this state of being tracked.

However, he didn't have the time to complete this series of operations now.

Many thoughts flashed through Han Fei's mind in the blink of an eye. If such an ambush was inevitable, why not go all out?

In any case, he couldn't avoid misfortune. Since he couldn't avoid it, he might as well kill his way out and make these people afraid of him.

Besides, since he already knew how he was located, he had regained the initiative.

With a thought from Han Fei, the Vast Ocean Navigator pointed again. This time, it pointed to the northwestern mining area, a desperate place.

For him, it was a desperate place, but for those Monarchs, it was at least a dangerous place.

The Vast Ocean Navigator immediately turned and pointed to the depths of the northwestern mining area, and Han Fei rushed in that direction without hesitation.

Since it was the bad luck given by the Heavenly Dao, it must be very dangerous for him to walk into the mining area. But at this moment, who cared?

...

Soon, the five Monarchs arrived at the place where Yang Yunwu died one after another, less than a hundred seconds after Han Fei escaped.

Thunder was still rumbling in the sky.

Someone said, "Yang Yunwu is dead."

Someone said solemnly, "The strong master from the Cloud Fog Sect died just like that. It seems that the power of the Human Butcher can't be measured with the standard of the Sky Opening Realm. He's not a Monarch, but he's even stronger than a Monarch."

Someone said, "Cut the crap. Let's go! Although he can intercept Yang Yunwu, it has taken him some time. No matter how fast he is, he can't be faster than us, so it's only a matter of time before we catch up with him."

Another person held a bead in his hand and said, "It seems that he is going to the depths of the northwestern mining area. Idiot, there will only be more obstacles in the depths of the mining area. Does he think he can get rid of us by running around in this Miasma?"

The five Monarchs attacked at the same time, so they were naturally not afraid. Han Fei could kill Yang Yunwu. They felt that he must have used the power of Puppet City or some other means.

However, they all felt that it was too unbelievable that a Sky Opener could kill a Monarch. Even if Han Fei won by a fluke, it was impossible for him to have the strength to fight the five of them. Otherwise, Han Fei didn't need to run. He just needed to wait for them to come and fight a good battle.

Therefore, when the five of them saw Han Fei running to the depths of the northwestern mining area, they were not anxious at all. To be honest, in such a short time, they didn't think Han Fei could run far.

If he didn't run for days and nights, he might not meet a mine demon that could threaten a Monarch.

However, they didn't know that Han Fei had bad luck at this moment. His existence would attract bad luck, so he didn't need to go deep into the western mining area at all. As long as he entered the northwestern mining area, he would be in danger.

As Han Fei expected, he only ran for about two hundred seconds before he encountered a large mass of poisonous miasma. In this poisonous miasma, a centipede in the Dao Proving realm covered in a bright red carapace attacked Han Fei.

However, Han Fei simply ignored this guy. He still used the God's Prayer Bead, and his body was quickly absorbing and adapting to the poisonous miasma here.

As for the centipede's attack, with Liu Qiansi temporarily resisting it, he just needed to rush forward. Unless he encountered another Monarch-realm mine demon in a short period of time, it was impossible to slow down his speed of escape.

However, Han Fei underestimated his bad luck. Before he rushed out of this poisonous miasma area, he encountered another spotted spider with black shells and white spots. It didn't look like a good thing.

"Chiliu!"

As soon as the spider spewed out, an invisible silk net covered him from the seawater.

Han Fei slashed backhand. The knife light contained the true meaning of Ragnarok, so the net was broken with one slash, which made Han Fei take a long breath of relief. As expected of a divine technique that could only be used by people cultivating the Dao of Extreme Balance. With this divine technique, he would have the means to slay a Monarch.

At this moment, under the one-on-one battle, Han Fei was no longer afraid of the Dao Prover. This was a great improvement.

However, when Han Fei was about to run, he found that he was still entangled, because he found that the seawater had turned into threads and was about to solidify into a cocoon.

“The Drawing Technique.”

Han Fei had the Draw Technique, and Liu Qiansi had the Silk Thread Soul Stab. This spider restrained Han Fei, and Liu Qiansi directly pierced his soul. Han Fei took the opportunity to unfold the threads that were holding him and cut open the silk cocoon in front of him.

At that moment, Han Fei grabbed Liu Qiansi and ran. Now was not the time to waste. The longer he was intercepted, the more danger he would be in. Once the five Monarchs behind caught up to him, he would be in danger even if he activated all five of his Dao Lock and had the help of Liu Qiansi.

Besides, the five Dao Locks had to be used at the most critical moment. After the third use, he would have to prove Dao. How could he use it here?

After another few seconds, Han Fei continued to rush deeper.

Liu Qiansi said, “Well, why don’t we change direction? I feel that wherever you run, Monarch Mine Demons will appear. Did the Demon God curse you?”

At this time, Liu Qiansi also noticed Han Fei’s abnormality.

When he left the God Burying Ridge, he found it strange. He hadn’t encountered any Monarch-realm mine demons before, but several of them had appeared at once at that time.

In the Storm Quicksand Sea, with his ability, even if he encountered a group of mine demons, he could avoid most of them, but at that time, he encountered many waves of mine demons in a row.

He was ambushed after he left the ferocious beasts’ settlement, but only three days later, he was ambushed again. Now that he had just entered the northwestern mining area, he had met two Monarch-realm mine demons in a row. This made him feel that it was a miracle that Han Fei could survive until now.

Han Fei said, “It’s the same in any direction. It doesn’t matter. What matters is that we’re seeking survival now. The more dangerous a place is, the safer it is for us.”

“What kind of logic is this?”

Liu Qiansi felt that Han Fei was out of his mind. Are these centipedes and spiders safe? These are two Dao Proving-Level mine demons! Their speed is no slower than yours.

Han Fei didn’t slow down. Only Liu Qiansi dealt with the centipede and the spider for the time being.

Another two hundred seconds later, after encountering more than thirty waves of ordinary peak-level late-stage Star Transformation Realm and perfected Star Transformation Realm mine demons, Han Fei finally encountered the first gregarious mine demons in the northwestern mining area. This was a

species of mine demon called the Great Halberd Crab. They had a hard carapace, one pincer was like a halberd, used to wave, and the other pincer was like a spear, which could throw and attack.

Liu Qiansi screamed, "Not good, let's take a detour. I hate this kind of mine demon the most. I hate all mine demons with hard carapaces."

Han Fei grinned. "That's exactly what we're waiting for."

Han Fei bet that he couldn't reach the forbidden place at all, but he didn't really need to go there. With his bad luck, the strongest people he had attracted so far were only Dao Provers. However, Dao Provers couldn't be everywhere. It was a little unrealistic for five, six, or even eight of them to appear in two hours.

Otherwise, it was because the Heavenly Dao was disgusting and would do anything to kill him.

Besides, theoretically speaking, he hadn't gone far into the northwestern mining area. It was already unbelievable enough that he had encountered two Dao Proving-Level mine demons. It couldn't be that all the Monarchs attacked him, right?

At this moment, Han Fei finally got what he wanted.

As the saying went, there was chaos, there was a chance. As long as the purpose was clear, there was a way to turn danger into safety.

The Great Halberd Crabs were slowly marching, so it was a dense mass. Han Fei didn't need to release much perception to know that the number was definitely not small, at least tens of thousands.

Logically speaking, it was impossible for him to encounter so many powerful crabs at this depth of this mining area. The answer could only be a coincidence. These crabs were marching and migrating. He happened to enter the northwest mining area and meet them.

The moment they saw Han Fei, these Great Halberd Crabs separated into more than a thousand crabs and raised their halberds and spears, ready to fight.

Because there were Monarch-realm centipedes and spiders behind, Han Fei was forced to attack the migrating Great Halberd Crabs. This was a manifestation of bad luck. Gregarious mine demons were also very difficult to deal with.

In fact, these Great Halberd Crabs didn't care if they could stop Han Fei, as long as they could force him into a dilemma.

Han Fei took a closer look. Nearly half of these crabs were in the peak-level late-stage Star Transformation Realm, and a small number were in the Perfected Star Transformation Realm. For the time being, no Monarch-realm crabs appeared.

At this moment, Han Fei took a deep breath. He could create a desperate situation himself and then have a narrow escape. He said to Liu Qiansi, "You run first. Find a random corner and wait for me hundreds of millions of kilometers away."

With that, Han Fei threw Liu Qiansi out.

Liu Qiansi was slightly shocked. He thought that at such a moment, Han Fei would never be able to leave him. According to Han Fei's personality, he would only occasionally attack when he was defeated by others.

Liu Qiansi asked, "Are you sure?"

Han Fei grinned. "It's just an ambush. Just be prepared to take action at any time."

Liu Qiansi thought to himself, Sure enough, when was this guy so nice? He asked me to hide so that I can catch his enemies off guard.

However, he didn't know how Han Fei could survive the attacks of so many Monarchs.

Could he survive with this bunch of crabs? Come on, there was no Monarch here. No matter how powerful these crabs were, they were useless!

"Go."

Han Fei shouted and urged Liu Qiansi to leave, because those Great Halberd Crabs had already begun to move. One spear shadow after another, there were as many as 20,000 of them.

Faced with such a storm-like blow, Han Fei wouldn't stupidly go up to fight head-on. The Star Sea Mystic Sand floated outside his body, and in this environment where spear beams rained down, he activated the Void Descending Art. At the moment the technique was activated, his original body and clone switched, and Han Fei appeared above these crabs.

"Fist of Destruction, explode."

Rumble!

The strongest punch of the Star Fist Technique was launched when these crabs were unprepared, directly collapsing part of the seabed. As many as sixty peak-level late-stage Star Transformation Realm crabs died by Han Fei's hand.

Yes, Han Fei chose the peak-level late-stage Star Transformation Realm crabs to attack, but even so, he only killed more than sixty of them, which showed how strong the defense power of this halberd crab was.

After the punch, Han Fei didn't stop. Instead, he grabbed three crabs in the Perfected Star Transformation Realm with the Void Lines. The three halberd crabs slashed at Han Fei.

When the three halberd crabs rushed out to chase Han Fei, the entire crab swarm went crazy.

But Han Fei's speed was much faster. He reversed time and instantly returned to where he had just come from before turning around and running.

Yes, Han Fei had a very strong feeling. This feeling told him that if the five Monarchs arrived, he would definitely be no match for them.

But it was a chaotic battle! They didn't have to be evenly matched.

With the God's Prayer Bead and the golden turtle, no matter where he ran, he would be discovered. As long as his whereabouts were exposed, he would be hunted all the way.

However, seeing Han Fei return, the happiest was the Monarch-realm centipede and spider that were chasing him.

But this wasn't important. Han Fei activated his Great Dao and even opened the Invincible Eyes between his eyebrows.

He said indifferently, "From the beginning, the bad luck imposed on me by the Heavenly Dao is the hunting of Dao Provers. If I keep running, I will only be chased. Today, I won't run."

The speed of the five Monarchs was very fast. Suddenly, their hearts stirred. "He is getting closer and closer. He must have encountered difficulties that made it difficult for him to move forward."

This was the only reason that everyone could think of. This was the most likely reason.

Therefore, the five people immediately slowed down and released nearly 2,000 Perfected Star Transformation Realm cultivators. These Perfected Star Transformation Realm powerhouses were all good at arrays. Their task was to seize some time to stop Han Fei's puppet army.

In less than fifty seconds, the mist surging in the miasma was shaking. One of the Monarchs said, "I feel that something is wrong. Everyone, you have to be careful when facing the Human Butcher. After all, he has the means to slay a Monarch."

In the next moment, Han Fei's figure appeared in their perception. However, a centipede and a spider appeared with him. They were both at the Dao Proving Level. This made everyone's expression change. How f*cking troublesome is this guy! How long has it been since he entered the northwestern mining area? And he has already encountered two Dao Proving Level mine demons?

Not just them, even Han Fei couldn't figure it out, but he didn't care.

"Emperor Sparrow, fuse."

Swish ~

At that moment, Han Fei had a pair of black wings on his back, the third eye between his eyebrows opened, and his body was shining with golden light. Clearly, he had pushed his strength to its peak.

Among the five Monarchs, someone snorted coldly. "Idiot, you think you can fight five Monarchs alone?"

The other person smiled contemptuously. "Not to mention that only two of these mine demons are at the Dao Proving Level, even if there are five, they are nothing."

One of the Monarchs shouted in a low voice, "Everyone, stop these crabs."

After that, the five of them stepped out of the void at the same time. If they captured Han Fei, the inheritance of a Great Monarch would belong to them. In the end, whoever obtained it first was the winner.

However, at the moment when the five powerhouses were about to attack, Han Fei suddenly grinned. "Frenzying Eye."

The Monarch closest to Han Fei suddenly froze, and his eyes were cloudy. Han Fei continued, "Steal, consciousness."

At the moment when Han Fei stole this person's consciousness, a pearl flew out from between this person's eyebrows, shaking nonstop. Han Fei's seven orifices were bleeding, and he seemed to be struggling.

However, Han Fei said unhurriedly, "Steal again."

In the next moment, the pearl miraculously disappeared and appeared in Han Fei's palm.

At this moment, the other four Monarchs attacked at the same time, and four laws descended on Han Fei. At the same time, one of them pressed his palm on Han Fei's back, and another pressed on Han Fei's head.

Another person split his longsword into tens of thousands of pieces, as if he were going to kill Han Fei.

The last person put his hands together, creating a space of strength that devoured Han Fei.

"Puff! Puff! Puff!"

At this moment, the four Monarchs discovered that Han Fei had been beaten into a white mist without any dregs left.

But at this moment, there was a roar behind him. Another Han Fei appeared in front of the dazed Monarch and his fist mark had already landed on this person's head.

Rumble!

With one punch, the Monarch exploded into countless pieces.

However, to Han Fei's surprise, the other party wasn't blown to pieces by him, even though he had actually reached the limit of the Dual Extreme Dao in the Sky Opening Realm.

The Monarch's fragments bulged and extinguished in the void, but they couldn't condense the soul and regather their body.

The four Monarchs were all shocked.

Someone was shocked. "How is it possible? Is this... the technique of dual killing of body and soul?"

[God of Fishing](#)

Chapter 2644: An Immortal-Level Demon (2 in 1)

2644 An Immortal-Level Demon (2 in 1)

Han Fei finally realized that the strength of a Monarch wasn't the body and soul. What was important was the circulation of the true meaning of the law.

When he killed this person, it was even easier than last time. This was because from the moment he appeared, he had already targeted him. From the Frenzying Eye, to the Void Stealing Technique, to stealing his soul suppressing godly weapon, everything happened in a flash, giving this person no time to react.

In addition, the characteristics of the Ragnarok could destroy and shatter laws and Great Daos. Coupled with the lingering killing intent of the Dao of Slaughter God, it hindered the condensation of the Monarch's body and soul.

Therefore, he was able to achieve a real killing blow.

Therefore, in this case, the difference between a Monarch and a perfected Star Transformation Realm cultivator with five Dao Locks wasn't very big.

Han Fei's kill was stunning enough. The other four Monarchs finally understood how Yang Yunwu died. Those who could become Monarchs had good eyesight. Although the technique of dual killing of body and soul was rare in the world, it was still recognized at a glance. Besides, they had noticed that the dead Monarch was in a trance before he died and had seen Han Fei's strange method of stealing the soul suppressing godly weapon, they realized that Han Fei had the ability to instantly snatch other people's consciousness and weapons.

The four of them became solemn.

One of them said, "Don't underestimate this guy. His soul power should be abnormally powerful to be able to trick a Dao Proving realm cultivator. Furthermore, this is the rare technique of dual killing of body and soul. Once we really fall into a passive state, the consequences will be unimaginable."

Someone said, "How did he take Old Qi's soul suppressing godly weapon? If the soul suppressing godly weapon hadn't disappeared, he should have been able to block this blow, and then he wouldn't have died."

Swish! Swish! Swish!

Without giving them much time to consider, the centipede and the spider had already rushed over. After all, they were mine demons. They would attack all foreign species that were not mine demons.

It was the same for Han Fei or these Monarchs.

Therefore, it was impossible for these people to ignore the attacks of these two Dao Proving-Level mine demons.

One of them said, "Let's split up. Master Hua, Wen Busheng, you take care of these two mine demons. Chen Bai and I will deal with the Human Butcher."

No one had any objections to this distribution, although they didn't know how Han Fei provoked two Dao Proving-Level mine demons in the northwestern mining area.

However, since they had been lured over, they must be involved in this chaotic battle.

However, the army of crabs that followed them from a distance was ignored. For them, the mine demons could only give them some trouble at most, and it was almost impossible to make up for the gap in strength with human tide tactics.

Han Fei was relieved to see that the other party sent two Monarchs to deal with the centipede and the spider. As long as these two mine demons appeared, they would have to deal with them. These Monarchs figured this out from the beginning and took the initiative to send two Monarchs to deal with these two mine demons.

As for the remaining two people on the other side, they didn't panic at all when facing him, even though he had just killed a Dao Prover.

At this time, Han Fei was thinking that he probably couldn't beat two Monarchs at the same time. Then he heard a Monarch on the opposite side say, "Human Butcher, do you really think you can contend with Monarchs just because you luckily killed a Monarch? Now I'll give you a chance. Hand over Puppet City, and I may let you go."

Han Fei sneered. "Idiot."

Of course, Han Fei knew that the other party was just talking nonsense. Not to mention handing over Puppet City, even if he offered ten puppet cities, these people wouldn't let him off.

However, he didn't intend to let them go either. They attacked him over and over again. Did they really think he was a pushover?

So what if they were Monarchs? If it were before he learned the Ragnarok, his methods to deal with Monarchs were indeed limited, and he couldn't kill even the weakest Monarch.

However, the Ragnarok gave him the possibility of crossing realms to slay a Monarch.

Therefore, when he found that he was completely targeted and had nowhere to escape, he needed a victory, a victory that amazed and shocked everyone.

One, two, three Dao Locks appeared on Han Fei's body.

Ka ka ka ~

The three Dao Locks cracked, and Han Fei felt an even more magnificent power bursting out of his body. At this moment, Han Fei's combat power when he hadn't even activated his Great Dao was already comparable to his full combat power when he activated his Great Dao in the Divine Capital Dynasty.

As soon as the three Dao Locks were opened, his soul power and strength both exceeded 800,000 points. Han Fei didn't hide his Invincible Eyes at all. He didn't mind being seen again.

Activating the Great Dao, Han Fei's body was like a diamond, his blood was surging like a tidal wave, and his soul was clear. With the enhancement of six times his combat power, his strength exceeded 5 million waves, and so was his soul.

