Chapter 2691: Human Race's Eastern Expedition (4)

2691 Human Race's Eastern Expedition (4)

Their cultivation talent was limited. Although they had come to the Raging Sea, they had wasted too much time and could no longer be stronger. Hundreds of years had passed, and only their tombs were left.

In front of a grave, He Xiaoyu sat in front of He Mingtang and her mother's tombstone, looking at the dazzling light in the distant sky and the figure that was already beyond her reach, and said indifferently, "Dad, Mom, Village Leader, Teacher... Did you hear that? I'm leaving. I don't know if I will return to the Heavenly Water Village in this life. Perhaps this is the loneliness of cultivation! Don't worry. I don't have any illusions anymore. Now I have nothing to worry about in this world. I think I will become a strong master..."

...

At that moment, the entire world was in an uproar. Shouts shook the sky. Killing intent surged in the world.

Han Guanshu and Jiang Linxian stood in the void, and Jiang Linxian giggled. "Shushu, you weren't as awesome as Fei'er back then."

Han Guanshu touched his nose and said, "I wasn't?"

Jiang Linxian pinched her little finger and said, "Just a little bit worse."

Han Guanshu chuckled.

The Merman Royal Family, Xia Hongzhu and Chun Huangdian, watched this scene quietly. Xia Hongzhu said, "If the human race wins this battle, the Sea Realm will definitely have a place for the human race."

Someone from the Undersea Humans asked weakly, "Then are we considered human beings?"

Someone immediately responded, "Of course! Although we are a little ugly, you can't say that we are not human beings! Otherwise, why would Master Human Emperor take us with him?"

Someone echoed, "That's right. Come, cheer with me. The Human Emperor is awesome..."

Han Fei said, "Now, please pack your belongings and gather in the center of each island. When I come, I will bring you into my Origin World. I said that I would let you witness the destruction of the Ten Thousand Scale Race and the rise of our human race with your own eyes. I won't go back on my word..."

Buzz!

"Let's go! Gather up! Hurry up!"

Many people rushed to the centers of the islands crazily. Come on, the Human Emperor would take them out personally. They couldn't be slow.

At this moment, the strong masters of various parties spontaneously began to organize. Someone was clearing the crowd and shouting, "Don't push. Everyone will go, so don't be anxious."

Someone asked while running, "By the way, what is the Origin World that Master Human Emperor mentioned?"

Someone responded, "Who cares what it is? Just go. Master Human Emperor is our emperor. He won't harm us!"

Someone said, "I know. I heard that when a king establishes the sea, he creates a sea world of his own. When he opens the sky, he creates a sky of his own, so this should be a world unique to Master Human Emperor."

Of course, not everyone was so crazy. Those with families were not so crazy. At least, they would run with their families to prevent them from being lost. As for the big families, they gathered groups of disciples and set off in an orderly manner.

Perhaps a few people would doubt Han Fei, but they were also convinced by the unprecedented grand occasion. If so many people went out together, even if there was a problem, it would be a problem for everyone.

But most people had absolute trust in Han Fei. After all, Han Fei's image in their hearts had already been deified. He unified the Thirty-Six Mystic Worlds, destroyed the sea demons, subdued the undersea humans, made peace with the Merman Royal Family, and created today's golden age.

In the last six hundred years, all kinds of legends about Han Fei spread among the people. If anyone asked who the younger generation of the human race admired the most, it would definitely be the Human Emperor. This was the status and significance of the position of the Human Emperor in people's hearts.

Han Fei felt that the power of faith was accelerating. He even wondered if he could directly prove Dao with the power of faith he had absorbed.

The blessing of the power of faith of a race was terrifying. This made Han Fei very confident in proving Dao.

Originally, his Self Severing Tribulation had disappeared, and he still had eight Heavenly Tribulations. Now, he had collected too much power of faith. To be honest, Han Fei felt that no matter how dangerous the Heavenly Tribulation was, he could weather through several of them with the power of faith alone.

"Old Han, since you have walked the Human Emperor path, do you know what the power of faith can be used for in the end?"

Han Guanshu said gently, "When the power of faith reaches a certain level, it will turn into the power of race and finally into the Dao of Humans. Of course, this is what I experienced back then. You might not be like me, but the result is probably the same. As the Human Emperor, when you prove your Dao, you can take them with you. Then you will understand the use of these powers."

Han Guanshu answered, but he didn't dissect it completely for Han Fei to hear, because it was meaningless. Han Fei would soon understand it anyway, so he didn't explain it thoroughly, which would be better for Han Fei.

Putting away the Void Descending Art, Han Fei landed in the Yin-Yang World first half a day later. He glanced around and saw many acquaintances, but he only nodded at them from a distance.

When the phantom of his Origin Star appeared, everyone was taken in. Han Fei's Origin Star was very large, covering 810,000 kilometers. How much space could a single person occupy? Even if the Thirty-Six Mystic Worlds had a population of billions, his Origin Star could accommodate more than enough people.

Different from Han Fei, Gu Tingnan built an ark ship and took the people out with him. Otherwise, if he took everyone into his Origin Star, the outcome might be much better.

Of course, Gu Tingnan chose not to put people into his Origin Star for reasons. He was the pillar of the human race. If he put everyone into his Origin Star, once he was killed, these people would never be able to come out.

For this reason, Gu Tingnan didn't take many people away. There might only be hundreds of millions of people.

But Han Fei was different. He took everyone with him. In terms of numbers, Gu Tingnan was simply incomparable to Han Fei.

Chapter 2692: Human Race's Eastern Expedition (5)

2692 Human Race's Eastern Expedition (5)

After Han Fei collected the humans and the sea demons into his Origin Star, he came to the Merman Royal Family.

To Han Fei's surprise, he had thought that Xia Hongzhu might take all the merfolks into her Origin Star.

Unexpectedly, Xia Hongzhu didn't do that. It seemed that she chose to hand the merfolks over to Han Fei.

Before Han Fei asked, Xia Hongzhu had said, "I know the dangers of the Sea Realm, so I am not as naive as ordinary people. Although my strength has returned to its peak, the result of encountering the strong masters of the Sea Realm will not be any better. Instead of letting them bear the danger of dying with me, I might as well let them follow you. After all, if we lose this time, the human race may be directly annihilated and completely disappear from history. Since you have taken such a bet, there is no reason for me not to believe you."

Han Fei nodded slightly. "Then what about you, Mother-in-law?"

Xia Hongzhu said, "Chun Huangdian and I will participate in the war. Be it the City of Origin or the City of Scavengers, they are not only your enemies, but also mine."

"Okay!"

...

Thug Academy.