Swish ~

Han Fei moved and punched out with the Silencing Fist. He had never thought that he could win by trickery. The Monarchs had the power of laws, and he had the Ragnarok. If the Ragnarok was regarded as a power of laws, then he could be considered a Monarch now. The gap in the realm had been quickly smoothed out. Now it was just a competition of strength.

The two Monarchs changed their expressions and attacked him head-on. They knew that Han Fei had other means, but it didn't mean that this method could really close the gap in the realm.

Therefore, when they saw Han Fei's punch, a wave rose under one of their feet and a huge tide swept up, blocking in front of them.

"The law of water?"

This wave was not ordinary. This wave was extremely thick, giving Han Fei the illusion that it was the softened product of a steel torrent and no longer looked like water.

However, Han Fei scoffed at this. He pounced on him and with a bang, the sound was not loud, but it seemed to be cutting.

In the next moment, a hole was punched through the middle of the vortex wave.

"Huh ~"

The two Monarchs were both surprised. They found it a little strange. Not only did Han Fei have the technique of dual killing of body and soul, but why could his combat skills also penetrate the power of the law?

The essential difference between the Sky Opening Realm and the Monarch Realm was the law. Without the law, the only difference between the Sky Opening Realm and the Monarch Realm was the difference in basic strength.

However, now they had the illusion that they were fighting a powerhouse of the same level. This was because Han Fei could easily break the power of the law, which made their advantage as a Monarch disappear.

Therefore, after Han Fei broke through the barrier of the heavy water, the two of them looked at each other and regarded Han Fei as an opponent of the same realm for the first time.

Another person sneered. Suddenly, his speed soared, far exceeding 30 times the speed of light. In an instant, he slashed out tens of thousands of swords, trying to shatter Han Fei's Fist of Destruction.

However, when the ten thousand swords failed to completely shatter the Fist of Destruction, the man's face changed and he shouted in a low voice, "It's a top divine technique, Chen Bai..."

The Monarch named Chen Bai roared, and the law of water condensed into a spear light in his chest and abdomen. He shouted, "Brat, you are not the only one who has a divine technique. Divine technique, Waterfall Spear."

At the moment when the spear light appeared, Han Fei suddenly grinned. "Steal."

In the blink of an eye, the Waterfall Spear that had just been condensed suddenly disappeared. In the next moment, it appeared in front of Han Fei and attacked the other Monarch.

The man's face changed greatly. It could even steal an attack? What kind of technique was that?

Han Fei had been waiting for this moment. He was going to use a divine technique in exchange for a divine technique to steal the strongest attack of one of the opponents. The Fist of Destruction was still launched, and the Waterfall Spear appeared, which was equivalent to two divine techniques. The other person had to take out a giant shield to block it.

At this moment, Han Fei stole Chen Bai's consciousness and forced a Sapphire Mirror, which was his soul suppressing godly weapon, to leave his body.

"Steal again."

In the next moment, the green jade mirror appeared on Han Fei's side. Chen Bai had lost his soul suppressing godly weapon.

"Not good!"

Chen Bai's face changed drastically, and the other person looked horrified. Was he going to repeat the scene just now? The sword cultivator condensed a sky-reaching sword shadow in the air and thrust it at Han Fei.

Han Fei didn't care. The Star Sea Mystic Sand intertwined in the air and swept towards the sword shadow.

Seeing this, Chen Bai knew that he had lost this round, so he wanted to retreat. His figure turned into water, and a mist surrounded the law of water, preparing to escape.

But in the next moment, Han Fei spat out the Extreme Cold Pearl and shouted, "Freeze."

In the next moment, the power of the Carefree Level burst out, and the mist was frozen before it could escape.

Boom!

The Fist of Destruction had arrived and landed in the mist, which was crushed into nothingness in the blink of an eye.

Rumble!

In the sky, cracks of the Great Dao radiated billions of kilometers, indicating the death of another Monarch.

"Hiss ~"

From a distance, Liu Qiansi looked at the sky in horror. Two consecutive meteorological phenomena had occurred. He knew that this was definitely not Han Fei's death, but he didn't know if a mine demon or an enemy chasing Han Fei had died.

But in any case, at this moment, Liu Qiansi only felt that the outside world was too dangerous. How many days had it been since he came out? Four Monarchs had already died. Were the Monarchs outside so worthless?

At this moment, on the battlefield, the three Monarchs were all shocked. How f*cking long had it been? In just dozens of seconds, two Monarchs had died in a row, who were at the same level as them.

Earlier, a Monarch was ambushed and killed by Han Fei. That might be because he was careless, but now, they were clearly fighting head-on. Why was Chen Bai killed?

Half of the six Monarchs had died not long after the battle began. They couldn't imagine what would happen if the battle dragged on.

They didn't mind Yang Yunwu's death, because it was normal to be tricked in a one-on-one battle. Later, Han Fei came with two mine demons in the Dao Proving realm and killed another by surprise. This could be attributed to Han Fei's strange methods. But now Chen Bai was dead. No matter how they explained it, it was difficult to express their panic at the moment.

They didn't know if Han Fei still had any trump cards, but at least now they had confirmed one thing, that was, Han Fei had too many means, all of which were very strange and hard to resist.

At this moment, Han Fei grinned at the three of them and said, "Do you still want to fight?"

Han Fei put away the ownerless mirror, looking calm and had no intention of escaping. He simply took out a mass of liquid divine light and swallowed it.

He had consumed a lot of energy in this battle. He had stolen something from two Monarchs in a row. The backlash he suffered might not be obvious to others, but he knew it.

Of course, now was not the time for him to be desperate. He had already used up most of his trump cards. If he continued to fight, he estimated that with Liu Qiansi's help, he should be able to kill another one. Therefore, Han Fei was not in a hurry. He just looked at the battlefield calmly.

The remaining three Monarchs looked at each other in the air. Their meaning was clear. They didn't want to continue this battle. If Han Fei wanted to escape, this was the right time. There was no reason for him to stay here.

Since he didn't leave, no matter what, the other party must still have trump cards in his hand. That was why he didn't leave.

However, the other party didn't choose to attack either, which meant that Han Fei wasn't confident of killing the three of them at once, so he asked this question.

Seeing that no one answered, Han Fei chuckled. "If you don't fight, I'm leaving. Right, today may be the best opportunity for you to kill me. If you miss it, it may be difficult for you to kill me again."

"Everyone, enter my Origin Star."

At this time, the Monarch who was fighting the centipede with a giant axe spoke. It seemed that he was not going to fight anymore.

Han Fei, on the other hand, looked deeply at the surging tide of crabs and said silently, "Eye of Disaster."

After activating the Eyes of Disaster, Han Fei grinned. "Fine, I'll spare your lives today. However, next time, no one can save you."

With that, Han Fei walked away. He could enter the Origin Stars of the three powerhouses he had killed with their bodies and souls, so he wasn't in a hurry. Now that he had been locked down, he didn't have the time to check them for the time being.

Now, his top priority was to run.

The Eye of Disaster was the only uncontrollable supernatural power of the Emperor Sparrow. Once it was activated, the consequences were unpredictable.

Because Zhang Daqian was also here, Han Fei didn't use it immediately because he was afraid that he wouldn't be able to escape after using it.

Now, the axe guy wanted to collect everyone into his Origin Star. Han Fei was certainly relieved. The Monarchs were dead, but their Origin Stars were still there. As long as they were still there, he could find Zhang Daqian.

Seeing Han Fei leave right under their noses, the three Monarchs all looked awful. And among the army that was fighting the crab army, Zhang Daqian immediately got his original body's order and got into Master Hua's Origin Star.

In the following period of time, Han Fei was really running without any rest. God knew what would happen after the Eye of Disaster descended. Of course, he had to run far away. There was no reason for him to use the Eye of Disaster on others, but disaster would befall him. Even the heavens couldn't do that, right?

Ten seconds after Han Fei ran away, the remaining three Monarchs didn't leave directly. Han Fei ran away, but they couldn't come back empty-handed. Fortunately, there were still two Dao Proving realm mine demons here, as well as this crab tide. If they took them all down, they could vent their anger and make up for their losses.

As for the deaths of Yang Yunwu, Chen Bai, and the others, there was nothing they could do. They could only blame their bad luck.

However, ten seconds after Han Fei left, the ground suddenly began to tremble, and a saber beam cut across the sky.

The three of them were shocked. Master Hua exclaimed, "How is it possible? Is this an immortal-level powerhouse? How can there be an immortal-level powerhouse here?"

Another person said, "It's a mine demon, an immortal-level mine demon. How is it possible? This is only the periphery of the northwest mining area. How can there be an immortal-level mine demon here?"

The three of them panicked. It was not that there were no immortal-level mine demons in the Infinite Mining Area, but they definitely shouldn't appear here. Even if they ran for three days and three nights in the northwest mining area, they probably wouldn't encounter a mine demon of this level.

This thing was usually in the deepest of the Infinite Mining Area, where there were even Great Monarch-level mine demons, not to mention immortal-level ones. However, immortal-level mine demons rarely appeared here in the history of the entire Infinite Mining Area.

“Puff ~”

The sword cultivator was cut apart by this saber. Even his godly weapon, his law, and his body and soul were cut apart.

The other two were horrified and shouted, “Run!”

Rumble!

Under the Heavenly Dao crack, in the rain of blood, a huge mountain-like mine demon crab tore open the blood mist and appeared here surrounded by countless small crabs.

Swish ~

The big crab’s claws were like blades hanging high in the sky, cutting through the sky like a meteor. As the sharp claws extended out, the centipede and the spider were both nailed through.

Immediately afterward, the crab’s pincers cut the two Monarchs who were trying to escape.

At this moment, the two of them made a decision at the same time, which was to abandon their bodies. In such a critical moment, they had no time to condense their bodies. At this moment, they had to seize every second. They were already lucky to survive.

However, how could it be so easy to survive under the nose of an immortal-level powerhouse? The huge crab leaped and eight sharp blades fell from the sky, blocking their way.

In the next moment, two golden wheels flashed before their eyes, and then their souls burned with golden flames.

“Ahhh~”

The golden flames couldn’t be extinguished. They seemed to contain a power of law that they couldn’t understand.

Just as they were about to die, they saw a young woman standing on the head of the mountain-like crab, watching everything expressionlessly with her arms crossed.

Even when the two of them died, they were still a little scared and puzzled. How could someone stand on the head of this immortal-level crab? Who was she?

Unfortunately, no one would tell them the answer.

The woman muttered, “Those b*stards dare to attack Old Xie’s descendants. They’re courting death.”

Buzz ~ Buzz ~

The big crab’s mouth was buzzing with bubbles, but the woman glanced in the direction where Han Fei left and chuckled. “It’s okay. Only one of them ran away. We’re leaving the depths of the mine for the Storm Ridge. We don’t have to waste too much time on one person.”

With that, the woman looked in the direction where Han Fei left casually, feeling a little puzzled. For some reason, she felt a sense of familiarity. However, the woman thought that she hadn't left the depths of the Infinite Mining Area for a long time and thought that it must be her illusion.

...

On the other side, Han Fei was sweating profusely. It was too terrifying. In the blink of an eye, five Monarchs had died. What had they encountered? Damn, Zhang Daqian should be fine, right? Wasn't the power of the Eyes of Disaster a little too terrifying?

The voice of the Emperor Sparrow sounded in Han Fei's mind. "I said that the Eyes of Disaster can't be used randomly. Even if it were me, I wouldn't have used them if I could. Fortunately, you ran fast. Otherwise, you would have ended up like them."

Han Fei didn't think so, but he might have to call his Eldest Senior Brother for help.

Han Fei had thought that the Eye of Disaster might not be able to cause any real disaster. Once the three of them killed the centipede and the spider, they might continue to chase him. At that time, he and Liu Qiansi might be able to kill them all.

Now, this plan was useless. However, he still had to go back and save Zhang Daqians. It wasn't easy for his two clones to grow to this point. It would be a pity if they died here.

After a while, Han Fei found Liu Qiansi in a corner billions of kilometers away. This guy pretended to be a bamboo pole and nailed himself into the mountain.

When he saw Han Fei, Liu Qiansi was stunned and looked at Han Fei in shock. "You, you... Are you a god?"

Han Fei was instantly amused. It turned out that Liu Qiansi was also frightened by the scene just now. Thinking back to the trip to the God Burying Ridge, he thought that he had been possessed by a god, so he lost his cool now.

Han Fei pretended to be mysterious. "Oh! Did you find out?"

Clatter ~

Liu Qiansi immediately turned into a tree man and bowed to Han Fei. "Hi, I, I'm, Liu... Liu..."

Han Fei slapped Liu Qiansi speechlessly. "Stop it. I'm just teasing you. I just encountered some uncontrollable accidents. If I were a god, would you be qualified to be with me?"

"Huh... Huh?"

Liu Qiansi didn't believe it. He was certain that Han Fei must be a god. He must have been possessed in the God Burying Ridge. But at that time, his strength as a god was limited, so he kept a low profile now.

"Yes, that must be it."

Liu Qiansi thought to himself, If Han Fei wants to pretend, just let him pretend. I'm just an errand boy now. Thinking about how I talked back to Han Fei and nagged at him just now, it's a miracle that I can survive until now!

Han Fei didn't care what Liu Qiansi was thinking. He was now in the northern mining area. God knew what his bad luck would bring him. He said, "Well, Liu Qiansi, stay here for a while. I'm going to the Sea of Stars for a few days."

"Yes, God... Uh... Master Han Fei."

Han Fei: "..."

[God of Fishing](#)

Chapter 2645: The Mastermind (2 in 1)

2645 The Mastermind (2 in 1)

Of course, Han Fei didn't dare to approach that area now, and he was sure that no one would go there in a short period of time. After eight Monarchs died there in a row, who would dare to go there?

And Han Fei's top priority was to reforge the God's Prayer Bead. This time, those attacking him were all Dao Proving-Level Monarchs, but they were all dead. Would the Carefree Level come next time?

If they were at the Carefree Level, what could he use to fight them? Even if he opened all his five Dao Locks and unleashed all his strength, he might not be a match for a Carefree-Level powerhouse. Therefore, if he didn't reforge the God's Prayer Bead, he might be finished at any time.

Because the Demon God was in his body, he couldn't enter his Origin Star.

Therefore, Han Fei could only go to someone else's Origin Star. It happened that Yang Yunwu's corpse was still in his hands, so there was still a place to go.

After entering Yang Yunwu's Origin Star, Han Fei scanned it with his perception. There were a lot of treasures on this person's Origin Star. After coming out, he could even see 108 modified stars surrounding the main star. Every one of them was of high quality and had been modified very well. It was a considerable resource.

However, Han Fei had no time to empty the resources on Yang Yunwu's Origin Star. As soon as he stepped into the Sea of Stars, he took out the God's Prayer Bead.

On the Sea of Stars, Han Fei threw the God's Prayer Bead into his Origin Star and the three soul suppressing godly weapons he had just snatched. Among the godly weapons he had accumulated before, he picked two high-quality godly weapons and threw them into the Demon Purification Pot with a Level-9 mineral.

"Recast!"

Because the Demon Purification Pot hadn't been fully repaired yet, the speed of refining ultra-quality godly weapons was relatively slow. However, no matter how slow it was, it was only in his Origin Star. He had enough resources to provide the power of the Demon Purification Pot.

While the Demon Purification Pot was refining the God's Prayer Bead, Han Fei set up a seal around himself, hid his breath, and even used the God Sealing Spears to seal the space where he was.

After all, it was not safe on the Sea of Stars. If he encountered a Star Sea Giant Beast, it would be another big battle.

Two days later.

More than a year passed in his Origin Star, and finally, the brand-new God's Prayer Bead was refined. However, Han Fei sensed that this refining was the most laborious one for the Demon Purification Pot. In history, the Demon Purification Pot had never taken such a long time to refine. It was basically done in half a day. This time, it took more than a year.

It could be seen that the Demon Purification Pot was still far from its peak state.

After this matter was over, he had to get the small vine from the Heavenly Race.

When the God's Prayer Bead flew out, information popped up in Han Fei's eyes.

< Name > God's Prayer Bead

<Introduction > This is God's Prayer Bead made of the lotus seed of the Chaotic Sea of Bitterness, a level-nine refined mine, a Soul Crystal jasper, a Monarch's marrow, and the essence blood of a god. Wearing this bead, you can use the power of the Heavenly Dao and the law to temper your body and soul every day. When activated in battle, your combat power can be increased by 20%. It can ensure that your soul is clear and won't be enchanted or enter illusions. The prayer bead is holy and can block all evil. It can block billions of great poisons, slowly increase the luck of the wearer, can resist soul attacks, and can resist the law impact of some Dao Proving-Level Monarchs.

<Quality > Acquired spiritual treasure

< Attached Soul > None

<Effect > Hone the body with the Heavenly Dao, protect the soul from all evil, impervious to all poisons, enhance luck, resist soul attacks, and resist part of the impact of laws.

< Recastable >

< Unrefined >

<Note 1> Don't put a soul into it easily. Unfit souls cannot be fused with it.

<Note 2> There is no difference between Acquired Spiritual Treasures and Connate Spiritual Treasures. Both are weaker than Spiritual Treasures of Heaven and Earth, and the three are weaker than Connate Spiritual Treasures.

"Huh? Not just an ultra-quality godly weapon?"

Han Fei was surprised. An Acquired Spiritual Treasure was about the same level as a Connate Spiritual Treasure, which was beyond the scope of a godly weapon. It was probably because he added too many ingredients that the God's Prayer Bead mutated. No wonder it took the Demon Purification Pot more than a year to refine it. In that case, the Demon Purification Pot actually had the ability to refine a spiritual treasure-level weapon?

From the Notes, he learned the classification of spiritual treasures. The Acquired Spiritual Treasures and Connate Spiritual Treasures were at the same level, the Spiritual Treasure of Heaven and Earths were one level higher, and the Chaotic Spiritual Treasures were two levels higher.

Then, the spiritual treasure-level weapons were classified to the upper, middle, and low-quality ones just like godly weapons, but there was no concept of ultra-quality. Perhaps there was, but he hadn't come into contact with it yet.

At this moment, Han Fei looked at the specific information of the God's Prayer Bead. Previously, it could increase one's combat power by 10%, but now it had become 20%. It didn't say that it could resist soul attacks and the impact of the law of the Dao Proving-Level Monarchs, but now it could.

This meant that even if he didn't use the Ragnarok, he would have the power to fight a Dao Proving-Level Monarch head-on.

More importantly, the re-refined God's Prayer Bead would no longer have the characteristic of being tracked, right? The golden turtle could see where he was with this, which was creepy.

"Humph! How dare you call yourself a god back then! Fine, sooner or later, I'll tear off your turtle shell and make you into soup."