This was Han Fei's last stop. Old Bai, Old Jiang, and Qu Jinnan had been waiting here for a long time with their fellow disciples.

Buzz!

When Han Fei appeared at the entrance of the Thug Academy, he could clearly feel hundreds of gazes staring at him. Han Fei looked back with a faint smile, only to see many people avoiding his eyes and then couldn't help but steal glances at him.

Seeing Han Fei walking towards them, Qu Jinnan and Ling Yuan hurriedly bowed. "Greetings, Eldest Senior Brother."

"Ha, Nan! Why are you suddenly so reserved?"

As they talked, Han Fei had already come to Qu Jinnan and Ling Yuan. He patted Qu Jinnan's shoulder and said, "Nan, Ling Yuan, I've figured out a new knife technique outside. I'll secretly teach it to you later."

"Uh ~"

Qu Jinnan and Ling Yuan shivered and felt a chill down their spines. It was the most horrifying thing to learn knife techniques from Han Fei.

In the past, before Yi Xiyan and the others were in the school, Han Fei had taught them knife techniques and almost killed them. The knife intent that contained an invincible almost crushed them. God knew how badly they had been slashed during that period of time.

After that, he taught them a few more times. Every time, they were almost tortured to death. Now he was going to teach them knife techniques again?!

Of course, although it was terrifying, Han Fei was serious about teaching them knife techniques. He had indeed taught them a knife technique every time and it was extremely powerful. Once they comprehended the essence, they could use it as an absolute trump card.

At this moment, Yi Xiyan stuck her head out and asked, "Eldest Senior Brother, why isn't my husband back?"

Han Fei looked at the girl who had already become a dazzlingly beautiful woman. He wondered if Zhang Xuanyu could still hold back when he saw Yi Xiyan again.

Han Fei smiled and said, "Zhang Xuanyu should be studying and growing up in a superpower in the Sea Realm. Everyone who goes out has their own path to walk. If I've guessed right, he should have become an emperor by now, a very strong one. So, in order to prevent your husband from being seduced by the little coquettes in the Sea Realm, Yanyan, you have to try harder!"

"Ah! Are there many little coquettes in the Sea Realm?"

Han Fei: "..."

Everyone :”...”

Han Fei thought to himself, I’m just afraid that your honey can’t resist the temptation. There’s nothing I can do!

Su Daiji: “Senior Brother.”

Han Fei saw Su Daiji, who also became a beautiful woman but still had two braided hair. She extended a hand to him.

What was this? She was asking for a gift, of course!

However, something like the Cube clearly couldn’t satisfy Su Daiji. Han Fei wondered what complicated things he could give Su Daiji. He couldn’t just give her the Vast Ocean Navigator, right?

Therefore, Han Fei thought for a moment and took out a long spear. Normal people couldn’t understand the dense Dao patterns and talismans on it at all. This was naturally a God Sealing Spear.

Su Daiji looked blankly at the God Sealing Spear stuffed into her hand and paused. “Is this a toy?”

Han Fei said, “If you are willing to treat the Dao patterns of the heavens and earth as toys, you can make many fun toys with them. This is an entry-level one. Try it.”

“Okay!”

Han Fei said, “By the way, if you can erase the patterns on the spear with Dao patterns, you will find a little surprise that I hid in the spear.”

“Huh?”

“Thank you, Eldest Senior Brother.”

Su Daiji immediately put away the God Sealing Spear. This game was interesting and should be able to last longer.

Han Fei smiled faintly. The God Sealing Spear Technique was hidden inside. This was a divine technique. If Su Daiji could get started with it, it wouldn’t be a problem for her to inherit this divine technique.

Of course, Su Sanqian, Gu Qi, Xing Yue, and even Yi Xiyan didn’t have any rewards. It was mainly because they didn’t have Su Daiji’s brains. If they wanted treasures, they could find them themselves when they went to the Sea Realm. Otherwise, they wouldn’t have cultivated hard if he gave each of them a godly weapon.

“Uncle Human Emperor... Wu...”

Yang Huihui’s mouth was covered by Jiang Qin, and Jiang Qin’s face turned red. God knew why her son acted as if he knew Han Fei so well that he even called him Uncle Human Emperor.

Han Fei grinned and said, “Sister Qin, long time no see.”

Chapter 2693: Human Race’s Eastern Expedition (7)

2693 Human Race's Eastern Expedition (7)

"Well! Long time no see..."

Han Fei thought for a moment and said, "By the way, Sister Qin, I remember that your Dao of law enforcement was a little special. It just so happened that I accidentally mastered a similar Great Dao."

Han Fei raised his hand and condensed a bead that was full of killing intent. In this bead, Han Fei injected a wisp of the Dao of Slaughter God. If Jiang Qin could deduce her path to the end, it would be the same as the Dao of Slaughter God.

Now that he gave it to Jiang Qin, she probably still didn't understand, but it would definitely help her.

Sure enough, when Jiang Qin felt the killing intent in this bead, she was stunned for a few seconds, then took it and said, "Don't give this child any gifts. He has been spoiled and got a lot of good things."

Han Fei said with a smile, "Yang Huihui, since your mother said so, I won't give you any gift, but I will definitely help you intercede with your aunt and let you interact more with Yan'er in the future."

Wu! Wu! Wu!

Although Yang Huihui's mouth was covered, he nodded quickly. Although treasures were important, they were not as important as love.

Jiang Qin opened her mouth but didn't say anything. She just sighed in her heart. This kid is going to be lawless again.

On the other side, Wang Dashuai waved at Han Fei. In front of him and Bai Lu, there was a big girl, but this girl's physique was terrifyingly sturdy. She was even sturdier than Wang Dashuai.

The girl kept hiding behind Bai Lu.

"Born with great strength?"

Han Fei couldn't help but think of the story of 100% catching blades empty-handed.

Han Fei asked, "Senior Brother Dashuai, Senior Sister Bai Lu, this is..."

Wang Dashuai said, "Haha, my daughter, Wang Xiaoxiao."

Han Fei: "???"

Han Fei certainly couldn't show any surprise on his face. He thought for a moment and said, "Has she refined the Purity Mystic Body?"

Bai Lu nodded. "Junior Brother Han Fei, she has refined the Purity Mystic Body and the Ancient Desolate War Body, but her physique can't return to normal... Xiaoxiao is a girl after all. Can you help her?"

Wang Dashuai asked, "Hey, isn't this great?"

Bai Lu glared at him. "Good my ass. Why does a girl need such a big body?"

Han Fei said, "Xiaoxiao, come here."

Wang Xiaoxiao was still shy, but Bai Lu pushed her forward and said, "Your Junior Uncle is calling for you. Don't you want to see Junior Uncle Han Fei the most? Why are you shy in front of him?"

Wang Xiaoxiao lowered her head. Obviously, this girl was a bit introverted and unconfident.

Han Fei smiled and said, "Xiaoxiao, you have to know that this is your talent. After you establish the sea and open the sky, you can have any figure you want. Of course, I can give you a try now."

Wang Xiaoxiao suddenly raised her head. "Junior Uncle, can you?"

Han Fei pressed his hand on Wang Xiaoxiao's head and activated the Heaven Enlightenment Divine Technique. He was not healing her, but trying to see if he could perfect Wang Xiaoxiao's spiritual heritage.

However, after this attempt, Wang Xiaoxiao's skin became fairer and softer, her cheeks became thinner, but her build didn't change much.

Han Fei thought for a moment and the power of lightning flashed in his palm. This was the technique of the Treasure Form Thunder Hammer deduced by the Demon Purification Pot. He tried to forge Wang Xiaoxiao's bones.

It was obvious that Wang Xiaoxiao was struggling. She must be in pain, but she had been holding it back. After half an hour, everyone gathered in a circle.

Finally, someone shouted, "Wow! Wang Xiaoxiao has really shrunk."

"Wow, Eldest Senior Brother is really awesome. He can even change one's physique. He's so strong."

"But her size doesn't seem to change much..."

After half an hour, the lightning arcs on Han Fei's palm disappeared, and Wang Xiaoxiao woke up. She first found that she seemed to be shorter, then her arms seemed to be thinner, and so was her waist. She was overjoyed. But she also quickly discovered that she didn't lose much weight, and her bones seemed to be only one tenth less thick than before.

Wang Xiaoxiao immediately looked at Han Fei eagerly. "Junior Uncle."

Han Fei thought for a moment and then looked at Wang Dashuai and Bai Lu. "Xiaoxiao is very talented. If I've guessed right, she is showing signs of atavism. I have two suggestions now."

Bai Lu and Wang Xiaoxiao were both overjoyed. Did this mean that her build could be changed?

Han Fei said, "The first is that I can teach her the cultivation method of the Lightning Body. She can forge great bones on her own. Her born strength will be maintained, and her body shape will gradually return to normal. However, Xiaoxiao's talent is more than that. Her bloodline has atavism. Even I can't directly resolve it. It can be seen how great the atavism is."

Wang Dashuai asked, "Is atavism a good thing or a bad thing?"

Han Fei said, "It's a good thing, a very good thing, but it depends on how you use it. My suggestion is to let Xiaoxiao cultivate the Giant Beast Divine Dao."

“Hiss!”

When Bai Lu heard that, she immediately said, “Isn’t the Giant Beast Divine Dao the Dao of giant beasts? Their sizes are so big, easily hundreds of kilometers long.”

Wang Xiaoxiao shook her head too. Cultivate the Giant Beast Divine Dao? She would turn into a monster!

Han Fei smiled and said, “It’s okay. Let me tell you, the first cultivator of the Giant Beast Divine Dao is a human being, and that person has directly reached the Divine Realm. Of course, it depends on luck. The Divine Realm is too far away, but the giant beasts and the human body are not conflicting. The two can be transformed into each other! Xiaoxiao can cultivate both the Lightning Body and the Giant Beast Divine Dao. With both Daos, she will have a certain chance to become a Monarch in the future.”

God of Fishing

Chapter 2694: Human Race’s Eastern Expedition (8)

2694 Human Race’s Eastern Expedition (8)

“Hiss!”

Instantly, Old Bai rushed over. “What? Become a Monarch? Xiaoxiao?”

Han Fei nodded. “As long as she doesn’t die halfway, there’s at least an 80% chance.”

“Good, good!”

Old Bai looked directly at Wang Dashuai and Bai Lu and said, “That’s it. Isn’t it good to cultivate both techniques at the same time? She can transform into a giant beast in combat, and when she’s not fighting, she’s still a little girl. How many people will envy her?”

Old Jiang nodded. “Yes, yes, Han Fei! Can you check if Yang Huihui can cultivate this Giant Beast Divine Dao or not?”

Han Fei shook his head. “He can take this path forcibly, but Xiaoxiao has got talent on this.”

Lost for words, Old Jiang glared at Yang Huihui.

Yang Huihui: “???”

This was the only one that Han Fei had pointed out so far. He didn’t even need to look at the future to confirm that she could become a Monarch in the future. Of course, this was also the only one that Han Fei found to have such a talent. Perhaps there were still such people, but that needed to be discovered. Perhaps there might be only one in the entire Raging Sea.

A Monarch! One of a kind in the entire Raging Sea. Even in the Sea Realm, a Monarch was definitely a strong master.

Han Fei glanced at the remaining latecomers of the Thug Academy. Although they were talented, he didn’t find anyone whose talent could be found special at a glance.

Han Fei said, “Alright, everyone, open your minds and enter my Origin Star.”

...

At this moment, Han Fei's Origin Star was in an uproar. Han Fei had even greatly adjusted the concentration of spiritual energy inside and converted a tremendous amount of spiritual energy. Otherwise, most people couldn't endure an environment with such a tense amount of spiritual energy.

But even so, countless people were still amazed.

"Wow! The spiritual energy here is too rich, more than three times that of the Raging Sea."

"Is this Master Human Emperor's world? It's so large that it can accommodate the entire human race."

"Can I eat the spiritual fruits here?"

There were some naturally-growing spiritual fruits where someone was standing. Many people were tempted.

However, someone immediately shouted, "Everyone, don't touch these spiritual fruits. Not just because these spiritual fruits belong to Master Human Emperor, but because you can't digest these spiritual fruits at all. Do you want to explode and die?"

Gulp!

Although they wanted to pick it, no one really took it after the strong masters reminded them. Besides, there were so many pairs of eyes watching. Did they really think they would be fine after taking these spiritual fruits off?

But this was the humans' reaction. In Han Fei's Origin Star, there was a sneaky starfish with six spiritual fruits hanging on his six tentacles. Occasionally, he would move his body and find a shiny stone in a corner. He didn't know what it was, but he just threw it into his doors.

Han Fei was too lazy to care about him. When the Hexagon Starfish threw in a few more, he would find that he couldn't bear it anymore and would have to spit them all out.

This was the first time Han Fei's Origin Star had accommodated so many people. He didn't know if these people's entry into his Origin Star would change his Origin Star, but at least it was fine for now.

Just as everyone was amazed that Han Fei's Origin Star was a holy land of cultivation and treasures were everywhere, Han Fei's voice sounded, "All humans, undersea humans, and the Merman Royal Family can cultivate on your own. Those above the peak-level of Explorers can pick a spiritual fruit. Others don't touch any spiritual fruit. It's harmful to you. I'm about to go to war. When the war starts, I'll let the entire human race witness the destruction of the Ten Thousand Scale Race and the strength of the human race..."