Han Fei had no intention of retaliating against the golden turtle now. Back in the Ruins of God, this turtle suppressed many strong masters. Even though it was sealed, the Perfected Star Transformation Realm cultivators had no power to fight back, which showed that the other party's strength was definitely in the Monarch realm.

Han Fei took out the Vast Ocean Navigator and asked it to select among the Dao Proving Level, the Carefree Level, the Immortal Level and Great Monarch. When the needle landed on the Immortal Level, Han Fei knew that he couldn't avenge himself for the time being.

However, the situation was a little better than he had expected. He had thought that this golden turtle might be a Great Monarch. After all, this guy used to brag about being a god. Now that he knew his real strength, Han Fei was no longer afraid of him at all.

Han Fei put on the God's Prayer Bead again and looked around. He didn't know if it was because the Heavenly Dao didn't take care of him, or if the God Sealing Spear Array worked, but in any case, he hadn't been attacked by Star Sea Giant Beasts in the past two days.

But it did make sense. Even if he was plagued by bad luck, he shouldn't be plagued by bad luck every day, right? Ordinary people wouldn't encounter a Monarch-realm mine demon even in thousands of years in the Infinite Mining Area, but he had almost encountered one every day recently. This should be dangerous enough, right?

When Han Fei appeared in the outside world, he saw that Liu Qiansi was still stuck in the mountain, pretending to be an abandoned stick.

Seeing this, Han Fei was slightly relieved. Fortunately, without him, Liu Qiansi wouldn't suffer bad luck.

Seeing Han Fei come out, Liu Qiansi hurried out. "My lord, you're out?"

Han Fei knew that this guy still regarded him as a god, thinking that a god had possessed his body. However, there was no need to explain this matter. It seemed not bad to make Liu Qiansi maintain this respectful attitude.

Han Fei said, "Let's go back to the battlefield over there."

...

In the past two days, the Hundred Alliance City was in an uproar. Han Fei's appearance was known to the whole city. The bigger the commotion before, the more horrified the people were now.

According to the results of the intelligence centers, the battle in the northwestern mining area quickly came to an end.

At that time, many people thought that Han Fei was doomed. So many Dao Proving-Level Monarchs led nearly 2,000 Perfected Star Transformation Realm cultivators to besiege him. As a result, none of the six Monarchs survived. All the 2,000 Perfected Star Transformation Realm cultivators died. Besides, according to some intelligence, another three Monarchs might have also died. These people might have secretly planned to take Han Fei down, but they encountered some problems and died anyway.

They naturally didn't know that two mine demons at the Dao Proving Level had perished too, so in their opinion, hunting the Human Butcher had become an extremely dangerous matter. Those who had been prepared to try all chose to give up.

Come on, this was no longer hunting. This was courting death.

Not to mention the Sky Opening Realm powerhouses, even the Dao Proving-Level powerhouses who were about to attack were silent. Many Monarch-realm powerhouses secretly came since Puppet City appeared, but there was no trace of Han Fei, so they didn't attack.

Now, although Han Fei's whereabouts were known, in just a few days, nine Monarchs had died in a row. This news had already spread to the eight camps outside the Infinite Mining Area, and even to the East Sea Divine Realm.

After all, there were few Monarchs in the first place. How could eight or nine of them die at once?

As a result, rumors spread all over the Hundred Alliance City.

In the streets and alleys, where there were people, there were people discussing the hottest news in the Infinite Mining Area in the past ten thousand years.

Someone said, "That Human Butcher has definitely proven Dao. If he hadn't, how could he have survived such a siege?"

Someone said, "Have you forgotten Puppet City? It's said that the Human Butcher can borrow the power of Puppet City. I don't know how powerful that power is, but I know that it can withstand a punch from the Great Monarch Bloody Hand. And I believe that if he is only at the Dao Proving Level, it's impossible for him to kill nine Dao Proving-Level Monarchs in a row."

Someone sneered. "Nothing is impossible. The Human Butcher initiated the northern expedition alone and became the biggest beneficiary in the end. How can such a person be an ordinary person? I won't

be surprised no matter what happens to him. Anyway, let's just leave hunting the Human Butcher to the Monarchs."

Suddenly, someone ran past in a hurry and shouted, "The latest intelligence on the Human Butcher only charges a level-two mineral. Those who want to watch the fun don't miss the chance. Only a level-two mineral. You won't lose anything. The price is less than ten percent of the price of the intelligence centers..."

Many people were intrigued. A level-two mineral was indeed cheap.

"Give me one."

"Okay."

The man took the mineral thrown at him in midair and threw out a jade slip happily.

This information would be useful in three days at most, so many people were unwilling to spend the price of a level-two mineral. Of course, most people who came to the Hundred Alliance City didn't care about this level-two mineral, so many people bought it.

Soon, exclamations came from the crowd.

"How is it possible? Human Butcher hasn't proved Dao yet?"

"So the Human Butcher isn't alone. He has a Monarch-realm demon plant beside him. Wait, why is there a demon plant in the Infinite Mining Area? This demon plant shouldn't belong to the ferocious beast lineage, right?"

"It turns out that the Human Butcher was already intercepted after he came out of the ferocious beasts' settlement. He fought two against three and even killed a Monarch. It can be seen that even if Human Butcher hasn't proved his Dao, he definitely has the Monarch-realm combat power."

"Look, according to the information, the Human Butcher has a way to break the law. Is it a divine technique?"

Someone sighed. "It's a pity that no intelligence was sent back about the besiege of him. I don't know how the six Monarchs and the two thousand Perfected Star Transformation Realm cultivators died."

Someone sneered. "Come on, everyone who went there is dead. How can there be any information about it?"

Someone shook his head. "No, I'm told that most of those Perfected Star Transformation Realm cultivators are still alive, and only half of them have died."

"Then why are they nowhere to be seen?"

Someone guessed, "They're probably in the Origin Stars of the strong masters. Or maybe they have already been enslaved by the Human Butcher. Otherwise, a few of them would have escaped, right? I've never heard of such dangers in the northwestern mining area!"

...

The divine beasts were having a meeting again, but at this moment, everyone looked solemn.

Someone said, "Eight Dao Proving-Level Monarchs have died one after another. More than 2,000 Perfected Star Transformation Realm cultivators are missing. It has been clearly known that six of the Monarchs are from the Hundred Alliance City. The other two's identities are unknown. They might be mine demons or hidden Monarchs. Everyone, what do you think?"

The golden turtle named Master Bao said, "It can be confirmed that the Human Butcher didn't move in the past two days. Why did he stay where he was? Maybe he used some forbidden method, but he was also seriously injured and couldn't move forward, so he had to stay and heal his wounds. In fact, someone should have gone over to continue hunting him."

However, none of the divine beasts said anything. They thought to themselves, You make it sound so easy. The problem is, who dares to go there? In just a few days, nine Dao Proving-Level Monarchs have died in a row, but since Han Fei is still alive, who dares to rashly go there?

The Blazing Fire Kylin said, "In this situation, Dao Provers dare not go. No one knows the real strength of the Human Butcher. There's indeed a risk of death. As for the Carefree-Level Monarchs, although a few of them have come to the Infinite Mining Area, they don't want to be used as tools. They won't take action until they think the time is right."

A Lightning Flood Dragon said, "I heard that Human Butcher hasn't proved Dao yet. I really can't imagine how he could kill eight Monarchs in a row with just a Dao Proving-Level demon plant. Even Carefree-Level Monarchs can't kill so many people in such a short period of time!"

Someone said, "Could it be that the ferocious beasts had their Monarchs secretly helping him?"

The Blazing Fire Kylin shook his head. "That's impossible. The ferocious beasts are all under our watch. They have no chance to leave. As for Li Luoluo, she has always guarded the ferocious beasts' settlement and never goes out. If she moves, I should be able to sense it."

At this moment, the golden turtle suddenly said in surprise, "Not good!"

Everyone: "???"

The Blazing Fire Kylin asked, "Master Bao, what happened?"

The golden turtle widened his eyes and said in disbelief, "That Human Butcher broke free from my tracking. That's impossible. The God's Prayer Bead has followed me for hundreds of thousands of years and couldn't have escaped my perception, but now... I can't perceive it."

A colorful crane said, "Isn't that an ultra-quality godly weapon? Did he destroy it after discovering that the God's Prayer Bead was the key to locating him?"

The Golden Turtle said, "That's impossible! There's nothing wrong with the God's Prayer Bead itself, and it's a very good ultra-quality godly weapon. He has no reason to suspect the God's Prayer Bead."

The Blazing Fire Kylin said, "He might not have discovered the secret of the God's Prayer Bead, but we can't rule out this possibility. However, now that we've lost this person's whereabouts, what should we do? According to this person's growth speed, he has the ability to slay Monarchs when he is only in the Sky Opening realm. If he can prove Dao..."

For a moment, all the divine beasts were silent. They felt that Han Fei's growth speed was definitely related to the Emperor Sparrow. Now, he was only in the Sky Opening Realm, but he could already fight his way out of the dangers. If he had proved Dao, coupled with the power of Puppet City, it would probably have to be an immortal-level powerhouse to have a chance of capturing and killing him. If the Emperor Sparrow had also proved Dao, it would be even harder to say.

However, they wouldn't be stupid enough to wait for you to kill them. Even an immortal-level Monarch had to find Han Fei first, right?

At this time, the lightning flood dragon said, "I'm thinking of one thing. Master Bao personally came forward to persuade those Dao Proving-level Monarchs to attack Human Butcher. Do you think Human Butcher will find out through the memories of those dead Monarchs that it was our divine beasts who pushed all of this behind the scenes?"

"Humph ~"

A silver giant wolf snorted coldly. "Even if he knows, so what? We have a feud with the Emperor Sparrow. It's only natural for us to kill the Emperor Sparrow. Besides, do we, the dignified divine beast lineage, really need to be so afraid of the Emperor Sparrow that hasn't grown up?"

The Golden Turtle shook its head slightly. "You're too young. When the Emperor Sparrow was all-powerful in the past, which faction wasn't afraid of him? Countless strong masters have died at the hands of the Emperor Sparrow. You have to know that when I met this Human Butcher, he hadn't entered the Star Transformation Realm yet. It's only been a hundred years, but he can already kill a Monarch. Let me ask you, which of you here has such a growth speed?"

Seeing that the divine beasts were all pale, the Golden Turtle sighed. "The reason why I gave him the God's Prayer Bead was that I was sure that he would come into contact with the ferocious beasts in the future. Then, we could use the God's Prayer Bead to locate him and kill him. Our plan succeeded this time, but I still underestimated this person's means. I didn't expect him to survive. However, we still have a chance."

"Oh?"

The divine beasts were immediately refreshed, and the Blazing Fire Kylin couldn't help but ask, "We've already lost track of him. Where did the opportunity come from?"

The Golden Turtle said, "I am a Treasure Golden Turtle. Although I'm not good at fighting, I have a lot of treasures. I have a Spiritual Treasure of Heaven and Earth called the Mirror of Prophecy. It can launch a prophecy on this person. I can give it a try."

The Blazing Fire Kylin's eyes lit up. "Please have a try, Master Bao."

On the shell of the golden turtle, a pattern flickered, and a one-meter-square mirror appeared.

After the Golden Turtle injected a large amount of the power of heaven and earth, a blurry gray fog appeared on it.

"Huh?"

The Blazing Fire Kylin asked, "So? What does this gray fog mean?"

The golden turtle said in confusion, "I can't make a prophecy on this person. This person's luck is quite complicated. It seems to be sealed by layers of fog and is difficult to see through. I'm afraid it's impossible to activate a prophecy on this person. However, we can make a prophecy on the place where he is going."

The colorful crane said, "That's a good idea. I've always found it strange. Why did this man walk along the northwestern mining area after leaving the settlement of ferocious beasts? If he was going out of the Infinite Mining Area, he should have walked straight out. But he was walking along the edge of the northwestern mining area as if he were avoiding something."

The Blazing Fire Kylin said, "The Hundred Alliance City. He is avoiding the Hundred Alliance City. According to the direction he is going, since he doesn't leave the Infinite Mining Area, he will go all the way north. And if he goes north, he will definitely encounter strong masters from the Hundred Alliance City, so he tries to walk along the edge of the northwestern mining area, probably to avoid the territory of the Hundred Alliance City. But if he avoids the Hundred Alliance City, he can only go in one direction, which is the northern mining area."

The Golden Turtle nodded. "That's right. If it weren't for the sake of entering the northern mining area, he wouldn't have to be so careful. There should be something he needs to do in the northern mining area."

With that said, the Golden Turtle continued to infuse a large amount of the power of heaven and earth until darkness appeared in the mirror.

Everyone was a little disappointed, thinking that it was just gray fog just now. Now that it had turned into black fog, wouldn't it be even more impossible to predict?

"Wait a minute ~"

Suddenly, the Blazing Fire Kylin said in surprise, "This is not pure darkness. Look, there seems to be an azure dragon cruising in the darkness. You should be familiar with this place, right?"

"The Godfiend Sea?"

"That's right. It's the Godfiend Sea. I don't think you're strangers to it, right?"

Someone asked, "But why is he going to the Godfiend Sea?"

The Golden Turtle said, "Who cares what he's going to do? As long as we can figure out his destination, we'll have a chance to ambush him again, but we can't do it as blindly as the last time. This time, we need to kill him in one blow."

The lightning flood dragon asked, "In one blow? Are we going to mobilize immortal-level Monarchs?"

The Blazing Fire Kylin was speechless. Who didn't know the prophecy that whoever killed the Emperor Sparrow would die? If we had such courage, we should have taken action a long time ago. Why bother to kill them with a borrowed knife?

The problem was, who would go to kill them? Dao ProverS definitely couldn't, because Han Fei had the strength to kill Dao Provers. There were only seven divine beasts at the Carefree Level. As for the Immortal Level, only the Blazing Fire Kylin and the Golden Turtle were at this level.

However, the Blazing Fire Kylin wasn't an idiot, and neither was the Golden Turtle. If they went to kill the Emperor Sparrow, they would probably die in a few days.

The Golden Turtle said, "I have an idea. Anyway, this person's destination is the Godfiend Sea, so why don't we frame him? As long as people know that he has entered the Demonic Dao, there will be super-first-rate forces in the Hundred Alliance City who want to uphold justice to attack him..."

...

[God of Fishing](#)

Chapter 2646: Ultimate Misfortune (2 in 1)

2646 Ultimate Misfortune (2 in 1)

While everyone was discussing Han Fei, he was carefully sneaking towards the previous battlefield. He was covered in hundreds of concealment arrays, and he was in the form of a black fog.

Han Fei even held a trump card in his hand at all times. It was the Heaven-Defying Scales of the Azure Dragon that Senior Brother Azure Dragon had given him and Feng Yu. This was why he dared to come back to save Zhang Daqian in such a short period of time.

Along the way, because of bad luck, he encountered a few waves of mine demons who wanted to take advantage of the Monarchs' death to seek opportunities, but he carefully avoided them.

It wasn't until he circled that area for a day and confirmed that there was no big threat nearby that he found the spatial node of the Monarch's Origin Star with the Vast Ocean Navigator.

...

After a Monarch died, his Origin Star would change, but this change wouldn't happen until several days later. The first change was that the power restricting these Perfected Star Transformation Realm cultivators on his Origin Star was gone.

This was because it was the will of a Monarch. Once a Monarch died, this will would be gone.

Secondly, their Origin Stars no longer restricted their absorption of the energy in their Origin Stars, and the power of their star cores would also dissipate slightly.

At first, this phenomenon was not obvious, but some people suspected it. But after trying to contact the Monarch who had taken them into his Origin Star for several days in a row, to no avail, plus some tentative movements, they finally confirmed the fact that this Monarch had died.

After confirming this fact, everyone's first thought was not how to escape, but to crazily snatch the resources on the Prime Star. Some people even touched the Star Core and felt the Monarch law bursting out of it to make breakthroughs and improve themselves.

However, there were as many as 1,532 strong masters trapped in this Monarch's Origin Star this time. Although this Monarch was extremely rich, he couldn't withstand the sweep of so many cultivators.

Soon, all the resources that could be collected by this star were collected by them. Then, someone proposed to go to the place of the star core to cultivate.

Some people expressed that the top priority now was how to leave this Origin Star.

After all, no matter how strong the Monarch was, they couldn't withstand so many people cultivating crazily here. Even if each of them only swallowed one wisp of Immortal Qi, it would be 1,532 wisps of Immortal Qi.

Therefore, in just three days, not only were the resources on this star wiped out, but even the star dimmed.

Therefore, they quickly discovered that the only real opportunity here was the one where the Star Core was located. But when more than a thousand Perfected Star Transformation Realm powerhouses surrounded the Star Core to cultivate, the consumption every second was astonishing. This Star Core couldn't carry so many people to cultivate together.

After all, this Monarch was only at the Dao Proving Level. The opportunities his Origin Star could give others were limited.

Therefore, the top priority was how to leave this Origin Star.

On the Origin Star, if a Monarch died, the people inside couldn't come out.

Even with the strength of the Perfected Star Transformation Realm, he couldn't surpass the quagmire of the Sea of Stars.

Therefore, after plundering resources and cultivating to no avail, they finally began to organize themselves and try to pass the quagmire of the Sea of Stars together.

As long as they left the quagmire of the Sea of Stars, some of the people who had refined their Origin Stars would place their Origin Stars near the Origin Stars of some strong masters from their factions. In this way, they could enter the strong masters' Origin Stars and escape.

However, such people were few.

Most people hadn't refined their own stars, and they didn't have the ability to enter other people's Origin Stars from their own, so half of them slacked off.

As for those who were anxious to cross the quagmire of the Sea of Stars, they promised that once they left, they would inform the strong masters of their factions to find a way to enter this Origin Star to take everyone out.

Anyway, before they went out, everyone said that they would save others for free, that they would share hardships with each other, and that it was a life-and-death friendship.

And Zhang Daqian had been surrounded by people who tried to persuade him, because he had four Dao Lock-level powerhouses with him. Among these Perfected Star Transformation Realm cultivators, four Dao Lock-level powerhouses were very rare.

Someone said, "Little Friend Ye, we know that Senior Song Qingyun is your guardian. Now that we need a super powerhouse like Elder Song to help us break through the quagmire of the Sea of Stars, I wonder if you can ask Elder Song to help us?"

Han Fei looked at this person with a smile and said, "Senior, don't panic. If this Monarch has died, then this news has probably been sent back to the Hundred Alliance City. We just need to wait. We City of Scavengers will naturally send strong masters here to open a channel to this Origin Star. As for the quagmire of the Sea of Stars, I'm afraid we can't pass it."

Han Fei gave Song Qingyun a look and the latter said, "I'm the guardian of Young Master Fengliu. I won't leave his side."

With that said, no one could do anything. A big power was a big power. This guy had just entered the Star Transformation Realm but already had a four Dao Lock-level guardian. No one dared to mess around with him.