Han Fei completely adjusted the time acceleration. Otherwise, although his Origin Star was extremely powerful and had abundant resources, he wouldn't be able to sustain a trillion people cultivating here for a year and a half.

There were so many people here. If each of them absorbed a wisp of spiritual energy, it would be a trillion wisps of spiritual energy, which could suck him up in half a month. Fortunately, at Han Fei's level,

he could already absorb a large amount of spiritual energy from the Sea of Stars, and he had the Origin Stars of many Monarchs, which were enough for now.

In the end, only Old Han, Jiang Linxian, Xia Hongzhu, and Chun Huangdian didn't enter Han Fei's Origin Star and went to the Sea Realm with him.

Xia Hongzhu and Chun Huangdian were reluctant to enter Han Fei's Origin Star, so they met Old Han and Han Fei's mother.

At this moment, Xia Hongzhu saw that both Jiang Linxian and Han Fei were smiling, but she couldn't tell their strength, so she looked at Han Fei. "Who are these two?"

Han Fei said, "Mother-in-law, this is my mother, Jiang Linxian, and this is my father, Han Guanshu."

"Do you have..."

Xia Hongzhu wanted to say, "Since when do you have parents?" But it was obviously inappropriate to say this, so she swallowed it. Xia Hongzhu slightly frowned. For some reason, she felt that when facing these two people, her bloodline was somewhat dormant. It seemed that she instinctively felt that these two people were very powerful, and she was afraid that she was not their match at all.

Jiang Linxian put on a dignified smile and said, "You're my in-law, right? We've seen Xiaochan. She's a good girl. Fei'er will definitely protect her and the baby in her stomach. It's only a matter of time before she wakes up."

Han Guanshu nodded in agreement. "Yes."

"In-law?"

The corner of Xia Hongzhu's mouth twitched. Fine, your family is powerful. Your family has the final say, alright?

At this moment, Xia Hongzhu was just a mother and hadn't accompanied Xia Xiaochan for long, so she couldn't make a decision for Xia Xiaochan.

Chapter 2695: Human Race's Eastern Expedition (9)

2695 Human Race's Eastern Expedition (9)

Besides, if Xia Xiaochan were to choose for herself, she would definitely favor Han Fei, so Xia Hongzhu just smiled and nodded without saying anything.

Several days later.

At the edge of the Raging Sea, when Han Fei and the others arrived, the Beast King and Chu Hao had been waiting for a long time.

When he saw Jiang Linxian and Han Guanshu, Chu Hao exclaimed. He remembered the two of them back then. It was also these two who took away the Demon Purification Pot. He didn't expect that when he met them again, one of them had proven Dao and the other had reached the Perfected Star Transformation Realm.

Jiang Linxian naturally recognized Chu Hao. They had met before, so she nodded at Chu Hao. Chu Hao felt that these two people were really bold. Didn't they know his strength?

However, only Han Fei knew that Chu Hao was nothing in front of Old Han and his mother.

And the Beast King was really stunned, because he couldn't see through Jiang Linxian's strength, but he vaguely felt that although this person was standing there with a smile, he was probably no match for her in a real fight.

As for Chun Huangdian, he frowned slightly and had vaguely guessed something. He had never seen the Beast King or Chu Hao, but these two people were obviously stronger than him. If Jiang Linxian was included, didn't it mean that there were three Monarchs here? In terms of the number of Monarchs, it seemed that there were only two in the City of Origin and only one in the City of Scavengers."

He couldn't help thinking, Is this why Han Fei thinks he can conquer the City of Scavengers?

The Beast King knew Han Fei's purpose, so he was not surprised at the identities of Jiang Linxian and the others, but their strength.

The Beast King asked, "My disciple, have you brought everyone?"

Han Fei nodded. "Yes. The Raging Sea needs some time to recover. Let's go! Everyone, please listen to my arrangements..."

...

Chaotic Wasteland.

The ice was dense, and the upside-down ice cones were like upside-down mountains. The area around a certain primitive black fog began to tremble violently.

After all, the people who came out this time were not ordinary people. Chu Hao and Jiang Linxian, which one of them was a simple person? If the Heavenly Dao of the Raging Sea was conscious, seeing these strong masters leave the Raging Sea, he might have jumped up in joy, thinking that these big shots had finally left.

Of course, such a shock couldn't be hidden from the City of Scavengers and the City of Origin, including Gu Tingnan who had been paying attention to this place. When he sensed the anomaly here, he suddenly opened his eyes. He knew that the time had come, but he didn't expect it to be so fast.

Gu Tingnan shouted, "Xingyu, Duan Qingsi, Lin Yu, Long Xing, where are you?"

These four people were the four generals of the City of Wanderers. Among them, Xing Yu was the weakest, and Lin Yu and Long Xing rarely appeared, but their real strength was at the level of five Dao Locks.

The moment Han Fei entered the Raging Sea, Gu Tingnan began to make preparations. At this moment, whether it would work or not, a great battle was bound to begin.

Toot...

In the sky above the entire City of Wanderers, an alarm sounded. Those who were doing business in the city and cultivating at home immediately put down everything.

The entire City of Wanderers was filled with all kinds of shouts.

“We’re on full alert. All combatants above the Venerable realm are to be armed. Hurry up!”

“Everyone, gather according to your sequence.”

“...”

There was no panic in the city. Everyone ran in all directions in an orderly fashion.

Gu Tingnan said, “You can begin what I asked you four to do. You’ll have to fight this battle alone. I’ll leave the wanderers to you.”

Buzz!

Gu Tingnan instantly disappeared.

Duan Qingsi said, “According to our previous arrangements, Lin Yu is the strongest among the four of us. You and Xingyu will be responsible for the siege against the City of Scavengers. Unless the other party threatens Sea Establishers or below, no matter what happens, you don’t have to take action...”

Lin Yu nodded solemnly. “Be careful...”

...

It was also at this moment, in the City of Scavengers, the fake Ten Thousand Scale Monarch suddenly stood up and said, “Found it.”

In the City of Origin, An Bailin and An Heng, two Monarchs, appeared in the void almost at the same time.

An Bailin sneered. “Good, good! We’ve finally found it.”

An Heng, on the other hand, frowned slightly. “The fluctuations are a bit obvious. Will there be a problem?”

An Bailin said, “That damn place only has one and a half Dao Proving Level cultivators in total. What problem can there be? Don’t forget that we are more prepared this time. The billions of humans will definitely be in the hands of our City of Origin, and so will the merfolks.”

[God of Fishing](#)

Chapter 2696: Start the War By Killing Monarchs (1)

2696 Start the War By Killing Monarchs (1)

For the City of Scavengers and the City of Origin, the real reason they wanted to conquer the Raging Sea was not just because of the resources in the Raging Sea.

In fact, no matter how many resources there were in the Raging Sea, how could they compare to the Sea Realm? Outside the Chaotic Wasteland, the wilderness was boundless. There were actually more

resources than the Raging Sea, not to mention that the Chaotic Wasteland had many primitive tombs. Many of these tombs were recovering.

Therefore, what the City of Scavengers and City of Origin actually wanted more was people. In the cultivation environment of the Sea Realm, the population at the bottom determined the ratio of the strong.

The City of Scavengers had established hundreds of cities just by taking down the people Gu Tingnan had brought out in the past. As long as they were nurtured a little in the early stages, these people would become free labor and could provide a large number of resources to the City of Scavengers indefinitely. If they took down the entire Raging Sea, it was conceivable that the layout of the Chaotic Wasteland would change. At that time, not only would the City of Scavengers enslave the human race, but the City of Origin would also do the same.

Therefore, the Monarchs from the two cities attacked without hesitation when they sensed the turmoil within their targeted range.

Logically speaking, after leaving the Raging Sea and sealing the entrance, Han Fei and the others would walk out of the Chaotic Wasteland as soon as possible in order to leave as soon as possible in case they were caught by the City of Scavengers and the City of Origin.

They did do that, so they were naturally intercepted.

Whether it was the City of Scavengers or the City of Origin, in order to take action as soon as possible, they had already set up a teleportation door. Although they didn't know the exact location of the Raging Sea, the general range was locked.

Therefore, in less than five seconds, the Ten Thousand Scale Race's Ning Tianlong, the Heavenly Cicada Clan's An Bailin, and An Heng had appeared in this area.

According to the void fluctuations, it was quite easy to catch up with a group of people who were completely unfamiliar with the Chaotic Wasteland.

Therefore, in the eighth second after Han Fei and the others came out and pretended to be looking for directions, several figures stepped out of the void with swishes.

"Huh? Three Monarchs?"

The moment An Bailin and the others arrived, they were also slightly shocked, but it also made them understand why the void fluctuation this time was so strong. It was because the people in the Raging Sea were leaving. They felt that with the three Monarchs, they were qualified to leave.

However, Ning Tianlong, An Bailin, and An Heng blocked their way without hesitation.

The moment An Bailin appeared, he said leisurely, "Three Dao Proving Level cultivators. It seems that something special happened in the Raging Sea! Tsk, tsk. But why do you think with these three people, you can break into the Sea Realm?"

Yes, Han Fei, Old Han, and the others were ignored by him. In the eyes of Monarchs, there were only Monarchs. And among Han Fei's team, there were only Beast Kings, Chu Hao, and Jiang Linxian who were Monarchs.

Furthermore, because Chu Hao had just rebuilt his body, his realm looked rather unstable, giving people the feeling that he had just proved Dao.

Xia Hongzhu suddenly burst out with overwhelming killing intent and said coldly, “An, Bai, Ling...”

A trace of disdain appeared on An Bailin’s face. “Xia Hongzhu, I didn’t expect you to still be alive. I underestimated you. Logically speaking, you should be dead at this time after losing the divine blood. Well... I guess that b*stard Xia Xiaochan finally awakened the divine blood, so you drew her blood and then your bloodline revived?”

An Bailin had been hunting Xia Xiaochan in order to annihilate the divine bloodline of the Merman Royal Family, but unfortunately, he failed to stop it from happening.

But An Bailin suddenly chuckled. “Since your divine blood has been revived, you should have waited. When you prove Dao, your team will have four Monarchs.”

The Ten Thousand Scale Monarch said, “The capacity of the Raging Sea is much higher than I imagined. There are three people who have proved Dao. Plus Gu Tingnan, they have four Monarchs, right?”

As he spoke, Ten Thousand Scale Monarch looked into the void. “We’ve been fighting for so many years. Do you think we don’t know whether you’re here or not?”

Buzz!

Gu Tingnan appeared and said, “In the past, I fought alone and couldn’t do anything to you. But today, heh, you three dare to appear? Aren’t you afraid of dying here?”

An Bailin chuckled and said, “Die here? With just three and a half Monarchs? And three Perfected Star Transformation Realm cultivators? Oh, there’s also a guy in the late-stage Star Transformation Realm. You’re called Chun Huangdian, right? I remember you. Who gave you the courage to stand here with your pitiful strength?”

Chun Huangdian said indifferently, “Because I want to see you die with my own eyes.”

“Hahaha!”

An Bailin only felt that Chun Huangdian was telling a joke, so he laughed ferociously and crazily.

He said, “Ning Tianlong, this time, I want 70% of the human race. And the merfolks will belong to our City of Origin too.”

Ning Tianlong, who was now Ten Thousand Scale Monarch, snorted coldly. “You have a big appetite. Do you think I’m here to beg?”

An Bailin said, “Don’t worry. You’ll be willing. I’m just reminding you.”

Gu Tingnan didn’t pay attention to the nonsense of An Bailin and Ning Tianlong. He and Han Fei had already made a plan, but Han Guanshu and Jiang Linxian weren’t included in the plan!

Chapter 2697: Start the War By Killing Monarchs (2)

2697 Start the War By Killing Monarchs (2)

They naturally knew each other from 100,000 years ago. In Han Fei's plan, there were only the Beast King and Chu Hao, and he had informed Gu Tingnan in advance.

However, Gu Tingnan thought to himself, it didn't seem to matter. An Bailin and the others wouldn't care about the four Monarchs of the human race. Perhaps this could force them to take action and see their real strength.

Gu Tingnan said, "Everyone, charge out with me. Don't fight here. This Chaotic Wasteland is more complicated than you think."

The Beast King pretended to roar, "Let's go."

But just as the Beast King tore open the void and was about to cross, suddenly a saber beam swept past, bursting out of the void torn open by the Beast King.

Crack!

"Pfft!"

The Beast King could barely block it with his long stick, but the mid-quality godly weapon-level long stick broke with a bang, and half of his body was torn apart by the remaining knife light.

"Not good."

Chu Hao pretended to attack. He raised his hand and a Void Shield appeared in front of the Beast King. Immediately, a hand stretched out of the void and pressed on the Void Shield.

Boom! Boom!

The Beast King and Chu Hao were shaken back at the same time. Chu Hao's hands were even still trembling.

Han Fei's eyelids twitched. Isn't your acting a bit too much?