Besides, what Han Fei showed was that the City of Scavengers attached great importance to him, so no one dared to mess around with him.

Hum...

At this moment, a hole suddenly appeared on the Origin Star, and then a figure holding a green bamboo pole stood in the void.

Someone was delighted. "Someone is coming! We're saved!"

"Which lord can even open the Origin Star of a Dao Prover?"

For a moment, many people appeared on the surface of this Origin Star, thinking that this was a big operation after all. Even if an accident happened, someone would come to save them.

However, soon, someone discovered that something was wrong.

"Huh? Why does this person look familiar?"

"F*ck, isn't this the Human Butcher?"

"Hiss! This is the Human Butcher. I've seen him with my own eyes."

"We're screwed! We're screwed!"

Someone shouted, "Everyone, gather up and prepare to fight the enemy together."

For a moment, everyone who saw Han Fei seemed to know that something was wrong. In their hearts, Han Fei was a murderer. They had fallen to this state because they came to hunt Han Fei.

They had even personally witnessed Han Fei kill two Dao Proving-Level Monarchs.

If such a figure appeared here, what would he do to those who wanted to hunt him?

Someone shouted, "Everyone, don't be afraid. In the Origin Star of a Monarch, the Human Butcher can't be connected with Puppet City. He can't borrow the power of Puppet City."

Someone shouted, "Everyone, gather and prepare to resist the enemy together. We can't just give up."

Although Han Fei had killed Dao Proving-Level Monarchs in front of them, and they had also sensed his aura, he hadn't proved Dao but only had the combat power of the Dao Proving Level.

Therefore, they believed that it was more like an explosive power that couldn't last long. Furthermore, there were 1,532 people here. Even if a Dao Prover was here, it was impossible for him to casually kill so many of them. If they were to risk their lives, they might still have a chance to beat him.

Han Fei, on the other hand, looked indifferent. These people were all here to kill him. He had never known that so many powerhouses in the Infinite Mining Area could be sent to kill him.

At this moment, except for Zhang Daqian and Song Qingyun, everyone else was highly tense. Although they said that they could fight, they had already regarded Han Fei as a Dao Prover.

However, at this moment, they could only hold on and give others confidence. They had never thought that Han Fei would let them go. The people here were tough. They wanted to kill Han Fei, so Han Fei certainly had no reason to let them go.

Han Fei said, "I'll give you a chance. Swear your loyalty, and I can spare your lives."

Han Fei was very straightforward. It would be a waste if so many powerhouses of the Perfected Star Transformation Realm were all killed. As the saying went, make the best use of everything. He still had plans for the Infinite Mining Area. If these people could be used, there was no need for him to kill them.

However, this casual subjugation was not accepted.

They were all Perfected Star Transformation Realm cultivators, and there was no lack of Dao Lock-level powerhouses among them. Their temperament couldn't be weak. It was very difficult to make them pledge loyalty.

Someone immediately objected, "Everyone, don't believe his nonsense. If you surrender, even if he doesn't kill you, your sects, families, and forces won't let you off. There will be no place for us in the Infinite Mining Area. The more he doesn't take action, the more he doesn't have the confidence to take us down."

Han Fei sneered. "Stubborn."

Han Fei took a step forward. In this world, fists mattered most. How could they compromise without experiencing despair?

Han Fei walked towards the Perfected Star Transformation Realm cultivators who were ready to fight, and a few Dao Lock-level powerhouses shouted, "Everyone, attack together. Don't give him any time to react."

Swish! Swish! Swish!

Swish! Swish! Swish!

Boom Boom Boom ~

At this moment, when these people joined forces to fight Han Fei, they saved no strength. The gorgeous attacks that blotted out the sky and the sun poured crazily at Han Fei.

In fact, these people's guesses were right. In terms of one-on-one combat, Han Fei could indeed fight a Dao Proving-Level Monarchs head-on. However, so many attacks was still a headache for him.

However, Han Fei wasn't the only one on this trip. He blocked the attacks with the Star Sea Mystic Sand, and in the next moment, a lot of hair shot out.

"Puff! Puff! Puff!"

Because everyone's eyes were focused on Han Fei, not many people paid attention to what Han Fei was carrying. What they saw was nothing more than a bamboo rod in Han Fei's hand.

But at the moment they attacked Han Fei, at least 200 people were pierced by dozens of blue hairs that suddenly appeared.

Han Fei could resist the power of the law and had a strong physique and soul, but these people didn't. Therefore, nearly 50 people were killed by the hair threads, and some people passively used their soul suppressing godly weapons to block this blow.

However, the soul suppressing godly weapons used by the Perfected Star Transformation Realm cultivators were mostly low-quality soul suppressing godly weapons. They were not useless, but they were not particularly difficult to penetrate for the Emperor Sparrow. However, it was unrealistic for the Emperor Sparrow to kill hundreds of people at one go. However, it didn't matter. Killing forty or fifty powerhouses in the Perfected Star Transformation Realm by surprise was already enough to cause chaos in the crowd.

On one side, Han Fei resisted everyone's attack with the Star Sea Mystic Sand while throwing Liu Qiansi out.

Then, Zhang Daqian shouted at the right time, "Not good. It's a demon plant at the Dao Proving Level."

Boom~

For a moment, the powerhouses looked panicked. They might be able to resist Han Fei if they joined forces, but if there was an additional Monarch-realm demon plant, it was hard to say.

Taking advantage of the panic of the crowd, Han Fei didn't confront these thousands of techniques head-on. Instead, after the Star Sea Mystic Sand was blasted apart, he casually threw out the Extreme Cold Pearl.

Buzz!

Just one attack froze the sun-blotting killing techniques.

Han Fei activated the Great Dao, pinched the Infinity Water in his hand, and stepped into the crowd. His speed was as fast as a swimming dragon, and his knife light was as sharp as snow and silver light.

"Puff ~"

One person's body was severed, and his Great Dao force field was like paper in front of Han Fei, unable to block him at all.

The Ragnarok could slash the Great Dao, shatter laws, and launch the technique of dual killing of body and soul. Even if they had low-quality godly weapons, Han Fei could still break them with two slashes. With two slashes, a person died.

A close-combat cultivator tried to break Han Fei's soul with a Soul Pincer, but Han Fei squeezed it gently with one hand and pressed it between the man's eyebrows, piercing his Star Bead.

Someone was injected with the power of dozens of people around him and launched a peak-level strike, trying to shake Han Fei. However, Han Fei clenched his Star Fist and punched out. The force of his punch doubled. When the fist wind collided, it was like a golden spear colliding. With cracking sounds, this person was blasted into pieces.

...

As Han Fei walked around the crowd, nearly a hundred people were killed by Han Fei.

Liu Qiansi's killing speed would only be faster than Han Fei's. This guy was best at attacking group mine demons in the Storm Quicksand Sea.

Although these Perfected Star Transformation Realm cultivators were much stronger than the mine demons, it only greatly reduced his killing efficiency.

Liu Qiansi was a demon plant in the Dao Proving realm. These people could only defend against his attack.

In just a hundred seconds, nearly 500 people had been killed by Han Fei and Liu Qiansi.

At this moment, someone finally confirmed the fact that they were no match for them. Someone immediately roared, "Stop resisting. This is the power of the Dao Proving Level. His physique is even much stronger than that of a Dao Proving-Level Monarch."

After his comprehensive combat power was comparable to that of a Dao Prover, the only difference between Han Fei and ordinary Dao Provers was how they were addressed.

Under the powerful attacks of the two strong masters, finally, when more than half of them died, someone chose to give up.

He realized that if they continued to fight, there would be no one left.

The man shouted, "I'm willing to submit to you, Master Human Butcher. I swear to submit."

"Oh?"

At this time, Han Fei slowly stopped the battle in his hand, put his hands behind his back, and smiled faintly. "Why didn't you do this earlier? Then these people wouldn't have died."

At this moment, Han Fei stopped attacking. These people were here to kill him in the first place. He didn't feel burdened at all to fight back. Now these people finally realized that they were no match for him and finally compromised. This was a little ridiculous in his opinion.

Since one of them chose to surrender, the next step was easy to take. What they lacked was a ladder. Since Han Fei had given it to them, they took the opportunity to step down.

In the end, of the 1,532 people, 723 were left, and 809 died.

After everyone submitted one by one and sacrificed their souls and essence blood to fuse with the Heavenly Dao, Han Fei said indifferently, "I can let you attack, but you have to know that the Monarchs who brought you here have all died. When you go back, will there still be anyone who believes you? So, you won't lose anything if you follow me."

At this moment, no one dared to respond.

Han Fei said, "So, when you go out, you don't have to return to your original factions. I will arrange for a new faction to accept you... Well, that's... the City of Scavengers."

"The City of Scavengers?"

Instantly, countless people looked at Zhang Daqian in shock.

Many people were even more puzzled. Human Butcher destroyed everyone in the City of Scavengers in Puppet City. Was this all a show?

Seeing their expressions, Han Fei put on a smile. This group of people could probably play a special role in the future.

...

Half a day later, these people hid in Song Qingyun's Origin Star. Only a few of them had reached the level of four Dao Locks. Song Qingyun couldn't put them into his Origin Star, so they could only leave together.

Han Fei simply ignored them. As soon as they entered the City of Scavengers and were suppressed by Zhang Beihai, no one dared to do anything rash.

As for Han Fei, after leaving here, he went to the Origin Stars of the other two Dao Proving-Level Monarchs. There was no telling if it was because his luck had changed these past two days, but he didn't encounter any trouble.

It wasn't until a month later when Han Fei snuck into the northern mining area that he confirmed that the tracking effect of the God's Prayer Bead had been disabled. Otherwise, he would have been hunted countless times by now.

But now, the dangers he encountered all came from the mine demons.

"Huff~"

The moment he entered the northern mining area, Han Fei breathed a sigh of relief. It was a close call. The Carefree Level powerhouse he was worried about didn't appear after all.

Han Fei was much relieved. It seemed that his misfortune wasn't so bad that he couldn't move an inch.

What he needed to do now was to go deep into the northern mining area and then enter the Godfiend Sea.

Another month later.

Han Fei and Liu Qiansi ran out of a ruin covered in dust. Yes, the two of them were inexplicably sucked into a ruin, where they encountered a skeleton at the peak of the Dao Proving realm and fought bitterly for three days and three nights before they managed to escape.

After a full day of recovery, Han Fei said, "If I've guessed right, this bad luck will disappear in three days at most."

At this moment, no matter how stupid Liu Qiansi was, he could be sure that there must be something wrong with Han Fei. As if he had been cursed, danger followed him wherever he went. The danger level ranged from the Perfected Star Transformation Realm to the Peak Dao Proving Level.

Two days later, Han Fei put away the Vast Ocean Navigator and grinned. "Here we are! The number of mine demons here has been greatly reduced, the surrounding energy is lacking, spiritual energy is lacking, and the power of the Heavenly Dao is not rich. Yes, this is the place."

Liu Qiansi asked, "Where is this?"

"This will be your grave."

Suddenly, a discordant voice sounded, making Han Fei and Liu Qiansi shiver.

Liu Qiansi exclaimed, "Not good! Carefree Level!"

"Sh*t~"

Han Fei couldn't have felt more awful. He had thought that the two months of careful and life-threatening journey had been worth the misfortune-level difficulty.

But now it seemed that the front wasn't the most dangerous. The last part of the journey was the most dangerous.

A woman in a black robe walked out of the void and said openly, "I'm Lin Qianxue from the Divine Demon Forest of the Central Sea Divine Realm. I heard that you killed Lin Ke?"

"Oh!"

Lin Ke was the guy who was killed by Han Fei at the gate of Puppet City with two punches. That guy instigated others to besiege and kill him. How could he let him off?

Han Fei said, "The guy you mentioned is a little weak. He couldn't even withstand two punches from me. He's even weaker than a mine demon."

Lin Qianxue said, "You killed him with two punches, so I'll kill you with two slaps. That's fair."

Han Fei sneered and didn't take it seriously. A Carefree Level powerhouse is so arrogant? Killed me with two slaps? Who do you think you are?

Han Fei asked, "Who are you?"

Lin Qianxue said, "Lin Ke's master."

"Oh, no wonder. By the way, you're not the only one here, right? Everyone, come out. Let's talk about our grudges! Why are you still hiding?"

As Han Fei shouted, a burly man walked out of the void on the other side. His arms were even thicker than thighs, more than five times larger than ordinary people's arms.

Another young man in white looked elegant.

The man said, "Zhou Ye from the Thousand Phenomena Sect. I didn't want to kill you, but I had to."

Han Fei sneered. "If you want to kill me, just kill me. Stop pretending."

The burly man said, "He didn't pretend. I didn't intend to attack you either, but someone gave us a reason to kill you. I am Zhang Haoran from the Fist Sect of the Central Sea Divine Realm, and I'm here to eliminate demons."

"Eliminate demons?"

Han Fei's heart trembled. Could it be that the matter of the Demon God in his body had been discovered?

Han Fei: "Why do you think I'm a demon?"

Zhang Haoran said, "Are you going to enter the Godfiend Sea?"

Han Fei was speechless, but he couldn't refute it. He was already here. How could he deny it?

Therefore, Han Fei didn't deny it. "So what?"

Zhang Haoran said, "If you haven't taken the Demonic Dao, why would you enter the Godfiend Sea? Even if you were a demon, there's no reason for you to run to the Godfiend Sea. Therefore, you must have some secrets about the Godfiend Sea, which may even trigger the Godfiend Sea. Therefore, I'm here, and now it's impossible for you to enter the Godfiend Sea."

Han Fei was silent for a moment. "Are you sure that I've taken the Demonic Dao? Do I look like I've taken the Demonic Dao?"

Zhang Haoran sneered. "No matter what, you have to die, because your purpose in entering the Godfiend Sea is not pure."

Han Fei narrowed his eyes. "I want to know, who told you that I was going to enter the Godfiend Sea? To be able to wait for me here unerringly, I believe you should have accurately grasped my whereabouts. Is it divine beasts?"

Han Fei had a bad feeling. Was it useless to reforge the God's Prayer Bead? Or was the God's Prayer Bead not the key for the other party to track him?

Zhou Ye nodded. "Of course, it's also one of the purposes of our trip to take the Great Monarch's inheritance from you. I won't hide this from you."

Han Fei looked around at the three of them and chuckled. "Three Carefree Level powerhouses. You really think highly of me. But do you really think you can kill me?"

[God of Fishing](#)

Chapter 2647: Identity Exposed (2 in 1)

2647 Identity Exposed (2 in 1)

Faced with three Carefree Level powerhouses, Han Fei knew that even if he had all kinds of methods, they were actually useless.

The Carefree-Level cultivators were not the Dao Proving-Level ones. The former had just stepped into the Monarch realm and didn't have enough control over the laws. Although their soul had a qualitative change, the power level hadn't changed, which wasn't impossible for Sky Openers to reach. However, it was impossible for Sky Openers to reach the will and control of power of the Carefree Level.

Otherwise, the area-of-effect freezing of the Extreme Cold Pearl wouldn't have been able to freeze a Dao Proving-Level Monarchs instantly.

At the very least, Liu Qiansi was no match for any of the three. Han Fei was considering if he could use that thing to force his way through since he was already so close to the Godfiend Sea.

But before that, he needed to confirm if there were any more ambushes around.

Seeing that Han Fei's eyes seemed to be able to see through the void, Zhang Haoran said, "With us taking action, there is no need for additional ambushes. Your death is inevitable."

Liu Qiansi panicked at this moment. He was almost crying. If he had known this would happen, he would never have gone out of the Storm Quicksand Sea! The outside world was really dangerous. Along the way, he felt that he was encountering danger every moment.

At this moment, in front of three Carefree Level powerhouses, Liu Qiansi was in despair, trembling slightly in Han Fei's hand.

Zhang Haoran tapped his foot, and in the next moment, a fist mark appeared in Han Fei's eyes, like a steel torrent.

Swish ~

"Huh?"

In the eyes of Lin Qianxue and Zhou Ye, this punch was a test, but it couldn't be underestimated. They could test Han Fei's real strength with this punch.

However, they saw that Han Fei's body was deviated by the power of Zhang Haoran's fist light as if it were a magnetic pole.

In the next moment, they saw a green leaf-like one-time use godly weapon under Han Fei's feet.

This godly weapon was called a One-Leaf Boat. It was the one-time high-quality godly weapon that he snatched from Yi Cai of the Heavenly Race in the finals of the Great Competition. It was a leaf condensed from speed Dao patterns and the leaf of light. This leaf could be used as a boat to explode with the speed of light in a short period of time. With a short-term invincible defense, it could only be broken by a Great Monarch. It was a very good godly weapon for escaping.

Because the One-Leaf Boat had invincible defense, it had always been regarded by Han Fei as a trump card. This trump card was actually neither strong or weak.

Its strength lay in its invincible defense, and its weakness lay in its speed.

However, Han Fei could give his speed to the One-Leaf Boat, but even so, it was only 32 times the speed of light. It was definitely incomparable to the Carefree Level cultivators.

After realizing that Han Fei had this escape godly weapon, Lin Qianxue and Zhou Ye took action one after another. They waited near the Godfiend Sea in advance to prevent any accidents.

But Han Fei could dodge Zhang Haoran's fist mark with this godly weapon, so he couldn't be underestimated.

Even if Lin Qianxue summoned thousands of vines and demon plants in an instant, almost covering an entire sea area, every time this boat encountered an obstacle, it would automatically deviate and shuttle through the tiny gaps.

Upon seeing this, Zhou Ye of the Thousand Phenomena Sect shouted, "No, this godly weapon is not low-level. It should be an ultra-quality godly weapon. It can avoid our attacks. We have to set up a barrier."

Han Fei stood on this small boat with his hands behind his back. He didn't look too good. He seemed to understand why the One-Leaf Boat appeared in Yi Cai's hands.

Its advantage was very obvious. It could avoid attacks and be in an invincible state. However, its weakness was even more obvious. Its speed was not fast enough, so it could only dodge and move forward. Once the way ahead was blocked or the other party set up a barrier, the small boat would have nowhere to dodge.

Zhang Haoran and Lin Qianxue immediately stopped attacking. The three of them quickly exchanged opinions, and at the same time, they burst out at more than 50 times the speed of light and ran ahead of Han Fei. Since they couldn't attack Han Fei, they would seal this place.

This method was simple, direct, and effective.

After only thirty seconds, the three of them were waiting solemnly in front.

Apart from the unknown barriers or arrays, there were also dense demon plants like a seaweed city wall.

Han Fei was speechless. He hated manipulators the most. They could freely control demon plants to achieve a comprehensive coverage.

Liu Qiansi asked, "What should we do? Can the leaf break the blockade?"