Previously, Gu Tingnan had mentioned to Han Fei that based on his many years of understanding of the Chaotic Wasteland, he felt that there should be one or two more Monarchs in the Chaotic Wasteland who were not in that secret place, but they just didn't appear.

Therefore, at this moment, he was actually just fishing.

Sure enough, after a simple try, someone came out. Furthermore, the person who came didn't seem to be weak. After all, although the Beast King and Chu Hao were acting, they couldn't act too poorly. They had to somewhat show their strength.

However, they were repelled by this person with a single blow. With this strength, this person should be at the Carefree Level.

A woman in black gauze walked out of the void. She looked at An Bailin and said indifferently, "It seems that your guess is correct. The last anomaly was a test. These people still have to come out."

An Bailin said, "I didn't want to trouble you, but this time, I don't want this huge human race to be taken from our hand by anyone."

Ning Tianlong didn't look too good at the moment. Three Monarchs, including a Carefree Realm powerhouse, had come from the City of Origin for this day. If they took down these people now, the City of Scavengers would probably only get 30% of the spoils, or even less.

At this time, the Beast King roared, "Old Chu."

Chu Hao suddenly retreated a distance, and Jiang Linxian suddenly pounced. The void behind Chu Hao opened, indicating that his mastery of the Great Dao of Space far exceeded others.

An Heng suddenly roared, "Not good! He's running! The humans must be in his Origin Sea!"

Instantly, An Bailin and An Heng attacked at the same time. However, how could the Beast King and Jiang Linxian let them attack?

However, the woman who appeared just now moved. She sneered and thought to herself, I'm a dignified Carefree realm powerhouse. How can I let a guy who has just proved Dao escape right under my nose?

Gu Tingnan immediately tried to stop her. With a "Chirp", the woman's speed seemed to have instantly escaped everyone's perception.

As for Ning Tianlong, although he also took action, he seemed to be a step slower. Everyone knew that there were mostly the people of the City of Origin here. Ning Tianlong deliberately slowed down. The Chaotic Wasteland was so big. They had to have a place to run, right? At least, if they were intercepted by the City of Origin here, it would be a huge loss to the City of Scavengers.

However, Ning Tianlong didn't think that Chu Hao, a new Dao Prover, could escape from a Carefree realm cultivator.

At this critical moment, just when An Bailing and the others felt that Chu Hao couldn't escape...

Suddenly, Chu Hao, whose body had almost disappeared into the void, turned around. He didn't look at the woman chasing him but at Han Fei. "Take action now."

"Huh?"

The woman, An Bailing, and the others suddenly realized something when they were stunned. Unfortunately, it was too late when they realized that something was wrong.

Chu Hao was a former Great Monarch, and he was not much weaker than this woman at this moment.

He raised his hand and pointed. A spiral appeared in the woman's chest and began to twist. In an instant, the Carefree realm cultivator's body exploded into pieces.

"Not good. We've been tricked."

Realizing that something was wrong, An Heng was about to take Jiang Linxian's blow head-on and retreat.

However, he was too naive. He shouldn't have been hit by Jiang Linxian at all. After being hit by Jiang Linxian's palm, An Heng found that his body tightened, and inexplicable Dao patterns were crawling all over his body.

At that moment, he couldn't feel the laws, the Great Dao, or even his power. He had been completely sealed.

Han Fei's eyelids twitched. This was the first time he had seen his mother attack. Wasn't this too simple and casual? One slap to kill a Dao Proving realm cultivator?

Ning Tianlong's expression changed drastically as he retreated in shock. Who was plotting against the City of Scavengers and the City of Origin? Did Gu Tingnan have the strength?

He directly denied this possibility in his heart. The reason why Gu Tingnan was still in the Chaotic Wasteland was that the other two cities needed the City of Wanderers that he led to serve as a tool for them to train their soldiers. To put it bluntly, the City of Wanderers was just a tool.

God of Fishing

Chapter 2698: Start the War By Killing Monarchs (3)

2698 Start the War By Killing Monarchs (3)

However, these people seemed to know Gu Tingnan. Could it be that someone from that place had returned?

Ning Tianlong realized that something was wrong. This was definitely not the strength the human race should have. In the blink of an eye, two Monarchs were killed. One of them was even a Carefree Realm powerhouse from the City of Origin. With her speed, she couldn't avoid a newcomer who had just proved Dao. This was unbelievable.

Ning Tianlong felt lucky that he was one step slower because he didn't want to attack. Otherwise, he would have been killed too.

However, just when Ning Tianlong felt that he was far away from them and should be able to escape, he suddenly felt that his body was entangled by something. When he looked again, a mass of black hair appeared out of nowhere and had already entangled him. At the end of the black hair, there was a bamboo-like stick stuck in the seabed.

"Pfft!"

At this moment, a spear shadow nailed Ning Tianlong to the bottom of the sea.

"Turtle Shell Sky Sealing Technique."

In the next moment, Han Fei took action and nailed Ning Tianlong through with the God Sealing Spear. Then, the Mystic Martial Monarch Armor appeared. Everyone including Ning Tianlong was sealed.

After all, no one cared about Han Fei who was only in the Perfected Star Transformation Realm, so this raid completely exceeded Ning Tianlong's expectations.

An Bailin, who was fighting the Beast King, was shocked. "Impossible. The Raging Sea can't have such combat power. Who are you?"

An Bailin was burning his essence blood, seeming to have activated a great technique and the God's Arrival Technique.

However, when the God's Arrival Technique was about to be fully activated, a pair of scissors cut down in the void with a click, and the power of the God's Arrival Technique disappeared without a trace.

"Chirp..."

The Heavenly Cicada spread its wings. The moment he found that the God's Arrival Technique didn't work, he tried to buy some time for himself with speed.

Crack ~

However, when the scissors cut again, An Bailin discovered, to his shock, that his speed law had been cut off and couldn't be reconnected in a short period of time.

"An ultra-quality godly weapon?"

Han Fei chuckled. Perhaps the highest level weapons that An Bailin could think of were ultra-quality godly weapons. Although an ultra-quality godly weapon was theoretically no weaker than a Connate Spiritual Treasure, the latter was more functional.

For example, the God Shattering Scissors were a Connate Spiritual Treasure that could sever karma and laws. In terms of function, they were stronger than ordinary ultra-quality godly weapons.

Of course, if it was a specially made ultra-quality godly weapon that focused only on one function, it wouldn't be weaker than a Connate Spiritual Treasure.

Han Fei said unhurriedly, "An Bailin, I'd like to say hello to you on behalf of Xia Xiaochan."

Swish!