Han Fei thought for a moment. "Let's have a try!"

In the blink of an eye, Han Fei had arrived in front of the seaweed wall. Lin Qianxue crossed her arms and looked at him, as if she wanted to see how Han Fei could solve this situation.

Han Fei casually took out the Extreme Cold Pearl and immediately poured out the freezing power of the Carefree Level.

With the power of the Carefree Level, the power unleashed by the Extreme Cold Pearl was no weaker than theirs. At the very least, it was much stronger than these temporarily summoned demon plants.

Therefore, a large number of demon plants ahead were frozen into ice sculptures. As for the One-Leaf Boat, it shuttled through the dense seaweed city wall at a speed so fast that it swept over in the blink of an eye.

Behind the seaweed wall, behind Zhou Ye of the Thousand Phenomena Sectt, there was a dense mystic light, with thousands of gates opening up on it.

Zhou Ye chuckled. "Ninety percent of the Doors of Myriad Wonders can lead to the endless void, and the other ten percent are illusionary doors. If you enter them, you will fall into an endless fantasy world."

Han Fei was a little surprised that the Doors of Myriad Wonders were quite interesting. However, Zhou Ye didn't know that he had a treasure like the Vast Ocean Navigator.

At this moment, Han Fei took out the Vast Ocean Navigator in front of the three of them without hesitation and said, "Where there is a dead end, there is a way out. This is an array, not a barrier. I guess you can't set up a barrier that can seal me so quickly, so you used an array map."

Zhou Ye's eyes narrowed slightly. Han Fei's guess was right. To set a seal to stop Han Fei, who was comparable to a Dao Prover and had many means, thirty seconds weren't enough.

There was no powerhouse among the three of them who could set up such a barrier, so it would take some time.

However, Zhou Ye had a bad feeling, because the Vast Ocean Navigator in Han Fei's hand pointed precisely at the eye of the Array of Doors of Myriad Wonders.

This made Zhou Ye's expression change drastically. What kind of treasure was this? Was it a Chaotic Spiritual Treasure? How could it have broken through the Doors of Myriad Wonders in such a short time?

Seeing Han Fei quickly rush over, Zhou Ye's body suddenly blocked the wall in front of the array. Although he couldn't hit Han Fei, the One-Leaf Boat would automatically avoid his attack. What if it entered another door to avoid him?

Unfortunately, when Zhou Ye took action, the One-Leaf Boat, like a slippery fish, slid smoothly past his left side.

Swish ~

The Array of Doors of Myriad Wonders was broken, and after another twenty seconds, Han Fei still didn't see Zhang Haoran. He knew that the barrier would come sooner or later.

Sure enough, after running for nearly 80 seconds, Han Fei saw Zhang Haoran. An ordinary barrier must have been set up here.

However, no matter how ordinary the barrier was, it was set up by a Carefree Level powerhouse. Even if Han Fei had the Vast Ocean Navigator, he needed to be able to break this barrier.

However, with his current strength and methods, it was extremely difficult to destroy the barrier set up by a Carefree Level powerhouse.

At this moment, Han Fei said coldly, "Divine Demon Forest, Thousand Phenomena Sect, and Fist Sect, right? I'll remember your three powers."

Han Fei pinched a blue scale in his hand.

The Heaven-Defying Scale of the Azure Dragon was originally given by Senior Brother Azure Dragon to protect him from being attacked by the black dragon. He didn't use it in the Divine Capital Dynasty, but at this moment, it was really useful.

Han Fei didn't attack until the One-Leaf Boat hit the spiritual barrier. He knew that the boat couldn't pass, so he made a prompt decision.

Crack ~

Hearing this crisp sound, Zhang Haoran and the other two couldn't help but frown. This brat is still so calm even in a desperate situation. Is this trump card really strong enough to resist the three of us?

At the moment when the Heaven-Defying Scale of the Azure Dragon shattered, Han Fei was covered in a layer of green clothes. This layer of green clothes was like a dense dragon scale, completely fitting Han Fei's body.

From this green robe, Han Fei felt that a power was circulating on its own.

Han Fei immediately realized that it wasn't that Senior Brother Azure Dragon could give him the combat power of a Venerable, but that this scale itself had the Monarch-realm power. When he used it, it could operate on its own and unleash a powerful combat power against the enemy as if he were controlling a robot.

Although Han Fei didn't feel that his strength had soared, he felt that the power provided by the Heaven-Defying Scale of the Azure Dragon was in a full state.

His strength had barely reached the Immortal-Level.

Han Fei didn't know what the power of an Immortal-Level cultivator was like. Although he had experienced the power of a Great Monarch in Great Monarch Mystic One's memories, he seemed to have forgotten this power.

Therefore, Han Fei felt that his strength had barely reached the immortal level because he sensed the power of the Carefree Level. He felt that his current strength was slightly stronger than the Carefree Level.

Han Fei didn't know whether it was the Immortal Level or not, but the strength that the black dragon showed back then was at the Immortal Level. If this Heaven-Defying Scale of the Azure Dragon were not Immortal-Level, why did Senior Brother Azure Dragon give it to him and Feng Yu?

Therefore, Han Fei was 90% sure that he was stronger than these three people.

Although Lin Qianxue, Zhang Haoran, and Zhou Ye were all at the Carefree Level, Lin Qianxue was a manipulator and had extremely strong survivability. It would be quite difficult for him to kill her.

Judging from the Doors of Myriad Wonders that Zhou Ye had shown earlier, it could be seen that the things his sect mastered were relatively strange. He wasn't familiar with them, so it was difficult for him to judge.

Only Zhang Haoran used fist techniques. His style should be similar to the Fist Light Mountain. Most of them were strength-type. Perhaps he had mastered the law of control or some related laws.

But in any case, Zhang Haoran was the one he was most familiar with at this moment.

Therefore, Han Fei's first target was naturally this person.

Han Fei held the Star Explosion Fist in his hand, and his fist aura was dazzling as if he were in the Sea of Stars. Augmented by the divine technique of the Ragnarok, even the Star Explosion Fist could unleash an almost world-destroying fist power.

At that moment, Zhang Haoran and the other two looked horrified.

Zhang Haoran shouted, "Not good! It's the power of the Immortal Level."

"How is that possible?"

Zhou Ye and Lin Qianxue were dumbfounded. He was just a Sky Opener. How could he withstand the power of the Immortal Level?

Therefore, they immediately guessed that there was something wrong with the green clothes on Han Fei.

However, it was too late for them to guess it now. Han Fei stepped on the ground and moved at more than a hundred times the speed of light, giving Zhang Haoran no chance to escape.

"You barged into hell instead of heaven. Those who want to kill me usually don't end well. Kill."

With a thunderous roar, Zhang Haoran's seven orifices spurted blood. The iron fist mark was pierced through by Han Fei's blow, and his arms were instantly reduced to powder.

But the Star Explosion Fist was just the first punch of the Star Fist Technique. Han Fei cracked a smile, and the second Silencing Fist had followed up. With this blow, the roar of a dragon burst out from Han Fei's fist mark.

"Pfft!"

The dragon roar alone shocked Zhang Haoran so much that he vomited three mouthfuls of essence blood. But Zhang Haoran had no time to care about his injuries and immediately took out a green lotus leaf.

Bang!

Waves surged hundreds of thousands of kilometers in the air. Han Fei was a little surprised. What was this thing? It could block his punch?

Seeing that he had blocked the punch, Zhang Haoran picked up another precious jade with complicated patterns on it. Although Han Fei could completely understand it, he recognized at a glance that it was an escape talisman.

In the blink of an eye, he had used the Heaven-Defying Scale of the Azure Dragon. How could he let this guy escape? Han Fei waved his hand and a God Sealing Spear condensed between the heavens and earth.

“Pfft!”

When the precious jade was broken, the God Sealing Spear happened to pierce through Zhang Haoran’s body. When Han Fei felt that the world was filled with Dao patterns, he reached out and grabbed the God Sealing Spear, escaping thousands of kilometers away in an instant.

In the next moment, the place where the jade was broken collapsed, forming a teleportation channel.

Han Fei secretly breathed a sigh of relief. Then he found that Lin Qianxue and Zhou Ye had already run away.

Yes, after seeing Han Fei go on a rampage, they hesitated for a moment. But when they saw that Zhang Haoran didn’t even find a chance to escape, they immediately ran away.

Although they didn’t know what Han Fei used, they knew that if they didn’t run now, when Zhang Haoran died, they might be the next to die.

Zhang Haoran was horrified and said, “We can talk.”

“Talk my ass! You forced me to use such a precious trump card. Can you f*cking compensate me? Fist Sect, right? When I have the chance to go to the Central Sea Divine Realm in the future, I will definitely destroy your Fist Sect.”

Bang!

Han Fei no longer used the Star Fist Technique. Instead, he punched Zhang Haoran crazily with the Invincible Fist. The power of each punch could sweep millions of kilometers.

It wasn’t until Han Fei crushed Zhang Haoran’s bones and destroyed his soul that he stopped.

Rumble!

The death of a Carefree Level Monarch grieved the world. Half of the Infinite Mining Area felt the world darken. Then, thunder rumbled and pale red raindrops fell.

In the Hundred Alliance City, many people were puzzled. “Who died? Why is there such a big commotion?”

Someone frowned. “I’m afraid another Dao Proving level powerhouse has died! Someone fighting the Human Butcher again?”

Someone was speechless. “As I said, nine Dao Proving-Level Monarchs have died in a row. How can the Human Butcher be so easy to kill?”

Someone asked in confusion, “Why do I feel that this phenomenon doesn’t look like the death of a Dao Prover? Nine Dao Provers died before, but such a phenomenon didn’t appear. Why did such a phenomenon appear?”

Someone took a deep breath and said, “Could it be... a Carefree-Level Monarch?”

...

At the same time, at the edge of the northern mining area, a strong master of the divine beasts hurriedly wrote something on a bone. The divine beasts were hurriedly mobilized.

A moment later, another meeting was held.

The Golden Turtle said, “How is it? They should have succeeded this time, right? If a Sky Opener can escape from the Carefree-Level Monarchs, I will chop off your head.”

However, the Blazing Fire Kylin cast a complicated look at him and said, “I just received news that a Monarch-death phenomenon appeared in the sky and is likely to span half of the Infinite Mining Area. It should be the phenomenon of the death of a Carefree-Level Monarch.”

The divine beasts: “???”

The Golden Turtle: “???”

At this moment, the Blazing Fire Kylin took a deep look at the golden turtle and said, “Master Bao, please try to recall. Is there really nothing else special about this person? For example, does he have hidden strength? Was what you encountered just a clone of him?”

The Golden Turtle said, “That’s impossible. I can distinguish between the clone and the original body. Besides, the Emperor Sparrow was with him back then. How can I be mistaken? At that time, even some of his resources for his star transformation were taken from me.”

The Blazing Fire Kylin said, “It’s only been a hundred years. But this guy can already kill a Monarch now? Or do you know what inheritance this guy has inherited? Is it related to some super forces in the East Sea Divine Realm?”

I can accept it if you say that a Sky Opener can kill a Dao Prover. In the history of the divine beasts, there are such people. In fact, every generation has such a genius.

However, in the last million years, no Sky Opener had ever killed a Carefree-Level powerhouse in the divine beasts’ history.

At that time, the group of divine beasts stared at the golden turtle. They all knew the severity of the situation. This was simply crazy. If that Human Butcher could kill a Carefree Level powerhouse now, how could they still have a foothold in the Infinite Mining Area after he proved his Dao?

The Golden Turtle frowned and shook its head. “I don’t know! He doesn’t seem to belong to any power! Well, I remember now. This person seems to be called Han Fei. Well, yes, this person is very noisy, very narcissistic and timid...”

“Timid?”

The group of divine beasts looked at Master Bao speechlessly. The Human Butcher is timid? The Infinite Mining Area has almost been ruined by him, and you say he is timid?

“Han Fei?”

The Blazing Fire Kylin looked at everyone. “Does anyone know this name?”

However, all the divine beasts shook their heads. They had never paid attention to the messy information in the outside world. Besides, how could a minor character who hadn’t even entered the Star Transformation Realm be qualified to make a name in the Sea Realm?

However, the Blazing Fire Kylin still took out a bone token and sent a message to the people in the Hundred Alliance City. “Check the name Han Fei.”

After that, the Blazing Fire Kylin said, “Although it hasn’t been confirmed that a Carefree-Level Monarch has perished, it should be close to the truth. Master Bao, you personally convinced those three people. Did anyone see you when you met them?”

The Golden Turtle said, “No.”

The Blazing Fire Kylin breathed a sigh of relief. “That’s good. Then even if their factions want to blame us, it will be useless. The only trouble now is that the Emperor Sparrow is about to grow up. I’m afraid we have to tell the main branch about this in the end.”

The Golden Turtle said, “I know the nature of the main branch of divine beasts. If you tell them, they will definitely ask you to kill that Human Butcher first. Even if you want to tell them, you should say that the Human Butcher has already proved Dao, and so has the Emperor Sparrow. Only in this way will they be afraid. Otherwise, it will be useless.”

After a while, just as the Blazing Fire Kylin was about to adjourn, some information suddenly appeared on the communication jade bone.

The Blazing Fire Kylin subconsciously looked over, and then his body suddenly stiffened, and his eyes widened.

“Huff~”

A scorching flame spurted out of the Blazing Fire Kylin’s nose, and then the divine beasts saw faint red sweat on his forehead.

For a moment, even the Golden Turtle was curious. What message did he see? Why was he sweating?

The next moment, the Blazing Fire Kylin swallowed and suddenly raised his head. His voice was a little trembling. “It’s over. Quickly inform the main branch. Something big has happened this time.”

The lightning flood dragon asked, “Old Huo, what information did you get? Why are you so scared?”

The other divine beasts also looked at the Blazing Fire Kylin curiously. The latter took a deep breath and said with difficulty, “We can’t kill the Human Butcher.”

The golden turtle asked, “Why? That’s the master of the Emperor Sparrow. If he doesn’t die, the Emperor Sparrow will live.”

The Blazing Fire Kylin asked, "Master Bao, do you know who he is?"

The Golden Turtle said, "Don't be afraid of anyone. Behind you stands the main branch of the ferocious beasts."

The Blazing Fire Kylin raised his voice and roared, "The Void Temple is behind him."

The divine beasts: "???"

The Blazing Fire Kylin said in a hurry, "Han Fei, the first place of the 100,000-year competition of the Divine Capital Dynasty this time, killed Zhao Qinglong, the tenth powerhouse on the God Roll of the Sky Opening Realm. When he left the Divine Capital Dynasty, he was hunted by many Monarchs, so he summoned a senior brother from the Void Temple. His senior brother then swept through all the strong masters alone, fought his way to the Gate of Heaven, and stepped on the Great Monarch of the Heavenly Race. From then on, his name as a disciple of the Void Temple resounded throughout the East Sea Divine Realm. Even the Time Temple had fought over him, hoping that he would join them. Master Bao, since you know his name, why didn't you tell me earlier!"

The Golden Turtle was stunned for a moment. The Void Temple? Is this guy f*cking kidding me? Who the hell knew that this guy's background would be so terrifying!

Which was stronger, the Void Temple or the divine beasts' main branch? In the primeval era, at their golden time, the divine beasts might not be weaker than them. But now, the Three Temples stood at the top of the Sea Realm. Even the major divine races in the Central Sea Divine Realm didn't dare to provoke the Three Temples.

Especially the Void Temple, they had very few disciples, but every disciple who had fully grown up was almost an existence that could suppress an era.

For a moment, the divine beasts panicked.

The lightning flood dragon asked, "What should we do? If the Void Temple takes revenge, how can we withstand it?"

The silver wolf said, "It's over. Since we can't kill Han Fei, it means that the rise of the Emperor Sparrow is inevitable. Our divine beasts will be doomed!"

A divine feast said, "Old Huo, shall we go back to the main branch?"

Just as the divine beasts panicked, the Golden Turtle hurriedly said, "Don't panic, don't panic... The Void Temple follows rules. Every generation of their disciples has to rely on their own strength to gain experience outside. His senior brothers and sisters won't take action easily unless you don't follow the rules..."

Speaking of this, the Golden Turtle also felt a little guilty. It seemed that he didn't follow the rules. He persuaded three Carefree-Level powerhouses to hunt a disciple of the Void Temple who was only in the Sky Opening Realm. Therefore, Han Fei's senior brother and sisters could indeed destroy this branch of divine beasts at any time.

The Golden Turtle said, "Just contact the main branch! Hurry up."

After thinking for a moment, the Golden Turtle said, “Well, quickly tell the main branch that I want to go back. According to the habits of the Void Temple, since Han Fei is not dead, they won’t kill all the divine beasts of this branch. But I won’t be forgiven. I have to run first.”

Chapter 2648: The Godfiend Sea, Line Up to Give Gifts (2 in 1)

2648 The Godfiend Sea, Line Up to Give Gifts (2 in 1)

After Han Fei used the Heaven-Defying Scale of the Azure Dragon, he was at his peak state. And the time limit for the use of the Heaven-Defying Scale of the Azure Dragon was based on the power contained in this scale.

So far, Han Fei had only killed Zhang Haoran, which didn’t even use one tenth of the power of the Heaven-Defying Scale of the Azure Dragon.

At this moment, he hoped that someone would kill him.

However, although the power was strong, it couldn’t be displayed for long under the watch of the heavens. It wasn’t that there were no Immortal-Level mine demons in the Infinite Mining Area. In fact, no one could guarantee that there weren’t any Immortal-Level powerhouses lurking in the dark in the Infinite Mining Area.

Therefore, although Han Fei only killed one person, he could only give up. After collecting one of Zhang Haoran’s arm bones, Han Fei flew towards the Godfiend Sea at a hundred times the speed of light.

Less than a hundred seconds later, Han Fei saw the dark sea. When he approached, tentacles were baring their fangs and brandishing their claws.

Different from the first time, when he first saw the Godfiend Sea, those dark tentacles bared their fangs and brandished their claws. Anyone who wanted to approach would be dragged into the Godfiend Sea by these dark tentacles.

But this time, when Han Fei saw the tentacles, he had mixed feelings. He felt that he was finally home and could finally get rid of his bad luck.

What he wanted to do was to quickly send the Demon God away so that he could restore his luck and no longer have to worry about misfortune.

Therefore, this time, Han Fei was not afraid at all. With a flash, he dodged the dozens of dark attacks and stepped into the boundless darkness.

Since the fall of the Demon God, it had been more than 1,800,000 years since the appearance of the Godfiend Sea.

In the past, there were countless strong masters suppressed in the Godfiend Sea, so Han Fei was actually a little nervous when he entered. After all, not everyone who walked the Dao of Extreme Balance could stay sober.

Therefore, the Godfiend Sea wasn't necessarily very safe. His top priority was to find the original body of the Demon God and take the heart and soul heritage over. Only when the two were combined would his trip be meaningful.

As soon as he entered the Godfiend Sea, it was completely dark and silent. Han Fei didn't know how many strong masters were hiding here, but at least he didn't sense any strong masters after he came in.

In order to suppress these people, the Demon God couldn't connect to his Origin Star here, nor could they release their perception far away. Their perception range was only about 100,000 kilometers. In such a large area, the perception range of 100,000 kilometers was useless.

In addition, Han Fei felt a dark, crazy divine intent trying to attack his soul and invade his body.

Han Fei asked, "Senior Demon God, are you there? I've entered the Godfiend Sea."

Since he had entered the Godfiend Sea, logically speaking, it should be within the suppression range of the Demon God, so this place should be under the supervision of the Heavenly Dao.

Naturally, the Demon God's voice finally sounded again. "I know, what you are feeling now is the spiritual mark left behind by a large number of former mutants after their death. However, with me around, these powers can't corrode you. You can digest and absorb these powers by operating the Dao of Extreme Balance."

In the next moment, Han Fei clearly felt a strong attraction in the Godfiend Sea.

Buzz!

This power bloomed like infinite ripples, and at the moment this power appeared, a voice said from the void, "Welcome back, Demon God."

"Welcome back, Demon God."

Han Fei didn't even know where these people were, but he heard their calls. The expected attack by the mutated powerhouse didn't happen.

The Demon God said, "After countless years, only those who can survive the corrosion of time can stay. But it's not absolute. So, don't listen to these voices. Just focus on finding my original body. My original body guards the central area of the Godfiend Sea. It's not difficult to find it."

Han Fei didn't dare to be negligent. He had already come this far, so he couldn't make any mistakes here. While he still had the power of the Immortal Level, he should be able to deal with the mutants.

Han Fei accelerated again. This time, he didn't need the Vast Ocean Navigator. Because the connection between the heart of the Demon God and his body was too strong, Han Fei's sense of direction was extremely precise.

Racing wildly, Han Fei's speed reached a hundred times the speed of light. It was not that the speed of an Immortal-Level powerhouse was only a hundred times the speed of light, but that this was the fastest and most extreme speed that he could exert according to his comprehension of speed.

When he proved Dao and gained some understanding of speed, he might be able to burst out with faster speed, but not now.

Half a day later.

Han Fei saw the first sealed powerhouse. It was a giant crocodile whose body had partially mutated. Its body was more than 30,000 feet long, and its body bulged like a large tumor. On its back was a row of serrated wind blades, and its claws were curled like hooks, clasped in the yellow-brown ground. Its huge dark red eyes startled Han Fei when he first saw them.

Just like when he saw the old turtle, it was bound by countless black chains. These chains were extremely suppressing. Even if it knew of Han Fei's arrival, it only twisted its head slightly.

"Lord Demon God, you've finally returned."

However, the Demon God ignored him, so did Han Fei. But after passing by the giant crocodile, Han Fei saw one suppressed powerhouse after another along the way.

There were giant whales that were tied up, crabs that had all their claws locked, big fish that looked like a ball, and even... Han Fei saw a humanoid powerhouse whose face was full of Dao patterns and talismans and whose body was full of tattoos.

When the man saw him, he only put on a smile that he thought was kind, but this smile was extremely creepy in Han Fei's eyes, because the man's mouth was opened into a strange flower.

Han Fei: "..."

In addition to those who were still alive, there were also some places where Han Fei saw mountains of bones. Those bones were engraved with black Dao patterns, and some were even emitting a dazzling green light.

It was not until Han Fei passed by a giant turtle that he suddenly stopped.

"Old Yuan?"

After seeing Han Fei, the big turtle said in a booming voice, "I knew you could do it. My efforts weren't in vain."

Han Fei stopped. "So, all of this was planned by you from the beginning?"

Old Yuan said, "There's no absolute plan. It's more of a coincidence. Not everyone can summon me. When I saw your life experience, I knew that you were the one who would crack the situation. It can only be said that everything has its own arrangements. But the more this is the case, the more amazing it is. Is this the arrangement of the heavens or fate? There are still many unknowns in this world that we can't see through. For example, why is it you who came here?"

Han Fei: "..."

The old turtle didn't seem to care if Han Fei understood her or not. He just said, "Go! When the Demon God returns, we can lift the seal."

Han Fei nodded and continued to move forward. After another two hours, he finally came to a huge sitting statue. It was exactly the same as the statue he saw in the God Burying Ridge.

However, this one was even taller. Humans, or any creature, would instinctively look up at the giant. To put it bluntly, it was the worship of the giant.

Han Fei was stunned for a few seconds. Then, he flew up uncontrollably. At this moment, Han Fei was a little angry. Didn't the Demon God say that he just temporarily stayed in his body? How could he still control him?

The Demon God said, "Don't panic. We've already come this far. This last step is not a big deal."

In the next moment, Han Fei came to the heart of the colossus.

Then, a large amount of black smoke seemed to be forcibly extracted from Han Fei's body. In the end, it turned into a beating heart and floated towards the elephant's chest.

Han Fei felt that his body was relaxed, which meant that the Demon God had completely left his body.

However, the departure of the Heart of the Demon God made Han Fei immediately feel a tremendous amount of negative emotions, excitement, mania, and riot, which combined together to attack his soul.

However, these powers appeared very briefly, because in the next moment, like the spiritual energy between the heavens and earth, they were crazily sucked in by the body of the Demon God.

Han Fei looked around and saw that in all directions, a certain power in the darkness turned into pillars of energy and entered the body of the Demon God.

Soon, when Han Fei felt that the pressure at his position was getting heavier and heavier, he immediately left the Demon God. At first, he retreated a hundred kilometers, then a thousand kilometers, and then ten thousand kilometers.

He saw infinite dark chains drilling into the body of the Demon God.

Crack ~

A crack appeared on the giant elephant's cheek. Then, there were cracks in its neck, chest, arms, and many other places. And within ten thousand kilometers, the unknown power that was originally only the dark chains gradually turned into a huge energy net, absorbing the power of all directions and gathering in the body of a Demon God.

"Pu! Pu! Pu!"

Three hours later, with a bang, Han Fei felt as if he was suffocating. An indescribable sense of dignity suddenly descended, making him spit out three mouthfuls of essence blood, causing him to retreat again. After retreating nearly 100,000 kilometers, Han Fei could still see the place where the Demon God was.

After this explosion, Han Fei saw the true body of the Demon God appear, which was a pure human form.

As the humanoid giant rose, the entire Godfiend Sea began to tremble.

At this moment, Han Fei held his breath. Is this a real god?

The moment he stood up, Han Fei heard the sound of chains snapping in the Godfiend Sea.

Ka ka ka ~

Han Fei's first thought was that all the people suppressed here had been unsealed.

However, these people were actually still in a mutant state. There was still a problem with the Dao of Extreme Balance they took! If they were released now, wouldn't there be a problem?

Buzz!

In the next moment, a young man carrying a shield appeared in front of Han Fei.

Han Fei: "???"

He said, "It's been too long. Those who are completely mutated have long died. Those who are partially mutated can still maintain the clarity of their souls, like me, so it's not a problem for them to be released. However, don't expect them to be all good people."

Han Fei glanced at the shield behind him that looked like a pendant with some mysterious Dao Patterns on it. It even looked a little ragged.

Han Fei asked in confusion, "Who are you?"

The man said lightly, "Old Yuan."

"Puff ~"

Han Fei was speechless. He quickly stepped back. "Let's not lie at this point. Old Yuan is a female."

The young man glanced at Han Fei casually. "I've mutated."

Han Fei: "..."

Han Fei found it hard to accept. "Others become uglier when they mutate, but why did you mutate from a female into a male?"

Han Fei had always thought that Old Yuan was a man, because the image of a woman was far different from Old Yuan he remembered.

Old Yuan said, "It's normal for sea demons to be hermaphrodite. I deliberately mutated in this direction. However, if I've guessed right, my clone has successfully transformed into a woman."

Han Fei: "???"

The old turtle said, "Yin-Yang Twins. Little Black and Little White inspired me. Have you ever thought that Little Black and Little White are very suitable for the Dao of Extreme Balance?"

"Uh ~"

Han Fei had never thought about it, because Little Black and Little White had grown too fast since they entered the Sky Opening Realm. If he guessed right, after the two of them woke up, they would have at

least four Dao Locks even if they didn't have five. Therefore, he had never thought of letting Little Black and Little White embark on the Dao of Extreme Balance.

The old turtle said, "When my clone is completely rebuilt, my path will actually be opened."

Han Fei opened his mouth. "Then should I still call you Old Yuan?"

Old Yuan said, "Sure. After all, we survived after going through countless life-and-death battles."

Not far away, Old Yuan looked up in the direction of the Demon God, only to see that the aura on the Demon God's body was constantly rising, and his body was constantly shrinking.

Old Yuan cupped his hands. "Greetings, Demon God."

"Greetings, Demon God."

Swish! Swish! Swish!

At the same time, a figure came over.

Someone said to Han Fei, "Boy, well done."

The speaker was a toad with eight eyes and six legs. Its mutation was obvious, but it was sober and didn't look like the so-called demons at all.

Following that, more and more people arrived.

Someone said to Han Fei, "Boy, I, Demon Butcher, owe you a big favor. If I can leave here in the future, I will definitely fulfill any request you make."

Someone laughed. "Human, I heard from East Martial that your name is Han Fei? Not bad, not bad. You are truly our comrade. We all owe you a favor."

A big crab shouted, "You guys are not practical at all. Everyone says that we owe him a big favor. But since Little Friend Han Fei can bring Lord Demon God back, does he even care that you owe him a favor? I don't even know when you can leave the Godfiend Sea."

Han Fei saw that it was a humanoid creature. Eight slender crab claws grew out of his back and he was crawling with the crab claws. This was a serious mutation.

The man said, "Young friend Han Fei, I have a pair of scissors, the God Shattering Scissors. They're no longer useful to me, so I'll give them to you. Of course, I still owe you a favor."

After that, Han Fei saw a pair of scissors the size of a person flying towards him.

Just by looking at the scissors, Han Fei knew that they were extraordinary. When the scissors were not opened, they could be used as a kind of cone sting and looked extremely sharp.

In Han Fei's eyes, information emerged:

<Name > God Shattering Scissors

<Introduction > The Divine Shattering Scissors, also known as the Cause and Effect Scissors, are made of the pincers of the Coiling Dragon Crab without any refinement or polishing. The Divine Shattering

Scissors can snip any law and can snip anything below the Immortal Level. This pair of scissors can also snip karma and cut out some simple Cause and Effect connections with mystic divine power. Apart from that, the combat power of the Divine Shattering Scissors is comparable to an ultra-quality godly weapon. It can continuously exert Monarch-realm power according to the amount of power provided.

<Quality > Connate Spiritual Treasure

< Attached Soul > None

<Effect > Cut the law, the void, and karma.

<Recastable >

<Unrefined >

<Note > A Divine Shear Coiling Dragon Crab will only give birth to one Divine Shattering Shear in its entire life.

“Sh*t!”

Han Fei was stunned. A Connate Spiritual Treasure? Who could resist that? After all, the God’s Prayer Bead that he had obtained after so many hardships were only an Acquired Spiritual Treasure and the same level as the God Shattering Scissors.

The old turtle said, “These scissors are not bad. Xie Wukuan is generous this time.”

Han Fei didn’t have the means to fight strong masters in the first place. Now that he had the God Shattering Scissors, in addition to the Extreme Cold Pearl, he had another trump card. How could he let go of such a treasure?

Han Fei took the scissors and quickly thanked him. “Thank you, Senior Xie.”

Xie Wukuan shook his head. “I should be the one thanking you. If you hadn’t come, I would have died in another hundred thousand years. So, you gave me a chance to be reborn.”

At this moment, he saw the giant crocodile that he saw just now turn into a human form, but its mouth still retained the shape of a crocodile and it had a long tail.

The giant crocodile said, “I can’t thank you enough. I have a life scale here that can withstand a blow from a Great Monarch-level powerhouse. It can resist an Immortal-level powerhouse for at least 30 seconds.”

Old Yuan said to Han Fei, “This is the Life Scale of the Eastern Divine Crocodile. He can only give birth to three such scales in his lifetime. If it’s on him, this scale can block a Great Monarch for a hundred seconds. If it’s plucked out and given to you, its quality will be greatly reduced, but you deserve it. It’s a good item.”

The human-like powerhouse he saw earlier came not far from Han Fei and nodded slightly. With a flip of his hand, he threw a palm-sized piece of mud over.

Old Yuan said, “This guy’s name is Li Tiangan. This piece of soil was the Universe Vast Soil dug from the Sea of Chaos at the depths of the Sea of Stars. Although it’s only palm-sized, it can directly increase the

strength of your Origin Star by one level. You heard it right. No matter how big your Origin Star is, it can directly improve your Origin Star by a full level in an extremely short period of time.”

“F*ck, is there such a treasure in this world?”

Han Fei secretly took a breath. Didn’t this mean that a palm-sized piece of Universe Vast Soil was comparable to a million cubes of Chaotic Spiritual Earth?

It was over. A red demonic flower turned into a human, but perhaps because of her mutation, her upper half body was stunningly beautiful, but her lower half body was twisted like a tentacle monster.

The woman said, “Little friend Han Fei, this trip was not easy. I have a spiritual fruit for you.”

Upon hearing this, even Old Yuan revealed a burning look.

When the bright red fruit flew to Han Fei, everyone looked at him.

Han Fei even heard someone swallowing. Before the old turtle said anything, information popped up in Han Fei’s eyes.

<Name > Divine Tribulation Fruit

<Introduction > This spiritual fruit is the North Sea Demon Flower’s life-long work. It blooms once every 100,000 years and bears fruit every 300,000 years. It can only produce nine Divine Tribulation Fruits in a lifetime. The Divine Tribulation Fruit can block one divine tribulation.

<Level > Divine

<Quality > Ultra-Quality

<Effect > It can resist divine tribulations. Each person can take up to nine in their lifetime.

“I...”

“Gulp ~”

Han Fei swallowed. How could there be such spiritual fruits in this world? This North Sea Demon Flower could produce nine Divine Tribulation Fruits in its life. If all nine of them were given to one person, wouldn’t it mean that this person would definitely become a god?

However, no wonder so many strong masters here were looking at this spiritual fruit with greedy eyes. At their level, who didn’t want to become a god?

This fruit could help them resist a divine tribulation. Who wouldn’t want it?

The old turtle said, “This is the North Sea Demon Flower, Jiang Honghua. This fruit is the Divine Tribulation Fruit. After taking it, you can avoid a divine tribulation. It’s a waste to give it to you now. Do you want to exchange it for some treasures with me?”

Han Fei tilted his head and looked at the old turtle. Hehe, what do you want to exchange for such a treasure?

Han Fei shook his head. “No.”

The old turtle seemed to have expected it, so he didn't care. He casually took out the turtle shell on his back and said, "They have all given you something. You and I are deeply fated. How can I not give something to you? This turtle shell has more than two million years of history since I was born. It's already a Spiritual Treasure of Heaven and Earth. If it could have been nurtured in the Chaotic Void, it might have become a Chaotic Spiritual Treasure. Unfortunately, it's only a Spiritual Treasure of Heaven and Earth now."

The old turtle said, "This is a real Mystic Martial Monarch Armor. Even Great Monarchs can't break it. Besides, it carries a divine technique, the Turtle Shell Sky Sealing Technique. With this shell, you can use the Turtle Shell Sky Sealing Technique at any time, but you need to inject enough power of heaven and earth in advance."

Han Fei's eyes widened. "Turtle Shell Sky Sealing Technique? I can use it an infinite number of times?"

The old turtle said, "Yes."

"Oh my god."

Han Fei hurriedly hugged the Mystic Martial Monarch Armor, but the old turtle didn't care. He said indifferently, "Although you have the treasure armor, you can't just hold it to resist the attack of a Great Monarch-level powerhouse head-on. In that case, even if the turtle shell doesn't break, you will be killed on the spot. Therefore, no matter how good the treasure is, you have to have the strength to use it."

There were still many strong masters who were queuing up, preparing to give gifts to Han Fei.

At this moment, there was a buzzing sound not far away. The suction power seemed to have reached its limit, and the Demon God's eyes opened slightly.

The first thing the Demon God said was, "You can owe him a favor, but you can't give him too many resources. The strong never completely rely on resources. Too many resources will damage his Dao heart."

God of Fishing

Chapter 2649: Advantages of Dual Killing of Body and Soul(2 in 1)

2649 Advantages of Dual Killing of Body and Soul(2 in 1)

Since the Demon God had spoken, no one gave him any more treasures. Many powerhouses took back the treasures they had taken out.

Han Fei wanted to say, "No matter how many treasures you give me, it won't hurt my Dao heart."

At this moment, Han Fei really wanted to slap this Demon God. He thought to himself, Is it easy for me to travel all the way to the Godfiend Sea just to get a few treasures?! With your order, all the treasures are gone.

Although Han Fei knew that the few treasures he had obtained were already very precious, who didn't want a few more treasures?

Sure enough, someone said, "Little friend Han Fei, we owe you a big favor. When we can leave the Godfiend Sea in the future, if you need any help, just come to us."

Han Fei thought to himself, I do want to find you, but how can I find you?

However, as soon as this thought flashed through his mind, he saw Jiang Honghua drip a drop of essence blood and fly to Han Fei. "Little friend Han Fei, this is a Blood Seal. When we escape in the future, with this seal, as long as we are in the same divine realm, you should be able to find us. Of course, if we are not in the same divine realm, you might not be able to contact us with this Blood Seal."

Old Yuan said, "Although the Blood Seal cannot be used across divine realms, if you are in the same divine realm as one of them, the Blood Seal will light up and you can use it."

Then, Li Tiangan and the others also threw out a Blood Seal each. Then, Han Fei saw 1,072 Blood Seals at once, which stunned him. If he had a chance to use them in the future, wouldn't he be able to do whatever he wanted in the entire Sea Realm?

Old Yuan continued, "Don't take Blood Seal as essence blood to improve your bloodline. You're about to prove your Dao. After the Monarch-level Tribulation, your bloodline will undergo a huge leap. Normally, it'll be a greater improvement than fusing with a high-level bloodline."

Han Fei nodded slightly. After his bloodline improved again, he didn't plan to conduct Bloodline Devouring again. He didn't know if he could directly try the bloodline of the Emperor Sparrow or Little Black and Little White after he proved his Dao.

At this moment, the figure of the Demon God seemed to break free from the boundless darkness. Instantly, everyone's eyes were attracted.