Han Fei extended his fingers and slashed out All Great Daos in One Sword. At this moment, An Bailin could only resist with his own combat power. However, he didn't expect that a mere Perfected Star Transformation Realm cultivator would attack him.

Even now, he still felt that even if he took a blow from this Perfected Star Transformation Realm cultivator, so what? Could he kill him?

Hearing Xia Xiaochan's name, An Bailin guessed that since this person was related to Xia Xiaochan, if he caught this guy, could he use him to threaten others to let him go?

Therefore, An Bailin didn't care if the Heavenly Cicada Wings lost effect or not. Instead, he reached out to grab Han Fei, trying to crush Han Fei's All Great Daos in One Sword.

Han Fei looked at An Bailin as if he was looking at an idiot. If he were a real powerhouse, he wouldn't have used his hand to block All Great Daos in One Sword, because strong masters could tell the shape of All Great Daos in One Sword at a glance.

Unfortunately, An Bailin didn't have such a vision for the time being.

This guy had stolen the divine bloodline of the Merman Royal Family to prove Dao. Therefore, even if he had proved Dao, he hadn't gone far on this path. It was only natural that he couldn't discover Han Fei's means.

Therefore, when An Bailing touched Han Fei's sword, his heart skipped a beat. How could this be the power of a Perfected Star Transformation Realm cultivator? The power of his law couldn't play any role under this sword and was directly pierced through.

"Pfft!"

One of An Bailin's arms exploded, but All Great Daos in One Sword failed to break An Bailin's body. Han Fei frowned slightly, thinking that this guy was still wearing treasure armor. How scared of death was this guy?!

Unfortunately, it was just a piece of armor, which was at most worth another attack from Han Fei. However, this attack directly changed from All Great Daos in One Sword to the Formless Infinity Sword. However, even this attack still failed to cut through the treasure armor and could only make An Bailin vomit blood.

"Huh!"

With a thought, Han Fei still used the Void Stealing Technique. In the next moment, the treasure armor appeared in front of him. It was a treasure armor forged with Heavenly Dao Jade Essence and the bones of some creature. It was made of countless nail-sized pieces of armor, and every small piece of armor was engraved with array patterns.

"No wonder. With such dense great arrays, this thing is probably close to an ultra-quality godly weapon."

"How is it possible? My Heaven Suppressing Armor!"

"Pfft!"

The third time Han Fei attacked, An Bailin couldn't hold on anymore and was nailed to the bottom of the sea by the Divine Sealing Spear.

At this point, the four Monarchs had all been beaten.

In fact, Han Fei didn't care about these people. If it was just to deal with An Bailing and the others, there was no need to beat around the bush.

But he had no choice.

At this moment, the four Monarchs of the City of Scavengers and the City of Origin were all defeated and suppressed.

Chapter 2699: Start the War By Killing Monarchs (4)

2699 Start the War By Killing Monarchs (4)

However, according to Gu Tingnan, there should still be one left. Although Gu Tingnan had only guessed based on the evidence, there must be a reason for what could arouse a Monarch's suspicion.

Han Fei said, "Let's not kill them for now. There's no point in killing them now."

Han Fei didn't use the Vast Ocean Navigator to find the person. If he was, with his mother and Chu Hao's strength, they should be able to find him.

Since neither of them responded, it meant that the person was at least not here.

Han Fei looked at Gu Tingnan. "How is it going? Has the plan begun?"

Gu Tingnan nodded. "The moment I came, it had already begun. Now it's only your people who need to take action."

Han Fei's men were naturally the Seven Kill Army. They were scattered and hid in various villages and towns in the City of Scavengers.

Han Fei said, "Wait, things are going very smoothly on our side, but your people can't be so fast. So, wait a moment."

Since they still needed to wait for the right time, Han Fei and the others were not in a hurry to take action.

At this moment, Xia Hongzhu was staring at An Bailin coldly. If she could kill someone with her icy stares, An Bailin would have been frozen to death a thousand or ten thousand times.

Han Fei came to An Bailin with a smile. Before he said anything, An Bailin said, "You have no idea what you're doing. You have to pay the price for killing us."

Bang!

Without a word, Han Fei stepped up and crushed its head. Anyway, it didn't matter if the head of a Monarch was crushed.

Han Fei waved his hand, divine sheen fell, and An Bailin's head grew out again.

This time, Han Fei directly stepped on his head. "To be honest, others can die, but you can't! How can I let you die so easily? In fact, you should be my father-in-law. When I'm in the Raging Sea, the Soul Sealing World controlled by you kept hunting me and Xia Xiaochan. We were almost killed by you several times. Now, the tables have turned. Do you think you can be spared? Well, I forgot that there are people here who want to torture you more than me..."

An Bailin's expression changed slightly. As if afraid that Han Fei and the others couldn't understand him, he emphasized, "No matter what your plan is, it's only a matter of time before your plan is exposed. The Chaotic Wasteland has its own monitoring mechanism. After a certain period of time, even if we don't die or there isn't any weather changes, someone will still notice. I bet you won't be able to torture me for long."

Han Fei chuckled. "You're quite courageous."

After that, Han Fei looked at Xia Hongzhu. "Mother-in-law, why don't you do it?"

Xia Hongzhu didn't refuse. "Okay."

Xia Hongzhu didn't refuse. She knew that even if her bloodline recovered, she wouldn't be able to take down An Bailin so easily.

Therefore, she wouldn't let go of this opportunity.

An Bailin grinned and said with a creepy smile, "You? As a woman who hasn't proved Dao, you can't even break my defense."

Xia Hongzhu said coldly, "There's no need to break your defense. You drew all my divine blood, so I'll do the same to you. After all, the blood flowing in your body is mine."

An Bailin's expression suddenly changed. His current bloodline did belong to her. If Xia Hongzhu did this, his path would be completely severed, and his strength might even drop in realm. This was the last thing he could accept.

With the help of the merfolk bloodline, he had been the head of the An family for 100,000 years. If he became a Sky Opener or fell to the early stage of the Dao Proving Level, he wouldn't accept it.

However, Han Fei and the others wouldn't care about his thoughts.

"Ahhh~"

A moment later, An Bailin let out a heart-wrenching roar.

He was still cursing, "Xia Hongzhu, you %%... You won't be able to walk out of the Chaotic Wasteland. I'll skin you alive, cut your bodies into pieces, and torture your souls..."

Han Fei shook his head slightly. With a thought, he changed a few Dao patterns on the God Sealing Spear, and then An Bailin couldn't make a sound anymore.

Stupid! Sure enough, a guy who became a Monarch through abnormal means was lame. The other three Monarchs were also suppressed, but they were all very quiet. Only this guy was chattering.