The Demon God stepped in the darkness and wore white clothes, looking handsome and extraordinary. Han Fei was stunned, wondering why the Demon God was dressed in white.

Immediately, everyone shouted, "Welcome back, Demon God."

The Demon God glanced at everyone, seeming a little regretful and gratified. He said, "I didn't expect that after I left, the world has changed so much. Of the million demons in the past, there are only 1,072 of you left now. Hahaha..."

When the Demon God said the word "demons", his tone was teasing and he even laughed out loud.

"Hahaha!"

Someone laughed. "Yes! This path is difficult. If you had waited a hundred thousand years later, I'm afraid there would only be more than five hundred left here."

Someone said proudly, "At least you're back. It seems that the heavens haven't abandoned us. Lord Demon God, have you found that path?"

For a moment, Han Fei looked at these people, only to see that their eyes were filled with hope. Even if they hadn't gotten a definitive answer yet, many people's hearts were pounding like thunder.

The Demon God said leisurely, "Yes and no."

Everyone was about to rejoice when they heard the second half of the sentence. They fell silent again, as if they were listening to the Demon God's follow-up explanation.

The Demon God said, "I've found the path, but it's too difficult to popularize. The Dao of Extreme Balance requires dual spiritual heritages. Many methods we've tried before don't work. Even if I try the method of creating spiritual heritage thousands of times, it won't work. In the end, I can only forcibly open the Soul Sea and reshape the innate soul heritage. This plan might work once or twice, but if it's done repeatedly, it will inevitably trigger the Soul Sea taboo. At that time, even gods won't be able to resist that unknown power."

"Alas!"

Someone said, "Forget it. It seems that this path is not suitable for us after all!"

Someone sighed. "Forget it. After so many years, we've done our best. It seems that for us, the Great Monarch is the end of this path."

Someone sighed. "It's a pity, but not a pity. After all, Demon God has walked through this path. And... Little Friend Han Fei?"

The Demon God nodded slightly. "He walked it through too. He is a person born suitable for this path. You don't have to be obsessed with this. If you all want to be the strongest, there'll be no strongest in this world. However, all these years, I have gained something."

The Demon God said, "I have a technique that can transform Dual Extreme Dao into Singular Extreme Dao. At the same time, it can resolve the aberrations in your bodies. Even the aberrations in your souls will be relieved after you embark on the path of Singular Extreme Dao. Furthermore, it will allow your strength to improve greatly in an extremely short period of time, but it won't make you directly fuse with the Dao. However, you'll have the hope of becoming Great Monarchs."

Yes, not all the strong masters here were at the Great Monarch level. Otherwise, 1,072 Great Monarchs would crush the entire Sea Realm!

However, Han Fei still maintained the Immortal-level strength. He could sense that these people had all reached the Immortal Level.

But it did make sense on second thought. Those who survived more than 1,800,000 years in the Godfiend Sea couldn't be weak.

After all, the Demon God had just said that there might have been a million people here in the past, but there were only a thousand left now. It could be seen how many people had died over such a long period of time.

"We'll cultivate it!"

Almost immediately, everyone gave feedback. They had been trapped in the Godfiend Sea for too long. Now they had a chance to increase their strength, get rid of their aberrations, and become Extreme Dao powerhouses. This was already an excellent choice.

Yes, the Demon God was right. If everyone wanted to be the strongest, there would be no strongest. Therefore, being the strongest was something only a small number of people could do. And most people, as long as they ensured that they didn't die, they were already top powerhouses.

Han Fei looked at these people and felt that if it were him, he probably wouldn't be able to stand such long-lasting loneliness.

Besides, he suddenly had a feeling that this might be a path for the strongest, but it was definitely not the only path to becoming the strongest. Otherwise, the Demon God would become the strongest in the world in the future.

Han Fei didn't quite believe it. In the vast river of history, people had definitely tried the Dao of Extreme Balance. Whether it worked or not, it was drowned in the river of history and no one knew.

The Demon God said, "Everyone, I've just returned and my dual spiritual heritages haven't completely stabilized. I need to cultivate in seclusion for a period of time, at most half a year. During this period of time, you can take Han Fei to learn some information about the outside world. After that, you might need to cultivate for a hundred to a thousand years and slowly transform into Singular Extreme Dao."

Han Fei was slightly relieved. Half a year was fine. In half a year, it would be the next gathering of the Void Temple. If he guessed right, Feng Yu should have proved Dao. When the time came, he would have fruits to eat. It was best not to miss this gathering.

Someone smiled and said, "Demon God, please cultivate in seclusion. It's been a long time since anyone came to the Godfiend Sea. Let's chat by ourselves."

Old Yuan smiled mysteriously. "Chat? What Han Fei is best at is not chatting, but... eating."

...

An hour later, surrounded by a group of strong masters, Han Fei actually started a fire in the Godfiend Sea.

However, the only thing that Han Fei didn't like was the death energy, intimidating aura, and the mutated soul power here. Although he could digest and absorb it, it didn't feel good.

After transforming the power in the Godfiend Sea, Han Fei simply used it to light a fire and cook.

If anyone else were here, they would probably mutate in a few hours. If the energy here had a strong conflict with their cultivation, they might even explode and die.

Swish ~

While Han Fei was grilling sea cucumbers, he saw a tongue shoot out of nowhere and take away a sea cucumber several meters long.

"B*stard, Sky Ghost Toad, you b*stard, how many have you stolen? If you steal any more, believe it or not, I will pull out your tongue!"

Old Yuan was lost for words. "Xie Wukuan, are you stupid? Why do you keep calling people b*stards? Believe it or not, I'll cut off your pincers!"

On the other side, Li Tiangan and Jiang Honghua were sitting in front of a big pot of hot pot, surrounded by eight people who had similar personalities to them and were relatively low-key. Han Fei gave them chopsticks, and they used chopsticks. They looked unhurried, but in fact, they were eating quickly.

At this moment, a crocodile's mouth leaned over from the gap between them, trying to roll some meat away with its tongue. However, in the next moment, Li Tiangan pressed down on the crocodile's head, creating a huge pit on the ground.

There were 150 such pots, but they hadn't learned the skill of barbecue yet, so a group of people gathered around Han Fei, grinding seasonings with Han Fei, roasting barbecue, and cursing those who stole food now and then.

Han Fei didn't expect that he would come all the way to the Godfiend Sea just to cook!

The demonic cultivators in the rumors were all ferocious, ruthless, bloodthirsty, and so on. However, Han Fei felt that these people looked very good, not at all like the rumors.

As if sensing Han Fei's feelings, someone said bluntly, "Little Friend Han Fei, the outside world's evaluation of us is half true and half false. Some of us have mutated physically, and some have mutated in their souls. There are many who have lost their minds from cultivation. Including us, if we are stimulated by some strong uncontrollable factors, we will still fall into that bloodthirsty and murderous state. This is also one of the reasons why we need to be shackled."

Old Yuan also said, "There used to be a million demonic cultivators here, who walked the Dao of Extreme Balance. Half of them died because they had lived for too long and had too many hidden illnesses in their bodies. The other half died because they fell into a desperate and crazy situation and were killed by us. To them, death is the best end. Therefore, the only ones who can stay now are the thousand of us. Our spiritual power and soul power are abnormally powerful and we never give up even if we're in a desperate situation, so we can survive."

Han Fei finally understood that cultivators taking this path would inevitably have problems. However, he came at the right time. Those who had problems had all died. What was left was naturally these relatively normal ones.

Someone was curious. "Little friend Han Fei, what's the outside world like now? Have the gods defeated the ominous?"

Someone asked, "Little friend Han Fei, has anyone caught a treasure above the level of Chaotic Spiritual Treasure from the Sea of Chaos?"

Someone asked, "Has a new Fist God appeared on the Fist Light Mountain?"

Someone asked, "Has the Southern Dipper been destroyed?"

"..."

Han Fei: "???"

Han Fei thought for a moment and said, "Seniors, I've just come to the Sea Realm not long ago. At present, I've only stayed in the East Sea Divine Realm and haven't been to other divine realms or entered the Sea of Stars. At present, there are no gods in the Sea Realm. Well, now there is Senior Demon God. It's said that the other gods have all disappeared in the battle against the ominous."

After a pause, Han Fei said, "I don't know anything about the Sea of Chaos. No new Fist God has appeared on the Fist Light Mountain. At present, there are only Great Monarchs guarding it... The

Southern Dipper should be an assassin organization from the Southern Dipper Organization. I haven't met any of them so far."

Han Fei answered a bunch of questions in one breath, but most of the time, he was saying that I don't know much about the Sea Realm, so you don't have to ask me.

Li Tiangan said, "Little friend Han Fei, can you tell us about the current situation of the Sea Realm?"

Han Fei thought for a moment and said, "Well, about 130,000 years ago, the Sea Realm welcomed the Age of Doom. Since it entered the Age of Doom, I haven't heard of any gods appearing in the Sea Realm. As far as I know, the Immortal Temple is the most active power. They start wars everywhere from the North Sea Divine Realm to the East Sea Divine Realm. As for the others, the development of all the forces has slowed down and there's no one particularly outstanding. Well, there's one, which is the Heavenly Race in the East Sea Divine Realm. They're bossy all day long and lawless just because they have a Great Monarch..."

No one heard anything interesting, but they could tell that Han Fei really hated the Heavenly Race. He probably had a conflict with them.

The Eastern Divine Crocodile said, "Little friend Han Fei, you are the only one who can perfectly control the Dao of Extreme Balance. Why don't we have sparring?"

"Uh ~"

Someone said, "Old Crocodile, don't forget that you haven't become a Singular Extreme Dao cultivator yet. What's the point of sparring now?"

However, the Eastern Divine Crocodile said, "Of course it's meaningful. Don't forget, Little Friend Han Fei can control the Dao perfectly. He was born with dual spiritual heritages, while we're cultivating it by force. Do you know the difference? No one knows unless Lord Demon God consolidates his strength and spars with us."

As soon as he said this, many people were tempted.

Yes, they cultivated the Dao of Extreme Balance by force. But Han Fei was different. He was born with dual spiritual heritages. Was there really no difference between them?

Old Yuan said, "Then suppress your strength to the Perfected Star Transformation Realm. Also, just fight with the body and the soul and don't use too many great techniques. This way, we can see more clearly."

Han Fei was also intrigued. It was actually meaningless to just eat and drink with them. Besides, unlike them, he was cultivating the Supreme Divine Technique of the human race while cultivating the Dao of Extreme Balance. This meant that even if he didn't do any cultivation, his strength would still increase.

Even though he already had five Dao Locks, Han Fei felt that the influence of the Supreme Divine Technique on his Origin Star hadn't stopped.

Nothing could be seen in the short term, but if he stayed in the Godfiend Sea all the time, he would have to operate the Dao of Extreme Balance all the time. If so, God knew if it would cause his strength to rise uncontrollably.

However, he had already perfected his Dao of Extreme Balance technique. This would form a strong conflict with the Supreme Divine Technique. Therefore, at this moment, Han Fei did need to fight. One was to explore the Dao of Extreme Balance and the other was to release the power he had absorbed.

Han Fei rose. "Senior, excuse me."

The Eastern Divine Crocodile grinned. "It's okay. Some things can only be highlighted in battle. Come on."

For a moment, everyone made way for a battlefield. Anyway, they were a group of super powerhouses and wouldn't care about the impact of the power of the Perfected Star Transformation Realm.

The body of the Eastern Divine Crocodile swelled and turned red. He didn't believe that Han Fei was an ordinary person. As the only Heavenly Talent with two spiritual heritages in the world and young cultivator who could rescue the Demon God under the guidance of the old turtle, how could he be ordinary?

Therefore, the Eastern Divine Crocodile showed no mercy at all.

No one felt that there was anything wrong with what the Eastern Divine Crocodile did. If it were them, they would have chosen to do the same, because no one would underestimate Han Fei now that he had made it this far.

Two beheading knives appeared in Eastern Divine Crocodile's hands. As he brandished them, the knife light was neither fast nor slow. There was no special usage, just a knife light.

Not to be outdone, Han Fei punched out. He didn't even use the path of invincibility. This was a pure competition, so it wasn't fancy.

The Eastern Divine Crocodile used the third power born from the Dao of Extreme Balance. The basic characteristic of this power was the dual killing of body and soul. This was also what Han Fei had grasped so far."

However, Han Fei was somewhat surprised. This should be the characteristic of the Ragnarok, right? The Dao of Extreme Balance only balanced the soul and power, but it couldn't directly fuse into a third power.

However, when Han Fei's fist collided with the saber of the Eastern Divine Crocodile, he did feel the effect of the dual killing of body and soul, but this power seemed to be different from the chaotic origin power of the Ragnarok.

The Eastern Divine Crocodile was suppressed by Han Fei's fist mark and retreated crazily. But this suppression only lasted for a minute. The power in the knife light seemed to be changing, and in the end, it cut through Han Fei's fist light in one fell swoop.

"Huh!"

Seeing that Han Fei's fist mark was broken, the Eastern Divine Crocodile said, "Little friend Han Fei, your cultivation of the Dao of Extreme Balance is still shallow. You have to know that this is the combination of two powers, but its application is ever-changing."

The Eastern Divine Crocodile said, "For example, you can try wrapping another power with one power. One floats outside, and the other hides inside."

"Use them separately?"

Han Fei was a little surprised. Once these two powers became the Chaotic Origin Power, there was no reason for them to be used separately. They had already formed a third power. How could they be separated?

However, from what the Eastern Divine Crocodile said, it seemed that he could separate the two powers? But even so, the two powers had already condensed into the Chaotic Origin Power, so why should they be separated?

"Wait!"

Han Fei suddenly realized something. No, the Eastern Divine Crocodile didn't know the Ragnarok, which he was quite sure of. Since it wasn't the Ragnarok, he had purely used both his power and soul at the same time. It seemed to be a dual-kill attack, but it actually wasn't.

The reason that caused the illusion of dual killing was that the two powers were constantly alternating.

The Eastern Divine Crocodile grew excited. "Come on, little friend Han Fei, be careful next."

Han Fei nodded. So the alternate cycles of the two powers could simulate the feeling and effect of dual killing of body and soul, but the essence of its power was definitely a level different from the real dual killing of body and soul.

However, this didn't mean that the Eastern Divine Crocodile's combat method was useless. It alternately released power and soul attacks, just like the Yin-Yang pattern. If the Eastern Divine Crocodile could display such powerful strength although he didn't know the Ragnarok, what if he used the Ragnarok in the form of the Supreme Yin-Yang Wheel?

And the Eastern Divine Crocodile attacked again. Han Fei saw that it slashed out tens of thousands of knife lights at once.

Han Fei didn't attack directly, but let one of the knife lights fall on him.

"Pfft!"

At the same time, Han Fei felt the instant impact of soul power. If it were an ordinary person, his soul would have been injured, but Han Fei didn't feel anything.

At the moment he was attacked, one of these knife lights suddenly burst out with an unbelievable speed and appeared on Han Fei in an instant. Before Han Fei could react, he had been impacted by the power of this knife light.

"No, these two powers have never been truly separated. However, there is an invisible power connecting these two sword beams. What is it? What power can separate and connect them?"

With a flip of his hand, a Tai Chi Yin-Yang Wheel appeared beside Han Fei.

Swish! Swish! Swish!

Bang! Bang! Bang!

“Huh!”

“Not bad.”

“What an excellent comprehension ability!”

However, when the Chaotic Origin Energy circulated in the form of the Supreme Yin-Yang Wheel, the effect was the same as when he used other great techniques.

Han Fei immediately understood why the Chaotic Origin Energy could be applied to all combat skills and techniques. It was because those who had this power didn't need to think of ways to revolve their soul and power like the Eastern Divine Crocodile and the others.

Eastern Divine Crocodile and the others had to try their best to create a combat skill to simulate a technique of dual killing of body and soul, but Han Fei didn't have to.

“Sure enough, only those with real dual spiritual heritages can use the Ragnarok naturally.”

However, what Han Fei didn't know was that everybody's eyes glittered when they saw the Tai Chi Yin-Yang Wheel. They felt that Han Fei had upgraded the application of the Dao of Extreme Balance to a higher level, which was even more brilliant than the Eastern Divine Crocodile's way.

Jiang Honghua said, “He's a genius, but I don't think he can use it so smoothly when he uses it for the first time. He must've mastered a certain Great Dao.”

Old Yuan said, “That's true, but have you discovered that he can use these two powers at will, unlike Old Crocodile?”

Li Tiangan said, “It's the effect of dual spiritual heritages. He was born with dual spiritual heritages, so he was born with the ability to fuse the power of the body and the power of the soul. Therefore, all the great techniques he used might have the characteristic of dual killing. Furthermore, this characteristic of dual killing is stronger than what we created.”

Sure enough, Han Fei's small Yin-Yang Wheel shattered the knife lights of the Eastern Divine Crocodile one after another in a crushing manner.

The Eastern Divine Crocodile couldn't help but exclaim, “Is this the real dual killing of body and soul?”

[God of Fishing](#)

Chapter 2650: Feng Yu Proves Dao (2 in 1)

2650 Feng Yu Proves Dao (2 in 1)

Han Fei didn't have a clear understanding of the use of power born from the Dao of Extreme Balance.

As early as when he cultivated the Yang Soul, he felt that the mirror had the characteristics of dual killing of body and soul. In fact, it was true. In the series of battles that followed, including the battle killing Yi Tianxing of the Heavenly Race in the Divine Capital Dynasty, the effect of dual killing of body and soul was obvious to all.

But now, Han Fei understood that it wasn't that he had mastered a technique of the dual killing of body and soul, but that he had simulated a combat skill similar to a technique of dual killing of body and soul. But the simulation was just a simulation. Now that he had cultivated the Dao of Extreme Balance and mastered the Ragnarok, he realized that the real dual killing of body and soul was actually so powerful.

"No wonder, no wonder I feel that Monarchs have become easier to beat. It turns out that I have become so strong!"

Previously, Han Fei felt that he had reached the limit of the Sky Opening realm. Furthermore, with the power of the dual killing of body and soul, coupled with the Void Stealing Technique and the divine techniques of the Emperor Sparrow, Han Fei didn't feel that it was difficult to kill a Dao Proving-Level Monarch since he came out of the God Burying Ridge.

But now it seemed that he had misunderstood the level of his strength. The Ragnarok wasn't as simple as shattering the law. He underestimated its powerful destructive power of dual killing of body and soul.

However, this battle was not over yet. The Eastern Divine Crocodile said, "Han Fei, let's not compete in the basic battle of the Dao of Extreme Balance. Since our strength has been suppressed to the Perfected Star Transformation Realm, why don't we fight in a comprehensive battle?"

"That's exactly what I want."

Han Fei laughed. It was rare to have a chance to fight a prehistoric super powerhouse. These people were all very senior powerhouses from the Age of Gods. Their strength and methods were all very strong.

The Eastern Divine Crocodile's fighting style suddenly changed. He crossed his double knives, and a spiral light shot out for thousands of kilometers in an instant.

Han Fei didn't continue to use the Ragnarok, so he was about to extract the power of the surrounding void when he discovered that all the power was attracted by the spiral, and in the spiral were spinning blades.

Seeing this scene, Han Fei stomped on the ground and retreated. At the same time, between his fingers, All Great Daos in One Sword burst out. Multiple Great Daos gathered, the Invincible Path burst out, and the sword aura swept out for thousands of kilometers.

"Huh? The path of invincibility?"

"Han Fei seems to have grasped a lot of Great Daos!"

"This sword technique is not bad, but there is still room for growth."

Clang!

Swords and sabers collided, and saber auras and sword auras circulated within a hundred thousand kilometers. The sky and the ground were densely covered with saber marks.

Han Fei raised his hand and summoned the Infinity Water. Just as he was about to continue activating it, he suddenly heard the humanoid Li Tiangan say, "Han Fei, try combining swords into one like me. It's better to fuse them into one and return to the origin."

Han Fei looked sideways at Li Tiangan, only to see Li Tiangan raise his hand and pinch a wisp of sword Qi that escaped from Han Fei. His fingertips circulated as if the true meaning of the Great Dao was infused into it.

Boom ~

Li Tiangan flicked his finger, and all the sword Qi that escaped from Han Fei in this world returned.

Clank, Clank, Clank ~

When the escaping sword intents were attracted back, Han Fei discovered that with every sword intent fused, All Great Daos in One Sword lost the true meaning of Great Dao.

Han Fei was surprised. "The Great Dao collapsed?"

Li Tiangan said, "No, it's the convergence of all Dao. Dao begets one, one begets two, two begets three, and three begets all things. All Daos return to one, and once it returns to the origin of the Dao, the origin of the Dao becomes the formless Dao."

Han Fei was shocked. When he created All Great Daos in One Sword, he felt that this sword was already very strong. It wasn't that he hadn't thought about how to continue to create the next sword, but he had never gained any insight.

But at this moment, after witnessing Li Tiangan's sword, he immediately had an epiphany.

If All Great Daos in One Sword he created could be taken as the first sword, then Li Tiangan's current sword could help him comprehend the second and third swords. The second sword was the Primordial Dao Sword, and the third was the Formless Infinity Sword.

The so-called Primordial Dao Sword meant that the Great Dao didn't exist, yet the Great Dao was everywhere. The sword itself was a Dao, and the Great Dao here was fused with this sword.

As for the Formless Infinity Sword, Han Fei only had an inspiration. This should mean that after the Primordial Dao Sword, the sword could transform into a Dao at will, which could transform into different Sword Dao true intents according to different situations to restrain others.

Han Fei couldn't exert the Formless Infinity Sword yet, but he felt that he could try the Primordial Dao Sword now.

Han Fei immediately gave up on the Infinity Water. He extended two fingers and pointed again. Several Great Dao fused into it. However, in the next moment, these Great Dao wanted to collide and destroy. In the end, it was very difficult to see any true intent of the Great Dao in this sword.

The Eastern Divine Crocodile roared, "Li Tiangan, what are you doing? Can't you teach him later?"

Although the Eastern Divine Crocodile shouted, when Han Fei launched the second sword, the origin power of the Great Dao burst out, and the Eastern Divine Crocodile opened his mouth and absorbed a lot of messy energy. When he opened his mouth again, it spewed out a saber beam that was also the origin of the Great Dao.

Rumble!

However, even so, when the two sides collided, the saber beam of the Eastern Divine Crocodile was still crushed from head to tail.

Immediately, Eastern Divine Crocodile's face turned green. "Han Fei, what's the limit of your soul power?"

The onlookers were all laughing.

Someone said, "Why do you bother to ask? He was born with double spiritual heritages, so his limit must be much higher than yours."

Jiang Honghua added, "With this blow alone, Han Fei's limit is at least 450,000."

Old Yuan said, "More than that. Han Fei's limit is at least 500,000."

Li Tiangan said, "500,000. There are no more than 30 people here who can reach 500,000. The limit of the Eastern Divine Crocodile is only 450,000. Judging from the power of Han Fei's blow, its limit is not as simple as 500,000. This talent is really unparalleled. As expected of a Heavenly Talent with dual spiritual heritages."

Han Fei thought for a moment and replied casually, "600,000 is my limit."

Everyone : "..."

Hearing that, many people looked at Li Tiangan and Old Yuan. Xie Wukuan said, "Li Tiangan, twenty thousand higher than you."

Li Tiangan nodded slightly and added, "If that's the case, I'm afraid his limit will be above 800,000 once he condenses five Dao Locks. Also, he has mastered the technique of dual killing of body and soul..."

Everyone couldn't help but hold their breath. The ultimate they had been pursuing for countless years had been easily achieved by Han Fei, which made them jealous.

This had nothing to do with Han Fei helping them. Jealousy was jealousy, and these people didn't hide anything.

Upon hearing that Han Fei's limit was 600,000, Eastern Divine Crocodile's face turned green, but in the next moment, he activated a divine technique. When Han Fei saw the knife light that seemed to open up a galaxy in the starry sky, he immediately knew that it was definitely a divine technique.

The reason why divine arts were powerful was that someone had exerted combat techniques, combat skills, divine intent, etc. to the extreme. In such a situation, even if his basic combat power far exceeded the other party, he had to deal with it carefully.

Han Fei threw out the World Destruction Fist.

The moment they saw the World Destruction Fist, someone said, "If I'm not mistaken, this should be the Star Fist Technique of Great Monarch Ultimate Star. This fist technique can be ranked among the top ten in the Sea Realm. Little Friend Han Fei seems to have comprehended the strongest punch. Old Crocodile is going to lose."

Someone said, "The Star Fist Technique is very powerful. Han Fei's World Destruction Fist is probably among the top three in the East Sea Divine Realm."

Eastern Divine Crocodile's face turned green, and he hurriedly said, "Forget it, let's stop fighting."

In the same realm, the other party's soul and strength far exceeded his own. Unless he had a divine technique but Han Fei didn't, there wouldn't be a chance of turning defeat into victory.

However, if he had a divine technique, but Han Fei had an even stronger one, he wouldn't have any chance to win. Unless he had a lot of divine techniques and could unleash them in time, he would be crushed by Han Fei.

Sure enough, when the knife light of the Eastern Divine Crocodile collided with the World Destruction Fist, the exploding energy ball bloomed a huge pillar of light thousands of kilometers thick in the Godfiend Sea.

Everyone saw that the ground around the Eastern Divine Crocodile was completely crushed. Except for where he was standing, there was a huge pit as deep as 100 meters in other places.

The Eastern Divine Crocodile was unscathed, but anyone could tell that he had recovered his Immortal-Level strength.

Eastern Divine Crocodile rolled his eyes and said, "Li Tiangan, can't you instruct him a little more slowly? Come on, I'll let you fight Little Friend Han Fei, OK?"

"I won't fight."

Li Tiangan scoffed at the Eastern Divine Crocodile's suggestion and didn't respond at all. Han Fei's strength was obvious after a try. Now that he knew his strength and Han Fei had a divine technique, it was already extremely difficult for him to win. Even Li Tiangan only had a 30% or 40% chance of winning.

It was extremely difficult for them. If it were anyone else, they would almost certainly be defeated.

Old Yuan said, "Not to mention Li Tiangan, even the Demon God was no match for him at this level. Don't forget, he took the path of invincibility."

With the old turtle's reminder, everyone immediately remembered that Han Fei had indeed shown his invincible will just now. A person who could embark on the path of invincibility was definitely not weak in combat.

Besides, those who could walk the path of invincibility were basically certain that the other party was a melee powerhouse, and his soul combat power was extremely strong. Otherwise, he wouldn't have been able to walk the path of invincibility.

Xie Wukuan said, "Are there still many people walking the path of invincibility outside? I don't think anyone can be stronger than Little Friend Han Fei, right?"

Jiang Honghua said, "At least before we sealed ourselves, there were many people who took the path of invincibility. This is a dangerous and crazy path. The mutual attraction of the path of invincibility is hundreds of times stronger than the mutual attraction of ordinary paths. Therefore, the fact that Han Fei can reach this point means that he has walked through this path safely."

Li Tiangan said, "There can be only one invincible person in the world. This is the trap that every person who takes the path of invincibility will eventually face. This path is destined to have more than one person to take, but only one person can become uniquely invincible. Fortunately, before we seal ourselves, no one taking this path has become a god yet."

The old turtle said indifferently, "But there are Great Monarchs."

Everyone : "..."

After the challenge ended, Han Fei obtained two sword techniques. He felt that All Great Daos in One Sword was a catalyst. It could be called Sword One, the Primordial Dao Sword could be called Sword Two, and the Formless Infinity Sword could be called Sword Three.

He just didn't know if there was still Sword Four, Sword Five, and Sword Six. It was too difficult to comprehend and cultivate this sword technique, and Han Fei wasn't sure.

The old turtle said, "Han Fei, you shouldn't perform so well. These old guys have mastered a lot of divine techniques. Isn't it good to learn one or two divine techniques?"

After synchronizing with his memories, the old turtle completely learned about the days when he grew up with Han Fei. He naturally knew that Han Fei was a very greedy person.

If the Demon God hadn't stopped them, he thought that Han Fei would have demanded treasures from everyone. Those people had been sealed for 1,800,000 years, and Han Fei literally liberated them, so they would probably give him some.

Of course, Old Yuan also felt that giving Han Fei too many treasures didn't mean much to Han Fei's growth and might even be a hindrance. However, having some divine techniques was not a bad thing.

The others didn't know, but Old Yuan knew that Han Fei was going to save the human race. What he was going to face seemed a mere City of Scavengers, but in fact, from the information he had, the City of Scavengers's Ten Thousand Scale Monarch and so on were just the Dao Provers on the surface. If that sea area was only guarded by two or three Dao Provers, any power in the Chaotic Wasteland could conquer it.

The reason why no one attacked the Chaotic Wasteland was naturally because they knew that there were other powerhouses hidden there.

And if Han Fei wanted to save the human race, with his personality and methods, the Ten Thousand Scales Race would definitely be wiped out.

If he didn't eliminate the Ten Thousand Scales Race, how could he, the Human Emperor, face the oppressed human race here? Therefore, at this moment, Han Fei had gained enough godly weapons, but what he needed next was not godly weapons, but divine techniques.

Hearing the old turtle's roar, Han Fei was tempted. Can't I learn some divine techniques if you don't give me treasures? Anyway, it doesn't matter how many techniques I have. If I can enrich and replace my own great techniques, wouldn't it be equivalent to increasing my strength in another way?

...

Half a year later.

The Demon God came out of seclusion on time. If he said half a year, it would be half a year.

Han Fei, on the other hand, had already become familiar with the people here. He had learned several divine techniques and learned a lot of combat skills. He had even mastered Sword Three.

If it weren't for his physical reasons, Han Fei felt that he could stay here for decades or even a hundred years. As for the physical reasons, it was that Han Fei had confirmed his thoughts.

His strength had reached the limit of the Sky Opening Realm, but the Supreme Divine Technique hadn't stopped growing at all. But the problem was that Han Fei's strength and soul couldn't increase anymore, but his Origin Star was constantly growing stronger because Han Fei's cultivation had stopped.

It had been a long time since Han Fei entered his Origin Star. When Han Fei improved his strength, he had already sensed the changes in his Origin Star.

Later, when he was possessed by the Demon God, he couldn't enter his Origin Star, so he didn't know what his Origin Star had become.

Now, Li Tiangan gave him a piece of Universe Vast Soil and he threw it into his Origin Star. In the past few years, the Supreme Divine Technique had subtly changed and affected Han Fei's strength. This made Han Fei feel that his first lock seemed to be a little broken.

If he didn't resolve the matter in the Chaotic Wasteland as soon as possible, who knew if he would feel the Monarch-level Tribulation once the first lock was broken. If he did, he would have to transcend the tribulation soon. This was hundreds of years in advance of his original plan.

Therefore, for Han Fei, his time was particularly important.

As soon as the Demon God came out of seclusion, Han Fei and a group of strong masters arrived.

Han Fei's first words were, "Senior Demon God, I would like to talk to you alone."

The Demon God nodded slightly. "OK."

When the two of them came to the side, the Demon God looked at Han Fei up and down and said indifferently, "Your soul and power are a little unstable. Are your Dao Locks not firm enough?"

Han Fei thought for a moment and said, "Senior Demon God, this is because of my cultivation technique. Even if I don't cultivate it, it will automatically operate and keep making me stronger. Now my strength has reached the limit of the Sky Opening Realm, but this technique hasn't stopped, so my first shackle is about to be broken."

The Demon God frowned slightly. "Are you cultivating the Supreme Divine Technique of the human race?"

Han Fei thought to himself, Is the Supreme Divine Technique so famous that even the Demon God from 1.8 million years ago knows about it?

The Demon God said indifferently, "There's nothing to be surprised about. In order to create the Dao of Extreme Balance, I used to refer to the human race's Supreme Divine Technique. However, I discovered

that the Dao of Extreme Balance and the human race's Supreme Divine Technique are two extremes. In essence, both cultivation paths are extreme. In my opinion, the Dao of Extreme Balance is stronger. However, the human race's Supreme Divine Technique directly extends the path infinitely. You took both paths but refused to prove Dao. Is there a problem with your Dao Proving?"

Han Fei said frankly, "Senior Demon God, our human race has been enslaved by a race called the Ten Thousand Scales Race for 100,000 years. As the current Human Emperor, I dare not transcend my monarch tribulation unless I save the human race."

The Demon God nodded slightly. This explained everything. He said, "Is the Ten Thousand Scale Race very strong?"

Han Fei said, "On the surface, they only have a Dao Proving-Level Monarch, but in fact, there might be stronger powerhouses. It's just that I don't know where the stronger powerhouses are or how strong they are. However, the Ten Thousand Scales Clan's Dao Proving-Level Monarch on the surface is known as the Ten Thousand Scale Monarch."

"Heh!"

The Demon God shook his head. "I've never heard of him. However, if they really have a Great Monarch-level powerhouse, don't you use the power of your Void Temple? You have to know that this has been beyond your ability."

Han Fei said, "I dare not hide it from you, Senior. My senior brothers will only help me three times unconditionally. Every opportunity is extremely precious. I've already used it once, so unless I'm in a desperate situation, I don't want to use the power of the Void Temple."

The Demon God nodded. "When you encountered the three Carefree-Level Monarchs outside the Godfiend Sea, you used the scale of a Dragon Great Monarch, which is a treasure. The leaf used to escape isn't very strong. It can barely be considered a one-time-use ultra-quality godly weapon. Fine, I'll give you three things. If you want me to help you, it's not impossible, but you have to consider it as me repaying your favor. After that, I won't help you unconditionally anymore."

Han Fei's heart stirred and he hurriedly said, "Thank you for your gift, Senior Demon God."

Han Fei didn't want to waste this opportunity, but if he felt that it could be used as a last resort, he would use the favor of the Demon God first.

The Demon God didn't care about Han Fei's thoughts. He said, "The Dragon Great Monarch gave you a scale, so I'll give you a scale too. It can give you the combat power of the Immortal Level and has the same effect as the dragon's scale."

Han Fei's heart did a flip. This thing was good. This was his purpose. With this treasure, he wouldn't have to be afraid of being slapped to death by an Immortal-Level Monarch. It was fine if the Ten Thousand Scale Race had a Great Monarch, but if not, he would be one of the strongest existences.

The Demon God said, "However, you have to understand that even if you have the power of the Immortal Level, you can't kill an Immortal-Level Monarch without that level of comprehension. Your upper limit for killing is the Carefree Level."

Han Fei nodded. "I see."

The Demon God continued, "Secondly, I'll give you a one-time-use Connate Spiritual Treasure, the Wind Riding Smoke. It's similar to your escape godly weapon, but it's a hundred times faster than the leaf. Even a Great Monarch-level powerhouse dare not say that he can stop you when you use the Wind Riding Smoke. However, you have to have the Immortal-level combat power to use it. Otherwise, you won't be able to withstand such a fast speed."

Han Fei's pupils were constricted. A one-time-use Connate Spiritual Treasure? Gosh! A Connate Spiritual Treasure meant that it existed from birth, and a one-time use meant that it could be used only once.

Therefore, it was obvious that this thing was quite precious. It was indeed much better than the One-Leaf Boat. Of course, although it was good, its shortcomings were obvious.

The Demon God said, "Thirdly, I'll give you a life-saving sword. I dare not say that it can kill a Great Monarch, but it can definitely kill an Immortal-level Monarch."

"It can definitely kill an Immortal-level Monarch?"

Han Fei was taken aback. He had seen only a handful of Immortal-Level powerhouses so far. Who could have expected that he could kill an Immortal-Level powerhouse so easily now?

Although there was only one chance, this was definitely his strongest amulet now.

Han Fei knew that once the Demon God gave these three things to him, he would only owe him one favor. He was thick-skinned enough to ask for this. The reason why he dared to ask for it was actually because he was a disciple of the Void Temple.

The Demon God said, "Originally, I was only going to give you this amulet sword. But this time, you have indeed helped me reborn, so it's fine to give you two additional gifts. But I'd like to remind you that it's not a good thing to take too many treasures. The most important thing about treasures is to save lives. Otherwise, their existence is meaningless. Instead of having countless treasures, it's better to let the strong take action."

Han Fei nodded solemnly. "Thank you for your advice, Senior Demon God. I'll remember it."

...

Han Fei had a private chat with the Demon God just to ask for treasures and opportunities.

When Han Fei and the Demon God returned, everyone was already waiting here.

The Demon God said, "Everyone, the Godfiend Sea still needs to exist for a period of time. Han Fei doesn't belong to the Godfiend Sea, so I'm sending him away now. You'll meet again when the world is in chaos."

Li Tiangan said, "Take care."

Eastern Divine Crocodile: "Little friend Han Fei, see you in the outside world."

Xie Wukuan said, "Remember to use the God Shattering Scissors. It's very strong."

“ ... ”

Old Yuan said, “When we come out in the future, I’m afraid the world will be in chaos. Only in chaotic times can the true face of the Sea Realm be revealed. In chaotic times, strong masters will appear. I hope that by then, you will have already proven your Dao and can even reach the Carefree Level.”

Han Fei thought to himself, If these people leave the Godfiend Sea, the Sea Realm will be in chaos! Look at the strength of these people!

Han Fei said, “Seniors, see you later. Let’s have another drink when we meet in the Sea Realm.”