At this point, everyone was ready to die, but this guy still tried to threaten Han Fei and the others to stop. It was simply incomprehensible.

Han Fei said casually, "It seems that whether or not a person proves Dao has little to do with his intelligence."

Seven days Later.

When Han Fei felt that it was about time.

He summoned the God Shattering Scissors and cut An Heng into pieces. The power of his soul was also destroyed by Han Fei's Ragnarok.

Rumble!

At that moment, a Great Dao crack cracked above the Chaotic Wasteland.

The Carefree Realm powerhouse from the An family and Ning Tianlong from the City of Scavengers were both shocked. Are these people really going to kill them? They had to know that once they killed a Monarch, things would go out of control!

Also at this moment, in the towns under the jurisdiction of the City of Scavengers, many people suddenly looked up.

Someone was surprised. "Why is there a Great Dao crack here? And the fluctuation is so strong?"

Someone was puzzled. "Who knows? Did some strong masters start a fight?"

Someone, on the other hand, rose silently and put on a smile. "This is earlier than we expected! It's only been a few months, and Master Human Emperor has already taken action?"

Buzz buzz buzz!

Almost at the same time, in tens of thousands of villages, some Sea Establishers suddenly soared into the sky.

"My fellow human beings, it's time to get rid of the enslavement of the Ten Thousand Scale Race... I'm a member of the Seven Kill Army under the Human Emperor. Now, please put down everything in your hands and listen to me..."

Chapter 2700: I Am Zhao Honghuang (1)

2700 I Am Zhao Honghuang (1)

Under the rule of the City of Scavengers, the 77th-ranked Black Ice City had a total of 132 villages, in a village called the Black Earth Village.

Rumble!

The Great Dao crack in the sky attracted countless people to walk out of their houses or put down what they were doing and look up.

Someone exclaimed, "Is this a Great Dao crack? Who died to leave such a huge and spectacular Great Dao crack in the Chaotic Wasteland?"

Someone was surprised. "I can be sure that this is definitely not a sign of the death of a Sea Establisher."

For a moment, countless people were speechless. "Isn't that obvious? It's not like we haven't seen Sea Establishment Realm powerhouses die. It's impossible for them to leave a Great Dao crack in the Chaotic Wasteland. There isn't even any weather change."

A Venerable said, "You might not believe it, but I think even a Sky Opener might not be able to leave such a spectacular Great Dao crack. This astronomical phenomenon covers a huge area, and perception can't reach its source at all."

Someone sneered. "How far is your perception range?"

The village leader observed the crack and couldn't help but sigh. "Can the death of a Sky Opener cause such an astronomical phenomenon?"

"..."

Just as everyone was discussing the changes in the weather, Zhou Chuan walked out of his hut and strode along the main road of the village to the courtyard of the village leader's house.

After only a few steps, someone said, "Huh, Brother Zhou, why are you so happy? Why are you smiling so happily? Are you smiling because of the Great Dao crack? Is it so funny?"

Someone joked, "What do you know? Brother Zhou has probably made a breakthrough, right?"

Someone was puzzled. "Brother Zhou, you seem to be in a hurry. Where are you going?"

Zhou Chuan laughed out loud. Then, his body grew taller. His originally rough face was changing into the appearance of a young man.

More importantly, his momentum was soaring. Originally, he was only pretending to be a junior Venerable, but at this moment, with every few steps, Zhou Chuan's momentum was soaring. In just a few seconds, his strength had reached the peak of the Venerable realm.

Bang!

In the next moment, the king-realm pressure soared to the sky. At that moment, the strong masters in the Black Earth Village cast their gazes over. After all, the Black Earth Village was very small, with a total population of less than 300,000. And the space where 300,000 people lived was extremely limited. In this era of universal cultivation, one only needed to take a look to know who was where.

Zhou Chuan's laughter resounded throughout the village. His cheerful and excited voice sounded very strange to many people.

Because Zhou Chuan was an outsider. He said he wanted to devote himself to the village, and the village leader took him in because he was a pure-blood human. During the months he spent in the Black Earth Village, everyone treated him very well. After all, they were all grassroots humans. It wasn't easy for everyone. Zhou Chuan must have encountered some difficulties, so he chose to devote himself to the Black Earth Village.

But now, all the strong masters in the Black Earth Village rose into the air. The village leader even shouted at Zhou Chuan from a distance, "Who are you exactly? Why are you hiding in our Black Earth Village?"

The people who teased Zhou Chuan just now also backed off. There were still Venerables who wanted to stop Zhou Chuan, but when they found that Zhou Chuan was a Sea Establisher, they hurriedly dodged.

However, when everyone looked at Zhou Chuan, he removed the Heaven Deceiving Technique, put on an excited smile, and returned to his original appearance.

At this moment, the village leader suddenly exclaimed, "Zhou Chuan, you are Zhou Chuan. Didn't you go to the Black Ice City 2,000 years ago? I heard that you were recommended by the higher-ups to go to the City of Scavengers... You, you, why are you back?"

"What? Zhou Chuan?"

Someone recognized Zhou Chuan and asked in surprise, "Are you really Zhou Chuan, Uncle Chuan? Are you Uncle Chuan?"

Someone in the law enforcement team said in shock, "Old Zhou, is that you?"

"Hahaha!"

Zhou Chuan laughed out loud again and shouted, "It's me. I'm Zhou Chuan. Leader, long time no see."

The village leader shouted in a low voice, "Zhou Chuan, what's the meaning of this? Why do you hide your identity and return to the Black Earth Village? How can you prove that you are Zhou Chuan?"

A Law Enforcer also shouted, "Everyone, back off and prepare to fight the enemy. Old Zhou, if we don't make things clear today, we can't let you go."

However, Zhou Chuan's momentum was still soaring. He stepped into the air and reached the mid-stage of the Sea Establishment Realm.

Another step, the late Sea Establishment realm.

He took another step and reached the peak level of the Sea Establishment Realm.

"Hiss~ peak level of the Sea Establishment Realm."

The village leader roared, "Everyone, step back! He is a peak-level Sea Establisher!"

At this moment, the only five Sea Establishment Realm powerhouses in the Black Earth Village all stood up and blocked Zhou Chuan's path.

In a small village like theirs, it was very rare to see a peak-level Sea Establisher. In ordinary villages, no one had the ability to fill up the Origin Sea. It was said that only by going to the City of Scavengers and obtaining an opportunity could one's Origin Sea be filled up.

Therefore, in the eyes of the Sea Establishment Realm powerhouses of the Black Earth Village, a peak-level Sea Establisher was already a top powerhouse. Even in the Black Ice City, there were usually not many, or even fewer than five.

Zhou Chuan stood still and bowed to the village leader, which stunned him.
